SEVEN CENTS NUMBER 1

FIRE NOT ENOUGH—A \$7,000 fire couldn't squelch the ambition of the members of the Simmons-Noel American Legion Post to have an outstanding meeting place. Their new building, gutted by flames in December, has now been redecorated and is considered one of the finest in this section of the state.

Street Marker Project Receives New Emphasis

Clifford Farmer, manager of the Chamber of Commerce, has announced that rapid progress is being made on the street marker project which has been under discussion by Memphis civic organizations for the past month. Zone captains to carry on the project have been named by Roy Coleman, chairman of the Chamber of Commerce Civic Affairs committee. They are: O. R. "Doc" Saye, southwest city zone; Tomie Potts, northwest city zone; Clyde Milam, east city zone; Bill Kinslow, north city zone. Coleman said that these zone captains would contact all householders in their respective zones who have not volunteered their checks to this project. It is estimated that it will cost around \$2,500.00 for the street markers and for a complete system of house numbers for the city. This cost, divided among the householders here, averages about \$2.50 each. Farmer said about \$250 dollars had been received for the project already. He said the civic clubs and Civic Affairs committee (Continued On Page 8)

OUTSTANDING 4-H CLUB MEMBERS ARE GUESTS OF LIONS WEDNESDAY

Outstanding 4-H Club members from Hall County were guests of the Memphis Lions Club Wednesday for the presentation of the annual 4-H Club Achievement awards. 32 4-H'ers were Achievement winners this year although a few were not present for Wednesday's meeting. County Agent W. B. Hooser presented the awards. He praised the winners for their remarkable 4-H Club work and thanked the various civic organizations and citizens for their interest in promoting these young farmers' activities. Credits Parents "The parents of these 4-H Club members should especially be complimented," Hooser said. "Without their whole-hearted support and interest these outstanding records might never have been accomplished." Two of the 4-H members were selected for individual awards by local citizens. Elmont Branigan presented John Luther Byars a gold pocket watch in recognition of outstanding achievements. Bruce Gibson was awarded a pen and pencil set by Mr. and Mrs. Robert Spicer for his 4-H work. Tomie Potts was guest at the meeting and was introduced by Spicer and praised for his contributions to the success of the 4-H Club. Potts recently donated a new pick-up truck to the organization. Following the presentation of awards, Lion President O. R. "Doc" Saye congratulated County (Continued On Page 8)

Wreck Takes Life Of Colorado Man Sunday Morning

A head-on collision of two automobiles 8.3 miles southeast of here on Highway 287 took the life of one man and hospitalized three others early Sunday morning. The wreck occurred at approximately 3 p. m. Killed was Joe Watkins, 24, of Springfield, Colorado. He died in a local hospital Sunday afternoon following the wreck. His injuries included a fractured left leg, fractured skull and facial lacerations. The two Memphis colored men who were victims of the wreck had been treated for injuries. John Robinson was the more seriously injured of the two. He was carried to the Veterans Hospital in Amarillo Sunday where he underwent treatment for a fractured left leg and severe facial lacerations. Robinson's condition was described as serious. The other Memphis man, Jack Scott, was hospitalized here for facial lacerations and shock. Watkins and Gold were en route to Frederick, Okla., where Gold is operating a number of combines in the wheat harvest. Highway Patrolmen N. D. Callaway said Watkins' car, a late model Fraiser, struck Robinson's automobile head-on. The four victims were brought to a Memphis hospital for treatment in a Murphy-Spicer ambulance. Robinson's car, a 1934 Ford, was stalled on the highway at the time of the accident, according to Patrolman Callaway. At the (Continued On Page 8)

HEAVY RAINS HINDER HARVEST; STORAGE PLAN BEING OFFERED

Combines stood idle in Hall County wheat fields today as two days of rainfall delayed cutting of the ripe grain. Heavy rains Tuesday and Wednesday brought harvesting, scheduled to hit full swing this week, to a standstill and offered a threat to the very existence of the crop in some sections of the county. Ft. Worth and Denver Railroad Agent John McMicken said today that 13 carloads of wheat have been shipped from this point to date. These cars averaged 100,000 pounds of wheat each. Many times that number were scheduled to have been shipped from here by this time. Perhaps offering more of a threat to the wheat farmers than the weather has been the threat of lowering market prices of the grain. Prices have fallen as much as 50 cents per bushel below the price support in recent days. Program Approved The three-point program announced this week by Secretary of Agriculture Brannan is designed to help the grain farmers meet their critical storage problem and qualify for government loans. ACA Secretary Lynn McKown said Thursday morning that his office had received no official confirmation on the new program but that it definitely is in effect. (Continued On Page 8)

Clean-Up Drive On

Mrs. H. B. Estes, president of the Women's Federated Clubs, today called on every Memphis citizen to renew their efforts and interest in the clean-up campaign during the final four days of the drive. The City Federation of Women's Clubs are sponsoring the drive in an effort to build up Memphis' reputation as a clean city. "The drive has been met with a great deal of enthusiasm on the part of the citizens," Mrs. Estes said. "We hope everyone will work even harder during these last days to really make the drive a success."

It was pointed out that city trucks are now available to haul away trash and will be on call all day tomorrow. If it is convenient to do so, small amounts of trash should be burned in home-incinerators.

Mayor C. C. Hodges stated that drive should gain extra incentive due to the recent infantile paralysis epidemic in the state. He pointed out that cleanliness was one of the most important checks against the dreaded polio germs. Mrs. Estes asked that residents of each block combine their efforts to clean-up and beautify the various vacant lots in Memphis. The campaign will end Monday and it is hoped that results will earn Memphis a high reputation for being a clean and beautiful city.

CLAUDE'S COMMENTS

By J. C. W. AMARILLO —Monday-Special- Have just had the pleasure of seeing and talking with the famous "Johnny" of Phillip Morris cigarettes. He is a fine gentleman and impresses one with his sincerity and high-mindedness. Johnny and a district representative of Phillip Morris, who frequently makes Memphis, are on the same floor of the Herring. Hearing that I was her on crutches, Johnny came in to visit us and presented me a pack of Phillip Morris cigarettes. Wife snapped our pictures as we were doing the amenities. This is clean up week at home, and I hope our folks will all take it seriously. Should polio strike and take some young life in Memphis, let's have our conscience clear by doing our part toward (Continued On Page 8)

Last Rites Held For J. N. Hoover At Newlin Monday

Funeral services for John N. Hoover, 81, were held at 3 p. m. Monday at the Newlin Baptist church. Hoover died at his home in Newlin Sunday. Services were conducted by Rev. W. S. Crawford. Pallbearers were grandsons Wilbur Murphy, Curtice Godfrey, Junior Godfrey, Harvey Jarrell, Ralph Lockhart and Dean Hoover. Granddaughters assisted with the flowers. Burial was in the Fairview cemetery. Service were directed by the Murphy-Spicer Funeral Home. Hoover was born December 3, 1868, in Upshur County. He married Miss Mary Lou Roan December 23, 1888, at Commerce. The family moved to Hall County in the fall of 1920. Hoover was a member of the Newlin Baptist Church. He is survived by his wife and four daughters, Mrs. E. W. Godfrey, Mrs. Felix Jarrell, Mrs. Barney Lockhart and Mrs. W. W. Dunn, all of Memphis. Also surviving are eight sons, Fred Hoover, Cleburne, Edgar Hoover, Commerce, Floyd Hoover, Point, Frank Hoover, Oakland, Calif., John T. Hoover, Sunray, Jim Hoover, Canadian, Brode Hoover, Memphis, and O. B. Hoover, Newlin. Other survivors include four sisters, Mrs. Ada Johnson, Mrs. Lucy Carr, Mrs. Alie Johnson, all of Sulphur Springs, and Mrs. Maude Dunn of San Diego, California. Forty-one grandchildren and 28 great grandchildren also survive. Three children preceded him in death.

Christian Church Bible School To End Sunday Night

The Vacation Bible School of the First Christian Church will have a closing program on Sunday evening at 8:00 o'clock at the church, Rev. Bedford Smith, pastor, announced this week. In making the announcement, Rev. Smith stated that Sunday has been designated as Children's Day and both the Sunday morning and evening services will feature programs in which the youth of the church will be interested. At the 10:50 morning worship hour, Rev. Smith will preach on "Jonah, Foreign Missionary" and (Continued On Page 8)

Farmers Face Big Storage Problem

Due to exceptionally good crops and relatively low prices at the present time, much of the grain produced this year will go into storage, Extension Service and ACA officials predicted this week. It is believed that a number of producers will want to store store grain directly on their farms and obtain government loans thereon. Working under this assumption, County Agent W. B. Hooser and ACA Administrative Officer Glyn McKown have compiled a number of facts concerning grain storage facilities which they believe will be of interest to farmers of this area. To ———— for government loans, they pointed out, it is required that grain be stored or placed in bins or granaries where it will not be subject to damage from moisture, insects, rodents or other sources. It is desirable that permanent granaries be separate from livestock or hay buildings to reduce fire hazards and make rat-proof ———— easier. Moisture Content Important Hooser and McKown stated that high moisture content alone is responsible for half the losses encountered in the storing of grain. They said that grain should not be stored in a tight bin if the moisture content exceeds 13 percent. Small ventilating doors may be used in the granaries to somewhat reduce the moisture content. These ventilating doors are also desirable as they can be closed when fumigation is being carried on. Slight excess moisture content of grain may also be reduced by running the grain through a fan mill or moving the grain by shovel or portable elevators. A real effort should be made to make any new granary or remodeled old building rat-proof. Hooser and McKown pointed out that the additional cost is not great and is a real saving where the grain remains in storage for a considerable period of time. Piers or footings 18 inches high with ends of joists exposed to the light will eliminate much danger from rats. In new storages, strips of hardware cloth or sheet metal, installed between floor joists and flooring, over the stringers or piers, will render the storage rat-proof from a structural standpoint. Control of Insects The storage should be constructed so that it may be made air-tight for fumigation purposes. Felts and building papers may be used for this purpose. It is known that most of the species of insects that infest granaries in storage have a low reproduction rate in very dry grain but can produce rapidly when there is more than 12 percent moisture. Bins used for storing grain should be thoroughly cleaned of grain and dust to reduce reinfestation before storing the new crop. Sprays are useful in eliminating infestations in cracks and pockets of the bins. A five percent solution of DDT, thoroughly applied to the flooring and walls will do an excellent job in controlling the stored grain pests, it was stated. Small quantities of old grain from the previous season should be fumigated, fed out or otherwise disposed of before harvest. The sides and floors of the bins and cribs should be made as nearly air-tight and rat-proof as possible. The sides should be at least (Continued On Page 8)

RODEO OFFICIALS OPTIMISTIC OVER THE FUTURE OF ANNUAL EVENT HERE

With final totals in on their first sponsored rodeo, officials of the Hall County Rodeo association are enthusiastic over the future of the event here. "Results of this show indicate that the people of this area want a first-class rodeo each year and we are going to strive to give it to them," Homer Tucker, secretary of the association said today. Tucker released an itemized account of the income and expenses of the association's first rodeo today. It covered in brief: donations from businessmen and individuals—\$2,460; concessions commission—\$150; gate receipts—\$2,748.01. Total income—\$5,358.01. Expenses totaled \$4,260.68, leaving the association with a profit of \$1,097.33. Included in these expenses was \$299.37 paid to the Memphis school district as rent for using Cyclone Stadium for the rodeo. The rodeo drew a near-packed stadium of fans on Thursday's (Continued On Page 8)

County Board To Consolidate Five School Districts

Five Hall County school districts must be consolidated within 30 days under the new Gilmer-Aiken bill, according to Miss Mary Foreman, county superintendent. Miss Foreman said the districts affected are: Gammage, Indian Creek, Salisbury, Friendship and Weatherly. She stated the County Board of Trustees will meet in her office Saturday morning at 10 o'clock to discuss plans for carrying out this consolidation. This action is made necessary under Article VIII of the new bill, Miss Foreman said. It calls for the consolidation of all dormant school districts within the county. (Continued On Page 8)

Council to Enforce Building Ordinance

Memphis City Council today night to enforce an ordinance governing construction of buildings in this city. The ordinance regulates the issuance of permits. It also sets forth regulations governing the question. Another petition was presented by citizens living west of 16th street. They requested the council to let the ditch remain on that street and continue to use it for drainage of rainfall. Mayor Hodges appointed a committee composed of Floyd Liner and J. J. Bice to investigate the matter and report to the next meeting of the council. Department Heads Wendell Harrison was elected mayo pro tem for the new term. D. L. C. Kinard was re-elected city secretary and J. O. Fitzjarrald was re-elected city attorney at the meeting. Mayor Hodges named the following men to head the various departments of the city: Police, Clyde Milam; Cemetery, Horace Tarver; Streets and Garbage, Floyd Liner; Library Park and Building, J. J. Bice; Disposal Plant, J. J. Bice; Water, Durwood Howell; City Hall and Fire Department, H. J. Howell; Air Port, Wendell Harrison; Lights, Sidewalks and Tax Matters, Frank Monsingo; Sewer Lines, L. G. Carlos; City Park, C. C. Hodges and H. J. Howell. Council also voted to pay

Price-Courter Wedding Is Solemnized In Estelline Methodist Church Sunday

Miss Jean Price, daughter of Mr. and Mrs. L. H. Price of Estelline, became the bride of Mr. Clay N. Courter, son of Mr. and Mrs. G. R. Courter of Enid, Oklahoma in an impressive ceremony solemnized Sunday afternoon at 4:00 o'clock in the First Methodist Church at Estelline. Reverend Clark Johnson performed the double ring ceremony.

The church was decorated with floor baskets of white gladiolus and palms with candelabra on either side of the altar. Before the ceremony, Mrs. C. L. Sloan, Jr., pianist, played "O Promise Me," and "I Love Thee." She accompanied Mrs. Clyde C. Wilkerson who sang "I Love You Truly" and "Because." The traditional wedding march and recessional were used.

Mrs. Durward Moorhead of Levelland, attended her sister as matron of honor. Her apple green taffeta dress was made with fitted bodice and full skirt over hoops. She carried a fan covered with yellow roses and carnations. Her hat was of Colonial style to match her dress. The bridesmaids, Mrs. Henry Moran of Levelland and Mrs. Winfred F. House, sister of the bride, wore identical dresses in orchid and carried fans covered with pink and white carnations.

W. H. Martin of Brownfield served as best man and ushers were Durward Moorhead, Jack Hall, Henry Moran and Winfred House. Candles were lighted by Durward Moorhead and Winfred House.

Mrs. Price, mother of the bride, wore a navy crepe dress with matching accessories. Her corsage was a white orchid.

The bride, given in marriage by her father, was crowned in white marquisette, off the shoulder with a fitted bodice. Her full length train was ruffled from the bodice. Her illusion veil fell from a heart-

shaped halo trimmed in orange blossoms. She carried a bouquet of white gladiolus surrounded with feathered carnations and stephanotis. Her only jewelry was a single strand of pearls, a gift of the groom.

The flower girls, Linda Young and Donna Sue Eddins, wore dresses identical to that of the bride with ruffled colonial bonnets. Skipper Wilkerson was ring bearer.

Reception

A reception was held immediately following the ceremony in the church parlor. A white and green theme was used in decorating the table. It was centered with gladiolus with candelabra on either side. Shamrock punch was served with the three tiered wedding cake to about 150 guests.

The couple left immediately after the ceremony for Trout Dale in the Pines in Colorado. For her going away ensemble, the bride chose a navy faille suit with matching accessories. Her corsage was of white gladiolus.

After June 13th, the couple will be at home in Levelland where Mr. Courter is employed as an engineer for Dowell Incorporated. He received his B. S. Degree from the University of Oklahoma where he was a member of the Alpha Tau Omega Fraternity. He served three years as Lieutenant in the Army Air Corps. Mrs. Courter graduated from Texas Technological College in Lubbock where she was a member of the La Virachas social club. For the past several months she has been a teacher in the Levelland schools.

Out of town guests included Mr. and Mrs. J. N. Courter, Mr. G. R. Courter, Mr. and Mrs. Bob Harper, all of Enid, and Mr. and Mrs. Vernon Courter of Texhoma, Oklahoma, Lee Courter, Oklahoma City, Mrs. Henry Yohanan, Denver, Colorado, Mr. and Mrs. Tom

Locals and Personals

Mr. and Mrs. Bennie Dennis, Mrs. Edd McCreary and son Charles visited with Mrs. McCreary's relatives in Decatur Sunday. The occasion was a reunion of Mrs. McCreary's relatives.

Raymond Cullin is home from Wayland College to spend the summer with his parents, Mr. and Mrs. George R. Cullin.

Mr. and Mrs. R. B. McMurry left for Dallas Wednesday night where Mr. McMurry will be a patient in the Baylor Hospital for the next few weeks.

Robert Clark returned home last week to spend the summer with his parents, Dr. and Mrs. R. E. Clark. He is attending school at Baylor University. He was accompanied home by one of his college friends, Gwyn Hopkins, of Vaco who will spend two weeks visiting in the Clark home.

Dr. and Mrs. James Baldwin and family, of Quanah, visited Sunday with his parents Mr. and Mrs. Byron Baldwin.

Mr. and Mrs. S. H. Johnson and son of Fort Worth visited Sunday evening with Mr. and Mrs. B. D. Frisbie and family.

Mr. and Mrs. H. C. Hull of Stanford visited from Wednesday till Friday of last week with their son, Billy J. Hull.

Mrs. C. C. Vandeventer and Mrs. Lloyd Vandeventer visited in Amarillo Friday with Mr. and Mrs. J. G. Stevenson. The Stevensons returned with them to Memphis and spent the weekend visiting the Vandeventers.

Mr. and Mrs. C. E. Tension, of Wichita Falls, visited here over the weekend with her parents, Mr. and Mrs. Henry Scott.

Mrs. Della Keathley, of Corsicana, is visiting with her sisters, Mrs. C. W. McCool and Mrs. Dick Watson.

Mr. and Mrs. Herman Vallance and daughter left Memphis Tuesday for Eagle Nest, N. M., on a vacation trip.

Mr. and Mrs. J. E. Roper left Sunday for Satillo, Miss., where they will spend the next two weeks visiting with his relatives.

Margure Simone of Ironton, Ind., and Janita Jones, of Duncan, Okla., were guests in the home of Dr. and Mrs. R. E. Clark this week.

Miss Ila Sue Davis, who visited here the past week with her parents, Mr. and Mrs. L. J. Davis, returned to Fort Worth Sunday where she will attend the summer session at Texas Christian University.

Darrell Carter is home to spend the summer with his parents Mr. and Mrs. Gray Carter. He has been attending Abilene Christian College.

Mr. and Mrs. R. C. Cummings were Amarillo visitors Tuesday.

Berry, Wellington, Mr. and Mrs. Jack Hill, Mr. and Mrs. Henry Moran, Levelland, Miss Johnnie Johnson, Clarendon, Miss Beth Mason, Memphis, Miss Marjorie Morehead, Brownfield, Mrs. Allan Grundy, Memphis, Mrs. George Greenhaw, Memphis, Mr. and Mrs. Jack Hughes and Beverly, Amarillo, Mrs. Minnie Mabery, Amarillo.

Lovely Miscellaneous Bridal Shower Is Compliment To Sue Lynn Guthrie

Highlighting the social life of early summer was a beautiful miscellaneous bridal shower given in honor of Miss Sue Lynn Guthrie at the American Legion Home on Friday evening, June 3, at seven o'clock. The spacious hall was artistic with a galaxy of summer flowers.

Mrs. R. C. Lemons greeted the guests and directed them to the receiving line which was headed by Mrs. Walter Hightower. Next to Mrs. Hightower were Mrs. Roy L. Guthrie, Miss Sue Lynn Guthrie, Mrs. Charles A. Hulse, mother of the groom-elect; and Mrs. George Bass, grandmother of the bride-elect.

From the receiving line, guests went to the register table where Mrs. Henry Lee Solomon was graciously presiding. Mrs. Anna Dickson was nearby to pin upon them favors which were miniature brides, dressed in silk net and portrayed actual pictures of the bride-elect for their heads.

Other hostesses who assisted with the occasion were Mesdames J. R. Mitchell, W. C. Dickey, Charles A. Williams, Sr., C. R. Webster, Clinton Srygley, E. W. Solomon, W. H. Monzingo, and L. G. DeBerry.

Members of the house party included Mrs. H. B. Bennett, Memphis, aunt of the bride-elect; Mrs. Henry Ellis, Pampa, aunt; Miss Eleanor Lynn More, cousin; Miss

Eulaine Ellis, Pampa, cousin; Misses Myrtle Gibson and Laura Mal Hightower; Mesdames J. W. Stephens, Hubert Taylor, and Leslie Gordon, Amarillo, sisters of the groom-elect; and Mrs. Fred Gordon, Olton, sister.

Hostesses served as ushers by the lovely display of wrapped packages which were arranged upon card tables about the room. Mrs. Wyley Whitley welcomed the guests at the refreshment table and Mrs. Gene Chamberlain and Mrs. William Moss served. The tea table was centered by a great bowl of peonies, gypsophila, and majestic daisies, the chosen flowers of the bride-elect. It was covered with a gorgeous Irish handmade lace cloth presented to Sue Lynn by her grandmother and grandaunt Mrs. Miss Betty Jean Solomon. Appropriate piano music throughout the party.

The friends were seated before the roomy stage, which had been made lovely with a homely arrangement of lamps, tables, and chairs. To the muted strains of appropriate piano selections played by Miss Hightower, Mrs. Earl Hill extended a glad salutation and then recalled many fond reminiscences of Sue Lynn's life gleaned from her store of memories. After a sweet toast to the bride, she presented Sue Lynn, who, accompanied by Mrs. Guthrie

and Mrs. Hulse, entered the stage, unwrapped and exhibited a most complete and bountiful array of gifts.

In her thanks, Sue Lynn paid tribute to the members of the American Legion Post who had voted to contribute the use of the hall for the party. She mentioned the love she had for the men and the gratitude she held for the post and its auxiliary; she stated that she has been a member of the latter organization since she was twelve days old. She accepted the gifts with an expression of deep, abiding love which has grown with her during her twenty-one years of life in Memphis. She closed her remarks in a soft, low "I love Memphis and every one in it, and I shall continue in that love for all the days of my life."

Approximately one hundred guests remained for an informal hour of visiting and closer cognizance of the gifts.

Out-of-town guests included: Mrs. John Bass, Amarillo, aunt of

the bride-elect; Mrs. Salisbury, aunt; Mrs. Clarendon, great-aunt; Mrs. Jack Leath, Houston; Mrs. Reva Ann Leath, Houston; Miss Shirley, Houston; Roy Bartlett, Clarendon.

Mr. and Mrs. L. A. daughter Gayle visited over the week end. Mr. and Mrs. Robby and family, Robby and well, who had visited past week with the bride, the Stilwells and Mrs. H. H. Lindsey, of them home.

Kay Pat Carnell, of lo, is visiting in the home this week.

Mrs. C. R. Sargent, week visiting with Mrs. Steven A. Barnston.

Buildings Soon

Mr. and Mrs. L. A. Lighter Gayle visited the week end with their family. Robby, 1, who had visited last week with the Stulwicks, and H. H. Lindsay, 1, home.

Mr. and Mrs. C. R. Sargent visited with Steven A. Bartlett, Clara...

contract with Wyatt C. Hedrick, Fort Worth, be drawn for the plans.

Tech officials hope to erect with the funds two wings to the Engineering building and additional space for the Home Economics division. It also is hoped that funds will extend far enough to secure a new science building.

Texas Tech during the past two years has erected four new dormitories on the campus to double capacity for student housing. The buildings cost about \$4,000,000. The new Jones Stadium, with permanent seating capacity of 16,800, was dedicated in the fall of 1947. The structure cost about \$425,000.

Tech directors are working on plans for \$4,000,000 in buildings.

Farm And Ranch Property Shows Some Price Drop

Farm and ranch land prices have dropped six percent since last year. But that's only a drop in the bucket when you compare it with land prices during the period between 1935-39.

C. H. Bates, extension farm management specialist of Texas A. & M. College, says that today's land prices in Texas are still 96 percent above those of 10 to 14 years ago. After ten years of steady climbing, farm and ranch land prices in the entire nation appear to have passed a postwar peak.

Declines in prices of farm products in recent months was probably the major factor affecting the level of land prices. This downward drift began little less than a year ago in August, and has had quite an influence on prospective land buyers.

Since the land values have risen slower than the net farm income since 1940, there's a good chance that land price declines will lag

behind commodity price drops. If farm costs remain extremely high and limits the net return to operators, the land value drop may increase in rate, Bates says.

Even though government price supports are active on many farm products and livestock, the net farm income is expected to continue downward. High fixed costs become more of a burden as the net profits are trimmed.

Therefore, buyers should attempt to keep land payments down to a manageable size to prevent hardship of possible loss of equity in lands recently acquired, Bates concludes.

• Talk to your neighbors instead of about them. It improves the community spirit.

Rheumatic Fever Is Leading Killer

The disabling and often fatal disease of children, rheumatic heart disease, is one of the leading causes of death among children and young adults in the age group 10 to 25 years.

Unfortunately, there has been developed for this disease no vaccine such as we have for smallpox, diphtheria and whooping cough, but by recognizing the early symptoms and obtaining a competent physician's diagnosis and treatment, some of the damaging results of rheumatic heart disease can be prevented or moderated.

The State Health Officer, Dr. Geo. W. Cox, says that "in general the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain is felt usually in one of these joints, and spreads frequently to the others. Often a doctor's examination of a child who becomes irritable and cross without apparent cause, cries easily, and develops nervous habits, will disclose the presence of rheumatic heart disease."

Predisposing causes to this serious illness include frequent chilling, living in damp, steamy quarters, poor diet, frequent colds, and sometimes scarlet fever or other infections caused by certain streptococcus germs. All such conditions should be avoided if at all possible.

Protection for children against rheumatic heart disease, should include a thorough physical examination by a physician at least once a year; a well balanced and nourishing diet; sufficient rest and sleep, and dressing at all times in accordance with the temperature of the room or playground. Consult a physician at once if any symptom suggests that this disease may be present or in the process of developing.

Cite Dangers Of Undulant Fever

Undulant fever, or brucellosis as it is known to doctors, is increasing in some areas, the Chamber of Commerce Health Committee warned in a health bulletin issued this week.

Undulant fever is caused by a germ which infects both humans and animals such as cattle, hogs, sheep and goats, the Health Committee said.

The disease is transmitted to man by milk infected cows or goats and by handling infected animals or infected animal carcasses.

Among farmers, slaughterhouse employees and veterinarians the disease is an occupational one and cannot always be avoided easily. But among people who do not handle animals or carcasses, it can be prevented through the use of properly processed milk and milk products.

Persons who live in areas where such milk is not available can protect themselves by heating their milk until it just begins to boil and then quickly cooling it to 50 degrees in cold water or ice.

Persons working in slaughterhouses should protect their hands. Cattle can be immunized and for this reason vaccination of calves is widely used to assist in the control of undulant fever. Animals other than cattle are not protected by vaccination. Infected animals should be eliminated from herds by segregation or slaughter.

Fever that comes and goes, and aching back and joints are among the symptoms of undulant fever. The disease is sometimes but not often fatal. It may last a lifetime if not discovered and treated. Undulant fever is regarded as a possible cause of some cases of arthritis.

BACON DOES IT

Home economics suggest that lunchtime salad bowls can be made extra tempting by adding bits of crisp bacon. It's exceptionally good when mixed with a celery, apple, walnut and mayonnaise combination.

NEW SANDWICH IDEA

Here's a new sandwich filling: Crate a raw carrot and add it to chopped spicy luncheon meat that's moistened with mayonnaise.

HYGIENE IN GARDEN

Hygiene in the garden is as important to vegetables as cleanliness is in the home. Many diseases of vegetables are carried over on the stems, roots or leaves of the plants which have spent their selves in spring production. Such plants should be dug up, and not cut off at ground level.

"How come you never take me surprise anymore?"

When we tackle a repair job, you know it's done right!

Can Black-Draught Help That Dull, Dopey Feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental hardness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.

Eastern Star Officials Are Installed In Impressive Candlelight Ceremony

In a lovely candlelight ceremony Friday evening, June 3, at the Masonic Hall, Anna May Foster and Irvin S. Johnsey were installed as worthy matron and worthy patron, respectively, of Memphis Chapter, Number 351, Order of the Eastern Star.

Margaret Phillips and Lloyd Phillips presided at the register. Hattie Dem Thompson and Betty

Franks received the guests. Anna May Foster greeted the installing Grand officers and presented each with a lovely white gladioli corsage.

The chapter room was the scene of quiet beauty, achieved by the impressive simplicity of the decorations of fresh white and red flowers, white and red candles, and fern. Soft lights illuminated

Phillips Host To Relatives Sunday

Mr. and Mrs. O. B. Phillips entertained a group of relatives Sunday with a barbecued chicken dinner.

Those present were Mrs. Grubbs of Tulia, Mr. and Mrs. Harold Hester and children Betty and Billy Harold, of Beeville, Mrs. Connie Petty, of Dallas, Mrs. Nora Long, of Shamrock, Mr. and Mrs. Marshall Lang and Hugh Wayne, of Estelline, Mr. and Mrs. Albert Oldham, of Samnorwood, Mr. and Mrs. David Brown, of Amarillo, Mr. and Mrs. W. T. Phillips and daughter Carmen, and Mr. and Mrs. O. B. Phillips.

Tyrell's Honored At Sunday Dinner

Mr. and Mrs. Nick Tyrell of Houston were named honorees at a dinner given Sunday in the home of Mr. and Mrs. Marshall Lang of Estelline.

Those present were Mrs. Nora Lang, Shamrock, Mr. and Mrs. Davis Brown, of Amarillo, Mr. and Mrs. Albert Oldham, of Samnorwood, Mr. and Mrs. O. B. Phillips, Mr. and Mrs. W. T. Phillips and daughter Carmen, Mr. and Mrs. Nick Tyrell and daughter Betty Ruth, of Houston, and Mr. and Mrs. Lang and son Hugh Wayne.

The white satin draped altar flanked on each side with candelabra of white tapers. At each officer's station was a red candle, color of Electra's station, which was lighted by the installing Grand Assisting Marshall, as each officer assumed his station.

The meeting was called to order by Mrs. Hattie Dem Thompson, the retiring worthy matron, who also gave the welcome address. She gave a farewell address to her officers, presented each with a gift, and asked them to retire.

As the lights were lowered, the Bible was presented in a most impressive manner. Maude Gay, installing grand assisting marshall, entered and lighted the fourteen white candles on either side of the altar. Mary Joe Craig entered with the open Bible, placed it on the altar, and quoted the 13th Chapter of First Corinthians. Mrs. Thompson then introduced the following installing officers: Grand officer, Bonnie Lee Davis; grand chaplain, Mary Joe Craig; grand secretary, Anna Dickson; grand marshal, Bonnie Lee Curry; grand assisting marshall, Maude Gay; grand organist, Cordelia Smallwood.

The following officers-elect, dressed in lovely white evening gowns and wearing red corsages, were installed: Anna May Foster, worthy matron; Irvin Johnsey, worthy patron; Bonnie McMillan, associate matron; Hattie Dem Thompson, secretary; Gladys Johnson, treasurer; Vay Hammond, conductress; Elsie Gidden, associate conductress; Margaret Phillips, chaplain; Ruth Fowler, Marshall; Elsie Smith, organist; Vera Gunstream, Adah; Florine Davie, Ruth; Winnie Johnson, Esther; Katie Rosey, Electra and May Lou Erwin, Warden.

All lights were then turned out and the Emblematic Star of the East was lighted as Sister Cordelia Smallwood sang "Star of the East." After receiving the gavel, following the installation, Mrs. Anna May Foster gave an inspiring address based on "Friendship, Love, Service" her chosen theme for the year. Irvin Johnsey addressed the members and pledged to do all within his power to promote the welfare of Memphis Chapter.

Mrs. Hattie Dem Thompson was escorted to the East and presented the past matrons jewel by Mrs. Foster. Gifts from the retiring officers were presented to Mrs. Thompson and Mr. Johnsey by Margaret Phillips. Bonnie McMillan presented the new worthy matron with a Worthy Matron's Year book from her officers and Mrs. Thompson presented the new worthy matron a beautiful bouquet of red roses, a personal gift from her family. Henry S. Foster and children, Mrs. Foster thanked the installing officers and, assisted by the Marshall, Ruth Fowler, presented each with a gift. Several guests from other chapters were introduced. Margaret Phillips pronounced the benediction.

Guests and members were invited into the west room where punch and cookies were served during the social hour. The refreshment table was laid with a lovely lace cloth. It was centered with an emblematic star. Tall candles the color of each star point were at the points of the star. Small red rose buds centered the star, which was circled by green lace fern interspersed with red rose buds. Red rose buds floated on top of the punch. Mrs. Della Palmeyer presided at the punch bowl and was assisted by Ruth Fowler, Florine Davis, Margaret Phillips and Katie Posey.

Preceding the installation, a covered dish dinner was served in the dining room honoring the installing officers. Mrs. Bonnie McMillan was mistress of ceremonies. Mrs. Isabell Cyfert gave the invocation and Mrs. Gladys Johnson welcomed the guest. The tables were beautifully decorated carrying out the color, emblem, and flower of Electra's station.

OES Meets In Regular Session Tuesday Evening

Memphis Chapter, Number 351, Order of the Eastern Star of Texas, met Tuesday evening, June 7, in the Masonic Hall with the Worthy Matron, Mrs. Anna May Foster, presiding.

The hall was attractively decorated with United States flags. A crystal basket of red, white, and blue flowers graced the East.

The officers performed the beautiful opening march. The chapter was opened in regular form after which Mrs. Ida Anisman, installing officer, in her charming and impressive manner, assisted by Mrs. Ruth Fowler as installing marshall, installed the following officers: Edwin A. Smith Jr., associate patron; Ruth Smith, Martha; and Fern Durham, sentinal.

Mrs. Elsie Smith was welcomed as a new member. Mrs. Sarah Gilliam, member of the Turkey chapter, was welcomed as a visitor.

Girls Forget Fears, Thanks To 2-Way Help

What to do for woman's oldest problem, functional monthly pain? Many a girl and woman has found the answer in Casert's 2-way help. You see, Casert may make things lots easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional periodic pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. Casert is scientifically prepared and scientifically tested. If you suffer "at those certain times", get Casert today.

Strother Will Present Voice Recital Sunday

J. O. Strother, educational and music director of the First Baptist Church, has announced that he will present two voice students in a recital here Sunday at 4 p. m. The voice students are Laverne Dodson and Vernice Spencer. They will be assisted by Lois Wines, pianist. The recital will be given in the First Baptist Church auditorium.

Relatives will live beyond your means if given the chance.

In honor of June 14, a Flag Day program was given. Refreshments consisting of white iced cake squares topped with small United States flags and bottle cocoa-colas dressed in red, white and blue aprons were served.

MASSEY-HARRIS ONE-WAY DISC with "Roto-lift"

Now MODEL 509-9" DISC SPACING

YOU CAN HAVE "POWER-DRIVEN PENETRATION"

Again Massey-Harris brings you another engineering "first" in the new One-Way Disc with "Roto-lift." This new Massey-Harris power lift raises and lowers the disc only—there is no waste of power in lifting the entire frame. In the Roto-lift design, discs are mounted on a rotating steel pipe mounted on a full length high carbon steel axle. The steel pipe revolves on its fixed axle and this action raises or lowers the discs as desired. There is no sudden drop—the lowering action of the disc gang is fast but gentle. Other time-saving features you'll appreciate are the convenient hand wheel adjustments for leveling and depth control... improved hitch design... easy turning either left or right! Solid construction all the way through with the weight where it does the most good.

In approximately two feet of travel the discs are lifted clear of the ground and reach the maximum clearance in less than 40 inches. See us for complete data... make it a Massey-Harris!

Memphis Sends Ten To Convention Of Panhandle Bankers

Ten Memphis bankers and their families were among the 600 in attendance at the 44th annual meeting of the Panhandle Bankers Association in Amarillo Friday, June 3.

Attending from the First National Bank here were: Mr. and Mrs. T. E. Noel, Temple Deaver, Mr. and Mrs. Elmo Whaley, Mrs. Maxine Phillips, Mrs. Pauline Wynn and Miss Rosie Williams.

Those making the Amarillo meeting from the First State Bank were: Mr. and Mrs. James F. Smith and family, Mr. and Mrs. Edwin A. Smith Jr., Hayden Hensley and Bill Hayes.

The meeting opened Friday morning at 10:00 in the Herring Hotel. Will R. Sewell, vice-president of the Citizens' National Bank, Lubbock, was principal speaker.

He called for a strong banking system as the first line of defense of this country in its present economic war with Russia and warned the bankers that Stalin wants the United States to "spend itself to death" and bring about economic collapse.

Vern Wisdom, vice president of the First National Bank, Panhandle, was elected president of the association for the coming year. He succeeds Guy Walden of Tucumcari.

flooring. There is one smaller room, 10 ft. by 12 ft., with a concrete floor.

All walls are 3 ft. 7 inches to bottom of window sills.

Harrison stated that the building will be sold on sealed bids Monday, June 13, at 4 p. m. Bids should be filed with S. C. Harrison, President Board of Trustees, Memphis Independent School District, P. O. Box 451, Memphis, Texas.

The School Board reserves the right to accept or reject any or all bids.

THE PACE OF PROGRESS

★ With almost methodical regularity we hear or read of startling new discoveries in medicine. The pace of progress in research has been greatly accelerated. Hundreds of trained people are devoting their lives to organized research where there was but one a few years ago. As soon as the value of a new drug has been established, it is made available to the medical profession. A chronic condition from which you have been suffering may yield to a new treatment today. It is wiser than ever before to see your physician regularly once or twice a year. We take pride in maintaining complete stocks of the newer medicinal agents, ready to serve you on the order of your physician.

April Business Shows Downward Trend In Texas

The decline that has been under way for the last few months continued in most segments of Texas business during April, although consumer spending increased rather sharply for the first month, the University of Texas Bureau of Business Research reported.

As a result of the rise in department and apparel stores, the Bureau's index of Texas business edged up 1 per cent to 219 per cent of the 1935-39 base. The April index was 2 per cent above April 1948. The level of general business has been declining gradually since August of last year when the index stood at 233.

Dr. John R. Stockton, Bureau statistician, said the downward trend of Texas business parallels the readjustment that has been taking place in business activity in the United States. Both the value of production and the level of prices have continued to decline, with the result that the total value of the nation's output of goods and services declined from \$265 billion in the last quarter of 1948 to \$256 billion in the first quarter of 1949. Although this decline had been fore-shadowed in the latter part of 1948 when inflationary pressures began to ease, the decline in the first quarter of 1949 was the first important drop since the reconversion period ended early in 1946.

Retail sales in Texas during April were 4 per cent greater than in March, but 3 per cent below April 1948. Since March and April sales were adjusted for seasonal variation, it is possible that the late Easter this year increased April sales somewhat more than usual seasonal increase. The average of the index of retail sales for the first four months of 1949 was 307 compared with 321 for the last quarter of 1948.

The trend of industrial activity in Texas continued downward for the fourth consecutive month, as the Bureau's seasonally adjusted index of industrial power consumption declined 1 per cent from March. The level of this index in April was 6 per cent below the peak reached in December 1948. The number of man-hours worker in a sample of Texas manufacturing establishments declined 2 per cent between the middle of March and the middle of April and was 8 per cent below the level of April 1948. Total employment in manufacturing industries in the State fell 1 per cent in April.

"I'm beginning to think he sold me a lemon."

Farmers' Income Shows Big Gain Over March Total

Texas farm cash income totaled \$68,176,000 in April, rising 25 per cent from March, the University of Texas Bureau of Business Research reported.

Cattle was the greatest source of income in April, bringing Texas farmers \$33,386,000. Income from milk products totaled \$10,298,000; and eggs, \$4,724,000.

Heavier marketings of cattle, fruits and vegetables, and livestock products pushed April income ahead of last month in the majority of crop reporting districts. South Texas Plains, Lower Rio Grande Valley, and Edwards Plateau more than doubled their farm income from March to April.

On the other hand, March-to-April declines ranged from 2 per cent in Red Bed Plains to 9 per cent in Northern High Plains.

In comparison with April 1948, farm cash income for April 1949 was down 34 per cent. With the exception of rice, peanuts, poultry, and wool, all farm commodities brought Texas farmers less money in April than a year ago.

Farm income rose 7 and 17 per cent over April 1948 in Northern High Plains and Coastal Prairies, respectively, but declined sharply in other districts. Decreases ranged from an 18-per-cent drop in East Texas Timbered Plains to a 70-per-cent fall in the Lower Rio Grande Valley.

After adjustment for seasonal variation, the Bureau's index of farm cash income declined to 212 per cent of the 1935-39 base period in April from 220 in March and 331 in April 1948.

For the first four months in 1949, farm income totaled \$225,689,000, falling 22 per cent under a like period of 1948. Except for increases of 16 and 20 per cent in Northern High Plains and Coastal Prairies, all districts recorded declines from 13 to 60 per cent under their 1948 levels.

HEALTH HINTS FOR LIVESTOCK

'SUN SICKNESS' IN WHITE LIVESTOCK

Sunshine, the greatest of Nature's disease preventives, can cause serious trouble for white-skinned animals.

Too much is too much, especially when such animals are exposed to bright sunlight after eating certain "sensitizing" plants.

The result is a sore, peeling and highly inflamed skin over all white-surfaced areas of the body exposed to sunlight. "Sun sickness" is a popular name for the condition.

Photo-sensitization is the accurate veterinary term, and the di-

Kidneys Must Work Well—

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headache, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

Music Department At Tech Will Be Enlarged In Fall

Gene L. Hemmle of New York will become head of an expanded music department at Texas Technological college in September.

The appointment of Hemmle to the Texas Tech faculty was approved at a recent meeting of the college board of directors. Hemmle, 35, is a native of Missouri and is a graduate of Arlington, Texas, high school. Since 1946 he has been professor of music and chairman of the department of music at Texas College of Mines, recently renamed Texas Western college. He has been on leave the past year for further study at Columbia university.

Hemmle attended Kansas City Conservatory of Music, Southern Methodist, Colorado University, University of Texas, North Texas and Columbia University. He has a bachelor of music degree from SMU and a master of arts degree from Columbia.

He has taught music at North Texas Agricultural college, North Texas State, Texas College of Mines and was director of choral music at the American Institute of Normal Methods in Boston.

Hemmle has served as state choral director of Mississippi, Colorado and Texas, clinical choral conductor of the Houston-Bay festival and Tri-State music festi-

val, vice president of education club as clinical chorale Tennessee Music Dr. J. P. B. of the music department main as professor

Committees Are Named During B & PW Club Meet

The Business and Professional Women's Club met Thursday, June 2, for the regular business meeting. Following the luncheon, Roselyn Williams, president for the new club year, conducted the business meeting.

Committees appointed by the new president to carry on the club work for the year are: Membership, Ella Mae Kercheville, Betty McBee, Ruby Roden; program co-ordination, Hester Bownds, Joyce Hoff, Mary Foreman; education and vocation, Ethel Hillhouse, Zula Ann Huckaby, Mary Smith; health and safety, Mable Lavender, Marjorie Kesterson, Maxine Phillips; international relations, Inez Mason, Virginia Estes and Mary Smith.

Public affairs, Fan Kirk, Dorothy Vandeventer, Mildred Spicer, legislation, Lzabell Cypert, Myrtle Gibson, Virginia Estes; finance, Connie Saye, Lucille Burnett, Annette Boswell; news service, Zady Belle Walker, Irma Hale, Una Loard; arrangements, Floy Hightower, Mary Frances Marcum, Myrtle Gibson; social, Mollie Carlos, Aulis Ayers, Dorothy Vandeventer; year book, Aulis Ayers, Inez Mason, Ethel Hillhouse; radio and television, Barbara Blanks and Maxine Phillips.

The executive committee members are Roselyn Williams, Mildred Spicer, Una Loard, Lucille Burnett, Mary Foreman and Zady Belle Walker. Mary Foreman, retiring president, expressed to the club her appreciation of the cooperation given by club members during the past club year. Roselyn Williams presented a gift to Miss Foreman as an expression of appreciation from the club.

The next luncheon will be held Thursday, June 16. All members are urged to attend.

Members present were Mildred Spicer, Ella Mae Kercheville, Betty McBee, Roselyn Williams, Joyce Hoff, Marjorie Kesterson, Una Loard, Mable Lavender, Hester Bownds, Inez Mason, Mary Smith, Connie Saye, Mary Foreman, Dorothy Vandeventer, Lzabell Cypert, Mollie Carlos, Fan Kirk, Virginia Estes, Barbara Blanks, Aulis Ayers and Zady Belle Walker.

Baylor Stadium Drive Publicity Under Publisher

Appointment of Harlon M. Feentress, newspaper publisher, as State Public Information Chairman of the Baylor Stadium Campaign was announced here today by R. B. Dupree, Waco banker and president of Baylor Stadium Corporation.

Feentress is president of Newspapers, Inc., which publishes the Waco News-Tribune, Waco Times-Herald, Austin American, Austin Statesman and the Port Arthur Daily News. His residence and office are in Waco.

In accepting the Baylor Stadium Campaign appointment, Feentress said he would announce in the near future the names of the 10 co-chairmen who will help carry the message of the Baylor drive to all corners of Texas.

Dupree said the Baylor Stadium Corporation, a non-profit organization of friends of Baylor University, soon will announce sel-

ection of a statewide steering committee for the forthcoming campaign to finance Baylor's new \$1,500,000 stadium. Ground-breaking for the stadium was a feature last week end of Baylor's 104th annual commencement program.

The corporation is refining now the plans to sell seat options and interest-bearing stadium bonds to pay for the football plant. The bonds will carry educational features assuring entrance priority in future years for Baylor students and being exchangeable for tuition at Baylor.

Mrs. Sam Wynn and sons Stevens and Sammy, of Utah, are visiting with Mrs. Wilma Davis and family.

Mr. and Mrs. E. L. Pritchett and children, Jimmy and Doris, of Carlsbad, N. M., arrived Saturday to visit with his parents, Mr. and Mrs. Wyley Whitley. Mr. and Mrs. Pritchett will return home today, but Jimmy and Doris will visit with their grandparents for some time.

Mrs. Frank Smith and son, Frank Smith Jr., and daughter, Virginia, visited their husband and father, Frank Smith, who is receiving treatment in the Veteran's hospital in Amarillo Sunday. Mr. Smith's condition is reported to be somewhat improved.

R. C. Lemons and Mr. and Mrs. O. L. Alexander were in Dallas Sunday and Monday on business.

Loard To Receive BS Degree Friday

H. C. Loard, son of Mr. and Mrs. T. T. Loard, will receive his B. S. degree in Animal Husbandry with a major in Animal Nutrition from Colorado A. & M. college this month.

Graduation exercises will be held June 10 at 10 a. m. in Colorado A. & M. stadium, Fort Collins, Colo.

He is a member of Alpha Zeta, an honorary agriculture fraternity. Members are chosen from the upper one-third of the agriculture division.

One Killed

(Continued from page 1) time of the wreck Scott was pushing his car, trying to start it, and Robinson was at the wheel. They were headed for Memphis when their car stalled.

Callaway indicated that Wat-

kins car was somewhat on the left side of the highway when the smash-up occurred. Watkins was unable to make a statement before dying and Gold said he was asleep at the time of the wreck.

Comments

(Continued from Page 1) prevention. There is enough filth, trash and disease breeding places on each block in Memphis to start an epidemic of some kind. There is enough on my block to start polio or typhoid besides being an eyesore to visitors to Memphis and Baptist and Presbyterian church goers. Let's each one take our responsibility seriously.

Nice and cool here in Amarillo with daily showers to keep wheat growers on the anxious seat. When it fails to rain, they worry about cutting down the yield, and too much rain makes them worry about not being able to harvest the big yield.

While at home, I would be going to the office every day as I felt my work was needed. Here, I'm doing nothing but eating, sleeping, reading and taking life easy.

Will be home in a few days, and hope to find Memphis again worthy of being called the clean little city.

Christian Church

(Continued from Page 1) his lesson will be given directly to the youth. Special music at the morning service will be rendered by a choir composed entirely of children.

Sunday evening's program will include dramatization, memory work and songs, which have been a part of the daily work for the past two weeks. Mrs. Bedford W. Smith has been director, assisted by the minister and approximately 12 other teachers and helpers.

Rev. Smith stated that approximately 60 children were enrolled in the school and that certificates would be presented to all students who had not missed more than one day in attendance on Sunday evening.

The public is cordially invited to attend both services, Rev. Smith added.

Street Marker

(Continued from Page 1) would like to have the project completed in the early summer.

There are 233 street intersections at which these street markers would be placed. It has been estimated. The marker being considered is of solid aluminum and will be mounted on a two-inch galvanized pipe post or an angle iron post.

Such markers are now in use in approximately 150 cities and towns, all of which report complete satisfaction with them.

Reporting on the project, Farmer stated that the installation of these markers is of tremendous importance in improving and raising the property value here in Memphis. He said that the co-operation of Memphis civic groups in pushing the street marker drive has been excellent and called for a renewed effort on the part of every citizen to put the plan over during the next few weeks.

Delivery can be made within six weeks after the markers are ordered, Farmer said.

Contributing checks should be made out to "The Street Marker Fund" and left at any of the drug stores in Memphis or at the Chamber of Commerce office.

County Board To

(Continued from Page 1) ty. These are any districts that fail to operate a school for two successive years subsequent to the 1946-47 school year.

It was pointed out that the bill also calls for adding any property subject to school district tax, but not within the described limits of a school district to an adjoining district or districts. This action must also be taken by the County Board within 30 days.

Rodeo Officials

(Continued from Page 1) opening night and had a good crowd for Saturday night's finals although Friday night's gate receipts were somewhat off, Tucker said.

He pointed out that the balance of profit in the association treasury would be used next year to stage a "bigger and better rodeo."

T. B. Rogers, association president, and Tucker joined in thanking every citizen and businessman for their splendid co-operation in helping make the rodeo a success. They said every effort would be made to continually improve the rodeo and make it one of the top attractions in the Panhandle.

Legion Hall

(Continued from Page 1) Post. To date the post has 207 members, well above its quota, and has one of the outstanding membership records in the 18th District.

Officers in the Noel-Simmons Post are: Frank Van Pelt, commander; J. V. Sheppard, vice-commander; H. C. Pounds, finance officer; Roy Guthrie, chaplain; Gordon Gilliam, sergeant-at-arms and Grady Simpson, adjutant.

Van Pelt said that program plans for the new building during the summer are rather indefinite but will include a number of get-togethers other than regular meetings.

There shouldn't be much of an attendance problem for a post with such modern meeting facilities.

Heavy Rains

(Continued from Page 1) according to releases out of Washington.

The three-point program provides in effect:

(1) "Distress" price support loans will be made on grain piled on the ground or in temporary storage facilities pending construction of permanent storage to care for it.

(2) Loans will be made to farmers for building new permanent farm storage facilities. Up to 85 percent of the cost of the facilities will be lent.

(3) CCC will construct 50,000-000 bushels of bin-type storage facilities at country points to supplement 45,000,000 bushels of such storage already owned by it.

Under the "distress loan" phase of the program, farmers may obtain loans equaling 75 per cent of the price support on grain stored in the open, wire service releases state. This will be done with the understanding that farms build or acquire satisfactory storage for the grain within 90 days.

Farmers Face Big

(Continued from Page 1) six inches higher than the grain after leveling off.

Fumigation Suggested

Fumigation is the best and most

economical method of protecting grain storage. Hooser and McKown said. Temperatures of 65 to 75 degrees are the best for fumigation.

For this fumigation an ethylene dichloride-carbon tetrachloride mixture is suggested. It is economical, non-inflammable and effective and does not have germination regardless of dosage. It is made of three parts of volume of ethylene dichloride and one part by volume of carbon tetrachloride.

The mixture weighs about 11 pounds per gallon and can be purchased in 55 gallon drums. It is applied with watering can or sprayer on the surface of the grain at the rate of six gallons per 1,000 bushels or five gallons per 1,000 cubic feet. If the temperature is a little higher some of the liquid should be poured directly into the grain, it was stated.

The operator applying this mixture should get into fresh air immediately if signs of dizziness occur. If a large amount of the mixture is to be applied a gas mask should be worn.

It is recommended that grain in storage be inspected at least once each month and fumigated if infested. Accumulation of waste grain and feed around the farm buildings should be removed.

Many of the existing buildings on the farms may be made to meet Commodity Credit Corporation loan requirements. Hooser and McKown recommend that the following checks be made to make the buildings serviceable.

Raising old bins on piers or walls to a height of at least 18 inches will provide considerable protection against rats. Damaged footings and foundation walls should be repaired or replaced. 16 square feet of footing area should be allowed for each 1,000 bushels of storage capacity.

Floors should be tight and smooth. A layer of paper should be placed between the sub-floor and the finished floor. Concrete floors are satisfactory but must be moisture-proof. Broken or rotted joists, studs or braces should be replaced. Walls should be weathertight.

Repair the roof to make it snow and rain-tight. Calk all small cracks with calking compound. Steel bins bought in former years can be made more moisture-tight by calking or otherwise sealing the eaves and all other joints. Covering the grain with moisture-proofed paper during the winter months is advised.

Outstanding 4-H

(Continued from Page 1) Agent Hooser for his part in helping the 4-H Clubs of this county achieve these records during the past few years.

Award winners were: Harold Rampy, Lakeview. Winner of the Danforth Foundation Scholarship and County Achievement Award. Rampy was state and national winner in the Better Methods Electric Contest in 1946.

Among a number of awards, he won first in the state in the National Safety Contest in 1945 and exhibited the Reserve Champion calf in the Hall County Show in 1948.

Jimmy Bounds, Memphis. Gold Medal Winner in the National Better Methods Electric Contest. He has raised outstanding beef calves and had the Grand Champion beef calf in 1948.

Don Hancock, Lakeview. Gold Medal winner in the National Field Crops Contest. Among other awards he has won a \$200 scholarship in the State Cotton Contest, a trip to the 4-H Club Round-Up and a trip to the State Fair of Texas.

John Luther Byars, Lakeview. Gold Medal winner in the National Meat Animal Contest. Among

other awards he has won an expense-paid trip to Chicago and had the Grand and Reserve Champion hog in Amarillo.

Archie Martin, Lakeview. Gold Medal Winner (first in county) in the National Garden Contest. He had the Grand Champion gilt in 4-H and Open Class at the Tri-State Fair.

Loyd West, Memphis. Gold Medal winner in National Garden Contest and a Sears Gilt winner.

Jack Hancock, Lakeview. Gold Medal winner in National Garden Contest.

Nolan Salmon, Lakeview. Gold Medal winner in National Garden Contest.

Fletcher Bounds, Memphis. Gold Medal winner in National Garden Contest. Reserve Champion calf.

Winfred Russell, Estelline. Gold Medal winner in National Garden Contest. First place calf in County Show.

Bennie West, Memphis. Silver Medal winner in National Safety Contest. He was first in the county, state and national. Won \$200 scholarship and expense-paid trip to Chicago.

John I. Foster, Memphis. Silver Medal winner in National Safety Contest. His Droc gilt was first in the county in meat production.

Scott Hancock, Lakeview. Silver Medal winner in National Safety Contest. Winner of Sears Gilt.

Leon Martin, Lakeview. Silver Medal winner in National Safety Contest. Among other honors, his gilt was Grand Champion at the Amarillo Show and his sow was Grand Champion at the Hall County Show.

Johnny Brumley, Newlin. Silver Medal winner in the National Safety Contest and a Sears Gilt winner.

David H. Duvall, Lakeview. Silver Medal winner in National Safety Contest. He has raised outstanding beef calves.

Morris Odum, Newlin. Silver Medal winner (first in county) in National 4-H Poultry Achievement Contest. Among other awards he has won a \$50 award bond, three trips to District encampment and his beef calves have rated high in the county. Ft. Worth and Amarillo shows.

Jerry Byars, Lakeview. Silver Medal winner in National 4-H Poultry Achievement Contest. Winner of Sears Gilt and Businessmen's Gilt.

Raymond Martin, Lakeview. Silver Medal winner in National 4-H Poultry Achievement Contest and Sears Gilt winner.

Tom Cope, Parnell. Silver Medal winner in National 4-H Poultry Achievement Contest and winner of Businessmen's Gilt.

Joe Booth, Lakeview. Silver Medal winner in National 4-H Poultry Achievement Contest. Won Grand Champion Gilt award in County Show and was awarded a \$125 registered heifer at the Amarillo Show.

Richard Salmon, Lakeview. Silver Medal winner in National 4-H Poultry Achievement Contest. He has raised outstanding beef cattle.

Tommie Martin, Lakeview. Sil-

ver Medal winner in National 4-H Poultry Achievement Contest. Winner of a Sears Gilt.

Billy W. Fowler, Lakeview. County and state winner in the National Dairy Achievement Contest. Received a \$25 savings bond.

Martha Pearl Davenport, Lakeview. Winner of the Santa Fe Award. She was first in the county and state. Winner of an expense-paid trip to Chicago.

Mildred Booth, Lakeview. Alma Ann Bruce, Lakeview, and Gaye Lynn Salmon, Memphis, were winners in the Danforth Foundation Award.

Billy Preston Hancock, Lakeview. Outstanding 4-H record. Winner of the General Award. He has won tours of Texas and the Panhandle, trips to Mexico, 4-H Club Round-Up and Washington, D. C., and a nominee for a trip to Europe. His beef calves have been tops in county and state competition throughout the years. He was first in the State Safety Contest in 1946 and first in the County in the National Meat Animal Contest in 1947.

Rita Jean Hill, Parnell. Winner

of the Danforth Award. She was a Chamber of Commerce

Carrroll Fowler, winner in the National Dairy Achievement Contest in state. Among other awards she has won three first place in the Contest and exhibi Champion Calf in show in 1946 and

Bruce Gibson, of the National Safety Contest. Also won scholarship in the Contest, \$25 award the Panhandle. He outstanding hog in Ft. Worth.

Jack Lynn Foster, Winner of the 4-H tenance Contest, a Sears Gilt. He placed high in county shows.

In addition, the Clubs were jointly National Better Year Awards. This is the five year Hall Co this award.

YOU GET MORE AND CLEANER GRAIN WITH THE MASSEY-HARRIS Clipper Combine

When it comes to saving more grain—under all conditions—the Clipper is still ahead of the field. These point constructions—full six foot cut, five foot rasp bar cylinder, straight-thru separation—gives the Clipper extra capacity, extra ability to get all of your grain.

And you can count on the Clipper to bring in your crop with less dockage. You get cleaner grain that brings a better price.

Extra capacity pays off with fast operation... lower production costs... a more profitable harvest season. The Massey-Harris Clipper has had plenty of experience too. There are successful harvests in more than 110 different crops in back of the Clipper. Everything from tiny blue grass to the largest beam... it is all in a day's work to the Clipper.

Next time you're in town stop in for full details. Let's talk over the advantages of a Massey-Harris Clipper Combine for your farm.

NO WAY TO TREAT A LADY . . . Two-year-old Linda Lou Kummers is greatly displeased over her enforced wait in the Bergen street police station in Brooklyn, N. Y., and says so in no uncertain terms. Desk Clerk Conrad Walters seems to be somewhat at a loss as to what to do. Linda, just bathed by her mother, decided to take a stroll, but didn't get very far before she was brought to police headquarters, where Mama claimed her.

TENNYSON DECLARES NEW BILL WILL RAISE TEXAS EDUCATION STANDARDS

Charles H. Tennyson, public relations director of the Texas State Teachers Association, declared this week that enactment of the three Gilmer-Aikin bills will put Texas among the top ten states in education.

"These measures pave the way for more class rooms and more and better teachers, as well as providing for more equitable distribution of the cost and revising the top-level administration," Tennyson declared. "Our children will receive a better education. As a result, our state will benefit."

Tennyson pointed out that schools which fail to meet the minimum requirements of teachers' and administrators' salaries will not only fail to receive state aid provided in the new laws other than the per capita apportionment, but will be dropped from the accredited list.

There are now 42,500 teachers and 4,000 principals and superintendents in the public school system.

"The new laws pave the way for the addition of 1,500 teachers as soon as physical facilities can be made available," Tennyson said.

The new salary scale for teachers and administrators will do two things to provide Texas with a superior educational system, he pointed out.

"Texas will be much more attractive to outstanding teachers from all parts of the country," he said. "Too, the additional pay teachers can get for holding masters degrees will send thousands of them to school to get the higher degree."

The greatest enrollment in many years is expected by most Texas colleges and universities this summer in their graduate divisions.

The minimum salary for teachers holding bachelors degrees was increased from \$2,000 to \$2,400 annually. Under the new bills, they get \$54 a year additional for the first 12 years of teaching. That makes a maximum salary of \$3,051. The old ceiling was \$2,655.

Teachers holding masters degrees will have a minimum salary of \$2,628. The minimum was \$2,232. Their credit of \$54 a year additional for each year of teaching experience now continues for 26 years instead of 12. That makes a maximum salary of \$4,032.

In addition, the law was revised to allow school districts to supplement the salary scale set by law. Under old statutes, districts receiving rural, or equalization aid, were forbidden to add to the specified salaries. Furthermore, districts may employ more teachers than allotted under the law if they desire to do so.

Mr. and Mrs. Ira Lawrence, Mr. and Mrs. Douglas Lawrence, and Mr. and Mrs. Jack Moreman, visited with the parents of Mrs. Ira Lawrence, Mr. and Mrs. Fred Williams, Sunday in El Dorado, Okla.

Mr. and Mrs. Henry Cooper and sons of Atoka, Okla., visited last week with Mr. and Mrs. Gray Carter. They were en route to Clovis, New Mex. and Colorado Springs.

Methodist Bible School Reports High Attendance

Enthusiasm is mounting and attendance is increasing as the Methodist Vacation Bible School enters its second and final week, those in charge stated this week.

The school will close on Friday evening with a picnic. Preceding the picnic, a short program will be given at the Church, beginning at 4:00 o'clock. Parents of the students and friends are cordially invited to attend the closing exercises.

Highlighting the study course have been interesting field trips made by each department, instructors stated. The beginners enjoyed an inspection tour of the green house and the primary department visited the fire station. The Junior department enjoyed a visit to the Democrat office, where they had a first hand view of printing.

Each division has a special project to which they are contributing. The Beginners are studying "My Home and Family" with Mrs. Bud Gilreath as instructor and Mrs. W. V. Coursey and Mrs. Charlene Carter as helpers.

The primary department, under the direction of Mrs. George Payne, is studying "Friends at Home and in the Community." Mrs. John Smith is pianist and Miss Dorothy Cowan and Mrs. J. J. McDaniel are helpers.

The Junior and Intermediate Departments have a very interesting and inspirational study of "How Christianity Spread Round the World," beginning with the missionaries of today. Mrs. Gene Chamberlain is instructor of this group and Cleve Mae Tiner is pianist. Mrs. Thomas Clayton is song leader and in charge of recreation and Mrs. Noel Clifton is activities supervisor.

REAL ESTATE TRANSFERS

The following real estate transactions were recorded during May:

J. S. McKee to J. A. Fewell; Sec. No. 9, Block "R"; T. A. Thompson Survey; one-half acre. Lakeview Elementary School District to Lakeview Rural High School No. 708; SE quarter of Sec. No. 104, Block 2, Cert. No. 2/852, T. & P. Ry. Co.; four acres.

Farmer Attends Meeting

C of C Managers Asked To Promote Tourist Trade

EVENTS MATCH-UP WITH NAME . . . Seldom have the events in a person's life so happily matched up with a name as has happened in the case of little Mary Happy Heitman, shown here. The 3½-year-old miss is both "merry" and "happy" since a major film studio has offered her a long-term contract and a judge has approved it. She will earn from \$100 to \$1,000 a week over a seven-year period. She is the daughter of Mr. and Mrs. Lester Heitman, of Los Angeles.

PRETENDER . . . Dr. Samuel Solnik, dentist in the Israeli army medical corps, claims his young son, Emmanuel, is a direct descendant of King David of Israel.

It Was Hard But She Got Him Thru

After working for a telephone company since the war to keep her GI husband in Texas Tech, a young Lubbock woman in formal engraved announcements has advised friends:

"Mrs. Worth A. Zachary finally announces (with pleasure and relief) the graduation of her husband from Texas Technological college on May Thirtieth, Nineteen Hundred and Forty-nine."

Zachary, accounting major, entered Texas Tech in 1942 and took time out to serve in the Marines during the late war.

MARRIAGE LICENSES

The following applications for marriage licenses were recorded in May:

Delmar W. Wesaw and Miss Lucille Tahmakhera. James R. Russell and Miss Lola Howard.

Gabriel B. Smith and Mrs. Roberta Owens. Herbert Stinnett and Miss Lois Jean Hammonds. Nathaniel McKay, Turkey, and Miss Maryetta Jones, Quitaque. Roy Dick, Jr., Estelline and Miss Rita Jean Trapp, Parnell. John R. Scott, Jr., and Miss Jan Lynn Monzingo. William T. Reynolds and Miss Betty Randolph. Elmer Childress and Miss Esther Ann Mash. Tommy C. Hulsey and Miss Sue Lynn Guthrie.

Methodist Pastors Returned To Posts

Two former pastors of the Methodist church here were returned to their present locations following the meeting of the Northwest Texas Conference in Amarillo.

Rev. Aubrey C. Haynes resumed his position as minister of the First Methodist Church at Crowell. In the Plainview District, Rev. E. L. Yeats will continue as pastor at Seymour.

New WT Dean As Shirley Retires

Dr. Walter H. Juniper has assumed his duties as Dean of West Texas State College, it was announced this week.

Dr. Juniper comes to West Texas State from Baylor where he was assistant dean. Dr. D. A. Shirley, retired West Texas State dean, showed him about his new office and introduced him to the faculty.

Creed Lamb returned Saturday from Dallas where he enrolled in the Mortuary School of Science. He will enter school on August 1, and until that time he will be employed in Amarillo.

Mr. and Mrs. J. B. Ledford and family of Wichita Falls, visited with Mr. and Mrs. J. C. Ledford Sunday.

Texas are "sleeping blissfully through an unparalleled opportunity to expand Texas' biggest money crop—a year-round tourist business."

This was an assertion made by Colonel Ike Ashburn, executive vice-president of the Texas Good Roads Association, reported Clifford Farmer, manager of the Memphis Chamber of Commerce.

Farmer has just returned from the annual meeting of Texas Chamber of Commerce Managers which was held in Houston June 5, 6 and 7. The convention was headquartered in the Rice Hotel.

The Memphis Chamber of Commerce manager said that "Meeting the Challenge" was the keynote of the convention. Managers were asked to renew their efforts to promote interest in their respective districts as well as in the state as a whole.

Colonel Ashburn delivered his speech to the group at Tuesday's final meeting. He said that little has been done to attract tourists to this state and called for a highly selective advertising campaign to secure additional tourists, to divert tourist trade from competitive areas and to increase itineraries and length of stay.

Ashburn pointed out that other states, such as Arizona and New Mexico, have spent modest sums for advertising and have thereby doubled or tripled their tourist income.

"Texas, with no funds and no descriptive literature except Texas Parade Magazine, drew 1,849,000 out-of-state automobiles in 1948," he declared. The occupants of these automobiles spent \$114,528,000 in Texas last year.

"If we spent \$100,000 per year we could more than double the number of visitors, making a quarter of a billion dollars per year income from activities," Ashburn asserted.

He told the managers that they could help by having their local chambers give support to the idea of a combined Texas non-profit, non-political publication, artistically prepared and prelete with colored pictures of the scenic wonders of Texas.

Morris Is A & M June Graduate

James Hervey Morris, son of Mr. and Mrs. J. H. Morris of Memphis, was among the June graduates of Texas A. & M. College at College Station. Morris received a BA degree.

He has returned to A. & M. for a short summer study following which he and Mrs. Morris will return to Memphis to make their home here. Morris is a 1945 graduate of Memphis High School.

Cotton Belt Needs Dusting Technique

Improvements in airplane dusting equipment and technique are needed in the Cotton Belt, the National Cotton Council reports. There is need for a plane especially designed for dusting, the Council said. It called attention to the opinion of an Illinois state entomologist, Dr. George C. Decker, that spraying and dusting equipment is "far from perfect."

He called upon aircraft and equipment manufacturers, plane operators, insecticide companies and Federal agencies to join in a unified research program to produce better planes, better equipment and improved insecticide formulations.

Dr. Decker said that airplane dusting advantages include speed to cover large areas at exactly the right time; the fact that the grower need not maintain his own expensive equipment; reduction of labor requirements; treatment of fields when too muddy for ground equipment; avoidance of damage to crop by ground equipment.

Nancy Ann Mothershed is visiting in Memphis this week with her grandmother, Mrs. Jean Lamb and attending the Vacation Bible School.

Mr. and Mrs. Don Stevens and daughter Sharon Sue, of Dallas, visited in the home of Mr. and Mrs. L. N. Bowman over the weekend.

Mrs. G. M. Gunstream Is Named President Of Wesleyan Class

Election of officers was featured when the Daughters of the Wesleyan Sunday School class met Tuesday, June 2 in the home of Mrs. G. M. Gunstream. Mesdames Frank Wright, Robert Cummings and C. H. Compton were co-hostesses.

Named to head the organization during the ensuing year were Mrs. G. M. Gunstream, president; Mrs. Sid Baker, vice president; Mrs. Marvin Duren, secretary; Mrs. T. M. Potts, treasurer, and Mrs. Bess Crump, reporter.

Members attending the meeting were Mesdames T. J. Hampton, D. A. Neeley, A. S. Moss, Frank Wright, Albert Gerlach, W. A. Thompson, Brice Webster, Louie Goffinet, Bess Crump, Sid Baker, T. M. Potts and Mrs. Gunstream.

Local Women To Attend Tex. Federation Of Bus. Women Convention In Houston

Miss Mary Foreman, Miss Rose-lynn Williams and Mrs. Lucille Burnett left today for Houston where they will attend the 29th annual convention of the Texas Federation of Business and Professional Women's Clubs.

Convention headquarters will be the Rice hotel and the convention will open on Friday and continue through Monday, June 13. Many enjoyable social events as well as business meetings have been planned for this occasion.

First in a series of socials planned for the event will be a luncheon Friday, June 10, in the Normandie Room of the Shamrock Hotel. At this time Miss Beatrice A. Patterson, honorary national president, Dr. Minnie L. Maffett, national first vice president of

Dallas, and Judge Sarah T. Hughes, also of Dallas, are to be honor guests. In the afternoon of the same day a 20-mile trip down the famous Houston Ship Channel on private yachts has been planned. On this excursion the delegates will visit the old battleship, Texas, and the historic San Jacinto battleground. A dinner at the nationally famous San Jacinto Inn will conclude the trip.

A carnival in the Rice Hotel Crystal Ballroom has been calendared for Friday evening, the proceeds from which are to be added to the Minnie L. Maffett Fellowship Fund.

Meetings for business and reports have been scheduled for Saturday. During these sessions the topics to be discussed include

changes in by-laws, new policies for the Texas Woman Magazine, endorsement of Judge Hughes for national president in 1950, endorsement of a legislative program, the consideration of national recommendations and invitations for the 1950 convention.

Climaxing the activities arranged for Saturday will be the formal president's banquet at Rice Hotel Crystal Ballroom. At this time all club presidents are to be honored. Dr. Bernice Milburn Moore of Austin will speak. She is consultant of the Hogg Foundation for Mental Hygiene of the University of Texas. This lecture entitled "Democracy Must Be Lived to Live," is expected to be one of the highlights of the convention program.

Devotional and memorial services in the South American Room of the Rice Hotel will open Sunday activities after which there will be a work shop session. "Hobbies That Became Businessess" is to be the subject of this session.

Mrs. Dora Davis will be introduced by Mrs. Charley Ward Sunday during a brunch at which time the officers and directors are to receive special recognition. On this occasion Miss Beatrice Patterson is to be the featured speaker. Miss Patterson, field director of the National Federation of Business and Professional Women's Clubs, is a graduate of Wellesley College. She now travels throughout the country visiting clubs and assisting in the development of methods of membership stabilization and expansion and interpreting of policies of the National Federations.

Ann McCreary Is Party Honoree On Fourth Birthday

Mrs. Weldon McCreary entertained with a party on Thursday afternoon, May 26, honoring her daughter, Ann, on her fourth birthday anniversary.

A series of well-planned party games and contests entertained the young guest. Many of the youngsters received prizes as winner in various contests and each guest was presented with a party hat.

The party rooms were attractively decorated with bright colored balloons.

At refreshment time, birthday

cake and ice cream were served to the following: Mary Crawford, Donna Jean Ezell, Patsy Ann Strother, Glenda Bruce, George Williams, Mike Newton, Connie Williams, Perry Keyser, Jr., Mike Keyser, Dawn White, Kuren Gibson, Joan Ward, Mary McCreary, Roselyn Williams, Laurel Ellis.

Also present were Mesdames Don Ezell of Childress, C. S. Williams of Clarendon, C. D. York, G. F. Childress, Ray Bruce, Lloyd Ward, ser, and the honoree Mrs. McCreary.

THE BIGGEST BARGAIN IN YOUR HOME TODAY

The new home of "Lubri-tecton"

AN INVITATION to visit America's newest and most modern motor oil plant

There are going to be "big doings" at Kansas City, Kansas, June 21st and 22nd, when Phillips' great new motor oil plant holds "open house" for American motorists.

You and your family and friends are invited, if you can possibly be there.

There'll be guided tours and refreshments, and you'll get an exciting "eyeful" of what Phillips has done to make possible finer lubricants for today's cars.

You'll see motor oil scientifically packaged by new precision methods. You'll be thrilled by new high speed conveyors and miraculous new machines that turn out up to 250 cans of oil a minute. You'll see special automatic blenders that maintain exact standards of uniformity and purity.

Come and see this new home of "Lubri-tecton", where Phillips blends finer motor oil to give your car lubrication plus engine protection. Remember the dates . . . June 21st and 22nd . . . at Kansas City, Kansas. Any Kansas City Phillips 66 Dealer can give you directions for reaching the plant.

P. S. If you can't be in Kansas City June 21st or 22nd, why not pay us a visit the next time you're in our part of the country? You'll always be welcome!

Stricken Areas Receiving from Red Cross Organization

Red Cross rehabilitation plans for some 200 families who lost all or most of their homes and possessions in the twister that struck the city May 14, Wilson said. Advisory groups also are assisting the plan of some 45 other families in the area struck by tornadoes in Carson County May 13; Randall County May 15; Sherman County May 16; and Dickens County May 17. A second large community, Abilene, was struck by a heavy windstorm May 22, in which 37 homes were demolished or badly damaged.

Floods which drove over 13,000 people from their homes in Dallas and Ft. Worth, Texas, last month have called for "extensive" rehabilitation in the communities Wilson said. In Tarrant County where a Trinity Creek fork sent thousands into 9 Red Cross shelters May 16, a total of 425 homes were destroyed and 2,675 damaged by the water.

Flood rehabilitation of homes is expensive, Wilson explained, because few homeowners carry flood insurance and thus are unable to assume much of the cost of replacing soggy or weakened walls, foundations, floors, or furnishings. Over 2,000 families in the Ft. Worth area already have requested some form of aid in restoring homes and possessions, he said. In Dallas County, Texas, where some 3,600 persons were affected by a flooding fork of the Trinity River May 16, advisory groups are beginning meetings where the needs of about 400 af-

'Your Family Dog' Pictures Wanted in National Contest

So you think your pup's cute! But how does he stack up in competition to others? Here's the way to find out:

The Memphis Democrat has just received word of the second annual dog photo contest being sponsored by the Gaines Dog Research Center, New York, as part of the 1949 observance of National Dog Week this coming fall. The theme of this year's contest is "Your Family Dog" and prizes totaling \$875 are being offered for photographs involving actual family pets or of situations and activities in which the family dog could well play a part.

Entries this year will be accepted in two classifications: 1. Work of amateur and 2. Work of member of a camera club. In each of these groups there is a first prize of \$250, a second of \$100 and a third of \$50. In the camera club classification, however, there is an additional \$25 prize to go to each of the three clubs which the winners will have named as their membership affiliation.

Deadline for entries in this contest is 4:00 p. m., Friday, September 9, 1949. Judging is to be done by a committee of photographic authorities, and the winners announced during National Dog Week, September 18-24, or as soon thereafter as is practicable.

'Water-Repellent' Not 'Water-Proof'

Are you all wet, and hopping mad, because the label on that jacket said "Water-repellent" and the rain came through it?

Maybe you didn't read the label closely. Maybe you didn't treat your jacket as you should have. Maybe you don't know what "water-repellent" really means.

Fabric manufacturers are now developing a new type of water-resistant material, using "low twist" cotton yarns and construction which allows the cotton to swell when wet, closing the interstices in the fabric to prevent water from getting through. The testing company has informed the National Cotton Council that one example in a low-twist, tightly woven oxford cloth "is an outstanding development in this field."

Mr. and Mrs. Bob Ayers visited near Turkey Sunday afternoon on business.

Mr. and Mrs. R. B. Gillis and daughter, of Cleburne, visited with Mr. and Mrs. Earl Pritchett over the week end. The group spent Sunday in Palo Duro Canyon and Amarillo.

stance with which fibers are impregnated wears away after long service or too-frequent or improper cleaning, the fabric loses its resistance to water. Treat your water-repellent garments in the manner recommended on the label, and have them cleaned by persons who know how to protect the water-resistant property, or to re-introduce it into the fabric.

Two commonly used terms are "water-repellent" and "water-proof." They aren't the same thing at all, and clothing of each type has its particular uses. All water-proof garments are water-repellent, but all water-repellent garments aren't waterproof.

A waterproof fabric is coated with a compound which closes the pores of the fabric completely, so that it can't even breathe. Such a garment is hot and uncomfortable, but is necessary to such persons as firemen or seamen whose clothing must withstand large quantities of water and over long periods.

Water-repellent fabrics, however, have only the fibers coated. The tiny openings between them remain open. The air can get through, but the water tends to roll off the repellent fibers. A golfer, for example, is far more comfortable in a water-repellent jacket than he would be, steaming hot, in a waterproof one.

Water-repellent garments wet through when water strikes them hard enough to splash through the tiny crevices between the threads. This is why the back and shoulders of a water-repellent garment wet through first, the testers reported.

When the water-repellent sub-

A post card request to the Gaines Dog Research Center, 250 Park Avenue, New York 17, N. Y., will bring a copy of the official contest rules. Here we can only say that interesting, appealing pictures are desired, with no limit on the number submitted by a contest. Only unmounted, unretouched black-and-white photographs, irrespective of size, will be considered. Original negatives from winners will be required later, and each contestant must be prepared to furnish, on request, the written consent of the person or persons who may appear in the picture or pictures and from the owner of dog or dogs appearing therein. Prior publication of an entry, save that used in a paid advertisement, will not bar it from the contest, and the sponsor reserves the privilege of purchasing any non-winning photograph entered in the contest at prevailing market prices.

Cotton Used To Repair Roofs

Asphalt-impregnated cotton muslin is being used successfully to rehabilitate corrugated iron roofs, the National Cotton Council reports.

When a corrugated roof begins to leak at joints and fastenings, a coat of asphalt paint is applied, and strips of pleated cotton fabric are laid over the entire roof. A second coat of asphalt paint, and, after drying, a third, are applied over the fabric. The pleats in the fabric permit expansion and contraction due to temperature changes, the Council said.

A Gary, Indiana, firm using the process has doubled the life of roofs with the cotton and asphalt application, the Council said, at about one-sixth the cost of a new roof. The firm uses about a half million yards of muslin on such roofing contracts annually.

• Being in a rut or in a groove may sound alike but there's a big difference.

affected families for rehabilitation will be acted upon.

In Oklahoma, advisory groups are beginning meetings this week to aid recovery of windstorm and flood victims in 24 counties. Much of the Oklahoma damage was done by hail, winds, and high waters. Nearly 1,000 families have asked for aid of one kind or another in making their dwellings livable. The tornadoes and winds struck late in the evening of May 20 and early May 21 in Alfalfa, Beaver, Blaine, Caddo, Custer, Ellis, Grant, Kingfisher, Pawnee, Rogers, Woods, Woodward, and Lincoln counties. Residents of two of the counties, Kingfisher and Caddo, bore the brunt of two disasters, when rivers and creeks burst their banks after heavy rains and flooded many areas. High waters damaged homes and other property in Logan, Canadian, Seminole, Creek, Henrietta, and Grady counties as well. Five major rivers, the North Canadian, Cimmaron, Arkansas, Canadian, and Washita, fed by scores of small creeks, overflowed with damage to crops and buildings.

Advisory groups meeting this week in the five affected states are being aided by 121 national Red Cross disaster workers, who are already on the scene helping chapter workers, Wilson said. Among them are skilled workers who can advise stricken families regarding their plans for recovery; nurses who aided in shelters and are now insuring adequate care for the injured; and expert building advisors who inspect and help families on all building and repair in which Red Cross assists.

More Smiles per Gallon

with Dynaflo Drive

White sidewall tires, as illustrated, available at extra cost.

THERE'S the smile when you slip the selector lever into Driving notch—and realize that's all there is to do.

There's the smile when you swing smoothly up to cruising speed without halt or check or break of stride. There's the smile at traffic lights when you halt, wait, then move away with never a thought about shifting.

But the broadest grin of all comes at the end of a long day's drive and you find you've covered more miles more easily. Even your treadle-foot—so likely to become tired and cramped maintaining an even speed in direct-drive cars—appreciates the fluid ease of Dynaflo.

For Dynaflo Drive† is not merely a new transmission. It's a new experience—a new luxury in driving. In ten minutes you are handling it

like a veteran—in two days you wouldn't be without it.

Small wonder, then, that Dynaflo is the drive with which all new developments in transmissions are compared.

Not merely "something better," it is something entirely new, the first exciting chapter in a whole new book.

Go learn for yourself how abundantly rich in pleasure every gallon becomes when you have Dynaflo.

Your Buick dealer will be glad to demonstrate—glad to quote delivered prices—glad to talk terms of as fine a deal as you could want.

And you'll find glad surprise in the delivery dates he is now mentioning.

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE* • FULL-VIEW VISION from enlarged glass area SWING-EASY DOORS and easy access "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding QUADRUPLE COIL SPRING • Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS plus "HI-POISED ENGINE MOUNTINGS" • Low-pressure tires on SAFETY-RIDE RIMS • Cruiser-Line VENTIPORTS DUREX BEARINGS, main and connecting rods BODY BY FISHER

Guthrie-Hulsey Marriage Vows Recited In Formal Rites At Methodist Church

Roy Lee Guthrie gave his daughter, Sue Lynn, in marriage to Tommy Carl Hulsey on Sunday afternoon, June 5, in the Methodist Church during a formal ceremony striking in its sacred simplicity.

While a concourse of several hundred friends and relatives were arriving, they enjoyed a pre-nuptial organ concert offered by Miss Betty Jean Solomon. Her numbers included: "Believe Me if All Those Endearing Young Charms," "Drink to Me Only With Thine

Eyes," "All Through the Night," Chopin's "Polonaise," "I Love You Truly," and "Indian Love Call." Immediately preceding the ceremony Jim Spain of Olton sang "Because." He was accompanied by Miss Solomon. The appearance of the wedding party was heralded by the beloved strains of Wagner's "Lohengrin"; Mr. Spain sang "The Lord's Prayer" for the benediction; and Miss Solomon closed the musical setting with the recessional composition from Mendels-

MRS. TOMMY CARL HULSEY —Photo by Orr

The bride wore a simple gown of ivory slipper satin accented by a yoke of marquisette and broad lace ruffling, a full skirt which extended into a long train, and a diaphanous veil of illusion which cascaded to finger-tip length from a pearl-seeded sweetheart halo. She carried a bouquet centered with white orchids and comple-

mented by stephanotis, white rose buds, and streamers of tide, white satin ribbon. For something old, she wore a pearl necklace presented to her grandmother Guthrie years ago by Mrs. Jack Leath of Houston. For something borrowed and something blue, she wore blue garters borrowed from her cousin Eleanor Lynn Moore. For a lucky coin in her shoe, she wore a coin brought from France by her father when he returned from the first World War.

Attendants

Miss Moore attended her cousin as maid of honor. Junior bridesmaids were Miss Shirley Smith of Olton, niece of the groom; and Miss Elaine Ellis of Pampa, cousin of the bride. Bridesmaids were Miss Reva Ann Leath of Houston, cousin of the bride; Miss Myrtle Gibson, Memphis; Miss Laura Mai Hightower, Memphis; and Mrs. Leslie Gordon of Amarillo, sister of the groom.

The honor maid, flower girl, and bridesmaids were attired in identical gowns of sheer organza over taffeta. The chosen colors were rose, blue yellow, and lime. The maid of honor carried a shower bouquet of majestic daisies; the bridesmaids carried fans of maline, featuring majestic daisies. For their hair they wore bands of daisies.

Junior ushers were LeRoy Ellis, Pampa, cousin of the bride; Charles Smith, Olton, nephew of the groom. Ushers were Guthrie Bennett, Memphis, cousin of the bride; and Vernon Higginbotham, Lubbock; Arlas Cavet, Olton; and I. D. Russell, Wellington. Most gallant in his tailored white suit and wearing a miniature boutonniere, Freddie Gordon, Olton; nephew of the groom, approached the altar bearing the wedding bands on a beautiful lace-trimmed, satin pillow. A picture of dainty grace, little Miss Suzanne Nelson, cousin of the bride, scattered rose petals along the aisle. Bill Crabtree, formerly of Olton, served as best man.

Lovely Setting

The couple were directed in the exchange of the nuptial vows for the double ring service by the local Methodist pastor, Rev. Rollo Davidson. Miss Frankye Lynn Srygley served the bride as train-attendant.

Flanked by a bower of greenery the altar of centered by a cluster of tiny white wedding bells, beneath which was the attractive kneeling bench. The altar space was bordered by satin rope garlands; baskets of majestic daisies, peonies, and gypsophila added to the beauty of the scene. The encircling step of the rostrum was decorated with baskets of fern fronds.

Reception

After the wedding members of the family gathered in the Guthrie home for the reception. The tea table was covered by a hand-made Irish lace cloth which had been presented to the couple by the bride's grand-parents, Mr. and Mrs. George Bass. The wedding cake was a three-tiered creation topped by a miniature bride and groom under an arch centered by the tiniest of wedding bells. After the traditional cutting and toast, Mrs. Hubert Taylor sister of the groom, served cake and Miss Shirley Smith poured punch.

For her traveling, Mrs. Hulsey chose a gabardine suit of white and cocoa-brown. She wore orchids from her bouquet and used white accessories.

Mr. and Mrs. Guthrie entertained the wedding party and all the members of the families with a picnic supper at the city park for the rehearsal dinner.

Mrs. Hulsey was born and rear-

ed in Memphis, when a small child she joined the church in which she chose to be married. She graduated from the Memphis High School and attended Texas Technological College from which she graduated May 13 with a Home Economics degree. In Tech she was a member of the Phi Upsilon Omicron Society, the Alpha Chi, the Forum, the Junior Council, and the Sock and Buskin Club. She served as president of the council, Phi Upsilon, and vice-president of her dormitory; she has been active in church work throughout her entire life.

Mr. Hulsey is the son of Mr. and Mrs. Charles A. Hulsey, of Sunnyvale, Calif. He graduated from Olton High School, served in the Marine Corps for nearly three years during which time he saw service in Guam, Okinawa, and was with the occupation troops in Japan. He graduated from Texas Technological College May 13 with a major in Chemistry. At the present they are living in Lubbock. In September they will move to McLean where Mr. Hulsey will teach science and Mrs. Hulsey will teach home economics in the McLean High School.

Otho Fitzjarrald left last week for Washington, D. C., where he will attend a naval intelligence school. Mrs. Fitzjarrald and daughter will meet him in New Orleans June 12, where they plan to spend several days vacationing.

M. N. Orr Family Enjoys Reunion At Plaska Sunday

Mr. and Mrs. M. N. Orr of Plaska had the pleasure of having all of their children and their families home on Sunday, June 5, for a reunion.

Attending were Mrs. Bob Tiner and children, Cleve Mae, Wayne and Ann of Memphis, Dr. and Mrs. Wm. N. Orr and sons Billy and Bobby of Littlefield, Mr. and Mrs. A. H. Orr and children, Cloyce Ray and Carolyn Sue of Plaska, Mr. and Mrs. Leo W. Orr and Coy Dean, Gale, and Aliven of Littlefield, Dr. and Mrs. J. M. Orr and children, Lynda, Jane, and Ann of Wellington, Mr. and Mrs. J. Brooks Jr., of Lubbock, and Miss La Verne Orr, who is a student at Texas Tech.

Mr. and Mrs. Alton Harrell and two sons, Jimmie and Barry, visited here with his father, J. R. Harrell from Saturday until Monday. They were turning to their home in Houston after visiting in California with his aunt, Mrs. D. W. Huffman.

Mr. and Mrs. George R. Cullin and son Raymond, Mr. and Mrs. Ottie Jones, Mr. and Mrs. Henry Hays and son, Jerry, and daughter, Patsy Sue, and Roy Lee Baker, of Olney, visited in Palo Duro Canyon Sunday afternoon.

NOTICE Wheat Farmers

THIS IS THE IMPLEMENT TO MOVE YOUR WHEAT FROM THE GROUND TO TRUCKS!

**Lift
750 POUNDS
as easily as a shovelful**

With this Dearborn Standard Manure and Material Loader—hydraulics do the heavy work—you take it easy, real easy! And you get plenty done, fast!

It lifts over a third of a ton. Its material bucket has a capacity of 6 cubic feet. By removing the bucket's bottom plate it becomes a manure fork. Trip lever dumps bucket or fork and once the load is out the bucket or fork resets itself automatically.

Here's a tool that knows no season—a tool of dozens of uses on any farm—a tool that can take a big share of the hard work off the muscles of any man.

NOEL STREET

Fish—The Largemouth Bass

By LOU S. CAINE

guished readily from the smallmouth bass by the position of the maxillary, or jaw joint. On the largemouth bass this joint extends back from the eye, while on the smallmouth it ends directly below the eye.

Look for the largemouth in fresh-water lakes, ponds, rivers, creeks and canals. . . . Around lily-pads, rushes, reeds, weeds, logs, sunken tree trunks, eroded pockets or deep holes.

SIZE . . . The world's record largemouth, caught on rod and reel, was taken by George W. Perry in Montgomery Lake, Georgia, on June 2, 1932. It weighed 22 pounds and 4 ounces. The average size, taking the country as a whole, would be from 1

LARGEMOUTH BASS
Morone chrysops

to 2 pounds, but in the south the average is higher.

FOODS . . . No snooty aristocrat, the largemouth will please the live-bait fisherman by killing anything resembling worms, insects, frogs, crawfish, minnows, field mice, small birds, snakes and even young muskrats.

LURES . . . On the prowl, the largemouth will smash with equal vigor at wet or dry flies surface or underwater plugs, spinners, spoons, bucktails or spinners-and-fly combinations—to the delight of the artificial bait angler.

METHODS . . . Methods of fishing vary with the section of the country and largemouth can be caught by bait-casting, fly-fishing, still-fishing, spot-fishing, bobbing, skittering and trolling.

Fly fishing for largemouth has proven such excellent sport that it is rivaling bait casting in recent years. The preferred fly rod has a "dry fly" action, is 8 to 9 feet in length, with a No. 2 or 2½ ferrule, and weighs from 5 to 5½ ounces. With this is used a level or tapered line and single action or automatic reel.

Some of the most successful fly lures are: Wilder Dig, Bass Bug Spook, Streamers, Popper Spook, Spinner and Fly Combinations and Pop-Eye Frog.

And when you encounter this wily thoroughbred, you'll enjoy the humiliating trick the largemouth might play on you. Experience will make you a worthy opponent but never a complete master of this great fighter.

Five Home Grid Games Scheduled By West Texas

Five home games have been scheduled by the West Texas State College football team for the 1949 season, it was announced this week.

The Buffs will meet two Border Conference foes in Canyon, Texas (formerly Texas Mines) and Hardin-Simmons.

Other home games include tilts with McMurry College of the Texas Conference, Houston University of the new Gulf Coast Conference and East Texas State College of the Lone Star Conference.

Season reservations for these games may be had by writing: Clark Jarnagin, ticket sales manager, Bookstore, West Texas State College, Canyon, Texas. Price of reserved seats for the five games is \$10.50.

Home games and dates are: Sept. 17—East Texas State (night). Sept. 24—McMurry College (night). Oct. 8—Texas Western (night). Oct. 15—Houston University (day—Homecoming). Nov. 12—Hardin-Simmons

Grain Storage Facilities Sought By Texas Farm Bureau Federation

The Texas Farm Bureau Federation is continuing to press officials in Washington in an effort to acquire ample government approved storage facilities for the 1949 grain crop. "We are still hoping that storage will be made available," J. Walter Hammond, president of the federation stated.

As wheat harvest got underway in Texas this week, elevators declined to accept wheat for government loan on grounds that no storage was available, although wheat was being bought by elevators as low as \$1.55 a bushel.

"If farmers continue to dump wheat on the market it will steadily depress the price," Hammond said. As an alternative farmers may sign purchase agreements at their PMA offices, which in effect is a contract with Commodity Credit Corporation whereby CCC agrees to purchase wheat at the loan figure with delivery designated for May 1, 1950.

The wheat may be placed in any type of storage, even piled on the ground in the open; however, condition of the grain at time of delivery is the full responsibility of the farmer.

"Unless too much damage is incurred this would be better than selling the grain at depressed prices and would have a tendency to maintain the market at a higher level," Hammond said.

Later on, after the heavy grain movement is over, government approved storage may become available and the wheat may be placed in the loan or sold on the market if the farmer does not wish to hold it for May 1 delivery. Signing of a purchase agreement does not obligate the producer in any way. On May 1, he may deliver the agreed amount of wheat to CCC, a portion of it, or he may dispose of all the wheat in some other manner.

Tax Payments Down In State

Federal internal revenue collections in Texas totaled \$86,531,012 in April, a 5-per-cent decrease from April 1949 collections, the University of Texas Bureau of Business Research reported.

Income taxes fell 16 per cent during the 12-month period, while employment taxes (other than withholding) gained 10 per cent and withholding taxes increased 3 per cent. Employment collections rose 10 per cent during the same period.

The First District (South Texas) federal internal revenue collections gained 5 per cent in April from April a year earlier, while in Second District (North Texas) collections dropped 20 per cent.

Mr. and Mrs. Regnal Greenhaw, of Amarillo, visited with Mr. and Mrs. George Greenhaw Sunday.

able and the wheat may be placed in the loan or sold on the market if the farmer does not wish to hold it for May 1 delivery. Signing of a purchase agreement does not obligate the producer in any way. On May 1, he may deliver the agreed amount of wheat to CCC, a portion of it, or he may dispose of all the wheat in some other manner.

Sorghum Nursery Established At Texas Tech Now

A sorghum nursery for plant demonstration and testing has been established at Texas Technological college.

One hundred varieties including some of the best known sorghums raised in the Texas plains area, and several new types never tried in the small replicated plots. Dr. A. W. Young, head and professor of plant industry, said that the row tests are introducing sorghums from Kansas, Oklahoma and types sent to the college by the United States Department of Agriculture, Washington, D. C.

Information concerning each of the sorghums will be kept for publication, and inspection of the nursery by farmers of the plains area is invited at any time, Dr. Young said.

Irrigation will be available through the college system if needed, he said. The plots have been hand planted. Each variety is planted in three-row arrangements with the center row to be used for records.

Cynthia Carale and Darlean Greenroyd are spending the summer with their grandmother, Mrs. J. W. Michalen. They are from Amarillo.

Mr. and Mrs. Thomas Adeock of Alaska visited with his sister, Mrs. Dutch Vallance, and Mr. Vallance Sunday.

Safe, Sure Way to STOP MOTH DAMAGE

1A-DI contains no sprays. Safe to use anywhere. One treatment protects against moth damage for five years. Use on all wool clothing, rugs, upholstered furniture. 8 cents a year protection for men's or women's suit—overcoat 12 cents.

FOOTE & FOWLER

Several interesting events are being planned for the afternoons of the three day event and everyone is invited to visit Claude on the 21st, 22nd and 23rd of July and be a part of the exciting and entertaining "Caprock Round-Up."

Mr. and Mrs. Robert Cummings of Lubbock were week-end visitors here with Mr. Cummings parents, Mr. and Mrs. R. C. Cummings, Mr. Johnny Black, also of Lubbock, accompanied, Mr. and Mrs. Cummings on the visit.

Claude Plans For Caprock Round-Up

At a recent meeting of the Harold Gist Post of the American Legion at Claude, Texas, dates and plans were made for the annual "Caprock Round-Up" to be held here July 21, 22, 23. The Round-Up will consist of three night shows. This is a variation from previous Round-Up since afternoon shows were also held.

As the Caprock Round-Up has always been, the Rodeo will be an open show, R. C. A. approved. It was agreed that R. L. Pointer of Elgin, Oklahoma will furnish the livestock for a five point show, calf roping, bull dogging, saddle and bare back bronc riding and bull riding. Pointer furnished the stock for Memphis' Hall County Rodeo June 2,3,4.

Leroy Campbell is business manager of the show and as in the past, Cotton Johnson will be secretary.

Editorial

Democrat Has Birthday

With this issue The Democrat goes into its 60th year of continuous publication in Hall County. Either under its present name, or that of the Hall County Herald, the paper has weathered a fight with Salisbury over the county seat, depressions, droughts and three wars.

It has seen the "City That Soap Built" grow from a dream of a few pioneers to a modern Panhandle county seat with a population that may prove to be well over 5000 when the 1950 census is taken.

And The Democrat has grown with Memphis. It has mushroomed from the 1890 sheet that Editor DeBauenfield edited, managed, printed and distributed single-handed to a 16 to 32 page paper that not only circulates Hall County but finds its way into homes throughout the nation.

The Democrat has continually sought to "bring you news about people you know." Its editorial policies have always centered around promoting Memphis and Hall County as the outstanding area of the Panhandle. The paper recognizes the farmer as a leading citizen of this area and has won several awards for advancing the cause of agriculture and soil conservation.

Although many persons strive to forget birthdays, The Democrat views each proudly. For each time the volume number increases means another year of successful service to you—our readers. May we serve you even more faithfully throughout the coming 60 years!

Press Paragraphs— QUOTING OUR NEIGHBORS

WHO'S DUMB?—The President still thinks that the South is dumb enough to allow his social program to be enacted. The President has been whipped by a combination of Southern Democrats and Northern Republicans. The Democrats of the North stayed with the President. As a result, a purge on Southern Democrats is promised by the administration in 1950. As we recall, Roosevelt tried the purge, and lost out. Truman will be defeated in his attempt if he is so unwise.—The Canyon News

ANCIENT DEBT LAW—We are glad that the jailing of a man for debts happened in Vermont and not in the South. If the man—a GI, he is, too—had been put in a Southern jail on such a charge, we would be today facing an army of "do-gooders" come to institute vigorous action in the prisoner's behalf, and would have a bunch of South-hating Eastern papers and magazines pointing the finger of scorn at such a benighted practice by such benighted people as inhabit this section of the United States. The incident would have been held as typical of the South, a recurrence of peonage, that deserved condign punishment for everybody concerned in the "outrage."

And furthermore, we are glad that it was a Southern man who felt so sorry for the prisoner that he sent more than \$2,000 to Vermont to pay the man out of jail and restore him to his family—a contribution and a solution that seemingly none of the "do-gooders" even thought of.—Hidalgo County News

Farmers Warned On Prevention Of Swine Disease

Truck tires and farmers' shoes can spread cholera, erysipelas and other acute swine diseases. This caution, urged today by the American Foundation for Animal Health, pointed out also that hog cholera is again on the upswing throughout the United States.

Scientists warned especially of three ways in which farmers may accidentally expose their "home" herds to disease outbreaks:
(1) By visiting hog lots where swine diseases are known to exist. Germs may stick to shoes or clothing and when the farmer returns to his own hog lot, he may bring sickness with him.
(2) Driving trucks into livestock lots. Here again, the driver's shoes can become infected, as can truck tires and the truck bed. The Foundation recommends that trucks be disinfected between loads if they go where stock is quartered.
(3) Rendering company trucks which have hauled dead animals may be sources of disease exposure if allowed in livestock yards.

Hog cholera is still the nation's No. 1 swine killer, the Foundation says, and it can be stemmed only through strict precautions, sanitary measures, and vaccination. There is no known cure once an animal is stricken with hog cholera.

Some people are in debt because they spend what their friends think they make.

SPORTS AFIELD

By Ted Kestrag

After more than 200 years of bloodletting and scalp-collecting, most conservation experts agree that it's a waste of money to set a price on the heads of foxes, coyotes, wolves, certain hawks and owls, weasels, crows, mountain lions and such assorted villains. In fact, there is increasing evidence that most of these are not villains at all, but are often beneficial except in isolated cases.

Nevertheless, the bounty system continues—principally because of two powerful factors: Pronounced public opinion, especially among hunters, in favor of bounties; and an unhappy knowledge possessed by conservation officials that some predators sometimes must be controlled somehow even if the bounty system doesn't seem to be the right method.

According to Outdoor Writer Bill Wolf, there isn't any good, factual evidence to prove that bounties materially reduce predator populations, or ever have done so except in small, local areas. Nor is there any evidence that most of the animals and birds turned in for bounties wouldn't have been killed anyhow by trappers, sportsmen and farmers.

Michigan has had unhappy experiences with bounties. From 1869 to the present, it has paid more than \$1 1/2 million bounties on wolves, coyotes, and other animals—and the coyote has increased nicely, thank you.

One of the few good things about the bounty system is that it is the hunters' money going down the drain, not the general taxpayers'.

Predators have been quite happy under the Pennsylvania bounty system which started in 1638. Gray foxes are increasing and expanding their range. Red foxes have thrived under the system. There has been no noticeable decline in weasels, destructive hawks and owls.

The answer adds up the same: Bounties apparently do not control predators. However, predators must be controlled at times, and if the bounty system doesn't work what will?

States are now trying to educate their citizens to accept the logical solution—intense local war where needed on predators by professional trappers and exterminators, plus the education of farmer-trappers in the same sort of work.

No one in conservation denies the necessity of controlling predators occasionally in certain areas, but all students of the problem are coming to the conclusion that such control should be the work of men trained to do the job.

STORAGE OF CLOTHES
After cleaning and moth-proofing your clothes, you can store them in trunks, chests or pasteboard boxes, first lined with paper. Be sure the containers are airtight. After placing the garments in the boxes, lay a piece of tissue paper over the top and sprinkle about four ounces of paradichlorobenzene crystals on the tissue.

Cotton Superior In Folding Test

Tests show that cotton fabric can be folded more times before wearing out than any other fiber in common use in the nation, the National Cotton Council says.

In the course of tests to determine what fabric is best suited to umbrellas, it was learned that fabric of one competing fiber failed after being folded 2200 times another after 8500 times. Cotton was still going strong after having been folded 14,000 times. The tests also showed that cotton had the best resistance to weathering and wetting.

Drive safely on the highways—It might be your own life you save.

This Week in WASHINGTON

THE ECONOMY BLOC in congress can point to the action of the house in slashing three-quarters of a billion dollars off the appropriations for over-all foreign aid appropriations including the European recovery program.

This slash however, works very much like the cuts made in the 80th congress, observers say, when that body sliced millions out of several appropriations, but at the same time granted what they called "contract authority" to spend more, which turned up later in the form of deficiency appropriations.

What the house did with ECA funds was to permit the President, if he deems it necessary, to spend the money in 13 instead of 15 months, so at the end of that time they can come back and get the money for the other two months if they need it. So on the face, it looks like a cut, but actually it's a phony cut, according to the real economists.

Harry E. Humphreys, Jr., president of United States Rubber company, is another business executive who comes forward with the idea that big business must sell itself and the capitalist system to the people to preserve "business freedom and with it, all our liberties." Said Mr. Humphreys:

"The eleventh hour is here for business to speak for itself. Now, and from now on, the men who run American business must devote as much, if not more, time and effort to the public relations of their business as they spend on finance, production and distribution. Unless they do, they will not need to worry about the latter problems. Government will be glad to handle them all."

The lobbyists are striking back. Smarting under the threatened congressional probe of the lobby situation, these various pressure groups are pointing the finger at governmental spending, particularly at a few key agencies. Cited as "brazen" are the reclamation department of interior and the army engineers. It will be remembered that the chairman of the Hoover commission national resources committee called these two agencies "guilty of brazen and pernicious lobbying to achieve their ends." Other likely targets of the lobbyists, attempting to build a back-fire, likely will be such controversial issues

Some folks get so mad at their officials they threaten to vote.

Price Is Complimented With Bridal Shower In Estelline

By KENNEDY

Price was the central figure of the bridal shower held at Estelline, Tex., on Saturday, June 4. The party was given by Mrs. C. E. Wilkinson. As Mrs. Wilkinson read, a miniature bridal party entered. The bride was Donna Sue Eddins and the groom was Ronnie Young. Mrs. K. E. Travis then read "A Toast to the Bride," after which Mary Brumley, Doris Chaudoin, and Tommy Travis sang "Cruising Down the River." As this song was concluded Peggy Phillips and Gaynelle Jones pushed a green and white sail boat loaded with gifts for the bride-elect into the room.

Those present were Mesdames Maud Chaudoin, C. O. Kennedy, R. L. Nelson, Bess Coppedge, O. K. Young, Bill Holland, Jake Morrison, Tracy Jones, J. A. Ballard, F. E. Leary, Raleigh Adams, Jack Cobb, Ben Raley, Claud Arnold, Fred Nivens, Lester Phillips, Joe Eddins, S. S. Cooper, Cecil Adams, J. E. Masterson, W. E. Horgeheimer, Wesley Horzeshelmer, John Berryman, Jim Berryman, P. L. Vardy, Albert Cooper, Lillie Bagwell, L. C. Richburg, W. L. Riggsby and Swain Young.

Tommye Jane Travis, Doris Chaudoin, Mary Ann Brumley, Paula Adams, Nelda Jo Arnold, Patsy Nivens, Peggy Phillips, Donna Sue Eddins, Linda and Ronnie Young.

The hostesses for the occasion were Mesdames John Chaudoin, D. Travis, J. L. Darby, Lon Morton, C. L. Sloan, Sam Power, Edna Winkler, Lara Marcum, Garland Gardenhire, L. A. Tucker, J. C. Richardson, D. Walker, Lee Roy Hutcherson, Lula Huffmaster, J. C. Webster, and C. E. Wilkinson. The hostess gift was a Martha Washington bed spread and the bride's book.

Henry Hays was a business visitor in Wichita Falls Friday.

Pathfinder Officers Are Installed In Impressive Service

Members of the Pathfinder's Council met Tuesday evening, May 31, at 8:00 o'clock in the home of Mrs. W. D. Young.

A short business session was conducted by Mrs. A. Gidden, president, who later installed incoming officers in a most impressive ceremony.

Rooms illuminated by candlelight and artistically decorated with spring flowers formed a pretty setting for the inspirational installation service. Outgoing officers formed a line to receive thanks for their service by Mrs. Gidden and were replaced in line by incoming officers to receive their charge of duty. All officers were formally attired. The following were duly installed:

Mrs. Earl Hill, president; Mrs. W. H. Monzingo, vice president; Mrs. W. F. McElreath, recording secretary; Mrs. A. Gidden, corresponding secretary; Mrs. O. M. Gunstream, treasurer; Mrs. Anna Dickson, parliamentarian; Mrs. Nat Bradley, critic; and Mrs. Gene Chamberlain, reporter.

Mrs. Gidden was presented with a lovely gift as an expression of appreciation for her service as president, and Mrs. Anna Dickson was also presented with a gift in recognition of her work as finance chairman.

An appetizing tea plate was served to the following: Mesdames A. Gidden, Robert Spicer, W. H. Monzingo, A. O. Gidden, Earl Hill, O. M. Gunstream, W. F. McElreath, Earl Pritchett, Anna Dickson, Gene Chamberlain, and hostess, Mrs. Young.

BRICE

By MRS. STARR JOHNSON

Rev. and Mrs. W. C. Stockett were guest in the Merle Lemons home Sunday. Rev. Stockett has resigned as pastor of the church here and has accepted the pastorage of the First Baptist Church in Garfield, Ark.

Mr. and Mrs. J. B. Riddle and children of Earth, visited Sunday with her sister, Mrs. C. A. Hightower and Mr. Hightower.

Mr. and Mrs. J. C. Johnson and children, Max and Judy, visited Sunday at Panhandle with her parents, Mr. and Mrs. A. C. Hartzog.

Jack Dillard of Marietta, Okla., is visiting his aunt, Mrs. W. E. Davis and Mr. Davis.

Jenny Starr Johnson of Pampa visited the past week here with relatives.

Gussie Bullock who is an X-ray Technician in a Dallas hospital is spending a few days with her father, W. N. Bullock and family.

Mr. and Mrs. D. P. Osborn went to Vernon Sunday to get their grandsons, Lee and Jean Osborn, of Dallas who have visited relatives at Vernon the past week.

Mrs. T. W. McAnear and children visited Sunday at Hedley with her parents, Mr. and Mrs. J. D. Ray.

Mr. and Mrs. Cal Holland were Plainview business visitors Sunday.

T. W. and James McAnear were Vernon visitors Sunday.

Locals and Personals

Miss Oneta Ables returned home from Amarillo Sunday after spending the past two weeks there with her sister, Mrs. Bill Day and family.

Mrs. Henry Hays and Mrs. Ottie Jones were in Silvertown Thursday afternoon on business.

Mrs. T. M. Harrison and her brother, E. F. Granberry of Berger, left Memphis today for New York city on an extended vacation trip. They plan to go by way of Austin where they will visit a brother and will also make numerous other stops en route visiting with friends and relatives. In New York City they will visit with Mrs. Granberry's daughter.

Sam L. Smith has been taken to the veteran's hospital at McKinney. He was accompanied by his wife and brother, Henderson Smith.

Sheldon Anisman returned home Friday from Peacock Military Academy where he has been attending school. He will spend the summer with his parents, Mr. and Mrs. A. Anisman.
