Judge Yarbrough Assails Shivers in Speech Here

Judge Ralph Yarbrough brought his campaign for governor to Memphis Friday when he spoke from the courthouse steps to a small but attentive audience.

Campaigning with the slogan "It's time to change governors," Judge Yarbrough assailed the administration of Gov. Allan Shivers whom he called "the play-boy governor." The dynamic speaker from the red sand hills of East Texas charged that Shivers "spends more time trying to run the whole country than he does trying to run Texas."

"It's a full-time job—being governor of the state of Texas. What this state needs is a working governor, and I promise to be that kind of man for you," he said.

Yarbrough defined Shivers' stand as a "Tidelands Champion" as false, and charged that the present governor had "stabbed the Texas case in the back."

After he had finished his speech Yarbrough began shaking hands with the people in his audience. Most of those present seemed favorably impressed with the man who aspires to be the next governor.

Yarbrough was born on a farm near Athens. He worked his way through college and finished Texas University law school at the head of his class. He was assistant attorney general of Texas in the mid-1930's. It was then that he wrote the first opinion defining Texas' tidelands case. Later Yarbrough was district judge at San Antonio. He served in both the European and Pacific theatres during World War II.

Demo Candidates' Assessment Fees Are Due This Week

Candidates should pay the assessment to get names on the Democratic ticket this week, J. C. Wells, county chairman, stated.

The Executive committee met Monday and set the amount to be paid for each office.

Allan Dunbar, secretary of the committee, has been laid up this week, and therefore could not send out individual notices to the candidates. So it will be appreciated if the assessments are paid by the end of this week, it was stated.

Leave check at The Democrat office and it will be turned into the election fund.

Four local golfers went to Dallas Saturday to see the masters of the sport play in the greatest tournament of them all—the National Open.

Making the trip from Memphis were Dick Fowler, Mac Wilson, Rufus Grisham and Carl Harrison.

The Open champion this year turned out to be a rank newcomer to the pro ranks—Julius Boros. Porky Oliver was runner-up, and Ben Hogan, Open champ in 1948 and 1950 and last year, came in third.

Wilson brought back to Memphis a treasured little memento—a golf tee that held a ball that Hogan hit.

COUNTY AGENT SAYS GRASSHOPPERS BECOMING MENACE TO YOUNG COTTON

Grasshoppers are becoming a menace to young cotton plants. County Agent W. B. Hooser said this week.

He advised farmers to use poisons now before the hoppers become more of a problem. Flea-hoppers and aphids are also beginning to give some farmers trouble.

The County Agent named three poisons and the correct applications for each to combat the destructive insects. The poisons are Aldrin, Chlordane and Toxaphene.

The recommended amounts per acre are: Aldrin, dusting, 6 ounces, and spraying, 4 ounces; Chlordane, dusting 3 pounds, and spraying, 2 pounds; Toxaphene, dusting, 2 1/2 to 3 1/2 pounds, and spraying, one-half gallon.

For "bait", Hooser recommends one and a half gallons of Toxaphene to 100 pounds of meal, 100 pounds of cottonseed hulls, and 15 gallons of water.

Best time to spread the poison bait is early in the morning when the grasshoppers are coming out of pastures adjacent to cotton fields, Hooser said. If the poison is placed around the fence-rows it will effectively keep the hoppers out of the cotton.

In preparing the bait, the two liquids and the two dry matters should be mixed separately before final mixing.

For full information on insect control, farmers should contact the county agent.

Bob Evans Texaco Station Open Night and Day - - Selling Service

Bob Evans, of the Evans Texaco Service, has had a wide variety of experiences since he first saw the light of day—July 6, 1926—about one and a half miles north of Memphis.

Raised on a farm, he had the opportunity to learn the peculiarities of Panhandle agriculture—cotton, grain and stock raising. Evans also tried dairying in Wisconsin for a few years but gave it up because of the climate. Besides his close association with farming, he knows cement work, having tried that for a while when he lived in Amarillo last year.

But Evans is back in his element now—the service station business. He has had six years in this line of work, and he knows it well.

After attending Memphis grade and high school, Evans went to work in 1942 at a local service station. The next year found him in Amarillo where he worked for Cal Farley in a service station. Cal Farley will be remembered as the selfless philanthropist who started the original Boys Ranch at Old Tascosa near Amarillo.

He stayed on the Amarillo job until he went into the army in April of 1945. He served in France, and was discharged in June, 1946.

Back in civilian life again Evans decided to give the dairying business a whirl, and he moved the same year to the biggest dairy state of all—Wisconsin. He had a good herd of about 20 cows and was doing fine and liking his

new occupation, except for the extremely cold winter climate.

Upon his return to Texas in the spring of 1951, Evans worked in the cement business in Amarillo until last December when he came back to Memphis. On New Year's Day of this year he took over the Texaco Station at 201 South Front St.

Evans Texaco Service Station stays open 24 hours a day selling service, gas, oil, tires, tubes, batteries and accessories. Evans advertises "the best polish job in town." He and his employees, Rolly Perkins and Jack Ellis, also do good lubrication jobs.

Evans is married to the former Dore Alva Stafford. They have three children, Bobby Noel, Jr., 8; Mary Beth, 7; and Susan Doris, 4.

Baptist Church is Scene For Lovely Farewell Social Honoring Bee Nichols

One of the loveliest socials of the season was the surprise going-away social given at the First Baptist Church in honor of Brother and Mrs. Bee Nichols.

Hostesses for the occasion were Mrs. Bob Ayers, Mrs. Henry Foster, Mrs. Lloyd Phillips, Mrs. Haskell Howell, Mrs. Edward Hill and Mrs. Lynn Jones. For the occasion, the young people's department was transformed into a beautiful garden with green grass, lovely garden flowers of the rainbow colors, a wishing well, and a bird bath. Trelises entwined with honeysuckle vines bordered the garden. A large rainbow was at the back of the garden and at the end of the rainbow was a large pot. This was filled with many love gifts for the Nichols. Included in the gifts were a number of sterling silver pieces. A large sign made of musical notes read, "So Long for Awhile."

The audience sang "Showers of Blessings" and Rev. Shahan gave the invocation.

Mrs. Henry Foster announced that the theme of the program was "Showers of Blessings." She expressed to the Nichols the appreciation of the church and community for all the things they had done for the church and community during their stay here and wished them much success and happiness in their new home. She then introduced the program.

Mrs. Lloyd Phillips read three poems on "The Garden of Friendship" and dedicated them to the Nichols.

R. D. Jones accompanied at the piano by Miss Betty Jean Stewart, sang "Somewhere Over the Rainbow."

Mrs. Edwin A. Smith, Jr., climaxed the program with an interesting talk in which she took the colors of the rainbow, told what each color stood for and applied these colors to the manner in which Br. and Mrs. Nichols had performed their duties while here in Memphis. As she talked of each color she gathered a flower of that color and arranged it in a beautiful crystal bowl. She concluded by saying that "there is an old legend that says at the foot of the rainbow is a pot of gold. At the foot of our rainbow tonight is a pot full of love gifts for the Nichols." She then presented the gifts to Brother and Mrs. Nichols.

The tea table was covered with a lovely lace cloth centered with a unique arrangement of rainbow colored flowers. Delicious punch and cookies topped with umbrellas in the colors of the rainbow were served. Mrs. Roy Shahan presided at the punch bowl.

Mr. and Mrs. Adrian Odum and children have returned home following a vacation trip to the coast.

ENGAGEMENT REVEALED— Mr. and Mrs. S. W. Jackson announce the engagement and approaching marriage of their daughter, Minnie Lee, to Gerald Harrell, son of Mr. and Mrs. Roy Harrell of Vega. The wedding will be an event of July 3 in the First Baptist Church.

For her wedding the bride chose a brown tailored linen suit trimmed in white with white accessories and a corsage of white rosebuds.

Immediately following the ceremony, Mr. and Mrs. Hill left for Carlsbad, New Mexico and other parts of New Mexico and Texas.

Mrs. Hill is a graduate of Estelline High School and has been employed at Hall County Electric in Memphis for the past two and a half years.

The groom is a graduate of Clarendon High School and attend-

ed Clarendon Junior College. He is employed with the Southwestern Bell Telephone in Childress. The couple will make their home in Estelline.

CARD OF THANKS

To all the many kind and thoughtful friends who have been so helpful to us at the tragic loss of our dear wife, mother and grandmother, we express our most sincere and heartfelt thanks. Words are not adequate to state our full appreciation. Such spontaneous acts of generous spirit can only be manifestations of God's love. May he be as kind to you in your every hour of need.

REPORT FROM WASHINGTON

Congressman, 18th District
By Walter Rogers

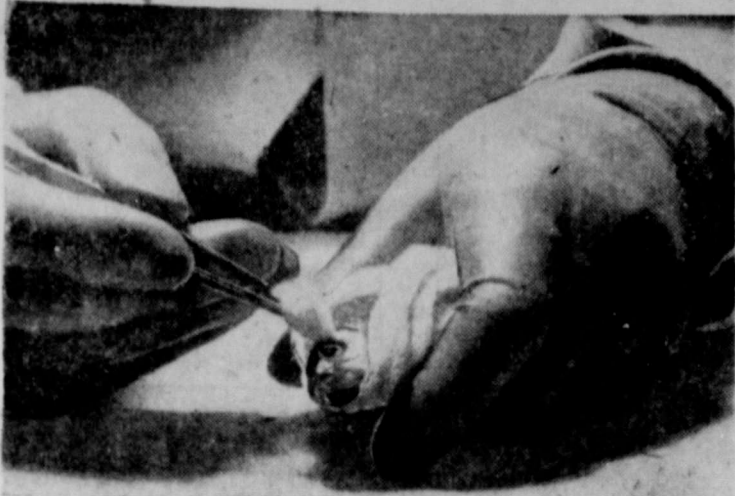

FACTS ARE MORE REVEAL-
THAN WILD ACCUSAT-
On January 17, 1952, the
troller General of the United
furnished a Senate com-
preliminary report con-
certain grain shortages in
warehousing operations of the
Branch, Production and
Administration, Dep-
ment of Agriculture, in Dallas,
This report contained the
of grain firms and elevat-
that were alleged to be short
accounts.

ers reside in the Panhandle of
Texas. The stories concerning
these shortages appeared in large
print and were announced over
the radio. Such publicity placed a
definite black mark of guilt on
all of the parties named.

At the time this information
was released I immediately com-
menced a personal investigation of
the matter. Almost immediately I
received advice from two grain
dealers in the Panhandle that they
had been wrongfully condemned
and unfairly publicized. Subse-
quent developments from my in-
vestigation concerning these two
firms have revealed the following
facts: I have on my desk a copy
of a letter written by the Com-
ptroller General of the United
States, Mr. Lindsay Warren, con-
cerning these two firms which
reads as follows:

"1. Nelson Grain Company,
Claude, Texas: The information
obtained from the Dallas Com-
modity Office, Department of
Agriculture, as demonstrated in
our report, reflected a shortage

ODD OCCUPATION . . . Medical care for sick pet fish is winning
new fame for Rex Dutt at his unique hospital, Baker street, Lon-
don. Here, he swabs the eye of a finny pet.

against the Nelson Grain Com-
pany of Claude, Texas of 6,637
bushels of wheat. This informat-
ion was furnished to us by a com-
munication from the Director of
the Dallas CCC Office on Decem-
ber 18, 1951. We have subsequent-
ly learned that loading orders on
September 12 and October 25
1951, resulted in the shipment of
50,004.31 and 76,170.82 bushel-
of wheat respectively, by Novem-
ber 27, 1951, and that the final
under-shipment amounted to only
637.46 bushels of wheat which
CCC considers within customary
tolerance.

"3. Etter Grain Company, Et-
ter, Texas: The statement receiv-
ed from the Dallas CCC Office
on December 18, 1951, reflected
also that the Etter Grain Com-
pany of Etter, Texas, was 5,857
bushels of wheat short as of Sep-
tember 21, 1951. Subsequently, in-
formation was received that as of
February 19, 1952, the manager
of the Etter Grain Company was
authorized to ship one carload of
wheat to the credit of CCC to
cover under-shipment of 1,584.67
bushels of wheat short on a pre-
vious loading order. The CCC
records now show that the Etter
Grain Company shipped 1,591
bushels of wheat on February 22,
1952, which accounted for all
the grain due the CCC."

The letter referred to includes
other grain companies not in the
Panhandle district.

I had sincerely hoped that the
papers and radios of this nation
would give the same publicity to
this information as the gave to
the original accusations, but such
has not been the case. It is not
fair to associate firms that have
been operating legitimately with
those who have violated the law
and then fail to make correction

and reveal the true facts concern-
ing the matter. The damage suf-
fered by a business that is un-
justly condemned, by association
or otherwise, cannot be erased by
the mere admission on the part of
the accuser that his facts were
not exactly correct.

America has been built upon
truth and factual information. The
Amarillo Daily News carried an
excellent editorial pointing out the
dangers of these blanket accusa-
tions that are so many times made
for headline hunting purposes. I
hope that all of you read that
editorial because the present facts
in the cases in the Panhandle
prove the good common sense that
was contained in that editorial.
As the editorial so well pointed
out, there is plenty of wring-
doings to be corrected in the grain
cases and other activities without
making wild accusations against
innocent business men.

RECESS OR ADJOURNMENT-
It is my opinion that Congress can-
not adjourn sine die by July 1st.
The Senate has much work to do
on bills already passed by the
House. Many of these will be am-
ended and the amendments will
not be acceptable to the House.

A Senate committee at present
is working exhaustively in order
to get the new Korean GI bill
passed before July 1st. If this
bill is not passed by that time, it
could materially affect the rights
of these boys in entering schol-
ship this fall. We on the Veterans Af-
fairs Committee of the House are
working with the Senate com-
mittee and hope to have the mat-
ter finished before July 1st.

There will ultimately be a scrap
between the Senate and the House
on the Defense Production Act—
extension of rent and other con-
trols. I don't see how this can be
settled before June 30th, the ex-
piration of the present act. How-
ever, it is possible, but if this is
done, other major legislation will
probably be delayed.

THE RUSSIAN AMBASSA-
DOR: The transfer of the Rus-
sian ambassador Panyushkin from
the United States to Peiping may
be ordinary routine, but it dis-
turbs me greatly. I don't like the
looks of it. Nor do I like the looks
of the transferring of Zarubin, the
Russian ambassador to Britain,
to this country. His stay in Can-
ada and in Britain was during that
period of the espionage activities
in the Russian embassy in Can-
ada and the Klaus Fuchs espionage
case in Great Britain. Eternal
vigilance is still the price of lib-
erty.

Forecasts based on surveys and
actual egg bed counts indicate
that grasshoppers will not be a
threat to crops and pastures in
Texas this year. In only a few
spots were enough eggs found to
rate the areas as threatening.

COLORADO JAYCEE CARAVAN STOPS AT HISTORIC SITE OF BOYS' RANCH

America's first Boys Ranch, located 40 miles west of Amarillo on the banks of the Canadian River, recently played host to the Colorado Jaycee covered wagon caravan as it stopped at the ranch on its 760 mile trip from Colorado Springs, Colorado to Dallas, Texas.

The 160 boys who live at the Ranch welcomed the members of the party and helped them set up camp in the cottonwood grove by the river. The Jaycees were making the trek to the national convention in a covered wagon pulled by four white mules and some of the men were mounted.

A tour of the Ranch was included in the visit and the Ranchers put on a rodeo for the Coloradoans and the hundreds of visitors who went to the Ranch to see the boys and their special guests. The group showed a great interest in the work being done and the sights of Tascosa, where Boy's Ranch is now located. They inspected Boot Hill Cemetery where 27 of the inhabitants of the wild, western town were buried with their boots on, the camping grounds of Billy the Kid and the home of Frenchy McCormick, a beautiful dance hall girl who married Mickey McCormick and remained in Tascosa after he died to see the site of the ghost town turned into a home for dest-

itute and unwanted boys.

The Ranchers' daily activities such as milking, riding, taking care of the stock and their many other jobs were witnessed by the men and they were especially impressed with the work the boys have done in the construction and remodeling on many of the 22 buildings which now may be found at the Ranch, including a new housing unit which will house 24 boys.

The Jaycees enjoyed being with the boys and they in turn were proud to show the eight man

party around their home which includes not only their dormitories but a school, a chapel, a dining hall, two lakes for fishing and swimming, a zoo where all the animals they capture are kept and tamed for pets, a rodeo ground where they hold their annual rodeo and the famous Old Tascosa courthouse, formerly the county seat of 19 Texas counties. Cal Farley, founder and president of Boys' Ranch, and many of the other staff members and supervisors were on hand to officially welcome the Jaycees and to insure that their two-day stay at the Ranch was a pleasant one.

TROUBLES AHEAD

Several of our most admired and respected leaders from
both major parties are vigorously campaigning for the highest
position in the world—the presidency of the United States.

No one knows who the next president will be. But what-
ever his name and party label, his lot will not be easy.

In a way the job is an enviable one with many prerogatives.
The president of the greatest and richest country on the face
of the earth lives in a magnificent mansion. At his beck and
call are hordes of servants and assistants. A luxurious airplane,
a special train, a private yacht, and a fleet of limousines are at
his disposal.

The chief executive is paid a handsome salary, plus a \$50,-
000-a-year tax-free expense fund. His every word and action
make headlines. He is treated with deference everywhere he
goes. Hardly a wish goes unfulfilled.

Yet, for all the glory and pomp associated with the position,
the next president must deal with some of the most awesome
problems ever known in the realm of government. He will be
faced with fateful decisions which he, alone, must make.

The weekly newsmagazine, United News and World Report,
recently dealt with what the new president will face in a brief
but comprehensive feature article. Here, in capsule form, is
the gist of what the magazine anticipates for him:

DEBT: Soon the national debt will touch the \$275,000,-
000,000 legal ceiling. The president will have to choose be-
tween asking Congress to raise that ceiling or cut spending.

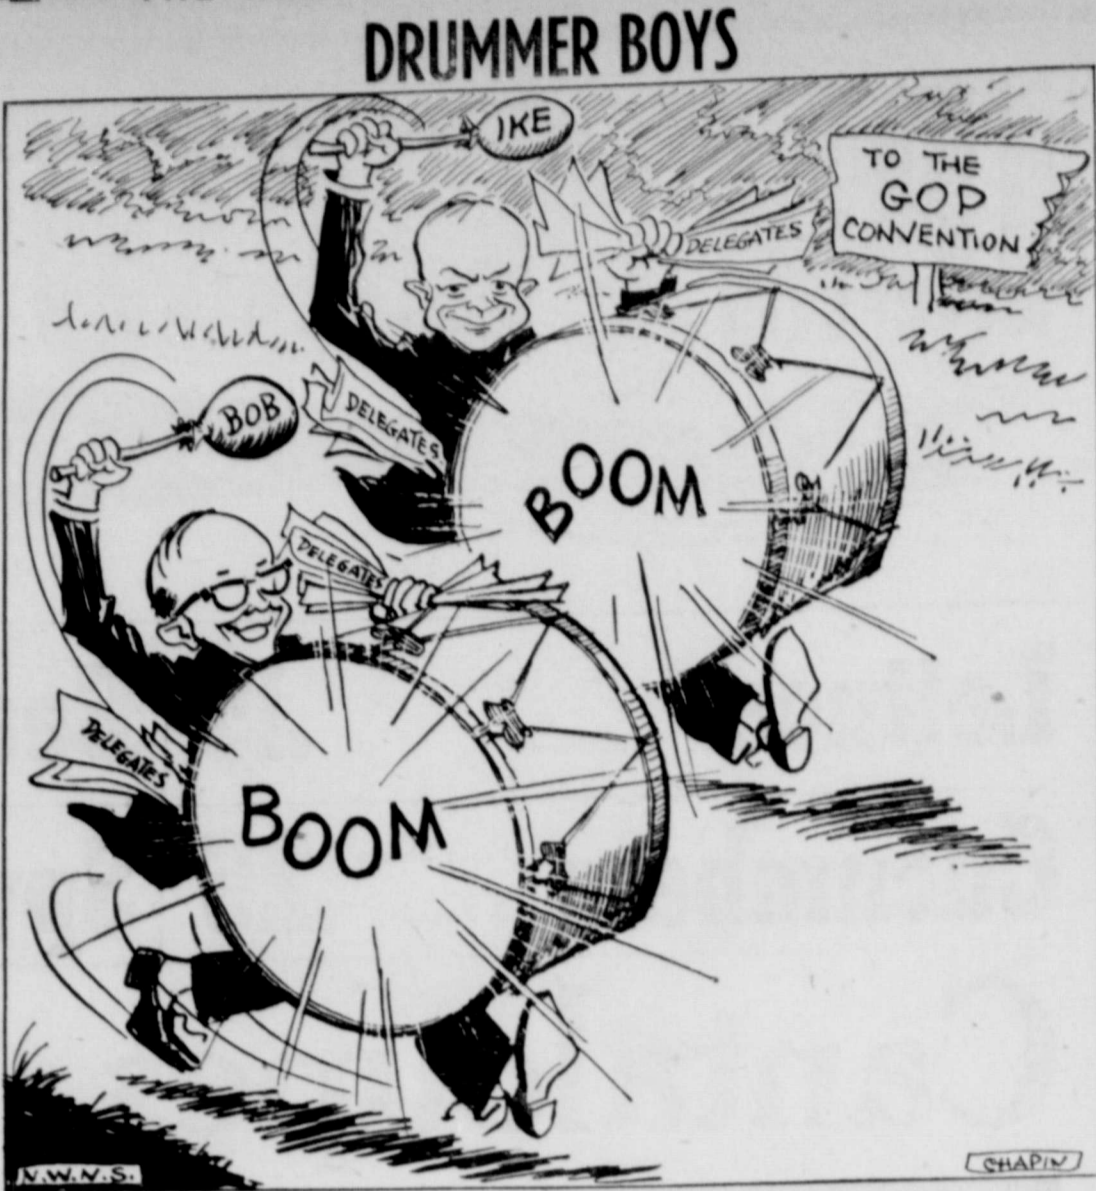

WAR: It seems certain that the Korean war will still be
going on when he takes office, even though it may be relatively
passive. This is a stalemated, totally unpopular war. What will
be advocated to end it?

BUSINESS: Many economists think that the boom is run-
ning down. Next year, it is forecast, there will be a substantial
decline in industrial expansion. There will probably be a drop
in profits—and that will bring a drop in tax collections, making
the budget problem still more difficult. The ranks of the unem-
ployed will be swelled. All this may happen very soon after
the next president moves into the White House.

AGRICULTURE: Some farm commodities are in a surplus
state now. Other surpluses are anticipated. So, as U. S. News
put it, "The next president is to be caught between the pressure
of city people interested in cheaper food and a farm popula-
tion insisting that government support farm prices against sub-
stantial decline."

BUREAUCRACY: The president is the titular boss of 6,200,-
000 people—2,500,000 civilians and 3,700,000 military. This
huge payroll is one of the primary causes of our outside Fed-
eral budgets. And here again the president must make a dif-
ficult decision. In the view of U. S. News, "If he does not cut
the payroll and the functions of government bureaucracy, his
financial troubles will grow. If he does cut the payroll, some
people will be out of jobs, raising political fuss, and if he cuts
functions, some group or region will lose a good thing and also
will raise a political fuss."

These aren't all of the problems the beleaguered next presi-
dent will face—not by a long shot. And great problems we
can't even anticipate today may also be his. But they serve
to indicate the enormous and unavoidable burdens that are
part and parcel of what is accurately described as the biggest
job in the world.

Press Paragraphs—
QUOTING OUR NEIGHBORS

Conventions
Only person I can think of who,
as a class, might object to elimi-
nation of the party convention
system in politics are the profes-
sional politicians, the men who
hold the reins over their parties
in the state. A preferential pri-
mary to indicate the people's true
sentiment might be entirely for-
eign to their way of doing things
for these many years.

Yet it seems the only fair way
to do if the politicians really want
us to take part in public affairs,
as they have been saying vocifer-
ously this year. I have had about
as much to do with the selection
of delegates this year as you had
with the writing of Genesis. These
delegates will select, or help select,
supposedly, our Democratic candi-
date for President. Actually, they,
too, are subject to politics at the
national convention and will, them-
selves, help more or less to the
line, since to take independent
action would be tantamount to
throwing away influence and any
power an individual delegate might
have.

Anyone who talks to delegates
who attended our party conven-
tions must become convinced that
the convention system is one of
the most undemocratic institutions
we have. Let the voice of the
people be heard, don't let some
hepped up politician claim that he
speaks for the millions. Let the
millions speak directly.
—J. M. Forbes in The Muleshoe
Journal

Nickel Still Around
In this day of high cost of
living, it is refreshing to look
around and see a lot of items on
the market which have not ad-
vanced in price during this in-
flationary period.

Take chewing gum, for in-
stance. The lowly nickel package
still sells for a nickel. Perhaps the
dealers have been tempted at
times to raise the price because
of the higher cost of doing busi-
ness. But the price still holds.
Soft drinks are likewise in the
nickel class.

Chewing still holds good, as
chewing tobacco still sells at the
same old price.

Shoe laces, nickel slot machines,
zinnia seeds and aspirin are still
selling at pre-war prices.

Depends on Viewpoint
Surprisingly in this area there
are a good many acres of cotton
where the young plants are suf-
fering and dying for lack of mois-
ture. Peculiar combination of wind
and chill dried out the ground
about young plants that were try-
ing to emerge. By the time warm-
er days hit it was only to punish
the tender plants which had no tap
root down into ample moisture
below. Result, poor stand worried
farmer about what to do. In many
fields the operators "watered
their cotton in the row" to keep
it going, an experiment which ap-
parently is turning out all right.
There are many thousands of acres
of cotton that came through in
good shape and putting on new
leaves this week as the warm sun's
rays caress the fields. Depends
on the viewpoint whether this has
been a good or bad week for cot-
ton.

Magazine Cover
Picture Made by
Clifford Farmer

Something about the cover pic-
ture of the June issue of the Tex-
as Livestock Journal seemed vagu-
ely familiar to Clifford Farmer
when he first picked up the issue.

In the picture were a group of
Angus cattle grazing contentedly
around a water hole with a back-
ground of trees and undulating
West Texas hills.

After a brief second, it dawned
on him why the cover picture
held such strange attraction. He
had taken the photograph over a
year ago at the Caprock Angus
Farms owned jointly by Wendell
Harrison and himself. The mag-
azine had used the same picture
months ago, but only in a feature
article. Apparently the editors
had liked it enough to keep it on
file.

The photograph, snapped be-
fore the trees had put on leaves,
is excellent in composition and
subject matter. The barren limbs
stand out in bold relief against
a cloudless sky, and are mirrored
in the pool of water in the fore-
ground. Cattle are grouped on
the left bank of the pool with one
or two standing knee deep in the
water.

Golden Wedding Anniversary Sunday Pioneer Couple of Newlin Observes

Mr. and Mrs. D. W. Lawrence of Newlin observed their golden wedding anniversary with open house Sunday, June 8, at their country home where they have resided for more than 30 years.

Hosts for the lovely affair were the Lawrence's six children all of whom were present for this gala occasion. Gold roses and gladioli green fern and cut flowers from the yard combined in floral decorations to add beauty to the entertaining rooms.

In the dining room, a beautifully decorated cake and punch was served from a table laid with a white linen cloth. Centering the table was an arrangement of yellow roses flanked by yellow candles in crystal holders. Mrs. Bill Lawrence, Mrs. Ralph Pavillard, Mrs. O. B. Lawrence and Mrs. Alma Schiebe alternated at the tea service throughout the afternoon.

Polly Lawrence presided at the guest book to secure signatures of the guests.

Mr. and Mrs. Lawrence were married in Wise County, Texas, in 1902. It was in 1921 that Mr. and Mrs. Lawrence decided to move to Hall County, purchasing a farm near Newlin which has been their home throughout the years. Mrs. Lawrence recalls that she didn't have much of a house to move into as their first home was a half dugout. But she didn't have to make out with this inconvenience for long because in 1925 F. E. Bar Gives Tips on Jury Service

Thousands of Texans are called each year as prospective jurors for many state and federal courts. When chosen to serve, these jurors must be alert and free from any intentional misconduct. Mistakes have all too often been made by jurors who have brought the sincerity of an individual juror into the courtroom. Usually such errors are the result of misunderstanding from his misunderstanding of the function as a juror—of the judge of the facts in the case.

The juror's wife, the juror's only avoid any appearance of bias. Otherwise, his integrity may be brought into question by actions which are not intended but appear to be. Do not discuss the case with anyone other than the other jurors in the jury room when all other jurors are present.

Do not become a private investigator. All properly admissible evidence will be brought before you. Do not try to search out additional facts you believe to have been omitted. Do not even guess or speculate about facts not in evidence.

Be attentive to the evidence as it is presented. If you are to properly aid the other jurors in settling the fact questions, it will be necessary to listen carefully to all evidence presented.

Do not guess at the judge's opinion of the facts. You are the judge of the facts. He is not allowed and will not try to invade your province. His rulings on admissibility of evidence reflect no ideas or opinions on any fact question.

You should not mention or discuss your own personal experiences, or any knowledge that you may have had of similar transactions. If you should disclose such information to others serving on a jury, the court would have to grant a new trial.

Accept no favors from and bestow no favors upon any person interested in the trial. However innocent the conduct may be, it will raise doubts in otherwise undoubting minds, and may even be subject to more serious insinuation and charges.

When in doubt ask the judge. If you are in doubt about your rights or duties as a juror, you should not ask anyone but the judge for information.

(This column, based on Texas law, is written to inform—not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

discussion is wholly unrelated to the trial.

Do not discuss the case nor permit others to mention it to you or in your presence during the trial. If anyone insists upon talking about the case after you have explained to him that you are a juror and must not listen, report the matter to the judge immediately.

Do not commence your deliberations until you have heard all the evidence from both sides, the argument of the lawyers, and the court's charge. You should not mention the case except in the jury room when all other jurors are present.

SPORTS AFIELD

By Ted Kestang

If one were to pick the single most consistently successful lure for all-around fishing in most parts of the continent, there is little doubt in the mind of Robert Page Lincoln that the winner would be the fly-and-spinner combination in its many forms, shapes and sizes. This combination is an absolute killer for small mouth bass.

Now the attraction of this lure does not lie in the fly itself but in the revolving spinner, the twinkle and gleam which catches the fish's eye. It is the spinner that is all-important, and the fly is complimentary, giving body to the lure. Of course, the fly's function is quite vital too. You can fish with a bare hook on the spinner shaft but you won't catch fish.

There is one qualification Lincoln makes in the bass fly used on the spinner shaft, and this is that it be without wing feathers. The reason for this is that when a fly is added to the spinner it

does not seek to imitate a fly, but a minnow. Why have wing feathers if the fly is supposed to look like a minnow?

The use of silver ribbing on a fly body, with no hackle is a good lure; and a solid silver-wound body is frequently a killer. Chiefly, however, you can rely on the typical hackled flies in the regulation patterns such as Coachman, Professor, White Miller, Yellow Sally, Black Gnat and so on. For bass these should be in No. 1/0 size, with either a No. 2 or 3 spinner to back them up.

The No. 2 spinner is best for average shore fishing, but for flowing water the larger No. 3 may be better. Because spinners in these sizes are very small, they need a bright finish to be at their best. This means no inferior finish is suitable. I think that if you used nickel or silver entirely you won't miss out on much. Gold is my second choice.

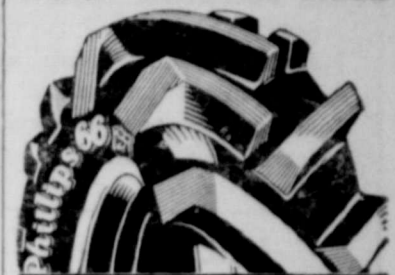

As to whether you should use a single spinner on the shaft or a double (tandem) spinner depends on the water. For ordinary fishing the single spinner is recommended. The tandem is most useful in clouded water, or in fairly fast water.

Add a spinner to streamer flies, preferably with hackle streamers

and with head and optics painted on, and you double the attraction of the lure.

Fly-and-spinner fishing for pan fish has made vast strides recently. Fine leader tips are needed because the lures are so tiny. A fly (wingless) tied on a No. 10 or 12 hook will go best with a No. 0 spinner on a shaft for this kind of fishing.
