Memphis, Estelline Telephone Nos. To Be Changed April 1

Memphis and Estelline telephone customers will be using a new numbering system beginning April 1, the date set for distribution of General Telephone Company of the Southwest's 1961 directory.

Known as the All Numerical Calling Plan (ANC), each telephone number will be composed of seven digits. R. L. Brewer, district manager, explained that the new system will replace the more familiar two letter-five number (2L5N) system inaugurated when the telephone industry launched its long-range program to permit operators and the customers to dial direct from one city to another.

The present Memphis prefix is Clifford 9. Under the new ANC

Only Nine Days Left To Purchase '61 License Plates

Only nine days are left to purchase 1961 Vehicle License plates, Mrs. Melissa Anderson, county tax assessor-collector, announced this week.

The deadline for purchasing plates is a week from Friday, she said.

Mrs. Anderson urged all citizens of the county who have not purchased 1961 plates to do so as soon as possible to help relieve the pressure during the last-minute rush.

Public Urged To See Estelline Easter Revue

A pre-school Easter Revue and Tom Thumb Wedding will be presented Friday evening, March 24

under the sponsorship of the Ophelia Club of Estelline. The event will be held in the high school auditorium beginning at 8 o'clock.

The public is urged to attend and support this worthwhile project. Half of the proceeds will be used for beautification of the City Square in Estelline, members announced. Admission is 60 cents for adults and 35 cents for students.

Introducing the program the high school girls will sing "Easter Parade" followed by the tiny tots in their Easter regalia.

Narrators will be Mrs. Jack Kinard and Mrs. Gerald Fowler.

Following the Easter Parade the fourth, fifth and sixth grades will sing "Peter Cottontail."

For the Tom Thumb Wedding, the ushers will be Doug Fowler and Terry Burk. The organist will be Mike Hughes. The bride will be Brenda Gresham, and Steve Pardue will be the groom.

The bride's parents will be Jan (Continued On Page Ten)

plan the "CL 9" will be replaced by "259." The present Estelline prefix of "Tulip 8" will be changed to "888." For instance, The Memphis Democrat number, which is now CL 9-2441, will become 259-2441.

"The old 2L5N system requires a prefix such as Porter or Cherry," Brewer stated, "however, because no words in the English language begin with the letter combinations WX or WY or JK or JL, telephone numbers beginning with 99 or 55 could not be utilized, thereby limiting number assignments."

Also in the April, 1961, directory will be the new ANC numbers for Lakeview subscribers. These numbers will become effective April 4, the date set for the cut-over to new equipment for Lakeview customers. At the present time Lakeview has dial service with three-digit numbers. The new Lakeview number will be "867-XXXX."

Brewer pointed out that all customers will be mailed new telephone number stickers to be attached to their telephones.

Brewer also stated that the equipment has arrived for the Extended Area Service for Memphis, Estelline and Lakeview customers. The completion date for the installation of the equipment is July 6, 1961. After that date customers will be able to dial numbers in any of the three towns without going through a long-distance operator and with no toll charges.

The Memphis High School Band will go to Borger Band Festival Friday, March 24.

TRUCK IN TROUBLE — Pictured above is the semi-trailer truck belonging to John Ray Cartwright, who listed his address as the Circle R Motel, Amarillo, which left Highway 287 and plunged into a deep ravine on the northeast side of the highway approximately 10 miles northwest of Memphis. The truck plunged between two guard posts, without hitting either, and skidded down the sharp incline around 9 p. m. Thursday night. The owner-driver John Ray Cartwright, was uninjured, and due to the difficulty presented by the steep embankment and muddy sod, wrecker crews were unable to remove the truck from the ravine until Tuesday afternoon. After four unsuccessful attempts by different wreckers resulting in broken winches, a 10-ton Mac diesel wrecker from Commercial Wrecker Service in Amarillo was able to bring the truck and trailer out of the deep ravine. The wrecker crew used a block-and-tackle network in recovering the truck.

Estelline Junior-Senior Banquet Is Held March 17 In Home Ec Building

The Estelline Junior-Senior banquet was held Friday, March 17, at 7 p. m. in the homemaking building.

The theme was "Under the Magnolia," and the building was beautifully decorated in keeping with this Southern theme. The napkins and programs had the decal of the Southern belle and her boy friends. Tables were covered with white cloths and streamers down the center, making them in colors of pink, yellow and green. At intervals, yellow candles were centered in pink magnolias. Above the tables were green arbors with pink magnolia blossoms. Double doors leading into the homemaking kitchen were also covered with the greenery and pink blossoms. Along the sides to the end of the building crepe paper resembling a rock wall was fashioned. The end of the building was decorated to resemble the front of a house with green grass, white picket fence and lawn furniture.

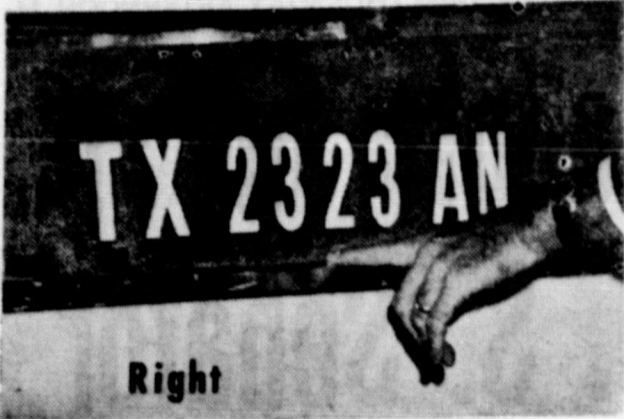

This was the setting for all the pictures of the Southern belles and gentlemen.

The menu consisted of mint julep and assorted nuts, barbecued ham, pineapple and cottage cheese salad, green beans, creamed potatoes, radish rosebuds, lime jello dessert and iced tea.

Master of ceremonies was Rolfe Wooten. Paula Knox welcomed the seniors. Mike Davidson gave the senior response. Noel Long read the Class Will. Jo Beth Barnes read the Class Prophecy. Speaker was John Forbis of Childress who used as his theme, "Make Everything You Do in Life Happiness."

The sophomore girls served the meal. The Prom was held afterwards in the Community House in Childress, sponsored by the Junior mothers.

Those attending were: Seniors, Paul Corona, Jerry Stephens, Noel Long, Mike Davidson, James Pepper, Burl Bumpus, Bobby Ward, Albert Ward, Bud Teas, Bea

Sugar Story

The mysterious and complicated activities that have surrounded the sugar industry in this country for a number of years will probably be shrouded in mystery at least temporarily. It is a matter for the people of this country to understand the background of the double talk and in instances misrepresentation that seems to accompany any attempt to uncover information about sugar operations in this country. It is high time for a complete and full scale investigation of what is going on in the sugar business, and I intend to do this at the highest possible level best to find out. Those who have tried to work to make this country more self-sufficient in its sugar production have tried to do the matter on a reasonable, sensible and non-controversial basis. However, we have been met with a total disregard for the wishes of American people, and especially farmers who are and have been affected by this problem.

On July 5, 1960, the last day of the long session of Congress, a bill extending the term of the existing Sugar Act was being considered by the House. The Act would have expired on December 31, 1960, at which time Congress would not be in session. Hence, it was necessary to pass permanent legislation before Congress adjourned or the Act so that there would be no interruption of the sugar program in 1960 or in 1961 to pass legislation. The fight was because of several issues, the fact that under the present Sugar Act for an additional 21

months This is not in keeping with the promise made on July 5, 1959, to the American farmer and the American people. And I would point out further that consideration given this Bill has been behind closed doors and not in accordance with the understanding of a number of Members of the Congress that they would be afforded an opportunity to be heard. The only person who was permitted to testify on the subject was the Secretary of State, Dean Rusk. The Bill is being brought before the Congress (and, incidentally, will have been before the Congress before many of you re-

ceive this newsletter) under a proceeding which prohibits any amendments and limits debate to 40 minutes. Even the Rules Committee has been circumvented.

The extension of the Act for 21 months means this—the Cuban quota of approximately three million tons of raw sugar, if not purchased from Cuba, must be purchased from foreign nations. In other words, the American farmer is denied the right to participate in any portion of the quota which is taken away from Cuba. It will go as a windfall to other foreign nations, many of them Latin American nations. We are all interested in helping Latin America, but the President has only recently indicated a request for \$600 million for that purpose. How can the taxpayers of this country assume a burden of that kind if they are to be denied the right to produce products necessary to provide for their own subsistence? One-fourth of the Cuban quota assigned to domestic producers who must carry the tax load would go a long way toward solving three problems. One, it would help the economic situation in areas that can grow sugar beets. Two, it would permit the planting of sugar beets, a non-surplus crop, and thereby reduce surplus crops. Three, it would help to stem the outflow of gold from this country. And, I might add, that would not hurt our foreign relations, because the foreign countries would not lose any tonnage. In fact, they would be gaining the remaining 75 per cent of the Cuban quota. But it appears that those interests who have gained control of the sugar business are so overcome by their own greed that they are willing to risk anything to prevent additional domestic production of sugar or permit the people to be heard on the subject.

If this present proposed extension is jammed through the Congress, I would say to those responsible that it would be well to remember the old Indian saying: "If you fool me once, it's your fault. But if you fool me twice, it's mine."

Bustin' out at the seams!

The WTU service area is growing fast and the facts prove it. Personal income, retail sales, value added by manufacture, bank deposits, savings, construction and other growth factors all are on the way up.

This company's own record of growth in the past decade is further evidence. Our KWH sales have increased 154 per cent, and our generating capability has increased 212 per cent.

Notice that our capacity to serve has increased even faster than our sales. That is because we are working hard to stay ahead of area growth — to have facilities available to serve more people, businesses and industries as they come.

Such an objective is back of our current multi-million-dollar expansion program. One example of it is the new generating station under construction at Oak Creek Lake. When completed it will provide in the very beginning an additional 75,000 kilowatts to our system.

Such long-range expansion plans and the cost figures are significant for one very simple reason. They stand as living testimony to our faith in the future of this area — as evidence of our belief in GROWTH UNLIMITED.

40 Days . . . and Around the World!

Mrs. George Greenhaw Gives Highlights Of Exciting Tour

By MRS. GEORGE GREENHAW (Editor's Note: Mrs. George Greenhaw returned last week after enjoying a 40-day tour around the world. In the following article she relates some of the highlights of her trip.)

Reminiscing over my experiences of my recent tour around the world, I think of no more fitting words to begin with than "America, America The Beautiful."

Our first stop after leaving Los Angeles, Calif., was Honolulu, each island a flower garden. While there we visited the National Memorial Cemetery of the Pacific which contains the remains of an estimated 1300 World War II dead, more than any other national cemetery in the world.

Our flight from Honolulu to Tokyo was at night stopping only for fuel on Wake Island. We enjoyed Tokyo but with its nine million people we found it a little

crowded, service super and delicious food.

We left Tokyo for a full day's excursion to Nikko traveling by train and bus to reach Nikko. Sight seeing included the Keyon waterfalls where an elevator proceeds down to the bottom of a gorge for a magnificent view of the water coming down from a height of 350 feet.

From there to Meyanoshita via Lake Hakone and the ten Province Pass to Atami. From there we traveled by train to Kyoto where we visited the Old Imperial Palace and other shrines.

In Nara, we saw the Honshi Temple, the oldest wooden structure in the world. The superb Nara Park where roam the famous Nara deer, the red lacquered Kasuga Shrine with 2000 stone lanterns and 1000 hanging metal lanterns, the great Image of Buddha and the great Bell of Todaiji Temple.

In the evening, our last night in Japan, we enjoyed a special Sukiyaki dinner given in our honor at a Japanese restaurant.

From Tokyo we flew via Japan airlines to Hong Kong. We found Hong Kong a beautiful island. Our hotel, the Peninsula, was on Kow-

loon Island. We crossed the bay by ferry boat to Hong Kong Island, to the Peak train station. thence by cable car to Victoria Peak where we had a magnificent view of the Islands.

Since it was Easter in Hong Kong, and for that week only, those who had loved ones in Red China, which was only two miles away, were allowed to cross the border carrying as much as 70 pounds of food and supplies to their relatives. Each morning we could see from our dining room window, long lines of people with their supplies waiting to catch the train. Many had stood in line all night to hold their places.

After spending four days in Hong Kong, we flew via British European Airways to Singapore, Malaya. It was warm in Singapore. We came out of our winter clothes. We found Singapore a very modern Island, one and one-half million people and one-half of the population under 21 years of age.

A baby is born every seven seconds, 200 babies a day. They are a happy people, clean and very well fed. We drove over to Johore, another island, crossed a mile-long bridge, the Indian Ocean on one side, and the East China Sea on the other. There we visited a rubber tree farm, the Sul-

tan's Palace and the largest mosque cathedral in the world. It is very beautiful but only the men are allowed to enter this temple which has no seats. We made pictures of the building in which the British signed the treaty of Japan. It's now occupied by Ford Motor Co., a small world after all.

We left Singapore via Thai Airways flying into Bangkok. Thailand was the first flat country we had seen. Looked very much like our Plains country. Met our friendliest people there. Our tour down the Chao Phya River and its canals by motor boat, cruising through the floating markets and boat houses and its picturesque scenes of native canal life, royal barges, Temple of Dawn, one of Thailand's famous landmarks was one of the highlights of our entire trip.

We visited Grand Palace, attended a performance of Thai style boxing, an exciting sport seen only in Thailand.

We left Bangkok by Thai Airways changing at Calcutta, then via Indian Airways to Delhi, India. We spent three days in Delhi then traveled by motor coach to Agra, a distance of 125 miles. Here we saw the great Taj Mahal, one of the wonders of the world.

From Agra we flew to Bombay, were there three days. When we disembarked the airport was beautifully decorated and the red carpet rolled out. We were delighted that we were given such a warm welcome, but to our sad disappointment, the Queen of England was soon to arrive. Several of her party were at our hotel, the Nataray. We saw her on two occasions. We waved to her from our balcony and to think I've never seen one of our presidents. From our hotel balcony in Bombay we watched the beautiful sunset across the Arabian Sea. Next morning after a flight of 2500 miles we watched the sunrise in Beirut, Lebanon, from our hotel window across the Mediterranean Sea.

Beirut, the Gateway to Asia, stands at a wonderful crossroads of continents and civilization. From the sea Beirut is an unforgettable sight rising like an amphitheatre on the northern slope of a vast promontory and backed by the Lebanon Range.

Our tour of Beirut included the American University of Beirut, national museum, a drive to Nahr El Kelb (Dog River), the stra-

March 26-April 1 To Be Observed As PCA Week

The Memphis Credit Association, serving this area for nearly three decades, will be saluted, along with the 35 other PCAs of Texas, with a special week, March 26-April 1.

The week has been designated as Production Credit Association Week in Texas in a proclamation by Gov. Price Daniel. In addition to statewide recognition, local honors will also be paid the Memphis PCA, which, as a home-owned and operated agricultural credit organization, has joined the other 35 PCAs to provide \$3 billion to Texas farmers, ranchers and dairymen since their organization in 1933.

The Memphis PCA, chartered under the Farm Credit Act of 1933, serves an area composed of Donley, Collingsworth, Hall, Childress, Motley, Cottle, Hardeman, Foard and eastern Briscoe coun-

ties. The central office is in Memphis. Field offices are operated in Wellington, Matador and Paducah.

tegic pass lined with scores of ancient and modern inscriptions. A full day excursion to Balbeck where we visited the Roman Temple and the Spring.

From Beirut, we flew to Cairo, Egypt. From the Nile Hilton Hotel which is located on the Nile River, we had a magnificent view of the city, the Pyramids in the distance. Our excursion to the Pyramids of Ghizeh, camel ride to the new excavations, the sphinx, the granite Temple and the three Pyramids of Cheops, Kaphren and Mikeriniro was very exciting.

Heiner Ludemann Speaks To Pathfinders

Pathfinder's Council met at the home of Mrs. W. F. McElreath, 1514 W. Brice, on Feb. 20 at 8:00 p. m. Mrs. W. F. McElreath presided over the short session. Heiner Ludemann, speaker, Heiner Ludemann, high school foreign exchange student, was introduced by John Smith, program chairman. Heiner contrasted life in this country to life in Germany. He said that in Germany the average is one car per seven persons, while in this country the average is one car per three people. However, the German youth weren't different from American youth in that they had parties and dances similar to those in the United States. He stated that he comes from three generations of teachers. When he returns home, he wants to be influential in leading his people to

Christianity. He told of the dangerous places he and his family had been, and spoke of his mother and homeland with the greatest of respect. He said that he liked America but wanted to return to Germany to make his home.

Delicious refreshments were served to guests, Meses. L. B. Madden, D. B. Kennedy, Bobbie Dick Hutcherson, Paul Morris, W. D. Young, Edd Hutcherson, Ivan McElreath, Guy Smith, and Bess Crump; members, Meses. J. J. McDaniel, Gene Chamberlain, Anna Dickson, M. D. Gunstream, Ernest Lee, D. C. Messick, J. R. Mitchell, W. F. NOTICE

To Voters of The Memphis Independent School District

As friends, and being qualified voters, we announce the candidacy of Charles Snowdon, Robert Moss, and Alvin Phillips to the Board of Trustees of the Memphis Independent School District.

We appeal to the sense of fair play of the citizens of the District, our appeal having been brought about by an unfortunate incident in connection with the filing of our candidates for election to the Board.

Well in advance of the deadline for filing, our candidates gave to us their permission to petition that their names be placed on the ballot. Through a misunderstanding of the election law of Texas, our petitions were filed with the County Judge, instead of the Board of Trustees of the School District. The error was not discovered until after the deadline for filing, and under the Texas election laws our names could not legally be placed on the ballot.

We believe that all concerned acted in good faith, and that there was no malice on the part of anyone in the mistakes that were made. We hold no ill will whatever.

However, since our candidates had agreed to seek election at our request, and thought that their petitions had been legally filed, we now appeal to the qualified voters of the district to support them, just as though their names were on the ballot.

This can only be done by writing in their names. We use this means of soliciting your support. Your write-in vote will be appreciated.

Here are the reasons we have asked our friends to seek election to this important job:

Each of them has children. They offer their services to the community as a public duty.

They are not running against something, but FOR better schools and better educational opportunities for our children. It is not their desire to disrupt our system, but to build it up.

They believe that if the people of this school district will unite solidly behind our school system, it can offer better and improved facilities — a better educational future for our children.

Each of them will appreciate your vote and influence.

President Kennedy's Farm Program

President J. F. Kennedy presented a 6,800-word message to Congress last Thursday in which he proposed a write-yourself program for American farmers.

Under the proposed plan, farmers themselves would be authorized to draft and adopt, subject to congressional veto, a sweeping new series of crop-by-crop farm marketing control programs to cut surpluses and boost farm income.

President Kennedy is hopeful that the plan will be able to lift farmers' income to equality with the income of city dwellers.

The President, in the message stated that the farm problem could not be solved "in a day or in a year, or perhaps even in this administration." But he said his proposal would eventually cut the tax cost of the farm program by reducing farm surpluses, and would "gradually reverse" the decline in farm income.

The alternative to boosting farm income, he said, is a "substandard rural economy (and) a weakened nation." He promised consumers the proposed new plans would assure them "stable" price levels.

The message from the President explained that the vexing problem of overproduction needs a commodity-by-commodity approach which would be worked out by farmer groups in consultation with the Secretary of Agriculture, and then submitted to Congress for a final review. The legislators thus would retain a veto power over individual programs.

A Washington news release Friday, following the President's message stated that leaders of two of the nation's largest farm organizations and most Democratic congressmen praised President Kennedy's plan to let farmers write their own ticket. Heads of the National Grange and the National Farmers' Union both endorsed the plan. Republican Senate Leader Everett M. Dirksen said the plan was a "do it yourself kit for every farm commodity. It looks a little to me like the fruit of frustration."

The commodity-by-commodity plan should help in the cutting of the huge surplus, since the program is planning to deal in bushels and bales instead of acres.

In the President's message to Congress Kennedy stated "I am deeply concerned—and I believe the Congress shares that concern, along with most of our consumers, taxpayers and the farmers themselves, that our farm program is drifting into a chaotic state, piling up surpluses, penalizing efficiency, rewarding inertia and noncompliance, and constantly being torn and weakened by disputes and conflicting pressures."

The President also pointed out that farmer incomes are lower relative to the rest of the population than at any time since the 1930's.

The conflicting pressures, the President referred to, must be those on the one hand who desire that the surpluses be reduced, while on the other hand there are those who do not want the surpluses reduced due to the nature of the business they are in.

Here in Hall County, the President's statement that farmers' incomes are at the 1930's levels, explains much of our declining economy.

President Kennedy added: "this is not a situation that can be ended by any one sweeping act of magic. It will require diligent study, hard work, imaginative initiative and sound constructive leadership. But I believe that the decline in farm income and the drift in farm policy can both be reversed by the program I recommend."

We hope the President is successful.

Let's End This Long Neglect

When one thinks about the early history of Texas, three major events promptly come to mind.

It all started at Washington-on-the-Brazos when 59 brave men signed a declaration of independence from Old Mexico and set up a new nation known as the Republic of Texas. Then followed quickly the fall of the Alamo and the shocking massacre at Goliad which all but ended the new nation before it could get under way. And finally there was the glorious victory at San Jacinto which won the independence so eloquently proclaimed at Old Washington and made possible the freedom Texans enjoyed in subsequent years.

Yes, all three were major events in the story of Texas. All three will be remembered as long as men value courage, self-sacrifice, and the love of liberty. The spots where these events took place should be shrines of almost holy veneration on the part of every Texan, and should be marked in such a way that their memory will remain alive forever.

The Alamo has been restored. It is in good hands. It is fittingly a shrine held in reverence by good men everywhere.

The San Jacinto Battleground has been marked with a magnificent monument to the courage of those who fought in this historic spot.

But Old Washington alone stands neglected. There is little there to show the gratitude of a great state for the sacrifices made by that little group of patriotic men who wrote and signed a document that ranks second only to that other Declaration proclaimed at Philadelphia to set fourth human rights.

The Signers of the Declaration of Texas Independence need not be ignored longer.

There is pending in the legislature at this time a constitutional amendment which would provide the funds for a shrine at Old Washington—and at the same time finance development of all Texas state parks to a point that we can be proud of them.

This amendment would add one dollar to the cost of the annual license plate for each automobile registered in the state. Anyone, we think, would be willing to contribute one dollar a year to see our heroes of early Texas honored and our state parks improved to the point where we can all enjoy them, and where tourists from afar will come to Texas to enjoy them, too.

We hope Representative Will Ehrle and Senator Andy Rogers will vote to submit this measure to a vote of the people so that early action can be taken to overcome the neglect of past years.

ANOTHER SATURDAY MORNING LECTURE

ACROSS the DESK

What Other Editors Say

Cong. Jim Wright

Ed Eakin in the Quanaq Tribune-Chief: Jim Wright of Fort Worth, the most active and enthusiastic of the more than 70 candidates for the U. S. Senate, has gained a lot of popular support recently.

Recently the Chief said he would not vote for Wright because of his endorsement by some of the liberal press. Usually this would indicate a candidate has extreme radical and socialist views. Apparently in Wright's case this is not true.

Jim Wright will probably come closer to representing a cross-section of Texas voters than any other candidate. Unfortunately we do not have his voting in Congress; but perhaps Clyde Hulgens or some of Wright's other local workers could supply the information.

Last week some 40 Fort Worth newsmen personally endorsed Wright. To our knowledge this is the first time that many representatives of competitive media have put their stamp of approval on any one candidate. His home district is solidly behind him.

This can't be said for any other candidate.

Strange Bedfellows!

Politics does, indeed, make strange bedfellows . . . but prejudice makes stranger ones.

Having common prejudices, unfortunately, seems to draw people closer together than having common enthusiasms. That may turn out to be one of the gravest dangers facing our free society today.

We as a nation, for example are pretty well united in our ardent opposition to Communism. It's too bad that we don't work as hard at being pro-American.

Maybe it's an inescapable trait of human nature that we put more energy into our hatreds than we do into our enthusiasms.

In our haste to be counted "against" everything Communistic, we're inclined to fall into the trap of believing that everyone . . . and every organization . . . that stands against Communism is, therefore, good and deserving of our support.

This line of thinking has led many conscientious Americans into strange company.

Adolf Hitler was one of the world's foremost anti-Communists.

Gerald L. K. Smith, who once had great admiration for Adolf Hitler and his National Socialists; was, and is, ardently anti-Communist. His National Christian Crusade is incidentally anti-Com-

munist, but it is also, and primarily, anti-Jewish and anti-Catholic. The Citizens Councils, that federation of southern white supremacists groups, is also incidentally anti-Communist, but primarily anti-Negro. A hundred other anti-Communist action groups, all of them exploiting prejudices against some minority or other, or against some political idea or other, have sprung into existence. In their common enthusiastic condemnation of Communism, they exchange literature and leadership. Thus the anti-Negro elements unite with the anti-Jewish forces, the anti-Catholics with the anti-Laborites . . . all in the name of anti-Communism . . . and the rank and file members, who affiliated with one anti-Communist group or another because of an appeal to their personal or private prejudices, find themselves aligned against all sorts

of things which they didn't realize they were against at all.

For example, the Citizens Council publication, in its February issue, credits "the John Birch Society, anti-Communist group" with launching the drive to impeach Earl Warren . . . a drive which another anti-Communist action group, the Council for Individual Freedom, has enthusiastically taken over. All of them apparently, drew on material published and supplied by Gerald L. K. Smith's National Christian Crusade, which is anti-everything.

And the Citizens Council people hail the impeachment drive as a great move to put the Negro back in his place . . . the John Birch people are certain it is striking a blow at the Communists . . . the Council for Freedom group seems to see it as a move to restore the civil rights of white Americans . . . and Gerald Smith evidently just doesn't like Earl Warren.

It must be awfully confusing to remember to be against so many things all at once. Wouldn't it be a lot simpler, and more sensible, just to be "for" this battered old republic of ours, and all that it stands for?

MINUTE MEDITATION

The Christian life is a life of sacrifice and service. Those who neither sacrifice nor serve are Christians in name only.

The Bible teaches us that one must first give himself to the Lord, and then his offering is acceptable if it is according to his prosperity.

The Macedonians "first gave their own selves to the Lord" (2 Cor. 8:5).

Even though they were in deep poverty, they gave with great liberality which was thought to be beyond their power (2 Cor. 8:2,3).

God has said, "Every man shall give as he is able, according to the blessings of the Lord thy God which he hath given thee" (Deut. 16:16,17).

God has set us the example first of his own giving:

- God gave us the earth Gen. 1:28
- God gave us seed Gen. 1:29
- God gives the rain Mat. 5:45
- God gives you life Ac. 17:25
- God can give health Je. 30:17
- God gives strength Ps. 144:1

"What shall I render to the Lord for all his benefits toward me?"

The Bloomer's News

The first Easter lily bulb was brought to America from Japan around 1875. It has stood for purity all through the years and is symbolic of Easter all over the world. We have the finest crop of lily plants I've ever seen and now is the time to place your order for Easter delivery. You will want to complement that Easter outfit with a lovely corsage too and we can serve you better if you will place your order early. If you want to send Easter flowers out of town, you can do so without any extra transmission charge by placing your order by Tuesday, March 28th. After that, we will have to phone the order to be sure of delivery by Easter. We dug and divided our dahlia bulbs this week and have a limited supply of choice bulbs. We still have plenty of canna, glad and caladium bulbs. Our "Improved Porter" and Red Cloud tomato plants are ready now. We received a shipment of new medium sized rubber plants this week.

The ladies of the Atalantean Club (and some of the husbands) are to be highly complimented on the Style Show. I would say it was a WOW. Lots of quality, class and style was displayed. We believe some of the answer to continued good business in Memphis is for we merchants to offer quality merchandise at reasonable prices and to be able to say "Yes" to this question, "Would I buy from Me." The Ladies are striving to do these things. The Style Show also points up the fact AGAIN that Memphis needs a larger place for such functions. The attendance had to be limited.

Speaking of quality, so far as we know, our customers have experienced 100 per cent satisfaction with the "Weed Bars" we are selling. We believe this is the most satisfactory weed killer on the market. Lots of lawns need this and we still have plenty of them in stock. The same thing is true of PAX.

Some say we need a universal language. I say we have one. Flowers and a sincere smile speak the same language all over the world and it's always a good language, never anything mean or ugly.
