Business Education Day Planned Here Wednesday

For a Business Education Day, teachers and students from the seventh through ninth grades will visit business firms here. While there, business men will give explanatory talks about their firms, including matters as how they operate, public relations, and other subjects.

Community, Davis pointed out this week. Farmer corroborated the superintendent's statement when he declared: "The entire business community should take an active interest in the schools of Memphis because they contribute a great deal to our economic life. Even more important, children of today will be the citizens of tomorrow and should be shown opportunities to be found here and encouraged to stay in their home towns instead of going elsewhere."

Three Unhurt In Traffic Accident Early Wednesday

Three persons escaped uninjured early Wednesday morning in the collision of a pickup truck and a car, at the intersection of Highways 256 and 83, about 22 miles east of Memphis. Both vehicles were traveling east toward Fort Sill, Okla., Highway Patrolman Clinton Culp said.

Unhurt were: Quenton E. Keith, 21, driver of the truck; Mrs. Billy Gene Daniels, 19, who was driving the automobile; and Mrs. Joe E. Gilley, about 18, who owned the car.

According to Culp, Keith started to turn left on reaching the intersection, then saw a highway sign showing him he should turn right.

Keith braked the truck and at the same time cut back to the right into the path of the car in which the two women were riding.

The women were on their way to join their husbands, who are stationed at Fort Sill, and Keith was accompanying them in the truck, which belongs to Gilley.

The time of the accident was about 4:30 a. m., and it was raining, Culp said.

The car, a 1948 Pontiac, was damaged extensively and was towed to a Childress repair shop. The 1953 Ford pickup sustained only minor damage and the three continued their trip in it.

Keith is stationed at Camp Carson, Colo.

Collingsworth Girl To Vie For State Farm Bureau Title

Representing 18 counties in this area at the state finals of the Texas Farm Bureau queen contest in Mineral Wells, Nov. 9, will be Miss Fayteen Peoples of Collingsworth County.

Miss Peoples will compete against 11 other young farm and ranch girls in a contest, which will be held in connection with the 20th annual state convention of the Texas Farm Bureau. She was chosen winner of District 1 in a contest held at Amarillo, Sept. 2 after having been chosen queen of the Collingsworth County Farm Bureau. She is the daughter of Mr. and Mrs. Denzil Peoples of Wellington.

The Mineral Wells winner will be awarded an expense-paid trip for herself and a matron escort to the 35th annual convention of the American Farm Bureau Federation in Chicago, Dec. 14-17.

Miss Peoples is a senior in Quail High School and has participated in numerous activities during her high school career. She lives with her parents on a farm near Quail.

Funeral Rites For James H. Gleaton Held Here Sunday

Funeral services for James Henry Gleaton, who farmed east of here, were conducted at 3 p. m. Sunday in the First Methodist Church of Memphis. Officiating was Rev. Lloyd Hamilton, pastor.

Burial was in Fairview Cemetery, Memphis, under direction of Murphy-Spicer Funeral Home of Memphis.

Mr. Gleaton, 63 years old, died early Saturday morning in a local hospital, where he was admitted Friday night. He had been in failing health for some time. He lived on the W. B. Scott farm several miles east of Memphis.

A native of Pilot Point, Tex. he was born Sept. 22, 1890.

He was married to Miss Ora Talley, Aug. 20, 1913, at Comanche, Tex.

The couple came to Hall County in 1926 and has lived near here ever since.

Mr. Gleaton was a member of the First Methodist Church of Memphis.

Survivors include: the wife; a son, H. E. Gleaton, who farmed with his father; three daughters, Mrs. H. N. Thompson and Mrs. L. N. Ward, both of Vernon, and Floyd Ray McClary, Denver, Colo.; four brothers, G. W. Gleaton, Brownwood, T. H. Gleaton, Anson, L. F. Gleaton, Monahans, and W. W. Gleaton, Hico; two sisters, Mrs. O. L. Arthur and Mrs. E. M. Bartlett, both of Comanche and seven grandchildren.

Palbearers were Frank Morrison, Harvey Skaggs, Frank Bayles, Elvis Pitts, George Creed and Ralph Messer.

Weatherby Thanks Local People For A Quiet Hallowe'en

Chief of Police T. D. Weatherby said Tuesday that he wished to thank Memphis youngsters for their fine co-operation Hallowe'en night. Weatherby said he received no reports of damage or destruction to property.

The police chief said he also wanted to express his appreciation to citizens of Memphis for notifying police whenever young people put barricades in the streets.

Hallowe'en, this year and last were both quieter than usual. Weatherby said, adding that he thought Memphis can be proud of such a record.

One intoxicated man was arrested Hallowe'en night and this was after midnight, the police chief said.

City Council Gives Final Approval To Request For Gas Rate Increase

Step Taken After Months Of Discussion And Study By Local Governing Body

HERMINIA SAHAGUN

Lakeview Football Queen Coronation Set Friday Night

Chosen queen of the Lakeview High School at a meeting of the squad last week was Miss Herminia Sahagun.

Miss Sahagun, the daughter of Mr. and Mrs. Lupe Sahagun of Lakeview, will be crowned by Gaylord Wiley, captain of the Lakeview football team, at the Lakeview-Esteline game in Eagle Stadium at Lakeview, Friday night.

Attendants of Miss Sahagun will be Joan Hill, who will be escorted by Terry Kirk, and Evelyn Smith, whose escort will be Jake Hancock.

Miss Sahagun was born at Fort Worth, April 25, 1935, and has lived at Lakeview 8 years.

The City Council Tuesday night approved the request of the Lone Star Gas Company for an increase in rates here. The action was taken at the regular monthly Council meeting, held in the City Hall. No one was present to protest the step.

Bills of residential consumers will be increased an average of approximately 40 per cent, according to an estimate made recently by Mayor Carl Harrison.

Observance Of FHA Week Planned At Memphis High

New officers will be installed and 33 new members are scheduled to be initiated Monday night at a meeting of the Memphis Future Homemakers of America in the high school cafeteria. The program will be a part of the local observance of Future Homemakers of America Week, according to Mrs. Mary Sue Beasley, home economics teacher here and FHA advisor. Mothers are invited to attend.

Officers to be installed are Helen Bishop, president; Wanda Widener, vice-president; Glenna Widener, secretary; Betty Lemons, treasurer; Fern Riggs, historian; Nancy Brewer, song leader; Joy Beth Parks, pianist; and Monta June Saye, reporter.

Mrs. Beasley will be in charge of installation and initiation ceremonies. Edna May, social committee chairman, will be in charge of refreshments and arrangements.

The new members are home economics students in the ninth and tenth grades.

Also on the Future Homemakers of America week calendar will be (Continued on Page 12)

Some time ago, T. J. Bridges, sub-district manager for the gas company, said in a release that the hike in gas rates would mean the average residential user would pay about four cents a day more. The higher rates will be included in the next bills which Lone Star Gas sends out. (A legal notice, concerning the gas rate increase, including a schedule of the new rates, will be found in another part of this issue of The Democrat.)

Approximately 1,300 residential and commercial customers are affected by the change, according to information, furnished by the gas company.

The request for higher rates was given its first public reading and approval, at a called meeting of the Council, Monday night, Sept. 21. The next public reading and approval occurred at the regular meeting of the Council, Tuesday night, Oct. 6.

Council members had delayed final action on the request for an increase in gas rates, since the matter was presented to them at the regular Council meeting, Tuesday evening, Jan. 6, by S. H. King, district manager for the gas company.

After the Council gave final approval Tuesday night, Bridges in a brief speech, thanked the members for their patient and courteous consideration of the matter.

In another phase of the meeting (Continued on Page 12)

Jaycee Jamboree Explodes Friday And Saturday Nights

The annual "Jaycee Jamboree" and frolic will be presented Friday and Saturday nights at Memphis High School, under the sponsorship of the Memphis Junior Chamber of Commerce. Proceeds are to be used to purchase Christmas trees and to finance a woman's Christmas tree.

Entertainment features will include the Herty Gerty Girls, who each a hit last year; a fashion show, with local business models; the Dream Breakers; Joe and Black Goof, whose show will include boogie woogie and minstrel jokes and patter; and songs by Patty and the rest of the Andrews Sisters.

There will be other choice presentations, such as the Mad Lovin' Pierre and Chloe, lately of Memphis, with their interpretation of the French style; Dr. Mordecai Callahan Green, in readings of his incomparable and incomprehensible poetic outpourings.

Show judges will include the never-to-be-forgotten Fulla Prunes. Other judges will be fugitives from South Maine.

This only hits some of the highlights, as there will be an evening of hilarity and surprises for everyone who attends.

Activities will start as soon as you get to the ticket office downstairs, where there will be special attractions, among them hula dancers and other joy makers to get you in the right mood to really enjoy yourself.

Admission is \$1 for reserved seat tickets and 75 cents for general admission tickets. Reserved seat tickets for children who sit with their parents will be only 50 cents, according to Bill Ballew, publicity director for the show. Advance tickets may be obtained from Jaycees.

A beef will be awarded at the close of the Saturday night show, and tickets are available for this phase of the show, also.

Be sure to be at the high school either Friday or Saturday night, if you are looking for plenty of laughs. Curtain time is 7:30.

School And City Tax Payments Are Reported Normal

School and city tax payments are coming along satisfactorily, a check this week indicated. A report on progress of county tax payments will not be available until later this month.

Miss Sybil Gurley, tax collector for the Memphis Independent School District, said between \$55,000 and \$60,000 in taxes were paid in October. She said this was similar to payments for the same period last year. Tax assessments for the district total \$88,401.33, Miss Gurley said.

Payments received by City Tax Collector Glenn Carlos through Oct. 31 totaled \$30,039.98. Tax assessments come to a total of \$53,081.16, according to Carlos. This means that about 60 per cent of city taxes had been paid up to that time.

Local Gun Club To Hold Shoot

The Memphis Rifle and Pistol Club will stage an invitational trap shoot Sunday afternoon, according to an announcement this week by O. I. Seale, president of the club. The shoot is scheduled to get underway at 1:30 o'clock at the gun club rifle range, located on the T. D. Weatherby farm about 1 1/2 miles northeast of town. Prizes will be awarded.

Members of neighboring gun clubs have been invited to participate and a number are expected to be present, Seale said.

DROUTH FEEDS BEGIN ARRIVING HERE THIS WEEK

The first carload of feed to arrive here since the emergency drouth program was resumed several weeks ago, was received Monday, according to Lynn L. McKown, manager of the Hall County PMA office here.

Unloading of the car, which contained 80,000 pounds of oats, was to have been completed Wednesday.

Another car—this one, containing 40,000 pounds of cottonseed meal—reached here Wednesday morning.

So far, 214 applications for various feeds, which are supplied under the drouth setup, have been taken at the PMA office here.

Another car of oats and two cars of cottonseed pellets are on order here and a car of cottonseed pellets is on order at Turkey. Applicants have requested the following amounts of feeds: 293,890 pounds of cottonseed pellets; 55,550 pounds of cottonseed meal; 66,631 pounds of corn; 139,197 pounds of oats; 60,800 pounds of mixed range cubes; and 10,900 pounds of dairy mix.

Sweetheart And Officers Elected By Memphis Band

Nancy Brewer was chosen sweetheart of the Memphis High School band during a meeting last week at the band house, according to Richard Highfill, director of music. She is the daughter of Mr. and Mrs. Roy L. Brewer, who moved to Brownfield a few months ago.

Officers for the current school year also were elected. They are Duane Ford, president; Johnnie McDaniel, vice-president; Sue Miller, secretary; Patsy Armstrong, treasurer; and Kathrine Wright, reporter.

Military officers in the band are: Buzzy Patrick, Patsy Armstrong and Sue Miller, sergeants; and Robert Breedlove, Jimmy Hill, Duane Ford, Paul Hancock and Betty Lemons, corporals.

Billy Allen Combs is drum major of the band.

TA President Visits Memphis

Robert L. Proffer, president of the Texas State Teachers Association, visited the county superintendent's office here Monday afternoon, according to Miss Mary Foreman, Miss Foreman is Hall county superintendent.

While here, Proffer discussed legislation with Miss Foreman, principally the outlook for a pay raise, which has been under consideration for some time.

A raise was approved by the session of the legislature but not put into effect because of a lack of funds.

Proffer, who is professor of education at North Texas State University in Denton, was en route to Memphis.

Homecoming For Local Ex-Students Slated Next Friday

Memphis High School ex-students will have a homecoming here Friday, Nov. 13, Supt. W. C. Davis announced Monday.

Ex-students will be guests at a luncheon at noon Friday in the high school cafeteria. Officers for the coming year will be elected during a business session.

The evening program will include attendance at the Cyclone-Panhandle Panther football game, which is scheduled to start at 7:30 o'clock in Cyclone Stadium, followed by a dance in the high school cafeteria. The dance will be sponsored by the Senior class, in honor of the ex-students.

Present officers of the ex-students association are: Billy Thompson, president; T. O. Pounds, vice-president; Mrs. Rutherford Winn, secretary-treasurer; and Mrs. Jeanette Irons, reporter.

CLAUDE'S COMMENTS

It looks like Dr. Krick has taken up his abode in this section. After having around six inches of rainfall during October, already about an inch has been recorded in November. If this keeps up, Hall County will soon be classed with the swamps of Louisiana and Florida. Haven't heard anyone kicking about too much rain yet and will likely not hear it, for all have waited many moons for a good season.

Following a good fall and winter season, it has never been known to fail making a good crop the next year.

Comments Reader No. 107 is a wonderful personality who has a bright outlook on life in spite of being confined to a wheel chair when she wants to get about. This handicap does not interfere with her enjoying friends and keeping a cheerful disposition. This noblewoman is Mrs. A. M. Sims of near Newlin. She says she never misses reading Comments.

Fires that destroyed business houses here a few months ago meant heavy financial loss to the owners. Three of the buildings have been replaced by new modern structures, and two of them are already stocked with new goods. Quite an improvement over the ones destroyed.

Comments Reader No. 108: Mrs. R. R. Thompson of 521 Brumley St., says she is a consistent reader. She has an optimistic outlook and attitude of life, in spite of the fact that for years her whole time was spent in caring for her husband who was a semi-invalid for years and almost helpless for a long time preceding his death. She says that faith in God has sustained her and enabled her to retain a good disposition.

Over 100 Million Accounts Carried By Social Security

More than 100 million accounts of the earnings credited toward social security are now maintained for the nation's workers and self-employed, John R. Sanderson, manager of the Amarillo social security office announced. Sanderson said that every worker and self-employed person must obtain a social security account number. An individual wage record for each holder of an ac-

count-number card is established by the Social Security Administration. Thereon, a cumulative record of earnings is kept for the remainder of the worker's life-time. Sanderson stated that yours and your family's benefits depend upon your social security account. Benefits are paid according to the amount of prior earnings and self-employment income on the wage record. Every worker should check his wage record account at least once every three years. Post card forms are available at the Amarillo field office for this purpose. A representative from the Amarillo Field Office of the Social

Security Administration will be in Memphis on Monday, at 10:00 A. M. at the Commissioners Court Room,

Lessons Learned In War And Calamity Can Prevent Needless Fatalities Later

War and calamities classed as an act of God (such as a tornado) may be thought of only in their destructive aspects. Yet the lessons learned from experiences of this kind can be used to prevent unnecessary loss of life in subsequent disasters.

Take the record of United States military medical personnel, for instance. By a complete, up-to-the-minute program, they succeeded in reducing the death rate

of wounded servicemen in Korea to an all-time low of 2.3 per cent for the three years of fighting. During World War II it had averaged 4.5 per cent.

Reasons for the reduced death rate were varied. However, one of the leading factors had to do with improved methods for getting the injured fighter to facilities where adequate medical care was available. Evacuation was carried out by helicopter, air-

plane, armored tank, armored hospital train—or in whatever manner suited the particular situation and assured safe and speedy transportation. The patient was moved to a hospital operating in the area or a hospital ship in the Korean waters.

The helicopter is given a large share of credit for successful rescue and evacuation. Often within a matter of minutes from the time the patient was picked up in the battlefield he could be in a hospital well behind the fighting lines receiving major surgical care. Mobile surgical units and hospital ships were completely equipped and staffed. They had the advantages of being easily moved and of being almost completely self sufficient. The former could take care of about 60 patients, and the latter in some instances had bunks for 800 patients.

Civilian hospitals in the United States also have profited by lessons gained during large scale disasters. For instance, those in areas hit by the series of tornadoes in 1953 had the chance to test the effectiveness of their own disaster plans, to strengthen any weaknesses, and to share the benefits of their experiences with other hospitals. Three of them (one in Waco and two in Worcester, Mass.) shortly after the tornadoes hit reported on their observations, and it is evident from their reports that they had a number of problems in common.

During such an emergency the job of organizing workers, both trained and untrained, so that every patient receives first-class medical care is vast. It involves, for example, the sorting and routing of patients, keeping simple but accurate records on every one treated, and maintaining uninterrupted communications. In each of the three hospitals the over-all program was directed by physicians and other key personnel familiar with the many things to be done. In no instance was it necessary to ask for volunteers, either trained or untrained. Many reported to the hospital as soon as they learned of the disaster; others indicated they were standing by if needed.

Within several hours all tornado victims had been given emergency treatment, many of them sent home or to the homes of friends, or admitted to the hospital. One institution had a new division not yet open for patients which it pressed into service; another set up army cots for temporary wards. Still a third prepared to discharge patients who were up and about and who could leave the hospital if it became necessary.

All of the hospitals concerned were convinced of the value of having a disaster plan, which they thought should be reviewed periodically and brought up to date.

Irving Leader In Per Capita Building

AUSTIN—Irving led Texas cities in per capita value of building permits issued during September with \$389.16 per person, the University of Texas Bureau of Business Research reports.

Other top cities were Arlington (\$141.58), Pasadena (\$71.65), Alamo Heights (\$62), Trinity (\$58.91), and Dallas (\$37.59). Lamesa had the biggest relative increase in September building permits—3,317 per cent more than August, followed by Brenham, 1,899 per cent; Big Spring, 460 per cent; Borger, 442 per cent; and Nacogdoches, 368 per cent.

Sunday guests in the home of Mr. and Mrs. O. V. Alexander were Mr. and Mrs. V. M. Bradley of Abilene, Mrs. Zula Gilliam, Mrs. Earl Wood and Lynda West, all of Hereford and Mr. and Mrs. N. W. Cayton and Mr. and Mrs. Don D'Armond of Spearman.

SEVEN TEXAS HUNTERS KILLED

AUSTIN—Hunting accidents in 1953 already have cost seven Texas lives, according to Howard D. Dodgen, executive secretary of the Texas Game and Fish Commission.

Dodgen cited the fatalities, all

occurring since July 1, in a plea for greater safety when hunters open the 1953 waterfowl season at noon November 6.

Deaths reported to date:

Luella squirrel hunter found dead from wound caused when he either stumbled or pulled his gun through a fence toward himself.

Pampa big game hunter killed in Colorado by another hunter. Fort Stockton predator hunter

killed by own gun. Orange man killed while fired while being dragged brush. Ranger woman killed year-old boy while hunting. Sandia rabbit hunter own gun while hunting. Corrigan man killed while climbing fence.

Cyclones Tame Bronchos District Contest, 27-0

at guard, had one of his shoulders thrown out of place but may be ready for the McLean game, when Memphis closes their regular season at McLean, Friday night, Nov. 20. Wayne Tiner, tackle, suffered a similar injury in the White Deer game, Friday night, October 23. He may be ready to go again when the Cyclones host the Panhandle Panthers, Friday night, Nov. 13.

Denny Davis suffered a knee injury during the Friday evening contest.

Jim Walker, halfback, did not see action because of a leg injury.

Jimmie Davis, a starter at halfback for the Cyclones, was out of Friday night's contest because of a head injury, suffered in the

Canadian game, played here, Friday night, Oct. 16.

Dean Sustaire and Denny Davis halfbacks, and Tamplent and Jenkins, fullbacks, were among the Memphis players who provided punch to the Cyclone offense.

Frisbie was hampered by a back condition and Tamplent took over punting chores and Carroll Gardenhire, end, kicked off for Memphis.

The Cyclones gained 386 yards on the ground to 76 yards for the Bronchos, lost 4 yards against 27. Punted 3 times for a total of 103 yards, against 7 times for 277 yards, and passed two times for a total of 61 yards, compared to 4 times for 90 yards.

Memphis intercepted two Clarendon passes and returned them for a total of 22 yards, against none for the Bronchos.

Clarendon recovered two Cyclone fumbles.

The Cyclones were penalized 35 yards and the Bronchos 45 yards.

The Memphis squad has an open date Friday night but will return to the conference wars when the Panhandle Panthers come here next week.

Report From Washington

By Walter Rogers

Congressman, 18th District

REORGANIZATION OF THE UNITED STATES DEPARTMENT OF AGRICULTURE

Since the proposed reorganization of the Department of Agriculture has caused so much comment, it occurred to me that the release issued by the Secretary concerning the changes should be given to the public. The following is a copy of the release furnished me by the Secretary of Agriculture and issued as a public notice.

"Agricultural Research Service"
It is proposed that this Service conduct all of the production and utilization research of the Department (except forestry research) and the inspection, disease and pest control and eradication work closely associated with this research. The Administrator of this Service would also be responsible for the coordination of all research of the Department.

Under the proposal the research, inspection, disease and pest control work now in the bureaus of the Agricultural Research Administration would be reorganized and regrouped. The aim is to gather together the research and the regulatory work from scattered locations within the present Agricultural Research Administration and thus provide two main activities with clear lines of authority—the research work in one group and the inspection and control work in another.

Related research activities would be moved from other agencies into this Service as follows:

- (1) The farm management and land use research from the Bureau of Agricultural Economics.
- (2) The soil conservation research from the Soil Conservation Service.
- (3) Certain grass and range management research from the Forest Service.
- (4) Cotton ginning and processing research from the Production and Marketing Administration.
- (5) The administration of the Insecticide Act and the poultry meat inspection work from the Production and Marketing Administration.
- (6) Research Development work from the Technical Collaboration Branch of the Foreign Agricultural Service.

Forest Service

This service would continue to

be responsible for promoting the conservation and best use of the Nation's forest resources.

The following activities would be transferred to this Service:

- (1) The management of publicly owned lands administered under Title III of the Bankhead-Jones Farm Tenant Act from the Soil Conservation Service.
- (2) The forest disease and pest research and control work from the Agricultural Research Administration.

Soil Conservation Service
The Soil Conservation Service would continue as the Department's technical service agency in the field of soil and water conservation and flood prevention. As such it will aid in bringing about physical adjustments in land use and in use of water to conserve natural resources and reduce the hazards of floods and sedimentation. The State offices of the Soil Conservation Service would be given greater responsibility for program formulation and execution by discounting the Regional Offices and transferring the functions principally to the State offices.

Federal Extension Service
The Federal Extension Service would continue to have the leadership for all general educational programs. This Service would act as the liaison between the Department and the Land-Grant Colleges' Agricultural Extension Service.

All work of the Technical Collaboration Branch of the Foreign Agricultural Service other than that relating to research would be transferred to this Service.

Agricultural Conservation Program Service

Not affected by this reorganization, except for change in name.

Cooperative Research and Service Division
This Division, transferred from the Farm Credit Administration by Public Law 202, 83rd Congress, would be placed in the Federal-States Relations group. The Division would carry on analysis and service activities with farmer cooperatives.

MARKETING AND FOREIGN AGRICULTURE

Agricultural Marketing Service
The marketing and distribution functions of the Department would be centralized in this service.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

PRE-REQUISITES OF CONTRACT EXPLAINED

Did you ever think what a part contracts play in your life?

Even a bus ticket involves a contract. Your commuter's ticket states the conditions of the contract on the back. They refer you to tariff regulations.

The four pre-requisites of a contract are:

- (1) Parties who can make a contract.
- (2) Consent of the parties.
- (3) A lawful objective.
- (4) A sufficient "Consideration."

In the main, with certain exceptions, any person can make a contract. For minors, persons of unsound mind, criminals or the like, the law makes special provisions.

You have "consent" when one party makes a concrete offer, and the other accepts it unconditionally.

Confusion may arise when the parties do business by letter. Suppose you write me, offering your car on given terms. I accept by letter, addressing the envelope properly, and mailing it. The contract has been made, even though the letter goes astray. Because you made the offer by mail you know that I might accept it by mail. It was your duty to check and see if I had accepted if you did not get my letter.

Suppose you want to take back your offer? If you mail your revocation before I accept, there is no consent and no contract. But if I mail my acceptance first, we have mutual consent and a contract.

You cannot, of course, take back your offer where I pay you for an option for a certain time.

We cannot make valid contracts which have an illegal purpose. If what is paid as consideration is illegal the contract is void. Examples: Contracts cannot specify a higher than legal rate of interest, cannot be made in restraint of trade, deal with betting, or aim to defraud.

A contract needs to provide for a "sufficient consideration." Each party must receive something. Suppose you promise to deliver your car to me in return for \$700. The "consideration" I receive is your car, and your "consideration" is my \$700.

Suppose I plan to add a room on my house which cuts off your view. You say: "Don't build that room and I'll give you my car." If I do not build it, my forbearance makes your promise binding. Out of this transaction, we both get something we want—a consideration.

The consideration may be an object, a promise, or an act. The law says only that such considerations must have value in the eyes of both parties.

Many think that contracts are set up amidst coils of red tape. But most contracts are informal. Mere hand signals in the Chicago Pit show the consent of the parties to the prices and amounts of grain bought and sold. A housewife doing her shopping enters into many informal contracts every week without knowing it.

(This column, based on Texas law, is written to inform—not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

OCTOBER FINES PAID TO CITY TOTAL \$491.34

Fines paid to the City of Memphis in October totaled \$491.34, Chief of Police T. D. Weatherby said Tuesday. During the month there were 19 persons arrested for traffic violations, 15 for drunkenness, and six for fighting and disturbance, Weatherby said.

The amount of money taken in from fines has been lower this year than last, the chief of police said.

Weatherby attributed at least part of this to the fact that people are observing laws more carefully this year. As an example, he pointed out that a considerable number of persons were fined for littering local streets last year. In contrast, no one has been fined on this charge so far this year.

Traffic conditions have improved and there has been less fighting and drunkenness this year also, he explained.

4 Marriage Licenses Issued In October

Four marriage licenses were issued here in October, according to Mrs. Ruby Collins, county clerk of Hall County.

Those obtaining licenses were Billy Morgan Salmon and Mrs. Evelyn Elizabeth Henderson; Donald Wayne English and Jean Evelyn Dickerson; David Ross and Myrtle Franklin Roller; and Arthur McKinley Barnes and Sallie Jane Bishop.

Man Jailed Here On Theft Charge

Albert Robison was in county jail here Wednesday, charged with misdemeanor theft, after he failed to pay a fine and costs assessed by County Judge Tracy Davis. The fine was \$5 but costs pushed this up to \$41.70.

Robison stole some household items the past weekend on a farm west of Estelline, Deputy Bill Baten said. The property was stolen from Nugon Kelly. Robison and Kelly had been staying together.

Robison was arrested Tuesday on a farm, southwest of Silvertown, and returned here by Baten. He was arraigned Tuesday afternoon.

Legion Auxiliary Members Will Sell Poppies Saturday

A Poppy sale will be held here Saturday under the sponsorship of Auxiliary members of Simmons-Noel American Legion Post. Tables at which poppies may be bought are scheduled to be located on the west and south sides of the square, Mrs. J. J. McMicken is chairman of poppy sales.

The poppies are made by disabled veterans in Veterans Administration hospitals throughout the United States. Part of the proceeds will go to these veterans and the remainder will be used in helping various worthwhile causes.

Folding beds were popular as early as 1700.

Star Agriculture

Released by The Texas Department of Agriculture

TIME FARMING provides a wholesome and healthful environment for children. It gives a measure of security if the part-time farmer's regular job is lost. It furnishes outside work and recreation, beneficial to the health. It supplies the means for profitable use of spare-time family labor and lowers the cost of living.

On the other hand, the job is confining, especially if he raises livestock. In times of crisis on the farm, he may get little sleep at night after a hard days work, frequently in hot sun or cold rain.

It costs a lot of money to get started and keep going. Land near town is expensive and supplies and equipment come high. It is hazardous by reason of drought, hail, disease and insects. This cuts deeply into earnings and sometimes capital.

A good rule-of-time to follow is get a farm that has enough acreage to bring in the income expected—and don't set the sights too high. There is a lot to do, and a lot to learn that first year.

OES Members At Fort Worth Meeting

Several Eastern Star members from Memphis and vicinity are in Fort Worth this week for a grand chapter meeting. Sessions started Monday night and will end today.

PAY YOUR POLL TAX

Poll tax paying time has rolled around again. Citizens of Texas owe it to themselves and their families, their neighbors, their communities and counties, their state and their country, the obligation of meeting this responsibility.

The right to vote is one of the foundations of our form of government. Exercising this right—and privilege—will help keep this nation strong and free.

There are people who complain—and some who even fail to vote—because Texas has a poll tax. It is true that few states require payment of a tax to vote any more, and perhaps this state will abolish this, too, some day. Right now, however, you must pay a poll tax if you want to vote, unless you are exempt.

But where can you get more for a \$1.75? Payment of this sum automatically makes you a voting stockholder in the largest, strongest, most democratic corporation in the world today.

Government in this country will stand a much better chance of staying strong and free if you—and other voters like you—study candidates and issues carefully and then cast ballots as your judgement and conscience dictate.

There are plenty of people in the world today who would like to have a voice in their governments but don't.

Would you want the time to come when you, your family and your neighbors would no longer have a say in the government of this country?

If you wouldn't, then pay your poll tax and vote every time you have the opportunity.

NATION OF FIXERS

There has been a phenomenal rise in the number of "fixers" in the United States in recent years. And it's quite all right, too, because the "fixers" we have in mind are law-abiding people. They may include you or your neighbors.

They are the people who buy countless numbers of tools, materials, paints and varnishes, "how-to-do-it" books, etc., and fix and build everything from hatsracks to houses, either because they like it, or because their budgets won't cover the expense of doing whatever they have in mind.

There are millions of them—both male and female. They do things for themselves when they can, rather than depending on someone else, as in the past.

Contributing to this trend has been shorter working hours which have given many persons far more leisure than they ever had before. Frequently, they do not want to spend all this time relaxing or in recreation, so they begin doing things they formerly hired done. When they find they are pretty good at this sort of thing—and that they also derive a great deal of personal satisfaction from it, too—there's no stopping them.

Manufacturers, quick to note this innovation and to sense its possibilities—have co-operated by making it easier for people to do for themselves.

They have placed on the market such items as new kinds of wallpaper and paint applicators; small power tools for the home; and new types of building materials—to mention only a few of the many things which non-professional repairmen and builders can now purchase.

All this is a good thing, because a lot of people who had never done it before, are learning to work with their hands.

In doing this, they are adding to their self-reliance and likewise demonstrating to themselves and their neighbors that American people are not just machines—as some alarmists have said—but are human beings, completely able to act for themselves.

press Paragraphs—

BE READY TO VOTE

The year of 1954 will certainly be one of decision when it comes to the people of Texas.

We note with interest that Charles H. Tennyson, secretary of the Texas State Teachers Association, urges all teachers of Texas to pay their poll tax receipt and be ready to vote in the primaries of 1954.

Tennyson recalls that when the teachers were trying to get a wage increase from the last session of the legislature that member after member had reported that they were not afraid of the teachers of their district because of the small number and the fact that so few of them ever paid their poll tax or took an active part in politics.

When the legislature was kick-

ing the teachers in the teeth after promising an increase in salary, we predicted that there could be a house cleaning in 1954. Naturally we do not expect the people to elect a legislature strictly upon the basis of teacher salary increase; there will be too many other issues for just this one to settle the political destiny of any legislator. But we do expect to see this problem become a major issue when the lawmakers meet in 1954.

And what about the Governor? Shivers has not carried out his pledge to the teachers, but her again the issues are too cloudy so far to determine just what may take place.

Politically, we shall see what we shall see in 1954.

SOME WATER HIGH-PRICED

Texas has never been short on big ideas. For years the talk has been of dredging the Trinity River which flows between Dallas and Fort Worth, to make it possible for navigation from north-central Texas clear to the Gulf. That sounded like a pretty big order.

But last week W. A. Dexheimer, U. S. Reclamation Commissioner stood up and laid out a plan that beat anything Texans ever heard of. His idea: Since there is an overabundance of surface water in East Texas and a deficiency in Central and West Texas, why not construct a huge canal to transport water across state?

The cost of such a gigantic project? A modest (estimated) \$1.6 billion. "Texas needs bold new concepts," this fellow told his stunned audience. Well, his idea is certainly bold enough.

We profess to be no authority

You're in the driver's seat

for less than you think

It's your money, of course—but we'd like to see you make the most of it.

That's why we want to show you the price of the big Buick SPECIAL illustrated here — to make Point #1: you can buy this great performer for just a few dollars more than the "low-price three."

But Point #2—the smart point—is this: When you put up those few extra dollars for the Buick pictured here, you're in the driver's seat of a lot more automobile.

You boss extra power—more satisfying power—walloping Buick Fireball 8 power—highest ever found in a Buick SPECIAL. You get extra room—a lot more comfortable room—real, man-sized, 6-passenger room—as much room as you get in cars costing hundreds of dollars more.

You enjoy extra satisfaction—more solid satisfaction—in the ride of this big, broad,

road-steady traveler that's cushioned by coil springs on all four wheels, and engineered with all the other costly features of the Million Dollar Ride.

And, speaking of extras—here you get, at no extra cost, a long list of standard equipment that most other cars at or near the price of this Buick charge you for, as "extras" on the bill of sale.

So, as we said—it's your money—and it's your move.

If you're aiming for the driver's seat of a hard-to-beat buy—for a lot less than you think—come in and see us soon.

ATTEMPTED JAIL BREAK TUESDAY NEARLY SUCCESSFUL—Prisoners in the Hall County jail nearly made good in an attempted jail break Tuesday afternoon.

When the break was discovered, a number of bricks had been removed from the wall directly under the west window upstairs, leaving a hole practically large enough to permit passage of a man's body.

Two of the four jail inmates had just about completed their time on misdemeanor charges, one, in fact, expiring the following day. Another is charged with automobile theft and is awaiting convening of the grand jury next Monday, while the fourth was jailed last week on a charge of attempting criminal assault upon the wife of a farmer near Turkey.

The bricks were removed with the aid of a pocket knife and a stove poker.

Texas Merchants Expecting Record Holiday Business

AUSTIN—Merchants in many Texas localities are expecting record holiday trade although sales tapered off some in September after record summer business activity, the University of Texas Bureau of Business Research reports.

September incomes in nine of 12 Texas crop-reporting districts topped August returns by 2-to-14 per cent, with Southern High Plains and Red Bed Plains in the lead. Six districts bettered September, 1952, totals with 1-to-9 per cent increases and with the Western Cross Timbers and East Texas Timbered Plains regions making the best showings.

By city-size groups, however, towns under 2,500 population registered decreases in business activity during September—6 per cent less than both September 1952, and August. Activity for the first nine months of 1953 in those towns was 8 per cent less than the same period last year.

Mr. and Mrs. Clifford Farmer attended an art show in Amarillo Sunday.

T. C. Blackmon's Visit Here After Discharge From AF

Mr. and Mrs. T. C. Blackmon and daughter Debs are visiting here this week with his parents, Mr. and Mrs. Herb Blackmon.

State Fair Mails Over \$111,000 In Checks To Youths

Checks totaling \$111,169.08 have been mailed to 687 Texas boys and girls who participated in the junior livestock and poultry auction sales at the 1953 State Fair of Texas.

The checks represent \$92,711.83 from the steer auction sale, \$8,720.16 from the lamb sale, \$6,587.68 from the junior market turkey auction and \$3,149.41 from the junior market broiler sale.

The steer auction checks went to 270 boys and girls who put up 270 fat steers in the sale Oct. 23. The prices paid a pound averaged 35.34 cents, including the champions, and 33.77 cents a pound excluding the champions.

In the fat lamb auction, 181 boys and girls put up 272 animals for sale, and the average price a pound, including the champions, was 30.72 cents; excluding champions, 28.90 cents a pound.

Eighty-eight boys and girls sold 141 market turkeys in the auction sale on Oct. 13. The average price including the champions was 96.75 cents; excluding champions, 71.75 cents a pound.

Total money received on red and white ribbon turkeys was

\$3,038.04, with red toms going at 50 cents; red hens, 55 cents; white toms, 40 cents, and white hens, 45 cents a pound, on the average.

In the broiler auction sale, 148 boys and girls sold 1,265 birds. The auction sale of blues brought \$1,554.50 and the sale of reds and whites brought \$1,594.91.

The average price including champions at the broiler auction was \$3.65 a bird; excluding champions, \$2.60. The average price a pound brought by the red and white ribbon birds was 60 cents.

A total of 176 buyers participated in the auction sales.

Two Changes In Waterfowl Rules

AUSTIN—Only two changes from last year mark the new waterfowl regulations, according to Howard D. Dodgen, executive secretary of the Game and Fish Commission.

The daily shooting period was extended until sunset and baiting was forbidden altogether.

Here are the major rules for shooting ducks and geese:

Season—From noon on November 6 through January 4.

Hours—From one half hour before sunup to sunset.

Bag limit (DUCKS)—five per

day or ten in possession.

Bag limit (GEESE)—Five per day or five in possession, including in such limit not more than either two Canada geese (or its subspecies, Hutchins or lesser Canada) or two white-fronted geese, or one of each.

Weapons—Use of rifles to kill waterfowl is forbidden; guns must not be larger than ten gauge; all repeaters or automatics must be plugged to a limit of three shells capacity.

Boats—Ducks or geese may be taken from outboard motor boat provided motor is removed from boat and placed inside the boat, or boat is secured to a shooting blind.

Federal duck stamp costing \$2.00 is required.

Mr. and Mrs. Charlie McBee came in Thursday afternoon from Corpus. They lived here until a few months ago and are planning to return. Mr. McBee left for Corpus Christi Sunday to make preparations for the move. A son, Arlis McBee, and a daughter, Mrs. Herschel Chancey, live here. Two sons live at Plainview and another at Lubbock.

THANKS To Everyone

We are proud of the tremendous response which our friends gave us last week when we held the FORMAL OPENING of our new store. It is with sincerity that we say "Thanks" to everyone who visited our store, and who complimented us upon this occasion. We are very happy, very grateful and certainly very humble.

Through the years we have attempted to operate our Pharmacy in a manner to satisfy our customers in Memphis and the surrounding area. In the future as in the past you may be sure that Durham's Prescription Pharmacy will continue to be "Reliable" in compounding prescriptions and supplying you with drugs and sundries.

Thanks, again, for helping us get back in business in the grand manner we experienced last week. --

In 1952 only 15.2 per cent of the vehicles exceeded 60 miles per hour, but this year the ratio is 23.4 per cent.
State Highway Engineer D. C. Groer said vehicles were checked over a measured distance by clocking devices placed in rural areas and near large cities.
At the same time, the Department of Public Safety reported a drop of six per cent in traffic fatalities on Texas roads this year to date as compared with last year's toll.
When it is considered that high-way travel this year is up four per cent, that makes the fatality record even better, in terms of deaths per traveled mile.
Through September of this year traffic fatalities in Texas totaled 1,661.
Nearly 36,000 persons were injured in the nine-months period this year, and property loss was estimated at \$104 million.

What the traffic situation requires is more roads, or a limit on the number of vehicles using them says Texas Highway Commission Chairman E. H. Thornton, Jr.
Limiting vehicles is not a very good alternative, Thornton believes. It is, on the other hand, a "defeatist attitude," he said, adding:
"Certainly it ought not to be invoked without first giving the people the facts and ascertaining from them which of the alternatives they want. It is their decision, and if we proceed on this premise, I have no fear as to what their answer will be."

Phillip B. Gilliam, judge if a famed juvenile court at Denver said in a speech here that America may fall beneath a tide of juvenile delinquency.
"Increasing delinquency is a greater threat to security than is Communism," the judge declared, "and possibly greater than the atom bomb. There is great danger that the nation could fall from within."
These remarks were made at a meeting of Texas judges.

Annexation laws of the state will be studied by the Texas Legislative Council.
"Annexation has become a game of chess between the big cities and the small," said Representative Tom King of Dallas, member of the committee which will direct the study.
Big cities, King asserted, have taken in territory without the consent of residents therein, and without a promise of city services.
To protect themselves, small cities have taken in large areas including farms and ranches, the legislator said.
Labor constitutes "the greatest pressure group the world has ever seen" and wants to run the government of this country, Dr. Le-

Wolman of Columbia University said at a personnel and management conference here.
Labor and farm pressure is making the government nervous the speaker said, "and a nervous government won't govern well."

New Ruling Made On Wheat Sowings 15 Acres Or Below

A recent ruling of the U. S. Department of Agriculture that producers will be required to comply with all acreage allotments established on his farm for 1954 crops in order to be eligible for price support on any basic crop has one exception. This information was contained in a USDA release, received here by Lynn L. McKown, manager of the PMA office.

Only wheat is excepted. Other basic crops are cotton, corn, tobacco, rice and peanuts.

Under the new ruling, farmers who exceed their wheat acreage allotments but do not have more than 15 acres of wheat on their farms, will still be eligible for price support on other basic commodities, provided they observe acreage allotments for the latter on their farms. Marketing quotas apply only on farms with more than 15 acres of wheat.

Farmers, with 15 acres or less, who exceed their wheat acreage allotments, will not be eligible for wheat price supports.

On Oct. 8, the Department announced that a wheat producer would have to be in compliance with all other basic commodity acreage allotments on his farm, in addition to the wheat allotment itself, to be eligible for wheat price support in 1954. The later announcement applies the same principle to other basic commodities but excepts wheat, as noted above.

Eligibility for available price supports on non-basic feed grain and flaxseed crops would not be affected by non-compliance with basic crop allotments. For instance, a producer could be eligible for price support on his oats crop even if he exceeded his wheat allotment.

Salt Fork Hearing In Austin Monday

Several groups from this area plan to be in Austin Monday morning for a hearing on the renewal of water rights on the Salt Fork of Red River. The hearing is scheduled before the State Board of Water Engineers starting at 10 o'clock.

Citizens of a number of towns in this section, including Memphis, are pushing a move for the construction of a dam on the river, probably a few miles northeast of Hedley. Cost of constructing the dam has been estimated at \$1,990,000. A distribution system to carry water to towns in the area would boost the cost to an estimated \$8,700,000.

Plans call for financing the project with a loan from the federal government. The government would be paid off over an extended period with revenue from sale of water.

THE BAFFLES

WET AND COOL WEATHER GRIPS MEMPHIS AREA

The Memphis area was included in the section of the Panhandle which had sizable amounts of moisture this week. Skies were still overcast this morning and predictions were for more showers today and tomorrow. Temperatures, which had been climbing into the 60's and 70's during the daytime, cooled off after rain began Tuesday night.

In Memphis, .60 of an inch of moisture was recorded Tuesday night and early Wednesday morning, and .33 more was added Wednesday night, to bring the two-day total to .93 of an inch, according to Weatherman John McMicken.

Fall was both heavier and lighter at points around Memphis, reports reaching here indicated. Measurements reported ranged from around half an inch to about two inches, the heavier amounts seemingly occurring south and east of Memphis.

So far this year, rainfall here has totaled 21.03 inches, which is slightly above normal. However, this does not paint a true picture of moisture conditions over this area this year, since rainfall has been spotted and unevenly distributed. As a matter of fact, nearly seven inches of the precipitation received here has fallen within the past three weeks, a time when no major moisture is usually expected.

Much of the rain has fallen in such a way that ground has gotten maximum benefit from it and this section has the best underground moisture since 1950 heightening crop prospects next year.

Temperature extremes during the past week are as follows: Last Thursday 46-76 degrees; Friday 43-66; Saturday 46-68; Sunday 44-72; Monday 43-75; Tuesday 42-71; Wednesday 46-56. This morning's low was 42 degrees, according to McMicken.

1954 Budget For Hall County PMA Is Cut To \$63,800

The 1954 budget for the Hall County Production and Marketing Administration totals \$63,800, according to Lynn L. McKown, manager of the PMA office here. This is less than half the money allotted to the county PMA in 1951, McKown said. It also is considerably below this year's figure.

McKown said the cut will not affect office personnel here but that there will be less money to pay out for conservation purposes.

In 1951, the county PMA was allotted \$135,000. In 1952, the amount was \$91,600, and this year, was \$87,600.

The PMA office manager said the federal appropriation for the entire PMA setup this year was 195 million dollars, compared with 250 million dollars last year. Sgt. Billy Archer PI—1-24

Sgt. Billy Archer, who recently returned to the United States from a tour of duty at Manila, Philippine Islands, will speak on "Religion Among the Natives," at the Church of the Nazarene Sunday school here, Sunday morning. While in the Philippines, Sergeant Archer worked with missionaries in his spare time.

Sergeant Archer is here on furlough to visit his mother, Mrs. E. G. Archer. From here, he is to go to Florida, where he expects to be stationed for the duration of his military service.

Heavy Fine Paid By Man In Theft Of Auto Fixtures

Bud Albert of Lockney, was released Monday after paying a fine and costs totaling \$144.10, in connection with the theft of some tires, tubes and wheels from the T. E. Lenoir farm in the Plaska community. The theft occurred about Oct. 4.

The tires and tubes were taken off Albert's car but the wheels had not been found Wednesday morning, Deputy Bill Baten said.

Albert was arrested near Lockney Friday afternoon and returned here Saturday from Floydada by Baten, on charges of misdemeanor theft.

He remained in county jail here until his arraignment in the court of County Judge Tracy Davis Monday.

Another suspect was being sought Wednesday in connection with the case.

Albert lived here before moving to Lockney.

In one of our letters, written while on the trip, we told you about Vermont being a beautiful state—in fact, we think it is most beautiful of all 48 states. Since we down this way rarely, if ever, get a taste of 100% maple syrup, and since Vermont is claimed to be the capitol of the maple sugar industry, a few facts about that phase of production is given herewith.

The maple tree, like sugar cane and sugar beets, has a capacity for storing an unusually high concentration of sugar in its sap. Normally, Vermont sap tests about 2 1/2% sugar. A farmer has to reduce about 35 gallons of sap to produce one of syrup. This high concentration is in part, responsible for the brilliant foliage in the fall. This sugar, so tasty as a food, contains energy derived from the sunlight of the previous summer. This is stored in starch in the roots and trunk until in the winter it is changed to sugar, and is found just inside the bark at tapping time, usually early in the spring. The sugar content and flavor vary widely from tree to tree and from season to season. The trees are tapped and the sap flows into pails attached to the trees, which are then gathered up, taken to the "sugar house" where it is processed into sugar, syrup, candy, and many other by-products.

Vermont had 3,127,000 trees tapped in 1950; New York had the next highest, 2,460,000 trees. Vermont farmers received that year \$2,862,000 for maple sugar and syrup. Other products in Vermont that year brought as follows: Dairy products \$65 million; cattle and sheep, \$13 million; eggs, \$6 million; chickens, \$2 1/2 million; hogs, turkeys and other \$2 million; field crops of hay, potatoes, truck crops, other \$4 million; apples and other fruits \$2 million; forest and nursery products, \$12 million. Grand total of all products \$110 million dollars. The above figures give one an idea of what a New England farmer grows for his income.

Halloween Carnival Nets \$466 Profit Saturday Evening

The annual Halloween Carnival at the high school Saturday night made a profit of \$466.36, according to Mrs. Edwin A. Smith, Jr., one of the general chairmen of the event.

The money will be divided equally between the children's welfare funds of the Wm. B. Travis and Stephen F. Austin Parent-Teacher Associations, Mrs. Smith said.

The carnival was acclaimed a complete success, with everyone young and old, reported to have had a good time.

Mrs. Smith said the Travis and Austin P-TAs wished to thank members of the school board for providing facilities for the event, and faculty members and the janitor's staff for their able assistance, and parents and friends of the children for their fine support of the carnival. She said P-TA members wanted to thank youngsters present for their good behavior.

Mrs. Smith also expressed appreciation of both P-TAs to the Memphis High School students who presented the operetta, "Otello," based on the Shakespearean play.

Participants in a "Womanless Wedding" were as follows: Groom, Bill Ballew; bride, Bill Cosby; best man, Morris Odom; maid of honor, Odie Sturdevant; father of the bride, Charles Galloway; mother of the bride, Royce Frisbie; ring bearers, Ben Parks, girl and Roy Howard, boy; flower girls, Tom Posey, Lewis Wells and Hershel Potts; preacher, Rev. Burr Morris; and singer, M. D. Gunstream. Shirey Patrick furnished music for the occasion.
