VOLUME LXIX *** NWN SERVICE *** Memphis, Hall County, Texas THURSDAY AFTERNOON, JULY 30, 1959 *** TEN CENTS *** NUMBER 10

There are a few questions for our readers to figure the answers to:

Why are we citizens of Memphis making a general clean up campaign?

Why are we allowing weeds to seed all over town, which will be blown into all yards they will come up in more than next year, and thereby making the unsightliness of the city in general?

Why are vacant lots allowed to accumulate trash and weeds without any effort being made to clean them up?

Why can't the City of Memphis equip itself with cleaning equipment in cleaning vacant lots?

Why is Memphis City Park being neglected, when it is visited by people from all over?

Why does the City claim shortage of funds when approached by people who would like to improve the appearance of Memphis?

Why do present taxes do not supply enough funds, why is it that some officials think a tax survey is needed?

Why are weeds allowed to grow in a block or two of the square occupied property?

Why allow unsightly rubbish to be the main thoroughfares of the city, that are breeding places for flies and mosquitoes which endanger the health of the people?

Why can't lights be placed along the Drive so people passing through would know they are passing through a live town?

Why along the same drive, why do owners of vacant property pride themselves on making things attractive by cleaning up rubbish and weeds?

Why is the town securing added taxes, isn't it a good time for entire citizenship to give it an extra push by making public improvements that would aid considerably in securing industries?

Why are there many problems facing Memphis now so why can't forums be held weekly so entire citizenship can learn what is needed and what each can do to help them over?

Why is it that there is so much complacency and self-satisfaction existing in Memphis when there is so much to be done to Memphis going forward?

SWEETHEART AND MASCOT — Andy Lynch and Joy Baten were selected as the mascot and sweetheart of the state-wide Sheriff's Association of Texas at a meeting in Odessa last week. He is the son of Texas Ranger and Mrs. J. P. Lynch of Memphis and Joy is the daughter of Sheriff and Mrs. W. P. Baten Jr.

Florida Woman In Memphis This Week Seeking Information About Family

Mrs. Irene K. Merrill, a 55-year-old Miami, Fla. woman, was in Memphis the first part of this week seeking relatives who, for all she knows, may not exist.

Mrs. Merrill was supposed to have been born in Memphis in 1904. However, she was unable to locate a birth certificate here.

When she was about three months old she was adopted by Ben F. and Millie Shaw, then living in Childress where he worked as a carpenter, surveyor and bridge builder. Mrs. Merrill located her adoption papers in Childress Monday and found out that her mother's name was Mrs. Viola Hawkins.

She is now seeking any brothers and sisters, if any exist, or other relatives. The Miami woman would also like to know the circumstances surrounding her adoption.

She asked that anyone knowing anything about her mother, Mrs. Viola Hawkins, or other members of her family contact her at 2130 NW 27th St., Miami, Fla.

Mrs. Merrill left Childress with her foster parents when she was about three and one-half years old, moving to Knoxville, Tenn. Mr. Shaw then went to the Panama Canal zone, leaving his wife and daughter behind. He contracted tuberculosis and died shortly after returning home. Mrs. Merrill was then nine years old.

Mrs. Merrill is a successful accountant and tax specialist in Florida.

Dr. T. A. Hunt To Practice In Montana

Dr. T. A. Hunt announced this week he would leave Memphis on August 10 to enter practice and make his home at Columbia Falls, Montana.

Dr. Hunt came to Memphis in 1950 to become associated with Drs. J. A. Odum and Charlie Dryden in the Odum Clinic and Hospital. After a brief withdrawal from the partnership, he again became associated with Dr. Odum when Dr. Dryden returned to school for post-graduate study in 1954.

He is married to the former Diane Meacham of Memphis and they have two children.

In Montana Dr. Hunt will take over the practice of Dr. Tony Opisso who is going to Guatemala to enter missionary work.

Wreck Near Estelline Takes Three Lives Sat. Afternoon

ACCIDENT VEHICLE—Pictured above is the automobile in which three persons lost their lives Saturday afternoon when the vehicle struck a bridge about seven miles west of Estelline.

Three persons were killed instantly about 3 p. m. Saturday afternoon when the car in which they were riding crashed into a bridge about seven miles west of Estelline on Highway 86.

Two other persons were injured, one of them critically.

Those killed were Mrs. Claude Crain, 53, of Tell; her grandson, John P. Peery Jr., 7, formerly of Tell and now of Turkey; and a granddaughter, Juana Beth Doss, 6, of Amarillo.

Sandra Lynn Strain, 12, daughter of Mrs. Crain, is in critical condition in an Amarillo hospital. Cris Don Doss, brother of Juana Beth Doss, was released from a Memphis hospital after being treated for lacerations.

Apparently Mrs. Crain, who had been visiting relatives in Turkey, was traveling toward Estelline when the automobile veered to the right and smashed into the right side of the bridge.

Man From Dallas Pleads Guilty To Theft Charge

Bobby Jack Hickman, 24 of Dallas, pled guilty to theft here Tuesday and was fined \$100 and costs of \$29.55 by County Judge Tracy Davis.

He was also assessed 30 days in the county jail.

Hickman was charged with theft under \$50 last Wednesday after money was missing from the safe of the Texaco Service Station in Estelline. The theft occurred about 11:30 a. m. while employees were waiting on customers.

Hickman had his car washed, greased and filled up with gasoline and paid for the job with money taken from the safe. A total of \$49.21 was taken from the safe and \$43.76 was recovered.

The theft was discovered soon after the man left and he was apprehended in Estelline about two hours later by Deputy Sheriff Elmer Neel.

Wheat Referendum Approved by 77-2

Hall County wheat farmers voted 77 for and 2 against in the annual wheat referendum held at polling places in the county last Thursday. Lynn McKown, manager of the Agricultural Stabilization Conservation office here, said this week.

The vote carried over the nation as a whole and it means that price supports will be available to farmers for next year's crop. Those who comply with their allotments will receive at least 75 per cent of parity, but not less than \$1.77 per bushel for the wheat.

The allotment for Hall County is about 14,000 acres as far as wheat is concerned.

The balloting this year was a little less than last year, when 100 votes were cast for supports and (Continued on Page Ten)

Work Underway on Building To House Cotton Classing Office

Work on the cotton classing office to be located in Memphis is progressing according to schedule, V. C. Durrett, president of the Rolling Plains Cotton Producers Association, said this week.

All of the contracts for work have been awarded and renovation of the building and installation of equipment is underway.

The association has purchased the old Wooten Wholesale Grocery building in east Memphis on Highway 256.

L. J. Kennon is in charge of construction and Arthur Gidden electrical work. Installation of air conditioning and humidifying equipment is being handled by Robert Breedlove, with the assistance of Jim Harris.

Harris, who engineered the equipment for the Munday Cotton Classing Office, represents Service Plumbing Supply, a wholesale firm located in Fort Worth.

Work is also going to be done on the outside of the building with plans calling for Perma-Stone work and a paint job, the president said. The color scheme for the outside will be determined by an Amarillo firm in charge of the Perma-Stone work.

Plans call for an open house of the new classing office to be held about Sept. 1 when the work is completed, Durrett said.

The office will be completed in time to take care of this year's cotton crop. Cotton grown in an area of about 12 counties will be graded here with the Plains Cotton Growers Association furnishing the building and equipment.

The Department of Agriculture will furnish personnel and pay utilities for that part of the year the office is in operation grading cotton.

Young Farmer Group To Meet

The Memphis Young Farmers organization will meet tonight, Friday, in the agriculture building at the Memphis High School, 401 Potts, vocational agricultural instructor said this week.

The meeting will get underway at 7 p. m. and all members are invited to attend. At the meeting committees will formulate plans for the coming year.

Lions Club Gives Metal Awnings to Swimming Pool

Installation of metal awnings at the City Swimming Pool were completed this week with the project being donated by the Memphis Lions Club, W. P. Baten Jr., president of the club announced.

They were constructed on each side of the concession stand on the south side of the building, thus providing shade for parents and other spectators.

The cost to the club was about \$285.

Alderman B. O. Shankle, who is in charge of the city park and swimming pool, stated that the City Council was extremely pleased by the donation from the club.

Each year the Lions Club holds several fund-raising projects in order to have money to work for civic improvement. One such project is the annual barbecued hamburger event held at the city park each spring.

SENATOR ☆☆☆ Yarborough's Report

A proposal which opens educational and job training benefits to some 4,000,000 veterans, the Post-Korean or Cold War G. I. Bill, is now awaiting action by the U. S. House of Representatives after passing the Senate by a substantial 57 to 31 margin.

This measure is a sound economic and educational investment, and is an example of understanding between our government and the young men who are fighting the Cold War at distant posts. I am hoping key members of our Texas delegation will guide the measure through to passage in the House.

This bill, which I had the privilege to sponsor is closely patterned after the Korean G. I. Bill. It will assist hundreds of thousands of Americans to help themselves by preparing them to earn better livings. This added training will also help increase our national productivity.

As the measure was passed by the Senate, it provided that grants for college training will be continued after the first year only if the veteran is in the upper half of his class.

Those who fall in the lower half of their class may continue in school, but they receive their assistance under a government loan program.

The measure takes up where the Korean G. I. Bill left off, January 31, 1955, and runs through July 1, 1963, when the current draft law ends. It provides a monthly allowance for full time training at the rate of \$110 a month for a veteran without dependents, \$135 monthly for a veteran with one dependent, and \$160 per month for a veteran with more than one dependent. It also provides vocational rehabilitation training for veter-

erans with service-connected disabilities, and a loan guaranty feature for loans on homes, farms, farm homes, and farming equipment and livestock.

Our young people interrupt their lives, their education or job training and careers to man America's and the Free World's defenses. This bill would show them our nation sincerely appreciates their sacrifices and is working to help them overcome the time loss and to make a better life for all of us.

State Capital NEWS

By Vern Sanford

Whatever the outcome of the summer tax battle, when the smoke has all cleared the fire won't be out.

Like live coals banked in ashes, the tax issue will be ready to flame up again when new fuel is added. Sources of new fuel are easily foreseeable.

Every member of this Legislature, by his voting record, expressed a tax viewpoint. Many of them will have to face opponents attacking this viewpoint in the 1960 elections. Since a new law moves primaries up by two months, campaigning will begin long before the dogwood is out . . . maybe while the Christmas lights are up.

Many candidates may be wary of lighting into an issue on which it's almost impossible to take an all-around popular stand. But whoever gets elected and comes to Austin in 1961 will find the old tax monster waiting, bigger and fiercer than ever.

This Legislature will likely enact just barely enough new taxes, mostly on "old favorite" sources, to cover the budget. But the 1961 budget will have to be bigger. For some time population growth and other factors have kept budgets going up by about 10 per cent every two years.

Additionally, there will be, as always, demand for new programs, new buildings, new spending. Hale-Aiken school improvement program alone would call for at least a \$100,000,000 tax bill.

Only hope for avoiding an even hotter tax battle in '61 is for '60 voters to give their elected officials clear instructions on what they want and how they're willing to pay for it.

BATTLE LINES — Show-down fight of the second called session came on a \$90,000,000-a-year tax bill passed on about three-fourths selective sales taxes, one-fourth business taxes.

It was in line with expressed sentiments of the Senate, but many House members regarded it as "another insula". All the five Senators and five House members on the conference committee that worked out the bill signed the report and recommended adoption.

It was designed to get revenue from these sources over a two-year period:

TOBACCO — Cigarettes up 3 cents a pack (for two years — then back to one cent) to raise \$60,000,000. Other tobacco products, except snuff, a 25 per cent tax to raise \$13,500,000.

NATURAL GAS — raise in the production tax from 7 to 8 per cent to bring in \$12,000,000.

CORPORATION FRANCHISES — increase of 75 cents per \$1,000 capital to May, 1960, 50 cent increase thereafter, to raise \$32,000,000.

UTILITIES — a 20 per cent increase in gross receipts tax except for telephone and telegraph, for \$3,000,000.

MOTOR VEHICLES — increase in sales tax from 1.1 to 1.6 per cent, for \$20,400,000.

BEVERAGES — liquor up from \$1.40 to \$1.60 a gallon, wine up 20 per cent, for \$6,000,000.

BOATS, MOTORS, AIRPLANES — a new 1.6 per cent sales tax, for \$3,250,000.

RADIOS, TELEVISIONS, PHONOGRAPHS — a 2.2 per cent sales tax, for \$6,000,000.

CAMERAS — temporary 10 per cent sales tax for \$6,000,000. Provisions for more vigorous tax collecting would bring an estimated \$4,000,000 more.

INSURANCE CUT DUE—State Board of Insurance has ordered reductions in auto insurance rates ranging from 10 to 15 per cent in some parts of the state.

Effective date is August 1. Most of the cuts will stem from a reduction in expenses, such as

agent commissions, rather than low accident rates. State-wide the cuts will amount to about \$226,000,000, saving some drivers as much as \$20 a year.

In some areas, mostly larger cities, the drop will be smaller, and in a few counties the rate will rise.

Board Chairman Penn Jackson said that a merit rating plan, setting lower rates for accident-free drivers, will be made later.

New Shirt Turns Into Life Jacket When in Water

One of the newest wrinkles in outdoor sports gear is a shirt that automatically transforms into a life preserver when immersed in water.

Unlike other life preservers, the "floatier shirt" is a comfortable, conventional piece of wearing apparel that can be worn by anglers, duck hunters, pleasure boaters, or little tots playing near a backyard swimming pool. Only when the wearer falls in the water does this shirt blossom into its life-saving role.

The feat is accomplished by a small chemical packet cleverly concealed in an inside pocket of the

shirt. When dampened, this packet releases a harmless gas which completely inflates the shirt in 4 seconds. This initial charge of gas will keep the wearer afloat for 45 minutes, which is usually sufficient time for a swim to safety or a rescue, but indefinite flotation can be achieved with a mouth valve concealed in the shirt's front pocket.

The "floatier shirt" is available in a variety of styles and colors. It may be washed, will not fade or shrink, and should last through several seasons of wear. The chemical packets are good for only one emergency use, but replacements can be purchased. The shirt and jackets are available in the clothing department and sporting goods stores across the country.

Mr. and Mrs. Norman Heath and children of Lubbock visited the weekend with her parents, and Mrs. H. H. Lindsey, Mrs. Heath returned to Lubbock after her parents after visiting with grandparents this past week.

ANNAPOLIS — SS AND NS Savannah, 44,000 tons, launched a new era when the SS Savannah was built and became the first nuclear powered vessel to cross the Atlantic Ocean, which event signified the beginning of the huge merchant vessels from even today.

man of the House Committee on Merchant Marine and Fisheries noted at the launching ceremony: "With this ship, and with those which I hope will follow soon, we are casting our bread upon the waters, and I am sure the return will be a thousand fold."

Saied's To Hold Grand Opening Friday Evening

According to an announcement this week, Saied's, Memphis' newest fashion shop for ladies, will hold its formal opening Friday evening. The doors will open at 7 o'clock, with door favors to be presented to those who visit the new store.

Alex Saied, owner, who has spent much time here in recent months, stated that the new store will be a branch of the Saied Department Store of Childress. He said that the Memphis store would stock popular priced clothing in the better grades.

Mrs. Neva Hickey will be manager of the store. Another saleslady will be employed soon, and Saied will divide his time between the Childress and Memphis stores. The inside of the building has been completely remodeled during recent weeks. The ceiling has been lowered, wall-to-wall carpet has been placed upon the back half of the store proper. From the front door back approximately 50 feet, the floor is covered with vinyl tile. New modern-design fixtures have been arranged throughout the store, which will present merchandise in a pleasing manner.

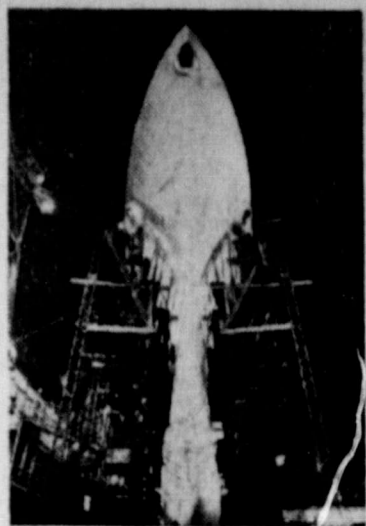

Halls Enjoy Vacation in New Mexico

Mr. and Mrs. Bill Hall and children and John Charles Sommers of Clarendon returned Friday from a week's vacation in New Mexico.

The group made camp in Cimarron Canyon where they fished a few days before making a tour of the country-side.

Wednesday they left Eagle Nest, going through Red River, where they toured a fish hatchery and Camp Philmont along with the Kit Carson Museum.

They had an enjoyable trip with beautiful weather, said Hall, and Mrs. Hall commented that the part of New Mexico they were in was truly the "Land of Enchantment."

Jerry Hays Places First In Archery Tourney

Jerry Hays of Amarillo, former Memphis resident, was first place winner of his division in an archery tournament sponsored recently by the Palo Duro Bow Hunters Club of Amarillo, of which he is a member. Hays is the son of Mr. and Mrs. Henry Hays of Memphis.

This was an invitation tournament and several towns participated.

According to the archery rules of Texas, when a contestant succeeds his own classification twice in any one year, he is automatically placed in the next highest division. Jerry did this in two consecutive tournaments recently, thus winning the next classification.

With other members of the Palo Duro Club, Hays recently attended a district tournament in Colorado in which several states participated.

Scots Outlawed Golf To Protect Nation's Defenses

The Scots had a simple solution when they thought they might be caught with their defenses down—they outlawed golf.

Back in 1457, archery was still the chief means of defense in Scotland. But the Scots were spending so much time on the greens that the country seemed in danger of losing the bow-and-arrow race.

The World Book Encyclopedia reports that the Parliament of King James II ordered the people to put their clubs away and get back to target practice.

Later, when gunpowder came into general use, the law was revoked and the Scots went back to their putting.

Local Residents Enjoy Two-Week Vacation

Mr. and Mrs. L. E. Moreman of Kingsville, Mrs. Gladys Power and Mrs. Ora Denny returned Saturday night from a two-week vacation in several states and Canada. Mrs. Moreman will be remembered as the former Ruby Long, sister of Mrs. Denny.

The first spot to start their sight-seeing was in Yellowstone National Park, where they saw the

hourly performance of Old Faithful erupting.

In Anaconda, Mont., they saw the largest copper mine in the world before traveling on to Washington, touring Seattle, Takomah and Olympia. In Olympia, they saw the Olympia beer brewery, then visited Port Angeles, the most northern city in the United States.

The group went through the Lambert Gardens in Portland, Ore., and through the Pendleton Woolen Mills in Pendleton, Ore. This is where the Pendleton jackets are manufactured, Mrs. Power commented.

From there, they took the boat "Kalakala" to Victoria, British

Columbia, where they spent the day touring the city, and seeing one of the most beautiful gardens in the world, the Butchart Gardens. The Queen was in Victoria at the same time they were, but there was such a crowd that they did not get to see her. They brought back cards and souvenirs from various places, but the most original was the bone china acquired in Victoria.

On the boat back to the U. S., there were 250 cars and 1,600 people on board.

Starting south for home, they took the Columbia Road drive from Portland on to Salt Lake City, Utah, where they toured the Mormon Temple. One of the highlights of the trip was attending an organ concert at noon at the tabernacle, with Albert Schreiner at the organ, said Mrs. Power. The organ consisted of 11,000 pipes and 187 stops, which will be of interest to all organ lovers, she said.

They did some shopping along the way back in the larger cities of Colorado and New Mexico and enjoyed the beautiful scenery all the way.

Locals and Personals

On their way to vacation in Colorado Springs, Mr. and Mrs. Richard Highfill, Patty and Tim of Tyler, spent Tuesday night in the home of Mrs. Highfill's grandfather, Mr. A. Baldwin. Mr. Highfill, who is band director in John Tyler High School and Mrs. Highfill, music supervisor in three elementary schools, were recently elected choir directors in the First Presbyterian Church there. The Highfills are former residents of Memphis.

Mr. and Mrs. M. E. McNally Jr. and Dr. and Mrs. H. R. Stevenson visited in Amarillo over the weekend, where McNally and Dr. Stevenson attended a "Drilling In" party for Petroleum Landmen at the Palo Duro Club.

Mrs. Dutch Wheeler and Mrs. O. M. Perkins were in Amarillo Saturday, where Mrs. Perkins caught a plane for Oklahoma City, where she will visit her daughter and family, Mr. and Mrs. J. Odum and children.

Mrs. A. Anisman met her brother and sister-in-law, Mr. and Mrs. Gershin Marcus of Shreveport, La., in Fort Worth last week for a week's visit there with her son, Sheldon Anisman.

Mrs. Kit Williams of Albuquerque, N. M., and Mrs. Carroll Tarpoley of Dallas visited recently with Mr. and Mrs. M. E. McNally Jr. They are former college friends of Mrs. McNally.

Jimmie Ward underwent an emergency appendectomy Friday night. She was attending Methodist Camp at Ceta Canyon when the attack occurred. Jimmie is reported to be recovering nicely.

Mr. and Mrs. Gayle Greene and children, and Mr. and Mrs. Bill Cosby are vacationing at Lake Texoma this week.

Mr. and Mrs. Hilton Lindsey and children, Barry, Susie and Bobby of Canyon, spent the weekend with his parents, Mr. and Mrs. N. M. Lindsey. Mrs. Lindsey has recently suffered a heart attack and is reported recovering nicely.

Mrs. John Campbell of Lakeview was in Amarillo Friday to attend a bridal shower honoring her granddaughter, Mrs. Ruby Hankins, formerly Miss Judy Sherley.

Mr. and Mrs. Joe Williams were in Stanford Friday to attend the funeral of Mrs. Dennis Wilson. Mr. Wilson is the district supervisor of the bread firm for which Williams is distributor.

Smiths Vacation In Colorado And Oregon

Mr. and Mrs. Burl Smith have recently returned from a vacation in Denver, Colo., and Portland Ore. While in Denver, they visited in the home of Mr. and Mrs. C. R. Sargent, as well as visiting points of interest in and around Denver.

In Portland, they visited Mr. and Mrs. Robert Gaynor, Jerry and Jana, and Mr. and Mrs. G. N. Hopkins and Gary. Mrs. Gaynor and Mrs. Hopkins will be remembered as the former Winfred and Peggy Crow.

They reported the flowers, timber, and mountains in Oregon beautiful beyond description, and they especially enjoyed the drive, viewing the Columbia River, the Bonneville Dam, and the Government Fish Hatchery at Bonneville, the numerous waterfalls, some of which are over 600 feet high. They drove through Hood River Valley, which is renowned for its apples, pears, peaches and cherries, on to Timber Line Lodge, which is 6,000 feet up the famous snow-covered Mount Hood, towering almost 12,000 feet skyward and is truly a paradise for nature lovers, Mrs. Smith said.

Concluding their trip they traveled to the Coast, which carried them through the tall timbers, English Walnut and Filbert nut orchards, and fields of growing hops.

Mr. and Mrs. Vance Adams and son of Carlsbad, N. M. are visiting his parents, Mr. and Mrs. T. E. Adams.

Mrs. Annie Crow and daughter, Mrs. Ray Wynn of Childress spent Sunday with Mr. and Mrs. Bill Vardeman. Mrs. Crow and Mrs. Vardeman are sisters.

**Eleven Bighorns
Behind Fence at
Black Gap Area**

The desert bighorn population on the Black Gap Wildlife Management area in West Texas now has reached 11, according to the director of Wildlife Restoration of the Game and Fish Commission.

At the present time there are five rams and six ewes behind the lion proof fence in the middle of the 100,000 acre wildlife refuge.

Biologists have been back in Arizona on the Kofa wildlife range with their summer trapping. Because of more favorable trapping

sites, they have done better this year than previously. They are working with the U. S. Fish and Wildlife Service at the Arizona Commission in the trapping program.

Two ewes and two rams were added to the compound last week. It is possible some others may reach the area before the summer is over.

The animals are being planted there in an effort to restore the Desert Bighorns to the mountainous country along the Rio Grande, where they once roamed in great numbers.

Because of mountain lions it was necessary to erect a high wire fence around a section of pasture land, so that the sheep would have a chance to survive.

Will You Become A Motorcide?

July is almost gone and that season of the year for vacations is in full swing. Most residents of the area will be traveling the highways of Texas and the surrounding states more during the next month than they will all the other eleven months of the year. There always seems to be a last minute rush to crowd in vacations before school begins.

The rush sometimes results in what the Department of Public Safety terms a Motorcide, a death due to a motor vehicle. Last year there was a total of 2342 who died on the highways within the state of Texas, and if present trends continue, the number will be even greater this year. Last year there were 123 persons killed in August, exceeded only by 124 in October. This fact alone should be enough to cause citizens to drive carefully. Over one-fourth, 27.1 per cent, of the fatal rural accidents involved running off the roadway. Another 24.9 per cent were head-on accidents. Collision with a fixed object accounted for 13.8 per cent of the deaths and pedestrians were involved in 10 per cent. The rest of the deaths came from rear-end smash-ups, overturning in roadway, hitting trains, other objects, etc.

Keep these figures in mind while you tour and don't let your vacation become a permanent one. However, if you should become involved in an accident here are a few simple rules to follow:

Stop. Failure to stop can result in serious criminal consequences. Render aid if anyone is injured. Protect the scene from further damage. Call an officer. Gather information and write it down. Don't trust your memory. Report the accident to the Department of Public Safety. This is required by law if there is any injury, death or total damages exceeding \$25.00. returning -ingO

Wheat Farmer Should Not Be Whipping Boy

As a New York Times correspondent observed recently, the surest thing in the wheat situation is jack rabbits. Ranking a close second in certainty, however, is that the wheat farmers are getting fed up with being held solely to blame for high food prices and the more than \$3 billion the government has tied up in a mammoth and still growing wheat surplus. They have some creditable points in support of their side of the argument, too—a side that has been getting less and less attention amid the mounting protest of city dwellers against rising grocery costs.

To begin with, the farmers themselves are more keenly aware than most urbanites seem to realize that their production has created a grave and complex problem. But, like most city dwellers when pressed to suggest a solution, they are at a loss as to how this baffling malady of too much can be cured. It is disheartening, however, to note reported indications that most of them feel that the time to have started treatment was some 10 years ago.

It grates on the farmers, moreover, to be charged with full responsibility for the cost of the whole government agricultural program, as well as for the higher toll at the supermarket check-out counter. The wheat farmer gets only a little more than 2 cents of the price of a loaf of bread. This is a penny less than he got a decade ago. The growing host of "middle men" in processing and transportation have absorbed that penny, plus the full amount by which the price of the loaf has gone up in the 10-year period. And the billions charged to the wheat program, many justifiably complain, pay also for many government services—meat inspection, for one—which the general public would hardly be willing to do without.

It also has been pointed out by people in the wheat country that "you can't grow coconuts or pineapples out here." In this cynical remark may lie a clue to a plan by which the wheat problem might at least be alleviated. It would drastically restrict the growing of wheat in areas suitable for the raising of other "money crops," leaving it up to the bread basket regions where wheat alone will thrive, to fill the nation's domestic and overseas requirements for that grain.

Whatever the solution, however, it is not likely to be found in the urbanite's blind denunciation of the wheat farmer, and vice versa.—Fort Worth Star-Telegram.

Value In Working Together

One of the strong points of the Perryton community, during its 40 years of existence, has been the ability of its inhabitants to work together for the common good. It has been this spirit of cooperation which has built this into a solid small city, one with a future to hold and develop its young people as they grow into maturity.

This quality of cooperation is being threatened now, arising from the attack on the city administration and the proposed home rule charter, and to us it is one of the worst things about the whole controversy—the losing of our willingness to work together.

Perryton has had a small minority of citizens who opposed various civic enterprises, but these have always been a minority. We can remember some people who violently opposed the paving of our city streets back in 1930, and waged a campaign against the paving while wading around in rubber boots through ankle-deep mud to wage the campaign.

There was a large hue and cry about the "extravagance" of the first high school building, the one which is now our center building and housing our junior high school. There was opposition to the first basketball team in the Perryton schools, with opponents decrying the spectacle of boys and girls appearing in public in their underclothes.

By and large, we have outgrown attitudes such as that. We have been able to work together to secure highways despite some fierce opposition. We have been able to put together an industrial area despite opposition from private interests who would naturally rather have sold the property themselves.

There was strong opposition to the city manager form of city government, strong enough to defeat the proposal, but after it had been in effect a couple of years citizens stamped their approval on it by a 2-1 majority. Now it is being challenged again.

We hope that people haven't confused the city manager election with the home rule charter proposal. The two are entirely separate. Some have the idea that a city must be a city-manager type before it can vote in a home rule charter, but this isn't so.

We think the city manager form of government is the best way to meet our problems—and to our way of thinking there is ample proof that this form of government has given us efficiency and value received for our tax dollars. It has stepped on some toes in the process, but it has given us efficiency.

Most of the opposition to the city manager form of government stems from some sort of personal grudge—some matter arising over police, parking meters, trash hauling, sewer charges, paving, or any of the other thousand things that the city does and sometimes annoys the citizens.

Another source of annoyance is that the city manager is not subject to pressure, like an elected official. He is responsible first to the city council and carries out that body's orders. Citizens may pressure for things but regardless of how big and important a man and who much influence he has, he can't exert the pressure on a city manager that he could on an elected official who wants to stay elected. This situation bothers some people who naturally want to be recognized.

The furor over the proposed

home rule charter has added fuel to the fire and the battle against such a charter has become an obsession with some of its opponents, who now feel that the first step in avoiding a home rule charter is to get rid of the city manager form of government. Of course, we must remember that Perryton doesn't have a proposed charter.

There is a preliminary draft of which a group of 15 men have been studying, but that isn't a home rule charter by a long shot. So we have a community squabble, a fight among friends, a battle which is disrupting our community and causing us to lose the spirit of cooperation which has made us a city.

Certainly there is room for differences of opinion and there is no opinion that is right. There are arguments for and against the city manager form of government and the home rule charter. It is healthy for an elected body to have

opposition and we will defend the right to differ just as strong as the next one.

We can't, however, see any justification for the bitter attacks, the lies that have been spread, the personal abuse heaped upon our city manager, the arguments which have disrupted long standing friendships. We think Perryton can resolve its differences without that sort of thing.

After all, there is a great deal to be said for the value of working together. —Ochiltree County Herald

Prentiss L. Hyder, oldest son of Dr. D. C. Hyder, has had a remarkable scholastic record, since entering the University of Texas four years ago. . . . Tuesday morning the fire department was called out when the Studebaker Coach belonging to R. F. Riggs caught on fire. Little damage was done to the car as quick response of the fire department soon brought the fire under control. Mrs. Riggs was driving the car and had stopped in front of Kesterson's Meat Market. . . . At a meeting of the Memphis Volunteer Fire Department held Monday of this week, M. G. Ray, an employee of the Memphis Democrat and a member of the local fire department for the past two years, was elected Chief of the Department to serve for the ensuing year. Mr. Ray takes the place of Chief W. J. Manhum, who was appointed to the office following the death of Silas Wood. . . . Celebrating the twenty-second birthday of this newspaper, the staff of the Memphis Democrat entertained themselves and two honor guests at a dinner held in the ballroom of the Memphis Hotel Monday. The guests of honor were: J. Claude Wells, former editor and publisher of this paper, and his partner, and business as-

sociate, H. Deskins Wells of Wellington, editor and publisher of the Wellington Leader.

A thirty year's collection of sterling silverware was taken from the home of R. S. Greene Friday night by burglars who entered the house through a front window. Mr. and Mrs. Greene were vacationing in Colorado when the burglary occurred. . . . H. A. Frazier, former straw boss of the old Pioneer force for the Pioneer Memphis year. In a letter to Durham Drug, headquarters of the "96" outfit, the old Pioneer issued orders for his arrival. The four Range Riders of Memphis and Hall County paid respects to the entire Pioneer Tuesday by way of the air over Station KGNC at Amarillo. Range Riders James E. King, president of the Memphis Chamber of Commerce, W. C. Davis, superintendent of the public schools, Carroll Smyers, secretary of the Chamber of Commerce and the Wilson, chairman of the committee, made the trip to Amarillo in the interest of the celebration coming up. . . . A model of the Hall County courthouse in the shadow of the United Gas Corporation has been set up, painted, and includes all the trimmings. Of course, there's a sign on it to let you know what all about, but it is realistic.

Tax Man — SAM SEZ

It's no news to most of us that this piece of sod in our particular part of Texas is just about the finest place there is. Few Texans, even those living in Alaska, will deny that we have many advantages not enjoyed by the rest of the world. Most of us know that Texas is a community property state and that means Pa owns half and Ma owns half. However, a lot of us forget the community property laws when we file our income tax return, get divorced, inherit property, give property away or retire. The community property law has a big effect on the income taxes you will owe in all of these cases. It usually helps but it can also cost you money. Check on the differences in income taxes you owe under community property law. It can save you money and trouble.

Mrs. John Casebier of Hobbs, N. M. is visiting her sister and family, Mr. and Mrs. Robert Sexauer.

Mrs. J. C. Hennen and Mrs. Charles Andrews of Vernon were Memphis visitors today. They are former Memphis residents.
