level in Pampa of the Texas  
Association of Women's Clubs. Her  
award was based on her civic  
work, church and club ac-  
tivities in Wellington. Knowing  
Mrs. Coleman's activities in  
the city—especially for the  
safety building there—it  
is no wonder why some wo-  
men in Memphis don't get civic  
enough to initiate a Mem-  
phis-wide movement to  
secure a community build-  
ing. The Lions Club's  
plan to provide a community  
building for Memphis two years  
ago. Perhaps the women of  
the city could do a better sell-  
ing job. Also, perhaps Memphis  
could have a better and more  
modern city hall, and a move  
to a city hall with an au-  
ditorium might not be out of place.  
Just a feeler—any takers?

The order also authorized County  
Judge Tracy L. Davis, who is  
the official representative of Hall  
County, to accept that amount on  
the project. The order was passed  
following a discussion with Legal  
Advisor Paul Spillman.

The Commissioners canvassed  
the Special Election returns from  
last Tuesday's election and found  
no errors. Following this they can-  
vassed the County School Trustee  
tallies, and announced that  
Brown Smith was elected trustee-  
at-large.

An order was passed by the  
court which specified the purchas-  
ing of right-of-way by Precinct  
No. 3 (Estelline) on the widening  
of Highway 86 from Hulver west.  
Commissioner O. R. Lambert ex-  
plained that the road bed would  
be raised five feet in spots, and  
bridges would be installed near  
Hulver.

The Court set the time and  
date for them to sit as a board  
of equalization, this being from  
1 to 2 p. m. Monday, May 8, in  
the Commissioners Courtroom.

It was also ordered by the  
court that the Special Road Tax  
be increased to 15 cents. On May  
27, 1960, the Court had passed an  
order reducing this road tax from  
15 cents to 10 cents, it was point-  
ed out.

The commissioners discussed  
the requests the petition listed,  
and also discussed repairs needed  
on the roof of the courthouse  
building. The Court will deter-  
mine the extent of the repairs need-  
ed, before taking action.

**REGIONAL ENTRIES**— Pictured above are the Memphis High School track boys who will enter Regional Competition April 20-21 in Lubbock. From left to right are Wayne Lesley, Jacky Bridges, Garland Moore, Bunky Adcock, Larry Craig and Eddie Jones. Lesley, Moore, Craig and Jones compose the 440-yard sprint relay team while Bridges will go to regional competition in the pole vault and Adcock in the high jump. At Amarillo last weekend, Larry Craig took second place in the 100 yard dash and was the only Memphis entry to place at the Meet.

## Commissioners Accept \$102,082 From OCDM In Disaster Relief

At the regular monthly meeting of the Commissioners Court Monday morning, the commissioners accepted the Office of Civil and Defense Mobilization final report. The report listed the sum of \$102,082.00 on the disaster project, No. 2E 875-5-60, for Hall County.

The order also authorized County Judge Tracy L. Davis, who is the official representative of Hall County, to accept that amount on the project. The order was passed following a discussion with Legal Advisor Paul Spillman.

## County To Have 683 Farms In New Feed Grain Program

### Committees Named For Annual Lions Club Park Opener To Be Held May 16

The Memphis Lions Club, which sponsors the Annual Park Opener event, set the date and named committees.

The annual park opener will be held on Tuesday evening, May 16, beginning at 7 p. m. Joyce Webster, general chairman of the committees for the opener, announced.

Roy Brewer has been named by the club as vice chairman of the annual event.

Other committees include: ticket sales promotion, Jack Norman, chairman, Bill Batan, vice chairman, Lynn McKown, Dr. Jack Rose and J. Claude Wells.

Program and prizes: Clyde Lew Smith, chairman, Pete Shankle, J. M. Ferrel, Carl Yancey, O. M. Cosby, Jr., Robert Spicer, Adrian Combs, Cliff Farmer.

Grounds and barbecue pit preparation: J. W. Coppedge, chairman, Elmont Branigan, Jim Matthews, Gene Lindsey, and W. A. Smithee.

Drinks and concessions: Bill Hall, chairman, Les Sims, Gerald Smith, Ted Myers, Homer Tribble.

Food selection: Herb Curry, chairman, Roy Coleman, Herman Vallance, Orville Goodpasture, Joe Williams, Holmes Posey.

Cook committee: Bill Leslie, chairman, Ace Gailey, vice chairman, O. R. Saye, vice chairman, Homer Tucker, Herschel Combs, M. C. Allen, Buster Helm, Bob Ayers, Kenneth Dale, James Van Pelt, Billy Ray Jones, Dr. D. H. Aronofsky, H. J. Howell, Dr. H. R. Stevenson, Dick Fowler, Doyle Fowler, W. B. Wilson, and John Shadid.

Wood supply: Charley Cape. The Lions Club is planning to add a wing onto the barbecue hut at the City Park before the Annual Park Opener, it was announced.

The club's treasurer released a financial report from the club showing expenditures during the past 10 months. These included: Boy Scouts, \$373.85; Girl Scouts, \$25; Memphis Little League Baseball, \$150; Kerrville Crippled Children's Camp support, \$249.34; Eye care, \$42.50; International public relations \$115 for Heiner Ludemann; and paint for park tables, \$100.

The club is at present selling tickets for the annual event at \$1 each. Jack Norman is chairman of the ticket selling committee.

This is a voluntary program designed to stop the buildup of the feed grain supply which has reached a record total of 244 million tons. This surplus is costing millions of dollars in storage to the tax payers," McKown said.

The 20 per cent reduction requested in the average base acreage of corn and grain sorghum will save \$500,000,000 in storage cost for the American tax payer, it is estimated.

Farmers who cooperate in the new feed grain program will receive a 28 per cent increase in price support on their normal yield of their permitted acreage for 1961. In addition they will receive an average payment of \$12.90 per acre for the first 20 per cent and \$15.50 for the second 20 per cent. They also will be assisting to reduce a surplus which can only further depress

### Federal Tax Changes — 1961, 1962

As the deadline for Federal Income Tax nears—three days left—almost every citizen in this area has taken a renewed interest in the high taxes they are paying.

In Washington, a survey recently of tax authorities in key positions revealed what Congress has in mind this year and next to raise money. It was almost unanimous opinion of these men that through 1961, higher taxes for almost everybody are just about certain, however, in 1962, tax cuts for many are possible, the report revealed.

It has been the opinion of many economists that high taxes has been the cause of stunting business growth. During the time of high unemployment, a plan for broad tax relief is likely to be offered by the Kennedy Administration. This could be expected during a balanced or surplus budget year.

The granting of a general tax relief will not come during 1961 but it is possible in 1962. A raise in social security tax is almost a certainty in 1961 and is also a strong probability in 1962.

It is unlikely that the gasoline tax will be raised in 1961 or 1962, however it is probable that an increase in tax will be passed on tires, heavy trucks, etc. It is likely that Congress will offer incentive for business investments in 1961. It is also probable that Congress will wipe out 4 per cent credit on dividends, withhold tax on dividends, withhold tax on interest, and tighten up on co-operatives.

It is possible in 1962 that Congress will reduce "depletion" allowances and tighten rules on capital gains. It is likely this year that Congress will change rules on trusts and estates.

It doesn't seem likely, according to the report, that Congress will completely rewrite the tax system in 1961. However, in 1962 it is possible with modifications that Congress will approve a "package" plan to: cut rates sharply; wipe out personal deductions for interest and many other expenses; end income splitting, retirement-income credit; tax sick-leave pay and municipal-bond interest.

One tax authority in Congress stated, "We're certainly not going to take these drastic steps if it means shifting the tax load from the rich to the poor, or from the poor to the rich."

### Seat Belts Lower Injuries

The American Medical Association News reports on a New York State study showing that injuries and deaths were 60 per cent lower in 400 accidents involving people using seat belts than in 400 similar accidents where seat belts were not used. And the U. S. Forest Service says that seat belts have saved at least 100 of its employees from death or serious injury.

### It's A Buyer's Market

Financial columnist Sylvia Porter writes: "... our economy has entered the toughest, roughest, phase of competition in modern times—and in this era the businessman who doesn't recognize what he is facing or know how to fight competition successfully is going under. He can't bail himself out by price hikes as he could in the first postwar years and through most of the 50's. He can't get by with shoddy merchandise, shabby service, sloppy salesmanship. We are into a real buyer's market—and the seller who can't sell simply won't survive."

### Not Much Danger From Atomic Plants

One of the major problems facing atomic energy developers in this country is quite non-technical, according to The Exchange Magazine. It is public concern about radiation. But the concern is unfounded. The Edison Electric Institute reports that "the relatively insignificant radiation coming from luminous dials and television sets will probably be greater than the average radiation from nuclear power operations in the United States during the next several decades." It adds that even if world atomic operations increase rapidly, their average radiation will be far less than from natural sources, such as cosmic rays and minerals in the earth, and much less than radiation from medical and dental procedures.

### Wealth and Happiness

A newspaper story the other day pointed out some troubles which the rich have and which we poor never consider.

A woman, ex-wife of a fairly successful man, blamed wealth for their marital difficulties. When first married, the husband was making \$20 a week and they were extremely happy. As his fortunes increased, their happiness lessened.

When he really got in the big money, their marriage broke up.

This opens up an interesting avenue for speculation. We can see a boss using this example as the very best reason for denying a pay raise—he is thinking only of the employee's marriage. If \$20 a week will make a wife "very happy," then it follows that \$50 a week will make her only moderately so, and it can be seen that \$200 or \$500 a week would make her positively miserable.

If the wife keeps pestering you to bring home a mink stole or a new refrigerator, don't do it, at the risk of breaking up your marriage. Instead, bring home an empty pay envelope and live happily.

Men who have worked hard and risen to the top as a result of a wife's prodding, have often found that things are even more miserable at the top of the ladder than on the way up.

The moral to all this is that wives, if genuinely interested in preserving their marriage and in living happily, should spend more time encouraging their husband to go fishing, play golf, play poker and less time in needling the boss for a raise.

### Pleasing Everyone!

In our efforts to put a high grade newspaper here in Post—regardless of what anyone else thinks about it—we bump up against all sorts of criticism. Which, we suppose, is to be expected, because 3,000 years ago things were pretty much the same—as shown by this fable, first written by Aesop:

Once upon a time, there was a poor tenant farmer whose sole property was a mangy gray female ass with a shrill bray. One day this farmer set out to market astride the ass, with his little son following, when they passed a neighbor, leaning on his fence.

"You brute!" said the neighbor, "letting that little child trudge in the dust—get off and let him ride." So the old farmer, who set considerable store by public opinion, got off, put the little boy in the saddle, and started leading the ass down the road, until they

came to another neighbor who stopped his plowing to remark:

"This a revolting spectacle! Shame on that strapping boy who rides, while his old grayhaired father has to walk." So again they stopped, and the old man ordered the boy to get up behind him, and they went another half mile until they came to an old lady who was hoeing turnips, but who stopped to say:

"I'm going to telephone the S. P. C. A.—this is the most brutal thing I have ever seen. Imagine!—two strong people riding one frail little ass! They are much better able to carry her, than she them."

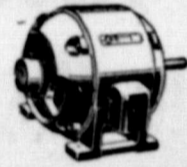

So the old man, who believed you should at all costs bow to public opinion, put his little son on the ground, got off himself, and together they managed to pick up the ass, which weighed 300 pounds and was kicking and struggling, being unused to being carried.

Again they started off down the road, managing pretty well until they came to a bridge where the ass managed to break loose and fell off into the river where she was swept away and drowned.

Now, 3,000 years ago, Aesop said that the moral of his tale was, "If thou triest to please everybody, thou wilt end up by losing thine ass," and we believe that this broad principle also holds true running a newspaper in Post.

As someone else put it, the man who tries to please everybody shows little respect for his own way of thinking.

## MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER MAKE!

When one car outsells all the rest the way this new Chevrolet is doing—there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new Body by Fisher, for example. The eager brand of "git" that's under the hood. The easy way it handles. Plus the added advantage of extra-cost options like triple-turbine Turboglide.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of

#### TOURISM

advent of spring in the City has always marked the beginning of trips to Washington by thousands of people from this country as well as people from overseas. They come in the first of spring in order to attend the Cherry Blossom Festival so named because of the cherry blossom trees planted around the Tidal Basin many years ago by the Japanese Ambassador. These blossoms are beautiful and everyone makes an effort to visit them at a time when they are in full bloom and enjoy this beauty of nature.

In fact, it seems that there has been made arrangements here this spring. I don't know how many people have ever seen as many cherry blossoms at this time of year. It is estimated that there will be great numbers of people coming into the city in the next few weeks. There are many high school students from every corner of the States. There are thousands of adults coming in chartered buses, as private parties or as individuals. Added to these are thousands of visitors coming by rail and by private car. The number of people here each day such as myself, is about the same as in the past. There is an increase in traffic of the usually congested streets around 8:00 A.M. to 10:00 P.M. This year there is to be a constant traffic from early in the morning to late at night. Until a few weeks ago, it was not unusual to travel around Washington in the morning, in the afternoon or at night. Early in the morning it is easy to get to work. However, it requires about 50 minutes for me to drive from my home to the Capitol—a distance of approximately 10 miles.

It is wonderful to see so many people coming to the Nation's Capital to see the many historical

landmarks, to visit in the Capitol Building, to go into the different Congressional and Senatorial offices, to watch the House of Representatives and Senate in action, attend Committee hearings, visit the White House and the Supreme Court, and witness at first hand what goes on in the Capital City of the greatest nation in history and the most powerful. The many places of interest in and around Washington are easily accessible, and it is heartening to see so many people bringing their children here on vacation.

Tourism has always been a favorite pastime of Americans. In fact, it has been extended to the point that so many Americans were touring overseas and spending American dollars that it developed into a drain on our gold reserves. Certainly it is nice for those who can afford it to go across the seas and visit in foreign lands, but there are many, many places of great interest in this country, and it has been my hope that greater attention would be paid to visiting other sections of this country. This would help in many ways. It would enlighten the traveler as to both the merits and demerits of other sections of this great country. It would help to stabilize the economy because of the dollars spent, and it would afford a much-needed understanding between the people generally. The people of the North would discover that the Southerners are much nicer people than they have been portrayed in some of the Northern newspapers, and vice versa. The Easterners would discover that the Westerners are alert, astute people of fine character, and not the type that would hold up a stage or shoot an Indian as might be concluded from some of the TV programs. And the Westerners would discover that Easterners are not nearly so effeminate as some of them have been led to believe. The people from the rural areas would discover that there are a good many wonderful people living in the cities and that all of them are not

## HALF-PAST TEEN

Communists or fellow travelers. The people in the cities would do well to discover that all farmers are not living off the fat of the land and driving fancy automobiles and maintaining stables of racing horses because of farm programs. This country could do with some neighborly visiting among the different segments of our economy and our many people. It would pay great dividends in the future accomplishments of our nation.

There is presently a move on foot for the Federal government to underwrite and finance a tourist program to get the nationals of other countries to visit this country. This plan has several purposes. One is to make it possible for these foreign nationals to see and feel and touch the United States of America and better understand what we are and what we believe. Another purpose is to attract foreign tourists in an effort to balance the amount of money that is spent by our own tourists in foreign countries. This would, of course, stem the outflow of gold or at least balance it. Almost all foreign countries consider tourism as a number one industry, and they spend a great sum to attract visitors to their countries. There is very little advertising by this country to get foreign visitors. It might also be pointed out that this country has much stricter laws, rules and regulations concerning the entry of foreigners than most any other country in the world. There is

quite a bit of opposition to these proposals. The opposition is based upon different reasons. However, the argument that seems to be most pronounced is that this government should not spend public money to promote the opening up of our borders and making it possible for infiltration of subversives. Many feel that to relax the rigid laws and regulations applying to incoming aliens would be to provide an avenue for those who would infiltrate our country for the purpose of helping to destroy it. Others feel that people engaged in the travel business should foot the bills for getting others to visit our country, because those travel businesses will be the ones who profit by such travel. Whatever happens, I am sure that the human being will not lose his desire to visit around. Man has been described as a migratory animal or, as some people put it, "We all have a little gypsy in us." However it is put, it means that most everyone likes to travel.

Medical costs per person are over 1.5 times more for older than younger farm families, according to the U. S. Department of Agriculture. A nationwide survey indicated medical costs for farm families in which the farm operator was 65 or older averaged \$92 a year per person while those of all others averaged \$59.

KATHY MEADOWS

Kathy Meadows Awarded Music Camp Scholarship

Miss Kathy Meadows, daughter of Mr. and Mrs. Fred Meadows of Amarillo and granddaughter of Mr. and Mrs. Laura Marcum of Estelline recently has been one of two students of Amarillo to be chosen for a scholarship in the

Interlochen Music Camp at Ann Arbor, Mich., sponsored by the University of Michigan.

Try-outs for the honor were held by Dr. Joseph E. Maddy. Miss Meadows was chosen along with Sandy Moore.

The plan of the camp is to guide the world's gifted youth. Approximately 150 students from throughout the world will be selected to attend the two-month study course.

Kathy is 13 years old and in the 8th grade in Fanning Junior High School in Amarillo. She was awarded her scholarship on a string bass violin solo, although she also plays the violin, cornet, sousaphone, recording bass, french horn, piano, alto horn and baritone. She plans to be an orchestra and band teacher when she graduates from college.

Mr. and Mrs. Ernest Godfrey of Memphis visited with her mother, Mrs. John Hoover, on Sunday.

Mrs. G. E. Nelson spent Tuesday and Wednesday with her son and family, Mr. and Mrs. E. A. Nelson and Guy Lynn in Childress last week.

Mrs. Ruth Richerson and her mother visited in Newlin Monday evening.

Mrs. W. B. McQueen Sr., Mrs. M. C. Martin and Mrs. Ernest Kilgore of the Salisbury Community visited Mrs. D. W. Lawrence Thursday of last week.

Mr. and Mrs. G. D. Pope of Flomont, Mr. and Mrs. Britton Veteto and Judy of Amarillo visited the mothers of the two women, Mrs. B. L. Gresham, and also other relatives in Newlin.

**CARD OF THANKS**  
To all those who came to us in our time of need during the illness and passing of our loved one and for every expression of love and sympathy extended, we wish to express our heartfelt thanks. For the food, the beautiful floral offerings and the kindly ministrations of Dr. Stevenson and the doctors and nurses at the Odom Clinic we are deeply grateful. That you may receive God's richest blessings, and have the same kindnesses extended you in your sad hours is our prayer.

Mrs. Tommy Harrison  
Mr. and Mrs. Tom Bob Harrison  
Jami and Bryant  
Freddie Smith of Hitchcock, Okla., visited during the weekend with his daughter and family, the Elmont Branigans.

### Paymaster Sells Estelline Gin To Farmers

Cotton farmers in the Estelline community have purchased the Paymaster Gin in Estelline, including the former Paymaster Gin site at Parnell with the cotton pickers houses at both locations.

Negotiations for the purchasing of the gin and houses were completed Friday, April 7, in a meeting with Paymaster officials in Memphis.

Estelline farmers have been holding meetings for the past several weeks.

Friday night, the farmers held a meeting and elected a board of directors to replace the temporary board. The new board consists of: Jerrel Rapp, chairman, Clinton Richburg, J. D. Cox, George Helm as secretary, Lloyd Williams, Carl Hill, and Crump Ferrel.

The new board gives representation for every section of the Estelline area.

### Estelline Pep Squad To Sponsor Box Supper, Talent Show

A box supper and talent show will be held Tuesday, April 18, at the high school auditorium.

Supper is at 6:30 and the talent show begins at 8 p. m. This is sponsored by the Estelline pep squad in order to send their cheer leaders, Donna Sue Eddins, head leader, Sandra Rogers, Henrietta Ward and Paula Knox to a cheer leaders' school in Dallas.

Admission price will be anything one wishes to contribute. Boxes will be sold to the highest bidder. The public is cordially invited to attend.

Ed T. Kefly, a former business man of Memphis, now residing in Lubbock, was a business visitor here Monday.

### W. A. Smithee Named President Of School Board

At a meeting Monday night, members of the board of trustees of the Memphis Independent School District elected W. A. Smithee president.

Other officers elected were Coy Beckham, vice president, and H. E. Craig, secretary of the board.

Willie Amel Smithee, 36, has been a resident of Memphis for the past 10 years. He is the independent jobber under contract with the Borden's Milk Co., for Tulia, Memphis and Childress areas.

Smithee was born in Silverton where he attended high school. He attended West Texas State College prior to his serving in the U. S. Navy for three years in the South Pacific.

He married Charlotte Tunnell, daughter of Clyde Tunnell and Agnes Swift, on April 1, 1946. They have four children, Suzette, age 12, Willie Clyde, age 9, Charlotte Jan, age 6, and Shelly Ann, 9 months old. The family lives at 1519 Dover St.

Members of the school board include Smithee, Beckham, Craig, Joe Montgomery, Charles Snowdon, Alvin Phillips and Robert Moss.

Visiting in the home of Mrs. Rex Hull over the weekend were Mr. and Mrs. Roger McFarren of Canyon and Mr. and Mrs. B. B. Dyer of Pampa.

**WHEN SPRING IS HERE, CAN OUTDOOR-LIVING-TIME BE FAR BEHIND?** "No," say home-improvement experts at the American Bankers Association who advise home-owners to start planning outdoor living-rooms early. Begin by working out a scaled "patio plan." Get estimates from several reliable contractors and landscapers in the neighborhood and consult your banker for help in financing the project. Then, when warm weather hits all you'll have to do is sit back and enjoy it.

### Memphians Attend Funeral Services For Mrs. Ziegler

Funeral services for Mrs. Loreece Webster Ziegler were held at 2 p. m. Tuesday from the Methodist Church at Clovis.

Mrs. Ziegler, a native of Memphis, died Sunday in a New Orleans hospital after a six-month illness.

Mr. and Mrs. Dot Webster, Mrs. Ora Willingham and Mrs. Edd McMurry, uncles and aunts of Mrs. Ziegler, Mr. and Mrs. Hollis Boren and Dorothy Hodges attended the funeral at Clovis Tuesday.

She is survived by her parents, Mr. and Mrs. Joe C. Webster and two brothers, Joe C. Webster and C. Lon Webster, all of Fort Worth.

Mr. and Mrs. Carl Denny of Childress visited during the weekend with Mr. and Mrs. R. C. Lemons and family.

### Panhandle Literacy Workshop To Be In Amarillo April 28-29

The Panhandle Literacy Workshop sponsored by the Women's Missionary Union, District 10 will be held at the First Baptist Church in Amarillo, April 28 and 29.

The schedule will include from 1-3 p. m. Friday, April 28, registration and opening session; workshop from 7 to 9:30 p. m. Saturday, April 29 from 9:30 to 12 noon another workshop.

Mrs. H. C. Burke, literacy chairman, requested that since writing and reading classes for adult illiterates must be limited to one to three students per class, there will be an urgent need for volunteer teachers.

Teachers need not be college graduates or have teachers certificates. Each organization is urged to send at least one interested representative to the workshop. It is estimated that there are over 10,000 illiterates in the Panhandle.

### MINUTE MEDITATION

God has created a world of rare and wonderful beauty. God has endowed man with the capacity to appreciate loveliness and enrich it. God has given man love for people, love for truth, love for purity, and love for the great causes for which men lay down their lives.

It is a universal law that we grow to be what our minds dwell upon, for the Bible says, "As a man thinketh in his heart, so is he." For this reason, Paul would urge us to think on the things that are good, things that are true, and things that are lovely.

The world is filled with things that are lovely, if we will but open our eyes. Jesus said, "Consider the lilies of the field, how they grow; they toil not, neither do they spin; yet I say unto you, that even Solomon in all his glory was not arrayed like one of these."

The eyes of the disciples were suddenly opened to a white purity and a delicate beauty, more glorious than the ostentation of a KING! —Contributed by Cecil E. Hadaway, Minister-Church of Christ

### Will Writes from Austin

By WILL EHRLÉ  
State Representative  
88th District

**Borrowers-lenders-loan sharks!** The House of Representatives last week passed HB7, designed to rid Texas of the so called "loan sharks".

Because we have not heretofore had any statutory regulation of lending agencies (other than banks, and savings and loan associations), Texas had acquired the reputation of being "the loan shark state".

**Interest Rates**  
The legislature, in this bill, has set the maximum rate of interest which can be charged on loans up to \$300 million dollars. The rates vary with the amount of the loan because it costs as much to service and collect a \$100 dollar loan as it does a \$3000 loan.

**Our District**  
In our district I believe the lending agencies are fair in their interest charges and methods of handling business. Apparently, however, the larger cities of Texas have been somewhat vulnerable to loan sharks. A loan company is, of course, entitled to make a reasonable profit from its business operations. However, no lending institution should be allowed to prey on the public by charging usurious interest rates.

**\$300 Million**  
It now appears that over \$300,000,000.00 in new revenue will be necessary to finance our state government. This makes our tax problem doubly tough. I personally do not want to vote for any new taxes; yet, at the same time, I want to provide Texas with the finest school system possible. I believe our junior college program should be expanded. Texas should provide necessary medical care for our aged citizens, so that we will not lose our portion of funds available for this purpose. We need more funds for development of our water resources for irriga-

tion, industrial use, and for municipal purposes.

**Natural Gas, Corporations**  
We can raise some additional money from natural gas and corporations - but not \$300 million. Income taxes, general sales tax, or present system of selective sales taxes are about the only solution which our present state leadership has left us as individual state representatives. I have appreciated hearing from many of you on this problem. I urge everyone in our district to let me know their feelings so that I may effectively represent the views of the people in our district.

### Reporting Net Earnings Is Needed In SS

Correct reporting of self-employed net earnings every year is all-important for social security purposes, said Hal Geldon, District Manager of the Amarillo Social Security Office.

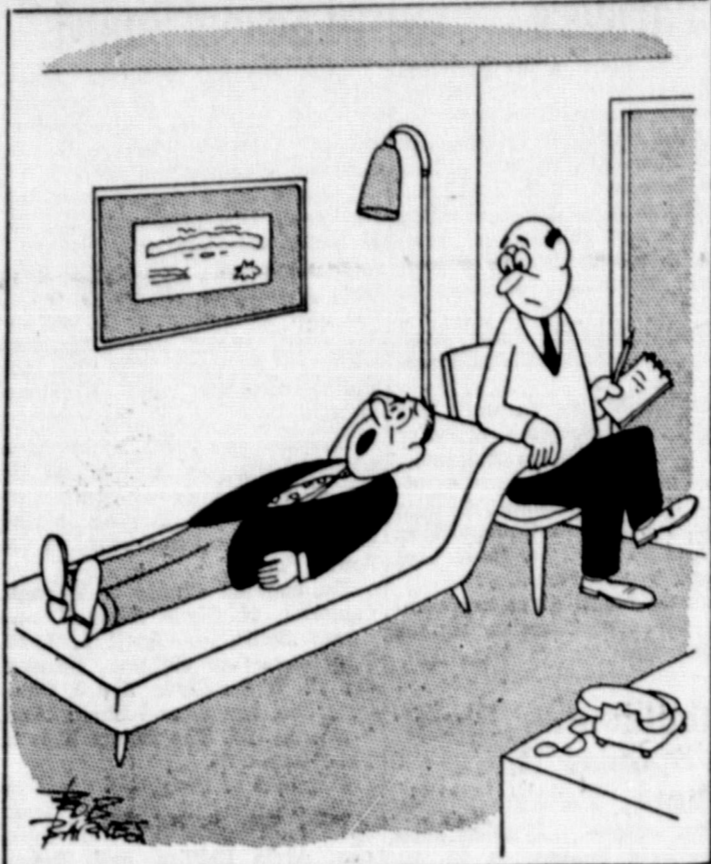

Geldon joins with Ellis Campbell, Jr., District Director of Internal Revenue in reminding people who work for themselves—alone or in a partnership—that Federal income tax returns (Form 1040) for 1960 must be filed on or before April 15, 1961. This must be done and the self-employment tax paid if net earnings for the year were as much as \$400, even if no income tax is payable.

The Social Security Administration, Geldon said, wants to remind self-employed persons that future old-age, survivors, and disability insurance benefits to them and their families will be based on their average earnings. If those earnings are not reported or are incorrectly reported, benefit amounts will be reduced—in some cases lost entirely—when the worker retires, becomes disabled, or dies.

Information about taxes and tax returns can be obtained from the Internal Revenue Service Office at 1414 W. 8th Street, Amarillo. The Amarillo Social Security Office at 1006 Adams Street provides information about social security benefits.

All revenue at the local level is derived from an ad valorem tax on real and personal property.

### Laff Of The Week

"I've always made it a practice not to cross my bridges before they're hatched, but now I'm up a tree without a paddle . . ."

### TIPS For Outdoorsmen

**Clean Hooks After Use**  
Clean and dry your fish hooks after use.

Scraps of bait that may stick and harden on the hook make it difficult to bed the hook in a fish. A bait-clogged barb often will result in the hook falling to catch.

**Bright Hooks Attract Fish**  
You can increase your catches by using bright hooks—both on lures and with natural baits. In murky water the shiny hooks will attract fish.

**Keep Oil Off Hooks**  
Never use oil on hooks or store hooks in containers with oily rags. The oil is hard to clean from the hook, and an oily hook will cause live bait to die quickly.

**Polish Protects Hooks**  
You can protect hooks against rust by coating them with clear, fast-drying nail polish.

Paint the entire hook with the exception of the point and

barb, as paint on either will slow the hook's penetration into the flesh of the fish.

**Use Dull Colored Sinkers**  
New sinkers fresh out of the tackle store often have a shine or glitter. Put them out in the weather a few days so the shine will be lost.

A shiny sinker can lead to a fish striking at the sinker rather than the bait or lure.

**Freshening Up Plugs**  
In a round of particularly fast fishing, your plugs may become quite battle-scarred. Carry along small bottles of model airplane paint to touch them up. The paint will dry in a matter of seconds.

**Cleaning Metal Spoons**  
Metal spoons should be cleaned at home with non-abrasive cleaners.

But if you should need to polish a spoon while fishing, do this: Shred a cigarette and wet the tobacco. Rub the wet tobacco on the spoon with your fingers, and soon the bright shine will return.

**Keep Tackle Box In Shade**  
Keep your tackle box in the shade on extremely hot days.

Prolonged exposure to heat can cause a plastic tackle box to warp. The interior of a metal tackle box can get extremely hot, and plastic lures stored within often will warp enough to spoil their action.

**Scale and Filet Cut Bait**  
When using cut bait, scale and

filet it so your hook will pierce it easily.

When the bait is "tenderized" in this manner, the flesh is soft enough so the hook will break through quickly and sink into the fish.

**Restoring Bucktails**  
Bucktails that are discolored and matted can be restored to almost "like new" condition by holding them in a jet of steam or over a pot of vigorously boiling water.

**Using Insect Sprays**  
Exercise care in using insect repellants around plastic lures and monofilament line. Some sprays will cause the lure finishes to "run" and will make monofilament line sticky and unusable.

**Carry A Small Magnet**  
Hooks, snaps, etc., dropped between the floor boards on a boat are sometimes hard to pick up with your fingers. Carry a small magnet in your tackle box for just this purpose.

**Straightening Out Line**  
If the boat trip home from the fishing grounds is a long one, part of the time can be put to good use by trolling the line free behind the boat.

Use no hooks, sinkers or leaders. Just peel all the line off the reel spool and troll it behind the boat for 10 to 15 minutes. This free trolling will remove dirt from the line. Also it will take out twists and kinks acquired in the day's fishing.

**Keep Dolphin In Water**  
When you catch a dolphin off-

shore, don't bring the fish immediately into the boat. Let it thrash around in the water. It will attract other dolphins in immediate vicinity.

Some marine biologists say each other, and they theorize that the hooked fish makes noise that attract other dolphins.

**Fishing Snaggy Waters**  
When fishing snaggy waters tie your sinker on with light rig if you foul up, you can see the rig loose and lose only sinker.

**Wear Dark Clothing**  
Don't wear light colored clothes when fishing. It's the mark of a novice, for it enables the fish to see you at a greater distance.

**Carry Scotch Tape**  
A roll of scotch tape is one of the handiest items to carry on your tackle box. You can use it to replace line guides or tips that break off in the course of fishing.

**Carry Tiny Screwdriver**  
A small screwdriver, such as the type used by optometrists, might be handy when it comes to changing hooks on a plug.

Local school districts bear full cost of the program and is operated at a level above state minimum program.

State revenue funds which support the public school program are derived from fifty different sources.

# flameless ELECTRIC COOKING -

Free Wiring for ranges purchased from local dealer

## COOL as an April shower

Electric cooking is cool cooking because heat goes directly into the food, not out into your kitchen. And this direct contact of surface unit and utensil is possible only on an electric range.

That's why electric cooking is clean too. With no flaring flame, there's no dirt or soot to soil range surface, kitchen utensils, kitchen walls and curtains.

And with automatic electric controls, time and temperatures are exact. No guess work. Heats are measured for you - to assure precise cooking.

Ask your appliance dealer to show you the wide variety of new electric ranges that set the pace for tomorrow's better cooking.

### Mrs. Clyde Smith Is Hostess To Delphian Club

On April 4, the Delphian Club met in the home of Mrs. Clyde Lee Smith for a program on Education—Unfinished Business.

Mrs. C. D. Morris introduced the program with a quotation "As its children are prepared—So is a civilization shaped".

Mrs. Mildred Stephens gave illustrations on the topic "Hands for Molding and Feeling the World" by telling of teaching children how to pray and learning while young to make things with their hands. She also gave a resume of the life of Johannes Chrysostomus Wolfgangus Theophilus Mozart, the boy wonder. She traced his early life and compositions from the Minuet in G which he wrote at age 5 to his masterpiece, the "Marriage of Figaro", "Don Giovanni" and "The Magic Flute".

Mrs. Stephens told what an important part whittling had played in many lives; particularly to Antonio Stradivarius. She told of the lesson Stradivarius learned from making violins, to make a perfect instrument, much love must be put into it.

Heiner Ludeman brought an inspirational talk on what America and Texas, as well as the people have done for him. He explained his life in Germany, the East and West, of having a Christian mother to guide him, beauties of Germany, an offer of a scholarship at the age of 14, which he rejected, a dream that some day his beloved Germany would be reunited, that he is very proud of his heritage. He concluded by saying, "I wish I could stay in America and attend A & M college or West Texas State, it is my great ambition and desire to return to my many friends here, you mean much to me and for all you have done for me, I am indeed grateful."

Attention was called to Library Week by a contribution to the local library of \$5.00 plus books for a bookshelf.

Mrs. Clyde Lee Smith was selected as the delegate to the

E. Gowen, O. B. Herring and hostess, Billy Johnson.

CARD OF THANKS  
Our hearts are filled with love and appreciation to our many friends and relatives for the many kindnesses shown us during the illness and death of our loving father and grandfather. The beautiful flowers and the abundance of food was so appreciated. Also to Dr. Goodall and his wonderful staff of nurses who were so attentive.  
May God's richest blessings dwell with you always.  
The Family of J. T. Dennis

### Rainbow Girls Have Founder's Day Service

The Memphis Assembly, L. T.—Order of the Rainbow for Girls, and the Advisory Board members, attended the 11 o'clock service in a group at the Presbyterian Church on Sunday, April 9, in observance of the founding of the Order of the Rainbow for Girls.

Immediately following the church service, the group went to the Masonic Temple dining room, where they were guests of the Masonic Order for a buffet lunch.

After a delicious meal, Carol Smith, Worthy Advisor, acted as Mistress of Ceremonies and read a beautiful devotional, "Love", written by Carol Parker, Grand Worthy Advisor of Vermont, and read at Miami Beach, Florida, on July 14.

Carol then introduced Glynn Thompson, Past Master of the Blue Lodge, who welcomed the Rainbow Girls and made a short talk on Rainbow ideals and standards as set up by Rev. W. Mark Sexton, who was the founder of the Rainbow for Girls on April 6, 1922, at McAllister, Okla.

The following girls and board members attended: Jone Ward, Paula Gentry, Nancy Mothershed, Betty Evans, Celia Leslie, Sue Pounds, Carol Smith, Neva Sue Koening, Jo Ann Stanley, Glenna Bruce, Carol Thompson, Linda Lesley, Wanda Grice, Susan Mothershed, Doris Ward, Cheryl Foster, Tamara Frisbie, Mary Sue Scott, Marcene Stephens, Sarah Jo Foxhall, Lynn Foxhall, Dawn Ann Yarbrough, Janice Pounds, Carolyn Linnville, Sarah Beth Montgomery, Kay Wines, Jimmie Ward, Pamela Lindsey, Mrs. Mabel Lavender, Mrs. Beth Lemons, Mrs. Hattie Dem Thompson, Mr. and Mrs. Glynn Thompson, Mr. and Mrs. Joe Mothershed and Lloyd Ward.

Mr. and Mrs. G. S. Ariola announce the approaching marriage of their daughter, Shirley, to Robert Allen Hodges, son of Mr. and Mrs. Harold Hodges. The wedding will be an event of Saturday, April 15, at 2 p. m. in the First Methodist Church in Lakeview. Friends of the couple are cordially invited to attend.

Mrs. C. McCollum Gives Atalantean Program On Art

The Atalantean Club met in the home of Mrs. W. R. Scott for its regular meeting on April 5 at 3 p. m.

The invocation was given by Mrs. Herbert Curry. Mrs. J. W. Coppedge conducted the business meeting.

The study for the afternoon was "Treasures of Beaux-Arts". Mrs. Cecil McCollum presented "Masterpieces of the Past—Paintings". The speaker described first class artists and copyists, mostly French and Italian. She exhibited their choicest paintings. She stressed the fact that artists leave many of their paintings for us to appreciate. In the next part of her discussion, she told about the artists' interpretations of such women as Mona Lisa, displaying their best paintings. "Some of the outstanding artists worked for a period of four years on one production", she said.

Mrs. McCollum also discussed briefly some American masterpieces of art of which each U. S. citizen may feel very proud. To conclude her program she displayed some of her own work consisting of tiles and paintings which were very artistic.

Delicious refreshments were served to the following members: Meses D. H. Aronofsky, J. W. Coppedge, Herbert Curry, W. C. Dickey, H. B. Estes, Eddie Foxhall, Claud Johnson, L. C. Martin, Cecil McCollum, J. H. Norman, Myrtis Phelan, Jack Rose, Robert Sexauer, Miss Imogene King and the hostess, Mrs. W. R. Scott.

Mrs. Elmont Branigan, Elmonette and Mike were Lockney visitors over the weekend with Mr. and Mrs. Dewey Simmons. Mrs. Carl Lee and children returned to Memphis with the Branigans for a few days visit with her parents, Mr. and Mrs. B. O. Shankle.

Mr. and Mrs. Ross Springer of Hedley and Mr. and Mrs. D. J. Hinder of Goodnight were weekend guests in the home of Mr. and Mrs. Phaeton Alexander.

Mrs. Gene Lindsey and daughters Pamela and Mitzie visited Friday afternoon in Turkey with Mrs. Lindsey's uncle, Floyd Gilmore and aunt, Pauline Gilmore, of Carrizozo Springs, New Mexico.

### Bette Trulove Is Married April 5 In Cleburne

Bette Gayle Trulove, daughter of Ted Trulove of Lubbock, and granddaughter of Mr. and Mrs. John J. McMickin of Memphis, was united in marriage to David Austin Roach, son of Mr. and Mrs. Bob Chambers of Rt. 1, Cleburne, at the Chass Avenue Baptist Church in Cleburne on April 5.

The Reverend Lott officiated at the ceremony.

The bride wore a white dress of chantilly lace with white accessories including a large white frame hat trimmed in lace and white net.

Among those attending were Mr. and Mrs. R. L. Self, brother and sister-in-law of the groom; Mr. and Mrs. Bob Chambers; Candus Lynn Chambers, sister of the groom; and Laurie Lynn Self, daughter of Mr. and Mrs. R. L. Self.

The groom is a member of the Air Force and is stationed at Reese AFB in Lubbock.

The newly weds visited in Memphis from Thursday until Sunday with her grandparents, the McMickins.

Mr. and Mrs. Spencer White of Fort Worth are visiting here this week with their sisters, Mrs. J. G. Gardner and Winnie Cassel.

### Ruth Class Meets in Home of Mrs. Roy Currin

The Ruth Class met Thursday, April 6, with Mrs. Roy Currin with Mrs. Roy Brewer as co-hostess.

Mrs. J. A. Odum, Jr., offered the opening prayer, after which the secretary read the minutes of the previous meeting. Reports were then given by class officers.

Mrs. Hulda Wilson, associate teacher, gave the devotional entitled "Leavening the Lump," using as the scripture text Matthew 13: 33.

Enjoying the delicious refreshments were Meses. Jeanine Johnson, Jo Pearl Odum, Gladys Smith, Polly Clemons, Mattie McQueen, Ruby Reynolds, Grace Carlton, Neva Hickey, Birdie Lewis, Ruby Roden, Mrs. Byron Baldwin, teacher and Mrs. Wilson, associate teacher.

Mr. and Mrs. J. S. McMurry had as weekend guests Vernon Key of Denver, Colo.; their son and family, Mr. and Mrs. Cleron McMurry of Tulsa; R. C. Householder of Amarillo and Ann McMurry of Wheeler.

Mr. and Mrs. Byron Baldwin spent Sunday in Amarillo with Dr. and Mrs. Jack Baldwin.

Mrs. J. R. Mitchell has returned from Andrews where she underwent surgery.

can add greatly to your enjoyment by making your boat and motor match keeping both in tiptop shape.

If you're buying a rig, take consideration the purpose for which it will be used most frequently—pleasure cruising, water fishing, etc. Obviously a prop designed for pulling water isn't an outfit for serious fishing.

When you purchase a motor, make sure you get the horsepower motor.

Mount a 50-horsepower motor on a 14-foot boat that is only on a 25-acre lake.

Of course if fishing is your main concern, a 10-horse motor will do the job adequately.

With the initial expense and operating cost are less.

When it comes to mounting a motor on the boat, the motor should be perpendicular to the face of the water. When you run through the water, the motor plate should knife through the water on plane.

The motor will be pushing a wall of water. You won't be able to speed or a stable ride.

The motor is mounted so the motor plate slants upward, the motor will have a tendency to dig into the water. Again you have great loss of speed. Also, the motor will be unstable and noisy.

The cavitation plate is much smoother, even ride the angle must be zero.

When you have the motor mounted at the proper angle, the thing to consider is the prop.

Large motors these days without props. The dealer will give you the correct pitch and diameter for your boat and

load. This isn't a gimmick to run up the prices. It's just good common sense.

For example, a racing wheel is wholly unsuited for a fishing rig. And by the same token you wouldn't want a work prop mounted on a motor used for racing.

If you own a big motor and use it for different purposes, it would be wise to purchase two props—or perhaps one of the new adjustable-pitch props. You can use the prop or pitch best suited for the boat load and purpose. In the long run you'll realize a savings in the amount of fuel used.

Specifications of a prop are given in terms of diameter and pitch.

Diameter is determined simply by measuring the diameter of a circle formed by the tips of the blades.

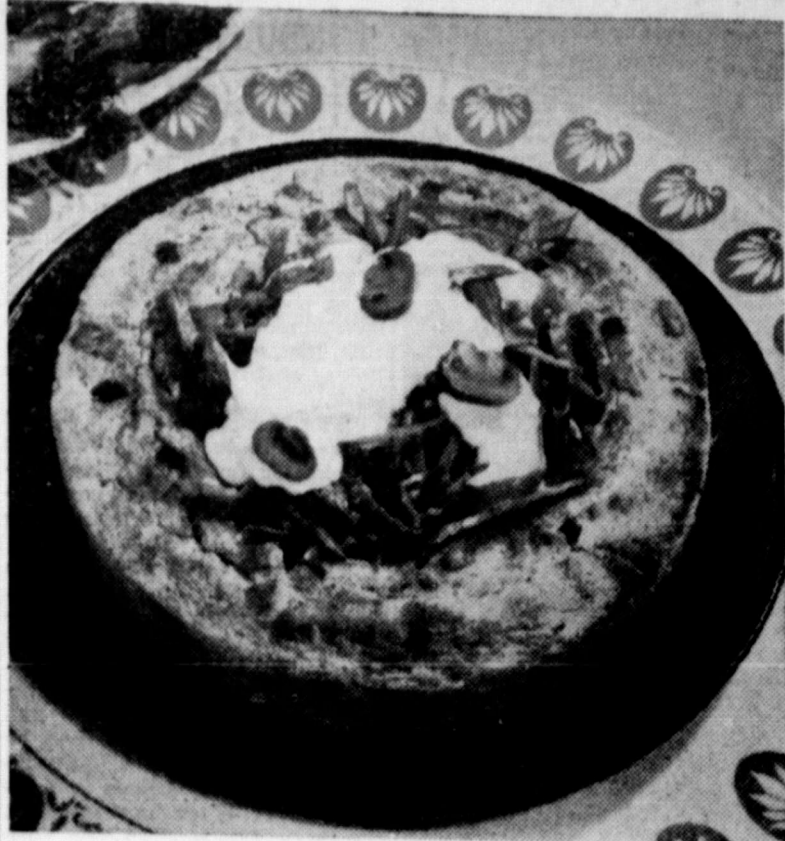

Pitch is the distance the prop moves the boat during one complete revolution.

But remember to take slippage into consideration when referring to pitch. Let us say that the prop has a pitch of 10 inches. For every revolution of the prop, does the boat move forward 10 inches? No. Remember that the prop is pushing weight, and the weight will determine the amount of slippage. With a general utility wheel, you can usually figure on the slippage amounting to 20 to 30 per cent. Slippage will increase with added weight and weight distribution within the hull. And slippage, of course, varies with speed.

Your outboard prop will collect a lot of nicks and dents in the course of operation. Nicks and dents on the leading edges of the blades result when the wheel strikes rocks, logs and other debris in the water.

These dents and nicks may appear to be minor, but they can have a pronounced effect on both boat and motor performance. You will get excessive vibration and noise.

And there have been cases where a badly damaged prop has vibrated fittings loose from both

**Gladiola "Spring Garden Dinner" Corn Bread**

Give your corn bread a new dimension in flavor with this tempting "Spring Garden Dinner" recipe made with crisp garden produce and Gladiola Corn Meal.

3 tbsp. chopped green pepper  
3 tbsp. butter or margarine  
2 cups GLADIOLA Cornmeal  
3tsp. GLADIOLA Baking powder  
1 tsp. sugar  
1 tsp. salt

1 1/2 tsp. poultry seasoning (optional)  
2 tbsp. chopped pimiento  
1 egg, well beaten  
1 1/2 cups milk

Over medium heat, cook onion and green pepper in butter or margarine until transparent but not browned. Preheat oven to 450 degrees (hot). While combining ingredients, place well greased pan (see sizes below) in oven to heat. Sift together the cornmeal, baking powder, sugar, salt, and poultry seasoning. Stir in chopped pimiento. Combine milk and egg and add, stirring smooth. Last, add butter, cooked onion, and green pepper. Spoon batter into sizzling hot pan and bake 20 to 25 minutes until done. Serve hot. Makes 8-10 servings.

boat and motor. Even very small nicks and dents can cause excessive motor wear.

Have your prop checked periodically and realigned. It will go a long way toward lengthening the life of your motor. And, of course, you'll get better performance and more enjoyment from outboarding.

If you boat a lot in rocky shoal waters, it's wise to carry along a spare prop. You can cause serious motor and boat damage by trying to run home with a prop that has a big chunk knocked out of a blade or one blade knocked way out of pitch.

How about weight distribution within the hull? With a planing hull the weight should be so distributed that when under full power the boat will be planing on the back one-third of the bottom.

Too much weight forward will cause the bow to dig; too much weight in the rear will cause the stern to squat and dig.

If the bow digs, then every little wave or current will cause the boat to deviate off course. If the stern squats, you'll have difficulty in seeing over the bow. If there is a strong cross wind, you'll have trouble keeping on course because of the wind swinging the bow.

An improperly load boat is very difficult to steer.

I might also point out that speed only magnifies steering

troubles on an improperly loaded hull.

A steering wheel is a wise investment for the outboarder. It provides more positive control over the boat and more stable turning. Furthermore it allows you to face forward so you can devote full attention to the road ahead.

Outboarding is fun when you purchase a rig to suit your purpose. It's just like buying a car—you wouldn't buy a passenger car to haul produce on a farm, and you wouldn't buy a flatbed truck for pleasure driving.

**Factors Other Than Agriculture Effect Land Price**

During the ten years since 1950, the average price of agricultural land has increased 67 percent in the United States and 71 percent in Texas. Total agricultural net income of the nation's farm operators during the same period, however, has shown a decline of 18 percent.

A. B. Wooten, associate professor, Department of Agricultural Economics and Sociology, says the persistence of these opposing trends has created a most unfavorable relationship between net income and market values of farm land.

In spite of the dim farm income picture for agricultural land in Texas, the upward pressure on land prices will continue in 1961, Wooten believes. This pressure will not be so great as in previous years, however, and it will come from areas outside agriculture.

Most of the buyers of agricultural land in 1961 will purchase for either residence, investment, speculation recreation or expansion. Housing and industrial developments, oil development, reservoir construction and other factors will also affect land prices. Wooten says that more and more of the potential buyers consider land as a consumer good rather than a production factor. This means that the agricultural productivity of the land is a secondary consideration and the price paid is justified on some other basis.

In areas where the above factors exist, the price of agricultural land can be expected to continue to increase in 1961. In the more agricultural areas of Texas, the low rate of return on farm land is beginning to pinch, consequently land prices should be down slightly.

Due to the low rate of return on current market values, farm mortgages and contracts, particularly when they represent a high percentage of the purchase price, are likely to be more difficult to pay off in the decade ahead than in the decade just past.

**It's the Law in TEXAS**

**Records Save Trouble**

Back in pioneer times our forefathers found they could keep track of the family history pretty well with a few notations on the flyleaf of the family Bible. But life's not quite that simple any more. Great-Grandpa wasn't covered by social security or workmen's compensation. He didn't have a bank account or safe deposit box, a car and a dozen home appliances being bought on time payment, or a half-dozen insurance policies. We have taxes great-grandpa never heard of and wouldn't have believed if he had. And had you asked him for a certificate to prove his birth, he'd have thought you'd taken leave of your senses.

The point of this is that the average American today has a good many important papers to keep track of. There are birth certificates, receipts, copies of tax returns, sales contracts, and a host of other papers. With a little tidy record-keeping, you can make life easier for yourself and your family when you are gone.

Here are some suggestions:

1. Get a heavily bound notebook folder or file folder as a central collecting point for all the records of your affairs.
2. Put your especially important papers in your safe deposit box, but make a list of those papers and a brief summary of their contents to put in your home file.
3. Get for your files copies of birth certificates for all members of the family, and add them to the file. Add your marriage license or at least a statement as to when and where you were married and by whom.
4. Insert your will or a copy of it. If your will is kept elsewhere, include a note telling where it may be found.
5. During the year, put into the file your income tax withholding statements and receipts for expenditures which may be deductible. Then keep a copy of each year's tax return in the file.
6. Make a list of all the stocks and bonds you own and where they are.
7. List all the places you have lived and worked and the names of persons there who you know.

Include the schools you have attended and the dates you left or were graduated.

8. If you may have benefits coming a profit-sharing plan where you work, make a note of that too.

9. If you're in doubt about whether an item should be included, put it in.

This takes time initially, but it will save you both time and worry in the long run.

# Local Netters Sweep District

Memphis netters took eight first places, amassing 104 out of a possible 200 total points, to sweep the District 2-A tennis meet at Clarendon Monday and Tuesday.

Lefors took 41 points to be in second place, McLean won third with 22 points, Clarendon fourth with 20 points, and Canadian had 13 points.

Players from Memphis brought home 17 out of 24 ribbons tallying 8 first places, one second and three thirds.

In the high school division, the boys doubles team, composed of Perry Wright and Reggy Curry, won first place. The girls doubles team, composed of Deeda Hickey and Leslie Helm, also won first place. Benny Spear, the MHS singles player, won first in his group.

In the junior freshman division, Bill J. Pounds won first in boys singles, along with Mickey Daugherty and Billy Foster who won first in the junior boys doubles class.

Ronald Pate won the elementary boys singles, while Jerry Moss and Mike Pounds won the elementary boys doubles class.

Carol Smith won the junior girls singles class. Glenda Bruce and Linda Alewine took second in the elementary girls doubles class, while Laura Pounds placed third in the elementary girls singles class.

Tony Pounds placed third in elementary boys singles, while C. J. Goodnight and Ann Coleman placed third in junior girls doubles.

Head Coach Don Lambert reported that the District had been changed in spring competition, and that this change affected the

local team's participation in several events.

Coach Lambert explained that Memphis was the only school in the District which has a junior high school set up. As such, the District does not have a junior high division for those students.

As Coach Lambert explained it, the District held competition in track and tennis in high school division (seniors through sophomores), freshman division (students not in the eighth grade but not over 15 years old), and elementary division (students in the eighth grade or below).

Memphis teams were entered in high school, freshmen, junior high and elementary divisions. Lambert said that in District track, none of his eighth graders got to participate because they were entered in a junior high bracket.

In tennis, Coach Bob Martin reported that several of his eighth graders, who were entered and playing in the junior (freshman) division, had to forfeit their matches, due to an Interscholastic League rule that eighth graders could not compete in the freshman division.

Coach Lambert explained that Memphis' elementary teams, composed of sixth and seventh graders, were handicapped due to the fact they were competing against eighth graders from other district schools.

The head coach also stated that the first he was notified of the change was when the teams went to District competition. Several of the district's schools were affected the same as Memphis, and lost many of their eighth graders.

Forrest Hall is moving back to Memphis from Amarillo to make his home "among the best people on earth" he said.

**MEMPHIS GOLFERS**— Pictured above are members of the Memphis High School golf team which will enter Regional Competition on the weekend of April 21. From left to right are Allyn Harrison, Dwight Gailey, Dick Morgan, Sam Goodnight and Dee Miller. The team was un-opposed in District Competition in Memphis Monday.

## Piano Auditions To Be held Here From April 18-22

The Piano Auditions sponsored by the National Guild of Piano Teachers, will be held April 18-22 at the First Methodist Church with Jonathan Bowers of Jacksonville, Fla., as judge, Miss Gertrude Rasco, chairman, announced this week.

"The Memphis center is indeed fortunate to have Mr. Bowers as adjudicator for the 75 piano students of this area who have entered the auditions," Miss Rasco said.

Jonathan Bowers was born in Gainesville, Fla., April 9, 1926. He showed unusual musical ability as a child, and by the time he was 10 years old he was attracting notice with his piano recitals in Florida, Georgia and South Carolina. At this time he was studying with Grace L. Cronk-hite at Anderson College in Anderson, S. C. When he was about 12 years old he went to New York City to study with Harold Bauer. After two years with Bauer he became a student of the world famous pianist, Moriz Rosenthal, with whom he remained for four years, making his debut as a concert pianist at the age of 17 in New York's Town Hall.

Subsequent concertizing, further study with the renowned Ernst von Dohnanyi, and at a somewhat later period, teaching, which he enjoys very much, have occupied his time. He also has composed a number of piano compositions, songs, and a flute sonata which was performed in Jacksonville on March 24.

About 200 judges, selected for their sympathetic approach as well as for their musical achievements, hear 60,000 young people all over the United States in 600 centers each year, Miss Rasco pointed out.

Rhythm, accuracy, tone-quality, phrasing and pedaling are among the 32 points considered in rat-

## Funeral Services For Jack Allen Held Here Sunday

Funeral services for L. C. (Jack) Allen were held from the Spicer Funeral Chapel at 3 p.m. Sunday with Rev. O. B. Herring, pastor of the First Methodist Church, officiating.

Burial was in Fairview Cemetery under the direction of Spicer Funeral Home.

Mr. Allen died Friday in Wichita Falls.

Lenuel Cleo Allen was born Sept. 5, 1906 in Ellis City. He had resided in Memphis and Hall County for 35 years.

He was a member of the First Methodist Church.

Surviving are one son, Jack Allen Jr. of Clarksville, Tenn.; two grandchildren, his mother, Mrs. Joe L. Allen of Dallas; one brother, Isaac M. Allen of Nashville, Tenn.; two sisters, Mrs. Fred Newton of Irving and Mrs. Fred Keller of Lancaster.

Each student plays from memory two to ten numbers and all above elementary stage are required to pass a test on scales and cadences. The auditions are conducted privately to put the student at ease.

The National Guild auditions were organized by Irl Allison of Texas in 1929.

Members of the Memphis center include these teachers: Mrs. L. G. Rasco, Mrs. T. L. Rouse, Mrs. Pearl Ward and Miss Gertrude Rasco, Memphis; Mrs. Frank Anderson, Mrs. John C. Harper and Mrs. Kelly Pigg, Wellington; and Mrs. Robert J. Beck of Quitaque.

Mrs. James True and boys of Pampa visited Saturday and Sunday night with her aunt, Mrs. W. S. Malone.
