Telephone Company Establishes Division Office Here

Will Serve Four Districts Covering Widespread Area

Memphis has been selected as headquarters for the Northern Division of the General Telephone Company of the Southwest, according to an announcement made this week. The elevation of Memphis to division headquarters status is part of the reorganization plan which became effective Wednesday.

Mills Roberts, formerly district manager at Hobbs, N. M., will be division manager.

The move will bring six families totaling 21 persons, to Memphis.

Other division personnel who plan to come here with their families early this month, include: W. A. Leigon, plant superintendent from Baytown; W. P. Holman, construction supervisor from Ralls; S. C. Hindman, equipment supervisor from Gonzales; and M. L. Harris, plant engineer from Dallas.

C. V. Fleming, traffic superintendent for the Northern Division and also the Western Division, Olga Moore, traffic supervisor, and Mozelle Vandever, commercial supervisor, will complete the division staff.

Memphis also will be the home office for a district manager, H. E. "Tony" Craig, wire chief at Lamesa the past year. Craig is married and has three sons. He will supervise the Memphis, Clarendon, Claude, Dodson, Estelline, Groom, Happy, Lakeview, Miami, Mobeetie, Panhandle, Wellington, Wheeler and White Deer exchanges.

Roy L. Brewer, who has been district manager here since 1934, is being transferred to Western Division headquarters at Brownfield as division plant superintendent.

Other districts included in the Northern Division are Seymour, with 20 exchanges; Guyton, Oklahoma, with 12 exchanges; and Waynoka, Okla., with 23 exchanges.

Walter G. Wright, company president, in announcing the reorganization, said "By placing more responsibility and authority in the field, closer to our customers, those who are familiar with their problems by first-hand knowledge, will be making decisions and exercising individual judgment in expediting the required action. This will eliminate delays in accomplishing our aims and will improve the service to our telephone users."

NEW TELEPHONE OFFICIALS—Mills Roberts, left, is division manager of the Northern Division of the General Telephone Company of the Southwest, headquarters for which are being established here. H. E. "Tony" Craig, right, has been named district manager, with headquarters here. The new set-up became effective Wednesday. Craig succeeds Roy L. Brewer, who has been transferred to Western Division headquarters at Brownfield as division plant superintendent.

Local Merchants Plan To Close For Fourth Of July

Most Memphis merchants plan to close for the Fourth of July holiday, according to a survey made this week by Haskell Howell, chairman of the retailers committee of the local Chamber of Commerce.

No community-wide program has been arranged to commemorate Independence Day.

Towns in this area that will stage celebrations include Clarendon and Childress.

Firms expecting to observe the holiday, according to information gathered by Howell are:

Ferrel Bros.; Tarver-Stanford Fowlers Drug; Community Public Service; Lone Star Gas; R. H. Wherry; Beeson Cleaners; Memphis Tire & Supply; Wm. Cameron & Co.; Saied's; White Auto Memphis Drug; The Fair; Western Auto; Lawrence Hatchery Tiny Tot Shop; Baldwin's; Memphis PCA office, Thompson Bros.; Wilson's Insurance Agency; Selby Shoe Shop; Ayers Furniture Store; Memphis Dry Cleaners; Kinsard-Gailey Agency; Memphis Lumber Co.; Harrison Imple (Continued on page 12)

Area Counties Ask Benson For Help During Emergency

Representatives from seven counties in this immediate area were among groups meeting with Secretary of Agriculture Ezra Benson in Lubbock Saturday to request aid for drought-stricken farmers and ranchers.

Harold Hodges and Robert Moss, both of Memphis, attended the session. Hodges is president and Moss is vice-president of the Hall County Farm Bureau.

Andy Rogers, state senator from Childress, acted as spokesman for the seven-county group. Counties represented, besides Hall, were Childress, Donley, Colingsworth, Hardeman, Cottle and Briscoe.

Twelve resolutions in all were presented by Rogers.

Among other things, the resolutions requested: Lowering interest rates back to 3 per cent where they were before a recent increase; long-term credit to hold breeding cattle and operating credit to buy feed and machinery.

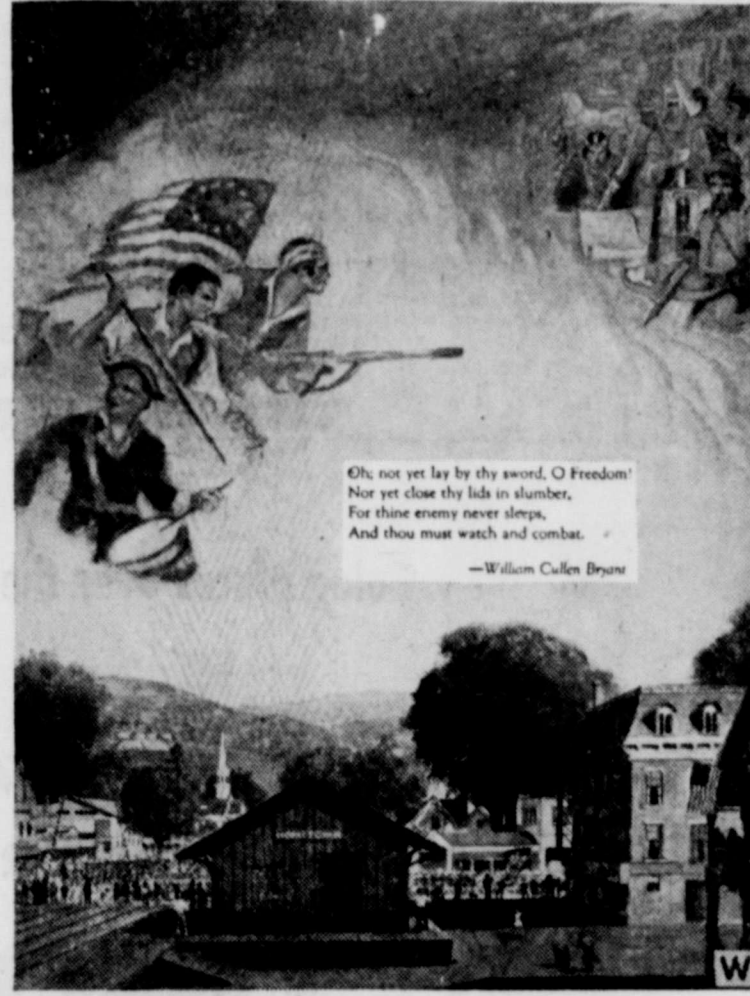

Credit to buy food and pay medical expenses to help pay up back indebtedness of this nature. Making feed available at a rate as cheap as it is being sold to foreign countries.

A new sprinkler irrigation system was put into operation Saturday afternoon on land belonging to Ed Thompson, Memphis hardware man. The 40-acre plot is located at about 35 acres in cotton and five acres in garden produce, Thompson said.

"The 40 acres can be watered completely in 10 to 12 days, with this sprinkler in operation," the veteran hardware man estimated.

Thompson explained that the sprinkler system also can be used in combination with a series of ditches. Each of the two patches of cotton can be watered in about five days by sending water along the ditches and flooding the land, and the sprinkler system will soak (Continued on page 12)

Oh, not yet lay by thy sword, O Freedom! Not yet close thy lids in slumber, For thine enemy never sleeps, And thou must watch and combat. —William Cullen Bryant

INDEPENDENCE MUST BE DEFENDED—As Benjamin Franklin left Independence Hall in Philadelphia, after ratification of the Declaration of Independence, a woman asked, "Mr. Franklin, what kind of a government have you given us?" To which he answered soberly, "A Republic, madam, if you can keep it." In the above Independence Day scene, an echo of Franklin's warning is sounded in the quotation from William Cullen Bryant.

Disaster Program Begins To Move In Hall County

Farmers and ranchers of Hall County became eligible for aid under the disaster relief program, after an announcement came out of Washington, DC, early this week that 8 million dollars was being set aside for this purpose.

Feed at reduced prices also was being made available to stock raisers. Lower freight rates on cattle and feed shipments also were promised by railroads, and long-term credit at low interest was in prospect.

Word was received here Tuesday that a carload of government cotton seed cake was being sent to this county from Lubbock. It was to sell for \$35 a ton, according to Lynn L. McKown, office manager of the PMA here. Shelled corn also was to be made available at one dollar a bushel, McKown said.

A five-man committee, composed of County Agent W. B. Hooser, Arthur Eddleman, Estelline, PMA county committee chairman, a Farm Home Administration representative, and a farmer or a rancher, and a banker will pass on applications for feed and loans.

INVESTIGATORS UNABLE TO FIND CAUSE OF FIRE

State and federal investigators were here for several days last week to try to determine the cause of the recent disasterous fire which destroyed four Memphis business firms and extensively damaged another.

The investigators concluded their probe last Thursday afternoon without having learned how the conflagration started, Chief of Police T. D. Weatherby said.

Companies burned out were Lemons Furniture, W. H. Monzingo Motors, Baldwin's variety store and Durham's Prescription Pharmacy. All are operating again on a reduced basis.

The First National Bank building sustained considerable damage.

Total loss to the five business firms has not been set definitely but it is believed it will come to half a million dollars or more.

Chest X-Ray Drive To Be Conducted Here, July 28-29

Residents of this area will be given the opportunity of having their chests x-rayed without cost, Tuesday and Wednesday, July 28-29. Citizens are advised to avail themselves of this service even if they have had x-rays made before.

An x-ray machine will be located at the Lone Star Gas Company on the west side of the square. It will be operated by two technicians from the Texas State Department of Health from 8:30 until 5:30 o'clock each day.

All persons over 15 years of age may participate in the program which is sponsored by the Tuberculosis Division of the state health department. Participants do not have to disrobe for the x-rays.

Eleven organizations, composing the Memphis City Federated Women's Clubs, are helping with the campaign. Mrs. Glynn Thompson is president of the federation.

Leroy Scott Named Coach At Muleshoe

Leroy Scott, who has coached at Estelline High School the past two years, has accepted a position as head coach in the Muleshoe High School. He is the son of Mr. and Mrs. Bob Scott of Memphis.

Scott is working on his master's degree at West Texas State College in Canyon this summer. He graduated from Howard Payne College at Brownwood in 1950.

First Cotton Blooms Brought In Monday

Two cotton stalks, each bearing a white bloom and several forms, were brought in from the Laurel Davis farm Monday. Davis lives about 12 miles east of Memphis.

The stalks were part of a small acreage, located in a low place on the farm. One stalk had an above-ground height of about 10 inches and the other of about 8 inches. The taller stalk had a tap root, approximately 6 inches long, and the shorter, one about 4 inches long.

These are the first blooms to be brought to The Democrat this season.

GENERAL TELEPHONE DIVISION PERSONNEL—In charge of various phases of the Northern Division of the General Telephone Company of the Southwest are: Top row, from left, W. P. Holman, construction supervisor; W. A. Leigon, plant superintendent; and S. C. Hindman, equipment supervisor; and bottom row, from left, M. L. Harris, plant engineer; Mozelle Vandever, commercial supervisor; and Olga Moore, traffic supervisor. Division offices will be located on the second floor of the Whaley Building here.

Knowing there are several citizens who want to show their appreciation for the fine work the fire department did in the recent business-section fire; knowing that the fire boys need some equipment in the way of protective coats and boots; knowing the city's duty is to furnish such equipment, but the need for fire hose due to loss of some during the fire, comes first for the city to buy, I have come to the conclusion that we can show our appreciation by pooling our funds and buying as many fire coats as the sum will buy. At the same time, I would like to suggest to the city dads that they match the sum we raise with a like sum, and thus be able to buy boots also.

Appreciation checks should be mailed or brought to The Democrat office where a close check will be kept and the money spent strictly for equipment as suggested above.

Several have already signified they want a part in this appreciation drive, and I know there are many others who will want a part in saying "thanks" in a material way to the fire boys. Please write the check now or send cash if you prefer. Let's do this right away.

I understand the fire department has only three fire coats and in a fire as hot as that one recently, every fire fighter needs such coat to protect him from the intense heat when he has to get close to the fire with hose to do effective work. A lot of us would not put ourselves out to any extent to fight the other fellow's fire, even if we were given a fire coat breeches and boot, as well as a smoke mask, protective screens and the like. The fire boys do not ask whose place is on fire. They go and fight with all their might when they get to the fire.

1953-54 Budget Approved Tuesday By City Council

A city budget of \$68,331.67 for 1953-54 was approved Tuesday afternoon, at a special session of the city council in the City Hall.

The budget was presented to council members by Secretary D. L. C. Kinard, at the regular monthly session of the group, Tuesday night, June 2.

The budget covers the period from Oct. 1 of this year through Sept. 30 of next year. The current budget totals \$56,381.33, according to Kinard, who explained the increase this coming year was necessary because of municipal swimming pool and street improvement bond issues that were voted this year.

Tax collections for 1953-54 were estimated at \$50,206.48. Other city income was expected to raise this to an estimated \$68,598.80.

The tax rate is \$1.500 per hundred dollar tax valuation and personal property values have been placed at \$3,593,437 by the city equalization board.

Council members believe city taxes will not have to be raised in spite of the two bond issues, if the city government is operated on a conservative economical basis, Mayor Carl Harrison said following presentation of the new budget the first of last month.

CAUTION URGED DURING JULY 4 HOLIDAY PERIOD

AUSTIN—Taking note of the approach of the great patriotic national holiday, July 4, which this country has celebrated for one hundred and seventy-seven years. Dr. Geo. W. Cox, State Health Officer, calls the attention of the citizens of Texas to some of the dangers of careless celebrating. Each year on July 5, one always reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin, heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the day's pleasure includes a swim, caution should be used and no attempt made to do more than

Texas Farm Income Declines This Year

AUSTIN—Farm cash income in Texas for the first four months of 1952 totaled \$431,994,000, about \$123,000,000 less than the same 1952 period, the University of Texas Bureau of Business Research reports.

Six commodities brought income increases this year. Wheat income was up 144 per cent, and oats, 75 per cent. Income from sheep and lambs, eggs, poultry and mohair gained from 25 to 3 per cent.

Producers of cottonseed, wool, grain sorghum, cotton, corn, and cattle took the heaviest relative losses. Cotton and cattle producers suffered most in actual dollar losses. Cotton income was down \$57,600,000, and cattle, \$42,500,000.

your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents usually have one of three causes — exceeding the speed limit, driving on the wrong side, or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgement of the driver. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Memphis-Lakeview People In WTSC Summer Classes

CANYON—Seven persons from Memphis and five from Lakeview are attending West Texas State College for the first term of the summer session, according to Registrar Frank Morgan.

Attending from Memphis are Mrs. W. J. Bragg, graduate in education; Mrs. Alice Baker Hill, junior elementary education student; Mrs. Brunetta Morris, graduate in education; Mrs. Bessie Mae Newton, graduate in education; Mrs. Sophie Stilwell, graduate in education; Mrs. Reba F. Stroehle, graduate in education; and Billy Tate, graduate in education.

A family from Lakeview, the Rev. and Mrs. Guy Killian, and daughter, Shellah Jane Killian, are among the five from that town here for the summer. Mr. and Mrs. Killian are graduates in education, and Shellah is a sophomore secondary education student. Also from Lakeview are Dee Ellen Durrett, a freshman, and James L. Denton, a graduate in education.

HOLMES McNEELYS ARE HERE ON VISIT

Mr. and Mrs. Holmes McNeely and son, Bobby, of Houston, arrived here Friday from a three-weeks vacation trip which took them through the Lake Louise and Banff country of western Canada. While in that region, they also visited the Columbian Ice Field, between Banff and Jasper. On their way to Memphis, the McNeelys came through Yellowstone Park.

On their arrival here, they were met by Mr. McNeely's mother Mrs. Marion McNeely, and one of his sisters, Mrs. Alfred H. Freeman, of Wichita Falls.

McNeely is band director at Rice Institute and instrumental music director at Jefferson Davis High School, both of Houston.

He and his family expected to remain here about a week.

says that if the state had built reservoirs on Texas streams we wouldn't have a water problem.

"More than 85 per cent of our storm waters reach the sea," he said. "That means that only 15 per cent is soaked up by our parched earth."

There is no reason, Cox said, why these waters cannot be captured and transported to areas of scarcity.

The heat wave spread to Texas politics. Two Democratic Party organizations were getting steamed up over a complete break between national and state party machinery. And the beefed-up Republican Party was trying to consolidate its gains, capitalizing on the Demo split, and grab congressional and state offices next year.

The five-day visit in Texas this week of Stephen A. Mitchell, national Democratic chairman, apparently gives the national party blessing to the supporters of Adlai Stevenson in the last presidential race. Mitchell conferred with this group, recently formed as the Democratic Organizing Committee.

On the other side of the fence are Governor Shivers and the Democratic State Executive Committee, who supported Eisenhower for president.

meeting decided to start an early drive to place candidates in all political races next year. They are also expanding their campaign headquarters in Houston.

Since the Republicans gave Governor Shivers an overwhelming vote under the cross-filing system, they will have to hold primaries next year.

The Texas GOP could make further use of cross-filing, which is

strongly opposed by Stevenson Democrats. The Republicans could join forces with the Shivers group to put across the same congressional candidates on both tickets.

Attorney generals from Texas and New Mexico met in Austin to iron out several problems between the two states.

Among other issues is one over water rights. Texas has filed suit against New Mexico in the U. S. Supreme Court to compel the release of water in the Rio Grande River for irrigation in Texas.

New Mexico is reported ready to sue Texas for draining underground water across the border with numerous water wells.

Simple driving courtesy on the highway would greatly reduce the accident rate, according to one traffic expert.

Miss Bettye Leslie, Bride-Elect, Is Honoree At Lovely Pre-Nuptial Shower

The home of Mrs. Allen Grundy at 321 north thirteenth, was the scene recently for a lovely pre-nuptial shower given to compliment Miss Betty Leslie, bride-elect of Joe Bob Browning.

Sharing hostess duties with Mrs. Grundy were Meses Robert Spicer, Bill Baten, Walter Hightower, Clifford Farmer, Carl Harrison, Paul Montgomery, and Misses Peggy Evans, Sharon Harrison and Elizabeth Grundy.

Guests were greeted by Elizabeth Grundy, the honoree, Miss Leslie and her mother, Mrs. W. E. Leslie.

Miss Peggy Evans presided at the bride's book to secure signatures of the guests.

The bride-elect's chosen colors

of aqua and white were noted in floral decorations throughout the entertaining suite. In the dining room, the refreshment table was laid with a lace cloth over aqua. Daisies, tinted aqua, were used to encircle the punch bowl. Miss Sharon Harrison presided at the crystal punch service.

Miss Bettye Stewart and Miss Roberta Nelson played piano selections throughout the entertaining hours.

Mrs. Albert Gerlach spent last weekend visiting her mother, Mrs. C. J. Nash, in Dimmitt.

Alice Kennemer Becomes Bride Of Verl Hundley, Jr.

In an informal ceremony, Alice Joanne Kennemer, daughter of Mr. and Mrs. J. M. Kennemer of Claude, recently became the bride of Verl Hundley, Jr., son of Mr. and Mrs. Verl Hundley, also of Claude.

B. M. Litton, minister of the Memphis Church of Christ, read the single-ring service in the home of the bride's parents in Claude.

Given in marriage by her father the bride was attired in a white linen dress trimmed with lace. Her accessories were white and pastel blue and she carried a white Bible marked with blue and white carnations.

Miss Nelda Kennemer attended her sister as maid-of-honor. She wore an aqua suit with white accessories and a corsage of red carnations.

Weldon Hundley was his cousin's best man.

Mrs. Kennemer, mother of the bride, wore a navy crepe dress with matching accessories and a corsage of pink carnations. Mrs. Hundley, mother of the bridegroom, also wore a navy ensemble with a pink carnation corsage.

Following the ceremony, the bridal party was feted at a reception. Centering the serving table was an arrangement of white carnations and fern. Mrs. T. A. Kendrick, aunt of the bride, served the cake and Miss Nelda Kennemer, sister of the bride, presided at the punch bowl.

For the wedding trip, the bride traveled in a pastel blue suit with white accessories and a white carnation corsage. The couple is at home in Claude.

Mrs. Hundley was graduated from Memphis High School this spring.

Out-of-town guests included Mr. and Mrs. B. T. Spear of Tulsa and Mr. and Mrs. Gene Sassar of Memphis.

Dr. and Mrs. O. R. Goodall and Eddie Foxhall flew to Los Angeles, Calif., Thursday where they spent the weekend in the home of Mrs. Goodall's sister and her husband, Mr. and Mrs. Carl McLean. Sim Goodall who is stationed at an Air Base in California, joined them in Los Angeles for the weekend.

Locals and Personals

Mrs. J. C. Mays of Austin and her daughter, Mrs. Herman Everett of Odessa left for their respective homes this week after visiting for the past 10 days in the home of Mr. and Mrs. Chas. Webster. Mrs. Mays and Mrs. Webster are sisters.

Freedom from Drudgery!

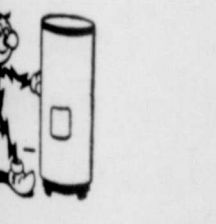

These automatic electric appliances
are symbols of a new freedom for American
homemakers—just as the Liberty Bell
symbolizes the Freedoms of American life.

Automatic electric home appliances
turn West Texas homes into small factories

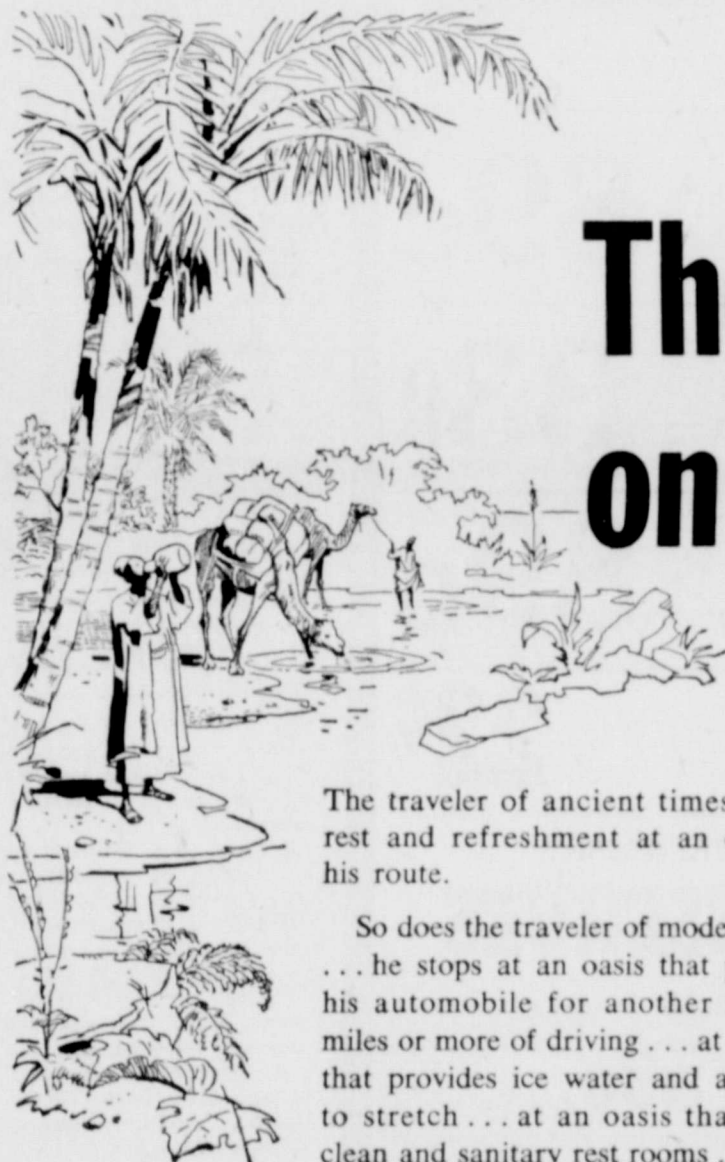

producing a variety of
products from frozen
desserts to clean shirts.

They provide a healthy, comfortable, pleasant
atmosphere for family living . . .
recreation and entertainment for fuller
enjoyment of family life.

Research engineering and dependable
electric service provide means of
eliminating the time-consuming
drudgery of housework. Electric
service and electric servants
together have created a new
way of living—a new freedom.

The OASIS
on your route

The traveler of ancient times sought
rest and refreshment at an oasis on
his route.

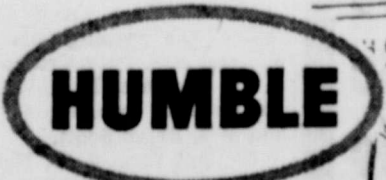

So does the traveler of modern times
... he stops at an oasis that prepares
his automobile for another hundred
miles or more of driving . . . at an oasis
that provides ice water and a chance
to stretch . . . at an oasis that offers
clean and sanitary rest rooms . . . at an
oasis where our traveler can give and
get a friendly greeting.

Today's oasis is the service station
on the American highway.

It makes your trip. It provides your
contact with the country through which
you're driving. On its driveway you feel
at home; you get the impression wher-
ever you stop, that this is your America.

Not one service station, but thou-
sands of them. All along the highways
you'll find them staffed and equipped
to give your car the expert care it re-
quires, to make your brief visits on their
driveways comfortable and pleasant.

The service station where you buy gasoline and motor oil
is your chief contact with the American oil industry. It is
probably an individual enterprise; and it competes to give
you better service and better products than another sta-
tion down the street or on the other side of town. No small
part of the oil industry's progress in the service of the
motorist finds final expression on service station driveways.

An added
service to

Mrs. Gaylon Wiley, Recent Bride, Is Honoree At Shower In Denton Home

Mrs. Gaylon Wiley, the former Betty Ariola, was honoree at a lovely bridal shower given Thursday, June 18, in the home of Mrs. Lorin Denton in Lakeview.

The guests were greeted at the door by Miss Sherry Denton and registered in the bride's book by Miss Katrina Nabers.

The refreshment table was laid with a lace cloth and featured a miniature bride beneath a white lace umbrella accented by a small crystal bowl of variegated flowers. Other table appointments were in crystal.

Miss Glynda Pat Lewis took the group by verse to the foot of the rainbow where some found their fortune after carrying out the instructions given.

Those seeking their fortunes were Connie Moore who gave a reading; Patsy Turner, who played a clarinet solo; Sharon Duren who gave a reading; a trio by Payne Dene Byars, Shirley and Katrina Nabers; a piano solo by Sherry Denton and stunts by Shirley Nabers and Evelyn Revell. Mrs. Wiley then selected her favorite color of blue which led her to a pot of gold at the foot of the rainbow. The pot of gold was a lovely array of gifts.

About 75 friends of the honoree were present or sent gifts.

Assisting Mrs. Denton with hostess duties were Meses. B. F. Davis, Cartie Dunn, J. B. Duren, O. L. Favors, Roy Gilreath, Jim Gowdy, William Lavender, C. R. Lewis, Ted Montgomery, J. R. Moore, K. D. Nabers, Sr., Glen Verden, Gilbert Young and Clyde Reed.

Norma Townsend Weds H. Dalton In Portales Rites

Norma Jean Townsend, daughter of Mrs. Violet Townsend of Memphis and Harvey Dane Dalton, son of Mr. and Mrs. Floyd Dalton of Amarillo, were married recently in Portales, N. M.

The Rev. L. A. Doyle read the double-ring service at the First Baptist Church in Portales. For her wedding, the bride chose a tan suit with blue accessories. She carried out the traditional bridal custom of wearing "something old, something new, something borrowed and something blue."

The couple's only attendants were Mr. and Mrs. Wayne Dalton and Mrs. Floyd Dalton.

Mr. and Mrs. Dalton are at home in Dallas where the groom is employed.

Jaycee Ettes Meet In Wells Home Mon.

The Jaycee Ettes met Monday night, June 29, in the home of Lila Mae Wells and appointed four directors, who with the help of the president, will appoint a membership committee.

Vice-president Earline West conducted the meeting due to the absence of president Phillis Dale. The directors appointed were Wanda Webster, Nina Nelson, Lila Mae Wells and Patsy Jones. The membership committee will be appointed Wednesday morning and the membership drive will start Wednesday.

The purpose of the club is to make friends and create good will. All wives of Jaycee's are cordially invited to attend the next meeting which will be held Monday night July 6, at 600 N. Ninth.

Those who attended were Meses. Lola Sargent, Earline West, Wanda Webster, Patsy Jones, Theresa Sims, Dottie Washko, Helene Ballew, Louise Snyder, Peggy Williams, Ruby Brawley, Nina Nelson, Louise Lawrence, Billie Frisbie one guest, Imogene Hobbs and the hostess, Lila Mae Wells.

Mr. and Mrs. D. A. Neeley had as visitors last weekend their daughter and family, Mr. and Mrs. Guy Smith and children of Tulsa and Mr. and Mrs. C. G. Smith, also of Tulsa. The Neeley's granddaughter, Loriane Smith, remained in Memphis for a longer visit.

Mr. and Mrs. T. J. Bridges will leave Friday on a week's vacation trip to Eagle Nest and other points in New Mexico.

Sodalitan Class Enjoys Luncheon In Swift Home Thurs.

Seasonal flowers in pastel shade, provided a charming background for the luncheon given Thursday in the country home of Mrs. Theodore Swift for members of the Sodalitan Class of the First Baptist Church.

Assisting Mrs. Swift were Mrs. Henry Scott, Mrs. H. Byrd and Mrs. Emma Baskerville.

Places were laid at foursome tables which were centered with bud vases of pansies and phlox. Centering the dining table was an arrangement of gladioli in yellow and orchid, the class colors. Other floral arrangements were placed at vantage points in the entertaining rooms.

The invocation was given by Rev. Fern Miller.

Following the luncheon, Mrs. Henry Scott conducted a business session. Reports were given by officers. Mrs. L. G. Rasco led in prayer.

Mrs. Geo. Cullin brought the devotional using as the subject "Faith." She concluded with lovely poems. Patsy Sue Hayes played a piano solo and the class sang two favorite songs of Mrs. Akers mother of Mrs. Swift. The songs were "Amazing Grace" and "Sweet Hour of Prayer." Mrs. Ellis offered the closing prayer.

Enjoying the luncheon were Meses. Frank Ellis, Sam Foxhall, W. C. Anderson, W. T. Hightower, Alice Caviness, Mary Bownds, Geo. Cullin, L. G. Rasco, Roy Patton, T. J. Bridges, Ottilie Jones, Henry Hayes, Leon Randolph, A. J. Fowler, J. W. Smith, Myrtle Hammonds, Claud Stevens, W. B. McQuinn, Sr., J. R. Saunders, J. M. Saunders, Leonard Wilson and Rev. and Mrs. Fern Miller and children and Mrs. Akers.

Legion Auxiliary To Sponsor Teen-Age Dance Friday Night

The American Legion Auxiliary is sponsoring a dance at the Legion Hall on Friday evening from 8 until 10:30 for teen-agers, Mrs. Estelle Guthrie, president, announced today.

All teen-agers from Memphis Estelline and Lakeview are invited to attend. Admission will be 25 cents per couple or 25 cent-stag.

Proceeds from the affair will be used to help defray expenses of the representative sent to Girl's State by the auxiliary. Johnnie McDaniel was chosen to represent the local auxiliary and has recently returned from the meeting which was held in Austin.

DALLAS MAN FINED ON DWI CHARGE
A Dallas automobile dealer was arrested at Esteline Thursday and charged with driving while intoxicated. He spent the night in county jail, here and was released Friday morning after pleading guilty in County Judge Tracy Davis' court and paying a \$100 fine and costs. Deputy Johnny Franklin of Esteline made the arrest.

Two Men Charged In June Theft At Monzingo Farm

A Memphis man and an Amarillo man were returned here from Iowa Saturday, in connection with a theft the middle of June at the farm of F. E. Monzingo, 4 miles southeast of town. The Amarillo man, A. L. Harris, 24 years old, is charged with theft over \$50, and was in county jail Tuesday in lieu of \$1,000 bond. Buster Moore, also about 24

years old, of Memphis, is charged with being an accessory to the crime. He made \$700 bond and was released from jail.

Both bonds were set in County Judge Tracy Davis' court. The men are alleged to have stolen a number of articles, including automobile casings, a threading machine, wrenches and some fishing tackle, according to Sheriff E. S. Morrison. Morrison left here for Sioux City, Iowa, last Wednesday morning to pick up the men, after they were arrested there the previous day. Deputy Bill Baten went to Great Bend, Kans., Tuesday, to

return some of the goods reported to have been taken in the June theft.

ed with 2.7 million acres last year or a contemplated gain of 92 per cent. The increase has been requested in view of an unusually short crop last year. Planting of grain sorghums is an important soil conservation and wind erosion measure, McKown declared, adding that many Hall County farms are deteriorating because of the continued planting of cotton.

The PMA official said this trend could be checked by putting a portion of each farm in some trash producing crop, like grain sorghum.

The shortage of livestock feed in the county last winter was largely a result of the small acreage devoted to feed crops, McKown explained. He said that if one-third of farmland had been

planted in sorghums in 1952, farmers would have been able to save the \$50,000 which they spent for emergency hay.

AMERICAN INDEPENDENCE

Saturday is the anniversary date of a memorable event
that in less than 200 years has changed a group of 13 weak,
disorganized and embattled colonies into an independent union
of 48 sovereign states which today exercises world leadership.

There is little doubt that the founding fathers would be
amazed if they could come back and see the phenomenal
growth of their homeland since July 4, 1776, when they hurled
defiance at their mother country with their Declaration of Inde-
pendence.

Fed up by a long period of high-handed treatment and
payment of taxes without representation, colonists already had
shown their antagonism in various ways.

This included the Boston Tea Party, Dec. 16, 1773, the
Battle of Lexington and Concord, April 19, 1775, and the
Battle of Bunker Hill, June 17 in the same year.

First step toward a Declaration of Independence was
taken on June 7, 1776, when Richard Henry Lee of Virginia,
told the Continental Congress, meeting in Philadelphia:

"That these United Colonies are, and of right ought to be,
free and independent States . . ."

Opponents of independence put up strong resistance to
the move and on June 10, after two days of bitter debate, a
show-down was postponed until July 1.

A committee, composed of Thomas Jefferson of Vir-
ginia, Benjamin Franklin of Pennsylvania, John Adams of
Massachusetts, Roger Sherman of Connecticut, and Robert R.
Livingston of New York, was elected to draft a declaration to
serve as the foundation of a new and independent govern-
ment.

On July 1, an independence resolution from the state of
Virginia, which had been previously considered, was brought
up again. After torrid debate, lasting far into the night, the
resolution was passed the following morning.

Then on the morning of July 4, the climax came when
Jefferson presented his draft of the Declaration of Independence
to the Congress.

The proposal was considered at length but, except for the
complete removal of a section condemning the practice of
slavery, changes were minor.

Benjamin Harrison, delegate from Virginia read the final
draft: "In Congress, July 4, 1776, A Declaration by the repre-
sentatives of the United States of America in General Con-
gress Assembled . . ."

"When in the course of human events, it becomes neces-
sary for one people to dissolve the political bands which have
connected them with another, and to assume among the Powers
of the earth, the separate and equal station to which the Laws
of Nature and of Nature's God entitle them, a decent respect
to the opinions of mankind requires that they should declare the
causes which impel them to the separation . . ."

"We hold these truths to be self-evident, that all men are
created equal, that they are endowed by their Creator with
certain inalienable Rights, that among these are Life, Liberty,
and the pursuit of Happiness. That to secure these rights,
Governments are instituted among Men, deriving their just
powers from the consent of the governed. That whenever any
Form of Government becomes destructive of these ends, it is
the Right of the People to alter or to abolish it, and to institute
new Government, laying its foundations on such principles and
organizing its powers in such form, as to them shall seem most
likely to effect their Safety and Happiness . . ."

Despite this stirring declaration, complete independence
did not become a reality until the defeat of Cornwallis at York-
town, Oct. 19, 1781.

American independence was purchased by hardship,
bloodshed and sacrifice and has been maintained to this day
only because citizens have been willing to work, fight and die
for it whenever necessary.

It appears that we will remain a free people only as long
as we are willing to continue following this course.

LET'S RE-AFFIRM OUR FAITH

Press Paragraphs—
QUOTING OUR NEIGHBORS

UNCHANGING OLD GUARD
President Eisenhower is in the
unique position of having his sole
hope of foreign policy support de-
pend upon the opposition or De-
mocratic Party.

He should have that support
when required but he should earn
it by cooling off his Old Guard
isolationists both in the Congress
and among his own appointees.

Democratic newspapers in the
last campaign, vainly warned the
public that Old Guard Republi-
cans do not change their spots
and that while using the glamor-
ous and popular General Eisen-
hower as a front, they were in
reality, seeking the committee
posts and controls in Congress
from whence they could put into
policy the old theory of isolation-
ism and the arrogant rule of hard
money economy, at home.

Senator Robert Taft's speech
blasting the UN is an echo of the
same brand of Republican isolat-
ionism that crucified Woodrow
Wilson when he sought to form
the League of Nations and avert
World War II.

The haughty and arrogant
treatment of France and England
at Dulles, Humphrey and Wilson
have dismayed our allies to where
they were going to force a big

Four conference in which Russia
would sit in. Only definite reassur-
ance by President Eisenhower se-
cured a prior Big Three confer-
ence.

In the meantime, Senator Mc-
Carthy is preaching a brand of
Fascism second only to that of
Mussolini. The net result of this is
to leave us completely separated
from the cooperation and good
will of the world, a thing Russia
has sought for years.

President Eisenhower is entitled
to the support of all in opposition
to this sort of thing, but he can
only earn it by taking his cut at
the ball and slapping down the
Old Guard minded members of
his own party and his own cabinet.

OFF WITH NECKTIES
The time has come to insert
here the annual message of free-
dom and hope for the men of this
community.

Men—it is now perfectly alright
for you to come downtown with-
out your necktie on.

The ladies, bless'em, have
changed to the light and filmy
comfort of nylons and breezy cot-
tons, and the men should take ad-
vantage of this change in the scen-

ery to doff their ties and appear
unashamed with open collars.

Convention has it that the male
shall go through life bearing the
burden of shaving every morning;
and straining under the leash of a
colorful cravat.

But with the mercury climbing
into the high 80's and low 90's
as it has recently, we feel in all
fairness that the men should not
be forced to endure the restraints
and bindings of a formal appear-
ance.

After all, we are among friends
and a bit of informality during
the summer months will go far to
make the weather more endurable.

Let's get those neckties off
men. Bare your neck to the shifting
sands. Be cool, be comfort-
able. —County Wide News (Little-
field)

THE VOICE OF FREEDOM

WHEN the Declaration of Independence was signed by
representatives of the 13 colonies in 1776 . . . the news was
months in reaching the farthest outposts of freedom in the
new world.

Today, telephone service spans our nation and the entire
globe, bringing the cities and towns of the 48 states within
seconds of each other. And today, there are more tele-
phones per person in America than in any other nation in
the world.

This communication . . . the free interchange of ideas,
thoughts and opinions . . . is at the basis of a free nation.
It is the heart of America's freedom of speech. It is the
motivating power behind America's system of free enter-
prise that has helped America grow from these fledgling
13 Colonies in 1776 to the greatest and most powerful
nation in the world today.

WHEAT FOR PAKISTAN WHAT FOR THE PANHANDLE?

On June 26th the first boat load of wheat for Pakistan sailed from Baltimore, Maryland. This is the first shipment of one million long tons of wheat being given by this country to Pakistan. The major argument in favor of the bill to make this grant to Pakistan was that Pakistan was in the throes of a drouth and that there was great possibility of a famine in that country. It was further argued that since India and Pakistan are having difficulties and the United States two years ago gave India a substantial amount of wheat, it was our responsibility to give some wheat to Pakistan.

Actually, the wheat to India two years ago was not supposed to be

an outright grant. It was sold to India but no one expects payment of the debt, so actually it amounts to a gift for all purposes.

The facts in the present legislation show that there was not a present famine in Pakistan but that wheat was being rationed. The one million long tons in this grant does not go directly to hungry people. It was given to the government of Pakistan and it is anticipated that approximately 30 per cent will find its way to hungry people without cost, while the remaining 70 per cent will be sold by the government of Pakistan to people in Pakistan, the proceeds of such sales to remain the property of the government of Pakistan.

The entire transaction involves

approximately 84 million dollars worth of wheat that is presently owned by the Commodity Credit Corporation as surplus wheat. This wheat, however, is an asset of the Commodity Credit Corporation and was obtained by that corporation with tax dollars. When this wheat is removed from the possession of the Commodity Credit Corporation, its value must be replaced in the assets of that corporation. Therefore, under Section 2 of the bill, provision is made for appropriation of such sums as are equal to the corporation's investment in such commodity, including handling costs, plus the cost incurred in making deliveries under the act. This simply means that upwards of 100 million dollars of tax money will be transferred from the Treasury Department to the Commodity Credit Corporation.

The reason for the difference between the value of the wheat and the amount of money required to be appropriated to replace it in the Commodity Credit Corporation's assets is the fact that under this bill American taxpayers are being required to spend upwards of 20 million dollars in order to give away 84 million dollars; the catch being that we are not only giving the wheat to Pakistan, but we are paying the freight to deliver it to her doorstep, and in doing this we are not shipping it by the cheapest transportation. The bill requires that one-half of the wheat be transported in American flag ships.

In the debate on the subject Congressman Peage of Texas offered an amendment that would require Pakistan to assume full responsibility of getting the wheat from this country to Pakistan. His reasoning was very sound and this amendment should have been adopted. He pointed out that the shipping interests appeared before the committee in this question and testified that the present going rate for wheat from here to Pakistan was \$26.00 a ton in American ships; that foreign ships would carry the wheat for approximately one-half, or around \$13.00 per ton. If all of the wheat is shipped in American ships, it would require 26 million dollars as against 12 million dollars to be shipped in foreign ships. Dividing the shipments between American and foreign shipping will require approximately 20 million dollars. Now, I do not object to requiring the shipment of all of the wheat to Pakistan in American ships by American business people and American labor

ATOM WATCHERS . . . Mark Buck, 4, and his two dogs at Las Vegas, Nevada, home gaze at atomic bomb mushroom smoke 75 miles distant at Frenchman's Flat.

But what I do object to is requiring the American taxpayer to further subsidize the shipping industry by an additional 12 million dollars and to pay an additional 7 to 8 million dollars to foreign shipping companies for the delivery of this wheat. It occurred to me that it would be much better if this country wanted to throw away an additional 20 million dollars worth of surplus wheat and let Pakistan get it over there the best way they could. It further occurred to me that Pakistan should be willing to have the wheat shipped over there in American bottoms as the wheat itself was not costing Pakistan one thin dime. I wish that I had time to go further into this bill, as I did not like it one bit.

While we were fussing and fuming about Pakistan, the entire Southwestern section of this country was suffering a drouth unprecedented in our history. Like Nero at Rome, we were fiddling while our own country was burn-

ing up. Those responsible for the passage of the Pakistan wheat bill are patting each other on the back because of the great speed with which they got the bill through the House and the Senate, signed by the President, and dispatched the first boat load of this giveaway of American taxpayers' property. They bragged that this was all done in two weeks. The entire Southwest has been suffering a drouth that has reached the crisis stage in the last several weeks. This has been called to the attention of every official in Washington time and time again. Yet nothing was done to assist the American taxpayers who grew the wheat that went to Pakistan and who are going to have to cough up the tax dollars to pay the Commodity Credit Corporation and to further subsidize the shipping industry.

During the past several days there has been some indication of possible action to avert the pending panic in the Southwest. I sincerely hope that the speed that is necessary to cope with this problem will not be spared. The truth is that the delay in trying to cope with this problem is the result of some petty politics. It is a disgrace

to play politics with the destinies of the fine people who have built the great Southwest. Had administrative officials taken the bold action that was necessary even three weeks ago, many small farmers and ranchers would have been jeopardized. Action at that time would have stabilized the

cattle market and saved thousands of dollars that would be required.

**Various Services and Supplies
Available at Gidden Electric Shop**

The place to go for electrical supplies and services of various kinds in Gidden Electric company, 715 Main Street. A. O. Gidden, owner, does electrical contracting and all types of motor overhaul. The company has or will order motors of all sizes and types, and motor parts.

Gidden has equipment for completely overhauling motors and can give rush service where necessary.

The firm sells General Electric Sunbeam and Manning-Bowman appliances, such as toasters, percolators, waffle makers and irons, and has a variety of lighting fixtures and accessories.

Gidden has done the wiring on numerous buildings here and over this region. Among local firms he has wired are: Foster's Grocery, and the new International Harvester building. Currently, he has the electrical contract on the Whaley Building, on the east side of the square, and a new building in the 700-block on Noel Street, being constructed for Gene Hughs. He has the contract on the municipal swimming pool, now under construction.

Out-of-town structures for which Gidden has done electrical work have included: the Lakeview grammar school, and schools at Sunray, Sanford and Fritch. He has just completed wiring the new Bagby Motel in Clarendon.

Gidden established the electrical company about nine years ago, on the south side of the square, and remained there until moving to his present location about five years ago.

Mrs. Gidden assists her husband at their place of business and also operates Western Union facilities at the same location.

Gidden was born at Plaska, Oct. 6, 1917, the son of Mrs. A. O. Gidden, Sr., and the late Mr. Gidden. He attended school at Plaska and later in Memphis, graduating from the local high school in 1934.

After graduation, he worked for Durham-Jones drug store and then was employed in the county agent's office here for several years. After that, he helped construct Rural Electrification Administration lines when work of that type got underway in this area.

Following the outbreak of World War II, he was employed on various defense projects, including several military camps. During a two-year period when he and Mrs. Gidden were living at Houston, he worked in a synthetic rubber plant at Baytown and then in an electrical contracting shop in Houston. He and Mrs. Gidden returned here in October, 1944, to open the electric business.

Mr. and Mrs. Gidden were married at Hollis, June 30, 1940. The couple has two daughters, Bettye D., 11 years old, and Lalla Sue, 6 years old. Bettye D. will be in the sixth grade at William B. Travis School next year, while the younger daughter will be a first grader.

Mrs. Gidden, the former Mildred Richburg, is the daughter of Mr. and Mrs. Lonnie Richburg of Estelline.

Local Residents In Annual Clarendon July 4 Celebration

A number of Memphis residents will participate in the annual Fourth of July Celebration at Clarendon this week.

Three Memphis girls, Janice Ann Anthony, Betty Paschall and Margaret Ann Massey, will compete in the girls' sponsor contest during rodeo performances, held in connection with the yearly event. Miss Paschall said Tuesday that the trio will appear in two of the four rodeo exhibitions.

They will vie for money prizes, under the guidance of Mrs. Boyd Rogers of Memphis, and Mrs. Charlie Seeds, Clarendon hostess.

Members of the Hall County Bit & Spur Club plan to ride in the parade, scheduled to start at 1 o'clock Saturday afternoon. Miss Paschall, secretary-treasurer of the group, said.

All persons who have been residents of the Panhandle for 50 years or more, have been asked to register at the Clarendon Legion Hall at 9 a. m.

A special program for old settlers will be given from 9 o'clock to noon Saturday. A free barbecue will be staged at noon. Also scheduled are beauty and fiddle contests.

Night rodeo performances are slated to start at 8 o'clock today, tomorrow and Saturday, with an afternoon performance Saturday beginning at 2 o'clock. A dance will be held each night after the rodeo, at the Legion Hall.

There will be nine main events at each performance. They will be calf roping, bareback bronc riding, bronc riding, bulldogging, bull riding, ribbon roping, a wild mare race, girls' sponsor contest and a cutting horse contest.

Samuel Morse, the inventor, was also a portrait painter.

Amarillo Man Jailed Friday After Wreck

Ovell Buster of Amarillo, was in county jail here this week, after he was picked up Friday morning near Newlin and charged with driving a vehicle without the consent of the owner. He is 20 years old.

Buster plead guilty to the charge in county court here and was assessed a \$250 fine and costs and 10 days in jail, according to Highway Patrolmen Clinton Culp and Noel D. Callaway.

Buster stole a car, belonging to Johnny Green of Dalhart, early Friday morning at Amarillo, the officers said. He abandoned the vehicle, after knocking down three guard rail posts on Highway 287, about a mile north of Newlin.

He was asleep in a bar ditch approximately a half mile north of Newlin when arrested.

company officials a number of times, concerning location of the division offices here.

The second floor of the Whaley Building, on the east side of the square, has been remodeled, for use as Northern Division headquarters.

Roberts, the new division manager here, has been in the telephone industry since 1926 and became associated with General Telephone Company of the Southwest in 1930. Since then he has been a district manager at Dalhart, Carlsbad, N. M., Wynona, Okla., Brownfield, and Hobbs, N. M.

He is a past director of the Hobbs Chamber of Commerce and holds membership in the Rotary Club, Masonic Lodge and Elks Club. He served a three year term as Elder and two as Deacon in the Presbyterian Church in Lamesa.

Craig, who finished high school in Paducah, joined General Telephone Company in 1938. He spent three and one-half years in construction work before holding plant jobs in Quitaque and Wellington. He is a member of the Masonic Lodge, Dallas Consistory and the First Baptist Church in Lamesa.

Under the reorganization plan five divisions have been set up.

Hammond Replies To Letter From Farm Bureau Here

A letter, acknowledging a recent message from the Hall County Farm Bureau concerning proposed changes in setting up cotton acreage allotments, has been received from J. Walter Hammond, president of the Texas Farm Bureau Federation. The letter was addressed to Harold Hughes, president of the Hall County unit.

Concerning a statement from the county farm group that they understood irrigation sections in Arizona, California and Texas were attempting to have an act passed by Congress to permit them to plant 30 per cent of their cultivated acreage in cotton next year, without regard to history the past five years, Hammond replied that to his knowledge, no such proposal has been made.

He went on to say that a bill has been introduced to change the historical period from five to three years. The bill was presented by Congressional representatives from California.

Hammond said the American Farm Bureau Federation, at a meeting of cotton states representatives in April, voted to abide by the law as it is, which uses a five-year history in determining cotton acreage allotments to states and counties.

the garden in from one to two days.

The sprinkler system utilizes a five-inch water main, running from the north to the south side of the plot and fairly near the center. Branching out from the main is a four-inch pipe, to which sprinkler heads are attached at intervals. The four-inch pipe is connected to the main lines via of pipes, spaced at 30-foot intervals.

"This will spray an inch to an inch and a half of moisture for about 15 feet on each side, in a six-hour period," declared Thompson. "At the end of six hours, the pipe can be moved over to spray another 30-foot wide strip."

"When the east part of the plot is watered, the pipe can be moved over to the western part and moved back up field until the entire plot is covered. Then watering can be started all over again."

Two men can move the branch water line to a new strip in about 30 minutes, Thompson estimated. He said that as they became more familiar with the operation, they will be able to complete the change faster.

Approximately 300 gallons of water per minute is being pumped from a well at the north end of the 40-acre plot. A Chrysler industrial motor, operating on natural gas, drives the pump which draws water to the surface.

Thompson said the output of the well is improving all the time. The well is 120 feet deep, with pipe set at 117 feet.

The well is enclosed by 12-inch casing, within 20-inch casing according to the hardware man. The space between the casings is filled with gravel and gravel also has been put outside the larger casing, in order to cut out sand.

Thompson has irrigated the garden plot before but this is the first year he has attempted this on the cotton land.

Among produce, Thompson has in his garden this year are okra, corn, tomatoes, black-eyed peas, beans, Irish potatoes, beets, carrots and sweet potatoes.

Thompson's gardening has proved profitable in the past and he expects his new venture in irrigation to be a money-maker, also.

Trapshooters Will Meet Here Sunday Afternoon

Memphis Rifle and Pistol Club members will hold a trapshoot Sunday afternoon at the club site on the T. D. Weatherby farm, about 3 miles northeast of town. E. M. Wilson, president, said Wednesday. It probably will be the last shoot of the season, according to Wilson.

Shooting will begin at 2:30 o'clock, with chickens and bacon as prizes.

Wichita Falls trapshooters have been invited to participate.

Among the group is Mrs. Betty Cov, who won the women's amateur championship at the recent state meet in Fort Worth.

Wilson said club members would be glad for residents of this vicinity to come out and see some real trapshooting.

The Panhandle Trapshooter Association had their last competition of the season last Sunday at Amarillo and a large crowd is expected here as a consequence, Wilson explained.

Jack Hightower Joins Law Firm At Fort Worth

Jack Hightower, son of Mr. and Mrs. W. T. Hightower of Memphis, has joined the Fort Worth law firm of McGown, Godfrey, Logan and Decker. He moved to Fort Worth from his home in Vernon this week, after accepting an offer to become associated with the downstate law firm.

Hightower is serving his first term as state representative from the district, which includes Wilbarger County, of which Vernon is the county seat.

He was born and reared here and attended the Memphis public schools. After graduating from the local high school, he enrolled in Baylor University at Waco, majoring in law.

He received his degree in law from the university and then became associated with John Stork, Vernon attorney, later making his successful race for state representative.

Jack and his wife and baby visited his parents here the past weekend.
