Walter Rogers Speaks at Hedley Cotton Festival

Walter Rogers, congressman, addressed a large crowd at the Hedley Cotton Festival Saturday at the adjustment of the farm business in the next year.

resource, the soil. He called for several water projects in the Panhandle, in addition to the Canadian River Project, and said that when "we have realized these, we will begin to see that we have tapped only the surface of the vast potential that belongs to the Panhandle area."

in the future, find ourselves with wholly inadequate supplies of fuels and strategic minerals and metals, so necessary for defense."

He said, "The course of America has never been backward; it has never been static and it has never been sideways. Our course has always been forward; it is forward today, and by the grace of God and our own efforts, tomorrow we will reach those new and brighter horizons for which we strive."

His talk on Saturday climaxed a two-day festival that began on Friday morning and ran until Saturday.

Funeral Services Conducted Today For Mrs. M. E. McNeely, Pioneer Resident

Funeral services for Mrs. Mamie E. McNeely, 79, wife of the late Dr. M. McNeely, pioneer Memphis dentist, were conducted at 11 o'clock Thursday morning from the First Presbyterian Church in Memphis with Rev. Frank King, pastor, officiating assisted by Rev. Burr Morris, minister of the Canadian Presbyterian Church and formerly of Memphis.

MRS. M. E. McNEELY

Burial was in Fairview Cemetery under the direction of Spicer Funeral home.

Mrs. McNeely, who had made her home with her children after her health failed a few years ago, died in a Dallas hospital Tuesday morning.

A native Texan, Mrs. McNeely was born Aug. 13, 1877, in Titus County the former Mamie E. Suggs. She was united in marriage to Dr. Marion McNeely on July 23, 1902 at Milford.

In 1908 Dr. and Mrs. McNeely moved to Hall County where they were both active in the growth and development of this community. Dr. McNeely practiced dentistry in Memphis 45 years before his death in 1951.

Mrs. McNeely was a graduate of Baylor University with a degree in music education and had done post-graduate work in several musical colleges. She taught piano, organ and speech here over a period of 45 years.

A leader in cultural and religious circles, Mrs. McNeely was organist and choir director of the First Presbyterian Church here for many years. She was a charter member of the 1913 Study Club, a life long member of the Harmony Club and the United Daughters of the Confederacy.

Survivors include three daughters, Mrs. Gerald R. Sensabaugh of Dallas, Mrs. Alfred Freeman of Wichita Falls, Mrs. T. K. Tredwell of Washington, D. C.; one son, Holmes McNeely of Houston; 8 grandchildren, 3 great grandchildren; and one sister, Mrs. R. P. Lomax of Denton.

Scouting Drive Continues Here

The 1956 drive for Scouting funds in Memphis got into full swing this week according to Mills Roberts, chairman of the drive.

So far, workers have turned in \$571 donated by area citizens, Roberts said. "We hope to collect \$1100 by the time the drive is finished," he continued.

There are approximately 100 boys engaged in scouting in this area and it costs approximately \$11.00 per boy to run the program, Roberts said.

Trapshoot Scheduled For Sun., Oct. 21

An Invitational Trapshooting Tournament will be held Sunday afternoon, Oct. 21, at the range of the Memphis Rifle and Pistol Club, C. S. Compton, president, announced Wednesday.

Firing will start at 2 p. m. over the club's regulation trap range, Compton said. Prizes will be awarded to all winners of each bracket.

"Both members and non-members are invited to come out Sunday and take part in this tournament," he added. "Visitors are always welcome."

Clifford Farmer Attends Meeting of Highway 287 Group

Clifford Farmer, manager of the Memphis Chamber of Commerce and Hall County Board of Development, will attend a meeting of the National U. S. 287 Highway Association in Fort Worth Sunday.

This is the regular quarterly meeting of the organization which was established to publicize the highway. They are attempting to encourage travelers to use the route, which extends from the Gulf of Mexico to Yellowstone National Park.

Hail, Wind, Rain Destroys Large Cotton Acreage In County Sunday

Farm Bureau Annual Convention Set For Monday Night At Travis School

The Hall County Farm Bureau will hold its annual convention Monday night, Oct. 22, at the Travis Elementary School cafeteria, Robert Moss, president of the group, announced this week.

"The purpose of the meeting is to act upon resolutions to be presented to the state convention and to establish policies on the county level," Moss said.

There are many problems confronting the farmers and ranchers of this county, Moss said. There is no other person, group of persons, or organizations that knows the needs of farmers better than those engaged in the business, he continued.

"We urge every farmer in Hall County to join with us in the Hall County Farm Bureau and attend the annual convention, expressing your desires and voting your sentiments," Moss said.

Questions which will be brought up and discussed will include the

proposed five-cent ad valorem tax to finance a state water program, federal aid to education, federal aid to highways, gasoline tax, state right to work law, minimum wage law as applied to farmers, agricultural research and cotton support price on 15-16 instead of 7-8 inch staple, Moss stated.

Lakeview Girls Down Estelline; Boys Tie Quitaque

The Lakeview girls basketball team opened the season with a double win over Estelline Tuesday night at Estelline.

The A squad won 53 to 45 and the B squad had to go into an overtime period to win 43 to 42.

The two teams will meet again Tuesday night, Oct. 23 at the newly remodeled Lakeview gym at 7 p. m. The Lakeview girls' team is coached by Supt. Loran Denton. Newly elected captains are Brenda Brister and Rita Durrett. Mrs. Perry Campbell is sponsor of the team.

The Lakeview football team fought Quitaque to a 13 to 13 tie in last week's game at Quitaque.

Friday night Lakeview will take on the No. 1 team in their district when they clash with Matador in a conference tilt on the Lakeview field. Game time is 7:30 p. m.

Services Held Mon. For Father of Mrs. Henry Scott

Funeral services for John J. Robbins, 80, father of Mrs. Henry Scott, were conducted Monday, Oct. 8, from the First Baptist Church in Everman with Dr. Chesley Bowden, pastor, officiating.

Born in Mississippi, Mr. Robbins had lived in or near Everman since he was 14 years of age.

He was preceded in death by his wife, who passed away about a year ago.

Mrs. Scott returned home from Everman the middle of last week.

Entries in Soil Conservation Reserve Program Total 53 Farms, 4189 Acres

Fifty-three Hall County farmers had entered the Conservation Reserve program of the Soil Bank according to a count this week by Lynn McKown, manager of the

Soil Bank Acreage Reserve Payments Begin This Week

The first checks for payment to Hall County farmers who participated in the 1956 Soil Bank Acreage Reserve program are ready to be picked up this week, Lynn McKown, manager of the Agricultural Stabilization and Conservation office, said this week.

About one-third of the checks are ready for delivery, McKown said. This is a total of about 40 checks, he added. Farmers will be notified by mail that their checks are ready.

"We are working on the rest of the payments, and as fast as we can check them and get them made out we will notify the farmers," McKown said.

Band Presents Half-Time Show On Politics

The half-time show of the football game Friday night was presented by the Memphis Cyclone Band in a comical political fight between Stevenson and Eisenhower.

The band formed a boxing ring and from the sidelines the two contestants and their managers entered their corners of the ring.

After the first contestant had been introduced as "Dwight D. Elephant," he and his two managers, Eisenhower and Nixon, came to the center of the ring as the band played "Happy Days Are Here Again." At this time the referee asked the elephant, "If you win this election, do you think you could do away with all taxes?" As an answer to this question the band played "Beautiful Dreamer" and the elephant returned to his corner.

The second contestant was introduced as "Kef-Ste Donkey" and he also came to the center of the ring as the band played "The Yellow Rose of Texas." He was accompanied by his managers, Stevenson and Kefauver. The referee then asked the donkey, "If your opposition should win, do you think he could last another term?" As an answer to this question the band played "The Old Gray" (Continued on page Twelve)

Estimated 6 to 7 Inches Overflow Rain Gauges

Hail, wind and rain destroyed approximately 60 square miles of Hall County crops Sunday night, exactly three years from the date of a similar storm.

The area which received the main force of the storm extended from north of Plaska into the Parnell and Hulver communities, and on down into the southeast corner of the county.

Much of the cotton in the area was open and ready to be gathered and only the shortage of field hands had delayed the harvest.

Crops on both sides of Red River were destroyed or heavily damaged. The area extended west from Estelline to Parnell with the heaviest part of the storm centering around Hulver where many rain gauges with a five-inch capacity were filled to overflowing. Other farms inside the 40-square mile area also received heavy rains of three inches or more.

Skies continued to be cloudy during the week and rain had begun to fall in Memphis Thursday morning.

Terraces, roads and other structures inside the area of Sunday's storm were heavily damaged as well as buildings.

Many of the farmers had secured field hands and were planning to begin cotton pulling Monday morning. Much of the cotton was small due to the drought but farmers were reporting better turnouts than they had anticipated.

The clouds which brought the storm built up Sunday afternoon and farmers inside the hard hit area said that rain and hail, accompanied by high winds in some (Continued on page Twelve)

Grain Program Extended Until Dec. 31, 1956

The feed grain program to support basic livestock herds was extended this week until Dec. 31, 1956, Claude Moore, county supervisor of the Farmers Home Administration, announced.

Farmers and ranchers have until Dec. 3, 1956, to file applications for this grain.

This extension of the Emergency Feed Grain Program now coincides with the assistance available under the Roughage Program for Texas, and enables county FHA committees to consider total feed requirements, both roughage and grain, through Dec. 31, 1956, Moore said.

Jan Goodnight Is Chosen MHS Queen by Class

Jan Goodnight, popular member of the senior class, was elected Memphis High School Queen at a meeting held recently by the high school and junior high school classes.

The honor of School Queen is reserved for a senior only while other classes elected princesses. Miss Goodnight will be formally crowned at the Queen Coronation and Ball which will be held later this winter.

The princesses chosen at the same time were Guyula Cawfield, junior; Virginia Chappell, sophomore; Priscilla Wright, freshman; Mary Crawford, eighth grade and Sondra Stargel, seventh grade.

Daughter of Hal Goodnight, Jan has taken an active part in all school affairs. She served as treasurer of her class in '54 and this year is treasurer of the Thespian Society. She was named Sweetheart of the basketball team in 1955 and was also chosen to represent her class as princess that same year. In 1953, she was named class favorite.

Rites For Raglin Conducted Friday

Funeral services for Monta Raglin, 52, were conducted Friday at 2 p. m. from the Travis Baptist Church with Lanham F. Campbell officiating.

Raglin died in a Memphis hospital Thursday following an illness of about a year and a half.

Funeral services will be conducted Saturday at 3 p. m. at the cemetery in Detroit, Texas, where he was born April 1, 1904, in Gray County, Tex., and was married to Mrs. L. L. Raglin in 1943. The Raglins made Memphis their home in 1947.

His illness, Raglin was afflicted by the State Highway Department.

Survivors besides his wife, include three daughters, Mrs. Margaret Hobbs, N. M.; Mrs. Mary Jo Kenney of Dallas, Mrs. Mary Adams of Wichita Falls, Montie Jean Garrison of Dallas, three step-children, Lee of Texarkana, Mrs. Attaway of Shreveport, Mrs. Sue Gunnels of Murfreesboro, Tenn.; five sisters, Mrs. Effie, Mrs. Sally Harlan, Mrs. Mary Franklin of Memphis, Mrs. Lillie Davis of Springdale, Ark., Mrs. Laura of Detroit; four brothers, Fred of Breckenridge, O. T. of Memphis, Okla., Johnny of Memphis, and Chuck of Clarksville.

Memphis Country Club Committees Selected

Officers of the Memphis Country Club were selected last week in a regular meeting and approved committees to serve during the coming year according to an announcement this week by H. R. Compton, president of the organization.

Officers being formulated for the coming year are: President, H. R. Compton; Vice President, J. W. Tucker; Secretary, J. W. Tucker; Treasurer, J. W. Tucker; Directors, Lee Brown, Ralph Lee Brown, Ralph Lee Brown, and Tony Craig.

Following appointments approved by the board: Management Committee—Chairman—Lee Brown; Treasurer—J. W. Tucker; Secretary—J. W. Tucker; Directors—Lee Brown, Ralph Lee Brown, Ralph Lee Brown, and Tony Craig.

Cyclone Beats Price College 14 to 13

The Memphis Cyclone earned the right to an open date this weekend by defeating the Price College Cardinals here last week by a score of 14 to 13.

Memphis' next game will be Oct. 26 when they journey to McLean to take on the Tigers in the first conference game of the season.

The Cyclone scored late in the first quarter last Friday after Don Townsend, Memphis center, recovered a fumble on the Price 22-yard line and 11 plays later Daryl Long, left halfback, drove one yard for the score. Campbell Morris, left end, took a pass from Quarterback Joe Young for the extra point.

Price College scored in the second quarter on a drive that started from the Memphis 45-yard line and ended with Quarterback Lon Watson going over from one yard out for the score. The extra point kick by Right Guard Ken Diller was no good, making the score Memphis 7, Price 6.

Early in the fourth quarter Memphis Right Halfback Billy Don Johnson scampered around right end, then cut back to the center to race 29 yards behind fine blocking for the score. Johnson then circled right end for the extra point.

With only a few minutes left to play in the fourth quarter, Price started a drive from the Memphis 40 yard line and 11 plays later Watson circled left end for the score. Diller kicked for the extra point.

Price attempted an on-side kick on the kick-off but Memphis was able to get the ball and had time for only a few plays before the clock ran out with the score 14 to 13 in favor of the Cyclone.

Memphis picked up 12 first downs and Price 9. The Cyclone punted 2 times for 33 yards and the Cardinals 5 times for 123 yards. Both teams picked up 154 yards rushing. Price completed 4 passes for 45 yards and Memphis tossed 7 for 63 yards.

Report From Washington

By Walter Rogers

Congressman, 18th District

The Drouth

Words alone are hardly adequate to describe the devastation of the drouth. On my recent trip home from Washington, I came by air to Dallas, then to Amarillo. I stopped over in Dallas for two days and had an opportunity to visit some of the surrounding towns and talk to many of the people. The view of the country from the plane as you arrive actually foretells the tragedy, but when you hear from the mouths of natives who have lived in this section of the country for many years that this is the worst drouth we have ever experienced, you then fully realize how deeply serious is the problem. The hardest foliage in Northeast Texas is perishing for the want of a few life-giving drops of water. But water is rationed. In those places where some is available for purposes other than human consumption, the price is prohibitive. Several told me of water bills for one month of \$60, \$70 and \$80. This, in a section of Texas that has usually had an ample water supply. As you move west, the situation gets worse, in so far as the drouth is concerned, but the people have had more experience with dry weather. Underground water supplies in many of the West Texas towns have saved the day, but these have been hardpressed in these six years of drouth. Many feel that this will be the last year, and that the rains will come next year; that this winter will bring soaking snows. In fact, everyone is praying for this relief, and let us all hope it will be forthcoming. But if it does come, let us not forget what we have been through, let us not forget that unless we take immediate steps to provide ample water for the future, that in a few short years we will again face the same devastation. At that time it could be much worse because of the continually expanding population and the demands for water, incidents, thereto and associated therewith.

There has been much talk in recent years about capturing the surface water, preventing the waste of some 85 per cent of it that flows into the ocean. However the talk has not captured much of the water. There has been a definite move in the direction of water conservation and the initiating of water projects designed to cope with the problem. But, relatively speaking, the action has not been in keeping with the present needs and certainly not in keeping with future needs. Water is serious business and

something that should not be used as a political football, to be kicked about as circumstances might require to meet the needs of some particular political party or some particular politician, appointed or elected.

In our own Panhandle-Flint area, an answer to the water problem would provide many answers to economic and other difficulties with which many of our communities are faced. We have a splendid water potential in this area that must be developed. There are many differences of opinion as to how this should be done, but be done, it must. And the quicker we get our heads together and work out a plan which we all can unite, the quicker we will be able to acquire that which we cannot do without.

Never a Dull Moment

It has often been said that there is never a dull moment in the Roger's household. Here is an example. Just before I left Washington, Mrs. Rogers had some shopping to do downtown. She had instructed me to pick her up in the car at 4:30 sharp at the side door of one of the largest department stores. She was on the 4th floor when she realized that 4:30 had arrived. This is heavy traffic hour in downtown Washington. The police allow short stops, no standing. Mrs. Rogers, not wanting me to get into trouble with the law, decided to use the stairs rather than to wait for the crowded elevator. She did fine until she reached the ground floor and opened the door to depart. It set off the burglar alarm.

Take Note Summerfield

A friend of mine was telling me the other day about looking through his cancelled checks to find that one had been written by his wife in the amount of \$150. She had dutifully inserted in the lower left hand corner, "For — Stamps, etc."

Duck, Goose Shoot Starts Nov. 2

AUSTIN — The only changes made in Texas 1956 waterfowl hunting regulations were those requested, reports the Executive Secretary of the Game and Fish Commission.

Zero on the opener, Friday, November 2, will be at one half hour before sunrise, like all other shooting days, and the goose and duck seasons will begin simultaneously.

Traditionally, twelve o'clock noon was the starting time for the waterfowl season.

At its last meeting, the Game and Fish Commission asked the United States Fish and Wildlife Service to make the duck and goose seasons conform "as a conservation measure and as a convenience to the hunters." It also suggests the earlier legal shooting hour for the first day for the same reason.

The new regulations provide no change in the sunset close for the daily shooting period and also place bag limits as in recent seasons. Limits are five ducks per day and ten in possession and five geese per day and five in possession. The goose limit shall not contain more than two Canada geese or its sub-species or two white-fronted geese or one of each.

Texans Find Ike Stands For Same Things We Do

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bureaucratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Republican. They always voted 'er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's happened," one of them told me. "Seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stand, for the things us Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little different, but by and large they think he has made us a fine President. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,
Tex

(Pub. adv. paid for by Texas Democrats for Eisenhower, Walden Hart, Director.)

COTTON QUEEN . . . Arden Cuadra, 18, of Blytheville, Ark., inspects cotton plants during National Cotton Picking Contest at Blytheville.

Mr. and Mrs. Jim Beeson and Mrs. C. A. Hoffman were Amarillo visitors Monday.

Mr. and Mrs. Bob Browning returned Monday evening from Denver, Colo., where they had attended a design school featured by the Denver Florist Company on Saturday and Sunday. While there they also visited with a friend who was serving with the Army in Germany at the same time the Brownings were over there.

Rye Used For Cover Crop Will Stop Sandstorms

Rye is one of the best cover crops that we can plant in this area. William C. Swindle, technician for the Soil Conservation Service said this week.

Supervisors of the Hall County Soil Conservation District believe that Common or Balbo rye plant-

ed in some of the drought stricken cotton, after the first pulling, may protect the field from blowing next spring.

The Hall County Soil Conservation District has a machine to plant rye, vetch or Austrian winter peas in cotton middles without harm to the cotton. It plants two rows in each middle, three middles at a time. If farmers are interested in using this machine, see the Vocational Agriculture teacher at the Memphis High School.

Now is the time of year to

call a halt to next year's dust storms. If a good cover of rye or other sown crops can be planted now, soil should have good protection next spring when the wind starts blowing.

The Soil Conservation Service technicians will be more than glad to help in getting a cover crop program started. If you need information on when, how much and how to plant your cover crop do not hesitate to contact the SCS office.

A cygnet is a young swan.

Those visiting in the home last week James Spent? and Garton, Mr. and Mrs. Bol of Windthorst, and Mr. J. L. Richburg of Memphis.

A milliard is a thousand.

What put the magic in the new kind of FORD?

The new Ford Fairlane 500 (118-inch wheelbase) Longer, lower, larger than many medium-priced cars, yet lower in price than most of them!

Here's what put the magic in the new kind of FORD!

It started with the "Inner Ford." When Ford planned this baby, they thought in terms of a car through-and-through new.

The wheels got smaller. This Ford is so new that even the wheels have changed. Now smaller and broader, they help you take off quickly.

The wheelbase got longer . . . so now you can choose between a Ford that's over 16 ft. long—or one over 17 ft. long!

The frame got wider. Side rails bow out to give a more stable, safer riding platform . . . a lower, sleeker silhouette.

The ride got smoother. With new suspension, new springing front and rear, the ride this new Ford gives is the smoothest ever.

The handling got easier. Poised and balanced like a panther, this car has swept-back front suspension that works its magic when you need it most.

The power got hotter. There's a wide range of Silver Anniversary V-8's to fit every horsepower need* . . . plus a new Mileage Maker Six.

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body built for a low-priced car. No car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. They have the Touch of Tomorrow. Each graceful contour says, "Let's go!"

The style got smarter. With this new-look Ford you have a car that belongs anywhere! All Fairlane models look like hardtops.

The value got greater . . . the price is still Ford-low.

*A Special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 312 Super, V-8 engine delivering up to 255 hp.

So now you know the magic of the '57 FORD!

Oil Serves You
OIL PROGRESS WEEK
Oct. 14-20

LET'S MEASURE AN OIL WELL

. . . in West Texas

You can measure an oil well by its depth, by its production, or in any of a number of ways. But the real "measure" of an oil well is to be found in the jobs it creates, in the schools and highways it provides, in the stores, shops and industries it supports . . . in short, the real measure of an oil well is in the benefits it brings to all the people of an area. The West Texas Utilities Company, too, can be measured in the record it has made in helping the West Texas Oil Industry serve the people of West Texas.

West Texas Utilities Company

Congratulations to the OIL INDUSTRY on its service to the people.

DAY, OCTOBER 18, 1956

PARNELL

Mrs. Mary Ryan of Madill, Okla., visited Sunday in the home of her parents, Mr. and Mrs. J. R. Morehead.

Mr. and Mrs. Jim Burk visited over the weekend with relatives in Amarillo and Hereford.

Mr. and Mrs. Crump Ferrel spent the past weekend in Fort Worth.

Mr. and Mrs. R. N. Mothershed were Memphis visitors Monday.

Mr. and Mrs. Bill Oreutt visited Monday in Tell in the home of Mr. and Mrs. Tom Oreutt and children.

Mrs. Travis Bruce went to Cross Plains Saturday to visit with her parents, Mr. and Mrs. F. C. Newton.

Mr. and Mrs. Harold Wheeler and children of Amarillo visited here over the weekend with her parents, Mr. and Mrs. Parge Winn.

Mr. and Mrs. T. W. Potts visited Sunday at Newlin with their daughter and family, Mr. and Mrs. Dalton May and children.

Mr. and Mrs. Bill Barnett of Childress visited over the weekend in the Paul Phillips home.

Mr. and Mrs. J. M. Ferrel, Sr., of Memphis and Mrs. Murel Monkerd of Crowell were guests Sunday of Mrs. Bob Mothershed, Mr. and Mrs. Joe Graham of Chillicothe also visited in the Mothershed home.

Mr. and Mrs. I. D. Mullin, Jr., and Ronald Lynn visited Sunday in the W. E. Helm home in Childress.

Mrs. Pat Wells of Memphis visited Monday with Mrs. Etta Canada.

Mrs. Jack House and Mrs. I. D. Mullin, Jr., were Amarillo visitors Tuesday.

Mr. and Mrs. Weldon Couch went to Memphis Sunday to attend the anniversary dinner of Mrs. J. L. Richburg.

Mr. and Mrs. Weldon Couch visited Sunday with Mr. and Mrs. Leroy Hutcheson. The Erie Trapp family also visited in the Hutcheson home.

Mr. and Mrs. Alvin Couch of Abilene and Mr. and Mrs. Demsey May of Abilene and Mr. and Mrs. Claud Weeks and children and Mrs. J. E. Couch of Lubbock were visitors one day last week in the Weldon Couch home.

Science Speaker Writes Letter To Memphis School

A letter was received this week by Supt. W. C. Davis from Veril A. Teeter, Staff Associate of Science Research Associates, Tulsa, Okla. Mr. Teeter was the guest speaker on a high school and junior high assembly program recently. His subject was vocational planning.

The students are very proud indeed of this letter. It reads as follows:

"It was a real pleasure and privilege to speak to your high school students recently. The excellent attention given during the assembly period was especially appreciated. The students demonstrated a keen sense of humor and displayed an intense interest in their vocational plans.

"The Memphis High School student body is composed of many fine youngsters and you have just reasons to be proud of them.

"If I can be of further service to you or to the students, please do not hesitate to call me."

CARD OF THANKS

We wish to express our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindness, we are deeply grateful. We are especially thankful for those who brought food.

Mrs. J. M. Saunders and family

CARD OF THANKS

We want to say thanks to our friends who have been so wonderful to us. We are grateful for the prayers, the cards and letters, flowers, and the visits. Especially do we thank those who donated blood and those who contributed to the blood fund. We will never forget you.

Earl and Clara Pritchett Room 416 Bethania Hospital Wichita Falls, Texas

Mrs. M. E. Foster and Mrs. Donitta Jones and children of Wellington visited in the M. F. McKinney home Sunday. Mr. and Mrs. McKinney are busy adding an extra room to their home.

SEEK HIGHER SPUD PRICE . . . 200 wives of Long Island potato farmers, plus others from New Jersey and Pennsylvania, arrive in Washington, D. C., to get aid in reducing potato surplus.

Mr. and Mrs. Gene Lindsey and daughters visited in Dallas over the weekend with her parents, Mr. and Mrs. H. B. Gilmore, and attended the State Fair and the Texas-OU football game.

Mrs. H. Moreman Hostess to UDC Chapter Tuesday

The Winnie Davis Chapter of the United Daughters of the Confederacy met in regular session in the country home of Mrs. Herlie Moreman Tuesday, Oct. 9, at 3 p. m.

The president, Mrs. Moreman, called the meeting to order. The minutes of the September meeting were read and approved. Some correspondence was read. Regret was expressed because no member could attend the state convention.

The Ritual and the pledges to the flags were given preceding an unusually interesting program. "The Camel Corps," a little-known phase of the war between the states, was given by Mrs. T. J. Hampton. Mrs. J. H. Nor-

man ably reviewed the book, "Stephen Mallory—Navy Chief," by Joseph T. Durkin.

Following the program the hostess served dainty refreshments in the autumn motif to Meses, Emma Baskerville, O. R. Goodall, T. J. Hampton, J. H. Norman, J. A. Odom and R. Ernest Clark.

New Books Are Added To Library

New books are still being added regularly to the Memphis High School library, according to information released by the library this week.

The list of books added this week is as follows: the 16-book series of Cherry Ames, "The Flight Nurse," "Dude Ranch Nurse," "Private Duty Nurse," "Student Nurse," "Rest Home Nurse," "At Spencer," "Mountaineer Nurse," "Cruise Nurse," "Chief Nurse," "Army Nurse," "Veteran's Nurse," "Country Doc-

tor's Nurse," "Clinic Nurse," "Night Supervisor," "Boarding School Nurse," and "Visiting Nurse."

Mrs. Maud Williams of Fort Worth spent Friday night with Mrs. Mattie Stanley in Inakeview, and the weekend with Mrs. Albert Beavers in Deep Lake. Mrs. Williams and her two sisters, Mrs. Beavers and Mrs. Odessa Jones of Amarillo, visited with Mrs. Stanley Sunday morning.

The Vernie Wylie family of Boyd spent the weekend with his parents, Mr. and Mrs. M. A. Wylie at Lakeview.

Quick-Serve Foods

Quick 'N' Easy Pancakes: Measure 2 cups of Pancake Mix into mixing bowl. Stir in 1 cup of Carnation Evaporated Milk mixed with 1 cup of water. Mix and bake according to package directions.

Apple Pancakes: Add 1 cup finely chopped pared apples to the batter before cooking. Spread with butter and sprinkle with cinnamon and sugar.

Hot Cocoa: Simply add piping hot water to Carnation Instant Chocolate Drink mix and stir lightly for luscious hot cocoa. No cooking, no lumps, no "skin." Ready to drink—complete with all the protein, calcium and B-vitamins of fresh milk—even extra vitamins and iron.

—For your copy of Carnation's latest recipe booklet, send to: Mary Blake, Carnation Co., Dept. GS-164, Los Angeles 19, California.

SCORE WITH THESE QUICK-SERVE FOODS

Be the smart hostess. Save time, effort, and money too with our big selection of modern quick-serve foods... they're just the ticket for those impromptu get-togethers after sporting or theater events.

Draft Largest Since 1917

The state draft board will be the biggest since 1917, Col. S. Schwartz, state service director, announced.

Schwartz called for Texas asks for 687 men, compared with 687 in 1917. The quota for December is 837 men. The quota for 1957 is 847 in Texas' share of 17,000 for the army.

Schwartz also announced that the boards not only for these examinations but also for October call on approximately half the state's local 1,416 men to take physical and mental tests for future calls.

That the boards not only for these examinations but also for October call on approximately half the state's local 1,416 men to take physical and mental tests for future calls.

Who are 22 years of age on October 1, with no previous military service or who may be younger.

Schwartz said he expected to call to be filled by men and men without previous military service.

He said delinquent men are first but boards do not accept many delinquents.

He said young fathers to be fathers or childless, as boards by the facts as learned.

Scopes was arrested for teaching Evolution, Ohio.

Wildlife Needs Help During the Winter Months

The farms and ranches of this country are the places that must produce foods, fats, oils, and fibers for an expanding population without permanent damage to the soil, William C. Swindle, technician for the Soil Conservation Service said this week.

At the same time we must look to this land for recreation and relaxation, he continued. The farms and ranches of the Hall County Soil Conservation District can provide hunting, fishing, and trapping as well as produce the foods and other materials needed.

Land primarily suited for use as cropland or pasture produces wildlife as a secondary crop, Swindle said. In addition, there is land on almost every farm that can and should be used to produce useful wildlife as a primary crop — it is wildlife land.

Small areas of wildlife land, well distributed over the farm, when coupled with proper use and management of other land, make the whole farm an efficient unit for the production of all crops, he stated.

There are no two kinds of wildlife such as quail, doves, and rabbits that have the same requirements for living. However, it is safe to say that all kinds of wildlife need food, cover and water, Swindle continued.

To be the most useful, food must be plentiful and close to cover that will furnish protection from enemies and weather, he said. The most critical season for wildlife food is winter and early spring. There are no insects during these seasons and most of the wild fruit and other foods are gone. Snow and ice may cover waste grains, he continued.

Most kinds of wildlife need several kinds of cover. Cover must conceal nests and the young, provide shade from hot sun and shelter from chilling rains, he said.

Cover must also be used to escape from enemies and it must protect them from snow, sleet, cold and wind in the winter, Swindle continued. Good management of cover for wildlife will consist of unburned, ungrazed, or unmowed fence rows and fence corners. Also dense or thorny shrubs for protection against predators and

for nesting is important. Wildlife obtains water from three sources: surface water, food that contains lots of water, and dew. Here in Hall County, surface water is a necessity, he continued.

Trees, shrubs, and grasses located around livestock watering places will generally afford sufficient protection for wildlife, when they require water.

Farmers and ranchers of the district are urged to leave that last row or two of milo near windbreaks, fence rows, ditch banks and odd areas for the wildlife to feed on this winter when all other food is gone, Swindle said.

For more information on this subject see the local SCS technicians. With a little help, wildlife will flourish in this area and hunting will be better than ever before. Only about 10 per cent of the wildlife is killed each year by hunters, as compared with the approximately 60 per cent which starve to death during the winter.

Undersirable Wheat Discounted On '57 Market

COLLEGE STATION — Discounts to discourage plantings of undesirable wheat varieties were included in the price-support program for the first time on the 1956 wheat crop. Today the USDA released a list of 23 varieties which are classed as undesirable because of inferior milling or baking qualities. They will be discounted 20 cents per bushel in price-support rates on the 1957 wheat crop.

According to extension agronomists, the hard red winter varieties are most commonly grown in Texas and those on the undesirable list include Stafford, Pawnee, Sel. 33, Red Chief, Chiefkan, Early Blackbull, Red Jacket, Kanking, Blue Jacket, Parkof, Cimarron and Red Hull. Others listed are soft red winter, hard red spring, durum and white wheat varieties.

These 23 were designated as undesirable by the Agricultural

David H. Aronofsky D. D. S.
 DENTISTRY
 Office Hours 9-12, 1-6
 Phone 675 First State Bank Bldg.

Research Service after consultation with state agricultural extension station personnel, agronomists, cereal chemists and others on state and Federal staffs.

The extension agronomists point out that the discount on these undesirable hard red winter wheat varieties should not hamper Texas wheat producers because research has developed varieties which are better yielders as well as producers of better milling and baking quality wheat.

The recommended varieties for the High Plains of Texas are Comanche, Concho, Westar, Wichita and Triumph. For the Rolling Plains area these same varieties are recommended along with Quannah for the eastern counties. In the north central area of Texas, Quannah is preferred while Comanche and Concho have also done well. In the South-central area, Quannah is recommended because

Elec. Motor Repair
 Sales and Service
 Parts for all types of motors
Gidden Electric
 10th & Bradford Ph. 112

of its resistance to disease.

The discount was adopted in the support operation to lessen their production and the possibility of U. S. wheat of inferior quality finding its way into domestic and export channels. Representatives of crop improvement associations have strongly urged the action.

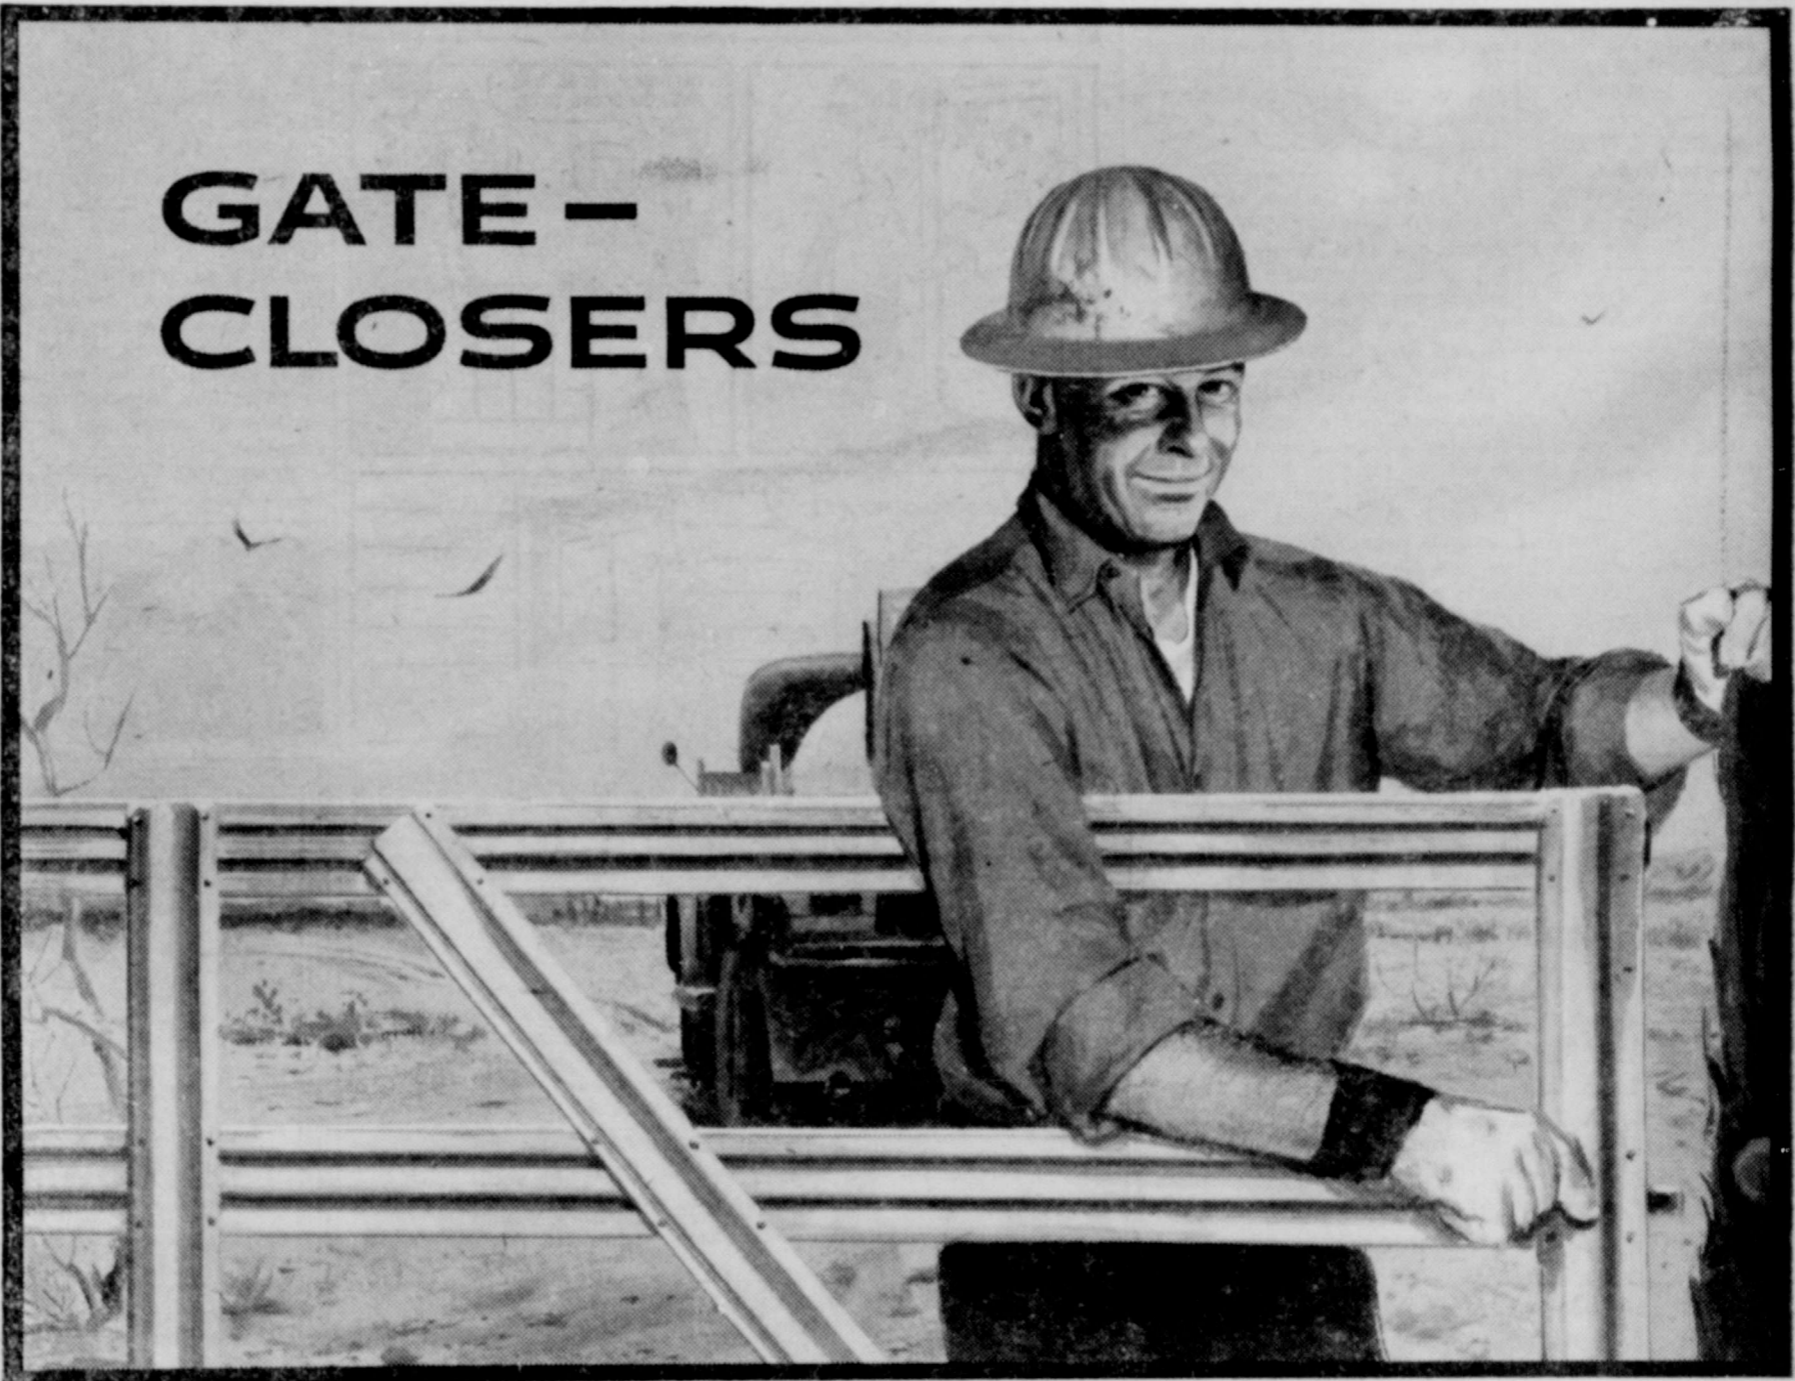

The price-support regulations for 1957 will provide for producer certification regarding undesirable varieties.

Sound Off. What do modern fire alarms and kitchen freezers have in common? The answer is "Freon," a chemical made from crude oil and natural gas. First developed as a freezing agent a quarter-century ago, "Freon" is now being used to blow whistles in fire alarms. When heated under pressure in a small container, the chemical expands, releases a valve, and sounds off through a whistle device.

GATE-CLOSERS

Dear Friends

A farmer friend of ours paid Humble's field men a fine compliment recently.

He said, "There's one thing about you Humble people, you close gates."

Well, of course we do.

All of us at Humble want the good will of the folks with whom we do business. And among those folks, the farmers and ranchers who lease their land to us for exploration and production are right at the top of the list.

In fact, you farmers are partners with us in the development of a vital natural resource. If our efforts are successful then everyone involved benefits.

Keeping the gates closed and the fences mended—things like that are the least we can do.

We know. A lot of us grew up on farms and ranches.

GRACE AND BLESSINGS

Jesus Christ is the saviour of the obedient. "He became author or eternal salvation to all them that obey" (Heb. 5:9) Often man is prone to overlook and neglect the gospel of Christ. This is true even of religious leaders around us. Have you ever heard a pastor say, "You don't have to be baptized for a command." My friend, just to say it is "only a command" doesn't nullify it nor make it non-essential. ONLY the things we must obey are the COMMANDS OF CHRIST. The Lord said, "If ye love me, keep my commandments." (John 14:15). So, if one will admit that no man can successfully deny that baptism is a command of the Lord (Mk. 16:15-16; Matt. 28:18-20) he is forced to admit it is essential to the salvation

never, in all the scripture, did God give a blessing to the disobedient or the partial-obedient. Contrariwise, says, "For whosoever shall keep the whole law, and offend in one point, he is guilty of all." (Jas. 2:10). It wants us to get as near the kingdom of heaven as we can stay in his grasp. He allows men who are honest as they are taught and are ready to learn to lead us to the BRINK OF SALVATION, but will exert every effort available to keep one from full obedience that will bring the blessings of God. There are multiplied thousands lost today because of believing a false doctrine. John 1:9 Beloved believe not every spirit, but TRY THE SPIRITS whether they are of God; because many false spirits are gone out into the world." (1 Jno. 4:1) The way we can TRY THE SPIRITS is by the word of the commands to be obeyed. If ANY teacher teaches a single command of the Lord's is non-essential that is a FALSE PROPHET and must be denounced as

Church of Christ

Wesleyan Guild Hosts to District Meeting Sunday

The Memphis Wesleyan Service Guild was hostess to the Wesleyan Service Guilds of the Childrens District Sunday afternoon, Oct. 14. The seven Guilds represented were from the following towns: Childress, Hedley, Quanah, Paducah, Vernon, Wellington, and Memphis.

Mary Owens, president of the Memphis Guild, presided. Rev. Mathis of Hedley led the opening prayer; then the Guild hymn was sung. Mrs. J. C. McBrayer of Paducah Guild gave the devotional. Christine Flynn of the Childrens Guild gave the welcome.

Miss Ethel Ford, district Guild secretary, of Vernon, was in charge of the business session. She introduced Miss Dorothy Perry, conference secretary, of Amarillo, who was a visitor.

The Vernon Guild had charge of the program which included the playlet "They That Hunger for the Dignity of Man." The following persons appeared on the program: Myrtle McCroskey, pianist, Lorena Simmons, Vera Backus, Kathleen Spencer, Ethel Ford, Christine Flynn, Jeffrey Thompson, Maxine Cordwell, Mildred Spicer, Margaret Percell, Annie Barel-smith, Mildred Shaw, and Juanita Hoffman.

There were thirty-eight members and seven visitors present. The next district Guild meeting is in Wellington, Jan. 2, 1957.

Mr. and Mrs. Walter Williams and children were Dumas visitors Sunday in the home of Mr. and Mrs. Bobby Helm. The Helms are formerly of Memphis.

Mrs. Wilson Weldon of Canton is visiting here this week in the home of Mr. and Mrs. Marion Long. Mrs. Weldon and Mrs. Long are cousins.

Extension Service Locates Hay For Texas Farmers

COLLEGE STATION — Hay for Texas farmers and ranchers is being located by the Texas Agricultural Extension Service.

Through cooperation with extension services in other states, J. D. Prewit, associate director of the Texas service is locating sources of hay which Texans can buy.

It is already known that several thousand tons of hay is available in the middle west, Prewit said. States which have indicated they have hay for sale include Kansas, Iowa and Minnesota.

Assistance of the state headquarters was asked earlier by agricultural agents in counties where farmers and ranchers were unable to produce hay this year due to drought.

Indications show that there is an adequate supply of hay in Texas. Prices of the hay vary, depending on the kind and quality. Freight rates also vary according to tonnage and the distance transported. Local railroad freight officials said, however, in carload lots, freight rates are about \$27 a ton from Minneapolis to Bryan, \$23.40 from Sioux City to Bryan and \$19.60 from Topeka to Bryan.

Information has been made available to agricultural agents in each Texas county for availability to local farmers and ranchers listing amounts of hay available and addresses of its location in other states, Prewit added.

New Chemical Called "Great"

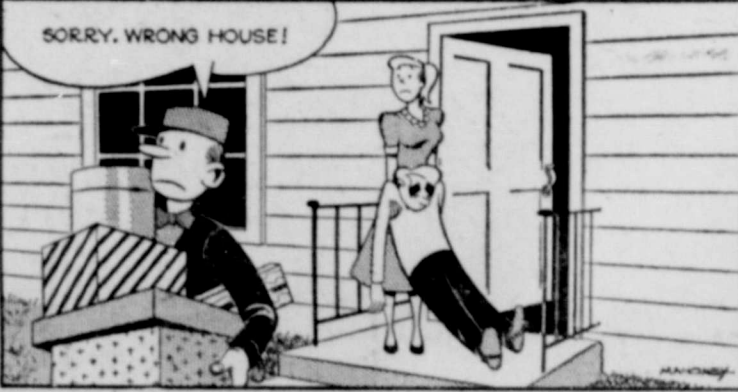

Petrochemistry, virtually unknown two decades ago, is a three billion dollar industry today. Currently, nearly 3,000 chemical substances are being made out of oil and natural gas, and new ones continue to pour out of oil and chemical industry laboratories at the rate of 400 a year. Chemicals from petroleum now account for nearly 45 per cent of the nation's production of organic chemicals. Experts believe that within the next 10 years, fully 50 per cent of our chemicals will be derived from oil and natural gas. Petrochemicals are truly the materials for modern living; products such as detergents, man-made rubber, and plastics are making vast contributions to the comfort and security of every American.

Summary Lists 1956 Hunting Regulations

Major fall hunting regulations are here summarized by the Texas Game and Fish Commission for ready reference.

MOURNING DOVES: North zone, Sept. 1 to Oct. 17; South zone, Oct. 12 to Nov. 28; noon to sunset, ten doves per day or in possession.

WATERFOWL: Ducks, Nov. 2 to Jan. 15; Geese, Nov. 2 to Dec. 21; one half hour before sunrise to sunset; five ducks per day, ten in possession; five geese per day or in possession, both in the aggregate.

DEER: Under general law, Nov. 16 to Dec. 31; West of Pecos, Dec. 8 to Dec. 13; Panhandle, Nov. 17 to 26. Several special local seasons in groups of counties or individual counties. Limit ranges from two buck deer under general state law to one buck deer and one buck or one antlerless deer under special local or regional regulations.

TURKEY: Nov. 16 to Dec. 31 under general law; Nov. 17 to 26 in Panhandle; limit, three gobblers under general law, two gobblers in Panhandle. Special dates and limits prevail in many counties.

ANTELOPE: West of Pecos, two three-day periods, Oct. 1 to 3, and Oct. 5 to 7; Panhandle, three three-day periods, Oct. 11 to 13, Oct. 14 to 16, and Oct. 17 to 19. Limit one buck or one doe antelope in West of Pecos; one buck antelope in Panhandle. Special permit required.

QUAIL: Dec. 1 to Jan. 16 under general law; West of Pecos, Dec. 1 to 31; Panhandle dates same as general law; season on Mearns quail closed West of Pecos; Limit, under general law, twelve per day and not more than thirty-six in one week or in possession; Panhandle, ten per day, ten in possession. Special regulations in several areas and individual counties.

JAVELINA (peccary or wild hog): Under general law, Nov.

16 to Dec. 31; West of Pecos, Nov. 1 to Dec. 31; Season open all year in many counties; never opened in other areas; Limit, under general law two per season; same West of Pecos.

SQUIRRELS: Under general law Oct. 1 to Dec. 31; season never closed in many counties; limit, ten squirrels per day 20 in possession under general law; varies with special regulations in many counties and areas.

NOTE: This summary is not designed to replace detailed data on species or regulations as described in the Hunting Law Digest supplements through your local game warden or your local license agencies.

Saccharin is derived from coal-tar.

Highlights and Sidelights FROM YOUR CAPTION

FALLOUT CLOUD from the first H-bomb blast, towering 25 miles high, begins to drift off to the left after nuclear device, rated in millions of tons of TNT, was touched off in mid-Pacific in November 1952. If the cloud could have been magnified, it would have looked much like the inset, with microscopic radioactive particles clinging to larger earth particles which were blown skyward by the blast. From tests such as this, the Federal Civil Defense Administration learns the basic facts about fallout necessary to plan future defenses against it. (U. S. Air Force Photo)

Atty. Gen. John ... has asked the press to sponsor 12 bills in the Legislature. They pertain to publication laws, ...

whose term expires ... addressed the 6th Annual Meeting of the Texas Association, in Austin.

recommended passage of ... that would require ... to publish an official ... in a newspaper in the ... of each veteran ... a loan under the ... Program. This, so ... will know ... an application has been

cessive portion of welfare payments goes to union fund managers, and too little to workers.

ROADS OF THE FUTURE — Highway construction under the new multi-million dollar federal-state building program is designed to meet anticipated traffic conditions of 20 years from now.

ROUGHAGE PROGRAM UNDERWAY — After numerous delays, drought-hit Texas farmers now are getting federal aid to buy roughage for cattle.

CROP FORECASTS DOWN — Dwindling prospects in dryland areas have caused the U. S. Department of Agriculture to revise downward its estimate of Texas' 1956 cotton crop.

USDA's rice crop estimate also tumbled this month — from 11,977,000 bags (100 lbs each) to 10,841,000 bags.

Other forecasts: sorghum, 88,428,000 bushels; corn, 25,528,000 bushels; wheat, 28,275,000 bushels; p e c a n s , 25,000,000 pounds. Texas' 1955 pecan crop was 38,090,000 pounds.

"PAPPY TO RUN REGARDLESS — W. Lee O'Daniel is going to "personalize" the general election ballot.

Immediately after the State Supreme Court announced that his name could not appear on the printed ballots, "Pappy" said it will be written in "by the hands that rock the cradles . . . and

their husbands and their grown sons and daughters."

Then he announced that he would conduct a write-in campaign.

Secretary of State Tom Reaveley had refused to accept O'Daniel's filing as the nominee for governor on the ticket of the Constitution Party because the former governor had been defeated as candidate for the same office in the Democratic primary this year. And the court upheld Reaveley's contention.

SHORT SNORTS — Index of prices received by Texas farmers and ranchers has dipped two per cent, according to the U. S. Department of Agriculture. At the same time farmers' living expenses rose two per cent . . . Twenty-one more Texas counties have been designated drought disaster areas by USDA . . . Low bids totaling \$13,615,860 for 19 projects were received by the State Highway Department in the September contract letting . . . Texas taxpayers made a \$23,319 prof-

"QUICK! - FRANKLIN - WHERE IS THAT BOOK ON FIRE PREVENTION?"

it on the recent sale of 34 tracts forfeited under the veterans land program. High bids totaled \$238,319. Still retained by the state were 23 tracts on which no bids or too-low bids were received . . . Thefts committed in Texas have increased 14.8 per cent during 1956, according to the Department of Public Safety. Murders and homicides have decreased slightly. Total so far for 1956 is 437 . . . State Selective Service Headquarters reports draft registration through August, 1956, at 43,000, compared with 44,000 a year ago. Drought is blamed by the Texas Forest Service for the quadrupled outbreak of woodland fires during 1956. Latest figures for the year show 43,000 acres burned in 2,103 fires, compared to 11,345 acres in 989 fires last year.

Mr. and Mrs. M. F. McKinney, 903 Robertson, visited relatives in Fort Worth and Dallas this past week. While there they enjoyed a program in the Fire Arts Building including a vocal rendition by Madden Voigt formerly of the Metropolitan Opera accompanied on the piano by Helen Brooke, wife of Royce L. Brooke, nephew of Mrs. McKinney.

How Are You Doing?

Under the past four years of Republican administration — designed to make the rich richer and the rest of us poorer — WHICH DIRECTION HAVE YOU BEEN GOING? Where do you think you and your business (and your pocketbook) will be four years from now under continued Republican leadership?

If you are one of those who think that a good siege of "HARD TIMES" is what our country needs, then by all means vote for Ike and the Republican party (and the millionaire cabinet). It looks like they are well on their way toward bringing about such conditions.

Weather Cycles Not Found In Recent Study

COLLEGE STATION — Predictions of rainfall cannot be made on the basis of weather cycles of "wet and dry years."

Recent studies of 31 locations in the High and Rolling Plains to Texas show that cycles play little or no part in annual rainfall figures dating as far back as 89 years.

Drs. R. J. Hildreth and Gerald W. Thomas of the Texas Agricultural Experiment Station, who made the studies, state that an optimist can find traces of cycles at some locations, but no statistical significance of cycles is revealed in the records.

"Average or normal rainfall seldom occurs," Dr. Hildreth said. "The records indicate that farmers and ranchers in the High and Rolling Plains should figure that more years, 52 to 69 per cent, will be below average in rainfall than years above average.

Prolonged droughts have occurred on the High and Rolling Plains at least two or three times during the period weather records are available. The famous drought of the 1930's, which led to the dust bowl period occurred around 1917. At most locations the recent drought began in 1951 and is the longest and most severe on record. Records go back to 1866 at Abilene.

In most cases, it is not the first

FAST TRIP . . . Tom and Lucy Clark of Richmond, Va., drove 5,878 miles from New York to Los Angeles and return in 124 hours, 13 minutes in Renault car.

year of low rainfall that is disastrous, but the 2, 3, or 4 years in a row of low rainfall. During the dust bowl period, Amarillo had 8 consecutive years of below average rainfall.

The study and publication of the results — "Farming and Ranching Risk as Influenced by Rainfall" — is the first of a planned series to include several other areas of Texas, the Edwards Plateau, Trans-Pecos and Rio Grande Plain, where drought also has affected farm and ranch income.

Longfellow, the poet, was a descendant of John and Priscilla Alden.

Philathea Class Installs New Officers Tuesday

The Philathea Class of the First Baptist Church met in the home of Marilea Miller on Oct. 9.

Mrs. Lorene Swift offered the opening prayer. The class song was sung by the group after which Mrs. J. W. Fitzjarrald brought an inspiring devotional using as her theme "Hindrances to Prayer."

Mrs. Leta Ellis installed the following officers: Mrs. Pauline Gillespie, president; Mrs. Lois Goffinett, first vice-president; Mrs. Ora Lee Fulton, secretary; Mrs. Elene Gilbert, assistant secretary; Floe Corley, courtesy chairman; Mrs. Marilea Miller and Mrs. Floe Corley, group captains.

Refreshments were served to the following members: Mmes. Lorene Swift, Estelle DeBerry, Floe Corley, Gwen Craig, Rachel Jones, Elene Gilbert, Lois Goffinett. Guests were Letha Ellis, Mrs. Fitzjarrald, and Mrs. Christine Long.

cessive portion of welfare pay- ments goes to union fund man- agers, and too little to workers.

ROADS OF THE FUTURE — Highway construction under the new multi-million dollar federal-state building program is designed to meet anticipated traffic conditions of 20 years from now. State Highway Engineer D. C. Greer said crossroads and rail- road crossings will be either separated or eliminated. Hills will be graded down to allow for speeds of 70, 60 and 50 miles per hour, depending on location. Roads will be either four-lane or two-lane with right-of-way for two more.

ROUGHAGE PROGRAM UNDERWAY — After numerous delays, drought-hit Texas farmers now are getting federal aid to buy roughage for cattle. Certificates good for \$7.50 per ton are being issued through nearly 200 county offices of the Farmers Home Administration. Hay, cottonseed hulls, corn shucks and corn cobs are classed as roughage. Already a price rise in hay has been unofficially reported.

One million dollars was allocated for the program. Some farm leaders have predicted that this will not be enough, but FHA officials say more money would be forthcoming if needed.

CROP FORECASTS DOWN — Dwindling prospects in dryland areas have caused the U. S. Department of Agriculture to revise downward its estimate of Texas' 1956 cotton crop. Forecast now is 3,460,000 bales. This is 140,000 bales less than originally predicted, 579,000 less than the 1955 crop.

USDA's rice crop estimate also tumbled this month — from 11,977,000 bags (100 lbs each) to 10,841,000 bags.

Other forecasts: sorghum, 88,428,000 bushels; corn, 25,528,000 bushels; wheat, 28,275,000 bushels; pecans, 25,000,000 pounds. Texas' 1955 pecan crop was 38,000,000 pounds.

Editorial

Feast or Famine?

In reading the records of ancient history, we became
alarmed at the similarity in attitude of the farmer, the man
on the street, the politician and the population in general
of those times and of our modern times, regarding the one
thing that made their civilization and ours so great.

All civilization began with the plow. Unless wise con-
servation of soil and water is practiced at the same time the
furrows are being turned, all civilization will ultimately wither
and disappear from the earth.

Let us look at some of the records written on the land
in the course of civilization from the Holy Land to the
Pacific Coast of our young country.

The Near East has been called "The Graveyard of
Empires." Agriculture had its beginning at least 7,000 years
ago in the fertile alluvial plains of Mesopotamia and the Valley
of the Nile. In the great plains of Mesopotamia harvests be-
came bountiful by the added use of irrigation water. The crops
flourished and granaries filled to overflowing; thereby
releasing a great number of laborers, formerly used in the pro-
duction of food. The laborers turned to the arts and trades
creating what we today call civilization.

In the romantic stories of the Valley of the Nile, we
find a situation of abundant food supplies and a remarkable
civilization. Our debt to the ancient Egyptians is great. In
the Nile Valley the first farmer hitched an ox to a hoe to
change the social structure of the times as much as the tractor
has changed ours today. From Judea, across China, Cy-
prus and Syria, through what was once the great forest of Le-
banon, which today contains only a small grove of trees,
into Timgad, North Africa, once a great thriving agricultural
and cultural city, now barely supporting 300 shepherds, the
story repeats itself. All through the years as civilizations
have grown and prospered, they have neglected the con-
servation of resources, soil and water, and have perished.

Today the granaries of this great nation are filled and
overflowing. We are enjoying a very high standard of liv-
ing. The general culture has reached greater heights than
was imagined even 50 years ago, and now it appears that
the farmer is to be virtually LEGISLATED out of existence,
which could be the first step toward the retardation of our
nation.

It is a known fact that America's ability to produce food
and fiber has always been the greatest factor in winning
wars. Should the great American agricultural machine be so
weakened as to cause the neglect of conservation of our soil
and water, certainly our first line of national defense would
be weakened in direct proportion.

This is the last frontier, for there are no more new
continents to discover and exploit. If we are to discover a
way of establishing an enduring civilization, we must do it
here. This is our last stand. We must find a way.

This is the reason so much time and effort is being de-
voted to the problem of soil conservation. It is true that na-
ture can rebuild the soil, but it is a long and slow process.
It takes nature about 100 years to complete one inch of top
soil, and it doesn't take many good sandstorms to take away
that inch.

We now have an abundance of food and fiber and are
plagued with a surplus problem, but how long can this
continue? If our population continues to increase at the
present rate, we will be using all that we can produce by
1970, providing that our farm land is as good then as it is
now. Land that is washed into the ocean or blows away
can never feed this increasing population.

Are we going to let ourselves become like India where
thousands of people die on the streets each week of starvation?
Some might say that we should face the shortage when it
occurs and not worry about it before then. How can we, be-
cause once the soil is gone it is almost impossible to build
back again.

In this area we lose thousands of tons of soil each year
because of the winter and spring winds. This problem can be
conquered several different ways. One of the easiest ways is
to plant a cover crop such as Hairy Vetch and rye. The
federal government has a cost sharing plan in operation where
they will pay a part of the cost of seed for these cover
crops. For example, they will pay about 10 cents a pound
if the farmer will seed 20 lbs. per acre of Hairy Vetch on his
land. If the farmer will plant rye with the Hairy Vetch as a
nurse crop, they will pay at the rate of 3 cents a pound for
the recommended 30 pounds per acre.

Now this area has had some fall rains. If more rains
should fall, harvested lands would be in good condition to
receive the seed and get a stand up before the winds come.
Anyone desiring more information on cover crops is urged
to contact the Soil Conservation Service.

FURIOUS BATTLE FRONT

Press Paragraphs—
QUOTING OUR NEIGHBORS

You Have Just 26 Days
To Make Up Your Mind

Quite a few have asked just
how The Journal stands on the
national ticket, whether Democrat,
Republican, or otherwise.

The Journal itself will never
make any difference between pol-
itical factions or parties when it
comes to equal treatment in
news and in the advertising col-
umns. Its columns are open to all.

But this writer takes an entire-
ly different attitude. I have never
voted anything except the Demo-
cratic ticket and I have been
voting quite a while; and I don't
believe anything will ever hap-
pen that will cause me to cast a
vote for the Republican party,
unless it's the only party exist-
ing.

And I take a dim view, and
will never support a political
leader, after accepting honors
from his party all his life,
suddenly finds an excuse to turn
upon the organization that made
him and go over to the opposi-
tion. If his conscience forces him
to do that, I think he ought to
do it, but I don't have to continue
to support him.

I am proud to take this stand,
and I don't believe any apology
would ever enter my mind for
having always supported one of
the oldest institutions in America,
the Democratic party, which had
its origin coincidentally with the
founding of the Republic, and has
remained a powerful political en-
tity and exerted a profound in-
fluence upon the thinking of the
citizens through 180 years.

A moment ago I said nothing
will ever influence me to cast
a Republican vote; I mean by that,
I do not vote the man, I vote
for the party and it would take
lots of doing for the GOP to
change into what I think a polit-
ical party ought to be; an instru-
ment to promote the well being
of all the people, all 166 million
of us, and not just a class at
the top of our economic life, not
just those who already have it
made.

And so, if the opposition names
the greatest war hero, the great-
est inventor or scientific hero, or
the TV performer most in the
public eye as their standard bear-
er, it wouldn't make a particle of
difference, because I think the
philosophy of the party would not
change, but rather would change
and dominate their leader. And
so, I say through the thick and
through the thin with the party
that I know has always and I
think always will have the right
concept of what government is
really for — the betterment of
the people and the country they
occupy.

Compared to Lincoln, Wash-
ington, Jefferson, the Democrats
have had, just as the Republicans
have had, weak, or inept pres-
idents; they have had, both of
them, administrations when cor-
ruption, cynicism, and favoritism
were rank; the Republicans have
had more of those than the Demo-
crats have.

When the U. S. Constitution
was adopted, elements of the
Democratic party were already in
existence. Even at that early
date, the members felt them-
selves to be the party of the
common man, and the elements
mentioned opposed some provi-
sions of the Constitution, saying
the government was being organ-

ized in the interest of the priv-
ileged classes."

The party continues to think
of itself as the party where the
rights and opportunities of Mr.
Average Man are most respected.

One speaker at the recent Re-
publican Convention in San
Francisco boasted that since Lin-
coln the GOP has been in charge
of the administration nearly 75
years out of 96. I venture to

say the Democrats have come up
with many times as much legisla-
tion for the general advancement
of the people economically and
socially in the less time they have
been in power.—Muleshoe Journal

Memories
Turning Back Time

10 YEARS AGO
October 17, 1946
C. of C. TO SPONSOR 1947
STOCK SHOW — The Memphis
Chamber of Commerce will sponsor
the Hall County 4-H and FFA
livestock show again next March.
Horace Tarver, president of the
C. of C., announced this week,
and plans are being made for a
much bigger show than in pre-
vious years.

Tarver has named the following
committee to begin work in pre-
paring for the show: T. M. Potts,
chairman, Wendell Harrison, Ar-
thur Gidden (Plaska), O. R. (Doc)
Saye, Clyde Milam, and M. C.
Allen.

SUE LYNN GUTHRIE IS
WINNER OF THE PAN-HEL-
LANIC AWARD — Miss Sue Lynn
Guthrie, daughter of Mr. and Mrs.
Roy L. Guthrie, who is attending
Texas Tech College, is the win-
ner of the Lubbock, Pan-Hellenic
Society Award, Margaret W.
Weeks, dean of the division of
home economics announced this
week.

Miss Guthrie received the award
of \$75 in cash as a result of hav-
ing the highest scholarship aver-
age of any other freshman Home
Economics student for the year
1945-46.

This award is given annually
to the highest ranking freshman
student in the division of home
economics provided she returns to
college in her sophomore year.

STAMPS ALL STAR QUAR-
TET WILL SING HERE THURS-
DAY — Lovers of quartet singing will
have the opportunity to hear the
Stamps All-Star Quartet of sta-
tion KWPT, Wichita Falls, in
person here on the evening of
Oct. 24, at the high school audi-
torium at 8 o'clock, under au-
spices of the local Boy Scout
Troop 35.

It has been several years since
the Stamps Quartet appeared in
Memphis, and Scoutmaster Ted
Myers says that he thinks the peo-
ple of Memphis and surrounding
area will enjoy a program of

this type. He says that fre-
quency reports of ticket sales
large crowd will be in attend-
ance. STRICTLY PERSONAL —

Here! New Task-Force 57 Chevrolet Trucks!
Performance-proved in a history-making test
on the ALCAN Highway to Alaska

The Alcan Highway is the road where trucks grow
old before their time. The road where gravel end-
lessly sledgehammers the life out of trucks. Where
a fog of superfine dust chokes engines, and vicious
ruts subject chassis to months of wear in a few
hundred miles.

Six new '57 Chevrolet trucks, heavily loaded with
cargo, roared north from Dawson Creek, B.C.,
through 1,520 miles of mountains and mire, rain
and hail to Fairbanks, Alaska. Running around the
clock, they made this tortuous trip—normally a
72-hour run—in less than 45 hours. As a special test
during the run, two of the trucks went the entire
distance without once having their engines stopped!

Come in and see how well these new Alcan
champs measure up to your job.

Alcan fleet reports up to 18.17 miles per gallon! That's
the mileage reported by the Cameo Carrier, with Thrift-
master 6 and Overdrive (optional at extra cost).

FIRST WITH THE MOST MODERN FEATURES:

New 283-cubic-inch Taskmaster V8 is standard in Series
5000, 7000 and 8000, optional in Series 6000 at extra
cost. Horsepower ranges up to 210 in Chevrolet's com-
plete line-up of modern V8 and 6 truck engines.

Revolutionary Powermatic Transmission—exclusive with
Chevrolet trucks! This six-speed automatic, designed
specifically for heavy-duty hauling, is an extra-cost
option in Series 5000 and 6000 and all heavy-duty
truck models. Hydro-Matic is offered in 3000 and 4000
Series models at extra cost.

L.C.F. models outdate C.O.E. trucks in every way; yet
offer all the traditional C.O.E. advantages.

Heavyweight Champs with Triple-Torque tandem are
rated at 32,000 lbs. GVW, 50,000 lbs. GCW. Special
features include built-in 3-speed power divider.

All the way in DRIVE range with Powermatic! This
Powermatic-equipped 10000 Series tractor traveled the
Alcan Highway in a single forward-speed range!

Only franchised Chevrolet dealers CHEVROLET display this famous trademark

P. Thompson, World Series Visitor, Tells of Plane Trip

Note: The following article written by E. P. Thompson, local hardware store owner, who recently made a trip to New York to watch the World Series and to transact business, will follow this column.

When we arrived at the airport, I met our tickets and checked baggage, the friendly man who turned out to be friendly to all three were deaf and other things. They never said a word to me about the way to the stadium, nor did they show any interest in my matter what line of business I was in.

When we arrived at the airport, I met our tickets and checked baggage, the friendly man who turned out to be friendly to all three were deaf and other things. They never said a word to me about the way to the stadium, nor did they show any interest in my matter what line of business I was in.

able trouble all the way to Kansas City, scolding me a little for taking my safety belt off too soon and took my cigar away from me twice.

We flew at 21,000 to 27,000 feet of altitude all the way at a speed of about 290 miles per hour. We were high above the clouds from Columbus, Ohio to New York. It looked like the earth was completely covered up with many feet of snow, houses, trees, highways and everything.

When the plane landed in New York it was raining and had been raining there all day. The clouds we had been above were rain clouds and it had been raining all the way from Columbus to New York.

I met a number of interesting people on the plane who were ready to talk plenty when they learned I was from Texas. I told them a lot of tall Texas stories. Some of them did not know whether a cow has horns 3 or 6 inches long and no idea at all what a puncher was. One lady asked me how far I lived from San Antonio. I told her about 700 miles and she almost fainted. People here have no idea of distances in Texas.

Since the game was rained out in Brooklyn Thursday, it gave me a chance to see four games instead of three and also allowed me one more morning and evening for sight-seeing.

I like my room here at the Commodore Hotel. My tickets to the three Yankee Stadium games have not arrived yet. The Chase Manhattan Bank was supposed to have sent them to the hotel. Of course, I will not need them

until Saturday, since the game at Ebbets Field was rained out on Thursday. I am going over to the Chase Manhattan Bank in the morning and meet Roland Jewine, a vice-president of the bank, and a friend of L. C. Martin. Jewine helped arrange my reservations and tickets for me.

Adali Stephenson flew into town about 7:30 and a parade for him came by the hotel while I was eating dinner.

I sat around the lobby of the hotel Thursday night and talked with several men, one of them a hardware man and his wife from Cleveland. We had a lot of fun talking shop. From the lobby we could hear an orchestra playing music on the cocktail terrace at the north end of the lobby.

About this time I noticed an unusual number of police around the entrance of the hotel and went outside to investigate. I found a picket line had formed in front of the hotel and the police had been dispatched there as a precaution. It seemed that some labor union had some kind of grievance with Mayor Wagner. The crowd soon dispersed.

After this I talked to the hotel dorman and found out how to get to Yankee Stadium using the subway system.

Mr. and Mrs. A. L. Gailey and sons, Dwight and Don and daughter Diane visited in Lubbock over the weekend with Mr. and Mrs. Rufus Grisham. While there they attended the Texas Tech-West Texas State College football game.

Mr. and Mrs. Andy Gardenhire and daughter of Quannah spent the weekend here with her parents, Mr. and Mrs. Phaeton Alexander.

Mrs. L. G. Crittenden of Mangum, Okla., is visiting here this week with relatives and friends.

A. Baldwin and Mrs. T. L. Rouse, who have been visiting for the past month in Dallas and Tyler with relatives, returned home Thursday.

Mr. and Mrs. Fritz Crisler and Courtney of Amarillo visited here over the weekend with Mrs. Ora Denney and Mrs. Gladys Power.

Mr. and Mrs. Walter Beisenherz left Friday for their home in Liberty, Mo., after visiting here since Friday in the home of Mr. and Mrs. Gayle Greene. Mrs. Beisenherz and Mrs. Greene are sisters.

Mr. and Mrs. Claude Ferrel and Debbie and Barry were in Dallas the first of the week to attend the State Fair.

Mr. and Mrs. C. H. Smith, Jr., and Lynn and C. H. Smith, Sr., all of Duncan, Okla., visited here over the weekend with Mrs. Alla Boswell and Helen and Jim King.

Mr. and Mrs. Louis Wells and family of Amarillo spent the weekend in Memphis with Mrs. Wells' mother, Mrs. J. W. Oliver.

Among Memphians who were in Lubbock Saturday to attend the Texas Tech-Texas State football game were Mr. and Mrs. M. C. Allen and family, Mr. and Mrs. Allen Monzingo, Mr. and Mrs. Paul Montgomery, Mr. and Mrs. Frank Monzingo, Mr. and Mrs. Clifton Burnett, Linda Fields, Gayle Fowler, Terry Monzingo, Quida Massey, and Mr. and Mrs. Gene Corley and daughter.

Mr. and Mrs. Herb Blackmon had as guests Sunday Mr. and Mrs. Ray Thompson of Pampa.

Visiting here last week in the home of her sister, Mrs. Herb Blackmon, was Mrs. Kay Autrey of Waco.

Mr. and Mrs. Ralph Williams were business visitors in Quannah Sunday and later went to Lawton, Okla., where they visited with Mr. and Mrs. O. M. Stapp. Mrs. Stapp and Mrs. Williams are sisters.

Mrs. Maudie Billingsley visited in Fort Worth and Dallas over the weekend. In Fort Worth she visited her sister, Mrs. L. C. Richburg and in Dallas with Mr. and Mrs. Kinny Smith.

Miss Patsy Jarrell spent the weekend in Lubbock visiting with her brother and his wife, Mr. and Mrs. Harvey Jarrell. While there she attended the Tech-WTSC football game.

Mr. and Mrs. B. O. Shankle and Mrs. Shankle's mother, spent the weekend in Lockney with their daughter, Mrs. Carl Lee and family.

Mr. and Mrs. Olin Barrett of Vernon visited here Sunday with Mr. and Mrs. Henry Hays. Returning to Vernon with the Barretts were Mrs. Hays' parents, Mr. and Mrs. P. B. Barrett, who had visited here last week in the Hays home.

Mrs. Mary Smith and Jo Ann Edwards visited in Cloud Croft, N. M., over the weekend with Mrs. Smith's daughter, Mrs. W. C. Evans, Jr., and husband. While gone they also enjoyed a tour of Carlsbad Caverns.

Merle Blackshear visited in Estelline last week with friends. Merle is the son of E. O. Blackshear, who formerly operated a store in Estelline.

Paul Revere was a silversmith.

Farm and Ranch Ponds Usefulness Explained by SCS Technicians

Farm and ranch ponds in the Hall County Soil Conservation District are used for stock water, better distribution of grazing range land, erosion control, and other uses. If properly managed for fish, these ponds will also provide food and recreation as well as benefit other wildlife such as waterfowl and upland game, Royce Froisbe, technician for SCS said this week.

The site for the pond should be selected so that it will catch full of water in one year with normal rainfall, he said. A wider spillway is more desirable for farm ponds that are to be used for fish production. The water should flow through the spillway at a very shallow depth to prevent losing the larger fish during an overflow period, he continued. It is best not to put a screen across the spillway as it has a tendency to catch trash and thus will endanger the dam.

Fish hatchery personnel recommend that ponds that are to be stocked with fish should have an application of 3 pounds of 5 per cent rotenone per surface acre, to kill out all the undesirable fish that may have invaded the pond. This application of rotenone should be made about three weeks before the pond is stocked with the fish from the hatchery, Frisbie said.

A combination of largemouth black bass, bluegills, or redear sunfish and channel cat are the fish furnished for stocking farm and ranch ponds in Texas. If only one kind of fish is to be stocked the channel cat is the best, he continued. The reason for this is that the channel cat does not feed on small fish until it reaches one-half pound in weight or larger, whereas the largemouth black bass feed largely on small fish including their own young. This is the reason why bass should be stocked with a combination of smaller fish.

The U. S. Fish and Wildlife Service furnishes fish to district cooperators to stock farm or ranch ponds. Fish may also be obtained by a request from the Texas Game and Fish Commission, Frisbie said. When requested from the Texas Game and Fish Commission the landowner or operator must personally make the request. Fish may also be purchased from private fish hatcheries.

A pond can easily be overstocked with fish, he continued. The thing to do after the pond has been properly stocked is to have it fertilized. A properly fertilized pond will support 300 to 500 pounds of fish per surface acre, he said. The best kind of fertilizer to use is a mineral fertilizer. Another good fertilizer is organic matter, such as cotton seed meal, blood meal, manure, hay or leaves to encourage pond scums, Frisbie said. There is a simple way to check for a properly fertilized pond. Nail a 6 inch white disc on the end of a 4 foot stick and mark the stick 12 inches and 18 inches below the disc. Place this into the water and if the disc goes out of sight at 12 inches the pond is properly fertilized, but if the disc can be seen at 18 inches it needs more fertilizer, Frisbie explained. The best way to fertilize a pond is either from a boat or from the bank. It is best not to place the fertilizer in water over 5 feet deep. Wind action and underwater current will mix the fertilizer throughout the pond.

Frisbie concluded by saying: "Many ponds are muddy due to silt laden water from the watershed or from wave action on the banks. A strip of grass around the later's edge and a desilting basin where the water enters the pond will help solve this problem. If the water is still muddy it can be cleared up by using 200 pounds of cotton seed meal and 100 pounds of superphosphate per surface acre."

Any additional information desired can be obtained by contacting your local Soil Conservation Service office.

Miss Ruth Thompson left Monday morning for Dallas where she will visit for a few days with her sister and brother-in-law, Mr. and Mrs. Herschel Montgomery.

Mr. and Mrs. James L. Lott of College Station are the parents of a son, David Brent, born on Oct. 5 in a local hospital. He weighed 7 pounds, 11 ounces. Mrs. Lott will be remembered here as the former Eudine Gable.

Mr. and Mrs. Martin Johnson announce the arrival of a daughter born on Oct. 4. She has been named Debra Lynne and weighed 6 pounds, 10 ounces.

A 6 pound daughter was born on Oct. 9 to Mr. and Mrs. D. F. Miller of Lelia Lake in a local hospital. She has been named Connie Sue.

A daughter, Patty Elaine, was born on Oct. 14 to Mr. and Mrs. M. A. Atchley of Estelline. She weighed 7 pounds, 6 ounces at birth.

Mr. and Mrs. Gip McMurtry spent the weekend visiting relatives in Amarillo and Dumas.

Golden Circle Class Installs Officers Thurs.

The Golden Circle Class of the First Baptist Church met Thursday evening in the home of Mrs. Byron Baldwin with Mrs. Roy Gresham as co-hostess.

Mrs. Bill Jones, president, presided during a business session. Mrs. Earl Bloxom offered prayer and the minutes of the last meeting were read by Mrs. Cleo Parr, secretary. Mrs. W. M. Kilpatrick Jr. gave the treasurer's report.

An inspiring devotional entitled "Jesus, the Light of the World," was given by Mrs. Edwin Gilliam.

Installation of officers was then featured with Mrs. L. F. Jones serving as installing officer. Officers were installed as follows: Mrs. Byron Baldwin, teacher; Mrs. W. M. Kilpatrick Jr. president; Mrs. Cleo Parr, vice president; Mrs. Leo Wiley, secretary; Mrs. Joyce Bloxom, treasurer; Mrs. Bill Jones and Mrs. Wayne Hutcherson, group captains.

The hostess served delicious refreshments to the following: Mesdames Earl Bloxom, Robert Clark, Kenneth Dale, Doyle Fowler, Edwin Gilliam, Bill Jones, Hubert Jones, W. M. Kilpatrick Jr., G. W. Lockhart, Dwight Kinard, Cleo Parr, J. K. Porter, Leo Wiley, Miss Laverne Rollins, and the hostesses, Mrs. Byron Baldwin and Mrs. Roy Gresham.

ENGAGEMENT REVEALED—Mr. and Mrs. W. T. Wirth of San Benito announce the engagement and approaching marriage of their daughter, Bobbie Jean, to Sim Goodall, son of Dr. and Mrs. O. R. Goodall of Memphis. The wedding will be an event of Nov. 30 at the Church of Christ in San Benito. The couple will make their home in Waco where the groom-to-be is a law student at Baylor University.

Estelline School Queen and "Mr. E" Are Chosen By Student Body This Week

The student body of Estelline High School elected Miss Mary Nell Couch as School Queen and Jimmie Dunn as "Mr. E" at a special assembly this week. These are the highest honors to be voted by the students in this high school. The queen will be crowned and "Mr. E" presented at the conclusion of the school carnival on the night of Oct. 27.

Miss Couch is the daughter of Mr. and Mrs. Weldon Couch and a popular member of the junior class. She is a cheer leader and a member of the basketball team.

Dunn is the son of Mr. and Mrs. Marvin Dunn and a popular senior. He is a member of FFA and plays with the Bear Cubs.

Garner-Wilton Nuptial Vows Are Read in Estelline

A single-ring ceremony performed by Rev. E. H. Coston, pastor of the Estelline Methodist Church, united in marriage Mrs. Ruth Leary Garner, daughter of Mrs. F. E. Leary of Estelline, and George Wilton of Van Nuys, Calif. The ceremony was performed in the home of Mrs. F. E. Leary in Estelline at 9:00 a. m. on October 14. An arrangement of autumn flowers graced the mantle.

Mrs. Wilton wore a Dior blue faille dress made in princess effect, a white beaded hat and a shoulder corsage of shredded pink carnations dotted with silver.

Following the ceremony coffee and cake were served from a lace covered table with floral arrangements of autumn flowers. Mrs. Guy Leatherwood, sister of the bride, presided at the coffee service.

The couple left for a wedding trip through the western states with high points of interest being Grand Canyon, Las Vegas, and Lake Tahoe. For her trip, Mrs. Wilton wore a brown costume suit with brown accessories. After November 1, they will be at home in Van Nuys, Calif., where Wilton has been associated with a bank for the past twenty-five years. Mrs. Garner, who has been employed by the Amarillo Daily Globe-News for the past several years, has been living in Amarillo.

Attending the wedding were: Mrs. F. E. Leary, mother of the bride, Mrs. G. W. Wilton, mother of the bridegroom, and Mr. and Mrs. Cecil Lockhart of Newlin; Mr. and Mrs. Carl Leary and daughter, Morris Leary, and Mrs. Guy Leatherwood, all of Dallas; Paul Garner, son of the bride, of Austin; Mr. and Mrs. J. A. Ballard and Mr. and Mrs. Don Leary of Estelline.

Around and About

A hail storm similar to the one which struck our county three years ago again brought extensive damage Sunday . . . this time in area from Estelline to Plaska. The hail came just one day earlier than the one three years ago. Because of the shortage of laborers, most of the fields were white with open cotton.

To see a year's work destroyed in a matter of minutes is something that only those who till the soil are familiar with. We have always heard that farmers are the backbone of the nation . . . perhaps it is through their courage in meeting these adverse conditions that they have gained strength and the title as the "backbone of the nation."

May we, along with members of the Memphis Lions Club, add our bouquet of the week to the teachers of the local school system. Each year the Lions Club honors the teachers with a banquet. Tuesday night the annual affair was held in the Masonic building.

No group of people is more deserving of a word of praise than the Memphis teachers. Not only do they spend their days but many of their nights supervising and guiding as well as training the youth of our town. Often the teacher goes beyond what could be considered the line of duty to give extra help to some student. Their task of pleasing the public is not an easy one. But what profession could be more gratifying than to know that one was instrumental in forming and molding the destiny of today's youth.

Our children are out of school now . . . that is, the local school . . . and we do miss the pleasant association we had with the teachers in the past.

Mr. and Mrs. J. Claude Wells are enjoying the autumn colors in Gatlingburg, Tenn., this week, having arrived there on Monday. The beautiful color slides of the trees in their full autumn glory, which Mr. Wells always films on these trips, give many of us stay-at-homes a chance to share the lovely scenic views.

Do you like to talk to far places? Then we'd suggest you ask Mack Wilson for a job over at the local office of the West Texas Utilities Company. Wednesday morning, Mr. Wilson was talking to some of the employees by short-wave radio when a voice cut in to inquire where they were talking from. "Why, this is Memphis, Texas," Mr. Wilson said. "Who is this and where are you?" "This is Prince George, British Columbia," the man replied, "and I'm trying to get my men who are putting down some pipe line in our vicinity." Altogether the radio is said to have a range of about 60 miles, Mr. Wilson says quite often they contact Mexico City.

Memphis has at least one citizen whose honesty surpasses any embarrassment he might feel for an error being made in his office. J. J. McMickin, local agent with the Fort Worth & Denver Railway, called us Tuesday and asked if we would lend him a helping hand again. Seems they have \$5.17 which the company would like to refund to the couple who bought a round trip ticket to Tupelo, Miss., on Sept. 17. So, if you are this couple, go down and Mr. McMickin will refund your money.

It's nice to see Mrs. H. B. Bennett back at her usual job at Greene Dry Goods. Mrs. Bennett has been out of the store since late last year.

After a visit to Lubbock over the weekend, Mrs. Ace Galley was telling us about talking to the Durwood Howells while there. You remember the Howells formerly lived here and Mr. Howell was manager of the Western Cotton Oil Co. The family returned to Lubbock in August after spending several years in South America. Soon after arriving in Lubbock, Mr. Howell suffered a stroke and was recently released from a hospital. He was partially paralyzed in the left side, but is steadily improving.

You'd be surprised how many nice things I have learned about other people's grandchildren since we have one of our own. A few days ago Mrs. R. B. Thompson was telling me that she was quite proud of her granddaughter, Mackey Lee Scott, who is a sophomore in North Side High School in Fort Worth. Mackey Lee was recently selected as the girl of the week and featured in a news picture in the Fort Worth Star Telegram. Daughter of Mr. and Mrs. Jay Lee Scott, Mackey was named as the prettiest girl in her class last year.

FALL is harvest time, and here's one of a whole new crop of cotton bag fashions. Twelve new wardrobes, each containing 18 garments styled by Simplicity or McCall patterns, are now available on loan for fashion shows. Cotton bags, used to package feed and other farm products, offer a wonderful source of home sewing material. Address requests for loan wardrobes to National Cotton Council, P. O. Box 9905, Memphis, Tenn.

Pathfinders' Club Features Program On Safe Driving

For the program of the Pathfinders' Council whose regular meeting Tuesday, Oct. 9, was held in the home of Mrs. W. F. McElreath, the theme was built on "Safety." "Drive safely; the life you save may be your own," was the slogan of the hour.

Mrs. Gene Chamberlain pronounced the invocation; Mrs. J. R. Mitchell discussed the "Top Ten Rules For Safe Driving." Mrs. Anna Dickson introduced the question "Will We Drive by Remote Control?" Mrs. W. W. Linville gave "A Digest of Texas Motor Vehicle Laws." Mrs. Gene Chamberlain read a letter from Mrs. Eudora Hawkins urging the club women to a cognizance of their responsibility to safe driving education and urging them to do all within their power to promote better driving.

During the business meeting directed by Mrs. A. O. Gidden, president, the members heard an interesting report from the recent district meeting, and about two worthy district projects: the Lola B. Munday Scholarship and the Christmas Stocking Project. The latter is an effort to encourage every Federated Club woman to contribute 25 cents to the Stocking fund. The money will be used to develop skilled craftsmen of apt boys at Boys Ranch. The Pathfinders immediately pledged their support to both projects.

Members who attended the meeting were: Mmes. W. W. Linville, Gene Chamberlain, A. Gidden, Anna Dickson, J. R. Mitchell, O. M. Gunstream, W. F. Ritchie, Ernest Lee, A. O. Gidden, and the hostess, Mrs. McElreath. The next meeting will be held Tuesday, Oct. 23, in the home of Mrs. A. Gidden.

Eli Mother's Club Meets Wed.

The Eli Mother's Club met Oct. 19 at the club house with Mrs. Alvin Phillips as hostess. The afternoon was spent quilting for the hostess.

Members made plans to complete a quilt for charity. The quilt top was recently given to the club by Mrs. J. Gilreath.

The next meeting is scheduled for Oct. 24 in the home of Mrs. Brown Smith.

Members present were Mmes. J. H. Martin, M. L. Smith, Cecil Starzel, Robert Clark, Brown Smith, Stacey Waites, Ted Young and hostess, Mrs. Phillips.

Katherine Wright returned to Canyon Sunday where she is a student at West Texas State College after spending the past week at home with the flu. Mrs. Wright accompanied Katherine to Canyon and then visited overnight in Amarillo with her son, Don Wright, and family.

Austin PTA Hears Interesting Talk By Supt. Davis

The Austin Elementary P. T. A. met Oct. 9 at 7:30 p. m. in the school auditorium. The meeting was called to order by the president, Mrs. Zeno Lemons. The minutes were read by Mrs. Lynn McKown, acting secretary in the absence of the secretary, Mrs. Joe Montgomery.

During the business session, reports were made by all committee chairmen. Mrs. Wendell Harrison, membership chairman, stressed the membership drive and reported there were 62 paid members. The drive will end Oct. 15. By a vote, a film library to be used for the entertainment of the children during the regular PTA meetings was approved.

Mrs. Billy Thompson was appointed chairman of the committee from Austin for the October Halloween Carnival to be sponsored with the Travis Elementary School with Mrs. Grover Booth, assistant chairman, and Mrs. Marion Long, foods chairman.

Mrs. A. L. Gailey, president of the Ex-Students Association, made an announcement concerning the annual luncheon for Exes to be held on Nov. 2, at the annual time of Memphis High School Homecoming.

The program, the theme of which was "We, the People, Support Our Teachers," began with Mrs. Jack Rose, chairman, in charge. Mrs. Gailey gave the devotional, and Mrs. O. L. Helm, den mother, presented her Cub Scouts who led the group in the Pledge of Allegiance to the flag. Boys present were: Johnny Lavender, den chief, and Cub Scouts Larry Helm, Barry Ferrel, Billy Cosby and Larry Parks.

W. C. Davis, superintendent of Memphis schools, addressed the group on the subject "Why 7000 Texas Teachers Quit Each Year." Mr. Davis gave a glimpse of education backward, looking to the past when schools were at the bottom rung. "Free education actually had its beginning about the time of slavery," he stated, "but was the old spelling bee type and teachers were mostly men. Education at first was for the more prosperous, but about the turn of the century was general to rich and poor alike. About the time of World War I, boys left high school to enlist and left women to teach. Radio was invented and gave a medium for education. During the depression, the schools were crippled, poor pay and overcrowded classrooms were prevalent. Rural children did not attend, unemployment was common, and the school system suffered. When World War II occurred, boys again went to service. The nation went to making bombs and stopped building schools. A crop of war babies was born, and industry with high salaries attracted teachers away from the teaching profession."

Mr. Davis continued, "In 1950, better salaries were offered, more schools were built, and a higher cost of education developed. But the entire school system was still in need of more facilities and more teachers. Teachers need more understanding, and need to be made a vital part of the community life. Young men are not coming into the teaching profession because of the uncertainty of jobs, low income brackets, and the pressure from the community in general. The increase in attendance demands more teachers, but colleges are not turning out enough to meet the demand. As of this year the education system needs 100,000 more classrooms, more good teachers—at least 50,000 each year. The consolidated schools need to eliminate the waste of manpower in trying to maintain smaller schools, more help in cafeteria program, and more efficient school programs with an enriched curriculum."

The final part on the program, was a skit entitled "Attention, Mr. Voter," written by Miss Mary Foreman and Miss Eta McElrath. The playlet was directed by Miss Zady Belle Walker, and participants were: Miss Walker, Mrs. Clarence Morris, Mrs. Wendell Harrison, Mrs. Bill Cosby, Mrs. Lynn McKown, Mrs. Hershel Potts, Mrs. Homer Tribble, Mrs. Weldon Fowler, and Mrs. Ace Galley. The playlet gave the advantages of Teacher Retirement Amendment No. 4 which will be voted on in the November election.

Miss Bruce's room won the room award, having the greatest number of parents present, and Miss Walker's room presented a hobby show.

The meeting was adjourned for a "talk it over period," with the individual teachers.

Judy Lott visited in Amarillo last week with her aunt, Mrs. Warren Thompson and family.

PATRICIA ANNE COWDEN, the 1956 Maid of Cotton poses against the Paris skyline while on her international tour. The big question now is, Who will succeed Patricia as role as fashion and good will emissary for the cotton industry? The 1957 Maid of Cotton Contest is officially open. To be eligible, a girl must have been born in a cotton producing state, must be between the ages of 19 and 22, and must be 5 feet 5 inches tall, and must never have been married. Application blanks may be obtained from the National Cotton Council, P. O. Box 9905, Memphis, Tenn.

Baptist Class Installs Officers At Thursday Meet

The Ruth Sunday School Class of the First Baptist Church met in the home of Mrs. Mac Graham Thursday evening for a regular meeting.

Ethel Kilpatrick, president, presided during the business session. Prayer was offered by Mrs. Oree Smith and Mrs. R. Ernest Clark gave an inspiring talk.

Class officers were then installed in an impressive ceremony with Mrs. Irene Bradley serving as installing officer. Mrs. Bradley used as the theme, "A Beautiful Place Setting," letting each piece of china, crystal and silver represented an officer of the class with the hostess represented by the class teacher, Mrs. R. Ernest Clark.

Officers installed, other than the teacher, Mrs. Clark, were: Flora Graham, president; Ethel Kilpatrick, membership; Rosa Peters, fellowship; Lucile Wright, ministry; Polly Clemon, secretary and treasurer; Gertrude Fowler, birthday; Inez Lester, reporter and Edna May and Mary Pittman, group captains and Fern Boone, associate group captain.

The hostess served delicious refreshments to Mmes. Ruby Roden, Christine Long, Frankie Roden, Mary Pittman, Ethel Kilpatrick, Lorene Lockhart, Polly Clemons, Velma Clark, Edna May, Irene Bradley, Irene Stewart, Rosa Peters, Oree Smith, Katie Clark, Anna Lee Hartman and Inez Lester.

Mrs. R. M. Read and daughters, Elsie and Ruth Read of San Antonio visited here over the weekend with Mrs. D. L. C. Kinard and Mrs. Lucile Wright. Mrs. Read is an aunt of Mrs. Kinard and Mrs. Wright.

Visiting in the W. B. McQueen Sr. home during last week were Mr. and Mrs. Bill Denebale of Bovina. The McQueens and the Denebales visited last weekend in Wichita Falls with Mrs. McQueen's sister, Velma Rowe.

A FASHION headliner this fall is the cotton tie-print, setting the trend for smaller fabric patterns. Matching separates by Korday are made from Everglaze cotton in a tie-print pattern. Quilting distinguishes the wide skirt from the blouse.

Mrs. R. Sexauer Gives Harmony Club Program

The Harmony Club met p. m., Oct. 10, in the home of Mrs. Robert Sexauer, with Gertrude Rasco as co-hostess.

The club was called to order by Mrs. R. S. Greene, and Kinard read the minutes of last meeting.

The program entitled "The in Dallas and Central City" given by Mrs. Sexauer. The following operas were discussed: "Les Contes D' Hoffman," Offenbach, "Don Pasquale," Donizetti, "Tosca" by Puccini, "Die Meistersinger" by Wagner, "Ballad of Baby Doe" by Rodgers.

Refreshments were served the following: Mmes. M. C. C. H. Compton, Dick Fowler, don Gilliam, R. S. Greene, T. Hunt, D. L. C. Kinard, Bob Kinard, Fern Miller, L. G. B. Robert Sexauer, and Edna Ward.

Wm. Travis PTA Meets In Regular Session Thursday

The William Travis PTA Teacher Association met in school cafeteria on Oct. 11 its regular monthly meeting, presided at the meeting was Gene Lindsey, president.

During the business session the annual Halloween Carnival was discussed and Mrs. E. J. announced that the general chairman for the carnival be Mrs. Cecil Stargel. Mrs. Stargel is also chairman with Gerald Knight.

The president urged members of the PTA to make plans attend the state convention Amarillo on Nov. 14-16. Announcement was also made workshop to be held Oct. 18-19.

Room count was taken, Mrs. King's second grade winning the award for having most parents attending.

The program, "We the People Support our Teachers," was introduced by Mrs. Weldon Creary. Meditations for the afternoon were brought by Mrs. Jones. Miss Mary Foreman introduced the skit, "Attention, Mr. Voter," which dealt with coming election and parting with the fourth amendment. Teachers' Retirement Amendment.

Taking part in the skit were: Mmes. Robert Moon, Gayle G. W. A. Smith, Maurice S. T. O. Pounds, Lee Brown, Allison, Kenneth Dale, Hoover and Hubert Jones.

Mrs. E. L. Derr and Mrs. David of Fort Worth were here Sunday for a week with Mrs. Derr's parents, Mrs. Mrs. E. E. Roberts.

Mr. and Mrs. Homer E. Davidson, all of Fort Worth, visited in the home of Mr. and Herman Elkins over the weekend.

Frank Farmer of Walnut Mo., visited here Sunday with parents, Mr. and Mrs. C. Farmer, en route to New Mexico where he is gathering material for a feature story in the Saturday Evening Post.

Chevrolet Be Displayed Friday

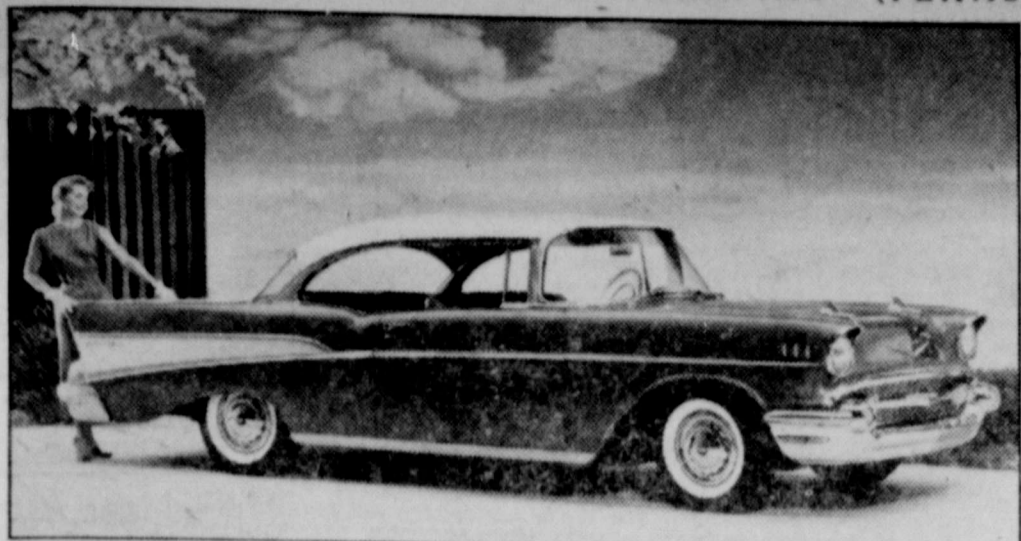

1957 Chevrolets go on display at Potts Chevrolet Company Oct. 19, and dealer shows over the nation. Fuel injection and a new triple-turbine automatic transmission will make debut on the new cars.

M. Potts and Homer announced this week that injection will be introduced on the new line of Chevrolet passenger cars. Also to be introduced for the first time will be a new transmission, known as Turboglide.

Injection, a long-time objective of American automotive engineers in their quest for ideal performance, replacement carburetor. Better quicker power response after warm-up, it is expected to gain almost universal adoption within a few years. Chevrolet will be one of the few to offer the device in its new line of cars, to offer the device in its new line of cars, to offer the device in its new line of cars.

Turboglide transmission is Chevrolet exclusive. It carries the principle of torque converter first introduced in Chevrolet Powerglide in 1950 — to peak in efficiency. The turbine — with infinitely variable ratio characteristics — gives an uninterrupted driving at all speeds. There is no "shift."

Turboglide incorporates an unbalanced rotor, one of many driving improvements on Chevrolet. The retarder, called a "brake," is designed to give a "brake" on steep downhills. With larger glass area, stronger frames and re-design of steering wheel

1957 CHEVROLET—Longer, lower "in motion" emphasis on design Chevrolet's three series of passenger cars is evident in this view of the new Bel Air sport coupe. Along with the exciting exterior and interior styling, a higher performance peak and market mechanical advances are among features. The new Chevrolets are on display in Memphis at Potts Chevrolet Co.

and instrument panel to reduce possible injuries on abrupt stops, the cars set new standards of safety.

In eye-appeal the 1957 Chevrolets differ strikingly from 1956 models. While two and one-half inches have been added to overall length, the horizontal sweep of new styling motif gives the impression that the car is even longer than its 200 inches. All bodies are lower, with a reduction of an inch and one-half in height of the cowl and substantially increased windshield areas.

Common to the design of all passenger cars is a rugged front end that combines a massive guard and bumper ensemble with an aluminum grille screen and inset parking lamps. Lance-shaped windsplits on the hood add a

touch of modernity.

On the seven bodies in the Bel Aire series, a lean chromium spear extends rearward from the headlamp, spreading gracefully downward to the bumper and also branching upward as a rear quarter molding. The rear encircled by the diverging lines of the spear may be two-toned to conform with the body roof color or fitted with an optional panel of rolled aluminum. Two-Ten models, eight in number, have a single down-swept molding from front to rear. One-Fifty side moldings on four body models extend downward from the sash and then horizontally across the rear fenders.

A variety of sparkling new colors in combination with the body selections furnishes the customer with 460 choices in the appearance of the Chevrolet he buys.

Interiors, marked by rich upholstery in nylon cloth and plastics, have been completely re-fashioned. Easily read instruments are sheltered under a cove, with all control knobs recessed as a safety measure.

To power its 1957 line, Chevrolet will build one six and four new V8s ranging in output from 140 horsepower for the six to a sensational one-horsepower per cubic inch of displacement for the "Corvette V8." The Corvette engine develops 283-horsepower with the Ramjet fuel injection system.

Several instances of engineering progress are evident in the new chassis. "Ram's horn" exhaust manifolds aid engine breathing. Fourteen-inch wheels and

lower pressure tires (22 pounds) further riding comfort and safety through greater traction. Crankshaft bearings are wider, longer wearing. Front suspensions and shock absorbers benefit from modifications.

Powerglide, proved in more than a billion miles of travel, power brakes and power steering, and electric window lifts are again optional. The company also makes

available the gas-saving overdrive and a close ratio manual transmission that assures lightning down-and-up-shifts. In all, 22 power trains are available.

While Chevrolet makes no extravagant claims for the device, research with fuel injectors indicates an increase in economy, readier firing at low speeds, faster warm-up and elimination of carburetor icing.

Just out and just wonderful!

The beautifully new Bel Air Sport Coupe with Body by Fisher.

SEE THE '57 CHEVROLET FRIDAY! IT'S SWEET, SMOOTH AND SASSY!

Chevy goes 'em all one better—with a daring new departure in design (looks longer and lower, and it is!), exclusive new

Turboglide automatic transmission with triple turbines, a new V8 and a bumper crop of new ideas including fuel injection!

New right down to the wheels it rolls on—that's the '57 Chevrolet!

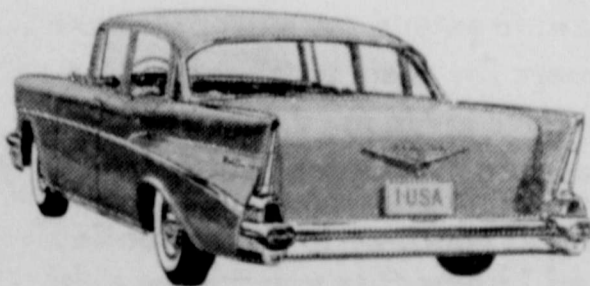

By now you know it's new in style. You can see that Chevy's longer, lower—and every inch a beauty.

But Chevrolet's new in lots of ways that don't show up in our picture. It's new in V8 power options that range up to 245 h.p.* Then, you've a choice of two automatic drives as extra-cost options. There's an even finer Powerglide—and new, nothing-like-it Turboglide that brings you Triple-Turbine take-off and a new flowing kind of going. It's the only one of its kind!

Come see the new car that goes 'em all one better—the new 1957 Chevrolet!

*270-h.p. engine also available at extra cost. Also Ramjet fuel injection engines with up to 283 h.p. in Corvette and passenger car models.

The new Bel Air 4-Door Sedan—one of 20 striking new Chevrolets.

Memphis Teachers Honored at Lions Club Banquet Tues.

The Memphis Lions Club entertained on Tuesday evening with the annual Teachers Banquet. A custom of several years standing, the affair is held to honor teachers of the Memphis Public School system.

Informality was the keynote of the banquet, with Ace Gailey serving as toastmaster.

Following a delicious meal of barbecued chicken, green beans, creamed potatoes, hot rolls, salad, coffee and pie, guests were recognized by Alvin Massey.

The toastmaster then introduced W. C. Davis, superintendent, who in turn introduced the three principals, Miss Ethel Hillhouse, B. J. Thomson and Weldon McCreary.

The principals introduced the teachers from each school and presented each with a permanent pass to all school activities.

A short musical program was presented by Miss Letha Moss and Miss Alicia Almazan. A 12-year-old trumpet player and vocalist, Miss Almazan sang "Sweet Old Fashioned Girl" and "It's Almost Tomorrow," and played two trumpet solos, "Star Dust" and "Seventeen." Miss Moss played the piano and sang, "I'm Alabama Bound," and then gave a piano rendition of "12th Street Rag."

Five members of the club were presented with 10-year Old Monarch awards by the club president, Elmont Branigan. Receiving the awards were O. R. Sayre, M. O. Goodpasture, Herschel Combs Ben Wilson, Sr., and H. J. Howell.

Hail, Wind

(Continued from Page One) instances, came from what seemed to be four different storms. One farmer reported that a four-wheeled trailer located in a field was overturned by wind.

Rain in Memphis measured .35 of an inch according to Weatherman John McMickin. Childress received 1.18, Wellington and Shamrock both got about .5 of an inch. Paducah received no moisture Sunday.

Ginnings in the county reached 10,000 bales according to a count by the Texas Employment Commission. The commission estimates a harvest of 30,000 bales, and report that about 80 per cent of this amount is open. The current report from the commission shows that approximately 3,500 workers are needed in this county.

Band Presents

(Continued from Page One) Mare." The donkey then returned to his corner.

The fight between the donkey and the elephant then proceeded and by the end of two rounds, they had each won one round. This meant that the third round would be the final and decisive one. As the bell sounded, for the third round, the two contestants came forward fighting and after a few blows they both went down. This meant that the decision was up to the referee and after measuring their tails he decided it was a draw and the contestants left the ring.

The band then moved into the letters spelling "VOTE" and played "America the Beautiful" as the announcer asked the audience to go vote on Nov. 6 and not let the real fight end in a draw.

"I suppose this means you refuse to accept the C.O.D."

Duties of Different Grades For Halloween Carnival Outlined by P-TA

Plans were progressing this week on the Annual Halloween Carnival, scheduled for Oct. 30, in the Memphis High School gymnasium, sponsored by the Austin and Travis PTA groups, according to an announcement by Mrs. Billy Thompson and Mrs. Ed Hill, chairmen of the event.

Food will be served in the high school cafeteria, beginning at 6 p. m. with the concessions stand opening following the meal.

General chairman of the event from Austin will be Mrs. Billy Thompson. Assistant chairman is Mrs. Grover Booth. Food chairmen are Mrs. Marion Long and Mrs. Boyce Bruce.

Travis general chairman is Mrs. Ed Hill. She will be assisted by Mrs. Robert Moss and Mrs. Cecil

C of C Launches Membership Drive

The Memphis Chamber of Commerce and Hall County Board of Development launched a membership drive with a breakfast meeting Tuesday morning at the Cyclone Drive Inn, Dwight Kinard, president of the organization, announced.

Approximately 31 persons attended the meeting and were divided into teams of two to contact firms and individuals, Kinard said.

The Chamber of Commerce is working on a plan to get Memphis and the surrounding area included in the weather round-up presented by Amarillo each day, Kinard said.

"The project is in the planning stage now but we hope to have it in operation in the near future," he added.

"Any individual or business that might have been overlooked in the membership drive launched this week, who wants to help with the work of the Chamber of Commerce and County Board of Development, is invited to get in touch with any of the officers or directors of the organization," Kinard said.

Hall County Heart Association To Meet Mon. Oct. 29

A meeting of the Hall County chapter of the Texas Heart Association has been set for Monday evening, Oct. 29, in the American Legion Hall at 7:30 o'clock, Dr. H. R. Stevenson, president, announced today.

Dr. Bert Masters, president of the North Plains chapter, will be one of the featured speakers, Mrs. Betty Hamby, program consultant and executive secretary, will also be present to answer any questions the public might like to ask.

Two-fold in purpose the meeting is to better inform the public on diseases pertaining to the heart and also to make plans for a local fund drive.

Ted Myers, local scoutmaster and member of the Heart Association board, will be in charge of the campaign to raise funds for the organization. He will be assisted in the drive by members of the local Boy Scout troops.

Officers of the local chapter, in addition to the president, include Dr. T. A. Hunt, medical advisor; Mrs. Hulda Wilson, secretary; Ben Parks, treasurer; and J. C. Wells, chairman of the board.

Walter Rogers

(Continued from Page 1)

urday night.

A grand parade was held Saturday afternoon in which the Memphis Cyclone Band won first place. Each band was inspected, and then gave a short show. The local band received first place prize of \$15.00 and a ribbon. Wellington band placed second in the contest. This is the fifth consecutive year that the Memphis band has won first place.

Highlight of Friday's events was the crowning of the Festival Queen, Miss Loveta Houdashell, 17-year-old daughter of Mr. and Mrs. Ernest Houdashell of Hedley. Miss Peggy Clay was the retiring queen. She is the 18-year-old daughter of Mr. and Mrs. W. H. Clay, farmers near Hedley.

Other events taking place during the festival included a rodeo held both afternoons, a buffalo barbecue, dancing each night, a pet and novelty parade, and speeches by State Senator Andy Rogers, Representative-Elect Will Ehrle, District Attorney-Elect John Forbis, and Paul Spillman.

W. Linville

Fifth grade students will have charge of the country store which will include funny books, canned goods, needle work, cookies, snow cones, doughnuts and grab bags. Mrs. Clifford Farmer and Miss Zady Belle Walker are the fifth grade teachers. The following mothers make up the carnival committee: Mrs. Clinton Culp, chairman, Mrs. Carl Harrison, Mrs. Gene Hughs, and Mrs. Ed Hill.

The beauty parlor will be under the direction of the sixth grade, where customers can receive facials, hair sets, or have a Halloween face drawn to suit their needs. Sixth grade teachers are Miss Ethel Hillhouse, B. J. Thomson and Miss Clara Pyeatt. Mothers on the carnival committee are Mrs. Boyd Allison, chairman, Mrs. Fern Miller, Mrs. Johnnie Hancock and Mrs. Ted Barnes.

Mrs. Paul Blevins' Brother Drowns in Lancaster Accident

Emmett C. Wylie, 53, brother of Mrs. Paul Blevins, drowned Saturday night in a private lake on his land two miles west of Lancaster.

Mr. Wylie, his wife and friends were fishing at the lake when the accident occurred. Mrs. Wylie and other members of the party left the lake to go to the car a short distance away to get jackets, and when they returned a short time later Mr. Wylie and the boat had completely disappeared.

Mr. Wylie was setting out trot lines when the group left him. An immediate search of the lake was begun and his body was recovered about two hours later.

Mr. and Mrs. Blevins and Paula went to Lancaster immediately upon learning of the accident.

Survivors, other than Mrs. Blevins, include his wife, Gladys Wylie, of Lancaster; one son, Douglas Wylie; three grandchildren; his mother, Mrs. Fannie Wylie of Dallas, one brother, James Wylie, and another sister, Mrs. Henry Branton of Dallas.

Rev. Joe W. Allison Accepts Pastorate Of Estelline Church

Rev. Joe W. Allison has accepted the pastorate of the Estelline Baptist Church and he, his wife and two daughters moves to that town this week.

The family came to Estelline from Meridian; however, Rev. Allison has been preaching in California.

Rev. Allison is a graduate of Hardin-Simmons University, Abilene, and the Golden Gate Seminary in San Francisco.

Memphians Attend Water Meeting

Two Memphis residents, Clifford Farmer and Wendell Harrison, attended a meeting of the Greenbelt Municipal and Industrial Water Authority in Hedley Monday night.

The group went on record as authorizing officers of the authority to apply for extension of water rights on the Upper Salt Fork of Red River.

The organization has been attempting to get a dam placed on the river for several years. Water rights for the area expire Nov. 9 and have to be renewed each year.

Jack Dempsey held the heavy-weight boxing crown for seven years.

District Court Meets Last Week

District Court was in session last week with Judge Lusk presiding and hearing several cases.

The only case to come before a jury was Sam Gooding vs. W. E. Leslie. This case as it did last time it was adjourned, with the jury unable to reach a decision. It will be brought before the court again early next year.

Other cases included a charge and several divorces.
