South Aid Plan Started Here

Nearly 350 applications for feed of various kinds had been received at the Production & Marketing Administration office here Wednesday, under the recently inaugurated drought emergency program. This information came from Lynn L. McKown, PMA office manager here.

McKown said the first carload of feed to be sent here as part of the program, arrived Wednesday morning. The car contained cotton seed pellets.

Applications for feed through Wednesday morning, as listed by the PMA official, were as follows: cotton seed pellets, 95; corn, 85; oats, 65; cotton seed meal, 58; and wheat 33. This made 336 applications altogether.

Cotton seed pellets or meal is to be apportioned as follows: four pounds per day for a cow and calf; three pounds per day for a dry cow or a bull; and two pounds per day for weaned calves up to two years old.

Cotton seed products and grain will be allotted in the ratio of one pound of pellets or meal to three pounds of grain, McKown said.

A five-man committee, which will process the applications, was completed Tuesday afternoon, during a meeting in the courthouse here.

On the committee are: Arthur Eddleman, Estelline, PMA county committee chairman; W. B. Hooser, Hall County agricultural agent; J. J. Roan, Farmers Home Administration supervisor for Hall County; L. C. Martin, local banker; and Alga Turner, who farms at Turkey. McKown was elected acting secretary.

Cotton seed products will sell at \$35 a ton, corn at \$1 a bushel, wheat at \$1.10 a bushel, and oats at 50 cents a bushel, Hooser said Tuesday.

Applications have been accepted here for the past week. New applications will be taken at the conclusion of the period, covered by the present ones. Periods may range up to 30 days, according to a release from the U. S. Department of Agriculture.

Feed, furnished under the emergency program, is to be fed to foundation herds only, the purpose being to help farmers and ranchers to hold basic herds until crop and pasture conditions in this region improve.

Stockmen are being encouraged to cull over-age and less desirable cattle from herds.

Lower freight rates on cattle and feed shipments have been promised by railroads and Congress is currently studying legislation.

SUMMER BAND CLASSES ARE BEING PLANNED

A month-long summer band school will be held, starting Monday, if enough interest is shown, Richard Highfill said this week.

Enrollments will be taken from 9 to 12 noon Friday and Saturday morning, at the band hall, Highfill, director of music in Memphis High School, explained. After those hours, Highfill can be reached at home, phone 357-M.

Students will participate in like instrument classes; for example, in an intermediate clarinet class, or an advanced clarinet class, etc. Two one-hour lessons will be given weekly, extending through Aug. 13.

Tuition rate will be \$7.50. This will include a technique book, designed especially for the particular instrument each student plays.

Highfill said the summer band program will give all band students an opportunity to advance as much as they normally would during a one-semester term in school.

Reason for this, Highfill explained, is that it is possible to reach more individual students with allotted time devoted entirely to one type of instrument, instead of several, as is the case during the school year.

Rates for private lessons will remain \$1.25 for half an hour of instruction each week, Highfill said.

Registration for private lessons also will occur Friday and Saturday.

New Water Main Being Laid On Seventh Street

A Community Public Service Company construction crew from Breckenridge began laying a 6-inch water main Monday on the west side of Seventh Street between Robertson and Mendon streets. The new main will be five-blocks long.

A small water line, which runs along the east side of the street, will be tied into the new main at every street intersection along the route, Bill Coursey, local manager for the water company said Wednesday.

Coursey said the job should be finished the first of the week if a tapping machine, for joining the old and new line, arrives on time.

The new line will be tied into an eight-inch main, extending east and west along Robertson and into a four-inch line, running the same direction on Mendon, according to Coursey.

The expanded facilities will not only serve customers along the five blocks on Seventh Street but also for the same distance on Sixth and Eighth streets, and should result in improved service through out this section, Coursey said.

Groundwork For Chest X-Ray Drive Is Being Prepared

Groundwork for the chest x-ray program, to be conducted here Tuesday and Wednesday, July 28-29, was being laid this week by members of the 11 local women's clubs, sponsoring the campaign.

An x-ray machine will be in operation at the Lone Star Gas Company here from 8:30 until 5:30 o'clock both days, according to Mrs. Glynn Thompson, president of the City Federated Women's Clubs, made up of the eleven sponsoring organizations.

The women's groups and their presidents are as follows: American Legion Auxiliary, Mrs. Lance Leggett, Lakeview; Atlantean Club, Mrs. Ed Monzingo; Business and Professional Women's Clubs, Mrs. Mollie Carlos; Delphian Club, Mrs. Earl Hill; Harmony Club, Miss Mary Foreman; Little Theater, Mrs. Leo Fields; Pathfinders' Council, Mrs. Hall Nelson; United Daughters of the Confederacy, Mrs. Joe DeBerry; Veterans of Foreign Wars Auxiliary, Mrs. Bob Ayers; Woman's Culture Club, Mrs. Burr Morris; and 1913 Study Club, Mrs. Frank Foxhall.

Probably half a million persons in the United States have tuberculosis of the lungs. One of the surest ways of knowing whether you are one of them or not is to have a chest x-ray made during the drive here the latter part of this month.

If you have never had such an x-ray, if you have not had an x-ray the past two years, if you have been in contact with someone with tuberculosis, or if you want to be sure your lungs are all right, have a chest x-ray made.

There is no charge, and all persons, 15 years old or older, are urged to participate. It is unnecessary to disrobe.

Sponsoring the program through out the state is the Tuberculosis Division of the Texas State Department of Health. Two technicians from the department will make the x-rays.

Postal Receipts Slightly Lower In Past Fiscal Year

Postal receipts in the second quarter of this year totaled \$7,585.27, according to Glyn Thompson, assistant postmaster. This compared with \$7,726.01 for the same period of last year, or a loss of \$140.74.

Receipts for the first quarter of this year were \$7,198.15, as against figures for the first quarter last year of \$7,906.39, or a loss of \$708.24.

A comparison of years' totals shows that receipts this past fiscal year, ending June 30, were \$32,864.48. Total for the 1951-52 fiscal year was \$33,553.14, or \$688.66 more than during the (Continued on Page 8, Sec. 1)

CITY COUNCIL MEMBERS DECIDE TO START STREET IMPROVEMENT PROGRAM BY AUG. 1

NOLAN POTEET

Addition Made To Coaching Staff Of Local High School

An addition to the coaching staff of Memphis High School was announced this week by Supt. W. C. Davis.

He is Nolan Poteet of Panhandle, who has been named an assistant coach. He is 22 years old.

Poteet will coach the "B" football squad and the first string basketball and track teams, according to Davis.

A graduate of Samnorwood High School, he graduated from West Texas State College in January. He received a Bachelor of Science degree. He majored in physical education and minored in speech and history.

While at West Texas State, Poteet lettered for three years in basketball and participated in track, football, baseball and volleyball here.

He has been highly recommended by the coaching staff and faculty of West Texas State, Davis said.

Mr. and Mrs. Poteet will move here the latter part of August, according to Davis.

Poteet grew up on a farm and ranch.

Funeral Rites For Robert O. Shannon In Hedley Church

Funeral services for Robert Otis Shannon, who was found dead late Friday afternoon on his farm near Hedley, were conducted Saturday afternoon in the First Methodist Church at Hedley.

Rev. W. M. Culwell, minister, and S. W. Sanders, minister of the Hedley Church of Christ, officiated.

Burial was in Rowe Cemetery, Hedley, under direction of Murphy-Spicer Funeral Home, Memphis.

The body of Mr. Shannon was discovered in a field on his farm, 10 miles northeast of Hedley, by Jiggs Blankenship, a rural mail carrier, and Slat's DeBord, a neighbor.

Mr. Shannon apparently suffered a heart attack when he was thrown from his tractor after it backed into a ravine, according to Donley County Sheriff, Truett Behrens. Behrens said Shannon had been dead three or four days. He was 64 years old.

A native of Springfield, Tenn., Mr. Shannon was born Oct. 14, 1888 and had been a resident of Donley County for 46 years.

He was married to Miss Florence Watkins at McKnight near Hedley, April 2, 1911. Mrs. Shannon died June 21 of last year.

Survivors include: a daughter, Mrs. Woodrow Farris, Hedley; a son, Robert C. Shannon, Healdsburg, Calif.; and three sisters, Mrs. Florence Baggett, Cleburne; Mrs. Vesta Savage, Carlsbad, N. M.; and Mrs. Lela McDonald, Petaluma, Calif. A son, Clyde died in August, 1951.

Pallbearers were L. D. Messer, Chester Walker, Ellis Harrison, Conley DeBord, J. M. Kennedy and O. F. Messer.

July Weather Generally Continues 'Hot And Dry' Pattern Of Last Month

July weather continued the "hot and dry" June pattern until Tuesday afternoon when a brief shower brought cooler temperatures temporarily.

A short-lived duster was followed by the shower, which dampened Memphis to the tune of .10 of an inch of moisture, according to Weatherman John McMicken. Approximately an inch reportedly fell on a limited sector, southwest of here. Wednesday, mercury readings remained pleasantly cool, but weather forecasters offered little hope of any immediate break in the dry, hot weather which has left this region in a seared and withered condition.

So far, this year, Memphis has had only 6.26 inches of precipitation, according to McMicken's figures. Normal is around 10.25 inches, a check of figures in the Texas Almanac disclosed.

Until Tuesday, no moisture had fallen here since June 18, when .52 of an inch was recorded. That was the only appreciable dampness to fall last month. During June, rainfall was heavier in some parts of this section but lighter in others.

The Lakeview, Lesley and Giles areas had as much as an inch to an inch and a half of precipitation the afternoon and night of June 18. South of the river, there was little or none.

The next afternoon, many farmers on sandy land farms saw their crops blown out or partially wiped out in a howling sandstorm.

Crops are late and spotted. The region, south of the river, extending to and including the Turkey area, appears to be hardest hit. There, farmers have not had enough moisture to even attempt to replant.

Insects, which were first noticed several weeks ago in cotton fields all over the county, were still present this week but had not become a serious threat, County Agent W. B. Hooser said.

Temperatures climbed above July 100 degrees 23 days in June and to exactly 100 another day. The remaining readings were in the 90's most of them 95 or above.

Top reading was a sizzling 115 degrees on Sunday, June 14, the hottest temperature so far this year.

Temperatures so far this month, as recorded by McMicken, are as follows: Wednesday, 70 and 99 degrees; Tuesday, 78-108; Monday, 75-107; Sunday, 77-107; Saturday, 76-107; Friday, 72-105; Thursday, 72-107; and last Wednesday, 72-104. Low this morning was 69 degrees.

Discs Are Needed For Music Stands

Thirty-six discs, like those from disc harrows or seeders, are needed for making music stands, Richard Highfill, director of music in Memphis High School, said Tuesday. They should be 10 to 15 inches across, the music director explained. They are to be used as bases for the stands, he said.

Any circular, concave metal object of approximately the same size and weight, also will serve, according to Highfill.

Anyone having such items may call the music director at his home, phone 357-M, or the high school, phone 18-J.

County Wheat Yield Is Far Under 1952

Total wheat yield in Hall County this year was far below that of last year, a comparison of figures shows.

A check of elevators here and at Turkey disclosed that 22 cars were shipped this year, with a small quantity of wheat remaining at some elevators.

Last year, Memphis and Turkey elevators shipped or held approximately 110 cars.

About 8 cars of the grain was bought by the three elevators here and 15 were purchased at Turkey.

Action Taken At City Hall Session Tuesday Evening

Members of the city council voted Tuesday night to give the go-ahead signal on a paving improvement program which has been hanging fire for several months. The step was taken at the regular monthly meeting of the group, held in the City Hall.

Mayor Carl Harrison told council members that Bryan & Hoffman Construction Company of Plainview, who have the contract for the work, could have machinery here by Aug. 1 to start the project. He said he had been advised to this effect by Lindsey Hoffman, partner in the firm.

To be paved under present plans are Seventh Street, Noel Street from Tenth to Sixteenth Street, Front Street from Noel Street to North Tenth Street, and any other streets on which enough property owners have signed up to justify the work, until allotted funds are exhausted, Mayor Harrison said.

The Plainview company was awarded the contract March 3, on a low bid of \$48,144.82. Ten construction companies in all submitted bids, which were opened at the March meeting of the city council.

The Texas Highway Department will widen the pavement on Noel Street from Tenth to Sixteenth, to 52 feet, with the city paying for curbing and gutter.

The City of Memphis will pay for paving alleys and intersections and for engineering, while owners will underwrite the cost of paving, adjacent to their property.

Front Street is to be blacktopped but no curbing or gutter is to be installed, Mayor Harrison said. This is being done to eliminate dust on this heavily traveled street, the mayor explained.

Other paving will include curbing and gutter.

All streets, except the Noel Street, will be 32 feet wide. The one-block section on Seventh will be 42 feet wide.

Cost per front foot on 32-foot Street section will be 32 feet wide. The one-block section on Seventh will be 42 feet wide.

Construction will be of 6-inch compacted gravel with double asphalt surfacing.

Property owners who have not made arrangements to participate in the paving program may still do so, according to Mayor Harrison. Papers may be completed at the Chamber of Commerce office in the City Hall, Clifford Farmer CC manager, is in charge of this phase.

In other business at the Tuesday night session, council members discussed:

What can be done to improve traffic safety at the junction of North Tenth Street and the Amarillo highway, particularly the possibility of having the Texas Highway Department replace a "Slow" sign with another, warning motorists of the stop signs (Continued on Page 8, Sec. 1)

Firefighters Elect Officers Monday

Officers of the Memphis Volunteer Fire Department for the coming year were elected Monday night, during a meeting of members in the City Hall.

M. C. Allen was re-elected president.

Other officers named were: Lester Grimes, first vice-president; J. W. Vardeman, second vice-president; J. T. Clayton, chief; R. A. Massey, first assistant chief; O. A. Sturdevant, second assistant chief; Arlis McBee, secretary-treasurer; Ed Mathis, assistant secretary-treasurer; Tom Posey, chaplain; and Kenneth Dale, sergeant-at-arms.

J. W. Hancock is captain of Engine No. 1 and Lloyd Ward is captain of Engine No. 2.

QUARTER HORSE OFFICIALS VISIT HERE TUESDAY

Raymond Hollingsworth, executive-secretary of the American Quarter Horse Association, and Lewis T. Nurdyke, editor of the association's Journal, both of Amarillo, were business visitors in Memphis Tuesday.

Hollingsworth has been the editor of the Journal, but the growth of the association and added growth of the publication caused him to relinquish the editorial duties to Nurdyke, who is a well-known author, magazine writer and newspaper man. Nurdyke is a former associate editor of the Country Gentleman. He authored a successful book, "Cattle Empire," the story of the 3 million-acre XII ranch. For the past 10 years, he has been a regular contributor to the Saturday Evening Post, the Reader's Digest, the New York Times and other national publications.

The Quarter Horse Association is one of the largest horse registries in the United States. It is also the official registry for Quarter Horses in Canada and in South and Central America.

The Quarter Horse Journal was established in Amarillo in 1948 and has grown into one of the most successful magazines published in the Southwest.

Student Transfer Applications Must Be In By July 31

Deadline for filing applications for transfer of students from one school district to another is July 31, Miss Mary Foreman, county school superintendent, said this week.

Parents, who desire to send children to a school in a district other than the one in which they live, must file such request with the county superintendent's office before that time, Miss Foreman explained.

Protests from district trustees relating to requested transfers must be in Miss Foreman's office no later than Aug. 1, she continued. If no protest is made, transfers become effective automatically.

Any protests made will be reviewed by the county school board early next month and parents will be notified of decisions as soon as possible (Continued on Page 8, Sec. 1)

Legion-Auxiliary Officers Will Be Installed Tonight

Members of Simmons-Noel American Legion Post and Auxiliary here will install officers for 1953-54 at a joint meeting tonight in the Legion Hall. Mike McCulley, Clarendon, 18th District commander, will conduct installation ceremonies.

Heading the local Legion Post this coming year will be: H. C. Pounds, commander; L. F. Jones, vice-commander; A. A. McBee, adjutant; Gene Lindsey, finance officer; Roy Spruill, sergeant-at-arms; Roy Guthrie, chaplain; and J. H. Vallance, service officer.

Raymond Ballew is the outgoing commander.

New officers of the Auxiliary are: Willie Mae Leggett, president; Mrs. J. J. McMicken, first vice-president; Estelle Guthrie, second vice-president; Wanda Webster, secretary-treasurer; Nina Nelson, historian; Mrs. Dot Webster, chaplain; and Mrs. H. B. Bennett, sergeant-at-arms.

Estelle Guthrie has been president this past year.

Society News

'Old-Time' Friends Enjoy Get-To-Gether In Amarillo Recently

According to custom established several years ago, once each summer a group of "old-time" friends get together in an all day meeting. The occasion this summer was held in the home of Mrs. S. J. James, 1717 Madison, Amarillo Tuesday, June 30. Each woman bring a dish of her favorite food and a sumptuous dinner is the gala event of the day.

Present were Meses. Eva Holland of Clarendon, George Russell, Louis Preuitt, Bessie Simmons, Roy Leverett, Maggie Ragsdale, Thomas Muncy and Miss Ineva Headrick, all of Amarillo; Meses. Charles Williams, Roy Guthrie, R. C. Cummings, Floyd McElreath, Louis Goffinet and Dan McCollum, all of Memphis. Mrs. M. P. False, the former Lorena Sloan, of Lodi, Calif., wired her regrets in missing the gathering.

George Washington laid the corner stone of the White House.

Fleta Gay Coldiron Is Honoree On 1st Birthday June 27

Fleta Gay Coldiron, daughter of Mr. and Mrs. Garland Coldiron, was honoree at a party and supper in the home of her aunt and uncle, Mr. and Mrs. Wyman Davis in Newlin on June 27. The occasion was to celebrate Fleta's first birthday anniversary.

Those attending were Mr. and Mrs. T. E. Davis, Mr. and Mrs. Bill Diggs and Barbara, Jimmie and Steven, Mr. and Mrs. Wyman Davis and Jan, all of Newlin and Mr. and Mrs. Garland Coldiron.

The honoree received several lovely gifts.

Mrs. E. D. Poyner of Amarillo visited here over the weekend with her mother, Mrs. W. R. Durham. Accompanying Mrs. Poyner to Memphis was her son and family, Mr. and Mrs. E. D. Poyner, Jr., and Carol and Michael also of Amarillo, who were en route to Vernon to visit relatives.

Jaycee-Ette Club Meets Monday Night

The Jaycee-Ette Club met at the VFW Hall Monday night, July 6, at 8 o'clock with Helene Ballaw as hostess.

The entertainment committee announced that a box supper had been planned for Monday night, July 13 at 8 o'clock in the VFW Hall. All Jaycee's and their families are cordially invited to attend. Each family is requested to bring a box.

Attending the meeting were Meses. Lila Mae Wells, Earline West, Thersa Simms, Patsy Jones, Nina Nelson, Dottie Washko, Billie Frisbie, Louise Lawrence, Billie Sargent, Louise Snyder, Peggy Williams. The hostess served soft drinks and cookies.

Locals and Personals

Mrs. Charles Tuggles of Amarillo and Mrs. T. E. Davis of Newlin spent Monday in the home of Mr. and Mrs. Garland Coldiron. Mr. and Mrs. Forrest Hall returned Sunday from Los Alamos, N. M., where they visited their son and family, Mr. and Mrs. John Hall. They were met there by their daughter and family, Mr. and Mrs. Noel Clifton and children of Salda, Colo. Cathy and Noel Clifton, Jr., accompanied their grandparents to Memphis and will visit here for a few weeks.

Mrs. S. K. Jones of Estelline spent last week visiting in the home of Mr. and Mrs. Forrest Hall.

Mrs. M. W. Paschall left Saturday morning for a visit with her son and daughter-in-law, Mr. and Mrs. Raymond Paschall, and family, of Monte Vista, Colo.

Mr. and Mrs. J. C. Henry vacationed in Fort Worth and Colorado last week.

Mrs. Murray Morrison of Quitaque visited here last week with her sisters, Mrs. C. B. Hickey and Mrs. Bigham Young and their families.

Visiting in the Leo Fields home last weekend were Airman 2c Don Salvia and Berry Seales

of Dallas. Airman Salvia, who is a nephew of Mr. Fields, was en route to Bergstrom Air Base, Austin after visiting in New York City with his parents.

Mr. and Mrs. John Vallance and Mr. and Mrs. Ed Duncan attended Sunday evening services at the Lakeview Church of Christ.

Rev. and Mrs. Lloyd Hamilton and family and Mr. and Mrs. Lee Brown and family are vacationing in Colorado this week.

Mr. and Mrs. "Chesty" Walker and children, Betsy and Penny of Phillips were in Memphis last Sunday en route to Eden to attend funeral services of Mrs. Walker's father, C. S. Mudd. Mr. Mudd died early Sunday morning following a heart attack.

Mrs. John Barber spent the weekend in Gainesville attending a reunion of her brother and sisters.

Mrs. T. A. Paulsel and son, Lee Allen of Fort Worth, returned Wednesday from a month's stay in Honolulu. They went and returned by plane. Mrs. Paulsel is the daughter of Mrs. Lee Thornton of Memphis.

Mrs. Ace Galley and children spent last week in Abilene visiting her brother, C. R. Kinard and family.

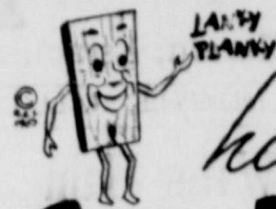

Highway patrolman and Mrs. Clinton Culp and son left this week for Fort Worth on a vacation trip. While there Mr. Culp will supervise the rebuilding of their house there which burned last week.

Holmes McNeely and family of Houston spent several days here last week with his mother, Mrs. M. McNeely. Holmes is with the public schools of Houston and is school music director also.

Mrs. Raymond Thomason and Mrs. Helen McMurry of Abilene spent the weekend here with their mother, Mrs. E. H. Stanford. Stanley McMurry, who had visited here for the past week with his grandmother and aunt, Mrs. Alvy Gerlach and family, returned to Abilene with his mother.

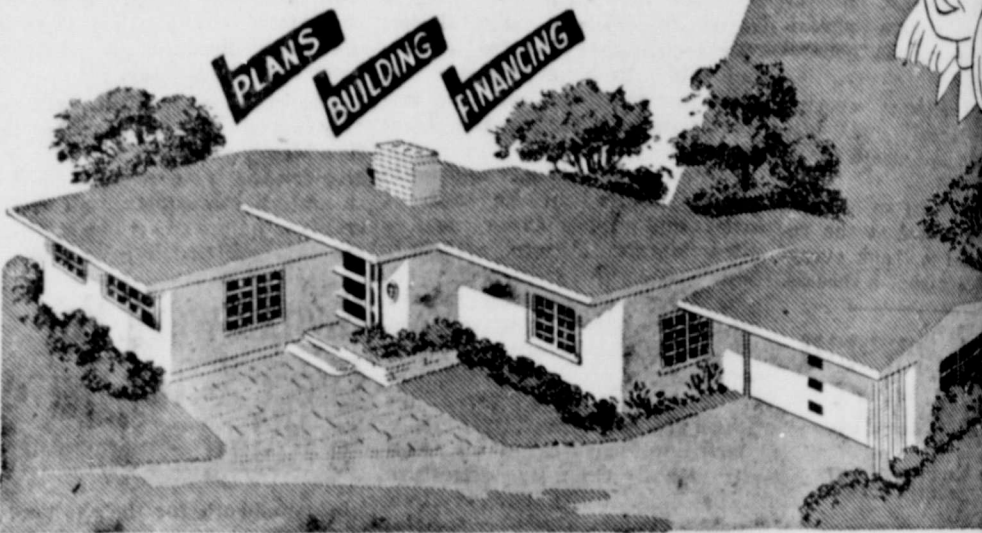

Mr. and Mrs. G. M. Duren have returned from a two-weeks trip to Hot Springs, Ark., and Springfield, Tenn. In Springfield, they visited their daughter, Mrs. Woodrow Martin, and family. The Duren's other daughter and her husband, of Rockville, Md., were visiting the Martins and accompanied her parents to Memphis for a week's visit. While in Tennessee, all attended the "Grand Ole Opry" in Nashville.

Salesman Wanted

WOULD LIKE to hear from man with car for Rawleigh business in North Hall County. No capital needed. See Jack Reed, 328 N. Dwight, Pampa, Tex. I'll help you start, or write Rawleigh's Dept. IXG-250-216B, Memphis, Tenn. 5-5p

SUREST AND SAFEST BUSINESS MAN OR WOMAN WORK FOR YOURSELF

A new item. First time offered. Start in spare time, if satisfied then work full time.

Refilling and collecting money from our machines in this area. No Selling! To qualify for work you must have a car, reference, \$640 cash to secure territory and inventory. Devoting 8 hours a week to business your end on percentages of collections could net up to \$400 monthly with very good possibility of taking over full time. Income increasing accordingly. If applicant can qualify financial assistance will be given by Co. for expansion to full time position and \$10,000 a year potential. Include phone in application. Box 192. 6-1p

On all these points of comparison...

Chevrolet's farther ahead than ever!

... IN NEW AND ADVANCED STYLING—The new long, low, sleek lines of the 1953 Chevrolet set new standards of beauty in the low-price field. Here you will see careful detailing and a richness of appointments always before found only in much costlier cars.

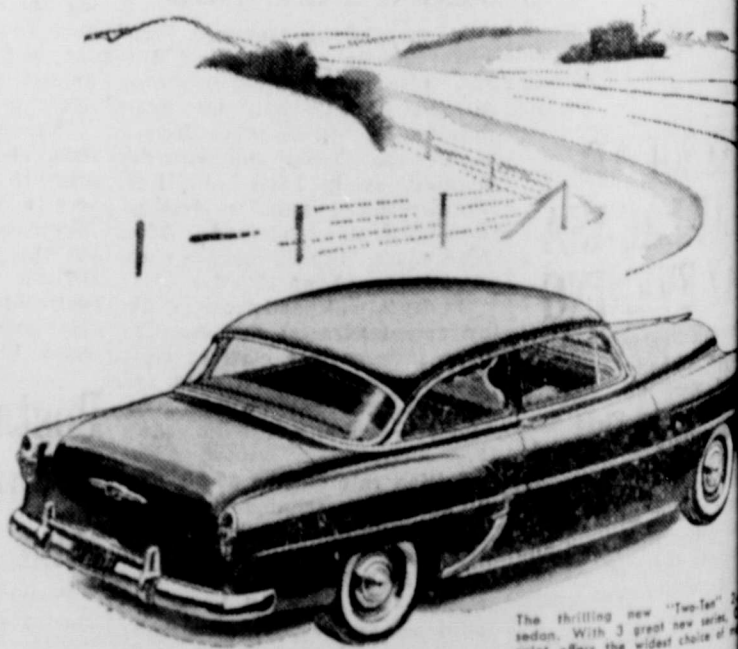

... IN HIGH-POWERED PERFORMANCE—The most powerful engine in the low-price field! The entirely new 115-h.p. "Blue-Flame" engine in combination with new Powerglide* brings you new high-compression power and a wonderful gain in economy, too. In gearshift models you will find the advanced high-compression 108-h.p. "Thrifty-King" engine.

... IN SMOOTH, SIMPLE AUTOMATIC DRIVING—Expect faster getaway with Powerglide's new automatic starting and passing range... and new economy, too. Chevrolet's new Power Steering* takes over 80 per cent of the work of steering, makes parking unbelievably easy.

... IN ECONOMY AND VALUE—Now, you'll get many more miles out of every gallon of gasoline. You'll save on over-all operation and upkeep, too. Yet Chevrolet remains the lowest-priced line in the low-price field.

... IN AMERICA'S FAVOR—Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show that Chevrolet is over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering available on all models.

General Continues Report Bills Passed By 53rd Legislature

of a series of three articles by Ben Shepperd, the General of Texas, relating to bills recently enacted by the Legislature.

of sports-interest to general provisions for game and fish laws. Formerly a permitting or fishing license was automatically revoked if he was found violating any law. Now, the court must suspend or left in

of 53 laws governing of fish, minnows, quail, pheasants, deer, squirrel, and fox were enacted. All laws have only county jurisdiction.

of which was passed which the Legislative Council present game laws back to the next session of the Legislature. This is a step to eliminate some of the 1200 different laws of the taking of wildlife

of general interest persons who drive while it is now provided for conviction, a jail sentence from three days to two years be imposed (a judge may suspend sentence) and a fine of from \$10 to \$100.

number of years, a non-licensed operator his car over says and when involved almost always causing any damages. If he causes the cost of suing another state took most of a recovered.

these nonresidents may be serving the State High Commissioner. Texas is the last of the states to do this procedure.

er law extends education to Korean War veterans their orphan children by giving them to enter state col- lege tuition charges.

person entitled to an old state check, or aid to the dependent children's alive on the first day of the month when his check is issued, the Department of Public Welfare may check and make it pay the person who took care

of the person before he died.

For a number of years the Federal Communications Commission has prohibited a radio station from editing any political speeches. Texas law has provided that the station would be liable for any libelous or slanderous statement going over the airways of the station.

Our new law now provides that where a radio or television station is not allowed to censor the material, it cannot be held liable for damages. Although the person making the statements can still be sued, it appears that our political campaigns will warm up.

A number of tax bills were discussed but not acted upon by the Legislature, but one passed which reduced the admission tax for picture shows, plays, etc. where the admission charge exceeds 80 cents. That same bill also replaced the state tax on free passes. Another tax bill passed which replaced one of the duplicate taxes set up in two different places. In dependent school districts were also given wider taxing powers.

Looking at the 53rd Legislature and the session of two years ago some interesting comparisons may be made. A total of 927 bills were introduced in the House this year as compared with 831 in 1951. In the Senate, 354 were introduced this session as compared with 475 last session. This year, 462 bills were passed by both Houses and sent to the Governor for signature, while 540 were sent to the Governor in 1951.

Texas poultrymen producing eggs in areas where price differences are being paid for quality eggs will no doubt profit from making pullet replacements in order to maintain a uniform production of eggs throughout the year. These replacements are a necessity if Texas producers are to stabilize the state's egg industry.

AGED CYCLIST . . . Thomas J. Brown, 82, rode his bike from home in Milwaukee, Wis., 85 miles to attend cyclists' convention in Chicago. Brown has won 30 trophies and 48 pairs of shoes for walking races, hiking 2600 miles in 1950.

Future Readers of The Democrat

A son, Donald Duren, was born to Mr. and Mrs. Woodrow Martin, Springfield, Tenn., June 12. Mrs. Martin is the former Marion Ruth Duren. The baby weighed 7 pounds at birth.

Nearly two million mothers and children are now getting old-age and survivors insurance payments under social security.

Nearly 76 million persons are now insured under the old-age and survivors insurance provisions of the Federal social security law.

In 1952, about two and one-half billion dollars was paid to over five million persons in social security insurance benefits.

Four out of every five jobs in the U. S. A. are now covered by Federal social security.

An iconoclast is one who attacks cherished beliefs.

How To Pack Chicken For Cold Storage

Chickens to be put in cold storage should be brought in immediately after dressing, or, if this is not possible, they should be packed in ice, because they will spoil easily. They can be put up whole or cut up. Gizzards, livers and hearts should be packed in a separate package. Chickens need not be packed in water for cold storage. Plastic bags are best to put them in but other containers can be used if plastic bags are not available.

Chickens will be carefully numbered and weighed and you will be given a deposit slip on them. When you want the chickens they will be checked out to you.

Insect Repellent Pays Dividends In Outdoor Comfort

COLLEGE STATION—A good insect repellent preparation can pay big dividends in outdoor comfort and safety in warm weather. N. M. Randolph, entomologist for the Texas Agricultural Extension Service says home gardeners and other outdoor workers, campers, picnickers or families sitting in the yard will find repellents helpful against mosquitoes, gnats, chiggers and ticks, for example. Pack a preparation with Junior's camping equipment or in the family car when starting on a vacation trip and keep one handy with gardening supplies.

The specialist says repellents should not be confused with insecticides. Repellents are applied to your skin or clothing to keep insects off but insecticides are used in the garden or elsewhere to kill insects. Repellent preparations, usually in liquid, lotion or cream form, are available at drug hardware or grocery stores under different trade names. Among the most satisfactory chemicals as repellents are dimethyl carbate, dimethyl phthalate, ethyl-hexanediol and indalone. The container usually lists the names of the chemicals in the repellent preparation. Unlike some of the older repellents, the substances have little or no odor and give protection from insects for several hours.

Apply repellents for mosquitoes, flies and gnats directly to the skin. Rub uniformly on the exposed areas and renew after two or three hours. Be sure there are no skin abrasions and do not apply near the eyes or other places where the skin is tender. The entomologist cautions not to apply repellents too liberally to your forehead as they cause a temporary, but rather severe, stinging if they get into your eyes. Repellents are oily materials and will feel somewhat sticky on your skin for a few minutes after application.

For protection from chiggers and ticks, apply repellent to your clothing — but not your best clothes. The chemicals are likely to spot or stain clothing and may damage synthetic fibers. Plastics, paints, varnishes and fingernail polish can also be damaged by repellents. A few drops of repellent daubed around the top of your shoes and on your socks will give considerable protection. Ap-

PRIVATE CITIZEN . . . Former President Harry Truman has himself a bottle of pop while gas station attendant fills his car tank in Frederick, Md. Mr. Truman was on way to Washington from Independence, Mo.

May Liquor Taxes Indicate Rising Trend In Texas

AUSTIN—Mounting revenues to the state from the Texas Liquor Control Board are indicated by the collections for May: \$1,391,589.79.

For the same month in 1952 the total was \$1,225,596.21 and for May 1951 it was \$896,612.13.

Annual revenues collected by the board have climbed from \$6,127,436.36 during 1936, the board's first full calendar year, to \$18,959,582.79 in 1952.

Administrator Coke R. Stevenson Jr., said he expects the total to exceed \$19 million for the calendar year 1953.

The figure for May of this year was given in the board's monthly review, which shows the scope and variety of the state's liquor control agency.

The review records that during the month, state liquor agents filed 344 criminal cases. Court proceedings on liquor cases during the month resulted in 303 convictions and 24 jail terms. Twenty-four cases were dismissed and

plying the repellent to all the openings of clothing — waistbands, cuffs, collars, is very effective. Cotton or wool clothing with no synthetic fibers blended in, can be sprayed or dipped in emulsions of the repellent, and will effectively prevent chigger attack between washings.

there were 4 acquittals. Collections of fines and costs added up to \$50,575.37.

During the month, 137 non-criminal cases were filed.

The enforcement officers of the board operated in both wet and dry areas, and in fact there were more cases and convictions in the dry areas for such offenses as possessing untaxed liquor, possessing beer for sale, selling beer, and transporting beer.

The board's auditors pored over the figures of nine different kinds of accounts to determine their accuracy with respect to liquor taxes paid and due.

Inspected were the books of

wholesale liquor dealers, "Class B" wholesalers, wine bottlers, wineries, manufacturers, general distributors, branch distributors, and local distributors, as well as collections at the international bridges.

State liquor inspectors seized three illicit stills, along with a quantity of moonshine liquor and mash. Three arrests were made in these seizures, which were in Harrison, Mills, and Leon Counties.

Other activities of the board included hearings by the administrator on applications for licenses and permits.

The marketing practices unit of the enforcement division carried

on its work of examining beer, wine, and liquor labels, advertising matter on alcoholic beverages, and making chemical analysis of beverages to determine whether the contents are as labeled on the bottle and whether they are fit for human consumption.

Mr. and Mrs. William Teague and Sandra and Billie are expected to return the latter part of this week from LaCrosse, Wisc. Mrs. Teague and the children have been there since the last of May visiting Mrs. Teague's parents, Mr. and Mrs. James Stanfield. Teague left here the first of July.

BABY IS BORN TO HENRY B. NEWMANS

Mr. and Mrs. Henry Boyd Newman of Amarillo are the parents of a son, David Carroll, born last Thursday in an Amarillo hospital. The baby weighed 9 pounds, 10 ounces at birth. Both Mrs. Newman and David Carroll are reported getting along fine.

Mrs. Hettie Newman, mother of Henry Boyd Newman, Miss Ira Hammond, an aunt, and Miss Jessie Chancey of Saint Jo, Tex., visited the Newmans Monday.

Earliest New England houses were built of thick planks instead of logs as is generally believed.

Acquiring title to family-size farm requires considerable chunk of capital. It is not always easy to obtain but major financing individuals, commercial insurance companies and Federal Land Bank.

When purchasing dresses, watch for certain self-help features, materials and good workmanship.

In areas of the country where moisture conditions are home gardeners should plan now for the fall.

QUEEN PRESENTS COLORS . . . Queen Elizabeth II is first queen of England to present her colors to First Grenadiers in person. Scene is Windsor Castle, and custom began in 1661.

There was a bit of shuffling around as a result of one of the governor's appointments. Weldon Hart, one of Shivers' executive assistants, is now chairman and executive director of the Texas Employment Commission, one of the state's biggest departments.

Hart, a former newspaperman of wide experience, served as secretary of the State Democratic Executive Committee. He had a prominent part in sending an un-instructed delegation to the national Democratic convention.

Later he was active in the Democrats for Eisenhower campaign. In his new office, Hart succeeds Harry Benge Crozier, a former newspaperman who announced that he would go into the public relations business with Joe Hitchcock and Hugh Williamson in Austin.

Hart's old job as executive assistant to the governor will be filled by Earl Braley, Austin public relations man who worked for the Lubbock Avalanche-Journal.

Both the state and federal governments get a lot of money from taxes on alcoholic beverages. Coke R. Stevenson, Jr., administrator of the Texas Liquor Control Board, reported that a new high in receipts was registered for May of this year: \$1,391,589.

The state's revenues from taxes on alcoholic beverages will run above \$19 million for this calendar year.

And the federal government's excise taxes on alcoholic beverages are higher than the state's.

Old age assistance checks started going out on schedule, although it looked for a while as though there might be a delay. The federal part of the fund was in doubt, but Congress quickly passed a resolution extending the old appropriation until a new one could be passed.

SHORT SNORTS: The Texas draft quota for the next 12 months will be 16,000 men. That's 12,000 less than were called during the past year. . . . It was a hot job for men of the 36th Division, Texas National Guard, who were marching with full packs at Fort Hood. . . . R. Dean Moorhead of Austin told the State Bar convention that Texas probate laws are of the "horse and buggy" character. The

performance, he won't say a word about his intentions until the deadline gets here.

There was a bit of shuffling around as a result of one of the governor's appointments.

Both the state and federal governments get a lot of money from taxes on alcoholic beverages. Coke R. Stevenson, Jr., administrator of the Texas Liquor Control Board, reported that a new high in receipts was registered for May of this year: \$1,391,589.

The state's revenues from taxes on alcoholic beverages will run above \$19 million for this calendar year.

And the federal government's excise taxes on alcoholic beverages are higher than the state's.

Old age assistance checks started going out on schedule, although it looked for a while as though there might be a delay. The federal part of the fund was in doubt, but Congress quickly passed a resolution extending the old appropriation until a new one could be passed.

SHORT SNORTS: The Texas draft quota for the next 12 months will be 16,000 men. That's 12,000 less than were called during the past year. . . . It was a hot job for men of the 36th Division, Texas National Guard, who were marching with full packs at Fort Hood. . . . R. Dean Moorhead of Austin told the State Bar convention that Texas probate laws are of the "horse and buggy" character. The

Edward Teach was the real name of Blackbeard, the pirate. Six army generals have become presidents of the U. S. Kerosene replaced whale oil as a means of illumination. Only one mail pouch was ever lost by the Pony Express.

The Gutenberg Bible is also known as the Mazarin Bible. The Liberty Bell was cast in England.

There was a bit of shuffling around as a result of one of the governor's appointments. Weldon Hart, one of Shivers' executive assistants, is now chairman and executive director of the Texas Employment Commission, one of the state's biggest departments.

Hart, a former newspaperman of wide experience, served as secretary of the State Democratic Executive Committee. He had a prominent part in sending an un-instructed delegation to the national Democratic convention.

Later he was active in the Democrats for Eisenhower campaign. In his new office, Hart succeeds Harry Benge Crozier, a former newspaperman who announced that he would go into the public relations business with Joe Hitchcock and Hugh Williamson in Austin.

Hart's old job as executive assistant to the governor will be filled by Earl Braley, Austin public relations man who worked for the Lubbock Avalanche-Journal.

Insect Repellent Pays Dividends In Outdoor Comfort

COLLEGE STATION—A good insect repellent preparation can pay big dividends in outdoor comfort and safety in warm weather. N. M. Randolph, entomologist for the Texas Agricultural Extension Service says home gardeners and other outdoor workers, campers, picnickers or families sitting in the yard will find repellents helpful against mosquitoes, gnats, chiggers and ticks, for example. Pack a preparation with Junior's camping equipment or in the family car when starting on a vacation trip and keep one handy with gardening supplies.

The specialist says repellents should not be confused with insecticides. Repellents are applied to your skin or clothing to keep insects off but insecticides are used in the garden or elsewhere to kill insects. Repellent preparations, usually in liquid, lotion or cream form, are available at drug hardware or grocery stores under different trade names. Among the most satisfactory chemicals as repellents are dimethyl carbate; dimethyl phthalate; ethyl-hexanediol and indalone. The container usually lists the names of the chemicals in the repellent preparation. Unlike some of the older repellents, the substances have little or no odor and give protection from insects for several hours.

Apply repellents for mosquitoes, flies and gnats directly to the skin. Rub uniformly on the exposed areas and renew after two or three hours. Be sure there are no skin abrasions and do not apply near the eyes or other places where the skin is tender. The entomologist cautions not to apply repellents too liberally to your forehead as they cause a temporary, but rather severe, stinging if they get into your eyes. Repellents are oily materials and will feel somewhat sticky on your skin for a few minutes after application.

For protection from chiggers and ticks, apply repellent to your clothing — but not your best clothes. The chemicals are likely to spot or stain clothing and may damage synthetic fibers. Plastics, paints, varnishes and fingernail polish can also be damaged by repellents. A few drops of repellent daubed around the top of your shoes and on your socks will give considerable protection. Ap-

PRIVATE CITIZEN... Former President Harry Truman has himself a bottle of pop while gas station attendant fills his car tank in Frederick, Md. Mr. Truman was on way to Washington from Independence, Mo.

May Liquor Taxes Indicate Rising Trend In Texas

AUSTIN—Mounting revenues to the state from the Texas Liquor Control Board are indicated by the collections for May: \$1,391,589.79.

For the same month in 1952 the total was \$1,225,596.21 and for May 1951 it was \$896,612.13.

Annual revenues collected by the board have climbed from \$6,127,436.36 during 1956, the board's first full calendar year, to \$18,959,582.79 in 1952.

Administrator Coke R. Stevenson Jr., said he expects the total to exceed \$19 million for the calendar year 1953.

The figure for May of this year was given in the board's monthly review, which shows the scope and variety of the state's liquor control agency.

The review records that during the month, state liquor agents filed 344 criminal cases. Court proceedings on liquor cases during the month resulted in 303 convictions and 24 jail terms. Twenty-four cases were dismissed and

plying the repellent to all the openings of clothing — waistbands, cuffs, collars, is very effective. Cotton or wool clothing with no synthetic fibers blended in, can be sprayed or dipped in emulsions of the repellent, and will effectively prevent chigger attack between washings.

there were 4 acquittals. Collections of fines and costs added up to \$50,575.37.

During the month, 137 non-criminal cases were filed.

The enforcement officers of the board operated in both wet and dry areas, and in fact there were more cases and convictions in the dry areas for such offenses as possessing untaxed liquor, possessing beer for sale, selling beer, and transporting beer.

The board's auditors pored over the figures of nine different kinds of accounts to determine their accuracy with respect to liquor taxes paid and due.

Inspected were the books of

wholesale liquor dealers, "Class B" wholesalers, wine bottlers, wineries, manufacturers, general distributors, branch distributors, and local distributors, as well as collections at the international bridges.

State liquor inspectors seized three illicit stills, along with a quantity of moonshine liquor and mash. Three arrests were made in these seizures, which were in Harrison, Mills, and Leon Counties.

Other activities of the board included hearings by the administrator on applications for licenses and permits.

The marketing practices unit of the enforcement division carried

on its work of examining beer, wine, and liquor labels, advertising matter on alcoholic beverages, and making chemical analysis of beverages to determine whether the contents are as labeled on the bottle and whether they are fit for human consumption.

Mr. and Mrs. William Teague and Sandra and Billie are expected to return the latter part of this week from LaCrosse, Wis. Mrs. Teague and the children have been there since the last of May visiting Mrs. Teague's parents, Mr. and Mrs. James Stanfield. Teague left here the first of July.

BABY IS BORN TO HENRY B. NEWMANS

Mr. and Mrs. Henry Boyd Newman of Amarillo are the parents of a son, David Carroll, born last Thursday in an Amarillo hospital. The baby weighed 9 pounds, 10 ounces at birth. Both Mrs. Newman and David Carroll are reported getting along fine.

Mrs. Hettie Newman, mother of Henry Boyd Newman, Miss Ira Hammond, an aunt, and Miss Jessie Chancey of Saint Jo, Tex., visited the Newmans Monday.

Earliest New England houses were built of thick planks instead of logs as is generally believed.

Acquiring title to family-size farm requires considerable chunk of cash is not always easy to obtain but major financing individuals, commercial insurance companies and Federal Land Bank.

When purchasing dresses, watch for certain self-help feature materials and good workmanship.

In areas of the state where moisture conditions are home gardeners should plant now for the fall.

Highlights and Sidelights FROM Your CAPITOL

QUEEN PRESENTS COLORS . . . Queen Elizabeth II is first queen of England to present her colors to First Grenadiers in person. Scene is Windsor Castle, and custom began in 1661.

VERN SANFORD
 Press Association
 Tex.—Texas needed good, soaking rain. Winds of the devout, and some of the not-so-devout, permit the railroads to extend credit to ranch-farmers. The Department of Agriculture announced that it had 200 million pounds of cattle in the dry state. The purchase of cattle by the state is a remedy for the "ruinously low" prices. The Texas Federation of Labor convened at El Paso, delegates booted when a speaker charged that Governor Shivers of Texas, Thornton of Colorado, and Mechem of New Mexico were "state's righters last year when it was a matter of dough in the pocket, but this year, when it's a matter of drought relief, they're quite willing to be Americans and accept relief from the central government." Shivers led the Democratic revolt that gave the state to Eisenhower last year. Labor leaders generally was for Stevenson. Could Mitchell and the other

party leaders pull Texas back into line? It was obvious that they were going to work hard to reach that goal. And it was equally clear that the Republicans were going to fight them every inch of the way. They hoped to make outright party members of the Democrats who voted for Eisenhower, and they planned to put up candidates for every elective office. It was easy to make one prediction: the Texas political battles of next year are going to be big and better. If Governor Shivers had party politics on his mind he didn't say so in his speech to the state bar convention in Fort Worth. His remarks concerned liberty on the national and international level. Americans, he said, "are the best in the world at selling soap and television sets, and we've got to sell liberty like we sell soap." Shivers added: "We haven't sold liberty at home or abroad. We tried to buy it abroad, but this hasn't worked and it never will." The political experts were bound to make their interpretations of the speech. Did it mean that Shivers would run for a national office next year? The governor has said that he might make the race for a third term as the state's chief executive. But then, again, he might not. Your guess is as good as any: If Shivers has decided what he is going to do, he has confided in no one. And if we can judge by past

performance, he won't say a word about his intentions until the deadline gets here. There was a bit of shuffling around as a result of one of the governor's appointments. Weldon Hart, one of Shivers' executive assistants, is now chairman and executive director of the Texas Employment Commission, one of the state's biggest departments. Hart, a former newspaperman of wide experience, served as secretary of the State Democratic Executive Committee. He had a prominent part in sending an un-instructed delegation to the national Democratic convention. Later he was active in the Democrats for Eisenhower campaign. In his new office, Hart succeeds Harry Benge Crozier, a former newspaperman who announced that he would go into the public relations business with Joe Hitchcock and Hugh Williamson in Austin. Hart's old job as executive assistant to the governor will be filled by Earl Braley, Austin public relations man who worked for the Lubbock Avalanche-Journal. Both the state and federal governments get a lot of money from taxes on alcoholic beverages. Coke R. SAFEGUARDS TO BE TAKEN PRIOR TO LEAVING ON VACATION LISTED

AUSTIN—There's no place like home, and to most returning vacationers, home is a most welcomed sight.

But while the mountains and seaside promise weeks of carefree pleasure, what happens to your home? A vacant house is a constant temptation to fire and theft.

A few pre-vacation precautions suggested by Norris W. Parker, manager of the Texas Insurance Advisory Association, may save homeowners both money and worry.

A good job of housecleaning can greatly reduce the possibility of fire. Old newspapers and accumulated rubbish in attics, yards and garages are good places for fire to start. Water heater closets are dangerous when doubled as a storage closet.

Besides locking all outside doors, all cabinet and closet doors on the inside should be locked. Therefore, if a fire should start it may be confined to one room until it is discovered and brought under control.

Shades should be left up and blinds open so that a fire may be observed right away, Mr. Parker explains.

Electrical appliances such as toasters, lamps, radios, etc., should be left unplugged and refrigerators and freezers turned down to vacation level.

Inform your neighbors when you leave so that they can keep an eye on your place and report any trouble either from fire or burglary. The appearance of any strangers or suspicious persons about should be reported to the police.

Milk and newspaper deliveries should be postponed for stacked-up papers and bottles on the porch are a dead give-away that you are out of town.

Upkept yards are another clue to a potential burglar that the house is empty. Let your yardman keep up his regular visits if possible.

Don't advertise the fact that you are leaving town by telling strangers and ask your neighbors not to mention your absence to strangers.

These rules are simple, Mr. Parker points out, but oftentimes they appear so obvious that they are overlooked by the excited homeowner anxious to get started on his vacation trip.

The egg-feed price ratio for the first quarter of 1953 averaged 30 per cent higher than for the same period last year.

Milk contains more calcium than any other food.

About 75,000 children are legally adopted in the U. S. each year.

Each state is entitled to as many electors as it has senators and representatives.

Barnacles are small organisms which attach themselves to the bottom of a ship.

The sun dial was the earliest instrument for telling time.

Four out of every five children now have security insurance protection of the working father.

A palindrome is a sentence that reads the same forwards and backwards.

The Continental Express is owned by the Rocky Mountain Express Co.

ALLERGIES AND THEIR EFFECTS ON PERSONS ARE DISCUSSED

close observation of the patient carried out. In the case of foods, a rigid diet may be necessary. When basic food substances like milk, eggs, and wheat are consumed, the patient sometimes can be made less sensitive to these foods.

It is amazing the kinds of materials that can cause allergies. Patients may be sensitive not only to one food but a group such as the entire bean family. Contact dermatitis is a condition in which the skin shows sensitivity to something touching it; the condition has been caused by such commonplace things as face powder, leather, or rubber and by such rare ones as strike-anywhere matches or paint finishes on paring knives or toilet seats. Extrasensitive patients have been known to break out if they smell certain foods like eggs or fish, and others by coming in contact with the hair lotion or perfume of a spouse! It is known that an allergic man or woman may have an allergic child, and if both are sensitive, the chances that their offspring will be sensitive are even greater.

A dermatologic problem especially grave in Texas is that of skin cancer. Doctors in the state

LAFF OF THE WEEK

"I've been thinking it over and I've decided it's time we settled down somewhere."

who discuss with their colleagues in other regions how much skin cancer they see and treat are accused politely of telling another "Texas tall tale," one Texas physician has remarked.

One forerunner of skin cancer is called "keratosis." By this is meant a thickened patch like a wart or callous appearing on the skin. Scientists have determined that people in the following categories are most likely to be affected with keratosis, and if several or all of these factors are present, the chances of getting skin cancer are increased: (1) those engaged in outdoor occupations and therefore exposed to the sun's rays, (2) those with blue eyes and blond or ruddy complexions, more especially men, (3) those in older age groups (40 years and older), (4) those in geographical regions getting relatively longer hours of sunshine with little dust or moisture, such as Texas and the Southwest, and (5) those working with irritating substances which are generally considered to be cancer-producing (soot, tar, pitch, crude petroleum).

Other conditions which perhaps may lead to cancer are moles, warts, burn scars, chronic ulcers, growths which are constantly rubbed, which bleed, or which change size or color, or other skin sores that refuse to heal.

Because the forerunners of skin cancer (and skin cancer itself) can be easily seen and easily treated, there is no reason to be over-fearful of this condition unless there is too long a delay in seeking medical attention. Although the danger that skin cancer following keratosis may spread to other parts of the body (metastasis) is not great, early treatment guards against this possibility and in addition prevents too much scarring at the original site. Treatment may be by radium, surgery, or x-ray. The physician will decide upon the method of treatment according to the kind of growth present.

Mr. and Mrs. John L. Gorden and son, John Lynn of Lubbock visited Mrs. Gorden's parents, Mr. and Mrs. L. O. McCoy, and family Friday and Saturday. Mr. and Mrs. Lonzo Scroggins, Ginger and Jan of Martin visited with Mr. and Mrs. L. O. McCoy and family Monday and Tuesday. Mrs. Scroggins is niece of Mrs. McCoy.

Mr. and Mrs. Oscar Graham and son, Moody of Post visited here from Thursday until Saturday with their daughter and son-in-law, Mr. and Mrs. Dwight L. Kinard.

Mr. and Mrs. Ivan Thornton and little son of Fort Worth visited his mother, Mrs. L. M. Thornton here last weekend.

The first United States Census was taken in 1790.

The long-time objective of National Farm Safety Week, July 19-25, is to make rural residents so conscious of accidents and their causes that through their own efforts the agricultural industry can be made as safe as other industries of the nation. "Farm to Live and Live to Farm."

United States postal money orders were first issued during the Civil War.

Park In Northeast Memphis Is Being Steadily Improved

Facilities at the playground in northeastern Memphis are being steadily improved and expanded.

The playground is sponsored jointly by Haskell Howell, city council member, and the Jaycees.

Residents in the northeastern section of town also have shown great interest in the park and have helped in the work.

Members of the Jaycee youth committee have completed a backstop for the baseball diamond and have placed bases.

Four swings have been completed, three seesaws are nearly completed, and a merry-go-round is in operation.

Posts for supporting a tennis net are up, and playground sponsors have a net and one tennis racket but three more of the latter are needed.

Grass has been planted around the border of the playground.

Any suggestions for improving the outdoor spot are welcome.

Gary Grimes, son of Mr. and Mrs. Chester Grimes of Panhandle, is visiting this week with his grandparents.

FIVE GENERATIONS . . . Mrs. Alice Bishop, 83, at far left, sees her great-great grandson for first time at Monterey Park, Calif. Next to Mrs. Bishop is her daughter, Marie Cornell, granddaughter Ruth Howard, and great-granddaughter Mrs. Joyce Fritzer holding 5-day-old Raymond. Mrs. Bishop has 4 children, 7 grandchildren and 16 great-grandchildren.

Secretary Ezra Taft Benson Queries Farm Groups On Agricultural Needs

WACO—Secretary of Agriculture Ezra Taft Benson has turned to the American Farm Bureau Federation and the two other general farm organizations to tell him what kind of programs American farmers want.

Recognition of the major role of farm organizations in policy development was the keynote of a letter in which the Secretary requested the Farm Bureau to discuss five "paramount agricultural issues of today."

The five major problems which Benson asked to be discussed are: 1. Farm Income Stability and Improvement.

President Allan B. Kline of the American Farm Bureau stated that "in addition to these issues, Farm Bureau members are almost certain to discuss and make recommendations with regard to such problems as (1) how to create and maintain peace in the world, (2) how to develop and maintain a more stable general price level, (3) how to develop more sound labor-management policies, (4) how to protect and improve our "free choice" system and (5) how to deal with the threat of monopoly power whether from industry, labor, agriculture or "big government."

Secretary Benson said that the Farm Bureau might wish to call on the Land-Grant Colleges and Universities to assist in this effort of obtaining a better understanding of the issues facing farm people.

He said his Department was alerting the Colleges and Universities to the possibility of their being asked to (1) make available background information giving the pros and cons, the advantages and penalties resulting from alternative lines of action, suitable for use in the discussion groups, and (2) assist in the presentation of such information before the groups.

The secretary asked that the farm organizations conduct the discussions and have the answers ready by December 31 of this year. The Farm Bureau's resolutions process, which starts on the county level and continues through state and national conventions, will be finished by mid-December. This will enable the Farm Bureau to give the USDA the consensus of thinking of more than 1,500,000 Farm Bureau families in 48 states and Puerto Rico.

In his reply to Benson, the AFB president said, "It is fortunate that your request came just as the local Farm Bureaus throughout the country are about to launch their annual examination of the problems confronting farmers, and their annual re-examination of the policies and programs designed to deal with these problems."

In Texas, Hammond, president of the Texas Farm Bureau Federation, pledged full support of Benson's request. He said that the Texas Farm Bureau would urge full membership participation in policy development again this year.

Hammond said that the state organization is contemplating making some sort of survey of the participants in the discussions held by community and county Farm

Bureau organizations. These surveys, he stated, would reveal the number of farmers participating and the size of farming operation of each. The Texas Farm Bureau has more than 52,000 members in some 180 organized counties.

City Council

(Continued from Page 1, Sec. 1) and signal at the junction.

The possibility of installing a stop-go signal at the Tenth Street and Noel Street intersection.

The request of Lone Star Gas Company, submitted Jan. 6 at a council meeting, for an increase in local gas rates, without reaching a decision.

Council members also voted to send cash gifts to the Childress Wellington, Clarendon, Estelline Hedley and Paducah fire departments, in appreciation for their assistance in fighting the recent fire here in the downtown business section.

Robert E. Newman

(Continued from Page 1, Sec. 1) and Lanny Tucker, Estelline. Other survivors are: two brothers, Herbert Newman, Versailles, Ky., and Jim Newman, Tompkinsville, Ky.; and a sister, Mrs. Mary E. Reeves, Bowling Green, Ky.

Pallbearers were Lionel Blankenship, Leon Reeves, Virgil McPherson, Jasper Shaw, R. A. Shaw and L. D. Messer. Honorary pallbearers were D. L. Hickey, T. O. Whitwell, R. L. Farris, Malcolm Glass, Ned Grimley, Hurley Moreman, John Dickson and Hobart Moffitt.

Student Transfer

(Continued from Page 1, Sec. 1) afterwards as possible.

If students transfer without authorization, schools accepting them will not receive compensation from state funds, according to Miss Foreman, nor will the schools, formerly attended by the students, even though students may be listed on scholastic rolls. This is true because school funds are allocated according to average daily attendance.

Members of the county school board are: Gene Lindsey, Memphis, president; Hulen Clifton, Estelline; T. R. Fuston, Jr., Turkey; T. W. Luttrell, Lakeview; and Brown Smith, Memphis, member-at-large.

Postal Receipts

(Continued from Page 1, Sec. 1) past year.

Thompson said part of the loss this past year was due to a decrease in box rent payments. He explained that while some of this resulted from people moving away part of it was due to residents changing mail service from the postoffice to city delivery.

The local postoffice was elevated to second class status about 1918, Thompson said, and has remained in that classification since. Postoffices must have an annual business of between \$10,000 and \$40,000 to receive second class rating, Thompson said.

An interesting item pointed out by Thompson was that the first year the Memphis postoffice was open for business in the early 1890's, only \$12.91 was taken in.

There are no grounds for divorce which are accepted in all 48 states.

Cartoonist Thomas Nast is responsible for the Republican elephant and the Democratic donkey.

Thompson Clan Goes To National Conclave

Several members of the E. P. Thompson clan left here Wednesday for Miami, Fla., where they will attend the National Retail Hardware Congress.

Making the trip are the chief of the tribe, E. P. Thompson, himself; a son and daughter-in-law, Mr. and Mrs. Billy Thompson; and Billy's twin sister, Mrs. Martha Campbell, of McLean.

They will drive to Miami, pausing on the way there and back to fish and rough it generally, according to Thompson. In the process, they also will try to see as many points of interests along the way as possible.

In Miami, they expect to camp out at the Casablanca, Thompson said.

Plans call for the group to arrive back home, Wednesday, July 22.

Drouth Aid

(Continued from Page 1, Sec. 1)

lution for extending long-term credit to livestock men in distress areas.

Plans also have been made to purchase 200,000,000 pounds of beef, in an attempt to bring an improvement in the cattle market.

George Washington had no opponents for either of his elections to the presidency.

Mrs. Lynn Jones Is Honored During VFW Encampment

Mrs. Mattie Orah Jones of Memphis was named the outstanding district president of the year recently, at the annual encampment of members of the Department of Texas Veterans of Foreign Wars and Auxiliary. The encampment was held in San Antonio.

Mrs. Jones was awarded a citation of merit in recognition of meritorious service and also won first place for her scrap book, containing news of Auxiliary activities in District 13, of which she has been president the past year.

A gift was presented by Frances Summers to Mrs. Jones, honoring her selection as the outstanding district president.

During the encampment, the Memphis woman was appointed Department savings bond chairman for 1953-54.

Mrs. Jones and her husband, Lynn B. Jones, and Mrs. L. G. Rasco attended the encampment from here.

Lavern McMinn of Hereford is the incoming president of District 13.

Justin Morrow of Rotan, will be Department commander in 1953-54, and Vada Lee Humphrey of Stinnett, will be the Department Auxiliary president.

ANTELOPE RAID BRINGS ARREST

AUSTIN—Thriving antelope herds up in the Texas Panhandle are causing itchy trigger fingers with resultant penalties, according to the Director of Law Enforcement for the Game and Fish Commission.

He had particular reference to disclosure that two antelope, shot on the Matador Ranch in Motley County, brought a \$422 fine and costs against a Dickens County cotton gin operator.

Warden W. V. Riddle of Lubbock who with Warden Cecil Fox of Spur handled the case, said others apparently were implicated but that the suspect said he wanted "to take the blame."

The gin manager was arrested after the wardens, armed with a search warrant, found two antelope heads and hides and four feet in the incinerator.

Riddle said the man was "pretty unhappy because of the heavy fine and because, after all, the meat hadn't been any good and had been fed to his dogs."

The Dominion of Canada was established in 1876.

REFRIGERATOR AND HOME FREEZER DEFROSTING INFORMATION GIVEN

COLLEGE STATION—When, how and why to defrost differs considerably with the refrigerator and the home freezer.

Home management specialists for the Texas Agricultural Extension Service say according to Dr. Earl McCracken, physicist for the U. S. Department of Agriculture, frost is one of the homemaker's concerns in summer.

Frost on the evaporator of the refrigerator should never become more than one-quarter inch thick. The thicker the frost, the more it insulates or "blankets" the evaporator and reduces its cooling effect on the interior of the refrigerator, no matter how much the motor runs. Thus, thick frost lets the inside of the refrigerator warm up so that foods don't keep well.

Most home refrigerators need defrosting at least once a week—or oftener in summer when hot weather plus more use of the refrigerator for chilled foods and beverages causes frost to form faster.

Dr. McCracken advises following the directions in the booklet that comes with the refrigerator for defrosting. Some manufacturers advise quick defrosting with hot water in the ice trays while others warn against it. Some refrigerators have automatic defrosting.

In contrast to the refrigerator, home freezers or freezer compartments of refrigerators should need defrosting only once or twice a year. Best management calls for removing frost when it is about one-half inch thick on large areas of walls of shelves.

However, Dr. McCracken's tests show that frost can accumulate one and a half inches thick (in chest-type freezers operating at Zero F.) without warming the interior of the freezer enough to endanger frozen food. Even this excessive frost did not cause much more than normal running of the freezer-motor, Dr. McCracken reports.

Thick frost in a freezer is wasteful because it cuts down storage space, and because as much electricity is spent holding frost at zero as on frozen food that should be occupying the space.

Frost can be removed while the freezer is in operation by scraping. Scoop-type tools are made especially for this job. These catch the frost as they scrape it off. Some of the new types are made

of plastic. Never scrape anything sharp enough to connect the freezer walls or the gasket the opening.

Ice that forms in the freezer is too hard to scrape off and must be melted. To remove the food, then melt the freezer has a drain, which hastens the melting by electric fan so that it can air out and warm air can come in so that it loosens, and melting up the water that freezes the inside dry when the electricity and part frozen food.

Negroes Arrested Local Authorities

A Memphis Negro was arrested after the man was charged with the petty theft. He was arrested by Deputy Bill Baten when he was out of a local grocery store purchased at the market.

Another Memphis Negro was taken to Silverton, Tenn., by Briscoe County, in connection with burglary there. He was arrested with entering a private home and taking personal property. Silverton, Deputy Baten was arrested here Wednesday placed in the county jail.

Mr. and Mrs. W. R. and Mrs. O. M. Paris Bill Crowder spent the attending the races in Memphis.

Nan Crowder was hospitalized last weekend at parents, Mr. and Mrs. E. Crowder.

Mrs. Art Miller was hospitalized with her sister, Mrs. L. Miller who is seriously ill.

Stars and stripes in the can flag, were suggested coat of arms of the family.

Some 24,000 irrigated are now in use in the of Texas with an estimated 063,548 acres under irrigation.

Rebekah Lodge Holds Impressive Installation Service Monday Evening

Officers of the Memphis Rebekah Lodge No. 346 were installed in an impressive service Monday evening in the IOOF Hall, with Mrs. Isabell Cypert, district deputy president, serving as installing officer.

The lodge hall was beautifully decorated with a huge rainbow and mixed flowers in harmonizing color.

The installing team entered in an appropriate drill, led by Deputy Inside Guardian Alla Boswell and Deputy Marshal Ora Ritchie. At the close of the drill a trio composed of Mrs. Lennie Kennedy, Mrs. Nell Reed and Mrs. Aulis Ayers sang "God Put a Rainbow in the Clouds" accompanied by Mrs. Anna Kercheville. The officers of the lodge retired and the installing officers took their places. Deputy Marshal Ora Ritchie presented Mrs. Zora Young past noble grand, with a past noble grand pin. The pin, a gift from the lodge, was presented to Mrs. Young in recognition of the work she performed in office the past 6 months.

Serving as installing officers were Isabell Cypert, district deputy president; Ora Ritchie, deputy marshal; Leta Gerlach, deputy warden; Lula Oren, deputy chaplain; Alla Boswell, deputy in-

side guardian; Sallie Burks, deputy outside guardian and Anna Kercheville, deputy musician.

The following officers were installed: Blanche Godfrey, noble grand; Emmer Wright, vice grand; Lillie Messer, warden; Betty Paschall, conductor; Ollie Tribble, chaplain; Jerry Foster, RA to NG; Lennie Kennedy, LS to VG; Florence Paschall, RA to VG; Anna Lauellen, color bearer; Nell Reed, RS to PNG; Carry Gatlin, LS to PNG; Etta Jones, RS to chaplain; Nettie Hurne, LS to Chaplain; Lucy Phillips, right altar bearer; Ora Ritchie, left altar bearer; Viola Hodges, inside guardian and Pearl Massey, outside guardian.

After the installation service, a social hour was enjoyed. Refreshments were served to 31 members.

The next meeting is slated for July 13. All members are urged to be present as degrees will be conferred on two new members.

T. D. Weatherbys Hosts To Dinner Club Thursday

Mr. and Mrs. T. D. Weatherby were hosts to members of the Thursday Night Dinner Club at their home on Thursday evening.

Following a delicious chicken dinner, games of forty-two were enjoyed until a late hour.

Enjoying this affair were the following members and guests: Mr. and Mrs. Russell Bain of Clarendon and Mrs. Ed Crump, guests; and Mrs. Arthur Gidden, Sr., Mr. and Mrs. J. J. McDaniel, Mr. and Mrs. Doyle Hall, Mr. and Mrs. Harold Hodges, Mr. and Mrs. J. M. Ferrel, Jr., Mr. and Mrs. Chas. Williams, Sr., and hosts, Mr. and Mrs. Weatherby.

The next meeting is slated for August 6 in the home of Mr. and Mrs. Williams.

Miss Barbara Hale of Amarillo visited here last week with her cousin, Miss Jo Ann Odom.

Methodist WSCS Meets For Study In Kennedy Home

The Women's Society of Christian Service of the First Methodist Church met in regular session Monday, July 6, at 4 p. m. in the home of Mrs. D. B. Kennedy with Mrs. W. F. Ritchie as co-hostess.

Mrs. Mac Tarver, president, led the opening prayer and conducted the business session.

Mrs. J. M. Baker gave an inspiring devotional entitled "Hold High the Torch."

The program theme was "Laborers for Christ" and was under the direction of Mrs. W. D. Young, program leader.

Mrs. Hall Nelson discussed "America on the Move" and Mrs. Geo. Payne talked on the difference in work today and on fellowship. Mrs. Young gave the history of John Wesley and read a poem "Oh Master, let me Walk with Thee."

The program was concluded with a solo, "O Love that Will Not Let Me Go," by Mrs. Mac Tarver.

The president urged all who could to attend the Mission School in Lubbock in August.

Delicious refreshments were served to Mrs. Mac Tarver, W. D. Young, Geo. Payne, J. J. McDaniel, J. M. Baker, Hall Nelson, Clyde Reed, Bess Crump, N. A. Hightower, W. F. McElreath, members and two visitors, Mrs. Bob Ayers and daughter and Miss Johnnie McDaniel.

The next meeting will be held in the Victory Class room on August 3.

Mrs. Mamie VanPelt Observes 90th Birthday Monday

Mrs. Mamie Van Pelt observed her 90th birthday quietly at her home in Memphis Monday.

Although Mrs. Van Pelt has been ill and was not up to a celebration, friends remembered her on this occasion and showered her with an array of gifts.

Tom Luttrells To Observe Golden Wedding Anniversary: Friends Invited

Mr. and Mrs. Tom Luttrell of Lakeview, county residents for more than 30 years, will observe their Golden Wedding Anniversary with open house at their home in Lakeview Sunday afternoon, July 19.

Friends of the Luttrells are invited to call between the hours of 3 and 6 p. m. Formal invitations

are not being extended but their many friends in this area are invited to be present and share this happy occasion with them.

Mr. and Mrs. Luttrell were married in Fannin County, Texas. They moved to Hall County in 1918, settling in the Lakeview community where they have made their home these many years.

Gleaners Class Meets In Sommers Home Thursday

The Gleaners Sunday School Class of the First Baptist Church met Thursday evening, July 2, in the home of Carman Sommers with Ruth Barnes as co-hostess.

The meeting was called to order by the president, Clara McMurry. Mrs. J. S. McMurry led in prayer, the minutes were read and approved and the class officers gave their reports.

Estelle DeBerry brought the Devotional reading, Psalms 141, "Believe in our prayer for every act of our lives." Sarah Kilgore gave a story entitled "Firm Butler." Clara McMurry gave a talk using for her subject "Freedom."

The meeting was closed with sentence prayers from the entire group.

Refreshments were served to the following: Jeraldine Hill, Estelle DeBerry, Clara McMurry, Mildred Gammage, Sarah Kilgore, Rachel Jones, Margaret Phillips, Viola Hull, Lois Goffinet, Mrs. J. S. McMurry and the hostess, Carmen Sommers.

Mrs. Nan Clabaugh, L. W. Crittenden Marry In Mangum

Of interest to friends here is the recent marriage in Mangum of Mrs. Nan Clabaugh and L. Goodwin Crittenden. The marriage was read on July 2 in the parsonage of the First Christian Church in Mangum.

Mrs. Crittenden is well-known here, having visited here many times with relatives.

Mr. and Mrs. Crittenden are at home in Mangum where Mr. Crittenden is engaged in banking.

Attending the wedding from Memphis was Pearl Hague.

school and attended Texas Tech and Wayland Colleges before entering the Navy from which he received his discharge recently. He is now employed in Amarillo.

After a short wedding trip, Mr. and Mrs. Hays will be at home at 1010 West Eleventh in Amarillo.

For traveling, Mrs. Hays chose a brown checked polished cotton suit with white pique trim and accessories of brown and white. She wore a corsage of yellow glameia.

Out-of-town guests included Mr. and Mrs. A. B. Jones and Winell, Mr. and Mrs. J. W. Price and Mickey, all of Electra, Mr. and Mrs. P. B. Barrett and Mr. and Mrs. Olin Barrett of Vernon, Mr. and Mrs. S. L. Storseth and Miss Betty Hess of Amarillo, Mr. and Mrs. Paul A. Kinard of Ordway, Colo., presided at the bride's book.

The bride is a graduate of the Memphis High School and is employed by Empire Investment Corp in Amarillo. The groom is also a graduate of the local high

MR. AND MRS. CLIMON ANGLIN

MRS. JOE BOB BROWNING

Candlelight Ceremony Friday Unites Miss Bettye Leslie, Joe Bob Browning

Miss Bettye Leslie, daughter of Mr. and Mrs. Will E. Leslie of Memphis, and Joe Bob Browning of Denver City were united in marriage in a candlelight ceremony solemnized at 6 p. m. Friday, June 26, in the First Presbyterian Church.

The Rev. C. H. Browning, father of the groom, read the double-ring ceremony. The altar banked with greenery, was decorated with white mums on either side.

Candelabra and white caladium completed the decorations.

Miss Elizabeth Grundy, organist, played traditional nuptial selections as the guests assembled and the wedding marches for the processional and recessional. Betty Stewart sang "Through the Years" accompanied by Roberta Nelson.

Celia Leslie, sister of the bride, lighted the candles. She wore a dress of yellow taffeta and net with a wristlet of pink roses.

Theresa Browning of Denver City, sister of the bride, was maid-of-honor. She was attired in a shell pink taffeta dress with matching hat and carried a bouquet of fashion roses backed with aqua angle feathers.

Homer Hawkins of Turkey, cousin of the groom, was best man.

Ushers were Debs Coffey and Paul Hancock.

Kay Leslie, sister of the bride, registered the guests. She wore an aqua nylon frock with corsage of pink pinochle roses.

The bride, given in marriage by her father, wore a 108-inch-length dress of white faille sprinkled with rhinestones. Her shoulder-length veil of nylon tulle was attached to a small half hat with bill-of-the-valley on each side. She carried a crescent bouquet of phalaenopsis orchids and lily-of-the-valley.

Mrs. Leslie, mother of the bride, wore a pink dress with pink and white accessories and a corsage of cymbidium orchids. Mrs. Browning, mother of the groom, wore a navy blue dress with white accessories and a corsage of white orchids.

Both the bride and groom are graduates of the Memphis High School with the spring class. They will be at home in Denver City after July 1, where the groom is employed by the El Paso Natural Gas Co.

Judy Lemons, daughter of Mr. and Mrs. R. C. Lemons, visited in Childrens this week with Linda Jane Denny, daughter of Mr. and Mrs. Carl Denny.

Mr. and Mrs. Lee Ford of Bonham, former Memphis residents, were Memphis visitors last week.

Charlene Griffith Becomes Bride Of Climon Lanton Anglin In Home Service

In a double-ring ceremony performed at 8 p. m., Saturday, June 20, Miss Charlene Griffith, daughter of Mr. and Mrs. J. L. Griffith of Memphis, became the bride of Climon Lanton Anglin, son of Mrs. Edelia Anglin of Memphis and L. C. Anglin of Muncie, Indiana.

Elder Floyd M. Griffin, pastor of the Primitive Baptist Church of Synder, Okla., read the marriage service before an array of Jade Palms flanked by leaf plants and floor baskets of white gladioli in the home of the bride's parents.

Given in marriage by her father, the bride wore a traditional white satin bridal gown fashioned with full skirt and a fitted bodice trimmed by small covered buttons and rows of shirred lace. Her fingertip veil was of imported illusion, edged in French Chantilly lace, cascading from a coronet of seed pearls. She carried a bouquet of red roses with knotted red satin streamers. For something old and borrowed, she carried a silk handkerchief brought from France by her father in 1919.

Shirley Ann Griffin of Snyder was maid-of-honor. She wore a blue net and taffeta gown accented by a corsage of pink carnations.

Marshall Griffith, brother of

the bride, served as best man. Mrs. Griffith chose for her daughter's wedding a sky blue nylon dress with a corsage of white carnations. Mrs. Anglin, mother of the bridegroom, wore a turquoise crepe dress with corsage of pink carnations.

Following the wedding, the bridal party was feted with a reception. Mrs. Mitchell served the cake and Mrs. Floyd M. Griffin presided at the punch bowl. Shirley Ann Griffin was in charge of the guest book.

Mrs. Anglin graduated from Memphis high school and attended Draughtons Business College in Amarillo. For the past two years, she has been employed by Cosby and Cosby in Memphis.

The bridegroom is also a graduate of Memphis High School. He served three years in the Navy during World War II and for the past 5 years has been employed here by the Hall County Dairy.

Following a wedding trip to Florence, Ala., and Panama City, Fla., Mr. and Mrs. Anglin will be at home in Memphis.

Out-of-town wedding guests were Miss Joyce Jean Sewell of Berger, Mrs. F. M. Griffin and Elder and Mrs. Floyd M. Griffin and daughter of Snyder.

WEDDING ANNOUNCED—Dr. and Mrs. O. R. Good announced the engagement and approaching marriage of their daughter, Betty Ann, to Herbert H. Shahan, son of Mrs. Roy Shahan of Post. The wedding will be held at 6 o'clock Tuesday, August 25, in the First Church in Memphis.

MRS. JERRY HAYS

Person-Hays Nuptial Vows Solemnized Betty Home Service Friday, July 3

Nuptial vows were solemnized Friday, July 3, for Miss Betty Ann Hays, daughter of Mr. and Mrs. O. R. Good, and Jerry Hays, son of Mr. and Mrs. Henry Hays.

Clifton R. Tension, pastor of the Calvary Baptist Church, read the double-ring ceremony in the home of the bride's parents.

The bride wore a huckleberry dress covered in huckleberry beads and carried a bouquet of pink roses and stephanotis showered with satin streamers. She wore a strand of pearls, gift of the groom and for "something old and borrowed" a pearl ring belonging to the groom's sister. The "something new" was her wedding ensemble and the "something blue" a pair of blue garters. She also wore a lucky sixpence in her shoe.

Mrs. Hays, mother of the groom wore a gray linen dress with navy accessories and a corsage of white carnations.

Immediately following the ceremony the bridal party was feted with a reception. The table was covered with a hand-made linen cloth. The bride's chosen color of blue and white were featured in decorations. Mrs. J. W. Price of Electra served the wedding cake and Mrs. Noel Bruce presided at the punch bowl. Mrs. Paul A. Kinard of Ordway, Colo., presided at the bride's book.

The bride is a graduate of the Memphis High School and is employed by Empire Investment Corp in Amarillo. The groom is also a graduate of the local high

school and attended Texas Tech and Wayland Colleges before entering the Navy from which he received his discharge recently. He is now employed in Amarillo.

- PERSONALS -

Care Urged In Filing Social Security Data

During July, social security tax returns will be filed by employers who had one or more employees in April, May or June. These reports list the name, social security number and amount of wages paid each employee.

Employers are urged to be very careful in making out the reports, being sure they have the correct name and social security number of each employee. By doing this, they can prevent needless correspondence and contacts, save money for themselves and the government, and insure each employee of getting credit for wages earned.

A representative from the Amarillo Social Security office will be in Memphis, Tuesday, July 14, at 10 a. m., in the commissioners courtroom, according to John R. Sanderson, manager of the Amarillo office.

JACK FOWLER IS IN ROTC SUMMER CAMP

Cadet Jack L. Fowler is one of more than 1,800 cadets who have been assigned to the 1953 ROTC summer camp at Fort Eustis, Va., for a six-weeks field training course which will continue until July 31.

A senior student at Texas A&M College, Fowler is the son of E. R. Fowler of Lesley.

Upon graduation from A&M in June of next year, he will be eligible for a commission in the Officer Reserve Corps.

PFC JOHNNY SHORT SERVING IN GERMANY

Serving in Germany with the 28th Infantry Division is PFC Johnny W. Short, son of Mr. and Mrs. John Short of Memphis.

Private Short, a gunner in Battery D of the 899th Anti-Aircraft Artillery Battalion, arrived overseas in April. He entered the Army last July.

The 28th Infantry Division is stationed in southern Germany where it is receiving intensive field training as part of the North Atlantic Treaty Organization Army.

Mr. J. W. Messer celebrated his 80th birthday Friday at his home, 721 North Seventh Street. Present for the occasion were his children and some members of their families.

A lee shore is a shore upon which the wind is blowing.

Mrs. Blanche Gable, Mrs. Garland Moore, Bobbie Townsend, Mrs. Alvin Pyeatt and Mrs. Arthur Scott have returned from a two weeks vacation at Rogers, Cameron and Temple.

Passengers are not permitted on the navigator's bridge when a vessel is under way.

The game of Lacross was originated by the American Indians.

There is no maximum weight for a heavyweight fighter. A tennis court should be out with service ends south.

DEPENDABILITY

is the other name for DODGE!

Dependable Economy In the 1953 Mobilgas Economy Run, the Dodge V-8 beat all other cars in its class . . . outperformed all 8's in every price class. Dependable Power-for-Safety Ten days later, the same Dodge V-8 set 2 new official AAA performance records for standard American cars. Proof of reserve power-for-safety. Dependable Comfort Dodge Modern Design does away with "meaningless metal" and waste space outside—provides more comfort space than ever inside. Dependable Handling Ease Dodge for '53 brings you new mastery of the road, new maneuverability in traffic, new parking ease. It snugs down on curves like a true sports car. Dependable Extra-Value Features Safeguard hydraulic brakes with two brake cylinders in each front wheel . . . Oriflow ride control . . . Safety-Rim wheels . . . electric windshield wipers . . . four rubber seat cushions . . . and many others.

Here is our invitation! Come in for a "Road Test Ride." Find out all that Dodge Dependability means in terms of economical power, safety power, riding comfort and handling ease. There is no obligation. You will discover a new kind of car, a new kind of driving enjoyment . . . at prices that start below many models in the "lowest-priced" field.

W. L. Nabers and K. D. Nabers accompanied Mrs. Emma Lee Nabers to Amarillo Tuesday. They carried Shirley to get a check-up on an ear infection.

Locals and Personals

Mrs. Shirley Draper and Mrs. Carl Linkey and daughter, Mickie of Shamrock were Sunday visitors in the home of Mr. and Mrs. Ben Parks.

Mr. and Mrs. Ben Parks and daughter attended the golf tournament in Vernon July 4th. Their son, Ben, participated in the tournament. He won the driving contest and took second place in his flight.

Mrs. Vena Kulp and children, Bucky and Gaye are moving next week to Lawrence, Kansas where Mrs. Kulp has accepted a position in the office of Dr. DeWitt Carr, Dean of Engineering, University of Kansas. Mrs. Kulp will also study preparatory to entering the William Allen White School of Journalism at the University.

Mr. and Mrs. T. M. Harrison left Wednesday of last week for Marlin where Mr. Harrison will undergo treatment at Torbett Clinic and Hospital. They plan to be gone two or three weeks.

Mrs. Jack Allen and sons, Billy Jack and Larry Wayne of Amarillo visited last week with Mrs. Allen's mother, Mrs. Emma Baskerville. Also visiting Mrs. Baskerville was her son and family, Mr. and Mrs. Harry Baskerville, of Lubbock.

Attorney General Releases Digest of Opinions Issued During June

Attorney General John Brown has released a digest of opinions issued by his office during the month of June. The opinions are of general interest for the following reasons:

1. A prize at a drawing of anyone may register for a drawing of attendance or purchase of a drawing is not a lottery.

2. A county commissioner's court may not pool all of the assets of all of its funds for investment purposes.

3. The Teacher Retirement System cannot pool all of the assets of all of its funds for investment purposes.

4. A county commissioner's court does not have authority to grant permits for the transportation of overweight or oversized equipment on State highways.

5. If there is no bidder at a tax sale bidding the full amount of the judgement against the land sold, it is the duty of the sheriff or other officer making the sale to bid in the property for the State for the full amount of the judgement. A sale for less than the amount is void.

6. The Teacher Retirement System cannot pool all of the assets of all of its funds for investment purposes.

7. A county commissioner's court may not pool all of the assets of all of its funds for investment purposes.

8. A county commissioner's court may not pool all of the assets of all of its funds for investment purposes.

9. A county commissioner's court may not pool all of the assets of all of its funds for investment purposes.

10. A county commissioner's court may not pool all of the assets of all of its funds for investment purposes.

may raise its own pay if other county officials are also raised. Such raise could not be retroactive to 1948.

A county commissioner's court does not have authority to grant permits for the transportation of overweight or oversized equipment on State highways.

If there is no bidder at a tax sale bidding the full amount of the judgement against the land sold, it is the duty of the sheriff or other officer making the sale to bid in the property for the State for the full amount of the judgement. A sale for less than the amount is void.

The Teacher Retirement System cannot pool all of the assets of all of its funds for investment purposes.

The only convertible that outsells Ford!

WHAT IS IT that makes Ford's Sunliner America's best seller? Is it its high-compression V-8 power? (No other convertible in Ford's field has this kind of engine.) Is it the fine craftsmanship of its Crestmark Body? (No body in its field can match Ford's choice of exterior and interior color combinations.) Is it its new spring and shock absorber action which makes even roughest roads feel smooth? (The Sunliner's springs are tailored to its

weight.) Is it the choice of Fordomatic, Overdrive or Conventional you get? (You won't find such a choice in any other car in Ford's field.) No, it's not just any one of these things that make Ford America's largest-selling convertible. It's all 41 of Ford's "Worth More" features . . . features which folks know make Ford worth more when they buy it, worth more when they sell it.

Test Drive America's No. 1 Convertible! Ford Sunliner!

Our Terrible Thirst

If your town doesn't have to worry about its water supply, you're lucky. A lot of towns do.

Trouble is, some communities never dreamed that they might double and triple in size, that new industries would come to town, that citizens would use more water than ever before. We've reached the point where we use about 1100 gallons per person a day in the United States.

Yet why should water be short when 25 times our needs falls from the skies every year?

Unhappily, it doesn't always fall when and where we need it most. Many reservoirs were built with no idea that towns would grow so fast. And 75% of our communities rely on water from lakes and streams. Today many of these are polluted and require treatment before use.

When faced with a shortage, cities suddenly discover to their sorrow that new water sources take time to complete.

For years General Electric has contributed toward development of better and more efficient water-works equipment. This is not so unusual, since motors and other electric equipment are important in water systems, large or small.

Some of the things we've learned about water supply, and the related problem of water pollution, have been put together in motion pictures and booklets, prepared in cooperation with the U. S. Public Health Service. Any town fathers who are interested in what's available can write to General Electric, Room 123-2, Schenectady 5, N. Y.

You can put your confidence in—

INSECTS MOVE IN

Cotton farmers of this area certainly have been having their troubles this year.

Never in the history of this section have they had such a hard time getting a crop up and growing. Even in the drouthy '30's, crops came up and grew until scorching July and August temperatures shriveled them.

But this year, farmers have been plagued by setbacks from the very beginning.

Cotton, planted early, failed to come up to a good stand because of cool weather and showers which packed the ground above the tender sprouts.

By the time it warmed up in May, customary general rains failed to come and moisture was limited and spotted. The result was that some farmers got stands of cotton, others partial stands, and the remainder had little or nothing to show for their efforts.

Since then, many who were fortunate enough to get some cotton up, have seen it wither and die from lack of water, beaten into the ground by hail, or cut to pieces and wiped out by roaring dust and sand storms. The luckier ones have cotton, or a reasonable facsimile of it, but unfavorable weather has hampered its growth.

And now insects have moved in all over the county and begun working on the dwarfed and spindly plants.

Recently, W. B. Hooser, county agricultural agent, said leafworms had been found in most cotton fields. In addition, he said some Army worms have been discovered.

Infestations at that time did not appear too serious in most cotton but they did mean that farmers had something else to worry about. It also meant possible additional expense in combatting the pests for farmers, who in many cases were already hard hit financially.

Nevertheless if infestations of insects increase to the critical point, cotton raisers will have to pull in their financial belts and fight them, if they hope to keep alive hopes of a crop this fall.

Farmers throughout the state have been gaining on cotton-destroying pests, according to the National Cotton Council.

Last year, for instance, insects destroyed nearly 19 million dollars less cotton and seed in Texas than in 1951. Nevertheless, the pests reduced the full yield in the state seven per cent.

The Council report continued that it was very evident that cotton farmers are making a concerted effort to control boll weevils, bollworms, aphids, thrips, and other insects which plague their crops.

Last year, the Council stated, crop losses because of insect damage in Texas, amounted to almost 101 million dollars. While making a huge dent in incomes of cotton farmers, it still was 18 1/2 million dollars less than in 1951.

The Council report concluded by urging upon growers the importance of checking fields frequently for cotton-destroying insects and carrying out a thorough poisoning schedule if heavy infestations develop.

Only by following such a program can farmers continue to lower cotton losses caused by insects.

QUOTING OUR NEIGHBORS

TAX CUTTING

Last week it was announced that the county might cut the tax rate from 95 cents on the \$100 to 92 cents a hundred.

This is the first time we have seen such an announcement in years and years. It seems astounding that a taxing body would propose to cut taxes when the popular trend seems to be tax more and more.

Although the proposed 3 cent tax cut is slight and will amount to a saving of only \$3.00 per \$10,000 in valuations, it is commendable that a tax cut will be considered. The county seems to be reversing the trend.

If this is a precedent, if it is setting a pattern, the local citizen should be forever grateful to the county.

Even if the cut in county taxes does not set a pattern for others to follow, it may, at least, stall off additional tax increases.

It is a lamentable fact that during the 20 years of Democratic Administration the national government adopted the slogan of "tax and spend," and that other taxing bodies seemed to take up the slogan and follow suit.

Most noticeable has been the increased tax burden in the city.

Not the rate is any higher for it isn't, but other services and valuations have increased.

The city has increased their income from every source, and in addition has had \$100,000 or more

of airport money to spend in recent years. Not many cities have had that kind of deal. Many of them have had to be conservative.

—The Childress Reporter

OUR GOVERNMENT BEST

Government costs a lot of money. So long as we have the money to meet our obligations there are few, very few indeed, who do more than complain at the high cost of government.

Some figures may be revealing. Last year the average American family of four had an income of \$3400, according to government figures. This same family paid out \$1100 of its income in direct and indirect taxes. What could they have done with this \$1100, if there were no taxes? Buy \$21 of groceries each and every week for a whole year.

That is, if they had \$21 to

Explosion 200 Miles Away Causes Earth To Quake Here—
A decided and quite perceptible rumbling, or shaking of the earth, was observed throughout this section at a few minutes before 1 o'clock Sunday afternoon. It was supposed the shock was an earthquake, until Monday when it was learned from dispatches that a terrific nitro-glycerine blast occurred at Halderton, Okla., at the same time the tremors were felt here. Later, several persons recalled hearing an explosion, resembling thunder, just before the quake.

District Poultry Association Is Organized Here—A poultry association, as yet, unnamed, was organized Monday, following a series of lectures at the Majestic Theatre.

Officers named were: C. W. Flannery, president; J. A. Odum, vice-president; and C. F. Stout, secretary-treasurer.

On the executive board are Mrs. C. F. Stout, Mrs. B. J. Elford, Mrs. T. K. Wilton, Edgar Ewen and E. N. Hudgins.

Purpose of the new organization is to promote and encourage raising of better fowls and to increase profits by co-operation and better business and marketing methods.

STRICTLY PERSONAL—R. S. Greene left Saturday for Eastern markets.—T. C. Delaney and family moved to town Saturday to be nearer school.—W. P. Cagle of Clarendon was a business visitor here Wednesday.—W. A. Caldwell of Estelline was here on business Wednesday.—Mr. and Mrs. W. E. McGlocklin have moved from Hulver and have taken charge of the Womack rooming house over the racket store.—J. V. Leake left this morning for Vernon on a business mission.—Lonnie Edmondson of Estelline was in Memphis on business Monday.

spend for groceries; and did not buy something else which they thought was more pressing at the time they signed the obligation.

Ever try the
lap of Luxury?

Deep, foam-rubber cushioning in both the seats and the seat backs lends added luxury to ROADMASTER comfort.

We'd like to spoil you a bit.
We'd like to seat you in a 1953 Buick ROADMASTER and let you be coddled in the most sumptuous comfort on four wheels.
What we have in mind is more than just a sampling of the spacious roominess here — and of the cushions that cradle you in opulent and enveloping softness.
It's the magnificent luxury of ROADMASTER travel that we'd like you to know...
The soul-satisfying feel of bossing almost limitless power from the world's newest and most advanced V8 engine...

The casual ease with which you command sparkling getaway from Twin-Turbine Dynaflo—and the sheer comfort of its new quiet and infinite smoothness...
The matchless gentleness and levelness of ride from all-coil springing, torque-tube steadiness, liquid-smooth power delivery—making you barely aware of motion, of road irregularities, of stopping and starting...
And the consummate ease-of-handling you enjoy from the most maneuverable ROADMASTER in Buick history. A car with the hydraulic help of POWERSTEERING. A car with the velvety control of

still finer braking—plus the added convenience of Power Brakes,* if you wish.
Surely, you ought to look into this supremely satisfying ROADMASTER for 1953—and see for yourself that the lap of luxury is more than a figure of speech when you take your seat here. Why not visit us soon?
*Optional at extra cost.

Massey Plumbing & Heating Has Complete Service in This Field

For the answer to plumbing needs of all kinds see or call R. A. Massey Plumbing & Heating, 708 Noel Street or phone 582.

The company handles American-Standard, Crane, Kohler, Eljer and Briggs plumbing fixtures, and has a complete water service, featuring Myers pumps and water softeners and conditioners. A wide variety of models is on display at the firm.

Also to be seen are a complete line of washing machines, dryers and ironers, with the well-known Speed Queen brand featured. The manufacturers have a thorough knowledge in this field, having made such equipment for more than 45 years.

Other items which are available include Royal gas ranges, Cozy floor and wall furnaces, Space heaters, gas and electric water heaters, bathroom wall heaters, bathroom accessories and plumbing supplies of all kinds.

Company personnel will be glad to assist in solving plumbing and heating problems of all types, whether they be large or small.

Repair jobs may be brought to the shop, where the best of service will be provided.

Since the company was established in January, 1947, it has installed plumbing in numerous buildings in this area. Among them are: the William B. Travis School, the Shamrock Service Station on North Tenth Street, Fowlers Drug, Foster Food Market, Willeford's Drive Inn, Odom Clinic Hospital, and the Memphis Compress office, all in Memphis, and the elementary school at Lakeview. In addition, the firm had the contracts when the Memphis High School and Morning-side School were remodeled, and has done the plumbing for many residences here and in the surrounding area.

Currently, the company is installing all of the plumbing, filtering equipment, bath house equipment, and disposal equipment at the municipal swimming pool in City Park.

Massey Plumbing & Heating has two fully equipped trucks, manned by experienced personnel, according to R. A. Massey, owner.

The company will be glad to help in planning new homes or in remodeling those already built. Plumbing catalogues and plan books are available in working out details. This service is free as is an estimate of the cost of each job.

Roy Alvin Massey, owner of the firm, was born Oct. 18, 1907, at Paris, Tex., and came to Hall County with his parents, Mr. and Mrs. J. A. Massey, on Christmas Day of the same year.

He grew up here and attended the Memphis public schools, graduating from high school, in May, 1927. That fall, he enrolled in night classes of the Memphis Business College.

While small, he picked cotton in fields near town, and when he was 12 years old, launched his first business venture, selling cold drinks at baseball games.

Later on, he worked at the Memphis Bottling Company during summer months, operating a foot-powered bottling machine.

Memphis—Working for Your PROSPERITY

Report From Washington

By Walter Rogers

Congressman, 18th District

THE DROUTH SITUATION

The members of the Texas, Oklahoma and New Mexico Delegations in Congress have been working almost 24 hours a day trying to bring about effective relief for the drouth stricken areas. Several of the Congressional districts in Texas have not been stricken, but the members from these districts have worked right alongside those of us whose districts are in this disaster area. We are all deeply grateful for this fine work and for the recognition and action taken by the President and members of his official family in moving forward to combat this tragedy. I expressed our grateful appreciation in a short speech to the Congress on Tuesday, June 30th. I expressed to the President and members of his official family our appreciation for the fine spirit in which this tremendous task has been undertaken. I was requested to make a short recording to be broadcast to the nations overseas on this subject. In doing so, I pointed out the fine cooperation that has always prevailed among the people of our country when disaster strikes, in giving priority to bringing relief to the stricken areas. I closed the statement telling the people that we all thanked God that we lived in the United States and under our form of government.

When the disaster situation began to reach such tremendous proportions, it became very obvious that there were some who wanted to play politics with the misery of these stricken people. It is my firm belief that these nefarious schemes were nipped in the bud by President Eisenhower. Although it is difficult to see

how good can come out of such a thing as a devastating drouth there seems to be a general sentiment among the Members of Congress that some program should be worked out on a permanent basis to avoid, or at least soften, the terrific blow that is struck by such an occurrence. The chance are that some permanent legislation will be adopted with which to fight these problems in the future.

NEW HIGH SALARIED GOVERNMENT POSITIONS: During the past several months there has been created in the government one new secretaryship at a yearly salary of \$22,500, two new under-secretaries at \$17,000 a year, twelve new assistant secretaries at \$15,000 per year, one new commissioner at \$14,800 a year, one new managing director at \$17,500, and one new deputy director at \$16,000 per year. The House on June 30th approved a new assistant secretary for the Post Office Department at a salary of \$15,000.

Bills are presently pending to create four new assistant secretaries of Defense. The salaries for these jobs would be approximately \$15,000 to \$17,500 per year.

An interesting colloquy took place on the Floor of the House during the debate on the new assistant to the Post Office Department. Congressman Dowdy, of East Texas, had the floor and was asked by Congressman Bender, of Ohio, the following question: "Is the gentleman aware of the fact that in the Defense Department alone, as a result of the creation of these new secretaries, over 60,000 people have been fired, which

is pretty much the case in all the other departments of Government?"

Congressman Dowdy's reply was as follows: "According to the reports I have, in March the number of people employed by the United States Government decreased by 20,000. Yet the salaries that month increased 60 million dollars, although 20,000 people were fired."

FEPC: It was announced by a Member of Congress just before this letter was written that the White House intends to set up an FEPC for the purpose of screening employees in organizations holding defense and other government contracts to see that no discrimination is practiced. This Congressman stated that such a commission would put a stop to what he charges as discriminatory practices on the part of the Department of the Navy.

Massey Plumbing - (Continued from page 7)

Massey remembers that it was quite a job keeping up with requirements of Fourth of July picnics and the fair celebrations in the fall.

He also helped his father, who engaged in the construction business here.

He was a member of the high school baseball, basketball, track and football teams. The 1925 gridiron squad won the bi-district title. On the way to this honor the team defeated one opponent 155-0.

On Oct. 1, 1927, Massey started to work for the Memphis Compress Company as bookkeeper. Before leaving the company after 17 years of service, he worked as

foreman, plant superintendent and assistant secretary.

In 1944, he became associated with the Aransas Compress Company at Corpus Christi. The family moved to the South Texas city but returned here in 1946.

Massey joined the Memphis Volunteer Fire Department in 1929. He was made chief in 1934 and held the position until going to Corpus Christi in 1944.

He served as president of the Panhandle Firemen and Fire Marshals Association and was a member of the drill teams that won numerous contests and prizes in district and state meets. At the state convention in 1941, he won first place and a gold badge in a hose-coupling contest.

In the September, 1942, issue of Volunteer Fireman Magazine, he received national recognition for successfully putting out a fire in a cotton warehouse at the Memphis Compress Company, a feat which is very rarely accomplished.

He is the oldest active member of the fire department here and is second assistant chief. He re-joined the organization after his

return in 1946.

During World War II, Massey served as chairman of the Price Panel Board of the Office of Price Administration in Hall County. For this work, he received a Certificate of Award from President Franklin Roosevelt.

On July 26, 1931, he was married to Miss Abbie O'Neal, daughter of Mr. and Mrs. Shannon O'Neal of Mineral Wells. Miss O'Neal was an employee of the local telephone exchange at the time.

The couple has five children. They are: Roy Alvin, Jr., who was

graduated from Baylor University this spring and now is employed at WFAA-TV in the production of TV shows; Margaret Ann Massey, 18 years old, a sophomore at Baylor, who is working in the office of her father's company this summer; and Ouida Pearl, 13, Charles Walter, 11, and Abbie Louise, 9, all students in the local schools. The family home is at 821 South Seventh Street. Massey is a member of the First Baptist Church, the Memphis Lions Club, the Memphis Rifle and Pistol Club, and the National

Association of Planting tractors. He is president of the Dennis Family Re-Union. Advertise in the Democrat. Chas. E. Deyhle, D. VETERINARY HOSPITAL. Clarendon, Tex. Phone 97 or 154. Serums, Vaccines. Supplies Available.

RAYMOND BALLEW

ONLY \$1 LETS YOU HAVE A NEW 1953 **SERVEL** WORLD'S ONLY REFRIGERATOR THAT **Makes Ice Cubes - Without Trays** - AND PUTS 'EM IN A BASKET AUTOMATICALLY!

for **PROOF OF SUPERIORITY**
NO TRAYS TO FILL! NO TRAYS TO SPILL! NO TRAYS TO EMPTY OR FORGET TO REFILL!

EXCLUSIVE NEW SERVEL FEATURE ENDS MESS AND BOTHER OF ICE TRAYS FOREVER

Big, dry IceCircles without mess and bother! Starts itself! Refills itself! Stops itself!

A new Servel in your home for just \$1 for proof of superiority! See the Servel make ice cubes without trays before your very eyes! This is the most amazing offer ever made... because Servel is the most amazing refrigerator ever built! See us today! Make the test your friends are making! Prove Servel is your best buy!

GAS or ELECTRIC MODELS! Only Servel gives you your choice!

- Silent Dependable Gas... no moving parts!
- New! Electric Compression Model!
- Motorless Electric Models... No moving parts!

- LOOK AT ALL THESE FEATURES!**
- ★ **HUGE FREEZER COMPARTMENT** - holds up to 80 lbs! Freezes fresh foods!
 - ★ **CAREFREE AUTOMATIC DEFROST** - freezer temperature goes even lower during defrosting!
 - ★ **TRIP-SAVER DOOR HANDLES** - easily nudged open when both hands are full!
 - ★ **ADJUSTABLE SHELVES** - easily changed, easily cleaned, space-saving!
 - ★ **ODDS AND ENDS BASKET** - small basket holds jars, bottles, packages!
 - ★ **REMOVABLE EGG NESTS** - holds eggs firmly and separately in place!
 - ★ **ROOMY DOOR SHELVES** - put much used items at your fingertips!
 - ★ **TEMPERATURE CONTROL** - 1 dial - 12 positions maintain balanced cold!

PLUS all these additional features:

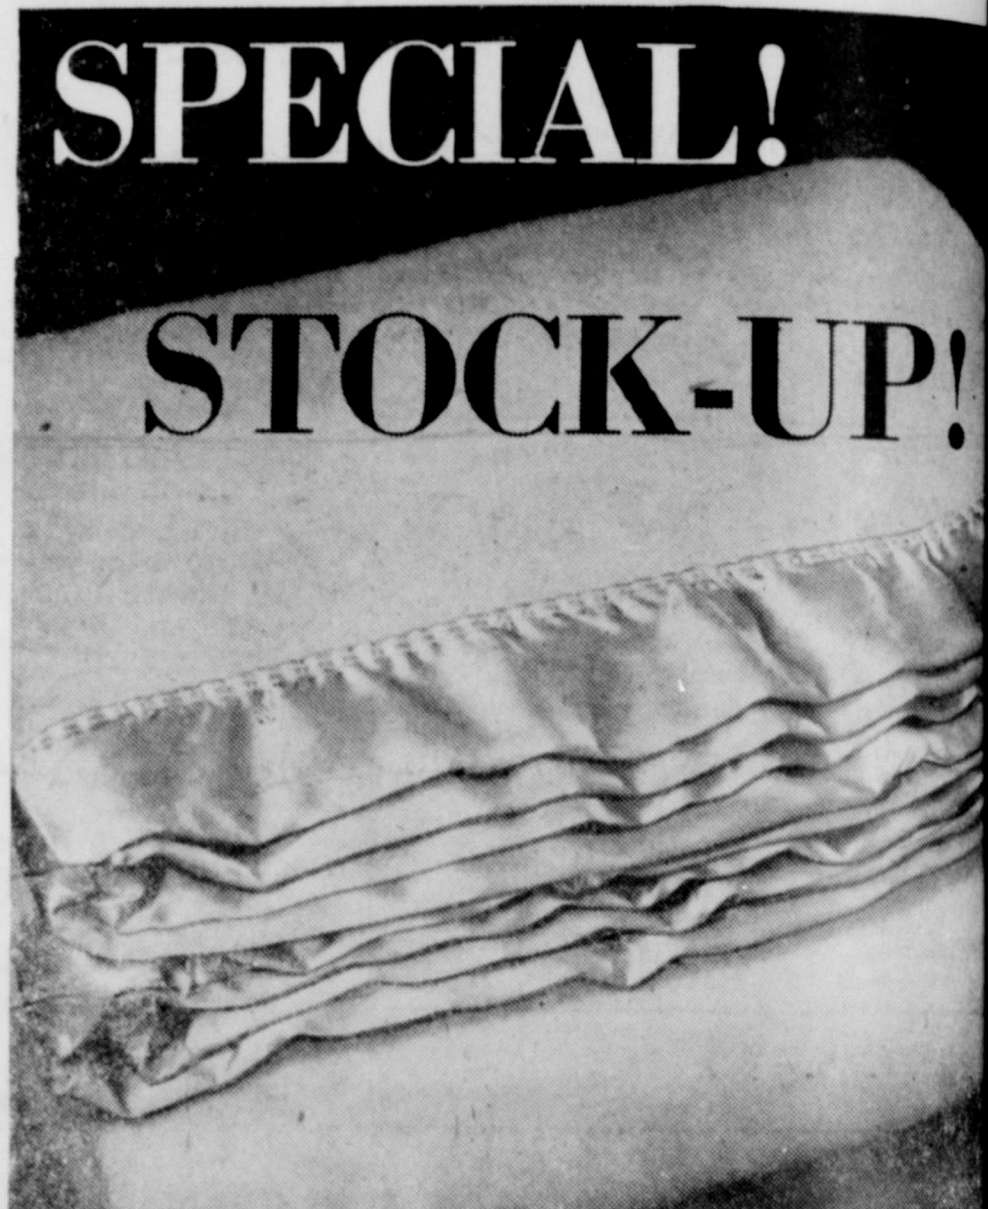

- QUICK COLD SHELF
- TALL BOTTLE SPACE
- DEW-VIEW FRESHENERS
- HANDY BUTTER KEEPER
- FOOD COMPARTMENT LIGHT
- CONVENIENT CHEESE CHES!

AND THE INDUSTRY'S LONGEST WARRANTY!
