FIRE DAMAGES AT CITY DRUG ABOUT \$15,000

ORIGIN OF BLAZE NOT KNOWN; MILDRED'S, MARTIN'S DAMAGED

Fire of an undetermined origin badly damaged the storeroom of the City Drug Store here Sunday night, starting at about 9:30 o'clock while the store was still open for business.

The total damage, including the stock which was damaged by smoke, has been estimated at about \$15,000 by E. W. Foote, owner of the store. The damage to the building, owned by S. D. Posey, was approximately \$2,000, it was reported.

Mildred's Beauty Shop and Martin's Studio located on the balcony at the rear of the store, were also damaged. The studio suffered an almost total loss, Wilfred Martin, proprietor, said, and he expressed doubt that the equipment burned can be replaced at the present time.

Foote hopes to be able to reopen his store this week-end. The stock is now being surveyed for loss and damage, and Foote plans to re-open the store when this work is completed.

Heaviest loss was in the storeroom and prescription department. It was believed that the drugs and other items in the storeroom will result in a total loss. Merchandise in the front part of the building suffered only smoke and water damage.

First of Wheat Sold in Memphis

Hall County's first load of wheat from the 1946 crop came to town Tuesday.

The wheat was raised by J. J. McDaniel on his place south of Plaska, and was sold to Hill and White, Memphis grain dealers.

The ceiling market price for top grade wheat is now \$1.57 per bushel, with dealers being allowed to pay 15 cents more than that figure for the grain. This brings the top amount allowed to \$1.72.

It was understood that McDaniel was to receive about \$1.70 per bushel for his initial load of the much-in-demand grain.

McDaniel, who with his brother Ira is associated in the implement business in Memphis, has about 300 acres planted in wheat this season. He expects the yield to be approximately ten bushels per acre.

About 9,000 acres in Hall County are planted in wheat this year, Lynn L. McKown, Hall County ACA secretary, estimated. McKown's office has no accurate check on the amount planted.

This 9,000 acres is distributed to about 200 farms in the county, McKown said. The county has a total of 1,251 farms, and about 235,000 acres, he explained.

Basing the yield on ten bushels per acre—a highly optimistic figure—the county should make about 90,000 bushels, to bring in around \$160,000 to farmers of this county.

During the days of government control on the crops planted, Hall County farmers planted only several hundred acres in wheat, and very little of this was ever harvested.

At present there is some wheat in the county which will not be harvested, but will be left in the field for feed, it was explained. No estimate of the amount not to be harvested is available.

Some of the wheat in this area is in good shape, but much of it is somewhat spotted due to the late arrival of needed rains in April and May.

Roping to Be Held Twice Each Week

Calf roping and ribbon roping will be held twice each week in Memphis, it was announced this week by the Memphis Roping Club.

The performances will be held at 3 o'clock each Sunday afternoon, and at 8:30 o'clock each Wednesday night, it was announced. Admission will be 25 cents per person.

Special attractions will include "Tojo," the bucking mule, and also "Billie," the bone breaker, members of the club said.

Floydada Boosters To Visit Memphis

Boosters for Wainwright Day in Floydada will arrive in Memphis at 1:30 o'clock next Monday, Herschell Hinson of the advertising committee for the celebration, has announced.

The boosters, featuring speeches, fun, and "Music Hop Halsey and His Drug Store Cowboys," will give a 30-minute program on the square before leaving for another city on their tour.

Good Ole Summertime Comes For Students as Schools Close

Those good old summer days, with no classes to attend, began this week for Memphis students, and drew nearer for students in the rest of Hall County.

All Memphis students were handed their report cards Wednesday, closing the official school year, Superintendent W. C. Davis said.

Other schools will close in the near future. The Lakeview schools will close May 31, but graduation exercises are being held prior to the official closing date. The Estelline schools will close Friday prior to the commencement exercises for the seniors.

Schools at Parnell, Friendship, and Lesley will end May 31; Plaska and Newlin, May 24; and Pleasant Valley, June 4.

Observing an annual rural 8th grade affair, which was not carried out during the war, the 8th grade students of the common school districts will leave next Monday for Carlsbad Cavern, returning Wednesday. It will be the first trip made by the group since 1941; prior to the war, the trip was made each year.

Seniors of some of the county's high schools are also planning to visit the caverns this year.

Commencement exercises for Memphis High School seniors were held Wednesday in the auditorium, when Col. Jay Dykehouse, of the army's 8th service command, appeared as the principal speaker. Baccalaureate services were held Sunday night at the First Methodist Church, with Rev. Aubrey C. Haynes, pastor, delivering the sermon.

At Estelline, the baccalaureate services were held last Sunday night in the Estelline school auditorium. The sermon was delivered by Rev. B. L. Peacock, pastor of the First Presbyterian Church of Memphis. The Estelline seniors will have their commencement exercises Friday night at 8 o'clock in the school auditorium. The principal speaker will be State Senator Grady Hazlewood of Amarillo.

Dr. Goodall Buys Other Interests In Local Hospital

Will Announce Later Date to Move to Former Hospital of Dr. Wilson

The interests of Drs. J. A. Odom and R. E. Clark in the Memphis Hospital structure, formerly owned and operated by the late Dr. W. Wilson, have been bought by Dr. O. R. Goodall, it was announced this week.

Dr. Goodall announced that he plans to move his hospital, now located in the building at the corner of Main and 9th streets, to the Memphis hospital building as soon as possible. He stated that he will make an announcement to that effect as soon as the remodeling of the Memphis hospital building is completed. In the meantime, the Goodall hospital will remain in the present structure.

To be associated with Dr. Goodall in the new hospital, when the move is effected, will be Dr. Edwin Goodall of Valley Mills. The two doctors are first cousins. Dr. Edwin Goodall is now a lieutenant junior grade in the U. S. navy, and expects to receive his release to inactive service about the middle of June.

Dr. and Mrs. O. R. Goodall will move into the home at the site of the Memphis hospital this week from their present home just west of the Memphis country club golf course.

Dr. Odom is now beginning construction on an office building on the vacant lots at the corner of Main and 8th streets, just across the street east of the First Methodist Church. The building is being constructed of concrete blocks.

The building now housing the Goodall hospital is in the process of being sold, Dr. Goodall said. What disposition will be made of the building when sold is not known, although rumors are that it will be made into an apartment house.

Dr. Goodall is now having a number of improvements made on the Memphis hospital building at 221 South 10th street.

Estelline Water Company Is Sold To Rogers and Son

New Owners Buy Works From Sheriff Anderson, Take Over Management

A. J. Rogers, and son H. J. have bought the interests of W. C. Anderson in the Estelline Water company, and took over management of the works last Saturday.

Anderson, now serving as sheriff, purchased the water works from the Community Public Service last December. Mrs. Anderson has been managing the business since that time.

Rogers is well-known at Estelline, having been in the grocery business there for 25 years. He sold his grocery store to Joe Pittman of Childress last September, and has been engaged in no business since then.

Bills for this month will be payable to the former owner. The company will retain the name of Estelline Water company, Rogers said.

Funeral services for Herman H. Cass, 24-year-old blind man who drowned in Tierra Blanca Creek near Hereford Sunday afternoon, were held here Tuesday afternoon at the Assembly of God Church.

Rites were conducted by Rev. C. A. Strickland, pastor, assisted by T. E. Gibson. Interment was in Fairview Cemetery under the direction of the Womack Funeral Home of Memphis.

Cass, according to County Attorney Carl Gilliland of Hereford, who investigated the case with the justice of the peace, Andy Thomas, said Cass and his former wife, Mrs. Cleo Clement, and two children, were seated on the bank of the stream; and that Cass suddenly became ill and fell in the water. Mrs. Clement jumped into the creek in an effort to save him, but she was unable to find the body in the moss.

The justice of the peace returned a verdict of accidental drowning, according to a story in the Amarillo News.

Survivors include one son, Paul H. Cass of Hereford; his parents, Mr. and Mrs. C. V. Cass of Silver City, N. M.; three brothers, Roy, Burl B., and Carroll B. Cass, all of Silver City; and five sisters, Dorothy Sims of Bakersfield, Calif., Grace Bryon of Memphis, Maxine Sheell of Whittier, Calif., and Theresa May and Mary Jane Cass of Silver City.

Legion Auxiliary To Sponsor Poppy Sales in Memphis

Volunteer workers to be on streets Saturday to offer flowers to public.

Saturday will be Poppy Day in Memphis and in thousands of other cities and towns throughout the United States.

Millions of Americans will pay tribute to the nation's war dead by wearing memorial poppies.

Millions will make contributions to aid war's living victims, and disabled veterans, and the families of the dead and disabled.

Preparations for the observance of Poppy Day here have been completed under the leadership of Mrs. Oren Jones, president of the local unit of the American legion auxiliary. Volunteers from the auxiliary will be on the streets early Saturday morning with baskets of poppies which they will offer to be worn in honor of the dead of both world wars. They will continue to distribute the little red flowers throughout the day, endeavoring to give everyone in the city an opportunity to wear a poppy in memory of those who gave their lives for America.

No price will be asked for the poppies, but contributions will be solicited for the welfare and rehabilitation funds of the legion and auxiliary. All money received will be used for the benefit of disabled veterans and families of veterans. It will be expended largely in aid to needy veterans and families in Hall County during the coming year.

The local poppy workers will be part of an army of more than 100,000 volunteers which will distribute poppies in the United States tomorrow. All will donate their services for the day without pay. The only paid workers in the poppy program are the disabled veterans who make the flowers.

Memphis on Top In Valley League

The undefeated Memphis ball team now is the lone club atop the rung of the Red River Valley League, as a result of a forfeit last Sunday from the strong Vernon nine.

Late Thursday of last week, the Vernon team informed the Memphis nine that they would not be present for Sunday's tilt, thus forfeiting the game to the local team. Vernon in the meantime has withdrawn from the league, and a successor is to be named to replace the team.

In an exhibition game Sunday on the local diamond, the Memphis team downed the Leader Jewelry team of Pampa 8 to 5.

Next Sunday afternoon, Memphis will play Clarendon at Clarendon.

Students Advised On How to Apply For S. S. Cards

The beginning of the summer vacation for school children will cause an increase in the number of applications for social security account number cards, according to a statement of J. R. Sanderson, manager of the Amarillo office.

Sanderson recommends to students who have never had a card, or have lost their original cards: Do not apply for a card unless it is actually needed. Be sure to ask for a duplicate card if the original card has been lost, as each person should have only one number for his whole working life; and, finally, be sure to show the card to each employer for whom you work, so he can copy down for his records your name and number exactly as they appear on the card.

In the Texas Panhandle area, applications for cards (which may be obtained at the Amarillo field office, from the United States employment service office, or from the post office) should be mailed or brought to the social security board field office, 324 new post office building, Amarillo.

One-way plows can't be secured, but these Graham-Hoeme plows can—and will do an even better job in wheat stubble.

Come in today. If we do not have the plow you want on hand, we will take your order and have it sent here just as soon as possible.

That Nagging Backache
May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up rights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

The seven teams are being sponsored by Texaco, Gene Corley, Magnolia, Lakeview, Hedley, Lesley, and Estelline, Kelley said. Games will be played under the lights on the high school grounds each Tuesday and Friday night during the summer, Kelley said.

GIVE NATURE A LIFT

Present-day living often imposes un-natural burdens on your system. Nature does not always provide necessary elimination. Irritated bladder, swollen ankles, aching back frequently result. Then is the time to use CIT-ROS and assist nature in providing a correct balance of pH. (Natural body fluids). Quick relief! CIT-ROS \$1.00. Is for sale by:

Stanford Pharmacy

Bleachers have been set up for the public; and since the ball diamond is on one corner of the grounds, a number of spectators may view the games from cars.

The league, Kelley said, is composed of men of all ages, and the players do not necessarily have to be attending school.

Already one practice game has been played. The Gene Corley team defeated the Magnolia team in the exhibition match, Kelley said, and from the appearance of these two teams, much good competition can be expected during the summer.

Miss Ruby Mae O'Neal became the bride of William M. Kilbride of Indian Orchard, Mass., Saturday, April 27, at 8 o'clock in the morning. The double-ring ceremony was performed in the rectory of the St. Matthews church in Indian Orchard by Rev. James A. Dunphy, with members of the immediate family present.

After the ceremony, a wedding breakfast was served to members of the bridal party and 27 guests. A 3-tiered wedding cake, topped with a miniature bride and groom, centered the lace-covered table.

The bride wore a blue wool dressmaker suit, with black and white accessories, and a pink rosebud corsage. Her bridesmaid, Miss Mary Margaret Maney, cousin of the groom, wore an orchid velvet suit, with white accessories, and a corsage of white carnations.

The groom was attended by his brother, Thomas Kilbride. Mrs. Kilbride is a sister of Mrs. Alvin Massey of Corpus Christi, former resident of Memphis. She was a member of the W.A.C. and served in the European theater.

Mr. Kilbride is the son of Mr. and Mrs. Phillin Kilbride of Indian Orchard, Mass., and served with the late General Patton's army in the European theater. He was awarded the purple heart for wounds received in action.

After a short honeymoon, the couple will be at home at 2165 Page Blvd., Indian Orchard.

Domestic sales of food and agricultural commodities for March totaled more than \$4,573,000 with 95 per cent of all returns coming from disposal of items declared surplus by other government agencies, according to Charles L. Howell, acting district director of the production and marketing administration.

Fruits and vegetables returned the largest percentage of sales, accounting for 56 per cent of the total, followed by tobacco products which totaled 15 per cent of monthly sales. Special commodities came third, accounting for 12 per cent of the total. Smaller sales during the month included fats and oils, dairy, grain and cereal products, poultry, livestock and meats.

Since the sales program got underway in early 1944, commodities sold by the U. S. Department of Agriculture have brought about \$6 million dollars.

Editorial

THE REASON WHY

ALL BUSINESS, large and small, are affected either directly or indirectly by the reverses in the industrial world of today, and The Democrat is no exception.

Most serious threat to the newspaper business at present is the newsprint shortage. All during the war, production of newsprint, that material on which your newspaper is printed, has been held down, causing most all newspapers to curtail the size of their publications.

And now that one of the larger newsprint plants in Canada which furnishes a large percentage of the paper for publications in Texas has been shut down by strike, the newsprint situation is more critical than ever. If the strike continues for any length of time, The Democrat will suffer in its effort to bring you news and advertising of Hall County.

Not only is there a shortage of newsprint, but there is also a shortage of other paper, such as the paper used for letterheads, envelopes, cover paper, etc. We are still able to procure most of our needs for giving you printed materials, but the quality of this paper has gone down to some extent. At times, when we order certain paper, the order is long delayed, or else some substitute is sent to us. Over this matter we have no control.

Machinery in The Democrat printing plant includes three linotype machines, which naturally require new parts occasionally for they are operated almost continuously each day. The company which manufactures the machines, and parts for them, is now undergoing a strike, a lay-off in production of about three months time. This fact also gives us difficulties. For example, one of the machines now is in need of a new part, and this week we received a letter from the company stating that they were still unable to supply that new part. This particular machine can still be operated with the nearly-worn-out parts, but should it break we will have much difficulty getting the machine to work properly.

This editorial is not written as a sob story on our part, but merely to explain to the readers and other customers why we are not able to produce the work we would like to be producing. Eventually, we hope, normal times will again be here, and we, along with other businesses, will be able to function normally. Until then, sympathize with us, and we will sympathize with you.

A GOOD RECORD

ALL CITIZENS of Hall County should be very proud of the results of the examinations given to the rural school children recently by the registered nurse, who visited various county schools.

Most remarkable fact is that only two children were found who had contagious diseases. Only one had signs of possible tuberculosis. Even the children's teeth were found to be in good shape, although some of the teeth had not been cared for properly.

Health is an important item in the rearing of children. As a general rule, only a small amount of care is required to retain the health of a child. That small amount should not be neglected, however, when the child is still growing up.

The health standard is high in the county at present, and can be kept that way with little effort. But that little effort must be expended—an epidemic can start from almost nowhere and grow with astonishing speed.

 The Hidalgo County News:
 Men's shirts are so scarce that
 one merchant is reported to have
 been selling them in his back
 room at several dollars above ceil-
 ing. Men's trousers, likewise, are
 hard to get. Many items of wom-

en's wear are actually more
 scarce than during the war years.
 It looks like there is going to be
 a lot of darning, mending, and
 patching before the housewives
 can cover their machines and lay
 aside their needles.

Texas has had many colorful
 figures on the bench—like Judge
 Roy Bean, the saloonkeeper, and
 Emanuel Dubbs, the buffalo
 hunter—but history has rather
 slighted Colonel Smithers (we'll
 call him that), who was justice of
 the peace at Fort Griffin when
 that town was the liveliest spot

on the frontier.

Justice Smithers was a former
 army officer. He held the rank of
 colonel during the War Be-
 tween the States, but with the
 close of hostilities he had to step
 back to his permanent rank as
 lieutenant. He came to Fort Grif-
 fin for a tour of duty shortly
 after the war and after a time
 resigned and settled down near
 the fort to make a home.

The judge was well regarded
 in the community and when the
 citizens came to see the need of
 a justice of the peace he was
 elected to office without opposi-
 tion—and held the post until the
 fort was abandoned and the Grif-
 fin "Flat" became a country vil-
 lage.

The ex-colonel, so say those
 who knew him, was one of "the
 boys," always ready to take part
 in a game of chance, or go the
 rounds of the saloons—and more,
 than once, after a festive night,
 he appeared on his bench in the
 morning sporting black eyes and
 a swollen countenance. But this
 didn't, in the least, interfere with
 his administration of justice.

Sitting back in his chair, he
 would assess a fine on his com-
 rades of the night before without
 the slightest hesitation, notwith-

standing their looks of astonish-
 ment and their muttered com-
 ments. But they knew better
 than to protest too openly for the
 colonel used more than law books
 to back up his decisions.

He kept in the pigeon holes of
 his desk—prominently placed so
 that all might behold—an ornate
 brass-barreled horse pistol and a
 long-bladed Turkish knife, and
 when the effects of too much
 firewater made some of his de-
 fendants obstreperous, Smithers
 emphasized his decisions by let-
 ting his right hand rest near the
 butt of the pistol or the haft of
 the knife. It seemed that the
 weapons—commonly called "The
 Colonel's peacemakers"—had the
 desired effect for the justice
 never had to use them. The big
 horse pistol became almost leg-
 endary.

As one cowboy described it:
 "The Colonel mows prairie grass
 for his hen nests with that gun.
 He just fills it to the muzzle with
 bird shot, then steps down into

a gulch so that his arm can come
 on a level with the grass, then
 gives a sweeping motion as he
 pulls the trigger and down goes
 the grass."

Anyhow, such stories were told
 that none among those coming
 for arraignment ever dared que-
 tion the judge's ruling—espe-
 cially after getting a glimpse of
 him sitting on the bench picking
 his teeth, as he sometimes did,
 with that terrible Turkish knife.

Estelline Reports On School Activity

That the Estelline schools have had a successful year is evidenced by a report from officials of the activities carried out during the past 12 months.

Many things have been done to improve the entire school system, so that pupils attending may have a better curriculum, a better school plant in which to spend their time, and a more worthwhile atmosphere in which to develop a better attitude toward school work and school life. It was explained by officials of the school.

Selected as teachers for another term are Mrs. Dewey Britt,

Mrs. L. A. Tucker, Mrs. Walter Whaley, Mrs. J. B. Riddle, Mrs. Blanche Davis, Mrs. E. F. Kennedy, Miss Nita Bess Daniels, Miss Gwen Johnson, J. A. Ballard, and Ronald Davis. All have accepted the positions for another year except Miss Johnson, and J. A. Ballard, who asked for absence. He has been principal of the high school for a number of years. Supt. J. B. Riddle is returning for another term under this three-year contract.

A brief review of the accomplishments during the past year is given:

1. The faculty is 100 per cent in membership of TSTA.
2. The superintendent is a member of the Administrators Association.
3. The six plan has been adopted.
4. One new bus has been bought to enable the system to have better transportation facilities.
5. A \$600 visual education machine and equipment has been purchased and used regularly. To

date, pictures for building better citizens, teaching soil and natural resource conservation, geography, and literary classics, have been shown.

6. Building repairs have been made, such as installation of new drinking fountain heads, roof repairs, painting, and new electric lighting for front entrances, etc. Fluorescent lights have been added to the superintendent's office and homemaking laboratory.

7. Much new furniture has been purchased, including a living room suite for use on the stage, reading tables for class rooms, chairs for use at all school functions, two new desks, chairs for three teachers, steel lockers for rooms and for athletic department.

8. Two courses have been added to high school schedule: Public speaking and dramatics were reinstated, and have been successfully carried on, terminating in the first full-length dramatic production for several years. Junior business was added for high school, and was placed in the first-year bracket, because many pupils leave school after this time and this is all the business training they ever receive.

9. A new electric refrigerator was purchased for the home economics department; also, in this department glasses, water pitchers, large trays, etc. were purchased for use in serving school banquets.

10. To the high school library were added two daily papers, and several good magazines, such as Time, Life, Holiday, etc.

11. A thorough testing program has been conducted. Through the first eight grades, placement tests were given and the results carefully studied. Two diagnostic English tests have been given to the entire high school. In other subjects standardized tests have been given.

12. During the school term six programs, sent out by the Southern Assemblies have been both inspirational and enjoyable.

13. Through the use of the radio, current topics have been kept before students, and "The School of the Air" has been profitable.

14. One of the greatest improvements in the school system has been the reviving of a complete athletic and physical education program. Equipment for the following sports was purchased: football, basketball, tennis, volleyball, boxing, and baseball. The gymnasium was rebuilt at an approximate cost of \$2,500. The school again became a member of

the Interscholastic League, and participated in football, basketball, track, and boxing contests with other schools. Winners from Estelline won many places in the district track meet, and participated in the area and regional meets in Lubbock, having one man eligible for the state meet.

15. In the literary events of the Interscholastic League, Estelline had district winners, and two area winners. The ready writer won second in the region.

16. For the vocational agriculture department, a shop was built and equipment which had formerly been used in a building downtown was placed at the school building so that the students could have full-time instruction and opportunities to learn practical things which they need.

17. The lunch room has been improved through the purchase of new equipment.

18. The greatest addition to the Estelline public school has been the erection of a building for a colored school. The building is clean, comfortable and adequate. A well-qualified teacher was employed and attendance is very good.

19. A \$200 program clock has been ordered.

If whiskey is the enemy of civilization, my how some men must love their enemies!

The poorer the land becomes the faster it washes away.

When the wife poured the soup on the pork chops that caught fire, we decided then and there that she was eligible for one of those bureaucratic jobs in Washington.

How To Make Your Will Before You Make Your Money

Many men work and save for a lifetime and still do not leave their families as much as the man who—though he may live but a few of his earning years—makes his estate certain FIRST, through Life Insurance, and then works and saves to keep it in force. For, if you live but a day, your Life Insurance will pay your family all you had intended to save. It guarantees the delivery of money as you designate, that administers itself, without loss, expense or delay.

A brief statement of the nature of this suit is as follows, to wit: Suit is statutory Trespass to Try Title; Plaintiffs claim title under the 10 year and the 25 year statute of limitations; alleging that on the 1st day of May 1946, plaintiffs were and still are the owners of Lots Nos. 20, 21, 22, 23, and 24 in Block No. 62, Original Town of Memphis, Hall County, Texas, owning same in fee simple and being on said date in possession thereof; that on the 2nd day of May 1946, defendants unlawfully entered upon and dispossessed them of such premises and withholds possession of same from plaintiffs; that defendants have occupied such premises for a period of 6 days unlawfully and the reasonable rental of such occupancy is \$10.00. Plaintiffs pray for judgment awarding them the title and possession of the above described premises, for their damages in the sum of \$10.00 and for general relief, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Memphis, Hall County, Texas, this 8th day of May A. D. 1946.

Attest:

Lester Named as Typing Champion

Edward G. "Tootsie" Lester, son of Mr. and Mrs. L. H. Lester of Memphis, has been named as the "South Pacific Typing Champion," it has been learned here.

Lester is now stationed at Noumea, New Caledonia, and is attached to the U. S. naval construction detachment No. 1056.

For ten minutes Lester, a yeoman second-class, averaged 101 words per minute, to break all previous typing records given or taken in the South Pacific area.

BUYS HOUSE FOR LUMBER

Gayle Greene has bought the place known as the Ray Martin house in the 500 block on South 7th street, and is now having the house torn down. Greene plans to use the lumber from the old structure to build two other houses, one in which he will live and one which he intends to offer for sale. If necessary materials can be obtained, Greene said that the job may be completed within three months.

Lena Mae Austin spent the week-end in Childress with her parents.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion,* thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

Fire Damages

(Continued from page 1)

Equipment in the beauty shop was not damaged too severely, although the balcony floor was burned badly in some spots and will require repairing before the beauty shop can be re-opened.

Cause of the fire has not been determined, Foote said. The fire apparently started in the store-room, and was first noticed when smoke began to come from that section of the store.

Loss on the stock was partially covered by insurance, Foote said.

Mr. and Mrs. R. S. Greené and Mrs. Gladys Power are in Dallas this week to attend the clothing market.

Mr. and Mrs. C. L. Padgett and son Eldon of Tullia spent the week-end here with Mrs. M. Padgett and Mrs. W. R. Taylor.

Pioneer Countian, Now in Abilene, Tells of 'Old Days'

Editor's Note: The following letter was received from C. F. Boles of Abilene. Mr. Boles was a resident of Memphis for many years until recently when he and his family moved to Abilene:

Dear Mr. Wells:

If you want to you may publish this letter. We lived in Memphis for 26 years and four of our children finished high school there. Lacy, the youngest, was promoted to the 7th grade this year and will have to finish school somewhere else. We regretted to leave Memphis but were unable to find a house in which to live.

In the 26 years I lived in Memphis I did many kinds of work. The first job was at the oil mill and later I worked at Seago and Simmons Gin. I helped gravel and pave the streets in Memphis and remember seeing boats go down the main street after a big rain. I was an employee of the Memphis Compress for ten years and retired at the age of 68 years six months ago.

Lacy Boles was one of the youngest Democrat paper boys. He started at the age of six and sold papers until he was 11 years old. My sons, J. P. and Billy, served overseas two years in the Navy. J. P. was on Guam. Both have their discharges. Memphis will always be home to us.

Respectfully,
 C. F. Boles.

Fowls Damaging Gardens - Ordinance To Be Enforced

Too many chickens are running loose in Memphis and destroying gardens belonging to someone other than the owners of the chickens, H. M. Stinnett, chief of police, said this week.

There is a city ordinance against owners of chickens allowing the birds to run loose, Stinnett said, and due to a number of complaints from garden growers, that ordinance will have to be enforced.

Owners of the chickens will be fined, the chief said, if any of the fowls are found running loose.

Charlie Stewart Given Discharge

Charlie Howard Stewart of near Memphis received his honorable discharge from the U. S. navy at the separation center in Norman, Okla., Thursday of last week, it has been learned here.

Stewart, a seaman second class at the time of his discharge, was last stationed at the naval repair base at San Diego.

Mrs. Cecil Guthrie, who has been a visitor in the home of her parents, Mr. and Mrs. John Dennis, for the past three weeks, returned to her home in Monahans Sunday.
