County Wheat Farmers Must Sign-Up By December 1 On 1962 Acreage

"All Hall County wheat farmers must sign up to receive price support on their 1962 wheat," Lynn McKown, office manager of the ASCS, announced this week.

"The mandatory 10 per cent reduction in 1962 wheat allotments do not automatically qualify farmers for price support payments," he said.

All farmers must sign their intentions to participate before Dec. 1, 1961, if they wish to participate in the 1962 wheat program, he said.

"There will be a penalty for exceeding the 1962 wheat allotment and no price support or payment made unless a conservation practice is carried out on the 10 per cent mandatory reduced acreage," he said.

McKown also explained that the USDA's program of allowing 15 acres of wheat to be planted with-

Estelline School To Hold Halloween Carnival Tuesday

An evening of entertainment for the whole family is in store for those who attend the Halloween Carnival at the Estelline School on Tuesday evening, Oct. 31. The Carnival is sponsored each year by the Estelline Parent-Teacher Association.

Members of the PTA will serve home-made chili, pies, cakes and coffee in the lunchroom preceding Carnival time. They extend an invitation to everyone to come and eat the evening meal there, then go over to the gym.

At the gym, there will be fun for the whole family where all the usual Halloween booths will be set up. There will be bingo, cake walks, fishing, etc.

Franklin Pierce, Long-Time County Resident, Dies

Funeral services for Franklin B. Pierce, long-time county resident, were held at 2:30 p. m. Wednesday from the First Baptist Church in Lakeview with Rev. H. W. Hill, pastor, officiating, assisted by Rev. Clesby Patterson, pastor of the Lakeview Methodist Church.

Interment was in Lakeview Cemetery with services under the direction of Spicer Funeral Home.

Mr. Pierce, who was 69 years of age, died at 1 a. m. Tuesday morning in a local hospital.

Franklin Benjamin Pierce was born June 29, 1901, at Ada, Okla. The family resided on Route 2, Lakeview. He had resided in Hall County for the past 24 years.

Survivors include his wife, Mrs. Franklin Pierce of Lakeview; four sons, Richard Pierce of Estelline, Ronald Pierce of Lazbuddie and David and Parly Pierce of Lakeview; seven daughters, Mrs. Evelyn Cook of Vanburg, Germany, Mrs. Katherine O'Brien of Lafayette, Ga., Mrs. Loy Dean Thomas of Memphis, Mrs. Jeffie Horton of Amarillo, Mrs. Effie

Chief of Police Guy Wright said Wednesday that plans are to save a portion of the parking area on the west side of the square for the Caravan. He stated that permission was given to KFDA to land a helicopter on the square during the show.

Gins Process 22,019 Bales; Have Peak Ginning Week

Over 20 Foreign Students To Tour Hall County Cotton Installations

A delegation of 20 to 22 men from seven countries will tour Hall County cotton growing and processing facilities Saturday as guests of the Memphis Chamber of Commerce and Hall County Board of Development.

Members of the C. of C. will meet with the visitors at noon Saturday at the Cyclone Drive Inn for a noon luncheon.

The foreign students are in the United States under the Foreign Aid Program and will study here for a period of four months to one year. They are assigned to the Mechanical Training School of the Amarillo Air Force Base.

The students are interested in American agriculture and culture. They are from Viet Nam, Pakistan, the Philippines, Iran, Turkey, Colombia and Ethiopia.

Sponsor of the students is Madame Ali Ghito of Amarillo, a foreign language instructor.

Clifford Farmer, manager of the C. of C., said that the tour plans are not definite as yet. He said the foreign students would like to see the big press in operation at the Memphis Compress Co. It is not known definitely when it will be in operation.

The students will see cotton being gathered, ginned, compressed for foreign shipment, and classed at the USDA Cotton Classing office in Memphis.

A complete tour of the Cotton Classing office will be conducted by Kermit Voelkel, officer in charge of the installation, Saturday afternoon.

James Vineyard Dies In Amarillo; Rites At Claude

Graveside rites for James N. Vineyard, 87, were held at 11 a. m. Tuesday in the Claude Cemetery by the Rev. J. D. Horton, pastor of Hillcrest Baptist Church of Amarillo.

Pall bearers were Truman Vineyard, Roy Vineyard, Jr., Charles Woodburn and R. B. Scott, Amarillo; George H. Vineyard of Midland, and Horace Dye of Claude.

Mr. Vineyard had been a resident of Armstrong and Potter counties some 60 years. He passed away in the Faye Thomas Rest Home, Amarillo, Sunday night. He was born April 25, 1874, in Lawrenceville, Ga.

Survivors include two brothers, Dr. R. L. Vineyard of Amarillo, John O. Vineyard of Midland; two sisters, Mrs. Allen J. Baker of Elk City, Okla., and Mrs. J. C. Wells of Memphis, and several nephews and nieces.

A large number of former neighbors and friends of Claude joined a number from Amarillo in attending the graveside service.

Fire Dept. To Sponsor Turkey Shoot Sunday

The Memphis Volunteer Fire Dept. will sponsor a Turkey Shoot Sunday afternoon at the trap range of the Memphis Rifle and Pistol Club, located at the Memphis Airport.

Fire Chief "Red" Ward stated the contests will start promptly at 1 p. m. and prizes will consist of turkeys, hams, and bacon.

In case of bad weather, Ward said that the shoot will be postponed one week, to the following Sunday.

Cyclone Battles Broncos Friday

The Memphis Cyclone will host the Clarendon Broncos at 7:30 p. m. at Cyclone Stadium for the home team's second District 2-A conference contest.

The local gridiron team is suffering no injuries from the Memphis-McLean contest last week. Coach Don Lambert said that Eddie Jones, fullback, has a sore neck from the contest but other than a few bruises, the team is in good physical condition.

The coach said the team went through a good workout Monday and that the boys will work out in pads most of this week. He said Tuesday that Tackle Dale Sexton has been out of school for two days this week with a sinus infection. Sexton is expected to be back in the lineup Friday night.

"I am expecting the game to be a real tough one Friday night for the Broncos are a well-coached team with one of the best passing attacks in the district, the coach said.

Lambert compared their size to that of the Wellington Skyrockets and said the Clarendon boys are very quick.

He stated the team likes to execute their plans as fast as possible.

The Broncos use modified T attacks by running the Split-T, the Wing-T and the Slot-T. No. 34, the team's quarterback, 160-pound McAnear, presents a threat as a runner as well as a passer.

The Broncos were able to defeat both Wellington and Canadian on long touchdown passes. The Clarendon line will be outweighed approximately 20 pounds per man and the backfield will be outweighed about five pounds per man.

The Broncos' best running back is No. 30, Robinson, a 160-pound halfback. Elmore, No. 25, the fullback, is also a good runner. Along with the good passing

MHS Honor Roll Lists 44 Names

Forty-four students were listed on the Memphis High School honor roll for the first six-week period, according to the list released this week by Principal Clinton Voyles.

Requirements for the honor roll are as follows: 1. All grades must be in the "A" or "B" level. 2. The average of all grades must be 90 or above.

Students listed include:

Senior class: Solvejg Bager, Joy Baten, Teresa Beckham, Barbara Elem, Don Gailey, Allyn Harrison, Leslie Helm, Deeda Hickey, Beatrice Hook, Barbara Mauck, Elaine Snowdon, Sondra Stargel, Donnie Spicer and Perry Wright.

Junior class: Cathy Bryant, Dwight Gailey, Jim Reynolds and Carol Smith.

Sophomore class: Noel Clifton, Vivian Maddox and Kay Wines.

Freshman class: Martha Cleveland, Ann Coleman, Lynn Foxhall, James Odom, Ronald Pate, Suzanne Sexauer, Minka Sims, Lana Waites and Dawn Yarbrough.

Pre-freshman class: Linda Alewine, David Aronofsky, Marsha Bell, Glenda Bruch, Linda Ford, Diane Galley, Ginger Greene, Sandra Guthrie, Rosemary Harrison, Regina Hoover, Susan McQueen, Larry Parks, Danny Peters and Carol Voyles.

As of noon Thursday, Hall County gins have ginned 22,019 bales of '61 cotton, setting a peak ginning week of 10,139 bales since last week's report.

This matches the highest ginning week in 1960 or other years in the past. This is unusual due to the fact that the heaviest gathering portion of the season will not come until approximately 9 days after the first frost.

The 1961 crop is considerably earlier than last year's crop. As of Oct. 27, 1960, the County gins had processed only 2,377 bales of cotton. The gathering season was delayed due to two weeks of wet weather last year. This would indicate that the gathering this year is almost three weeks ahead of last year.

Kermit Voelkel, officer in charge of the USDA Cotton Classing office, asked for the cooperation and indulgence of the ginners and farmers about the processing of samples. He said that the office will be about 18,000 samples behind in the classing by closing time Thursday.

"John L. McCollum, manager of the Southwestern Area, with offices in Dallas, was in Memphis Wednesday," Voelkel said, "and he stated that the situation will get a lot worse before it gets better."

Voelkel explained that all over the United States, Cotton Classing offices have received orders from the USDA to work seven days this week to try and keep up with the classing of cotton samples. He said the Memphis office personnel will work Sunday also.

The Little Rock, Ark., office is 135,000 samples behind, the Lubbock office is 100,000 samples behind, and the Bakersfield, Calif., office is also 100,000 samples behind.

"We received one classer this past week," he said, "and there appears to be no others available."

Jim Tongate of Waco, an ex-baseball umpire, who is 70 years old and has been with the classing service for 22 seasons, is the new classer.

The reason for the shortage of cotton classers this season, Voelkel explained, is that in the Southern States the crop was late, and in the Western States it was early.

The officer in charge said he was happy to see so much cotton being gathered before the freeze due to the spoilage factor.

"We can always store samples without spoilage," he said, "but if the cotton is left in the field during the freeze there will be spoilage."

Cotton which is gathered before a freeze is easier to class due to a lesser need in micronairing. Later in the season it is necessary to run a micronaire test on each sample.

"Last year at this time we had classed 11,564 samples," he said, "while as of Oct. 26 of this year, we have classed over 58,000 samples."

The Memphis office classed 14,141 samples last week. This cotton had the following grade according to percentage: White middling plus or above, 7 per cent; white middling or below, 39 per cent; light spotted, strict middling (Continued on Page 8, Sec. 1)

Film, 'Operation Abolition', To Be Shown Here Nov. 7

Bill Anderson of Amarillo will be at the First Christian Church on Tuesday evening, Nov. 7, to show the film, "Operation Abolition," Minister Everett Stevens announced this week.

"This is the film which has caused much comment and concerns the House committee investigation in San Francisco some months ago on un-American activities," Minister Stevens said.

The meeting will begin at 7:30 and is open to the public. There will be no admission charges.

"We hope that everyone will see the film as it is most informative," Minister Stevens stated.

Plans are being made for several study and discussion sessions concerning issues of American Freedom, Minister Stevens added. This study will not be limited to members of the First Christian Church, but is open to the public and everyone is invited to come.

County Attorney Warns About License Violation

County Attorney Sim W. Goodall this week warned all persons operating used clothing booths, and other selling establishments or booths on the highways outside of Memphis of several state laws that must be complied with in such matters.

"It has been brought to Sheriff W. P. Baten Jr.'s and my attention by several merchants in Memphis that certain booths and establishments are operating outside the law," he said, "and Saturday we are going to make a tour of these booths outside the city limits of Memphis to see if there are any laws being broken."

The county attorney was referring to the State License Fee Law in particular. He said that Article 1709 of the General Taxation Statutes state:

"Any person who, either for himself or as an agent of any person, receiver, trustee, firm, corporation, copartnership or association, shall operate or maintain any store or stores or mercantile establishment as defined in this Chapter without having displayed in a conspicuous place in such store or mercantile establishment the license fee receipt for the current year as required in this chapter shall be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not less than \$25; nor more than \$100, and each day of such violation shall constitute a separate and distinct offense." Acts 1959, 56th Leg. 3rd C. S. P. 187, Ch. 1.

The county attorney said the only exceptions to the law are for churches selling religious material such as Bibles and song books.

He also warned that used clothing, unless it was work clothes selling for less than \$10, was subject to a sales tax and that businesses selling used clothing would have to have a "Limited Sales Tax Permit," to collect the tax on these items, as are all businesses which collect the sales tax.

The Sales Tax Permit and the Mercantile Establishment Licenses can be obtained by applying to Robert S. Calvert, Comptroller of Public Accounts, Austin, Texas, he said. The licenses cost \$4.00 for one store for one year, the county attorney said.

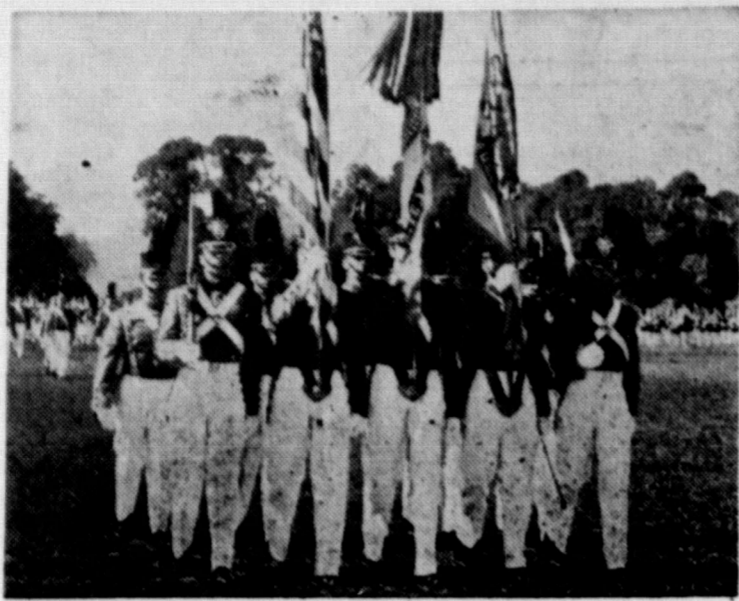

"We would just like to warn everyone connected with these establishments that we will be inspecting them for the required licenses Saturday, and violators will be charged with the above misdemeanor offense," the county attorney said.

Mrs. Lester Graham, Wynema and Rita spent the day in Amarillo Monday. While there, Mrs. Graham visited her brother-in-law, Sebe Hudson, in the hospital. Mr. Hudson had suffered a heart attack sometime ago.

Misses Lera Kate Hutcherson and Linda Collins, students at West Texas State College, Canyon, spent the weekend here with their parents, Mr. and Mrs. Ed Hutcherson and Mr. and Mrs. H. E. Goodnight.

AMERICANA College Notebook The United States Military Academy

Founded in 1802, the United States Military Academy at West Point, New York, has occupied a colorful and important place in American history. Among its nearly 24,000 graduates it lists names such as Dwight D. Eisenhower, Douglas MacArthur, John J. Pershing, Ulysses S. Grant, and Robert E. Lee. Each year the Academy graduates about 800 new officers dedicated to a career in the service of their country. This is a long way from the graduating class of 1802 which numbered two men.

On March 16, 1802, Congress authorized a Corps of Engineers, set its strength at 5 officers and 10 Cadets, and stated that the Corps "... when so organized shall be established at West Point, in the State of New York, and shall constitute a Military Academy ... Today the authorized strength of the Corps of Cadets is 2512.

West Point's site has grown from the original 1795 acres purchased from Stephen Moore in 1790 to about 16,000 acres today. Barracks and other buildings already existed at the time of purchase, because the Army had occupied the site since 1776, when George Washington was responsible for the erection of fortifications at West Point. Some remnants of these fortifications remain at West Point today.

The West Point system of education and the principles of academic and military training were established by Colonel Sylvanus Thayer, Superintendent of the Academy from 1817 to 1823, and they have endured the test of time for more than a century and a half. Thayer's ideals are expressed in the words on the Academy's Coat of Arms—DUTY, HONOR, COUNTRY.

The U.S. Military Academy offers a four-year, college-level education leading to the degree of Bachelor of Science and a commission as second lieutenant in the Regular Army (or, in limited numbers, in one of the other Services). There are no tuition charges for attendance at the Academy. The Cadet, as a member of the Regular Army, receives \$111.15 a month, from which he pays for his uniforms, textbooks, and incidental items. He also receives a ration allowance which covers the cost of his meals.

Texas Weights and Measures Fees Announced

A New York statistician recently estimated that inaccurate grocery scales were costing citizens of that city more than \$4,000 per day.

Grocery scales alone! Not to mention gasoline pumps, druggist measures, large commercial scales and the many other weighing and measuring devices on which our daily trade depends.

Who loses when scales are inaccurate? It may be the seller or the buyer, depending upon the maladjustment. But somebody loses. And it amounts into the millions each year throughout the United States.

The Texas Department of Agriculture is charged with the responsibility of keeping many of our weights and measures devices accurate. The round tag on gasoline pumps across the state means a department inspector has been there to make sure you get a full gallon of gas on each purchase—no more, no less. The grocery scale at the supermarket checking counter, the meat scale in the rear where prepackaged meats are made up, the truck scales where agricultural and other transit products are weighed—all these are regularly checked by the department field men.

The expense of such a program can be enormous, considering the scope of activity in a state the size of Texas. Money to maintain the inspection program is always at a premium.

This year, the Texas Legislature has levied a fee system in order to make the program more nearly self-supporting. To reduce the need for additional tax money, the scale owners, themselves, will be assessed a small fee to keep the inspection program going. But in the long run, the accuracy of the adjusted scale itself will prevent the owner from losing far more money on underweighed sales items than the fee he paid.

The fee system went into effect September 1 of this year. Amounts listed for inspection are as follows: For each gasoline, kerosene and diesel pump, 50c; each scale with capacity up to 999 pounds, \$1.; scale capacity from 1,000 to 1,499 pounds, \$2.50; scale capacity 1,500 to 4,999 pounds, \$5.00; scales 4,999 pounds and over, \$10.00. In addition, each butane and propane measuring device is \$5.

Since President Kennedy's announcement of increased draft calls, some men who have no legal obligation for draft registration or military service have been corresponding with Texas draft boards about their "obligation."

Legal Obligation Explained About Draft Notices

Since President Kennedy's announcement of increased draft calls, some men who have no legal obligation for draft registration or military service have been corresponding with Texas draft boards about their "obligation."

If you were born on or before August 30, 1922, you are not registered with a draft board and you have no legal obligation to register. Furthermore, you have no responsibility to keep a draft board advised of your current address.

If you were born after August 30, 1922, you are legally required to be registered, unless you are not yet 18 years old.

If you are registered and have reached the age of 35, you are no longer liable for military service under the present law; but you are still obligated to keep your local board advised of your current address.

Some men are no longer liable at ages 26 and 28. At these ages, where a man is no longer liable for service, he is classified V-A, and the little classification notice he is required to carry in his pocket is so marked.

An increasing number of people are asking the draft boards for the meaning of the Selective Service Classifications. These follow:

I-A: Available for military service.

I-A-O: Conscientious objector available for non-combat military service.

I-C: Member of the armed forces, Coast and Geodetic Survey, or Public Health Service.

I-D: Qualified member of the armed forces reserve, or student taking military training, including ROTC and accepted aviation cadet applicants.

I-O: Conscientious objector available for civilian work contributing to maintenance of the national health, safety, or interest.

I-S: Student deferred by law until graduation of high school or attainment of age 20, or until the end of his academic year at a college or university.

I-W: Conscientious objector performing civilian work in the national interest, or who has completed such work.

II-A: Occupational deferment, other than agricultural and student.

II-C: Agricultural deferment.

II-S: Student deferment.

III-A: Extreme hardship deferment, or a man with child or children. Any man who prior to August 25, 1953, had a child or children and lived with them in his home, and so advised his board, is eligible for Class III-A. Any man who acquired a child or children on or since August 25, 1953, is not eligible for Class III-A because of them unless military service would result in extreme hardship to them, or certain other dependents.

IV-A: A man with sufficient prior active service, or who is a sole surviving son of a family of which one or more sons or daughters already have died in line of duty in the armed forces.

IV-B: Certain public officials deferred by law.

IV-C: Deferment of certain aliens.

IV-D: Minister of religion or divinity student.

IV-F: Physically or mentally unfit or morally unacceptable.

V-A: Over the age of liability for military service. If a man receives certain deferments resulting in classification in Classes I-D, I-S, II-A, II-C, II-S, III-A, IV-B, and IV-F before he is 26 years old, his liability for military service will be extended from age 26 to ages 28 or 35, depending upon the deferment received.

City officials in Texas got a warning from Chief Engineer John Vandertulp of the State Board of Engineers.

He said Texas had better get moving on its water projects.

Vandertulp's staff has just completed a water study outlining ways in which Texas cities and industries could meet their water study outlining ways in which Texas cities and industries could meet their water needs for 1980. Half of the 14 reservoirs now under construction in Texas will be too small to supply their service areas by then.

It is going to take \$1,000,000,000 to build the reservoirs, treatment plants and distribution systems to provide water the Texas of 1980 will need. It will also take planning and working—starting now—to get the 45 new reservoirs proposed by the Board of Water Engineers' plan built and full of water by or before 1980.

Plan is endorsed in most details by the U. S. Study Commission.

Sales Tax Modification State Comptroller Robert S. Calvert thinks it's time to change the oil tax plan just adopted by the Legislature.

Constitution allocates the new sales tax on motor oil to the State Highway Fund for road building. Consequently the corner service station man must keep books on this tax separately from sales taxes he collects for the state's general fund.

Calvert plans to suggest to the Legislature that this oil tax be levied at the jobber level, same as gasoline sales taxes. This will simplify bookkeeping and collecting.

Speaker James A. Turman agreed that there are inequities in the new sales tax which the Legislature should correct.

First to talk openly about paying the tax under protest were the vending machine people. They can not collect sales tax on items selling for less than 25 cents, but they must pay sales tax on their gross sales.

Texas Merchandise Vending Association plans to ask for a court ruling.

Last-Go-Round Sale of \$25,000,000 in bonds for the Veterans Land Board completed.

pletes the borrowing by the State government for that program. Voters authorized \$200,000,000 to finance purchases of farms and ranches for veterans.

In the last year, about \$37,500,000 has been authorized in land since the program was revived after an increase in the authorized interest rate.

L. H. Page of Carthage, member of the Veterans Land Board, estimated that veterans will pay enough extra interest that the state will have made \$100,000,000 profit on this program by 2003. That is when the last loan is supposed to be paid off.

More Study Governor Price Daniel asked the Legislative Council to bring its 1958 study on loans and interest rates up to date.

Governor Daniel now seems likely to call the Legislature back into session in January. He wants up-to-date facts on the subject of regulation of interest rates and lenders. Regular session just could not reach agreement.

He will ask also for passage of a bill extending the new escheat enforcement procedures to un-

claimed bank accounts in and saving institutions. Speaker James A. Turman pointed a special House committee to make a follow-up study of escheat laws. Representatives Springer, Amarillo; Frank Spears, San Antonio; Paul Slack, Pecos; Paul Haring, Ad; and Reed Quilliam, Lubbock are its members.

Governor Appoints Gov. Price Daniel assigned James A. Turman (see last page) to the Texas Council director, and Kenneth of Fort Worth to the National Governor's Conference on Delinquency and Crime in Denver, Colo.

They will come back with arguments on why the needs juvenile parole officers more than just five biggest cities. That's extent of present program.

Governor Daniel is asking Legislature to expand the man juvenile parole set-up created this year. Kennard has scored juvenile parole legislation.

First Runner Sen. Preston Smith of Lubbock became the first candidate lieutenant governor in the Democratic primary next May 5. Smith, who served three terms in the House of Representatives and five years in the Senate, third in the 1950 lieutenant governor's race. That was the Ben Ramsey won the run-off started the first of his six terms in the office.

Highway Speedup Faster feeding of federal money into highway construction is reflected by the State Highway Department's monthly report.

As a recession-trimmer, the cash was sent out faster than been scheduled. On Oct. 1, there were \$325,858,057 worth of highway construction contracts outstanding in Texas, averaging just about 50 per cent completion.

During last month, highway contractors completed \$18,844,000 worth of new construction. The amount doesn't include the maintenance work by Highway Department crews.

Anyone can be brave from safe distance.

GTC Employees Are Recalled To Active Duty

Some 23 employees of General
Telephone Company of the South-
west who have been recalled to
service with the 49th Armored
Division received an unexpected
\$3,742 in military leave allowance.

Eddie H. Boone, field engineer,
Memphis, was among the General
Telephone employees called into
service.

General's military leave allow-
ance procedures previously did not
cover the type of service caused
by activation of the 49th, and this
new schedule was devised by the
personnel department and approved
by President E. H. Danner.

The allowances range from
eight days of pay for those with
one year of service to 24 days for
those with six years or more of
service.

Rites Held For Mother Of Local Resident

Final rites for Mrs. Bertha Oe-
ta Cates, 63, of Amarillo, mother
of Jim Cates of Memphis, were
held at 4 p. m. Monday in Black-
burn-Shaw Memorial Chapel by
Jack Mackey, minister of the
South Side Church of Christ.

Burial was in Llano Cemetery.
Pall bearers were Paul Broh-
lin, Carl Brohlin, Angres Free-
man, J. L. Junell, Hub Carlile
and Cecil Burk.

Mrs. Cates died at 10:20 p. m.
Saturday in Northwest Texas Hos-
pital. She was born July 18, 1898,
in Sherman. She was a member
of the Church of Christ.

Surviving are five sons, Jim
Cates of Memphis, Gene, Frank
and Johnny Cates, all of Amaril-
lo, and Douglas Cates of Mineral
Wells; five daughters, Mrs. Mar-
tha Junell and Mrs. T. T. Givens,
both of Amarillo, Mrs. Bob Free-

TIPS For Outdoorsmen

Hunting a Broken Quail Covey

Quail hunters following a brok-
en covey that lights here and there
as singles, often are puzzled to
find that their dogs can't locate
the birds, or blunder smack-dab
into them with no chance to
stand.

This happens because:
(1) An alighting quail usually
hits the ground running and ends
up a "far piece" from the spot
where it landed.

(2) Your dog can't smell such a
bird out because the newlyground-
ed quail has air-washed its body
odor away in flight.

You can get around this by
waiting patiently for about half
an hour before going after the
singles. This gives the birds time
to regain the distinctive scent the
dogs depend on.

Shot Size Is Important

When hunting turkeys use No. 2
shot in a modified barrel—12
gauge, or 20. The gauge makes
little difference.

If ground shooting, best results
are obtained with No. 6 or No. 8
shot, aiming for the head only.

Rifle hunters should use a Hor-
net, or .22 long rifle loads.

Shoot for the head if you are
confident, and save the good meat.

Cooking Rabbit—Texas Style

Ever eat rabbit fixed Texas
style? If not, you are in for a
treat.

Cut up two choice cottontails
as you would a frying-skin chick-
en. Season well with chili powder,
and brown in olive oil. Put pieces
in well-greased casserole. Season
with salt and pepper, parsley, and
chopped onion. Cover with
fine white wine, and bake slowly
until most of the wine is soaked
up—or until the meat is thorough-
ly done.

Make a gravy by thickening
juices left in casserole with flour
and cream.

For Easier Lacing

Harden the tips of your rawhide
shoe laces by holding them over
the flame of a match, until match

burns out, or until the rawhide is
thoroughly charred. You'll find
they lace much easier.

Lighter Guns for Older Men

As a man gets older he should
shoot lighter guns. It will greatly
improve his shooting.

Slowing reflexes respond better
when the gun is lighter. So, if you
have reached the 50-60-70 year
bracket, and find that your shoot-
ing is getting progressively worse,
lay down that 12 gauge, and pick
up a 20.

Carry Chlorine Tablets

Boil all water of which you are
not absolutely sure. Five minutes
boiling is sufficient for safety.

To save time, and should boil-
ing not be practical, treat water
with chlorine. Used as directed, it
makes water safe for drinking.
Carry a bottle of chlorine tablets
with you.

To Cut Glare From Sights

Smoke the front and rear
sights of your rifle to overcome
glitter that could spoil your aim
at a crucial moment. Pass sight
several times through the flame
of a burning match.

Condensed Milk for Glue

You have an emergency glue
right in camp.

Use condensed milk!
It will glue just about every-
thing—wood, paper, plastic, etc.
Just apply and let dry as you
would actual glue.

Crow hunters—here's a novel
decoy.

Coat Hangers for Decoys

Stretch old black socks over
wire coat hangers. Twist hangers
to resemble crow's shape, stretch
on socks, then hang here and
there on tree limbs around your
blind.

Hangers and socks are easy to
carry and are very effective, es-
pecially when used in connection
with a good crow call that is ex-
pertly used.

For Hurricane Victims

The Berliner Morgenpost of
Berlin notified Governor Daniel
that it is sending a check for 700-
000 marks (about \$200,000)
which it raised from the people of
Berlin, to be used to help victims
of Hurricane Carla. Check is made
out to Vice President Lyndon B.
Johnson, a recent visitor in Ber-
lin.

Farm Facts

Farm efficiency has increased more in the past 18 years than in the preceding 120.

Productivity of the American farm worker now is growing more than twice as fast as the productivity of workers in industry; the U. S. Department of Agriculture reveals us.

Since 1950, output per man-hour in non-agricultural industry has risen 2 per cent a year. In agriculture the increase has averaged 5 per cent per year.

The USDA cites the broiler industry as a good example of efficiency from farm to supermarket. Research developed a faster-growing broiler and a better diet for it. This new type of bird, fed the improved diet, produces a 3-pound broiler in 9 weeks, as compared with a 1.6-pound broiler in 9 weeks 30 years ago.

Production of beef per animal on farms is almost a half higher than 30 years ago. Although cattle numbers have increased no faster than the human population, beef output has outrun population.

Farm efficiency has increased more in the past 18 years than in the preceding 120.

Consumption per person is up one-fourth.

This productivity is a great source of strength. If our farmers were no more efficient than those of the Soviet Union—some 225 million Americans who now work in non-farm business would have to produce food, clothing, and forest products.

Cotton
is
VERSATILE

Cotton is a natural performer—starring in countless roles. In the home, at the office, in the factory, on the dance floor, for work or play, any season, day or night—cotton gets top billing. Cotton is a fiber of a thousand faces, one just right for any part from the cradle to the grave. No budding starlet, cotton, but a proved performer of many successful seasons. There is no denying it—nothing looks like cotton, does like cotton, is like cotton. It's in a class by itself.

B&PW Club Honors Six Community Leaders At Circus Dinner Monday

Amid festive Carnival decorations, approximately 80 local residents enjoyed a Carnival Dinner Monday evening at the Travis Cafetorium. Sponsoring the social were members of the Business and Professional Women's Club.

The cafetorium was attractively decorated for the occasion with stuffed animals, balloons, picture taking booth and the typical fortune-teller booth.

Virginia Browder was in charge of the informal program which was highlighted by naming in rhyme six community leaders who were honored by the club for their services to the community. Those honored were Byron Baldwin, Tommie Potts, Mrs. W. C. Dickey, Mrs. David Aronofsky, Mayor Haskell Howell, and Mrs. Roy L. Guthrie.

After the honored guests had been presented, Louise Howell, club president, responded with a poem to honor the toastmistress, Virginia Browder.

Serving as fortune teller for the evening was Nell Beeson and Mollie Carlos was the photographer. Roselyn Williams, costumed in

a bear suit, was on hand to greet the guests. The meal was served buffet style.

Virginia Chappell Is President Of TWU Dorm Org.

Virginia Chappell, senior sociology major, was recently elected president of the Rusk Co-operative Dormitory System at Texas Woman's University. The resident system, housing 330 girls, consists of three dormitories, Hufford, Ellis and Reagan Halls.

Other than the System president and secretary, the House Council consists of 24 floor chairmen and house representatives.

In addition to her position as head of House Council, Miss Chappell presides at dormitory meetings, is a member of Student Council, and Round Table, and represents the dormitory at all formal functions.

The daughter of Mrs. J. W. Chappell, Virginia is a 1959 graduate of Memphis High School.

Linda Campbell Named Secretary On WTSC Board

Miss Linda Lou Campbell, the daughter of Mr. and Mrs. Perry Campbell of Lakeview, has been named to the position of secretary on the Executive Board of the Student Union Board at West Texas State College. The Student Union Board is a part of the student government at WT.

Miss Campbell is classified as a sophomore at WT, where she is a member of Chi Omega, national social sorority, the Student Education Association, and is also a unit counselor in her dormitory. She was also on the WT women's rifle team last spring.

ESTELLINE NEWS

The Joe Bob Nivens have a new Oldsmobile.

We are glad to report that Debbie Bowman returned to school Monday after undergoing a leg operation in Oklahoma City approximately three weeks ago.

Lonnie Richburg Jr. of Fort Worth, son of Mr. and Mrs. Lonnie Richburg, has been called to active duty at Camp Polk, Louisiana, with the 49th Division. He and his wife and three children left this weekend. His family plans to live in Leesville, La.

Mrs. Lanny Tucker and son Jim of Hart spent the weekend with their parents, Mr. and Mrs. L. A. Tucker, and Mrs. Mae Spruill.

Jo Williams, daughter of Mr. and Mrs. Loyd Williams, and current Football Queen of Estelline, has her right foot in a cast. She hurt it about 10 days ago, but thought it was only sprained. But she has found out it is broken, and now is sporting a "Well-endorsed" cast.

Mr. and Mrs. Raleigh Adams and son Steve of Clarendon were in Quitaque Thursday night to see the Junior High football team beat Quitaque 22-0, and again Friday night they were in Matador to see the Senior High team play. Keith Rogers, an Estelline grad of 1957, officiated the Junior High game in Quitaque. He currently lives in Quitaque.

Albert Ward, an Estelline worker of 1961, is currently working in Memphis.

Mr. and Mrs. Odell Latham spent last weekend in Windhorst with their son and wife, Mr. and Mrs. Russell Latham.

Mrs. Joe Eddins spent Thursday in Quitaque in the home of her daughter, Mrs. James Roberts and family.

Eddie Jack Mabry, son of Mr. and Mrs. Truman Mabry of Tell, is currently in Camp Carson, Colorado, serving in the Army.

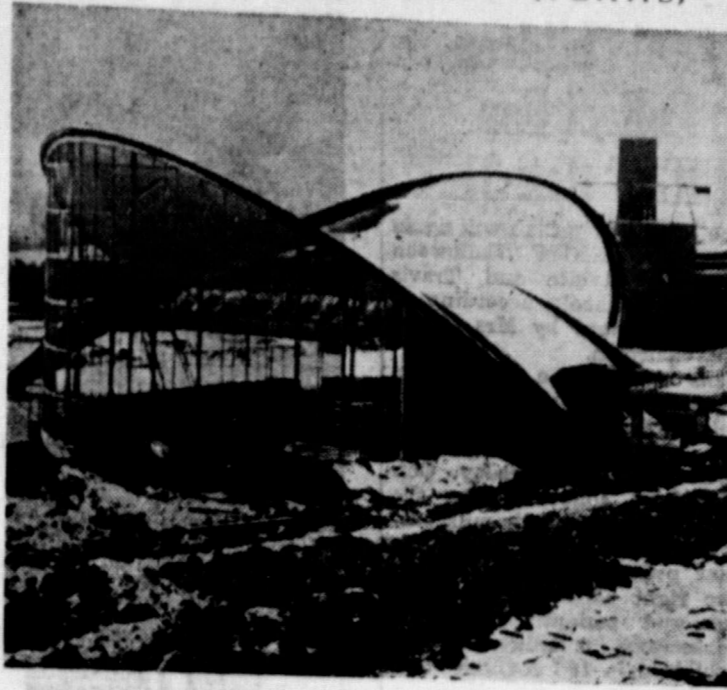

The W. M. Gowdys have purchased the Automatic Laundry from the R. V. Woods. They also run the Texaco Filling Station in the same building as the laundry.

The Intermediate Class of the Methodist Church is currently selling Pictorial Bibles in order to furnish their newly-painted class room. Anyone interested in buying one, see Mrs. James Futch of any member of her Sunday School Class.

Lanny Mack Tucker, son of Mr. and Mrs. L. A. Tucker, now teaching vocational agriculture in Hart, has returned from a very profitable trip to the State Fair of Texas in Dallas. Out of 26 hogs, 20 placed and one of his boys has the grand champion Berkshire hog.

Visiting in the George Helm home last week were his cousins, the Burt Cottmans of Fort Smith, Ark.

Please remember: Trick or Treat for UNICEF sponsored by the Children's Division of the

BUTTERFLY SHAPE . . . Modernistic building at Lausanne, Switzerland, will house a school of horticulture upon its completion.

Assembly of God Church To Hold Spaghetti Supper

Members of the Assembly of God Church will sponsor a Spaghetti Supper on Saturday evening, Nov. 7, in the Travis Cafetorium, it was announced this week. Tickets will be \$1.00 for adults and 50 cents for children.

The menu will include spaghetti, salad, bread, dessert and drink. The public is cordially invited to attend.

Proceeds from the social will be applied to the indebtedness of the church.

The Woman's Society of the church is also holding a rummage sale each week and taking orders for quilts which will be made by the organization. They will piece quilt blocks, do quilting or both.

Children of the church are selling candy, spices and flavoring.

Joe B. Browning Named Business Manager of Annual

Joe Bob Browning, 1952 graduate of Memphis High School, is the business manager of The Centurion, the annual of Clarendon Junior College.

The editor of the annual is Betty Chamberlain, Clarendon. Jo Ann Wood, Brice, and Sharron Hall, Pampa, are co-editors. The other business manager is Joe Young, Winters. The staff photographers are Philip Abel and Alfred McNabb, Clarendon.

Sponsors are Mrs. Lucile Naylor and Weldon Day.

Wayne McCauley and Jimmy Winters were in Canyon Saturday night to attend the West Texas State - Hardin - Simmons football game.

LOCALS AND PERSONALS

Mr. and Mrs. H. H. Lindsey and Dr. and Mrs. J. W. Fitzjarrald have returned home after enjoying a few days vacation in Arkansas.

Mrs. Bill Kesterson and Dana spent the weekend in Lubbock visiting with their parents and grandparents, Mr. and Mrs. Ellis Rogers.

Application To Be Made Now For AFS Program

Students who plan to make application for the American student abroad program with the local chapter of the American Field Service should do so within the next few days, Mrs. David Aronofsky, president of the chapter, said this week.

Preliminary application blanks may be picked up in the office of Clinton Voyles. These must be filled out before student meets with the screening committee. Allen Dunbar, coordinator for the AFS American Abroad program, stated.

Mr. Dunbar stressed that complete papers must be in New York the first part of November; so there can be no delay in making application.

Members of the screening committee for 1961-62 will include J. W. Coppedge, Hubert Dennis, Mrs. H. R. Stevenson, Mrs. D. H. Aronofsky, Don Gailey and Barbara Elem, Dunbar said.

"If there are any questions for either parents or students concerning the program, please contact Coordinator Dunbar, the president said.

WTU Is Holding Grand Opening Of Office Today

In celebration of the opening of the new local offices of West Texas Utilities Company in the Lemons Building, WTU is staging opening house today. The public has been invited to attend from 2 to 5 p. m.

Local Manager Jack Norman and his personnel served as hosts assisted by district personnel from Childress and representatives of the general office in Abilene.

The Lemons Building has been completely renovated and remodeled and the WTU offices were moved several months ago. A very attractive new front has been added, the latest in lighting fixtures have been installed, and many new features have been added, which will assist in rendering improved service to the company's customers.

School Children To Collect For UNICEF Oct. 31

The 1913 Study Club will again sponsor a UNICEF Halloween through the Austin and Travis Elementary Schools, according to an announcement by Mrs. R. E. Roark, chairman.

Plans are for the students in the two schools to collect pennies in milk cartons as they make their trick or treat visits over town on Halloween night, Tuesday, Oct. 31. Children collecting for the UNICEF will have their milk cartons identified with those letters so that public donations will go to the right place to help fight disease and malnutrition among approximately 30 million mothers and children in 106 countries and territories.

"Self-help" is the keynote of UNICEF aid. Assisted countries match every UNICEF dollar with an average of more than two dollars of their own. This United Nations Children's Fund is endorsed by the President of the United States and the major religious organizations in America. Its goal of providing a better and healthier future for millions of the two-thirds of suffering children of the world is fully consistent with Christian tradition.

Just one penny provides the vaccine to protect a child against tuberculosis. One penny provides five large glasses of milk. Five cents means penicillin to cure a child of the dread tropical disease, yaws, Mrs. Roark stated.

Each year the opportunities and challenges are greater, and the UNICEF has more needs to meet. As millions of youngsters have the fun of sharing their Halloween with the sick and hungry children of the world, they learn "the trick is to treat," she concluded.

McLean Downs Cyclone In Close Game

McLean Takes First Conference Game By 13-12 Score From Local Eleven

In one of the hardest fought High School football games played in the Panhandle, the Memphis Cyclone lost a 13-12 decision to the McLean Tigert Friday night in the first conference 2-A game of the season for the local team.

Trailing at halftime, 13-6, the Cyclone came back strong in the third quarter to completely dominate the last half of play but were unable to take the lead. The Cyclone chalked up 4 penetrations to McLeans 3 during the game. The Tigers led in yards rushing and first downs.

Memphis	McLean
4 Penetrations	3
9 First Downs	13
85 Yards Rushing	164
64 Yards Passing	27
149 Total Yards	191
3 Fumbles Lost	4
35 Yards Penalized	59
6 Incomplete Passes	2
1 Intercepted Passes	0

Cyclone FB Eddie Jones was the local squad's leading ground gainer with a 4.8 yard per carry average. He carried 12 times for 58 yards. Doug Peters carried 7 times for 9 yards; Bill J. Pounds carried 8 times for 9 yards, and Perry Wright carried 8 times for 21 yards for a 2.6 yard per carry average.

First Half Play

The Cyclone kicked off to McLean who returned the ball to the McLean 31. On the first play, Cyclone linemen Rex Grisham, Don Gailey and Dale Sexton crashed through, jarred the ball loose from a McLean back and recovered it on the 31.

FB Eddie Jones carried for 3 yards, Doug Peters carried for 5 yards and will crown their Football Sweetheart. The Eagles have lost only one district game, to Miami, this season. Darrouzett was beaten badly by Miami earlier this year; so the Eagles, who lost to Miami by a 14-0 margin, should be picked the favorite.

The Turkey Turks and the Estelline Bear Cubs are resting up this week to prepare for their game at Estelline next week. It promises to be a good one.

Robert Duncan announced that he has received about 50 men's names to enter the ABC Bowling Tournament. He said the first place trophy will be over 20 inches high and something worth fighting for. The tournament is set up to run over a six-week period with the possible 96 men bowling two lines a week with a handicap based on three-fourths of the difference between their score and 200.

The game Friday night between the Memphis Cyclone and the Clarendon Bronchos promises to be one of the best this season. The Clarendon team will try to make up for weight disadvantage with passing and their fast backs. They will have the problem of stopping the Cyclone's power plays which eat up yardage.

Matador Stops Estelline 49-16 In District Game

The Estelline Bear Cubs lost their first district game last Friday night to Matador, 49-16. The team will have an open date this week, and will host Turkey next Friday in the last game of the season.

Estelline's FB Jesse Corona scored one of the Bear Cubs TDs on a 60-yard run in the third period, and QB Rolfe Wooten set up the second touchdown on a 65-yard carry. Wooten carried over from the two-yard line for the final tally. Both extra point attempts were good.

Coach Jimmie Don Adams said the Bear Cubs did not play as good a ball game against Matador as they did the week before against Boys Ranch. However, he said the Matador team was one of the best squads they had met.

more and QB Wright carried for a first down to the 21.

Carries by Jones, Jones, Peters and Jones moved the ball to the McLean six yardline and another first down. On the next play, a pitchout to HB Bill J. Pounds who circled left end, was good for the TD and the Cyclone led 6-0 with 7:53 left to play in the first quarter. The place kick by Richard Ellis was wide to the left.

McLean took over after the kickoff on their own 37. McLean's HB Jim Watson gained 7 yards on one carry and then circled right end for a good gain to the Cyclone 20. The Tigers made their first penetration on a three yard carry by Watson. Two incomplete passes left them with a fourth and 7 situation on the 17, and a fourth down play netted a loss of three yards so the Cyclone took over on downs.

The Cyclone's first bad break of the game came on a third down when McLean recovered a Cyclone fumble on the 22 yardline.

A 5-yard offside penalty against the Cyclone, and carries by Watson and Willingham moved the ball to the Cyclone 11. HB McCarty and Willingham carried for a first down to the 1 yardline and another first. On the first down, the Tigers were penalized 5 yards for offside. Watson was stopped on the line of scrimmage on the first down but picked up four yards on the second. Then QB Willingham carried over on a quarterback sneak for the TD. Willingham place kicked the extra point to put them ahead 7-6.

Willingham kicked off for the Tigers and Perry Wright returned it to the 35. The Tigers drew a 15 yard penalty for a personal foul. The Cyclone could not make a first down, so Pounds went back to punt and the first quarter ended.

On the first play of the second quarter Pounds punted against the 15MPH south wind 33 yards to the McLean 19. McLean was held and punted 38 yards to the Cyclone 39 and Pounds returned it 5 yards.

The Cyclone's second bad break of the evening came on the second down when a fumble was recovered by McLean which set up their second TD drive.

The Tigers took over on the 46 and Watson started his second series of carries of the night. Three carries by Weston netted 13 yards to the Cyclone 35, then another carry by Watson netted 34 yards to the Cyclone 1 yardline. He was downed by Guard Don Gailey on the one.

On the next play Willingham was thrown for a one yard loss. Then, Watson carried over for the second TD. Willingham's place kick was blocked by Don Gailey, and the score was 13-6.

McLean kicked off to the Cy-

JONES CARRIES — Pictured above is FB Eddie Jones carrying in the Memphis-McLean game last Friday night. Jones was stopped at the goal line (shown off the point of the left knee of No. 10 Jim McCarty) by McLean Guard Clyde Windom, No. 61. Cyclone players shown besides Jones are No. 40 Bill J. Pounds, No. 20 Doug Peters, No. 80 Dwight Gailey, No. 60 Don Gailey, No. 63 Dee Miller, No. 73 Dale Sexton, No. 80 Jackie Bridges and No. 50 Ronald Ables.

ABC Sanctioned Bowling Meet Set For Nov. 13

Bobby Duncan announced this week that the American Bowling Congress sanctioned bowling tournament will get underway Monday, Nov. 13, at the Memphis Bowl.

He said that so far 50 men have signed up for the tournament, and as arrangements now stand, there will be room for 96 bowlers to enter the six-week tournament.

Duncan said that the first place trophy will measure 22 and three-quarter inches in height. Three additional trophies will be given away to the second, third and fourth place winners.

The tournament will be played off at noon each day, six days a week, he explained. The lanes will be reserved from 12 to 1 p. m. Monday through Saturday for six weeks. Each man will bowl two lines the first day to set his handicap, and the handicap will be figured on the basis of three-fourths the difference between the scratch score and 200 pins.

The cost of the tournament will be \$1.40 per week. Duncan explained that this also covers the cost of shoes for those who do not own their own. He added that shoes are being furnished by Keiglers Korner.

"It is very important for those Jones carried, and bucked his way to the one-foot line but was short for the all important score.

Then McLean started the time consuming ground eating drive with Watson carrying the ball almost every time. In three downs Watson moved for a first to the 12 yard line. Watson then carried for 12 more yards to the 24. Then, the Cyclone defense got tough and stopped Watson on the line of scrimmage. End Dwight Gailey threw Dickie Crockett for a 4 yard loss. Then, McLean's QB Willingham went back to pass, cocked his arm twice and couldn't find a receiver, then passed to Watson who waded through Cyclone tacklers to the McLean 47. At this point, the Tigers were stopped and Willingham punted, but roughing the kicker was called against the Cyclone and McLean had a first down on the Cyclone 37.

Three more downs with Watson carrying netted another first to 26, but here a 15-yard clipping penalty stopped their drive which netted 79 yards and added five first downs to the statistic column.

The Cyclone took over the ball on their own 33 with 22 seconds left in the game. A screen pass to Eddie Jones netted four yards, and on the next play a McLean defender intercepted a pass. This ended the game.

who wish to enter the ABC sanctioned handicap tournament to contact me and sign up for it is time to start making out the schedule," Duncan said.

Eagles To Host Darrouzett At 7:30 P. M. Friday

The Lakeview Eagles will host the Darrouzett team Friday night in the final home game. The contest will start at 7:30 p. m.

Coach Bob Taylor stated that in Tuesday's workout two of the team's starters received turned ankles. The extent of the injuries could not be determined, he said. It was understood that the boys would be in the lineup Friday night if they were able. Those injured were Paul Ponder and David Payne.

The coach said the Darrouzett team is expected to show a good passing attack, but is not in contention for the district title since their defeat by Miami, the only team the Eagles have lost to this season.

At half-time Friday night the Eagle Football Queen will be crowned in a ceremony, it was announced.

Memphis football fans, coaches and players on the Cyclone team re-joiced from McLean Friday night at the 13-12 defeat of the local team. The pill was hard to swallow because at many points in the last half of play it looked like the Cyclone would win the game. When the final whistle blew it was McLean with the points on the scoreboard, the stands stood in hushed silence for several moments. In District 2-A next season and may prove to be the team to beat, the coach said. Another strong team on next year's card will be the Crowell eleven, one of the strongest Class AA teams in the state. Also on next year's lineup will be the Cyclone in years past. Teams which probably will be dropped are Estelline, Hollis or Paducah. Coach Lambert said that he will know definitely later about the schedule.

Congress and Conservation

Members of the 87th Congress showed by their votes that they know the nation's need to conserve and improve its natural resources.

They passed the Blatnik Bill. This authorizes clean-up of the filth in our streams. They appropriated \$80 million for next year and this is a good investment.

They joined other nations in the effort to prevent oil pollution of the sea.

They passed the Dingell Bill. This will let the Fish and Wildlife Service buy or lease wetlands. Ducks, fur-bearers, fish all need wetlands.

They authorized use of surplus grain for emergency wildlife feed.

They created the Cape Cod National Seashore in Massachusetts.

They established the Wyandotte National Wildlife Refuge in Michigan.

They saved the scenic views at Mount Vernon and Fort Washington on the Potomac from a sewage treatment plant.

They created the Hawaii Volcanoes National Park.

They took steps to improve the boundary waters canoe area of Superior National Forest, in Minnesota.

They put up \$250,000 for the Choctaw National Wildlife Refuge in Alabama.

They made the nation a partner with farmers in preserving wildlife by authorizing agricultural conservation program funds for such conservation work.

They authorized \$50 million for cities to get open space for recreation.

They extended for two years the states' chances to share in more federal funds if they control advertising on the new interstate highways.

It was a good year in Congress for those who believe clean air, clean water, and a rich green earth are indispensable.

There is more work to do, some of it well started at this session, and likely to be completed next year.

Altogether, we say, "well done" to the senators and representatives as we view their conservation record.

—Ft. Worth Press

—O—

Boner, Yes . . . Treason? No!

As a mere "moderate" we hesitate to join Birch lining Dan Smoot and his "National Indignation Convention" in blasting the U. S. government for training Yugoslav airmen at the U. S. Air Force Base at Sherman . . . and for the balance of the deal in which the U. S. sold Sabre-jet fighter planes to Yugoslavia's air force . . . but in this case we think the criticism is called for and the indignation justified.

Which doesn't mean that we are endorsing or echoing in any way Dan Smoot's rabble-rousing charges that President Kennedy plans "to surrender" to the Communists.

Smoot seized on the incident of the Yugoslavs in Sherman to fire broadsides at the U. S. government, past and present, in a manner typical of the ultra-conservatives who detect treason and communism in every act with which they disagree.

To intimate, as Smoot did in round-about fashion, that President Kennedy plans to "surrender the U. S." to the communists because Kennedy's aid to education bill "was a plan to surrender control of American education to the United Nations" and "Kennedy has a plan to surrender control of the United Nations to Russia" would be a vicious slander if it weren't so patently ridiculous.

John F. Kennedy is a patriotic American who is actively serving his country, which is more than Dan Smoot and his crowd can claim.

But selling American planes to Communist Yugoslavia . . . and training Communist pilots to fly them . . . reflects a serious error of judgement on the part of someone in the government and is certainly a fair target for criticism.

We don't believe that the American businessmen who sold all that scrap iron to Japan back in the late 1930's had treason in their souls, either . . . but the stuff still had sharp edges when it was fired back at us.

What Other Editors Say

Your Newspaper

As a newspaper editor, I hear remarks similar to this: "It would have been better if you hadn't printed that story," or "What good did it do to print this story?"

Usually such a statement is heard when some unfavorable situation develops involving an individual, an event or organization or community. Usually the criticism stems from the same individuals who seek — and expect — favorable publicity whenever the occasion warrants it.

Some people say no worthwhile good is accomplished when a respected citizen is drawn into a court test. I maintain, however, that it proves the laws are made for everyone, no one rates immunity.

"Unfavorable publicity" charges are made at times such as trials of leading citizens, the arrest of citizens, a local citizen's involvement in a suit, or just news stories carrying names people don't like to see in print. Charges are made that the press is doing irreparable damage by reporting the facts.

It is our policy that an informed public is by far the best policy. There is no greater enemy to rumor and exaggeration. This newspaper has never been one to carry all "sugar and cream" stories reporting only the favorable occurrences and overlooking anything that might tend to be embarrassing or unfavorable to some.

Newspaper, whether it is the Ralls Banner or the New York Times, is a mirror that reflects the activities of a community and sometimes, perhaps, that mirror is clouded. I believe these policies, maintained in all cases and fostered through the years, formulate an adequate reply to critics who object to this newspaper publishing news events as they occur.

The editorial policies of this paper, as well as any other carrying an editorial page, are the beliefs of the editor or the editorial writer. The things found in these articles are the thinking of the editor, said for the purpose of stimulating thinking among readers of the newspaper.

At times people tend to become lax in their thinking to the point of indifference. The editorials and ideas expressed are aimed at wakening individuals and their ideas. We do not ask that they all agree with us, only that they say what they think before an event occurs, not after when the damage is done and cannot be repaired.

Your newspaper is your servant. It may or may not print stories you like, but it will strive to give you the news as closely correct as is humanly possible. It is only one form of freedom still left in the United States, a freedom to be nurtured and held in high esteem. When people are not allowed the freedom of self expression and news of current events we will no longer have the freedom and democracy for which this country was founded.

—The Ralls Banner

Neutralism

Gidfrey Schmidt, speaking on a television panel recently, raised the question whether any decent man in today's world can be neutral. It is a good question and one which should be explored.

Knowing what communism stands for in this world and what it does to the rights and lives of people, how can any man be neutral—in the decisive struggle between communism and democracy?

That is the way Schmidt would put the question and it is the sensible form in which to put it. Too often these days we succumb to the brainwashing which we have all been subjected to over the years — accepting the theory that we must coexist and negotiate every faked crisis with the Communists.

But to this, while the Communists subvert and kill and suppress people all over the world is to dodge the reality of the situation confronting us. It may be the soothing course of action for the moment but we have been losing ground following that course, and losing allies.

The truth is that we are at war with communism. It is a kind of war which is deceptive and with which we have not been confronted in the past. Nevertheless, it is a sinister and all-out war. That being the case, we should carry the torch of freedom everywhere, positively.

The United States should speak out loudly and often for the free-

dom of all peoples, especially those suppressed in the Iron Curtain countries. We should make this a point of any talks with the Soviets, and reap the propaganda benefit from it. We should constantly hold out this encouragement, and U. S. support, to the captured peoples under communism, for this is about their only hope.

'62 CORVAIR MONZA

NEW FACE, SAME SPORTING HEART

We might as well tell you straight off: Corvair's the car for the driving enthusiast. Think that lets you out? Maybe. Maybe not.

Until you've driven one, you really can't say for sure, because Corvair's kind of driving is like no other in the land. The air-cooled rear engine sees to that. You swing around curves flat as you please. You whip through the sticky spots other cars should keep out of in the first place. (Especially this year, now that you can get Positraction as an extra-cost option.) You stop smoothly, levelly with Corvair's beautifully balanced, bigger brakes.

Corvair's found other new ways to please you this year. A forced-air heater and defroster are standard equipment on all coupes, sedans and both Monza and 700 Station Wagons. So are dual sunshades and front-door armrests and some other goodies. You'll note some new styling, inside and out. Nice. And safety-belt installation is easier, too, and cheaper.

So you can see we haven't really done much to Corvair this year. Why on earth should we? If this car, just as she is, can't make a driving enthusiast out of you, better take a cab.

And here's America's only thoroughbred sports car, the '62 CORVETTE. We warn you: If you drive a Corvette after your first sampling of a Corvair, you may well end up a two-car man. And who could blame you?

MY RABBIT
(First Place)
My rabbit's name is Nippers. He likes a pair of clippers.

He likes to bite and bite
And sometimes we even fight.
But he cannot help it,
For that is his habit.
But I have lots of fun with
Nippers,
Who bites like clippers.

I saw some leaves a-falling,
A-falling from a tree.
My little doggy saw it, too,
And he went outside to see.
All we found were little tiny
leaves.
My little dog was mad as
could be.

Oh what a sight,
On Halloween night,
On Halloween night,
When the witches, goblins,
ghosts and spooks come up to
your door,
It frightens me so that I don't
like to go trick or treating
On Halloween night.

CLOCKS
(Second Place)

We have a grandfather's clock,
It is very tall.
When I pass it goes tick-tock.
The hands are very small.

I wear a clock to school,
It is very bright.
It is a perfect jewel,
I always keep it in my sight.

My mom has an alarm,
It makes an awful noise.
I was sleeping on our farm,
And it woke me up.

My dad has a pocket watch,
He keeps it in his pocket.
He takes it everywhere he goes,
And doesn't even drop it.

Everyone should have a clock,
To keep the time of day.
So if you don't have a watch,
The time will run away.

GOD**
(First Place)

God is great, God is good.
He'll help you live the life you
should.
He helps you in sadness, He
helps you in joy,
He will even help every girl and
boy.
Just take some time to send
him your prayer,
And it won't be long 'til you
know He's there.

God is good, God is great.
His motto is love, never hate.
Live by it daily and soon you'll
see,
What a better person you have
come to be.
Give him your life and forever
you'll live,
In your heavenly home which
the Lord will give.

THE CLOCK
(Third Place)

The clock does go many a day,
Without being stopped upon its
way.
It goes all night, even goes all
day,
That poor old clock which runs
all day.
It runs from hours one, two,
and three.
The clock is just like a buzzing
bee.
It can be set to stop or go,
But whatever it does it's busy
you know.

THE SUMMER
(Fourth Place)

The summer is full of beautiful
things,
Of pretty green trees and
flowing springs:
The green grass and crystal
blue ponds,
Makes you think of the land
beyond.
The sun sitting behind a hill,
And the far off call of a whip-
poorwill;
The shading leaves of a tree,
Makes you feel so full of glee.
And the cool summer breeze,
Makes you feel so much at ease;
The singing birds in trees above,
Fills you up with brotherly love.

Jeff Harper celebrated his 90th birthday last Tuesday, Oct. 17, quietly with just home folks. Many more happy birthdays, Mr. Harper. The 29th of October Mr. and Mrs. Harper will have been married 70 years.

Mr. and Mrs. A. M. Sims and Mrs. G. E. Nelson visited with relatives in Perryton Saturday and Sunday. The Sims visited with their son and wife, Don, and Mrs. Nelson with her aunt and cousin, Mrs. Clark and Nordica.

Mr. and Mrs. O. S. Misenhimer accompanied her brother and wife, Mr. and Mrs. Worth Howard, and sister, Mrs. Mabel Lavender to Fort Worth Sunday to her uncle and aunt, Mr. and Mrs. Jodie Wilton's 50th wedding anniversary. Mr. Wilton is a brother of the late T. K. Wilton and brother-in-law of Mrs. T. K. Wilton.

Mr. and Mrs. Odell Ralls of Happy visited her parents, Mr. and Mrs. Jeff Harper Tuesday.

D. C. Messick, Sr., visited in Vernon with his son and wife, D. C. Jr., and girls over the weekend.

Mr. and Mrs. Dean Stewart and son and Mrs. W. D. Stewart were business visitors in Amarillo. Dean has been recalled to active duty in the Army and has to report about the 27th at Fort Hood. While in Amarillo, they visited their sister and daughter, Mr. and Mrs. Vernon Edwards.

Mr. and Mrs. Garland Gardenhire of Estelline visited with Mr. and Mrs. Elmer Gardenhire last Sunday night.

Mrs. J. L. Ballard, Mrs. Mary Lou Erwin, Mrs. Henry Maddox, Raye and Gaye and Miss Agness Nelson of Memphis, Mrs. T. K. Wilton of Salisbury, Mr. and Mrs. Don Sims of Perryton and Mrs. Bobby Helm and Melinda of Pampa visited with Mr. and Mrs. A. M. Sims recently.

Mr. and Mrs. J. N. Helm, Sr., visited Sunday with Mr. and Mrs. Leon Helm.

Mr. and Mrs. James Hughs have moved to Pampa last week.

Farm Facts

Value of farm real estate per farm—not including dwellings—rose from \$11,278 in 1950 to \$25,308 in 1960, according to the U. S. Department of Agriculture.

While the total value of farm real estate increased sharply during the same period, the percentage was not as marked as the increase "per farm." Total market value of farm real estate in 1960 was estimated at \$129.1 billion. This compares with \$75.3 billion in 1950 and \$33.6 billion in 1940.

A factor in the increase in value of real estate per farm is that real estate values have been climbing while the number of farms has been declining.

Farm buildings accounted for about 22% of the total value of farm real estate. About half of this was accounted for by dwellings of farm operators.

Nationally, the average value of farm real estate amounted to about \$111 per acre.

The USDA pointed out in its 1960 Balance Sheet for Agri-

Farm real estate value more than doubled from 1950 to 1960.

culture that the calculated rate of return on current market values of farm real estate—after other costs had been paid—was below the mortgage rate of interest.

They came by Sunday for a visit with his grandmother, Mrs. Lelia Hughs.

Mr. and Mrs. D. K. Cottaman of Fort Smith, Ark., came to see her mother, Mrs. Ruby Evans, who has been ill, and they visited with Mr. and Mrs. J. N. Helm, Sr., while here. They left Friday accompanied by Mrs. Evans who is going to visit Mr. and Mrs. Cottaman for a while.

Visitors in the home of Mrs. Lelia Hughs during the past week were Mr. and Mrs. James Hughs of Pampa, Mr. and Mrs. Marvin Hall of Amarillo, Mrs. Mona Clark and sons Judge and Arthur of Lesley, Mr. and Mrs. Jack Hughs of Seminole, Mrs. Bill Longshore of Memphis and Mrs. Della Broadstreet of Hedley.

Mr. and Mrs. Melvin Blevins

and Mrs. L. P. Blevins of Amarillo visited with Mr. and Mrs. George Helm recently.

Communist Strategy

Question is asked many to whether or not the Communists have changed their strategy or will change their strategy. Strategy is defined as a plan of action, in the light of this question, the answer is a definite NO. However, it is not that the Communists have changed their types of strategies, and can be expected to change these from time to time to suit the circumstances. However, the purpose, to wit, Communism, to take over the world, will not change.

One of the tricks that the Communists have employed or re-employed are needed to the Communist cause. If this change of position geographically, politically or otherwise, will be made, the change must be constructed by those unscrupulous as an indication of their weakness on the part of the Communists. Those people who are presently emerging into the world of independence would walk very carefully and with great care each and every step they take. Many of the people who are former colonists upon this country as the people that could ever be of an ex-colony. They depend upon us for leadership and expect that leadership, however, many of the people who are not familiar with the responsibilities, the burdens and the probabilities of independence government. Hence, they are ducks in many respects to the Communists. The Communists realize this and are exploiting it for all it is worth. In the end, it is one of the circum-

stances that caused the USSR to make a major change in its tactics. Prior to the emergence of these new countries, the Communists had operated primarily on the premise that they must work outward from their home bastion. In other words, move those countries adjacent to the Communist countries of the USSR and Red China. Korea was an excellent example of this tactic. Laos and Viet Nam have been other examples as has the satellites in Eastern Europe. However, a marked change has been noted by students of the Communist strategy. They have begun to step up at great length their activities in the infiltration of countries and areas separate and apart from their homeland area, separated in most instances by areas of the Western free world. Cuba is an excellent example of this type of diplomacy as is the great changes that have been made in Indonesia in recent months by the Communists. Other examples are many of the countries in Africa, as well as the stepped up efforts in South America. This does not mean that their efforts will be relaxed in the areas immediately surrounding the main Communist stronghold. The same brush fires will be continually maintained, such as Berlin, and the difficulties in the Near East countries—Laos, Viet Nam, Quemoy, Matsu and Formosa.

The prime objective in the European area is to destroy the North Atlantic Treaty Organization, commonly called NATO, of which this country is a member. If the Soviets can mislead Western Germany into withdrawing from NATO, it will have accomplished a great proportion of its purpose. They obviously hope to do this by neutralizing Germany with any and all agreements or promises necessary to accomplish this result. Once neutrality has been ac-

Girl Scout Leaders Hold Meeting At Cyclone Drive-In

A neighborhood meeting of Girl Scout Leaders was held at the Cyclone Drive-In Tuesday morning, Oct. 19.

The Girl Scout Consultant of the Quivera Girl Scout Council, Martha Skelly, brought many interesting details for programming in Brownie and Intermediate troops.

The announcement of the coming annual Girl Scout Calendar sales was made by Mrs. Brode Hoover. The sale will begin Monday, Oct. 30. Price of the calendars will be 35c; 21c of which will remain in the troop to be used for individual troop activities and projects. The 1962 Girl Scout calendars feature pictures of Girl Scout activities and allow ample space for important memorandums, Mrs. Hoover explained.

A brief talk was made by Mrs. Elmont Branigan on the coming financial drive for the Girl Scouts. Of the leaders attending the meeting, several volunteered for team captains to help make the drive.

Miss Skelly answered questions the leaders asked in regard to organization and directing meetings of their troops. There were several new leaders and assistants taking troops this year.

Those attending the meeting were Mmes. Josephine Burgess, Betty Johnson, Jane Taylor, Grady Haynes, Betty Browning, Marjorie Kesterson, Aulis Ayers, Wanda Coldiron, Louis Foxhall, Florita Branigan, Brode Hoover and Martha Skelly.

Hall County Soil Conservation District News

Farmers in the Hall County Soil Conservation District are making and carrying out plans to combat wind erosion on their farm land this winter and next spring.

A good many farmers have planted cover crops of small grains or winter legumes. Several hundred more acres will be sown as soon as the cotton is out, if moisture is available. These cover crops will protect the land and will also provide additional organic material for the soil.

A growing crop is the best protection for the soil. Next best protection is the management of previous crop residues. The stubble or stalks from previous crops, if left standing on the surface, will provide protection for the soil.

Where moisture conditions are not favorable for establishing a cool season growing crop, and where there is not enough residues from previous crops to protect the soil, other plans must be made to retard and control wind erosion.

Surface roughening tillage operations should be carried out as a temporary measure to assist in control of erosion.

There are several methods of

roughening the soil surface, such as chiseling or listing or any other operation that will put clots on the surface or ridge it up. Remember that these are only emergency or temporary measures and usually will not provide long-time protection. The fields should be watched closely, and when necessary, other operations should be performed to retard wind erosion.

There is no overall method of surface roughening tillage that will work on all soils. The best method for a field will depend on the soil and the condition of the soil within the field. One type of equipment may provide enough roughness in one field, but will not do the job on an adjoining field. Soil moisture is the most important factor in selecting the implement and operation that will control or retard wind erosion for the longest period of time.

These emergency tillage operation should be carried out at right angles to the prevailing winds. When a lister is used, it should be run on the contour. This will help conserve moisture as well as providing protection from wind erosion.

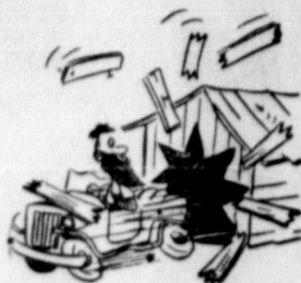

On fields that have adequate sorghum or other residues to keep them from blowing, the greatest of care should be exercised in the management of these residues so as to maintain them throughout the blowing season.

Your Soil Conservation Service technicians are available to give you information on your soils, conservation measures and adapted protective measures against wind erosion.

Mr. and Mrs. E. E. Foster visited in Liberal, Kans., the past weekend with their granddaughter and her husband, Mr. and Mrs. Russell Presley.

Mr. and Mrs. Sam Jackson spent Sunday visiting in Borger with their daughter and family, Mr. and Mrs. Richard Hale and daughters. The Jacksons helped celebrate their granddaughter, Mitzi's, second birthday.

SEVEN WONDERFUL NIGHTS AND DAYS AND TRUE AND WAYNE, TOO

take 10 to know

KFDA TV has a moving eye — camera eye, that is — that puts you in the middle of whatever happens on the Golden Spread. To get there faster and see more, KFDA TV makes constant use of its own airplane. In addition, crack newscaster Ralph Wayne uses sound film cameras plus four radio cars with two-way communication to peace officers. Dan True, dapper Dean of Golden Spread weathermen, also "goes aloft" to keep KFDA TV's weather eye cocked. And his special equipment includes the accurate Weather-Map-Machine, two weather tele- types, and the Panhandle's first radar unit owned by a TV station. In command of KFDA TV's rotating Farm and Ranch Wagon — with its sound film camera and complete radio communication — is veteran Jack Tompkins who specializes in on-the-farm interviews. And remember when the news merits it, KFDA TV will stay on the air around the clock to keep you informed to the minute!
