WBAP Program Spotlights Hall 4-H Club Work

Layne Beatty, farm editor of the Fort Worth Star-Telegram radio station WBAP, after a trip to Hall County last week, based his Saturday 1:15 broadcast on the work of Hall County 4-H Clubs in farm safety promotion.

The program, which was built around recorded interviews with County Agent W. B. Hooser and two outstanding Hall safety contest winners, Harold Rumpy and Billy Hancock, was a round-table discussion of farm safety and accident prevention, in observance of National Farm Safety Week.

A farm safety program has been in operation in Hall County for about eight years. Hooser said the great need for such a program was impressed upon his mind a short time after he finished college when he saw a farmer crushed beneath a tractor, an accident that might have been prevented had proper precautions been taken.

THE TRACTOR MOUNTED Wheatland Chisel

The only heavy-duty chisel-type plow on the market today designed and built especially for the farmer who farms both wheat and row crops with row crop tractors. This plow mounts right on your row crop tractor, utilizing the power lift equipment you now have.

Just a touch of a button on your tractor raises or lowers this plow FAST. Gives the operator quick control in small fields, or when crossing ditches or terraces. The extremely high lift makes this chisel ideal for transporting from one field to another.

Plow works equally well with spikes, chisels or sweeps, is adjustable to different width rows, and positive depth adjustment. Guaranteed to work satisfactory on your tractor.

When Your Back Hurts -

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly waxy people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer sagging backache, rheumatic pains, cramps, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with a burning and stinging is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

Rot on late peaches, plums, apricots, and related fruits can be controlled with a spray consisting of three to five pounds of wettable sulphur in 50 gallons of water.

Hortman Children Meet In City For Annual Reunion

Seven of the nine children of the late Mr. and Mrs. Joel Hortman met in Memphis the past week-end for the annual family reunion.

Highlighting the celebration was the family dinner held Sunday in the home of Mr. and Mrs. Roy Coleman. A fried chicken dinner with all the trimmings was served buffet style at noon, and visiting and kodaking provided entertainment for the group.

The reunion next year will be held at Gilmer in the home of Mrs. Charley Tuel.

Attending were Mr. and Mrs. Russell Harrell of San Antonio, Mr. and Mrs. Travis Harrell, Leonard Hortman, and Mrs. Arnold McClendon, all of Dallas, Mr. and Mrs. Marvin Hortman and daughter, Marlene of Lawton, Okla., Mr. and Mrs. Marvin Wise of Quitaque, Mrs. H. O. Smith and daughter Audene of Austin, Mr. and Mrs. T. E. Harrell, Mr. and Mrs. Curtis Harrell, Mr. and Mrs. Roy Coleman and sons Don and John, and John and Edd Harrell, all of Memphis.

One brother, Lester Hortman of Austin, and one sister, Mrs. Charley Tuel of Gilmer, were unable to attend.

Mrs. Kulp Elected Contributing Editor Of "The Parnassian"

Mrs. Carl Kulp, daughter of Mr. and Mrs. J. W. Molloy of Lakeview, has been elected a contributing editor of "The Parnassian," it was learned here this week.

"The Parnassian," a journal of modern literature, music, art, and the theater, is compiled by Alpheus Butler and published in Tampa, Fla.

Mrs. Kulp, whose work is published under the name of Verna Molloy Burt, is highly commended by Mr. Butler for her June publications in "Songs of the Free" and "Sammye Kaye's Book of Poetry, Vol. II." She is a member of the St. Louis Eugene Field Society and The Poetry Forum of Philadelphia.

Miss Rae Nell Foster of Friona is visiting here this week with Miss Loretta Morris.

Mr. and Mrs. W. A. Henry Celebrate Golden Wedding Anniversary July 19

Mr. and Mrs. W. A. Henry, residents of Hall County for the past 21 years, celebrated their 50th wedding anniversary at their home in Memphis, Saturday, July 19. Twenty-six members of the family and several friends were present for the buffet luncheon which was served at noon, and a host of other friends called throughout the afternoon.

Mr. and Mrs. Henry were married July 18, 1897, in Kirby, Ark. They moved to Texas about 1900, locating first on a farm in Delta County, near Cooper. In 1926 they moved to Hall County and located near Lakeview, where Mr. Henry was actively engaged in farming until 1935 when the couple moved to Memphis to make their home.

The dining table was decorated with four pieces of china, washed in gold, which were presented to the couple by D. C. Henry of Fort Worth. Following the luncheon a large white wedding cake, decorated in gold and topped with a miniature bride and groom, was served the guests.

On display was a lovely array of gifts presented to the honorees by relatives and friends. During the day an electric ice box was delivered to the Henry home for the couple. This was the children's gift to their parents.

The group enjoyed a series of games and kodaking throughout the afternoon and members of the family went to the City Park late in the afternoon for a watermelon feast.

The children and their families present included the following: J. E. Henry of Memphis, Mrs. Shorty Callahan of Memphis, Mrs. Audry Thomas of Bowie, Mrs. Roy Thompson of Healdton, Okla., D. C. Henry of Fort Worth, Bluford Henry of Deming, N. M., and Burton Henry of Sentinel.

Wedding Plans Of Miss Naomi Ables Revealed Here

minor repairs, and that a qualified electrician should be called for major repairs. He said a common cause of fire was from inferior insulation, especially in roofs and attics where fire is not quickly detected. He said proper wiring was especially important in barns and storage houses.

Billy Hancock of Lakeview, a state safety contest winner, said that the responsibility for accident prevention lies with every individual on the farm. He stressed prompt replacement of worn parts on machinery and guards on turn shafts and other moving parts of machines. He said that all inflammable liquid should be properly labeled and properly stored, and he gave precautions for storage of hay and

THANKS To Everybody

We want to take this means of thanking all the people who aided the V. F. W. in any way before and during the rodeo, which went off in good style. The rodeo was a definite success we are glad to announce.

We are grateful to all the merchants of Memphis for the effort put forth to aid us in sponsoring the show. The store decorations, the advertising, and the cowboy regalia all called attention to our rodeo, and helped to bring the crowds to all the performances.

To all individuals, who in any way supported us, we say "Thanks." Every person who bought a ticket had a part to play, and we want to recognize this fact.

The public address system used out at the football stadium was furnished by the U. S. Army Recruiting Service. The P. A. system owned by the Chamber of Commerce was used on all the booster trips and around town. We take this means of thanking these two organizations for the use of this equipment.

All persons who planned, executed and took part in the parades are due our commendation. This part of our program went off in good style.

Edd and Lewis Foxhall are also due our thanks for using their planes to distribute 10,000 circulars over nearby towns and cities. This alone was of great value in advertising the rodeo. We really appreciate their help.

All in all, this organization has found that we have many, many good friends in this area. And it was through the efforts of these friends that we were able to sponsor the rodeo.

To everyone we are indeed grateful.

citizens will be with others of the Panhandle in campaign to raise a \$10,000 to complete the second unit of the Panhandle-Plains Historical Museum at Canyon. Estimates set this amount as required for finishing the floors, walls, and the stairways, and purchasing essential furnishings.

Directors of the Panhandle-Plains Historical Society meeting in Amarillo recently declared the policy of the society to be the completion of the new unit in order that they might house and display collections valued at more than \$100,000. These gifts, though already made over to the museum, will not be formally presented until fire-proof housing is provided.

Included in these donations are the Judge J. D. Hamlin collection of early English furniture, Chinese objects d'art, antique silver and original paintings, and the O. T. Nicholson collection of small arms.

Stressing the Panhandle-wide scope of the museum and its value as a drawing-card to tourists as well as an educational force for school children, the directors point out that finishing of the new unit should be accomplished as soon as possible.

Already overcrowded as to floor space, the museum has store-rooms teeming with invaluable articles and collections which should be on display.

When proper exhibit space is made ready, museum visitors will have access to an outstanding group of world-famous canvases by such artists as George Innes, Walter Ufer, Blalock, Ernest Thompson Seton and to a matchless display of archeological treasures, as well as early western life relics.

Director from Hall County, through whom donations to the fund may be made, is J. Claude Wells.

Home Owners Are Asked To List Carnival Housing

A personal appeal is being made to every home owner in Memphis to register rooms with the chamber of commerce which may accommodate one or more persons here during the Cotton, Chemurgic, and Ceramics Carnival, October 3-4, Herbert B. Estes, chairman of the housing committee, said this week.

"We are going to have more people in Memphis on these dates than ever before in the history of Hall County," he said, "and as of now we cannot even accommodate those coming here to put on the show." He added if the home owners in Memphis would sacrifice a little personal comfort for the two days "we could take care of additional hundreds."

Edwin Thompson, owner of the Memphis Hotel, has said he would install beds in the hotel ball room to accommodate additional visitors in a group and has reserved every available room to the chamber of commerce to house dignitaries attending the Carnival.

If you have a room, cot, sleeping porch, or any other sleeping accommodation available for this show, Estes said, call the chamber of commerce, 444, today and state how many people you can accommodate and the price you desire per night. "Only people we can recommend will be assigned to private homes," he added.

Brides Give Headache To Social Security

Came June, came brides, came headaches for the biggest book-keeping organization in the country, the Social Security Administration.

Being proud of their new names, working brides almost invariably ask their boss to show their new names on the payroll—and being human, most of them put off bringing or mailing their cards to the Social Security Administration office for the official social security name change.

John R. Sanderson, manager of the Amarillo office, reports. So, last month's bride now appears on her employer's social security report as Mary Brown along with the number that the Social Security Administration records show for Mary Smith. The Social Security Administration suspects that a marriage might be the answer to the discrepancy, but there is also the chance that Mary Brown is a new employee who was accidentally reported with Mary Smith's number.

can get credit for the wages she earned. "In most instances, the records are cleared and Mrs. Mary Brown gets credit for her wages," Sanderson said, "but this happens only after the government and the employer have spent considerable time and effort in untangling the mix-up."

The government can't afford to take chances, and correspondence with the employer is necessary before Mary Brown, nee Smith, "Now that June is over I'm extending all June brides an invitation to have their new name officially added to their social security account number card," he concluded.

Scout News

(By Reporter)
An important meeting will be held at 8 o'clock Monday night, August 4, at which time a scout band will be organized and final plans for the trip to New Mexico will be discussed.

are not licensed to get in the arena and do battle. Very few wrestlers have ever slugged a fan outside the ring. However, he has all legal rights to defend himself inside the ring against all comers.

"Soda pop cannot be sold in bottles at a wrestling match. Too many fans, usually women, try to test their throwing aim with bottles with a wrestler for a target," Flynn said.

Firemen will be on duty at the gymnasium to keep aisles cleared and to prevent hazards of all descriptions.

"We are going to bring the best wrestlers in the game to Memphis and we invite the fans to tell us which ones they want to see in action," Flynn added.

The matches will be held at 8:30 o'clock every other Friday evening in the high school gymnasium. Profits will go to the Cotton, Chemurgic, and Ceramics Carnival expense funds.

he won both calf roping and bull dogging contests.

Rodeo results: Calf roping, total time on three calves—Red McCormick of Lawton, Okla., 56.3, first; Louie Meyers of Indianola, Okla., 59.1, second; Guy Bell of Wellington, 71.3, third; and Jimmie Thomas of Lawton, Okla., 65.8, fourth.

Bronc riding: Whitey Stewart of Oklahoma City, first; John Crockett of Memphis, second; Hugh Hull of Wellington, third; and Don Chambles of Memphis, fourth.

Bull dogging: Total time for three: Red McCormick, 43.6; Monk Crawford of Marlow, Okla., 57.8, second; Earl Moore of Clovis, N. M., 64.3, third; and Hugh Hull of Wellington, 65.8, fourth.

Bull riding: Jack Jackson, Woodward, Okla.; Jim Allen of Memphis, second; Hugh Hull of Wellington, third; and John Crockett of Memphis, fourth.

Robert Bevers, VFW commander expressed the thanks of the veterans to the people of the community for the assistance and support they gave to insure the success of the rodeo.

Clyde Milam and H. J. Howell, in charge of the parade Thursday, said the success of this color spectacle could not have been possible without the full cooperation they received.

A spokesman for the veterans said that organization hoped to use the experience gained this year to stage an even bigger event next summer.

News Events of the Day --- in Pictures

PILOTS CLEAN UP . . . Eighth wonder of the world, the 5,000-year-old, shown following its 1947 "clean up." The Pyramid of Giza employed more than 100,000 slaves for 20 years to build. It is made of 2,300,000 limestone blocks averaging 2½ tons each.

HAVE COME A LONG WAYS . . . Farm tractors have come a long way since 1909. The old model above boasted copper water jackets with rear wheels from a binder. Carl Smith, Highland Park, Mich., explains to Gloria Carlson the advantages of the new Ford tractor over that of her 1909 model.

BE IT EVER SO HUMBLE . . . Student Veteran Clarence R. Roberts, Albuquerque, and Mrs. Roberts, formerly of Donnelly, Idaho, inspect a collection of dream houses at the University of New Mexico campus. Little Mary Beth, passing up the week-end houses and New England designs, has spotted her favorite pueblo architecture with the flat roof. Student Roberts, sobered by critical housing conditions, is willing to settle for anything.

WANTS RATIONING . . . Dr. Leverett S. Lyon, chief executive officer of the Chicago Association of Commerce and Industry, who has urged congress to return to rationing of food and other products.

**NOMINATED FOR PRESIDEN-
CY . . .** Dr. Claude A. Watson, Free Methodist minister, Los Angeles, who was chosen by the Prohibition party as its 1948 presidential candidate.

FIESTA WELCOME
WELL-DRESSED MAN . . . The plumage of mere man is going to be brighter, as London styles find favor in masculine eyes. Here is one, a midnight blue style of evening togs built along the lines of the familiar "Eisenhower" packet. It may replace the tuxedo for black tie occasions.

UN REPRESENTATIVE . . . Willard L. Thorp, assistant secretary of state for economic affairs, who has been nominated by President Truman as U. S. representative in the UN economic and social council.

WINNER HOME . . . Mrs. "Babe" Didrikson Zaharias began to trim her rose garden as soon as she could escape from cheering crowds when she reached Denver after winning the British women's golf title in Scotland.

MISS PIGTAIL . . . Smiling at you proudly here is Norma Ambrosi, 7, who won the title of "Miss Pigtail of 1947" at the annual pigtail contest held by the New York City Children's Aid society.

HEADS BREEDERS . . . Carl G. Woosier, Union Hill, N. Y., director of the Federal Reserve Bank of New York and president of the New York State Vegetable Growers' association, who has been named as the new president of the Holstein-Friesian Association of America.

TEDDY CALLS ON HARRY . . . Theodore Roosevelt, IV, great-grandson of President Theodore Roosevelt, called at the White House to present a special set of stamps depicting events in the life of his grandfather, the late Brig. Gen. Theodore Roosevelt, Jr.

SOIL OF LIBERTY . . . Members of the New York City boy scouts delegation to the world scouts jamboree, to be held in France in August, are shown as they filled a chest with soil from the ground in the shadow of the Statue of Liberty. The soil will be spread around the Arc de Triomphe in Paris.

GOOD OLD SUMMER TIME . . . Cool off, brother, says Dennis Davey, 4, as he douses his brother Bruce, 2, with a pail of water at New York city pool. Day was hottest in year with temperature hitting near 90 degrees in Manhattan. Elsewhere thousands suffered from excessive floods and cool weather.

SAVED "MUMMY'S" LIFE . . . Linda Prager, 4, shows how she picked up telephone and called Pittsburgh hotel clerk, telling him: "hurry, my mummy's awful sick." Mrs. Jean Prager had taken cyanide poison. She was rushed to the hospital in time to save her life.

PERSHING MEDAL . . . Nellie Taylor Ross, director of the U. S. mint, holds the winning sculpture, selected from competing artists at the U. S. mint in Philadelphia, which will be struck into a medal to honor Gen. John J. Pershing.

VACATION TIME IS HERE . . . Little Joe Fabian, 4, Jackson, Mich., arrived in New York on his vacation and while waiting until his folks arranged their tickets and checked their baggage, Little Joe devotes his time to the funnies.

Slate "Name" Wrestlers In Bout Series To Start Here Friday

Match Proceeds Will Help Defray Carnival Expense

Some of the nation's outstanding wrestlers will launch the first wrestling match series in Memphis Friday night in the high school gym, starting at 8:30 o'clock. Pat Flynn, promoter, has announced.

In a double main event program the opening card brings four of the top-notch wrestlers in the business to the city for the first such matches in the history of Memphis.

Billy Weidner, 187 pounds, Boston, Mass., meets Al Getz, 195-pound Pittsburgh Dutchman in what is expected to be a classic. Weidner is the former light-heavyweight champion of the world and is one of the strongest men in the game.

Getz has only been defeated three times in his last 89 matches. Promoter Dory Detton, Amarillo, declares this should be as great a match as one could get together anywhere.

"Gorilla" Poggi, 183 pounds, from Argentina, is noted as being one of the hardest men in the ring to defeat. He served six years in the Argentine navy and has wrestled the best men in his weight class around the world. He will be matched against Billy Hickson, 180-pound Jackson, Miss., grappler. Hickson, dubbed "Capt. Easy," due to his resemblance to the comic strip character, has just completed a movie test to play this part in a future picture. His clever wrestling recently won him the New Mexico light-heavy title.

Both main events will be the best two out of three falls with an hour time limit in each match.

"I believe the wrestlers have offered Memphis one of the outstanding matches of the season as an opener for the sport and entertainment for this region," Flynn said.

Flynn, also manager of the Memphis chamber of commerce and Hall County board of development, is promoting the wrestling matches in Memphis to help defray expenses in staging the first West Texas Cotton, Chermurgic, and Ceramics Carnival here October 3-4.

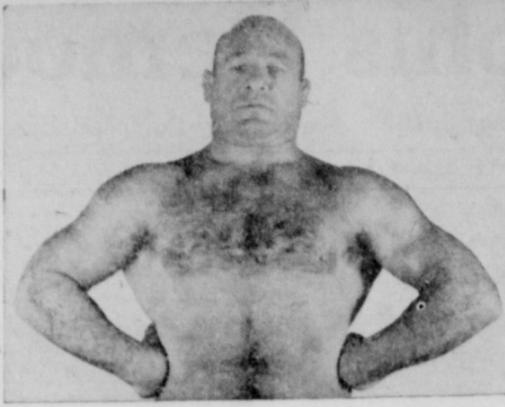

"All of us want the Carnival to be self-sustaining," he explained. "We believe the wrestling matches will help us accomplish this objective, without asking merchants and citizens to underwrite such expense. In the meantime, sports fans will be gaining the highest type of entertainment money affords."

All profits of the matches will go to the carnival finance committee. The high school is donating the gym, seats, and ring facilities in a spirit of cooperation. The wrestlers are donating 50 per cent of gross receipts to Memphis to assist in making the Carnival fund worth while. The split in receipts come after taxes have been paid, it was pointed out.

Only a limited number of ring-side seats will be offered at \$1.75, four rows on each side of the ring, Flynn said. There will be approximately 300 reserved seats at \$1.25, and all other seats will be included in the general admission price of 85 cents.

"We want the wrestling fans to suggest matches," Flynn added. "We want to and intend to bring the top-notch wrestlers in the nation to Memphis every other Friday night, if the fans want this thrilling and entertaining sport. There will be wrestle royals, Australian tag-team matches, and many other varieties of matches offered here the rest of the year."

Seventy-two per cent of the nation's 1947 corn acreage is seeded with hybrid corn.

Game Schedule

Saturday night, Elk City, Okla., here; Sunday, Memphis goes to Wellington, and the VFW team will play Clarendon here; Tuesday night, Memphis goes to Elk City. League play off starts August 10, Memphis at Quannah.

After losing two league games to Quannah Sunday Memphis fully expected to be the No. 4 team, but the Childress upset by Clarendon tied Childress and Memphis for third place.

Clarendon brought in four runs in the first inning and seven in the third for a safe lead to win 19-12. Butler and Mills hurled for Childress, and Meador and Burfield pitched for Clarendon.

The Mobeetie score over Quail Sunday set the widest winning margin of the season as they trounced Quail 22-1. Milton Deason, who hurled for the winners, allowed but 10 hits to 22 for Mobeetie. Gregory and Riley were at the top of Mobeetie hitters.

Kirkland, playing Wellington at Childress, is reported to have put the decrepit hidden ball trick to good use as they beat Wellington 6-5. Bucky Harris hit a three-run homer in the sixth.

QUANAH TAKES DOUBLE-HEADER HERE SUNDAY 5 TO 4 AND 8 TO 3

Quannah won a double-header from Memphis here Sunday, to leave them in the top league spot, while Memphis came down to a third-place tie with Childress. The first game, which was a play-off of a protested game from the second half of the seventh inning, Quannah won 5-4; the second, 8-3.

First game play started with a 1-1 score. McKnight had doubled, and Price went in to run for him. Coppedge hit a home run, to bring two runs in. In the next frame Keller doubled, then came in on a Davis hit, to put the locals in front by 4 to 1, with Quannah having one more time at bat. Garner singled, came in on Buck's triple, Buck was hit in by Ayres, Ayres and Foster coming in on Foster's home run, and Quannah had come from behind to win 5-4.

During the second game Quannah was in the lead throughout. Flowers hurled 5 strikeouts and issued 4 walks. For Memphis, Keller fanned 3, walking 1, Parker also fanning 3, walking 1, after going to the mound at the first of the seventh.

Coppedge was the heavy hitter for both teams, with 4 for 5, not including his home run game.

Fish Rodeo To Be Held In September At Lake Childress

A fish rodeo will be held at Lake Childress starting around September 1, according to G. P. Davis, district game warden, who was in Memphis Saturday.

Bass in the lake will be tagged on the upper lip, and Childress merchants will offer prizes for those catching the tagged fish, Davis said. The Childress County Game Conservation Club is sponsoring the event, which will open with a barbecue at the lake grounds.

Davis said membership in the conservation club was open to anyone, and that he hoped to see a similar club in every county in the district, or at least a representative membership.

Davis said the Panhandle area had some of the best sportsmen in the world and that much was being done to improve fishing facilities in the area, but he emphasized that more interest must be taken concerning all types of game if good hunting and fishing facilities are to be developed.

Amarillo Slates Texas Boxing Title Contest

Armour Stewart, head of the Texas State Boxing Commission at Austin, has announced that he has ordered Texas welterweight champion Johnny Dabbs to put his crown on the block in a title match against the Oklahoma champ and contender for the Texas title, Ben Evans.

Site of the match will be the 4,000 seat Amarillo Municipal Auditorium on August 15, according to Stewart. This will be the first time that any title match has been held in the Panhandle and will be under the promotion of Arvis Woodring, says Stewart.

Statement To Our Customers About Resale PRICES of PRODUCTS Built by International Harvester Company

The difference between supply and demand. To increase supply, we now have the greatest number of employees in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

Distribution to Dealers

But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions en-

danger the good will of both the dealer and the Company in any community.

Distribution to Customers

Experience shows that many IH new products are being resold by users who decide they can continue to make out with their old equipment after they have had an inflated offer for their new equipment. To eliminate this, many dealers are taking measures to be sure that equipment purchased is for their customers' own use and is not to be resold.

Nearly all IH dealers, we believe, are now using the basis of PRESENT NEED as their primary guide for the sale of scarce products. The customer whose need is real and urgent is not likely to resell.

What Price Should You Pay?

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product. Any IH dealer or branch can furnish the suggested list price for any IH product.

We know that the overwhelming majority of IH dealers are as much opposed to inflated prices as we are. In the public interest, we have already asked their cooperation—and are now asking the cooperation of customers—in correcting this situation.

Winning 4-H Essay

Editor's Note: This is the 12th in a series of prize-winning 4-H essays, from the contest conducted in the county recently. Irene Francis of Parnell wrote the following paper on "Cow, Sow, and Hen."

The only way now to make farming pay is to diversify. The farmer who raises cotton only and buys all his butter, eggs, meats, and milk will find that his dollar won't go very far toward feeding his family. The dollar now

is not worth over sixty cents in buying value.

I am a little girl in the seventh grade, but I want to help my widowed mother to stay on the farm and rear us children. So I am going to help her to get two cows, some chickens, and a gilt. The cows can help feed us and help feed the sow and chickens. The calf will be growing and becoming more valuable all the time. The cow and calf will be helping to fertilize the pasture

and we children will have something to do around the farm that will help our mother to make a success of life.

The sow, of course, will cost us some extra money in feed, but she will give us a litter of pigs. These pigs can pay us for our trouble. We can sell some and keep some to eat up the waste. Our meat is cheaper when we raise it and, too, we always have meat. I think a sow can be managed so she will pay her own way and furnish meat for the family.

Chickens seem unimportant but if managed right will do their part toward keeping a farm out of debt. The eggs will pay for the feed and buy the chickens besides furnishing some good nourishing food for the family use. Fryers make splendid food for people and always sell well on the market. The chickens help to eat the scraps and wasted grain around a farm. Thus saving feed and labor.

I believe that the world needs food worse now than ever before. I also believe that we, the children of farmers, can help to produce that food by keeping cows, sows, and chickens growing and yielding food and money for the farm. Everything we make to eat at home leaves more to send to starving people. I, for one, am going to help by raising cows, hogs, and chickens.

My pig, if I get one, has a barn and shed over it for a shelter. A lane leading from it to a wheat or sudan pasture. It has plenty of water and feed. The pig is safe from coyotes and will be kept properly.

CORRECTION

In a story last week concerning the boys at the rodeo here from Boy's Ranch it was stated that Mr. and Mrs. Ernest Lee furnished feed for the boys' horses. The story should have stated that Mrs. George Bass and Mrs. Ernest Lee furnished wheat and oats, while Mrs. J. R. Mitchell, T. K. Wilton, and Ira McQueen furnished maize.

44 ways To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the operating unions . . . representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—NOT a wage increase.

More Money For Less Work

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance:

The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 5.

"Made Work"—Sheer Waste

The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service is performed as a part of the same day's

work. The crew would get at least two days' pay for one day's work.

The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

You Can't Afford This Waste

Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work, not waste, this is it.

 Upon arrival at hunting areas
 the hunters will contract with
 landowners, who may charge a
 maximum hunting fee of \$40,
 Davis explained. They will be es-

 and hunts will be supervised by
 one warden to every 10 hunters.

All huntsmen will be assured of

 of the game commission and the
 land owners in conservation work.

**How women and girls
 may get wanted relief
 from functional periodic pain**

Cardui is a liquid medicine which
 many women say has brought relief
 from the cramp-like agony and ner-
 vous strain of functional periodic
 distress. Here's how it may help:

- 1 Taken like a tonic,
 it should stimulate
 appetite, aid diges-
 tion,* thus help build re-
 sistance for the "time"
 to come.
- 2 Started 3 days be-
 fore "your time", it
 should help relieve
 pain due to purely func-

Try Cardui. If it helps, you'll
 be glad you did.

**All Parents Do Not Have
 Plenty Of Money!**

It is unfortunate that all parents do not have plenty of money to send their sons and daughters to college. Records show that approximately one high school student in five completes college. Lack of finance is the principal reason more boys and girls do not attend college. If a Junior College is established at the Childress Army Air Field, any boy or girl in Collingsworth, Hardeman, Hall, Childress, Motley, Cottle or King counties will be able to receive additional education.

GOLDEN OPPORTUNITY...

More than 25,000 Texas boys and girls are already attending Junior Colleges and six other Texas air fields have already been converted to the purpose. A golden opportunity is presented to the seven counties of this area. Here is one of the most ideal fields in the United States which can be obtained for a Junior College if we present a united organization. The cost is too small to be compared with the benefits.

SPEED AND THE INDIVIDUAL DRIVER

How fast is too fast?
 The highway patrolman says it is any fraction over the speed limit set by law. If you drive 51 miles an hour in a 50-mile zone, you're liable for arrest on a traffic violation charge.
 Common sense, on the other hand, may not be so meticulous as to detail, but can be a lot more rigid regarding speed limits than the law requires the patrolman to be. Under certain conditions like rain or ice-coated pavements, common sense will tell you that 15 miles an hour is too fast in a 50-mile zone. Common sense, or here more specifically called proper driver attitude, is your own personal speed cop and should ride with you at all times.

Safety experts point out that excessive speed is the greatest single cause for our great number of traffic fatalities—approximately a third of the total. Next in line comes driving on the wrong side of the road, followed by failure to give right-of-way, disregarding traffic signals, improper turning and a host of others. All of them, especially speed, can be lumped under one ominous heading: Reckless Driving.

The safety and traffic specialists have a three-pronged cure for reckless driving and its annual harvest of death and injury. By widespread public education in traffic hazards, by strict enforcement of sane and adequate traffic control devices, the annual toll of traffic deaths and injuries can be wiped off the slate. Unfortunately, they point out, such a beneficent program is of little avail without the inclusion of a fourth element: Proper individual attitude toward safety. All the education, enforcement and engineering we can muster will be of no use if the individual driver persists in the attitude that he can indulge in excessive speed and reckless driving.

The most important factor in accident prevention is a sane attitude toward safety, with proper respect for the rules of the road and the rights of others. The realization of this is the only thing toward which the man behind the wheel should apply the accelerator.

American Indians

The first systematic attempt to education the American Indian was made by John Elliott in 1846. Elliott learned the language of the tribes, translated the language and had copies of it printed on the first printing press in the United States.—The Matador Tribune.

Wheat

S. R. Jones, manager of the McLean Gin who is representing the Paul Allison company of Fort Worth as wheat buyer in this community, was loading his 30th carload of wheat this week.

Jones stated that present buying is practically complete, and that he was having trouble locating enough wheat to fill the car—a direct contrast to the shortage of cars a few weeks ago. The reason, he explained, is that the market is unsteady and many farmers are holding their wheat in hopes of a rising price for the grain.—The McLean News.

Absent Minded

Bob Morton of Spearman can get the prize for the absent minded wheat producer of the nation. Saturday Bob settled up with all his combine men and drew a long breath figuring the hectic 1947 harvest was history. In a check-up Monday he located a half section of land that had not been touched and Monday morning early he was looking for some combines again.—Miami Chief.

What's New

Cottonseed meal may soon become staple diet for poultry and hogs. Up to now the cotton product has been unsatisfactory for feeding hens and porkers, although long fed to cattle, but a way has been found to eliminate the unsatisfactory ingredients for the other barnyard satellites.—Miami Chief.

BOYCE HOUSE

Visited Oklahoma City recently to make a speech, first time I'd ever spoken in Oklahoma. Upon strolling out of the hotel soon after arriving, I saw billows of black smoke—a big fire was in progress in the center of the business district.

Next morning, I was awakened by a heavy clap of thunder. The Oklahoma City weatherman had predicted "No rain," so all the weather did was to present an electric storm, whip up a 59-mile an hour wind that flattened some temporary buildings and pour down three inches of rain in a couple of hours. In fact, the weatherman missed so badly, I thought I was back in Texas.

The visitor was made to feel like a "visiting fireman" for Fire Chief McAlpine took me for a tour of the city. Half a mile before you get to the capitol, there is a row of oil wells on state-owned land. The derrick of the last one is a hundred yards or so from the capitol but the hole was so curved by directional drilling that the bottom is under the capitol.

In front of that structure is an immense flight of steps. You climb it and then, before you can break into a smile of triumph, there is an even more immense flight of steps in front of you. You climb that—and discover that you are on the third floor of the building! The capitol is a very impressive edifice.

One of the biggest thrills in

visiting Dallas is to ride the street cars. Lately, I've had to go back and forth between the office of Harley Hightower in Oak Cliff (he is the publisher of "Cub Reporter") and downtown Dallas quite a bit; and the street cars cross the Trinity on a long, trestle-like bridge, with a few rises, dips and curves thrown in—negotiated at so lively a pace that it reminds one of the "thriller" at an amusement park. Look far below and you see cars crawling along a highway, engines puffing through railroad yards and tiny figures of fishermen on the bank of the river. The wheels of the trolley rattle and clatter and it sways up and down and the wind tosses your hair. All this for only 8 cents.

This Week in WASHINGTON

UNIFICATION of the armed services under a civilian secretary of national security before adjournment of this session of congress appeared certain as the senate passed the bill and sent it along to the house as "must" legislation.

President Truman repeatedly has urged passage of the bill, which its proponents declare will eliminate waste and duplication of effort and provide for a combined armed services with a single head over subordinate secretaries of departments of the navy, the army and the air force. After a two-day debate, in which Sen. Edward V. Robertson of Wyoming led the opposition against the measure, it was passed overwhelmingly in the upper house by voice vote.

Surmise as to whether or not other labor unions, particularly CIO unions in the automobile and steel industries, will fare as well as John Lewis' miners under the Taft-Hartley act when new contracts come up, indicate they will not. In the first place, there was about as much collective bargaining in arriving at an agreement on the Lewis coal contract as Hitler offered Poland before he invaded. Lewis gave steel and coal an ultimatum and they accepted—accepted a contract which obviously by-passes the new labor law in that the contract itself takes care of all possibilities which may arise to keep the mine union in the clear and out of the realm of the national labor relations board.

The contract names the United Mine Workers union as the bargaining agent, hence there is no call for an election; it does not contain a "no strike pledge," hence a strike by one union or all would not be a contract violation; it provides the men work only "when able and willing" to work, which is a hole big enough to drive a team through; it follows the labor law in setting up the miners recreation or welfare fund but names Lewis as the chairman; it permits the check-off with each miner giving his individual authority.

It takes the whole contract from under the NLRB by declaring, "the contracting parties agree that as a part of the consideration of this contract and all disputes, work stoppages, suspensions of work and any and all claims, demands or actions growing therefrom or involved therein shall be by the contracting

parties settled and exclusively by the method in the "settlement" of strict disputes" settlement, or if national the full use of the bargaining as has been practiced in the past. This means that the steel company and stay out of the way labor relations board Hartley act will play to settle grievances. Lewis claims as a thing like \$3.50 per ers but, as a man nearer \$1.20 since the increase is based on and the new one, obtained 22% cost when the government mines. Lewis, however, count that increase

The size of the senate passed the bill to give the right light in thinking the anti-trust laws into the measure even veto, which is a chance, however, of President will have of permitting the pocket veto or letting his signature with journals.

Farmers, cooper rural organizations interested in this would permit rail carriers, including to "no strike pledge" anything the farmer without regard to in restraint of trade

Preparing for a vital veto of the GOP leadership effort to garner the measure over leaders asserting the session, despite the date of July 26, in vote to override. The would make tax rate uary 1, 1948, instead as the first bill pro it is an identical bicratic efforts to sub in exemptions for figures in the GOP

AND RECKLESS DRIVING: CHANGES TO SELF-DISCIPLINE

A. HARVEY, Director of the National Conservation Bureau, says that the lives of persons on the highways, a public concern, probably would be saved by the real cause for traffic deaths, the Hartley act will be known, every driver would realize the secret is based on the attitude of the driver toward the general course of the road, then the problem of the road also is termed by each single accident, by other general efforts of today's experts in the safety—Education, Engineering means by which carelessness on individual are minimal analysis, do his or her traffic death out.

Preparing for a veto of the bill, the GOP leadership effort to garner support, the measure over leaders asserting the session, despite a date of July 26, in vote to override. Speeding through the night, the driver of this car was momentarily blinded by approaching headlights. Because he was going too fast to control his car instantly, he swerved off the highway and crashed into a telegraph pole with such force that the car was almost broken in two. He was dead when help arrived. National Conservation Bureau advises night-drivers to keep their eyes focused on the side of the road, never to look directly into headlights and—most important of all—to drive at moderate speed.

The same is true if the road is crowded with holiday traffic. Hence, a driver can be con-

realization of this leads inevitably to the conclusion that individual attitude is the criterion of traffic safety.

Next to speed, 1946 nationwide figures show that driving on the wrong side of the road, including passing, is the most frequent traffic violation. Driving under the influence of alcohol is rated as the next greatest cause for traffic fatalities. Following these come a long list of minor, but obviously careless, violations such as failure to give right-of-way, disregarding traffic officer's signal or stop signs, improper turning. All are reckless driving. They can be avoided if each individual cooperates.

Frequent and prolonged suspension of driving privileges for traffic violations would, it is agreed, prove a great aid in creating a wholesome respect for

safety rules and law enforcement. But self-discipline on the part of the driver is the most important factor to be considered.

No matter how excellent the mechanical condition of an automobile may be, no matter how ideal weather and road conditions may be, there is a point where they lose their effectiveness, because their mastery depends upon the judgment and control of the person behind the wheel. The most reliable safeguard against accidents is a sane attitude toward safety, with proper respect for law enforcement and the rights of others on the highway.

DEATH

RIDES WITH THE RECKLESS

One-fourth of all fatal accidents on the highways of our country and in the streets of our cities and towns are caused by speed. Reckless drivers—disregarding all the laws of traffic safety and common sense, urging onward automobiles catapulted by the power of a hundred horses—these were the prime killers in 1946.

Last year 33,500 persons—drivers, riders and pedestrians—died in automobile accidents. That's about one death every fifteen minutes. More than a million were injured, many of them maimed or crippled for life. This year the toll will be even greater, approaching an all-time high of 40,000 deaths—unless you, Mr. and Mrs. Driver, call off this daily rendezvous with Death.

You can do your part to help stop this highway slaughter by personally striving for an accident-free record. Drive carefully at all times. Be considerate of other drivers and pedestrians. Gauge your speed to highway conditions and traffic requirements.

Don't let Death hang over your shoulder and point the way to the morgue. Drive safely—and live!
