It surely will save me a lot of extra foot work and chin music, if you will send checks now. Thanks.

Mrs. D. L. C. Kinard Is Honored With Luncheon by Members of Study Club

Honoring one of their own members, Mrs. D. L. C. Kinard, who is vice president of the seventh district of Texas Federated Women's Clubs, the 1913 Study Club sponsored a luncheon last Thursday at the home of the president, Mrs. Jessie Jones. Also present for the occasion was Mrs. Raymond Harrah of Pampa, president of the seventh district.

Lunch was served from small tables, each of which was centered with a miniature bouquet. Spring blossoms were used throughout the house. Dainty handkerchief gifts marked the places of the two honored guests.

Following lunch, Mrs. Jones read a beautiful poem in honor of Mrs. Kinard, who responded graciously. She, in turn, presented Mrs. Harrah.

Mrs. Harrah spoke briefly on the part women will play in the post-war world and the responsibility that rests on them as club women and home makers. She urged that women keep informed on the question of the hour and do something about it. "International peace," she said, "depends upon cooperation of mankind in the world and a new heart, or religion, in man."

Mrs. Harrah went on to say that we are living in a technical age which has outrun our social and spiritual development, and that it is time for us to catch up. Present for the luncheon in addition to the two honored guests were Mesdames R. C. Walker, T. J. Dunbar, R. E. Baldwin, M. McNeely, T. M. Harrison, R. S. Greene, Mac Tarver, James F. Smith, Joe DeBerry, Byron Baldwin, R. C. Lemons, L. W. Stanford, Adrian Odom, Gayle Greene, Horace Tarver, Jessie Jones, and Miss Mary Foreman.

tion, Rev. C. A. Strickland, pastor of the Church of God.

Choirs of the various churches of the city will join together to form the nucleus of the singing, sponsors of the program said. In addition, the audience will aid in the singing.

The sunrise services were begun several years ago, after the amphitheater had been constructed. During war years, however, the programs were discontinued, and the affair this year will be the first in a number of years.

P.-T. A. at Plaska To Sponsor Play

The Plaska P.-T. A. and the needle club is sponsoring a play, "Don't Be Bashful," presented by the senior class of Lakeview. The show will be given April 17 at the Plaska school.

BAPTIST BROTHERHOOD TO MEET TONIGHT

Members of the Baptist Brotherhood group will meet tonight at the First Baptist Church at 8 o'clock, it was announced this week.

The program will be in the form of a question and answer affair, modeled after the Dr. I. Q. radio program.

Clayton and Ralph Srygley are spending this week in Littlefield with their uncle and brother, J. M. Srygley and his family.

Stamford to Have Cowboy Reunion

Directors of the Texas Cowboy Reunion, Inc., confirmed the tentative dates of July 2, 3, and 4 for the 17th Annual Texas Cowboy Reunion which were set at a meeting last fall. The annual affair, held in Stamford, exceeded all previous attendance records in 1945.

W. G. Swenson, president, presented a plan for a special calf roping event for servicemen and ex-servicemen which was accepted unanimously by the directors. Winner of the event will receive a hand-tooled saddle. The ten low roping servicemen and ex-servicemen in the previous two day go-round will compete at the night performance on July 4 for the saddle. All servicemen and ex-servicemen of World War II will be admitted free except for government tax at that performance to witness their buddies' successes and failures. Roping is an event that requires constant practice, a deft touch and split-second timing, something the boys in service the past four years have missed.

for the first Hall County man losing his life in World War II. Before the post can be named for a deceased individual, the consent of the nearest of kin must be obtained, it was explained.

Discussion on the permanent meeting place was also held, although no definite decision on this matter was reached.

The VFW, open to all veterans who served overseas during his or any war, was first started at the close of the Spanish-American war.

New members are being sought daily by the organizers of the local chapter. The initiation fee is \$2 with annual dues \$4. Queneer explained, and the entire \$6 is collected when a veteran makes his application for membership. As many members as possible are wanted by the time the post is instituted, he said.

Present members who are eligible to accept applications include Queneer, A. L. Wilson, Ted George, Lester Campbell, Bob Ayers, Jack Walker, and Buck Frisbie. District President, Federated Clubs, Honored at Coffee in McMurry Home

One of the social highlights of the week was the coffee given by the Delphian Club honoring Mrs. Raymond W. Harrah, president of the seventh district of Texas Federation of Women's Clubs. Also honored at the affair, held in the home of Mrs. J. S. McMurry last Thursday morning, were Mrs. D. L. C. Kinard, district vice president, and Mrs. Lloyd Hicks of Pampa.

Guests were greeted by the hostess, Mrs. McMurry. Mrs. Harry Womack, co-hostess and club president, made the welcome address and presented Mrs. Lloyd Hicks. Mrs. Hicks, former Memphis resident, introduced the guest of honor, Mrs. Harrah.

Mrs. Harrah's address was concerned principally with club federation, and was described as "interesting and enlightening." Mrs. D. L. C. Kinard spoke briefly at the conclusion of the federation president's address.

Entertaining rooms in the McMurry home were decorated with bouquets of artistically-arranged cut flowers. The dining table was laid with damask linen and appointed with hand painted china and silver. Centerpiece was an arrangement of large yellow tulips and pale orchid stock in a sterling silver bowl.

Mrs. Lynn McKown poured coffee from silver coffee service and Mrs. O. R. Saye, Mr. Jack Boone, and Mrs. Sante Grassiana assisted in serving. During the social, Patsy Sue Hays played piano selections.

Attending were Mesdames Raymond W. Harrah, honoree, Lloyd Hicks, D. L. C. Kinard, Herschel Combs, A. W. Howard, Sidney Baker, J. L. Barnes, Jack

Boone, W. C. Davis, Otho Fitzjarrald, Doyle Bunch, O. R. Goodall, Hal Goodnight, C. C. Hodges, H. J. Howell, Clyde Milam, O. R. Saye, J. W. True, R. H. Wherry, Henry Hayes, Sante Grassiana, and Misses Billie Blackwell, Patsy Sue Hays, and the hostesses.

Miss Wanda Ward Becomes Bride Of Charles M. Morris in New Orleans

Miss Wanda Ward and Charles M. Morris, gunner's mate second class, were married in New Orleans March 6.

Miss Ward, who is the daughter of Mrs. Joe Marcum of Amarillo and granddaughter of Mr. and Mrs. T. V. Ward of Memphis, was attired in a pastel blue suit with black patent accessories. For something old she wore an antique pin belonging to her aunt, Mrs. Lloyd Ward; something borrowed was a necklace owned by her cousin, Jane Ward. The new and blue articles were her wedding dress and accessories.

The bride was a Memphis high

school senior, class of '46. Morris is the son of Mr. and Mrs. Clyde Morris and graduated with the class of '42. He entered the navy in July of the same year. Mr. and Mrs. Morris are making their home in New Orleans.

Mr. and Mrs. John Barber came home from Oklahoma City Tuesday where they attended the funeral of his brother, Rev. W. A. Barber.

Mr. and Mrs. Cleve Taylor are hosts this week to their son and his family, Mr. and Mrs. James Taylor and children of Fresno, Calif.

Atalantean Club Compliments Visiting President of Texas Federated Clubs

Complimenting Mrs. Raymond Harrah, seventh district president of the Texas Federation of Women's Clubs, and Mrs. L. M. Hicks, both of Pampa, the Atalantean Club entertained with an elaborately appointed formal Easter tea last Thursday in the home of Mrs. C. W. Kinslow. An estimated 125 guests called during the afternoon.

The entertaining suite of rooms was softly lighted and reflected spring beauty in the artistically arranged vases of red tulips, Easter lilies, lilac, bridal wreath, and iris in tones of orchid and white.

The guests were greeted at the door by Mrs. C. W. Kinslow while Mrs. Claud Johnson, president of the club, received and introduced them to the honored guest, Mrs. Harrah, and Mesdames L. M. Hicks and Guy W. Smith, both former members of the Atalantean club.

Mrs. J. A. Odom, chairman of the social committee, and club members of the house party entertained with the usual exchange of friendly greeting and conversation while Miss Gertrude Rasco at the marimba played softly throughout the afternoon.

Guests were invited into the dining room by the members of the club, who also assisted with tea service. The table was laid with an embroidered white linen cloth, symphonious in appointments of crystal and silver. The

artistically proportioned floral centerpiece of white iris arranged in a low, flat bowl further accented the spring theme.

The sandwiches were daintily fashioned in the forms of orchid rain lilies, yellow calla lilies, and the white madonna or Easter lily. The mints in all of the pastel colors were fashioned to represent milady's Easter hats, while the cakes were typical Easter baskets filled with pastel flowers. Chocolate flower pots held pastel hyacinths with a dash of green representing the backdrop of spring.

Seated at the tea table and pouring were Mesdames C. W. Broome and J. H. Morris for the first hour, Mesdames N. A. Hightower and C. R. Webster for the second hour, and Mesdames D. A. Neeley and D. J. Morgensen for the last hour.

Highlight of the afternoon, following the reception of the guests, was an informal hour in which Mrs. Harrah gave a very inspiring talk urging closer cooperation between the three divisions of the Federation of Women's Clubs.

A miniature bride held a white corsage at Miss Merrell's place, and favors for the attendants were of pink roses tied with blue. Boutonnieres for the ushers were white carnations. Members of the party made appropriate toasts to the honored guest.

Guests were Mr. and Mrs. Leon A. Triggs Sr., Mrs. A. C. Triggs, Mr. and Mrs. L. B. Merrell, Mrs. John T. Sims, Mr. and Mrs. J. H. Morris, Nettie Sims, Mrs. John T. Sims Jr. and daughter Jean, Mrs. Millard Ward, and Don Tarver.

The wedding party was composed of the bride-elect, Miss Merrell, Mr. Triggs, Misses Betty Jo Cook, Will Ann Nash, Bobbie May and Sarah Stephenson, and Jean Sims, and Messrs. Ted Larrabee, Glenn Packwood, Bob Klieg, Manning Trewett, and Don Q. Tarver. Other guests attending were Mr. and Mrs. Leon A. Triggs Sr., Mrs. A. C. Triggs, Mr. and Mrs. L. B. weather came instead—and wheat is needing moisture badly. Rain at the right time would put more bread in the mouths of hungry people.

Spring is definitely here, even if it should come freezing weather later. The black locust trees are in heavy bloom—said to be a sure sign of spring. Also, lots of blooms indicate bountiful crops, it is claimed.

Lilacs, fruit trees and such have done their blooming, and spirea blooms may be seen all over town. Isn't it a shame that all these beautiful blossoms don't stay on all summer?

Matilda Upstart of West Noel street says: When a woman says she won't be a minute, she is usually right. . . There is about as much logic in reducing the size of a loaf of bread to save food, as there would be in reducing the size of a watch to save time. . . My neighbor's kids have just bought a set of books on the Psychology of Handling Parents.

In case you read only my comments, let me call your attention to a letter elsewhere in this paper written by Mr. A. L. Hall, in which he calls attention to some things about Memphis that needs attention and correction. Thanks, Mr. Hall, constructive criticism is good—like a dose of castor oil being hard to take, but does good just the same. Perhaps your letter will result in some wholesome improvement.

Business men could improve the parking situation on Saturdays, as Mr. Hall suggests. One can get an idea of how many such cars are parked by checking some day during the week when only town folks are in town. This situation

Still nothing to report on Fairview Cemetery clean-up, as per usual. Well, it won't be long until next winter when the weeds will be dead again and won't have to be cut down. Isn't this a fine old world?

Bill Phleuger of West Main street says his average income is about midnight. . . It's quite safe to kiss the bride after the ceremony, but not ten years after. . . Many a man didn't have a rag on his back when he got married, but does now.

Nutshell items from Washington concerning you: Senate committees consider subsidies and price ceilings on existing homes or unimproved lands to prevent excessive prices and speculation profits in the sale of housing; consider creating agricultural lending agency and a public farm appraisal system; urge approval of a national health program under which federal aid would be given to the states. House committees urge price control extension; working on program designed to improve the conservation and distribution of grains and feeds; voted to extend draft law nine months. The Senate debated increasing wage levels to 65 cents.

The association will seek approval of construction of a bridge across Mulberry Creek, just south of the Donley County line. School Trustee Election Held

Election of trustees for common and independent school districts throughout the county were held last Saturday. For the Memphis independent district E. E. Cudd, Roy Coleman, and T. B.

Rogers were re-elected with 15 votes each.

Returns from the rural areas were not made available to The Democrat but will be announced in a later issue. Indications are that voting was extremely light throughout the county.

Legion to Have District Meet

Two full days of business and entertainment activity have been scheduled for the spring convention of the 18th district of the American Legion to be held at Childress Saturday and Sunday, April 13 and 14, with Lewis P. Fields of Amarillo, district commander, in charge.

A number of Memphians will attend the meeting, members of the local post said this week.

Childress, the host city, has arranged through Post Commander Leonard King an outstanding series of entertainment events. Two American Legion dances have been scheduled for Saturday evening. The 40 and 8 will also have a dinner Saturday evening.

Joint sessions of the legion and auxiliary will be held at the Childress High School auditorium starting at 9 o'clock Sunday morning. A feature of this meeting will be a mass initiation of new Legionnaires to be conducted by the degree team of Voiture No. 669, Amarillo, of the 40 and 8. Sid A. Lowery, Austin, department service officer, will also conduct a school during the morning for county service officers in Commander Field's district.

Department Commander Herman G. Nami of San Antonio and the Department Auxiliary president, Mrs. Kelly Farrar of Breckenridge, are expected to attend the convention and speak Sunday morning. In the afternoon there will be separate meetings of the legion and of the auxiliary.

A district commander and district vice commander, delegates, and alternates to the national convention, to be held in San Francisco next fall, are to be elected.

Under Commander Field's dynamic leadership the past year the 18th district has achieved one of the largest memberships of any of the 22 districts. With a quota of

2,735 for 1946, the district has already enrolled 7,245 members for this new legion year which practically trebles the quota.

HEATH FURNITURE COMPANY FORMAL OPENING SATURDAY

Formal opening of Heath Furniture Company is scheduled for Saturday, April 13, Joe F. Miller, manager, announced today.

The store, which is located in the Hollis Boren building on Commercial, had set no formal opening date due to lack of some merchandise, which has been arriving now for several weeks.

The store here is one of four which are operated by Heath Furniture Company. Others are lo-

located in Amarillo, Clarendon, and Plainview.

Joe F. Miller, local manager, owns an interest in the Memphis store, and he recently purchased a home on South 9th street. Mrs. Miller and their three children are residing in Amarillo, but will move here about May 1. The eldest child will remain in Amarillo until school closes the latter part of May.

Miller was with Heath Furniture Company for three years prior to joining the Navy several years ago. He received his discharge last winter, and since that time has been devoting his time to establishing the store in Memphis.

Assisting Miller in the new business will be two local men. They are Dan McCollum, resident of Memphis for a number of years, and Warren Graham, veteran of World War II.

The building which houses the furniture store has been completely remodeled and repainted in order to more effectively display the stock.

A double-page ad on pages 4 and 5 of this section calls attention to the formal opening of the new business.

Wayland to Build New College Dorm

A special called meeting of the board of trustees for Wayland Baptist College in Plainview April 2 authorized its building committee to award a contract for a dormitory for men. The building will house 88 men and is to be constructed by Neill Singleton of Amarillo from plans drawn by architects Emmett F. and James F. Rittenberry of Amarillo.

The building will embody unique features in that each eight men will have complete living quarters, including rooms for each two with adequate storage closets, and a living room for the group. The building will have eleven such units besides the reception rooms and living quarters for the matron.

Ford Production Now on Increase

Production of cars and trucks by the Ford Motor Company since last July 3 has passed the 200,000 mark.

The total number of units made in the Ford plants was 201,829, as of March 28. This total is made up of 102,114 automobiles and 99,715 trucks.

M. L. Bricker, vice president in charge of manufacturing, said numerous obstacles still remained, including procurement of steel, threat of a coal strike and the fact that many Ford vendors still are closed due to labor difficulties.

J. R. Davis, director of sales and advertising, has forecast Ford production of 100,000 units in May if there is no halt in output.

COUNCIL ISSUES NOTICE AGAINST PROPERTY LOSS

CHILDREN CHARGED WITH DESTRUCTION OF LOCAL PROPERTY

Destruction of private and public property on the part of children of Memphis this week prompted the city council to issue a warning against further damage, with resulting penalty to those children caught if the destruction does not cease.

A large amount of destruction has been occurring, councilmen stated, and most all of it has been due to acts of children. It was pointed out that it is not the desire of officials to arrest children, unless there is no other method of protecting property.

"The number of lamp bulbs broken and electric signs damaged each month amount to more than 100 items of loss. This waste and destruction must stop," the notice from the councilmen said.

"Children carrying air-guns will be hereafter barred from the business district and any one, regardless of age, caught destroying or damaging any private or public property will be arrested," it was stated. "A number of young people have been caught in acts destroying property and released with a warning. This has not stopped their unlawful conduct, so arrests will be made and parents notified."

The councilmen requested all parents to cooperate to prevent any unpleasant situations.

The Democrat Upheld YOUTH CANTEEN ADVOCATED

(Editor's Note: Three weeks ago The Democrat published an editorial concerning the youth of the city and their inability to find sufficient recreation during the evenings. In the editorial, the belief was expressed that a youth canteen should be sponsored, and regular weekly, supervised dances be held. The following week a reader of The Democrat wrote an answer to this editorial, more or less condemning the suggestion that well-supervised dances be held for the youth of the city. Below is an answer to the answer, written by another Memphian. The name of the writer is not being published with the article, but may be obtained upon request at The Democrat office.)

In the open letter to youth printed recently, the anti-dance, anti-recreation, anti-pleasure author made a beautiful and inimitable presentation of gross impracticality.

In deciding The Democrat editorial of the previous week, he lost the subject entirely, wandered into a sermon, and suggested no solution of the youth problem even slightly comparable to that proposed by the progressive author with whom he contended.

Perhaps this excited zealot can yet remember his teen-age life, and recall that all his recreational hours were not passed in prayer. The prayer panacea is as workable for youth as age, but it can never be employed in substitution of the natural desire for entertainment.

The youth of Memphis urgently need a place to gather and enjoy the company and pursuits of youth. There is no reason for the town fathers to assume that by forbidding dancing they halt it—in actuality, their restrictions on the pastime only serve to drive the city youth to out-of-town, inadequately sponsored establishments. A center which refused to accept the gals-in-slacks and boys-with-a-bottle trade could offer youth all that it requires, and yet maintain a wholesome, entirely proper attitude.

The observations on the impurity of dancing made in the article are obviously from one who doesn't dance. Of course, for a person whose thinking persists on such a level as apparently his must, dancing would be an abominable evil. But for youth as a whole, who just dance as they bowl, or play tennis, or have dates, there is no wrong involved.

I should like to commend The Democrat on its recent editorial suggesting a youth canteen, and endorse perpetuation of the campaign until the city can see clearly enough to act and provide the youth with a good place to go.

He is the grandson of Mr. and Mrs. Lester Vaughn of Memphis, and great-grandson of Mr. and Mrs. S. P. Phillips of Estelline.

Cover Flower Seeds With Soil That Will Not Crust

When your garden soil contains clay, a special sandy mixture is best for covering small flower seeds.

With flower seeds, even more than with vegetables, the depth to which they are covered, and the light, porous character of the soil that covers them, is of vital importance.

The rule as to depth is that seeds be covered four times their diameter. This is obviously too precise for practical use, since some seeds are so tiny it would take a micrometer to determine the sowing depth. There is no need for such precision, but the practical way to proceed is merely to press the tiniest seeds into fine soil and sprinkle just enough earth over them to cover; while larger seeds are placed deeper, in the proportion indicated by the rule.

This covering soil is more important than the soil below the seeds. If your garden has much clay, and you have a limited amount of humus, the best place for it is over the seeds. The main point is to prevent a crust from forming,

and it will pay in many cases to prepare a special soil for covering. Mix a third of your best top soil, passed through a sieve, with a third coarse sand, and as much peat moss, or humus from the compost pile.

When flower seeds are sown in rows, fertilizer is best applied in shallow trenches in each side of the drill, just as with vegetables. But when a group of flowers, or a single plant is wanted in one place, sow the seeds just as you would when sowing vegetables in hills.

Scoop out a shallow depression, and mix with the soil at its bottom a tablespoonful of balanced plant food; covering this with fresh soil so that the hole is nearly filled. Then sow the flower seeds, and cover lightly with garden soil, or the specially prepared soil which has been described. Mark the spot with a stake, so you will not disturb it with cultivating tools before the seeds sprout.

A Rose By No Name—

HORSE LOTS NOT WANTED

Editor's Note: The following letter was received this week from a reader of The Democrat. This reader is interested in the new anti-curb service ordinance from a health standpoint and proposes another for the betterment of public health. The name of the writer is not being published by request.)

In last week's issue of The Democrat I noticed an ordinance has been issued forbidding any food or beverage being served on the downtown square due to health reasons and traffic congestion.

I am deeply and earnestly interested in the health angle. I propose the issuance of another ordinance which I believe should be enforced.

I propose that an ordinance be passed prohibiting horse lots and barns, cow lots, hog pens, or any other means of confining animals within the city limits which cause odors and flies that jeopardize the public health.

I do not know of anything that is more unpleasant than trying to eat one's meals and at the same time trying to keep from inhaling the odors from neighbor's horse and cow lots or hog pens.

This city is small enough to enforce a health and sanitation law that all land owners of private or rental property be forced to have a sewage system on that property and eliminate the outdoor privies that prevail over the city.

Yes, Memphis does need some health laws and rules and they certainly need to be enforced. While our city councilmen are sitting on the square making new ordinances for sanitary reasons, suppose they take in the city as a whole and not just around the square.

For the reason that I have a few neighbors who have cow and horse lots with as many as 10 to 15 horses in them at a time, I

am asking that my name not be printed.

However, no matter how good the neighbor, the horse and cow lots smell no sweeter by any means.

Yours truly,
A Reader of The Democrat.

EXPLAINS LAW; ISSUES NOTICE

ANTI-CURB SERVICE ORDINANCE EXPLAINED

By reason of the fact that City Ordinance No. 302, known as the anti-curb service ordinance has been misunderstood by many citizens of Memphis, the following explanation is given:

This ordinance prohibits the owner or employee of any store from making deliveries of food and drinks outside their place of business; but does not restrict the privilege of any customer from purchasing such items and carrying them anywhere that he may desire.

If a customer desires to purchase prepared food or drinks and carry them on the outside of the store, where they are exposed to flies, insects, and other unhealthful elements, the ordinance does not prohibit such acts on the part of the customer.

The purpose of the ordinance is to prohibit the serving of these items by the stores and thereby fabricate in this unhealthy condition to the detriment of the community.

Memphis City Council.

Miss Mary Frances Whaley, president of North Texas Teachers League in Denton, visited over week-end with her parents, Mr. and Mrs. Elmo Whaley.

Bobbie Jack McMurry of Dallas visited last week-end with her parents, Mr. and Mrs. Gip McMurry.

NOTICE TO PARENTS

The damage to public and private property in Memphis caused by malicious destruction of the part of children has reached a high figure for a town of this size.

This condition should be corrected by the parents because it is not the desire of the officers to arrest children unless there is no other method of protecting property.

The number of lamp bulbs broken and electric signs damaged each month amount to more than 100 items of loss. This waste and destruction must stop.

Children carrying air-guns will be hereafter barred from the business district and any one, regardless of age, caught destroying any private or public property will be arrested. A number of young people have been caught in acts destroying property and released with a warning. This has not stopped their unlawful conduct, so arrests will be made and parents notified.

All parents are requested to cooperate in order that property damage will be prevented and any unpleasant situations will be avoided.

Beans One of Big Three Victory Garden Crops

Pick beans at their best, and can small surplus lots for winter use.

Snap beans rank with carrots and tomatoes as the big three among home garden vegetables, which every garden should grow. They should never be sown until the ground warms up, because they will not germinate in cold soil.

Frost kills the young plants, and cold winds may check their growth. But sown in warm soil, they grow vigorous and quickly, the earliest bush varieties reaching table size in seven weeks. Because the seed pods are eaten, this is one of the efficient vegetables, producing heavily for the space they occupy.

There are four general types of bush beans, the green and wax (yellow) each divided into flat pod and round pod. Market beans are usually flat pod, which yield better than the round pod; and the latter have the best quality.

Between the green and wax beans there are slight differences in vitamin content, the former excelling in vitamin A, the latter in vitamin B, but both are among our most nutritious foods. In recent years few wax beans have been seen in markets; but in the opinion of many they are more tender and of better flavor than green beans.

Bush beans should not be allowed to form seeds. They are at the

height of flavor and tenderness from the time they have just begun to form, until they begin to make seeds; and they deteriorate somewhat after that. Both for the table and for canning they should be picked before seeds form, and not more than an hour before they are cooked.

If bean plants are kept picked clean, they will continue to bear all summer, producing several crops, as long as the plants are healthy. But since the first crop is always the largest, it is advisable to make several sowings in succession, so that new plants keep coming into bearing. It may be advisable to estimate your canning needs and sow a special row for putting up, so they can be harvested for that purpose. But always be ready to put up a few jars at a time, when there are more beans on the bushes than you need for the table.

In sections where leaf hoppers infest the bean plants, D.D.T. dust will be found an efficient protection against this pest, which saps the strength of the plants. The Mexican bean beetle, however, is one of the few insects which D.D.T. does not kill and where it is prevalent rotenone dust should be used.

New Cotton Insulation May Become Outlet for 500,000 Bales During Year

Cotton insulation—potential outlet for more than a half million bales of cotton annually—will become a familiar product to residents of every Texas community as a result of a statewide insulation demonstration program being conducted by the Texas extension service.

First state in the cotton belt to inaugurate a program to familiarize its people with the amazing insulation properties of this new flame-proof cotton product, Texas is leading a movement which may spread to all of the 17 cotton-producing states.

At a recent conference of extension workers at College Station, Ed Lipscomb, sales promotion director of the National Cotton Council, pointed out that cotton insulation material is superior in insulating values to the ten other most popular types of insulation currently being marketed. He said that cotton insulation is not only flameproof and fire-resistant, but that it is also lighter in weight and more resistant to packing than other materials now used.

The plans of the Texas extension service, as announced by Dr. Ide P. Trotter, state director of extension, call for practical demonstrations of the effectiveness of cotton insulation in virtually every Texas town and community.

Under the direction of Alfred Pendleton, USDA extension cotton gin specialist at Dallas, thirty-seven .50 calibre ammunition boxes insulated with one inch of fire, termite and mildew resistant cotton batting and equipped with an electric light bulb for heat, and two thermometers to measure temperature, have been prepared. These are to be routed through the state to home demonstration and county agents during the next 90 days.

Results of the Texas demon-

strations at farm and community meetings will determine plans for expansion of the plan to other states.

Foreign Relations
 The Dalhart Texan: Had this nation been a little more critical of Russia and England in the past, instead of assuming a "hush, hush, you'll hurt their feelings" attitude, Russia might not have ever sent troops to Iran. Too long in the U. S. have we "catered" to the Soviet Union, too long we accepted their terms and methods. Now, instead of the respect and admiration our nation once enjoyed in the world of nations, we are looked upon as a weakling, this despite our war record. The world is now looking to the Soviet Union rather than to the Union of States in America. No, let's assert our rights before we lose them, even if we do live in glass houses.

By BOYCE HOUSE

Byron once remarked about an acquaintance that he had "just enough of learning to misquote." The Bible does not say that "money is the root of all evil." The Scriptures say that "the love of money is the root of all evil"—and that is quite a different thing.

As Lincoln said in one of his debates with Stephen A. Douglas, "Judge Douglas would have you believe that horse-chestnut and a chestnut horse are the same thing."

The Psalmist is quoted as saying, "All men are liars." But what he actually wrote was, "I said in my haste, All men are liars."

And one of the most garbled of

all utterances is Jefferson's "That government is best which governs least." If that is true, then a government (with only one law would be the very best of governments. What Jefferson said (I don't have the book at hand, so must give the substance from memory), was that after the lives, property, and happiness of the people are made secure, that government is best which governs least.

A saying of Jefferson's which many have challenged is, "All men are created equal." Of course, that is not literally true because one man is stronger or swifter of foot or handsomer or taller or more adept at making music or money or a speech than another. I think that what Jefferson meant was that all men are created equal insofar as having equal rights because, after the first statement, he adds that men are endowed by their Creator with certain inalienable rights—among them being "the right to life, liberty, and the pursuit of happiness."

So if a fellow is going to quote, he ought to quote it right—and not rip lift a sentence out by its roots from its context. "A little learning is a dangerous thing."

But even if the quotation is correctly given, it still may not be true, though a great man may have said it. Alexander Pope wrote, "Be not the first by whom the new is tried." If everyone would wait for somebody else to try out the new idea—flying in a plane or swallowing a raw oyster whole—and so all progress would cease.

A. Anisman left this week for markets in New York City, St. Louis, and Dallas. He will return to Memphis late next week.

Ensign A. J. Berry of Grand Prairie visited last week-end with his parents, Mr. and Mrs. Fred Berry of Estelline. Ensign Berry was a Saturday visitor in Memphis.

Mr. and Mrs. Fritz Chrysler made a business trip to Amarillo last week.

Press Paragraphs

SELECTED FROM THE DEMOCRAT'S EXCHANGES

Night Hawks

The Floyd County Hesperian: Reports in the press that in some towns irresponsible people are destroying property in the dark hours of night just for the heck of it seem to be a recurrence of the same kind of vandalism that followed World War II with a hangover that was evident again during the first years of the depression. A vacant or unguarded house and premises is left a shambles when one of these little forays finishes. Generally youngsters get the blame. In Floydada recently the outbreak took the form of a street light crashing crusade. It appeared that one night's performance called for another the next night, or two in a sort of a contest. During the lamp shortage the matter got to be a sort of serious one, aside from the heavy expense involved. Gangs that have that kind of complex just have to be rounded up and stopped, but that is sometimes easier said than done.

Modernity

The Paducah Post: Modern girls don't care if their hair does look like a mop—they don't know what a mop looks like.

Compulsory Training

The Canyon News: The army is confident that Congress will eventually pass the bill providing for compulsory military training. To our way of thinking it is going to be tragic when the 18-year-old boys are taken overseas to do police duty instead of being allowed to continue their education. Why not have military training in all colleges? Let youth get the fundamentals of military training while it goes to school. That was the practice before World War I, and it proved efficient. Whatever of military they learn today will be obsolete tomorrow. All they will get is military discipline, and in college it will not be handed out by tough sergeants who make outlaws of the boys.

Wise Words

The McLean News: Some folks who say they are going to heaven must be going to one more broad-minded than was taught 50 years ago.

Joke

The Donley County Leader: The old negro parson came along to where one of his brethren was hoeing in a garden that looked great. He looked over the patch and remarked: "Rastus, you ought to thank the good Lord for this kind of a garden." Old Rastus looked up from his hoeing and yelped: "Pahson, you-all jis orter seen it when the good Lawd had it all ti himself!"

Anger

Douglas Meador in the Matador Tribune: Proving to an angry man that he is mistaken is like attempting to extinguish a fire by spraying it with gasoline.

The 36th

Vincent Lockhart in the Canadian Record: I do not believe

that Mark Clark should be court-martialed. I do not believe he can be legally held responsible for tactically erroneous judgment. But he has proved that he is not the capable officer that the higher-ups have promoted him to be. His advancement has been based more on his exceptional personality and diplomatic ability—both of which are undeniable—than upon his ability as a military leader. He is headed to be the chief of staff of the army unless someone like Miller Ainsworth, Carl Phinney, and Fred Walker can stop him. They should. I believe they will. (Democrat editor's note: Lockhart, now publisher of the Canadian Record, was with the 36th division during the war.)

Prices

The Tulia Herald: Those who make a study of such things are of the opinion that prices will continue to rise during the next two years. A rise from 20 to 25 per cent is predicted on all manufactured items. Most any item of common use can be bought cheaper today than it can be bought

the city council will pass an ordinance prohibiting vitamin B-1 and other junk, and thin out the boot-vill pat them on the back. I had rather see a little down the street eating cream or a burger, than head staggering around through our women and

receiving Mr. Hall's letter, the Democrat receiving "Anti-Curb Service Ordinance Explained" city council.

reason of the fact that city ordinance no. 302, known curb service ordinance has been misunderstood by citizens of Memphis, the following explanation is given: ordinance prohibits the owner or employee of any making deliveries of food or drinks outside their business; but does not restrict the privilege of any from purchasing such items and carrying them any customer desires to purchase prepared foods or carry them on the outside of the store, where they flies, insects, and other unhealthy elements, the does not prohibit such acts on the part of the custom-

purpose of the ordinance is to prohibit the serving items by the stores and thereby lessen this unhealthy to a minimum.

Memphis City Council's planation offered by the city council replies to one Mr. Hall's letter, and it is up to Memphis to correct doings which are pointed out. Perhaps the Democrat if these or other discrepancies, and we welcome criticism. The thoughts expressed by Mr. Hall are consideration by every business firm in Memphis.

165 School Teachers of 40 Towns In Panhandle Quit Since September

That 165 public school teachers have left their jobs in forty Panhandle towns since September is revealed in a recent study.

Among this number, 60 said they quit teaching to earn more money. Others mentioned that they felt their new jobs would be less exacting than teaching.

Superintendents of the schools studied said they had a total of 117 sub-standard teachers in their classrooms, said Dr. A. M. Meyer, dean of the graduate school of West Texas State College.

In reply to a question concerning recommendations for getting—and holding—teachers of ability and good preparation, the school heads gave three:

- 1. Raise teachers' pay to "respectable" levels. 2. Make teaching loads more reasonable. 3. Establish a social status for teachers comparable with that of other professional workers.

Memphis Council Gives E Of New Anti-Curb Service

As a result of much comment concerning city ordinance 302, which has been generally known as the anti-curb service law, an explanation of the new law was this week offered by the Memphis city council.

The council pointed out that the new ordinance, passed at the last regular meeting of the aldermen, does not restrict the privilege of any customer from purchasing items of food or drinks and carrying them anywhere the customer may desire.

"This ordinance prohibits the owner or employee of any store from making deliveries of food and drinks outside their place of business," the explanation said.

"If a customer desires to purchase prepared food or drinks and carry them on the outside of the store, where they are exposed to flies, insects, and other unhealthful elements, the ordinance does not prohibit such acts on the part of the customer," the councilmen said.

"The purpose of the ordinance is to prohibit the serving of these items by the stores, and thereby lessen this unhealthy condition to a minimum."

"Last year's production in the three plants totaled 388,577,000 pounds—enough rubber to manufacture nearly 39 million passenger car tires of the most popular size now in use—and it represented an increase of nearly 56 million pounds over the 1944 production of the same plants," Ferrel said.

A substantial percentage of the company's 1945 output was GR-S-10 rubber. This, Ferrel explained, is a special variation of GR-S rubber developed by B. F. Goodrich chemists, and is an important factor in enabling the company's "first postwar tires" to actually outwear pre-war natural rubber tires.

Explanation of Ordinance

By MAE PAUL

Lee Wheeler and Mr. George Bonal of Clouderoft, were guests of Mr. and Mrs. Morehead from Tuesday through Thursday. Mrs. Wheeler spent several days in the Wheeler home in Childress visiting friends here again returning to New Mexico. Hutcherson has purchased a new and furnishings owned by Lee Wheeler.

Use of Vegetables During April, June Urged by Official

Increased use of seasonally abundant vegetables during the April-June quarter will help offset pressure on supplies of dry beans and peas which are sharply below what they were a year ago, E. A. McBryde, district director of the production and marketing administration, has announced.

Civilians will have available 900,000 one-hundred pound bags of beans for the three-month period, of 56 per cent of their estimated requirements. By June, 80 per cent of requirements will be filled, he explained. The small crop last year totaled 12,300,000 bags, cleaned basis, of which 9,338,000 bags have been earmarked for civilian use.

The amount of dry peas for civilians will be 60,000 bags. They are a minor item in the diet, however, and substantial stocks already are in regular distribution channels. While dry peas will continue to be shipped to foreign countries during the next three months, practically no beans will be available for this purpose, he said.

Ministers of the various churches of the city and surrounding communities are requested to turn in their church notices by Monday afternoon each week—not later than Tuesday noon. The notices should not be too long, in order that all churches may be accommodated. No charge is made for the publication of these notices.)

IS CHARGED—GUILTY?

ANTI-CURB service law, city ordinance 302, passed by the Memphis city council, is causing a great stir from A. L. Hall of Lakeview, which clearly is a Democrat.

In the open letter to the city council printed recently, the anti-recreation ordinance made a business man of Memphis are going a little bit nuts. As you know Memphis is supported by farming and nothing else. As I understand the law, you cannot buy a nickel cream cone, and walk down the street.

And something else, a lot of Memphis people park their cars around the curb, so when we come to get our supplies, we have to stuff a block or two.

And something else, when cigarettes were so hard to get, a pack of mine went to a drug store in Memphis and a Memphis business man came in and got a carton of cigarettes. I can get proof of what I am telling. The city council will pass an ordinance on this.
