Many Skyrockets but Cyclone Set for Lakeview

making their wounds after losing 19 to 0 to the Welling Cyclone last Friday night, the Memphis Cyclone is ready to take back against the Lakeview Eagles at the local stadium tonight—and continue its race for the district crown.

Hear How Skyrockets Are Made at Plant

Mechanism of the 105 mm which Pantex Ordnance is now making was explained to members of the Lions club by R. J. Wheeler, relations officer of the Due to the interest and asked as to the 105 was impossible for Mr. to cover any of the other ammunition being made and the club members unanimously on a request return to Memphis and other program.

Mr. Wheeler paid tribute to a number of county men and women employed at the plant and the plant's need for employees to operate a line now under construction.

Monday for Will Padgett

Funeral services were held at 3 o'clock at the Baptist church in Newburg, Mo., for the late Will Padgett, a resident of the Newlin community and who passed away at the home of his wife, Mrs. Rev. Scott Crawford, officiated at the service by Rev. Luther Crawford, in the direction of the funeral home.

Padgett was born in Georgia, March 29, 1871 and was 73 years of age at the time of his death. Immediate survivors include his wife, Mrs. W. R. Glover, D. W. Gus Odom, W. Artists at Carnival Sent to Jail for Pay Fines

Operators of gaming devices at the Tidwell carnival in last week were placed in jail Saturday night by Sheriff Anderson and paid fines the next morning. Anderson is in charge of operating the devices. The raid Saturday night by Sheriff Anderson resulted in a half dozen gaming devices being closed down.

Cotton Picking in Full Swing, More Help Sought

Warm, dry weather for the past 10 days brought the cotton picking season into full play in Hall County this week, but with the labor shortage causing a serious problem with many farmers.

Dies in Europe

1st Sgt. Nolan A. Pannell, former resident of Plaska and son of Mr. and Mrs. A. J. Pannell of Memphis, who died in the "European theatre of war" on Aug. 29. He was in an infantry replacement unit and had last written his parents from England on Aug. 15. His wife and son, Richard Nolen, live at Sanford.

After His Wings

Aviation Cadet W. H. Butler, son of J. H. Butler of 1615 Montgomery street, who has successfully completed his primary training at Carlstrom Field, Arcadia, La., and has been assigned to a basic flying school in the Eastern Flying command for additional training. In a letter to his father he highly complimented the training school at Carlstrom field and said he had met "some of the finest young men in America" while there.

Medical Society Has Meeting and Banquet Here

The regular monthly meeting of the Tri-County Medical society was held here last Thursday night at a banquet and business session at the Pounds Cafe with three Amarillo doctors on the program as guest speakers. Dr. J. A. Odom, chairman of the society, presided. Papers were read by Dr. G. M. Waddill on "Common Problems of Infants"; Dr. W. R. Klingensmith on "Diabetes"; and Dr. J. H. Vaughan on "Nervousness and Constipation".

Alsina Hoover Buys Pounds Cafe

Sale of the Pounds Hotel cafe to Alsina Hoover and her brother, B. J. Hoover, was announced this week by Lena McLea. Miss Hoover has been associated with Miss McLea in the operation of the cafe for the past six years. Her brother, who has been in Lake Charles, La., and Galveston for the past several years, has been in Memphis for the past week, but he plans to return to Lake Charles soon. Miss Hoover, popularly known as "Al", assumed charge of the business Monday and immediately "hired" Lena as a cook, until she can get a regular chef.

New Legion Home For Local Post Draws Support

Decision of the Chas. R. Simmons post of the American Legion to start a campaign for building a new home as a memorial to World War II veterans already is gaining wide support over the county, reports C. C. Meacham, chairman of the building committee.

Many veterans of the first war, business men, civic leaders, families of men now in service and members of the armed forces are applauding the plan, and offering to lend their support, he reports.

The local Post realizes that the present home will be inadequate to care for the membership after the war, and believes the time is now opportune to raise funds for the building of a new home as soon as the war ends. The plan now before the committee is the erection of a new Legion home which would have an auditorium adequate for handling public meetings and that the building would serve the dual purpose of a Legion home and civic meeting place.

Named by Mr. Meacham on the general committee are B. E. Davenport, Del Wels and O. E. Bevers of Lakeview; A. M. Sims, Doc Messick and O. L. Power of Newlin; Hulen Clifton, J. A. Ballard and Elbert Johnson of Estelline; Jim Vallance, Dean Morgensen, T. E. Johnson and O. V. Alexander of Memphis.

Services Sunday For Mrs. Shankle

Mrs. Lula (Huff) Shankle, wife of J. D. Shankle and a resident of Hall County for 36 years passed away in a local hospital Friday, Oct. 20 at 6 o'clock, following a prolonged illness. Funeral services were held from the Church of Christ Sunday afternoon at 3 o'clock, with Paul Lusby, minister, officiating. Interment was in Fairview cemetery under the direction of Kings Mortuary. Pall bearers were Jim Vallance, Ed Cudd, Lafayette Pounds, O. V. Alexander, George Greenhaw and Ed Duncan.

Surviving are the husband and four children, Col. C. E. Shankle of Fort Worth, Homer T. Shankle of Burbank, Calif., Mrs. J. R. Stanley of Big Spring and Mrs. W. E. Gerlach of Amarillo, and three grandsons, Joe Shankle of Culver, Ind., John Shankle of Tucson and Ted Gerlach of Amarillo.

Observe Golden Wedding Anniversary

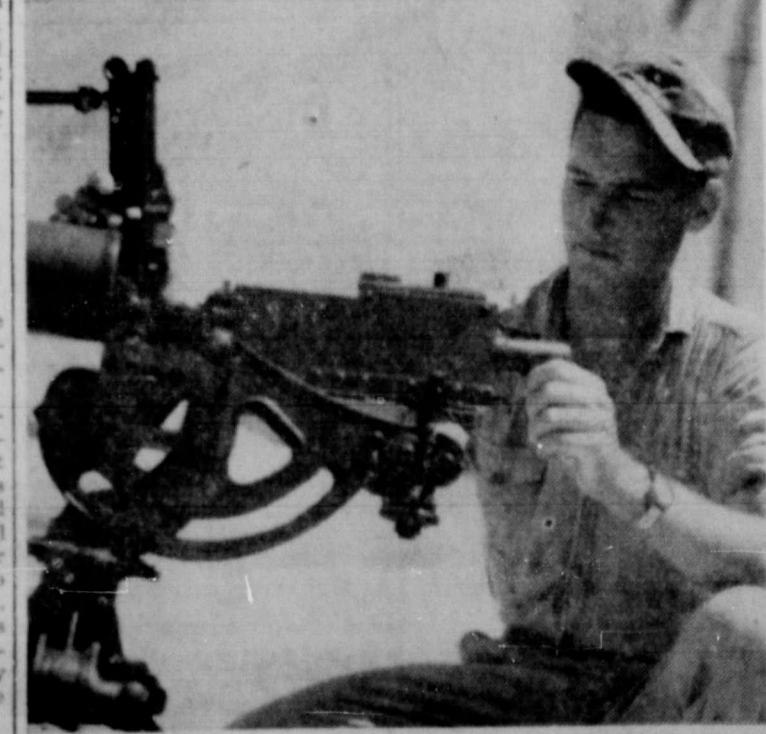

Dinner to Honor Mr. and Mrs. J. W. Watson of Lakeview Sunday

Mr. and Mrs. J. W. Watson of Lakeview are celebrating their Golden Wedding anniversary today. They are among the early residents of Hall County, having settled on Oct. 1, 1901, on the place where they now live, two and a half miles of Lakeview. They are the parents of 14 children, all of whom are living except a daughter who died at the age of 16 months.

Sgt. Dewitt French In Italian Hospital

Sgt. Dewitt H. French, who has been wounded twice since he went overseas in November 1943, is now suffering from malaria in an Italian hospital, his wife, Mrs. Bobbie French of Lakeview has been advised.

Bill Boren Waits for Japs to Show Up

SOMEWHERE IN THE MARSHALL ISLANDS—Ready for action but the Japs don't give us any business, says First Lieutenant Bill J. Boren of Memphis, beside his trusty 30 calibre machine gun. The 25 year old Marine Officer is in charge of ground defense for a fighter squadron with the Fourth Marine Air Wing. Son of Mr. and Mrs. H. L. Boren of Memphis, young Boren graduated from Texas Christian University. He served at Midway Islands before being transferred here.

Ferry Squadron Pilot Near Death In N. C. Hospital

The family and many friends of Ensign Billy Fred Rasco were deeply shocked Tuesday night to receive word that the young Naval Ferry Squadron pilot was near death following the crash of his plane in North Carolina.

Suffering a double fracture of the spinal column, the 22-year-old son of Mr. and Mrs. L. G. Rasco, is in the regional Army Air Force hospital at Greensboro, N. C., and his parents left Memphis by bus Wednesday afternoon, after failing to get plane reservations out of Amarillo.

Ensign Rasco was en route from his naval ferry command base at Dallas to Floyd Bennett Field, N. Y., when he crashed near Winston-Salem, N. C., at 2:30 Tuesday afternoon. No details of the crash were given in the telegrams to his distracted parents.

In a letter last week and in a telephone call to his grandmother, Mrs. Mary E. Combest, Sunday night, Ensign Rasco said he planned to go to Floyd Bennett field to take a physical check-up after having been recommended for a promotion.

He has been in the service two years and for 12 months was stationed at the Floyd Bennett field before being assigned to the Corpus Christi naval base, and later to Dallas. His brother, Lt. A. W. "Cobb" Rasco, recently was injured in bailing out of a bomber over Italy.

As they were preparing to leave late Wednesday, Mr. and Mrs. Rasco obtained telegrams from the Red Cross authorizing priority on an airline and they were hopeful of boarding a plane in Fort Worth early Thursday.

Rites at Silverton For Barclay Infant

Graveside services were held Thursday afternoon at Silverton for Clarence Curtis Barclay, Jr., two-month-old son of Mr. and Mrs. C. C. Barclay of Brice, who died on Tuesday afternoon in a local hospital. Services were conducted by Earl Cantwell, minister of the Church of Christ and interment was in the Silverton cemetery under the direction of King's mortuary. Survivors are the parents and two sisters, Cristena and Shirley.

O'Daniel Pledges Local Committee Aid on Hospital

Senator W. Lee O'Daniel promised a chamber of commerce committee and other interested citizens to do what he can in behalf of the veterans' hospital project in a short conference here Wednesday.

He met with the committee in the chamber of commerce office when he stopped here en route from Childress to Amarillo. Judge M. O. Goodpasture outlined the status of the hospital project to the senator, and President C. C. Hodges of the C. of C. gave him copies of a brief which had been prepared for submission to the veterans administration.

A number of Memphis people went to Childress Wednesday to hear Senator O'Daniel's speech in which he declared that America is threatened with its loss of a democratic form of government unless there is a house-cleaning in Washington.

"We can't stand four more years of what's going on", he said. "The only way to guarantee our nation against dictatorship is to limit the number of years men serve in office." He proposes a six-year limit on all federal office holders, including that of president. Senator O'Daniel is touring the state in behalf of the Texas Regulars, a democratic organization which opposes a fourth term for President Roosevelt.

Mrs. Jack Brewer went to Lubbock Monday to visit her father, Mr. Crow, who is ill.

NEWS

From County Men in the Armed Forces

(Master Sergeant C. W. Galloway writes his mother, Mrs. E. J. Galloway of Rt. 1, Memphis as follows:)

Somewhere in Italy.

Dearest Mom:

Received your V-mail letter today, which was dated 20 Sept., first news from you in some time. Glad all are well and doing all right. All is well with me. The only gripe I have is the fact that overshoes were issued today and my size was not included in the lot, and to make things even worse, it has been raining all day and the mud is all over. Hope we won't have to move until it dries a bit.

High up in the mountains now, it gets colder than the deuce every night. Most all day the clouds hang down around us. Some of the drivers had to use headlights this morning to see how to move around, and they had to slow up to a crawl. It may be nice elsewhere, but it's as bitter as ever here in Italy.

Yesterday we had a presentation of awards ceremony. Gave out 15 Silver Stars and 33 bronze stars. Amajor-general from one of the more famous divisions made the presentations. All went well until the captain read one of the citations twice and the man came forward the second time and the man came forward the second time and received the award over again, and then he failed to read one of the citations and one man was missed. The captain couldn't be blamed though, as he had such a hand full of papers and the wind was blowing quite hard. All in all, it came out very well. All the men received their awards and the CO was quite pleased over the whole thing. Seemed rather odd being in formation and the roar of artillery firing and an occasional plane motor breaking the

silence. Trucks were passing along the nearby roadway, filled overflowing with combat equipment and men. Yes, some people think the war in Italy is over. Try and tell that to one of the GI Joes here!

Do you remember the motion picture projector I was telling you about? The one captured from the Krauts? Four or five days ago I packed it in a wooden box ready to mail home and left it setting near my tent and forgot about it. After we moved a couple of times I started looking for it to mail home. As you may guess it was nowhere to be found. After making a thorough search I came to the conclusion that I was permanently relieved of the responsibility of carrying it. So I will mark it off my books as a loss. I still have the movie camera that went with the projector; hope I can hang onto it at least. Barnet, my clerk, says I would lose my head if I wasn't screwed on.

You asked if my watch is still keeping good time. It was lost just after an air raid in Casablanca, French Morocco, back in 1942—almost two years ago, and it seems like ten, as I can't remember some of the things that happened then.

Mom, that's about the conclusion of my thoughts, and the most I have written in the past six or more months. That's all, Mom, and all my love to you.

CECIL.

(Sgt. Tom Wood, with the Engineers in France, wrote to C. C. Dodson, as follows:)

October 5, 1944.

Dear C. C.:

Received your most welcome letter yesterday and will answer it now so you won't accuse me of neglecting to write.

How are things going with you

Petty Officer 2/C Walter F. Offhalter recently visited his family and other relatives in Lakeview and Borger, after two years' overseas service. Before entering the service in July 1942, he lived in Lakeview. His wife, the daughter of Mrs. Isabell Cypert, and children live in Borger.

and Memphis? I feel OK and doing all right. Cold weather is beginning here and it is really disagreeable. It rains sometimes during the day, almost every day. I will be glad to get back where rain is the exception rather than the rule.

I was in town the other day and ran across Ruby O'Neal She asked about you and all the folks at the cafe. She said she gets The Democrat now and then and really enjoys it. She is the second person from Memphis I've met. Saw Le Thompson in England.

Saw in The Democrat where Gene Lindsey is in Italy. Guess the Germans will give up when they find out he is there. Tell Owen that with Gene in Italy and me in France, the war is just about won on those two fronts.

Was glad to learn that the crop prospects are good there. Hope the labor situation eases up so the crops can be harvested.

Looks as if the war might end this winter or early spring. Think it is pretty foolish to try to predict when we will begin getting back after Germany is whipped. From all newspaper reports they can't seem to make up their minds just now why and who will be discharged. I'm just "sweating it out".

Tell the force hello for me—also the bunch at Hayes Cafe. I'll be seeing you.

TOMMY.

(Richard S. Cochran, seaman first class of the U. S. Navy, grandson of Mrs. Joe Prater of Memphis, wrote as follows to his mother, Mrs. Mae Cochran of Amarillo:)

Sept. 27, 1944.

Dear Mother:

We were sorry of having joined the Navy, but aren't any more. We are still pretty sore the way we have been treated, not by the Navy, but by the people in civilian clothes. We haven't been hurt bodily, but our feelings have been hurt considerably. We very seldom get to read a newspaper, but when we do, all we read about is what some carrier, destroyer, or some other man of war vessel

has done in the line of heroics. I have yet to read in a newspaper the wonderful work that has been done, or being done, and will be done by the amphibious fleet of the U. S. Navy.

I am not saying that we have not been mentioned, but that is as far as it has gone. You never read the inside story of an A. P. A. or any of the hundreds of other amphibious sea craft. I don't say that we deserve all the glory, but we do deserve some. We've been in on every beach head that has been made since the war began. But you never read about us.

It is always what the soldiers or the Marines or the battleships or some other man of war did during the heroic battle. Nothing is ever said about the men and the snips they man that took these soldiers and Marines and carried the equipment that they so sorely needed to make the battle a success.

We just want the people to realize that it takes more than just a man of war and troops to win this war, the greatest in the history of the world.

RICHARD S. COCHRAN.

Mrs. A. C. Stephens went to Claude Sunday to visit her daughter, Mrs. Bob Vaughn.

Veterans Already Asking for Loans To Purchase Farms

Today in uniform, but tomorrow in farm overalls, is the ambition of more than a million and a half American doughboys, according to estimates of the U. S. department of agriculture. That many of these will want federal assistance in buying farms or setting themselves up as tenant operators is a foregone conclusion, says Seth B. Pallmeyer, chairman of the Farm Security Administration committee in this county.

Already in Texas some 370 returning veterans have applied for FSA loans. The agency has made 70 such loans. FSA is hoping to have funds to help thousands of these service men when the war ends.

Congress has recognized in the GI Bill of Rights that many farm boys will want to go into farming for themselves when they return. That Act provides that the government will underwrite up to \$2,000 on real estate loans made

by veterans desiring to go into farming, though no agency as yet has been assigned responsibility for carrying out this program.

Also, Oklahoma Congressman Jed Johnson has introduced a bill which would give FSA an additional \$40,000,000 this year for making loans exclusively to veterans.

"Already four men home from this war have applied for FSA credit in this county," says Seth Pallmeyer. "We are anticipating a rush immediately after the close of hostilities of those veterans wanting to enter farming but unable to obtain adequate long-term financing elsewhere."

11,000,000 post-war plans

GET IT OVER WITH. Get back home. Get a job!

This is what our fighting men are thinking and talking about.

First—victory. Next—nail down the peace.

Then they want to throw off the rigid regimentation of military life—and not run into the same sort of regimentation back home.

They want to set out for themselves, as Americans always have... to use their own heads and hands in fashioning their own destiny.

A job and an opportunity—in the American system of free enterprise. This is the post-war plan of men in uniform.

Government can't be expected to carry out these plans. It's up to every one of us at home to see that they're fulfilled—eleven million times.

We will do our part.

Root Rot Problem in Memphis Defined in Article by SCS Expert

A. W. P. ROGERS of the Conservation Service) member of people have asked is killing our trees here? It is the same parasitic fungus that has been in Texas as the "Texas Root Rot".

Dr. Dugar first classified the fungus as *Phytophthora cinnamomi*. The late Dr. J. J. Taubenhau has been head of the department of plant pathology at the College Station, Texas, for the best 30 years of the study of this pernicious organism, that has been propagating itself.

The hard fruiting bodies along the mycelium of his fungus, was kept of moist dirt and were to be viable seven years

later. In consideration of this fact it would be quite foolish to replant a susceptible tree in this same ground within seven or more years, with hundreds of fruiting bodies lying dormant awaiting a host to feed upon.

Dr. Taubenhau has printed numerous bulletins recording the thousands of experiments he has made. Below are listed a few of the more important of his findings:

(a) This fungus does not thrive in an acid soil, but does in a neutral to alkaline soil (which fits Hall County).

(b) It will not feed upon the cambial tissues of any of the monocotyledons as differentiated from the dicotyledonous and angiospermous shrubs and trees. The former includes such as the grain sorghums, lillies, all grass-

We have the tires proven by 3 BILLION MILES B. F. Goodrich all-synthetic Silvertowns

IF ANYONE still has doubts about tires built with man-made rubber, here's clear-cut performance proof: by the most conservative estimate, essential drivers have already rolled over 3 billion miles on B. F. Goodrich all-synthetic Silvertowns.

Letters have come in from drivers all over the country reporting complete satisfaction. Most of them have expressed confidence that all-synthetic Silvertowns will give at least as much mileage as pre-war tires.

The 80,000,000-mile road test was the first proof that B. F. Goodrich could build high-performance tires with synthetic rubber. The test started almost two years before Pearl Harbor when B. F. Goodrich sold tires in which more than half the rubber was synthetic. They were the first synthetic tires ever offered for sale to the American public. Building and testing them gave B. F. Goodrich the valuable backlog of experience which is now showing up in the performance of today's all-synthetic Silvertowns.

So, see us at once if you are eligible for new tires. If inspection shows that you need new tires, we will fill out and handle your application for these proven B. F. Goodrich Silvertowns.

TWO SCHOOLS OF THOUGHT IN DEMOCRATIC PARTY IN TEXAS AND TWO PLANS OF ACTION

First of all, the fight between the Texas Regulars and the pro-Roosevelt forces in Texas is a fight within the party. There are two definite plans of action proposed for the voters in Texas. Neither faction is supporting Governor Dewey. One group wants President Roosevelt and a fourth term; the other believes there is a way open for Texas Democrats to re-capture the party from the un-American forces that have taken control, and in the case of a close race that the Texas electors will hold the balance of power and can name a Democrat as president who will return the party to the principles of Jeffersonian democracy and constitutional government.

It is the position of the Regulars that voters must choose on the issue of whether they want to save the democratic party (as they have known it in the past) and constitutional government or if they are content to turn the party and the government over to the un-American groups headed by Sidney Hillman of the CIO and the ex-convict Earl Browder of the Communists.

The Hillmans and the Browners, aided and abetted by the negro blocs and the vice-ridden machines of the big cities in the East, are now out in the open for their main objective—absolute control of the administration in Washington, through the democratic party. The Political Action Committee is directing the national drive for votes; it has taken the play away from the party's national chairman. It no longer is fighting quietly and secretly.

Hillman and Browder kidnapped the democratic party at the Chicago convention and by force, coercion and the power of millions of dollars it has collected from the working people of the nation, it is out to win the election—not for the democratic party but for its own selfish ends. It scoffs at the constitution; it pays no heed to federal statutes prohibiting labor unions or other similar organizations from contributing to political campaigns.

It is this dangerous and alarming state of affairs that has brought about the organization of democrats in Texas known as the Texas Regulars. Electors representing this group will appear on the ballot.

The Texas Regulars are for constitutional government. For the right of each state to govern its own internal affairs. They are for a house-cleaning in the Democratic party, for throwing out Sidney Hillman—who never was a Democrat. For throwing out ex-convict Browder of the Communist party, for throwing out the big city political bosses and all of the political racketeers who have moved in to take over the Democratic party.

The Texas Regulars are against the Communistic, anti-Christian doctrines of the group now running the democratic party. They are against the attempts of the administration to mix negroes and whites in the South. They are against centralization of government in boards and bureaus not elected by nor responsible to the people. They are against outsiders running Texas.

They are making an all-out effort to save both their party and their country from the forces which would destroy them through dictatorship; it is a battle for freedom, not abroad but at home.

With them the paramount question is: Do we want to lose at home what we are fighting for abroad?

The Roosevelt-Truman ticket of electors in Texas see

the issue mainly as that of Roosevelt vs. Dewey in the White House. There are many Texas Democrats who are not at all pleased at the bureaucratic trend in Washington and who likewise are displeased at the tactics of Hillman and Browder and the negro faction in the party, but with them the presence of Roosevelt in the White House in the next four years outweighs all of these. They hold to the contention that the party can clean its own house after the war; that it is better to put up with some of the things going on in the party now than it would be to let Dewey replace Roosevelt. Their stand is clear-cut, just as is that of the Regulars. Anyway, the majority will decide on November 7 and whichever group wins at the polls, the Texas electors will still be Democrats and the participants at the polls will not be deserting their party.

Press Paragraphs

SELECTED FROM THE DEMOCRAT'S EXCHANGE

As early as 1938 it was reliably reported to this country and to England that Germany had an air force of 175 squadrons of fighting planes consisting of about 3,500 first class Stuka dive bombers, Messerschmitts, Foch-Wulf, Heinkel and Dorniers, and, in addition, a fine force of trained fliers, and a production set-up of five to ten thousand planes per year. Neither Congress nor the English Government paid any attention to the report, the truth of which was not to be questioned. The world refused to wake up to what was going on but continued to bury its head in the sand and prattle of peace. This is the danger that lies ahead after the war—that vigilance will relax and wishful thinking take the place of realism. This is the real thing that must be guarded against in post war plans for a world peace.—Ford Co. News.

People who make a study of the situation are wondering what effect this war will have on the rural population as compared to the cities. Counties like Cottle lost from a fourth to a third of their population. This county said goodbye to almost one-third of its citizens because cities offered greater opportunities than our rural communities. Those opportunities proved to be only temporary, but the results were just the same—a decrease for rural communities and an increase for the cities.

Manufacturing industries will be far behind on production of civilian needs when the war ends. They will need help of all kinds. Men desiring large salaries immediately will find a cooperative refuge there. It will appeal to them and the opportunities will at least look greater than those offered by the jobs they were handling.

These men will be needed in the communities they left and with these facts staring us in the face, it is time that post-war planning for Cottle County should be given the most careful consideration. Every effort must be made to see that the boys come back to a job or an occupation that will not only keep them busy, but will be remunerative in a financial way if the rural sections are to maintain the needed population.—Paducah Post.

This war has been costly. How costly no one knows, and few can ever guess. Its costs will be levied on the nation for the next 75 years at least, but the next war—if we permit another war, will be twice as costly as this. Each war in the past has been more costly than the one that preceded it. These costs have mounted to the point where the question seriously presents itself as to whether the world could survive another

war more exhausting than this one. The armies may be victorious in the field, but the home front may become so exhausted in the effort that its progress will be blighted for years to come because of oppressive taxes and the burden of debt.—Tulia Herald.

You mean, it's that easy?

This Skeptical Gentleman represents many hundreds of thousands of automobile owners . . . intelligent, patriotic drivers who are determined to give their cars the best of care, who understand the nation's need for keeping every possible car running for the duration.

They require no long-winded arguments to convince them that **quality oil is the best policy**. They ask only: How can I select a **quality** lubricant, when I am neither an engineer nor a chemist? Isn't there some simple, easy way to make sure of getting a motor oil of quality?

There is! Phillips, with an outstanding reputation in the field, makes a frank and clear statement to relieve all doubt when choosing between the various oils marketed under this good name. Phillips says, if you want our **best oil**, remember we frankly tell you that **Phillips 66 Motor Oil is our finest quality** . . . the highest grade and the greatest value . . . among all the oils we offer to average motorists.

Oil wears thin in summer use. It also accumulates dust, metal particles, and oxidation products. So it's wise, say experts, to **drain every two months**, under today's reduced driving conditions. Especially when you make the seasonal change, ask for the correct winter grade of Phillips 66 Motor Oil.

He will be at Santa Barbara approximately two weeks, during which time he will receive every opportunity for rest, relaxation, and entertainment, in accordance with the Army's redistribution program.

Families Urged To Submit Names Of Fallen Heroes

Families of Hall County men who have paid the supreme sacrifice in the armed services of their country are urged to submit their names to the committee in charge of the Honor Roll in order that gold stars may be affixed to their names on the roll.

Mac Wilson, chairman of the committee which erected the Honor Roll, asks that the names of the men who have been killed in action be left for him at The Democrat office as the committee is anxious to keep the roll up to date.

NELL CUNNINGHAM IS ON COLLEGE DEAN'S LIST

Miss Nell Cunningham of Lakeview is among the 165 juniors and seniors on the dean's list at North Texas State this fall.

The dean's list, a campus honor roll for upperclassmen with a scholastic average of "B", is released from the office of the dean of the college every school semester and exempts those persons having the necessary high averages from the regular penalties for class absence.

Miss Cunningham, daughter of Mr. and Mrs. H. F. Cunningham, is a junior at NTSTC majoring in business administration.

Fairview Students Exhibit Souvenirs

Juanita Ann Shaffer and Ruth Newsome of the Fairview community were attracting plenty of attention from other students when they displayed souvenirs they had received from the war fronts.

Juanita's uncle, MM 1-c Carrol January sent her several strings of beads made from coral seaweed and shells in the South Pacific, and Ruth's brother, Private Charlie Newsome sent her German and French paper money in different denominations. Private Newsome was in Germany when he last wrote.

In 1912, Argentina spent more money on education than on her army and navy combined.

NEWS about boys in the Service

(Capt. A. W. Guill, a former employee of The Democrat, is in the Netherlands East Indies and gives change of address.)

Dear Mr. Wells:
Again this is a note to request you to change my address to the APO number given above. They have changed so fast lately I am not able to keep you informed.

I noticed in my last issue of the Democrat that C. R. Gowan made it through OCS, and was certainly glad to hear about it since I hadn't heard from him in over a year.

Things are going well with me and I have little to complain about except that 32 months is an awful long time to spend over in this hole. Herschel Montgomery put it mildly in his sketch about New Guinea; however it was the straight dope and enjoyable reading.

I was present at a recent D-Day landing and had a ringside seat for the naval and aerial bombardment. All I can say is that I hope never to be on the receiving end of one of them. We haven't had too much excitement but have made some good jumps out of some of our pilots.

We are paid in Dutch money now and it has introduced another problem with the rate of exchange. Guilders are based on the decimal system so they are not as confusing as the Pounds once were. The exchange rate is about 53 cents per Guilder and the only change consists of quarters and dimes.

I noticed where Memphis made Aug. 19th issue of Time with 117 degree temperature, but Mother writes that on her visit there the latter part of the month the weather was very comfortable and the trip most enjoyable.

Best regards,
A. W.

been stationed at the Santa Ana, Calif., Air base, but will report to Douglas, Ariz., air base when he leaves here.

(Sgt. Jack Holcomb writes to The Democrat from Someplace in France.)

October 7, 1944.

Dear Sir:

Recently I received three more issues of The Democrat. Sure makes a guy feel good to hear from the home town. Things must really be buzzing there now, with the fall crops being harvested and the merchants doing a rushing business. I'll never forget the hustle and bustle of Memphis during the only lively season of the year. Now, take this part of the country, I don't care for it myself. Everyone here is busy doing his or her job toward finishing up this part of the European war. Sometimes it goes so fast that we can hardly keep up, and then the going gets tougher as we get closer to "der Faderland". The rumble of artillery is more solid now and we think of the days when long moves were made daily.

The Democrat is surely wellward to the next issue. I like to hear from my friends in the service, so The Democrat is my main source of information.

More next time. Sincerely,
JACK.

CPL. TUMLINSON ON VISIT

Cpl. Billie J. Tumlinson of the Army Air Forces has completed his training at the gunners' school at Yuma, Ariz., and is home on a short leave visiting his parents, Mr. and Mrs. W. W. Tumlinson. He will report to Shreveport, La., and be assigned to a crew. He trained as a tail gunner on a B-26.

Lt. James Brumley Cited for Bravery

1st Lt. James P. Brumley, son of Mr. and Mrs. Jett Brumley of Pampa and who are former Memphis residents, has been awarded the Bronze Star in Italy, friends in Memphis have learned. The citation was for holding the lines of communication intact under shell fire during a battle with the Nazis in the Italian campaign. Lt. Brumley was born in Memphis.

Mrs. S. T. Harrison is visiting this week in Amarillo with Mr. and Mrs. W. A. Russell.

In 3 Campaigns

Corporal William E. Moss, son of Mr. and Mrs. Grover Moss of Eli, is now stationed at Ft. Thomas, Ky., after having spent 27 months overseas. As a member of the Army Air Forces, Cpl. Moss was among the first soldiers to land in North Africa. He participated in the North African, Sicily and Italian invasions. His wife, the former Ann Margaret Mitchell, is with him at Fort Thomas.

'Human Torpedo'

Here's one of those "human torpedoes" the British have used successfully. Two crewmen ride under water astride the lethal "fish" until they reach the objective, say a ship's hull. Then they fasten the torpedo to the hull, set the time-clock, and scoot away, still submerged, on a detachable escape craft carried along on the torpedo. (Radio-photo.)

Army Paper Tells Of Siegfried Battle

The part of the First Army under General Hodges took in the cracking of the Siegfried line is graphically outlined in a copy of The Stars and Stripes, official army newspaper which S-Sgt. E. J. Huddleston has sent to his wife and his mother, Mrs. O. L. Hammonds. Nazi troops in the heavy pill boxes were burned or smothered to death by an aerial bombardment which lasted for 90 minutes before the ground troops began their assault, the story relates.

Wartime motorists from coast to coast say... "No car like a Studebaker!"

LETTERS from owners have been streaming in to Studebaker headquarters from all sections of America—unspoken, fact-packed, impressive letters praising the remarkable reliability and low-cost performance of Studebaker Champion, Commander and President cars. We publish a few of those comments here. They tell you better than we could why Studebaker owners these war days appreciate Studebaker engineering and craftsmanship and prudently hold on to their cars.

"Not for sale," says county official "Twice I've had attractive money offers for my Champion," says J. Stanley Howard of Liberty, Kentucky. "I won't sell because Studebaker economy and stamina in wartime mean too much."

STUDEBAKER WEASEL
 Nicknamed the Weasel because of its stealth and swiftness, its zero-footed traction on virtually any kind of terrain, this new vehicle is powered by a Studebaker Champion engine and built by Studebaker under contract with the Ordnance Department, Army Service Forces. A water-borne Weasel, the M-29C, is also new in service.

There's a Shortage of Copies of The Dallas Morning News—But NOT Our Desire to Serve!

The crucial shortage of newsprint paper has forced a curtailment of the supply of copies of The Dallas Morning News to our dealers in this county. Only a small part of regular shipments is possible until we are permitted by Government Authority to increase our consumption of newsprint.

Distribution for the present will be made from drug stores and newsstands, unless your agent can arrange otherwise.

We realize, with deep regret, that some of our old-time readers are not able to get copies of The News. We trust they will understand and bear with us while we're making every effort to restore service.

In the meantime, although many patrons will not have The News delivered to them temporarily, their names are still on The Dallas News' Big Book and we look forward to serving them again.

Thank you.

His job will be ready...WHEN HE IS!

We remember when he first came to work for us... this smiling kid we now call G.I. Joe. He did a good job here, showing the initiative that was his American birthright. He made a place for himself with us, and we were regretfully proud when he answered the call to the colors... Now he's back from the fighting... banged-up a little, but with the same gay smile on his lips that we used to like to see. He's looking forward to going back to the job he left when he went on leave to join our armed forces. You can bet his job with our Company will be waiting and ready when he is!

Memphis Folks Hold Reunion in Hollywood, and Democrat Comes Out First Place, Alvis Melton Writes

San Francisco, Calif., October 21, 1944.
 Mr. Claude Wells, Editor, Memphis Democrat,
 Memphis, Texas.

Dear Sir:
 The following incident occurred not long ago and being the editor of the Democrat I think you will appreciate the story even more than others who have heard it.

Not long ago my wife the former Mary Lois Scott) and I went down to Long Beach to visit Mr. and Mrs. J. B. Grisham, also from Memphis, over the weekend. Neither of us had ever seen Hollywood and since it was only slightly out of our way, we decided to come back through there on our way home on Sunday afternoon. We were driving down through the heart of Hollywood past such well known places as Earl Carroll's, The Brown Derby, The Hollywood Canteen, etc. and I was taking in all the sights, seeing everything there was to be seen. In between driving and looking I glanced over to see what sort of impression the famous movie capital was making on Mary Lois

and lo and behold she was utterly absorbed in intently reading an old copy of the Democrat which Mrs. Grisham had given her.

You should feel justly proud when the Democrat contends for honors and comes out winner against all the publicized fame and glamour of Hollywood. This only emphasizes what the Democrat means to Hall County people, especially when they are away from home.

I might add that at a later date we held what might be termed a small Memphis Re-union at the Hollywood Palladium when Mr. and Mrs. Izador Hardin, Mr. and Mrs. Marvin Webster, Mr. and Mrs. Jove Dot Webster, Mrs. R. Melton Saunders, my wife and myself had a pre-arranged meeting there. Mr. and Mrs. J. V. Richards and Mr. and Mrs. J. B. Grisham were also expected but were unable to come. You can see that Memphis is rather well represented in this area.

ANNOUNCING! The New Neutral-Color EARPHONE AND CORD

for the
Zenith Radionic Hearing Aid

Does for the Hearing Aid What Modern Styling did for Eyeglasses!

HERE'S hearing aid smartness never known before! The visible parts blend with your complexion—are scarcely noticeable!

No longer need charm and ability be sacrificed to a hearing deficiency. Now, even the most sensitive person can feel perfectly poised and at ease wearing the New Zenith Radionic Hearing Aid.

Come in—see for yourself the new beauty and smartness of the NEUTRAL-COLOR EARPHONE and CORD. The result of more than two years of laboratory research, both are now included at no extra cost with the New Zenith Radionic Hearing Aid.

THE NEW EARPHONE... Pleasingly neutral in color so that it blends with any complexion. Sturdily constructed, distinctively styled of beautiful plastic. Feather-light in weight—you scarcely know you're wearing it!

THE NEW CORD... Made of translucent plastic—looks well with any apparel. Slender, so light, it's infinitely smarter, more comfortable to wear. Perspiration-proof... water-proof... kink-proof... washable. Just wipe clean with a damp cloth.
