Christian Church Revival to Start On Monday Night

J. Paul Tisdell to Conduct Two Weeks of Services; Matthews Song Leader

A two-weeks revival, featuring Bible answers to 14 great questions, will begin Monday night at the First Christian Church in Memphis, Rev. Tom Posey, pastor, has announced. Delivering the sermons each evening at 7:45 o'clock will be J. Paul Tisdell of San Antonio, who conducted a successful meeting here two years ago, Rev. Posey said. The sermons will be in the form of answers to all-important questions, it was explained. Leading the song service will be Monty Matthews of Springfield, Mo. Matthews is a college student in Springfield and holds two half-time pastorates, one at Elkland, Mo., and the other at Conway, Mo. Matthews is one of five preachers in his family since his father and three brothers are pastors. The Matthew brothers are noted for their singing, and often (Continued on page 8)

FORMS TO OBTAIN RIGHTS-OF-WAY FOR FIVE MILES PAVING RECEIVED

Forms and blueprints to be used in obtaining rights-of-way for future paving of the 5-mile strip of road north of Highway 256 to the Donley County line have been received by county officials, it was announced this week. Residents of the Brice area and the immediate surrounding territory were urged, however, not to become optimistic over the immediate paving of the strip, since it is believed it will be at least 10 to 15 months before action on actual paving of the road can be taken. The commissioners will, of course, begin work on obtaining the rights-of-way in the very near future, but believe that the highway department will not be able to include the work in its program until the 1947 fiscal year,

LOCAL SCOUTS TO HAVE MEET FOR SWIMMERS

INVITATIONS TO GO TO SEVEN TOWNS IN SOUTHERN DISTRICT

The Memphis Boy Scout troop 35 will serve as host at an invitation swimming meet for the Adobe Walls Council, southern district, Wednesday, July 24, at the public swimming pool here, Theodore Myers, scoutmaster, said this week.

Invitations are being sent to troops at Clarendon, Wellington, Shamrock, McLean, Hedley, Tampa, and Borger.

Six or seven types of diving contests will be held, and plans call for about the same number of swimming events. Diving will include contests in swan, jack-knife, back dive, and others; and swimming events will be such events as 50-foot races in crawl stroke, side stroke, free style, and others.

The local troop is in prime condition for the meet, it was pointed out, but expect stiff competition from representatives of other towns. The local boys will demonstrate a swimming stunt during the meet, and will serve refreshments to the visitors.

Master of ceremonies for the affair will be assistant scoutmaster Gene Robertson and Winfred Messer. Alonzo Robertson, a registered life guard, will be on hand to watch the swimmers. Robertson received his life guard certificate at Baylor University last year. Judges for the meet will be selected from members of the Boy Scout committee.

Airplane Dusting Service Available

Farmers of this area may have their cotton crops dusted by airplane, County Agent W. B. Hoosier said this week following the arrival of a representative of an aero dusting company.

The plane is capable of dusting about 1,000 acres per day, it was explained. Further information may be obtained at the office of the county agent.

His 'Marbles' Gone 'T-Bone' Reynolds To Peek No More

James "T-Bone" Reynolds, a 26-year-old Negro who had a habit of peaking in windows at night, is no longer in Memphis to put fear into the minds of women who might be alone at night.

"T-Bone" was declared insane in a lunacy trial here recently, and was to be committed to a state hospital. Bond was made for him by friends, however, who took him to Lamar County Tuesday.

Should the friends not be able to care for him properly, he will be sent on to the hospital. Efforts were made to send him to a federal hospital, but "T-Bone" had lost his discharge papers, could not remember his service number, and the authorities were unable to accept him.

Funeral Services Held in Memphis For J. L. Souder

Longtime Area Resident Dies in Swearingen Home; Interment at Fairview

Funeral services were held Tuesday morning at the First Methodist Church in Memphis for James Lucian Souder, who died last Saturday at his home near Swearingen. He was 51 years, 5 months, and 18 days of age.

Rites were conducted by Rev. Aubrey C. Haynes, Methodist pastor, assisted by Rev. V. A. Hansard of the Calvary Baptist Church in Amarillo.

Interment was in Fairview Cemetery under the direction of the Ellis Funeral Home of Wellington, assisted by the Murphy-Spicer-Estes Funeral Home of Memphis.

Souder had lived in the Swearingen community for a number of years, and was well known in Memphis.

Survivors include his wife, Mrs. Ellen Souder; 11 children, Mrs. Mary Ellen Mitchell of Wellington, J. L. Souder of Wellington, Mrs. Margaret Osborn of Grand Prairie, Mrs. Frances Sasser of Wellington, and Ruby, Betty, Annie, Perry, Tommie, Connie, and Bonnie Joyce, all of Swearingen; his parents, Mr. and Mrs. P. H. Souder of Fort Worth; and four brothers, Gus, Naron, and Chester Souder of Fort Worth, and Cecil Souder of Riverside, Calif.; and six grandchildren.

Stamps Quartet To Be at Lakeview

The Stamps All-Star Quartet from Wichita Falls will appear at the grade school in Lakeview Monday night, July 22, under the sponsorship of the Lakeview Methodist Church, it was announced this week.

The program will commence at 8:30 o'clock. Net proceeds from the show will be given to the Lakeview Boys Club, Rev. R. M. McNally, pastor of the Lakeview church, said. Tickets at 50 cents for adults and 25 cents for children are now on sale at the Del Wells grocery store in Lakeview.

LOCAL ENTRIES COP HONORS IN BANTAM SHOW

ROY GUTHRIE'S BIRDS WIN 14 PRIZES IN SOONER CLUB SHOW

With 14 entries winning 14 prizes, and with one of the entries declared the best of all hens in the show, Roy L. Guthrie once more copped high honors with his bantams at the Sooner Bantam Club Show in Hobart, Okla., Sunday.

Outstanding prize winner was, of course, the Buff Silkie hen which was judged best of all hens in the entire show.

The show was sponsored by the Sooner Bantam Club and was held on the lawn of the president, Robert Ferrell. Judging was by John Wood, A. P. A. judge of Altus, Okla. A large number of birds were entered, Guthrie said, and all were well cooped and cared for.

Here's a review of the winners of the entries from Guthrie's flock:

His Dark Cornish took first and was judged the best Cornish bantam in the show. His Silver Sebright cock won first, and two hens won first and second; the first place hen was judged the best Sebright entered.

The Buff Silkie entries in both the cock and hen divisions took first, and this hen was declared best of all hens in the show. A Black Cochin cockerel won first place honors in its class, and a hen of this breed won second.

A Black Rose Comb cock won first; two hens placed first and second. A White Silkie cockerel and a White Silkie pullet each placed first. A Dark Cornish hen placed fifth.

Attending the show were Mr. and Mrs. Guthrie and daughter Sue Lynn.

William G. Joyce, Former Resident, Is Declared Dead

Flight Officer Missing Since June, '45; Parents Now Living at Alpine

Flight Officer William G. Joyce, son of Mr. and Mrs. A. J. Joyce of Alpine, former Memphis resident, who has been missing in action since June 20, 1945, has been declared officially dead, according to a letter from the war department to his parents, Mrs. Joyce, a student at Sul Ross College when he entered service, was born and reared in Memphis. A. J. Joyce for a number of years was employed at the Foxhall motor company here.

The flight officer received his wings and commission at the Stockton, Calif., pilot school in May, 1944, had been overseas about five months, and had flown a number of missions as co-pilot of a B-29. He had been awarded the air medal and other decorations for meritorious service.

The letter from the adjutant general read, in part, as follows: "The war department has entertained the hope that he survived and that information would be revealed dispelling the uncertainty surrounding his absence. However, as in many cases, the conditions of warfare deny us such information.

The records show that your son was a crew member of a B-29 (Superfortress) bomber which departed from Guam on a combat mission to Shizuoka, Japan, on June 19, 1945. The aircraft was neither seen nor heard from after the take-off and the circumstances surrounding its disappearance are unknown. A search was conducted by air-sea rescue units; however, no trace was found of your son or his crew members.

In view of the fact that 12 months have now expired without receipt of evidence to support a continued presumption of survival, the war department must terminate such absence by a presumptive finding of death."

Memphians Attend Evangelistic Rally

Twelve Memphians attended the evangelistic rally held at the Polk Street Methodist Church in Amarillo Tuesday, July 9. Bishop Charles E. Seelman and other outstanding speakers were on the program.

Attending from Memphis were Mr. and Mrs. C. C. Hodges, Rev. and Mrs. Aubrey C. Haynes, Mr. and Mrs. W. H. Monzingo, W. D. Young, Mrs. Myrtis Phelan, Mrs. D. A. Neeley, Mrs. W. R. Taylor, Mrs. E. W. Solomon, and Jan Monzingo.

100-Degree Temperature Hurting Crops of County

IN THE NEWS are these surviving babies of the quadruplets born to Norah Carpenter and Ex-Sergeant William "Red" Thompson of Pittsburgh. They are shown here shortly after their arrival in New York. Norah and Red are now married and are living in Pittsburgh.

ANNUAL COUNTY ELECTION PARTY TO BE SPONSORED BY DEMOCRAT

The regular bi-annual election party, designed to give Hall County a complete report of the unofficial returns of the Democratic primary, will be held again this year, J. Claude Wells, publisher of The Democrat, has announced.

The party will be held at the office of The Democrat Saturday night, July 27, when returns from all boxes of the county will be posted as they are phoned in to James E. King, chairman of the county Democratic executive committee.

The large blackboard will be erected once more on the awning in front of The Democrat office, where the returns will be posted for the public as soon as they are received here.

Present plans call for the roping off of this area from auto traffic, to eliminate possible accidents from cars progressing along this part of Main street. Crowds in the past have made vehicle traffic impossible in front of the office.

In past election years, similar parties have been sponsored by The Democrat and citizens interested have been able to determine most of the winners long before midnight. Practically all of the voting boxes in the county are able to report the vote in full before 12 o'clock.

Eli School to Sell Stucco Building

A stucco building, formerly used as the Eli primary classroom, will be sold at auction Friday, August 2, at 2:30 o'clock, at the Eli School, it was announced this week by trustees of the district.

Open or sealed bids will be received. Sealed bids may be mailed to W. B. Gilreath, Route 1, Memphis, who is president of the school board, or to Mary Foreman, Memphis, county superintendent. Open bids will be received at the school the day of the sale.

The frame boxed building is 34 feet by 24, and has good flooring. It was explained, and can be moved without first being torn down.

The south side door of the building will be open for inspection, officials said.

Local VFW Post To Have Barbecue

A barbecue and picnic for Veterans of Foreign Wars members and their families will be held at the city park in Memphis Thursday evening, July 25. Bob Queener, commander of the Durrett-Brown post, said this week. The program will start at 8 o'clock.

Mrs. Roden Dies In Wichita Falls After Long Illness

Funeral Services Held At Local Baptist Church; Interment at Fairview

Mrs. Margaret Ellen Roden, 83 years of age, died in a Wichita Falls hospital Sunday afternoon at about 12:30 o'clock after a long illness.

Funeral services were held Tuesday afternoon at the First Baptist Church in Memphis, with Rev. Jeff Moore, pastor, conducting. Interment was in Fairview Cemetery under the direction of the Owens-Brumley Funeral Home of Wichita Falls, assisted by the Murphy-Spicer-Estes Funeral Home of Memphis.

Mrs. Roden was born October 22, 1862, in Alabama, and was 83 years, 8 months, and 22 days of age at the time of her death. She was married to J. N. Roden in December, 1878, and to this union was born ten children, six boys and four girls.

Survivors include five sons, Jim Roden of Burkburnett, John Roden of Amarillo, Jess Roden of Memphis, and H. O. Roden of Amarillo; two daughters, Mrs. Bell Clark of Paris and Mrs. Mildred Glascock of Amarillo; and 19 grandchildren and 13 great-grandchildren.

One-Variety Bodies Proving Profitable

Once more Hall County farmers will be entitled to receive free classification of cotton from the government and free marketing news service.

The free service from the government comes as a result of county farmers taking advantage of the organization of cotton improvement associations, better known as one-variety associations.

The associations were organized a number of years ago, the first at Estelline, and now all farmers in Hall County are members of the groups.

There are four of the organizations in Hall County, one at Memphis, one at Lakeview, one at Estelline, and one at Turkey.

To be eligible, a farmer must plant at least one acre of cotton with the association's chosen variety, making him eligible for the free classification of his entire crop.

Spotted Showers In Spring Season Miss Some Farms

Thermometer Soars to 108 Sunday for Week's High; Feed, Cotton Needing Rain

With daily temperatures soaring well above the 100-degree mark, and with hot winds instead of cooling moisture hitting the crops, farmers of Hall County and the remainder of this immediate area were hoping and wishing for a seige of cooling moisture to ease the dry throats of cotton and feed crops.

The high temperature of the week came Sunday, when the mercury rose to 108 degrees. Monday afternoon was not quite so hot with the temperature hitting degrees, but people with air conditioners had them going almost all day long.

Condition of crops over county vary a great deal, some spots, one may find some of the best-looking cotton feed in the Panhandle, and other farms may have very poor-looking crops.

The rain during the spring season has been a series of sp showers. One farmer who about six miles east of town been fortunate enough to have a fair shower at almost the times the moisture was needed. Others have had practically no moisture at all.

The spotted showers have been peculiar, although similar to those here in past years. In this year, one farm received one to two inches, and another only a few inches away will get only a few or none at all.

A few weeks ago, a high accompanied by sand accompanied heavy damage to some in the northwest part of the county. Some of the farmers have insurance to cover the loss, but majority did not.

Water Shortage Becoming More Critical Each Day

Tuesday Memphians use more than 500,000 gallons of water, and the shortage situation is becoming more critical by the day, W. V. Coursey, local manager of the Community Public Service company, said Wednesday afternoon.

"We have a promise that the needed couplings for the pipe line from the two new wells to town are being shipped today (Thursday), but how long it will be before they reach here is not known," the local manager said.

The water shortage will continue, he explained, if citizens continue to use all the water they want. However, it is believed the two new wells will ease the situation a great deal when the line is finally completed.

Going Up?--

You'll Pay More to Live Now

Are prices up? Yes, and going up more and more daily. Statisticians have estimated, by studying the overall picture, that the cost of living has advanced 22.7 per cent during the past two years.

To prove the point, here's some figures on the local situation: Butter up to 85 cents per pound from 65, and local dealers are expecting another increase at most any time.

Milk went up this week from 14 to 17 cents per quart. Lard went up from 25 to 35 cents per 35 lbs. can.

Wholesalers have gone up 5 cents per carton on cigarettes, and some dealers are adding this to the price.

Haircuts up from 50 to 65 cents; shaves from 35 to 50 cents. Steak is up from 45 to 50 cents per pound.

Ground meat (hamburger) now 25 cents per pound. Sausages are up from 40 to 45 cents per pound. Eggs have been advanced 2 cents per box.

Feed and seeds are still going up and wheat is bringing in

more money than since the glowing twenties.

A large can of condensed milk will now cost you 13 cents, the same you were paying 10 cents for; and a small can is now 6 cents instead of 5 cents.

In other words, Eddie Cantor cannot rightfully sing the song, "Potatoes are cheaper, etc." and still be telling the truth.

Understand, please, that these advances listed here are those made during the past two weeks and four days—since the death of the OPA.

Also understand, you can't blame too many of the price increases on the local merchants—they are doing their best to hold prices in line. But when articles which they stock go up, then so must the retail price go up. Many merchants are still selling practically all articles of merchandise for the OPA price, although they realize too well that to re-stock this merchandise, they will probably have to pay more wholesale than they are now getting retail.

So far no price increases on new automobiles have gone into effect. Perhaps one reason is that the OPA had only recently granted an increase, and the manufacturers are probably inclined to let that one sink in good before applying another. No unusual rises in auto parts have been placed in effect, either. In the meantime, the Senate has approved another price control bill, somewhat similar to the one which Truman vetoed recently, and observers in Washington are inclined to believe that Truman may veto this bill should it come before him as it now stands. The Senate bill eliminates the price ceiling on meat products, and a number of other items, but it does include rent control. Now the bill is being battered around by a joint House-Senate committee, with leaders believing it will be changed considerably before being voted on by both bodies.

The rent situation in Memphis is, fortunately, not as bad as in other places. Some instances of higher rent have been reported, and it is believed that a number of residents have had their rents raised but have said nothing about it. However, the increases thus far have not been unusually great.

Miss Stilwell to Be Wed To Bobby Lindsey July 21

The engagement and approaching marriage of Miss Doris Stilwell, daughter of Mr. and Mrs. L. A. Stilwell of Memphis, was made at an announcement breakfast in the home of Miss Roselyn Williams Sunday morning, July 14.

The wedding date has been set for July 21, when Miss Stilwell will take vows with Bobby Lindsey, son of Mr. and Mrs. H. H. Lindsey.

Blue and white place cards, denoting the bride's chosen colors of blue and white, marked places for 15 guests. At each place was a white corsage tied with blue satin ribbons and attached to a folder bearing the announcement, "Doris and Bob, July 21." A sketch of a man wearing a suit decorated covers of the folders and were representative of Mr. Lindsey's occupation.

Miss Stilwell is a graduate of Memphis High School with the class of 1940. She attended Texas Tech, Lubbock. Until recently she served as secretary of the ration board and is now employed at the First State Bank.

Mr. Lindsey graduated from the Memphis High School with the class of '41. He served four years in the marine corps and received his discharge in January of this year.

Memphis Ball Club Defeats Quail; Will Play Amarillo Team Sunday

The Memphis baseball nine got back into the victory column Sunday afternoon here when they soundly defeated the Quail team by a score of 17 to 7.

D. B. Hoover started on the pitching mound, tossed for three innings, and was relieved by Garvin Davis. Davis pitched three innings, and then Herschel Stewart finished the game. Catching were J. W. Coppedge and O. R. (Doc) Saye.

The local team will journey to Amarillo Sunday afternoon to meet the Times team for the first meeting of these two groups. Other games of the Red River Valley league will be Samnor-

wood at Childress, Clarendon at Quanah, and Wellington at Quail.

Last Sunday saw the strong Childress nine go down to a 6 to 3 defeat from Wellington. The Childress team "blew up" and lost the game mainly through a series of errors.

The Amarillo Times nine scored another victory by smothering the Clarendon team by a score of 13 to 7. Results of the other game, that between Quanah and Samnorwood, were not available.

Mrs. Roberta Smith of Colton, Calif., is visiting in Memphis with her mother, Mrs. S. P. Wells, and sister, Essie Cope.

City Drug to Have Grand Opening as Walgreen Agency

The grand opening of the City Drug Store, formerly the Meacham Pharmacy, as a Walgreen agency store, will be held this week-end. W. C. Foote Jr., owner, has announced.

The store suffered fire damage several weeks ago, and the resulting fire sale is now over, Foote said. A new stock of drugs, purchased through the Walgreen chain, has been added to the store, as have new pieces of fixtures.

"Low deep-cut prices will be featured every day in our store," Foote said, "and we invite the citizens of this trade territory to take advantage of the many savings. Your patronage will be greatly appreciated."

Scott Home Burns On Springer Place

The farm home of Mr. and Mrs. George Scott and family one mile north of Eli was completely destroyed by fire Wednesday afternoon following the explosion of an oil stove.

Mr. and Mrs. Scott and some other members of the family were at home, but were unable to extinguish the blaze. The house had four rooms. All household belongings of Mr. and Mrs. Scott were lost.

No insurance was carried on the house, F. R. Springer, who owns the place, said Thursday.

Church and Farm Leaders to Unite In Observing 'Soils and Souls' Sunday

Church and farm leaders of Texas unite Sunday in observing "Soils and Souls Sunday," when the citizenship renews its vows for stewardship of the soil.

Governor Coke R. Stevenson spearheaded the program by making a proclamation setting aside the special Sunday which was sponsored by Farm and Ranch magazine under the direction of A. B. Kennerly, editor of the publication.

Some Hall County churches will aid the program with special services Sunday, County Agent W. B. Hooper said this week. Most of the pastors have been contacted, and some have agreed to set aside the day for special observances.

"It is fitting," stated the governor in his proclamation, "that religious groups should assume the initiative in carrying the message of stewardship of the soil, and that all groups whether governmental or private, should assist in this observance."

Church leaders in various denominations over the state are co-operating in the program and sermons on the special Sunday will be devoted to man's responsibility to God far passing on to future generations a fertile and bountiful soil.

Dr. Ide P. Trotter, director of the Texas extension service, has made speeches in many churches in which he stressed the need of connecting a religious emphasis to the pleas for proper handling of God's soil committed to our use.

Other farm leaders active in the program are Lee Ozburn, regional director, Farm Security Administration; Walter Hammond, president, Texas Farm Bureau Federation; O. Dawson, manager of the agricultural department, Second National Bank, Houston; William A. Wilson, agricultural director, East Texas chamber of commerce; E. D. David, manager of the Southwestern Peanut Growers' Association; Robert A. Manire, director of agricultural education in Texas; V. C. Marshall, executive director, State Soil Conservation; B. E. Stallones, secretary of the Texas Federation of Cooperatives; and W. M. Whyburn, president, Texas Technological College.

Among church leaders cooperating are Dr. A. B. White, rural church leader of Texas Baptists, Don Morris, president of Abilene Christian College, and Dr. Paul D. Wemeldorf, executive secretary of Methodists for the southwest.

J. O. Fitzjarrald made a business trip to Dallas this week.

Resident's Mother Dies at Nocona

Mrs. E. B. Peters of Nocona, mother of Mrs. H. B. Estes of Memphis, died Sunday morning at about 4 o'clock after a long illness.

Funeral services were held at Nocona Monday afternoon at 3 o'clock. Mr. and Mrs. Estes were in Nocona at the time of the death of Mrs. Peters, and were present for the services.

Locals and Personals

Crockett Attends Meeting in Dallas

John B. Crockett, manager of the Memphis chamber of commerce, left Sunday to attend the Southwestern Institute of the U. S. C. of C. for a week in Dallas. The institute is one of the six regional meetings held each year in different parts of the U. S. Specialists from a number of states will be present to discuss methods and activities in a number of important lines of work, including aviation, legislation, industrial promotion, management, committee work, finance, civic affairs, tourist trade, and other related subjects.

Hodson Lewis, regional manager, with headquarters in Dallas. The meetings, to be held in the Baker Hotel, will draw representatives from Colorado, Texas, New Mexico, Kansas, Louisiana, Arkansas, Nebraska, and Missouri.

Mrs. W. H. Moreman returned Sunday from Corpus Christi after visiting there in the home of her daughter, Mrs. T. J. Bowman.

(Continued from page one)

this area, the Soil Conservation Service reports that about 75,000 acres of farm and range land in Hall County are faced with a serious wind erosion threat because of moisture deficiency. The situation is so critical, SCS officials say, that the application of certain coordinated conservation practices is advisable immediately to reduce the extent and severity of soil blowing—something which is almost certain to occur next spring.

The recommended practices include the following:

1. With the occurrence of some rainfall before July 15, grain sorghum may be planted as a protective cover and for possible harvest. It is essential, SCS men say, that as much of the crop residue as possible be left on the surface in preparing the land for the following crop next spring. It is best to delay soil preparation for the next crop as long as possible to provide maximum protection against blowing next spring. It is best to delay soil preparation for the next crop as long as possible to provide maximum protection against blowing next spring.
2. Where suitable, rye may be planted for fall, winter, and spring cover. The rye may be used for grazing to a limited extent.
3. Emergency tillage to create a rough, cloddy surface that offers resistance to the wind.

If they are to do any good, it was explained, these practices should be applied immediately. A high percentage of this sandy land, probably 75 per cent, cannot be cultivated at any time, and it would therefore be best in the long run to return it to permanent pasture or range. For land that cannot be taken out of cultivation immediately, however, the next best thing is the application of coordinated soil conservation practices to hold the soil in place and make the best use of the limited amount of rainfall available on the high plains.

VOTE FOR EARL E. HILL
 — for —
SHERIFF
 Of Hall County

A vote for Earl E. Hill will be a vote for the kind of law enforcement the people of this county want. He has lived here practically all his life, and knows intimately what the problems will be for any man serving as sheriff.
 He is a veteran of World War II. And the training received while in uniform will help if he is elected to this important office. Hill is young enough, energetic enough, and fair enough to make any county a good sheriff, and has stated that all he wants is a chance to serve his home folks.
A VOTE FOR EARL E. HILL WILL BE A VOTE FOR FAIR AND IMPARTIAL ADMINISTRATION OF THE SHERIFF'S OFFICE.
 Consider this young man's candidacy before you go to the polls on July 27th.

Gordon A. Messer Technical Adviser Of Paramount's 'The Big Haircut'

Gordon A. Messer, son of Mrs. T. A. Messer of Memphis, is serving as a technical adviser on "The Big Haircut," a Paramount movie production scheduled to be ready for distribution next year.

for the hand of a farmer's daughter. Messer, who owns several combines himself, was hired as technical adviser for the picture due to his knowledge of the growing and harvesting of wheat.

The picture, of course, will be on a big scale, with 27 combines doing formation harvesting, etc.; and by means of trick photography, the 27 combines will be made to look like 54.

The wheat is real, however, as is the harvesting. The wheat was transplanted to an irrigated wheat field on the Russell Giffen ranch of 47,000 acres 42 miles north of Fresno, Calif. The crop turned out well, too, since 1000 acres harvested in two days time yielded 50,000 bushels.

A long story, accompanied by pictures of Ladd and sketches of the harvesting, appeared in Sunday's issue of the Los Angeles Times.

JOE L. MOTHERSHED

A Message To The Voters

When I announced my candidacy for the office of sheriff of Hall County, I thought I might be able to see each of you personally but due to the fact that I have not yet received my discharge from the U. S. Marine Corps, it is necessary for me to take this means of asking for your vote and support.

In asking for your assistance in my campaign, I submit the following:

I am 31 years of age, was born in Hall County and lived on a farm near Parnell until I enlisted in the Marine Corps. I married a Hall County girl and we have a daughter 16 months of age. During my service in the Marines, I saw 38 months combat duty in the Pacific.

It is my desire to serve you as Sheriff for several reasons... I am well qualified and it is a splendid opportunity to return to civilian life and take my place in Hall County. It will be my purpose to enforce the law fairly and impartially, and use the same effort to protect the innocent and those in need of assistance, as to arrest and imprison the guilty. I have lived a clean life and invite your investigation if you are not acquainted with me and my family.

I am in excellent physical condition and ready to work long hours when necessary to fulfill my obligations as sheriff. In casting your vote for me, I assure you that in doing so you will be extending the greatest favor to me and at the same time, you will be casting a vote for an efficient administration of the Sheriff's office of Hall County.

My discharge is due before January 1st, and I hope to return home as your Sheriff-Elect.

Respectfully submitted,

Joe L. Mothershed

Your Support Will Be Appreciated

It was my pleasure to serve as your commissioner in Precinct No. 1 several years ago, and as I ask your consideration at this time, I want to point to the record I made while serving as commissioner, and base my candidacy on this record of getting better roads and reducing county taxes.

In this postwar world, with all its problems, I believe that my experience in the past will aid me in making you an even better commissioner than before.

I take this means of soliciting your help and influence in the coming election.

W. B. Morrison

All over the country people are talking about a "Change." Hall county voters are asked to consider the candidacy of John Russell for County Judge.

John Russell was born and reared in Hall County, and has lived here all his life. He knows intimately every problem which faces the people, and has proven himself to be a man of unusual business ability.

IMPROVE COUNTY AFFAIRS

When he made his announcement as candidate for this office, he took a definite stand to do everything he could to WORK FOR IMPROVEMENTS, if he was elected County Judge. He has pledged to leave nothing undone to obtain for Hall County every mile of improved roads we are entitled to. He is for strictest economy in county affairs, and will act fairly and justly in all matters without fear or favor.

Support of Public For Safer Texas Sought by Group

In the face of the already 45 per cent increase in traffic fatalities over last year, the Texas Safety Association has accepted a charge by Governor Coke Stevenson to mobilize public support for a safer Texas.

Announcement of its designation by the governor was made by A. F. Allen, president of the association, upon receipt of a letter from Stevenson.

"Since my inaugural address as Governor, I have stressed the importance of highway safety as essential to modern, progressive government," Stephenson said. "There is no more tragic waste of human lives, no more unnecessary background to human suffering, no more needless source of economic loss than traffic accidents.

"The current critical traffic accident situation is a positive challenge for public action to

Air-conditioned stores get the business—and wise business men have their stores GAS-COONDITIONED. Modern natural gas air-conditioning installations maintain constant temperatures regardless of the season, provide ideal working conditions—never too hot, never too cold. Smaller units will soon be available for the average home . . . at a price you can afford to pay! They're low in cost, economical to operate, and as dependable as the system that stands back of them. We who live in the Gulf South enjoy rich advantages over residents of other areas . . . advantages of comfort, convenience and economy . . . because we have dependable natural gas service. In 313 Gulf South communities, the facilities of the United Gas Pipe Line Company assure that dependability. They link your gas burners with 6,000 miles of main pipe lines, connect them with more than 1,000 producing gas wells in hundreds of fields. That's dependability—unequaled anywhere in the country.

Winning Essay—

DIVERSIFIED FARMING PAYS

Editor's Note: This is another of the winning essays in the recent contest, in which 4-H Club members wrote articles on the advantages of diversified farming. This essay was written by Don Davis of Newlin.

It pays to plant certified seed of a variety that is suitable for this country. Also raise enough hogs, cows, calves, and chickens to have plenty of meat, eggs, milk, and butter to eat, and some to sell.

Diversified farming is important to a farmer because by using the diversified method he can raise a better crop which will bring in more money. Farmers do not use the "hit and miss" method as much as they did because they found that diversified farming helps them to live at home and it will produce more food to help feed the starving.

Cotton is considered the money crop here, but grain sorghums produce as well. The type of soil must be considered before deciding what should be planted. Some soil in this country will grow alfalfa, but cotton, grain sorghums do better on most of it.

First the land should be contoured and terraced if it is extremely rolling or hilly. Strip farming is advantageous in some cases and crop rotation is very essential to help build the soil and prevent erosion. It is better to have more than one money crop, so if one fails maybe the other will make.

Fertilizer is not used here successfully because of the uncertainty of rain; therefore more thinking should be done about how to conserve what moisture we get, by plowing at the right time and keeping the land free of weeds and also have a good mulch, especially in dry weather.

Since food is scarce, there should be larger gardens planted to vegetables that are suitable for this country. The terraces could be planted to peas, beans, corn, or melons, all of which will produce well and prevent erosion also.

Mr. and Mrs. Darrel Hannon returned home last week after spending a 10-day vacation in Bullard. July the 4th members of Mrs. Hannon's family gathered for a fish fry and family reunion and about 80 members of the family were in attendance.

Mr. and Mrs. Foster Watkins and son of Canadian are visiting this week in Memphis.

SON OF MAHATMA . . . Devadas Gandhi, son of Mahatma Gandhi, the Indian leader, addresses the Indian congress party, of which he is managing director. He left shortly afterwards to see Prime Minister Attlee in regard to India's independence.

Method to Remove Common Stains

Many common stains in cotton clothes can be removed easily if the treatment is known. So Mrs. Dora R. Barnes, clothing specialist for the A. and M. College extension service, lists the following treatments:

Asphalt, tar, wax, and paraffin stains can be removed from both white and colored cottons with carbon tetrachloride.

Fresh fruit stains on white cottons can be removed with javelle water. For colored cottons, sponge with warm water. Then apply lemon juice after testing a piece of the material.

For grass and green vegetable stains, use javelle water on white cottons and alcohol on colored clothes.

A prepared ink remover is best on white cottons. But ink should be removed from colored cottons with alcohol then lemon juice. However, Mrs. Barnes cautions that a piece should be tested before this treatment is applied.

Rust can be removed from both white and colored cottons with oxalic acid or lemon juice. Paint stains in both white and colored goods can be removed with turpentine or carbon tetrachloride.

Carbon tetrachloride will remove lipstick in both white and colored cottons, but cold cream should be worked into colored material before application.

For treatment of mildew in white cottons, use hot suds, rinse, and alternate javelle water and oxalic acid. For colored things, use soap and water.

Mrs. A. Anisman and son Shelton returned home Friday of last week after visiting with her parents, Mr. and Mrs. Joe Marcum near Pittsburgh, Penn., for the past five weeks.

GET THE NEW B. F. GOODRICH SILVERTOWN AND KNOW YOU'RE SAFE!

The new B.F. Goodrich Silvertown has been tested by experts. By experts like Col. A. R. Killiam (shown here), Superintendent of Indiana State Police, who helped put the tire through miles of carefully recorded road tests. Millions

of miles of tests proved the super-safe construction of the new B.F. Goodrich tire. And they also proved that it OUTWEARS PREWAR TIRES, that it's better in many ways! You can take the experts' word for that!

Come in and see us today for the tire that OUTWEARS PREWAR TIRES

You can get earlier delivery if you see us NOW!

"Outwears Prewar Tires!" Those magic words have made the new B.F. Goodrich Silvertown tire the most wanted tire on the market—because those words state an honest fact conclusively proven by millions of miles of carefully recorded tests and millions more miles of consumer driving! What does the new B.F. Goodrich tire have? It has B.F. Goodrich's own "road-level" tread to give you more rubber to share the wear . . . more tread to stop on . . . more traction to hug the curves. It has tougher cords and more of 'em to give it a far stronger body.

It has not one, but two shock-absorbing breaker strips to cushion sudden blow. It OUTWEARS PREWAR TIRES, even at high speeds.

Do we have your size in stock? Maybe . . . they're arriving all the time. If not an order placed now will insure earliest delivery. Stop in today!

Screw Worm Fly Menace Spreads

The spreading menace of the screw worm fly to livestock profits has brought an appeal to farmers for a renewed fight against this pest during the coming summer months.

"Screw worms are causing serious losses among livestock in many localities right now," says a report issued today by the American foundation for animal health. "The fly lays its eggs in scratches and wounds; the eggs hatch out, and the tiny larvae bore into the animal's flesh, setting up a whole chain of serious complications.

"For this reason, in screw worm territories, such operations as dehorning, castrating, shearing and docking should be postponed until cooler weather, unless proper precautions against screw worm flies can be taken. During the fly season, livestock should be observed daily. Any animals having scratches or wounds should be placed in the barnyard where they can be watched and given treatment.

"If screw worm infestation

does occur, it is well to have amille, and Wicky, of Washington, D. C., are visiting in Memphis with his mother, Mrs. H. W. Stringer, and sister, Mrs. Ross Gentry.

FORREST L. HALL

Vote For Forrest L. Hall For Sheriff

A peace officer should of necessity be experienced in the ways and means of dealing with the public, and Forrest L. Hall is a man who has had varied experience (including that as a peace officer) which will enable him to fulfill the duties of the office of sheriff in a very capable manner.

As a peace officer, Mr. Hall served on the Memphis police force as night policeman for 5 1-2 years, and is well acquainted with the work which he will have if given the office of county sheriff.

If you want a sheriff who will do his utmost to arrest and convict those guilty of law violations, if you want a man who will give equal protection to the innocent, vote for—

QUESTION IS: WILL IT BE?

Whether the OPA is revived and brought back into life or the period of rapidly raising prices in this nation is now way and will continue at a swift-moving pace. Prices will go only so high, and then down, and some more. It's doubtful that you can find ten people in Hall County who will not agree that a depression will follow a period of prosperity and inflation.

Business as Usual

Present state political scene in Texas, particularly in the north, is as amusing as some of the campaigns which have been conducted in the past. Candidate, of course, is as colorful (nor as effective) as W. Lee O'Daniel, who undoubtedly will go down as the most efficient politician not to be one who ever lost an election.

Red River, N. M.
July 13, 1946

Memphis Democrat
Memphis, Texas
Gentlemen:

Just a few lines to thank you for seeing that the Democrat reaches me on time. We enjoy all the home news very much with the exception of the municipal light news, but guess I can take it if the other citizens can.

But am glad that after I noticed the W. T. U. politicians working Memphis so much that I made a bet that the matter would be dropped and as usual the monopoly continued. But it is a shame that while trading with the W. T. U. company that they did not consider the many appliance dealers in Memphis, and have the WTU also quit selling appliances and leave that to the Memphis dealers who really need the business and who could take care of it so much better without the hard competition given by the W. T. U.

Many large utilities companies have left the selling of electrical appliances to the dealers. And

SCOTCH TAPE . . . Former Premier Winston Churchill gets the freedom of the city of Aberdeen, Scotland, and wears his burgess ticket on his hat.

In some states a law has been passed against utilities companies selling appliances. But in Texas we have not been able to get that law passed on account of the big lobbyists. Oh well, maybe next time we will get still lower rates and elimination of the sales department.

Two other things that were noticed by me was the fact that most of the other appliance dealers did not sign the congratulations on the act, and also just one of the druggists whose bills run sometimes as high as \$75 per month.

Now don't misunderstand me, as I am sure that every one concerned did what he thought best.

But I am proud of the fact that we live in a country where a radical (if you want to call me that) can disagree with anybody at any time.

We are enjoying the nice cool climate, which is about 34 at night and 68 in the daytime, and intend to stay until September if we don't change our minds.

With best wishes to you and the hope that you will have cooler weather soon, we are—

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

To: The Unknown Stockholders of W. J. Rosamond, Incorporated, and the Unknown Heirs and Legal Representatives of the Unknown Stockholders of W. J. Rosamond, Incorporated, a Defunct Corporation, Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Hall County at the Court House thereof, in Memphis, Texas, at or before 10 o'clock a. m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 26th day of August, A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 11th day of July, A. D. 1946, in this cause, numbered 2985 on the docket of said court and styled Western Cottonoil Co., a corporation, Plaintiff, vs. The Unknown Stockholders of W. J. Rosamond, Incorporated, and the unknown Heirs and Legal Representatives of the Unknown Stockholders of W. J. Rosamond, Incorporated, a Defunct Corporation, Defendants.

A brief statement of the nature of this suit is as follows, to wit: Suit in statutory trespass to try title. Plaintiff claims title under the 25 year and 10 year statute of limitations, alleging that on the 1st day of June, 1946, plaintiff was and still is the owner of the land sued for, to wit: A part of Section No. 59, Block No. 18, H & G N Ry Co Survey in Hall County, Texas, beginning at a point 320 feet East from the Southwest corner of said Section No. 59; thence North 300 feet to a point; Thence East 300 feet to a point; Thence South 300 feet to the place of beginning; and Tract No. 2 being: A part of Section No. 59, Block No. 18, H & G N Ry Co Survey in Hall County, Texas, described as follows: Beginning at a point 320 feet East from the Southwest corner of said Section No. 59; thence North 300 feet to a point; Thence East 260 feet to a point; Thence South 300 feet to the place of beginning, owning same in fee simple and being on said date in possession thereof; and that on the 15th day of June, 1946, defendants unlawfully entered upon and dispossessed the plaintiff of such premises and withholds possession of same from plaintiff, and by reason thereof, plaintiff has been damaged in the sum of \$100.00 for loss of occupancy. Plaintiff prays for judgment awarding it the title and possession of the above described premises, for its damage in the sum of \$100.00 and for general relief, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Memphis, Hall County, Texas this 11th day of July, A. D. 1946.

Attest:
ISABELL CYPERT,
Clerk, District Court,
Hall County, Texas.

Mrs. Grace Duke left Monday for Amarillo where she will spend this week visiting with her daughter, Mrs. Jim Cornelius and family.

Safety — SUGGESTIONS

Editor's Note: This is another in a series of short articles to enlighten readers on driving rules, etc., published on request of the state department of public safety in the campaign to issue operator's licenses to all eligible drivers.

Before giving an applicant for a license a driving test, the official giving the test will inspect your car, and the test will not be given unless the condition of the car meets all requirements of the state law. Required equipment includes the following:

Brakes: Your car must have two separate means of applying the brakes, a foot brake and a hand brake. The foot brake must be able to stop the car within 45 feet when traveling at a speed of 20 miles per hour.

Lights: Your car must have two headlights and one red tail light. The headlights must be strong enough to enable you to see a person 200 feet ahead. One headlight and a tail light are required for a motorcycle.

Horn: Your car must have a horn which can be heard 200 feet.

Muffler: Your car must be equipped with a muffler and exhaust pipe in good condition.

License plates: Your car must be properly registered for the current year.

In addition, equipment which you may have includes a windshield wiper in good condition, a rearview mirror, and a spot light. These are not required.

Vote For Leonard King For District Attorney

15 years experience in the practice of law, including 4 years as County Judge of Childress County, and 4 years as Assistant Attorney General of Texas. He was elected County Judge when 25 years of age and was appointed Assistant Attorney when 29 years of age, being one of the youngest lawyers to hold either office in the state, and was the first lawyer from this section of the state to be tendered the position of Assistant Attorney General of Texas.

Veteran of World War II, enlisting as a private and served overseas in the South Pacific as an enlisted man in the Field Artillery.

Believes the office of District Attorney to be of such importance in the matter of law enforcement as to require the time and best efforts of the lawyer who holds the office, that the office should not be treated as a side line to an extensive private business, that the office is one of honor and trust the same as any other Public Office and that the lawyer who holds the office should expect and be required to work at the job if he draws the \$4,500.00 per year which the office pays.

His opponent, the present incumbent, will have served 2 full terms, less about 2 months, when he completes the present term, he having been appointed in March, 1943 when the then District Attorney resigned to enter the armed services. Back in March, 1943 when he received the appointment all of the younger lawyers of the district were in the armed services, and Leonard King was at a port of Embarkation loading on a troopship for the South Pacific, and therefore, did not have a chance to be considered for the appointment.

On the basis of his experience and ability as a lawyer, now asks your help in his campaign for election, by the people, for the office of District Attorney. Your vote and assistance will be sincerely appreciated.

Vigorous War Against Termites Urged by College Entomologist

Termites are found in every section of Tennessee and do as much damage in this state as elsewhere in the nation, according to Charles A. King Jr., entomologist for the Texas A. and M. College extension service, who is recommending a vigorous war against these undercover agents.

It is especially important now to conserve lumber and other cellulose building materials necessary for repairs, remodeling, and essential construction, he points out. Termite damage in the nation is estimated at 37 million dollars every year.

The next few weeks termites will be swarming, which makes them easy to discover. Termites are what is known as white ants and can fly during the swarming season. Later they lose their wings. The nests form concealed canals in which they travel and can eat away wood until "you'll step through the dining room floor before you know they are there," King warns.

consult local county extension service agents on control, King advises. Measures also are listed in Farmers Bulletin 1911 issued by the U. S. department of agriculture.

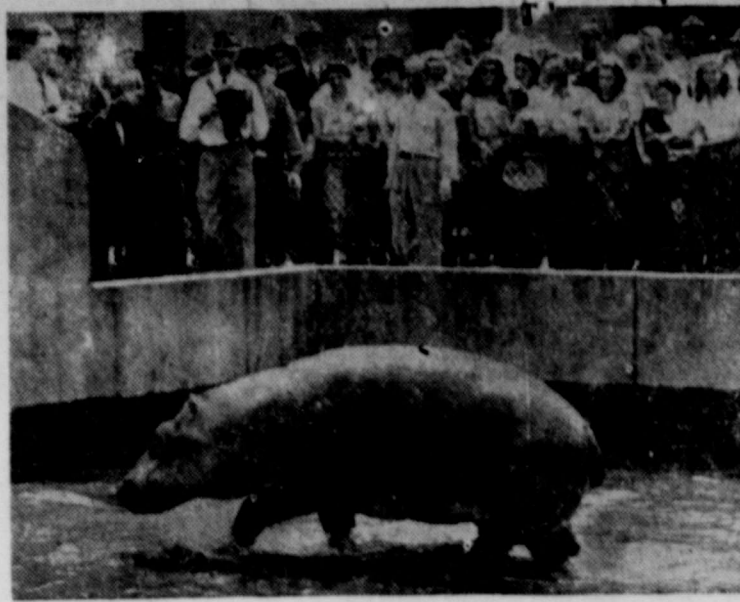

Where new construction is planned, King recommends these precautions: Remove all wood or cellulose materials from the building site. Don't place any untreated timber in contact with the ground. Make sure there is at least 18 inches of clearance under buildings which don't have cellars, basements, or concrete slab foundations. Provide good drainage and cross ventilation under buildings of frame construction. Allow at least two feet of screened opening for every 25 lineal feet of wall. Seal spaces around pipes and other floor or wall openings with coal tar pitch. Inspect for termites at least twice a year.

Advice Offered In Judging Rugs

Judging quality and wear in new rugs may be a problem to many homemakers, according to Mrs. Bernice Claytor, specialist in home improvement of the A. and M. College extension service, and she has several suggestions to prospective buyers.

The amount of wool in the rug, the construction of the rug, and the quality of the wool itself determine quality and wear in the rug.

Assuming that the wool is of good quality, the rug with a greater amount of wool will be a rug of higher quality, Mrs. Claytor says. A label will usually tell whether the wool used is worsted or woolen. Worsteds rugs wear well and look well, but the initial cost is apt to be high.

Both sides of the rug should be carefully examined to check on construction. A high-pile rug will wear better than a short-pile rug of the same density. But a rug with a short dense pile is preferable to a loosely woven high-pile rug.

Tightly woven foundation yarns, called "filling" are important in the wear of a rug. These are usually cotton or jute. Tightness of weave in the "filling" of a rug can be tested by shifting the rug back and forth in the hands. If the back of the rug feels sleazy or thin, if it lacks firmness or shifts readily, it probably is not a high quality rug.

Play Safe—Have Dial Checked on Pressure Canner

Home canners who have the dial type gage on their pressure canners should have it checked with a master gage before they begin canning this year, according to Gwendolyn Jones, specialist in food preservation for the Texas A. and M. College extension service.

The weighted type gage will need nothing but through cleaning.

As the gage is the guide to temperatures inside the steam pressure cooker, it is very important that it registers correctly. If jars have been heated too little, they will spoil later, Miss Jones explains. Or if they have been heated too much the food will lose nutritive values, flavor and desirable texture. This year

when canned garden vegetables will help stretch world food supplies it is particularly important not to take chances on losing a single jar.

Chances are that a gage can be checked in the community. The county home demonstration agent may be able to put housewives in touch with someone who can check it. A dealer who sells canners may have a master gage or the public service department of the power company may have one. If it is necessary to send it to

the manufacturer, it should be carefully wrapped and marked "fragile."

Finally, if it does register high or low, Miss Jones suggests tying a reminder on the canner which

THANKS FOR YOUR Cooperation

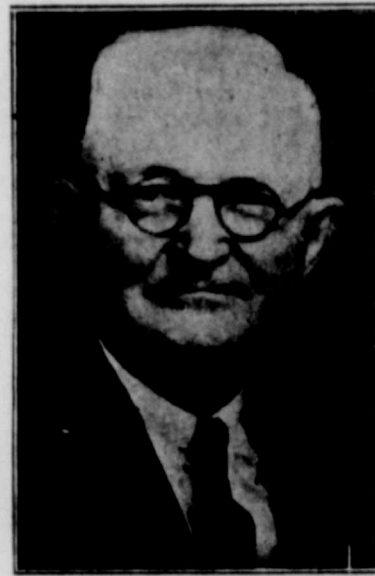

I want to express my appreciation to the people of Hall County for the wholehearted cooperation I have received during my first term as county superintendent. Because of this cooperation, not one school in this county has lost its accreditation although many problems have confronted us.

My experience in the office this term has given me a thorough knowledge of the business connected with this work, as well as a better understanding of the problems which arise every week. As I seek to be your county superintendent for a second term, this experience qualifies me to do an even better job in this capacity.

I shall endeavor to show my appreciation for your support by continuing to work for better schools for your boys and girls.

MARY FOREMAN

Candidate for County Superintendent

M. O. GOODPASTURE

M. O. Goodpasture

Candidate For

COUNTY JUDGE

Believes in thorough preparation before assuming public responsibility. Example: He made a 10-year study of "Taxation and Its Effects" before he ever asked to be named county judge. He knows the deadliness of excessive taxation and seeks to avoid pitfalls.

He believes "THERE IS NO SUBSTITUTE FOR EXPERIENCE." Successful business institutions rely on this principle. They get and keep experienced men. Why shouldn't a county adopt the same wise policy? No man can pass his experience and talent to a successor.

On January 1, 1937 he found the county's outstanding interest bearing debt was \$1,691,000.00. By the end of 1946 it will be reduced by \$734,000.00, a cut of almost half. Before 1937 only \$379,000.00 had been paid on the principal of all these debts, some dating back 26 years.

At the end of last year, \$1,047,000.00 was still outstanding but with \$90,000.00 paid this year, it is less than a million dollars for the first time in many, many years.

While the \$734,000.00 was being paid off, taxes were being materially reduced and the county was kept on a cash basis.

At the same time State road bond assumption was increased by \$689,000.00. Had this not happened an extra tax in 1946 of \$2.00 per hundred dollars valuation would be levied north of Red River, with similar high levies in other years, for bond purposes.

Invited to speak on Bond Assumption in several Texas cities, he was the first man in the State to demand bond assumption as a matter of justice and right rather than a "handout." His original basic idea, first advanced in 1939, is largely incorporated in H. J. R. 49 to be voted on as a Constitutional Amendment by the people next November.

ROADS: Before operations were interrupted by the war, one of the first Farm-to-Market roads in this part of Texas, which he supported, was built east 21 miles from Noel Street in Memphis. In the present Federal Farm-to-Market program under a new law, a low bid was recently submitted on the road from Plaska to Highway 256, a good start on our full allotted share of new Farm-to-Market roads.

FUTURE: For one thing, he is working as chairman of a state-wide Committee to take the lead in Soil Conservation advancement in Texas.

These are samples of some of his activities in the public interest. He has produced concrete results and proved his worth. He is grateful for all the very fine help many people gave when their aid was needed, for no one can do so much without all round co-operation on the part of the people.

He works at the job, on the job.

He uses caution.

He keeps out of the fire; will not walk into it and drag you with him.

Staying home won't elect him. VOTE FOR HIM.
