100 Piano Students To Play In Annual Auditions Here April 26-30

Adjudication of 100 piano students from Wellington, Hedley, Estelline and Memphis will begin Tuesday, April 26 and continue through April 30, Gertrude Rasco, chairman of the Memphis Center, announced this week.

Sponsored by the National Guild of Piano Teachers, the meeting will be held at the First Methodist Church. Mrs. Opal J. Cotton of Wichita, Kansas, will preside at the hearings.

Mrs. Cotton graduated under Otto L. Fischer of the Wichita Musical College in 1923. She joined the faculty of Three Arts Conservatory where she taught piano and theory until 1935, later teaching at Friends University until she established the Treble Clef Studios in Wichita, Kans.

Mrs. Cotton has been in workshops with John Thompson, Barton Bachman, John Blackmore and others. In 1951, 1953 and 1954, she attended the refresher classes of the late Hans Barth and while in Los Angeles attended the Master Classes of Rosina Lhevinne at the Los Angeles Conservatory of Music and Arts and more recently attended lecture sessions under Dr. Robert Pace of Columbia University in New York.

She is a member of both State and National Music Teacher Associations. About 200 judges, selected for their sympathetic approach as well as for their musical achievements will hear 53,000 young people in 650 centers, Miss Rasco said.

Rhythm, accuracy, tone quality, phrasing and pedaling are among the thirty-two points considered in rating piano playing. Each student plays from memory three to ten numbers and is required to pass a test on scales and cadences.

MRS. OPAL J. COTTON

He receives a pin and certificate on which is listed his strong and weak points in piano playing as heard by the judge.

The auditions are conducted privately to put the student at ease, Miss Rasco explained.

"The Methodist Church is an ideal place having conveniently arranged rooms in which the auditions can easily be conducted and we are grateful to the membership for the use of these rooms," Miss Rasco concluded.

Local teachers who are members of the National Guild of Piano Teachers are Mrs. Conley Ward, Mrs. T. L. Rouse, Mrs. L. G. Rasco and Gertrude Rasco.

Wellington teachers belonging to the Guild are Mrs. Frank Anderson, Mrs. Kelly Pigg and Mrs. John Harper.

Retail Committee Sets Holiday Dates

Five days were named as official Memphis holidays for 1960 by the Retailers Committee of the Chamber of Commerce in a meeting Tuesday night. They are Memorial Day, Fourth of July, Thanksgiving, Christmas and New Year's Day.

This is an addition to the list of last year, Memorial Day being added, according to John Shadid, chairman of the committee. Nearly all other towns observe Memorial Day and the committee recommended that it be observed here, according to the chairman.

Other things considered by the retailers was National Cotton Week, May 16 to 21st. Tentatively plans were made to join with the Farm Bureau again this year in staging a Cotton Week program. The committee voted to order advertising material for window display as they have done in the past two years. This is a part of the promotional program of the National Cotton Council, Shadid said. "Since we are in the heart of a

cotton producing area, it is important that we recognize King Cotton," he added.

Funeral Services For Rex Hull Held Here Monday

David Rex Hull, 60, who had lived in Memphis for the past 27 years, died Sunday in a local hospital.

Funeral services were conducted at 3 p. m. Monday from the First Baptist Church with Rev. Fern A. Miller, pastor, officiating assisted by Rev. O. B. Herring, pastor of the First Methodist Church.

Burial was in Fairview Cemetery under the direction of Spicer Funeral Home. Mr. Hull was born Sept. 23, 1899, in Tiny, Mo. He was married to Miss Viola Ridings May 3, 1932, in Arnett, Okla.

The couple moved to Hall County in 1943. They resided at 1122 West Main.

Mr. Hull was a member of the Methodist Church.

Pall bearers were Lewis Richards, Guy Smith, Thomas Clayton, W. R. Scott, J. M. Ferrel, Jr., and Leonard Wilson.

Survivors are his wife, Mrs. Rex Hull of Memphis; two daughters, Mrs. Laura Moore of Orangedale, Calif., and Miss Joyce Hull of Memphis; two brothers, Virgil Hull of Spearman and Russell Hull of White Deer; one sister, Mrs. Edna Dennis of Canadian, and two grandchildren.

Car, Pickup Collide Saturday

Estelline Lions To Sponsor Sale Of Merchandise

Members of the Estelline Lions Club will hold a town-wide sale of household items Saturday, April 23, according to Rab Holland, secretary.

In charge of the sale will be Jack Kinard and Gerald Fowler. A huge truck, containing items manufactured by Texas blind workers, will be parked on the west side of the Estelline square. From this the teams of salesmen will canvass the town.

Such items as brooms, ironing board covers, mops, ironing board pads and door mats will be distributed.

COACH JOHN HOWLE

John H. Howle Resigns as Head Football Coach

The resignation of John H. Howle as head football coach and athletic director of Memphis High School, was accepted by the local school board in a meeting Wednesday morning.

Don H. Lambert was elected to fill the position vacated by Howle as head football coach and athletic director for the 1960-61 school year. Mr. Lambert has been history teacher and assistant football coach the past year.

Mr. Howle has accepted a position as head football coach in the Anson High School, which is a 2-A school. This is a promotion for him.

The board expressed their regret to lose Coach Howle. "However, we are proud of his promotion in his profession. He has done a good job here with us and our athletic program has shown evidence of improvement. His well-rounded program is what Memphis has been needing for a long time," the statement added.

Work on the tower of the Caprock Translator System is nearing completion Joyce Webster, secretary of the system, announced Tuesday.

Housing has been built in which the equipment will be installed, which is expected to arrive here any day now. The special broadcasting equipment is being made up in Syracuse, N. Y., and could not be ordered until after the system received its application for broadcasting from the Federal Communications Commission.

Mr. Webster estimates the tower will be completed by the middle of next week and the system will be ready for broadcasting when the equipment arrives and is installed.

The television broadcast system is located on the Virginia Browder Ranch, seven miles northwest of Memphis. It is designed to pick up all telecasts of Amarillo Stations KGNC, KVII, and KFDA and televise these programs on UHF channels 71, 77 and 80 respectively, Webster added.

Construction is by Bob Skils of Dallas, representatives of the manufacturer of the electronics equipment. His firm will be in charge of maintenance the first year the system is in operation. Lloyd Hickman, who is currently living in Mobeetie, will move to Memphis the latter part of May to be in charge of the maintenance of the system, Webster said.

The area to be served in addition to the Memphis area includes Estelline, Lakeview and Hedley.

"After more than a year of concentrated work and efforts, co-operation television to all this trade territory is becoming a reality," Mr. Webster concluded.

Aronofskys To Attend Dental Meet In Fort Worth

Dr. and Mrs. David Aronofsky plan to go to Fort Worth Sunday where they will attend a four-day meeting of the State Dental Association.

The meeting opens on Sunday and will continue through Wednesday with headquarters in the Hilton Hotel.

City Officials Organize Council at Special Meet

One new alderman and three who were re-elected took the oath of office last Monday evening when the City Council was organized for another year. The new alderman was Gayle Greene, and those re-elected were E. E. Roberts, Gene Hughs and B. O. Shankle.

Dr. H. R. Stevenson appeared before the Council and discussed the city's water supply. After the matter was considered, Mayor H. J. Howell was authorized and instructed to write a letter to the Donley County Water Control and Improvement District No. 1 regarding the matter of obtaining state approval of the water which is supplied citizens of the city. Howell was instructed to request the water district to abandon a group of wells on their property, described as "infiltration wells."

Purpose of the request for abandonment was to qualify the water supply in order that it might receive state approval.

E. E. Roberts was elected mayor pro tempore by the aldermen. The Council appointed these men to the city's tax equalization board: E. (Gip) McMurry, J. W. Coppedge and Oren Jones.

The aldermen set the rate for use of the city's heavy duty mowers in the cleaning of vacant lots at \$5.00 per hour. It was stipulated that a minimum charge of \$5.00 would be in effect even on smaller lots.

The last order of business was

the appointment of the various standing committees, which take care of the different sections of the city's functions. Those appointed by Mayor Howell and the names of committees as follows:

Building—E. C. Rice and E. E. Roberts.

Police—B. O. Shankle O. M. Gunstream and M. E. McNally Jr.

Streets and Sanitation—E. C. Rice O. M. Gunstream and Gene Hughs.

Airport, Cemetery and Library Park—Gayle Greene and M. E. McNally Jr.

Swimming Pool and City Park—B. O. Shankle and Gene Hughs.

Fire Department—Ben Parks and E. F. Roberts.

Tax Committee—Ben Parks, E. E. Roberts and Gayle Greene.

Mrs. M. Stephens Recovering Nicely

Mrs. Mildred Stephens, district clerk, who has been receiving medical treatment in Northwest Texas Hospital in Amarillo for the past week, was reported today by her mother, Mrs. A. B. Jones, to be much improved.

Mrs. Stephens, who is suffering from an attack of asthma, is now able to be out from under oxygen, her mother said.

"It is hoped that she will be able to return home the latter part of this week," Mrs. Jones added.

W. M. Montgomery Area Pioneer Dies In Clarendon

William McElreath Montgomery, 87, prominent Donley County resident for over 60 years and one of the early-day settlers of Hall County, died at 1:20 o'clock Wednesday morning.

Mr. Montgomery was the father of Paul and Joe Montgomery of Memphis.

Funeral services were held at 3 p. m. today (Thursday) from the First Presbyterian Church in Clarendon with Rev. Baldwin Striblin, pastor, officiating assisted by Rev. Richard Avery, pastor of the First Presbyterian Church of Memphis.

Interment was in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Montgomery was born Oct. 7, 1872, in Bells, Texas. He and his twin brother, J. P. Montgomery of Lesley, came to Hall County in 1890. They settled in the Lesley community where they became engaged in farming and stock raising.

Mr. Montgomery lived in that community for a number of years and approximately 40 years ago established permanent residence in Clarendon, continuing his farming interests in the Lesley community.

He was an active member of the First Presbyterian Church of Clarendon, serving as one of the first elders of the church, a position he continued to hold until his death.

He also took an active part in all community affairs, serving on the Clarendon school board for eight years.

Pall bearers were grandsons of the deceased. Serving as honorary pall bearers were elders of the First Presbyterian Church of Clarendon.

Survivors other than the two sons here, include one daughter, Mrs. Edna Smith of Clarendon, Bill Montgomery of Lesley; two sisters, Mrs. J. B. Reed of Plainview and Mrs. J. L. Smith of Friona; one brother, J. P. Montgomery of Lesley; 11 grandchildren and four great-grandchildren.

120 Farmers Get Total Of 717,659 In Payments

701,400 pounds of grain sorghum.

On the 169 farms, which participated in the regular ACP programs, were the following:

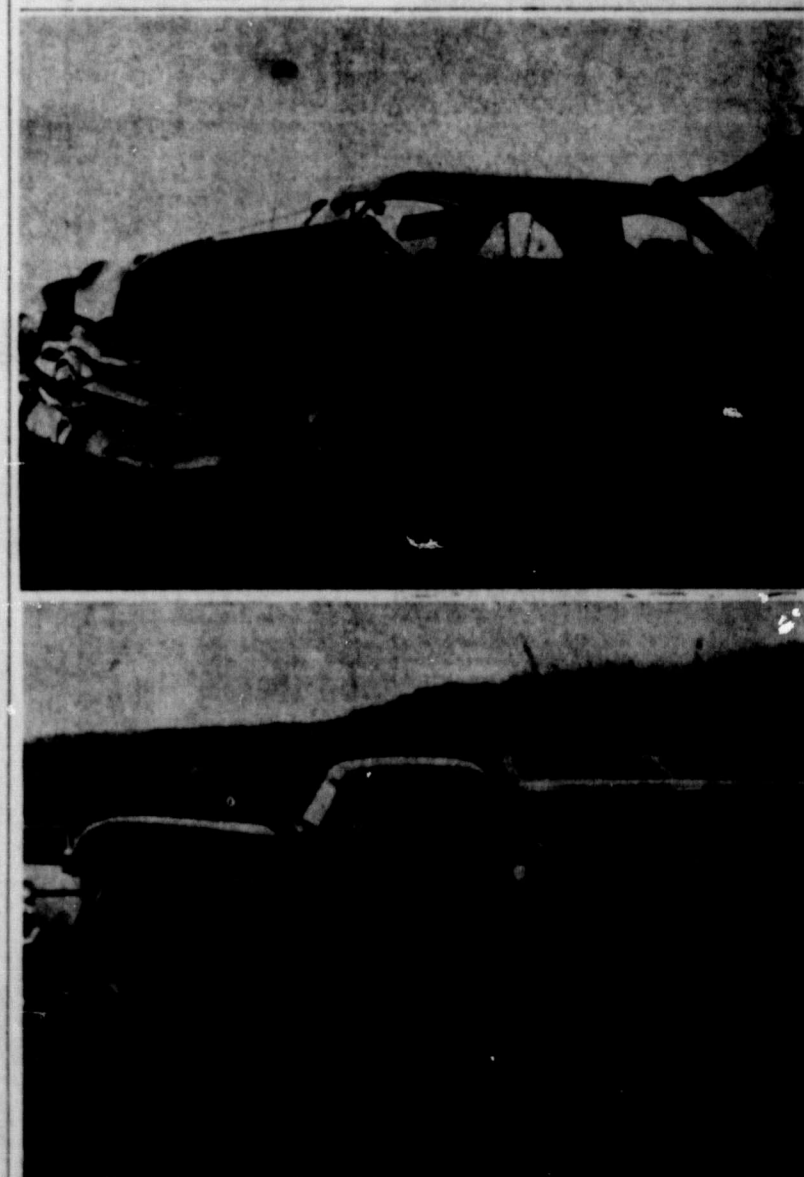

Cover crops seeded, 212 acres on eight farms; mesquite grubbed and sprayed, ceda: grubbed, 3,091 acres on 13 farms; construction of 14 livestock wells on 12 farms; construction of three steel tanks for water storage at wells on two farms; construction of 14 livestock dams on 10 farms.

The item of terrace construction and restoration was listed at 1,869,789 feet. This covered approximately 8,587 acres on 64 farms. Also, 27,944 linear feet of diversions were constructed on 10

farms. One erosion control dam was constructed for the protection of outlet and water channel: that dispose of excess water on one farm.

Other items include: 564 acres of irrigated cropland reorganized on nine farms; 108 acres of winter cover established on two farms; 2,236 acres of rye seeded on 39 farms; 368 acres deep plowed on eight farms; and 15 acres of bindweed controlled on three farms.

The report showed that payment was made on the application of cotton burs on 679 acres. This represented a total of 37 farms in this part of the program.

ACCIDENT SATURDAY — Pictured above are two vehicles which were involved in a collision Saturday about 6 p. m. west of Memphis about 6 miles on the hill near Indian Creek. The car in the top picture was going west on Highway 256 when the pickup, which was going east, lower picture, swerved over into the north lane. The two collided with the car stopping almost immediately on the pavement and the pickup stopping in the south ditch.

State Capital NEWS

By Vern Sanford

First it was \$100,000 homes for college presidents. Now it's \$36 doorknobs for the State Office Building that have cost-conscious legislators blowing their tops.

Legislature went through an arduous seven-months tax raising session last year to scrape up enough money to keep state services going. Despite all the problems and criticisms they weathered, it wasn't enough. Now they are face to face with the prospect of another deficit next year and the need to raise more taxes.

It is in this not-to-rosy setting that the House Committee on Saving Taxes is checking into how state money has, and is being spent. When they heard that the terrazzo floors in the brand new State Office Building had cracked, committee members decided to investigate further into the \$3,793,000 building.

They learned that the air conditioning system vibrated excessively; that the building had 1,000 elaborate door knobs costing \$36 apiece; and that there were telephone booths in the hallways lined with expensive marble. Some officials had no doors.

They noted that the Texas Employment Commission Building, just across the street and to the casual observer equally as handsome, cost only \$14.33 per square foot compared to \$17.40 for the

State Office Building.

Cracked floors are now being removed and replaced by the contractor, at no cost to the state. Efforts are under way to smooth out the knobs in the air conditioning. Legislators are unhappy at the lack of supervision and inspection while the building was under construction.

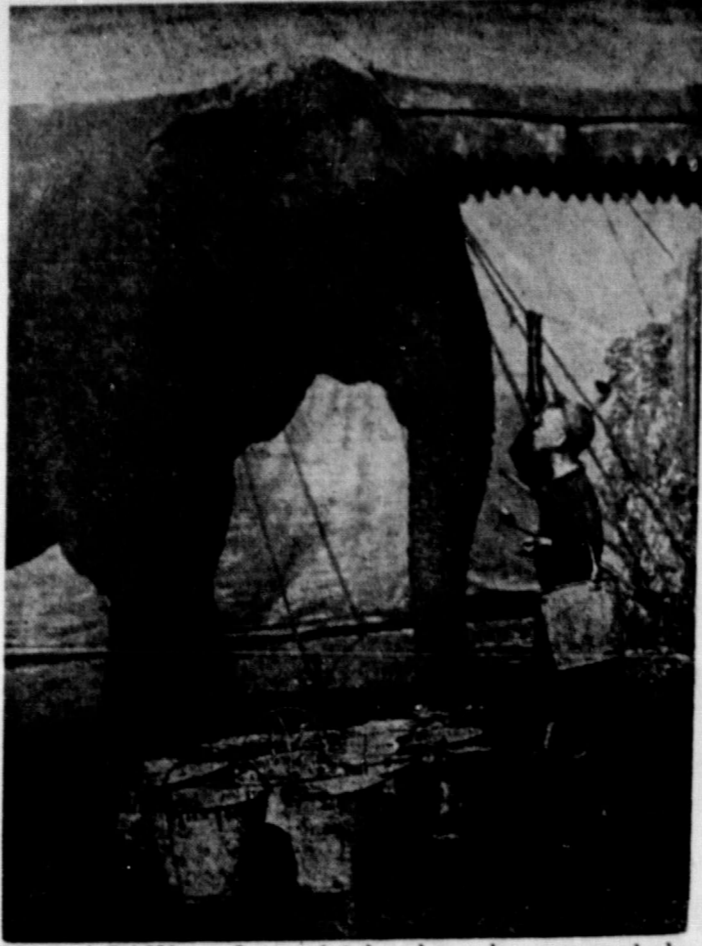

H. R. Nieman, who became director of the State Building Commission after the building already was built, told the committee he agreed the structure was probably wasteful in some features. He attributed this to inadequate supervision. Steps are being taken to watch this more closely on future projects, he said.

RAW MINERALS — Gov. Price Daniel has promised to have two sets of ingredients ready when the State Finance Advisory Council meets May 16 to begin shaping up a long-range fiscal policy for the state.

Daniel will present to the committee:

1. A 10-year projection of budgets of agencies which represent the state's main money needs — schools, highways, hospitals and welfare.
2. Five suggested new tax plans.

He does not intend to make the five tax plans public before the committee meeting, said the governor, because he doesn't want them

WHAT AGAIN — Lots of jokes have been passed down about watering the elephants from Grandpa's day. Although a modern show like the Carson & Barnes Wild Animal Circus has lightened the work on the small boy with tank trucks, it takes a lot of water for their herd of elephants. The show will be here Friday, May 6.

to get involved in the current political campaign.

It is certain that the governor's proposed tax plans will not include a general sales tax or income tax, both of which he has long opposed. However, he said he will ask the committee to look down the road and "report honestly whatever you find and let's see how long we can go without sales or income taxes."

HOUSTON U ASKS AID — Now under consideration is whether the University of Houston should become a fully state-supported college.

Commission on Higher Education will hear a report on its staff findings probably in October and make a recommendation to the Legislature, pro or con, next year.

In making their bid before the Commission, Houstonites said the state would get a \$22,000,000 institution with a 275 acre campus, all free of debt. In return, it would need to spend about \$4,000,000 a year for operating it.

Increased costs have forced the school to raise its tuition fee to \$600 a year and more, with a resulting drop in enrollment. Tuition at state colleges is only \$100 a year.

Council of State College Presidents opposes the move on grounds that the state cannot afford to spread its support any thinner without a damaging drop in quality.

Houstonites point out that their count has 10 per cent of the state population, pays 20 per cent of the state taxes, but has no state col-

lege in the area.

SPORTS FUNDS DUE INQUIRY

Commission on Higher Education has ordered an investigation of rumors that state money is being used by some colleges for intercollegiate athletics.

A previous report to the Commission had indicated that this was usual among all schools except those in the Southwest Conference which get enough from gate receipts to support athletics.

Requests by six schools to expand their course offerings are under study. Each proposal will be considered at least six months before approval or disapproval.

LABOR'S CASES UPHELD — State Supreme Court ruled that labor unions have a right to present grievances to a school board if they do not claim the right to strike.

It overruled the position of the Dallas School Board that dealing with the union would be the same as recognizing it as a bargaining agent for public employees and therefore contrary to law.

In another case the high court struck down the sentences imposed by a Dallas judge on three labor officials for picketing in violation of his court order. Because they were picketing a business that is in interstate commerce, their action was held to be a case for federal, not state, courts.

STATE DEFICIT DROPS — Annual payments of taxes on corporation franchises and insurance premiums are whittling down the shortage in the state general revenue fund.

I Give You Texas

By BOYCE HOUSE

There never was another judge exactly like A. B. Pittman of Memphis, Tennessee. A man of broad sympathies, especially for the under-dog, he was endowed with fairness, learning and a quiet sense of humor. He was one of my boyhood heroes and was instrumental in my getting a tryout as a reporter after graduation from high school.

Another who shares my admiration for the late jurist is a leading attorney of Memphis, Abe D. Waulder. Like Judge Pittman,

Waulder is a believer in the philosophy of the great Henry George, advocate of the single tax (land value taxation.)

Recently Waulder and I had an opportunity to reminisce and he told me about the time that a lawyer, — probably then the foremost member of the Memphis bar — asked for a continuance because President Franklin D. Roosevelt had invited him to Washington for an NRA Conference. Judge Pittman told the attorney that he could designate a young lawyer in his office to try the case and overruled the motion.

Waulder was next and, after seeing what had happened to the distinguished lawyer, it was with diffidence that the young attorney requested a continuance, his reasoning being that, sometime before,

he had accepted an invitation to speak in a Mid-West city under the auspices of the Henry George Foundation. The judge asked, "How do you plan to go?" Waulder replied, "Your Honor, I intend to drive." The judge said, "Continuance granted — and, invited, I'll go with you."

We take our modern highways for granted, but this was not the case. Back in the early 1920's, I was making a through the hills of Arkansas. I asked a native, "How's the road to Hardy?" He replied, "Bad and rocky — but good." "Any road that you could over was 'good.'"

Quotas Available Now for Reservists in U. S. Army

Master Sergeant Charles E. Maples, the U. S. Army Reserve recruiting sergeant for the Amarillo area, announced this week that quotas are currently available for enlistment under the six-month active duty program. Individuals may enlist for call to active duty within the next 120 days, or high school seniors may enlist for a call to active duty after graduation.

Sgt. Maples pointed out that enlistment quotas are usually reduced during the summer and fall months; so individuals interested in the program are encouraged to act now.

Information on the program may be obtained from Sergeant Maples at the Blucher S. Sharp Reserve Center, 2801 Duniven Circle, Amarillo.

\$88,000,000 in March, the deficit dropped to \$76,496,922. It is expected to drop further through the spring but not enough to get out of the red this year.

Reasons are several: a drop in oil revenue due to the industry's troubles, lawsuits which tie up expected revenue from the new severance beneficiary tax on natural gas, loopholes in the new sales tax on furs, jewelry, air conditioners, etc., that have caused revenue to fall below expectations.

LARGE WHEAT CROPS — Texas' winter wheat crop is expected to hit 78,714,000 bushels, third largest crop among the states.

U. S. Department of Agriculture describes conditions in Northwest Texas as very favorable, with plenty of moisture and light damage from winter weather.

An estimated 4,373,000 acres of wheat have been planted in Texas. States with higher crop expectations are (1) Kansas and (2) Oklahoma.

More Than 100 Attend Ex-Student Banquet Sat.

More than 125 ex-students and their families enjoyed the annual Ex-student banquet Saturday evening in the Memphis Cafeteria. The banquet was sponsored each year by the senior class of Memphis High School. Preparations were in keeping with the Easter season. While the guests arrived, special musical numbers were presented by Edwin and Gordon Gilman and Mae Graham. The menu consisted of ham, beans and potatoes, salad, coffee and cherry pie. Food was prepared and served in style by mothers of the class members.

Hooser. The reader was Priscilla Wright.

Beginning with the year 1897, R. A. Massey introduced all ex-students of Memphis High School. Only one member was present from the 1897 class—F. A. Finch of Memphis. The next class represented was 1908 with two members, Jet Brumley and Ola McElreath Gowan present.

Wendell Harrison introduced the evening's speaker, W. E. (Bill) Morgan, a 1930 graduate of Memphis High School and now president of Colorado State University, Fort Collins, Colo.

Introducing his talk with remarks about great sciences, the speaker mentioned the Austrian monk, Mendel, with his principle of heredity formulated in 1865; and Albert Einstein with his theory of relativity.

Mr. Morgan pointed out that it was through the rare and creative ability of these inspired scientists that a wide array of people have been able to move ahead into the "Space-Age" today. It has enabled man to put hardware into orbit and leave us wondering what is next, he said.

Summarizing, he asked the question, "Where do we go from here in this country?" He pointed out that "we have priceless possessions our children. Twenty per cent of all the children since Jefferson was in the White House have been born since World II, he said.

"We know we can produce," he pointed out. "Will we use this

money wisely to educate our children? As present America is spending \$3 for tobacco and alcohol on every \$4 spent for education. Let's hope that we do not try to educate our children too cheaply," he concluded.

Registering for the banquet were the following (those without name of residence are from Memphis):

R. A. Massey, Dumas; Ouida Massey, Dumas; Mrs. Pearl Massey; Mr. and Mrs. G. B. Phipps, Plainview; N. F. Bradley, Irene Bradley, Mr. and Mrs. Ernest Lee, Don Moore, F. A. Memphis Band Rates First and Second at Canyon

The Memphis High School Band competed in the University Interscholastic League contest Wednesday, April 13, at Canyon, and received a second division in concert and a first division in sight-reading.

All bands compete against a fixed state standard rather than one against another, Donald Swaim, director of the band, said.

There are a possible five ratings with division I being superior, and progressing downward to division V, totally unsatisfactory. Each band competes in two phases, prepared material or concert and unprepared material or sight-reading, Mr. Swaim explained.

For concert the band presented a concert march, "Elmira" by George J. Abbott, and two other selections, "Court Festival" by

William P. Latham and "Berceuse" from "Firebird" by Igor Stravinsky as arranged for band by Gardner.

This year's judges were G. T. Gilligan from Kermit, James Jacobsen from T. C. U. in Fort Worth, and Hiram Henry from Oklahoma. The sight-reading judge was Joe Haddon from Midland.

Also, at these contests, student conductors have a chance to demonstrate their skill at leading a band. Judy Lemons and Leslie Helm entered this contest, the first receiving a first division and the second a second division. Both of the girls made a fine showing, the director stated.

"All things considered, the band has done very well this year. Earlier this season the band made a second division in marching contests; so that makes our record read two second divisions and a first division. We have a young band with the majority of the membership being made up of freshmen and sophomores who simply lack experience. Next year we hope to have a Sweepstakes organization and I think that we can do it if we really get down to work," the director concluded.

Report From Washington

By **WALTER ROGERS**
Representative, 18th
Congressional District

Sugar
Last week I introduced three bills designed to provide additional domestic production of sugar. At the present time, domestic production of sugar is limited. The growers of sugar, both in the United States and in other countries, are authorized by law to produce approximately 30 per cent of our entire need, which is about 66 2/3 per cent of our imports of sugar. This sugar coming from Cuba is

purchased at a price about two cents above the world market, but is still several cents below the U.S. market price. The U.S. market has different ranges, depending upon whether you are trading in the Northeast, the Southeast, the Gulf area, the Chicago-West area, or the Pacific Coast area.

The three bills which I have introduced are designed to accomplish one result. That is to provide the sugar growers in this country with quotas which will permit us to produce a larger percentage of our domestic consumption. As a starter, I propose to increase our domestic production from approximately 55 per cent to approximately 65 per cent. This would no doubt result in lessening the amount which Cuba furnishes this country. However, it is not intended at an economic sanction against Cuba, nor any other country. It is designed to make it possible for us to utilize our own productive ability and to assist those farmers who can and want to grow sugar beets. At the present time acreage allotments are dependent upon marketing quotas given to sugar producing mills, which marketing quotas are in turn dependent upon the percentage of our domestic sugar consumption which can be removed and it will provide a free competitive economy between the areas which can grow sugar beets. This competition will be in the nature of the contracts the sugar beet growers are willing to make with the sugar mills. It will provide a means whereby those areas having little or no acreage allotments will have an equal opportunity to bid against other areas. The third bill is designed to make it possible for the farmers in this country to obtain the right to grow and produce that amount of sugar represented by the increased demands each year. In other words, at the present time let us say that because of the annual increase in population we would need an additional 100,000 tons of sugar. As the law presently stands, only 55 per cent of that 100,000 tons increase may be produced by domestic growers. The other 45 per cent is allocated to foreign producers. It seems to me that at least the increase in the domestic consumption should go to our own people. The bill also provides that 85 per cent of the increase is to be allocated to those areas who presently do not have

extensive production of sugar beets.

The sugar situation is a highly complicated matter and will take a lot of exhaustive work to get it corrected. However, regardless of the length of the journey, it can never be accomplished unless the first step is taken. I hope that my bills will be the first step in correcting a situation which I feel is somewhat unfair to our own native people.

The Parking Problem

The parking problem in this country is certainly presenting a dilemma that indicates a marked change in living conditions. Only the other day we had before us a bill providing for the United States to enlarge one of its National Park areas by purchasing 2.76 acres of land at a price of some \$600,000, the land to be used for parking purposes. In the questioning, I developed that the high price of the land was because there was a hotel located on it. This pointed up to me that the age-old problem of parking the body had yielded to the new problem of parking the car. Perhaps they intend to sleep in the cars.

Wheat Spraying

Many inquiries have come into the office concerning the use of 2-4-D spray on wheat. I conferred with the Food and Drug Administration and the Department of Agriculture and was given the following advice: The only criteria in using 2-4-D is that there be no detectable residue at harvest. Both agencies advised the most positive assurance is to follow directions on the label, which has the nearest thing there is to Department of Agriculture sanction. No danger occurred when wheat is sprayed within two or four weeks prior to harvest.

I pass this information on to the wheat farmers and will be glad to enlarge upon it if you will call upon me.

WELCOME TO DISTRICT 88

Mr. Ray Kirkpatrick
-- UTILITY LOBBYIST --
(And Former Lobbyist For Texas Naturopaths)

Welcome to District 88 and Hall County, Mr. Ray Kirkpatrick. Let me introduce you to my friends and neighbors. Tell them, Ray Kirkpatrick, that you are a Registered Austin Lobbyist and that you represent a Houston utility company. Let's also tell the folks that you are the man behind the scenes directing my opposition in this campaign for State Representative.

Tell my friends in Hall County, Lobbyist Kirkpatrick, that YOU ARE MY REAL OPPONENT, not the young man from Matador. Let's let them know that my opponent was living and working in Austin and that you encouraged him to move back to Matador and run for office; that his filing fee and applications for his name on the ballot were MAILED FROM AUSTIN, and not paid in person as is the custom. Tell my people, Mr. Lobbyist, that you have arranged for my opponent's printing at an Austin print shop; that you are really directing his campaign from Austin; that you had your last meeting with my opponent on Monday, April 4th in Austin to map out the finishing touches to the opposition campaign.

Welcome to District 88, Lobbyist Kirkpatrick, but tell my friends in Hall County that you are behind the vicious, vindictive, distorted, SMEAR campaign being waged against me and my family. Tell my people, Mr. Lobbyist, that you KNOW my voting record is good for this rural district, but that it is definitely NO GOOD FOR HOUSTON AND YOUR SPECIAL SELFISH INTERESTS.

Tell my friends, Lobbyist Kirkpatrick, WHY you are so strong against Will Ehrle. Is it because Will Ehrle voted for a strong LOBBY REGISTRATION LAW? Is it because I didn't vote for your utility company clients? Is it because I voted for the Rural Electric Co-ops? Is it because I voted against a RETAIL GENERAL SALES TAX? Is it because you can't control Will Ehrle's vote in Austin?

Welcome to District 88, Lobbyist Kirkpatrick, but don't sneak in the back door. Come on out and tell my friends that you have other VICIOUS RUMORS TO SPREAD, VINDICTIVE AND DISTORTED ADS TO RUN, MORE NASTY SMEARS TO USE against WILL EHRLE.

Our folks up here know your kind, Mr. Lobbyist, but you see they are not as ignorant as you and your selfish clients think. We're not from Houston or Austin, but we have T.V. and good newspapers. Our people are not as "country" as you think, Ray Kirkpatrick, and

I DON'T BELIEVE YOU WILL FOOL THEM WITH YOUR SMEAR WILL EHRLE CAMPAIGN!

Yours For A Better Texas
Government, Lobbyist Kirkpatrick
— The Kind You Are Opposing

Will Ehrle
Candidate For
State Representative
District 88

P.S.: JUST TWO EXAMPLES OF LOBBYIST KIRKPATRICK'S MISINFORMATION WHICH WAS PUBLISHED IN AN AD LAST WEEK:

1. My opponent said that Will Ehrle did NOT vote to tax Beer. The record shows that I voted to increase the Beer Tax from 1.3c per bottle to 3c per bottle. THIS VOTE IS RECORDED IN THE OFFICIAL HOUSE JOURNAL AT PAGE 1828 ON APRIL 22, 1959.
2. My opponent intimated that Will Ehrle voted for a General Retail Sales Tax. The truth is that I cast my vote against this Dallas Sponsored Sales Tax. THIS VOTE IS RECORDED AT PAGE 1852 IN THE OFFICIAL HOUSE JOURNAL.

The rest of my opponent's personal smear in his ad against members of my family was also misleading and distorted.

AS I HAVE SAID BEFORE I BELIEVE THAT MY OPPONENT IS A NICE YOUNG FELLOW. HE HAS, HOWEVER, BEEN VERY CARELESS AND NEGLIGENT IN NOT CHECKING THE INFORMATION WHICH LOBBYIST KIRKPATRICK HAS FURNISHED. I THINK LOBBYIST KIRKPATRICK HAS TAKEN ADVANTAGE OF MY YOUNG OPPONENT AND HAS MISLED HIM. THIS, TO ME, POINTS UP THE NEED FOR EXPERIENCE AND SOUND JUDGEMENT FOR LEGISLATIVE SERVICE IN ORDER TO STAY CLEAR OF ANY TRAPS WHICH MIGHT BE LAID BY UNSCRUPULOUS LOBBYISTS.

I hope that my 4 years experience can be of benefit to the people of District 88. I will sincerely appreciate your vote and support for State Representative.

(Pol. Adv.) — WILL EHRLE

Hall County Soil Conservation District News

OUR SOIL ★ OUR STRENGTH

Conservation Irrigation

Conservation irrigation is an important practice to the farmers in the Hall County Soil Conservation District. To get the most out of an irrigation system the farmer needs to know how much water to apply.

The frequency of irrigation is determined by soil texture, depth, and the rate that a certain type of plant uses water. The soil texture and depth together with the plant root development should govern the amount of water applied each irrigation. If the irrigation is not started at the proper time or if enough water is not applied, the crop may suffer for water before the field can be covered in one irrigation.

The design of an irrigation system is very important and should always be followed as closely as possible to get the best results. The system should never be run to put water on the soil faster than the intake rate of the soil. The system should be run long enough to put on the required amount of water. This may mean in some instances that it would be best to irrigate less land so that the field can be covered in the required time.

If any farmers in the Hall County Soil Conservation District would like assistance on the design of their irrigation system, they should contact the technicians of the Soil Conservation Service.

Mr. and Mrs. Don Springer attended the Easter Pageant in Lawton, Okla., Sunday.

Joe L. Garcia Participates in 'Quick Strike'

Army PFC Joe L. Garcia Jr., 19, son of Mr. and Mrs. Joe L. Garcia, Lakeview, Tex., has been participating with other personnel from the 101st Airborne Division in Exercise Quick Strike at Fort Campbell and Camp Breckenridge, Ky. The exercise ended April 16.

Quick Strike is designed to exercise further the division's on-the-mark readiness as one of the major units of the Strategic Army Corps. Helicopter river crossings, ground and sky raids and ranging patrols were conducted during the exercise.

Garcia, a heavy equipment operator in Headquarters Company of the division's 326th Engineer Battalion at Fort Campbell, entered the Army in May, 1959.

Morris Crump, student at Texas Tech in Lubbock, visited with his mother, Mrs. F. A. Finch, during the Easter holidays.

Joyce Hull, who has been attending West Texas State College in Canyon, was a visitor here during the weekend holidays.

Memphis Students Above Average At Texas U.

According to a letter received this week from W. B. Shipp, registrar and director of admissions at Texas University, Memphis students were above the average in grade point average for freshmen students at the university.

The average grade point for all freshmen students at the school was 1.265, the letter stated. The average for Memphis students was 1.375 grade points.

Memphis students have maintained an above average at the college for several years, Clinton Voyles, principal of the high school, stated.

"Mr. Shipp, in his letter, was very complimentary of the local students' record at the university, and we are proud of their record," Mr. Voyles added.

J. L. Poff visited with his parents, Mr. and Mrs. R. L. Poff, and family in Elk City, Okla., during the Easter holidays.

Ask The People Who Know Him

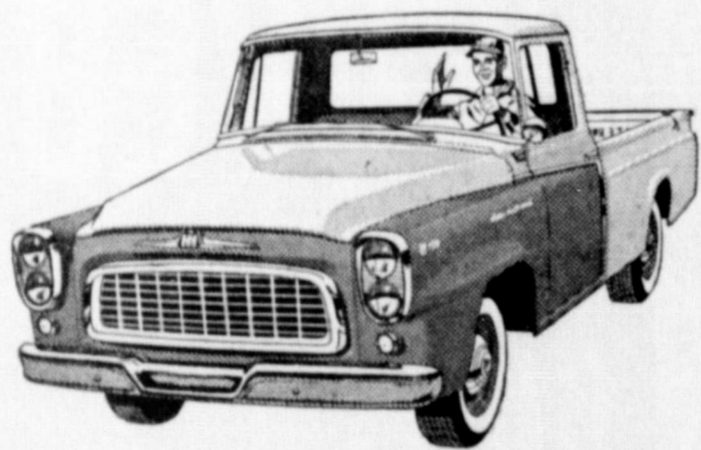

Elect Roy L. Taylor Your State Representative 88th District (Donley, Hall, Childress and Motley Counties)

"Asking for a chance to Serve You" Hardworking — Honest — Dependable — Qualified — Sincere

Pledge vs. Performance (From the official HOUSE JOURNAL)

The present representative, seeking a third term: says he "fights the battle against big business monopolies." LET'S LOOK AT THE RECORD — In the 1959 session he voted WITH the big gas pipeline companies right up to the last when he himself sponsored an amendment to levy a TOKEN TAX on the pipelines. Earlier he voted AGAINST all efforts to tax the natural gas pipelines and FOR sales tax proposals. (There is some doubt even as to the constitutionality of the gas pipeline tax.) says he "voted against a sales tax." The record shows that he voted against striking the Sales Tax provision from the General Revenue Bill. See House Journal: pages 104-107 (June 27, 1959), pages 311-313 (June 30, 1959), 133-134 (July 23). says he "voted for beer taxes." His record shows that he voted taxes OFF the breweries rather than ON. On May 8, 1959, he voted to suspend all the rules of the House to take up for consideration Senate Bill 170; a bill to reduce the license fees for the operation of a second brewery in the State of Texas. He voted to take money which was already on the books, off the big breweries. (Could his trip to Acapulco, Mexico, have anything to do with his WET vote.)

Editorial

Interest in Politics Increasing

With the Democratic primary election only 16 days away, interest in all political races is increasing at a rapid pace. This is as it should be, although more consideration should have been given to the merits of candidates several months ago.

The change in dates of the primaries, which came about last year, has caused reshuffling of the traditional party plans and programs. Voters will no longer spend much of their time during the hot days of summer "talking politics" as in the past years. They must make up their minds in Texas within the next few weeks, since the outcome of the first primary determines the winner of most races. Also, on May 7 the party's precinct conventions will be held.

At the precinct conventions, primary consideration will be given to the Johnson-for-President push. Most Democrats in their precinct conventions will endorse Senator Johnson; also the county conventions. No one expects that the movement will meet much opposition at the state convention, which will be held June 14.

In the maneuvering over the nation to name the Democratic candidate for the presidency, the tempo is picking up. Latest of many indications were the remarks of former President Harry Truman, whose words will always be debated but will receive much attention by party leaders.

In a United Press International release, datelined New York, the former president was quoted as breaking his long silence on presidential preferences. He said, "The Republican papers want Senator John F. Kennedy or Adlai Stevenson to get the nomination."

"But our party is going to nominate somebody who can win," he added. Truman then resumed his silence about his choice for the Democratic nomination.

Guesses about the former president's intentions will be flying for several weeks. One is that he thinks that Senator Johnson's chances for getting the nomination have improved, and that the Texan could be elected if he were nominated. Press reports last weekend credited him with gains in delegate strength, which is near the 400 mark.

He and his supporters have until July 11 (date of the national convention) to carry his candidacy into all 50 states. It is proving costly in money and man-hours, but his friends in Texas are coming through as they realize that time is running out.

More Money Than Thought

Brig. Gen. Bonner Fellers, (USA Ret.), one of the wartime aids who helped Gen. Douglas MacArthur plan and execute the victorious, island-hopping "return" from New Zealand to fallen Batann, told the House Foreign Affairs Committee the other day that there's plenty of money in the current defense budget, but it's being spent for too many of the wrong things.

Appearing as spokesman for the Citizens Foreign Aid Committee, a group that would cut our huge, ineffectual spending in this field. Gen. Fellers declared that \$10 billion of current military spending contributes nothing to modern defense and that the \$4.175 billion budgeted for foreign military and economic aid in fiscal 1961 will not improve American security.

In case of war our allies would accept neutrality rather than atomic extinction. Their five million troops and our overseas forces would be useless. Thus, we should cut the handouts in half at once and below the billion dollar mark in two years. Bringing our garrisons home would cut another billion to be spent where it would do more good.

Altogether, Gen Fellers estimated that \$18 billion could be salvaged from mis-application and devoted to more and better missiles, nuclear propulsion systems for missiles, more Polaris submarines, jet bombers, rocket engines, space craft and anti-missile missiles.

The Administration has said that nuclear war is "unthinkable." But here is one seasoned old soldier who is tough-minded enough to think it through. And we should assume that the Russians are thinking, too—real hard.

Business Good, Profits Shrink

It is a peculiar aspect of our economy that while business is booming, the profit margin has constantly nudged downward for most companies. It is getting like Alice in Wonderland—you have to run faster and faster to stay where you are.

To a lot of farmers, professional men, government workers, the business world appears to be one in which the businessman buys merchandise, tucks on a profit margin, sells the goods and makes a profit.

It is supposed to work that way, and does to some degree. In between the buying of the goods in the first place and selling it in the second place lies a lot of pitfalls.

You may have paid too much for it, your labor costs in getting rid of it may push the costs even higher, you may have to spend more than you figured in promoting the sale of it, and then you may have to sell it for less than you had figured. In between lies the federal tax collector who has already grabbed a bite of your merchandise a dozen or more times before you get it and who is standing ready to take a chunk of your profit at the end.

The only sure way to make a profit seems to be to get a government contract—one of those "cost plus" contracts that are still being passed out, probably under the guise of an "emergency."

But out in the harsh, competitive business world, the profit margins are shrinking. Manufacturers face foreign competition. Wholesalers face the direct manu-

facturer-retailer competition which bypasses them. Retailers have to sell their goods below "list price" in order to move them and thus cut their profits margin.

There is a lot of business being done. But the profit margin is thinner.

Substitute Crops

Search for substitute crops to take the place of maize in the high plains economy continues. Sesame, safflower, soybeans, vegetables, whatnot. Just what will be found to be the answer to the need is yet to be learned. One would guess a combination of some or all of these. What with the income of the farmer going down and his outlay going up in the search is somewhat hectic.

The Farm Subsidies

Dirt farmers are catching it from all sides about their subsidy farming. USDA is quoting in the billions and telling city people all the money they are paying in taxes to support the farm program. A person can let his blood pressure go down somewhat if he'd realize that the industries allied to agriculture were taken care of first in the various subsidy arrangements and that most of the billions for farm supports have been going to people who never dug in the soil and do not know a rotary hoe from a planter.

The 1957 International Naval Review at Hampton Roads, Va., was the first held in the United States waters in fifty years.

The USS Red Rover, captured from the Confederates, was converted into a hospital ship in 1862, and became the first U. S. Navy hospital ship on record.

The annual cost of tuberculosis in the United States is about \$750,000,000. Most of this cost is borne by the taxpayers.

ECONOMY PROVED IN MOBILGAS RUN!

CORVAIR BY CHEVROLET DRIVE IT! GET OUR DEAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. Fold-down rear seat gives 17.6 cu. ft. of extra storage space. Four-wheel independent suspension for a smoother, flatter ride. Rear-engine traction . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

Motor Vehicle Inspection Law Cuts Accidents

The Texas Motor Vehicle Inspection Law — in effect now just seven years — has reduced accidents caused by vehicle defects by nearly two-thirds.

Association of Texas Fire & Casualty Insurance Companies' studies of Department of Public Safety reports show that in 1952 vehicle defects were a cause of 16 per cent of fatal accidents. By 1958 — the latest year for which statistics are complete — the rate had been reduced to 6 per cent.

In one year — from 1953 to 1954 — vehicle defects as a cause of accidents dropped from a high rate of 18 per cent to a level of only 6 per cent and has remained at either 6 or 5 per cent each year since.

The reduction in non-fatal accidents caused by vehicle defects has also been substantial. The drop in the 1953 to 1954 period was from 18 to 8 per cent. Presently, DPS figures show vehicle defects as a cause in 10 per cent of non-fatal accidents.

In 1952 better than 1 out of 10 automobiles involved in a fatal accident had a defect contributing to the accident. Now, only 1 out of 20 automobiles involved in fatal accidents have contributing vehicle defects.

The inspection law was continued in force despite demands for repeal. The full effect of the law was shown in the drop in vehicle defect-caused accidents in 1954 — the year following the Legislature's decision to leave the law on the books.

Land Commissioner Candidate Visits Here Wednesday

Jerry Sadler, candidate for Commissioner of the General Land Office, visited in Memphis briefly Wednesday afternoon, and explained his beliefs regarding state-owned land.

Sadler, former Railroad Commissioner from Palestine and Anderson County, said that responsibility for control and management of state lands is now so divided that no one in authority knows precisely how much land is actually owned by the state.

In laying down key points of his program for overhauling the mixed-up responsibility and management of the state-owned land, he made the following comments:

"You can get estimates ranging anywhere from 8,000,000 to 9,000,000 acres. There is lots of land in Texas, but not enough for the state to be juggling the property of the taxpayers around without proper accountability."

Sadler outlined three main points of his program as follows:

1. Require all records pertaining to state-owned lands to be deposited with the General Land Office for verification, inventory, and survey where necessary.

2. Make the General Land Office responsible for a perpetual inventory of all state lands, showing the department or agency or controlling the lands, use and appraised valuations, and all other information necessary for a full and complete record of state-owned lands. Sufficient funds should be appropriated for the Land Office to keep this inventory completely up-to-date.

3. Make it one of the chief duties of the Commissioner of the General Land Office to report in detail every two years to the Legislature all changes in the inventory, including significant changes in land values.

"This program," said Sadler, "follows the recommendation of the Texas Legislative Council which were made to the Legislature late in 1958, after an exhaustive study of the state-owned land situation, and which never received much attention. This was due largely to the lack of aggressive leadership and counsel, which I feel should come from the General Land Office itself."

Cemetery Working Slated for Newlin

Citizens of the Newlin community this week announced that Monday, April 25, will be "Cemetery Working Day" there. All persons who have friends or relatives buried in the Newlin cemetery are invited to be present Monday Morning. Tools should be brought, which will be used to clean and work the yard.

Mr. and Mrs. Lewis Hamilton are serving as secretary and treasurer of the cemetery group.

Six Accidents Reported for Hall County in March

The Highway Patrol investigated six rural traffic accidents in Hall County during the month of March, according to Sergeant D. R. Dowdy of Lubbock.

The sergeant reported there were no injuries and no fatal accidents, but that the wrecks caused a total property damage of \$5,980.00. This brings the total for the year in Hall County to one killed, 10 injured and property damage of \$16,415.00.

The Highway Patrol supervisor pointed out that the motoring public can improve a traffic record by doing two things — drive defensively and always be alert.

"In driving defensively we help

the other driver to not only his life, but help him to save own lives," he concluded.

OUTDOORS IN TEXAS

Do your boat numbers yet? Under the new water safety act passed by the 1959 Legislature, all owners, with few exceptions, are required to number their boats. The deadline was March 1 of this year.

That date has passed, but if you are among those who forgot, you are in the majority.

Boat numbers may be obtained from the State Highway Department in Austin. Application forms may be obtained from almost any dealer in the state, or county tax office.

The state wants the name and address of the owner of the boat; its serial number, make, model, year built; its length; its construction (wood, plastic, etc.); whether it's an inboard or outboard motor; and whether it's diesel or gasoline powered, for what purpose it is being used (business or pleasure).

Application must be notarized, and forwarded to the Texas

Highway Department (40th and Jackson) in Austin — along with a money order or cashier's check covering the fee.

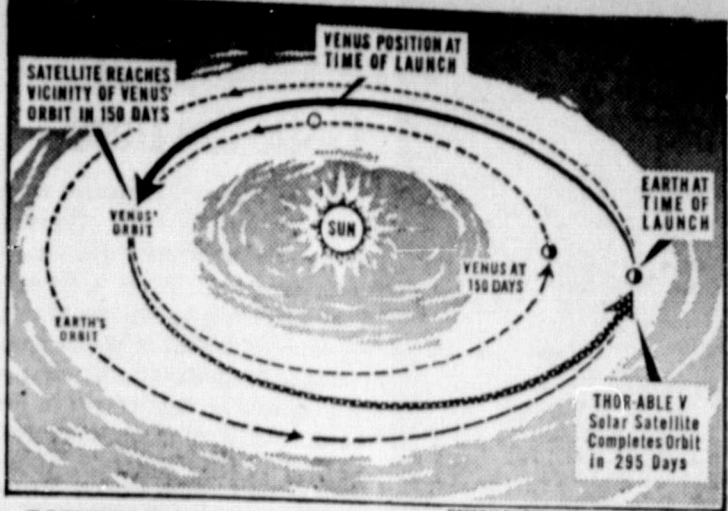

Fees are based on the length of the boat. For those under sixteen feet the fee is \$1; 16 to 26 feet, but not including 26 feet, \$5; 26 to 40 feet, \$10; 40 feet and over, \$12.50.

License is good for three years. Much beefing is heard over the instructions to pay by money order or cashier's check. This particularly from those who must pay only the \$1 fee. Result is that most boat owners are sending in a check or cash and such payment is being accepted.

Licensing plan is similar to that applied to your car, except that the state doesn't provide the numbers — or charge as much — and the number is permanently assigned.

When you sell your boat, or it is destroyed, or abandoned, you must notify the Highway Department, and surrender your certificate number. Each new owner then must send in his \$1 for renewal of application. Purchaser of the boat is given a reasonable time to make application for a transfer of number.

This feature of the act will help greatly in returning stolen boats to their rightful owners. Ownership records are public records. All you need is the boat's number to determine its owner's name. Any time you want the information the Highway Department is

required by the act to supply it. For this reason, boat owners must notify the Highway Department of any change of address from that filed with the application.

Your certificate must be kept on your person or on your boat. If you lose your certificate you may obtain a duplicate for \$1.

Within 90 days of the expiration of your license you must apply for a renewal. Boat numbers, however, will not be changed.

So much for licensing provisions. Now, about the safety features — the man purpose of the bill.

All motor boats 16 to 26 feet in length must have a white light aft, visible from all directions. Also a bow light, green on the starboard and red on the port side.

Motor boats 26 feet and longer must have a bright white light fore and aft as well as a green light on the starboard and a red light on the port side.

Sail boats under 40 feet in length must carry the red and green lantern, but not the white light. However, they are required to have a lantern or a flashlight aboard to be used in sufficient time to avert collision.

Every boat — regardless of size or make — shall have aboard one coast guard-approved life preserver, buoyant vest, ring buoy or buoyant cushion — for each person on board. And it is the owner's responsibility to see that such equipment is in his boat.

This, regardless of who is operating the vessel.

There are several exemptions to the numbering provisions. However, for the most part the only exemption for private boat owners is the one granted for boats powered by motors of 10 horsepower or less. You fellows don't need to be concerned one way or another — except for the safety requirements.

In your case the safety provisions applicable include a required life preserver for each occupant and a white light to exhibit between the hours of sunset and sunrise.

Under this new law, drinking boat drivers are subject to fines of from \$50 to \$500 and imprisonment up to six months, or both fine and imprisonment. Same applies to intoxicated skiers.

Boats towing skiers must be operated at a reasonable distance from persons and property so as not to endanger the life or property of another person. Fines for violations range from \$10 to \$50.

Who is to enforce the law? Any peace officer has the authority to make arrests and to board any vessel which does not have a proper identifying number or is being operated in a reckless manner.

He can issue you a "ticket" the

same as a highway patrolman.

If properly administered and enforced, this law could prove to be a very valuable piece of legislation — in the interest of greater and safer boating pleasure.

LETTERS TO THE EDITOR

Dear Sirs:

So many people have mentioned "Putting Memphis on the Map." I wonder if anyone has thought of the many hobbies and crafts done in this county.

If we could have a place to sell our crafts and hobbies in Memphis, on or near the highways, it might help do this. Someone might have an ideal location for this shop already, and something might be worked out to sell these items on a percentage basis, for each individual.

To name a few of these there

Wesley W. Breedlove, ship fitter third class, USN, son of Mr. and Mrs. Robert H. Breedlove of 1219 W. Noel St., Memphis, departed from Norfolk, Va., March 14, aboard the destroyer tender USS Tidewater for a five-month tour of duty with the U. S. Sixth Fleet in the Mediterranean.

A destroyer tender's mission is to maintain destroyers at their fullest capabilities.

are: leathercraft, copper craft, painted pictures, ceramics, crochet, knitting, tatting, flower making, sewing aprons, doll clothes, dolls, diaper bags, children's clothes, moulding things from plaster of Paris, building things of wood, and so many more.

If anyone is interested they could write their comments to this paper, so we could see how many are interested in selling their work. Or someone might have helpful suggestions to make on this subject.

So, let's get busy and help each other "Put Memphis on the Map." A meeting might be arranged to talk about this.

Thank you,

Tommy Bridges Finishes Basic Training March 29.

Marine Pvt. Tommy J. Bridges, son of Mr. and Mrs. Jess W. Bridges of Memphis, completed recruit training March 29 at the Marine Corps Recruit Depot, San Diego, Calif.

The 11-week course included instruction in all basic military subjects and infantry weapons.

Upon completion of training new Marines are assigned to a unit for further infantry training, or to one of the many Marine Corps schools.

Mrs. R. E. Clark returned home Friday from a 10-day visit with her son, John Clark and family in Dallas.

District Winner To Compete In Regional Meet at Lubbock Fri., Sat.

District winners from both the Memphis and Lakeview schools will be in Lubbock this weekend to compete for regional honors in the Interscholastic League Meet.

The regional contests open Friday and will continue through Saturday. The meet will be held on the Texas Tech campus.

Going from Memphis will be the members of the golf team, which is composed of Dick Morgan, Don Deaver, Charles Massey and Jimmy Winters. Dwight Gailey is the alternate.

George Stanley will represent the school in extemporaneous speaking.

To participate in tennis contests, Memphis will send both the girls and boys doubles teams. Sam Goodnight and Reggie Curry will play in the boys doubles event, and Perry Wright will be the alternate. The girls team includes Betty Gidden and Trilby Townsend.

Lakeview will send both the girls double and singles tennis entries to the meet. Winnie Nabers will compete in the singles, and Linda Campbell and Karen Clements in the doubles. They

Thespian Society To Present Four Plays Monday

The one-act play festival, sponsored each year by the Thespian Society composed of Memphis High School students, will be presented Monday evening, April 25, in the high school auditorium. The public is cordially invited to attend.

The Society has 52 members in the group this year and each student will take part in the production. Serving as master of ceremonies will be George Stanley, president of the Society.

The first play will be "Pajama Party" by Anne Coulter Martins. Its plot revolves about a group of girls who, at their pajama party, are frightened by the rumor that the "Blue Light Burglar" is in their neighborhood. Student director of the play is Jo Ann Stanley. The characters include: Sandy Redmond, a younger sister who is too young; Marceene Stephens; Ginny Redmond, the bossy older sister; Neva Koeniger; Mrs. Redmond, the understanding mother; Alice Young; Nan, Ginny's best friend; Carol Smith; Carla; Sara Jo Foxhall, and Becky; Betty Young, two more friends of Ginny; Mickey, the suspect; Jane Ward; Phyllis; Barbara Hancock, and Kelly; Paula Gentry, two more friends; Helen, a music student; Jo Ann Stanley.

The second play will be "A Question of Figures" by Esther E. Olson. The double interpretation of "figures" slants the dilemma of three roommates and their friends into a delightful comedy. Student director is Sue Pounds. Characters are: Frances; Sondra Stargel; Marion; Deeda Hickey; Edith; Teresa Beckham, three girls who share an apartment; Carol; Leslie Helm; Dorothy, Carleen Harrison, two helpful friends; and Joan; Helen Howard, the friend who believes in trial balance.

"If Girls Ask Boys for Dates" by Ann Coulter Martins is the third play of the program. The theme toys with the idea of the reversal of the dating situation; instead of boys asking girls for dates, girls ask the boys. Student director is Celia Leslie. People in the roles are George Smith, a boy who is getting ready for his first date, Robert Gardner; George's mother, Mrs. Smith, Elaine Snowdon; Harry, the sophisticated friend of George, Jerry Burnett; Kay, Priscilla Wright, and Nancy, Judith Evans, the two girl friends.

Closing the evening's entertainment will be the third place regional winner "A Sunny Morning" by Serafin and Joaquin Alvarez Quintero. The reading of poetry brings together lovers of a long time past. Jean Vallance carried the role of Dona Laura; Swayne McCauley that of Don Gonzalo; Joy Baten acts the part of Petra, the don's maid; and Ronnie Thompson is the valet of the don.

Archie Collins Is Manager of Co-Op Gin Here

Archie Collins was named manager of the Memphis Farmers Co-Op Gin here Saturday afternoon, according to an announcement yesterday by Roscoe Eller, president of the board of directors.

The new manager is no stranger here, having been reared in the county. He is also familiar with the ginning business, with several years of experience. In prior years he had worked for gins located at Newlin, Hedley, Lelia Lake and in Memphis. For the past nine years Collins has resided in Amarillo, where he has been operating a laundry and finishing business.

He took over active operation of the gin last Monday, and will move his family here within a few days.

The future plans of Odell Anthony, former manager of the gin, were not announced.

Local Winner To Enter Amarillo Spelling Bee Sat.

David Aronofsky, son of Dr. and Mrs. David Aronofsky, and student in the Travis Elementary School, will represent Hall County at the annual Spelling Bee, sponsored by the Amarillo Daily News, in Amarillo Saturday.

Accompanying Aronofsky will be his mother, Mrs. David Aronofsky and Miss Ethel Hillhouse, principal of Travis school.

Aronofsky won the title as Hall County's best speller after competition was completed here Mar. 15. In Amarillo he will be competing for the title of High Plains champion.

The High Plains champion will be sent to the National Spelling Bee in Washington, D. C., the week of June 6-11, 1960.

Aronofsky will be the guest of the Daily News at a luncheon in the Amarillo Club at 11:30 a. m. He is also the winner of the County Junior Spelling Bee, and will receive a trophy and silver pin before the television cameras during the Bee intermission.

Mrs. Estelle Barber had as her guests during the Easter holidays her daughter, Mrs. John P. Ward of Aspermont, and her sister, Mrs. W. B. Chapman of Grand Prairie.

Two Draw Terms In District Court

Two cases were disposed of here Monday when Judge Luther Gribble presided over District Court.

The probation of Harry Goundie was revoked and he will serve two years for the burglary of the Elmer Lacy store at Turkey. The judge revoked the probation after Goundie was convicted of carrying a concealed weapon in Cottle County. He was turned over to Lubbock officers to be tried on a burglary charge there.

Charles David Walker was sentenced to two years, in the second case tried, for the burglary of the Turkey School about 24 months ago.

Rotary Banquet Speaker Discusses Political Trends

Odie Clark, general manager of Mrs. Baird's Bakery in Abilene, was the guest speaker at the annual Rotary Club Ladies Night Program Tuesday evening.

The meeting was held in the Travis Cafeteria with the club president, John Fowler, presiding. A delicious meal consisting of steak, green beans and potatoes, salad, hot rolls, lemon pie and coffee was served buffet style.

Dwight Kinard introduced the guest speaker.

Making a comparison between the early-day outlaws such as Robin Hood and Jesse James to "Political outlaws" of today, Mr. Clark gave a most interesting address. He said that some politicians of today hide their greed to fill their own pockets with the pretense of helping the needy and the poor... such as Robin Hood of old.

"We must beware of the trend of modern day politicians who make appealing promises — but end up with their own pockets filled. Such an example today is Fidel Castro, who started out with a small following," he said.

Holding up a poll tax receipt, Mr. Clark pointed out that "this is our most valuable heritage... our right to exercise our voice in our government."

"You as a leader of your community must take it as a duty to vote for self-government. Political lethargy is a cancer that destroys from within. We must work for freedom; we must know what we want and go out and get it. Vote to protect your country from the Hatchet Men," he concluded.

Approximately 35 Rotarians, their wives and five guests were in attendance.
