LIONS CLUB TO GIVE FOOTBALL FEAST DEC. 18

Abe Martin, first assistant coach at T. C. U. will be the principal speaker at the annual Lions Club football banquet, to be held next Thursday night at the Masonic Temple, Lewis Foxhall, chairman of the banquet committee announced this week. Martin is well known in Texas football circles having had an enviable record while coaching at Lufkin High School, Coach Don Ezell said. He also coached at El Paso High and later at Fort Worth Paschal High School where his team won the first district championship in almost ten years. From there he went to T. C. U. He was a former player at T. C. U. in 1929 and the early '30's. Some 35 members of the high school football squad will be guests of the club and other guests will include Coach Al Duncan of Wellington, Putt Powell and Frank A. Godsoe of the Amarillo News and Jimmy Allred of the Amarillo Times, with more expected, if invitations are accepted. Films of the TCU-SMU game this year which turned out to be a 19-10 tie will be shown. Mr. Foxhall will be master of ceremonies.

Money In Hall County Has Gain

A general increase in money circulation as well as deposits in the banks is indicated by reports of the first three quarters of 1947 for the banks of Hall County. The total out of town items coming into the banks were approximately \$7,500,000 and almost \$8,000,000 in individual deposits. The latter figure represented several million more in the banks this year than last year. This amount has been augmented by the estimated 35,000 bales of cotton that cotton men say have been ginned up to December 1 in Hall County. Last year the county total was approximately 9,000 bales for the same period.

Lions, Rotarians In Big Basketball Game Monday Night

The Lions Club and Rotary Club will play a matched game of basketball on the high school gymnasium floor Monday night at 7:30 o'clock. Preliminary announcements indicate that it will be the talk of the town. No basketball game has ever been seen just like it here, before. Indeed, they say, an honest prediction of the outcome would be worse than trying to tell about the weather in Texas.

O. R. Saye is chairman of the committee in charge of arrangements for the game and he says it will be a good one.

There is one little hitch—or a big one for that matter—and that is: The entire contest will be played on donkeys. The Rotarians and Lions say that is enough said.

Tentative starting line-up for the Rotary Club will include Eddie Foxhall and W. C. Davis, forwards; R. C. Lemons, center; Tommie Potts and Horace Tarver, guards. Substitutes will be Allen Dunbar, Gayle Greene, Henry Hays, Noel Clifton, J. T. Clayton, W. B. Hooser, Carl Harrison, and T. D. Weatherly. Probable starters for the Lions Club: N. W. Durham and Dr. R. E. Clark, guards; Ben Alexander, center; Roy Coleman and Jim Vallance, forwards. Substitutes include O. R. Saye, Bob Ayers, (Continued on Page 10)

The farmers of Hall County have in their possession over 200 approvals for seeding drill crops on the contour, and for leaving grain sorghum stalks on the land, which will expire on December 15, and the payments for these practices can not be paid unless the approvals are returned by December 15, Lynn McKown, secretary of the ACA, stated this week.

Sheriff Hill Says Convict, Wanted In Hall County, Killed

Steve Carter, Oklahoma bandit, who was killed in a gun battle with officers in Antlers, Okla., late Saturday, was in possession of several hundred dollars worth of stolen goods that belonged to two Hall County farmers, Sheriff Earl Hill was informed by the sheriff's department in Hugo, Okla., Monday.

Last October 4 the farm houses of John George and W. D. Isaacs were entered and valuable articles stolen, in an amount between three and four hundred dollars. The sheriff's investigation proved that tracks found outside both houses were near enough alike to indicate that the same person was the burglar.

Later in October W. R. Harris of Loco in Childress County came to Sheriff Hill and told him that he thought a desperado was working for him. He described the articles the man had with him and they proved to be some of the stolen property.

The man had been picking cotton under the name of Billy Gene Mitchell; but Mr. Harris had seen a letter with the name "Steve Carter, Oklahoma City" on it. The man had already departed when Sheriff Hill investigated so the local officer wrote Oklahoma (Continued on Page 10)

Cyclone Defeats Quannah Team By 24 To 23 Score

The Memphis Cyclone overcame a last half lead and emerged victorious over the Quannah Indians in an early season basketball game in Memphis Tuesday night. The victory was by the scant margin of one point the final count, as several hundred fans raised pandemonium, being 24-23.

It was a comparatively slow contest for both teams with numerous fouls and both teams having difficulty in getting their offense to work. Norton, forward for the visitors was high point man with 16 tallies, and Green, Cyclone guard, second, his score being 8.

The defense of both teams worked well in spite of the fouls, this accounting for the low score. On the initial toss up, Vickers took the ball and scored two points for Memphis, a lead which

the local team increased to 9-5 as the first quarter ended.

Cyclone Holds Margin

The Indians surged back in the second period but the Cyclone held a margin at half time with the score being 11-10.

When the second half started, the Indians had worked out an offense that began to click in spite of the fine defensive play of Memphis and at the end of the third period the count stood at 20-21 for the visitors.

Tightening up in the fourth quarter the local team, still trailing, refused to yield. The Indians got more shots at the basket but the defensive play of the black and gold clad players kept them to one tally. A Cyclone player sank a free throw for one point and a few minutes later came back on the offense with both teams fighting hard. Green angled one in from a difficult place which never touched the basket as it went through to tie the score with 1 and a half minutes remaining.

Vickers was fouled with 45 seconds left and sank his shot to put the Cyclone ahead.

Only a half minute left and Green rushed in to stop the Indian offense. He passed to West,

C. C. Dodson, formerly a partner, will remain as shop foreman. Mr. Dodson is a resident of Memphis and was formerly employed at the Memphis Democrat.

West to Davis, Davis to Green, then back to West. Only 15 seconds, 10, 5, and the whistle of Timekeeper Weldon McCreary blew, ending the game. The crowd roared its approval.

The Memphis High School band under the direction of Perry Keyser played during the contest and the twirlers handled their batons well, while the girl pep leaders led the cheering.

Cyclone B's Lose

Immediately preceding the main game, the Cyclone B team was defeated 35 to 15 by the Quannah B's.

Shackelford, Quannah guard, was high point man of this game with 12 tallies; and Clark, Memphis guard was second with 8.

The lighter Cyclone B team fought well but was no match for the visitors.

Lineups and points scored were: Memphis, forwards, Davis, 5; Gayle West, 3; center, S. Rasco, 4; guards, vickers, 4; and Green, 8.

Quannah, forwards, Norton, 16; Tidmore, 0; center, Walker, 3; guards, Boynton, 0; Johnson, 4.

Memphis B, forwards, Grundy, 5; Hanna, center, Crooks; guards, Clark, 8; Henry, and Wells, 2; Substitutes, Stewart, D. Rasco, and Kennedy.

Quannah B, forwards, Phillips, 6; Bicknell, 6; center, Wall, 2; guards, Mahan, 5; Shackelford, 12; and Clark, 4.

Zady Belle Walker Gives Book Review

The Delphian Club met Tuesday, December 2, in the home of Mrs. Billy Thompson. Mrs. C. C. Hodges, president, conducted the business meeting.

Russia was the program subject from the theme "World Neighbors." Miss Zady Belle Walker reviewed the book, "Why They Behave Like Russians" by John Fischer, a Texan whose study of Russia has covered a period of 14 years. The book is a result of that intensive study and of his participation in an UNRRA mission.

"Like most students of that fascinating and enigmatic country, the author has come to believe in Paul Winterton's words: 'There are no experts on Russia—only varying degrees of ignorance.'" Miss Walker pointed out.

"However, from his observations he believes that an almost neurotic fear on the part of the fourteen men who boss the Soviet Union is shaping, or warping, the entire Soviet policy. This fear seems based on sheer personal anxiety, on the vulnerable geography of the country, on an awareness of the country's enfeebled condition, and on a belief that America is a menace because of her strength. This fear is condemning the ordinary Russian to at least ten more years of the strain and sacrifice of a war economy or until men of the Kremlin can develop the potential strength of the country."

Members present were Mesdames A. Anisman, Sidney Baker, J. L. Barnes, Jack Boone, W. C. Davis, Calvin Draper, Gordon Gilliam, C. C. Hodges, V. L. McGlocklin, J. S. McMurry, Robert Queener, Clarence Stroehle, Annie Stone, Billy Thompson, R. H. Wherry, Harry Womack, and Misses Maud Milam and Zady Belle Walker.

For her wedding, the bride chose a chartreuse green suit, accented by brown accessories and a corsage of gardenias.

Attending the couple were Miss Euclair Gilbert, twin sister of the bridegroom, and A. B. Stuart Jr. of Estelline.

The bride is a graduate of the Hedley High School and was formerly employed at Perryton.

The bridegroom is a graduate of the Memphis High School. He served 20 months with the U. S. Army and is now employed with the West Texas Cotton Oil Company.

Mr. and Mrs. Gilbert are at home in Memphis.

Interment was in Fairview Cemetery with Womack Funeral Home in charge.

The following story concerning Mrs. Owen appeared in the July 22, 1938 pioneer edition of The Democrat, and was written by Mrs. Wilma Davis of Plaska:

"Granny Owen," as she is known throughout this community, is Mrs. G. P. Owen and has made her home in the Panhandle for 52 years and can be truly classified as a pioneer of Hall County. She was married to George Paris Owen on April 15, 1886, in Saint Jo, Montague County, and came to Gray County in May of the same year, settling on their ranch in a half dug-out. The Panhandle then was an open range country and the entire portion of Texas was populated with nothing but cowboys and two or three daring families who braved the privations of the area and times to establish homes in this vicinity.

Fences were unknown in this portion of the state when Mrs. Owen first settled here. The nearest one was near Red River and another one was located up in Kansas.

During the spring round up of the cattle, Mrs. Owen states that she has mounted her horse and

helped in the round-ups many times, eating at the chuck wagon with the cowhands. After her first child was born she carried him with her on her horse.

The only amusements of those times were dances, and usually there were never enough women to have a dance. These festive occasions were usually withheld until someone in the community had a lady visitor from "back east" and then the folks for miles around would come to a dance and usually dance all night. Mrs. Owen says that she has danced many nights all night long when there were only four women partners.

In these days, of which Mrs. Owen relates, the Indians were held in a fort at Mobeetie and in 1887 they broke out and started to the Goodnight ranch to get buffalo. They passed right by her home on their trek toward the Goodnight property. Fortunately the soldiers at the fort overtook them before they raided. However, they took the Indians on to the ranch where they gave them buffalo to eat.

Mrs. Owen states, "No one but the pioneer of those days know

and half realize the hardships went through." After making their home in Gray County for 22 years, they came to Hall County and on the Jack Owen farm, thickly populated and the conditions were better. In 1908 Mrs. Owen makes her home in Gray County. Mrs. Owen died in August, 1935, same year leaving Mrs. Owen six children to make a home for Mr. and Mrs. Owen have 11 children, 11 of whom are still living.

Farmer members as guests. Mr. Hooser was enthusiastic over the various contacts he and the young men made, saying the trip would be invaluable to the farmers and 4-H club members of this country. He gave much praise to the Lions Club members and business men of Memphis and Lesley who sponsored his trip with the young men.

He said that in connection with the convention, the National Association of County Agriculture Agents met and heard widely known speakers on different problems of farmers and stockmen over the country.

Judge Montague of Austin, an authority on the hazards of the hoof and mouth disease, spoke at length on the subject, clarifying it for those who did not understand the gravity of the situation at present.

The judge declared that the disease was brought into Mexico when a stockman in Mexico shipped in a herd of Brazilian bulls, that were infected, Mr. Hooser quoted.

Besides the good showing made at the national congress, the county won five of eight places in the state judging at College Station.

Soil conservation state judging was won by Carroll Fowler of Lakeview; poultry, by Morris Odom, Newlin; home beautification, Bruce Gibson, Turkey; and second place in Texas was won by Billy Hancock of Lakeview for

A LESSON FROM THE CHINESE

The story is told that the Chinese pay the doctor to keep them well, and if they contract illness, the doctor pays them instead. Whether or not this story is true, the general idea is sound. Serious illness often can be prevented by regular health examinations. Form a habit of visiting your doctor often—at least twice a year. If you do not have a family physician, we will be glad to recommend several from whom you can make your selection.

Foard County Farmer Bales Lots Alfalfa

Monroe Karcher, farmer in the Riverside community in Foard county, never had as much alfalfa seed and hay as he harvested this year.
Karcher baled 7,000 bales of threshed hay and harvested 83,000 pounds of seed. All from 156 acres of land.
It started last February, Joseph E. Burkett, county agent, says, when Karcher applied 300 pounds of superphosphate per acre on his alfalfa land. He'd never used superphosphate before.
He cut the hay twice before letting it go to seed.
He told Burkett that the highest seed yield he'd ever had before was 200 pounds per acre. This year, it averaged out to 532 pounds per acre.

More than a third of a million infected or exposed cattle and nearly a quarter a million hogs, sheep, and goats have been slaughtered in Mexico in the campaign to stamp out foot-and-mouth disease.

FIRST JET HELICOPTER . . . Weighing a mere 310 pounds this United States air force first ram-jet helicopter has already lifted an additional 300 pounds with its two ram-jet units, weighing only ten pounds each. The simplicity of construction and maintenance makes it an ideal aircraft for military operations such as short-range observation, communications, artillery spotting and courier service.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try Cardul. If it helps, you'll be glad you did.

WARNING

The mattresses certain trucks pick up are made elsewhere. Word comes to me and also people come to my factory looking for their mattresses which they let the out-of-town truck have, but they say the out-of-towner tells them the mattresses are made in Memphis. I feel sorry for people sending their mattresses to other towns to have them rebuilt and do without their beds two or three weeks when I can give them one-day service and do as good work as any mattress maker in Texas, and have probably been building mattresses as long or longer than any active mattress maker in Texas.

I learned to build mattresses in 1918 at Hollis, Okla. I had a brother in the business then. I operated a factory in Eldorado, Okla., in 1920. I've given the mattress business a long study and feel confidence in my work.

If you will call me, write me, or bring your mattresses to my factory across the street north of the post office, I'll do anything you want done to them and bring them out for you. My work is guaranteed. If it isn't built right, I'll re-do it till you are satisfied.

From now on have your mattress work done at home and be satisfied. I have furniture for sale. Welcome to ask any questions about mattresses. I'll tell you the truth. I don't have a truck out soliciting and selling. So BEWARE.

Their reply came October 27, which said that they knew no one by the name of Mitchell but that Steve Carter, who answered the

description, was an escapee from the Oklahoma penitentiary at McAlester. The local officer immediately sent circulars over Oklahoma and he wanted Carter in connection with the burglary. He was notified if he was apprehended.

Mr. Harris' suspicion aroused when Carter told him with violence if he one that a man of his was working for him, he reported.

Wedding Vows Read In Memphis Unite

Jo Bradley and Floyd T. Dyer

Wedding vows were solemnized last evening, December 4, at 8 o'clock for Miss Billie Jo Bradley, daughter of Mr. and Mrs. Richard Dyer, also of Memphis, in the home of the bride's parents.

Rev. Helms, pastor of the Presbyterian Church of Clarksville, officiated at the ceremony.

Dorothy Gene Phelps acted as maid-of-honor, and Herman Christwell served as best man.

For her wedding, the bride chose a pastel blue dress accented by black accessories and a corsage of gladioli and mums.

Following the ceremony, the bridal party was feted at a reception in the home of the groom's parents, Mr. and Mrs. Richard Dyer.

The bride received her education in the Memphis schools, having lived here all her life. The groom attended school in Rush Springs, Okla., and at the present time is associated with A. O. Bradley in the plumbing business in Memphis.

After a short honeymoon trip to Amarillo, the couple will be at home in Memphis.

Visitors Sunday in the Roy Guthrie home were Mr. and Mrs. V. H. Lindsey of Wellington.

What's quicker than a wink?

WHY, the way Reddy Kilowatt, your electric servant, jumps to your service when you flip a switch!

How quick is a wink? Well, scientists have clocked it at 1-300th of a second. But electricity arrives at 1-10,000,000th of a second after you make contact. That's speed! That's service!

And it's not only quick service, it's dependable service, too. Day and night, summer and winter, Reddy is ready and waiting. Keeping him constantly ready to serve you takes plenty of planning, plenty of skilled and experienced people. Yes, and it takes plenty of keeping up with the latest technical developments!

That's why today, in spite of rising costs in living, the average family is getting twice as much electricity for its money as it did 20 years ago. That's why electricity is the smallest item in the family budget!

General, Native Texan, Returns To 4th Army Post

Major General Andrew D. Bruce, who planned and organized the army's tank destroyer center at Camp Hood, Texas, and then commanded the 77th Infantry Division in battles in Guam, Leyte, and Okinawa, has reported for duty at Fourth Army Headquarters, Fort Sam Houston.

General Bruce, who replaces Major General John B. Coulter as deputy Fourth Army commander, is a native Texan and a graduate of Texas A. & M. College. Prior to his recent return to the United States, General Bruce commanded the 7th Infantry Division in the occupation of Korea.

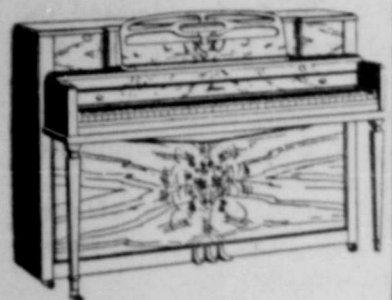

General Bruce and J. B. Cox of Memphis are second cousins.

Mrs. Henry Scott visited with relatives in Fort Worth last week.

Sport Sights

We must admit we were roundly slipped-up on in the Louis-Walcott championship fight. In fact we were just as stunned as we were when a big fellow in his thirties named Schmeeling got up off the floor and whipped a much younger Louis back in the late 1930's.

It seemed like an unjust decision in spite of the courage and ability to take it that the champion showed. Listening to the broadcast this corner marked the 1-3-4-10-12-13 and last rounds for Walcott; with Louis taking the 2-5-7 and 8 rounds, the remaining ones being equal. Some of the rounds given Louis were because of his aggressive fight.

We don't know the system of judging a fight but we do know one of the judges was with us and two against us. But alas! that boozing Brooklyn cheer at the end was gratifying, in that it indicated that the sporting crowd thought the decision was unfair.

But it is history how this fight came about. Recently we read that Walcott knocked the champion down as a sparring partner. This was denied; but no one could deny the fact that both negroes were fighting a championship fight Friday night; or that Louis was on the floor twice in the early rounds.

1-A Regional Championship Shamrock of District 3-A and Perryton of District 1-A, who won over their opponents Paducah (25-0) and Canyon (27-6) respectively, in the bi-district tilts last Friday will meet this week in the regional finale. The game will be played at Pampa Friday afternoon.

The Irishmen will go into the game with the dope against them. Early this season the Perryton team defeated the fighting Shamrock team 20-0.

But the Rangers defeated Wellington only 6-0 which Shamrock overcame by a 12-0 battle when both teams were reaching their peak.

In choosing a winner this late in the season without having watched both teams for their season record it looks like a Perryton choice, but this corner will take the Irishmen by a touch-down.

AA Statistics The bi-district games of AA Texas high school football are past and produced some astounding statistics. Longview in defeating Lufkin 7-6 was short on first down 11-5. Wichita Falls beating Amarillo 7-0 had only 11-14 first downs. Highland Park winning on penetrations 2-1 from Paris in a 0-0 contest could have lost had the chainbearers not moved the chain in confusion, which sports writers said, would have meant a first down and would have tied the score on penetrations. Paris had the edge

on yards rushing 35-42 and would have won on this, according to prior interscholastic league rulings.

And finally Lamar of Houston in losing to Goose Creek 13-7 had 14-6 in first downs and also won in rushing and penetrations.

These interesting sportsights only show we can't predict a winner until a game is over.

But here goes, those in caps

being winners in the quarterfinals this week:

BRACKENRIDGE (San Antonio) vs. Goose Creek (close).

Highland Park (Dallas) vs. ARLINGTON HEIGHTS (Fort Worth).

LONGVIEW vs. Breckenridge. ODESSA vs. Wichita Falls (close).

Out of the study the USDA hopes to bring information to growers on what the consumer wants in the way of potatoes.

Six-Inch Sermon

† REV. ROBERT H. HARPER †

Christian Fellowship
Lesson for December 7: III John.

Memory Selection: Philippians 1:3, 6.

The lesson may remind us of some modern churches in the types of men found in them. "Gaius the beloved," of whom we know nothing but surmise that he was a leader and a blessed influence among the Christians of Asia Minor, is fortunately found in type in almost every church.

Diotrephes is also found, wanting to have his own way about everything. Sometimes he wants to dictate because of the money he gives to the church. But he is not concerned to live the kind of life that should entitle a man to preeminence among Christians.

It is not strange that the original Diotrephes did not welcome John and did not offer hospitality to Christian strangers. He wanted no interference with his own rule. So he was entirely lacking in the hospitality John stressed in his letter. Hospitality toward strangers was needed where inns were few and poor. Many Christians vied with one another in caring for their transient fellows. John urged this—a fellowship that was more than the giving of the "glad hand." And as ancient Christians ministered to their fellows, the bonds of love were strengthened. The dire need of hospitality is not present now, but there are still many ways in which friendship and fellowship can be cultivated among those of like faith.

In John's closing words he wrote that there were yet other things that he would not give them with pen and ink. He hoped to see his Christian friends soon.

Memphis Plumber Ends Meeting

More than 50 plumbers representing 18 West Texas towns attended a meeting of the Panhandle Association of Master Plumbers, Inc., held in the Super Hotel at Midland Saturday.

More than fifty members and wives attended. B. M. Mahan, Houston, director of public works for the organization discussed the new state plumbing law and its effect on master plumbers.

He declared the law is full of ambiguities and weaknesses and is opposed to the best interests of competent plumbers, plumbing standards, and the welfare of the public. The law has permitted an unnumbered number of incompetent, unlicensed men to become licensed master plumbers, he said.

Sentinels of Health

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder dysfunction.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use **Doan's Pills**. They have had more than forty years of public approval. Are endorsed the country over. Insist on **Doan's**. Sold at all drug stores.

CHRISTMAS TRAFFIC

With the approach of the holiday season we must again think of the traffic hazards. Across Texas and other states people will spend Christmas with relatives and friends.

Statistics prove that holidays cause more wrecks than the normal flow of traffic. At Christmas time traffic may not be as heavy as in the summer and fall but the hard wet cloudy and foggy weather, or snowfall, increases the chance of accidents.

This year the season for some will begin about the week end of Saturday, December 20, and last for others until January 2. And now, a week ahead of the holiday season, is a good time for those who intend to travel on the highway to begin their plans and thoughts for their journeys. Traffic officers will issue their warnings and other organizations also.

A lot of precaution can save a lot of trouble, but of course some accidents are unavoidable. Highway Patrolmen N. D. Calloway and Jack Shields told only last week of an accident just out of the city limits wherein two mules ran in front of truck and caused three people to get severe injuries when their car ran into the rear of the truck.

Down in Montague County last week a bus and truck, trying to avoid a collision caused three people to lose their lives, with the other one seriously injured. Charges were filed against the truck driver but the damage is already done.

Indeed, with bad weather or not, it seems that we wuld stop driving at excessive speeds, particularly where there are only two lanes and many cars, trucks and other vehicles passing each other.

Cotton

Our cotton crop hasn't been so bad either, despite the dry weather that cut her short of what it looked like it would be. Up to November 1, the county had ginned 15,820 bales, over twice the amount ginned over the same period last year.—Aaron Edgar in Munday Times.

Farmers Workshop

Members of the Texas Farmers Union in Donley County and surrounding areas will meet in Clarendon the second week in December for a two-day workshop, according to John Gordon, local Farmers Union representative.

Several state and national Farmers Union officials will be present to conduct the program. There will be sessions on problems that are faced or will be faced by farm people ranging from the hired hand to the landowner. There will be other sessions dealing with legislation, cooperative education and many other things of vital importance.

"Farmers Union," said Mr. Gordon, "is an exclusive dirt farmer organization, controlled by dirt farmers. It's an organization built around human welfare."

Thanksgiving

Thanksgiving time is almost here again and our people once more have such wonderful material blessings for which to be thankful! A kind Providence has made our financial position even more secure as a people in these broad expanses of West Texas. There are maladjustments, things that need to be straightened out to be sure, people who have worked and labored as diligently as the others, who have not done so well. People in larger percentage than you may think, to whom present prices and living conditions have brought much strain. But even these are not going hungry, while the great mass of the people are enjoying good crops and good

markets again as in the past few years.—Floyd County Hesperian.

Had a letter from the officials of the State Fair of Texas and they say next year's exposition will be bigger and better. As far as I'm concerned, the one this year was plenty good enough. Went over there on Press Day and it's worth going a long ways just to shake hands with the fine folks of the Fourth Estate, especially the ones who run the papers that publish this column.

There was also a barbecue dinner, served by the Odessa Chuck Wagon Gang. And so many things to see, as guests of the management, that I never could get around to 'em all—but I did see the SMU-Missouri football game that night and "Annie, Get Your Gun" that afternoon. The star was Mary Martin, and she is a Texas gal that every Texan has a right to be proud of. She sang, she danced, she got laughs, and she was the romantic interest, too. Besides that, she was a dead shot with a rifle. (That is the only thing she did that I thought maybe might have been fixed so as to make it look like the targets were being hit; that is, I would have been a mite suspicious if she hadn't been from Texas.)

Mary Martin's is a Cinderella story. She was born in the peaceful town of Weatherford where she had a school where she taught singing and dancing. Also she sang over at the Baker (or maybe it was the Crazy Hotel) in Mineral Wells. She came to Fort Worth while Casa Manana was being presented but Billy Rose wouldn't give her a place in the show.

She went to New York, and was the under-study to a star who kindly got sick one night. That was Mary's chance; she didn't need but one. She sang "My Heart Belongs to Daddy" and became the toast of Broadway.

Then came stardom on the air and on the screen.

Her appearance at Dallas was her first visit back to her old home state and the home folks cheered and cheered.

When you hear anybody say that opportunity no longer exists in America, just call the guy's attention to Mary Martin.

So, officials of the State Fair of Texas, next year's show may have more exhibits and departments, and it may be better than the 1947 one was—but this columnist is one fellow who is going to have to be shown.

Yours, for Press Day and barbecue and football—and Mary Martin, of Texas.

This Week in WASHINGTON

PROBABLY THE MOST POPULAR happening in Washington in a long time was the precedent-breaking appointment by the President of Jesse M. Donaldson of Hanson, Ill., as postmaster general to succeed Robert Hannegan, who resigned to boss the St. Louis Cardinals.

Donaldson, who started his postal career as a clerk at \$11 a week in the Hanson postoffice, where his father was postmaster, is the first man ever appointed from the ranks of the postal service to the President's cabinet. He is a genial, big-shouldered man who has been in the postal service for 42 years and had worked up to first assistant postmaster general. He was probably more surprised than anyone when the President called him to the White House to give him the job. Although not a stamp collector, he likes baseball, bridge and the Democratic party, he says.

WITH THE HOUSE slashing 108 million dollars from the emergency relief asked by the President for France, Italy and Austria, and adding 60 million dollars for China, there was some likelihood that the 597 million dollar authorization for aid to those countries would not slide through the congress as easily as had been expected.

There was the balking of big John Taber of New York, chairman of the house appropriations committee, who declared every cent would have to be justified before his committee would even start hearings.

No matter what amount congress votes, the appropriations committee of the house must report out a bill before any actual vote can start on getting the money. So Taber was called to the White House and it is supposed that President Truman laid it on the line to him to justify the necessity of the appropriations asked.

JUST HOW LONG Sen. J. Howard McGrath of Rhode Island, who is doubling in brass as chairman of the Democratic national committee, which has just moved into its new offices in the Ring building, can keep up the pace he has set remains to be seen. He is on the job early in the morning at the national headquarters, gets over to the senate in time for convening of that body and

then works late at his office in the senate office building when the campaign starts to remain to be seen.

He is a member of the judiciary committee and with Murray of Montana, he was substitute for the Taft-Hartley to which he is opposed. The vote was beaten 73 to 13, three times and formerly was for general of the United States is a banker and member of estate and insurance firm.

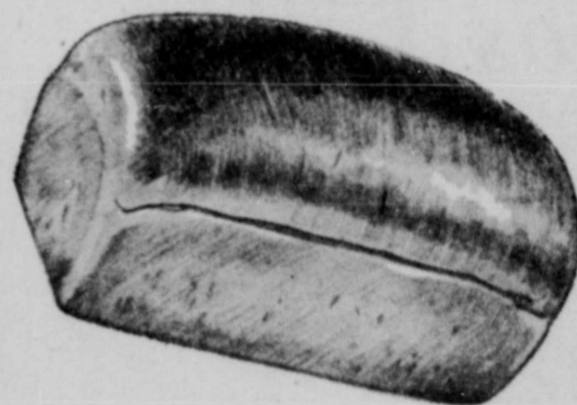

AS THE SPECIAL session congress proceeds, there are indications that nearly all recommendations of the President's message, except stand-by authorizations for rationing and controls on basic commodities, enacted.

These include new consumer control on about the same before expiration of control member 1; tighter control credit through the Federal board; more control of exchanges through fixing of and a new limit on date changes on cotton, grains and commodities, also the authority publish names and dealings raising traders.

The investigating committee were surprised to note the number of farmers gambling in grain short on the board trade, also at the name "housewives" whose names believed used as "cover-up" the real gamblers.

Rent control likely will continue in some form, also rationing controls and export will be extended for a year February 29, when present expire.

ALTHOUGH WE ARE scarce materials such as chrome, platinum and other commodities from Russia which essential to industry and national defense, there is a growing sentiment in congress to force elimination of trade with Russia. Diplomatically the state department is opposed to this move would be construed as unfriendly act and Russia have some basis for its "warbling" propaganda.

Christmas Decoration Ideas Related For Coming Yule Season

Following original ideas in making Christmas decorations adds to the holiday fun, and variations are unlimited, according to Miss Martye Poindexter, head of the department of applied arts at Texas Technological College.

Seed pods dye beautifully with common vegetable dyes, she said, and may be used in connection with ribbons or tinsel and Christmas balls for interesting displays. Cotton stalks with bolls may be arranged attractively by using molding clay for the base for the stems. The cotton burs may be dyed for unique decorations if the cotton is previously removed.

For white Christmas effects, Miss Poindexter suggests that green boughs be moistened and shaken in a paper sack to which flour has been added, or the boughs may be moistened and sprinkled with soap flakes.

Another unusual snow effect may be obtained by dipping boughs in heavy soap suds, allowing the bubbles to burst as they dry. This technique is rather complicated and requires some

experimentation for good results, the professor stated.

Robert Lee Writes Parents During Cruise in Pacific

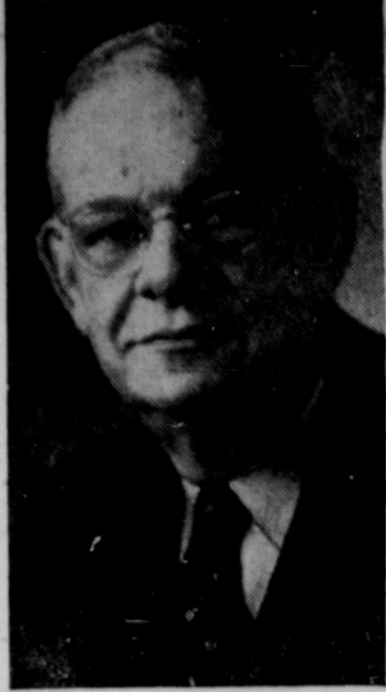

Editor's Note: The following is an excerpt from a letter written by Robert M. Lee, SK 3, to his parents, Mr. and Mrs. Ernest Lee of Memphis. Robert, who is stationed aboard the U. S. S. Estes, is on a cruise in the Pacific. He left Tsingtao November 8 and was scheduled to dock at Hong Kong, Singapore, and Manila, arriving back at Tsingtao on December 10:

November 23, 1947.
Dearest Mom and Dad:
I am sorry that I haven't written more often, but we can't mail the letters until we get to Manila. We could have mailed some in Hong Kong, but I just went liberty happy and didn't have time to do a thing except go on liberty. I didn't go much the last time we were there, but I went all five days this time. I had the best time I have had in a long time. This Singapore isn't what we all expected. There isn't much to do over here, except three or four big hotels and cocktail lounges. They are really high-class places, just like in the movies and books.

We went to one last night, and spent about nine dollars, eating and drinking these big high class drinks. They sure do make you feel important in those places.

Stands Watches
I have been standing watches up in the radar center. It sure is a lot of fun, and very educational. I can do a lot of it now, and it is awful interesting. If the navy wasn't so short on storekeepers, I might have a chance to change my rate, but I could never do it now. I asked about it, and the executive officer said that it would be impossible. I stand a four hour watch, and am off for twelve hours. It is all right, except that I have to get up at 3:30 every other morning.

We will cross the equator the 25th and have the crossing initiation the 26th. In a way I dread that initiation, cause we won't be able to sit down for a while. The only thing that makes it easier, is the fact that there are about 300 other guys going through it with me. Oh well, it can't last but one day, and I can take it that long. A lot of it will be fun. One of the things will be, sitting in a chair above a big tank of oil and water, and the chair tilts over to the back, and you go falling in backwards, crawl out and slide down a long slide with a bunch of fire hose turned on you. Announce Change Of Rules For Veteran's Medical Treatment

The Veterans Administration has announced that prima facie evidence will not be accepted as sufficient proof for veterans to establish service-connection for medical and dental treatment after December 31, 1947.

On this date, veterans will have had a full year after the President announced the end of hostilities in which to secure treatment on the presumption of service-

connection, based on prima facie evidence.

VA takes the position that this should have been ample time for emergency or clearly defined service-connected cases to have received treatment.

The discontinuance of determination on prima facie evidence in no way denies veterans any rights they are granted by law, nor does it limit services given those whose conditions are rated as service-connected.

Applications for treatment received on or before December 31 or after that date with a Decem-

ber 31 postmark, will be determined on prima facie evidence. After December 31, applications will have to be formally adjudicated under the regulations before treatment other than emergency can be given.

This ruling in no way affects the year's presumption of service-connection to which all veterans are entitled after discharge.

C. A. Williams was in Fort Worth the first of the week to attend the funeral service of an aunt, Mrs. Josie Smith. Mrs. Smith died Sunday morning and was buried Monday afternoon.
