### WEATHER

Farmers welcomed 2.21 inches of rain this week, as .90 of an inch fell Saturday night and Sunday, 1.11 inches Tuesday, and .20 of an inch Wednesday, according to J. J. McMickin, government weather recorder.

High temperature for the week was 67 degrees last Saturday, with a low of 32 reached Wednesday. The mercury began climbing this morning after staying near 50 most days this week.

After considering several offers from rodeo groups, it was decided to use the R. L. Pointer rodeo string of Elgin, Okla. Pointer's outfit has been acclaimed one of the best in the region, and it is endorsed by the Rodeo Cowboys' Association. He offers trick riders, clowns, top performers, and fine rodeo stock, according to Bill Crowder, member of the rodeo committee who visited Pointer's ranch at Elgin. Other members of the rodeo committee who are working out further details for the event are Willard McQueen and W. W. Henson.

Plans are also being made to hold a parade in connection with the rodeo.

Pointer was in Memphis Tuesday to discuss the rodeo plans. A definite date for the rodeo was not set, but the performance will be scheduled next week for the latter part of July, it was announced.

Pointer said that his outfit would furnish everything for the rodeo, including portable chutes. All the local preparation he asked was that the VFW place posts around the arena area where his group could string the enclosure wire.

Smith said that chamber of commerce members would receive tickets Monday for the banquet and special business meeting.

### Delphian Club Entertains With Guest Day Tea In W. P. Dial Home

One of the prettiest affairs of the season was the guest day tea given by members of the Delphian Club Tuesday afternoon in the home of W. P. Dial.

The spacious Dial home was tastefully arranged for the occasion and bouquets of spring flowers graced the entertaining rooms.

The receiving line was formed by officers of the club: Mrs. Harry Womack, president; Mrs. Jack Boone, vice president; Mrs. J. L. Barnes, second vice president, and Mrs. C. C. Hodges, treasurer. Unable to attend were Mrs. Hal Goodnight, Mrs. Sidney Baker and Mrs. Lynn McKown. All members of the club wore white carnations.

Mrs. Womack welcomed the guests and introduced Mrs. Reba Stroehle who presented Miss Gertrude Rasco who entertained with three selections, "Prelude-op. 28-No. 7" by Chopin; Russian Folk dance, "Dark Eyes," and "Tea for Two" by Youmans, on the xylophone.

Guest speaker was Mrs. H. W. Lynch of Amarillo, who reviewed the three-act play, "The Glass Menagerie" by Tennessee Williams. She painted a word picture of an unusual American family, telling many amusing and humorous incidents. Told in Mrs. Lynch's charming manner, this play provided an entertaining afternoon for those present. Mrs. McDonald, also of Amarillo, accompanied Mrs. Lynch to Memphis.

Spring colors of green and yellow were used at the tea table, which was laid with a Normandy hand-made lace cloth, with first flowers of spring, jonquils and

tulips forming attractive decorations. Green sandwiches were topped with yellow flowerlets traced in creamed cheese. Other dainties repeating the color theme were mints fashioned into miniature umbrellas, cheese sticks tied in dainty bow knots, Chinese chews, and cashew nuts. Mrs. Womack presided at the silver tea service.

Guests attending were Mesdames D. A. Neely, W. B. Coursey, C. W. Broome, Al Burks, H. R. Estes, Sam Harrison, Claude Ferrel, Nelson Combest, Louise Goffinet, H. E. Tarver, Art Miller, Hank Haskins, Roy Guthrie, Leo Fields, Sidney Stewart, Bob Roberts, O. T. ## WHAT'S cheaper than dirt?

**PURE** running water from your city water supply is literally cheaper than dirt. A ton of it (240 gallons) costs less than \*13c at the local average year-around rate and only \*eight cents a ton on the summer irrigation rate. A ton of earth dumped on your lawn would cost many times 13c for trucking alone.

This low cost of pure water is all the more remarkable when you consider it includes collection, pumping, storage, purification and delivery to your faucets in any quantity at any time of day or night.

Water service is generally "out of sight and out of mind" and is easy to take for granted. Yet it requires a large investment in plant and equipment and the constant vigilance of trained employees. And it remains today, as before current higher living costs, one of the smallest items in the average household budget.

### Faculty Leads In Volley Tournament

The powerful Faculty volleyball team won again Monday night to hold their lead position in the tournament, while the Lions club went down in defeat in their first loss.

The Faculty beat Morrison's Independents in a three-game series. Gene Corley's Wildcats defeated the Lions Club team in two straight games. The Rotary Club was forced to forfeit their game to the VFW because of a lack of players.

In the first series the Faculty took an early lead over Morrison's Independents and held it for the entire game. Final score was 15 to 3. In the second game the Independents suddenly reversed the score and beat the Faculty 15 to 3. Both teams played a close game in the third contest, but the Faculty edged the Independents out in a final scoring rally and won the game 15 to 12.

with an uneven first game score of 15 to 7, and in the second game they beat them 15 to 8, giving them the series.

Fertilizing fruit trees is an early spring orchard job. Recommended application is one pound of 5-10-5 or 4-12-4 fertilizer for each inch of the tree trunk diameter.

### '46 Loan Cotton Will Be Pooled August 1

The local AAA office has been informed that all 1946 crop cotton still under loan August 1 of this year will be pooled by the Commodity Credit Corporation.

These loans mature July 31. Any one having 1946 cotton in the loan that has not been sold, and who does not want the cotton pooled, should sell before the maturity date, July 31, according to Lynn McKown, ACA secretary.

McKown said less cotton was under government loan in last year's crop than in a number of previous years. Less than 25 per cent of Hall County's crop was under the government loan last year, and around 40 per cent of that amount has been sold to date.

Of the total Texas crop only 123,000 bales were under the loan, and up to March 15 this cotton had been sold down to 71,589 bales.

### Harmony Club Has Meeting in Home of Mrs. C. C. Meacham

The Harmony Club met Wednesday afternoon of last week at 8:30 o'clock in the home of Mrs. C. C. Meacham. Hostesses on this occasion were Mrs. Dick Shelton and Mrs. Ed Monzingo.

Mrs. Monzingo, the president, presided for the business session, after which the program was had. "Relation of Music to the Easter Season" was discussed by leader, Mrs. D. L. C. Kinard. She told of the oratorio and cantatas of Handel, and of his oratorio, "The Messiah," and the opera, "Parsifal" by Wagner.

Mrs. L. B. Madden gave "The Hallelujah Chorus" by Handel in piano arrangement, and Mrs. Garner Lee sang, "He Shall Feed His Flock," by Handel. "Good Friday Spell," from Parsifal by Wagner was a piano number given by Mrs. Carl Smith. The program closed with a vocal number, "Oh, If Your Joyful Hearts," by Mrs. Clyde Milam.

The following members answered roll call: Mesdames Baren Carr, Gordon Gilliam, Joe DeBerry, Tom Draper, N. W. Durham, Garner Lee, D. L. C. Kinard, Clyde Milam, Ed Monzingo, L. G. Rasco, T. L. Rouse, T. K. Treadwell, M. C. Ward, L. B. Madden, M. C. Allen, Carl Smith, Marion McNeely, E. S. Greene, O. T. Toney, A. L. Galley, Dick Shelton, Chas. C. Meacham, Misses Esta McElrath, Leona McCraw and Mary Foreman.

The next meeting of the Harmony Club will be in observation of Music Week on May 14. The club will present Memphis High School Band, High school choral group, Junior High chorus, and West Ward glee club together with High School and winning chorus from Estelline schools. The meeting will be held in the high school auditorium May 14 at 3 p. m., and the public is invited to attend.

### Taking Donations For Rebuilding Church at Higgins

Donations are being taken by the First Methodist Church of Memphis for the purpose of helping to rebuild the Methodist church and parsonage at Higgins, which was completely demolished by the cyclone last week, Rev. Aubrey C. Haynes announces.

Anyone wishing to donate any amount should leave the money with E. W. Solomon, O. M. Gunstream, or Rev. Haynes, it was stated.

### Style Show Will Be Presented At Lakeview April 23

Lakeview home economics students will present a style show April 23 at 8 o'clock in the Lakeview high school auditorium, it was announced this week.

Prior to the style show a skit, "Three Girls for One Job," will be presented. This skit will show how to act and dress when applying for a job.

The style show will be in the form of a play, "Daisy Mae's Happy Day." Homemaking I girls will model their cotton school dresses; Homemaking II will model street dresses; Homemaking III girls will wear suits and dresses; and eighth grade students will model cook aprons.

The public is cordially invited to come and enjoy "Daisy Mae's Happy Day," those in charge stated.

Christian University, graduating in 1929. He then attended Baylor medical school, graduating from there in 1933. He interned at the City-County Hospital in Fort Worth.

Dr. Wilson was married in Fort Worth to Miss Katherine Head December 24, 1933. He and his wife moved to Memphis, where he was associated with his father, Dr. Winfred Wilson, in the Memphis Hospital, now the Goodall Hospital.

Dr. Wilson left Memphis in 1937 and was associated with the State Health Department for eight years, being located at Harlingen and other points in Texas during that time. He then went into private practice, a part of which time was spent in Memphis, and was an active practitioner until his death.

Survivors are his wife, Katherine Head Wilson; two daughters, Winifred Kay and Betty Joan Wilson, all of Terrell; his mother, Mrs. Daisy Burch of Amarillo; one sister, Mrs. Winifred Wilson Downs of Lubbock; three aunts, Mrs. C. A. Williams of Memphis, Mrs. Viola Wimerly of Amarillo, and Mrs. Bill Ragsdale of Rogers, Ark.; and other relatives.

Pallbearers were Frank Foxhall, Leslie Foxhall, Carl Harrison, Hal Goodnight, Abie Stanford, and Buster Helm.

suitcases filled with men's clothing from the J. C. Penney Company, six cigars from Midge's Cafe, and a small radio from the J. H. Morris cotton office.

Nobles was recognized by Bill Sheen, city nightwatchman, who saw two men walking across the alley behind the Penney building with two suitcases. He turned his flashlight on them and ordered them to halt. The men dropped the suitcases and ran. Sheen recognized Nobles, took the suitcases to the city hall and reported the identity of Nobles to Sheriff Earl Hill.

Nobles was picked up late Friday afternoon and readily confessed stealing the clothes from the J. C. Penney Company, it was reported, and told officers that he had also broken into the cafe and cotton office. He denied that he had an accomplice.

He said that he entered the Penney building through a window, and entered the cotton office through a rear window. He broke the door facing from a back door to enter the cafe, it was reported.

### Dr. C. E. Mathews Will Speak On Baptist Hour

The Baptist Hour speaker for the two Sundays, April 20 and 27, will be Dr. C. E. Mathews of Dallas on the subjects, "God's Universal Indictment" and "Man's Greatest Need," it has been announced by the radio commission of the Southern Baptist Convention.

The Baptist Hour may be heard

in this area over radio stations KGNC, Amarillo; WFAA, Dallas; and WOAI, San Antonio; at 7:30 o'clock on Sunday mornings.

The announcement further states that in harmony with a territory-wide emphasis on soul winning, the Baptist Hour is promoting a movement to form a prayer league of one million Christians who will pray daily for the spiritual awakening America must have to fill her place in bringing in the Kingdom of God.

### Vocational Class Attends Plainview Dairy Show Monday

The Memphis Veterans' Vocational class attended the Panhandle-South Plains Dairy show in Plainview Monday. Joyce Webster, class instructor, reported this week.

The veterans had the opportunity to observe dairy characteristics found in Jersey, Guernsey, Holstein, and Milking Shorthorn dairy cattle.

The veterans made another field trip last Thursday when they were conducted through the West Texas Cottonmill by Frank Foxhall and Bentley Page. They were shown the steps taken in processing cottonseed until it is made into meal and cake. Page and Foxhall pointed out the advantages of farmers producing better cottonseed, Webster said.

Those making the field trips were Oler Wynn, Carl Perkins, Robert L. Barnett, Clyde Barnett, Stacy Waites, A. C. Hodnett, Billy McQueen, Wesley Waites, Rhupert Wynn, Edgar Jouett, Coy Beckham, Doyce George, Melvin Blum, L. E. Jenkins, Jimmie D. Smith, Sam Moore, Boise Waddill, J. O. Robinson, Clyde Messer, Calvin Callahan, and Lawrence Spannagel.

**Scout News**

Cub Scouts of Pack No. 35 will hold their monthly meeting next Monday afternoon at 5:30 o'clock at the Library Park. Scoutmaster Ted Myers announced this week.

In making this announcement, Scoutmaster Myers urged all den chiefs to inform their cubs of this meeting and urge them to attend as several important issues will be under discussion at this time.

Scoutmaster Myers is temporarily heading the cub scouts in the absence of Cubmaster Boaz Stotts who is visiting in California. He plans to be gone for several weeks.

Games will be played on the lawn prior to the meeting and will start at 5 o'clock Mr. Myers said.

**West Ward News**

By SCHOOL REPORTER  
The pupils of West Ward enjoyed Easter egg hunts Thursday, April 3. Each grade hunted at different places and hours, making the hunts a continuous affair.

West Ward pupils and pupils of Junior High School presented a very interesting and colorful program of music and folk dances Friday evening at the high school auditorium.

Several new pupils were enrolled in West Ward during the week.

Attendance at West Ward has improved very much following the flu epidemic.

Pupils and teachers of West Ward enjoyed music given by Gloria Virginia Howard Thursday of last week.

**How women and girls may get wanted relief from functional periodic pain**

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, and help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

will visit 27 cities—22 in West Texas and 5 in New Mexico—to say "thanks a million" to customers they have served in the Dallas market.

They will be accompanied by 30 entertainers, including a band, who will provide entertainment galore for the residents of the host cities. They will take over for a program after the Dallas trippers have paraded to a central point on arrival at each town. Melvin Munn, announcer from radio station KRLD, will be master of ceremonies. There will be the Dude Ranch Buckaroos from radio station WFAA and Art Linder, KRLD tenor. Billy Mayo, who conducts the WFAA Early Bird program orchestra, will direct the business tour band.

During the entertainment program in each city, the Dallas business men will mingle with the crowds passing out souvenirs. They will wear knee-length white cotton coats, trimmed in red and blue and labeled "Dallas, Market of the Southwest"; linen hats with "Dallas" bands; and carry colored canes.

The Dallas 1947 Operations Good Will will be made by special train leaving Dallas' Union Station at 10 p. m. Sunday, April 20. It will cover an itinerary of 1,388 miles, with arrival back in Dallas scheduled for 9:30 p. m. Friday, April 25.

"The five-day tour is not a trade trip," said C. A. Tatum, general chairman. "While our visit will naturally serve to publicize the Dallas market, the business men are more interested in making it a good will visit because we realize that all the towns on our itinerary are growing with Dallas and that all business men of this area must work together for the advancement of the region and the good of all. To do this, we must know one another better."

# Proposed Junior College At Childress Opposed By Two Other Counties

**Editor's Note:** There has been considerable agitation recently in several counties adjoining Childress County in establishing a state junior college at the Childress air field. Since Hall County is one of the areas involved, citizens should study the question well before signing a petition to get Hall County in the district. For that reason comments of the Quasah Tribe-Chief and the Wellington Leader are published herewith.

By ANTON EDGE, Editor The Quasah Tribe-Chief  
It appears from here that Childress and Childress business men are more interested in the proposed junior college than are any of the citizens of the other counties included in the project.

On the face of the arguments put up by Dr. Colbert, consultant from the University of Texas, the junior college at Childress air field would offer certain advantages to this section of the state in the way of an economical educational advantage for our youth, but the school must overlook the other side of the proposal.

Dr. Colbert fails to show reasons why at the present valuations that a 20 per cent levy would cause the citizens of Harrison County to pay more money toward the support of the proposed institution than Childress county would pay and the school would be located there. If you are interested check this statement.

He also tells of the losses that would pick up the students and return them each day but on the \$25,000 allotted for this purpose and the distance and the number of drivers and vehicles that would be placed in use, the cost would be much more. Check the costs for the same service in any school district.

He threatens that the cost of tuition for students coming from counties not included in the original setup, and participating, would be prohibitive. Look at this! The average graduating

## JESTER SIGNS BILL TO OKAY COLLEGE BOND ISSUES

AUSTIN, April 5 (PUP)—Gov. Beauford H. Jester today signed an act of the present Texas legislature to permit public junior college districts to issue building bonds and levy a tax for the bond retirement after submitting the proposal to popular vote in the district.

The measure was sponsored by Representatives Vernon McDermid and C. K. McFarland of Wichita Falls and Leslie King of Harrold.

class in Harrison County is only sixty in number. It is safe to say that not more than 24 of such class would go to the Childress school. If this be the case, the cost to Harrison county would actually be a \$1,000 or more per year for each student. The county could afford to buy an automobile or two or three, maintain them and send at least fifty students to Childress and pay the advanced tuition and still save the tax payer money.

The whole plan was a bright idea of some group in Childress to save the air field and still something to the town—which was commendable but expensive for the other towns named as parties to the plan. The whole setup is shallow. We have all been used to pay for the tax paper covered schools since and the government has charged them off. Let's not make up the barrier a second time.

If we vote bonds, let us vote them for something for Harrison County and for something more practical than this proposal. There are few schools in the section which could not build up their credits with more funds. Quasah could certainly use an amount of \$10,000 per year.

Some of the counties included in the organization are not going to permit an election for the absurdity. It would be to the credit of the Harrison County school board if the members of that group did not permit themselves to be duped into calling an election.

By DENKINS WELLS, Publisher The Wellington Leader  
Dr. C. C. Colbert, of the University of Texas, and Joe Gilchrist and Charlie Danmore of Childress came by to see me Tuesday afternoon to explain more about the proposed junior college at Childress.

At the time they came, it was too late to get a detailed story in this issue of the paper, but there will be one next week. But here are some facts about the proposed college I picked up from them that I think you ought to be turning over in your mind.

There are a number of these colleges in operation in Texas, but there is only one that includes more than one county. This three county college is at Uvalde and the district is composed of Escilla, Real, and Uvalde counties. In all the others the county where the college is located voted the tax on itself to operate the junior college.

Trustees are elected by the district as a whole. One is not selected from each county as some people here think. This is according to Dr. Colbert. Two per cent of the voters of the district can nominate a candidate for trustee, but bear in mind that this is two per cent of the voters of the entire seven county district. In short the county that takes the most interest could nominate and elect all of the trustees. It is not probable that they would all be from Hall County at any time or that they would all be from Ford County at any one time; but it is both legally and politically possible that they might all be from Childress County. That is the way the law is written.

Here is another angle worthy of your consideration. It will cost a student from this county \$50 a year in tuition if we go into the district. But any person in the state of Texas can attend the college by paying a tuition fee of \$100. If your county does not go into the district there will be no free bus service. That is the difference.

I am not opposed to Childress County organizing a junior college if they will do it with their money like others have done. My position is this: If we can afford additional tax why not improve our public schools. Our own schools need more equipment for the laboratories. Teachers in Wellington tell me that our school does not even have enough books. And I am confident that those in Dodson, Quail, and Samnorwood could use more equipment.

I suspect that the Childress college will teach few courses that could not be taught equally as well in our high schools if we spent even half the money. In fact, Dr. Colbert's own prospectus says one objective is to offer terminal courses to the young people of the area—terminal high school diploma and terminal courses to those of junior college age who do not have a high school diploma. One question to ask yourself is this: Are we going to vote a tax to build a fancy named high school in Childress before we bring our own school systems up to what they ought to be. There

will be another story about the proposed college next week. There are good features to the college, of course, but I can't help but think that the new tax will be just that much of a bribe on the progress of the four major school systems of this county.

It can mean a new tax of 20c per \$100 valuation on all the property in Collingsworth County. Whether we want to pay such an extra tax when the four high schools of our own county need more money so desperately is something that I am doubtful about.

Another thing is that it will require only ten per cent of the qualified voters on a petition to get us into the five county district. Once in and with the election called, we can vote against it five to one; but we still will be taxed if the other counties vote for it. This sounds so much like the deal on fixing cotton picking prices season before last that it makes me suspicious.

Remember the petition is the danger point. It will take only 10 per cent of the qualified voters to place this county in the election district, but once we are in a simple majority of all the votes will keep us in it from then on. I have never tried to tell people how to vote; but I do have this suggestion to make. Don't sign any petition on this unless you know the details in your own right and have thought about it carefully. Watch for the date of the meeting in your community and attend it.

Sing a song of service,  
Of cheap electric power—  
Ready at your finger-tip  
To lighten every hour!

MOTHER'S in the kitchen, dreaming up a meal. Grandma's in the laundry, busy washing clothes. Dad plugs in his razor, and whisks off his whiskers. Lights shine, the radio plays merrily, and Sister skims the cleaner across the bedroom rug.

This is a house with dozens of servants—dependable, willing electric servants—ready day and night to make work easier and life more comfortable. This is living the modern way—the electric way!

Yet how little it costs! Grandma can spin the dirt from six heaping tubs of wash—for only a penny! A few more pennies get Mother through her meal and Father through his beard, too. Sister can clean that rug and five others like it before her cent's worth of electricity is used up.

Dollar values for penny prices—that's the story behind every electric switch in your home. That's our song of service!

### Women Invited to C. of C. Meet in Washington, D. C.

In recognition of the increasing activity of women in public affairs, the Chamber of Commerce of the United States this week announced that women are invited to all sessions of their 35th annual meeting, in Washington, D. C., April 28 through May 1.

A women's luncheon session—at the Mayflower Hotel, April 30—will be a particular highlight of the meeting. In line with the over-all agenda, the luncheon program will be devoted to an examination of women's responsibility in helping guide America's course along "Paths to Freedom and Plenty."

Two outstanding speakers will discuss women's role today—Mildred McAfee Horton and Barbara Ward.

Mrs. Horton, as president of Wellesley College and wartime director of the Navy's WAVES, is a well-known and authoritative spokesman for women. Miss Ward, foreign editor of the London Economist and a director of the British Broadcasting Company, is one of the youngest women ever to attain eminence in Great Britain.

Honor guests at the luncheon will include women of official Washington—cabinet and embassy wives, and women members of congress—as well as wives of chamber officials. Congressional wives will serve as hostesses for individual state tables. Mrs. William K. Jackson, wife of the chamber's president, will preside.

## It outpulls a Rip Tide...and OIL-PLATES your engine!

IN ITS GRIM TUG-OF-WAR with the tides, a harbor buoy has for ally one of nature's mightiest forces... the force of molecular attraction which holds particles of steel together in mighty plates and chains!

WHEN YOU CHANGE FOR SPRING to Conoco N<sup>th</sup> motor oil, that same mighty force of molecular attraction bonds molecules of a special added ingredient to molecules of metal—pulling lubricant and metal so close together that cylinder walls and other fine-finished surfaces are actually OIL-PLATED!

BECAUSE OIL-PLATING STAYS UP on cylinder walls... doesn't all drain down even overnight... a change to Conoco N<sup>th</sup> gives you EXTRA protection from corrosive acid action when your engine is idle... EXTRA protection from sludge and carbon caused by wear... EXTRA smooth, cool, silent miles.

"I'm the fellow in the khaki uniform who comes to your home to service your gas range, or refrigerator—to adjust all gas appliances so that they operate with efficiency and economy.

"Like every other member of the team of 5,000 United Gas employees, I am conscious of 'teamwork'—and am proud of my job as a customer service man. In my visits to your home, and those of the other customers of our Company, all of my knowledge and skill are turned to just one job—making your gas service the best that money can buy."

James Bagley knows "good gas service doesn't just happen." He appreciates the fact that in order for you to get your dependable gas service it takes vast resources, hundreds of miles of pipe lines, millions of dollars worth of equipment, and abundant gas reserves. He knows, too, that no expense has been spared to assure you good gas service at the lowest rate in history.

### A SHAMFUL FIRE RECORD

The year which has ended was the worst in our history in the matter of loss of life and property by fire. When the final figures are tabulated, the total waste will probably touch \$4,000,000—and the destruction of life will approach 11,000.

There can be no alibies for this. It is too late for excuses. What we can do is to affirm that 1947 will tell a different story when the year closes.

Our first realization, as individuals, must be that almost all fires are the result of the human element. A man is careless, a man is ignorant and destructive fire strikes. The fire which could not be prevented is extremely rare.

We must understand, secondly, that the prevention of most fires is the simplest of tasks. A new lamp cord, a clean attic, a minor repair to a heating plant, a fire extinguisher or fire escape—such attentions as these would have prevented a very large part of last year's terrible loss of life and materials. This comes straight home to the individual, and no one can escape his share of the responsibility.

Third, there is obvious need for education of the individual in what to do if he is in a building attacked by fire. Ignorance in this field was the cause of many of the deaths in the recent hotel disasters. In Atlanta, men and women jumped to destruction from window ledges—in the face of pleas by firemen who were preparing nets and ladders. In both Chicago and Atlanta, people threw open doors and windows thus creating drafts that simply fanned the flames.

All of us feel shame at 1946's terrible fire record. And all of us should resolve that it will be improved in 1947.

**Dallas Irrigation**  
 Stockman Bob McKinstry, who owns 25,000 Dallas County acres, estimates adding at least 78 families to the Dalhart trade territory through irrigation development.

The proposed development would be in addition to that already accomplished east of Texline, and to that which is in prospect south of Texline as a result of the recent new irrigation well brought in by Larry Kehoe.

Development in the area east of Texline really began in 1939 when George Smeltzer brought in a 1,200 gallon per minute well. However, a lot of exploratory work had already been done by the late Johnson Allen of Texline and Dalhart. The tireless work done by Allen and the extensive and valuable data he accumulated were vital factors leading to the Smeltzer test—The Dalhart Test.

**"Lorene V"**  
 Mrs. Lorene Turner, who has been making her home in Claude the last six months, was surprised and honored this week when she learned that a ship had been named after her.

Mr. Turner, among other construction workers, participated in a drawing in which he won the honor of naming one of the LCL boats. The ship was christened Lorene V in March at Manzanita Beach in the South Pacific where he is a foreman of the pipe fitters.—The Claude News.

**Hereford Sign Contest**  
 Louis A. Badgley, a newcomer to Hereford, designed the prize-winning sign in the chamber of commerce-sponsored contest to select the best design for highway signs to be erected on highways leading into Hereford.

Badgley's entry featured a flowing irrigation well, flanked by a Whiteface bull and the Hereford skyline, prominently featuring the grain elevators, with sacks of onions and potatoes carrying out the illustration of Hereford-grown products.

It bears the motto, "The Town Without a Toothache."—The Hereford Brand.

#### QUOTING OUR NEIGHBORS

For example, would you ever have thought that, when gathering your cotton crop, you cost yourself money when you empty the cotton into your truck and pack it by walking around in the truck. No! Well, it's so. And a speaker at a farmers' meeting here last week is our authority.

The art of packing your cotton by foot does something to it that shortens the staple. And you'll find, the man said, that you'll get a few cents per pound less than you might have. The answer is to build your cotton trailer bigger so that you can haul a bale of unpacked seed cotton to the gin. Jerry Sittin in The Clay County Leader.

Hot Springs for the wife, her mother, and myself was a problem—which Miss Smith solved by appealing to a former Texas, Vance Bryan, who used to run a big trucking business out of El Paso and now is owner of the Jack Tar Court Hotel, favorite stopping place for famous athletes, big business men, and movie stars—the most luxurious quarters I've ever seen.

To sum up the swirl of impressions of the three days: Hot Springs seems a gigantic fair, colorful fiesta, a perpetual holiday where everyone is having a great time.

When a garden is way red, a deep and thorough soaking, as by a fairly heavy rain, is better than more frequent light sprinklings.

**BOYCE HOUSE**  
*Gives You Texas*

Have you ever been to Hot Springs, Arkansas?  
 It's not so far from us Texas—125 miles from Fort Worth—less than from Wichita Falls to San Antonio for instance, and Texas folks think nothing of a drive like that.

Your columnist visited Hot Springs recently—and it was a most enjoyable experience. All activities seem to center on the main street because the city is in two sections which are connected only by that one thoroughfare, so closely do the mountains press at the midway point.

And such a main street! On one side is bathhouse row, palaces of stone in a setting of trees and velvety lawns, and in the distance the vast structure which is the Arlington Hotel; on the other side of the street, shops with displays of lace, jewelry, and curios. People from every state in the Union saunter in a leisurely manner along the sidewalk. Incidentally, Texas ranks second for out-of-state visitors, Illinois being first.

There are sight-seeing buses drawn up at the curb, and there is a shooting gallery on that main street—the targets are against the side of a mountain. One spot was blasted out of solid rock to make room for a filling station and nearby is a bus stop which is only a few paces from a ledge of rock under which one can take refuge from rain.

Over yonder is an ancient two-wheeled carriage, the kind the governor used to ride in when there was a parade when you were a boy; and the old driver is wearing a high top hat. Honey-mooners go for a drive in the quaint vehicle, and of course have their picture taken. From somewhere there comes the sound of music—and you look through a fringe of trees and see, in a park handstand, an army band.

Hot Springs has facilities for 11,000 visitors, declares Miss Alma Smith, of the chamber of commerce, who for years has ably publicized the city's many attractions. But the races were in progress and finding accommoda-

### Coal Mine Disaster Results in Many Charges

As a result of the charges brought by John L. Lewis in labor committee hearings against Secretary of Interior Krug following the Centrales mine disaster there is a chance that finally the federal government may be given authority to explore the recommendations of its mine inspectors as to safety violations in the nation's mines. As of now, due to the tenacious theory of states rights, the congress has denied this authority to the federal government and sole power to enforce the safety laws in mines is in the hands of the various states. However, Mr. Krug as secretary of interior and nominally in charge of the mines under government operation, could have ordered unsafe mines closed as he has done since the disaster. But those who are familiar with the situation point out that in attempting to fix responsibility for the disaster there is no single unit or person upon whom blame can be placed, that it is divided as between the states, federal government, the owners, and the unions and the miners themselves.

Every report of safety law violations by federal mine inspectors, it is pointed out, is sent to union mine workers headquarters in Washington, a copy to the mine operator, one to the state mine inspector and one to the local union which works the mine. A copy of these reports is ordered posted at the mine entrance or some other place where all can see. So, the unions, the miners themselves, the state inspectors, the mine owners and the union headquarters know when a mine is regarded unsafe. In addition, a union safety committee at each mine can recommend the mine be closed on belief that immediate danger exists. And mine managements are obliged to follow these recommendations unless the federal coal mine administrator rules otherwise. It is also pointed out that experi-

**R. L. Hendrickson Becomes "Shellback" In Naval Ceremony**  
R. L. Hendrickson, electrician's mate, second class, of Memphis, was initiated as a subject of the realm of Neptuneus Rex, mythological god of the seas, in colorful "crossing the line" ceremonies aboard the USS Fresno.

He was among the 333 officers and men of the new cruiser who won the coveted title of "shellback" on the occasion of their first crossing of the equator. He was welcomed into the mystic fraternity of sailors with the traditional rites which both proved his mettle as a seaman and educated him into the mysteries of the deep where Neptune reigns.

The Fresno, commissioned last November 27, crossed the equator en route to Montevideo to represent the United States at the inauguration of Tomas Berreta, newly elected president of Uruguay.

Mrs. Margaret Phillips of Memphis, Mrs. Lucille Floyd, and Mrs. Bessie Slay of Wellington attended a school of instruction, Order of the Eastern Star, at Nocona Saturday.

Carl Marion Wilson had an appendicitis operation here last Thursday. He is doing well, according to reports.

**Six-Inch Sermon**  
† REV. ROBERT H. HARPER †  
National Glory and Decay  
Lesson for April 27: 1 Kings 3:5-9; 5:13-16; 11:4-9.  
Memory Selection: Proverbs 3:5  
The caption could also be the Rise and Fall of Solomon, for with him came national glory and decay. Celebrated for his wisdom, Solomon closed his life in sinful folly.  
In the beginning of his reign, Solomon asked God for wisdom. And in addition to his fame in the Scriptures, his name is almost revered for wisdom in oriental countries to the present. He was certainly the wisest man of his age, surpassing the wise men of the east, and of Egypt, and contemporary scholars in his own country.  
But his wisdom did not include the right ordering of his own life and the wise ruling of his own people. Instead of living a simple life in a simple court, his pride led him to outshine the splendour of other monarchs. Instead of oppressing his subjects with hard labor in the mountains and the laying of exorbitant taxes upon them to support his great armies, erect magnificent buildings, and maintain a splendid court, he could have secured his kingdom by dealing justly with his people.  
His pride, love of display, and moral weakness led him to sinful ruin as a man and his great kingdom to weakness and division. His hundreds of wives, many of them foreigners, turned Solomon's heart to false gods, and he set up heathen altars in Jerusalem and offered sacrifice. And the man, whose life had begun with brilliant promise, closed in moral darkness, and the builder of the temple lost touch with God. Young persons may beware of pride and compromise in spiritual things.

**Covers MORE GROUND to Save You Money**  
**And OUTWEARS PREWAR TIRES**

Interested in saving money? Here's your answer. The wider, flatter B.F. Goodrich tread puts more rubber in contact with the road.

This greater road coverage means more rubber to share the wear, less wear at any point, a longer lasting tire that covers more ground before its service life is ended.

Millions of test miles and actual experience in regular car owner use prove this tire actually OUTWEARS PREWAR TIRES.

Remember price is only what you pay . . . what a tire costs you is measured in length of service.

That's why we say . . . invest in the best . . . the new B.F. Goodrich Silvertown . . . costs less per mile . . . is best in the long run.

You pay no premium for the extra value features of the new B.F. Goodrich Silvertown . . . and per mile it saves you money.
