A bid submitted by the Mack Truck Company was turned down because it was far above the General Fire Truck figure, Clayton said, and the other bid, submitted by the Darwin Company, would guarantee neither delivery nor approval by the National Board of Fire Underwriters.

The wreck occurred on Highway 287, about four miles south of Memphis. Besides being badly shaken up, Shepherd received only a cut on one ear. Camp was not injured, according to reports.

Shepherd, who was going south, was blinded by the lights of an approaching car. He didn't see Camp, also going south, until he was almost upon him. He tried to miss the car by turning left, he said, but his right front fender caught the other car and his car overturned.

#### CLAUDE'S COMMENTS

By J. C. W.

In the '30's a lot was said about the Dust Bowl. A month or two ago it looked like the Panhandle was reverting to the dust bowl days, due to a few sandstorms. Lately, the idea of having a dry and arid country has changed due to snow, light rains, and fogs. The swamps of Louisiana have nothing on us now except they just have more of the kind that we have just a little. Prospects are growing brighter for a good crop year. Farmers who have wheat crops, and most Hall County farmers have, are optimistic over the prospects for a good wheat yield.

Mr. Ground Hog surely knew his stuff. He went back into his den on February 2 to stay 40 days because he saw his shadow. The (Continued on page 4)

# 100 Memphis Girl Scouts Celebrate 35th Anniversary of Girl Scouting

Girl Scouts of Memphis joined with more than a million members of their organization throughout the nation to celebrate the thirty-fifth birthday anniversary of Girl Scouting this week. "Better Citizens Build Better World" is the anniversary slogan of the Girl Scouts, and provided the theme for many of the special events, both national and local, held in honor of the Girl Scout birthday.

Highlighting the celebration for Memphis Girl Scouts was a party for each of the five troops. The three Brownie troops met for a joint party Tuesday afternoon from 3 to 5 o'clock at the Legion hall. Miss Ida Mae McClure, district Girl Scout executive, was present to direct games and lead in the singing of Girl Scout songs. At the close of the games, refreshments were served.

Troop No. 2, under the direction of Miss Leona McCraw and Mrs. J. J. McDaniel, held their party Tuesday afternoon at the City Hall. The Girl Scouts have been saving their pennies for the past few weeks and they brought them to the parties to contribute to the Juliette Low World Friendship Fund. This fund is used to promote Girl Scouting and girl guiding throughout the world as a contribution to world peace and goodwill. Each Girl Scout is asked

to contribute a penny for each year of her age.

The first Girl Scout troop was organized in Savannah, Ga., on March 12, 1912, by the late Juliette Gordon Low, who had become deeply interested in it through her friendship with Lord Robert Baden-Powell, originator of the scouting movement for both boys and girls. The idea of Girl Scouting caught on so quickly that before the end of 1912 troops were springing up in various parts of the country. Today, 35 years later, Girl Scouting is carried on in 8,300 communities with a total membership of 1,218,000.

Girl Scouting was introduced in Memphis approximately three years ago, and, according to latest statistics, now has a membership of 100. Miss McClure, Girl Scout executive, pointed out that the work of the organization is carried on almost entirely by volunteers.

The production and Marketing Administration is urging farmers to include more forage crops in their plans for 1947 planting.

Cotton insect infestations in Texas last season were probably the worst in the state's history, say extension entomologists of Texas A. and M. College.

a thing could be done, so that none will be satisfied until Memphis is made an attractive and desirable place for the citizenship and visitors.

Along with the beautification of the town idea comes the consideration of beautifying City Park and Fairview Cemetery. These two will require a lot of planning and hard work to make them meet the demands of the people who want a suitable place to bury their dead.

By the way, the power mower arrived on time and will be used to keep down the unwanted and unsightly vegetation at Fairview Cemetery. This is the culmination of efforts made by several interested parties about the time war started.

The money was kept in storage until peace-time production of mowers got under way.

Lakeview, took first and second place at Amarillo in the Hampshire division. His 240-pound hog sold for 35 cents per pound at the auction following the show, and his 200-pounder brought 30 cents per pound. Byars had taken reserve champion honors here.

At the Amarillo auction Mrs. Clyde Milam purchased R. H. Princeps Domino 39th, No. 4472-967. This bull is of the W. H. R. Princeps Domino 7th strain, one of the best breeding sires in the Southwest, according to reports.

Prices of calves sold by Hall County club boys averaged around 35 cents per pound last Thursday at the Amarillo auction.

Some of the transactions were as follows: John Luther Byars of Lakeview, to Mrs. Beek Atkinson, 35 cents. Jimmy McElreath of Memphis, to Amarillo Hotel, 39 cents. Gayle West of Memphis, to Mrs. Beek Atkinson, 36 cents.

### Young in Heart

(Continued from Page 1)

Harrison, proves adequate to cope with a family of unscrupulous means.

George Anne, played by Doris Lindsey, prefers to be domesticated in a home of her own rather than rove about in a hand-to-mouth existence as she is forced to do.

Richard Carleton, played by Glenn Stilwell, is George Anne's brother. He finds that a dip in a fountain doesn't impress his girl friend as planned.

Marny, Helen Boswell, mother of Richard and George Anne, has

an air of being in another world. She takes refuge from constant adversity in a mental vacuum.

As Sahib, Sidney Stewart, the father of George Anne and Richard, is also in a mental fog and isn't entrusted with work, but to make a good impression he starts selling cars.

Duncan McCrae, played by Lewis Foxhall, can't stand nonsense and neither can he overcome his attachment for George Anne, even though he feels it is irrational.

Miss Fortune, Peaches Harrison, is truly named as "misfortune," for that is what the Carleton family plans for her.

Leslie Saunders, Joyce Childress, finds her business-like manner a poor defense where Richard is concerned.

Mr. Anstruther, Kenney Peresman, has the suspicious eyes of a judge that sees through the Carletons and their motives.

Sarah, June Power, who is Miss Fortune's housekeeper, helps Anstruther rid the household of the undesirable guests.

Andrew, Harry Rasco, is the butler and is more receptive toward the Carletons than is Sarah.

Madame Tasker, played by Katherine Milam, is an over-ambitious dowager who adds to the comedy with her over-friendly ways.

Hutchins, Doc Saye, promoter of Wombat cars, helps to bring about the happy ending.

"Prissie" makes her stage debut—Prissie being a stage-minded canine belonging to Mr. and Mrs. Al Burks.

Play admission is 60 cents.

40 days will be up this week-end after real winter for that length of time. Spring weather may be expected to ensue and the prospects for a fruit crop this year are excellent as the cold weather has kept the sap from rising.

With the idea that spring is right at hand comes an idea that the citizenship should be thinking in a constructive way about how to clean up and beautify the town. I am wondering if the majority of people are satisfied with the present way of living and doing things. I believe that a little pride in civic affairs should be injected into every one, if such

Red Cross Fund Drive Lags

Brice is still the only community having turned in its Red Cross fund drive quota, according to Roy Coleman, fund drive chairman.

Collections to date total \$571.79, Memphis citizens having contributed around \$500 of that amount, Coleman said.

Only a part of the Memphis collections have been completed. Memphis collectors who turned in their funds to date are Byron Baldwin, Henry Hays, J. W. Coppedge, Hayden Hensley, and Orville Goodpasture.

Coleman said it was possible that inclement weather was causing a lag in some of the collections.

Chevrolet Led 1946 Auto Registration, Leads for 11 Years

Continuing its war-interrupted record of annual automotive sales leadership, Chevrolet in 1946 led all other makes in U. S. automotive registration, it was shown by the complete tabulation for the entire nation for the full year of 1946.

ing to T. H. Keating, general sales manager of this largest General Motors division.

With final reports tabulated March 1, including car and truck registrations, Chevrolet totaled 601,219, a figure that is 42,928 units greater than any other make in the industry, Keating said.

Chevrolet's showing, Keating asserted, is especially significant in view of the fact that in the first three months of the year the division was strike-bound and non-productive.

### Some Taxpayers Must File 1947 Tax Estimate

(Editor's Note: This is the last of a series of brief articles, in question and answer form, explaining how to fill out your federal income tax return.)

Q. When do I pay any balance of tax shown due on my return? A. If you file your withholding statement as a return, wait for the collector to send you a bill which must be paid within 30 days from date. If you file Form 1040, full payment must accom-

pany your return. The law makes no provision for installment payments on this balance.

Q. How do I secure a refund due on my return? A. If you file your withholding statement as a return, the collector will send your refund without any further action on your part. If you file a Form 1040, you must be sure and check the refund box under Item 10, Page 1, and the collector will send you a refund check without any further action by you. Except in the case of erroneous or complicated returns, the majority of refunds should be in the hands of taxpayers by the 4th of July. Taxpayers are urged to wait a reasonable time before writing to their collectors regard-

ing delayed refunds, inasmuch as such correspondence tends to slow up the refund machinery. You can expedite your refund by making sure that your return is filled out accurately, legibly, and completely, and properly signed.

Q. Where can I get help in making out my return? Taxpayers are urged to make every possible effort to fill out their returns themselves, taking the questions up one by one, at the earliest possible moment. Then, if questions arise, there will still be plenty of time to seek assistance by telephone or in person at the office of the local collector, before the last minute rush as the deadline of March 15 approaches.

Q. What happens if a mistake is found in my return after a refund check has been mailed? A. If an audit shows that you owe more tax instead of being entitled to a refund, you will be required to pay both the refund and the balance with interest.

Q. Can you tell me briefly what my federal tax obligations are for the month of March? A. You must file a federal income tax return by March 15 if you had \$500 or more income last year.

Q. Isn't there something else some taxpayers have to file? A. Yes. One out of every five taxpayers must file a declaration of Estimated Tax for 1947—those who expect to receive wages subject to withholding in excess of \$5,000 plus \$500 for every exemption except their own, and those who expect to receive more than \$100 of other wages, dividends, and interest.

Q. To whom do I send my return? A. To the Collector of Internal Revenue in your district—NOT to Washington, D. C. If you live in Hall County the address is Dallas.

Q. To whom should I make a check or money order payable? A. To the "Collector of Internal Revenue."

Q. When should I pay any balance of tax due? A. If you file your withholding statement, wait for the collector to send you a bill. Pay that bill within 30 days from date. If you file a Form 1040 return, pay any balance of tax due in full with the return. If you file a declaration, send with it at least one fourth of the tax estimated as due for 1947 (in excess of tax to be withheld from wages).

a constant force as the tire rolls. Farmers also will find that the new Firestone tire is completely versatile. While the extra-deep, wedge-shaped traction bars provide a firm "center bite" on soft ground, on paved roads the wide, continuous tread design gives smooth, comfortable riding. Since a greater tread area is in contact with the ground, stability is increased and wear is minimized.

"This tire has fully justified the years of research and development which our engineers have devoted to it," Harvey S. Firestone Jr., president of the Firestone Tire and Rubber Company, said in introducing the new tire. "It will enable the farmer to do more work in less time at lower cost."

The Champion ground grip tire stands as another contribution made to power farming by the Firestone company in the past 15 years. In 1931, Harvey S. Firestone, founder of the company, "put the farm on rubber" when he introduced the first practical pneumatic farm tractor tire, Cudd said.

MISSISSIPPI BAKED CHICKEN

The South always has been renowned for its preparation of chicken dishes. Here is one of the best of Dixie's favorite methods of making the visitor's mouth water—

- Mississippi Baked Chicken
- 2 1/2 to 3 lb. frying chicken
- 1/3 cup fortified margarine
- 1/3 cup flour
- 1/4 teaspoon dry mustard
- 2 teaspoons Worcestershire sauce
- 1/2 teaspoon salt
- dash of cayenne

If chickens are small, cut in halves; if large (3 1/2 pounds), cut into joints. Mix remaining ingredients and spread over chicken. Place in well greased pan or casserole. Bake, covered, in moderate oven (350° F.) 1/2 to 1 hr. until tender, and well cooked through. Remove chicken to serving platter and make gravy in the drippings. For gravy: cut chicken giblets into pieces or put through meat grinder. Cover with salted boiling water and simmer until tender. Add 2 tablespoons flour to drippings in the baking pan. Stir until brown. Add giblets and liquid. Add additional liquid (milk or water to make a full cup). Stir over low heat until creamy. Season with salt and dash of cayenne pepper. Note: chili powder or curry powder may be added, 1/3 teaspoon as desired. Serves 4-5.

"I'll be fired for that fool story!"

The managing editor of the New York Herald took a day off on December 21, 1879. So this headline in his paper hit him without warning.

**EDISON'S LIGHT— IT MAKES A LIGHT, WITHOUT GAS OR FLAME!**  
The public promptly shouted "hoax!" Scientists called Edison crazy. And our shocked, angry editor expected to be fired.  
But he wasn't. Eleven days later, Thomas Edison held a unique New Year's party in his laboratory at Menlo Park, New Jersey, and invited the world to see his "flameless light." Thousands came and were convinced. The incandescent lamp was real.  
Soon small private companies were bringing the benefits of Edison's newfangled lamp to the people. Engineers and business men poured in their energy and time... risked their own savings... overcame all kinds of obstacles... broadened and improved the service.  
Government didn't do the job. Individuals did. And in the process, they created jobs for many thousands of Americans, as well as a great new service for many millions more.  
When Edison opened the first power-plant in 1882, electricity cost 25¢ a kilowatt-hour. This year, as we mark the 100th anniversary of the great inventor's birth, the average price of household electricity across the country is only 3 1/4¢ per kilowatt-hour.  
Thanks to Edison's imagination and enterprise—thanks to the courage and initiative of many men and women, working under the American business system—this country enjoys the most and the best electric service in the world. And all our lives are richer, safer, more productive.

### How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

# Cyclone Fighters Take Broncs 9-1

The Cyclone took their most decisive contest of the season in the bouts with the Clarendon Broncs here Friday night, winning nine out of ten bouts, getting a knockout and three TKO's.

Three or four top Memphis boxers were not matched Friday night.

The first TKO came in the third bout, Stargel, a fast improving boy, fighting Phillips. The first round bell probably saved this from being a knockout. Clarendon threw in the towel before the second round started.

The second TKO was dealt by Benny Pyeatt to Littlefield, in the second round of the seventh bout.

## LOOKING AHEAD...with LOUIS WOLFE

**NEW LEPROSY TREATMENT. DRUG CALLED PROMIN HEALS DREADED DISEASE IN EARLY STAGES AND PREVENTS FORMATION OF NEW SORES IN ADVANCED CASES.**

Clarendon conceded after Littlefield had taken four counts. Pyeatt has a heavy, jolting style, a slugger developing a good eye. He is trading speed for power, and winning.

The KO came in the eighth bout when Grimes connected with Mayo near the end of the first round. Grimes had held off his rush tactics, and the round looked even before the Sunday punch.

The other TKO, in the ninth bout, came after a few seconds of the first round. The Memphis boy was nailing them in so fast the Clarendon corner again conceded.

The Memphis 152-pounder, J. D. Ackard, met the Clarendon heavy, Baker, for the last bout. The Agile Ackard out-pointed Baker all the way. All Baker had was a long right swing that he could never sell.

Johnny Freeland took Benny Eden in the first contest, a hard-hitting match for two 80-pounders. Freeland gave some thought to footwork, and this gave him the needed edge.

Bishop never let up his offense against Youre in the third bout. Youre rallied once, in the third, but Bishop came back quickly, and took the bout easily.

The fourth bout decision, Charles Ackard over Risenhoover, was the most unpopular with the Clarendon fans. It brought boos from the stands and arm-waving from the Clarendon corner. Ackard was perhaps the more nimble boxer, but Risenhoover had a good defense and the lanky 135-pounder landed some very solid blows in the second. A close decision.

Billy Bob Adams, lost the fifth bout to Clarendon's Carl Smith. The Clarendon boy was in there for three rounds, and Adams' longer reach failed to pay dividends.

Corley carried the fight against Stevens in the sixth bout, and although Stevens still had plenty of fight left after the contest, his inexperience lost the three rounds.

Fans were treated to a three-round battle royal between six Memphis boxers at the opening event. Darrell Childress, Adrian Combs, Leroy Green, Elmo Sams, Bobby Crooks, and Andy Gardenhire started the match, with Green, Sams, and Gardenhire remaining at the end of the third round.

**Water Control Dead**  
 The proposed water control bill

for the state of Texas is believed to be dead for this session of the legislature.

When the bill was called up, there were no witnesses in favor of the bill, but more than 100 land owners were present to protest the measure. As a result of non-support, the West Texas delegation was assured that no action would be taken on the bill at this session of the legislature.

Several meetings of protest against the bill have been held during the past two months, especially the inclusion of the Plains territory. — The Canyon News.

#### McLean C of C

Representatives from approximately one-half of the business firms in McLean voted 24 to 6 in favor of employing a full-time manager for the McLean chamber of commerce at a meeting open to all businessmen held in the Lions Hall.

The balloting on this much-discussed question came shortly before the meeting adjourned, and after the election of officers and directors.

Ruel Smith was named to serve as president of the organization during the coming year, and Paul A. Pierson was chosen as acting secretary until such time as a full-time paid manager and secretary is employed. Other officers elected were Lester Campbell, vice president, and Clifford Allison, treasurer. — The McLean News.

#### Wins Judging Contest

Vernon Goldston, member of the Clarendon FFA livestock judging team, won the silver medal and ten dollar bill that is the annual award to the high point man in the Top O' Texas livestock judging contest. Clarendon was the top ranking team from the Greenbelt FFA District, but was out-judged by the Pampa and Tulla Districts. — The Donley County Leader.

Q. Where on Form 1040 do I enter various kinds of income? A. Wages go in Item 2, Page 1, dividends in Item 3, Page 1, and interest in Item 4, Page 1. All other kinds of income must be explained in schedules on Page 2, and their total shown in Item 5, Page 1.

Q. What is the purpose of the schedules on Page 2, Form 1040? A. These are: Schedule A for annuities, Schedule B for rents and royalties, Schedule C for business or professional income, Schedule D for capital gains, and Schedule E for income from partnerships, estates, and trusts. They are a convenient method of comparing gross receipts with deductible costs to determine taxable "adjusted gross income."

Q. What is meant by "depreciation"? A. Depreciation is a deduction allowed by law against certain types of income-producing property so that the owner can recover the cost of the property taxfree over a period of years

equal to normal life of the property.

Q. What are "capital gains"? A. They are profits from the sale or exchange of investment property such as real estate, stocks, bonds, commodities, automobiles, etc.

Q. Can I deduct all charitable contributions? A. No. Only those given to organizations such as churches, community chests, veterans organizations, relief hospitals and many libraries, hospitals and schools. Gifts to relatives and other individuals cannot be deducted.

Q. What are deductible interest payments? A. Interest you pay on mortgages, loans, etc.

Q. What taxes can I deduct? A. State income taxes, most state gasoline taxes and sales taxes (if tax is shown separately on price tag), state and local property taxes (not paving and improvement assessments). You cannot deduct federal taxes of any kind on Page 3, Form 1040. Some federal taxes can be deducted as business expenses on Page 2.

Q. How do you deduct medical expenses? A. You list such expenses as doctor, dentist, and hospital bills, medicine, eye glasses, braces, x-rays, artificial limbs, hearing aids, nurses' wages, ambulance service, premiums for health and accident insurance, for which you do not receive reimbursement. A portion of these expenses, equal to five per cent of your income, is not deductible. The remainder is deductible up to \$1,250 if you claim only one exemption on your return, and up to \$2,500 for more than one exemption.

Q. What are "casualty losses"? A. These are usually losses from fires, automobile accidents, hurricanes, storms, etc., after deducting recoveries from insurance, salvage, etc.

Q. What do I list under "miscellaneous deductions"? A. Certain job expenses such as union dues and subscriptions to professional journals, certain investment expenses, alimony, and the special \$500 deduction for blind persons.

**CHILDREN AT PLAY**

WHEN parents say to a child, "Now run along and play," they usually think of "play" as something that keeps a youngster occupied somewhere else and gets him out from under foot. Few parents realize that children's play is something they ought to take quite seriously as an important part of their education and growth.

If you have ever watched young children endlessly absorbed with nothing but sand or water or mud, splashing, digging and building, you will see what real emotional satisfaction they get from just the feel of something they can handle and from seeing what they can do with it. Blocks, too, give them a sense of power and achievement as they pile one block upon another and then kick them all down again.

As they grow older, children's play takes on a pattern of the world as they see it. How their blocks are carefully put together, to represent a city or a hospital or an airport as they dramatize their own living experiences. If you watch this play you will sometimes be surprised to learn how the world looks to them. You may even hear your own words echoed as your five-year-old punishes her doll or tells off her playmates: "You behave now, or I'll spank you," or "I'll tell your Daddy you're a bad girl."

As children reach school age, they need not only things but also children to play with. It is through Nitrogen fertilizers have increased consistently the yields of rice in experiments carried on near Beaumont by Texas A. and M. College Agricultural Experiment Substation No. 4.

playing with other children that they learn many important lessons—how to get along with others, how to lead and when to follow, how to share their possessions. Most parents recognize the importance of this social interplay and make a point of seeing that their children have companionship. Sometimes this means going to a great deal of trouble to invite other children in, or to live in a neighborhood where there are sure to be playmates.

This does not mean, however, that we should select our children's playmates for them. Our job is to see that they have plenty of opportunities to select their own. We don't always know what makes certain children "click" and others not. Children themselves often can't explain why they choose one boy or girl to play with and not another. But they are likely to have definite feelings on the subject, and these feelings should be respected.

Sometimes our best friend's child is not a welcome playmate, while some harum scaram youngster down the block is more to their liking—though maybe not to ours. We needn't be too worried when our child teams up with someone who is boisterous or slangy. Neither should we be surprised when our young hopefuls choose playmates whose ancestry or economic status is different from our own. Especially to the young, differences of race or religion or social status are not important—unless we make them so.

The capacity for wholehearted spontaneous play is one of our outstanding American talents and we do well to foster it in our children.

**INDEPENDENT PEOPLE**

By Halldor Laxness  
The independent people of Laxness's title are the small freeholders of the Icelandic country side—operators of the one-man, one-family farm got by inheritance or purchase and held with grim tenacity against all connivances of nature and man, by folk whose ruling passion is to be their own masters on their own acres. Their story for one long generation—that including the first World War—constitutes an epic in the truest, largest sense of the word. For the theme is man against the universe. The process is the history of a people reduced to the life story of one heroic individual fit to stand as an archetype.

As Laxness tells it, his story—that of the eternal peasant—is of a scope that makes it an inalienable part of world literature.

**IT AIN'T HAY**

By David Dodge  
An Inner Sanctum Mystery. Barney Steele came into Whit's office one January afternoon wearing a two hundred dollar suit, thirty dollar hat, and a glossy black beard that made him look very little like the crook he was.

He came to Whit for professional income tax advice. Specifically, how to avoid paying a tax on a huge income derived from an apparently non-existent business.

The interview was brief and to the point. Whit aired out his office and promptly forgot about Barney Steele. But Barney Steele didn't forget, and thus a story.

**THE WALLS OF JERICHO**

By Paul I. Wellman  
All the color and violence and drama of the High Plains country emerging from raw frontier days into the present century are caught in this story of Jericho, Kans., which includes the struggle

for power between two of its leading citizens. The personal feud between two men involved the whole town and state, but especially it concerned the dominant women in their lives—the charming but coldly calculating Algeria, sure of her position among the socially elect; Belle, a weakling ruled by her mother;

and the vibrant, high-spirited Ella, who paid a high price for the love she wanted.

National farm income in January and February of 1946, the U. S. Department of Agriculture reports.

MODEL "44-6"

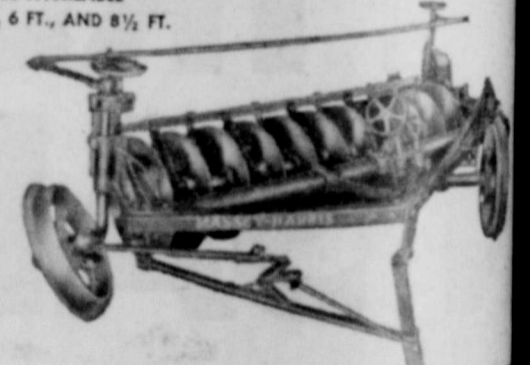

When Massey-Harris engineers designed the new "44-6", they made it possible for farmers to get a smoother power to power their heavy-duty tractors. The engine is a heavy-duty industrial type unit. Its compression ratio means you get more "go" out of a gallon of gasoline. Yes, the new "44-6" has a whimper. You'll enjoy a new experience in more efficient farming when you decide on a Massey-Harris "44-6."

YOU CAN HAVE "POWER-DRIVEN PENETRATING" DISCS  
Again Massey-Harris brings you another engineering "first" with the new One-Way Disc with "Roto-lift." This new Massey-Harris disc lifts and lowers the discs only—there is no waste of power in lifting the entire frame. In the Roto-lift design, discs are mounted on a rotating steel pipe mounted on the fixed axle and the disc raises or lowers the discs as desired. There is no sudden dropping or lowering action of the disc gang as fast but gentle. Other saving features you'll appreciate are the convenient leveling adjustments for leveling and depth control... improved design... easy turning either left or right. Solid construction the way through with the weight where it does the most work.

In approximately two feet of travel the discs are lifted clear of the ground and reach the maximum clearance in less than 48 inches. See us for complete data... make it a Massey-Harris!
