SEA OF COTTON — A virtual sea of cotton can be seen north of the Memphis Compress Co. here in Memphis as the cotton harvest this year draws to a close. The picture shows about 20,000 bales of the 110,000 bales which the compress has received here and at Turkey and Hedley. M. C. Allen, manager of the firm, estimated that the total will be about 122,000 bales before the season is completely over. Some of the warehouse buildings can be seen in the background.

Rotary Club Has Dinner Tues. Honoring College Students

The Memphis Rotary Club entertained area college students Tuesday with a luncheon in the Masonic Hall.

Dr. John C. Stephens, assistant to the president, Abilene Christian College, was the guest speaker for the occasion. About 24 college students attended the meeting.

The speaker told the group that they should get a vision of what can be done with one's own future.

"We should be motivated by love of country, love of home and

Capt. Sim Goodall Is Recalled To Active Duty

County Attorney Sim Goodall this week received notification that he must report for active duty with the Air Force on Jan. 2 at Sewart Air Force Base, Tenn.

Goodall will go from there to Washington for a refresher course and then return to Tennessee for permanent assignment. His family plans to remain here during the time he is in Washington, and then join him when he returns to Tennessee.

Capt. Goodall served on active duty from May 1953 until May 1955, and has been a member of the reserves since that time. He will leave Memphis Dec. 31.

T. A. Shahan, Dist. Manager For WTU, Dies

J. Paul Goodson, justice of the peace at Childress, has returned a verdict of accidental gunshot wound as the cause of the death Monday of T. A. Shahan of Childress, who has for many years been district manager of the West Texas Utilities Co., well known and liked by the many who knew him all over the entire district.

Mr. Shahan was shot fatally through the heart Monday afternoon as he was taking a high-powered rifle from the rear seat (Continued on Page Ten)

Firemen Answer Several Calls

During the past two weeks the Memphis Volunteer Fire Department has answered five fires, all of them except one being grass fires.

On Dec. 19, the firemen put out a grass fire in the small draw immediately west of Memphis, north of the Lakeview highway near the wrecking yard. Then on Dec. 26 they answered a call to the same location, where the grass and weeds were burning on the south side of the highway. Also on Dec. 19 Police Chief Guy Wright and other nearby persons put out a grass fire near the bridge on the road to the cemetery.

Dec. 20 firemen were called to the A. J. Pace home on 5th Street where a small storage room at the back of the house was burning.

Christmas Day was not a day of rest—for the firemen answered two calls, one at the compress and the other east of town on ranchland owned by Mr. and Mrs. John Deaver.

The fire at the Deaver ranch burned about 320 acres of conservation reserve land before it was brought under control by the firemen from Memphis and Well.

Hall County cotton ginning continued at a fast pace in spite of the Christmas holidays with a total of 71,100 bales being ginned through Thursday morning, according to a telephone survey of county gins.

This is the first time in many years that the number of bales ginned has crossed the 70,000 mark. The greatest crop ever produced was in 1949 when 88,214 bales were produced in Hall County.

The only other years which have recorded greater production was in 1928 when 87,078 bales were gathered here, and 1926 with a total of 72,020 bales. By the time

Services For Child Held Sunday

Funeral services for Jerry Dean Dunsford, seven-month-old child whose home was in Amarillo, were held at the Estelline Church of Christ Sunday, Dec. 24, at 2:30 p. m. with Minister Jack Hutton of Turkey officiating.

The child died while the family was in Seattle, Wash. She was born April 27, 1961, here in Memphis.

Burial was in Hulver Cemetery under the direction of Spicer Funeral Home.

Survivors include her mother, Sandra Dunsford of Amarillo; a sister, Sandra Kay Dunsford of Amarillo; father, Johnny Dunsford.

This year's crop is over, it will probably come close to 75,000 bales, according to predictions by various farmers, making it the third largest in the history of the county.

The actual production of the county usually varies from the ginning figure due to the fact that some of the cotton ginned in the county is grown outside. Late in the spring figures will be released by the Commerce Department giving the exact number of bales of cotton grown in Hall County.

The cotton classing office here has classed 211,210 bales through Wednesday, according to Kermit Voelkel, officer in charge.

Last year the office classed a total of 215,652 bales.

"We already have enough cotton in the house to pass last year's mark," he said.

The office has been receiving cotton at a rate of about 2500 to 3,000 bales per day and now a carry-over of about 10,000 bales, which accumulated during the Christmas weekend.

"We have five classers working now and as far as we are concerned, it doesn't seem like the season is over. The way the cotton keeps coming in it seems like the middle of the season," Voelkel said.

As far as the percentage reports on grade and staple were concerned, the figures are not yet available for last week, probably due to the holidays, which made a shorter work week in the regional office.

GRASS FIRE — Memphis firemen Tuesday answered a call to put out a grass fire on the south side of the Lakeview highway in west Memphis. The part of the draw north of the highway burned last week and then the grass south of the highway caught fire Tuesday.

Babson Predicts 1962 Will Be Better Year; No Nuclear War

(Editor's Note: Below is Babson's Business and Financial Forecast for 1962, and is being published to furnish our readers with the best information possible. Last year Babson was 83 per cent correct in his predictions, and his 20-year average is the highest for annual forecasts on U. S. Future Business.)

By ROGER W. BABSON

1. I am hopeful for 1962; it should be a better year for my readers than 1961. Industrial production will exceed that of 1961.
2. There will be neither a nuclear war nor total disarmament in 1962. Considerable progress may be made toward a ban on atomic weapons.
3. Some 30 stocks may reach an average of 1000 during 1962, although these will not necessarily be the 30 Dow-Jones stocks.
4. Retail trade will make new records during 1962. Increased newspaper advertising, especially in colors, will be a great boon to merchandising.
5. Commodity prices will act erratic during 1962. Agricultural prices will be held up by legislation, but many metals will sell for less.
6. The official cost-of-living figure will rise slightly in 1962, but there may be a scandal in Washington over how this figure is calculated or adjusted. The real increase in the cost-of-living will be due to increased wages demanded.
7. The only certain shortages during 1962 will be in land suit-

able for parking places and waterfront property readily accessible to building lots; also for automobile "graveyards" near cities which have been zoned.

8. The building of shelters will look silly before the end of 1962. Certainly the Federal Government will not underwrite the building of private shelters for individual families.

9. Good real estate must rise in price as the population increases. Elementary mathematics determines the price of suburban

Many Persons View Manger Scene At Christian Church

Many persons in the area viewed the live manger scene at the First Christian Church during the holidays, Minister Everett Stevens said this week.

An average of two cars per minute stopped for occupants to view the scene. Many persons got out of their vehicles to inspect the scene more closely, he added.

"I have received several letters from individuals expressing their appreciation of the scene," he said.

"I want to express my appreciation to all those who assisted in making the manger scene possible," he added. "I especially want to thank Mike and Elmonette Branigan who loaned us their sheep; Odell Gilchrest for the use of his donkey, Hulda, and Gordon Maddox for his cow."

real estate. This is notwithstanding the claim of the "space companies" which are said to be interested in selling rights on the moon. There probably are crazier speculations.

10. While the land on which your house now stands should increase in value during 1962, the building itself depreciates from the moment when it is first occupied. A possible exception would be certain very attractive ranch houses painted in color.

11. Automobile production will be the most important statistical indicator during 1962. This applies to both the number of automobiles and their sales value. We now have no reliable figures for the latter.

12. We will gradually approach an average of two cars for every family. The life of automobiles should gradually increase. The percentage of automobiles annually destroyed will decrease in 1962.

13. Automobiles and gasoline will be, increasingly, sources for raising money by taxation. These means will be extended to include an additional assessment on the manufacturers of automobiles.

14. Taxes, as a whole, will continue to increase in 1962 for every family. Business net taxes, however, will decrease in 1962, through the granting of depreciation refunds which can be done by Executive order. The manufacturer may greatly increase his deductions for past investments

and new machinery, plant, and equipment. Douglas Dillon feels that such tax reductions will increase the purchase of new equipment, develop greater efficiency, and result in a net improvement in the employment situation. This is good news for 1962.

15. Speculation in real estate and securities will be active during 1962; but good children will gradually be recognized as the

Newlin Baptist Church To Repair Building

The Newlin Baptist Church announced this week that members were now receiving contributions for repair work on the church, according to Woodrow Phillips, pastor.

The group plans to repair the roof and foundation of the building.

"There have been several who have stated in the past that they would like to assist us when the time came for repair on the building, especially in view of the fact that many who now live outside of the community like to hold funeral services here," it was stated.

Anyone desiring to contribute may contact Tom Adeock, Newlin; Woodrow Phillips, Estelline, or Jake Crisman, Rt. 1, Memphis.

best investment. Young people will be married earlier and will want to have large families.

16. Public education will gradually be reorganized during the years ahead. Schoolhouses will be built as places to park the kids while the parents are at work. New schoolhouses will be built so as not to be over one story high, with lots of sunshine.

17. Owing to the lack of airport facilities and to inadequate equipment, there will be increasing airplane accidents during 1962. (To be continued next week)

Mrs. T. Hulsey Injured in Car Accident in Amarillo

Mrs. Tommy Hulsey of Amarillo, daughter of Mr. and Mrs. Roy Guthrie, was injured in a two-car collision at an intersection Wednesday morning of last week in Amarillo.

Mrs. Guthrie received a severe cut on her lip which required surgery and also several bruises to her face.

She was en route to school with her children and several neighbor children when the accident occurred. Riding in the other car was also a mother with school children. The driver of the other car received two fractured ribs. One of the children was hospitalized overnight, but was released the next morning.

JOYFUL TIDINGS

This is the Anniversary of an event in human history which has profoundly influenced the minds of men and directed their search for what is Right and Good. On this occasion, people everywhere experience a common mood of goodwill, good cheer, and good fellowship.

We, too, joyfully and humbly participate in this Commemoration of the Birth of Christ, and share with you the sentiments with which the Season imbues our hearts. May Christmas bring you all the joy, and love, and warmth that Christ Our King gave to mankind that Holy Night He came to earth.

The Real Cost

As we sat down at our full tables Christmas Day, many of us failed to realize the exact significance of the abundance of food which could be acquired for such an occasion.

For many years now publicity has been aimed at the farmer, blaming him for the high cost of food. Recently the Department of Agriculture conducted some research in order to determine exactly how much food cost the average factory worker. — and it was found out that food is one of today's best buys. We are eating better, more nutritious, more varied meals at lower real cost than ever before. What is the real cost of food? Perhaps the best measure of cost is the number of hours we have to work to pay for our food needs. The average factory worker in this country today can buy a market basket of farm food for a whole month with the earnings from 43 hours of work. In 1952 he worked 55 hours and in 1947 he worked 64 hours to buy the same amount of food.

Although we spend fewer real dollars, it's true that we consumers spend more at the grocery store than we used to. We spent \$394 per person for food in 1960, compared with \$319 in 1947-49. But the 1960 food costs represented only 20 per cent of our disposable income, compared with 26 per cent in 1947-49. And, if we bought the same quantities and kinds of food today as before World War II, we could eat for even less. If we ate the same foods as we did in 1939, for example, only 15 cents of our spendable dollars would go for food, rather than 20 cents.

Who receives these extra food dollars? Not the farmer. While the retail cost of the "family farm food market basket" increased \$112 since 1947-49, the return to the farmer actually decreased \$58. Higher marketing costs account for most of the increase. While the return to the farmer went down 12 percent, labor costs climbed 39 percent, transportation costs went up 43 percent and other business expenses advanced 33 per cent. About 39 cents of each dollar spent for farm food goes to the farmer or rancher. This is an average for all foods, with wide variation for individual items depending on the processing and other marketing services needed. For example the farmer receives:

- 49 cents of the 81 cents for a pound of choice beef.
- 2.3 cents for the corn in a 26-cent box of corn flakes.
- About 11 cents from a 25-cent quart of milk.
- 2.3 cents for the wheat in a 20-cent loaf of bread.
- 9 cents for the oranges in a 23-cent can of frozen juice.

Prices paid by consumers for all goods and services rose 28 per cent from 1947-49 to mid 1961. Food prices during the same period rose only 21 per cent. So the relative stability of food prices, compared with other goods and services, actually helped keep the overall cost of living from rising more than it did.

According to the U. S. Bureau of Labor Statistics, take-home pay of the average wage earner in manufacturing in 1960 was 57 per cent higher than in 1947-49. But the increase in food prices was only 20 per cent; so the wage earner had "extra" income to spend on other items, like TV sets, boats, vacations, etc.

Instead of certain parts of our economy taking swings at the farmer, they should thank him for his contribution to our holding the line against price increases.

Another part of the picture is the increased productivity of the farmers. In 1900 each farm worker could feed himself and 6 other persons. By 1940 he could produce enough food for himself and 10 others and then by 1961 each farmer was feeding himself and 25 others. If our population reaches 230 million by 1975, as predicted, farmers and ranchers must produce 16.3 billion pounds more red meat, 47 billion pounds more milk, 20.7 million tons more fruit and vegetables and 20 million more eggs. To do this at our present rate would take an additional 200 million acres of cropland, which we don't have. However, greater efficiency in production will probably make it possible in 1975 to feed the additional people with the same crop area we now have, provided conservation measures are carried out and water supplies re-veloped.

America can be proud of the record set by the agriculture industry in the past 20 years — especially when it is compared with Russia's where half of the total labor force is engaged in the production of food and fiber and still cannot meet the demand. The communists may rival the U.S. in space explorations, but behind the iron and bamboo curtains they cannot begin to match the miracles of production on the farms of America.

Pioneer Woman Statue at TWU

What better setting could there be for the impressive Pioneer Woman Statue than on the campus of Texas Woman's University in Denton, some 20 miles north of Dallas?

And, what more appropriate words could have been chosen, to help guide the young women of today, than those appearing on the statue's base?

It reads: "Marking a trail in a pathless wilderness, pressing forward with unswerving courage, she met each untold situation with a resourcefulness equal to the need, with a glad heart she brought to her frontier family her homelands' cultural heritage. With delicate spiritual sensitiveness she illumined the dullness of routine and the loneliness of isolation with beauty and with life abundant, and withal, she lived with rasual unawareness of her value to civilization. Such was the pioneer woman, the unsung saint of the nation's immortals."

The Cruel Tax Of Freedom

What would life be like for us today if there had never been a cold war, if Russia and Red China were governed by men bent on living at peace within their own borders?

We know, of course we could not be wholly free of international disputes. The controversies that embroil the Western allies even when they confront peril offer sufficient proof of that.

We know, too, that we would still be engulfed in a tide of great problems, not the least of them the tremendous burst of world and national population.

Nevertheless, we would have saved incredible sums of money that have been lavished on our defense establishment, and that of our friends and allies abroad, wholly and solely because of the existence of the aggressive threat from Moscow and Peiping.

Before World War II, in the 1936-40 span, we averaged a yearly outlay of \$1,350,000,000 for defense.

In the first postwar years, the figure ranged from \$12 billion to \$15 billion, what with higher prices, more elaborate and costlier equipment, enlarged population and bigger notions of a "safe" defense.

If we arbitrarily add another \$5 billion to cover additional changes in these directions, we have a figure of \$20 billion.

It might be regarded as a reasonable annual defense charge covering requirements for internal security, plus our share in any conceivable world policing effort.

Take 1950, at the outbreak of the Korean War, as the point where Communist aggression really began to force our defense outlays above "minimum" levels suitable in a peaceful world.

From that point until the middle of 1962, we will have spent \$270 billion more than the proper minimum.

That \$270 billion is the staggering price we, as the principal guardian of the free world, have had to pay to buy security in a world imperiled by marauding Communist tyrants.

That is the fabulous insurance premium that has helped us to stem their aggressions, not only against the industrial West but against the weak, underdeveloped and pitifully timid "neutrals" who, standing behind our shield, indulge the luxury of attacking us as "warlike."

Builders and housing officials think of a \$20,000 house as a good deal better than a minimum accommodations. For \$270 billion,

we could have built 13,500,000 house at that price, enough to replace one in every four dwelling units in this country.

In the houses, schools, hospitals and roads unbuilt, here and elsewhere in the world, we measure the cruel tax Moscow and Peiping have levied upon free humanity as it seeks to ward off their depredations, done cynically in humanity's very name.

India and Goa

Well, that sanctimonious old hypocrite, Pandit Nehru has finally wrecked the United Nations.

We hope the people responsible for pouring aid into India over the past 15 years feel well repaid. Nehru showed his thanks by asking Khrushchev if it was all right to move on Portugal.

This at long last should teach us a lesson. We must prepare to defend these shores.

Cheap Labor

I notice where they are having an indignation meeting in Amarillo, but it seems to be politically inspired and really doesn't count. Anybody, but anybody, can get indignant about politics. To even consider this type of indignation is like cheating at solitaire.

Besides, I am fed up with the whole business. My wife is just a wee bit indignant over the things I said last time — and she is demanding "equal time." This grew from an idea she got from watching TV. Newspapers are not under FCC but, know-

Give them a Faith to live by

Worship with them this week

Naturally you want them to have all the good things in life . . . a happy home . . . a good education . . . plenty of chances to meet other young people. But be sure to give them the most precious gift of all . . . Faith.

The wonderful part of that faith is yours to give . . . no matter who you are, what you do for a living, how much

money you have in the bank.

When you worship with your youngsters they see you - the biggest, smartest, most important people in their world - asking God for help, thanking Him for blessings. Then it's clear to them that there is where you find strength and consolation . . . and where too they can bring their problems.

all Hospitals. Thanks to both hospitals for letting us share our Christmas wishes with the fine folks who were not able to be home with their families this Christmas. This coming Saturday all the young people in our community are invited to meet at the church house at 6:45 p. m. and go with us to Clarendon. First for our monthly associational youth rally. Everyone out in our community is cordially invited to fellowship and worship together with us this morning, New Year's Eve. Our services begin at 10:00 a. m. and 6 p. m. God bless all. Sincerely, Kenneth Lowry.

County my candidacy for the combined offices of the County and District Clerk.

"January 1, 1963, the offices of the County and District Clerk for Hall County will be combined. This is made mandatory by the Act of the Texas Legislature as a result of the population of Hall County falling below 8000 in the 1960 census.

"I appreciate the generous support and the cooperation I have received during my tenure in this office. I have tried to repay you for this trust by giving the good citizens of Hall County the kind of service they deserve from their County Clerk. I sincerely hope my efforts have met with your approval. Logically the experience I have gained during the past years will better qualify me to serve you in the dual capacity of County and District Clerk.

"I would appreciate your vote and influence on my behalf in the forthcoming election.

Respectfully submitted,
Ruby Goodnight"

Report From Washington

By WALTER ROGERS
Representative, 18th
Congressional District

The Budget for 1962 was submitted to the President on January 10, 1962, and the President's Budget Message to the Congress. This is the first official Budget Message to be submitted to the President since the Budget Message for 1962 was submitted to the Congress on January 16, 1962, by President Eisenhower. The Budget and other details of the government's fiscal year 1962 began on July 1, 1962, and continues through June 30, 1962. The total budget for 1962 was \$80.9 billion. The total income or receipts during the year were \$82.3 billion. The "estimated" is used because it is impossible to tell just how much actual receipts will be, and how much will be spent, until the actual receipts and expenditures are known. The actual receipts and expenditures for 1961 were \$77.1 billion and \$78.6 billion, respectively. The 1962 Budget Message estimated that the budget receipts would be \$74.4 billion and that expenditures would be \$73.9 billion, leaving a surplus of \$500 million. However, in September of 1958 the President's office issued another Budget Message on the 1959 proposals, which was termed "The Mid-Year Review", in which it was stated: "A substantial deficit is now in prospect for Fiscal Year 1959." When the smoke cleared and actual figures were available, the budget expenditures had amounted to \$80.7 billion as against the original estimate of \$73.9 billion. The income had amounted to \$68.3 billion as against the previous estimate of \$74.4 billion. Hence, instead of a surplus of \$500 million, the result was the largest deficit in peacetime history, to-wit: \$12.4 billion.

In the year 1953, the budget report indicated an estimate of \$71 billion in income. Actual income amounted to \$64.8 billion. In 1954, the estimated income was \$68.7 billion. The actual income was \$64.6 billion. In 1955, the estimated income was \$62.7 billion. The actual income was \$60.4 billion. In 1956 it was estimated that the income of the government would be \$60 billion and that the expenditures would be \$62.4 billion, leaving a deficit of \$2.4 billion. However, the guess was wrong again, both as to receipts and expenditures. The actual receipts were \$68.1 billion, while the expenditures were \$65.5 billion. The unexpected receipts should have resulted in a surplus of some \$6 billion, but the overall result was a surplus of only \$1.6 billion. In 1957 it was estimated that the income would be \$66 billion, but when the year was over it had amounted to \$71 billion, an increase of \$5 billion.

CANDY by Tom Dorr

However, instead of a \$5 billion surplus, it was discovered that the expenditures had been over-estimated and the taxpayers ended up with only a \$1.5 billion surplus instead of the \$5 billion. But, as you will see in the first part of this newsletter, this surplus was completely obliterated in 1958 because of a \$2.8 billion deficit. So it goes; it seems that the Bureau of the Budget, which is part of the President's official office, is not very good at guessing.

The 1962 Budget Message, which came to the Congress on January 16, 1962, contained this statement: "Money which has been borrowed by the Treasury and not yet repaid is called the public debt. Most borrowing is from the public, but the Treasury also borrows from the larger funds which

Christian Church To Hold 5th Sunday Rally in Clarendon

An area fifth Sunday rally will be held at the First Christian Church in Clarendon beginning at 3 p. m. Sunday, Minister Everett Stevens, local minister, announced this week.

The principal speaker will be C. W. Gallaway, missionary from Thailand who is home on furlough, Minister Stevens said. Old time Gospel hymns will also be sung during the afternoon.

At about 5:30 the group will enjoy a covered dish supper at the church to be followed by the evening service. Paul Hancock, former Memphis resident, is serving as minister of the Clarendon church.

Attending the rally will be Minister Bedford Smith, former Memphis minister, who is now with the Dimmitt Church, and members of the First Christian churches in Wellington, Memphis and Hedley.

Mrs. R. V. Messer was called to Rockdale Sunday to be with her son, Ruel Messer, who suffered a light heart attack. He is hospitalized at Marlin, and is doing nicely according to his sister, Nell Messer.

Political Announcements

The Memphis Democrat is authorized to announce the following as candidates for public office, subject to the action of the Democratic primary in May.

George Blewer Enters Race for Commissioner

George W. Blewer of Lakeview this week announced that he was entering the race for Commissioner of Precinct No. 2 in Hall County. In authorizing The Democrat to make his announcement, he stated that his candidacy would be subject to the action of the voters in the Democratic primaries. His statement to the voters is as follows:

"To the citizens of Precinct No. 2: "During the past few months, many friends and neighbors have discussed with me the upcoming election, and have urged me to enter the race for Commissioner. After giving this matter careful consideration, I have decided to list my name as a candidate for this office, and with this announcement I want to ask for your support.

"As you will remember, I served as your Commissioner for six years, completing my last term Dec. 31, 1958. During this time

you saw me work for your interests in all things. You will remember we suffered two flood years in our precinct, which caused much damage to property, land and roads. From this experience, I shall be better able to serve, especially where our lateral roads are concerned.

"If I am elected, I intend to be honest in all my dealings, not only in handling the affairs of the county and our precinct, but everything else. I shall devote my full time to the duties of the office. Also, it shall be my aim to be fair to everyone, showing no favoritism, but working for our common good.

"Should I win the race, it will be my aim to see that the books of our county are open at all times for your inspection. Also, all meetings of the Court shall be open to the public. I recognize that officials serve the people, and should act and vote in their best interests.

"Should you name me your next Commissioner, I hope that you will discuss county problems with me at any time. I will value your advice and your cooperation in helping to solve them.

"During the months to come, I will strive to see each and every voter in my precinct. Feel free to discuss with me the things uppermost in your minds which need the attention of your Commissioner. With your help, it is my hope that we can work for the betterment of our precinct and county.

"During the next few weeks, I will not be as active in campaigning as I would like to be. This is due to an accident I suffered a few weeks ago, and from which I am recovering. But I will be seeing all of you as soon as I can.

"At this time I want to thank you for your vote and confidence in me in past years. Also, I wish to solicit your help and support in the forthcoming campaign. In the weeks to come, it is my hope that we shall more fully go into these matters.

Sincerely,
George W. Blewer."

Mildred Stephens Announces for Clerk Position

Mrs. Mildred Jones Stephens this week authorized The Democrat to announce that she is a candidate for the office of County and District Clerk of Hall County (this combination coming about as the result of the lower population in the 1960 census). Her candidacy is subject to the action of the Democratic primary.

"I am a candidate for this office with the belief that I am fully qualified to render efficient service to the people of this county. If I am elected I will serve you as diligently as I have during my one elected term and a short time of an expired term.

"I am interested in the development of Hall County and have done a bit of advertising Hall County by inviting people here at all times and especially at Christmas time when the Delphian Club has its annual tour of homes. I do whatever civic work that I have the time to do and am always eager to help any one or any project that I can be of aid to or for.

"I am an active member of the Methodist church, the Chamber of Commerce and Board of Development, Wesleyan Service Guild, and the Delphian Study Club, a Sunday School teacher of 4th grade junior boys and girls.

My daughter, Marcene, is a Junior in the local high school and my son, Curry, lives in Dallas. It is my duty to help and encourage Curry in his vocation as a handicap in working at whatever he may find. At present he is employed at the Cerebral Palsy Center at Dallas for the physically handicapped.

"One of the duties of this office is serving as Adult Probation office. Prior to my being District Clerk this duty was performed by the Sheriff.

"I wish to take this means of soliciting your support in my race for County and District Clerk. Anything you can do for me will be appreciated. Between now and the First Primary, it is my desire to see as many voters as I possibly can. Meantime consider me as your candidate for the office of County and District Clerk of Hall County.

Thank you,
Mildred Stephens"

Hester Bowns Announces for Treasurer Post

Hester Bowns this week authorized the Memphis Democrat to announce her candidacy for the office of County Treasurer, subject to the action of the Democratic primary.

In announcing her intentions Mrs. Bowns made the following statement:

"I wish to take this means of announcing to the people of Hall County my candidacy for re-election as County Treasurer. I sincerely appreciate the support I have received in the past and also want to thank each of you for your co-operation in helping me carry on the duties of my office.

"I have tried to see you to the best of my ability and sincerely hope that my efforts have met with your approval. If at any time any one of you would like to know anything about the County finances I will be happy for you to come in and examine my books and I will be glad to

answer any questions you may have.

"If I am elected, I feel that the experience I have gained since becoming your Treasurer will be of great benefit in helping me to be of even greater service to you in the future.

"I earnestly solicit your support and influence in the coming primaries.

Hester Bowns"

Mrs. Sidney Baker spent the holidays in Wellington with her sister, Mrs. G. N. Scruggs.
