## FIRE DESTROYS A. W. HOWARD COTTON OFFICE

Firemen here Monday afternoon fought a stubborn cotton fire for more than four hours after fire broke out shortly after 1 p. m. in the A. W. Howard Cotton office. Howard said damage was not too great since the fire was confined to the sample room, but about three bales of loose cotton was destroyed. Water and smoke damage will probably be heavier than fire damage, Howard said. Knowledge of how the fire began was not known, but several farmers and cotton men were in the sample room when the fire broke out. Volunteer firemen pumped water into the smoldering second story cotton office for about two hours before they were able to gain control of the smoldering blaze.

### F. L. Hill Wins Damage Suit From Bus Company

F. L. Hill a well known farmer of Donley and Hall counties was awarded \$50,000 by a jury in the United States District Court recently in Amarillo as a result of injuries received in a wreck last August. The jury deliberated 42 minutes before returning the verdict. The suit was for personal injuries suffered by Hill August 31 when a Continental Bus ran out of control and turned over onto Hill's car about 3 miles west of Hedley. Twenty passengers were on the bus at the time it overturned. Frank Armstrong of Plano was riding with Hill at the time of the accident and was also injured. Hill was represented by Merchant & Fitzjarrald of Amarillo. Fitzjarrald is formerly of Memphis.

The Memphis Cyclones landed two players on the official all-district 3-AA football offensive and defensive team, released today. Charles Messer was an odds-on favorite for the left end position on the mythical eleven, and Fred Vinson was the unanimous choice for right tackle honors. The selections were made by the coaches of the district, and the team is being sponsored jointly by the Memphis Democrat, The Paducah Post, The Wellington Leader and The Childress Index. The district champion Childress Bobcats dominated the dream team, as could be expected, placing three men in undisputed posts, and two other Bobcats tied for backfield honors. R. D. Bradshaw at right end was chosen for that position without opposition, as was Jerry Jeffries at quarterback. Bobcat Jimmy Williams won a spot at right guard. In the backfield, Michie Compton and Everett Jones were tied for right half back honors. Runnerup Wellington laided four players on the team. Ferrell Kent was named at left tackle, Floyd Hood at left guard, and Vesta Lee Orr garnered a majority of the votes for the center slot. Hoot Gibson, rampaging left halfback for the Skyrockets, was an easy choice at that position. Paducah landed just one man on the team, but his was a unanimous choice. Pat Green, practically a one-man backfield for the Dragons this season, won the vote of every player and coach casting a ballot. Offensive team: le Charles Messer, Memphis; lt Ferrell Kent, Wellington; lg Floyd Hood, Wellington; rg Vesta Lee Orr, Wellington; c Jimmy Williams, Childress; rt Freddy Vinson, Memphis; re R. D. Bradshaw, Childress; qb Jerry Jeffries, Childress; fb Pat Green, Paducah; lh Hoot Gibson, Wellington; rh (Continued on page 8)

### AIR FORCE MEN CHARGED HERE WITH CAR THEFT

Two AWOL Shepherd Field Air Force privates are still in Hall county jail this week charged with automobile theft after they were caught by State Highway Patrolmen near Claude last Wednesday after stealing a car in downtown Memphis. The Air Force men were caught only one hour after they drove off in R. C. Lemons' 1950 Chevrolet from in front of his furniture store here on Main street. The soldiers told officers they were AWOL and were headed for California. They were Jasper Leroy Barr Jr. 20, of Salt Lake City, Utah, and Wayne Elgin Hart, 18, of Brooklyn, N. Y. Judge M. O. Goodpasture last Friday set bond on each airman at \$1500. Neither was able to make bond and have remained in jail here. Last Friday Shepherd Field Air Police refused to accept a collect call from Sheriff E. S. Morrison concerning the boys. Morrison added that such situations usually has to go through channels in the Air Force and missing posters would probably be sent out on the boys later and Military authorities would then be after them. County Attorney W. J. Bragg added that if the boys are tried here and convicted, of motor vehicle theft, the sentence is from two to seven years in the penitentiary. Lemons' automobile was returned by Highway patrolmen, undamaged.

## Herbert Sisk Injured In Car Accident Mon.

Reported to be in improved condition at Odom hospital today is Herbert L. Sisk, prominent local Buick dealer, who suffered injuries last Monday evening in a highway accident between Lelia Lake and Hedley on Highway 287. Sisk, 43, was returning from Amarillo in a 51 Ford when the accident occurred. According to highway patrol, Sisk swerved to miss an on coming car and his car skidded on the wet road and was thrown into the path of the car driven by a soldier and his wife. Sisk's car rolled over and came to rest pinning his head under the automobile. A truck had to be called from Hedley to lift the car to remove Sisk. He was brought to Odom hospital in Memphis by Murphy-Spicer where doctors gave blood transfusions and worked on him for about three hours. This morning he was reported to be in improved but still in critical condition. Injuries so far include a broken left leg, several broken ribs and possible head and internal injuries. Sisk, well known in Memphis and this area, was not even recognized by attendants or doctors until after he had been cleaned up by hospital attendants. Blood transfusions were held up temporarily because Sisk has blood type AB, and someone had to be found with that type blood. Clarendon authorities reported the soldier and his wife, Sgt. and Mrs. George Carpenter were taken to Stewart's Clinic in Clarendon and treated for minor injuries. Sgt. Carpenter was enroute to Montana, his home, before leaving for overseas.

**SPANISH QUEEN**—Sue Miller was recently elected Queen of the Memphis High School Spanish Club. She is the 16-year-old daughter of Mr. and Mrs. Bill Miller.

## Burglars Active All This Week In Hall County

Burglars in Hall county have either moved in or have started activity as Sheriff's offices have received four complaints this week of small time burglaries. Sunday night a grocery store and service station was entered in Lakeview and a quantity of grocery staples and some money was taken. Also sometime Sunday or Sunday night the office of the Paymaster Gin here in Memphis was entered and among other things, a small table model Motorola Radio was stolen. Tuesday night, both the grade school and high school were broken into and entered at Turkey. Thieves there evidently knew the building because cabinets and desks that contained money were the only ones entered. Also the (Continued on Page 8)

Notice to all children. The Memphis Democrat has been named as postal assistant to Santa Claus during the Christmas rush. Santa Claus has asked the Democrat to take all the letters written to him from Memphis and surrounding territory and mail them to him in one bundle so that he will be sure and get each Christmas order. He also gave the Democrat the privilege of printing a copy of each letter so that the parents of each child will know what Santa is going to bring. Just mail them to the Memphis Democrat, Memphis, Texas and we will see that they get to Santa Claus.

## Bath-Time Fun

Bath time can be fun for both mother and baby, but mother should take care to set the right note at the start. Most babies seem to take naturally to their baths, but at a time when everything is new and strange to them they need the feeling of security that only a confident, unhurried and cheerful mother can provide. Mother should talk gently and reassuringly to her little squirmers while she lathers him and rinses him off. If she laughs at his first tentative kicks and splashes he will be encouraged to laugh with her. She must hold him firmly to keep him from slipping down into the water, and to support his head and back, but a firm hold does not mean a tight clutch. Baby will struggle against a hold that is uncomfortable or that suggests tension on the part of the holder.

If all tension has been avoided,

and baby has been encouraged to laugh, gurgle and splash while he is being bathed, he will love the after-bath lotion routine, the over-all application of a pure oil-and-water emulsion with lanolin and antiseptic added, which helps protect his tender skin from chafing, prickles and diaper rash. Unhindered by clothing, he will be free to stretch, kick and squirm while mother uses a cotton ball moistened with the lotion, to pat the lotion into each tiny crease and fold.

As baby gets older he will enjoy a floating toy in his bath. When he is old enough to graduate to the family bathtub some of the water can be let out after he has been bathed, and he can be allowed to play and splash about in the remaining five or six inches, while mother keeps a careful watch to see that all goes well.

B. Kennedy, Rufus Grishem, W. H. Monzingo, C. W. Broome and Mrs. Frank Foxhall. The next

meeting will be in the home of Mrs. Anna Dickson on Dec. 3.

## Pimpled Complexion

Q. Dear Peggy: Is there any cosmetic preparation that you can recommend for a skin outraged with pimples or hickies? I see young people plagued with adolescent acne and young women my age still often affected. Surely there must be something special for it. Mrs. A. W. C.

A. The first step is to cleanse the skin as perfectly as possible with a lotion cleanser, no oil, a cleanser containing a fin skin antiseptic. Follow this with a greaseless antiseptic creaming over the immaculately clean skin. This way you stop the spread of infection over the surface while giving quick help for improvement. VELOCIA is the new skin care treatment providing these twin aids, lotion cleanser and cream both containing a remarkably fine antiseptic. VELOCIA set box complete \$2, plus tax at Fowler Drug Store. When you set the hydraulic lever on the WD Tractor, you can add as much as a thousand pounds of weight on the rear tractor wheels.

As the drawbar load increases, the hydraulic system uses the weight of the implement plus the weight of the soil to bear down on the wheels. Location of the implement behind the tractor gives it leverage, which multiples implement weight at the tractor axle.

It's entirely automatic. The tractor selects the amount of weight needed. And it's all a part of the complete WD hydraulic system—no extra equipment.

## WSCS Meets At Methodist Church

The Women's Society of Christian Service met in the Ladies Parlor at the Church on the afternoon of Nov. 19th.

The meeting was opened by Mrs. Frank Foxhall, president. The Devotional was given by Mrs. C. W. Broome. The Annual Report of the Conference Minutes and Conference officers was led by Mrs. W. H. Monzingo, assisted by the officers of the local society.

The following women were present: Meses. Myrtis Phelan, D. A. Neeley, W. F. McElreath, Jessie Baker, A. C. Hoffman, O. M. Gunstream, J. A. Ballard, Edd Crump, Rollo Davidson, M. G. Tarver, N. A. Hightower, J. J. McDaniel, D.

Bath-Time Fun

Bath time can be fun for both mother and baby, but mother should take care to set the right note at the start. Most babies seem to take naturally to their baths, but at a time when everything is new and strange to them they need the feeling of security that only a confident, unhurried and cheerful mother can provide. Mother should talk gently and reassuringly to her little squirm-er while she lathers him and rinses him off. If she laughs at his first tentative kicks and splashes he will be encouraged to laugh with her. She must hold him firmly to keep him from slipping down into the water, and to support his head and back, but a firm hold does not mean a tight clutch. Baby will struggle against a hold that is uncomfortable or that suggests tension on the part of the holder. If all tension has been avoided,

and baby has been encouraged to laugh, gurgle and splash while he is being bathed, he will love the after-bath lotion routine, the over-all application of a pure oil-and-water emulsion with lanolin and antiseptic added, which helps protect his tender skin from chafing, prickles and diaper rash. Unhindered by clothing, he will be free to stretch, kick and squirm while mother uses a cotton ball moistened with the lotion, to pat the lotion into each tiny crease and fold. As baby gets older he will enjoy a floating toy in his bath. When he is old enough to graduate to the family bathtub some of the water can be let out after he has been bathed, and he can be allowed to play and splash about in the remaining five or six inches, while mother keeps a careful watch to see that all goes well.

B. Kennedy, Rufus Grishem, W. H. Monzingo, C. W. Broome and Mrs. Frank Foxhall. The next

meeting will be in the home of Mrs. Anna Dickson on Dec. 3.

## Pimpled Complexion

Q. Dear Peggy: Is there any cosmetic preparation that you can recommend for a skin outraged with pimples or hickies? I see young people plagued with adolescent acne and young women my age still often affected. Surely there must be something special for it. Mrs. A. W. C.

A. The first step is to cleanse the skin as perfectly as possible with a lotion cleanser, no oil, a cleanser containing a fin skin antiseptic. Follow this with a greaseless antiseptic creaming over the immaculately clean skin. This way you stop the spread of infection over the surface while giving quick help for improvement. VELOCIA is the new skin care treatment providing these twin aids, lotion cleanser and cream both containing a remarkably fine antiseptic. VELOCIA set box complete \$2 plus tax at Fowler Drug Store. **POWER-SHIFT WHEELS**  
As simple as a nut on a bolt

The spacing you want and set the stops on the trails. Ease in the clutch. Wheel screws in or out selected point.  
It's all there is to it. In five minutes or less you change the WD or CA rear wheels to the tread you want. Safe... quick... easy. You don't have to jack up the tractor, you don't have to lift a pound.  
The wheel spacing to fit the job is often neglected, and the old-fashioned way is a tough chore. With the WD Power-Shift spacing, you can change the wheels for best performance and fuel economy on each job.  
Stop in and let us give you a five-minute demonstration.

**WD TRACTION BOOSTER**  
Gives You More Work Power

When you set the hydraulic lever on the WD Tractor, you can add as much as a thousand pounds of weight on the rear tractor wheels.  
As the drawbar load increases, the hydraulic system uses the weight of the implement plus the weight of the soil to bear down on the wheels. Location of the implement behind the tractor gives it leverage, which multiplies implement weight at the tractor axle.  
It's entirely automatic. The tractor selects the amount of weight needed. And it's all a part of the complete WD hydraulic system—no extra equipment.  
Stop in and let us show you how the WD will do drawbar jobs which ordinarily require a much heavier tractor.

# Hunting Safety Rules Can Prevent Accidents

During the next few weeks thousands of hunters will take to the fields and woods on their annual hunts and unless the simple rules of safety are followed, many will be involved in a serious accident. Most hunting accidents can be prevented.

It is the "trigger happy" hunters, says R. E. Callender, Extension specialist in wildlife conservation of Texas A & M College, who endanger the lives of every other hunter in the woods and cause needless damage to wildlife. Wild shooting leaves many birds and animals crippled and these are usually lost because they are never found.

Practicing safety with guns in the fields or woods, says Callender, is a good conservation practice that applies both to humans and wildlife. He points out that about two-thirds of all hunting accidents result from three causes, humans in line of fire, mistaking humans for game and hunting with safety catch off on the gun or rifle.

According to Callender, good sportmanship is just using good manners while on the hunt. It includes using the right gun for the right game; hunting only in season and not taking more game than can be used even though the bag limit may permit the hunter to take more. Wise hunters, he adds, will use a trained dog to retrieve crippled birds.

The careful and wise hunter never throws down a lighted cigarette, now leaves a campfire burning, for either may start a destructive grass or forest fire. He breaks matches after they are struck and before they are dropped to the ground and leaves the area where he has hunted in good condition. In other words, Callender says he is a good housekeeper in the woods.

Here is Callender's code of safety for the hunter. Treat every gun as if it were loaded; it is usually the empty gun—they thought it was empty—that takes the most lives. Loaded guns should never be carried in an automobile.

The gun barrel and action should always be checked to make sure there are no obstructions in either. The gun should be carried so that the hunter always has control of the direction of the muzzle, even if he should stumble. The good hunter never pulls the

trigger until he is sure of his target and never points a gun at anything he doesn't intend to shoot.

The specialist says loaded guns should never be left unattended and that the hunter should unload his gun before climbing a tree or over a fence. Bullets fired at flat, hard surfaces, or at objects on the surface of water may ricochet and hit objects not thought to be in the line of fire. Last but not least, he says gunpowder and alcohol should never be mixed for the results can be disastrous.

The intelligent hunter will be thinking how he can aid in conserving the wildlife of the land so that he and others will have areas where they can continue to enjoy one of America's greatest sports in the future. Wasteful and careless hunting habits on the other hand, says Callender, can destroy the protection, vegetation and even the wildlife itself. It's up to every hunter, he concludes, to see that this situation does not exist in the areas where he hunts.

## Stock Market Trend Uneasy In War Economy

In normal times there are certain data that enable an investor to evaluate a common stock and draw a logical conclusion as to its worth and future outlook. Under war economy they normal method does not function.

Rules of evaluation are not now a major criteria of a stock's net worth or of its future prospects. A chief determining factor today is how the government's activity of allocation, quotas, cutbacks, controls and taxation affects a company and thereby the price and outlook for its stock. The past history of a security under these conditions is not sufficient.

The control of wages, prices and production will go far to determine how much a given company can earn today under these regulations,—or, in fact, stay in business at all. Under these conditions what is the investor going to do to protect his hard-earned cash—which, incidentally, de-

precipitates as the general level of prices goes up.

Increased taxes will materially reduce net earnings of many corporations. Increased wages and other costs will have the same effect. Even prices have reached a point where they are building up a consumer resistance and hurting

sales. The investor's situation is aggravated by the fact that we have had a business boom for the past twelve years. The stock market, as measured by the Dow-Jones Industrial Average, has gone up about 195 per cent in the past ten years.

Some day both business and the stock market will turn down—all booms come to an end. The recent action of the market suggests the turn downward has already started.

In view of the above, the investor should have about 25 per cent of his total investment fund in

### LETTERS FROM READERS

The vote by the people of Texas November 13 rejecting four proposed constitutional amendments and approving only one by a small majority is much more significant than appears on the surface. There is no question but what the result was a demonstration that Texas citizens oppose further increase in taxes of any kind and any further increase in government costs.

Had any amendment been submitted to raise the ceiling on appropriations for any of the departments, boards, bureaus, colleges and courts it also would have assuredly been defeated just the same as the defeat sustained by the amendment to increase the old age assistance fund by \$7,000,000. The Texas voters delivered a mandate that they want to put a stop to constantly increasing government costs and taxes, a mandate which all lawmakers will doubtless heed.

This is not to be wondered at when the expense of running the state government is now well over \$1,000,000,000 for the biennial period, with the public well aware that departments, boards, colleges and institutions will be demanding more and more regardless of the effect upon taxpayers, who evidently are fed up with socialistic schemes and costs by either the federal or state government. People have learned money appropriated by the government doesn't come from the government, state or federal, but comes from the pockets of the taxpayers.

All through the Texas constitution economy is emphasized. All through the constitution are signals and warnings to go slow in enacting taxes. The people in the cities and at the forks of the creek cheered this program by their vote on Nov. 13. Yet when the next regular session of the legislature is held there will be heavy demands for increased appropriation, which would mean new and heavier taxes unless the legislature remembers both the constitution and the vote of Nov. 13.

Maybe it would be a good idea to submit to vote of the people all proposed increase in government costs and increased taxes. All such propositions, it has become evident, would be defeated. Many newspapers over the state in editorials and articles have pointed out that the Nov. 13 vote said "No" to more taxes and more government costs. The voters also realized that every business also has a heavy burden in federal taxes, with the Washington administration demanding at least \$4,000,000,000 more in new levies.

If the state and federal governments would eliminate waste, and the waste runs into the billions, then there would be sufficient money for all purposes and no need of levying new taxes. Business and individuals are forced to economize, and citizens are convinced the time has come for government to do likewise.

Our tax burdens already are eating the heart out of American Free enterprise, for it is recognized that taxation and confiscation are rapidly becoming synonyms.

To prove the point Quentin Sebeie in a letter to the Dallas News says: "Now after 18 years of increasing effort to saddle socialism on the United States we have a staggering debt and nothing short of confiscation in the matter of taxes. It is about time."

JAP POWS FROM SIBERIA . . . The first Jap prisoners released by Russia since she announced she held no prisoners return to Tokyo from Siberia. They claim Russia holds many more.

in view of these experiences in other countries, that the people of the United States say 'enough' also."

And this baers on the gas gathering tax on exports passed by the Texas Legislature, an excerpt from a column by George E. Sokolsky:

"When states erect barriers against their own citizens and other Americans they are pursuing a harmful course, one, curiously, which was among the principal causes of the French revolution. The octroi was such an internal revenue tax that it broke the backs of the French people."

He is arguing against one state trying to tax the life out of another state and has bring about retaliation, all of which doesn't fit in with the American concepts written in the constitution.

### Banks Ask Help On Coin Shortage

Memphis First State and First National banks have joined with banks throughout the country in calling for a drive to turn in all coins in saving banks during the Christmas shopping season.

The national mints and banking system will be unable to meet the demand for coins unless steps are not taken to avoid shortage of these coins.

Bank officials pointed out that if each of the estimated 38,788,000 American families should release from hiding and return to business use just ten one-cent pieces, over 1,260 tons of scarce copper would be saved and put back into use.

Mints in full operation would require five full months of work to produce this many pennies for business use.

Memphis banks will accept all of your pennies and coins and be glad to exchange currency for them if you will only bring them

## Pearls of Wisdom

**Simple Abundance**  
 In this whirligig world of atom and push-button warfare and mechanized war and inventions, it is comical to know there exist humans whose rhythm of life is unaltered by the rush of civilization; whose existence is neither tainted by gadget nor regulated by the tick of the clock. God-fearing souls travel a path through the hill country of Tennessee, Kentucky, and Virginia. Content with their making what they have read their Bibles, work

their crops, sing songs of praise, and thank God for their simple abundance.  
 There is a story, now pigeon-holed as mountain folklore, of a British barrister, named Tom Hughs, who dreamed of a Utopia and to make his dreams come true colonists from the English gentry. His Utopia became Rugby, Tennessee and ever today, tho' the originals have scattered some of the imposing buildings still stand as monuments to his hopes. At first, social life flourished for the new comers and mountain folks stared open-mouthed at fancy dressed ladies and gentlemen

on promenade but the project failed because the young Englishmen failed to exploit the opportunity and, in time, the clipped accents and formal dress gave way to the native drawl and mountain garb.  
 Though many years have passed since Rugby's heyday, most of the true mountaineers are descended from English stock as is evidenced by the tinge of Elizabethan England which colors their speech and customs. Despite the many cults and contending beliefs in the outside world, religion among the mountain folks has changed very little with the passing of time. A traveler in some remote region may still come upon "a foot-washing" conducted with Biblical simplicity

while small chapels, scattered throughout the mountains, and the spreading oaks afford shelter for their preachings, as well as their annual "harp singings" which everyone gathers from miles around.  
 The annual harp singing, the ancient art of reading music from shaped notes, is held once each year. The hill people (little old, big, and young) ford the streams and climb the trails with their ancient hymnbooks tucked under their arms, for only religious songs are heard at a harp singing. The festivities go on for a day or two and someone always "nearly dies" from overeating.  
 In good times and sad, these mountain people cling together like one huge family. When someone is "took bad" neighbors gather in to "set up" with the sick. The doctors are few and far between in the mountain regions so, if the patient gets worse and dies, it's his friends who build the coffin, dig the grave and shovel dirt on "the dear departed."  
 One might say they are happy in their ignorance and yet, I think, they find life, stripped of all its shams and artificialities, good and wholesome. They plant their corn, for that is about all they can grow on the mountain slopes, work it with one mule and a walking plow and, from the harvest, supply their needs. They don't want much and so are satisfied with the little they have. Corn-shuck mattresses, oil lamp, and lie soap, made when the moon is right, serve their purposes and corn-shuck dolls delight the small fry.  
 To the mountaineer, his home is his castle and he loves his hills with an intense devotion. He will expound for hours on the beau-

ties of nature and fire both barrels if his freedom or the sanctity of his home is threatened. Of course, he may make a little moonshine and even grandpa may dip a little snuff or puff on a cob pipe but they go their way with an inner assurance that "Gods" in His heaven; all's right with the world.  
 Thank God this Thanksgiving Day here are still those simple souls who...  
 Far from the maddening crowd's ignoble strife  
 Their sober wishes never learned to stray;  
 Along the cool sequestered vale of life  
 They kept the noiseless tenor of their way.

### Mrs. Harrison's Brother Dies In Borger Hotel

Funeral services for Eugene Franklin Granberry, brother of Mrs. T. M. Harrison of Memphis, were held last week in Amarillo. Burial was in Llano cemetery under direction of Blackburn Shaw. Granberry who moved from Amarillo to Borger about four years ago was found dead about 9 a. m. last Tuesday in his hotel room at Borger. While attending a convention, he suffered a heart attack, and returned to his room, following treatment by a physician. He was 73 years old.

He came to Amarillo from South Texas about 1905 and for a number of years worked for a stationery and novelty company. During the 1920's he was active in the oil business and remained active in a leasing and contracting business until the death of his wife in 1940.

Other survivors include two brothers S. R. and R. C. Granberry, both of Austin and a daughter, Mrs. Elizabeth Granberry McKean of New York.

It was because of the illness of the better half who has been wrestling with Flu. I have been making a poor stab at being dour of bitter tasting medicine, cook-dishwasher, floor-sweeper, and such like. People who think women have an easy time doing

housework, and especially when someone in the family is sick, will change their minds if they have to change places with their better halves.

At the start of the recess I have been taking, carpenters built a den for me. So much No. 2 lumber was used in the den's construction, it is full of knot holes. I have decided to name the den KNOT HOLE. Wife suggested "Dog House", but that is too suggestive. The idea is good, anyway, for it will be a place to hide away and peep out the knot holes when, because of some perverse action on my part I am relegated to the dog house. As soon as it is finished and furnished, it will be open at all times to men who are in the dog house.

It looks like Hall County will not get as much cotton as it was hoped early in the harvest season. The good price of cotton will make up for a lot of shortness in yield. A few feeble attempts at rain, resulting only in "traces" as the Weatherman says, has kept wheat alive, but it can't do much growing on promises. Some real honest-to-goodness rains are needed—as they have been all through this year.

Christmas is only a little more than three weeks away, but it will not be a time of rejoicing for a lot of folks who have relatives in Korea. It looks like a lot of bungling has been done in the conduct of the "just a police action." And here in America, the folks at home have lost a lot of confidence in the management of governmental affairs, and the defection of higher ups. Whether a truce will be declared remains to be seen, and if the Reds sign up, will it mean they will keep to their agreements? Or will they take advantage of the armistice—if one is made—to bolster their fighting forces so they can renew the struggle with greater violence? Will they release our men who they are holding prisoners? Will they continue atrocities on said prisoners of war on a greater scale? These and many more questions are popping up in the minds of the common people of America.

It would be fine if those at the heads of all governmental agencies would forego politics and try to serve their country. It seems like every act is based upon the presumption, "It will get me more votes" instead of "It will be of

service to my country in this hour of need." People in their country's travail are crying, "God give us men! Strong men!"

Death is riding the highways these days. It is becoming perilous for folks who value their lives to get out on any highway, due to carelessness on the part of many drivers who think the road is for them only, and all others must stay out of the way. They pay no attention to road hazards, plain traffic rules and markings.

Come see me at Knot Hole sometime.

### 150 Parents and Guests Hear Panel Discussion at PTA Meeting

Approximately 150 members and guests attended the 6 o'clock meeting of the Stephen F. Austin Parent-Teacher Association Thursday evening, Nov. 15.

The meeting was held in the school auditorium prior to the open house which was featured that evening by the three Memphis schools.

Introducing the program, Mrs. E. L. Kilgore gave a devotional

on Thanksgiving based on the Biblical scriptures found in the 100th Psalms.

A revealing and interesting panel was given on "Freedom Through Discipline." The discussion was led by Mrs. Roy L. Guthrie and others taking part on the program were Mrs. O. I. Seale, Mrs. E. W. Godfrey, Miss Mary Foreman, and Miss Alma Bruce.

Mrs. Seale discussed the Child labor laws pointing out the protection these laws give our children.

Mrs. Godfrey told the group how narcotics are menacing our youth of today and why the dope traffic is spreading throughout our nation.

Miss Foreman talked on Sex Crimes. She pointed out how the adults of our community can cooperate with the law enforcement officers and why it is to our advantage to do so.

Following the program, the group was taken on a conducted tour to each classroom and the cafeteria. Students from the 6th grade served as guides for the tour and hosts for the evening.

The schools featured the "know your school" night in observance of National Education week.

### Sodlitan Class Enjoys Social In Hightower Home

Members of the Sodlitan Class of the First Baptist Church enjoyed a Thanksgiving social in the home of Mrs. W. T. Hightower on Thursday, Nov. 15. Sharing hostess duties with Mrs. Hightower were Mrs. Burl Smith, Mrs. Joe Reheis, Mrs. A. W. Howard and Mary Bownds.

Decorations throughout the entertaining rooms carried out the Thanksgiving motif. The dining table was laid with a white cut-work cloth and centered with an arrangement of mums flanked by lighted green candles in pumpkin holders. Mrs. Henry Hays poured tea and other dainty refreshments were served.

Mrs. Henry Scott, president, presided over the business session. Officers gave reports and Mrs. Leon Randolph led in prayer. Mrs. Frank Ellis brought an inspirational devotional taken from the book of Psalms with Thanksgiving as her subject.

Mrs. Albert Bailey of Estelline guest speaker, gave an interesting review of the book, "The Greatest Story Ever Told." She was presented with a mum corsage.

Those enjoying the evening were Meses. Henry Scott, Allie Caviness, H. Byrd, Henry Hays, J. R. Sanders, Bud Godfrey, Earl Pritchett, Frank Ellis, Leon Randolph, L. O. McCoy, Oattie Jones, George Cullin, Stella Jones, Theodore Swift, Bill Merrill, Grace Duke, Emma Baskerville, A. W. Howard, Joe Reheis, Mary Bownds, Burl Smith, W. T. ### Atalantean Club Meets In Home Of Mrs. John Fowler

The Atalantean Club met Wednesday, Nov. 21st in the home of Mrs. John Fowler.

At the request of Mrs. C. R. Webster, club delegate to the state convention, Mrs. R. S. Greene of the 1913 Study Club gave a delightful and informative report on the annual convention of the Texas Federation of Women's Clubs held in Denton.

Mrs. Edwin A. Smith, Jr., president, conducted the business session. Plans were made for the Christmas Party and it was decided that the club would not meet Dec. 5th in order to give members an opportunity to attend a talk to be given in Amarillo by Mrs. Hiram Cole Houghton, General Federation of Women's Clubs president.

With the words of Tennyson, "Men may rise on stepping stones by their dead selves to higher things", Mrs. S. B. Pallmeyer opened the day's program.

In her talk entitled "Our School System", Mrs. O. I. Seale said, "We must remember that through our schools march future generations. On them depends our destiny. Our schools try to make free thinking citizens."

Mrs. Henry Foster gave an enlightening talk on the subject "Our Children and Our Schools." Although the schools in the United States are the best in the world, there are many improvements to be made, she said. She pointed out that provisions should be made in our schools for the mentally gifted as well as the retarded and other exceptional children. Because of the shortage of fully qualified teachers and inadequate building space, our classrooms are overcrowded.

Other members joined in an open forum, "My Suggestions", to conclude the program.

Delicious refreshments were served to one guest, Mrs. Ray a former member of the club, and the following members: Meses. Bill Cosby, H. B. Estes, Henry Foster, N. A. Hightower, H. J. Howell, T. M. Isham, Claud Johnson, C. W. Kinslow, Ed Monzingo, J. H. Morris, J. H. Norman, J. A. Odum, Myrtis Phelan, S. B. Pallmeyer, O. I. Seale, Robert Sexauer, Edwin A. Smith, Jr., Robert Spicer, D. A. Neeley, Bob Roberts and the hostess, Mrs. John Fowler.

### Mizpah Guild Features Special Program; Childress Woman Is Guest Speaker

"The arm of the church reaching out to make America Christian", was the definition of Presbyterian National Missions as given by Mrs. E. Wilson Cole of Childress who was the guest speaker at the Mizpah Guild meeting in the home of Mrs. Clifford Farmer on November 19.

The meeting was an outstanding one in the year's program of the Guild. The theme of the meeting was "Children of the Church" and attention was directed to the Alaskan and Chinese children who live at the mission stations of Haines House, Alaska and Ming Quong Home, Calif., respectively. In carrying out the theme, the various rooms were decorated with Eskimo and Chinese motifs. Sharon Harrison greeted the members and guests at the door attired in an Eskimo parka and furs.

Mrs. Clifford Farmer, president, called the meeting to order. Mrs. Frank Finch gave the opening de-

votional on, "Co-Workers With God," which was a Bible study of 1 Cor. 3 & 4. She was assisted by Mrs. O. V. Alexander, Mrs. Buster Helm, Mrs. Paul Montgomery, and Mrs. Mas Wilson.

After a short business meeting, Mrs. Burr Morris, program Chairman, introduced the guest speaker, Mrs. Cole showed colored slides of the work at the two children's homes after talking on the work of the Board of National Missions in general, and of the part Presbyterian women can play in furthering the work.

Refreshments were served from a snow-covered tea table, with an igloo centerpiece, complete with reindeer, dog-sled and an ice pond which was surrounded by rocks gathered from the Yukon River by Frank Finch on his recent trip to Alaska. Sloe-eyed Elizabeth Grundy and Linda Leslie, dressed as Chinese girls, assisted with the serving.

Mrs. Cole is the wife of the Presbyterian minister in Childress and is the Secretary of National Missions of the Amarillo Presbyterial.

Those who enjoyed this unusual meeting were: Mesdames O. V. Alexander, Ora Denny, Claude Ferrel, Howard Finch, Frank Finch, Clifford Farmer, Dorcas Ruth Foster, Boodie Grundy, Carl Harrison, Buster Helm, Minnie Kinslow, Paul Montgomery, Burr Morris, Gladys Power, Zee Snell, Pearl Ward, Elmo Whaley, Mas Wilson, Bill Cosby, Bill Leslie and Miss Mary Noel. Guests included: Mrs. E. Wilson Cole, Mrs. Bert Brewer and Miss Helen Bremmer, all of Childress; Miss Tommy Noel of Denton; Misses Elizabeth Grundy, Sharon Harrison, and Linda Leslie; and Mrs. Jeff Ray.

### Festive Time Observed By 1913 Study Club

In keeping with the Thanksgiving season, the members of the 1913 Study Club enjoyed a "Festive Time" program when they gathered in regular session in the home of Mrs. Rufus Grisham the afternoon of Wednesday, Nov. 21.

An important forthcoming treat discussed during the usual business session, was the luncheon and address by Mrs. Hiram Houghton, President of the General Federation of Women's Clubs, to which the ladies of the various federate clubs of The Seventh District are invited. Several members of the 1913 Club of Memphis plan to attend this special gathering in Amarillo, December 5.

Developing the program theme of Festive Time, Mrs. Brown Smith read a paper telling of the wondrous treats and spectacles offered the Britishers and tourists during the 1951 Festival Year in Britain. Mrs. Paul Montgomery followed with an interesting description of the many festival celebrations observed in America. The program was concluded by Mrs. R. C. Walker's reading bits of Thanksgiving philosophy and poetry including "When The Frost Is On The Pumpkin".

Lovely refreshments were served to sixteen members and a vote of adjournment was proffered by the club president, Mrs. M. E. Wilson.

### Stitch and Clatter Club Meets With Mrs. Mary Eddins

### Impressive Candlelight Ceremony Unites Marriage Peggy Mitchell, Loyd Becker

An impressive candlelight ceremony solemnized Tuesday, Nov. 20, at the First Methodist Church in Memphis, Miss Mitchell became the bride of Mr. Loyd Becker.

Bollo Davidson, pastor, presided over the double-ring service before an archway of greenery, and pompons flanked by a branched candelabra.

Mrs. Davidson, at the piano, played "Always," "Indian Love," "Clare De Lune" and the traditional wedding marches for professional and recreational.

The bride, given in marriage by her father, J. R. Mitchell, Jr., wore a light roseberry velvet gown with a delicate lace trim. Her hair was styled in black velvet waves and she carried a white Bible.

The bride and groom observed the traditional custom of wearing "something old, something new, something borrowed and something blue."

Only attendant was her sister, Mrs. Larry McQueen. The bride's dress was winter green velvet with brown accessories and a spray of tiny red rose buds.

Mrs. Jannie Muller lighted the candles following the ceremony. A reception was held in the home of Mrs. Henry Solomon, sister of the bride. The table was

laid with a French lace tablecloth and centered with a lovely arrangement of yellow mums and bronze pompons. The three-tiered wedding cake was decorated with delicate orange blossoms.

Miss Sharleen Pyeatt registered the guests. Mrs. Wm. Moss served the cake and Mrs. Roscoe Brown presided at the punch service.

For a wedding trip to San Antonio, the bride chose a blue suit with black accessories and wore an orchid corsage.

The bride is the daughter of Mr. and Mrs. J. R. Mitchell, prominent residents of the Salibury community, and her groom is the son of Mr. and Mrs. Becker of Kansas City, Mo.

Mr. and Mrs. Becker will make their home in Memphis.

### Cranberries And Raisins Team Up To Make A Delicious Autumn Pie

Bright red fresh cranberries and plump raisins join flavors pleasingly in this new pie. The fruits are accented with orange rind, and thickened with quick-cooking tapioca.

Bits of crust may be used for fancy designs, replacing a top crust so that the filling can be seen and admired!

Two of Autumn's choicest fruits blend their flavors in this pie. The result is a harmony as pleasing to the eye as to the taste. Cranberries furnish both zest and color, while seedless raisins contribute their delicious, sun-ripened sweetness. It's a pie everyone will like, so you'll want to make it often. Sometimes you may roll out a simple top crust, and cut a few slits here and there for steam to escape. But for special occasions you'll enjoy the compliments you'll get when you use a "petal" crust, as pictured.

Combine tapioca, sugar, salt, raisins, cranberries and water in saucepan. Cover and bring to a boil. Cool, stirring occasionally. Add orange rind.

Line a 9-inch pie pan with half of the pastry rolled 1/4-inch thick. Roll remaining pastry 1/4-inch thick. Cut five or six 2 1/4-inch rounds to make pastry flowers. Form petals by cutting 4 equally spaced slits from edge toward center of each round. Turn up one corner of each petal. Fill pie shell with fruit mixture. Arrange pastry flowers on top of fruit mixture. Put a cranberry or raisin in center of each flower. Bake in hot oven (425° F.) 45 minutes, or until syrup boils with heavy bubbles that do not burst.

ECONOMY, SOMEWHERE ELSE

It has already hit the news wires that Churchill and Eden are United States bound come January probably to ask for another loan of several billion dollars.

Also, since Congress has adjourned, it has become the tourist season for Congressmen, government officials and the high brass.

Congressmen have been quoted making statements in Brussels, Strasbourg, Paris, London and Buenos Aires. Other government officials are off "vacationing" around the world.

But what can you expect. While the Korean war is just as deadly as ever, our own President Truman calmly takes off for Key West and several weeks vacation, at the taxpayer's expense, and he even makes a flying trip back to Washington to speak to a women's Democratic convention . . . and now last weekend, Chief Justice Vinson and his wife were flown to Key West to spend 48 hours with the President . . . also at taxpayer's expense.

These are just a few of the wild spending sprees which the present government officials are engaged in, and you know that extra income tax the government began collecting November 1, chances are it is being used to finance a lot of these "vacation" trips for high government officials.

Well it doesn't seem that we should go around the world loaning billions of dollars while we still have to raise taxes as high as they are now. Why can't some of these top government officials stay at home and do what they are paid to do instead of gadding around the world?

And if you think you aren't paying for all their vacation trips . . . you just figure out who is!

That is one thing on which I would commend our own Congressman Walter Rogers when Congress adjourned he came back to his home district and talked with the people then returned to Washington and is at work, instead of "vacationing" about the world on taxpayer's money.

It has been said that nothing can be done about all these vacationing Congressmen and government officials. Sure the people know it is wrong but what can you do?

Of course it is necessary for some members of our government to make trips, we know that, and no one begrudges any expense that is justly used, but when more than 100 Congressmen and Senators, alone, yes we said more than 100, go "vacationing" around the world now that Congress is dismissed . . . we know good and well that isn't all government business.

With such wild spending, no wonder we can not have government economy at home. It has to be somewhere else.

The American taxpayer has just about been taxed to the limit . . . and when his taxes are increased . . . to finance such things as "vacations" for his government representatives and because of scandals in government . . . then it is time some changes were made.

Now we are Democrats, and we believe, we are good ones. And we know that we can have a good Democratic government. We may have to remove a lot of people from office to do it, but there is no better time to start than now.

People in Texas made that rather clear in the election held only week before last. They voted down every attempt to increase taxation.

Let government representatives take note of this . . . people in the United States as well as just in Texas, are getting tired of footing the bill for everything in the world . . . let's have a

little economizing . . . and it can well start with curtailment of these Congressional "vacations" and refusal of the loan England will ask for in January.

Let's bring economy in government back home instead of crying for it someplace else.

Press Paragraphs— QUOTING OUR NEIGHBORS

The "Little Man" Pays
Of course, he will get it and some how we won't feel as bad about it as when Attlee & Co. got it. Mr. Churchill's first thought is England. Harry's last thought is the American taxpayer.

One of the interesting, disgusting and alarming features of all the scandal relating to alleged bribery and favoritism in the Internal Revenue Bureau and the Reconstruction Finance Corp. has been the attitude of the highest officials in Washington with regard to the developments.

It is eliminating opportunity for the individual and for business.

It causes inflation, with consequent loss of confidence in the value of the dollar.

It has led to more and more growth and centralization of government powers.

It has burdened even the low-income groups with a weight of taxation which, up to now, was known only in the days of the greatest despots.

It is a commonplace to justify the ever-increasing tax burden by pointing to the need for a powerful military establishment and for aiding our anticommunist allies. That is a phony alibi. Very heavy cuts in government spending—perhaps as much as \$10,000,000,000 a year—could be made without harming a sound arms or aid to Europe program in any way. This is the money which is being wasted on projects which are either totally unnecessary, or which could be indefinitely postponed.

Today it is the "little man" who must bear the main burdens of taxation. He, and he alone, must pay for the bulk of any new tax increases. It remains to be seen whether he will continue to let the government waste his money by the billions—while his take-home pay shrinks and shrinks because of the tax collector.

Soon Mr. Churchill will be over

REPORT FROM WASHINGTON

By Walter Rogers  
Congressman, 18th District

IN WASHINGTON: We brought the entire family and stayed over until January. However, this was impossible for several reasons, to say nothing of the cost that would be involved. The fact that Congress adjourned does not mean that everything here stops. My mail was almost hip-deep when I returned, and there was a great number of matters to be handled through the different boards, bureaus, departments and agencies. I hope these cleared enough to be able to return to the District before the first of the year for another visit.

engaged in conversation with a couple who have just returned from a four-year stay in the Philippines. Space would not permit me to list the many things that they told. However, the one thing that was most impressive was the story they told me about having to soak all of the vegetables in germicide solutions for an hour and a half before they could be prepared for eating. They pointed out that the usual salad of raw vegetables carries with it a strong odor of the germicide solution.

These folks promised to give me a complete story on many other matters, and I will try to include them later on. I asked them if they were happy to be back in the States, and the gleam in their eyes was a sufficient answer for me to know that they counted it as their number one blessing for this Thanksgiving.

BATTLE OF THE FLAGS: A Confederate flag fad is sweeping

the East, and I noticed traces of it in our section on my recent visit. The novelty manufacturers are exploiting this tremendously. They are selling Confederate caps and recently have started the sale of Yankee caps. Many children will probably get GAR or Confederate uniforms for Christmas, rather than the cowboy and Indian suits that have been leading in this field.

The Confederate flag is a symbol of a great people and a great cause, and it is deplorable that it should be used for commercial purposes. I have even received a Christmas card with the imprint of the Confederate flag on it and a most touching letter telling me why I should pay an outrageous price for these cards.

Frankly, such practices should be condemned by true southerners as we have been exploited enough without having our flag dragged through the dirt by a bunch of money seekers.

THE PRESIDENTIAL CAMPAIGN: Senator Taft has a definite inside track for the Republican nomination, and let no one be fooled about this. If he can keep his present lead until time of the convention, his nomination is almost assured. Don't be surprised if Ike Eisenhower turns up as the Democratic nominee.

### RELIEF FOR ASTHMA SUFFERERS

Quick relief usually comes from the first dose of this new formula which acts to relieve congestion. People who formerly suffered with frightening choking, coughing, wheezing asthma attacks speak of welcome relief after using ASMACOL. ASMACOL costs \$2.50, but considering the relief you will experience, the \$2.50 it costs amounts to only a few pennies per dose. ASMACOL (caution, use only as directed) is sold with a money back guarantee if not delighted with results. Sold only by
