City Election Is Called By Council On Tues., April 7

Voters of Memphis Tuesday approved the \$55,000 bond issue for the construction of a swimming pool by a margin of 36 votes. This announcement was made by Mayor Carl Harrison after the City Council had canvassed the returns at their regular monthly meeting Tuesday night.

As officially reported, totals were: For the issuance of "park improvement bonds," 281; against, 245.

Preliminary work will go ahead toward getting the bonds approved, printed and sold, Harrison said. This is being made in an effort to get construction of the municipal swimming pool underway as soon as possible. It was estimated that a goal of June completion might be reached.

Exact site of the proposed pool was not announced, but it will be located some where within the boundaries of the City Park. City commissioners have been conferring with an engineer regarding construction details.

Call Regular Election At the same time the council called the next regular election to be held on the first Tuesday in April, which is April 7. To be elected by the voters will be four aldermen and a mayor. These men will serve two-year terms.

Commissioner Buster Helm reported to the council that his committee had failed to gather enough data and figures regarding the gas rate increase, which has been requested by Lone Star Gas Co., to make any recommendations. He added that they will meet again soon with Lone Star representatives, and will report their findings at the next regular monthly meeting. Other aldermen on the investigating committee are Bill Cosby and Bill Leslie.

After hearing a preliminary report from the Harfield Engineering Co. concerning the proposed paving project here, Mayor Harrison appointed a special committee to take over this work. They are J. M. Ferrel, Jr., Bill Leslie and H. J. Howell. Harrison told the alderman that a called meeting will be held as soon as additional work is completed on the paving program. At this meeting, in all probability, the city will order the publication for paving bids.

We are going to have 40 days more of winter, said Mr. Groundhog Monday morning when he came out of his winter cave and saw his shadow. Then he darted back into his bedroom and composed himself for a six-weeks nap. He didn't know that with half the winter time already gone, only two or three days of that time had been cold enough for overcoats.

President Ike's "State of the Nation" speech Monday was well-received and agreed with by most of the citizens. His get-tough policy concerning the cold-war, entirely different to that of his predecessor, struck a responsive note of agreement of people who have felt all along that the dilly-dallying tactics in Korea and China is costing our country thousands of lives. Stiffer Penalties Is Aim of Rogers' Narcotics Bill

Senator Andy Rogers this week introduced a bill to the Texas Legislature which, if passed will threaten all narcotics peddlers with life imprisonment.

Rogers' bill was created to place a constant danger of felony conviction on all persons peddling narcotics to Texas' teen-agers and high school students, and will place the most severe punishment ever constituted upon narcotics violators in Texas.

The Senate Bill is entitled: "AN ACT making it unlawful to sell, give or barter or cause to be sold, given or bartered to any minor under the age of eighteen (18) years or to sell to another for delivery to such minor any narcotic drug as defined in paragraph (14) of Section 1 of Article 725b of the Penal Code of the State of Texas, except as authorized by Chapter 3, Title 12 of the Penal Code of the State of Texas. "Prescribing the penalty for conviction for violation of this act; repealing all laws or parts of laws in conflict herewith to the extent of such conflict; and declaring an emergency."

In a big step toward stopping narcotic traffic among Texas high schools, Rogers' proposed bill states that a violation to this effect shall be considered a felony, and persons convicted shall be confined in the penitentiary for

Atalantean Club Celebrates Silver Anniversary With English Breakfast

Depicting the coronation of the English queen, the Atalantean Club celebrated its silver anniversary with an English breakfast at the country club Saturday morning at 9 o'clock.

Members were greeted by the social committee composed of Mrs. Edd Monzingo, Mrs. John Fowler, Mrs. Tom Isham, Mrs. Herbert Estes, Mrs. Claud Johnson and Mrs. Edwin Smith and were ushered into the entrance room on the south where they were served fruit cocktail.

The accordion doors were then opened into the middle room where a beautiful long table laid with a maderia banquet cloth awaited the guests.

The table was centered with an English beige-colored stage coach drawn by six white horses in gold harness and purple velvet blankets. A silver bowl with six gardenias also adorned the table. The gardenias were a gift to the club from one of its past presidents, Mrs. Dorothy Elliott Excell of Snyder. Two silver candelabra with white burning candles completed the table decorations.

Grace was given in song by Mrs. Edd Monzingo who sang "Be Present at our Table, Lord" accompanied by Mrs. Edwin Smith.

Places were marked by miniature jeweled crowns. The menu consisted of hot muffins, lamb chops, scrambled eggs with mushrooms, apple-mint jelly and coffee.

Mrs. Edd Monzingo gave an original reading, "Memories of the Atalantean Club," composed by Miss Gertrude Rasco.

The president, Mrs. Seth Pallmeyer, was crowned queen for the day. The club presented Mrs.

Pallmeyer with an English sterling jelly container.

Five charter members were asked to comment on the most interesting activity they had enjoyed during the 25 years of the club.

Mrs. Pallmeyer cut and served the beautiful decorated cake representing Queen Elizabeth in her colonial costume. The cake was centered with a miniature queen, leed in full ruffled skirt interspersed with silver colored candied beads.

Members enjoying the memorable occasion were Mmes. Seth Pallmeyer, Chas. Webster, W. C. Dickey, N. A. Hightower, D. A. Neeley, Myrtis Phelan, Edd Monzingo, J. H. Morris, Bob Roberts, Henry Foster, J. W. Coppedge, Earl Allen, Edwin Smith, Claud Johnson, Tom Isham, John Fowler and Herbert Estes.

Dickey, Loyd Hicks, N. A. Hightower, C. W. Kinslow, Sam Foxhall and D. A. Neeley. Five of the charter members remain in the club today.

Pathfinders Club Meets In Home Of Mrs. McElreath

The Pathfinders Council met with Mrs. W. F. McElreath January 27 at 3 o'clock.

Mrs. Anna Dickson, president, led in prayer and conducted the business session.

Mrs. Earl Hill gave a very interesting report of the state convention in Austin which she and Mrs. Dickson attended. She told of her impression of the club house and Mrs. Dickson reported she saw the club plaque sent years ago.

Roll call for the day was "An Article I Recommended for Reading." The program chairman introduced the topic "You Never Grow Too Old to Learn" with a quotation from Henry Ford, as follows: "Anyone who keeps on learning, becomes constantly more valuable."

Mrs. W. D. Young opened her discussion of "Adult Education" with this thought "A Lifetime of Living is a lifetime of learning." Adult education is activity in job skill, effective use of leisure time, and participation in civic responsibilities, she said. America was

sible citizenship. A symposium led by Rev. Burr Morris and whose participants were Mrs. Burr Morris, L. L. Thomas and W. E. Leslie was conducted on this topic. The various members spoke on how the home, the school, the church and the civic and business organizations contribute toward preparing the youth to be better citizens of tomorrow.

The members of the symposium emphasized the fact that democratic attitudes and ideals in youth do not just happen but are the results of constant and directed efforts toward building such ideals in the home, the school, the church and the community in general; of more responsible living by adults in the community to set examples and of more genuine cooperation among all these phases which most affect the attitudes and ideals of young people in the town to produce well-rounded citizens of tomorrow.

Mrs. Barney Baten gave a delegate's report on the State Parent-Teacher Convention held recently in Wichita Falls.

In the business session, the nominating committee was elected and included the following members: Mmes. W. C. Davis, L. L. Thomas, Mrs. Lloyd VanDeventer, Mrs. O. I. Seale and Mrs. Weldon McCreary.

Announcements concerning the study course on "Helps for Nursing in the Home" to be conducted by Mrs. Edwin A. Smith, Jr. on Thursday morning from 9:30 'til 11:00 at Travis School were made. Also an announcement to remind members that the regular meeting next month, Feb. 12, is the Founder's Day Tea affair was repeated. This tea will be an annual joint meeting with the Stephen F. Austin Parent-Teacher Association.

Mrs. Kinard Gives Review Of Play At Theatre Meet

Mrs. Clifton Burnett, assisted by Miss Helen Boswell, entertained members of the Memphis Little Theatre Wednesday afternoon, January 28.

Mrs. D. L. C. Kinard gave a delightful sketch of the play "Mrs. McThing" written by Mary Chase who also wrote "Harvey" and her most recent play is "Bernadine."

"Mrs. McThing" is a Broadway hit which has run through 1952 with the exception of one month, August, when the cast gave it in Central City, Colo., Mrs. Kinard said.

"Skillfully written, the play was originally planned to run two weeks since it was a play for children but childish grownups took a liking to it as they once embraced "Peter Pan" and the play has run far beyond the season's end.

"A fantastical comedy, "Mrs. McThing" concerns the conflicts between a mother and her son. She as well as her son became bewitched and bewildered. Helen Hayes is the mother in the play and her supporting cast includes young Brandon DeWilde who plays the part of her nine year old son.

"The play certainly emphasizes what psychologist and child ex-

perts are saying—that freedom to get thoroughly dirty and to be a noisy nuisance is important in the child's development. As the scenes unfold in the life of Howay Larue, the things he wants to do and what his mother requires of him makes the old, old familiar story of a child doing what you tell him not do to. The impish miracle that takes place in the lives of Howay and his mother have a wonderful effect on the mother as well as her young son." Mrs. Kinard con-

cluded. Mrs. A. Anisman, who conducted the business session, Mmes. R. S. Greene, Edna Zingo, Gayle Greene, Teriton, Claude Ferral, Combs, Leo Fields, D. Kinard, and Mrs. Burnett Boswell.

founded by God-fearing people, and religion is an important element in American life, she concluded.

The group joined in a discussion of privileges and responsibilities of adults.

"Women are First Class Citizens" was brought by Mrs. Gene Chamberlain. She stated there has never been a time when clear understanding of the roll of citizen has meant so much as today. The greatest challenge to the women of today is the preservation of our American heritage, to be met by being a good citizen, by each individual giving time and effort to religious, civic and political organizations. Concluding she reviewed the foundation stones of good citizenship.

Wm. Travis PTA Hears Symposium On Citizenship

The William B. Travis Parent-Teacher Association members met recently in regular session at the Travis Cafeteria.

The afternoon's program subject was centered around the problem of how our home town may contribute toward safeguarding our freedoms through respon-

sibility was discussed by Mrs. Hill. The electoral college system revision, uniform nonsupport legislation and uniform marriage and divorce laws are current pending legislation so important to women because of their effect on the lives of children and youth in our country and the American Home. She explained that five million women support the equal rights amendment.

Delicious refreshments were served to Mmes. Robert Breedlove, Lee Brown, Barney Barnett, Gene Chamberlain, Anna Dickson, O. M. Gunstream, Earl Hill, Hall Nelson, Earl Pritchett, Chas. Williams, Sr., W. D. Young and hostess, Mrs. McElreath.

Game has taken place in Pennsylvania. A miracle with the name of the Pennsylvania Game Commission's Cooperative Farm-Game. The miracle-worker is Pennsylvania Game Commission which has succeeded in opening public hunting almost one million acres of land that either had or about to be posted. Self reports that the man who had these million acres posted to public hunting is of growing friction between landowner and hunter. It is in 1936, when the Commission went to the farmers and effect.

Each of you who own acres through it open to hunting. We will give you in return. We will set areas around all your lands. We will see that game is on hand during season; we will set apart

some of land as game refuges so your land will not be hunted out. If there are gullies or other erosion on your farms, the Game Commission will supply seed or plants that will bind the soil together, and help plant them if necessary. If you have contour plowing problems, we will provide especially-trained men to help you and we ask only that strip planting be done to help game as well as the land.

The Commission also said: If you or your kids want to raise pheasants for us, we'll supply the chicks and pay you for each bird raised and released at 12 weeks of age. If your land needs restocking, you will get top consideration when we stock quail, pheasant, or rabbits. We'll do everything in our power to make your acres better farm land because than it will be better game land. What do you say?

The farmers said "Yes" rather slowly at first. But the last few years the program has been going with a bang. The 1951-52 report will show 3,000 farms with 10,000 farmers cooperating and more than a million acres open to public hunting.

The Commission soon learned

PREDICTS SNOW . . . Weatherman Ernest C. Johnson of Albany, N. Y., finds himself marooned atop his car by heavy snowfall which he predicted.

that the thing farmers wanted most was protection of rights, life and property. Once he was assured of that, he was open to other things like wildlife habitat improvement on his land. From the beginning, the Commission has religiously seen to it that cooperating farmers get that protection, at the same time subtly pointing out that if it weren't for the hunters' license fees to provide money to hire protectors the farmer would have no safeguards at all against vandals and poachers. Very few farmers ever withdrew from a project, best proof that the plan is working.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

State May Win Estate When Deceased Lacks Will

Made your will? If not, the State of Texas may wind up as owner of your estate upon your death. Under our statutes, the estates of persons having no heirs who die intestate revert, or "escheat," to the State.

Such provisions have been carried over from the English common law. There, under such circumstances, the estate escheated to the British crown. The theory of the process is that the sovereign (or state), having been the rightful owner of all lands they were

an eventuality. In this hypothetical case, you would probably want to designate some friend as executor, to take care of all necessary arrangements and then distribute the estate according to your wishes.

On the other hand, if you have plenty of possible heirs, a will could be used to designate which of them shall participate in the division of the estate. And, even if you wish your property to be distributed entirely in accordance with our statutes of descent and distribution, a will can perform useful functions. Among other uses, a will could provide for an orderly and economical participation of your property, preventing any waste of the assets by heirs for a settlement.

What happens to property which escheats to the State? Following certain required legal formalities and court proceedings, all escheated lands are set apart to the Permanent Free School Fund of the State, and may be leased and sold by the Land Commissioner under certain regulations. Escheated personal property is sold by the local sheriff under a court writ and the money received therefrom paid into the State Treasury.

Written history is at least 6,000 years old.

Free Enterprise

It has been said again and again, almost to the point of triteness, that America's greatest strength is her love of free enterprise. It is true. We have overwhelming superiority in the sins of war today because free men have been given opportunity

to dream and to invent, and because other free men have been ready to invest their dollars in the dreams of the inventors with the hope of making an honest profit. —Salt Lake City Deseret News.

The biggest in town!

Five cents worth of electric service . . . it's the biggest nickel in town . . . and it buys lots of service . . . comfort and entertainment. For example, here's what 5¢ worth of electric service can do for your family:

- A penny's worth makes toast for all your family for three meals . . .
- Another penny switches clean three tubs of laundry
- A cent's worth of electric service vacuums six large rugs . . .
- Then there is enough left out of the nickel to furnish refrigeration for the family's food for hours

• AND
• Bring you and your family an evening's radio or recorded entertainment!

Where else could the average family get so much value for one small nickel . . . a nickel that's now worth only 52% of its 1939 value, but a nickel that buys 17% more electric service than it did 14 years ago?

Let your local electrical appliance dealer show you how easy it is to put electric servants to work for you.

Citizens Urged

(Continued from Page One)

"We need to know which streets shall be included in the proposed paving project," Commissioner Leslie said following the meeting. "And we need to know this by Tuesday, Feb. 18. This is necessary because advertisements for bids must be published on Feb. 12."

He stated that bids will be opened at the next regular meeting of the City Council.

"We anticipate that all legal procedure necessary to issue the bonds will be far enough advanced at our next meeting," he said.

It was explained that streets which are signed up by Tuesday, Feb. 18, will be included in the first letting of bids. Recently voters approved a street paving bond issue in the

amount of \$65,000. The committee estimated that this sum would pay the city's cost of paving from 50 to 60 blocks. To date about 20 blocks have been signed up, although several interested persons are circulating additional petitions.

"If you are interested in obtaining pavement of your street, contact Mr. Farmer as soon as possible," Leslie added. "The chamber of commerce office is helping the city council in an effort to get petitions signed, and any person is welcome to come by and inquire as to the necessary procedure."

Drainage Survey Made

Completion of the drainage survey of the city has been made by the Hatfield Engineering Company of Amarillo, Leslie said. This preliminary work was necessary before the city could go ahead with the proposed project. At the present time, maps of the city are available to interested persons for examination.

Also, complete plans and specifications for paving have been submitted to city officials. These will be used by bidders in determining cost of paving.

James L. Lott Complimented Lovely Bridal Shower Recently

Attractive bridal shower Tuesday evening complimented Mrs. James L. Lott, the bride, Mrs. Dick Spoon, the hostess, and Mrs. Dick Spoon, 1523 St. ...

large crystal punch bowl, where Mrs. Frank Goffinett presided, rested on one end of the table. The buffet displayed burning white tapers in a crystal candelabra garnished with yellow flowers placed in crystal vases. The mantle featured a lovely arrangement of yellow gladiolas in a black bowl. The house was attractively decorated throughout with chrysanthemums and gladiolas in both yellow and white.

The delicious refreshments consisted of dainty rolled cheese sandwiches, wedding bell cookies frosted in white and yellow inscribed "J" and "E" and chilled spiced punch. The yellow napkins were inscribed in silver letters to read "James and Eudine."

The hostesses alternated the duty of displaying the many lovely gifts presented to the honoree. The gifts of silverware, pottery, linens and miscellaneous items were attractively placed throughout the designated rooms.

Hostesses for the affair were Mmes. Ed Hill, Frank Goffinett, Arvor McQueen, R. E. Crooks, Herb Curry, Sam Jackson, Jimmy McElreath, Jim Hansard, Phaeton Alexander, Anderson Gardenhire, Raymond Martin, C. R. Burks, Clifton Burnett, Gene Corley, Glen Stargel, Oran Adcock, Homer Huggins, O. S. Callahan, Roy McClure and Dick Spoon.

Memphis Women To Thos. E. Noel Ranch

Mrs. Mary Owens and Mrs. C. W. Kinslow returned Tuesday from a visit to the Thos. E. Noel ranch in Denton.

The ladies arrived in Denton Friday afternoon and were guests of the Noels at a dinner given by the Fork and Knife Club that night. The guest speaker at this meeting was Ed Harding, famous humorist and Ambassador of Good Will.

Sunday the Noels and their guests visited the Presbyterian Church USA, where they are members and sing in the choir. Mrs. Owens and Mrs. Kinslow reported that the message delivered by pastor John G. Marvin was the high light of their trip.

Following church, the group enjoyed a tour of Hubbard Hall at Texas State College for Women and a delicious lunch. The famous Little Chapel in the Woods was the next stop. The visitors were impressed with the interesting stained glass windows, the individually carved pews and beams

and the unusual hand-wrought brass cut-work designs on the lighting fixtures which hung from the high beamed ceiling, all a part of the little chapel. The new Flow Memorial Hospital and both N.T.S.C. and T. S. C. W. were toured by the ladies and their hosts.

The next point of interest proved to be the large Garza-Little Elm Dam, which, when the lake is filled is larger than Lake Dallas. Mrs. Owens, Mrs. Kinslow and the Noels drove from this dam to Grapevine and the recently completed Grapevine Dam, which is 581 ft. deep.

In the afternoon at the Noel Ranch, an informal tea was served to the following guests, all former residents of Memphis: Mr. and Mrs. Standlee Roberts and daughter, Linda, Mr. and Mrs. Larry Russell, Mr. and Mrs. Emory Burtson and daughter, Alice, Mr. and Mrs. Lyle Montgomery; Also Mr. and Mrs. Harold Crowther and son, Ronny, of Dallas, Mrs. Mina Crowther, Miss Tommie Noel and the host and hostess. The evening was spent watching television programs.

Monday the group went to Ft. Worth to the Fat Stock Show. They attended the rodeo in the afternoon and made a tour of the exhibits. After dinner Mrs. Kinslow, Mrs. Owens, Mrs. Crowther, Miss Noel and Mr. and Mrs. Noel attended the "Desert Song" in the Will Rogers Auditorium.

Mrs. Kinslow and Mrs. Owens departed for Memphis Tuesday morning.

Texas Club Women Interested In Bills Before Legislature

WORTHAM, Tex.—Women of the state are interested in several bills which will come before the new legislature, according to Mrs. Van Hook Stubbs, president of the Texas Federation of Women's Clubs. Mrs. Kirk Hall of Dallas, legislative chairman of the Texas Federation's 1,200 clubs, points out in endorsing extension of the homestead tax exemption that many single women and men sup-

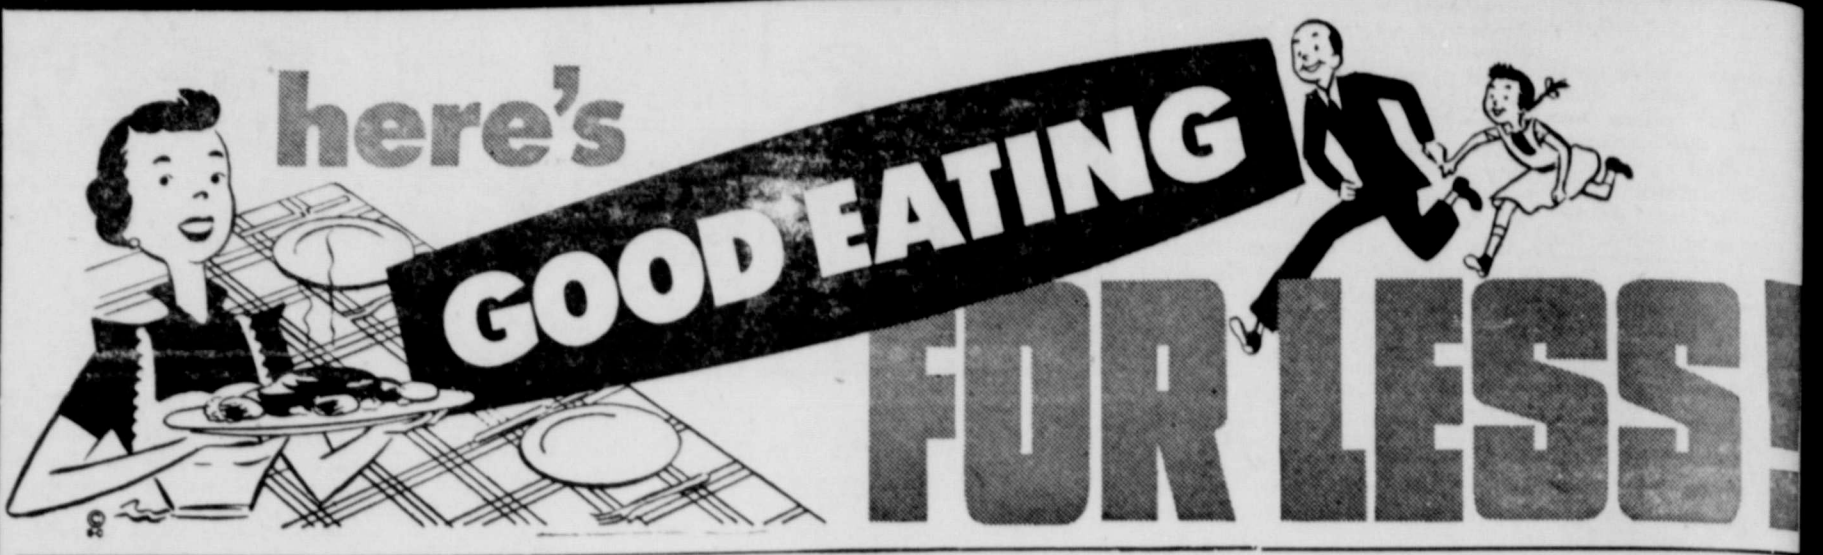

port parents or other relatives, and deserve the tax exemption as much as do married couples. Provision for family courts, or at least appointment of a research committee to investigate systems in other states, is another legislative need given the full backing of Texas clubwomen.

The Texas Federation is also endorsing additional help to the package loan library bureau, a bill to enable local government units to engage in community recreational programs, and strict enforcement of legislation affecting sale of narcotics.

The five-year-old boys' fears were unnecessary because Santa (represented by generous Texans) later paid several calls at the hospital. But that was after this picture was made of (left to right) Larry Thompson, of O'Donnell; David Herrin, Muleshoe, and Dewey Echols, Dallas.

and then trying to get it back. People think an all-out offensive at the start would have brought peace and at a far less sacrifice of human life. Then, removal of the 7th Fleet as protectors of Red China by preventing invasion of the mainland by Chang's Nationalists, will open the way for such invasion which in itself will cause the Reds to withdraw their forces from Korea in order to protect their home country, and will ease the strain in Korea. One of these days we will hear of something doing that will lead either to peace or all-out war, and many leaders think it will be peace because they are of the opinion that Russia is not yet ready for war.

Among other things President Ike favors a larger per cent of parity support for agriculture, which is welcome news for farmers of this area.

Congressman Walter Rogers writes that, "Under the present law the president has the right and power to reorganize the bureaus, agencies or departments in the executive branch of the government by sitting up his reorganization program and submitting it to Congress. . . . Every member on the Democratic side of the House budget committee voted to sustain Eisenhower and to carry out his wishes in this matter, and every member on the Republican side with the exception of one, voted against the expressed wishes of the President." Rogers went on to say that President Ike will receive almost unanimous support from Southern Democrats in Congress as well as many other Democrats in reforming the branches of government which would result in better efficiency, less federal jobs and less cost to the taxpayer.

Big D, a column of the Dallas News, says that readers like to hunt errors in newspapers, and that is the reason a lot of errors are made, because the readers must be pleased. Not so with papers like The Democrat. We hate to have errors occur. But they occur, nevertheless, to our chagrin.

During the past 12 months people everywhere have shown more interest in their local, state and national government than ever before—a good indication that our country has not gone to the dogs, and that an aroused public conscience can do much toward correcting and changing trends. More people than ever voted in the state and national elections last fall. It is good that people exercise their right of suffrage in every case. In the election here Tuesday on the swimming pool bond issue, 526 local citizens expressed their views by voting. When all people vote on an issue then it is a majority—not a minority—that decides.

Bill Phleuger of West Main street, discussing his overweight and falling chest, said he has been eating "Patriotic Food" and it immediately goes to the front.

Jimmy Faulkner, who has been secretary of the Clarendon Chamber of Commerce for quite a time, is now publishing the Turkey Enterprise and Quitaque News. His first week as publisher certainly showed improvement of the papers.

Two Paddies were waiting to get a ride on a freight. While waiting, one of them found some liquor. After imbibing freely from the bottle, one of them remarked, "I believe I will buy this railroad." "No you won't," said the other. "Why," asked the first. "Because I won't sell it."

The first Saturday evening dinner party for members of the Memphis Country Club for 1935 has been scheduled for Feb. 7, according to Joe Lopez, club manager. The members and wives will gather at 7:30 o'clock, and will be served a buffet dinner.

In charge of the arrangements will be the entertainment committee of the club. Homer Tucker is chairman of this committee, and will be assisted by James Arthur Anthony, Joe Durham, Frank Garrett, Nelson Combest and Leo Fields.

Plans are being made to take care of one of the largest groups to gather at the newly-rededicated club house, Lopez added.

The Field Crop program includes a certified seed improvement program, a legume program, a small grain program, cotton program, and a diversified program. Along with this is the Entomology program, which deals with the control of diseases and parasites of livestock, crop, poultry, fertilization, and seed treatment.

The engineering program will feature the running of terrace lines, electrification, safety, home beautification, well setting, water testing, irrigation, and tractor maintenance.
