

Studies Are Underway Over State Preliminary To Setting Game Seasons

AUSTIN—Staff employees in various parts of the state are making studies preliminary to setting major game harvest seasons, says Howard Dodgen, executive secretary of the Game and Fish Commission.

The Commission will meet in Austin in July to make its recommendations on waterfowl, white-wing dove and mourning dove regulations to the United States Fish and Wildlife Service which sets the seasons.

At the same time, the Commission will determine harvest specifications for areas where it has regulatory powers, including the major zones west of the Pecos and in the Panhandle and in smaller regions at scattered points in the state.

The seasons on big game and quail for the state at large are set by law.

Now, Commission staffers are surveying the antelope herds, checking potential whitewing flights in Mexico and inventorying mourning doves.

Meanwhile, meetings between sportsmen and Commission representatives are going ahead in the Panhandle west of the Pecos and in smaller areas over which the

Commission has regulatory authority to determine harvest dimensions on the basis of current developments.

Data likewise is being accumulated, according to the executive secretary, to background the state's recommendations to Federal authorities on the duck and goose seasons.

The director of wildlife restoration, W. C. Glazener, reported that the first completed census—that on antelope in the Big Bend area—indicates possibility of too few mature bucks to warrant an open season there this fall. The area has been scourged by drought.

The aerial survey in the Panhandle, which last year had its first antelope hunt in modern times, after successful restocking is just getting underway.

Whitewing dove studies in the Rio Grande Valley and in the area southward in Mexico where the fleet birds sometimes concentrate, have been rather pessimistic to date, according to Glazener. The whitewing population, harassed by habitat shrinkage, reached an all-time low last fall and the annual harvest was disappointing.

SHE'S BOILERMAKER . . . Greta Morgan, in U. S. for visit, sails from New York for Vienna home, where she manages a boiler factory.

Change In Social Security Becomes Effective In July

Since the social security law was amended in 1950, the term "six quarters of coverage" has been used so extensively to denote a fully insured status for eligibility to old-age and survivors insurance payments that many people have come to accept this as being all that is required for a fully insured status for everyone. Beginning in July of this year this will no longer be true.

In order to be entitled to social security retirement payments an individual must be "fully insured." Any calendar quarter in which an individual works in employment covered by the social security law and is paid wages of \$50 or more, is counted as a quarter of coverage. Also any year in which an individual owns or operates a trade or business, covered by social security, will be given credit for four quarters of coverage if his net earnings are \$400 or more.

No one can be insured, and benefits be payable, whether it be in case of retirement or death, unless the individual has at least six of these quarters of coverage. Since 1950 until the present time, this minimum of six quarters of coverage was all that an individual needed to have a fully insured

Area Soldiers Taking Advanced Training

Two soldiers from the Memphis area recently were assigned to the Anti-aircraft Artillery Replacement Training Center at Fort Bliss, for their second eight weeks of basic instruction.

They are Pvt. Leald W. Payne, son of Mr. and Mrs. Troy Payne of Lakeview, and Pvt. Malcolm L. Kennedy, son of E. Kennedy, 1206 Brice Street of Memphis.

The two servicemen are receiving training in the skills of anti-aircraft artillery, following eight weeks of training in fundamental infantry subjects.

During this phase, they will be schooled in the firing of light and medium anti-aircraft artillery weapons at low-flying and high altitude aerial targets and also will be familiarized with the various

status.

A representative from the Amarillo Social Security Office will be in the Commissioners' Courtroom in Memphis, starting at 10 a. m. Tuesday.

electronic equipment used by the AAA-RTC.

Upon completion of this second eight weeks course, Payne and Kennedy will graduate at a formal parade and retreat ceremony. They will then be eligible for assignment in a permanent anti-aircraft artillery unit.

Mr. and Mrs. John R. Hudman and son, Don, of Houston, have been visiting this week in the home of her parents, Mr. and Mrs. H. Byrd.

Mrs. Lloyd Martin is visiting in Marlin this week with her parents, J. N. Helm, Sr., of Newlin.

Mr. and Mrs. Ray Jones and family are in Fort Worth, Texas, left over the weekend, after visiting with Mrs. J. M. Long and Mrs. Long.

Mr. and Mrs. Lawrence and family are in Fort Worth an indefinite time as Mr. is employed there at the present time.

Mr. and Mrs. Clyde and children, Judy and Tom, Liberal, Kans., have been visiting their vacation with Smallwood's parents, Mr. and Mrs. J. N. Helm, Sr., of Newlin.

Malathion Called Fine Insecticide For Home Gardens

COLLEGE STATION—Malathion comes about as close to an "all-purpose" insecticide for home garden use as anything now available.

It has many of the same properties as chemically powerful and poisonous parathion, but is less toxic to man and warm-blooded animals, says Neal M. Randolph, extension entomologist.

Malathion is an effective weapon against a host of insects which attack ornamentals, vegetables and fruits—scales, aphids, lacebugs, mealybugs and most leaf chewing insects.

In addition, it is recommended for use in dairy barns and poultry houses.

On sale at most garden stores under various trade names, several companies are using the basic chemical in formulating their garden insecticides, Randolph says.

The entomologist advises users of malathion to follow the manufacturer's directions. Although it's a well-rounded insect killer, the odor is offensive to some people and it is somewhat expensive. It should not be applied to fruits and vegetables later than 10 to 14 days before harvest. Nor should it be applied directly to any animal, Randolph adds.

Mrs. W. B. Wilson, Jr., and daughter Pat are visiting with her mother, Mrs. Clarence Gosch.

"Please—Miss Ryan—You're Wrinkling my Sanitone Dry Cleaned Suit!"

For shame, young man! Everybody knows it takes more than that to knock the perfect, long-lasting press out of a Sanitone Dry Cleaned garment. And don't think you'd rate those caresses, either, if Sanitone Dry Cleaning hadn't made you look so immaculate—so well-groomed—so, shall we say, irresistible! Call for Sanitone Service today.

Why America's sold on Ford!

With the most modern engines in the industry... the newest ride in 20 years... the best looks on the road... and all the power assists you want*, Ford is America's "Worth More" Car.

There's a big reason why more and more price-conscious buyers are swinging to Ford. It's because Ford's just plain worth more. What other low-priced car, for instance, offers a deep-block, low-friction engine? Ford's new Y-block V-8 and I-block Six are America's most modern engines. And what other car in Ford's field has Ball-Joint Front Suspension, a long, low Crestmark Body and such extra-cost driver assists as power on all-four windows and a 4-Way Power Seat?

Ford is worth more when you sell it, too!

No other cars in America are returning a greater percentage of their original cost than year-old Fords... another big reason why Ford owners stay Ford owners.

We cordially invite you to come in and Test Drive a '54 Ford

Now you can protect your car against both friction and acid—the two major causes of engine wear

NEW CONOCO Super MOTOR OIL America's First Double-Duty Oil!

Protection 1

OIL-PLATING*

conquers friction wear... because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

Protection 2

ACID-PROOFING

conquers corrosive wear... because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has

been stopped overnight. Thus you get full-time protection against damaging wear due to friction.

Exclusive Acid-Proofing additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. ACID-PROOFING actually gives new Conoco Super twice the cleansing power of other premium oils!

New Conoco Super Motor Oil is on sale at Conoco dealers everywhere. Drive in and ask for it today!

Your Conoco dealer will recommend the right grade of new Conoco Super Motor Oil for your car, your climate, your driving conditions.

Lieut.-Governor Candidate Here Friday Afternoon

C. T. Johnson of Austin, was in Memphis Friday afternoon on a swing through this part of the state in the interest of his candidacy for lieutenant governor on the Democratic ticket.

Johnson, 43 years old, is running on a platform that calls for a state communications commission, elected by the people, to regulate and "reduce high telephone rates." His platform also lists a state-wide water conservation program as a dire necessity.

Johnson also advocates \$100 per month pensions for eligible citizens at the age of 65 and a \$1,000 bonus to all veterans. He also believes all veterans should be eligible for benefits of the Texas Land Grant Bill.

While here, Johnson spoke on the courthouse square.

MYF Meeting At Clarendon Friday

Home Gardens Help To Budgets Of Many Texans

Home gardens are considered an important adjunct to the livelihoods of a great many Texans, including Hall County residents, according to County Agent W. B. Hooser. Bearing this out is the

fact that an estimated 505,846 gardens were planted in the state in 1953. Indications are that an even larger number will be planted this year.

A good home garden represents a saving to the family food budget and also serves as a source of supply for garden-fresh vegetables of unsurpassed quality, says the county agent.

Residents of this area are urged to make plans to "Garden More in '54." Hooser explains that good

gardens are the result of forethought and follow through on the part of gardeners.

The following rules for successful home gardens are listed by Hooser:

1. Plan the garden in advance—it is better to have it on paper, but at least have a complete plan of procedure in your head.

2. Keep it small—don't let the garden fever influence you to plant more than you can properly

care for.

3. Don't plant everything at one time—this causes over-production for a short time and then the supply is gone. By making a succession of plantings you can enjoy top quality vegetables for a much longer period of time.

4. Plant a variety of kinds of vegetables—a well balanced garden should include at least 10 to 12 different vegetable crops. Don't get in a rut — there are about 32 garden vegetable crops

that are commonly grown in Texas so why not try at least one new vegetable each growing season.

5. Plant only the varieties of vegetables that have been tried and proven to be adapted to your area.

The first amphibious operation conducted by the United States occurred in 1776 when a party of Marines and sailors effected a landing at Nassau in the Bahamas.

Hays-Clark Nuptial Vows Solemnized In Pretty Church Service Saturday

Stonewall Inn and Colorado Springs were the destinations of Mr. and Mrs. John Dandridge Clark when they left for their wedding trip following their marriage Saturday evening in Memphis.

The bride is the former Miss Fatsy Sue Hays, daughter of Mr. and Mrs. Devricks Hays. The groom is the son of Mrs. Robert Ernest Clark and the late Dr. Clark.

The double ring ceremony was read in the First Baptist Church by the Reverend Fern Miller, pastor.

Nuptial music was provided by Mrs. T. L. Rouse, church organist and included "Liebstraum" by Liszt, "Always," "I Love You Truly" and "No Other Love." Mrs. A. L. Gailey sang "Oh Promise Me," "Because" and "Wedding Prayer." "Traumerl" by Schumann was played softly during the ceremony and the traditional wedding marches were used for the processional and recessional.

Members of the bridal party approached the nuptial space along a center aisle marked by white gladioli and white satin bows. Centering the altar space was a fan arrangement of white satin, against which were banked white gladioli, jade palms and white caladiums. The rays of the setting sun blended with the soft illumination of candles which flanked each side of the altar reflected from the white satin background. Marble urns of white gladioli completed the setting.

When given in marriage by her father the bride was wearing a gown of candlelight imported chantilly lace. The bodice was designed with a yoke of illusion, the neckline of which was appliqued with delicate points of seed pearls. The long sleeves extended into points over the hands. The floor length skirt was fashioned of lace over tulle. Cascading flounces of lace were attached to a peplum into a chapel length train. Her finger tip veil of French illusion was attached to a lace calot intricately fashioned with tiny pearls and beads. Appliques of lace outlined the edges of the veil. She carried a cascade bouquet of step-onotis and Fleur de amour centered with a white orchid.

For something old the bride carried a handkerchief belonging to her grandmother, Mrs. P. B. Barrett; for something new, her bridal costume; for something borrowed, the veil belonging to her sister, Mrs. Jerry Hays. She also wore blue garters and the traditional six-pence in her shoe.

Mrs. J. W. Price of Electra attended the bride as matron-of-honor. She was attired in a gown of fuchsia antique taffeta. The bodice featured a rounded yoke

which ended in tiny pleated sleeves. The floor length fourtuff skirt was worn over crinoline. Her tiny hat was of the same material as her dress and she carried a nosegay of feathered pink carnations.

A quartet of bridesmaids consisted of Mrs. Jerry Hays of Amarillo, Miss Angeline Smith of Goldthwaite, Mrs. Robert Clark of Dallas and Miss Linda Sue Wilkinson of Mesquite. They wore dresses of pink antique taffeta fashioned on identical lines as that of the matron of honor. Their hats also were of self material and they carried nosegays of Pelargonium carnations.

Prior to the ceremony the candles in the nuptial space were lighted by J. W. Price of Electra and Jerry Hays of Amarillo.

Mrs. Hays, mother of the bride, wore a dress of turquoise lace and crepe. Her corsage was of white carnations. Mrs. Clark, mother of the groom, chose Franklin original dress of French blue crepe. Her corsage was of pink carnations.

Dr. Robert Clark of Dallas attended his brother as best man. Other masculine members of the wedding party included Jerry Hays of Amarillo, Sheldon Anisman of Memphis, Jerry Gilmore, of Dallas, Dr. Harold Hunt of Paris, and J. W. Price of Electra.

The newlyweds were honored with a reception immediately following the ceremony. The lace covered table was centered with an arrangement of regal lilies and baby breath backed by double wedding rings. The lilies were grown and arranged by Mrs. R. H. Wherry. White candles in crystal candelabra completed the arrangement.

Mrs. L. G. DeBerry served the wedding cake and Mrs. C. C. Hodges presided at the punch service. Miss Anna Lou Coggin of Brady secured names for the guest register, and Misses Jeannine Miller and Laverne Rollins of Memphis directed the guests. Others assisting in the house party were Mrs. Harvey Wines, Mrs. Lynn McKown, Mrs. O. E. Goodall, Mrs. H. J. Howell, Mrs. D. L. C. Kinard and Mrs. J. M. Wherry.

For her wedding trip to Colorado, Mrs. Clark chose a brown linen suit with brown and white accessories. Her corsage was the white orchid from her wedding bouquet.

The bride is a graduate of Memphis high school and is a senior in Baylor University where she is majoring in Speech. Her high school and college affiliations include membership in the National Guild of Student Musicians; Memphis Cyclone band; accompanist for high school choral club; National Thespian Society; Baylor Golden Wave Band, Baylor Symphony in White; National Phi Beta Mu Sorority. She also repre-

MRS. JOHN CLARK

sented Baylor two years in the state poetry festival.

The groom is a graduate of Memphis high school and was graduated from Baylor University in May of this year at which time he received the Degree of Bachelor of Business Administration. He was a member of the Memphis Cyclone Band, the Baylor Golden Wave Band, the Baylor Radio choir, and Alpha Phi Omega Fraternity and The First Families of Baylor Club.

On their return Mr. and Mrs. Clark will be at home at 1012

South Eighth Street in Waco, where the groom is employed by the U. S. Trust and Guaranty Company.

Out-of-town guests included: Mr. and Mrs. Tom J. Freeman of McGregor, the Reverend and Mrs. J. W. Hunt and Miss Louise Hunt of Garland, Dr. and Mrs. T. E. Hunt, Sr., and Dr. Harold Hunt of Paris, Guen Hopkins of Dallas, L. E. Clark, III of Dallas, Mr. and Mrs. J. G. McAnear and Dorothy McAnear of Clarendon, Mr. and Mrs. P. B. Barrett of Vernon, Mr. and Mrs. Bryan Jones, Rex and

Mrs. J. W. Price of Electra, Jerry Gilmore of Dallas, Linda Sue Wilkinson of Mesquite, Angeline Smith of Goldthwaite, Anna Lou Coggin of Brady and Mr. and Mrs. Jerry Hays of Amarillo.

REHEARSAL DINNER

In connection with the rehearsal for their marriage Miss Hays and her fiance were honored with a dinner party in the home of the groom's mother, Mrs. Robert Ernest Clark Friday evening, June 11.

An epergne arrangement of white phlox and double pink larkspurs centered the table from which the buffet-style dinner was served. At the conclusion of the dinner the bride and groom presented their attendants with gifts of jewelry and bill folds.

Zint Family Holds Reunion

Mr. and Mrs. Z. T. Zint of Estelline have returned from a visit with their children in Amarillo. While they were in Amarillo they attended a family reunion in Thompson Park on June 6. Sixty-four persons enjoyed the day in the park with a picnic dinner being served at noon.

Attending were: Mr. and Mrs. W. D. Ellison of Quitman, Texas, Mr. and Mrs. C. L. Mixon of Clarendon, Mr. and Mrs. Hollis Boyd and family of Snyder, Texas, Mr. and Mrs. Leon Mixon and family of Dumas, Mr. and Mrs. J. C. McBrayer and family of Dumas, Mr. and Mrs. Otis Mixon and family of Dumas, Mr. and Mrs. Ted Richards and family, Mr. and Mrs. Claud Mixon and family, Mr. and Mrs. George Zint and family, Mr. and Mrs. Edwin Zint and family, Mr. and Mrs. Calvin Zint and son, all of Amarillo, Mr. and Mrs. C. C. Turner and baby of Houston, Mr. and Mrs. Baynard Carthell and family of Plainview, Mr. and Mrs. C. L. Zint of Hedley, Mrs. Perry Lambert and family of Brice, Mr. and Mrs. Truman Mabrey and family of Tell, and Mr. and Mrs. Z. T. Zint of Estelline.

Brush And Tree Control Raises Stature Quality

COLLEGE STATION—Scores of Texas farmers show a keen interest in the control of range brush and trees and an increased number have taken up in this battle of the "brush wars."

Dean of Forest and Wildlife Parks in Cherokee county joined these ranks and reports he is killing 10-inch trees only two-and-a-half cents. The pair last fall treated 12-inch gum, elm, oak and other trees with 2,4,5-T. Today report 90 to 100 per cent and no sprouting from the

obtained his two-cent per gallon with one quart of 2,4,5-T. This is cheaper than chopping down and dragging them away. He says he is chaining 200 acres in the C. Morehouse, who is west of Benjamin in Cherokee county, can account for 25 per cent more grazing. The new brush grass stands also help increase erosion.

brush country of McMullen county is progressively becoming more open, says William E. Hodgin, county agent. In the county is being cleared at the rate of 100 acres a day, estimates. "If you're only half through brush and trees are down," Murray Holland, McMullen county agent, says. "If you don't vacate the land you give grass a chance to grow, you're not much better off than before."

close relationship between the number of dead oak trees was observed recently by touring farmers on the Miller Ranch in Young county. Hodgin says its stocking capacity is 450 per cent greater on

LAFF OF THE WEEK

"I'm afraid 'Old Cast-iron Stomach' is feeling a little rusty this morning."

Better Politics In Local Government Urged By Speaker

GALVESTON—Dr. Stuart A. MacCorkle, University of Texas Institute of Public Affairs director, called for better politics in local government when he addressed the Texas Chamber of Commerce Managers Association at its annual convention here.

"Nothing is so important to America's welfare today as a strong and wholesome local government," he declared. "Too few of us realize that if we are more successful in meeting our local problems the national ones will come pretty near taking care of themselves."

Meeting local problems at the local level will help prevent government centralization, "the curse of the world," Dr. MacCorkle asserted. He urged individuals to "take an unselfish hand" in government operation, "not just once every two or four years, but week by week and day by day."

"It is easy to criticize and condemn local government," Dr. MacCorkle added. "It is something else to improve it. Too few of us are ready to make the sacrifice in time and money to correct the ills and faults we are so skillful in pointing out to our friends."

Dr. MacCorkle reported more college-trained people are going into city government on a career basis, and said Texas colleges and universities are attempting to meet the demand by providing adequate courses of study.

Sports Fish On Coast Recover In Past Three Years

ROCKPORT—Reports indicate Gulf Coast sports fish have regained the population losses caused by the severe freeze three years ago, according to C. W. Reid, chief marine biologist of the Game and Fish Commission.

Reid said that, while sports fishing itself has been only fair because of prolonged windy weather, marine biologists have checked various areas to ascertain the comeback dimensions.

Marine Biologist Ernest Simmons, who operates in the popular Laguna Madre area, reported that the favorite redfish and trout have been restored in good numbers and that many large trout are being caught. Strangely, he observed that many drum moved out of the Laguna during the heavy salt period last summer. Salinity apparently killed small shells which the bottom-feeding drum live on.

The chief marine biologist said a typical comment on the present coastal fishing was made in the Rockport Pilot column, "Along the Waterfront": "Two men went out. They got 65 trout. They say there are plenty of fish if the wind would calm down."

Air Cooler Boom Underway In Texas

AUSTIN—An air-conditioning boom is on in Texas and surveys indicate small towns are keeping pace with big cities in cooler-unit sales, the University of Texas Bureau of Business Research reports.

A Central Texas survey shows that in 1940 Smithville, Fredericksburg and Lampasas had no units, Hallettsville, 1; New Braunfels, 3; and Georgetown, 4. By 1954 Lampasas had 897 units; New Braunfels, 695; Georgetown, 599; Smithville, 310; Fredericksburg, 135; and Hallettsville, 118.

More than 25 per cent of 1952 (correct) U. S. sales were made in Texas, the Bureau asserts.

Mr. and Mrs. Gaines McAbee and son, of Dallas, are visiting this week with his sister, Mrs. Louis Edwards, and family.

Holmes McNeely arrived from Houston Friday to assist his mother, Mrs. M. McNeely, reopen her home here.

Locals and Personals

Mr. and Mrs. Dwight Kinard visited in Abilene over the week end with his brother, Cearley R. Kinard and family.

Mr. and Mrs. Lawrence Kennon and family have returned from South Carolina after spending a week there with their daughter and her husband, A/2c and Mrs. Robbie Clark.

Mr. and Mrs. John Bass of Amarillo and their daughter visited here Sunday with his mother, Mrs. Geo. Bass.

Mr. and Mrs. E. H. Rasco took his father, A. G. Rasco, to Abilene on Monday of last week. They visited in the homes of Mr. and Mrs. V. J. Jones and Mr. and Mrs. T. J. Yarbrough, returning home Friday night.

Alvin Bishop left Monday for Lubbock where he will seek employment for the summer.

Mr. and Mrs. Byron Baldwin and Mrs. T. L. Rouse were in Clarendon Sunday to attend the funeral service of Mrs. W. A. Land. Mrs. Land was a cousin of A. Baldwin and was killed in a car wreck near Amarillo Friday. Mrs. Buel Sanford, a sister of Mrs. Land, was also injured in the accident and is in a serious condition in an Amarillo hospital.

Mrs. Claude Betts of Memphis and Mrs. Dwight Betts and daughter, Mary Idell of Amarillo are visiting in Ennis, Okla., this week with Mr. and Mrs. Dick Betts and Dwight.

Mr. and Mrs. Clifton Burnett had as guests Sunday Mr. and Mrs. Benton Beasley and daughter Sally of Amarillo.

Mr. and Mrs. John Shadid and Mrs. Claude Hickey attended Market in Amarillo Sunday.

Mr. and Mrs. James Arthur Anthony and children left last week for Albuquerque, N. M., where they will make their home.

Miss Dorothy Deaver left Monday morning for New York City where she will be employed for the summer months. Miss Deaver went by way of Muskogee, Okla., where she was joined by Miss Jeanne Way, who is also going to New York for the summer to study music.

Mr. and Mrs. F. O. Conner of Lockney and Mrs. Ray Taylor of Dallas were Sunday guests in the home of Mr. and Mrs. J. V. Dennis.

Mrs. L. A. Dickey and Mrs. Paul Brewer and Glenda Lou visited here Saturday with their daughter and sister, Mrs. Herschel Combs and family.

Mrs. Otho Fitzjarrald returned home Monday after spending the weekend here with her parents, Mr. and Mrs. R. H. Wherry. Her daughter, Kathryn, remained in Memphis for a week's visit with her grandparents, Mr. and Mrs. Wherry and Dr. and Mrs. J. W. Fitzjarrald.

After-dark applications of chlordane or DDT to nests of wasps gives good control at minimum risk.

Unlawful Hunting Is Fined Heavily

AUSTIN—Scattered raids on migratory waterfowl and native game drew the heaviest fines in the latest Game and Fish Commission arrest report, according to E. M. Sprott, director of law enforcement.

A Snyder man paid \$200 and costs for killing a deer out of season. A Falfurrias man caught hunting paid \$150 and costs for shooting a wild turkey out of season. Another \$200 fine plus costs was levied against a Rockport man for illegally possessing a deer.

Night hunting prompted 18 different cases, while there were arrests for shooting ducks, geese and mourning doves.

Several \$50 fines were levied in the Houston area for using old fashioned hand cranked magnetos to stun fish. Total fines and costs were \$6,056.38 compared with \$6,319.50 for the same month last year.

WHAT Goes On In A Father's Thoughts???

WORRY — about his finances
HOPE for his family's health
PLANS to make a secure future

Any father worthy of the name spends many weary hours thinking of his family's future: What will happen if one member becomes sick or injured in an accident? What if his income is suddenly halted?

The answer to major emergencies—the best way to be prepared—is a sound plan carried out with your bank. A checking account which can grow from month to month and show a full statement of finances. Or, a savings account can be used in which surplus earnings can be placed at regular intervals.

Our officers welcome the opportunity to help Father plan for the future. Feel free to discuss your affairs with them in confidence—any time.

Air Cooler Boom Underway In Texas

AUSTIN—An air-conditioning boom is on in Texas and surveys indicate small towns are keeping pace with big cities in cooler-unit sales, the University of Texas Bureau of Business Research reports.

A Central Texas survey shows that in 1940 Smithville, Fredericksburg and Lampasas had no units, Hallettsville, 1; New Braunfels, 3; and Georgetown, 4. By 1954 Lampasas had 897 units; New Braunfels, 695; Georgetown, 599; Smithville, 310; Fredericksburg, 135; and Hallettsville, 118.

More than 25 per cent of 1952 (correct) U. S. sales were made in Texas, the Bureau asserts.

Mr. and Mrs. Gaines McAbee and son, of Dallas, are visiting this week with his sister, Mrs. Louis Edwards, and family.

Holmes McNeely arrived from Houston Friday to assist his mother, Mrs. M. McNeely, reopen her home here.

Conservation Practices On Watershed Can Slow Sedimentation, SCS Man Says

Cities and industries have been asking whether soil conservation being carried out by thousands of farmers and ranchers through soil conservation districts will reduce the amount of water available for municipal and industrial uses.

H. N. Smith, State Conservationist for Texas, says that for all practical purposes the answer seems to be "no".

The Soil Conservation Service has been studying this problem at the Blacklands Experimental Watersheds project near Riesel, Texas, since 1940. The studies include measurements of rainfall and runoff from two similar watersheds and are still in progress.

Similar farming practices were being followed on both watersheds at the beginning of the study. Conservation practices were established on one of the watersheds in the spring of 1943, while no change was made in the farming practices on the other watershed.

During the first five years rainfall was slightly above normal and the runoff-producing rainfall averaged 17.4 inches annually. The following five years, 1948 through 1952, were drought years and the runoff-producing rainfall averaged only 4.8 inches yearly.

For the normal rainfall period there was almost no difference in the runoff from the untreated and treated watersheds, Mr. Smith reported. The annual average was 10.3 and 10.4 inches, respectively. During the drought period the average yearly runoff from the untreated watersheds was approximately 1.4 and 0.9 inches.

The fact that there was a difference of one-half inch in the annual runoff from these two watersheds during the drought years is not the significant point, said Mr. Smith. The important point is that the TOTAL runoff from the untreated watershed during the five drought years was only about two-thirds of the average runoff for ONE year during the normal rainfall period.

Mr. Smith emphasized that because runoff during drought years may be very small, water supply reservoirs must have enough capacity to catch the water during years of normal to high runoff and store it for use during drought periods. A city cannot depend on the runoff during a drought to maintain its water supply. This is a fact which needs to be widely understood.

Although soil conservation prac-

tices on a watershed will not have a significant effect on water yield they can help greatly in protecting water supplies from loss of storage space by sedimentation. Conservation practices reduce erosion and the rate of reservoir sedimentation. By slowing down the rate at which reservoirs are filling with sediment, Mr. Smith said, more storage capacity will be maintained in which to store water for use during drought years.

New Poisons Give Excellent Results In Fight On Flies

COLLEGE STATION—Have you noticed how flies seem irresistibly drawn to a string hanging in a barn or other out-buildings?

Combining this tendency with a new kind of poison, Texas A & M College scientists are gaining excellent fly control—even over DDT resistant strains.

The new poisons are organic phosphorus compounds which kill in much the same manner as DDT, although they are completely different, chemically. They gave up to 92 per cent control for as much as seven weeks in recent tests.

Malathion, L-1359, diazinon, 21/199—These are the new compounds. Some already have been approved for general use. Others are being tested. Using malathion in amounts of five to 25 per cent total weight, in a dried whey and water solution, Assistant Professor Manning Price of the college's Department of Entomology tested the string method in dairy barns. With short lengths of absorbent cotton string hung from a line of carpenter's cord, he planted the traps in handling areas and feed rooms, and obtained results mentioned earlier.

Where children and livestock will not be endangered, and in spots where it might be more effective, the poison is being mixed with a sugar bait and placed in shallow dishes or scattered on floors.

attack the nervous system of the fly. They die of convulsions within 10 to 20 minutes. None have shown resistance in tests so far.

Mr. and Mrs. J. A. Harrell and sons, Jimmy and Barry, of Houston are visiting his father, J. R. Harrell. They arrived here Monday night.

Mrs. C. E. Tension and children of Wichita Falls are visiting here with her parents, Mr. and Mrs. Henry Scott.

THE BAFFLES

By Mahoney

Hedley Trounces Troy Laundry, 17-7

Hedley overwhelmed Troy Laundry of Amarillo Sunday, 17-7, in a Cap Rock League baseball game. High winds helped scoring with Gibson, Neeley and Stone hitting home runs for Hedley, and Amarillo batsmen getting two. Stone's

four-bagger came when the bases were loaded.

Raymond Neeley went the route on the mound for Hedley, while Amarillo used two pitchers.

Hedley will meet Clarendon at Hedley, Sunday afternoon, in a Cap Rock League contest. Game time is 3 o'clock. Neeley is slated to start for Hedley.

The last time these teams met, a pitcher's battle developed be-

tween Hedley's Ed Mathis Clarendon's B. F. Dorman, allowing four hits. However, Hedley players bunched their hits and won 2-0.

Turkey raisers can cut production costs by making proper use of ranges and succulent turkey. Poults should be moved to range every two to three weeks.

"we've talked long enough, Bill"

This little thrush isn't giving her Galahad the brush. She's a teen who's keen about being a good party line neighbor... and she knows how.

She's hep to the fact other folks would like to talk, too. So she spaces her calls and makes them reasonably brief.

If other teens... and their elders, too... would follow her example, everyone would enjoy faster, better service straight down the party line. Telephone courtesy is as important as any other kind.

Jackie Ben Boone Hears Shepperd At Boys State

Jackie Ben Boone, son of Mr. and Mrs. Jack Boone of Memphis, was one of the 503 Boys State delegates whom Attorney General John Ben Shepperd Monday evening told were "throwing away a privilege claimed by most of the people in the country—the privilege of irresponsibility as citizens."

Speaking at an opening-day assembly of the Lone Star Boys State in Austin, Shepperd said participation in the week of workshops on state government would make the boys parties to a lifetime contract with duty, an agreement that for the rest of their lives they would read the editorials as well as the comics, an agreement that they would have enough respect for their own opinions to invest three cents in them and send them to the Congressmen and Legislators.

"Though you are not yet 21, your duty as a citizen has already begun," the attorney general declared. "With the half-hundred years remaining to you, you can sentence yourself, your state and your country to half a century of freedom, or to 50 years of half-freedom."

Jackie Ben was one of the 503 delegates who arrived in Austin Sunday from all over the state for a week's study of state government. Boys State is sponsored by the American Legion. The Memphis youth was sent from here by Simmons-Noel American Legion Post.

The Austin gathering will be concluded Saturday morning.

Lakeview Stores Broken Into Sunday

Thieves broke into two Lakeview business houses early Sunday morning, according to Deputy Sheriff Bill Baten. The firms were Lyman Davenport's hardware store and J. B. Duren's grocery store and service station.

About \$25 in silver was obtained at the grocery store, after the safe was broken open, officers said.

The knob on a walk-in vault in the hardware company was knocked off but the thieves failed to open the safe.

Entry to the Duren store was gained by cutting the screen over a north window and raising the sash, Baten said.

The hardware firm was entered through a west window, the officer said.

On June 4, 1883, the Secretary of the Navy officially established in Newport, Rhode Island, the Navy's first training station. However since October 1, 1952 it has been a "U. S. Naval Station." It was the first and the last Naval Training Station.

City water was first piped into the White House in Washington in 1853.

Billy Cowan Arrives At West Coast Port

Billy N. Cowan, son of Mr. and Mrs. P. A. Cowan of Memphis, recently arrived at San Francisco from the Far East after an eight-month tour aboard the ammunition ship USS Chara. Cowan is a radarman seaman.

During the tour in Far Eastern waters, the Chara transferred ammunition and personnel at sea to destroyers, cruisers and carriers of Task Force 77.

The ship visited the Philippines, Okinawa, and the Japanese ports at Yokosuka, Sasebo, Kobe and Beppu.

sudden death of Governor Beauford Jester.

Shivers Busy Campaigning
Governor Shivers is filling many speaking engagements over the state.

Kicking off his drive for campaign funds was a \$10 per plate luncheon in Dallas, attended by 800 persons.

In his off-the-cuff talk in Big-D, Shivers said he would run on his record.

He branded the majority of his political enemies as persons who believe in a centralized government, subject to socialistic infiltration, as against the theory of local powers and States' rights.

"Perpetuity" Says Yarborough
Judge Ralph Yarborough, Austin attorney who is campaigning against Shivers, got his own campaign into motion earlier, with stinging remarks about "perpetuity in office."

So far Yarborough has undertaken no statewide promotion. The rest of the political front was much like the quiet that comes just before a tornado strikes.

Coke Returns
However, political incidents of 1948 are being brought back to mind.

Coke Stevenson has returned to political life.

The former governor of Texas stepped into the limelight with endorsement of Dudley T. Dougherty for U. S. Senator.

Dougherty seeks the seat occupied by Senator Lyndon Johnson who won over Stevenson by 87 votes, in a hotly contested race for the senate six years ago.

Stevenson will serve as chairman of the campaign steering

Local Jaycee Team Tops Softball Play

The Memphis Junior Chamber of Commerce softball team went into a first place tie with La Casa, Okla., in the Texas-Oklahoma League by defeating the Oklahoma squad, 11-2, in a contest played here Tuesday night. Each team has four wins and one loss in league competition. Bobby Hanna and Joe Bob Browning composed the battery for the local squad.

Rayford Hutcherson, Memphis first baseman, slammed a home run. Everyone on the team got on base during the game, each player making from one to three hits.

Memphis will meet Gould, Okla., in a league contest at Estes Field here Friday evening. Game time is 8 o'clock.

Saturday night, the Jaycees will play the Phillip's Men's Club at Estes Field. Starting time will also be 8 o'clock.

committee for Dougherty.

He promised the voters a refresher course in Texas political history.

"This time," he said, "we can go into and reveal all the details about Box 13 in Jim Wells County, where on Friday after the primary a sleight of hand miracle occurred and 200 votes were added to the Johnson total."

Hammonds Confesses Insolvency
Locally it's all over. But politically it will be an issue for months to come.

Ralph W. Hammonds has confessed that his Lloyd's of North America insurance company is insolvent.

With head bowed, the heaviest one time University of Texas wrestling champion gave up defense of his company in 98th district Court after only three days of testimony.

The trial had been expected to last at least two weeks and was destined to produce political testimony . . . as the subpoena list included Governor Shivers, his public relations chief John Van Cronkhite, Ralph Yarborough, and many others active in state politics.

It was a victory for Attorney General John Ben Shepperd and Assistant Attorney General Rudy Rice, chief prosecutor for the state in the case.

Other Trials Delayed
Criminal trials of four officials of defunct insurance companies have been postponed until October.

The four indicted men appeared before District Judge Charles O. Betts, asked and won continuance of their trials until the Fall term of court.

They are Paul and Leslie Lowry, D. H. O'Fiel — all of Beaumont — and Spencer S. Trehame of El Paso.

Now defunct is the Texas Mutual Insurance Company of Beaumont, formerly operated by the Lowry brothers. O'Fiel is a Beaumont attorney. Trehame was operator of the inactive insurance firm of United Lloyd's.

Twenty-eight persons were subpoenaed to testify in the trials, including State Senator William T. Moore of Bryan, chairman of the senate insurance committee, who was an attorney for the Lowry's Texas Mutual Company.

Scofield Declared Innocent
A federal jury has found Frank Scofield innocent of charges that he violated the Hatch Act.

He was charged with soliciting and accepting funds for political purposes while serving as Collector of Internal Revenue.

During Scofield's trial, 10 government witnesses testified that they had never sold or received money from the sale of tickets to the 1950 Jefferson-Jackson Day Dinner held in Austin.

Federal employees, under the Corrupt Practices Act are prohibited from participating in any political activity.

Reeves To Address Bureau Meeting

State Representative Elbert Reeves of Matador will be the main speaker at the regular monthly meeting of the Hall County Farm Bureau, Monday night, according to an announcement made Wednesday. The meeting will be held in the high school auditorium at Turkey, starting at 7:30 o'clock.

Also on the program will be entertainment and a business session. All Farm Bureau members and their wives are urged to attend. The public also is invited.

Masons To Hold Public Installation

The Memphis Masonic Lodge will hold a public installation of officers in City Park, Thursday evening, June 24, according to Glynn Thompson, secretary of the organization.

A family style picnic, to which all Masons, their wives, and the general public is invited, will be held at the park at 7:30 o'clock. A basket of food is all that is required to join in the festivities.

Installation ceremonies will be held at 8:30 o'clock.

Water Should Be Kept Near Poultry In Summertime

COLLEGE STATION—Chickens become extra lazy during hot weather and they, like humans, seek summertime comfort.

A chicken not only wants plenty of cool, fresh drinking water, but it wants it convenient. If a watering fountain is more than 10 feet away, a bird may go thirsty rather than make the trip, says E. D. Parnell, professor of poultry husbandry at Texas A & M College.

Parnell advises poultrymen to survey their equipment and its placement to make certain it is ample for summer weather.

"Water is a cheap item around the farm, but when not provided in sufficient quantity, chickens just don't do well," he says.

Sometimes it's necessary to give medicine in the drinking water. Some drugs do not taste good to the birds and may cause them to go off water. If it affects their drinking habits, better find another way of giving the dose.

The professor sums it up this way. Unless they drink plenty of water this summer, there will be fewer eggs laid and less meat produced.

Band To Play At Center Saturday

The "Splendid Eight Band" will be at the Teen Corner here Saturday night to entertain members and their guests. The program is scheduled to commence at 8 o'clock and last one and a half to two hours. No admission will be charged.

F. D. Saxon and Harold Vandiver, members of the Memphis Junior Chamber of Commerce, are in charge of activities at the center.

Fathers And Sons Scout Camp Guests

Several Memphis Cub Scouts and their fathers spent Saturday and Sunday at Camp Kiowah, 18 miles east of Canadian. While the Cubs were there, the swimming pool, rifle range and boating and other facilities were enjoyed by them.

In the group, going from here, were: Lloyd Phillips and son, Barry; Carl Harrison and son, Allyn; and Ace Galley and sons, Don and Dwight.

Mr. and Mrs. Joe Davis of Dallas visited Friday with his parents, Judge and Mrs. Tracy Davis. They were guests in the home of her parents, Mr. and Mrs. Hoy Lacy, in Turkey Saturday night and Sunday.

Mrs. Carl Smith has returned home after visiting in Dallas with her son, Carl Jack Smith and his wife, Mrs. Smith carried her daughter, Janice and several other girls to the music school in Denton on Sunday and went from there to Dallas.

Mr. and Mrs. Bill Wilks of Corsicana spent Tuesday night with Mrs. Henry Newman. The couple were married the previous night and were en route to Colorado, Yellowstone Park and other points on a honeymoon trip.

An Open Letter To Memphis Milk Consumers:

Do you know that another town is trying to induce Hall County Dairy to move to their town? Do you realize what it will mean to Memphis to lose this industry? Do you realize that Hall County Dairy puts approximately \$10,000.00 a month in circulation in Memphis—or \$120,000 per year?

In May of this year Hall County Dairy paid us, the following producers, \$5,161.50 for our milk; they paid out for labor at the plant and on their delivery trucks \$2,425.00; in addition they bought gasoline, and various supplies in Memphis, running their total to over \$10,000.

As Grade A Milk Producers, we have a good sized investment in our farms, dairy cows, and Grade A milk equipment. We buy our feed and supplies in Memphis. If the Hall County Dairy moves to another town we will lose the market for our milk. Memphis will lose a good payroll, with 10 employees.

We ask you to think! When you buy Hall County Dairy milk, you are buying the only milk produced by local Grade A milk producers. All cows Bang's and T. B. Tested, and meet other requirements. We want to stay in the dairy business and to be able to buy our feed, food, clothing, and supplies in Memphis.

We think it just as important to keep a good industry in Memphis as to try to get new industry to come in to Memphis. When you support the Hall County Dairy by buying their product, you are helping us stay in business for we produce all their milk on our farms.

Appeasement Doesn't Work

It seems to us that the time is long overdue for the Western powers, through their diplomats, to tell the communists that they have reached the end of their patience...

Western nations should have learned long ago that you can't do business with dictators. It is true that we have come to some kind of agreement with some dictators, among them Franco of Spain...

As we recall, the doors to aggression in our time were opened when Western powers failed to take united action after Japan sent its military forces into Manchuria in 1931.

Taking a cue from our lack of unity, Mussolini invaded Ethiopia in 1934. Again the Western nations did nothing.

Then Hitler commenced his drive toward world domination, which was not stopped until millions of combatants and civilians on both sides had been killed or wounded.

If the Western nations had presented a solid front to the dictators when they first threatened aggressive action, the holocaust of World War II might never have occurred.

But have the Western powers and their diplomats at last realized that appeasement doesn't pay? Apparently not, because they still sit down with dictators at the conference table...

Are the Western nations going to continue along this foolish and dangerous road, or are they going to voluntarily find a common path to unity before they are forced to unify in a massive fight for life with the Soviets?

A Clean Town Is A Healthy One

Citizens of Memphis will have the opportunity Tuesday to help clean up the business and residential sections of their city, for the annual clean-up campaign is scheduled to be waged on that day.

Everyone who is able should consider it not a duty but a privilege to pitch in and help this worthy project because he or she will have helped not only the community but himself or herself as well.

The collection and proper disposal of rubbish, trash and other waste matter will pay dividends to all of us in the coming months.

For one thing, we will have a neater and more attractive community to live in. Besides making life more pleasant to ourselves, it will be a matter of pride to have visitors say, "You have such a clean, beautiful town."

Another reason for wanting a clean town may not be as evident to the eye but, in our opinion, is more important, even than appearance.

We have reference to sanitary conditions which play such a major role in the health and well-being of any community.

There is no question that life without health is less pleasant than life with it. Nor is there any question that there will be more disease and sickness in a dirty, poorly kept town than in one where periodic clean-up campaigns, such as the one scheduled Tuesday, are staged.

We are entering the summer, a season of the year when flies and other breeders of disease and illness flourish as at no other time.

The clean-up Tuesday will go a long way towards making life safer and happier for both adults and young people of Memphis in the months to come, provided the call for workers and trucks is answered.

SMALL TOWN PROSPECTS

Small cities in this rapidly developing area of the High Plains are certainly due a share of the expansion of American business, and they will get part of these new businesses if they make themselves attractive enough to investors.

There is not a city within the circulation territory of The Tribune that does not have a need for one or more new retail enterprises.

The smaller communities of this part of the Plains, with their neat, prosperous appearance, have a climate for business that is improving with each passing year.

More people need to get into business on their own—more people need to set up service and retail agencies that will keep more of the money earned in their own community.

There should be nothing mysterious or formidable about going into business for oneself. Enterprising individuals have blazed new pages in the history of America through their ingenious ways of doing more business and making more money while doing it.

Some outside investors are taking advantage of the opportunities arising all around us, and have come into our small cities with investments of considerable size. Yet, the surface has hardly been scratched.

A new business will no more succeed of its own accord than

will this paper come out on Thursday if the editor and his crew lay down on their duties for a day or two. It will take enterprise. It will take persistence. It will take aggressive, sustained selling effort. But business in small cities can be rewarding. Don't sell the little towns short.

—State Line Tribune (Farwell)

FARM PRICES

The Farm Bureau has outlined a farm program in the latest issue of the organization magazine which takes a realistic look at the cost-price which the nation's farmers find themselves facing.

Recognizing that a program which supports commodities at a fair price yet channels the goods into government warehouses instead of to consumers is faulty, the Farm Bureau has come out for variable price supports.

Along with these variable price supports are other proposals, including (1) encourage high employment with increasing output per man; (2) Expand markets at home and abroad; (3) Move toward a more stable general price level and keep the dollar sound; (4) Prevent monopoly power by government, industry, labor or otherwise; (5) Get better price support program that helps move food and fiber to people as the market demands.

Variable price supports tend to keep commodities flowing, produc-

tion more normal and consumption higher, as well as increasing the farmer's net income, says the Farm Bureau.

This newspaper does not have the details of this variable price support program, but any farm program that will increase the farmer's income, put farm commodities into consumer channels, and reduce the cost to the taxpayer of the price support program certainly has our support. Power to the Farm Bureau!

—Ochiltree County Herald (Perryton)

High temperature and low humidity are two of the greatest enemies of good quality eggs. Eggs should be stored in a cool, humid, but well ventilated place and marketed often.

A rigid sanitation program is a must in the fight against flies. The use of insecticides alone will not do the job, but if used in combination with sanitation, flies can be whipped.

Memories

Turning Back Time From The Democrat Files

32 YEARS AGO

Dec. 14, 1922

OFFICERS CAPTURE MOONSHINE STILL—City and county officers last Thursday captured complete still equipment for making "moonshine" liquor, south of Tampico. Found were an iron bowl and coils with good furnace, eight barrels of mash and two water barrels.

In the raiding party were Joe Merrick, J. Y. Snow, E. A. Thomas, Pete Reynolds, J. L. Crosby, Tom Dennis and Jim May.

Another still was captured the same day by Sheriff Presley and deputies J. H. Gipson and J. B. Burnett. This one was located between Little and Big Red Rivers, about three miles from the Memphis-Turkey road. Equipment consisted of a 60-gallon copper still and coils, complete with 100 gallons of mash.

No arrests have been made. The property is being held at the sheriff's office for identification.

MEDICAL SOCIETY HOLDS ANNUAL MEETING

Officers for the coming year were elected here Friday, at a regular meeting of the Childress - Collingsworth - Donley - Hall County Medical Society. Named were: Dr. H. L. Wilder of Clarendon, president; and Dr. J. M. Ballew of Memphis, and Dr. Moss of Wellington, vice-presidents and future program committee. Dr. O. L. Jenkins was re-elected secretary-treasurer.

STRICTLY PERSONAL

Neel Stephens and Willie Guest visited at Childress Sunday.—Jay Butler of Turkey was in Memphis Wednesday.—S. I. Richardson of Hedley was a Memphis visitor Wednesday.—Buck Crump of Turkey was here on business Tuesday.—Miss Willie Merle Trapp of Hedley spent the past weekend with her mother.—Jim Smith of Lodge was a visitor here Saturday.—Frank Cope of the Deep Lake community was in Memphis Saturday.—R. E. Stafford of Las Vegas, N. M., visited here Monday.—O. B. Burnett was here Monday from Dumas.—R. D. Douglas of Childress was in Memphis Thursday prospecting.—H. Baldwin went to Tulsa last Friday on business.—Jim Franks of Floydada is spending a few days here with homefolks.

25 YEARS AGO

Sept. 13, 1929

LARGE CROWDS VISIT FAIR—Despite wet grounds and persistent showers, the ninth annual Hall County District Fair opened on schedule Tuesday morning and has been enjoying splendid patronage each day. Provided a fine day like good weather is experienced Thursday and Friday, indications point to the fact that new attendance record will be set this year.

All of the exhibits this year have created an added amount of attention.

CONVENTION OF SINGERS IS CLOSED

One of the largest gatherings of singers ever to convene in the Panhandle of Texas brought the Oklahoma-Texas District Singers' Convention to close Sunday afternoon at First Baptist Church here.

In spite of the fact that hundreds of singers were kept from the convention by heavy rains Saturday and Sunday, the church was packed to capacity at both sessions Sunday. The gatherings the last day of the two-day meeting probably were larger than any previous convention held in Memphis.

STRICTLY PERSONAL

Charlotte Read of Hillsboro, visited Mrs. D. L. C. Kinard this week.—Mrs. Edwin Thompson daughter were in Amarillo week doing some shopping.—W. C. Chapman was called Quittake Tuesday on account of the illness of a sister.—Mrs. D. M. Foster of Canyon guests this week of Mrs. D. L. Kinard and Mrs. Jet R. Fox. Howard Foote and Charlie Ham have left for Lexington, to attend school.—Miss Letta Loyd of Crowell, visited Nelma Bishop last week.—Dunbar and T. J. Dunbar, will attend the University of Kansas this term.—Helen Marie Greene, left Thursday night for Kansas University.

A study made in what county indicates that farmers given little thought to plant old age. The findings are given Bulletin 774, "The Farmer at His Economic Security," available from the Agricultural Information Office, College Station, Texas.

Why GMC's make other trucks out of date

- The GMC light-duty truck does more because it has, as standard equipment, a full 125-horsepower engine—the most powerful 6 in its class.
The GMC light-duty truck saves more because its Truck Hydra-Matic Drive* ends repairs caused by shock-loading strains—ends all clutch costs—uses less gas—saves the tires.
The Hydra-Matic GMC light-duty truck performs better because it always is in the correct gear for the need—regardless.
The GMC light-duty commands respect with its dashing smartness—its look of quality—its spacious luxury cab, that make you and your wife proud to take it anywhere.
The GMC light-duty truck handles easier because you never have to shove a clutch or shift a gear.
The GMC light-duty truck costs less to own—less to run—than old-style trucks. Come in and we'll demonstrate it!

Lovely Garden Party And Shower Fetes Miss Donna Webb, Bride-Elect, Tuesday

The garden at the home of Mrs. B. O. Shankle, 819 Montgomery, was the scene for a pre-nuptial shower given last week to honor Miss Donna Webb, bride-elect of Paul Cooper of Shamrock.

The garden was appropriately decorated in the bride's chosen colors of white and pink. The modern wrought iron furniture and the unique driftwood boughs lent a rustic atmosphere of quaintness.

A lattice wall entwined with honeysuckle and pink and white candelabra extending from the lattice wall formed a background for the chairs placed for the honoree, her mother, Mrs. Graham and the groom's mother, Mrs. E. J. Cooper of Shamrock. Floor baskets of pink and white gladioli were used at either side of the chairs.

Entering the garden through a rock arch-way, the guests registered at the wrought iron table lighted by the rustic lamp made of an improvised driftwood bough.

Registering the guests was Mrs. Carl Lee, Jr., of Lockney.

Ushering the guests to their places formed in a semi-circle were Misses Frankye Srygley and Gereta Graham.

Gereta Graham then gave a segment of Love followed by the reading of the "Humorous Fortunes of the Bride."

Nyrtle Howard gave a reading "The Jealous Wife."

A lovely array of gifts and surprises were presented to the honoree. The young honoree then led the guests by the attractively laden service table in the background.

The table, covered with pink, was centered with a white driftwood bough covered with a gar-

land of shining stars and glitter and a pink heart of silver inscribed with the words, "Paul and Donna." The arrangement was illuminated by pink candles which extended above the heart. On either side of the colorful centerpiece were bowls of pink and white phlox which extended to the punch bowl and cake on opposite ends of the table. The table was placed in front of a large Weeping Willow tree which formed a lovely background for the table.

Mrs. Grover Roden and Mrs. Floyd Lney served the punch. Assisting Mrs. Shankle with hostess duties were Misses Clint Srygley, Bill Miller, Clyde Reed, T. O. Pounds, Bobby Johnson, Dewey Myers, Skeet Fowler, Grover Roden, Jess Roden, Gene Corley, Floyd Lney, Nat Bradley, E. M. Murphy, Carl Lee, Jr., Claude Hickey, Thomas Clayton, Gene Hammill and Misses Frankye Srygley and Gereta Graham.

Guests from out-of-town included Mrs. Toland and Mrs. Herrington of Shamrock.

Truth Seekers Class Meets With Mrs. A. Dickson

Members of the Truth Seekers Sunday School class met Thursday, June 10, in the home of Mrs. Anna H. Dickson, 523 South Sixth for the regular monthly business and social meeting. Mrs. C. E. Gowan, president, presided.

After a short program, teachers and officers were elected for the coming year. The following were elected: Mrs. Jessie Baker, teacher; Mrs. Anna Kercheville, assistant teacher; Mrs. L. G. Yarbrough, president; Mrs. C. E. Hankins, vice president; Mrs. A. B. Jones, secretary; Mrs. J. J. Evans, assistant secretary; Mrs. C. Gerlach, reporter and Mrs. A. B. Jones, Mrs. Anna Kercheville and Mrs. C. Gerlach, year book committee.

Refreshments were served to the following members: Mmes. S. O. Greene, J. B. Wrenn, Anna Kercheville, Wm. Gerlach, L. G. Yarbrough, C. E. Gowan, A. B. Jones, C. Gerlach, Jessie Baker, Pearl Massey, Miss Rena Waller, one visitor, Mrs. J. H. Sharp and hostess, Mrs. Dickson.

TOP SERGEANT — Army khaki has been drafted into fashion service. Cotton khaki has been called to the colors by fashion designers in some of the smartest new styles of the season, the National Cotton Council reports. Here, Galey and Lord's khaki and black pencil stripe is used by designer Jane Derby in knee britches with a sailor torso top.

Here to be at the bedside of their mother, Mrs. E. W. Evans, who underwent major surgery Friday in a local hospital, are Mrs. Margaret Fields of Drain, Oregon, Mrs. Lela Sheffield and daughter Peggy of Benson, Ariz., and Mr. and Mrs. G. W. Evans and daughter Linda of Lordsburg, N. M.

Stephens-Hall Nuptial Read In Clovis Rites

Nuptial vows were solemnized on June 1 at the Central Church of Christ in Clovis, N. M., for Florence Stephens, daughter of Mr. and Mrs. J. A. Stephens, and Glen Hall, son of Mr. and Mrs. Joe Hall of Clarendon. Rev. R. C. Bolton read the double-ring service.

The couple's only attendants were Della Allen and David Spivey.

For her wedding the bride chose a pastel blue dress of acetate silk. The rounded neckline was accented with sequins and nailheads. Her accessories were white and she carried a white Bible topped with a corsage of white carnations secured in love knots with satin streamers.

The bride carried out the traditional wedding custom of wearing something old, something new, something borrowed, and something blue. She wore a six pence in her shoe.

Mr. and Mrs. Hall are at home at the Chunn Apartments in Clarendon.

Methodist Youth Attend Assembly At McMurry College

A group of youth from the Methodist Church are in Abilene this week attending Assembly at McMurry College.

Going from here were Jean Foxhall, Betty Lemons, Mary Frank Garrett, Johnny Chamberlain and Wayland McElreath. Mr. and Mrs. Gene Chamberlain accompanied the youth to Abilene.

Mrs. Norma Paris and her room mate, Miss Dale McGill, of Dumas, spent the weekend with Mrs. Paris' parents, Mr. and Mrs. Ted Barnes.

Baptist Youth Of Estelline Enjoy Outing At Childress

The Girl's Auxiliary of the Estelline Baptist Church enjoyed an outing in Childress Park on Saturday afternoon.

They enjoyed swimming, playing in the park and a picnic supper. Following the meal, the group attended the theatre.

Attending were Gerry Kennedy, Sharon Wright, Dee Arrington, Paula Adams, Janie Buchanan, Pauline Buchanan, Cecile Williams, Sandra Kay Rogers, Robbie Self, Janice Rogers, Linda Hayes, Neida Joe Arnold, Rebecca Moore and Mesdames Daisy Kennedy, E. F. Kennedy, Claude Arnold, Paul Buchanan, and James Wright and Kent Wright.

Mr. and Mrs. Floyd Zeller of Burbank, Calif., are visiting their daughter, Mrs. Ted Barnes, and Misses Glenn Widener, Adelle

Mrs. Bud Wright Is Complimented With Shower Tues.

A bridal shower sponsored by the Gleaner's Sunday School Class was given in the City Park Tuesday evening at 8 o'clock honoring Mrs. Bud Wright, the former Mrs. Carmen Sommers.

After appropriate games were played, the honoree opened and displayed the many lovely gifts.

Refreshments were served to the following: Mmes. Grace Duke, Carl Woods, Pat Johnson, Martin Johnson, Faye Johnson, Bill Hall, Elmont Branigan, Maybell Smith, T. O. Pounds, Byron Baldwin, W. C. Anderson, L. O. Dennis, S. M. Watts, Rachel Jones, W. C. Bishop, Frank Goffinet, Claude DeBerry, Guy Wright, A. Tinsley, Essie Putman of Clarendon and Misses Glenn Widener, Adelle

Harrell, Harriet Watts and Tena Woods.

Friends who were unable to attend but sent gifts included Mmes. J. M. McMurry, John McCauley, Don Taylor, Jerry Wright, Stella Jones, E. V. Messer, G. L. Roach, W. H. Goodnight, Pauline Knight, Billy Ray Jones, Mark Spencer, Mrs. Dollie Bain of Clarendon, Miss Tommie Sue Roach, Miss Mary Lee Mabry and Miss Betty Sue Spencer.

Luck-Gilliland Nuptials Read In Hedley Rites

Mrs. Dixie Luck of Turkey and John E. Gilliland of Hedley were united in marriage on June 11 at the home of Mr. and Mrs. H. C. Crawford in Hedley with Shelby Sanders, minister of the Church of Christ, officiating.

Mr. and Mrs. Gilliland will make their home in Hedley.

Patsy Burnett Weds A. Hedrick In Ft. Hood Rites

Mr. and Mrs. Manuel Burnett of Estelline announce the marriage of their daughter, Patsy, to Pfc. Alan C. Hedrick of Fort Hood.

The marriage was solemnized on June 2 in the chapel at Fort Hood with Chaplain Robert D. Wilson officiating.

Soft organ music was played during the double-ring ceremony.

The couple's only attendants were Mrs. Susan Nye of McCamey, cousin of the bride, and Joe Gregg who served as best man. Mrs. Nye was attired in a beige afternoon dress complemented with baby accessories. She wore a pink and white corsage.

The bride chose for her wedding an afternoon dress of orchid accented with white accessories and corsage of white and pink carnations.

The groom is the son of Mrs. A. C. Watson of Woodward, Okla., and at the present time is stationed with the U. S. Army at Ft. Hood.

Mr. and Mrs. Hedrick will be at home in Killeen after a visit with their parents in Estelline and Woodward.

Immediately following the ceremony, Joe Gregg was host at a reception. Attending the wedding and reception were Mr. and Mrs. Donald Harvey, Mr. and Mrs. Ronald Harvey, Mr. and Mrs. James Johnson, Mr. and Mrs. Jimmy Daughy and Mr. and Mrs. Kenneth Johnson, all of Fort Hood and Mrs. R. B. Harvey of Electra.

Report From Washington

By Walter Rogers

Congressman, 18th District

I used to word ditto as the head-
line for this part of the newsletter
because my heading last week was
"Gagged Again." I could use the
same heading again, because the
same thing has happened again. I
was just returned from the Floor
of Congress, where H. R. 9474 was
considered. This bill is a law
which extends the authority of the
President to enter into trade agree-
ments under Section 350 of the
Tariff Act of 1930, as amended. The
bill extends this authority in the
President for a period of one year.
The member had requested that the
extension be for three years, but
because of much agitation, confusion,
and debate behind the scenes, it
was that the White House put
a stamp of approval on the one-
year extension. In any event, that
is the bill that was brought be-
fore the House for passage. It was
passed in under the closed rule
as I said last week, the "gag"
of the people did not have
a chance to change one word in the
bill as it was written by the Ways

and Means Committee. I repeat
that this is steam-roller politics.
Under the democratic form of
government, it makes little differ-
ence whether a man is for or
against a piece of legislation, as
long as he is a Member of Con-
gress he is a representative of the
people and should be entitled to be
fully heard on these matters and
to have an opportunity to seek
such changes in them as to him
may seem pertinent and to the
best interests of his constituents.

Water

The irrigation program in our
district has been moving along at
a pretty good pace and we hope
that it will be continued. I have
obtained some figures from the
Farmers Home Administration, of
the Department of Agriculture,
that I think will be of interest to
you. They are as follows:

"For the current fiscal year,
\$6,500,000 was available for mak-
ing loans under the water facili-
ties program. Of that amount,
\$600,000,000 was allotted to the
State of Texas. The President's
budget request for the fiscal year

SWIM QUEEN . . . Actress Priscilla Gillette was selected "1954 Stage Swim for Health Queen," on basis of swimming ability, form, personality and photogenic qualities.

there are many things that can be
done to speed up the court pro-
ceedings. The judge is usually
bending over backwards trying to
see that no one's rights are in-
fringed upon, and that the law is
followed to the letter so that jus-
tice may finally prevail. However,
one look at the Senate hearings
would make a so-called slow court
proceeding look like a jet-propel-
led plane. The reason that the head-
way has been so slow in these hear-
ings is that no one wants to an-
swer questions and everyone wants
to make a speech over television.
The questioner usually makes a
speech instead of asking a ques-
tion. When a question is asked that
could be answered and throw some
light on the subject, the witness
usually makes a speech as his
reply. I had a chance to listen the
other morning and was reminded
of the story of the old darkey who
turned up late to work. His boss
asked for his excuse and the darkey
told him that he had stopped
down at the corner to hear a poli-
tician make a speech. The boss
asked the darkey what the man
talked about. The darkey replied,
"Not much, except he sho did
recommend himself."

"I'll say that a good West
grand jury could have sepa-
rated the chaff from the grain and
had the facts thoroughly docu-
mented in not more than two
weeks.

Three Pretty Good Qualities

A commencement speaker at one
of the schools here in Washington
told a graduating class recently
that three qualities were necessary
for human success, a wishbone, a
backbone and a funnybone. First,
an ideal to work for; second, the
perseverance to carry it out; and
the last, a saving sense of humor
about human frailty.

The Change In The Pledge Of Allegiance

I have received many letters
requesting early action on the
Resolution to insert the words
"under God" in the Pledge of Al-
legiance to the Flag. I am happy
to report that the House and the
Senate have passed a Resolution
to insert these words in the Pledge
of Allegiance and the Resolution
is now in the White House await-
ing the President's signature. As
soon as he signs it, the official
Pledge of Allegiance will be as
follows: "I pledge allegiance to the
flag of the United States of Amer-
ica and to the republic for which
it stands; one nation under God,
indivisible, with liberty and justice
for all." Word from the White
House at nine o'clock this morn-
ing was that the President had not
yet signed the measure. However,
it will be the law long before this
letter reaches you.

Texas Land Values Drop In Past Year

AUSTIN—Texas farm land
values dropped sharply in the past
year, the University of Texas
Bureau of Business Research re-
ports.

March, 1954, values were 7 per
cent under comparable 1953 levels
and 4 per cent under last Novem-
ber, the Bureau declares. Estimates
are based on U. S. Department of
Agriculture figures.

CARD OF THANKS

We wish to express our appre-
ciation for the kindness and sym-
pathy shown each of us in our re-
cent sorrow. We sincerely thank
you for the floral offering and the
nice food. God bless you all for
your services rendered.

The Family of Mrs. W. L. Neel

Hog lice are thieves. They irri-
tate the hog, slow down its rate
of gain and, in turn, up the feed
bill. They can be easily controlled.

1954 Farm Income Above 1953 Total

AUSTIN—Texas farm cash in-
come for the first four months of
1954 totaled almost \$442.6 mil-
lion, 1 per cent more than in the
same 1953 period, the University
of Texas Bureau of Business Re-
search reports.

A large factor in the rise was
a 22 per cent increase in cotton
revenue (up \$23.4 million). Other
increases included peanuts, up 115
per cent (\$1.5 million); oats, 77
per cent (\$688,000); sheep and
lambs, 89 per cent (\$4.3 million);

cattle, 1 per cent (\$900,000); and
fruits and vegetables, 15 per cent
(\$2.7 million).

Good moisture conditions in the
South Plains, most of the Pan-
handle and nearly all of North
and East Texas brightened Texas'
general agricultural outlook, the
Bureau reports. Wheat prospects
are improved and an increase is
expected in vegetable production.

Mr. and Mrs. Herby Shahan of
Abilene visited here over the week
end with her parents, Dr. and Mrs.
O. R. Goodall.

Mrs. Edwin Goodall and daugh-
ter visited in Hereford last week
