### Sgt. Paul Frisbie Wounded by Japs

Sgt. Paul Frisbie of the Second Marines, who has participated in every major invasion made against the Japanese, has been wounded in action, his parents, Mr. and Mrs. B. D. Frisbie, were notified Monday.

Extent of his injuries was not disclosed. He was wounded on August 5, the message declared. Sgt. Frisbie, who went in with the landing forces on Tarawa and Saipan before moving on to Tinian, had been officially credited with killing 11 Japs, he wrote his folks recently. It was presumed he was on Tinian when wounded.

Before going into the land forces Frisbie was in the naval engagements of Santa Cruz, Coral Sea and the Marshalls. He was aboard the West Virginia when it was bombed at Pearl Harbor.

### Jailed on Brew Charge

Ammons, negro, was arrested Wednesday and charged with drinking beer. The charge was by Sheriff W. C. Anderson. The negro had been making and selling it at his home.

### This Cyclone Hangs 12-0 Defeat On Yannis in Opening Game

Yannis, coached by the hard running Captain Frank Co-captain Clifford, the Memphis Cyclone defeated the Amarillo Mustangs 12-0 here Friday night in the opening game of the season.

Most of the game was Amarillo territory, the Mustangs put up a good game but were out-kicked to the final score.

### County Judges Would Abolish Property Tax

Abolition of the state property tax was recommended by county judges and commissioners of West Texas in convention at San Angelo on Monday and Tuesday.

Judge M. O. Goodpasture of Memphis was chairman of the resolutions committee which made the recommendation to the convention.

"Forty five counties are now having their state taxes remitted by the legislature", said Judge Goodpasture, "and it is the general feeling of the county courts that this is unfair to the other counties. Most of the counties where the tax is being remitted are on the coast or where there has been damage from river overflows and storms."

"There have been many instances where counties in West Texas were in dire circumstances by reason of prolonged droughts but tax remissions were denied them."

Judge Goodpasture said the general sentiment of the Judges' Association is that it is only a matter of time until ad valorem taxes will be abolished and some new form of tax adopted.

The convention also passed a resolution urging the federal government to turn over or make available to counties road machinery now in use by the army, instead of allowing it to be reduced to scrap and sold as junk.

In resolutions the convention pointed out that at the end of World War I great quantities of such machinery and equipment were dismantled and sold as junk at a time when counties and municipalities were in need of road-building machinery.

It was further pointed out that the allocation of this equipment to counties, states and cities by the government would effect a great saving and there will be an enormous demand for the equipment when the war closes by reason of the fact that very little machinery has been purchased since he war started.

The Judges' Association condemned as wasteful the practice of selling usable equipment as junk.

Commissioners Roy Patton, H. W. Spear and F. B. Berry attended the meeting with Judge Goodpasture.

### MOTHER OF W. W. BYARS INJURED IN FALL SURVIVAL

Mrs. G. M. Byars of Cleburne, mother of W. W. Byars, fell Sunday at her home and broke her hip. She is reported to be doing nicely in Knox Hospital, Cleburne.

2nd Lt. Arthur W. Rasco, 23, son of Mr. and Mrs. Lauron G. Rasco, has been awarded the Air Medal for "meritorious achievement in aerial flight while participating in sustained operations against the enemy," his command in Italy has announced.

Lt. Rasco, 15th Air Force Liberator pilot, veteran of many missions against German installations, has flown over such prized and heavily defended targets as Vienna, Munich and the Ploest oil fields.

### Bell is Given Five-Year Term

A jury in district court Tuesday found Jesse Bell guilty of robbery and assessed his punishment at five years in the penitentiary.

He had been indicted by the grand jury last week. Bell did not ask for counsel, telling Judge Moss that he preferred to plead his own case.

It was alleged that he took a sum of money from the pockets of a man he had recently beaten up in a fist fight.

### SK 2-C L. E. Phillips Is Home on Leave

S K2-C Lester E. Phillips is home on a 30-day leave after spending 23 months in the Central and Southern Pacific. He is visiting his mother, Mrs. Katie Phillips of Estelline, his brother, Lloyd Phillips and other relatives. His wife accompanied him home from Amarillo. When he leaves here he will go to a construction center, leaving the ship he has been on for so long.

## Suggested Ceiling of \$1.50 Given Big Majority Vote By Hall County Farmers

### Annual 4-H Pig Show in County Next Thursday

The annual pig show of the 4-H Club boys in Hall County will be held next Thursday, Sept. 28.

Under rules of the show only eight gilts and one boar may be exhibited, but the event is attracting much interest among the club boys as the winning pig will be taken to Amarillo to be entered in competition with prize selections from 20 counties.

Hall County last year won the grand champion at the Amarillo show with a gilt exhibited by Harold Ramps of Lesley.

Young Ramps' gilt was given publicity in livestock journals and other publications during the past year. From the gilt he has raised 11 pigs. Two of them were sent to San Antonio and Burleson counties and he has sold three gilts for \$25 each.

The Amarillo show will be on Friday, or the next day after the Memphis show, and judging will be done by officials of A. & M. Extension Service.

### 4-Year Term is Assessed Negro

John Limisy, negro, was found guilty by a jury in district court Tuesday of having performed an illegal operation upon a negro girl. He was assessed a four-year prison term.

Notice of appeal was given after sentence had been pronounced by Judge A. S. Moss.

### Negro Murder Case Continued

Due to the absence of a state witness the murder case of Sunny Mason, scheduled for trial this week in district court, was continued until the February term.

Mason, a negro, had been tried about a year ago and given a two-year term but the sentence was reversed by the supreme court and a new trial ordered.

Cotton producers in Hall County have voted almost 100 per cent in favor of a proposed ceiling price of \$1.50 per hundred pounds for cotton picking and pulling, following a series of meetings over the county last week.

Committees later circulated petitions to secure the sentiment of producers who were not present at the meetings, and the results of the county poll have been taken to Paducah today where the War Food Administration wage board is holding a district hearing to decide whether the ceiling is to be ordered into effect.

Representatives from 25 counties in this area are attending the Paducah meeting, and similar district meetings are being held in Lubbock and Abilene by representatives of the WFA to tabulate the results of polls taken in some 75 West Texas cotton producing counties.

If the combined polls show that more than 51 per cent of the producers favor a ceiling the wage board of the WFA is authorized to order it into effect immediately.

The polls in all counties of the area as a whole were required under the law in order to determine if 51 per cent of the farmers are in favor of a fixed maximum price to be paid for pulling and picking cotton.

Results of the area-wide poll and an announcement relative to the proposed ceiling are expected to be made public at the conclusion of the Paducah meeting or possibly by Friday or Saturday.

In some counties, it is reported, sentiment has not favored a ceiling, but there was an overwhelming vote in favor of it in Hall County, W. B. Hooser, county agent, reported early Thursday morning before leaving for Paducah. He was accompanied to the WFA meeting by a group of local cotton producers.

The notice issued by the WFA calling the Paducah meeting stated that any person, whether for or against the ceiling, might appear and offer testimony.

Cotton producers meetings were held last week at Lakview, Lesley, Estelline, Turkey and Memphis. Large crowds of farmers attended all meetings, but in order to ascertain the sentiment of farmers not present volunteer committees took petitions at the close of the meetings and contacted the other farmers. The petitions were turned in to County Agent Hooser, who was authorized by the WFA to gather the results of the poll and officially report them to the Paducah hearing.

Among those who are attending the hearings are Arthur Edleman, Paul Montgomery, Alga Turner, John Fuston, John Russell, Del Wells, D. A. Neely, S. T. Hutchins, Parce Winn, W. F. Holland, C. M. Hawkins, Arthur Gidden and Kirby Hagins. It is estimated that 60 farmers from Hall County are at the hearing.

"We cordially invite our white friends to attend," said Rev. N. Eckford, pastor, "and special seats will be reserved for them. There will be a special talk by the Mayor of the city."

### Services Sunday In New Building Of Colored Church

First services in the new building of the Church of God in Christ (colored) will be held Sunday afternoon, Sept. 24, at 2:30 o'clock.

"We cordially invite our white friends to attend," said Rev. N. Eckford, pastor, "and special seats will be reserved for them. There will be a special talk by the Mayor of the city."

### Lakeview Eagles Beat Wheeler Mustangs, 19-12

Lakeview Eagles pasted a 19-12 defeat on the Wheeler Mustangs in a fast played game at Lakeview Friday night, in the opening conference game for both teams.

First touchdown for Lakeview came in the opening period when Moreman made a 30 yard end run for pay dirt. Extra point no good.

Again in the third quarter, Sams, Eagle quarter back, caught a pass in the end zone for Lakeview's second counter. Eagles failed to convert extra point. Lawrence, reserve quarter for the Eagles, recovered a fumble for the third touchdown for Lakeview. Extra point converted, making the Eagles' score 19.

Pendleton, racing halfback for the Mustangs, made thrilling runs of 80 and 100 yards for Wheeler's only two touchdowns. Leaving the score: Lakeview 19, Wheeler 12.

Lakeview goes to Clarendon this Friday night for a battle with the Bronchos, another conference contest.

Pfc. Johns was in Italy only 5 days when he was killed. Some Italians, later proven to belong to a political organization not on very good terms with our authorities, started a quarrel with Allied soldiers, and in the melee that followed, Johns, an innocent bystander, was stabbed in the heart by one of the Italians and died instantly. The Italian doing the stabbing was given the maximum penalty.

Pfc. Johns, whose parents live at Holliday, had been in service since April, 1943. He was married to Miss Mary Ann Nelson in August, 1942, who with her one-year-old son survive.

## United War Chest Drive In County Opens Oct. 11

Machinery was being set up this week by Chairman Carl Harrison for Hall County's participation in the annual drive to raise funds for the United War Chest of Texas—the organization which supports the armed forces at home and abroad and helps provide relief among suffering peoples in Allied nations.

Hall County's campaign in behalf of its quota of \$5,374—the same as last year—will be started on Oct. 11. President Roosevelt will give the signal for the national drive in a speech on Oct. 9 and on the following day Gov. Coke Stevenson will issue an appeal for Texans to give this state's quota of \$5,000,000.

Committees for all communities in the county will be announced next week, Chairman Harrison said. He announced that George Thompson will be secretary-treasurer of the local campaign with Ewel Noel as chairman of the special gifts committee.

Commenting on the need for general support to the fund and citing many reasons why the United War Chest should have the same support this year as last, Mr. Harrison said:

"This war will not be over until every American abroad has been brought home. Until that time comes, none of us on the home front can afford to reduce our support of the war program."

"Above all, we should remember that 'cease firing' does not mean cease giving. Even if Germany surrenders, we still have the Japs to beat, and we must continue full support of our fighting men and our Allies. This means that this year, more than ever before, we must support the war-related agencies of the National War Fund."

He called attention to the recent announcement by army officials that many troops will be moved from Europe to the Pacific after Germany quits the war. "Germany's surrender will not mean the end of the war," he declared. "Millions of American soldiers, sailors and marines still will have to fight on against the Japanese. The secretary of war has predicted 'a long, hard war' in the Pacific, and other high military officials have made it plain that they expect the Japanese war to last at least through 1945, and perhaps longer. With this

long, bitter struggle ahead of us, we must do everything in our power to back up our men on the firing line!"

He pointed out that even the end of the war with Germany would not automatically free all Americans being held in European prisoner-of-war camps. "Our men in enemy camps may not be freed for months after the peace is signed. Experience in the last war showed us that exchange of prisoners often extend over a long period, and during that time we certainly must continue the full services of Prisoner of War Aid, the National War Fund agency which sends books, athletic equipment, study courses and many other supplies to our men behind the enemy barbed wire."

"We know too that our troops in Europe cannot be returned for many months after the surrender of Germany. With actual fighting at an end, they will need more than ever before the morale-sustaining services of such agencies as USO, which provides rest centers and sends USO Camp Shows into every war theatre. These services also must go without interruption to our troops in the Pacific."

# MOOS OF THE MOMENT

BY UNCLE BOB  
of the Kraft Dairy Farm Service

War Food Administration officials figure that the maximum number of milk cows for which there will be feed and other facilities should be reached by the end of this year. At the same time, a lot of heifers calved in 1942 and 1943 will be coming into production.

This situation may make it possible for the dairy farmer to change the make-up of his herd so that he can keep the same number of cows and produce more milk than his present herd is giving, or cut down the number of cows and still keep milk volume to this year's level.

The extension services and experimental stations have proved conclusively that high producing cows use feed and labor to better advantage than do low producers. If you can get rid of a low producer and replace it with a well-bred heifer, you may cut your cost of production and at the same time supply more milk for the war food program.

One of the studies on this subject which I ran across recently was from the University of Idaho. The figures showed that, at the time of the test, a cow producing 150 lbs. of fat had a feed cost of 30.6c per pound. The cost of getting a pound of fat from a cow giving 450 pounds of fat was 16.6c.

Putting it another way, the Idaho figures showed that the low producer brought in \$1.59 for every dollar's worth of feed consumed, while the high producer returned \$2.80 for every feed dollar.

Point Five of the 8-Point Dairy Program is "keep as many cows as feed and labor permit". It is vitally important that milk production be held at the best possible level in future months. But it is equally important that feed be used most efficiently.

Feed and labor are the limiting factors in dairy production, the University of California says, and such feed and labor must be used to best advantage. I suggest a talk with your county agent, for advice on your herd, whether you can and should cull on a basis of replacing a low producer with a well-bred heifer.

Two cows looked over a drought stricken pasture. "This is a time to put a blade on your appetite," said one. "No, this is a time to put a bit in your mouth," said the other.

Once before, in this column, I mentioned the fact that cows, the same as people, work best in pleasant surroundings. You do a better job when you've had a good rest in a good bed. Cows, too, need proper bedding.

Bedding for cows serves several purposes—keeping the cow clean and thus helping in the sanitation program and making it easier to

clean out the barn. Farmers No. 1470 from the U.S. Department of Agriculture, Arlington, D. C., gives some ideas on proper bedding.

It suggests wheat or corn stover as good material, with shredded corn stover first in increasing capacity and granular fertilizer value. Straw, probably the easiest to your area. Soy beans being used in a lot of places.

The USDA says about 100 lbs. of wheat straw per day is a good bed and keeps the cow comfortable but eight pounds does a lot of absorbing liquid.

**Gadgets? I love 'em.**

A periscope on cars, instead of the little old mirror?... Doors that slide?... Or a sunshine top? Bring 'em on! Till then, however, my one main idea is to keep this car rolling. I need to. You can start naming motor oils or anything else that you think's helpful. First though, I want to warn you not to let engine acids do their worst damage, when you can easily outsmart them by getting your engine's insides OIL-PLATED. Listen, right on a can of Conoco N<sup>th</sup> motor oil you'll read about N<sup>th</sup> oil's modern synthetic. It works something like magnetism. That's how it makes metal surfaces keep hold of OIL-PLATING. Then what if the engine explosions produce deadly corrosive acids, as every expert and his brother will tell you? Those acids still wouldn't gnaw direct at fine steel that's shielded by OIL-PLATING—a real acid-fighter! It fights for your car. While waiting for new ones—who knows how long?—don't delay switching to Conoco N<sup>th</sup> oil.

## From County Men in the Armed Forces

Pfc. Eldon Padgett wrote the following letter to his grandmother, Mrs. W. M. Padgett, somewhere in the Pacific.

August 29, 1944.  
Dear Grandmother, and All:  
I received a letter from you a few days ago and have just gotten around to answering it. I'm feeling fine and sure hope you are feeling the same.  
I've been pretty busy lately driving a gravel truck steadily. The work is pretty hard. The roads are rough and dusty, and I get pretty tired before the day

is over. But I don't mind it because I guess that's the way I was trained. I always had to work hard and I appreciate having to do it because my early training in hard work has sure helped me while I've been in the army.

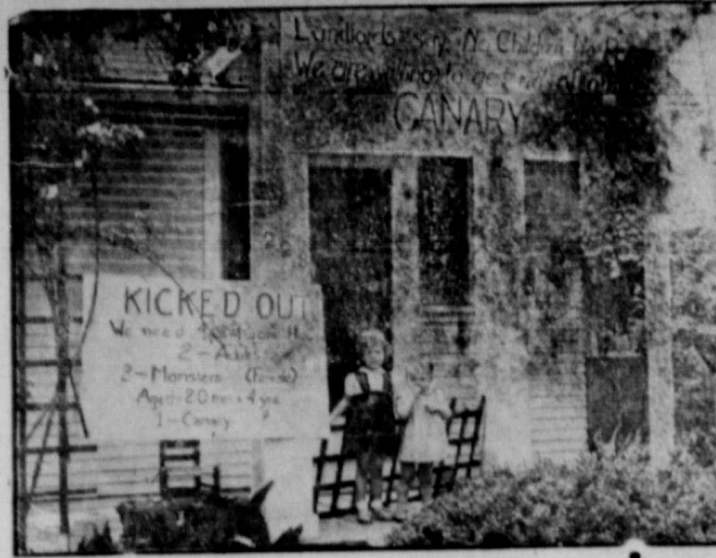

It rained here last night for the first time in quite a while. The air is much fresher and there is no dust in the air. We are not hauling gravel this morning because of the rain. That is why I have found time to answer your letter.

I've been going regularly to church services, Grandmother. I sure enjoy our Bible class Wednesday evening. We are studying the 19th chapter of Matthew. We are going to go through the New Testament if we have time. Our Sunday morning services are truly inspiring to a young Christian who is trying to go straight. I receive a lot of help from these services. I am beginning to understand a little about what you know a lot of—I mean, being a Christian and enjoying life to the fullest. It seems almost impossible but since I've started to go straight, I feel a lot more satis-

I heard from Merle a few days ago and he was gaining weight. He seems to be happy and full of life. Write him when you get the time. I know he will appreciate hearing from you even if he is slow about answering letters.

You said something about a letter of mine in The Democrat that you had put in. I read it in one of my papers. Many thanks for putting it in the paper as all my friends read it and know that I am well.

It looks as if I'm out of something to write, so will close. God bless you all in your daily life. I remain as ever, your loving soldier boy.

## Chapman Lubbock Girl Wed Sunday

Marriage of Miss Marjorie Chapman, daughter of Mrs. Asa Walbridge Chapman, son of Chapman of Lubbock, to Ensign Harry C. Young of Amarillo, was in a formal double ceremony at the First Christian Church at 4 o'clock Sunday afternoon, September 17.

Robinson of the First Church was the officiant.

At the altar aisle white satin ribbons singly were lighted in double candelabra. Sprays of gladioli in passepere set against an altar of woodwardia Washington and Oregon lighted with tapers candelabra.

The ceremony, arranged by Miss Chapman, was accompanied by Peggy Johnson and Charles Fite and Charles Fite and Charles Fite.

Wedding march was "Clair de Lune" played during the ceremony.

Mr. N. Lawson of Lubbock, son of Mrs. N. Lawson, was best man. He was assisted by Miss Pat Colburn, Miss Dorothy Allen Ray and Mrs. Allen Ray.

Mr. Young will make his home in Amarillo where he is employed by the Fort Worth & Denver railroad.

Smith; "Something old" was a linen heirloom handkerchief, a gift from her maternal grandmother, Mrs. G. W. Starnes, and she wore a six pence in her shoe, a gift sent from overseas by her brother, Sgt. Carey G. May.

A reception was given at the Chimayo room of the Hilton Hotel from 5 to 6 o'clock. The couple was assisted by their mothers and the feminine attendants in receiving.

The candle-lighted bride's table was centered with a three-tiered wedding cake, placed on a reflector and flanked by gladioli. Flowers and fern decked the mantel.

The couple will leave Sept. 27 for Miami, Fla., where Ensign Chapman will report at the Naval training station. For her wedding trip, the bride has chosen a brown two-piece gaberdine suit with white blouse, brown accessories and a white orchid corsage.

Mrs. Chapman is a graduate of Lubbock high school and attended Stephens College, Columbia, Mo., for two years. She worked one year at the Lubbock county War Price and Rationing Board.

Ensign Chapman attended the Memphis high school and is a graduate of Lubbock high school. He attended Texas Tech, Lubbock for two years. He was on the staff of KFYO, Lubbock, for three and one-half years before he enlisted in the service, receiving his commission in the Navy at Northwestern University, Chicago, Thursday, September 14.

## THE UNSELFISH WORK OF MEN AND WOMEN AT HOME IN SUPPORT OF OUR FIGHTING MEN

Not all the Texans who are helping to win the war are in uniform.

While fighting men this week were drawing the noose tighter around the Nazi throat, and others were blasting their way steadily ahead in the Pacific, hundreds of men and women on the Texas home-front were backing them up with activities designed to guarantee to "our men and our allies" all the services that they have a right to expect from a grateful nation.

It is a story of busy business and professional men—patriotic farmers and ranchers—war-conscious men and women in every walk of life, who are taking time off from their own tasks to devote a period of weeks out of the year to support of our fighting men.

The United War Chest of Texas is typical of the organizations through which our fighting forces are given all the services possible from the home-front.

On October 10 the annual campaign will be launched in Texas to raise five million dollars for this fund, our quota of the 115 million dollar national goal, a fund which provides many services to our armed forces and which will help relieve suffering among war victims throughout the world.

The work of the men and women in this campaign is unselfish and done without pay.

It is an integral part of the nation's war program—a part that will send to our men the services of USO and USO-Camp Shows—a part that will send books, athletic equipment and supplies of a dozen kinds to our men in enemy prisoner-of-war camps—a part that will save the lives of millions of tiny children and helpless old people in the lands blasted by battle.

Now, more than ever before, the work of the war-related agencies of the National War Fund is vital—vital to our fighting men, vital to our allies, and vital to the people of France, Belgium, Holland, Norway, Greece and all the other war-torn nations.

Through their county war funds, they will call upon every Texan to help with the great cause. And under their leadership, every man and woman in the Lone Star state will certainly "Give a Texan's Share!"

## SOME AIMS OF SECONDARY EDUCATION

Formulation of aims is always an interesting and sometimes a helpful activity. Sometimes the statement takes the form of a "credo" or a series of paragraphs each beginning with the phrase, "we believe." Recently the secondary school principals of Baltimore, Md., announced the following credo:

1. We believe in democracy in education which implies that education should offer to every pupil an equal opportunity to develop to the limit of his ability and to acquire those characteristics which will make him a happy and useful citizen.
2. We believe that secondary education should aim to train students to do better the things they will do in after-life and stimulate in them a desire to do better things.
3. We believe that the development of ethical character is an important aim of secondary education.
4. We believe that one of the cardinal principles of secondary education is the inculcation in every pupil of the desires and habits needed for the development of a clean mind in a strong body.
5. We believe that secondary education should develop those interests that lead to the worthy use of leisure time.

SELECTED FROM THE DEMOCRAT'S EXCHANGE

### Unemployment

Congress has sensibly voted down all attempts to secure unemployment compensation for the men and women whose work will be stopped when war ends. Each state must take care of their own and the states are in actual touch with the needs at home than would be the government.

There is some doubt as to any great amount of unemployment after the war. There is need of thousands of men at home to carry on every line of business. True there may be five men to do one man's work at home and the wage scale will not be excessive, but there will be a job and a good living for many more than politicians would have one believe.—Quannah Tribune-Chief.

We believe the proposal for a year's military training for young men between high school and college or between high school and a job has many things to recommend it. In addition to the fact that it will provide preliminary training to young men in the event this country should in the future become engaged in another war there is the benefits that will accrue to the young men themselves. A year's training in the army provides many physical benefits. It develops coordination of mind and muscle, awakens latent talents and interests and gives a splendid training in discipline that is valuable throughout life.—Foard County News.

We are now on the mailing list of the W. Lee O'Daniel News. Some good Canyon friend must have paid the Senator \$5.00 for the subscription to keep us informed. If so, thanks, we enjoy reading the Senator's triads. It is noticeable that in no place you find any politician or office holder supporting O'Daniel. He is a lone wolf, and is going in just

one direction—the White House—he hopes. O'Daniel may never land there, but if he lives long enough and keeps on fighting he is going to keep some other aspirants from getting this choice political plum. Just now he is after the President's scalp, and there is no doubt about this as you look at his newspaper.—Canyon News.

Don't Neglect the Kidneys. Nature designed the kidneys to do a marvelous job. Their work is to filter out of the blood all the waste that may cause trouble. One may suffer from persistent headaches, aching under the eyes—fast tired, worn out.

Frequent, scanty or bloody urine are sometimes further signs of kidney trouble. The recognized and popular remedy is a diuretic medicine to help get rid of excess poisons.

Use Doan's Pills. They have been used for more than forty years of persistent headaches, aching under the eyes—fast tired, worn out.

## THE GREATEST TRACTOR TIRE BUILT

### SURE-GRIP

#### The Tire With The O-P-E-N C-E-N-T-E-R TREAD

For more "honest day's work," over more years, you need the extra pulling power that's built into long-wearing, hard-working Goodyears. Unlike other tractor tires that may lose pulling power and traction due to smooth, slippery packs of mud between lug bars, Goodyears with the famous O-P-E-N C-E-N-T-E-R Tread clean themselves as they roll, allow plenty of grip rubber to stand out and bite deep into the ground with every turn of the wheel. These big, self-cleaning, evenly spaced lugs are fortified against tearing with an extra strong buttressed base that resists ripping under the toughest working conditions. See us for help with your tractor tire application . . . and when you "see" a certificate see us for a Goodyear . . . The greatest tractor tire made.

Phillips makes millions and millions of pounds of BUTADIENE

AND I CAN'T GET EVEN ONE SYNTHETIC RUBBER TIRE

Naturally it seems strange to A-card motorists that they still can't buy a single tire... when they read of the production miracle which almost overnight has achieved an annual output rate of 836,000 tons of synthetic rubber, exceeding by more than 25 per cent the previous all-time peak of our crude rubber imports from the Malay States and the Dutch East Indies.

The reason, of course, is that rubber is ammunition, that rubber is fighting power: in tires for planes, and combat trucks and cars... in life rafts and landing boats... in bullet-sealing tanks... in aircraft carrier wiring... and in essential domestic transport service.

Even with victory on the horizon, the best informed estimate now is that synthetic rubber tires will not be generally available to all motor-

ists much before the middle of 1945. That is why every patriotic driver will do everything in his power to coax every last bit of mileage from his tires.

You can get help to do just that by calling on your Phillips 66 Service Man. His Tire-Saving Service includes checking air pressures at least once a week... inspecting for nail holes, cuts, and bruises... examination of the tire carcass to warn when re-capping is necessary... and crisscrossing with the spare every 3,000 miles.
