## Chitwood Found Guilty by Jury

Chitwood, 67 years old, was declared of unsound mind Monday by a 100th District Court jury, and was committed to the Wichita Falls State Hospital Wednesday, according to E. S. Morrison.

Chitwood was charged with assault with intent to murder, on a woman with a hammer attack last Feb. 21, on his wife, Mrs. Chitwood, 59. The attack occurred at the couple's home.

The assault was set at 10 p. m. Feb. 21 but several hours before the couple was in the bedroom of their home.

Chitwood admitted he had repeatedly with a hammer during the day, and that he had first hit his wife on the head, adding that he had carried her to the hospital.

Chitwood spent sometime in the hospital, recovering from the attack. Soon after he was moved to a room to live with a wife, Mrs. Dorothy Hagemer.

## Son Of County Couple En Route Home From Korea

A Korean veteran who is the son of a Hall County couple, is expected to be home around Sept. 15. He has already left Korea by ship en route to the United States.

He is Sgt. Tommy W. Potts, of Amarillo, son of Mr. and Mrs. T. W. Potts of Parnell.

Sergeant Potts has been serving with the 40th Infantry Division in Korea since August of last year. He saw service all across the Korean peninsula. He received his basic training at Fort Ord, Calif.

Before entering military service, he was employed at the Star Lumber Company in Amarillo, and plans to resume his work there after his discharge.

A brother, Hershel Potts, is vocational agriculture teacher in Memphis High School.

Sergeant Potts' wife, Mrs. Billie Potts, lives in Amarillo.

## TENNIS WINNERS AT TEEN-CORNER ARE ANNOUNCED

Lloyd West won the boys division and Tanya Fletcher took top honors in the girls division of a table tennis tournament which was concluded at the Teen-Corner Saturday night. The tourney was played over a two-weeks period.

Buzzy Patrick was the runner-up in the boys section, and Denny Davis won the consolation.

In the girls division, second-place winner was Kathryn Wright, and winner of consolation matches was Patsy Turner.

Others who were entered in the boys competition were: Jimmy Gibson, Rink Evans, Larry Gillispie, Vance Adams, Gene Daugherty, Jimmy Morrison, Harvey Kennedy, James Moss, Jerry Hill, Jimmy West, Rayford Hutcherson, Fletcher Bownds, Wayne Tiner, Bobby Young and Roddy Stargel.

Other girl competitors were: Jo Ann Hart, Peggy Evans, Dorille Stargel, Betty Jean Moore, Johnnie McDaniel, Sue Miller, Nancy Brewer, Betty Wells, Linda Fields, Sharon Harrison, Joy Parks, Beverly Middleton, Mary Frank Garrett, Shirley Miller and Monta Jane Sayer.

Saturday night, plans are to award trophies to each of the champions, large medals to the runners-up, and smaller medals to the consolation winners.

At the Tuesday night meeting this week, Teen-Corner members decided to change meeting nights. Meetings will be held on Friday nights, after home football games only, and on Saturday nights.

Anyone who would like to act as a chaperon at the youth center is asked to get in touch with Bill Balow.

Card tables and floor or table lamps are badly needed at the center.

For his work with the Teen-Corner.

### Registrations In Memphis Schools Total 740 Students By Wednesday

A total of 740 students had registered for classes in Memphis schools by Wednesday, according to Supt. W. C. Davis. This was about 100 below last year's enrollment, Davis said. The new school year began Monday, although registration started last Thursday.

This year's registration was comprised of 307 junior and senior high school students, and 433 elementary school students. There were 276 elementary school pupils enrolled at William B. Travis School and 157 at Stephen F. Austin School.

Two teachers have been lost since the last school year because of a drop in attendance and Davis said there is grave danger of a further decrease in the number of teachers unless attendance is boosted.

Eleven children have been enrolled in the kindergarten and there is room for four more, Davis said. Registrations in this department will close Tuesday.

Weldon McCreary is principal of the junior and senior high schools. L. L. Thomas is principal of William B. Travis School, and B. J. Thomson is principal at Stephen F. Austin.

High school teachers are as follows: Mrs. Mary S. Beasley, home economics; George Childress, drivers' education and plane geometry; Mrs. George Childress, girls' physical education, eighth grade social science and seventh grade health and science; Mrs. Lucille Dennis, American and Texas history and Spanish; Mrs. Sarah Gilliam, seventh grade language arts, social science and mathematics; Mrs. Roy Guthrie, eleventh and twelfth grade English and public speaking.

Miss Ira Hammond, eighth and ninth grade English, and librarian Richard Highfill, band and chorus; Mrs. Jeanette Irons, algebra; Nola

## Plan To Resume City Paving Work Within Few Days

The paving program was at a standstill this week while representatives were making efforts to fill in gaps on South Seventh Street. If two or three more property owners sign up for the work, the street will be ready to be completely paved, according to Mayor Carl Harrison.

City officials are asking the cooperation of citizens in working out arrangements, Harrison said.

"Many blocks can be paved, if enough blocks can be entirely signed up," declared Harrison.

"The city has the money to do its part."

Plans are to include Tenth to Ninth Streets on Cleveland, Ninth to Davis, and Davis, between Ninth and Eighth Streets, in the paving program.

Harrison said paving equipment should be back in Memphis next week, at which time the paving (Continued on Page 12)

## Twenty-Nine Boys Are Coming Out For First Squad

The Cyclone football squad has been going through hard scrimmages every afternoon the past week to get ready for the first game of the season Friday night with the Tulia Hornets, whom Memphis has always found plenty tough. The non-conference contest will be played at Tulia.

Most of the starters from last year's Hornet squad have returned this year, according to George Childress, Cyclone coach. This, in itself, means that the Memphis players have their work cut out for them Friday night if they expect to make a match of the contest.

But Childress wasn't crying Tuesday.

"Tulia is considered a very strong team and is expected to be a powerhouse in their district," declared the coach. "But our boys are looking better and showing more fire every day. Tulia may be rough and tough but the Memphis boys are going to have to be shown the Hornets are the better team."

Childress said the local squad is in good shape and had suffered no serious injuries so far.

Five more boys were coming out for practice this week, boosting the number of "A" squad players to 29.

Late to show up are: Roy May, Hayes Hammond, Thomas Widener, and Paul and Raymond Wilson, who are brothers.

In spite of the recent hot weather, Childress has been sending his charges through strenuous practice sessions, in order to get the men in shape fast. He also wanted to see their possibilities and to give all of the boys an opportunity to show what they could do.

Duke Frisbie, a three-year letterman, is back again to call signals. His experience should mean a great deal in building the team into a smooth-performing outfit.

Other lettermen, who will be around to put a crimp in Tulia's plans, are: Jack Montgomery and Carol Gardenhire, ends; Kenneth Cheek and Max McCoy, tackles; Leon Rogers, guard; Roy Don Coleman, center; and Clyde Temple and Jimmy Davis, halfbacks.

Several reserve lettermen will be available. They are: Jerry Mc

## Preparing on Budget Meeting Here Monday

A public hearing on the proposed Hall County budget for 1954 will be held Monday morning, in the commissioners room of the courthouse here. The hearing is scheduled to start at 10 o'clock according to County Judge Tracy Davis.

A tentative figure of \$273,500 has been set in the budget.

The tax rate for the coming year also will be set at the Monday morning session. The rate likely will be 95 cents on the \$100 valuation or the same as it has been. The state tax is 42 cents on the \$100 valuation.

This year's receipts were estimated at \$259,075. Actual receipts in 1952 totaled 285,344.14.

Assessed valuation for the county in 1954 is estimated at 11 million dollars, about the same as this year.

Ad valorem taxes next year are expected to be around \$104,500.

Tar collections are estimated at \$104,500, plus other collections, amounting to \$107,100, is expected to add up to an income of \$211,600. Added to this, to make up next year's proposed budget, will be an estimated cash balance of \$61,900.

A copy of the 1954 budget is on file in the office of Mrs. Ruby Collins, County Clerk. Judge Davis has announced that all county residents are welcome to study the budget and to attend the hearing Monday.

## Rites For Mrs. Mary Frances Damron Conducted At Local Church Of Christ

Funeral services for Mrs. Mary Frances Damron of Parnell, who had been a Hall County resident since 1908, were held at 10:30 a. m. Monday in the Church of Christ here. Harry Graham, minister of the Eastside Church of Christ at Estelline, conducted the services.

Burial was in Fairview Cemetery, under direction of Murphy Spicer Funeral Home.

Mrs. Damron, 79 years old, died about 1 a. m. Sunday in a local hospital. She fell and broke a hip about two weeks earlier while visiting a daughter, Mrs. J. L. House, at Slaton. She was taken to a Plainview hospital and remained there until brought here Friday.

She and her husband, the late Joseph Oscar Damron, came to Hall County in 1908, settling at Parnell, where Mr. Damron engaged in farming.

When the Lettis Ranch was divided up into farms, Mr. Damron bought some of the land and broke it out. He also built a home for his family and Mrs. Damron lived there up until her death.

The family moved to Memphis in 1920, in order that some of their children could attend the Memphis schools.

Mr. Damron died here, Dec. 30, 1923. Mrs. Damron continued to make her home in Memphis until 1932, when she returned to the family farm at Parnell.

After obeying the gospel in 1910, Mr. Damron became a Church of Christ minister and preached for churches in Texas and Oklahoma.

Mrs. Damron also became a member of the Church of Christ in 1910 and was a member of the Eastside Church of Christ at Estelline at the time of her death. She was active in work of the (Continued on Page 12)

### PLENTY OF FUN TO BE AVAILABLE AT STATE FAIR

Fun, Fun, Fun. That's the gist of the entertainment program rounded up by the 1953 State Fair of Texas, Oct. 10 thru 25.

An amazingly early demand for tickets to the Auditorium show starring Broadway's Ethel Merman and Hollywood's George Murphy reflects the enthusiasm inspired by the announcement of the fair's array of big shows. There'll be performances of the Ethel Merman show each night and matinees Saturday, Sunday and Thursdays, 24 in all.

Spectacle Russell Nye, who played with Miss Merman in "Call Me Madam" on Broadway, will also be featured, as will the wacky Wier Brothers, the Harmonica Rascals and a precision line of twenty beautiful dancing girls.

The always-popular Ice Cycler will present "Brigadoon" as one of 20 specialty acts and 10 big production numbers. There'll also be 24 performances of Ice Cycles nightly with matinees Saturdays, Sundays, Oct. 14 and 23.

The famed Aut Swenson Thrillcade, featuring an international assemblage of daredevils, will be presented 21 times in front of the Grandstand, nightly except Oct. 11, 12, 19 and 25, with matinees Oct. 10, 14, 16, 17, 18, 23, 24 and 25.

Both Ice Cycles and the Thrillcade will have three shows on Rural Youth Day, Saturday, Oct. 17.

Five free fireworks shows will be presented in the Cotton Bowl Oct. 13 (Music Festival Day), Oct. 14 (Dallas Day), Oct. 16 (Elementary School Day), Oct. 18 (second Sunday) and Oct. 20 (East Texas Day). A big stadium show starring Singer Gordon MacRae and the famous Apache Belles will climax East Texas Day.

The Sensational Kays and the Alcides, daring aerialists, and the Great Christi, a world famous magician, will be presented in free performances several times daily. Many exhibitors will also present free shows, ranging from moving pictures to top stage entertainments.

The million-dollar Midway, one of America's most colorful fun zones, will have an entire street of spectacular sideshows, plus

### EYE, EAR, NOSE AND THROAT ILLS LISTED BY MEDICAL ASSOCIATION

Ophthalmology is the sum of knowledge concerning the eye and its diseases. Otorhinolaryngology is the sum of knowledge regarding the ear, nose and throat (including the voice box, windpipe and its divisions) and their diseases.

Often these two specialties are combined. As an example, the same physician who treats hoarseness or sinus disease might take care of eye infections or allergies or other eye conditions.

Hoarseness can indicate something as simple as overuse of the voice or on the other hand can point to something more serious. Any case of hoarseness lasting more than a week deserves a medical check-up to rule out or make possible the prompt treatment of diseases like tuberculosis or cancer. Children who are hoarse sometimes have growths on the vocal

strings. The complete program of the fair is listed in a free illustrated book which can be obtained by writing to State Fair of Texas, Dallas 10, Texas.

dozens of exciting thrill rides.

records called "papillomas," which usually can be removed surgically.

People who make incorrect or excessive use of the voice can be subject to hoarseness; terms such as "clergyman's sore throat" and "singer's nodules" in the medical vocabulary are evidence of the frequency with which this symptom occurs. Sometimes public speakers and singers need instructions in the more skillful use of the voice to overcome the tendency toward hoarseness, and resting the voice for a limited or indefinite period may be indicated.

The two general causes of "sinus trouble" are infection and allergy, or possibly a combination of the two. Conditions involving the nose (such as colds or hay fever) can spread easily to the sinuses (cavities in the bones of the skull) because the latter structures are offshoots of the nasal passage lined with the same kind of tissue, the mucous membrane. Different sinuses can be involved; there are four sets on each side of the head which take their names from the bone (or principal bone) in which they lie.

### Agricultural Yield In Nation Is Above Pre-War Figures

COLLEGE STATION—Total agricultural output in the nation is now 41 per cent above the production for the prewar years 1935-39. Even with our increasing population and high domestic consumption, large stocks of wheat, cotton, corn, beef and butter have piled up.

C. H. Bates, farm management specialist for the Texas agricultural Extension Service, says the return to acreage control programs is evidence of a worsening of the economic picture. However, he adds, if burdensome surpluses are to be avoided, production must be more nearly geared to demands. The well being of farm and urban families alike can be affected by broad economic objectives in the present situation.

These objectives include strengthening and expanding foreign markets for farm commodities, maintaining a high level of employment and earnings throughout

the nation's economy; keeping farm purchasing power high and using more efficient production methods on the nation's farms and ranches in order to increase the output per person.

In commenting on the objectives, Bates points out the importance of foreign markets to Texas producers, for much of the cotton and wheat produced in Texas goes into export channels. A continuation of high level earnings will help assure a strong demand for domestic consumer and ranch products and purchasing power and industry humming. Bates, we can keep better job, but the standard farming methods of the objective.

James Russell Linn, first editor of the Atlanta Journal-Constitution, says the nation's economy is now 41 per cent above the production for the prewar years 1935-39. Even with our increasing population and high domestic consumption, large stocks of wheat, cotton, corn, beef and butter have piled up.

The number of sinuses in each set may vary in different persons, as may their sizes, shapes, and positions. Medical treatment for an acute attack of sinusitis (sinus infection that is severe and runs a relatively short course) usually is successful; occasionally surgery to allow the sinuses to drain may be necessary. Operation is more likely to be performed in the case of chronic (longer-lived) infection.

In the field of eye infections and allergies, a couple of new drugs, ACTH and cortisone, which were used first for arthritis several years ago, have proved of definite, if limited, value. They have somewhat similar effects. ACTH is given for deep-seated eye infections. Cortisone is most valuable in infections or allergies of the front part of the eye and eyelids. Another recent development in the field of eye disease is in the treatment of a condition known as "detached retina." Surgery has been improved to the extent that the eyesight in many cases of retinal detachment, formerly considered doomed, can be saved.

The symptom noticed most often in this disease is the sensation that a curtain or cloud is being drawn across the field of vision in the affected eye, beginning at one corner and moving across it as the condition progresses. The patient also may notice other disturbances in the vision such as lightning-like flashes or spots before the eyes. Unless treated, detached retina has a tendency to progress until the affected eye is totally blind. Sometimes both eyes are affected similarly within a short period of time.

Although the exact cause of detached retina is not always understood, the condition has been observed more often in nearsighted persons and in those 50 years or older. A severe injury has been known to bring about detached retina; a minor injury is not likely to do so unless the eye is already predisposed toward the disease.

James Russell Linn, first editor of the Atlanta Journal-Constitution, says the nation's economy is now 41 per cent above the production for the prewar years 1935-39. Even with our increasing population and high domestic consumption, large stocks of wheat, cotton, corn, beef and butter have piled up.

The number of sinuses in each set may vary in different persons, as may their sizes, shapes, and positions. Medical treatment for an acute attack of sinusitis (sinus infection that is severe and runs a relatively short course) usually is successful; occasionally surgery to allow the sinuses to drain may be necessary. Operation is more likely to be performed in the case of chronic (longer-lived) infection.

In the field of eye infections and allergies, a couple of new drugs, ACTH and cortisone, which were used first for arthritis several years ago, have proved of definite, if limited, value. They have somewhat similar effects. ACTH is given for deep-seated eye infections. Cortisone is most valuable in infections or allergies of the front part of the eye and eyelids. Another recent development in the field of eye disease is in the treatment of a condition known as "detached retina." Surgery has been improved to the extent that the eyesight in many cases of retinal detachment, formerly considered doomed, can be saved.

The symptom noticed most often in this disease is the sensation that a curtain or cloud is being drawn across the field of vision in the affected eye, beginning at one corner and moving across it as the condition progresses. The patient also may notice other disturbances in the vision such as lightning-like flashes or spots before the eyes. Unless treated, detached retina has a tendency to progress until the affected eye is totally blind. Sometimes both eyes are affected similarly within a short period of time.

Although the exact cause of detached retina is not always understood, the condition has been observed more often in nearsighted persons and in those 50 years or older. A severe injury has been known to bring about detached retina; a minor injury is not likely to do so unless the eye is already predisposed toward the disease.

### Missing Chapters in the Schoolbooks

A high-school teacher writes us: "Please send me 50 copies of your booklet, *Adventures Inside the Atom*, for use with my students." Another wants material on new inventions. Or booklets on jet planes.

New things happen in science faster than textbooks can be revised.

New words puzzle our ears and eyes before these words are in dictionaries . . . atomic-pile reactors, silicones, jet engines with "afterburners," UHF television. Some problem for teachers, that.

Last year over 100,000 letters from schools hit our desks at General Electric asking for things in print on "what's new."

Just to give you an idea of how this adds up, one booklet, *Adventures Inside the Atom*, has been requested to the tune of five million copies since 1948.

*Adventures in Jet Power*, also handled in comic-book treatment, has since 1946 gone into eight printings.

This may surprise you: a new booklet, *Why Study Math?*, will run over a million copies this year. (It answers that question Junior is always raising.)

Nobody is happier than we are to know teen-agers have a lively appetite for what's buzzing in the world around them.

After all, whether they know it or not, our young people in school today will be the scientists and engineers of tomorrow. They can't know too much.

You can put your confidence in

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

You get greater getaways with the new Powerglide. A lot finer performance for lot less gas. That's what you get with the new Powerglide automatic transmission. The no more advanced automatic transmission at any price.

You get more power on less gas

That's because Chevrolet's great valve-in-head engines—high-compression engines—Powerglide\* models give you the most powerful engine Chevrolet's field—the 115-h.p. "Blue-Flame." Gear shift models offer the advanced 108-h.p. "Thru-King" engine.

It's heavier for better roadability

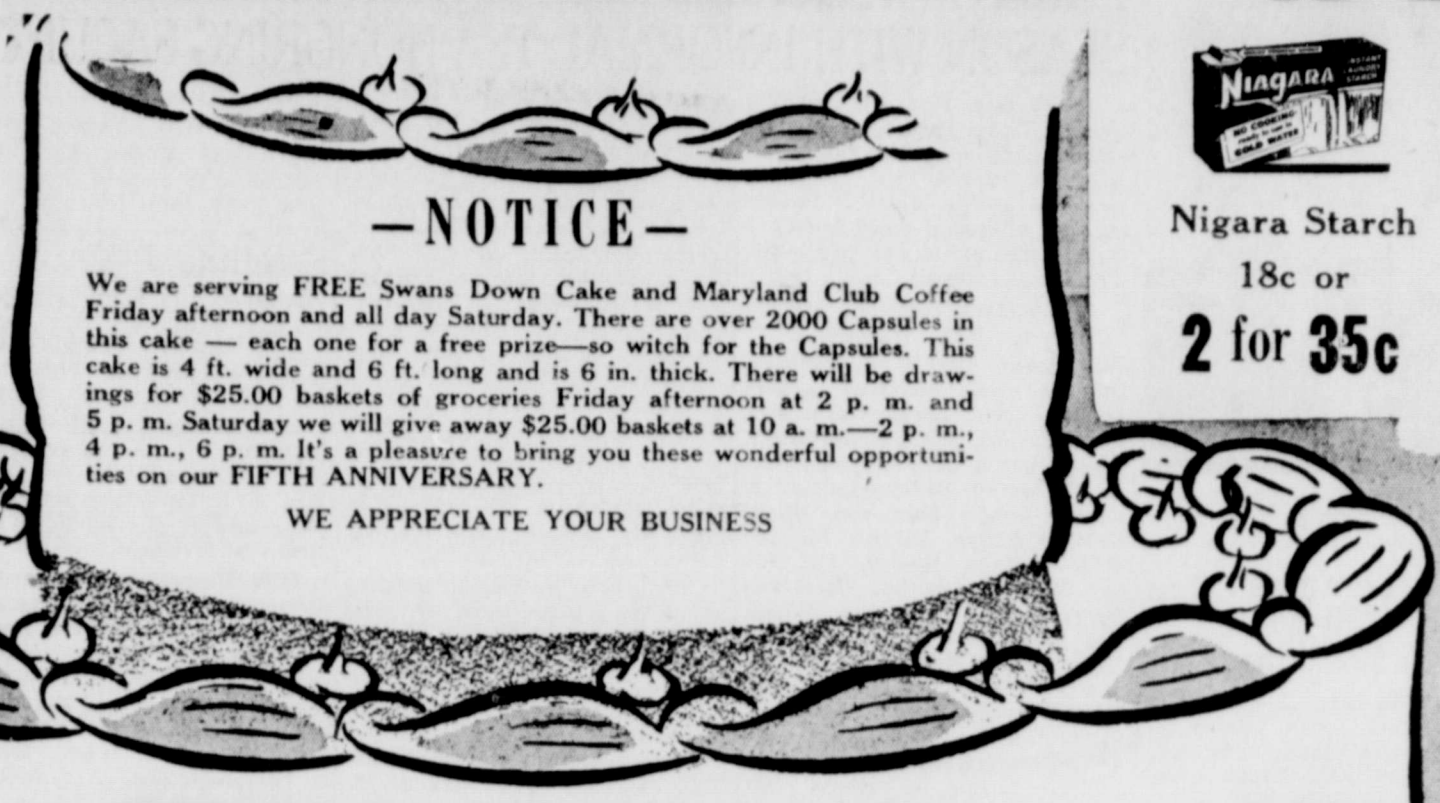

You're in for a pleasure prize at the smooth, big-car ride of this new Chevrolet. One reason is that, for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

\*Combination of Powerglide automatic transmission and "Blue-Flame" engine option. "Two-Ten" and Bel Air models extra cost.

## Range Water Program Believed for Both Texas And The Nation

EDON B. JOHNSON, U. S. Senator from Texas, today announced a long-range water program in Texas which would serve the interests of both the State and the Nation. Such a program, he said, would increase the prosperity of the State without detracting from the interests of the Nation. "We are living in a time when water is a struggle between the Federal and the State," he said. "We must not believe the wise men of our Constitution were wrong to any such struggle."

too much sun is followed by too much water, I have complete confidence in the ability of intelligent men to balance the two factors.

This, I believe, is the kind of cooperation contemplated by the founders of this Government — cooperation among the Chief of the Federal Government, the chief of the State Government, and the representative to the Federal Legislature. Surely, with such cooperation, we can arrive at a program which will benefit both the State and the Nation.

I am not certain whether the program advanced by the Bureau of Reclamation through its Austin Area Planning Office is the right one. But it does set forth the fundamental facts and figures about the Texas water problem. It does offer a basis for working out an effective approach to the problem.

We seek a solution for our Texas water problem which will preserve the rights and responsibilities of both Texas and the Federal Government.

We have a proposal which points the way to that solution, even though we have yet to determine that it is the proper solution.

We need only to make up our minds with an eye to the best interests of the people of Texas and the United States — and then act.

There is ample time for full discussion in Texas of this whole project before the next regular

## Beverly Bowerman Resumes Studies

Miss Beverly Bowerman, daughter of Mrs. M. J. Hodge of Fort Worth and granddaughter of Mr. and Mrs. T. J. Dunbar of Memphis will resume her studies at the Hockaday School in Dallas, Wednesday.

This will be Miss Bowerman's second year as a boarding student at the school. She will graduate from the Lower school this year as a member of the eighth grade.

She and her parents have been invited to an open house at the school Wednesday by Miss Marjorie Bennett, principal.

The program is designed to introduce new students and their parents to the school and each other. Miss Bowerman will assist

session of Congress. I hope it will take place.

in the activities. Lower School students will join the Upper School in a picnic, to be given by the Student Council at White Lake. That evening, the young resident students will meet in their cottages, with their counselor, for an informal "get-acquainted" session. School will formerly open next Thursday morning. Students will attend their first classes after chapel services, which by tradition are held at the beginning of each school day.

### CARD OF THANKS

### City Federation Meets For Opening Fall Session Sat.

The City Federation of Women's Club met Saturday afternoon at 2:30 o'clock at Willeford Drive-In with Mrs. Glynn Thompson, president, presiding in the first meeting of the fall season.

Reports were given by committee chairman and plans made for the year's work.

Mrs. Claud Johnson, flower show chairman, announced that the federation was unable to hold the flower show last year but plans are being made for an outstanding show this year. She urged that members make plans early to plant flowers and bulbs in order to have pretty blossoms for the show in the early spring.

Mrs. Burr Morris, youth chairman, gave a report on the youth project and recommended that the president appoint a committee to inquire as to how the federation could assist with the Teen-Corner which is being sponsored by the Junior Chamber of Commerce.

Mrs. Ed McCreary and Mrs. Robert Moss were appointed to serve with Mrs. Morris on this committee.

Mrs. Gene Chamberlain, Mrs. T. J. Dunbar and Mrs. Claud Johnson were appointed to serve on the Park improvement committee. This committee will work with the City park board in the interest of improving the City Park.

Mrs. Thompson announced that the City Federation had been reversed by free public schools in

Week which is March 1 through 6, 1954 marks the 100th anniversary of free public schools in Texas and the Governor and both legislative branches have proclaimed by decree and joint resolutions that the week beginning March 1st be observed as "Public School Week." W. C. Davis, superintendent of the Memphis Schools, is the local chairman for Memphis. Mary Foreman and Mrs. Frank Foxhall were appointed to assist with the centennial year program from the City Federation.

The next meeting is slated for December 5 at the American Legion Hall.

### Durham To Attend Democratic Meet

N. W. Durham and Dan plan to be in Mineral Wells Friday to attend a meeting of the State Executive Committee.

Durham is a member of the committee, which carries on work of the party in Texas between conventions.

The Memphis druggist and Mrs. Flossie Rogers of Bovina, are the committeemen from this, the 30th Senatorial District. There are 31 districts in all in the state, with a committeeman and a committeewoman representing each.

The executive committee will meet in the Baker Hotel.

### Friendship Night Is Observed By Pathfinders' Tues.

Friendship Night was observed by the Pathfinder's Council Tuesday evening, September 8, in the home of Mrs. W. H. Monzingo. Tuesday's meeting, the opening session for the 1953-54 club year, introduced the study theme, "The Path of Friendship."

Following the dinner, which was served buffet style, Mrs. Hall Nelson, president, conducted the business session.

Mrs. Earl Pritchett, program chairman, distributed the new year books and gave an outline of programs planned for the year.

The invocation was given by Mrs. W. D. Young.

Mrs. Hall Nelson, the new president, gave an interesting talk on "Guidepost to a Better Club."

Attending were the following members: Mes. Clarence Baxter, Barney Burnett, Gene Chamberlain, Clinton Culp, A. Gidden, A. O. Gidden, W. H. Monzingo, J. J. McDaniel, W. F. McElreath, Hall Nelson, Earl Pritchett, Robert Spicer and W. D. Young.

### VFW Auxiliary Now Has Available Student Fund Loan

Through the courtesy of the National Department to the Veterans of Foreign Wars, the local VFW Auxiliary has available this year a Student Loan Fund. This fund enables the local auxiliary to send a girl to a school of nursing.

Miss Rita Jo Hale has been chosen by the auxiliary to enter nursing training this year. She recently entered the school of nursing at Northwest Texas Hospital, Amarillo, auxiliary members said this week.

Miss Hale, a graduate of Memphis High School with class of 1953, is the daughter of Mr. and Mrs. Perry Hale of Memphis.

### FOR 'AMERICANISM WEEK' ADVANCE BEGUN BY DELPHIANS

The observance of "Americanism Week" by the Delphian Club has been launched by Mrs. Oscar Ahlgren, president, Mrs. J. E. Roberts, secretary, and Mrs. G. L. Dake, treasurer.

The week will begin Monday and continue through next Friday. The Delphian Club is cooperating with the General Federation of Women's Clubs in the observance.

The signing of the Constitution will be made for elementary school students in an assembly on the historic signing of the Declaration of Independence.

The program for the best original essay by a high school student will be a trip to Independence, Mo., Philadelphia and Baltimore in New York, Baltimore in Washington, D. C. First prize is \$100.

The Delphian Club is sponsoring a contest for the best essay on "What America Means" by a high school student.

Students who wish to participate in the contest, may contact Mrs. G. L. Dake, secretary, at 1734 N. St. Louis, Memphis, Tenn.

The national contest is being sponsored by Mrs. John L. Dake, chairman, 1734 N. St. Louis, D. C., by Jan. 1, 1954.

The subject of the contest is "What America Means." Each student must write an original essay of 500 words and not more than 1,000 words.

The contest is being held in connection with the observance of Americanism Week at the state capitol building in Austin, Texas.

The state's part toward the restoration has been \$100,000 by the General Land Office.

Florence Johnson Scott of Rio Grande City, state Americanism Chairman for the Texas Federation and past president. She says "We cannot let the shrine where the Declaration of Independence was adopted, the Constitution drafted, and our first president installed, fall into neglect."

The emphasis on Americanism was initiated by Mrs. Oscar Ahlgren, national president of the GFWC. Her announced objective is to focus attention on the benefits of American democracy with its opportunity for achievement built on respect for the rights of the individual.

Programs emphasizing American history and principles, the differences between democracy and communism, recognition of new voters, and related projects will play their part in statewide club participation in Americanism Week and the accompanying educational program.

### 9-Week Program At Local Church Makes Good Start

A nine-week Church Educational Program at the First Methodist Church here has gotten off to a good start, Rev. Lloyd Hamilton minister, said this week.

"Our members are of a mind to build," declared Reverend Hamilton. "They are like the people, described in the fourth chapter and sixth verse of Nehemiah: 'So built we the wall; and all the wall was joined together unto the half thereof; for the people had a mind to work.'"

"Certainly, co-operation has been all we could have asked for, as every committee is doing fine work. Each afternoon, the church office is full of volunteers, who help prepare letters and other matter to mail to members of the church."

Brief talks are to be made by laymen each Sunday morning during the campaign. The first talk will be made Sunday by Tommie M. Potts, whose subject will be "Co-operation." He will speak, following the morning service.

W. V. Coursey is general chairman of the campaign.

### First 1953 County Cotton Is Ginned

First Hall County cotton of the 1953 season to reach here was brought to the Memphis Farmers Co-op Gin Tuesday morning by A. P. Bruton, according to Odell Anthony, manager. The load of 2,140 pounds of Half-and-Half cotton made 476 pounds of lint and 950 pounds of seed, Anthony said.

Bruton lives on land, belonging to T. J. Dunbar of Memphis. The farm is located in the Friendship community, about 6 miles southwest of Memphis. Anthony said the bolls were fairly dry and small.

Mrs. C. L. Beason of Houston is spending several weeks in the A. Baldwin home here. She is a sister of the late Mrs. A. Baldwin.

Mr. and Mrs. J. O. Haynes returned to Kilgore Monday after visiting in the home of Mr. and Mrs. Richard Highfill. Mrs. Haynes had spent several weeks in Memphis. She also visited in the home of her father, A. Baldwin.

Miss Lillian Snow of Los Angeles, Calif., arrived here today to visit with Mr. and Mrs. Sidney Baker. Miss Snow is a cousin of Mrs. Baker. Accompanying Miss Snow to Memphis was Mrs. Chester Vancroft of Los Angeles who will visit here with her sister, Mrs. R. S. Bradley.

OUR PEOPLE CAN TAKE IT

It certainly looks good to see the buildings that were
burned or damaged in the big fire last June, being rebuilt or
repaired, and businessmen getting ready to open up again in
their old locations.

The blaze was a disastrous one. It would have been a
setback anytime, but last June, it was particularly so.

There was a serious drought—probably one of the worst
this section has ever known—and things seemed mighty dark
even before the fire. After the June conflagration, things really
looked tough.

"Will they rebuild?" and "Will they go back in busi-
ness?" were twin questions which probably everyone was
thinking, if not openly asking.

If "they,"—the building owners and the businessmen—
didn't, it would deal a damaging blow to the economic life of
Memphis and the area surrounding it.

Worried residents soon began getting answers to their
questions.

Embers were hardly cool before the businessmen were
making plans to re-open at other sites. It was true that they
would have to do business under great difficulty, but they
WERE re-opening.

And as soon as insurance settlements were made, plans
for rebuilding and repairing were launched.

Repairs on the First National Bank building have been
completed and it won't be many days until Durham's Phar-
macy will be open for business at its old stand.

Before the end of the year, both Baldwin's variety store
and Lemons Furniture Company should be back at their old
sites.

Any way you look at it, the Panhandle is a rugged country
to live in, and catastrophes, like the June fire, make it even
tougher.

But as long as we can take it and come back for more,
everything will turn out all right.

CHILD SAFETY

Now that young people are back in classrooms, drivers
should be especially careful when they pass schools and wher-
ever children are likely to gather.

One never knows when rollicking youngsters are liable
to dash into the street. The wise motorist will drive at a moder-
ate speed, constantly alert to the possible eruption of a child
in front of him, so that he can quickly bring his vehicle to a
stop if necessary.

But parents also have a responsibility in seeing that their
children do not become traffic casualties. As a matter of fact,
theirs is the greatest responsibility, because they have the most
at stake.

Parents can contribute invaluable help by setting their
children good examples in their traffic habits, according to Col.
E. B. Tilley of Houston, president of the Texas Safety Associa-
tion.

But good examples are not enough, Col. Tilley believes.
In addition, parents MUST use the authority and discipli-
ne of the home to instill in their children respect and obedi-
ence to traffic safety rules.

Children should be trained to walk and play safely at
all times, declares Col. Tilley.

If motorists, parents and children all do their best to fol-
low proven traffic practices, more youngsters will live to be-
come active adults.

HOME WORK

Press Paragraphs— QUOTING OUR NEIGHBORS

FARM INCOME IMPORTANT
The announcement by one of the major tractor manufacturers recently that production of farm tractors would be cut in half early in the month of August was a significant development. The decision reflects the decreasing demand for farm machinery caused by lower farm profits in the last eighteen months.

A spokesman for the tractor manufacturers said that retail dealers had been plagued with larger and larger inventories as farm prices dropped. The result, which has taken some time crystallizing, is reduced production of tractors by the manufacturer. This will mean unemployment for an unknown number of skilled workers in the manufacturing

field and will mean lower incomes for them and a reduction in their buying power. Thus, the plight of the farmer is beginning to be felt by manufacturers and the announcement of the tractor company recently, is a perfect example of how the cycle works. It is apparent that if this same result is not to be encountered in other industries, the profit of the farmer must be safeguarded and restored. The notion that the United States can continue to enjoy record prosperity while the farmers' net profit is annually reduced is an irresponsible one. The effects of reduced buying power among farmers are always felt by other segments of the nation's economy sooner or later. —Wheeler Times

EDITORIAL LABOR BOSSES

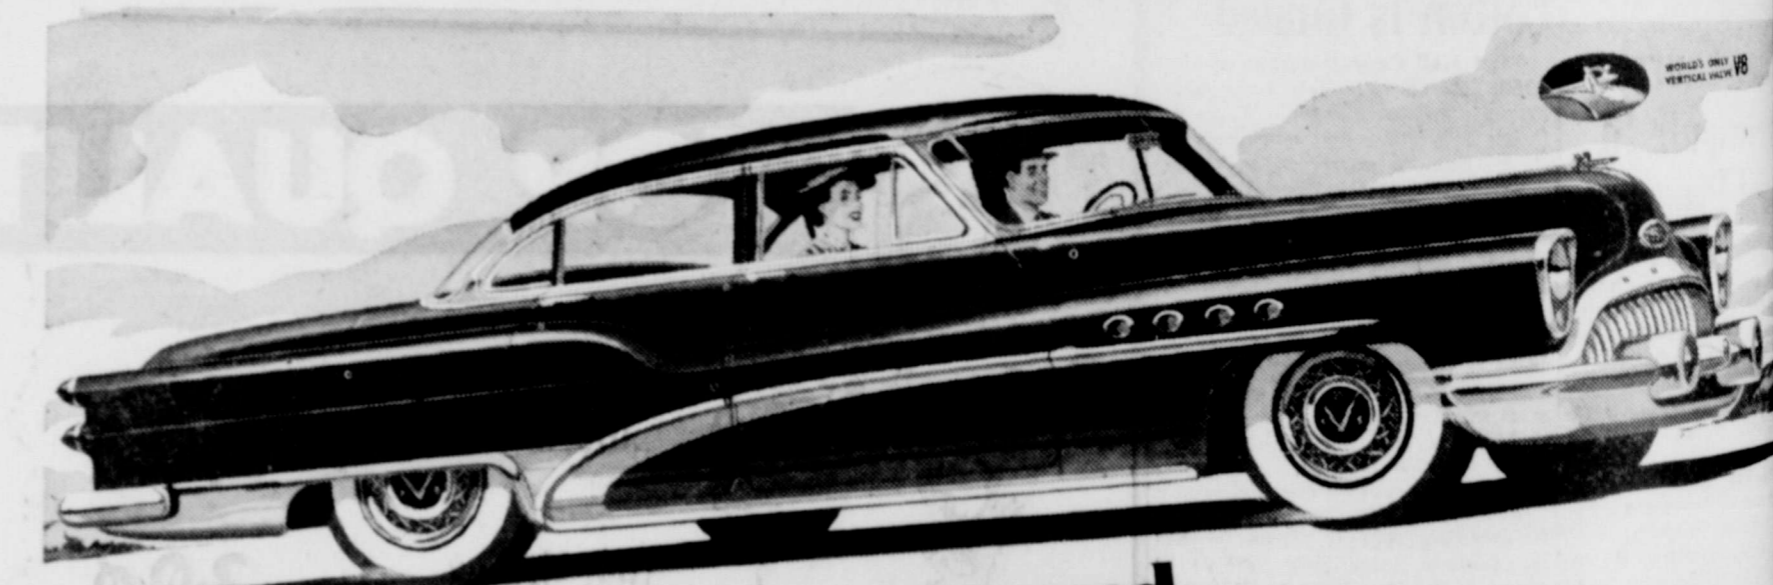

Most of us remember the days of the big-city political bosses, the big industrial bosses, and the big financial bosses. Now we have the big bosses of labor.

Whenever bosses became so powerful and venal that they rode roughshod over the general public's welfare, their dictatorial powers were curbed by law except in the case of the labor bosses. These labor bosses have not seemed to profit by the history of boss elimination. Not satisfied with using their powers to improve labor's wages and working conditions, they are following the pattern that eventually deposes all bosses and dictators, namely, a "public be damned" attitude to gain their ends—as witnessed in the paralyzing steel strikes, coal strikes, railroad strikes, public utility strikes and maritime strikes. OIL DEVELOPMENT WORK AGAIN ACTIVE; 4 RIGS AT WORK—The Radio Oil Company test well on the Sexauer place, 8 miles northwest of Memphis, was spudded in Monday and drilling begun. It is understood that pay-sand is expected to be found at a depth of about 1,800 feet, though a sand that may prove productive is expected at a shallower depth. Drilling at the Burk-Harlin-Hilton well, east of Newlin, will be resumed this week, according to Jim Powell of Newlin, who has an interest in the company which has taken charge of the well. A string of 8-inch casing has been received by the Home People's Company for their well at Deep Lake and work of running the casing is underway. Work on the Crayola well at Turkey is progressing. Rumors are current that several new tests will be started in this area within the near future. GOOD ROADS CONFERENCE DRAWS GOOD ATTENDANCE; CO-OPERATION PLEDGED—A good-sized crowd was present at a meeting of county road overseers and citizens interested in road maintenance problems, last Monday afternoon in the courthouse here. Judge McIntosh and the commissioners explained that county funds are low and that very little money can be expended on roads. A number of overseers pledged themselves to see that every available man works his full time on the roads this year.

ROADMASTER CUSTOM BUILT BY BUICK

TO you who have yet to drive a 1953 Buick ROADMASTER, we have this to say:

There is waiting for you at the wheel of this car a tremendously satisfying experience—the most magnificent Buick motoring experience of the past half century.

We say this as a matter of straight and simple fact.

For in this automobile—the smoothest-riding, the most maneuverable, and the most instantly responsive ROADMASTER in history—is an engine unlike any other in the world, plus an automatic transmission of similar uniqueness.

Here, you command the first Fireball V8 Engine—the world's first V8 with vertical valves—the modern and advanced V8 with the highest horsepower ever placed in a Buick, and the highest compression on the American scene today.

Here, you command distance through the liquid grace of Twin-Turbine Dynaflow—where getaway response is instant and quiet, and power build-up is infinitely, utterly smooth.

Here too, you take a new step forward in fine-car motoring—in the luxury of your ride, the luxury of your surroundings, the luxury of your control, with Power Steering standard equipment at no extra cost.

We can give you the details, the reasons, the facts.

But—wouldn't you rather learn the sum total of such things in a road sampling of the greatest ROADMASTER yet built?

We'll be happy to arrange matters. Why not visit us soon?

### Pre-Nuptial Shower And Party Saturday Is Compliment To Estelline Couple

On Saturday evening, September 5, a pre-nuptial shower was given to compliment Miss Wanda Bell and Jim Moore, who will be married on September 12.

A large array of beautiful and useful gifts were on display in the reception rooms. Garden flowers were used throughout the reception rooms. The refreshment table was beautifully arranged over a hand-made lace cloth over pale yellow. Lighted tapers in crystal candelabra flanked a bowl of pink and yellow blossoms. A large white satin bow with long streamers lay on the reflector. Golden punch and cakes were served as the guests arrived. Miss Barbara Adams was in charge of the registering of guests in the bride's book.

The program, composed of readings and music, was pantomimed to represent the lives of the honorees. The setting was the imaginary fiftieth wedding anniversary of the pair. Mrs. E. F. Kennedy read the narrative and Mrs. Raleigh Adams was accompanist. Vocal numbers were by Doris Chaudoin, Barbara Smith, Joe Kent Eddins and Barbara Adams. Duane Kennedy and Cara Sue Latham represented the aged couple who were looking through a photograph book. Doyle Walker represented the football hero. Wynell Bell the football queen, Gerry Kennedy and Donna Sue Eddins the kid sweethearts, Larry Moore, the kid brother, Bobby Lee Adams, the college friend, Barbara Adams and Sherman Cosper the bride and groom, and Mrs.

### Attorney General Shepperd Releases Opinions For Month Of August

Attorney General John Shepperd has released a list of his office during the month of August. The office has released 184 opinions and closed 184 opinions during the month.

Of general interest are the following: Highway Department certificate of title for motor vehicle or temporary registration; evidence of ownership to issue a Texas

future facility, and condemnation of right of access to the existing highway is not sufficient.

A county may be paid for a witness certificate which has been properly assigned to it, but the state may not pay witness fees which have been assigned to judges, clerks, sheriffs, constables or justices of the peace.

The new method of refunding the evaporation allowance on motor fuel, passed by the last Legislature, becomes effective August 26.

Coin-operated mechanical riding devices, such as hobby-horses, airplanes and boats used by children are subject to the state tax on coin-operated machines for pleasure purposes.

The new priority system for selling right-of-way property, no longer needed for highways or roads, applies only to abandoned State highway right-of-way transferred from the State Highway Department to the County. It does not apply to abandoned county roads.

Members of the Texas Highway Commission are ex officio directors of the Texas Turnpike Authority. They are required to execute a surety bond in the sum of \$25,000 before the issuance of any Turnpike bonds.

Shepperd reported that his office has won 95 per cent of all cases tried since the first of the year. During the month of August 25 cases were won out of 33 tried or appealed.

conditions attached. One of them was that he provide for two minor children. Mrs. Campbell and the children live here. She and Campbell are not divorced.

In another child desertion case, James B. Henson, received a three year sentence but also was put on probation, one of the conditions being that he furnish support for a minor child. Henson and his wife are divorced. Mrs. Henson and the child make their home here.

A. L. Harris, charged with theft over \$50, was given a three-year suspended sentence and put on probation. Harris was returned here several months ago from Sioux City, Iowa, by Sheriff Morrison, in connection with the disappearance of some property from the P. E. Montingo farm, south-east of Memphis. Harris had been in county jail since then, in lieu of \$1,000 bond.

Bill Tippett of Tell, was returned to county jail, after a defect was found in the indictment, charging him with swindling with a worthless check. The charge was filed after Tippett was alleged to have given a check to an Estelline business firm. Tippett had been free on \$1,000 bond.

The Hall County grand jury is scheduled to convene here Friday morning in a called session. County Attorney William B. Teague said Tuesday afternoon. The session is set to begin at 10 a. m. and anyone is welcome to meet with the group.

retary-treasurer. V. E. Hafner of Childress, was re-elected secretary-treasurer.

Others elected were: Fire Chief Mayfield of Dimmitt, president; T. S. Furlow, Tulsa, first vice-president; and Rev. J. F. Michaels of Wellington, chaplain.

Jimmy Don Sturdevant, son of Mr. and Mrs. O. A. Sturdevant of Memphis, was picked as mascot of the association.

Hereford was chosen as the site of the next association convention, to be held the second Tuesday in May next year.

At the morning session, Jay Taylor of Amarillo, spoke, Hafner made a report, and two small girls presented some tap dance routines.

After lunch, the meeting was resumed and various reports were heard.

This was followed by a round-table discussion, led by three visiting fire chiefs. They were John Ballew, Childress, chairman; B. W. McNeen, Dalhart, and Clayton.

Contests followed the afternoon business session.

A barbecue was held in Ellison Park at 7 p. m., followed by a dance in the Community Building at 9 p. m.

Business sessions were held in the Community Building and contests were staged on the south side of the square.
