## Eligible Children Get Salk Vaccine During This Week

The Salk polio vaccine is here, and according to the number of requests signed by the parents, approximately 340 first and second graders in Hall County will get their first inoculations this week.

Children in Turkey received their vaccinations yesterday.

Two children who have known the pains of polio, were the first to receive polio vaccinations in Memphis this morning at Odum Clinic Hospital.

The first child was Jimmy Lavender, son of Mr. and Mrs. W. H. Lavender. The seven-year-old boy had the disease when he was three years of age. His grandmother, Mrs. Mable Lavender, a nurse at the hospital, administered his vaccine.

The second child, Sandra Jones, seven-year-old daughter of Mr. and Mrs. W. W. Jones, had polio before starting to school, and still has to wear braces on both legs and use crutches. She is in the second grade.

Memphis children took theirs this morning, Estelline this afternoon, and Lakeview, Friday morning.

## Hodges Re-Elected Bureau President; Four Vice-Presidents Are Chosen

The Hall County Farm Bureau re-elected Harold Hodges as county president, four vice-presidents, a secretary-treasurer, and six new directors in a meeting of the organization Monday night in Travis Cafeteria, here in Memphis.

One vice-president was elected from each of the four school districts in the county, Memphis, Lakeview, Estelline and Turkey.

According to a Farm Bureau official, this was done so that the vice-president from each district could help coordinate the work of the directors and members of each district in the county.

The vice-presidents elected were: Robert L. Moss, Memphis; A. C. Sams, Lakeview; J. W. Crisman, Estelline; and Elmer Lacy, Turkey. Each Richards was re-elected secretary-treasurer.

Worth Howard of Memphis, Roy Gresham of Newlin, C. W. Ferrel of Parnell, J. B. Rapp of Estelline, D. C. Hall of Lesley, and Jessie A. Johnson of Turkey, were the six new directors elected to serve for two-year terms.

Hold-over directors whose terms expire next year are: Billy Salmon, V. C. Durrett, J. W. Longshore, J. R. Mitchell, Clee Parr; Cecil Phillips, M. R. Long, A. E. Shawhart, Clyde Fowler, and Leon Fowler.

A complete audit report of the organization's books was read and adopted by the members as requested.

The members voted to buy gate signs for all new members who have not previously received them. These signs should be ready and available in about two weeks, Robert Moss, vice-president, said.

A report of the membership drive showed approximately 250 (Continued on Page 12)

## Party And Supper To Help Boys Club Buy Equipment

Win a dressed hog, eat pancakes, play dominoes, chess, or checkers, and maybe buy some baked goods for Sunday dinner.

The Memphis Boys' Club is sponsoring it all at Travis Elementary School cafeteria Friday night, beginning at 6 o'clock.

This big night of eating and entertainment is being put on to raise the remainder of the money needed to pay for the trampoline the club is buying.

"We have already ordered the trampoline and we still need \$175 to pay for it. If we fail to get it, there are going to be a bunch of disappointed kids," Club Director Frank Smith said Tuesday.

The people who head the different committees helping with the event are: Mrs. Alvin Massey, in charge of the cooking committee; Mrs. Garland Moore, in charge of the serving committee; Mrs. M. D. Gunstream, in charge of the bake sale; and Ben Parks in charge of the games.

Smith said that he had 55 boys taking part in last week's club activities. He has divided his Thursday night sessions into two groups so that he can give each boy more instructions.

The beginners meet each Thursday. (Continued on Page 12)

## Rain Light Here; Lesley Gets Inch

The rainfall for Memphis was given a slight boost Monday night when .15 of an inch fell in about an hour. This brings the year's total to 2.02 of an inch for the year.

West of town the rainfall was heavier. Lesley reported an inch of moisture, Lakeview had approximately one-half inch, and Plaska reported between one-fourth and one-half.

Tuesday winds and blowing sand plagued the area again.

J. J. McMicken, local weather recorder, reports the high and low temperatures for the week as follows: Friday, 89-40; Saturday, 95-59; Sunday, 96-55; Monday 97-54; Tuesday, 88-64; Wednesday, 92-59; and today, 84-54.

## Old City Landmark Passes Into History

Another Memphis landmark is passing into history. The water tank belonging to the Fort Worth & Denver Railroad has been sold and will be moved, J. J. McMicken, local railway official, stated this week.

The old tank was used to water the steam engines on the line, but with the advent of diesels, the tank was no longer in use. The tank was emptied this week and will be moved in the near future.

McMicken said he did not know when the tank was put here, but it was many years ago.

## Memphis Man Pays \$250 Liquor Fine

A local man who was arrested April 2, and charged with the possession of liquor in a dry area, was fined \$250 and court cost in County Court Wednesday.

The man changed his plea from not guilty to guilty in his trial heard by County Judge Tracy Davis.

When Sheriff Bill Baten and Deputy Elmer Neel arrested the man, they allegedly confiscated 16 pints of liquor from him.

This was the man's first offense, according to court records.

## Little Theatre Has 3-Act Play Tonight

The Memphis Little Theatre presents their first production of the year tonight (Thursday) in the high school auditorium at 8 o'clock.

The entire action of the play is staged in the upstairs sitting room of Penelope Mayweather, a southern spinster who is fighting a losing battle with the bank over ownership of her mansion, and writing the local gossip into her memoirs.

"When a handsome writer from New York talks his way into the house and begins to complicate matters with his attentions toward a local belle and the memoirs, it is almost more than Penelope, aided by her bottle of port, can cope with," play director Virginia Rogers said.

Admission is \$1 for reserve seats, 75 cents general admission and 50 cents for students.

The cast of characters include: Myrtle Howard as Miss Penelope Mayweather, Morris Odum as John Salgoud, a writer; Nell Beeson as Emmeline Randall, Penelope's relative; David Wright as Avery Randall, Emmeline's husband; Billie June Odum as Carol Randall, their daughter; Burl McClellan as Benjamin Carter, a newspaper man; Mary Lee Fields as Australia, Penelope's maid; and Gladys Power as May Belle Tucker a tourist guide.

In the production staff backstage will be: Emma Deaver as co-director, Mary Helen Sexauer as stage manager, Charlene Greene and Ethel Hillhouse in charge of stage properties, Tomacek Green doing the make-up, Terry Monzingo as stage technician, and Roslyn Williams and Helen Combs in charge of ticket sales and publicity.

## Pampa Scout Show To Be Explained At Parents' Night

Scoutmaster Ted Myers will explain the Scout Circus at Pampa on May 14, at parents' night in the Scout Hall here Monday night at 7:30.

Myers urged all parents of scouts to be at this meeting, because the circus at Pampa is one of the biggest scout activities of the year in this area, and he thinks all parents should know about it.

Over 3,000 scouts from the 16 areas of the Adobe Walls Council will participate in the event to be held at the Pampa football stadium at 8 o'clock Saturday night, May 14.

Scout troops from the Red River District, which is Memphis, Lakeview, Hedley, Lella Lake and Clarendon, will take part in this big scout show.

The show will open with a grand entry of all 3,000 scouts marching with colors on the field then a pageant of pioneers an Indian attack, the building of bridges, setting up camps, sea games and many other examples of scout activities.

The show will conclude with the scouts and audience singing the "Star Spangled Banner" with the stadium lights out and everyone holding a light, while the colors are lighted with searchlights.

## Feed Applications Being Taken By FHA

The United States Department of Agriculture announced that County FHA committees no longer would accept feed applications after Feb. 28, 1955. Due to continued drought conditions in Texas, an announcement by Walter T. McKay, State Director, the department on April 20, announced a continuation of the Emergency Feed Program for 82 Texas counties for drought emergency relief.

Applications to participate in the Emergency Feed Program will be taken in Hall County at Memphis and the eligibility determining local County FHA Committees.

McKay stated that his committee composed of Lucion I. Joe W. Eddins and Del E. Joe will continue to receive applications until the close of business April 29, 1955, for feed supplementary to last through May 31, 1955.

The designation announcement is in line with the United States Department of Agriculture policy of continuing measures where necessary.

In addition to the feed grain program, Mr. McKay, state director, announced that the over-all emergency plan includes FHA loans and cost share insurance through the facilities of the USDA's Agricultural Stabilization Program. This assistance continues to be available where needed in essentially all areas.

Mr. B. McLeish, national administrator of the Farmers Home Administration, recently complimented the FHA committees for good service previously rendered in assisting farmers and ranchers in determining their eligibility requirements with reference to eligibility under the Drought Emergency Feed Aid Program.

## Vacant House Is Destroyed By Fire Wednesday Night

A fire that exploded with a roar quickly destroyed a vacant house at the corner of North Ninth and Bradford Streets at midnight last night.

The house had been vacant since before Christmas and was owned by W. W. Martin.

He said that he had been trying to sell the house, and that it was insured.

The Denton home on the south and the Lavender home on the west of the destroyed house were damaged by the intense heat from the fire. The Denton home caught fire under one of the north windows, but the small blaze was extinguished.

## Living On Original Farm — Newlin Pioneer Observes Birthday

One of Hall County's oldest pioneer citizens, Peter Ballard, celebrated his 91st birthday Saturday, April 16, with an open house and a reunion of his sons and grandchildren at his home east of Newlin.

Four of his five sons, two grandchildren and three great grandchildren were present for the celebration.

One son, Rev. L. D. Ballard of Hillsboro was unable to attend the birthday party.

A large number of friends came by Saturday afternoon to wish him a happy birthday. The guests were served punch and birthday cake.

Mr. Ballard was born at Chestnut Mound in Smith County, Tennessee, in 1864. He married Miss Jenny Maggart in Dekalb County, Tenn.

One of his sons said that he told them about an incident following his wedding. After he and his bride were married, the two of them rode double on a mule all the way to his home in Smith County.

Mr. Ballard, his wife and three oldest boys came to Hall County in 1891, and settled on a section of land about one mile east of Newlin. He is still living on that section of land, although he quit farming in 1928. Two of his four sons that are farmers, now farm the land.

W. B. Ballard of Tullia, one of the three boys who made the trip to Hall County on the train, said that when they got to Newlin on Christmas Eve, there was a big West Texas blizzard blowing.

"We could only get one room at the Redman Hotel in Newlin and all five of us had to sleep lying across one bed. Dad had to sleep all night with his feet out from under the cover," the son said.

Mr. Ballard had a stroke last

year and it was difficult for him to talk, so his sons did most of the talking for him.

About the time the Ballards came to Hall County, Memphis and Newlin were fighting each other for the county seat.

"The train was stopping regularly in Newlin, but wasn't stopping in Memphis, so some of the Memphis citizens began greasing the rails, so the train would have

## Texas Co. Taking Up Pipeline Here

now working near Memphis, taking up the Texas Company pipeline that runs through this area.

The line that is being taken up runs from south of Vernon to Salt Fork, north of Memphis, W. C. Gee, pipeline inspector for the Texas Company, said.

The line is being taken up by the Bishop & Lock Construction Company of Midland, and is being cleaned and made ready for re-use by the Ted Price Construction Company of Electra.

The work began south of Vernon last February and work in this area will be completed in about another two weeks, according to Elmer Leatherwood, yard foreman for the Price construction firm.

Gee said that the pipe would be stored here in Memphis until the Texas Company was ready to use it again.

The pipe is hauled into Memphis from where it is taken out of the ground, and run through a cleaning machine to remove the rust and dirt from the outside. The ragged ends are then cut off and the pipe is inspected and stored for re-use.

The Price firm has 30 men working in the yard and hauling the pipe.

## B. Culpepper Talks To County FA Meet Tonight

B. Culpepper, field representative of the Texas State Farm Association in Austin, spoke to the Hall County farmers in their meeting tonight in Lakeview, at 7:30.

Culpepper will speak to the "Teacher Retirement" meeting which will be the third meeting of the year for construction companies are very busy.

Subject of teacher retirement is a very timely one since a bill in the state legislature, which, if passed, would improve the retirement of Miss Mary Foreman, superintendent.

#### Democracy Where Art Thou?

In a newsletter sometime ago I pointed out in some detail the reasons why a democratic government did not just happen, but was the result of long and tireless effort and planning in the establishment of basic principals, the violation of which could destroy the very thing sought to be attained. One of the basic principals upon which a democratic government must rest is the separation of powers between the three branches of government, to wit, the legislative, the executive and the judicial. These three branches form the tripod upon which a government by the people must depend in its original formation and in its continued existence. If at any time the people permit two of these legs of the tripod to become joined together, the balance provided by the tripod is lost. Once that balance is lost, the democratic form of government has fallen. This can happen without violence and without the people even realizing the transition that takes place until there has been a complete change. The awakening is then very sad, because it comes in the form of a realization by the people that their voice in governmental affairs, if heard, is not heeded.

I call this to your attention because of the alarm with which I view the legal gymnastics for the Supreme Court in the segregation cases now being considered. You will recall that the Supreme Court formerly held that laws providing

for separate educational facilities for negroes and whites were unconstitutional, but withheld any formal declaration in the form of a judgment until arguments could be heard on behalf of a plan of integration to be announced by the Supreme Court. The procedure that has been followed by the Supreme Court in this instance is a classic example of the fusing of two legs of the government tripod and the probability of fusing these two with the third. This would mean that the separation of powers and the independence of the three branches of government became a myth and the Supreme Court stepped in as an all-powerful tribunal.

Whether you believe in segregation or integration is not the question. The question is democratic government. If the laws under consideration by the Supreme Court were unconstitutional when written, they were unconstitutional when the Supreme Court so declared them, and are for all purposes null and void. I disagree with the Supreme Court as to the constitutionality of these laws, but I do not have the same power of enforcement of my opinion as does the Supreme Court. When the Supreme Court stated in effect that these unconstitutional laws will be held in abeyance until a social program could be worked out for integration, in my opinion they committed an act as unconstitutional as they declared the segregation law to be. They invade the legislative

"Gosh, Elsie—Didn't you get my note?"

branch of government, and if they continue to follow this procedure, must of necessity violate the powers of the executive branch. They also invaded the rights of the states in the same manner. As one southern senator so ably put it, "they discarded their judicial robes and donned the robes of social engineers."

This generation will have the choice of whether or not we re-establish a democratic form of government and rededicate ourselves to the basic principals upon which it stands, or capitulate to the demands of those who want something for nothing and who are willing to base their arguments on appeals to the emotions rather than to common sense.

**The Gas Hearings**  
The gas hearings continue, and I continue to be more amazed

each day at the testimony of groups who have screamed "free enterprise" from the housetops and condemned federal controls and branded everyone a socialist who didn't agree with them. Many of these groups are testifying that gas should be put under federal control, that solemn contract obligations should be wiped out and the price at which gas is sold should be fixed by the Federal Power Commission. This is advocating centralized government in the worst degree and if such a philosophy was followed, it would be the beginning of the end of states' rights and a new era of centralized federal control of the lives of every individual in this country.

In my opinion it is another attempt to take a natural resource away from the Southwest without paying a fair price therefor. As an example, the testimony shows that gas purchased for seven cents per MCF in Texas is being sold today in New York for \$2.89 per MCF—over 40 times the price of gas at the wellhead. Yet the consumers in the metropolitan areas are being told that gas producers in Texas are robbing them. What do you think?

### THE BAFFLES

By Mahoney

### IT'S THE LAW in Texas

Suppose that you hired Johnnie to cut your grass, and he runs your new mower into your neighbor's hedge thereby ruining the hedge. Are you responsible for the damage? Quite likely you are.

Or let us suppose that you find you need some supplies for the evening meal. You ask Johnnie, your neighbor's 'teen age son, to take your car and run to the store for them. On the way, Johnnie hits a pedestrian, seriously injuring him. Can you be held responsible? It is possible that you can.

In both instances, Johnnie was acting for you. His acts while performing those duties are, in the eyes of the law, your acts.

You may be liable despite the fact that you may have cautioned him to drive carefully and he did not.

The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the actions of other persons. That, however, is frequently the case.

You may ask another person to do something for you, that is, to act as your agent. You may pay him, or he may be doing it without compensation.

You may ask him to buy or sell property for you. The action may be to negotiate an agreement for you with a third person.

If representations are made by your agent in performing the task which you assigned to him, you are responsible.

In a like manner, you are responsible for the contract made by him while he was acting for you.

You may be held responsible for the acts of a person who customarily represents you even though he entered into a contract for you without your consent or approval.

For example, you may have a partner in a business, and you and he have agreed that certain contracts shall be made only upon the signature of both of you.

Unknown to you and without your consent, your partner signs such a contract with a third person involving partnership business. If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made.

You may agree between you and that neither of you would buy, without the other's consent, any

item of merchandise costing more than \$50. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon, your partner ordered merchandise for your store costing more than the \$50 limit.

When the merchandise is delivered, you can not refuse to accept it because you can be bound by the contract of your partner. This is true in many situations, and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation.

As the actions of your agent are considered to be your actions, you assume the responsibility of his doing them correctly.

### Army Trainees Get Two-Weeks Leave Prior To Overseas

Trainees undergoing training in units of the U. S. Army designated for "Operation Gyroscope"—rotation with stability—will, be granted at least one two-weeks leave prior to overseas shipment, according to a circular issued by the Department of the Army.

"Operation Gyroscope" provides for the planned rotation of Army units up to division level in phases that will enable the unit to serve 33 months in an overseas command and then return to the United States for a minimum tour of 3 months. At present, the 10th Infantry Division, presently located at Fort Riley, Kans., is the only unit designated for "Operation Gyroscope" type rotation available to this area, but more are due to be named very shortly. The 10th Infantry Division will replace the 1st Infantry Division in Würzburg, Germany, in a three-phase operation scheduled to get underway this summer.

With a quota of 70 men per

week throughout May 6th set within the five state Fourth Army area for the European bound 10th Infantry Division, local U. S. Army recruiter, M/Sgt. Gilbert S. Herman is expecting plenty of business at his office at 212 E. 7th St., Amarillo, Texas. Men enlisting from the Amarillo area will be sent directly to Fort Riley to take preembarkation training before departing for Europe. The recent Department of the Army circular guarantees trainees enlisting under the program a two-weeks leave before overseas departure. M/Sgt. Gilbert S. Herman emphasized, however, that it is not mandatory that trainees take the leave unless they want it. Instead, he explained, the trainee can save his leave, which he accumulates at the rate of 330 days per year, and use it to travel in Europe after arriving on the continent where, from his base at Würzburg, the trainee may visit such places as Paris, Rome, Madrid, Berlin, Copenhagen and a veritable host of famed resort spots open to members of the U. S. Army stationed in Europe. Many of these trips are planned and operated by the Army through its Special Services Section in Europe.

Personnel are being accepted for direct assignment to the 10th Infantry Division whether or not they have had prior military service. Anyone interested in such an assignment may contact M/Sgt. Gilbert S. Herman at his office between 8 o'clock and 5 o'clock.

The University of Texas has a permanent fund which is increasing by approximately \$17 million a year.

### AF Has Announced Extra Inducements For Re-Enlistment

The United States Air Force has announced a new re-enlistment program with special inducements, according to Sergeant George Ahern, local Air Force recruiter.

Under the new plan former airmen who are qualified and technically trained in specified specialties, may now enlist in their permanent grade held at the time of separation and be concurrently promoted to any temporary grade held at that time provided they enlist within six months from the date of their separation.

Under the former plan, airmen were required to re-enlist within 90 days.

The date of grade will serve as the date of enlistment under this plan.

As of this date there are 108 Air Force specialties included in the list of shortages now existing in the United States Air Force.

For further details and a list of the Air Force specialties qualifying men and women for this opportunity, contact Sgt. Ahern at the post office in Memphis on Thursday mornings.

The Boys Were Here Again!

Those boys were here again last week! The boys, some of them had a little grey in the hair, were Amarillo boosters who stopped in Memphis to do some promoting for their hometown. There is nothing wrong with promoting one's hometown, but promoting Amarillo in Memphis is just not good business for US.

However, instead of condemning the businessmen of that city, we can get a good lesson from their action. They are after one thing—more and better business for Amarillo, and we want more and better business for Memphis.

If Memphis and all the other small towns throughout the Panhandle are going to continue to exist as towns, we are going to have to beat the "city boosters" at their own game—boosting and selling our own town and businesses.

As the automobile and super highways continue to make traveling faster and more comfortable, we, the small town businessmen are going to have to fight harder to hold the customers from our trade area.

In our great system of free enterprise there is no way we can keep customers in our hometown, except by giving them the services and merchandise which they want and are entitled to. We can't say, "you have to trade in Memphis because you live here." We have to make them say, "I bought this in Memphis because it was better than what I could find in the city."

To sell our merchandise and services, we must first sell our town and stores. Our town and businesses must be made as pleasing to the eye as possible, for people are not attracted to an eyesore. We are going to be forced to do this for you can't sell a customer merchandise and service until you attract him into the businesshouse. After we get the customer inside we must have the same, or as good merchandise as he can find elsewhere, and the price will have to meet competition.

Another thing, we can't sit placidly by the side of the road and wait for the customer to stop in. We must shout at the top of our voice, and tell everyone we have what the customer wants and at a price that meets or beats competition on the same article. We must go out and get our customers, for if we don't, someone else will. No longer can we be just merchants, we have to be merchants and public relations men who are busy selling our goods, our stores and our town.

The 20 and 30 mile an hour automobiles and two lane highways killed the two and three store towns, and if we don't put up a strong fight, the 80 mile an hour automobile and four to six lane highways will kill the 30 store towns.

Sure, it will cost money, but all wars cost money, and this is a war of survival. Which is better: spend money to attract business, or sit on our posteriors and watch the business go to the city while we dry up to a shell of a town.

Yes, the boys were in town, but don't just grumble about those blankety-blank Amarillo people trying to get more of our trade. Watch how they promote their businesses and town, then go out and beat them at their own game. We have the advantage. We are fighting on home ground.

Two high school boys were overheard discussing their latest English examination. One said, "How did you like that test today." Answered the other one, "How did she expect us to tell the plot of the 'Scarlet Letter' in 25 words or less, when it took the author 500 pages."

Press Paragraphs—
QUOTING OUR NEIGHBORS

Walking Is A Lost Art

The prevalence of knee injuries among athletes, and the increasing number of knee injuries to housewives and desk workers

point out the cost of our changing way of life.

People don't use their legs, and their knees, for walking any more. Weak and rusty through disuse,

this vital joint gives way under sudden stress, calling for costly and sometimes lengthy treatment.

Young people, and the adults, jumps into a car to go around the corner for a loaf of bread. They wouldn't dream of walking to school or to work if they can ride. Walking for pleasure seems to be

a pastime as dead as the dodo bird.

More walking, and less riding, might benefit the adults as well as the youngsters. It seems that the majority of people nowadays carry an extra belt of suet around their middles which could be lost through diet and exercise.

### Big Scholarships Open To Seniors Valued At \$50,000

Scholarships amounting to \$1,000 each for the study of dairy manufacturing at Texas A. & M. College and Texas Tech were approved this week by the Dairy Products Institute of Texas.

Ralph D. Eyer of Wichita Falls, president, announced this week.

High school seniors interested in making the dairy industry their career may obtain application forms for the dairy scholarships from their county agent, high school principal, vocational agriculture teacher or the registrar at either Texas A. & M. College or Texas Tech, Eyer said.

All applications must be sent to the registrar before June 1 along with a 300-word essay on "The Importance of the Dairy Industry to Texas" and a 100-word statement on "My Reasons for Choosing the Dairy Industry as a Career."

The two winners of the scholarships will receive \$250 a year for four years of college study.

Scholarships will also be awarded to high school seniors in 1956, 1957 and 1958.

Eyer said there was a shortage of trained personnel in the dairy industry and it was hoped that

through the scholarship program the industry would interest more students in dairy manufacturing and thus fill some of the gaps in the industry.

He pointed out that there were many types of positions in the dairy industry open to personnel with specialized training—training that can be obtained in college.

Among the jobs where specialized training is necessary he listed as dairy plant executives, buyers, milk production specialists, sanitarians, pasteurizer operators, ice cream and frozen specialty artists, cheese makers, condensed and powdered milk plant operators, inspectors and graders, control consultants, food specialists, consumer solicitors, food demonstration experts, retail and wholesale salesmen, public relation, advertising and merchandising specialists, specialists to handle milk, ice cream, butter and cheese trade association work, research chemists, bacteriologists, engineers, county agents, extension specialists, and specialists of dairy scientists and businesses such as sales engineers, supply sales and distribution men and equipment design and sales experts.

Mrs. Lorene Braidfoot and Kathy spent the weekend with the Chandlers.

### You can buy a lot of pleasure for a penny

A penny is still big money — when you spend it for electric service. You can actually buy more for your money NOW in electric service than you could twenty years ago.

Yes, electricity is the biggest bargain in your family budget. That's one reason you give it more jobs to do every year. And, no matter how much more you need in the future, you can be sure that your electric service company will have plenty of low-price electricity ready for you.

### Austin PTA Plans Hobo Party, Stew In Park, April 28

If you want to win a prize, be the best "hobo" in Memphis. The Stephen F. Austin Parent-Teachers Association is sponsoring a "hobo" party in the city park, Thursday evening, April 28, at 6:30.

Everyone is invited, and prizes will be given to the persons being dressed in the best "hobo" costume. The contest will be judged by people from out of the county.

There will be four divisions to register in for prizes, pre-school, elementary school, junior and senior high school, and adults. Two prizes will be given in each division—one to a boy and one to a girl. There will also be a grand prize.

If you are an adult and come dressed as a "hobo" it will cost you 25 cents to register, but if you are out of costume the charge is 50 cents. "Hobo" children can register for 10 cents, and those in regular dress will be charged 15 cents. Everyone who attends must register.

There will be a tall-tale contest for adults and music and games for the children.

Everyone attending must bring something to go into a big pot of "hobo" stew and also furnish his or her own eating equipment.

California produces more fruit than any other state in the nation.

### High Court Reverses Billy Ballew Trial

The Texas Court of Criminal Appeals in Austin delivered a judgement on April 13, reversing the November district court jury's verdict against Billy Ballew of Memphis. District Attorney Allen Harp said Tuesday in a telephone interview.

Harp said that he was preparing a motion for a rehearing of the case before the Appeals Court. The judgement reversed the jury's verdict of guilty of rape by force, and a five-year sentence, with cause remanded. Harp said the cause remanded could mean a re-trial unless the Appeals Court granted his motion for a re-hearing.

tinquished before much damage was done. Every window in the east side of the Lavender home was cracked by the heat, but none of the panes fell out. Fire Chief Thomas Clayton said if the glass had fallen out, it is likely that the house would have caught fire.

The vacant house was apparently afire throughout the interior before it was discovered, and gases, which built up inside, caused the explosion which the people living nearby heard, Clayton said.

County health officer, Dr. J. A. Odum, went to Amarillo Sunday, and picked up Hall County's supply of the vaccine for the first injections.

The number of students from each school getting the vaccine this week is: Estelline 47; Lakeview approximately 50; Memphis 161 whites and 15 colored; Turkey, 59 whites and 4 colored. Turkey had four students absent Wednesday and they will get the vaccinations Monday, according to County School Superintendent Mary Foreman.

### Hodges Re-Elected -

members in the county bureau. It was stressed at the meeting that about 70 memberships expire in the next 30 days. The bureau urged that all members whose membership expires during this time to turn in their dues to any director or the secretary-treasurer, so that the strength of the bureau will not be depleted.

Hodges, after being re-elected, stated that all standing committees would be appointed in the near future and all members for these committees would be notified.

A new system of meetings was decided on by the members present. This new system provides for two meetings in Memphis and every third meeting to be held in either Estelline, Lakeview or Turkey.

The next regular meeting will be in Memphis, May 16.
