Annual Clean-Up Drive Next Thursday Afternoon

Residents Are To Help In Face-Lifting

PROCLAMATION

WHEREAS, there is a paramount need within the City of Memphis for a general and complete clean-up of all property, both public and private.

WHEREAS, all residents are vitally interested in the appearance of the city and the removal of all trash and other rubbish which constitute health or fire hazards or both.

WHEREAS, it has been the custom of citizens of this city to combine their efforts once each year in a community-wide clean-up.

NOW THEREFORE, I, Carl Harrison, Mayor of the City of Memphis, declare Thursday, July 2, 1953, as CLEAN-UP DAY; and ask all business houses in the city to close their doors at noon in order that owners and employees may participate in the program wholeheartedly.

Given under my hand and seal this the 25th day of June, 1953.

CARL HARRISON, Mayor
City of Memphis

Correct, Attest
D. L. C. KINARD
City Secretary

ELECTRIC APPLIANCE INSTALLMENT CONTRACT EXPLAINED TO DEALERS

A new plan for financing electrical appliance sales was presented to a group of Hall County appliance dealers Monday, during a luncheon at the Hall County Electric Co-op here.

J. W. Coppedge, co-op manager passed copies of a conditional sales contract among the dealers before going into an explanation of it.

He said that if a dealer and a customer wish, they can use the contracts, in underwriting appliance purchases.

According to Coppedge, the dealer then would bring the contract to the local co-op office, get his money, and the co-op in turn would sell the paper to the federal government. Appliance purchasers would make their monthly payments to the co-op office here.

Coppedge explained that only co-op customers would be eligible to enter into such a contract.

He said purpose of the contract is to help co-op customers and appliance dealers finance such transactions, which would result in increased consumption of electricity, furnished by the Hall Co-op.

Services For Mrs. Herman C. Mueller Held Wednesday

Funeral services for Mrs. Herman C. Mueller, Memphis resident since 1935, were held at 2 p. m., Wednesday in the First Christian Church here. Tom Posey, minister, was in charge of the services.

Burial was in Fairview Cemetery, under direction of Murphy-Spicer Funeral Home.

Mrs. Mueller, 59 years old, died Monday in a local hospital following a prolonged illness. She was born Feb. 1, 1894, in Travis County, Tex.

She and Mr. Mueller were married at Meridian, Tex., Aug. 18, 1921.

Mrs. Mueller was a member of the Lutheran Church and the American Legion Auxiliary.

Among survivors are: the husband; three daughters, Mrs. Coy Don Taylor, Memphis, Mrs. H. M. Gibson, Mineral Wells, and Mrs. T. C. Poe, Jr., Nashville, Tenn.; and four granddaughters and four grandsons. One son preceded her in death in 1944.

Also surviving are: two sisters, Mrs. T. C. Broune, Austin, and Mrs. Ervin Flentge, Rosebud; three brothers, Conrad Arlitt, Needville, Tex., and Martin and Henry Arlitt, New Braunfels; a half-sister, Mrs. Alex Zander, Cisco; and two half-brothers, Alfred Schuerg, Austin, and Albert Schuerg, Clifton, Tex.

Pallbearers were Ernest Foster, O. M. Templen, Milton Ellis, Y. Z. Taylor, W. W. Tumlinson and J. M. Martin.

Honorary pallbearers were Sam Hardage, F. E. Gibson, H. J. Grand, Frank VanPelt, R. C. Edwards and Henry M. Taylor.

ROBERT CLARK

CLARK RECEIVES MEDICAL DEGREE FROM BAYLOR

Recently graduating from the Baylor University College of Medicine at Houston was Robert Clark, son of Mrs. E. R. Clark and the late Dr. Clark. Mrs. Clark and John, another son, attended the ceremonies.

In the afternoon, the faculty held a reception for the graduates and their families at the medical college.

Robert Clark will begin his internship in Baylor Hospital at Dallas, July 1. He plans to return to Memphis to practice.

Dean Emeritus Morsund, who presented a candidate for the honorary degree of Doctor of Laws during the Houston exercises awarded the late Dr. Clark his M. D. degree when the latter graduated from Baylor University College of Medicine in 1924. The college was located in Dallas at that time.

Six Area Ranches In Hereford Tour

Six ranches in this area were visited last Thursday during a tour which was sponsored by members of the Greenbelt Hereford Breeders Association. In all, approximately 200 association members and guests participated in the field trip at one time or another.

Spreads visited were those of J. F. Ross & Sons, and G. Y. Gillespie, both in the Goodlett vicinity; W. J. Sharp & Son, Childress; E. E. Silk, Newlin; Tommie M. Potts, Hedley; H. H. Tindall.

RUFUS GRISHAM

ACE GAILEY

NEW ROTARY AND LIONS LEADERS WILL TAKE OFFICE AFTER JULY 1

New officers of the two Memphis service clubs for 1953-54 are due to take office July 1. Both groups were elected sometime ago.

Ace Gailey will assume the presidency of the Lions Club, next Thursday evening at a ladies night dinner in the Masonic Hall. He succeeds W. B. Wilson, Sr.

Heading the Rotary Club for next year will be Rufus W. Grisham. Clyde Milam is the outgoing president. Grisham and the other new Rotary leaders will take office at the first club luncheon in July.

Other Lions Club officers are: J. W. Coppedge, first vice-president; E. A. Smith, Jr., second vice-president; Gene Lindsey, third vice-president; Dr. Jack Rose, sec-

retary; L. C. Martin, treasurer; Bill Leslie, Lion tamer and R. A. Massey, talltwater.

Starting two-year terms as directors will be Lynn L. McKown and Clifford Farmer. Holdover directors are Bob Ayers and Elmont Branigan.

Completing the roster of new Rotary Club officers are: Gayle Greene, vice-president; and Thomas Clayton, secretary-treasurer.

The board of directors is composed of Grisham, Greene, Clayton, Jim Beeson, Ben Parks, Sam J. Hamilton and Milam.

CROP PROSPECTS DETERIORATE IN AREA AS DROUTH CONTINUES

Farm Bureau Meeting At Matador Seeks Drouth Aid For This Region

TWO INJURED IN BUS MISHAP NORTH OF HERE

A woman passenger was hospitalized overnight and another received first aid treatment after a southbound Continental Trailways bus struck three animals early Saturday morning on Highway 287, about 4 miles north of here.

Kept in a local hospital Saturday night for observation was Mrs. Mary Loveless of San Luis Obispo, Calif. She suffered shock, and bruises and abrasions on her hands, arms and head. Sunday, she continued her journey to Houston to visit a son.

Requiring first aid was Mrs. Alma Lacey, Grand Prairie, who sustained bruises and abrasions on her hands and arms.

Other passengers were shaken up but did not need treatment.

The animals, two mules and a Shetland pony, were killed. They belonged to a resident of Morn.

Three Pay Fines In County Court

A Lakeview couple and a Childress man pleaded guilty in County Judge Tracy Davis' court Monday and paid fines and costs, totaling \$496.70, according to County Attorney William Teague.

The Lakeview couple was arrested at Lakeview May 20 and charged with the sale of whiskey in a dry area. The man paid \$200 in fines and costs on two counts, and the woman paid \$100 and costs on one count, Teague said. Total payment came to \$374.40.

The Childress man paid \$100 and costs on a charge of driving while intoxicated. In all, his offense cost him \$122.30.

Other county court proceedings were postponed after a jury could not be obtained because of pressing farm work.

Several resolutions, seeking aid for drouth-stricken farmers and ranchers of this area, were drawn up at an area Farm Bureau meeting in Matador Monday night according to County Agent W. B. Hooser, who attended the session.

The resolutions are to be sent to the Texas Farm Bureau Federation, with a request that they be forwarded to Secretary of Agriculture Ezra T. Benson.

Approximately 10 counties in this area were represented at the meeting.

In the resolutions, Farm Bureau members asked for long-time low credit so breeding stock may be held on the land; asked that it be arranged so hay and proteins can be purchased at a low rate of the meeting.

Donations Asked For War-Ravaged People Of Korea

June 28 through July 5 has been designated as "Aid to Korea Week" in Texas by Gov. Allan Shivers and residents of this state, have been asked to make contributions toward a national quota of five million dollars.

The money is to be used to help millions of displaced, sick and injured persons and orphans in Korea, by providing food, clothing, medical assistance and emergency shelter.

T. H. Deaver has been appointed chairman of the drive in Hall County. Donations may be mailed or delivered to him at the First National Bank in Memphis.

Governor Shivers pointed to the great need of Korean civilians. "There are 15,000 men, women and children in Korea who have lost an arm or leg in the years of constant warfare. There are 300,000 war widows, more than 100,000 orphans, and nine million dislocated persons in Korea. And one person in 20 in that stricken country has tuberculosis, yet there are only 100 beds in the entire country for treatment of patients with tuberculosis."

Then Friday afternoon, one of the worst sandstorms ever to lash this area, swept across sandy farmlands west and south of Memphis, blowing out thousands of acres of cotton, in spite of everything farmers could do to try to save it. Some farmers were able to save all or a part of their crops but many more had everything destroyed and had to start from scratch. And south of the river, they have

Continued on Page 8, Sec. 1)

LEAFWORMS SHOW UP IN COTTON FIELDS THROUGHOUT HALL COUNTY

Leafworms are showing up in cotton on many farms all over this county, W. B. Hooser, Hall County Agricultural agent, said Tuesday. Among sections, listed by Hooser, are the area, south and east of Memphis, and the Brice area.

Hooser said that as far as he knew, no farmers were spraying their cotton Tuesday. He said this was due to farmers' uncertainty as to crop prospects, to leafworm infestation not having grown to serious proportions, and from fear of killing beneficial insects which combat another type of cotton-destroying insect, the aphid.

Some small Army worms also have been found in several Hall County cotton fields, according to Hooser.

Presence of leafworms is indicated by ragged or stripped cotton leaves, Hooser said.

The full-grown worm is about 1 1/2 inches long, greenish with white and black stripes, and with black spots over its body. Its half-loping crawl is characteristic.

The leafworm is a tropical insect. The moth or miller migrates to the cotton belt each season, usually appearing in South Texas in April, May or June. Eggs are laid on the underside of the leaves and worms become full grown within two to three weeks after hatching.

The worms change into brown pupae in folds of the leaves. In about a week, the moth emerges and a new life cycle begins, the insect having three to six generations in a season.

According to Hooser, insecticides should be applied when worms first appear, or when as many as 12 stalks in each 100 in a row are

found to be infested.

Toxephene may be used at the rate of one pound per acre, as a spray for leafworms, while cotton is small. When cotton gets larger two to three pounds per acre should be used.

For combatting Army worms, two or three pounds of toxephene per acre, in the form of a spray should be used.

No One Injured In Three-Vehicle Mishap Thursday

Three vehicles were involved in an accident west of Lakeview last Thursday afternoon but no one was injured enough to require treatment, said Highway Patrolman Clinton Culp. The mishap occurred on State Highway 256, about 2 miles west of Lakeview.

The accident resulted when an automobile struck the left rear of a tractor and in turn was hit in the left rear by another car, according to Culp.

The first car was driven by Leon Broyles of Lawton, Okla., the tractor by C. G. Stem of Lakeview, and the second car, by Mrs. Charley Murff of Brice, Culp said.

The right side of the automobile, driven by Broyles, was badly sliced up by disks, which the tractor was pulling, Culp continued. It was a 1952 Nash Rambler.

Mrs. Murff was driving a 1953 Chevrolet and Stem was on a Ford tractor.

Culp said Broyles was given a ticket for passing without sufficient clearance.

Heat, Hail, Wind And Sand Add To Agricultural Woes

Farmers of this area, already plagued by prolonged dry, hot weather, were the targets of several new assaults the past week. The latest misfortunes further blighted agricultural prospects.

Hardest hit seemed to be farmers in the territory south of the river, extending west from Esteline to the Turkey section. In that strip, farmers do not have enough moisture to replant after being blown out last Friday.

Many farmers in the Lakeview, Lesley, Plaska and Giles sections, replanted the latter part of last week or this week, after being either hailed or sanded out Thursday night and Friday. Most of them planted cotton, according to County Agent W. B. Hooser.

This has probably been the most difficult year to get crops up and growing in the history of this area, everyone seems agreed. Even in the drouthy 30's, crops usually were fair to good until dry, torrid weather blasted them in July and August.

This year, however, farmers have had trouble getting stands of cotton up, and more trouble keeping it alive and growing, as much needed moisture failed to come and hot winds, sand and dust lambasted it.

For the past several weeks, the tender plants have been taking a beating, with more and more of it dying as time passed.

On top of this, insects are reported to have begun working on cotton all over the county within the past week or so, Hooser said. They had not become extremely serious up to Tuesday, Hooser said, but they were one more thing to add to farmers' fears. Hooser said both leafworms and Army worms have been found.

A great many farmers in the Memphis, Lakeview, Lesley and Giles sections were feeling better Friday morning, after from half an inch to an inch and a half of rain fell the night before. On the other hand, a number of farmers in the Lesley section were hailed out the same night.

Then Friday afternoon, one of the worst sandstorms ever to lash this area, swept across sandy farmlands west and south of Memphis, blowing out thousands of acres of cotton, in spite of everything farmers could do to try to save it.

Continued on Page 8, Sec. 1)

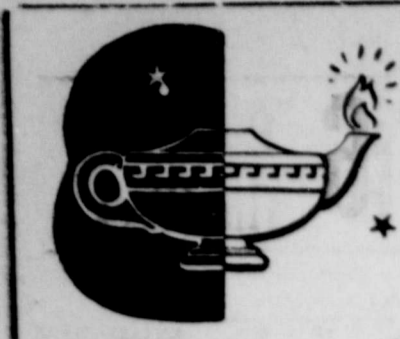

What a relief this Thursday morning. Even though the north wind is accompanied by plenty of dust, the temperature is down to the extent that one doesn't feel a hot wind in his face when he emerges from his air-conditioned home or place of business. Let's hope it is the turning point in weather conditions and that we may yet have some relief from the drouth.

We were told last Sunday that Summer officially set in that day. Everyone in this section of country had been having Summer weather for a month or two. Somebody has mixed dates and seasons, and we are getting a conglomeration of things that keeps us all muddled.

Amarillo is considering hiring Dr. Krick to bring rain. This section had already done so. As little as people think about it, the best way to get rain is to depend upon

Pearls of Wisdom

(Strung by J.H.R.)

Summer Daze

As is always true, there are things to be said for and against the summer season. It is most bearable when you can pack yourself and family off to some sequestered spot in the mountains where cool, clear streams babble and the mountain trout are jumping. Or, if you prefer to travel light, pack as little as possible and hie for the beach where about all that's needed is a coat of tan to qualify as fashionable.

Summer are vacationing and some are not. Me, I'll endure the summer hot right where I spent the winter. Let those who will take "the open road" and grow weary with aimless travel. I'll swing in my hammock. With a pink lemonade while the summer days unravel. Speaking of hammocks, here's "A Kind Word For A Hammock" clipped from a recent publication:

WHATABURGERS

A square meal on a round bun for 30c

SNO-CONES

All flavors 5c and 10c Also Ice Cream, Milk Shakes, Malts and Bottled Drinks.

SIMPSON'S BURGER HOUSE

On highway at Cleveland St. Mrs. Grady Simpson Mrs. Larry Simpson

"Everyone should invest in a hammock. There's something about a hammock that keeps the world from being too much with you, and it's impossible to get really agitated about great issues in a hammock without falling out; that is. In a hammock, you can think and nothing seems more pressing than reaching for another glass of lemonade. As a matter of fact a hammock makes thinking rather attractive. Just swing and dose and let the rest of the world go by."

And for hammock reading, may I recommend something light, even frivolous. Don't undertake a philosophical treatise for summer reading. A good collection of poems. Ernest Hemingway's "The Snows of Kilomajaro" or Louise Dickinson Rich's "We Took To The Woods" describing their life in the wooded country of Maine in the wintertime.

All those, who will, can be athletic in summer. In the cooler climes it's fine and dandy to golf, play tennis and the out-door energetic type, as for me, I'm inclined to concur with the fellow in the following bits of verse:

No one has ever jumped as high Since records first were kept, Nor any leaped as far as I

LIFEGUARD . . . Shapely Chie James works at job as lifeguard at Pallsades, N. J., amusement park. She began swimming at age of 5 and turned pro in 1947.

Since first a leaper leapt. I'm not a new Olympic star, Nor suffering from delusions: The records I have broken are In jumping to conclusions.

What with schools out for the summer, teenagers and aspiring collegians are likely to find time hanging heavy, considering the rapid-fire pace they maintain during the season of higher learning. As for those young ladies who reluctantly go along with "the folks" for a family holiday at the shore or in the mountains, here's a helpful hint or warning:

Girls on summer holiday, 'Ware of handsome wolves of prey.

Be discreet and only mingle; With the obviously single; Men are a deceptive lot; Summer bachelors . . . some are not.

Mrs. Bluford Walker is visiting in Mineral Wells with her daughter, Mrs. David L. Taylor and family. The Taylors are the parents of a new daughter, born Sunday. Mrs. Walker plans to be in Mineral Wells for the next three weeks.

Lockjaw Cases Increase In Summer In Spite Of Preventive Measures

AUSTIN—Increasing numbers of lockjaw cases will develop between now and fall, State Health Officer Geo. W. Cox warned today, despite known measures of prevention.

Lockjaw, or tetanus, case-jump in summertime because exposures in the form of cuts, scratches, or puncture wounds are more frequent in warm weather when people are out-of-doors.

The germs of lockjaw are commonly found in soil — especially manured soil. They enter through a skin break and emit a deadly toxin which causes jaw and neck muscles to constrict so severely that jaws involuntarily close, vice-like.

Slowly, the muscle constriction spreads to other body muscles, until the victim is bent like a bow. A fatal case of the disease has been traced to a scratch from a rose thorn.

Lockjaw germs are spore-formers, which means they can live for years outside an animal body. Its life processes lie dormant in a tiny seed-like pod, sifting about on the ground until finally, perhaps through a sliver or nail scratch, it gets back into live tissue.

The wound may heal, but inside protected as it is from the air, the spore will begin "revegetating" and emitting deadly toxin. Farmers are especially vulnerable to lockjaw, Dr. Cox cautioned, because the primary source of lockjaw germs is the intestinal tract of farm animals. They're passed onto the ground in animal dejecta, easily available for re-entry into a human body when that body is cut or scratched or otherwise wounded.

Exposures to lockjaw are so common that it is mere common sense for everyone to maintain a high level of protection via immunization. Dr. Cox called this method of gaining immunity "simple and convenient." He said immunizing shots should be given children early life, at the discretion of the family physician.

"You can't go to a doctor with every little scratch," he emphasized, "so the best way to handle it is to take an immunizing series of shots, and keep the immunity level high with periodic 'booster' shots."

Weather, such as prevails now over the state, tests the management skills of the home gardener. Proper cultivation, irrigation and mulching are garden practices which will pay-off during dry, hot weather. Insect control, too, is a must.

Questions & Answers

Q—What doctors specializes in diagnosis and treatment of allergy?

A—The dermatologist or allergist is most likely to be called in on complicated problems of allergy. A dermatologist is an expert in skin diseases, and an allergist is a specialist in the diagnosis and treatment of all allergies, whether they affect the skin, the respiratory system, or the gastrointestinal tract (the food tube).

Q—What is "contact dermatitis"?

A—A condition caused by the skin's being sensitive to a substance which touches it, such as soap, oil, or leather. The number of materials known to have caused contact dermatitis are almost without limits.

Q—Why is skin cancer such a vast problem in Texas and the Southwest?

A—Because people exposed to a lot of sunshine are among those who most often get cancer of the skin.

Modernizing Given Boost Greater Ease of Getting Necessary Financing

George C. Johnson, president of the bank, said the plan will make terms considerably easier for the homeowner contemplating modernizing.

"Instead of borrowing on a short-term note and repaying it within one to three years, families can spread payments over the term the original mortgage has yet to run," he explained. He gave this example:

A homeowner has an original five per cent \$10,000 mortgage to run for 20 years. With monthly payments of \$66 on principal and interest, he has paid off a little more than \$2,000 at the end of six years. By this time his family has grown so he needs more room. It will take \$2,000.

He fills out a simple form at the bank. If the application is approved, the bank hands him a check for \$2,000; in turn, he pays \$30 to cover costs of legal work, title insurance and other incidentals. He agrees to repay this \$2,000 loan and the interest on it with regular monthly payments of \$16.58 instead of the \$63.88 per month required on three-year modernization loans.

The \$16.58 added to the \$66 monthly payments on the original mortgage brings his total payment each month to \$82.58.

Mortgage Refinancing

If a homeowner is planning a big project and other financing is unavailable or impracticable, he can turn to new mortgage financing. The problem, if his place is "free and clear," is simply to get the best mortgage terms available.

If he already has a mortgage, however, the solution may be refinancing—getting a new mortgage large enough to pay off the old one and to provide the money needed for modernizing at the same time. Refinancing requires two or three weeks for processing (including a complete title examination), and the homeowner will also run into the usual servicing costs of a new mortgage.

SPORTS AFIELD

By Ted Kestug

Woodcock are birds of mystery. They sound an electric little whistle when flushed by dog or man but do not sound it when they fly of their own free will. How and why do they whistle? One woodcock rises in twisting flight like a jacksnipe, another wavers away like a will-o'-the-wisp. Why this erratic flight, as if the bird does not know where he is going? Other game birds are found on their feeding grounds, except during the midday hours. Why not woodcock also?

Dr. William J. Long, noted naturalist and writer, has some ideas on these questions, but he adds that you are quite free to challenge them. Let's take that whistle first.

There are reputable ornithologists who tell us that it is made by the bird's wings. Long's answer is this: "The last time I went out for woodcock my setter locked up on point at the edge of some poplar saplings. Just within the thicket a woodcock crouched low in plain sight. Noting that the bird was facing me, his bill pointed straight at me, I relaxed for a difficult shot,

having learned long before that in the direction a woodcock's bill is pointing, in that way he will almost surely go when flushed. Out he came, right at me. As he sidestepped over my shoulder, his bill opened and closed rapidly while he whistled into my ear. A moment later the bird's bill was closed and the whistling had stopped. That was only one of several occasions when a woodcock seemed to say to me that his whistle comes from inside, that it is vocal and that his wings have nothing to do with it."

The answer to their erratic flight may be told in one word and that is "habit." Long explains that a woodcock's formative months are spent in thick cover, where the old birds have learned by experience to rise above the brush tops before heading away. It is possible that young birds know as much by instinct but even so they must of necessity make their first flights through

the brush. Their wings are not yet strong enough for the lifting flight, which is the second flying lesson learned by any bird. So it happens that by dodging around alder clumps or twisting through them, young woodcock acquire a habit which clings to them all season, or longer.

That you rarely find woodcock on a feeding ground is due also to a habit which sets them apart from other game birds. Woodcock feed largely on earthworms and they feed by night as a rule. Before sunrise they fly with full stomachs to a resting ground, which is often a dry, sunny ridge or hillside. Very seldom do they rest in big, shadowy woods. Look for them in abandoned orchards, in the mottled light-and-shade of saplings—birch or poplar preferred—or in dwarf adlier.

Key General Reports On Laws Passed By The 53rd Legislature

Treasury representing overpayment of fees by individuals may now be cancelled and the money used for State purposes when the person entitled to the money can not be found after four years.

The law requiring that State department heads be responsible for state property has been modified slightly to make it more workable.

In the field of local government, several changes were made.

A tax assessor and collector in similar counties may maintain a branch office; an independent school district under general law may hire its own assessor-collector; delinquent taxes may be pledged by a school district as security for a loan; and a three-year average will now be used in computing the economic index of a county to determine the amount of State funds to be given to local schools.

Some of the problems that were presented to this session involved changes in the main body of our law—the State Constitution. At least five Constitutional amendments will be submitted to the vote of the people in November of 1954.

Our Constitution has been amended an average of 3 times after each session of the Legislature since it was established as our primary law in 1876. In the Senate, a total of 15 Constitutional amendments were proposed while the House proposed 46. The five which both Houses passed by a two-third vote and which have been approved by the Governor are:

- (1) require women to serve on juries;
- (2) 4 years elective terms of office for local officials;
- (3) use a 5 million dollar Confederate Pension Fund surplus for the construction of a State Court

IT'S THE LAW
in Texas

INDICTMENT NOT EVIDENCE OF GUILT

What does indictment by a grand jury mean? Lawyers find that many persons are inclined to confuse indictment by a grand jury with a court conviction for a crime.

This misconception is unfair to anyone who becomes the subject of a grand jury investigation. Justice, in the United States, is based on the theory that a man is innocent until proven guilty, and public opinion should withhold its verdict until the courts have had an opportunity to determine guilt or innocence.

An indictment is simply a written accusation presented by a grand jury to the district judge. It charges some person or persons with a crime. It is not a conviction. When a grand jury indicts a person it merely affirms that there is sufficient reason for him or her to stand trial. That is as far as the grand jury goes.

After that, the judge and the trial jury take charge of the case. At the trial the indictment is simply the State's pleading in the case, to which the defendant may plead "Not Guilty." The trial jury is instructed by the judge that it must not consider the indictment as any evidence of guilt.

All felony offenses in Texas that are all offenses punishable by imprisonment in the State penitentiary, must be prosecuted on an indictment by a grand jury. A grand jury may indict an individual for a misdemeanor, an offense punishable only by a jail sentence or by fine, but this is rather an unusual procedure.

Misdemeanor cases are customarily prosecuted on the basis of an "information" filed by the County Attorney. This serves the same function as a grand jury indictment.

The importance of a grand jury verdict is this: If it votes a "True Bill"—that is, if someone is indicted—the District Attorney must prosecute the person indicted, but if the jury votes a "No Bill"—that is, not to indict—the suspected person cannot be tried.

The grand jury procedure is one of the basic protections enjoyed by the common man against outrageous procedures of would-be tyrants, and dates from early Anglo-Saxon times. It assures that no person shall be forced to stand trial for a felony on the basis of a malicious or frivolous accusation having no apparent factual support.

When called to serve on a grand jury you share with a group of

VISITS BIRTHPLACE

fellow citizens some of the most solemn responsibilities known to our democracy. Consequences of life-or-death importance may hinge upon your vote.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Disaster Status Asked For County

Several telegrams have been sent recently by local officials to Governor Allan Shivers and Congressman Walter Rogers, asking for aid in getting Hall County included in the disaster area.

Messages were sent by County Judge Tracy Davis to Governor Shivers and Congressman Rogers. Allen Dunbar, president of the Memphis Chamber of Commerce, sent a telegram to the congressman.

The telegrams told of serious agricultural conditions in this area and thanked the two officials for their assistance in working for relief for the county and this region.

WEATHER MIXED THE PAST WEEK

Weather the past week in this area just about ran the gamut.

Rain fell over some parts of the area Thursday night. Hail pelted the Lesley section.

Friday, one of the worst sandstorms in history, lashed the territory and several brief spells of dust occurred in succeeding days. This morning, the wind came out of the north, stirring up blinding dust for several hours, settling to a great extent around noon.

The north wind brought cooler temperatures, with highs over the

region expected to keep within the 80's, where they had been climbing above 100 degrees most days.

Last Thursday's rain measured .52 of an inch here but totaled as much as an inch or an inch and a half west of here at Lakeview and Lesley, and northwest of here in the Giles section.

Temperatures the past week, as recorded by Weatherman John McMicken, were as follows: Wednesday, 75 and 109 degrees; Tuesday, 77 and 106; Monday, 71 and 109; Sunday, 61 and 108; Saturday, 63 and 106; Friday, 70 and 99; and Thursday, 74 and 105. This morning's low was 77.

Federal Fugitive Nabbed Wednesday Near Estelline

Sheriff E. S. Morrison and two FBI agents from Amarillo picked up a federal escapee named Redwine, southwest of Estelline, about noon Wednesday.

Redwine escaped from Leavenworth Federal Penitentiary at Leavenworth, Kan., about two months ago, according to Deputy Jack Peabody. He was serving a sentence for white slavery and told Peabody the sentence had about two and a half years to run.

The fugitive was arrested while working with a Fort Worth & Denver extra gang.

After escaping, he went to New Mexico before coming to this area. Peabody quoted him as saying:

U. S. Marshal Bill Lampe of Amarillo, was expected to come here today or tomorrow and return him to Leavenworth. He was lodged in the county jail here after his arrest.

Peabody said he met an Estelline woman about three weeks ago and they were married a week or so ago.

The white slavery offense was committed in Oklahoma, according to Peabody.

Wheeler Is Teaching Singing At McLean

Palmer Wheeler, song director at the Memphis Church of Christ, is an instructor in a musical normal at McLean which opened this week and will continue through next Friday.

Tillit S. Teddlie is director of the school and George Saunders song director for the McLean Church of Christ, also is teaching in the school.

Mrs. Wheeler, the Wheelers' son, Tommy, and Miss Mary Crawford, daughter of Mrs. Alice Crawford, are attending the normal.

A concentrated course in singing is given for four hours each day and for two hours at night. No fees or other charges are being made.

Mrs. Bess Crump and Chief of Police and Mrs. T. D. Weatherby visited relatives in Amarillo Wednesday.

Present Sunday for a family reunion in the home of Chief of Police and Mrs. T. D. Weatherby were Mr. and Mrs. Howard Weatherby and son, Howard Frank of Shamrock, Mrs. Bonnie Isaac and son, Al, Jr., of Amarillo, and Mr. and Mrs. Raymond Harkins and son, Don of Champaign, Ill. Chief Weatherby is a brother of Howard Weatherby and Mrs. Isaac and Mrs. Harkins.

Mr. and Mrs. Lynn Jones and Mr. and Mrs. L. G. Rasco expect to leave Saturday for San Antonio to attend the Veterans of Foreign Wars, Department of Texas, annual state encampment.

Mr. and Mrs. George Childress and son, George Wilson, returned Wednesday night from a two-weeks trip, which included Colorado and Wyoming points. Childress attended a one-week coaching school at the University of Colorado in Boulder and then the family visited Yellowstone Park before coming home.

TO RIDE AT CLARENDON RODEO—Going through one of their trick routines are Florence Reynolds of Skellytown, and her trained horse, "Karo Kid." The special added attraction will be featured at all four performances of the Clarendon rodeo, Thursday through Saturday, July 2-4. The rodeo is held annually at Clarendon.

MEMPHIS GIRLS DRILL FOR RODEO AT CLARENDON

A group of Memphis girls are going through evening drills daily to perfect their horsemanship in preparation for appearances in the annual Clarendon rodeo, July 2-4.

They are making the dust fly each evening in a vacant lot, just west of Mr. and Mrs. James Arthur Anthony's home.

The girls, Janice Ann Anthony her little sister, Jamie Kay, Margaret Ann Massey, and Betty Paschall, will compete in the barrel race event at Clarendon. The race will be one of the featured attractions at the three night performances and the single afternoon performance.

Six barrels have been set up in the vacant lot here to be used by the girls as they practice a figure, titled "The Stingaree."

It's a thrilling sight to see Janice Ann Anthony on her new sorrel filly, "Miss Jessie, Margaret Ann Massey, on a sharp bay pony and Betty Paschall, on a handy black. Rounding out the group is Jamie Kay Anthony, a newcomer.

Girls from several counties in this area will compete for money prizes, under the guidance of Mrs. Boyd Rogers, Memphis, as sponsor range boss, and Mrs. Charlie Seed as Clarendon hostess.

Everyone is invited to come out and watch the local girls go through their routines.

Fire Ruins Of Burned Stores Are Cleaned Up

Workmen have just about completed cleaning up the charred and burned debris at Baldwin's variety store and Durham's Prescription Pharmacy, on the west side of the square.

The stores were destroyed Saturday night, June 13, in a conflagration which also burned W. H. Monzingo Motors and Lemons Furniture Company, in the 600 block on Main Street.

The First National Bank building also was damaged extensively. The bank joins Baldwin's on the north.

Loss was expected to run around half a million dollars or more. Police Chief T. D. Weatherby said today. Cause of the blaze has not been determined but Chief Weatherby said investigators from the state fire commission have been here all week and were expected to reach a decision sometime this afternoon.

Among those helping clear rubble from streets and alleys, following the blaze, were road crews from Precincts 1 and 2.

DAY, JUNE 25, 1953

NEEDS CONTROLMEN

Approximately 50 vacancies exist in the patrol division of the Department of Public Safety.

J. W. Blackwell has announced that he will head the American Patrol, said applicants have until June 30, to file applications.

Applicants must be between 21 and 35 years of age, not less than 5 feet 6 inches in height and not less than 140 pounds and not more than 200 pounds per inch.

Salary for patrolmen is \$305 per month plus \$10 a month for each year in service up to 15 years.

Interested persons should apply to the American Patrol, 1111½ N. Main St., Memphis, Tenn.

Grateful For Payment Success

Members of the Country Club, this week expressed their gratitude for the efforts of members, committees and special tour committees in getting the club in tip-top shape for the recent Greenbelt tournament.

Members also lauded Joe Lopez, professional, for his valuable assistance in preparing for the tournament.

Everything went off fine, in spite of the hot weather, during the tournament. "Visiting golfers" it was one of the finest tournaments they have ever attended and that the food was the best also were extremely

pleased by the hospitable reception given them."

CONSTANT USE OF HOME FREEZER NEEDED TO GET HIGHEST RETURN

COLLEGE STATION—Use your home freezer to gain the highest dollars and cents return on your investment.

Mrs. Eula J. Newman, home management specialist for the Texas Agricultural Extension Service says the family that lives out of the freezer is the one making wisest use of the equipment.

You can make your home freezer profitable if you select an appropriate size, and make efficient use of it for the home food supply. The specialist says selecting a freezer large enough for the number in the family is important. One way to figure the size, is to estimate about six cubic feet per person. A family of five could well use a 30-cubic foot freezer. If you produce much of your food at home, then you would need a larger size.

Cost of operating a home freezer would include the interest on the investment for what you consider the life of the equipment, repairs, electricity for freezing and also for keeping a zero temperature, as well as the cost of the food and packaging. The specialist says you can use three percent for figuring interest on a twelve year investment, two percent of the purchase price for repairs about three cents per kilowatt-hour for freezing and three cents for maintaining zero temperature with two cents a pound for packaging costs. This does not include the cost of food.

The six cents a day for electricity to operate the box is a national average arrived at from studies by E. C. McCracken, physicist of

MAYOR McGUP By John Jarvis

the U. S. Department of Agriculture.

Local rates may vary from those of Texas has lower than national rates. The cost may be lower for other electricity costs on the farm and ranch and may put you in the lower rate group.

Now, consider the amount of food placed in the freezer in a year. If there is almost no turnover, the cost per pound of the frozen food will be about twice the cost per pound where you fill the box three times during the year.

Homemakers often ask if the freezing of food doesn't run up electric costs considerably. The motor does run a little more to freeze than to hold frozen food. But Dr. McCracken's figures on operating costs show that more than 90 percent of the electricity used annually by a freezer is to hold foods at zero F., and less than 10 percent is for freezing. The savings in freezing home-produced foods, or foods that can be purchased at low cost, more than offset the cost of current used for the freezing.

Another economy point freezer owners need to understand is that

the more food that goes through the freezer, the less the operating cost per pound. It's using, not saving, food in the freezer that pays. Families who arrange to live out of their freezers as much as possible and thus have a rapid turnover of frozen food make the most economical use of this appliance.

Other ways to save on operating costs are to locate the freezer in a cool, dry, well-ventilated place where the motor will not have to run excessively and where heat from the motor can escape easily. Have a separate electric circuit for the freezer to avoid overloading wires which strains and heats up the motor.

"The satisfaction of enjoying fresh-flavored food of high nutritive value throughout the year is an item families can not overlook," Mrs. Newman says. "The time and energy saved in freezing as compared with other preservation methods is another important point in favor of the freezer."

IT'S THE LAW in Texas

JURY SERVICE IS CIVIC DUTY
Jury service is one of the highest attributes of our American citizenship, for by it the citizen participates in the administration of justice between men and man and between government and the individual.

Suppose Mr. Jones and Mr. Smith have a lawsuit. They may be strangers to you, and in a sense you do not care who wins. But as a citizen you do care, and it is very important to you and all the people that there be a way by which disputes can be settled peacefully and justly, because some day you may become involved in a dispute and you would want that settled peacefully and justly.

John Doe may be accused of a crime. He may be a stranger to you and you may never have heard of the offense with which he is charged. Still, it is important to you as a citizen that the laws be so enforced as to punish and discourage crime in order that you may be safe in your person, your property and your rights and it is equally as important to you that no innocent person should be sent to prison, for if that could happen to another, it could happen to you.

Here are some tips to follow when serving on a jury: Hold yourself aloof from all persons (except other jurors) in any way connected with the trial of the case. That means that you should not mingle with nor talk to the lawyers, witnesses, parties, nor the judge, even though the discussion is wholly unrelated to the trial.

Do not discuss the case nor permit others to mention it to you or in your presence during the trial. If anyone insists upon talking about the case after you have explained to him that you are a juror and must not listen, report the matter to the judge immediately.

Do not commence your deliberations until you have heard all the evidence from both sides, the argument of the lawyers, and the court's charge. You should not mention the case except in the jury room when all other jurors are present.

Do not become a private investigator. All properly admissible evidence will be brought before you. Do not try to search out additional facts you believe to have been omitted. Do not even guess or speculate about facts not in evidence.

TEXAS' NEW GRAIN WAREHOUSE LAW

Texas now has its first grain warehouse bill. And for the first time, the farmer has adequate protection for his grain and field seed held in storage by a state licensed grain warehouse.

Long needed as a protective measure for stored bulk seed, the Public Grain Warehouse bill was passed during the recent 53rd legislative session. As a result, a depositor has his commodities insured against fire, theft, misappropriation, damage due to careless handling, or acts of God.

Also for the first time, the farmer may use his stored grain receipts from state licensed warehouses as negotiable security.

The bill is Texas' answer to the grain scandals which rocked the nation in late 1951 and early 1952. Briefly, it requires that each public warehouseman obtain adequate bond, secure a license of operation from the Texas Department of Agriculture, and carry sufficient insurance to cover the full value of bulk grain stored in his bins.

Bonds are set at \$5,000 minimum and \$50,000 maximum, subject to the decision of the Commissioner of Agriculture who can raise or lower it as he deems fit for the best interests of depositors. The licenses are issued over his signature.

The law has an exception. Warehouses having a license from the Federal Government are not re-

quired to meet the state provisions. The regulations are so similar that it would make for unnecessary duplication.

The first eight licenses were issued last month to J. R. Cooper, representative from the J. C. Co. Co., headquartered at Dallas. Other public warehouses of public grain can also be licensed.

Do not guess at the judge's opinion of the facts. You are the judge of the facts. He is not allowed and will not try to invade your province. His rulings on admissibility of evidence reflect his ideas or opinions on any fact question.

You should not mention or discuss your own personal experiences, or any knowledge that you may have of similar transactions. If you should disclose such information to others serving on a jury, the court would have to grant a new trial.

When in doubt ask the judge. If you are in doubt about your rights or duties as a juror, you should not ask anyone but the judge for information.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Q & A in Health

Q—Why is the control of body weight so important?

A—Because it is a positive approach to maintaining health and preventing some of the major diseases of middle and later life such as high blood pressure, hardening of the arteries, and kidney disease.

Q—How common are headaches?

A—Next to constipation, headache is the most common complaint heard by the doctor. Many headaches, of course, never come to a doctor's attention.

Q—Is hardening of the arteries a hopeless condition?

A—No. If the disease is treated early, the patient with reasonable care has an excellent chance of living a normal life with almost unlimited activity.

Q—What is an allergy, and how may it show up?

A. It is a sensitivity, either in-born or acquired, to a certain substance which may be touched, eaten, or breathed. An allergy may show up as a skin "rash", hay fever or asthma, so-called "upset stomach", or headache.

All grasses do not react the same to close mowing; tall bunch grass stands may be severely injured while the low growing grasses which tend to form a sod respond best to mowing.

LAFF OF THE WEEK

"I say, Hartley—I'm afraid I've got some bad news for you."

Examination May Disclose Apparent Heart Trouble Is Not That At All

"I think there must be something wrong with the old ticker!"

It ain't necessarily so. People who consult a doctor because they fear they have heart disease often find their symptoms are of little or no importance. Of course, their alertness is worthwhile because if heart disease is present, it is discovered in time for treatment to do the most good. Also, disease in other parts of the body may be detected.

A number of symptoms may point to or be confused with heart disease. The following is a partial list: rapid beating of the heart (palpitation), tiredness which is brought on easily, shortness of breath, pain in the heart and stomach region, fainting, dizziness, trembling, loss of feeling or swelling (edema) of parts of the body, or cold, clammy hands and feet.

Medical examination can reassure the patient he's all right if no disease is found or lead to early treatment if it is. Prompt, correct treatment of heart ailments in most cases adds years to the life span and permits the patient to lead a happier, more useful life. Several procedures are indi-

pensable to the doctor in examination of the patient with suspected heart disease. First, as in other diseases, the medical history and physical examination are of utmost importance; the patient's complaints contribute much to a correct diagnosis.

Several machines give precise information about the heart. The electrocardiograph traces a pattern of the heart's action. With the x-ray machine may be seen the size and shape of the heart, appearance of the heart's chambers and valves, and perhaps defects of the heart and nearby blood vessels. Dyes or opaque substance that will cast an x-ray shadow can be injected into the veins; when they reach the heart, its parts can be seen clearly and in great detail.

Interpreting the results of the many varieties of tests made with these machines requires much skill. Some diagnostic methods can be carried out only with the use of special equipment and medical teams that include heart specialists (cardiologists).

Two chief causes of heart disease are rheumatic fever and high blood pressure (hypertension). The former attacks chiefly children and young adults; the latter more mature persons, usually 30 years and older.

In the South, rheumatic fever is less common and usually strikes in a milder form. In fact, its mildness may cause its early symptoms to be overlooked completely, with the first evidence lying in a damaged heart. All victims do not have this complication, however.

Doctors have noticed that rheumatic fever almost always follows a "strep" infection, such as "strep" throat, tonsillitis, erysipelas, scarlet fever, or middle ear infection. If the attack is mild the usual symptoms of hot, swollen joints may easily be taken for "growing pains."

Children who have one attack of rheumatic fever are highly susceptible to subsequent attacks when exposed again to the "strep" germ. Therefore, medical advice is to guard them in every way possible by isolating them from those who may have "strep" infections.

High blood pressure usually yields to conservative medical measures, such as diet, rest, and drugs. Many new safe and effective drugs have been perfected.

Several operations performed on carefully selected patients have given good results. One is the removal of a diseased or deformed kidney which is known definitely to be responsible for the hypertension. Another, called "sympathectomy," is removal of part of the sympathetic nervous system, two chains of nerves running along each side of the spinal column. Not entirely essential to life, these nerves supply the heart, glands, smooth muscles, and small blood vessels of the body.

Early detection of heart disease and correct treatment means that most patients with heart ailments can look forward to a longer, more satisfying life.

This year is the 150th anniversary of the discovery of palladium by the British scientist, William Hyde Wollaston, who isolated this precious metal from native platinum. Within a few years, he and his business partner, Smithson Tennant, also discovered rhodium, iridium and osmium. Of the six platinum metals, only ruthenium escaped their notice. These discoveries were an outgrowth of Wollaston's successful effort to produce malleable platinum for commercial use.

CARD OF THANKS

Words cannot adequately express our thanks and heartfelt appreciation for the gifts of money, household furnishings and clothing provided by thoughtful friends and neighbors.

The many sympathetic expressions and the interest shown in our well-being have been of great comfort.

We would like to thank those anonymous friends who aided us in various ways.

Again we say thanks and God bless you.

The Harvey Skaggs family

Locals and Personals

Mrs. H. B. Estes came home last week after a short visit with her son, Benjie Estes, in Waco and a sister in Nocona.

Mr. and Mrs. Ted Musgrove of Fort Worth, are visiting his parents, Mr. and Mrs. A. L. Musgrove and her mother, Mrs. W. E. Hill.

Mr. and Mrs. A. L. Musgrove and Mrs. J. C. Callahan and daughters returned home last Wednesday from visits in Okemah, Okla., DeQueen, Ark., and Sulphur Springs, Tex. At Okemah, they attended a family reunion.

Mrs. L. W. Stanford and Nancy left for Dallas today for a short visit.

Ruthenium, one of the precious platinum group metals, must be heated to a temperature of approximately 4530 degrees Fahrenheit before it will melt. This is over seven times the temperature required to melt lead.

Nickel catalysts are of great importance in the manufacture of oleomargarine, soaps, pharmaceuticals and synthetic organic chemicals. Consumption of nickel in this field increased during 1952 over the previous year.

Mentally ill are the only patients who must await from one to six months for entrance to a hospital to receive treatment. This is due to overcrowded conditions of most mental hospitals.

Persons wishing to donate to the Texas Mental Health Fund campaign which seeks to raise \$148,796 in Texas in 1953, can address contributions to Mental Health Postmaster in Texas.

Memphis Jaycees Unbeaten in T-O Ball League Play

The Memphis Junior Chamber of Commerce softball squad outscored the LaCassa, Okla., team Tuesday night at LaCassa, 12-8 to remain undefeated in the Texas-Oklahoma League. The local squad has won five games and leads the six-team league.

In Tuesday evening's game Royce Frisbie and Willis Clark clouted homers for Memphis.

Eck Anthony and Gayle West were the Jaycee batteries.

The local squad is scheduled to play Gould, Okla., on Estes Field here Friday night, starting at 8:15 o'clock. Admission will be 25 cents for adults and 75 cents for each car. Children under 14 will be admitted free.

Last Friday night here, the Jaycees won from Ron, Okla., 3-1. Anthony and West composed the battery for the locals.

Six Ranches

(Continued from Page 1, Sec. 1)

Shamrock; and R. J. Holland, Dbdson.

At each stop, host ranchers served cold drinks and visitors inspected prize Hereford cattle.

About 135 persons enjoyed a barbecue lunch during the pause at Tomie M. Potts' ranch.

Among those, taking part in the tour, were: Garland "Cotton John" Smith, KGNC and KGNC-TV farm editor; Don Tarver, The Texas Hereford, Fort Worth; Glenn Shelton, Wichita Falls Record-News farm editor; and Marshall Jordan, The Western Livestock, Denver, Colo. Tarver is the son of Horace Tarver.

Fifty islands make up the Virgin Island group.

THE BAFFLES

By Mahoney

THIS SATURDAY I'LL HELP BONNIE WITH THE HOUSEWORK.

GOOD MORNING, MADAM. MY-YOU DO HAVE A LOVELY COMPLEXION! BUT I SELL SOMETHING THAT WILL MAKE YOU EVEN LOVELIER! NOW...

Four Rodeo

(Continued from Page 1, Sec. 1)

Keith Lloyd, of radio station KGNC.

All persons who have lived in the Panhandle for 50 years or more are invited to register at 9 o'clock, July 4, at the Legion Hall. A free barbecue will be held at noon.

At 1 p. m., there will be a parade, including floats, horses, music, and cowboys and cowgirls.

Also scheduled are a beauty contest, and fiddle and other music. Each night, a dance will be held in the Legion Hall after the rodeo.

Nine main events will be run off at each rodeo performance. These will be calf roping, bareback bronc riding, bronc riding, bulldogging, bull riding, ribbon roping, a wild mare race, girl-sponsor contest and a cutting horse contest.

A special added feature will be Florence Reynolds of Skellytown, and her trick horse, "Kare Kid," who will be seen at all four rodeo performances.

A Clarendon Celebration Booster Caravan will visit the area around Clarendon, June 26-27.

Budget Hearing Is Set For Tuesday

A public hearing of the coming year's proposed city budget is scheduled for 2 o'clock, Tuesday afternoon, in the City Hall.

The tentative budget, which totals \$68,331.67, was presented to the City Council at their regular monthly meeting, Tuesday night, June 2, by City Secretary D. L. C. Kinard.

The current year's budget is \$56,381.33, according to Kinard. He said the proposed increase for the year 1953-54 is necessitated by bond issues for a municipal swimming pool and a street improvement program, voted this year.

The new budget will cover the period from Oct. 1 this year through Sept. 30 next year.

Mr. and Mrs. Shep Hudson, Whittier, Calif., and their daughter and son-in-law, Mr. and Mrs. Roy H. Showalter, Los Angeles were Saturday visitors in the home of Police Chief and Mrs. T. D. Weatherby.

Crop Prospects

(Continued from Page 1, Sec. 1)

nothing to start with as this is written. Crops also were wiped out in the Giles and Hedley sections.

Numerous outbuildings around Lesley and Lakeview were damaged or destroyed during the thunderstorm Thursday afternoon and night.

At the B. Webster farm, three large outbuildings were wrecked and scattered over a wide area and Webster's entire cotton crop was hauled out, Friday afternoon. Webster had 160 acres of cotton sanded out in the Hedley section.

The roof of a barn at Mrs. B. H. Neal's place was torn off and cotton was wiped out by hail Thursday afternoon.

Outbuildings at Mrs. Dulah Wiginton's farm were destroyed and the cotton crop beaten into the ground.

Cotton on the Black sisters' farm was ruined by the driving hail and an outbuilding was blown away. The land is worked by Carroll Fowler.

Others who were hailed out, included: W. F. Hodnett, B. B. Gibson, J. P. Fowler, A. A. Kinard, Johnny Driver, Joe Neal Berry, Quilla Clark and Ted Montgomery.

Wind blew the roof off of a garage at Punk Kennard's farm and the roof off of a barn at Mrs. C. H. Booth's place.

A twister blew away a shed, housing a tractor, at the home of Gaston Medford, one and a half miles northwest of Lakeview about 5 o'clock Thursday afternoon. The tractor was undamaged.

A chicken house also was demolished, killing some of the chickens.

Dry, hot weather was continuing Wednesday, accompanied by some dust. No immediate prospects for relief was in sight.

Lemons Is Officer Of Furniture Group

R. C. Lemons, owner of Lemons Furniture Company, was elected vice-president of the Panhandle Furniture Association recently, during a meeting of members of the organization in Amarillo.

Also named to serve in 1953-54 were Frank Thomas, Clarendon president and Leo Southern, Jr., Amarillo, secretary-treasurer.

Composing the board of directors are: Carl Meyers, Borger; C. E. Thompson, Canyon; Otis Hall Hereford; Ike Holman, Tulia; Baily Woody, Dumas; and A. P. McKelvy, Perryton.

Electric Appliance

(Continued from Page 1, Sec. 1)

ty co-op. Coppedge told the group an installation contract also is available to underwrite the cost of installing certain apparatus, requiring this extra charge.

Elmo Osborn, Austin, general manager of Texas Power Reserve Electric Co-operative, comprising the 77 electric co-ops in this state, gave details of the Electric Fair which will be staged here in connection with the annual meeting of Hall County Electric Co-op members, Aug. 14.

The fair includes displays by local appliance dealers and free entertainment for children and adults. It is sponsored by Texas Power Reserve.

Dealers present for the luncheon were: Clarence Baxter, Gayle West, Billy Thompson, Raymond Ballew, J. M. Ferrell, Jr., Arthur Gidden, T. W. Harrison, James Norman, Clyde Smith and Mac Connell, all of Memphis; and Jack Lacy and Elmer Lacy, both of Turkey.

Two Injured

(Continued from Page 1, Sec. 1)

inside Addition, officers said. Piloting the bus was a relief driver, named Campbell, according to available information.

The bus stopped on the railroad right-of-way, on the east side of the highway, after the collision.

The accident occurred about 2:30 a. m. Saturday.

Annual Clean-Up

(Continued from Page 1, Sec. 1)

55. Haskell Howell will act as dispatcher. Heading other phases of the campaign will be: Pete Shankle sound equipment and truck; Bob Ayers and Ted Myers, cold drinks and H. A. Combs, publicity.

Mr. and Mrs. George L. Campbell, who have operated Alhambra Courts for more than a year, are leaving Friday for Raymondville, where they have purchased a tourist court and service station which they will operate. The Campbells sold the local courts to Mr. and Mrs. R. W. McMurry of Austin.

Comments

(Continued from Page 1, Sec. 1)

the Lord—not ignore Him. When and if it rains, do we say "Thank You, Lord," or, "Thank you, Dr. Krick." At some places, people are gathering in numbers and praying for a rain. Their prayers may be answered, or they may not be. It's my opinion, prayers will come nearer getting results.

Sign in a Colorado store: "Ve get too soon old, und too late schmidt."

These are hard days on flowers, and flower growers find that, in spite of work and care, flowers bloom and the blooms are singed during the hot day. By nightfall said blooms look like a hot torch had been applied to them. Some crops are showing the effects of heat to the extent that what looks like a green and thrifty plant early in the morning is but a shriveled nonentity—like the blasted hopes of some who experience reverses.

Do you drink at least two gallons of water daily? If so, you are not drinking too much.

LIE! STEAL! DRINK and SWEAR! That was the actual motto used 50 years ago by a weekly newspaper. But under that motto was the very apt explanation says an exchange: "When you LIE, let it be down to pleasant dreams; when you STEAL, let it be away from bad companions; when you DRINK let it be pure water; when you SWEAR, let it be that you will support your hometown paper, pay your subscription, and have your printing done locally."

Farm Bureau

(Continued from Page 1, Sec. 1)

interest and that hay prices be reduced \$10 a ton, or to around \$25; and that proteins be made available in this country at the same price as when they are sent abroad, or from \$5 to \$10 a ton cheaper than at present.

Also requested was a reduction in freight rates, and an investigation of meat prices over the counter, in relation to cattle prices on the hoof, which have dropped about 50 per cent.

At the Matador meeting, members voted to encourage the export of more beef, at the same time stopping the import of beef from other countries, such as Canada and Argentina.

The Farm Bureau organization is making strong efforts to have price supports placed on beef cattle.

Each of the county Farm Bureaus, represented at the Matador session, plans to send members to Lubbock this week end to meet with Secretary Benson. It is also hoped to take him on a tour of some of the distress areas.

Hall County Farm Bureau members, going to Matador, were Bruce Gibson, vice-president, Elmer Lacy, director, and Jimmy Nall, assistant director, all of Turkey; and E. L. Geissler, director from Bridle Bit.

There were only 13 cases of smallpox in the U. S. in 1951.

Mr. and Mrs. F. E. Leary Observe Golden Wedding Anniversary With Reception

Mr. and Mrs. F. E. Leary of Estelline, pioneer Hall County residents, observed their Golden Wedding Anniversary with a reception in the parlor of the First Methodist Church in Estelline Sunday afternoon.

More than 100 friends of the couple called between the hours of 3 and 5 o'clock. Guests were greeted by Mr. and Mrs. Leary and their children, all of whom were present for this occasion.

Mr. and Mrs. Leary were married in Hall County, Texas, and three years later, in 1909, they came to Hall County. Mrs. Leary was before her marriage Miss Nellie Thompson.

Both Mr. and Mrs. Leary have been active in the growth and

development of this county, especially in the Estelline community where Mr. Leary has been active in ranching and farming for many years. Mr. Leary served as president of the First State Bank of Memphis for a number of years, retiring in 1944.

They are both members of the First Methodist Church in Estelline.

The refreshment table was laid with a lace cloth and centered with an arrangement of gold colored gladioli. Table appointments were in crystal and gold. The large wedding cake was formed to resemble the family Bible and was opened to reveal family births and weddings. Individual cakes frosted with gold flowers and golden punch was served.

Children present were the Leary's four daughters, Mrs. E. Garner of Amarillo, Mrs. Max Nail of Fairfield, Ill., Mrs. Guy Leatherwood of Dallas and Mrs. J. A. Ballard of Estelline and their four sons, Don Leary of Estelline, Marvin Leary of Northfield, Carl Leary of Dallas and Morris Leary of San Francisco, Calif.

Also present were Mr. Leary's two sisters, Mrs. Foster Pierson of Milford and Mrs. Ovie Sanford of Wingate and a niece, Mrs. H. H. Hardin of Milford.

Among Memphians who attended the reception were Jim King, Miss Imogene King, Mr. and Mrs. Mac Tarver, Mrs. Gladys Power, Mr. and Mrs. J. W. Coppedge and Kay and Mr. and Mrs. A. Anisman.

Jaycee Ettles Organize Here; Mrs. Dale, Pres.

A group of wives of the Jaycees met in the home of Dotty Washko Monday evening to organize the Jaycee Ettles.

Temporary officers were elected and included the following: Phillis Dale, president; Earline West, vice president; Sue Richardson, secretary; Louise Lawrence corresponding secretary and Dotty Washko, treasurer.

Attending the meeting were Meses Jerry Barton, Phillis Dale, Billie Frisbie, Nina Nelson, Louise Lawrence, Sue Richardson, Lila Mae Wells, Earline West, Patsy Jones, and hostess, Dotty Washko.

The next meeting will be held in the home of Phillis Dale, 1103 Grundy. All wives of Jaycees are invited and urged to attend the meeting.

Locals and Personals

Roy Hudnell of Amarillo returned home Friday after spending a week here as guest of Boaz Stotts.

Boaz Stotts and Roy Hudnell made a trip to Camp Ki-O-Wah near Canadian, recently, to bring the camping equipment of Troop 35 home. Two Scouts, Gayle Gilreath and Rodney Hawkins, members of a group from Memphis who spent a week at the camp, returned home with them.

Weekend visitors in the home of Mr. and Mrs. L. I. Davis were their daughter and son-in-law, Mr. and Mrs. Jack Youree of Berger, and Mrs. J. P. Orr of Lujunga, Calif. arrived here Thursday on a business trip. Mrs. Orr, a former resident of Memphis and this area, is a sister-in-law of W. D. Orr and Milton Orr.

Mrs. M. C. Allen returned home Wednesday of last week after visiting for the past 10 days in Dallas with her parents, Mr. and Mrs. W. M. Davis.

Burl Lowe, Buckie Kulp of Memphis spent Tuesday and Wednesday with the Malloy boys, Roy and Jimmie and Tommie.

Mr. and Mrs. Doyle Holl visited Tuesday in Lockney. Those visiting Mr. and Mrs. T. J. Brock Sunday and over the weekend were Mr. and Mrs. Bennie Brock and Joe Bennie of Amarillo and Mr. and Mrs. Muri Lemons of Brice.

Most all the farmers are busy planting cotton this week. The sandstorm Friday killed hundreds of acres of cotton in this community.

FOR THE BEACH — This smart cotton beach shirt and tapered pants are designed to provide cover-up when a day's quota of sunshine has been absorbed. Made of Fuller companion-colored cottons in striped and solid brown, the outfit is trimly tailored.

Report From Washington

By Walter Rogers
Congressman, 18th District

THE ROSENBERGS: The letter is being written shortly before the Rosenbergs are scheduled to be electrocuted. Capitol Hill has been a seething mass of humanity during the Supreme Court hearings. The White House has been under continual picketing by those opposed to the Rosenberg death sentence. Large groups of people came in from New York and descended upon the Capitol and House and Senate Office Buildings. For several hours it was almost impossible to get through the halls in the Capitol outside of the Congressional chambers. Congress has been requested to investigate how these people were able to obtain transportation from New York to Washington and return for \$5.00, when the usual fare is approximately \$17.00. Such an investigation would turn up some most interesting points.

both factual and sympathetic standpoints, the one fact remains that the Rosenbergs committed acts of treason against this country for which they stand duly convicted and sentenced to death. Their acts of treason could result in the death and maiming of millions of people in this country. If there was a case where punishment fits the crime, it appears to me to be in the Rosenberg case.

THE DROUGHT SITUATION: Congressman Icard of Wichita Falls, Congressman Mahon, of Lubbock, and myself called upon the Secretary of Agriculture, Ezra T. Benson, this afternoon to discuss with him the possibility of early action in meeting the requirements of the farmers and the rancho in the drought stricken areas of the Southwest. On June 1st the entire Panhandle of Texas was shown in the U. S. Department of Agriculture Crop Report

HOME FROM CZECH PRISON . . . William Oatis, AP correspondent imprisoned by Czechs for 25 months, is greeted by wife, Laurabelle, after release and air trip to New York.

as being an area of near failure insofar as crop prospects are concerned and in the same category insofar as pasture-feed conditions are concerned. This situation has grown worse since June 1st and there are no signs of relief from the weather standpoint. It would be my prayer that you have been blessed by a soaking rain when

this letter reaches you. Several days ago members of Congress representing this drought stricken area in the Southwest met with representatives of the Farmers Home Administration, The Commodity Credit Corporation, and the Bureau of the Budget. The purpose of the meeting was to speed up the mechanics of bringing some relief to the stricken areas. The Farmers Home Administration has indicated its willingness under its present power to go as far as possible under its loan program. If further authority is needed to meet the situation I believe the Congress will provide it without delay. In the meantime, request has been made for use of the Presidential Emergency Fund, which was created to meet disasters. The representative of the Bureau of the Budget indicated that there might be some hesitancy to consider a drought type of disaster intended by the law creating this fund. He seemed to feel that there was some thinking to the effect that the disaster intended was in an immediate and temporary type of occurrence. We quickly briefed him on the fact that a drought is not an immediate or temporary disaster and that "drought" was listed in the major disaster definitions contained in Public Law 875 of the 81st Congress, which is the law creating this fund.

I wrote the President that I could not too strongly urge early action as the situation is extreme

ly bad and growing worse. Only recently I was discussing the problem with a lawyer friend of mine from the Panhandle who was in Washington. I asked him to tell me in exact terms just exactly how bad the situation was. He replied that if it was any place except the Panhandle of Texas, a lot of the people would have already moved out. I think this is one of the highest compliments that could be paid to the people there who have fought the elements through the years and have built one of the finest stocks of Americans in the United States today.

Just the other day I expressed to the Congress my thoughts on the subject and gave them two petitions that have been forwarded to my office concerning this tragedy. I told the Congress that the people in our section were asking only for fair treatment, to which they are justly entitled that they had fought the elements for generations and had not been defeated yet, and that they could continue to win their daily battle unless their weapons were rendered impotent by man-made economic measures. I stated further that they could not be expected to meet the requirements of economic measures of purchasing supplies, materials, equipment and their other needs on protected markets and have to sell their products on an open market that has been ruined by a drought situation over which they had no control.

Market information on the east Texas tomatoes crop may be obtained from the USDA's Production and Marketing Administration, Dallas. Write their market news office Room 553 Terminal Annex, Dallas.

Mr. and Mrs. Ralph Howard of Lubbock visited here over the weekend with her mother, Mrs. Estelle Guthrie and his parents, Mr. and Mrs. V. D. Howard. Helen Howard, who had been visiting in Lubbock for the past two weeks, accompanied them home.

Guthrie Bennett of Lubbock, N. M., visited here from day until Friday night with her parents, Mr. and Mrs. J. H. Bennett.

Mrs. Geo. Bass is in South Dakota with her family.

Johnnie McDaniel returned Sunday night after spending a past week in Austin for the Girl's State.

CARD OF THANKS

We wish to express our sincere thanks and appreciation from the depths of our hearts to our many friends for their kind words of sympathy and loving deeds in the death of our beloved wife, mother and grandmother. Trouble and trials some time in life must come to us all, and when that time comes to you, we pray that each of you may be shown the same love and kindness by such dear friends. Especially do we thank those who contributed to the many beautiful floral offerings and for the food and the other help that was given.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association
AUSTIN, Tex.—Feel the heat? Then eat more salt this summer. That's the suggestion of State Health Officer Dr. George W. Cox.

Dr. Cox says you can help prevent heat prostration by adding a pinch of ordinary table salt to each drink of water you take — for the salt content of your body becomes deficient the more you perspire.

Signing of an armistice in Korea will make little or no difference in the draft call, says Brigadier General Paul L. Wakefield, state director of selective service.

He bases his statement on the fact that the primary purpose of the draft law is to keep this country ready to defend itself against all comers. Men are drafted as we need replacements for the men in training.

Because of the increased demand for men the past few months more than one-third of those called were under 20 years of age.

This month's quota is 1,749 men. Next month it will drop to 1,268. The monthly quota will run between 1,000 and 2,000 men for the State of Texas.

A court-appointed attorney defending persons in felony cases is entitled to \$10 per day for each day the case is actually in trial.

If he defends more than one case on the same he is entitled to \$10 per case, according to a ruling issued by the Attorney General's office.

The question came up when a court-appointed lawyer at Hillsboro represented four persons in court the same day and put in a claim for \$40.

Under the ruling he will collect.

Attorney General John Ben Shepperd is calling on five agencies for legal help. He has asked officials of the University of Texas, the Texas Prison System, Texas Southern University, the State Department of Education and the Texas State Teachers' Association to provide him with such arguments as they can muster to support the state's suit to uphold the natural gas tax law.

The case comes up in Federal court next fall.

These five agencies stand to benefit most from the tax if it is upheld.

Efforts of the International Fur and Leather Workers Union to organize Texas labor have been stopped — at least temporarily.

District Judge Charles O. Bett issued an injunction, which also prohibits organizing by Emanuel Coutlakis, who allegedly has been trying to get San Antonio workers to join the union.

Coutlakis failed to register as a union organizer, as required by Texas law.

In seeking the injunction the Attorney General contended that the furriers' union is dominated by Communists and that Texas workers should be protected from such influences.

Colonel Homer Garrison, Jr. denies that Texas police are not cooperating fully with Federal narcotics agents.

Garrison said that the Federal Narcotics Commissioner "indicated that there was a lack of cooperation from state and local officers in Texas in assisting his

LAFF OF THE WEEK

"Ooh—look what I just happened to find, Harold—a piece of string the exact size of my engagement finger!"

agents in enforcement of the narcotics law."

Admitting that Texas officers are handicapped by lack of manpower, materials, legislation, and money, Garrison told police convening in San Antonio that Texas officers are proud to work as a team with each other and with federal agents. The cooperation of Texas police is excellent, Garrison concluded.

Also at the policemen's convention, Inspector G. C. Connor of the Texas Department of Public Safety, said that lives can be saved on the highway through better driver education, enforcement of traffic laws, highway engineering and public support of the safety principle.

"If we are to clear our highways of congestion, loss of life injury to person, and destruction of property, the program must be carried out," said Connor.

The Texas Supreme Court has blocked the road to justice in loan shark cases, charges Leon Green, a University of Texas law profes-

sor.

Green cited the case of a man and his wife who brought suit charging that certain loan companies harassed and intimidated them and threatened to get the man's job.

The case finally went to the supreme court, which denied the plaintiffs a cause of action, listing half a dozen legal points to support the decision.

Referring to this decision, Green said, "Loan sharks are now given the green light to pursue their victims with all the ruthlessness and every stratagem which they can devise."

Texas farmers and ranchers — as well as the State Treasury and the oil producers — stand to benefit from the 25 cent average increase in the well price of crude oil, says Charles E. Simons, executive vice-president of Texas Mid Continent Oil & Gas Association. At the present rate of production the higher posted price for oil will mean an additional \$37,500,000 a year paid to royalty

Offset Excessive Perspiration By Taking Extra Salt

AUSTIN—If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual.

holders, farmers, ranchers and land owners.

This, the first price advance since 1947, will add \$250 million a year to Texas' oil income, Simons pointed out — and stimulate the search for more oil.

SHORT SNORTS: Roy Bedichek, naturalist and author, says that so far man has invented no insecticide that can take the place of the old-fashioned insect-eating bird. . . Mrs. Miriam Ferguson, former governor of Texas, celebrated her 78th birthday by working in her flower garden.

ual until there is a deficiency; then the abdominal muscles begin to cramp.

Pago Pago is pronounced pangapango. It is the capital of the Island of Tutuila in the American Samoa.

The army post at Fort Bragg, N. C., is the largest in this country, from the standpoint of area. It occupies 120,477.39 acres.

Martha Washington, wife of President George Washington, was previously married to Daniel Parke Curtis.

Two railroad lines and operated by the Alaska Railroad and the Alaskan Railroad.

Mr. and Mrs. Louis and Mrs. Robert Curtis Tuesday on a vacation in Mexico. They plan to visit the bad Cavern and also the so.

COURAGE

Courage may not have the same meaning to all persons but chances are that when the term crops up, the majority of people immediately think of military men.

Where else, most of them probably would ask, is courage so necessary? And not without reason.

It takes intestinal fortitude to go onto a battlefield, against an enemy who is armed with guns, grenades and other death-dealing devices, and who is "playing for keeps."

It also takes plenty of the same to storm a beachhead, held by a strongly entrenched foe, or to withstand a suicide attack against naval forces. And it takes an unlimited amount of courage to press home an air assault in spite of superior enemy planes or withering anti-aircraft fire or both.

So there's no mystery as to why military personnel stand in the forefront of courageous men.

We would not take an iota of credit from such men because it is only because of men like this, ever ready to defend their country and the principles for which it stands, that we are able to enjoy the benefits of a free land today.

Even now, men of the free world are in deadly combat in Korea, in order that this privilege may be continued.

But there are other kinds of courage.

None of them probably are as obvious as courage in battle but they, nevertheless, are the hallmarks of brave people.

For instance, it requires courage to take a stand on some question when nearly everyone seems to be on the opposing side or when opinion appears to be about evenly divided.

It takes courage to remain cheerful when one is permanently confined to bed or to a wheel chair, or is suffering from an incurable disease or condition.

And it demands courage to keep on trying when men see the things for which they have worked for weeks and months or even years, destroyed.

Just a few days ago, several Memphis business houses were burned out.

One can imagine the feelings of the owners of the companies, the owners of the buildings housing them, and the employees, as they watched helplessly.

But they were down Monday morning, either operating in temporary quarters or making preparations for carrying on as best they could. There were even some who jumped in Sunday as soon as embers were cool enough and began salvaging usable merchandise.

We think the wife of one of the firms expressed it pretty well.

Said she: "We just couldn't lie down and die."

Before we close, we want to mention another group whom we think is pretty courageous, too.

That group is the rural people of this area who already have made short crops the past two years and now are faced by prospects of an even shorter one.

They also have been beset by slumping cattle prices, burned up pastures and high feed prices.

But a lot of those who are going through the wringer now, went through the same experience in the 1930's and came back. We believe they will again, if necessary.

After all, we just can't "lie down and die."

Press Paragraphs— QUOTING OUR NEIGHBORS

JUVENILE HOODLUMS

The sheriff's department this week wrote a letter to peace officers of Parmer County which, among other things, expressed profound apologies for the manner in which a delegation of Hereford youths last Monday night conducted themselves in Friona. The sentiment, we believe, pretty well expresses the feelings of the entire Hereford community.

When a small community like Hereford produces a large group of maladjusted or misled boys and girls, as some in this group unquestionably are, it is a reflection upon the community, as a whole as well as upon the individual boys and girls and their parents.

One cannot help but feel pity for any maladjusted human being.

Officers, of course, have little choice in the matter. Law enforcement is their job and certainly the general public cannot face riots and utter disregard of the law—just because someone along the line failed to do his job properly, or because we feel sorry for some individual. It is, nevertheless, a shame to see fine American youths wasted when they could become good, substantial citizens by merely a change in viewpoint. —The Hereford Branch

Charles E. Duryea, Elwood Haynes and R. E. Olds built the first automobiles in America.

SUBSIDIES

Farmers find false thinking has gotten abroad in the land as regards subsidies on farm operations. The fact is that if other groups continue to be subsidized, meaning labor and industry in particular and others as well, then the farmer must have comparable help in order to stay in business.

For instance the farmer points out that you hear a lot about the government "guaranteeing a profit" to the farmer, but you don't hear much about the government guaranteeing war materials makers and their employees a profit. Subsidy in one form or another has been practiced for all types of endeavor except for the farmer. Only in recent years has the fact been recognized that if you help one you must help all, if you hope to maintain a balance. —The Floyd County Hesperian

31 YEARS AGO

Provisions Made For A Bigger and Better Fair Next Fall — Directors of the Hall County Fair Association have decided to broaden the scope of the annual fair to include Donley, Collingsworth and Childres counties.

Plans are being made for enlarging the fair grounds and for larger and better buildings.

A vigorous campaign will be made to create and maintain the interest and co-operation of the largely increased number of people, following expansion of the fair's territory.

Fair dates have been set from Sept. 19 through Sept. 22.

Statistics Show Increased Births and Marriages—There were 121 boys and 103 girls born in Hall County in 1921, or 224 altogether 38 more than the previous year, records of the county clerk's office show.

Marriages during 1921 totaled 167, an increase of 41 over 1920.

Only 56 deaths were reported, a decrease of 14 from the year before.

District Court Makes Record Convictions—During the first three days of this week, four criminal cases were tried in district court, with three convictions. Charges in the cases included moonshining, bootlegging and selling mortgaged property.

STRICTLY PERSONAL — Tom Hart was here from Estelline Tuesday.—Jackson Collier was here Monday and Tuesday from Estelline.—Fred Lacy was a business visitor from Turkey Monday.—Jimmie Willborn was at Clarendon Wednesday.—Messrs. George Sager and W. D. Orr were

Plenty of HUSTLE from the instant you START

(Have you tried T.T. Dynaflo?)

Smart coach for the sports car minded—wire wheel covers, as illustrated, optional at extra cost.

THE automobile pictured here is a 1953 Buick SPECIAL with Twin-Turbine Dynaflo.* And it's a sizzler in supple satin.

You discover that truth when you take its wheel—when you try it for getaway—when you head it up tall hills—when you guide it by a truck on a safe-passing stretch.

The instant you want to move, you move.

You can swoop from standstill to a legal 30 mph quicker than quick. Fact is, this spectacular new TT Dynaflo gives you swift getaway, plus silence, plus smoothness, in a

combination no other automotive transmission in the world can equal.

The instant you want a lightning burst for passing, it's there—velvet-ing forth from a Fireball 8 Engine with the highest horsepower and compression ratio ever to power a Buick SPECIAL.

The truth is, the instant you feel this big, broad, thrill-charged beauty in motion, you'll know it for a performance automobile—nimble and eager, responsive as quick-silver.

But exhilarating action is just part of the story here.

There's spacious roominess. There's a magnificent ride. There's superb handling ease. And to cap it all, this Buick delivers for little more than the "low-priced" cars.

Why not drop in on us this week? We'll be mighty proud to have you try the greatest Buick SPECIAL yet built.

*Standard on Roadmaster, optional at extra cost on other Series.

Reames Pontiac Proud To Offer 1953 Pontiacs and GMC Trucks

Reames Pontiac Company, 707 Noel Street, takes particular pride in being able to offer this year's lines of Pontiac automobiles and GMC trucks to the public. The 1953 Dual-Streak Pontiac series has been titled "The American Beauty," according to L. R. "Buddy" Reames, owner of the local firm. Both six and eight cylinder engines are available in the Chief-tain deluxe and Chief-tain special series. Body styles include two and four door sedans, station wagons, convertibles and the Catalina sports model. Various equipment is optional, including Dual-Range Hydra-matic shift, power steering, and the Autronic eye which automatically dims headlights when meeting other cars. The 1953 Pontiacs provide a new conception in automobile styling and beauty, inside and out, Reames said. Among eye-catching features are long, graceful lines, greater visibility both front and rear, more attractive interiors, increased roominess, and a newly styled instrument panel. As for the 1953 trucks, they have one of the highest compression ratios—8 to 1—in the history of the industry. Dual-Range Hydra-matic shifts are optional. In the GMC line are trucks from one-half ton up. The larger sizes can be had with diesel engines. "GMC trucks are the most popular on the road today," Reames declared. The local automotive firm carries a complete line of accessories for Pontiac cars and GMC trucks. The company has service facilities to take care of not only Pontiac and GMC products but all other vehicles as well. E. A. Young, who is in charge of the mechanical department, has been with the firm for several years. C. B. Hickey is salesman, book-keeper and parts man for Reames Pontiac. He has been associated with the automobile and truck agency for about eight years. Reames has operated the business since September of last year. purchasing it from F. E. Monzingo. A native of Okemah, Okla. Reames was born June 21, 1917. He lived there until 1928, when he moved to Canadian with his parents. His father engaged in farming and raised livestock and young Reames helped him after school and during vacations. The family farm was located 11 miles south of Canadian. After Reames was graduated from Canadian High School in 1935, he carried on farming and ranching operations until 1939, at which time he entered Southwestern State Teachers College at Weatherford, Okla., majoring in animal husbandry. He continued his studies at the college until 1941, when he moved to Oklahoma City and sold cars. In 1943, Reames came to Memphis and engaged in custom combining. He retained his farm and ranch interests at Canadian throughout the time he was attending college and living in Oklahoma City and has continued these operations (Continued on Page 8, Sec. 2)

14TH AMERICAN COTTON CONGRESS SLATED AT LUBBOCK, JUNE 25-27

LUBBOCK—Ole King Cotton will reign in Lubbock June 25-27 as the nation looks to the South Plains of Texas and the 14th Annual American Cotton Congress.

Leaders in every phase of the cotton industry, from production to spinning, will gather in Lubbock for the three-day "congress." The congress is an organization of organizations devoted to research and education in cotton. Ginners, spinners, planters, crushers, brokers, and other fields related to the cotton industry will be represented by their top brass.

Mornings of the first two days will be technical in nature with speakers representing research, spinning, marketing, and crushing on the program. The afternoons are devoted to tours of Lubbock Texas Tech, the Lubbock Experiment Station, and a small portion of the cotton producing area which produced a tenth of the nation's 16 million bales last year.

Highlight of the congress will be Saturday, when the annual field day at Texas Tech will be climaxed by a talk by Secretary of Agriculture, Ezra T. Benson. Benson's talk and farm implement and textile engineering shows are expected to bring between 5,000 and 10,000 people to the Tech campus. The implements will be on display during the congress, but Tech's textile engineering plant will operate only on Saturday.

Other speakers of note include Burriss Jackson, Hillsboro, general chairman of the congress, who gives the keynote address June 25; Dr. B. T. Shaw, administrator of the Agricultural Research Administration, who gives an address before the Lubbock Kiwanis Club-Cotton Congress luncheon on the opening day; Lamar Fleming, Jr., Houston, president of Anderson Clayton & Company, who talks at a dinner the first night; Dr. L. H. Hance, Charlottesville, Va., president of the Institute of Textile Technology; A. L. Durand, Chickasha, Okla., president of Chickasha Cotton Oil Company; E. D. White, deputy director of the Mutual Security Agency; and Dr. M. K. Horne, Jr., chief economist with

the National Cotton Council. The Congress meets under the banner "Cotton's New Frontiers," and is sponsored locally by the Lubbock Cotton Exchange, Texas Tech, Cotton Oil Mills of Lubbock, the South Plains Ginners Association, and the Lubbock Cotton Warehouse Association.

Hedley Beats AAFB Baseball Team, 13-12

Hedley defeated the Amarillo Air Force Base nine Sunday, 13-12, in a Caprock League game.

For Hedley, Ed Mathis struck out 11 Air Force batters in six innings. Junior Hill pitched the last three innings and struck out two.

Wayland Marcum led Hedley hitters, getting three hits in five times at bat.

Hedley is scheduled to play White Deer at Hedley Sunday. Starting time is 3 p. m.

Reames Pontiac —

(Continued From Page 7, Sec. 2) since coming here. Since 1950, he has been farming land, 4 miles north of Memphis.

In 1951, he built the Western Motel, at the northern edge of town, and operated the tourist courts until selling them to Mr. and Mrs. A. J. Hamming of Pampa last August. He purchased the automotive and truck firm the following month.

Reames was married to Miss Euclair Gilbert of Memphis, at Amarillo, Dec. 2, 1951. The couple has a daughter, Patti Lynn, six months old.

Reames is a member of the First Baptist Church at Canadian. He likes all kinds of sports, especially hunting and fishing.

CARD OF THANKS

I wish to thank Dr. Sam D. Salm and the nurses of Odom Clinic Hospital for the many kindnesses and the thoughtful attention shown me during my recent illness. My wife and family join me in this expression of appreciation. W. M. Mitchell

GRANDMA SAVES CHILD . . . Mrs. Clara Veater of Revere, Mass., shows how she breathed air into lungs of granddaughter Marjorie Cavichle after she found the 4-month baby suffocating under blankets. Her prompt action saved infant's life.

THANK YOU

To all of our friends, may we say thank you for your deeds of kindness, words of encouragement and your prayers in our behalf during the time that Garner spent in the hospital.

To Dr. Goodall a special thank for your untiring efforts and kind consideration for us. You were wonderful to us. Thanks to Dr. Hunt, the nurses and anyone else at the hospital who helped us in any way.

May each of you receive the same kindnesses and thoughtfulness when you are in need. We thank all of you from the bottom of our hearts.

Garner and Ollie Lee

CARD OF THANKS

We wish to thank all and express our appreciation to everyone that had any part during our sorrow and the loss of our husband and father. Especially, we want to thank the ones who contributed floral offerings and the bountiful food; also the doctors and nurses of the Goodall Hospital.

Mrs. D. H. Davenport and families

Assembly of God Church at Spur. The family expects to move there soon.

INDUCTED INTO ARMY

Harvey D. Kirk of and Joe M. Gambill of were among the 13 registrants sent to Amarillo for induction into the United States Army.

Others in the group are George R. Kelley and Maxwell of Quail.

The registrants were Texas Local Board No. 1 serves Hall, Collingsworth, Cottle and Briscoe.

ON TECH HONOR ROLL

Scott Grundy and C. J. of Memphis, were among Texas Tech students listed on the school's honor roll for the spring.

Grundy, an arts major, had a grade point of 2.84 out of a possible 4.0. He was a sophomore last year.

Smith, a senior engineering student, made a grade point of 2.56.

Mr. and Mrs. D. L. G. and Mr. and Mrs. Dwight returned Tuesday from an extended vacation to Banff and Louise country in western Canada.

The military word taken from the Dutch word "time to close up all the taverns in the garrison."

In all these things you want...

Chevrolet's farther ahead than ever!

... in Fisher Body Quality! It's the only Body by Fisher in the low-price field. And now it's even more outstanding in styling, in comfort and conveniences, in quality.

... in High-Compression Power! Most powerful engine in its field with 7.5 to 1 compression ratio—the new 115-h.p. "Blue-Flame" engine with Powerglide.* Advanced 108-h.p. high-compression "Thrift-King" engine in gearshift models.

... in Powerglide and Power Steering! Powerglide is the newest, most advanced automatic transmission in its field. Power Steering—another Chevrolet exclusive in its field—lets you steer with finger-tip ease.

... in Economy and Value! You go much farther on every gallon of gas (regular gas, at that). You save on over-all costs of operation and upkeep. Chevrolet is again the lowest-priced line in its field!

... in Popularity Leadership! Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. For the first 3 months alone, Chevrolet is over 20% ahead of the second-choice car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering available on all models.
