Thanksgiving in Texas Nov. 30, Says Stevenson

Thanksgiving Day in Texas will be the last Thursday, Nov. 30 according to a proclamation issued by Gov. Coke Stevenson.

Rasco Removed To Dallas Hospital

Lt. (j. g.) Billy Fred Rasco critically injured in a plane crash in North Carolina on Oct. 24, has been removed to a Naval hospital in Dallas, his parents Mr. and Mrs. L. G. Rasco, were advised Thursday.

The report was received through the Red Cross. The message stated that the condition of the popular young naval ferry command pilot was "about the same," as it was last Thursday when Mr. and Mrs. Rasco had left their son to return to Memphis.

Upon their return home Saturday they reported that he was "resting well," was in a cheerful frame of mind and sent his regards to everyone in Memphis.

At the time of the crash doctors advised his parents that Lt. Rasco had suffered a fractured spinal column.

MAMMOTH MUSTARD

Mrs. T. H. Gilchrist displays one of the largest mustard stalks ever seen growing in this section of the country. The spread of leaves reaches four feet. One leaf is 24 inches long and about 20 inches across.

Cyclone Defeats Lefors Pirates By 14-0 Score

Backed by a clicking backfield and a fighting line, Capt. Frank Smith crossed the goal line three times and kicked once for 14 points to defeat the strong Lefors Pirates 14-0 here last Friday night.

All Servicemen in uniform will be guests of the game at Cyclone Stadium Friday night.

The uniform will admit servicemen free of charge, it was announced.

Smith kicked for the extra point. The Cyclone's second counter was made in the third quarter when Smith caught a Lefors punt on the 50, and Sanderson, Hanvey and Smith carried the oval to within 2 inches of the goal line, taking three penalties en route. Smith then dashed around left end for touchdown. Again, Smith made it around left end for the extra point, leaving the final score Memphis 14, Lefors 0.

A feature of the game was the penalties assessed against Memphis, totaling some 135 yards. Practically the whole game was played in Lefors territory, and the Pirates never did threaten to score.

This Friday night Memphis takes on Glarendon here and the Cyclone is hoped to ride the Broncs for another win.

Memphis has lost only one game this season, to the Wellington Skyrocks. Wellington leads the district with no defeats and only one more game to play. They meet the Shamrock Irishmen this week and are expected to win that game and become District 3-A winners. However, if Shamrock should kick over the dope bucket and win, and should Memphis beat Glarendon, then Wellington and Memphis would be tied for district honors.

The Line-Up
Cyclone—Robertson E., McMillan T., Ballew G., Barber G., Blum T., Billington E., McElreath B., Smith B., Sanderson B., Hanvey B., Monzingo G., Hansen C., Vandeventer B., McQueen T., Kilpatrick B., Ford B., Hickey E., Davis B., Gerlach G., Allen B., Spenner G., Wright G., Evans T., Vickers E., Stewart G., Grand T., Morris C., Baker B., Bill Kesterson and Benzy Godfrey, managers.

Lefors—Starting line-up: Kennedy E., Browning E., Page T., Vanderlinden T., Johnson G., Guthrie G., Daniel C., London B., Brock B., Stracener B., Airington B.

Figures Released On Bales Ginned In Hall County

The number of bales of cotton ginned in Hall County prior to October 19, of the 1944 crop amounted to 3,301 bales, as compared with 6,330 bales for the 1943 crop on the same date last year, according to figures furnished by C. Lee Rushing, special agent.

This report shows the maturing of this year's crop is quite a bit later than last year, but guessers of the crop this year think it will run to 40 or 50 thousand bales.

FORMER ESTELLINE PEOPLE ARE VISITORS

Mr. and Mrs. J. H. Wright of Weatherford, formerly of Estelline, are visiting their daughter-in-law and granddaughters in Amarillo and other relatives in Estelline.

Mr. Wright works for the Consolidated Vultee near Fort Worth. He travels 52 miles each day, six days a week, going to and from work, and missed only one day and never has been late in 12 months. "This is the first vacation in my life, and am enjoying it very much," he said.

Roosevelt Receives 6-to-1 Majority in Hall County

THE PRESIDENT

NEW VICE-PRESIDENT

Hall County voters on Tuesday gave President Roosevelt a 6-to-1 majority over all opposing tickets.

The total vote for the democratic ticket of electors was 1,760; the republicans were second with 158 votes and the Texas Regulars came in third with 122 votes.

The Socialist party got two votes and the prohibition ticket four.

The tabulation does not include the Parnell box, which up to Thursday morning had not made its returns to County Clerk Gladys Johnson.

Votes counted totaled 2,046 and the Roosevelt-Truman ticket received 1,760 as against 286 for the combined opposition.

Gov. Coke Stevenson led the ticket in the county with 1,890 votes.

It was the heaviest general election vote in Hall County in years and even exceeded the vote in the July primary.

Wellington Beats Lakeview 38-0

At the Lakeview stadium last Friday night the Wellington Skyrocks, district 3-A leaders, defeated the Lakeview Eagles by a score of 38-0.

This week Coach Denton's Eagles meet the Lefors Pirates at Lefors.

Line-up for Lakeview included Sams, L.E.; Poyner, L.T.; Wiley L.G.; Gowdy, C.; Wolfe, R.G.; Duke R.T.; Sams, B., R.E.; Denton, Q.B.; Foreman, B.; Montgomery, B.; and Lawrence, B.

No Relief Promised on Shortage Of Cotton Gloves; C. of C. Takes Plea to WPB and Other Agencies

Despite urgent pleas being made to the War Production Board and other federal agencies and to Rep. Eugene Worley by the Memphis Chamber of Commerce, the outlook for a new supply of cotton gloves for boll pullers was anything but encouraging this week.

The C. of C. was advised by the regional WPB office at Dallas that an allocation of 20,000 pairs of gloves had been made for Oklahoma and Texas, and that orders from Washington had not been received for these to be distributed.

It was stated that this number represents all of the gloves authorized for the two states this season. The letter explained that retailers could not make applications for them, but outlined a long procedure whereby jobbers and wholesalers first must file applications. These, the letter stated, would be "passed on" by Washington.

Some wholesalers said the 20,000 pairs of gloves would not meet more than their local demand.

Poppies Will Be Sold Saturday by Legion Auxiliary

Poppies will be sold in Memphis Saturday, Nov. 11, by the American Legion Auxiliary, Mrs. W. Wilson, president of the organization, announces.

Booths will be on the square and women and girls will do the selling of the poppies, money from which will be used in the rehabilitation of World War I and II veterans.

Mrs. Emma Baskerville is in charge of the committee that will start selling about 9:30 Saturday morning and continue throughout the day.

NEWS about boys in the Service

Pvt. Jack L. Martin wrote the following letter to his parents, Mr. and Mrs. M. Martin. He is with a Medical Station Hospital overseas.

Dear mother and father:

Here is another day and time to write again. Hoping all of you on the home front are well. I am O. K. but cold. The wind is blowing and it is cold. Are you still hearing from James? He is in the same place.

I am just thankful for America. The people in India are starving and diseases of all kinds are killing them. Every evening at sundown, trucks go through the city picking the dead off the streets. They are poorly dressed and all under 12 years old go naked. I am glad I have a place of comfort, peace, and happiness to come back to after this war is over. Some people do not understand the war as it is. The people who strike for more money when boys are giving their lives so that they may live, are not here with those we are fighting. Keep them from ruining our America, if they could be here for just one day and see some of the things the boys in battle go through, sleeping in mud and rain, lying for hours out under the sky with part of their God-given body blown away, waiting for the medical boys to pick them up, that is what we are trying to stop, but of course some people don't know that. If you showed them pictures of it, they wouldn't believe it. But that is just part of what is happening.

Well, I have got to close this one. But will write again on the 22nd. All my love to you all. Your loving son, JACK

Perry Stevens, yeoman third class, of the U. S. S. Idaho, who recently returned to the States after seeing plenty of action in the Pacific, arrived home Oct. 26 for a visit with his parents, Mr. and Mrs. T. C. Stevens. He will return to the Pacific coast Friday to rejoin his ship. He entered the service in the early part of 1943.

Former Memphian Is On Attack Transport

An invitation was received recently from Lt. (j. g.) Carroll Smyers of the U. S. Navy to attend the commissioning of the United States Ship Berrien at San Pedro, Calif. Accompanying the invitation Lt. Smyers (formerly secretary of the Memphis chamber of commerce) wrote this message:

"Hello, Everybody! This is an attack transport. She carries 25 landing craft. We are ready for action which probably won't be far away. I'm glad of the opportunity to be in the front line. Remember me to those who

Pvt. Nat Bradley arrived Sunday to be at the bedside of his wife who is ill in a local hospital. He is stationed in Hawaii with Army engineers. He was given a 30 day furlough due to his wife's illness, caught a plane Thursday for San Francisco, then hitchhiked on another plane to Dallas arriving there Saturday night.

Coxswain Gaines McFall (colored) of Memphis, who has been overseas about 10 months and now in Netherlands East Indies is in a company that recently received commendation as follows: "The officer, in charge, petty officers and men of Base Co. 24 are to be commended for the most outstanding performance of duty, excellent morale and spirit, of any base company observed. There was nothing but the highest praise for this unit from all officers to whom these men have

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

Announcement

The Miller Mattress Factory recently moved across street from the Postoffice to 709 West Main street.

We ask all who plan buying a new mattress to look over our stock before buying. Please notice carefully the date on the end and see if you are buying what you are. All mattresses should have exactly what are made of on the labels.

Beware of peddlers from other towns. If they could sell mattresses they would get plenty of business in some town. I want every one to compare my prices with any factory in the west. I have several shops and they haven't got a thing on my mattress. I bar none. We have, or can make any size mattress you want.

That old mattress can be made new at half the cost of a new bed. We guarantee our renovating machine to put and trash to a certain extent out of your mattress and the cotton will be in your mattress without any in it. You don't have to leave Memphis to get it renovating in the Panhandle.

Turnips and Radishes Grow Extra Large

Ten-pound turnips are seldom found in this county, but one weighing 10 pounds was found on the W. E. Henry farm four miles north of Lakeview, according to Tom Beard, of the Farm Security administration office in Memphis. It was of the purple top variety and both the turnip and greens were eatable. He also reports a radish weighing one pound and 14 ounces was found on the same farm.

ATTEND MILL IRON SALE AT COTTONWOOD

A number of stockmen and farmers of Hall County attended the annual sale of registered bulls at the Cottonwood headquarters Monday. Several bought bulls at the sale, which was largely attended.

This was the second sale held by the Mill Iron. The sale last year proved so popular that the owners of the ranch held a similar sale this year.

Irrigation was started in America by the Mormons, on the edge of the Great Salt Lake.

CARD OF THANKS

We take this means to thank our children and Mrs. George Payne for the lovely dinner given us on our Golden Wedding Day.

We appreciate so very much our friends who called in the afternoon. We would like to say an extra thank you to our friend of long standing, who had moved away, yet called.

The gifts and good wishes will afford us pleasure for many days to come. "Friends are more priceless than precious jewels."

We had only one regret, and that was, we could not have all our children present. When we celebrate our 31st wedding anniversary, we hope they will be able to be present.

When Leon and A. J., now serving overseas, see this in the Democrat, we want them to know how we appreciate what they are doing for us and their country. We pray this war will soon be over and our boys and all others can soon come home.

Sgt. Ruby O'Neal Writes From France

Paris, France Sept. 26, 1944

Mrs. Inez Baker, Dear Mrs. Baker: Well it has been some time since I wrote you but thought you would like to know a little about the WACs in France. Or perhaps I should say, soldiers, for we have really been that since we landed here. I wish you could have seen us in our tents. There were five of us in one. We slept on cots and took our baths out of ur helmets. We carried most of our water from a stream to wash our clothes and heated on fires built outside. But it was fun, like going camping. We walked 1-2 miles to our meals three times a day. The only light we had was our flashlights. We slept in our clothes to keep warm and to dry our clothes we put them under our blankets and slept on them.

But we enjoyed every minute of it, though it lasted too long. When we landed we had to sleep on the ground but we all came up laughing. A Colonel told us he didn't know American womanhood until he worked with the WACs. That no matter were you put them they came up laughing. When we landed in Paris we really were a mess. Our own mothers would have been ashamed of us. There we sat in our combat suits, leggings and helmets. You couldn't tell us from boys only by our hair. Well we finally got to where we were to live. Oboy, we knew we would get a bath with hot water but we have been here sometime and haven't got a hot bath yet. I have learned one thing I didn't know before, you can do without lots of things we used to think we had to have. But the biggest thrill I have had was seeing Paris from the air. It is a beautiful place but I am afraid I will not get to see it all. We have a nice Red Cross. They

serve doughnuts and coffee, sure is swell. They have their cafes on the sidewalks here, but we are not allowed to buy anything but cold drinks. I really wish you could see the hats they wear. Some look like wash tubs, others look like they had taken the bedspread and wrapped it around their head. And the girls dress fit to kill and ride a bike. In London we had to dodge the taxis here we have to dodge the bikes. They are swell to the Yanks here. But I can't speak French. I make signs and they know what I want. When you go into the shops there are more GIs than WACs, all buying perfume.

In all my army life I haven't run into any one from Hall County. Soopie was in England but I did not get to see him. I was really glad to leave London, did not like those buz bombs. Give my regards to all my friends and tell Mr. Baker to buy me a coke. I really would taste good now. I saw in the Democrat where lots of the Hall County boys were here on D-Day.

Goodnight, as ever, Sgt. Ruby O'Neal

Achievement

This is 4-H Club Achievement Week. Hall County club members have made an enviable record the past few years. These club members will become the community leaders in a few years, and other youths will take up and carry on the club work.

The following concerning youth, contributed by a thinking citizen, is published because it is worthy of careful consideration by every boy and girl.

Fortunate is the youth who makes big plans, sets worthy goals. For, as we think and strive, so we become. Therefore, make big plans and aim high. Little plans have no power to stir men's blood and lead them on to large accomplishments.

The big things we do in life have their beginning in youth, and the years twelve to sixteen, seventeen, and eighteen are the most fruitful years in setting up ideals to live by and goals to attain. A goal set up in youth is to life what the North Star is to the sailor: It holds him on his way; he arrives some where.

Everything is possible to youth—agriculture, industry, commerce, the professions, science, and a hundred other things. Everything youth may aspire to accomplish in any of these fields may be accomplished to a degree of success if he is willing to work, willing to prepare himself for the things he wants to do, willing to give all his energies to the job before him and to keep at it. But if one is to grow up into prominence, to step out from the crowd, to rise higher than the average, one must do differently from the average. One must set a higher goal and keep it before him.

If one should choose farming for his life's work he will want a high school and college education because agriculture is becoming increasingly complex, and big changes are ahead in the agricultural field. Agriculture is rapidly becoming

Post War Production About Electricity

Wiring of many farm houses likely will have to be improved as new electrical equipment is obtained by farm families after the war. This statement was made by Mrs. Bernice Claytor, A. and M. Extension Service specialist in home improvement, who spoke to members of the Texas Committee on the Relation of Electricity to Agriculture at a recent meeting on the college campus.

In many homes where there is electricity, lighting can be improved and outlets added for convenience in the post war period. When this time does arrive, the specialist said, the Extension Service will seek to aid families in selecting equipment which will meet their needs and give them the greatest satisfaction and return for cost.

She suggested to research workers that they develop additional accessories for more convenient storage of milk in electric refrigerators. Something similar to vegetable hydrators would be welcome, she said.

When Connecticut adopted its constitution in 1639 it was the first time in history when a government was organized and defined by a written constitution.

mechanized. Farm marketing problems are becoming more complex. It needs clear thinking to be a helpful member in a farmer's marketing association, and to help guide the policies of farm organizations.

Whatever one desires to be in life, the beginning is education. It is the starting point. But education is not the whole story. Honesty, integrity, and faithfulness to one's promise of word are likewise essential to a successful life.

Monthly Legion Meeting Tonight

The November meeting of Chas. R. Simmons Post, No. 175, American Legion, will be held tonight.

Commander Glynn Thompson urges a good attendance at this meeting as plans for the new building will be discussed. All veterans are invited.

Counties Study Aid to Veterans

Advisory committees of farm people and technical workers to assist returning war veterans who are interested in farming have been set up in 240 Texas counties, and their aggregate membership now numbers more than a thousand, according to Joe L. Matthews, assistant in agricultural planning for the A. and M. College Extension Service.

These committees are concerned only with men who want to farm and seek assistance and probably these won't constitute more than 10 or 15 per cent of the total in uniform, Matthews explains. Several committees are contacting service men from their counties offering assistance, and in one instance 90 per cent of more than 2,000 men received questionnaires on their plans, with replies received for more than half.

Committees now are gathering such information to furnish veterans as amount of capital required for purchase and leasing of farms and ranches and sources of credit, size of units necessary to maintain satisfactory standards of living and equitable partnership and rental agreements.

In most instances, these advisory committees are sub-committees of county agricultural victory councils, and county agricultural agents serve as their secretaries as well as giving advice which comes within the province of their usual official duties. Matthews explains. Under an arrangement between the War Food Administration and the Selective Service organization, returning veterans interested in agriculture are referred to county agents for assistance.

Matthews says he finds wives and mothers of service men alert to after-the-war adjustments, and many home demonstration councils and clubs now are studying the G. I. Bill of Rights.

President George Washington laid the cornerstone of the Capitol at Washington on September 17, 1793.

Invitation to our New Drug Store

We really are anxious to have everyone see our new place. It is truly representative of what the modern, efficient drug store should be, but behind all this modern efficiency you will also find 37 years of drug store experience which is of invaluable aid to those who trade here. Experience which helps us select the nationally known merchandise that assures high quality and purity to the buyer and experience which helps us operate our store in a manner that assures the buyer lowest prices at all times on that same high quality merchandise.

Prescription Specialists

Since 1907 when Lon Alexander opened his first store in Childress, he has made a specialty of prescription work. Every prescription he ever filled is on file (there are more than 100,000 of them) and simple or difficult each received the same careful attention.

In prescriptions only the finest quality drugs are used—stocks are kept fresh and free from contamination—each prescription is checked and rechecked and measurements are exact. When your prescription is filled at the Memphis Drug Company, you know that it's just what the doctor ordered.

Animal Health Department

Healthy stock means a profit to the raiser and in these days, modern science has made it much easier to KEEP animals healthy than attempting to cure them when they have been overtaken by diseases. Local stock raisers have come to know us as specialists in this line too, and have learned to depend upon our Animal Health Department for their supplies of medicines, serums, bacterins and vaccines. They know that here too, our stocks are fresh and kept at the proper temperature always. They know they can have confidence in the products we carry and they have found it easy to select their needs from our timely displays.

Please accept our invitation to pay us a visit — we're sure you will be glad you came.

qualified teachers.

The survey includes replies
from 149 county superintendents
and 834 independent school dis-
trict superintendents. 37,071
teaching positions or approxi-
mately 90 per cent of all posi-
tions in Texas are included in
the survey.

Replies from the superintend-
ents disclosed that on the open-
ing day of school 1,619 teaching
positions had not been filled for
the school years. The percentage
of vacancies in rural schools was
higher than for the independent
districts. These vacancies exist
although the schools abolished or
consolidated more than 700 posi-
tions during the past school
term.

More than one-fifth of all of
the teachers in Texas are new to
their jobs this year. One ques-
tion asked of superintendents by
the State Teachers Association
disclosed that they have 7,992
new teachers in their schools
this year.

The rural schools are shown to
have been forced to employ more
than 35 per cent of their teach-
ers with sub-standard qualifica-
tions while independent districts
list about 12 per cent of their
teachers with sub-standard qual-
ifications. A total of 6,146 teach-
ers started the 1944-45 school
term with qualifications that
would have been considered be-
low standard before the war.

The supply of teachers in Tex-
as does not promise to improve
in the near future. On the con-

trary the situation could become
even more acute. Fewer college
students are studying to enter
the teaching profession, and al-
though a large number of emer-
gency certificates have been is-
sued, the number has been inad-
equate to meet the need for well
trained teachers.

The low pay of teachers in
Texas is given by the association
as one of the chief reasons for
this shortage. The average pay
of teachers in Texas last year
was approximately \$1200 per
year. The national average is
more than \$1600 per year.

NEWS

From County Men in the Armed Forces

Cpl. William E. Moss, 26, of Memphis, has been transferred from AAF Convalescent Hospital, Nashville, Tenn., to the Army Air Forces' newly-activated Convalescent Hospital at Fort Thomas, Ky., where he now serves as a member of the post's permanent-party personnel.

Cpl. Moss now is aiding the Fort Thomas staff in preparing for arrivals of AAF convalescents transferred from general or regional hospitals, or other cases sent here from AAF redistribution stations. The function of the convalescent hospital is to physically and mentally rehabilitate its patients, to bring about a smooth transition from definite hospital treatment or operational fatigue to full AAF usefulness, reducing to a small percentage the number returned to civilian life, yet also aiding those who may be discharged.

Cpl. Moss entered the Army Jan. 26, 1942. He is the son of Mr. and Mrs. Grover Moss and the husband of Mrs. Margaret Moss, all of Memphis. He served 26 months overseas in the European theater of operation. Before entering the Army Cpl. Moss was manager of a cotton gin for Sam Foxhall, Memphis.

W. H. Roson and Mrs. Della New received the following letter from their brother, Pfc. Byron Roson, who is stationed on an island, "somewhere in the Pacific."

Dear Estelle and Willie: I got your very interesting letter today and you ask some very good questions. In fact, I don't know where to start.

Today was Sunday, and a dull one. I have chewed off all my fingernails and just layed on my back all day and thought of the past. There is a guy here that likes to hunt and fish like I do. We practically know each others life history, but it passes the time and that's what counts.

You ask if I had been to town. Well, it sounds good, if there was a town and I have seen about three women in over a year. I will send you a shot of some of the Fiji Island beauties. That is where I was before I came here. You should see what is here. They remind you of a nightmare.

You know, I was waiting for

a sucker to ask me about these islands. I will try to give you my opinion of it and I promise not to lie about it. At this second, I am being eaten alive by mosquitoes, sand flies, and a million other unknown insects, but they bite and that's what counts. You see about nine-tenths of this island is under water, swarming with crocodiles and alligators. I was fishing the other day with hand grenades and when I looked around, crocks were coming my way, but I made it out by the skin of the teeth. There are lots of fish but I don't get many after that little accident. And you said it was raining, well, don't talk, because we get eleven feet of rain annually and when you wash clothes, it is a break if they get dry in a week. The grass is green all the time and just a touch from some of it, and it hurts for a week. I learned the hard way.

We have a nice volcano on the island and I can't stand up straight if the ground isn't shaking away and the trees have been shot up so much you sleep with one eye open, expecting one to crash your tent. Two guys have been killed by them so far but remember I haven't mentioned the Japs.

The Japs are quite annoying at times. They are learning, I believe. I would like to tell you about that but I can't; it is a good thing to try and forget. I hope I never have to go through it again. I had a few close ones, but I came closer to killing myself than the Japs. I get to fire a lot, anytime I want to, and you know how I like that.

Alvis is in New Caledonia and was telling me all about his rifle. I have burned up more ammunition than he has seen. About the biggest objective is the food. I am getting pretty tired eating dehydrated and canned foods. I don't know what I could do with a good home cooked meal, milk ham, etc. Bill, you wouldn't happen to remember that sandwich that I made at the gin. I still laugh when I think of it. Are you working at that gin now or has she burned down again. And that hunting is something I can't forget.

Are they still training bombardiers at Childress? I have seen

those boys in action. They pay off if they hit. I have been through several air raids. You get nervous and crawl a little deeper in the hole and if you don't have a hole, it doesn't take long to fix one and that's another point, I have lived in a dam hole so long, I am ready to join the gopher union. Cigarettes are all that keep me alive. I smoke about a carton a week. I am losing weight, I did weigh 170 now weigh 163 but I have another year before I can give you that licking, or have you backed out.

Several of us are thinking about going to Alaska but mom doesn't want me to go. I think it is a pretty good deal, if I ever get out of this two-bit army. A young guy like me, not married and no children, I don't stand a chance, but when I do get out, I won't be responsible for anyone but myself.

Boy, I am really having a hard time writing this. About half of the company is in our tent having a bull session. The usual subject you know.

Boy, I have a cold that won't quit. But that isn't news, everything seems wrong with me. A pretty bad case of acne, athlete's feet. I expect my toes to stay in my sock some time, and my wrist is sprained, and not long ago I broke my right arm at the shoulder while swimming in the beach. Those waves get pretty rough at times and we had a small hurricane the other night.

A-S Kenneth M. Wallace is here visiting with his parents Mr. and Mrs. C. H. Wallace. He has recently completed 16 months of Naval V-12 training at Warrensburg, Mo., and will report November 29 to Northwestern University, Chicago, for midshipman school.

Cpl. H. B. Gilmore came Sunday for a visit here with his parents, Mr. and Mrs. H. B. Gilmore. He has been stationed with the Air Transport command at Bergstrom Field, Austin, and reports November 12 to Bear Field, Ind.

Sgt. Wesley Hammonds of Amarillo Army Air Field visited here last week-end with his mother, Mrs. O. L. Hammonds.

A-c and Mrs. Jack Battle came Thursday from Albuquerque, N. M., for a visit with her parents Mr. and Mrs. Henry Scott. Aviation Cadet Battle left Monday for San Antonio and Mrs. Battle remained here with her parents.

Pvt. Coy Beninger in McCloskey Hospital

Mrs. E. S. Ryars has returned home from Fort Worth where she visited with her parents, Mr. and Mrs. A. E. Beninger. She also visited her brother, Pvt. Coy Beninger, who is in McCloskey Hospital at Temple.

Private Beninger arrived in the States October 10 after being

wounded August 17 in France. He was flown from France to England where he was given treatment. He holds the Purple Heart for wounds received in North Africa. The Oak Leaf Cluster was awarded to him for duty in France and he was also in the invasion of Sicily.

"It was rough at times," is all that Private Beninger has to say of his service overseas.

Pvt. Curtis Berle Bevers visited last week-end with his wife and parents. He is stationed at Camp Wolters. Those visiting Sunday in the home of Pvt. and Mrs. Bevers were Mr. and Mrs. L. E. Nolan and family of Ash-tola, Mr. and Mrs. A. S. Bevers and Mr. and Mrs. Robert Bevers and son.

T-5 Oscar T. Gerlach, husband of Mrs. Dessie M. Gerlach, Memphis, is serving with the 561st Engineer Boat Maintenance Company which recently received the first Meritorious Service Unit Plaque to be awarded by Allied Force headquarters.

The award was for "The outstanding and superior manner in which this company maintained salvaged and repaired assault landing craft contributed materially to the success of the supply of the Anzio Beachhead and the invasion of Southern France. Through the untiring efforts and the demonstration of outstanding performance of duty of the personnel of this unit, the craft used by the U. S. Navy in these operations were maintained at the highest level of efficiency."

Every 17 seconds (day and night) a vitally needed car is junked

THE DANGER LEVEL in number of automobiles in use is rapidly approaching. Out of 30,000,000 cars, 6,000,000 or one in every five have already disappeared from the highways. And of those remaining, more than 5,000 every day go to the scrap heap!

Says the Office of Defense Transportation: "Private automobiles must perform three-fourths of the essential local wartime transportation service... Street cars, buses, and rapid transit lines can haul only a small share, approximately 25 per cent of the essential load."

So Care For Your Car For Your Country by enlisting the aid of your Phillips 66 Service Man. He is ready and waiting to help you.

At least once a week, give him the opportunity of checking air pressures... inspecting for nail holes, cuts, and bruises... examining tires so that he can warn you when re-capping is imperative.

At the same time, he will inspect the battery, air filter, and cooling system. And at regular intervals be sure to have him lubricate every friction point specified by the maker of your car... and make either the seasonal or the recommended every-sixty-day oil change.

Every Phillips 66 Service Man shares with you the responsibility of guarding that part of America's mileage which remains in your car and tires. So get Phillips Car-Saving and Tire-Saving Service at any Phillips 66 Shield... the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

General Resume of 4-H Club Outlined by Hooser

A general resume of activities during 1944 of Hall County 4-H Club boys and girls reveals some startling figures, and shows that the work they are doing is worth while and very commendable. The following achievements were furnished by County Agent W. B. Hooser, who is one of the state's outstanding workers in the 4-H Club movement:

HONORS AND AWARDS

For the past two years Hall County 4-H club boys have won first in the County Contest at Amarillo by exhibiting 15 best calves in the show. After the committee had sifted the calves closely at the Amarillo Tri-State Fair, only 54 beef calves were left in the show, and 18 of these were exhibited by Hall County club boys. Sixteen of the 18 calves drew down prize money and the boys were indeed proud of being privileged to exhibit, one-third of the entire show.

The club boys also won the county group of 15 calves in Amarillo this year, which was the second time in succession. Over \$250 in prize money was won in this show, and 18 calves were sold at auction for an average of 24.73 cents a pound. Jim Hutchins of Estelline led his top calf into the arena at the auction and Hon. Grover Hill, under-secretary of agriculture, made a speech to the audience saying he met Jim Hutchins in Chicago a few months ago, after he had just won the National Safety contest, winning over boys of the 48 states, and suggested that the buyers give Hutchins, a boy who had fed the equivalent of 81 soldiers in 1943 a good price for his calves. As a result they gave Hutchins 35 cents per pound for them.

Jim Whaley of Estelline exhibited the grand champion baby beef at the annual 4-H and FFA show in Memphis March 4. Jack Moreman of Brice won the reserve championship with his 750 pound calf. The 61 calves of this show sold at auction for an average of 20 cents per pound. Bruce Gibson of Turkey won 5th and 10th place with his Duroc barrows in the Fort Worth fat stock show, and sold them at 16.50 per pound average.

INDIVIDUAL AWARDS

Individual awards and honors by Hall County 4-H Club contestants are many, as follows: Laddie Sloan won first place in the State in the Food for Victory contest and will receive an all-expense-paid trip to the National 4-H Club Congress to be held in Chicago December 3 to 6.

The selection of the State winners for the Food for Victory contest was based on the number of service men the food produced by the member will take care of for one year, together with his leadership and other wartime activities. Don Hancock and Don Hillis won leadership awards from the Danforth Foundation in St. Louis. Jim Hutchins won a gold medal, first for the county, in the Wilson Meat Animal Contest.

One of the most outstanding achievement awards won by 4-H Club boys and girls this year was in the National Safety Contest. Laddie Sloan won a \$25 bond. Ten gold medals in this contest were won by Bruce Gibson, Turkey; Don Hancock, Lakeview; Harold Rampy, Lakeview; Billy Hancock, Lakeview; Carrol Fowler, Lakeview; Jack Moreman, Brice; Don Hillis, Lakeview; Jim Whaley, Estelline; Tommy Gattis, Brice; and Laddie Sloan, Estelline.

In the 16 4-H Club meetings at the beginning of the year, the Safety program was explained to each member of the club and many things were accomplished as a result of this program. Simple conservation practices were carried out on many farms. Representatives in each club encouraged the ranchers and farmers in their communities to plan fire guards 6 feet wide around their premises.

Each club member gave a special report in regard to the Safety activities they had carried out to prevent accidents and fires, to prevent diseases and parasites of livestock and crops, care and repair of farm machinery, trucks, factories, cars, electrical appliances, and household goods. Nails and tacks were picked up on many farms in order that the tires on tractors and cars might last longer.

As a result of this contest members in many of the clubs were given information on rat-proofing of out buildings and granaries in order to prevent rats and other rodents from eating the grain. Fire prevention was practiced in all of the clubs and the 4-H teachers, leaders, spent an entire club meeting on prevention

of fire at school, on the farm and in the home. Hall County was the outstanding county in the State in the Rural Electrification Contest and will receive a scroll for its award. Sixteen 4-H clubs participated in this contest. Laddie Sloan placed second in the State in the contest.

Laddie Sloan placed high in the State in the National Dairy contest.

Following an essay contest last Spring, Sears-Roebuck Foundation, presented eight gilts and a boar to the winners in Hall County. Don Hancock was winner of the boar. Jim Hutchins, Dor Hillis, Billy Hancock, Don Byars, Joe Neal Bevers, Jim Whaley, Laddie Sloan, and Tommy Gattis were winners of the gilts. Tommy Gattis won second place, in the swine show and Jim Hutchins was awarded the grand champion prize in the same show which was held in Memphis, the grand champion prize being a Jersey heifer.

Tommy Abrom of Newlin won third place at the district encampment in rifle shooting.

The following boys won trip to the District Encampment which was held at Lake McClellan by doing the most outstanding club work: Bob Ellis, Memphis; Houston Polasek, Memphis; Jimmy Joe Stephens, Lakeview; Bruce Gibson, Turkey; Kenneth Crawford, Memphis; Joe Neal Bevers, Lakeview; Don Hillis Lakeview; Whaley Markham Parnell; Carroll Fowler, Lakeview; Tommy Gattis, Brice; Don Hancock, Lakeview; Bobby Denson, Hulver; Bobby Hanna, Turkey; Jackie Lee Milton, Lakeview; Joe Booth, Lakeview; Darrell Childress, Memphis; Tommy Abrom, Memphis; Marion Posey, Memphis; Edwin Harper, Memphis; Donald Byars, Lakeview; Robert Hutcherson, Memphis; David Horace Duvall, Lakeview; Jim Whaley, Estelline; Sammy Stout, Estelline; Laddie Sloan Estelline; Gale West, Memphis; Jimmy Bounds, Memphis.

Jim Whaley placed first in the county and high in the State in the Victory Garden contest. The four other boys who won gold medal awards are: Jim Hutchins Estelline; Harold Rampy, Lakeview; Laddie Sloan, Estelline; Jim Whaley, Estelline.

Jim Hutchins won first place in the county and entered the State National Leadership contest. Jim Hutchins won first place in the county and entered the State Achievement contest.

Jim Hutchins won a gold medal in the horse and mule contest. Laddie Sloan entered the Extension Service Cotton contest and won first place in the county and will receive a gold medal in the State contest.

Jim Whaley won the County Achievement award.

Jim Hutchins won first place in the county and entered in the State Soil Conservation contest.

Billy Martin Salmon was entered in the Extension Service turkey program.

4-H Club boys have helped to

produce and conserve many ways. The following number of head of other livestock, flocks and the acreage of food and cotton they have produced in the year of Dairy products — Livestock: Beef cattle — Swine — Garden (acres) — Cotton (acres) — Crop (acres) — Milo (acres) — Goats

The above food items equivalent of 727 soldiers been fed by 4-H Club girls this year.

The 4-H Club members County are striving for the Good Neighbor spirit and abroad with 904 participating in fine activities, caring for machinery or repairing it, and storing needed food and demonstrating waste practices which have been them, to non-4-H members as members of their own and boys and girls who yet become 4-H members.

Abraham Lincoln was president of the United States to be under actual enemy, in time of war president. It happened General Early's raid on ton in 1864. The Civil war opened fire while Lincoln was standing in Frontenac, north of the Capital.

Every enlightened child knows that disease are ever present, doing deadly work. They insist eat and the air we breathe the normally healthy can't throw off these diseases without harm or hazard. It is when we become "down" — when our resistance is low — that danger lurks. We become easy prey for germs and infections. So, watch your step! If you are not feeling physically fit, better go to a Physician right away. Let him prescribe for your present condition. And be sure to follow his prescription here for a size, careful composition.
