Alvis Yeats Cited In Marine Letter

Pharmacist's Mate 1-c, Alvis Yeats of Memphis was a member of Company "C", Third Medical Battalion, attached to Third Marine Division, Reinforced, which recently was commended by Major General Roy S. Geiger, U. S. M. C., Commanding General of the First Marine Amphibious Corps, for meritorious service in the Bougainville campaign.

Major General Geiger's letter read:

"During military operations commencing Nov. 1, 1943, which resulted in the capture by the Third Marine Division, Reinforced, of a beachhead on Bougainville Island, British Solomon Islands, Company "C", Third Medical Battalion, made conspicuous and valuable contributions to the success of our arms. At the battles of Cape Torokina, Lagoon, the Coconut Grove, Piva, Piva Forks, and Fry's Nose, as well as during enemy bombing attacks and combat operations of a minor nature, the personnel of the company brought aid to the wounded under the most adverse conditions of weather and jungle terrain; cheerfully enduring the enemy fire throughout each of these actions, and frequently risking their own lives in order to evacuate and administer medical assistance to the injured during the heat of combat. The officers and men of the company acquitted themselves gallantly, winning the admiration of the combat troops and saving the lives of hundreds of the wounded.

Cpl. J. C. Lockhart Gets Furlough Home

Corporal J. C. Lockhart of Memphis recently was released from his outfit in the Third "Marne" Division and granted a furlough in the United States under the army rotation plan. He has been serving in the Fifth Army front in Italy.

Lockhart entered service Dec. 8, 1941 at Fort McArthur, Calif. He took infantry basic training at Camp Roberts, Calif., and was assigned to the 3rd Infantry Division at Fort Lewis, Wash. He was with the 3rd Division when it made the initial North African invasion Nov. 8, 1942, at Fezala, French Morocco.

Later he became one of "Truscott's Trotters," when the "Marne" division made its spectacular speed march across Sicily under Major General Lucien K. Truscott, then division com-

mander, and took Palermo in record time. Lockhart saw a great deal of rugged mountain fighting when the division hit Italy. High spots were crossing of the Volturno River and fighting at Mignano and on Mount Lungo. The Texan participated in the invasion landing at Anzio and was with this regiment when the offensive started that broke the beachhead stalemate.

JOIN GULF'S "Anti-Breakdown" Club TODAY!

BEFORE THIS WAR IS OVER, there may be only two kinds of people in America . . .

1. those who can still get to work in automobiles.
2. those who are forced to walk.

If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job.

HERE'S GULF'S PROTECTIVE MAINTENANCE PLAN

Protects those bearings and pistons!

IT'S IMPORTANT to give your car a good motor oil and change regularly. Gulf offers two outstanding oils. Gulf-Pride, "The World's Finest Motor Oil," and Gulf-Lube, an extra-quality oil costing a few cents less.

Reduces wear at 39 danger points!

GULF'S Protective Maintenance Plan includes Gulf Registered Lubrication which reaches up to 39 vital points with six different Gulf Lubricants that reduce wear, and lengthen your car's life.

Helps stretch those "A" coupons!

AIR FILTER and sparking cleaning, and radiator flushing help give better gas mileage. A clean air filter makes gas burn more economically; clean plugs increase power; a clean radiator prevents overheating.

Get an appointment at your Gulf station!

HELP YOUR Gulf Dealer do a thorough job—and save your time—make an appointment in advance. Phone or speak to him at the station. Then you should encounter no delay when you get Gulf's Protective Maintenance Plan... 15 services in all!

We went up the Jericho Road, crossed the River Jordan and saw places about where Jesus was baptized, and where the waters parted for the Israelites to cross on dry land. In Jerusalem saw the Wailing Wall where believers still believe in its power to heal, and they kiss the Hebrew language.

The Palestinians say Sa-laam, as we say hello and goodbye. We visited the Garden of Gethsemane. Olive trees are terribly old and from their appearance they must be the same trees as when Christ went to the garden to be alone. You know, the olive tree is unlike other trees—new shoots spring out of the old trunks and the tree itself lives on forever.

We went to the Dead Sea, the lowest place below sea level in the world. Most everyone went for a swim, and how the salt burns one's eyes! In the afternoon we saw Bethlehem and drank cold water from Jacob's Well. Saw Bethel where Jacob dreamed of the ladder. Our third ray out we spent going up to Nazareth and by the Sea of Gallilee, and went boat-riding there. It was our first encounter of fresh water since our arrival.

On our last day we visited a community farm or consolidated district, mostly Russians and Jews. Many families join and live in barracks, and their children are cared for by instructors, and housed according to ages. Both parents work at their special-trained vocations, but each feels free at all times to see the children on time off from duty, or by special request. Seems as though they have every confidence in the caretakers, and the children are not babied, neither are they treated indifferently, but grow up able to meet and live in normal conditions. The day we arrived was the end of their harvest, and at such times they have a festival—children dressed alike are crowded into trucks and they go round up others at four or five other communities, and later come back beating drums, blowing fifes, etc. Their threshers, tractors, balers, and American-made binders were decorated with colored strips of

LITTLE OCTANE NUMBERS

that will help end the war sooner!

TODAY'S SUPER-FUEL is 100-Octane, as compared with 90-Octane pre-war.

This difference of 10 octane numbers is definitely contributing toward hastening the day of victory, because these extra octane numbers represent extra fighting power... extra range and carrying capacity for our big bombers... extra speed for our fighter planes!

In thirty months, U. S. production of 100-Octane Aviation Gasoline has been multiplied ten times. Our facilities for producing this precious, fighting, super-fuel can now deliver 21,000,000 gallons daily. Think of it! This is a greater quantity of aviation gasoline alone than the combined total of all petroleum products available to Axis Europe.

Phillips Petroleum Company, among the first

to take 100-Octane gasoline out of the laboratory and into mass production, is now one of the nation's five largest producers of 100-Octane, despite the fact that Phillips operates only in the Middle West.

This production achievement suggests how competently and completely Phillips is devoting itself to the war effort, with similar special emphasis on butadiene for synthetic rubber.

Until that great day comes, when you can say "Fill 'er up with Phillips"... and the serf-man cranks into your tank a new and improved Phillips gasoline... remember that Phillips refineries, in addition to producing gasoline, lubricants, and fuel oils, are also gigantic chemical plants pouring out weapons for victory.

He is the grandson of Mrs. D. M. Beaver of Memphis and was making his home with her at the time he entered the service.

Lawrence E. Jones is Awarded Combat Badge

Pfc. Lawrence E. Jones, route 3, Memphis, has been cited by his regiment of the 88th Infantry division and awarded the Combat Infantryman Badge for actual participation in combat with the enemy on the Fifth Army front in Italy.

Standards for the badge are high. The decoration, which was recently authorized by the War Department, is awarded to the infantry soldier who has proved his fighting ability in combat.

Pfc. Chas. B. Coleman of the Second Marines, who was wounded on Saipan and who is now on a hospital ship, writes his uncle and aunt, Mr. and Mrs. Sam Brown, as follows:

After so long a time here I am. As you know, I was at Saipan in the first wave. That means I was with the first Marines to fight the Japs on their own grounds. It was sure a good fight. It lasted 18 days. I'm not hit so bad so don't start worrying about me. Uncle Sam, I've sure got a lot of tale to tell. I saw more in those 18 days than I've seen in any 18 years. I've got a birthday coming up on the 30th and sure would like to be home and get some good old chocolate pie. I'm in a naval hospital. The folks here sure treat us nice. Give us the best of care and let the doctors here were really big shots

Whew! It's the High Cost of Living that gets me!

Yes, but you can't blame your Gas Bill. IT'S DOWN!

With many of our necessary living expenses up, it is hard to believe that the cost of one of the most useful household conveniences has actually GONE DOWN. But this is true... your United Gas Service has decreased in cost, while many other things you buy have gone up.

Remember, dependable United Gas Service, your source of natural gas for efficient cooking, water heating, and refrigeration, has NOT contributed to the increased cost of living.

Hints Given for Victory Gardeners

Mulching is a labor short cut for those who have only a limited time to work their Victory gardens, says W. B. Hooser, county agent.

A mulch of straw, leaves, or similar material will help keep down weeds; help hold moisture in the soil, and help keep clean such vegetables as tomatoes, cucumbers, bush squash and so on. Weeds and grass fight the vegetables for moisture and plant food and must be controlled to obtain the largest yields.

The best results from mulching are had by spreading material between the rows and around the plants early. But this should be done before the soil dries out, especially in the dry sections of the state.

Debts are the only things which expand when contracted.

Tomatoes Need Special Attention At This Time

One of the commonest troubles with tomatoes now and later in the summer is shedding of blossoms. It is caused by blossom sterility or lack of proper pollination, says W. B. Hooser, county agent.

Considering ways to correct this condition, he suggests that inching off all suckers up to the first cluster of flowers will provide more moisture and plant food for blossoms. This too, will cause them to stick better as well as increase the size of the fruit and hasten ripening 10 days or two weeks.

Spraying or sprinkling tomato plants with water in the late afternoon each day or two to lower the temperature and raise the humidity seems to have some value in halting shedding. Providing lattice shade, or covering the plants with paper or similar material in the hottest part of the day also has helped in some instances.

Mr. and Mrs. Ivan Graham and daughters, Lodon, Cecile and Frances, of Amarillo, visited here Friday night. Mr. and Mrs. Graham and Lodon left Saturday for Corpus Christi, and Cecile and Frances remained for a visit here with their grandparents, Mr. and Mrs. W. H. Moreman.

Former Local Resident Dies In Car Wreck

Doyle C. Morrow, former Memphis resident, was killed in a car wreck near Sudan last week, according to word received here. He was Gulf Oil and John Deere implement dealer in Sudan. When in Memphis he was agent for the Marland Oil company. Mr. Morrow was approximately 40 years of age and had spent a year in the army, having been discharged as over-age in April 1943. Funeral services were held at Sudan and burial was in San Angelo.

Barcel Your Figure; Restore Youthful Curves

If you are overweight, perhaps due to over-indulgence in food and not due to any glandular disturbance, why not try this inexpensive home recipe to help bring back alluring curves and graceful slenderness.

Here is a recipe that can be used inexpensively at home. Just get from your druggist 4 ozs. of liquid BARCEL CONCENTRATE. Add enough grapefruit juice to make a pint. Then just take 2 tablespoonsful twice a day. Wonderful results may be obtained quickly.

Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take, and pleasant. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.
