Hancock Winner of State Contest

Birth of Lesley Community Wins Washington Trip

One of Two Texas Boys To Receive All-Expense Award to National Camp

Billy Hancock, son of Mr. and Mrs. O. M. Hancock of Lakeview, already a winner of several 4-H Club contests, has been notified that he will be one of two Texas boys to be awarded an all-expense trip to the National 4-H Club Camp in Washington, D. C., to be held next month.

Hancock and County Agent W. B. Hooser were notified this week of the award by J. W. Potts, extension 4-H Club specialist of Texas A. and M.

The other state winner was Jackie Gene Brock of Floyd County. The two boys, along with Potts, the two 4-H girl winners, and the delegation from New Mexico will leave about June 7, probably from Lubbock, and will arrive back in Texas around the 23rd or 24th of June.

Hooser was notified that Hancock won the award in a telephone call from Potts last week. Official notification came by letter to both Hooser and Hancock this week.

"Please accept my congratulations on this outstanding achievement," Potts wrote Hancock. "You certainly made a name for yourself so far as 4-H is concerned, and I am sure you can very ably represent all of your fellow 4-H Club members in Texas at this national 4-H meeting. This is one of the greatest honors that you can do as a 4-H Club member and we are going to expect even greater achievement in the years that lie ahead."

"Please tell your father and mother for me that they too are due a lot of credit for your having been chosen for this outstanding 4-H award. 4-H members just don't do the things that you have done without the right kind of encouragement and help from their folks at home. I am sure that they are very proud of your 4-H achievements and they have every right in the world to be so."

Expenses for the trip will be paid by the Texas Bankers' Association and the Texas Extension Service. It is an all-expense trip. The group will go in a station wagon, and will leave Dallas about 8 for Vicksburg, Miss. The night of the 9th will be spent in Atlanta, Ga., and the night of the 10th in Durham, N. C. The return trip will be made by way of Knoxville, and Memphis, Tenn. The objectives of the camp, which will open June 11, are to help 4-H Club delegates and extension agents to learn of the work, the history, and the traditions. (Continued on page 7)

Floydada Boosters Visit in Memphis

A caravan of 12 cars and one truck visited Memphis shortly after noon Monday boosting Floydada Day in Floydada, to be held there July 3 and 4. The two-day celebration will feature rodeo performances twice a day, and General Jonathan Fairwright will be present on the second day.

Railroad Strike Is Felt in City But Inconveniences Are Few

Not since the war ended last summer had anything caused so much comment—in Memphis as well as in other places over the United States—as did the short-lived railroad strike last week-end.

Fortunately for Memphis and the rest of Hall County, only a small inconvenience was caused. Fortunately no trains were halted here, but instead went on to the larger cities.

Fortunately there was no shortage of food in the local groceries, and also fortunately, there was no rush to buy up what food the local merchants did have, merely because the trains were not running. In some of the larger cities, the grocery stores sold several times more food than on ordinary days.

Where, of course, some inconveniences, but none serious. The most-noticed portion of the inconvenience here was the absence of

BILLY HANCOCK of Lesley, who has been chosen as one of two boys from Texas to attend the National 4-H Camp in Washington, D. C., next month.

City Drug Store Open for Business; Being Remodeled

Mildred's Beauty Shop In Temporary Location; Martin's May Not Open

The City Drug Store, which suffered heavy damage in the storeroom in a fire last week and damage from smoke in the front part of the building, is now being repainted and remodeled, W. C. Foote Jr., owner said this week.

The store is open for business again. Foote said, "We will be able to fill prescriptions the latter part of this week. A new supply of drugs for the pharmacy department have been ordered, and are arriving daily."

The building, owned by S. D. Posey, is now being repaired. The front part suffered only smoke damage, although the storeroom in the rear was damaged heavily. Most of the stock in that part of the building was ruined, including the drugs in the pharmaceutical department.

Three to Attend King Ranch Meet

The secretary of the Hall County ACA and two members of the county committee will attend a field day demonstration at the King Ranch June 5.

Lynn McKown, ACA secretary, and Alga Turner and R. A. Edlemar will attend the meeting. Starr Johnson, other member of the county committee, does not plan to attend.

The men will leave here June 4, returning June 6. At the meeting will be demonstrated the progress made in soil conservation, as well as the progress made in fertilizers.

CITIZENS URGED TO COOPERATE WITH FIREMEN

ALSO ASKED TO KEEP CARS MORE THAN 300 FEET FROM FIRES

An appeal to local citizens to stay a good distance from the site of fires, and not to bring cars within 300 feet of a fire has been made by the Memphis fire marshal and other members of the fire department.

The appeal was made following the fire at the City Drug Store on the square, when the large crowd hindered the work of the fire department members. Some drivers of autos also insisted that they be allowed to continue on their chosen street, although fire hose were laid across the street, it was explained.

"The citizens are hereby appealed to, on behalf of the local fire-fighting boys, and the police department, to stay a good distance from fires, and to not bring cars within 300 feet of a fire, in order to prevent a hazard, confusion, and interference with fire-fighting men and equipment, in the future. We can also do better work without so much advice from our large number of 'sidewalk fire chiefs.' Your cooperation is requested," the statement from Henry M. Stinnett, fire marshal, said.

During the fire at the drug store, attended by one of the largest crowds at any recent fire, members of the fire department not only non-helpful, it was pointed out, it was explained, but a number of non-members offered (Continued on Page 12)

Funeral Services Held in Memphis For Miss Wilkins

Former Resident of City Dies Suddenly in Arkansas; Interment at Fairview

Funeral services were held Sunday afternoon at the Estes Funeral Chapel in Memphis for Miss Edna Wilkins, 34, who died suddenly Wednesday of last week at Hot Springs, Ark.

Services were conducted by Rev. Aubrey C. Haynes, pastor of the First Methodist Church here. Interment was in Fairview Cemetery under the direction of the Estes Funeral Home.

Miss Wilkins was born in Memphis in 1912, and lived here until she was about 12 years of age. Following the death of her parents, she entered the Odd Fellows home at Corsicana, and completed the high school course there.

She then entered Trinity University at Waxahachie, and graduated with a bachelor of science degree. She later underwent nurses' training at the Lubbock General Hospital, graduating from the nursing school. She remained at Lubbock for a number of years, doing nursing, and at the time of her death was a nurse in Hot Springs. She had been an active worker in the Methodist Church since childhood.

Survivors include three sisters, Mrs. Wallace R. Stovall of Kress, with whom she lived several months, Mrs. T. H. Bingham of Amarillo, and Miss Lois Wilkins of Porterville, Calif.

Pallbearers were E. W. Godfrey, W. E. Hill, J. H. Vandiver, C. R. Sargent, Chas. Oren, and O. J. Gilreath.

MAYOR C. C. HODGES, who was named as No. 1 citizen of Memphis for 1945 at the annual chamber of commerce banquet Tuesday night.

Amarillo Engineer Completes Survey In Business Places

Cox to Have Full Report On Municipal Plant Ready by June 10

Carl C. Cox of Amarillo, electrical engineer hired to make a study of the city for an estimate of cost of a proposed municipal light and power plant, has completed his survey of the business section of Memphis, it was reported this week.

Cox has also made a study of the bonded indebtedness of the city, as well as the assessed tax values.

The engineer is now working on his survey of the residential section of the city, and expects to have his complete report ready by about June 10.

The report will include a detailed survey of the needs of electricity users of the city, and will outline his plans for the plant.

The engineer was hired two weeks ago following the presentation of a petition by a group of citizens requesting the Memphis city council to investigate fully the possibilities of obtaining a municipal light plant for Memphis.

The plant, as proposed by the petition, would be built with money obtained from the sale of revenue bonds. These bonds would be paid for from profits of the plant, and would not be payable by taxation, it was explained.

Various citizens, observing other cities which have municipal plants, believed that Memphis could also profit by owning its own light plant, and presented the petition to the council with that in mind.

Friday Last Day For Milk Subsidies

Friday is the final date on which applications for milk and butter subsidies may be made to receive January, February, and March payments, Lynn L. McKown, secretary of the Hall County ACA, said this week.

At present, the rate of payment is 17 cents per pound for butter fat, and 70 per hundred-weight for milk.

The rate of payments for April, May, and June will be announced at a later date, McKown said.

A total of \$8,365.27 for milk and butter subsidies has been paid out to date for the January, February, and March period, the ACA official stated.

All farmers who have not made applications for their subsidies were urged by McKown to do so Friday.

Heavy Rain Falls in City; Spotted Over Hall County

Barrage of Errors Costs Local Team Game at Clarendon

Memphis Nine to Meet Quannah, League Leader, In Game There Sunday

A barrage of errors—a total of 11—cost Memphis its first clear defeat of the season in the Red River Valley League when the local nine met the cellar team of Clarendon on that city's ball diamond last Sunday.

The score see-sawed from one team to the other, but when the game ended, Clarendon was on the long end of a 9 to 7 score.

Memphis, previously listed as unbeaten, was also called upon to yield its game to Samnorwood. That game of several weeks ago, called at the end of the first half of the 6th due to rain, was given to Samnorwood on a protest from that team. Samnorwood led at the end of the 5th by a 5 to 4 score, and did not get to bat in the 6th before the game was called.

Sunday's game placed Memphis in a tie for third with Childress. Quannah now leads with four won (Continued on Page 12)

All Rights-of-Way On Plaska Market Road Are Obtained

Officials Hope for Action In June; 6-Mile Strip To Highway to Be Paved

The last of the rights-of-way for the farm-to-market highway between Highway 256 and Plaska have been secured and forwarded to the state highway department officials at Austin, Judge M. O. Goddard said this week.

The road proposed is that which leads from Plaska to the Memphis-Lakeview highway. At present the surface has some improvement, having been oiled in past years, but the large amount of traffic on the road makes the surface unsatisfactory.

The new road would be paved with some sort of permanent surface, and would be six miles in length, Judge Goodpasture said. No definite date on further action is known, the judge said, although by getting the rights-of-way in now, it is hoped that the state group will take action on the road in June.

Should the state group act on the road in June, it is hoped that the road will be ready for traffic by fall.

Work on such projects is very slow at present, Judge Goodpasture said, due mainly to the shortage of engineers. The state department lost many of its engineers to the armed forces when the war started, and few have returned thus far.

Work is also being delayed on many roads due to the shortage of materials and equipment, it was explained.

Church to Sponsor Daily Bible School

The annual vacation Bible school will be conducted at the First Methodist Church from June 3 to June 9, Rev. Aubrey C. Haynes, pastor, announced this week.

The school is for boys and girls of the intermediates, juniors, primary, and beginners departments in the Sunday School. The classes will be from 9 to 11 o'clock each morning.

Workers have made plans for a large school, it was explained. All boys and girls of the various departments are cordially invited to attend, Rev. Haynes said.

Farmers Union to Close 38th Year

The Farmers Union School company of Memphis will end its 38th year of business this week, directors of the company said. The new fiscal year will begin June 1.

Officers and directors are W. B. McQueen, president; E. W. Solomon, vice president; O. D. Phillips, Avery Hutchins, and J. W. Webster.

O. L. (Buster) HELM, who has been released from active duty as a first lieutenant in the U. S. army and is now back in Memphis.

Band Rehearsals To Begin Monday; Softball to Start

Some Portions of Summer Recreational Program Are Already Underway

The Memphis school board's summer recreational program of sports, vocational training, and academic training, will officially get underway Monday.

Most important of the phases to begin Monday will be band rehearsals under the supervision of Perry L. Keyser, newly-chosen band director of Memphis High School.

Band rehearsals will be held four nights each week—Monday, Tuesday, Thursday, and Friday nights. For beginners, Keyser has announced, rehearsals will be held from 6:30 to 7:30 o'clock; and for advanced students, from 7:30 to 8:30 o'clock. Each Wednesday morning, sessions will be held for drum majors, twirlers, and the marching band.

Official play in the city softball league, supervised by Coach Curtis Kelley, will begin Tuesday night. The games will be played on the high school grounds under the lights, and will be open to the public.

Nine teams have been entered in the league. The teams are being sponsored by Texaco, Gene Corley, Magnolia, Lakeview, Hedley, Lesley, Parnell, Tom Posey, and Estelline, Kelley said. Games are to be played each Tuesday and Friday night during the summer. Bleachers have been set up for the spectators.

A practice game will be played tonight between the Corley team, to be designated as the Southside Barber Shop team, and the Hedley Lions Club. Official league play will start next Tuesday night when Parnell and Texaco meet in (Continued on page 7)

Total Is 2.13 Inches In Memphis, But Light in Estelline

Turkey and Bridle Bit Receive Deluge; Quitaque Gets only Light Shower

Memphis received a very "wet" rain Tuesday, more than two inches of it before noon, but some parts of Hall County were almost missed by the steady four-hour downfall.

The rain in Memphis totaled 2.13 inches, J. J. McMickin, local weather observer, reported. The downfall started at about 7 o'clock in the morning, and continued almost steadily until about 11 o'clock.

Clarendon likewise reported about two inches of rain there, indicating that the deluge was fairly even northwest of here in this immediate area.

But in the other direction, the heavy fall stretched about as far as Newlin, and then began to fade out. Residents of Estelline reported only about one-eighth of an inch there.

South and west of Estelline, however, the showers apparently were somewhat heavier, since a rather heavy shower was reported as having fallen between Parnell and Turkey. At Turkey itself, more than two inches fell, and in the Bridle Bit community, a four-inch deluge was reported. Strangely enough, Quitaque got only a light shower.

Rainfall at Brice was light, but Lakeview reported a heavy rain, almost as much as that at Memphis.

Most farmers already had all their cotton planted, and in most fields some of the cotton is well along in its growth. Some may have to re-plant their cotton due to the rain falling rapidly in a few spots.

In Memphis, the ditches along the streets were quickly filled during the rain; and it is believed that many furrows were likewise filled.

Wheat growers in the county did not need the rain, and many of them would have preferred delaying the moisture until the wheat has been gathered. However, very few, if any, have been complaining about the moisture as yet.

District Governor To Be at Lakeview

Chas. H. Dean, district governor from Plainview, will be present when the Lakeview Lions Club holds its "Ladies Night" tonight.

A large crowd is expected to attend the meeting, and about 20 members of the Memphis club have accepted the invitation of the Lakeview Lions to attend.

C. of C. Is Important To City, House Says

That a city without a chamber of commerce is the city which seldom accomplishes anything was the theme of an address by Boyce House of Fort Worth, potential candidate for lieutenant governor, when he spoke before a crowd of about 350 at the 26th annual C. of C. banquet in the Memphis High School gym Tuesday night.

Highlight of the program was the presentation by T. H. Deaver, vice president of the C. of C., of an award to Mayor C. C. Hodges as the No. 1 citizen of Memphis. Mayor Hodges, a past president of the chamber who is now serving his first term as mayor, has been very active in civic work since moving here from Clayton, N. M. He is now president-elect of the Memphis Rotary Club.

House, spicing his address with numerous Texas jokes told only as he can tell them, pointed out the need of civic pride, the value of friendliness, and the advantages of living in a community of cooperation.

Most chambers of commerce, House said, are usually thought of as the group to get new industries in a city; but he added that such organizations have more purposes than just that. "Smokestacks do not make a city," he said.

House was introduced by J. Claude Wells, publisher of the Democrat who has been a friend of the Fort Worth man for a number of years.

Toastmaster for the occasion was J. B. Crockett, manager of the Memphis C. of C., who introduced the various out-of-town guests from Amarillo, Childress, Estelline, and other places.

Horace Tarver, C. of C. president, introduced past C. of C. presidents and the present board of the directors.

Rev. Aubrey C. Haynes, pastor of the First Methodist Church, gave the invocation, and singing by the group was led by Weldon Lewis, educational director of the First Baptist Church. Special music was furnished by a group of girls directed by Mrs. Mary Helen Sexauer.

Santa Rosa Show Short on Buildings, Plenty of Animals

Although shortages of building materials have prevented the erection of exhibit building and cattle barns and pens at the Santa Rosa Roundup and Livestock Exposition grounds, visitors to the first semi-annual show May 29 through June 2 will have the opportunity of seeing some of the world's outstanding quarter horses.

E. Paul Waggoner, president and founder of the Santa Rosa Roundup, announced that five of his prize winning quarter horses would be on exhibition during the five days of the first show.

To be exhibited are Poco Bueno, grand champion quarter horse stallion at Stamford, Denver, and Fort Worth horse shows; Pretty Buck, blue ribbon quarter horse stallion at Denver, and reserve champion at Fort Worth; Suitor, blue ribbon winning son of Pretty Buck at Fort Worth; Sundown, blue ribbon stallion at Fort Worth in 1944; Chaparrita Chief, out of R. L. Underwood's Chief, a two-year-old stallion, which will be offered for sale during the Santa Rosa Roundup.

Swimming Party To Be For Cubs

Boaz Stotts, assistant cub master, announced a swimming party for boys of Cub Pack No. 35 at the city swimming pool Saturday afternoon at 5:30 o'clock. The scouts and den chiefs are to bring their swimming suits and be at the library park not later than 5:30. They will go in a group to the swimming pool.

"We have some new den chiefs to take the place of the ones who have quit," Stotts said, "and we will have lots of fun and some refreshments, too. I have been away from Memphis of late but am home again to stay and am ready to work with the cubs again."

Nell Cunningham To Receive Degree

Nell Cunningham, daughter of Mrs. H. F. Cunningham and a student at North Texas State College, is among the 150 students receiving degrees, 18 master's and 132 bachelor's, at North Texas State College at the spring semester graduation exercises, according to Dr. B. B. Harris, dean of the college, and Dr. Jack Johnson, dean of the graduate division.

Judge Weaver Baker, chairman of the state board of control, will address the graduate class on Monday, June 3, at 10 o'clock, at commencement exercises.

Miss Cunningham is a member of the Senior Mary Arden club, Camera club, and the House President's club. She will receive the bachelor of science degree.

Veterans to Get U. S. Text Books

Following up an announcement last week that the war assets administration would release to veterans approximately 1,500,000 textbooks used in army and navy training courses, Hamilton Morton, WAA regional director, Fort Worth, said Wednesday that the books would be transferred to the Veterans Administration and channelled to veterans through the educational institution where the veteran is enrolled.

The Library of Congress will distribute the books to educational institutions, which will in turn handle distribution to veterans, Morton said. Veterans are urged not to write or call the Library of Congress or the Veterans Administration regarding the books, but should keep in touch with the education institution where they are enrolled.

Missionary Visits With Mrs. Grundy

Miss Lillie Hundley, a missionary to China for the past 20 years, is visiting in Memphis this week with Mrs. D. A. Grundy.

Miss Hundley was in China at the outbreak of the war and was imprisoned in Shanghai. For the past two years she has been in the states and has been attending Columbia University working toward her masters degree.

Her parents live at Claude and she is en route to visit them after attending the Southern Baptist Convention at Miami, Fla. Miss Hundley is now awaiting passage to China and will resume her work in Shanghai at an early date.

Continental Adds 30 Modern Buses

Thirty more new 1946 postwar buses are being delivered this week to Continental Trailways Bus System, M. E. Moore, president of the company has announced.

Valued at \$25,000 each, delivery of the big 37-passenger coaches to Continental, brings the total replacement purchases made by the company to date to more than \$1,000,000. This is the first quantity delivery to be made in the \$2,300,000 replacement program announced by the company several months ago.

One of the new buses was on display here today at noon, at which time the new features were pointed out.

The new buses are completely air conditioned and many new features have been included in the construction and design. Al-

though the bus is considerably longer than the previous models, extra seats have been sacrificed to provide more room for the same number of passengers. Consequently, more baggage space has been provided, each passenger now being provided with a compartment within the bus for each storage of unchecked baggage. Individual reading lamps and tubular lighting throughout provide extra comfort and convenience to the postwar passenger.

Wheeler County Boys Pigs From 4-H Boys

The gilts and one boar, from the winners of previous winners in the diversified farming assay contests in Wheeler County, have been sold to officials in Wheeler County to be awarded as prizes in similar contests there.

C. E. Garrison, assistant county agent of Wheeler county, will be here next Tuesday to get the winners. Hall County Agent W. B. Hooser said this week.

These bought by the Wheeler official will not be the choice of the local boys, since most of the boys have already sold some of their litters.

The essay contest was started here several years ago. Each of

the winners must agree to give one of his first year's litter as a prize for the next year, thus making the contest a continuous affair from year to year. A similar contest is held in Wheeler County, but their previous prize winners did not have satisfactory litters this year to enable them to continue the program without further purchase of pigs.

D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 27th day of May, A. D. 1946, in this cause, numbered 2966 on the docket of said court and styled I. R. Twilla, Roy Russell, and Lee Gregory, Trustees of the Frank Daniels Trust No. 480 of the American Legion, of Turkey, Texas, Plaintiffs, vs. The Unknown Stockholders of the Abilene Building and Loan Association and the Unknown Heirs and Legal Representatives of the Abilene Building and Loan Association, a Defunct Corporation, Defendants.

A brief statement of the nature of this suit is as follows, to wit: Plaintiffs sue in Statutory Trespass to Try Title for the title and possession of Lot No. 26, Block No. 9, J & B Addition to the Town of Turkey, Hall County, Texas. Plaintiffs also claim title to said land by virtue of having had peaceable, adverse, possession of said land and premises, cultivating, using and enjoying the same for more than ten years prior to the commencement of this suit, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and Seal of said Court, at office in Memphis, Texas, this 27th day of May, A. D. 1946.

Attest:
ISABELL CYPERT,
Clerk, District Court,
Hall County, Texas.

Band Rehearsals To Start Monday

Band rehearsals for the new Memphis school band will begin Monday, June 3.

Enrollment in the summer school band is still open to those who have not already enrolled, Perry I. Keyser, director, said. All band and sectional rehearsals will be given free of charge. Present plans are to have rehearsals four nights of each week—Monday, Tuesday, Thursday, and Friday nights. For beginners, the rehearsals will be held from 6:30 to 7:30 o'clock; and for advanced students, from 7:30 to 8:30 o'clock. Each Wednesday morning, sessions will be held for drum majors, twirlers, and the marching band.

Locals and Personals

D. L. Selby and family of Cleveland, Ohio, Mr. and Mrs. J. J. Dutton and family of Hobbs, N. M., and Mrs. Leon Belcher and family of Okemah, Okla., visited their mother, Mrs. H. L. Selby and family, the past weekend.

Alvin Shelton, student in Sul Ross College at Alpine, will ar-

rive here Friday to spend the summer holidays in the home of his parents, Mr. and Mrs. V. L. Shelton.

Mrs. G. T. Harris is now recuperating at the home of her parents, Mr. and Mrs. S. A. Neill. She underwent a major operation here about three weeks ago.

Mrs. Sewell Massey and daughters of McAlester, Okla., are visiting her parents, Mr. and Mrs. J. S. Spencer, this week.

O. L. (Buster) Helm Released by Army To Inactive Duty

Lt. O. L. (Buster) Helm, who was in Memphis on furlough from the U. S. army several weeks ago, received his release to inactive duty May 19 at Fort Sam Houston, and is now back in Memphis.

Helm, assistant cashier of the First National Bank in Memphis before the war, plans to resume his work there June 1. Mrs. Helm and their daughter Leslie have been making their home here during his absence.

Helm entered the service as a private May 16, 1942. He received a battlefield commission of second lieutenant December 19, 1944, and was promoted to first lieutenant January 8, 1946. Serving overseas for 18 months, he is

entitled to wear the EAME ribbon, the American theater ribbon, the good conduct medal, the victory medal, the army commendation medal, and the army of occupation ribbon.

A commendation was awarded to Helm for his service in Germany. The commendation read as follows:

"For meritorious service in connection with military operations from November 1, 1945, to February 15, 1946. Lt. Helm, due to the utmost initiative, his keen sense of judgment and common sense, and his intense study on fiscal and budget procedures, was able to render invaluable assistance to all fiscal and budget agencies in the European theater, thereby resulting in a large saving of funds for the U. S. government. His qualifications mentioned above and his high devotion to duty reflect great credit upon the military service."

The commendation was made by order of General McNarney, commander of the European theater.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—yourself—is constantly producing waste matter the kidneys must remove from the blood if good health is to be maintained.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging headaches, persistent backache, attacks of dizziness, getting up nights, swelling, puffing under the eyes—feel tired, nervous, worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. They are endorsed the country over. Issue Doan's. Sold at all drug stores.

DOAN'S PILLS

IS GETTING UP NIGHTS GETTING YOU DOWN?

Thousands say famous doctor's discovery gives blessed relief from irritation of the bladder caused by excess acidity in the urine

Why suffer needlessly from backaches, run-down feeling from excess acidity in the urine? Just try DR. KILMER'S SWAMP ROOT, the renowned herbal medicine. SWAMP ROOT acts fast on the kidneys to promote the flow of urine and relieve troublesome excess acidity. Originally created by a practicing physician, Dr. Kilmer's is a carefully blended combination of 16 herbs, roots, vegetables, balsams. Absolutely nothing harsh or habit-forming in this pure, scientific preparation. Just good ingredients that quickly act on the kidneys to increase the flow of urine and ease discomforts of bladder irritation. All druggists sell Swamp Root.

Why We Do What We Do About Scarce Goods

Like all big furniture stores in the country LEMONS FURNITURE CO. is receiving its share of scarce merchandise—but never enough! So we don't advertise these in the paper unless we think we have enough—and at that we sometimes underestimate demand.

Dozens of people shop our store on any average day. The simple fact that they take the trouble to come in shows they count on us to get them what they need. We accept that as our first responsibility.

Although quantities are limited, our assortment of new and newly returning goods is fairly large. During the past months, for instance, we have had a few Hotpoint Refrigerators, Majestic Radios, Vacuum Cleaners, Ranges, Kroehler Living Room Furniture, etc.

BUT don't let's be dreamy—our list of such rare prizes changes from day to day, tomorrow if you are one of our visitors you may find—

Hotpoint Refrigerators
Hotpoint Washers
Hotpoint Dish Washers
and Garbage Disposal Units
Royal Vacuum Cleaners
Premier Vacuum Cleaners
Magic Chef Ranges
Roper Ranges
Kroehler Living Room Furniture

While this "here today and gone tomorrow" situation lasts, we recommend that whenever you are in our neighborhood you keep looking here for what you want. Because some day, almost any day, you're going to find it.

THANKS TO OUR CUSTOMERS

We want to take this means of thanking each and every one of our customers for the business they have seen fit to give us during the past 12 months. Our fiscal year ends May 31, and a new set of books will be opened Saturday.

To every one of you people of Memphis and this area, we want you to know that we appreciate your trade. You made it possible for us to do a nice volume of business in this general merchandise establishment.

This firm has been in business in Memphis since 1907. From a modest beginning we have grown steadily, and today can furnish the people of this area with groceries, dry goods, feed, coal, seed, oil and gas, and many other items; as well as buy produce.

In the new fiscal year just beginning, we again pledge ourselves to give you the best service possible, and continue to furnish you with many items you need at the **LOWEST POSSIBLE PRICES.**

Thanks again for your past business. We are looking forward to serving each of you in the months ahead.

Winning Essay —

DIVERSIFIED FARMING PAYS

(Editor's Note: This is the second of a series of essays on "Diversified Farming," written by 4-H club members. This essay, which won its writer an award of a gilt, is by Barbara Myers of Brice.)

We must have diversified farming if we expect to save our land for our children and grandchildren. Land has certain elements in it that the plants like cotton, corn, and wheat take out. Unless we plant some types of plants that give these elements back to the land we will soon wear the land out. This is robbing our children. We should then rotate our crops to keep our land productive.

We must have diversified farming if we expect to make any money. We can't raise enough cotton to buy all of our needs and still have money left. We must raise some clover for hay for the cow, some peas to eat and feed the stork, some grass for the pig

if we expect to have any money left.

We must have diversified farming if we expect to have a strong, healthy plant. If we depend on the market for vegetables, eggs, and meat, we usually do without and our children develop rickets and are not normal. So to have a balanced ration, we must grow more things than cotton.

Then to our future farmers of America we would pass on a plea for diversified farming. Raise clover, bermuda, peas, peanuts, and other legumes to feed your cow and turn nitrates back to the land. Then let your cow, sow, and chickens gather your crop of legumes and also fertilize the land.

So by diversifying, Mr. Farmer, we save our land, we make money, we rear strong children.

4-H Work Helping Girls Gain Poise

Farm girls are gaining self-confidence and poise through public speaking in the national 4-H dairy foods demonstrations.

For their demonstrations, participants learn ways of utilizing and preparing dairy foods in relation to family dietary needs. They may select any dish or combination of dishes using milk, cream, cheese, or butter. Through showing others what has been learned they develop teamwork and sportsmanship.

Awards for exceptional demonstrations are donated by the Kraft Foods company. They comprise silver and gold medals to each county champion individual and two-member team demonstrators, respectively. The state champion individual and team members, selected from the county winners, can receive a \$50 U. S. Savings Bond.

The demonstrations are conducted under the direction of the extension service of the state agricultural college, the USDA cooperating.

Hall USDA Group To Aid Movement In Saving of Food

Council to Encourage More Gardens for Town And Rural Communities

A decision to work even harder in encouraging Hall Countians to save food to help those starving abroad was made at a meeting of the Hall County unit of the USDA Council in the office of the county agent last Saturday.

The council is made up of representatives of the various agricultural agencies of the county, and was set up at the request of Secretary of Agriculture Anderson.

On the local council are W. B. Hooser, chairman, representing the state extension service; C. L. Pierce, representing the Hall County REA; W. D. Young, of the emergency crop loan office; R. A. Eddleman, member of the county agricultural committee representing the AAA; Don Wright, of the Memphis PCA; M. E. McNally, of the NFLA; Bob Land, FSA; and Weldon McCreary, representing the vocational agriculture teachers.

Already, the 4-H Club members of the county are devoting much time to raising gardens, to enable more food to be shipped out of this area for those abroad.

The council is encouraging people of both the town and the rural communities to raise more and bigger gardens to supplement that food raised by the club boys.

Various civic organizations have been contacted, and these groups have been asked to cooperate in the movement. Mayor C. C. Hodges has named O. V. Alexander chairman of the movement in Memphis, who will work with the various civic organizations.

The regular meeting time of the U. S. D. A. council is the last Saturday in each month at 10 o'clock in the morning.

Hancock —

(Continued from page 1) tions of the U. S. Department of Agriculture and the other government departments, to gain a deeper understanding of the ideals that have shaped Washington as the nation's capital, and to confer together regarding the development of a strong rural leadership and a richer and fuller life for all those living in the country, it was explained.

The camp also provides an opportunity to portray to the public the accomplishments of the 4-H Club movement, and to enable the club leaders to confer together regarding matters of importance in the further development of the 4-H Club program.

Hancock, long active in 4-H work in Hall County, was awarded the trip as a result of his work here. He submitted a report, in the form of a narrative, telling what his 4-H work has meant to him, and outlining his 4-H activities, to win the award.

The winner of the award served as president of the Lesley 4-H club for three years. He won an all-expense trip to Mexico, and while on the trip acted as master of ceremonies at a program in Mexico City.

As a result of this trip, he was named escort for a number of Mexican students who were on a tour of the major agricultural points of Texas. While escorting the group, Hancock served as master of ceremonies at banquets in Fort Worth and San Angelo.

As a speaker, Hancock has appeared before both the Rotary and Lions clubs in Memphis, the Rotary club at Lakeview, and the Rotary club at Childress, furnishing the program at each of the meetings.

City Drug —

(Continued from page 1) has moved her equipment for temporary operation to the Memphis Hotel. As soon as the balcony repairs are made, she plans to move back to her former location. The beauty shop equipment "was not badly damaged in the fire."

The other business which was located in the building was Martin's Studio. Wilfred Martin, owner, stated that he believes he will be unable to replace equipment lost in the fire. Practically all of his stock of film and paper was destroyed, his enlarger was ruined, and one good camera was damaged almost beyond repair. Since photographic equipment is hard to obtain, Martin has little hopes of being able to re-establish his business.

"We ask the public to bear with us until everything is straightened out," Foote said this week. "We will soon be in position to again serve you to your satisfaction."

Band —

(Continued from page one) the opener, followed by a game between Southside and Lakeview. Friday's night's games next week will be between Hedley and Lesley, and Magnolia and Estelline.

Skating is already being held each Monday night from 8 to 10 o'clock in the high school gym. The skating is open to the public, but everyone must furnish his own skates.

Kelley announced. J. J. McMickin is in charge of a bicycle club, which has more than 100 members. Activities such as tours, stunts, etc., are being planned.

Swimming is to be held each Monday and Thursday afternoons at 2:30 o'clock, and will be supervised by Coach Kelley. Mrs. Virginia Dodson is organizing a horseback riding club, which will meet each Monday evening at 6 o'clock at the ball park.

Other activities include a series of educational pictures under the sponsorship of the P. T. A.; a story-telling hour for youngsters sponsored by the P. T. A.; a choral club for junior girls; academic training taught by Audrey Borgs, for which students will be given school credit; home demonstration work; and vocational training under the supervision of Weldon McCreary.

Guests in the J. A. Kutch home the past week-end were Mr. and Mrs. W. H. Drake and Mr. and Mrs. Jim Teague, of Safford, Ariz. Mrs. Drake is Mr. Kutch's sister. All went to Eldorado, Okla., first of the week to visit Mrs. Drake's half brother and Mr. Kutch's step-brother, J. D. Hall, the first time Mrs. Drake and Hall had met in 30 years.

War Assets Seeks To Erase Abuses Of Surplus Buying

Five leading veterans organizations have agreed to support efforts of the war assets administration to wipe out abuses of certification to buy surplus property, Hamilton Morton, regional director WAA, Fort Worth, announced Wednesday. The agreement was reached following a meeting last week in Washington of the veterans policy committee of the WAA, consisting of representatives of the organizations and WAA officials.

Joseph F. Carroll, director, compliance enforcement division had uncovered indications that a small minority of veterans had acquired surplus property for others after certifying that the

property was for their own use. Under a WAA regulation, any evidence of irregularity in the acquisition of surplus property is reported to the department of justice. Investigation is thereupon taken over by the federal bureau of investigation and prosecution by the department of justice.

PRESIDENT TRUMAN ROLLS UP HIS SLEEVES

WHEN PRESIDENT Truman took over the reigns of the U. S. government following the death of Roosevelt, Truman was high in the esteem of the nation's public.

The new president coasted along and remained high in the people's minds until about the time of the end of the war. Then that memory of Roosevelt had faded, and Truman gradually began to lose the respect of the people whose government he headed.

Strikes soon began to hit the nation, crippling one industry after another, and the public partially blamed Truman because there were no new cars, no new stoves, no new radios, no new refrigerators. They blamed Truman, saying he was afraid of labor unions and the voting power of the unions.

But last Friday and Saturday saw the president gain more prestige in one day than any man in American history had ever gained. No longer was he willing to give in to the minority, for the people over which he reigned were angry, inconvenienced, and possibly endangered.

From the tone of his voice when he addressed the joint session of congress, President Harry S. Truman had had enough, and was ready to fight. Those who heard him speak said he sounded as if he already had his sleeves rolled up, ready to wade into the pair of labor leaders who had defied his government and made life miserable for his 140,000,000 subjects.

That fighting spirit brought President Truman out of the closet into which many Americans had already placed him. He was a lost politician until last weekend—now he is stronger than ever.

And giving the president even more political prestige was his victory over the two labor leaders—victory before he was able to complete his speech to congress. Also helping him is the fact that Labor Leader Whitney Sunday stated that his union's reserve supply of \$47,000,000 will be used to fight Truman for re-election, and that his union was out to defeat every member of congress who voted in favor of President Truman's "strike draft" law. Those sour grapes on the part of the labor leader are not going to hurt the president's prestige.

Altogether, President Truman probably did his greatest day's work since assuming the presidency when he grasped the situation "by the horns" last Saturday, and held on until he had "bull-dogged" the menacing animal in the form of the railroad strike. It was a good day's work for all Americans.

WHEAT HARVEST

THE HARVESTING of that golden grain, known as wheat, has started in Hall County and this immediate area, and the county will probably make more wheat this year than in history.

The excellent part of this is that wheat is bringing a good, substantial price now; those farmers whose wheat crops produce will have considerable extra money.

Money, of course, is fairly cheap at present—a dollar really isn't worth a dollar anymore—but that is even more reason why we should be glad to see the county produce more wheat than usual this year. If a dollar won't buy much stuff now, we need more dollars—and the wheat crop will help a little.

NOT A CARE IN THE WORLD!

Yes, home from school and out again . . . to play and enjoy the sunshine. They are carefree—the way they should be. What are you doing to make their future secure? What would happen to them if tragedy should strike the family? We have the answer to this—the proper type of insurance. See us today.

Death Takes No Holiday

Press Paragraphs—

QUOTING OUR NEIGHBORS

Black Market

The Canyon News: The government is about to tackle the problem of black market. How? Through the channels of income tax evasion. You will recall that Al Capone committed most every crime in the catalog. Smart lawyers kept him out of the pen. But Uncle Sam finally put him behind the bars because of income tax evasion. This seems to be the surest way that the government has to trap those engaged in black market operations. Maybe it is so simple that the government can get the evidence quicker through this method. Maybe it is not as silly as it looks.

The Future

Ed Bishop in the Dalhart Texan: While the entire nation stands at the crossroads and ponders over the route to take for future happiness one can but dream of what a wonderful place this old world is going to be to live in if, and when, American enterprise gets back to normal and this nation and its people once again take the lead in the future prosperity of the whole world. There is such a time coming, when free enterprise will again be established, the rights of the working man protected and there will be a government by the people where ambition and initiative are not penalized and the smallest and most insignificant individual may prosper to his talent, training, and willingness to apply himself.

Good Idea

The Panhandle Herald: That advertisement by the City of Panhandle in last week's Panhandle Herald pertaining to keeping up chickens, cattle, and horses has been cause of a lot of kidding recently. The ad was printed that the "owners must be kept up"

and the response to the error has given the city a lot of free advertising. The Herald hopes that it can induce Mayor Ralph Randal and his city council to pay for the message, which has caused so much kidding. A letter from a justice of the supreme court of Texas follows: "I notice from the enclosed advertisement recently carried in your paper that all OWNERS of chickens, cattle, and horses within the city limits of the City of Panhandle must be kept up. It is stated that this is necessary in order to protect the gardens. I think this will get the job done. If you will put the owners up, they will become interested in keeping up the chickens, horse, and other asses."

That's that until the next big bust.

Robbery

The Quanah Tribune-Chief: Last week a friend of ours needed lumber and the local yards were unable to buy it. He stopped five trucks loaded with lumber on the highway and was able to buy the load off two of them. He told that he paid \$124 per thousand feet for lumber of a class that he had formerly bought for \$26 per thousand. A statement was made in Dallas a few days ago that most of the material that was used in the building program there came from a black market. If Dallas builders are paying in the same proportion as did our friend, the lumber market as it now stands is nothing short of robbery.

Illustration

The Donley County Leader: Once upon a time a papa hog wandered off from the home place to a brewery where he drank a lot of sour mash. Staggering back home squealing wild-

ly, he was met by mama hog who got him out of sight of the pigs as quickly as possible and grunted: "You shameless wretch! Making such a human being of yourself before the children."

William Penn founded the City of Brotherly Love, Philadelphia.

To skin and exhaust the land, will result in undermining the days of our children.

So goes the topsoil, so goes the people.

Human hair has only two pigments. Their colors are reddish yellow and sepia brown.

Legumes and grasses are two of nature's best tools for building and maintaining soil fertility.

How to avoid falling hair: Jump quickly to one side.

To keep a horse from slobbering: Teach him how to spit.

In time of danger, what is more to be desired than presence of mind? Absence of body.

Tell a woman who is trying on shoes that one foot is larger than the other, and you have lost a sale; but tell her that one foot is smaller than the other, and you have gained a customer.

Getting around over Texas:

When the First National Bank in Cisco was re-modeled, the side door opening on to the alley was eliminated. It was through that door the Santa Claus robbers marched out, using bank customers and members of the bank's force as shields, during the battle that cost three lives, back in 1927.

And the pole near the jail in Eastland, from which the Santa Claus later was hanged, is still standing.

A tribute to our teachers, entitled "Builders," written by an unknown author: A builder built a temple; he wrought it with grace and skill. Pillars, groins and arches, all fashioned to work his will. Men said when they saw its beauty, "It shall never know decay."

"Great is thy skill, O builder, fame shall endure for aye. A teacher built a temple of loving and infinite care, Planning each arch with painstaking care, laying each stone with reverent plan. None praised his unceasing efforts; none knew of his meritorious plan. For the temple the teacher crumbled into the dust. Low lies each stately pillar, for consuming rust. But the temple the teacher built will last while the ages. For this beautiful unseemly edifice is a child's immortal soul."

Fertilizers have a definite place in the building and maintaining of soil fertility.

Terraces have the effect of maintaining the soil.

Memorial Day 1946

Thursday, May 30

On this occasion we turn our thoughts to all our buddies who made the supreme sacrifice . . . who died in order that freedom-loving people might live. As a flower is placed on their graves, in this nation and in foreign lands, let us again pledge ourselves that the peace they fought for and died for shall live on and on.

This Memorial Day we rededicate ourselves to the task of seeing that they have not sacrificed their lives in vain, or that their loved ones shall not suffer because of their sacrifice.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

Watch This Ad for Lates on Wheat

According to the last word on wheat marketing the producer will sell his wheat to the country shipper, who in turn ships the wheat to a flour mill or terminal warehouse, the C C C looks to the flour mill or warehouse for their part of the wheat, which will be 1/4 of the wheat received by them. In other words the C C C expects 1/4 of all wheat produced this year to help feed the hungry people of the war torn countries.

We have had some criticism on our moisture testing discounts, however when we ship this wheat we take a moisture dock on same if it runs too much moisture, also this wheat that tests over 14% moisture the C C C will not accept under any circumstance, so if a shipper gets a load of musty wheat on the market he has quite a headache getting any of the warehouses to unload same, without a heavy dock in price. However the wheat should be in good shape soon.

The same situation which is preventing the manufacture of newsprint is causing curtailment of production in various lines. More and more firms are turning to newspaper advertising to tell their story to the people, although there is still a large scarcity of items.

Perhaps President Truman, at long last, will get the strikers to go to work in this time of need for everything that can be produced by them.

Anytime a newspaper is forced to limit news and advertising, the overall drawing card for the city as a whole will be cut down; for it has been stated time and again that the trading area of any town can be measured by the area in which the town paper circulates.

People generally follow a given pattern, and those who depart from such pattern are pioneers. Why doesn't some couple start a new kind of picture following the wedding ceremony? Now, the picture is made of the couple cutting a wedding cake. Might I suggest a picture of the couple frying bacon and eggs, or stringing beans and peeling potatoes. It would be more in keeping with life. People do not spend all their time cutting cake in this day of trying to save food and making a living.

It has been several weeks since anything was said about Fairview Cemetery. Following the fine rain of this week, weeds likely will get to growing, and the following letter contains some good suggestions regarding the clean up, which I hope will take place soon:

Dear Mr. Wells:
 I am an unknown reader of your comments, so would like to call your attention to a few facts before the Lions Club has the Fairview Cemetery working. I believe you and every one else who have lived in this country very long know how the rains and winds take our soil away where there is no vegetation. You, no doubt, have noticed, probably around your own home, how in places where there is no grass the ground will be inches lower than where the grass is growing. Here's the point, and it's not just one person's opinion, but will repeat one person's comments, "If they dig up and kill out the grass in Fairview Cemetery, the caskets will be sticking out of the ground in no time."

Now, Mr. Wells, when something similar happens, who is there to care or do the hard labor of hauling dirt to rebuild the many lots where in some cases the whole family have died or moved away? Of course, we know that Bermuda grass, watered and mowed, would be much prettier than the wild rye and bunch grass that is holding the soil in Fairview. But since there is no one to do all the labor of setting out and tending Bermuda grass, why not ask the folk when they work Fairview to leave the grass and cut the weeds? Now, don't you think this is a wise idea? In fact I know folk who can't look after their lots and want the grass left to hold the soil.

Quality of Food Essential to Diet

"It is now well known that the mere increase of the total protein intake is not the only result to aim at." This statement is made by Dr. E. J. Bigwood, professor of physiological chemistry, and nutrition in Brussels University, and an advisor to the Belgian government, in a recent issue of Nutrition News published by the National Dairy Council.

"An adequately balanced supply of the few essential amino acids must be sought for in order to meet this purpose. Milk, cheese, eggs, and meat are known to supply the most suitable proteins required in this respect.

"In our pre-war diets at least two-thirds of the calcium intake was secured by dairy products. Calcium deficiency has been another outstanding feature of wartime malnutrition. Rickets is one of the major manifestations of deficiency diseases during this war." Dr. Bigwood writes.

 advice on the method of fighting the fire. The interference proved not only non-helpful, it was pointed out, but also embarrassing to the volunteer department members.

A city ordinance makes it unlawful for drivers to run over fire hose, and a penalty is attached to those violating the ordinance, city officials said. At the recent fire, only one driver violated this law, but it has occurred on other occasions. The hose is damaged when run over, thus opening the way for further danger by fire should the hose be broken.
