Clean-Up Trucks, Halted By Rain, Resume Operation

Cleanup trucks resumed operations Tuesday morning, after being halted Monday by mud in the alleys where collections were attempted, according to R. C. Cummings, who is in charge of the work. The work should be finished by the end of the week.

Working crews were halted by the heavy rains at the end of last week before collections had been made in but half of the city, Cummings said.

Most of the residents have cooperated in the clean-up drive, and the appearance of the town is already different, he reported.

He said the city planned to place trash receptacles on curbs in the business district and around the square some time in the near future, just as soon as these were obtainable. He pointed out that this move would go a long way toward keeping up the appearance of the business section.

5.09-Inch Rainfall in 6 Days Raises Crop Estimates Here

School Faculty Is Re-Elected At Board Meet

At a regular meeting of the Memphis Independent School District board Tuesday, the entire school faculty was re-elected for the 1947-48 school year, according to an announcement by T. B. Rogers, president of the school board. The board expressed gratitude to the faculty for the fine job they have done for the last four years and especially to those who have assisted during the teacher shortage.

"Now that we are back on a peace-time basis and the State Department of Education has raised the qualifications of our teachers, we appreciate the spirit of some of our teachers in going to college and meeting this standard which is required by the state department," Rogers said.

As soon as this higher qualification is met the following teachers will be re-elected to their former positions: Frances Kinard, Margarite McCoy, Leona McCraw, and Mrs. L. A. Stilwell. (Continued on Page 12)

A near record rainfall was recorded here this week as 5.09 inches fell in a period of six days, according to J. J. McMickin, local weather recorder. The rainfall last Tuesday was .22 in.; Wednesday, .72 inches. Thursday a slight .05 inches was recorded. Lions Minstrel Plays To Full House Monday

"Caldonia, Caldonia, what makes yo' big head so hard?"

"Goat" Hardy and the Jelly Gibson combo proved they could handle "low down" music with the efficacy of the original New Orleans five Monday night as the Lions Darktown Jamboree, under the direction of Mrs. Virginia Rogers, played to a packed high school auditorium.

Against the authentic river boat background, which came to life under the deft brush of stage manager Dave Price, the minstrel patter developed without a hitch under the suave prompting of interlocutor Irvin Johnsey.

Gyrations of local colored dancers added a true "darktown" touch, and Kermit Monzingo, as (Continued on Page 12)

County Agent W. B. Hooser says the needed rain will furnish ample moisture to mature the record wheat crop in this area, estimated to be ready for harvest about June 15. Some cotton has already been planted, and other farmers are planting as the ground dries. Much of the sandy land which dried quickly was planted in cotton this week.

The wheat crop has been threatened from several sources this season, Hooser said, but little damage has been done. First came the April hail, but the wheat, not having jointed, was very lightly damaged. The crop was then threatened by green bugs, but the crop was sufficiently matured that little damage was done. Some smut has been noticed, but it has been extremely light over the county, with negligible damage being recorded.

The green bug problem is largely past for this season, Hooser said, but county agents and experiment stations are working constantly to widen their knowledge of control of this pest. Nothing entirely satisfactory has been worked out as yet he said.

According to reports from the Department of Agriculture, May 1 conditions indicated a total wheat crop yield of 1,290,000,000 bushels as compared with last year's record crop of 1,155,715,000 bushels.

REV. A. D. ROGERS TO PREACH SUNDAY AT FIRST CHRISTIAN CHURCH, USING HIS FIRST SERMON AND TEXT, DELIVERED 60 YEARS AGO

C of C To Make Housing Survey

An appeal is being made this week by the chamber of commerce to all home or apartment owners in Memphis to inform the chamber of commerce of rooms, apartments, or other housing that might be available for emergency use.

This survey is being made at the request of an industrial engineer, for use in the event the engineer brings his staff here for an industrial investigation. Kelgaard and Associates of Chicago and others of Dallas have made such inquiries, it is reported.

Those who might have accommodations, even for temporary use, are requested to call 444, the chamber of commerce office.

Rev. A. D. Rogers, pastor of the First Christian Church of Memphis from June 1920 to May 1926, will preach at that church Sunday, delivering the same sermon, and using the same text and subject that he used when he preached his first sermon sixty years ago, it was announced this week.

Rev. Rogers will also preview a program on the needs of the church for the next 60 years.

All persons in and around Memphis, including the surrounding towns, that were baptized while Rev. Rogers was pastor here are especially invited to this service, and seats will be reserved for them, together with their relatives.

A special invitation is also issued to relatives of all those whose funeral or marriage ceremony was performed by Rev. Rogers during his pastorate here. (Continued on Page 12)

Clay Samples Are Requested

The Memphis chamber of commerce this week urged all farmers of the county to bring in samples of clay, to be presented to ceramics departments for analysis and possible use in brick, tile, pottery, and other commercial products.

Farmers are requested to bring about a cigar box of clay to the chamber of commerce office. Half of the sample will then be (Continued on Page 12)

Wild Rye Proves Boon To County Cattle Raisers

Wild rye is proving a real boon to cattle raisers in the county, according to County Agent W. B. Hooser.

The rye is a detriment in the wheat crop as it will cut the milling quality of the wheat, Hooser said, but its advantages have outweighed its disadvantages with many farmers.

He said that one of the greatest enemies of grass was sagebrush and mesquite. It has been found that frequent mowing of sagebrush will give in some cases up to a 98 per cent kill. Other

RECEPTION HELD

Immediately following the ceremony, a reception was held at the home of the groom's parents, 210 Eddy street.

The dining table was laid with an ecru lace cloth and centered with a large three-tiered white wedding cake topped with a miniature bride and groom. Tall white burning tapers flanked the central decoration and provided soft lighting for the scene while the couple cut their wedding cake. At the ends of the table were crystal punch services, presided over by Miss Ruth McCarves and Mrs. Robert L. Butler. Mrs. Edward D. Jones of Amarillo, sister of the groom, served cake to approximately 50 guests.

The couple left for a wedding trip to Colorado Springs, Denver, and other points in Colorado, and upon their return will be at home at 419 South 8th street, Memphis.

Do We Want A Community Building?

Last week a petition was presented to the city council, asking consideration of plans for the construction of a civic building, suitable for large and small meetings, with an auditorium, smaller meeting rooms for organizations, and other facilities. A committee was appointed to look into the matter.

This idea has been present in the minds of a great many Memphis citizens for some time. The recent completion of the community building at Wellington, and that town's demonstration of the good to be derived from such a common meeting place, has no doubt given rise to more thought here on the subject.

There is little doubt with most of us about the desirability of the building. There is an economic limit which a town of a given size cannot over-subscribe. If the investigating committee finds the building within reasonable financial reach, there is little doubt of its recommendation.

True, it will cost money. Its benefits will, in many cases be intangible. But most of the things we hold highest are intangibles.

The money spent must be considered an investment. It will not pay the owners a yearly dividend. It will pay a dividend day by day, increasing through the years with the growth of the capital stock—the youth of Memphis and the cultural growth of the community.

On the immediate and tangible side, the community center could furnish space and facilities adequate to put many organizational activities on a more paying basis. It would help advertise Memphis—just as the building at Wellington has made that town a little better known over the area. It could be an asset of which the community could be justly proud.

We do not have to start the building this month; but now that the plan is before us for open discussion, we do need to decide.

All for a penny!

LOOK what Grandma got for a penny when she was a little girl—a trained dog act! Towser grips the coin in his iron jaws, leaps merrily through the clown's hoop, and deposits the little red cent neatly in the little red barrel.

Quite a show for a penny! But nothing to the show your present-day electrical penny puts on for you. That penny does a lot. It will:

Tell you the correct time for four days or vacuum-clean six large room-size rugs or bring you an evening's radio entertainment, or run your sewing-machine for eight hours, or wash three heaping tubfuls of clothes for you!

Grandma's gay little bank may be a collector's item today, but electricity puts on a bigger and better show as it takes more and more work out of your household.

It costs so little—and it does so much! Dollar values for penny prices—that's the record of the friendly folks in this company, under local business management.

Iris Show

Amid a bower of thousands of multi-colored lovely iris blossoms, the Chillicothe Garden Club's annual Iris Show was held Friday afternoon and evening at the First Methodist Church. The show was attended by more than 400 admiring patrons.

Inside the show itself, the many individual collections of superior specimens were displayed in Grecian urns, Parisian carts, flower mart, pirate chest of green and gold, a golden galleon with sails in the breeze, pot of gold, sea shells, and many other clever ways.—Chillicothe Valley News.

Not only Texas but the nation and the entire world were shocked by the tragedy at Texas City—hundreds of lives lost, thousands injured, millions in property dam-

age, untold sorrow and suffering.

Has Austin taken any steps to prevent a repetition of such a disaster? Next time, devastation could smite Beaumont, Port Arthur, Corpus Christi, or Houston, where industry and population are greater than at Texas City and so the catastrophe could be even more terrible.

So far as I have seen, no bill has been introduced—much less passed—by the legislature to safeguard the public nor has the governor—so far as I have read—submitted the matter to the legislature. Steps should be taken to prevent a similar tragedy from shattering families, breaking hearts, and flinging a pall of sorrow over the state. The people of Texas want action at Austin!

Kidneys Must Work Well—

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus acid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

The school board expressed a very deep appreciation to Mrs. G. M. Duren and Mrs. Alvin Pyeatte who have helped out over this crisis. "They have requested to be replaced since we are not in the period of emergency that we were when they came to help us," Rogers reported.

"The school board is proud to announce that the faculty was re-elected at an increased rate of salary set up by the State Department of Education," Rogers stated. "For the past many years the teachers have really contributed a great service to the youth of our district and we commend them for their spirit of service and are glad to pay them a living wage that they are justly entitled to have."

Mrs. D. L. C. Kinard Attends Convention Of TFWC In Houston

Mrs. D. L. C. Kinard, president of the Seventh District of Texas Federation of Women's Clubs, left for Houston Sunday evening to attend the Golden Jubilee Convention of Texas Federation of Women's Clubs, Tuesday, Wednesday, and Thursday.

The state convention annually draws a large delegation and the celebration of the Federation's fiftieth birthday this year, with special honors for pioneers and festive observances of the golden jubilee, will attract a record attendance, it is believed.

Program plans include a Texas dinner honoring the General Federation president, Mrs. LaFell Dickson of Keene, N. H., and a pioneer dinner which will honor charter members and all 50-year groups. These old-timers have contributed interesting historical data which have been woven into an historical pageant, "Cavalcade of Women," to be presented at the conclusion of the pioneer dinner.

Among other high points of the convention will be an art exhibit, a style show, and the showing of a special film.

Most important business of this year's convention is the election of state officers who will serve during the next two years.
