NWNS SERVICE

MEMPHIS, HALL COUNTY, TEXAS, THURSDAY AFTERNOON, OCTOBER 25, 1962 TEN CENTS NUMBER 23

It has been my observation over the years that people, especially the female sex, like to change dresses often or occasionally because they like to appear at their best, over the wash-days at the annual Easter Church service. I have run this same format for many years, and because one can change habits easy, it has been the same old mossier-looking part of the paper. A few days ago I decided, really, that there would "be some change made." And perhaps the readers will like it better this way, and perhaps I will to. Whether it is continued will depend upon amount of space news items and advertising demand.

Quite a bit of excitement was created Sunday afternoon when a bright-lighted object was sighted in the west just over the sun. Observers were not sure whether it was a balloon. It turned out to be a weather balloon released from the Holliman Air Force Base in New Mexico. It was estimated to be above 25,000 feet, traveling toward the east. The brightness came from reflection of light from the setting sun.

Some weeks ago some thousands of Hall Countians took Sabin Oral Vaccine Type I, which was furnished free by the Club of Memphis, and administered by local physicians. In order for the polio vaccine to be effective in stopping the crippling disease for all time it is necessary Type II be taken, and possibly the third type.

The second oral vaccine will be given at the courthouse afternooon, Oct. 28, from 2 until 5 o'clock. When the Health Department recommends the third dose of the vaccine be given, time and place for same will be announced.

The Memphis City Council is to be commended for going away with the city poll tax, one of the unnecessary burdens for many years in which male voters had to pay a poll tax while the women danced free—as is the case when a community building bond election might have turned out different, and perhaps another bond election will be held in the near future, and a County-State poll tax will allow property tax payers to vote.

The people of the whole world were shaken to the very core of their feet Monday by the announcement from the White House that a blockade had been ordered against shipments of arms, missiles, etc., into Cuba. The terms of the blockade were announced naturally aroused Castro and his running mate, Krokodile, to hear what they have had to say, one would think just innocent children who wanted to just protect their people from being run over by their neighbors, the USA. No one crying over spilt milk now, but action on the part of the Cuban officials coinciding with the Cuban invasion last year would have kept the Communists out and things would be different now. We must all face the seriousness of the situation and do our best as individuals. This is no time for backing up our country soften on any phase of the situation, Western Hemisphere, as well as other nations of the world, will gradually be absorbed by the Communists.

A childless woman, 92, died Sunday, leaving more than 100 direct descendants. Survivors include five sons, two daughters, one sister, 46 grandchildren, 110 great-grandchildren, and 17 great-great-grandchildren. What a wonderful legacy she leaves to the world.

## Farm Bureau To Have Convention

Hall County Farm Bureau Phillips and James Moss. Directors whose terms will expire next year include Arlie Shawhart, Eddie Braidfoot and H. A. Hodges. Officers of the organization, other than the president, are Wayne Hutcherson, vice president, and J. W. Longshore, secretary-treasurer. Delegates to the state convention will also be named, and the auditor's report given. A number of resolutions will come before the organization for their approval or disapproval. Delegates to the state convention will also be named.

## Lelia Lake To Have Halloween Carnival Saturday

A Halloween carnival is planned at Lelia Lake beginning at 7 p. m. Saturday, Oct. 27, under the sponsorship of the Lelia Lake Lions Club and Community Center. The carnival will be held at the Community Center for the purpose of raising funds to re-decorate the structure. Bingo, food, and a variety of other entertainment will be offered, and the Lions Club will give away a Shetland pony and saddle that night.

## City Council Repeals Poll Tax Ordinance

The Memphis City Council met Monday night in a special session and repealed a void 1908 city ordinance, which ordered male residents in Memphis to pay a \$1.00 city poll tax to be qualified to vote on city matters.

City Attorney Sam Hamilton was asked at the council's meeting earlier this month to examine the 1908 ordinance.

Attorney Hamilton met with the members of the council Monday night, and said that the ordinance was void because—under the state law the city poll tax had to be levied each year by the council with an order, and this had not been done since its passage in 1908.

## Ralph Liner, Is Buried Here Former Resident,

Ralph Liner, 31, Odessa business man and son of Mr. and Mrs. Floyd Liner of Memphis, died at 5:15 a. m. Friday in a Houston Hospital where he had been a patient for the past nine days, suffering from a heart ailment.

Funeral services were held at 3 p. m. Sunday from the Bethany Christian Church in Odessa with the Reverend Howard Marshall officiating.

Graveside services were conducted here at 4 p. m. Monday afternoon with the Reverend Marshall officiating, assisted by Minister Everett Stevens of the First Christian Church here.

Interment was in Fairview Cemetery with services under the direction of Spicer Funeral Home. Born March 28, 1931, Mr. Liner was a graduate of the local high school. He was united in (Continued on Page Ten)

fund, and the money should be mailed to them.

"City residents will still have to pay a state poll tax before they are eligible to vote in city elections," the mayor stated. "Even if they had a city poll tax and did not pay the state poll tax, they were still not qualified to vote in a city election."

## Rites Held Sun., Oct. 21 For W. C. Whitten

Funeral services for William Collins Whitten, 72, were held at 2:30 p. m. Sunday in the First Baptist Church with the Rev. H. W. Hill, pastor of the Lakeview Baptist Church, officiating, assisted by Rev. Fern Miller, pastor.

Mr. Whitten died at his home, 1122 Robertson, Thursday.

Interment was in Fairview Cemetery with services under the direction of Spicer Funeral Home.

A retired farmer, Mrs. Whitten was born April 3, 1890, in Louisville, Ky.

He was united in marriage to Shirley Audrey Wilhite on July 2, 1908, at Howe, Tex. The family moved to Hall County in 1915.

He was a member of the Baptist Church. Survivors include his wife, Mrs. W. C. Whitten of Memphis; five daughters, Mrs. Dovie Templeton of Memphis, Veoda Weger of Colbert, Okla., Ellen Herzog of Hereford and Shirley McDowell of Wellton, Ariz., and Betty Lou Zeiger of Goldsmith; 26 grandchildren; nine great-grandchildren; two brothers, Mont of Sanatorium and Eukey of Colbert, Okla.; and three half-brothers, Willis Whitten and Viechel Whitten, both of Denison, and Lemmie Whitten of Colbert.

Pall bearers included: R. D. Revell, Gus Orcutt, Pat Lewis, Glen Verden, Raymond Moore and Roy Coleman.

## Band, Thespians To Give 'Mikado' Monday

The Memphis Cyclone Band and the Thespian Society are collaborating in the presentation of "The Mikado," a comic operetta written by Gilbert and Sullivan. Because the artists did not dart to set their satire in London, they used a mythical city, Titipoe, in Japan, for the location.

The operetta will be presented at the high school auditorium on Monday and Tuesday nights, Oct. 29 and 30. Curtain time is 7:30 p. m.

The curtain rises on the palace courtyard of Ko Ko, of the Lord High Executioners of Titipoe (role by Bill Cosby). A noble, Go-to (Tony Monzingo), identifies the people present. Nanki-Poo, a wandering minstrel (Noel Clifton), seeking for Yum-Yum (Suzanne Sexauer), rushes in. Pish-Tush (Ronald Pate) asks him why he is seeking Yum-Yum. Pooh-Bah (Jim Reynolds) dooms the young man's expectations.

Ko-Ko arrives and announces his "little list." Yum-Yum and her school chums (Ginger Greene and Lynn Foxhall) arrive. Nanki-Poo and Yum-Yum plight their lives. Complications arise. Yum-Yum learns that if she marries Nanki-Poo, she will be buried alive. She exclaims, "This is a rather stuffy way to die!"

The Mikado (Harvey McMurry) with his umbrella bearer (Jim Ed Wines) arrives. He is informed that his order to execute a citizen has been carried out. He learns that the citizen is his son. Ko-Ko exonerates himself, plights his love to Katish (Marilyn Driver), thereby releasing Yum-Yum and Nanki-Poo.

The chorus consisting of eight-

teen boys and girls sing and assist the soloists in singing eight numbers. Five solos are presented during the show.

Approximately 65 band members and Thespians will cooperate in this, the first, musical drama to be presented in Memphis High School in many years.

## Lakeview, Estelline, Parnell Plan Halloween Carnivals For This Weekend

Spooks and goblins, ghosts, blackcats and witches will be in evidence as the Halloween season opens this weekend. Halloween carnivals are planned for at least three places in the county—Lakeview, Parnell and Estelline.

At Lakeview the carnival will be sponsored by the Lakeview junior and senior classes, and has been set for two nights, Saturday, Oct. 27, and Monday, Oct. 29. At Estelline, the carnival will be held on Wednesday night, Oct. 31; and at Parnell on Saturday night, Oct. 27.

The Lakeview gymnasium will be the setting for the annual event, which will begin at 6:30 p. m. each evening. A variety of games will be featured, including bingo, cake and pie walk, a doll rack, dunking board, fortune telling, and a spook show.

The Lakeview Lions Club will

give away a 500-pound beef during the carnival, and other prizes will also be awarded.

Highlights of the event will be the crowning of the Grade School King and Queen at 9:30 o'clock Saturday night, and the crowning of the Junior High and High School King and Queen Monday night at 9:30 o'clock.

Each class in the three schools will select a king and queen. The class which contributes the most votes, will have their king and queen crowned at the carnival.

The Carnival at Estelline will be sponsored by the Estelline Parent-Teacher Association. Food will be served in the cafeteria beginning at 5:30 p. m. Everyone is invited to come and enjoy a meal out.

The gym will open at 6:30 p. m. Those attending are encouraged to come in costume, or at least a mask, members of the sponsoring organization said.

The Parnell Community Club extends an invitation to everyone to their annual Halloween Carnival on Saturday night, Oct. 27, at the Parnell school house.

There will be a variety of games for people of all ages. Supper will be served at 6:30 p. m. The menu will include sandwiches, pie, cake and coffee.

An electric blanket will be given away. There will be a bean guessing contest for a lamp. The proceeds of the carnival will go to replace the schoolhouse roof, which was damaged during a hail storm.

## Spray Plane Pilot Dies In Crash Today Near Brice

A crop spraying pilot, Alton Don Hedrick, 40, died at 12:45 today when the plane he was piloting crashed on the M. E. Paskell farm, one mile north and one mile east of Brice.

The pilot is survived by his wife, Vicki, two sons and a daughter of Sloan, Nev., and his parents, Mr. and Mrs. E. L. Hedrick, of Clovis, N. M.

The plane Hedrick was flying belonged to the Hershey Flying Service, of Hershey, Neb., Pete Rouche, a spokesman for the service, said.

The only witness to the accident was Floyd Stidham of the Stidham Flying Service of Silverton, who was acting as the flag man. The plane crashed behind a small hill just south of where Stidham was standing, on the first pass over the 15-acre cotton field they were beginning to defoliate.

The body had to be cut from the wreckage. Doug Watson, an employee of the Brice Gin, was summoned to the scene, along with the gin's cutting torch.

The body was removed from the wreckage by Spicer Funeral Home attendants at 2:15 today.

Stidham said that this was the first time Hedrick had flown the plane. However, this morning he flew the Stidham plane for an hour and a half, and was able to handle it very well.

There was no highline wires or trees in the area. Stidham said the plane's motor was under full power when it struck the ground. The plane burst into flames before Stidham reached it.

## Memphis, McLean To Tangle There Friday

A full-strength Memphis Cyclone team will travel to McLean Friday night, seeking revenge from last year's 13-12 defeat. Game time is 7:30 p. m.

Both teams lost their district openers last week. Memphis was downed by Wellington 26-6, while the Tigers were stopped by Clarendon 28-6.

The Memphis team will have a definite weight advantage over the Tigers. However, the local team will have to reckon with McLean's backs, No. 22, Graham, a 150-pound halfback, and No. 33, Crockett, a 175-pound halfback.

The Tigers run from an offensive formation which has their fullback, No. 10, McCarty, setting as a wing back. Against Clarendon, the Tigers threw 18 times, completed four and had three intercepted. McLean likes end sweeps and off-tackle power plays.

A lineup change may be seen

Residents of Hall County and the Hedley area will take Sabin Oral Vaccine, Type II, Sunday afternoon, Oct. 28. According to Dr. Jack L. Rose, president of the Memphis Lions Club, the sponsoring organization, the vaccine will be given from 2 until 5 p. m.

Distribution of the vaccine is free, emphasized Dr. H. R. Stevenson, chairman of the polio vaccine drive here. The vaccine will be administered at the courthouse in Memphis, as was the case last month when the Sabin Oral Vaccine, Type I, was given to area citizens.

Every person who has received Type I is urged to be at the courthouse Sunday afternoon to get the vaccine. Over 4,000 persons have received Type I.

"This type vaccine is approved for all ages," Dr. Stevenson said, "and everyone is encouraged to take it."

Members of the Memphis Junior Chamber of Commerce will supply transportation for all persons who need it.

"All persons who are unable to go to the courthouse Sunday, due to lack of transportation, should let us know," a spokesman stated. "Please call the County Judge's office in the courthouse, and someone will answer your request."

The Sabin Polio Vaccine is emphasized free of charge, it was emphasized, and there is no charge for administration.

The Lions Club is asking that those taking the vaccine contribute 25 cents or more to help defray the cost of the vaccine, Pres. Rose added.

Volunteer workers will assist the crowds as they arrive, and as they go through the hall on the second floor of the courthouse, where the vaccine will be administered.

OPERETTA PLAYERS—Pictured above is the cast of the "Mikado," comic operetta, to be presented by the band and the Thespian Society Monday and Tuesday nights at 7:30 p. m. First row, from left to right, are: Suzanne Sexauer, Linda Alewine, Jeff Moore, Lynn Foxhall, Ronald Pate, Anita Snowdon, Sandra Guthrie, Elmonette Branigan and Lana Waites; second row, Amy Hillhouse, Cathy Dale, Donnie King, C. J. Goodnight, Lowell McKown, Pamela Lindsey, Suetta Lemons and Harvey McMurry. Standing, from left to right, are: Randy Robertson, Donnie Cook, Glenda Bruce, Exie Hughs, Billy Cosby, Tony Monzingo, Susan McQueen, B. H. Cook, Jerry Burleson, Marilyn Driver, Jimmy Stewart, Noel Clifton and Jimmy Reynolds. Costumes for the group arrived yesterday. Dress rehearsals will be held tonight and Saturday night.

### City Repeals Coid Ordinance

The Memphis City Council took a step for progress Monday night in a special session, when they repealed a voided ordinance established by the 1908 City Council requiring the paying of a poll tax by male citizens of Memphis.

City Attorney Sam Hamilton stated that the ordinance was void because under the State Law authorizing it, the poll tax had to be assessed each year by the Council, which has not been done since its passage in 1908.

Naturally, the Ordinance did not include women paying the poll tax since 1908. Woman's Suffrage had not been approved. Attorney Hamilton stated that a man from the Texas Municipal Board said that only a few Texas cities have a City poll tax.

In the past, a male resident of Memphis between 21 and 65 had to pay a City Poll Tax while his wife did not.

It was also explained at the Council meeting that those male residents, who, since Sept. 1, 1962, have purchased City Poll Tax, can have these refunded.

Mayor H. J. Howell said that City Tax Assessor-Collector Glen Carlos will mail the refund to those male citizens who have paid the tax, this fall.

This is one of the most progressive steps taken in Memphis in a number of years. The repeal of the ordinance could almost be entitled a "Man Suffrage" step.

### Use The Local Employment Office

Do you need a hand or employee? Are you looking for a full-time job or one which will be classified as part-time?

The above questions point to the need of more understanding by the citizens of Memphis and this area about the functions of the local Employment Office.

Recently, Joe Bob Browning was appointed as farm placement interviewer, and is now located at Bruce Bros. Mobil Service Station. This is only a temporary appointment by the Texas Employment Commission, and one which has been made for the past few years to meet the demands of farmers who need help to get their products harvested.

But the office here, under Browning's supervision, is becoming more important week after week. Citizens are realizing that a local employment office works two ways. It furnishes names. These names are persons who are seeking employment, and names of persons who are seeking workers to do specific jobs.

It is time that the entire community takes advantage of the opportunity which is offered by the round-the-clock office here. Whether it is placed upon a permanent basis will depend upon the demands of the citizenship.

Are you in need of work? Do you have need of a full-time or part-time employee? The two questions are repeated to point to the function of the local employment office.

Whatever your need, call or see Joe Bob Browning. He will record your request, and will make every effort to fulfill it.

### What Other Editors Say

#### Newspapers Preserve Liberty of Americans

This begins National Newspaper Week and the Herald is proud to be numbered among the thousands of daily and weekly newspapers across this land who are preserving their heritage of a free press operated by free men.

At least once a year we ought to stop and examine ourselves and see if we are doing the job we ought to be doing.

In the Declaration of Independence it said: "We hold these truths to be self evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness."

We believe that people have these unalienable rights and that a free press is necessary in a land to preserve them.

We even think that, human nature being what it is, selfish, covetous and desirous of power over other fellow beings, that the United States would not have lasted long had there not been newspapers free to criticize and expose.

If our American newspaper were not now free, but government controlled, like TV and radio now are, in five years our country, state and federal governments would all rule in a totalitarian manner, more tyrannical than England imposed on the American colonies.

True, there are fearless commentators on radio and on TV, but the federal government holds a powerful whip over these electronic media through the government licensing of both. A radio station that gets out of line can find life mighty hard and unprofitable.

When radio first, and then TV began news broadcasts, many people predicted that the circulation of newspapers would sharply decline, if not finally be completely replaced by radio and TV listeners. Such has not been the case.

Since the advent of TV, the new subscribers to daily and weekly newspapers has been more than all the TV sets sold. What's the reason? There are many.

First, the TV newscasts are skimpy, just whetting the viewer and listener's curiosity for more details the only place where he can get these details is from newspapers.

A newspaper that is serving its community properly has an active editorial voice, with opinions expressed freely.

That is not to say that the newspaper's readers must agree with the newspaper's opinions, but any active newspaper must stimulate the thinking of its readers whether they agree with the editor or not.

A newspaper is indeed the guardian of the people with respect to their right to know. A newspaper reporter must be nosy in prying into the affairs of public officials and in reporting what these officials do.

The average citizen has neither the time nor inclination to visit the courthouse, city hall and other public institutions to see what is going on. He depends upon his newspaper and other news media to do this for him.

There is no doubt that a newspaper which occupies any position of respect in its community

has the power to mold public opinion. And this means that a newspaper has a heavy responsibility to stick to the truth.

Some people always disagree with what the truth of any particular issue may be, because all we humans see things through our own eyes and our version of events may not be as others see them. But generally speaking, facts are facts, and if the newspaper will report the facts, the opinions can vary as they may.

The Herald is not what people would call a crusading newspaper, neither is it a timid one. It has an editorial voice, voices editorial opinions, strives to cover the news events as they happen and tries to keep its readers informed.

The Herald, like any newspaper, will always stop short of perfection, but we intend to keep trying and serving this commu-

ity in the years to come.

Subscribers and advertisers of the Herald have been good to us over the years and have made this one of the better known newspapers in the Panhandle area. We appreciate this support and pledge our continued efforts to serve in the best way that we can.

#### Making People Think Unpopular

One of the best newspaper columnists that ever lived, Don Marquis, once said, "If you make people think they're thinking, they'll love you; if you make them really think, they'll hate you."

We wonder what it would take to make people think. They don't like to think. They resist it strenuously.

The human mind, like water, takes the easiest course. It resists any break in its pattern of serenity. This is why all the great prophets and dissenters, the bold and original thinkers, have always met with fierce opposition.

We hate anybody who makes us re-examine our ideas or behavior.

And this is a time when people really need to think, to apply logical thinking to the things they read and hear. There are stories

## Demonstrating new '63 Chevrolet truck features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension systems this was!

Conventional light-duty units have coil-spring independent front suspension—easier on truck, load and driver.

Users of new conventional medium- and heavy-duty units who have to operate in close quarters are going to like the narrower front ends (up to 7 inches).

### New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja (bah'hah) Peninsula?

This is the toughest line of trucks Chevrolet has ever built. Sending them over the most punishing terrain in North America (a road totally unlike the fine highways on the Mexican mainland) was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

The Cyclone lost its opening district game 26-6 to the Wellington Skyrockets Friday night. The Skyrockets this Friday will meet the District favorites, the Lefors Pirates, in a game of vital interest to Memphis. If Wellington wins the game, they will probably have easy sledding for the district crown. However, if Lefors wins the game, then Memphis will have to defeat the Lefors Pirates to have the district in the three way tie.

Clarendon showed some power in defeating McLean 28-6 last Friday night, in their bid for the district crown. The Tigers will be Memphis' next opponent. The Cyclone will have to defeat McLean, then Canadian, who was defeated by Lefors 20-0, before they have a chance at Lefors and Clarendon.

The Cyclone shows a much more powerful team in the second half than they do in the first half. As the team gets more experience, this should work itself out. End Lucky Bridges added another six points to his list of scores Friday night. The 200 pound senior end is the team's leading ground gain, leading scorer and one of the better defensive boys. Another defensive specialist is coming into his own, also. That is Wayne Sweatt, who came out for football this year as a senior. Sweatt is a defensive starter and was selected as player of the week for his fine defensive showing against Wellington. Cyclone fans may see a lineup change Friday night at

McLean. QB Dwight Gailey may see some action as left halfback. Sturdevant will go to Quarterback if this happens. Senior tackle Dale Sexton hurt his knee in workouts last week but the knee isn't bothering him too much. Guard Jerry Lowe had the cast removed from his foot Wednesday and may see limited action at McLean.

The Memphis team would like to avenge McLean's 13-12 victory over Memphis last year. I am predicting a good football game for local spectators who make the trip to McLean.

The Lakeview Eagles will travel to Darrouzzett Friday night, game time is 7:30 p. m. The Eagles last week and should be ready to go Friday night.

The Estelline Bear Cubs will host the Quanah "B" team Thursday evening. This will be their last non-conference game. The Bear Cubs lost last Friday night to the experienced Lockett team, 36-6. Estelline's lone score came in the fourth quarter when Frankie Longbine carried over. The Bear Cubs will be seeking their first win Friday.

Last Thursday night, the Memphis Junior High team and "B" team went to Clarendon. They lost both games. The Jr. High squad was defeated 28-12 while the "B" team lost 8-0.

One area basketball game was played Friday night. Quitaque girls downed the Hedley girls 45-43 but the Hedley boys downed the Quitaque boys 65-59.

Mrs. Pearl Massey and Mr. and Mrs. Alvin Massey and Charles and Abbie Louise were in Waco over the weekend to visit with Mr. and Mrs. Jimmy Bradshaw and their new daughter, Robin Louise. The baby is the first grandchild of Mr. and Mrs. Alvin Massey and Mrs. Pearl Massey's first great grandchild.

## Mrs. L. O. Dennis' Mother Dies In Hollis Monday

Funeral services for Mrs. W. A. (Ada) Foster, 89, were held at 2:30 p. m. Wednesday in the First Methodist Church in Hollis, Okla. Mrs. Foster was the mother of Mrs. L. O. Dennis of Memphis.

David Severe, pastor, officiated, assisted by Earl Brecheen, minister of the Hollis Church of Christ. Burial was in Fairmount Cemetery.

Mrs. Foster died at 1:30 p. m. Monday following a long illness. She was born in Itomomba County, Miss., and moved to the Hollis area from Cooper in 1907. She was a long time member of the Methodist Church.

Other than her daughter here, Mrs. Dennis, she is survived by three other daughters, Mrs. Myrtle Amerson and Mrs. Amy Greenwood, both of Hollis, Mrs. Ila Holley of Muleshoe; a son, Herman of Los Angeles, Calif.; 12 grandchildren, 26 great grandchildren and four great great grandchildren.

## Memphis Band Receives Division II Rating Tues.

The Memphis Cyclone Band was awarded a division II rating at the Interscholastic Regional Marching contest in Canyon Tuesday, Bill Bradley, director, said Wednesday.

Lynn Foxhall and Billy Cosby were given first place in solo twirling and second place went to Carol Smith, Nevo Sue Koeninger, Minka Sims, Rosemary Harrison, Sarah Beth Montgomery and third place to Janice Pounds.

The twirling quartet composed of Lynn Foxhall, Neva Sue Koeninger, Rosemary Harrison and Minka Sims was given third place. A blues show is being worked up by the band this week which will be presented at the football game Friday night between McLean and Memphis at McLean, Bradley said.

Billy Vallance of Oildale, Calif., visited here last week with his grandmother, Mrs. Pearl Vallance and other relatives.

Among those in Gruver Saturday to attend the wedding of Miss Royce Boney to Terry Monzingo were Mrs. Clifton Burnett, Jerry Cluck, Mrs. F. E. Monzingo, Mr. and Mrs. Bill Miller, Mr. and Mrs. John Binkley, Mrs. Mildred Monzingo and Tony.

soils. Farmers and ranchers are realizing land can't keep producing profitably or break even crops without help either from the sack or from humus building crop residues. Soils, like machinery, wear out, only there aren't as many dealers with shiny new farms as there are with machinery.

Wear the farm out and then move on is a thing of the past. There is nowhere to move. No more is there rich virgin land that has not been plowed or rangeland that has not been grazed. The land that we now have is easier to improve than to buy new land. Commercial fertilizer is the quickest way to up soil fertility, but humus is necessary to get the best benefits from it. Nitrogen is the number one plant growth element, but scientists say it can only exist in the organic materials of the soil.

## Lemons-True Nuptials Read In Impressive Church Service

In an impressive ceremony solemnized at half after four o'clock Saturday evening, Oct. 20, in the First Methodist Church, Miss Bobbie Lemons, daughter of Mr. and Mrs. R. C. Lemons, became the bride of James L. True of Dallas.

The bridegroom is the son of Mr. and Mrs. Lester True of Dallas. The Rev. J. B. Thompson, pastor of the First Methodist Church, read the double ring ceremony before a nuptial space of greenery, floor baskets of white gladioli and bronze mums.

Wedding music was presented by Mrs. George Ferris, organist, and Miss Donna Burke, of Albuquerque, N. M., vocalist.

Mrs. Michael Pelfrey of St. Louis, Mo., attended her sister as matron of honor and Miss Audrey Beth Burnett was maid of honor. Miss Lou Ann Cator of Gruver was bridesmaid. The attendants were identical

## 1913 Study Club Hears Program On Reading Dynamics Wednesday

A most unusual and interesting program on "Reading Dynamics" was presented before members of the 1913 Study Club meeting in the home of Mrs. D. L. C. Kinard on Wednesday afternoon, Oct. 17.

In Memphis to present the program on a new discovery in reading were Mrs. Robert Duncan, an Amarillo instructor in the Evelyn Wood Reading Dynamic Institute, and Miss Maggie Stephens, a senior student at West Texas State College, Canyon, who has completed a 10-week course.

As an introduction to the program, an interesting film was shown which demonstrated the new method in reading, in which a high school senior read several pages from a book he had not seen in a matter of seconds, at approximately 1200 words per minute. The amazing part of the demonstration was that he was able to give a review of the story he had read.

Mrs. Wood succeeded in teaching herself to read in the same manner as these exceptional readers. This convinced her that unusual reading skill was an acquired trait, within the reach of every normal reader, Mrs. Anderson concluded.

Mrs. Anderson explained that reading dynamics is a discovery and not an invention. Twelve years ago, Mrs. Evelyn Wood, while working toward her master's degree, handed a term paper to a professor and watched him flip through 80 pages at a startling rate, grade the paper and hand it back to her. Intrigued, she timed him and found that he read 6,000 words a minute with understanding recall and comprehension.

To conclude the program, Miss Maggie Stephens gave a demonstration in the new method of reading after which members were tested as to their reading speed.

During the social hour, tasty refreshments were served from an attractive table laid with a Harvest cloth.

Approximately 20 members and guests enjoyed the occasion.

## Baby Shower Oct. 18 Honors Mrs. John Harrell

The home of Mrs. W. M. Cofor was the scene on Thursday, Oct. 18, at 3 p. m. for a "pink and blue" shower honoring Mrs. John Harrell.

The color scheme of pink and blue was carried out in the serving table decorations. Centered with a bouquet of pink and blue carnations, the table also featured a stork. Covered with a lace table cloth over pink, the table was appointed in crystal. Nut cups decorated with little dolls, white punch and blue ice cubes, and pink cakes with blue candles were served to the guests.

Games were played followed by the opening of her gifts by the honoree.

Approximately 14 guests attended other than the hostesses which included Mmes. Earl Wheatly, Thurman Widener, Bob Hutcherson, Rayford Hutcherson, Billy Darrell Roden, Gayle Monzingo and Troy Phillips.

## Delphians Enjoy Tour of Amarillo Air Force Base

Members of the Delphian Club and several guests enjoyed a guided tour of Amarillo Air Force Base in Amarillo Tuesday, Oct. 15.

The group left Memphis at 9 o'clock and met Lieutenant Colonel Sam Sharp at the entrance to the base at 11 o'clock. They were given visitors cards and followed his car to the Officers Club.

"We went into the beautiful lounge where we met the Lt. Colonel's wife and three other beautiful young women, the wives of three other officers, who served as hostesses," Miss Maude Milam, reporter, stated.

"Here, we visited and toured

the beautiful building. At about 11:30 we were directed to one of the dining rooms which had been arranged for us. We went to the Cafeteria for our food which was delicious.

"After lunch we boarded an Air Force bus and were driven to another building which houses the maintenance force for the B-52's for landing. The parachutes are automatic and are equipped with emergency kits. All pilots wear nice little boats should they drop into the ocean.

"We saw the radar scope in action and armament segments of electronics. This office is the hub of all SAC. The officer there has control of all men at all times.

One man cannot go on a bomber alone. In the B-52 sheet metal repair shop we saw the hydraulic power unit which weighs 5,200 pounds and makes 37,000 revolutions per minute. There are 10 of these on each B-52.

There are 1100 people at work in this Strategic Wing. "The size of the B-52 is 185 feet from wing-tip to wing-tip, 156 feet long, 48 feet and 3 inches at the highest point. The take-off weight capacity of the Stratofortress is 2 tons plus. It can carry approximately 4 railroad tank car loads of fuel at one time.

"There is sufficient material in each main landing tire to produce one hundred automobile tires. The average life of a tire is 10 landings.

"The electric tubes (2,140) for each aircraft's electronic equipment could be used to build 144 television sets.

"The heat required to anti-ice the wings and tail is equal to the heat required to heat 56 average size homes. Each B-52 requires 128 gallons of oil. The cost of one B-52 is 8 million dollars.

"We were led to another office where the vice commander of the Strategic Air Command Wing welcomed us. He told us there are 160 families connected with this wing and that there are 700 families in all of the base. The B-52's came into use in 1952.

"After touring all of the maintenance buildings we boarded the bus again and were driven to a B-52 sitting on the ground. As we approached we saw a B-52 coming in for a landing with its drag-chute spread wide but not touching the ground. In just a short time we saw a B-52 take off. We had been shown the route it would take a short time before. The flight consists of 24 hours in the air with a crew of 6 men. The B-52 can refuel in the air but it can carry fuel for 15 hours in the air.

"We were permitted to board the bomber where Lt. Col. Sharp pointed out the intricate parts, too many to remember any of them definitely.

"The weather was quite cool by this time and we were very glad to board the bus again. After viewing many of the beautiful homes, we landed at the place where the guard dogs are trained. There we saw some remarkable performances. At first the dogs were docile and performed some very difficult tasks. Then the trainers switched their collars and they became ferocious beasts, snarling and attacking a well-padded man.

"From this point we returned to the Officer's Club where we spent a short time visiting and having coffee. Here we bade farewell to the Lt. Col. and the lovely ladies and departed for home about 5 o'clock," the reporter concluded.

## Memphis B&PW Club Entertains Tues. With Hobo Party For Working Women

Memphis B&PW Club entertained the working women of Memphis with a "hobo" party at the Travis Cafeteria, Tuesday, Oct. 23, at their home in Lakeview with open house. Friends are invited to call at the family home in Lakeview between the hours of 2 and 5 o'clock Sunday afternoon. Hosts for the occasion will be their daughter, Mrs. Alexander of El Campo, and sons Ken Bevers of Dallas and Dean, Leroy and Cliff Bevers, all of Lakeview.

Howe, Carolyn Mann, Hattie Dem Thompson, Billie Jackson, Evelyn Mauck, Thelma Hodges, Linda Eas, Sophie Stilwell, Helen Ballew, Betty Ann Shahan, Mozelle Wright, Virginia Browder, Clara Pritchett, Christine Hayes, Ruby Compton, Maxine Cape, Jo Pearl Odom, Gladys Pover, Dorothy Anthony, Cammie Hull, Cellie Koen, Mary Lee Mabry, Wilma Norman, and Janie Norman.

B&PW members Oma Jean Parr, Ethel Driver, Martha Boren, Roselyn Williams, Joan Edwards, Cora Belle Alexander, Mary Baten, Inez Mason, Myrtle Graham, Mollie Carlos, Florita Branigan, Louise Howell, Myrtle Helm, Nell Messer, Katherine Latimer, Wilma Lesley, Shirley Binkley, Ona Rasco and Gerrie Putts were present as hostesses. Other members assisting with the preparation of the party but unable to attend were: Helen Combs, Pat Coleman, Joy Duncan, Tops Gilreath, Beatrice Swint, Zada Goodpasture, Neva Hickey, Letha Springer, Louise Crow, Pauline Currin and Wilma Martin.

rockers and a large casual chair which can be used in the living room.

The large chair is being re-done by Mrs. C. B. Craighead and was purchased at a used furniture store for only \$2.50. The material used for upholstering is in a pretty shade of natural tan embossed with miniature designs of the same shade.

Rev. and Mrs. H. W. Hill have re-done a pretty platform rocker using an attractive material of brown and black mingled design

with an all leather trim in brown. They have also assisted Mrs. C. Dunn who is re-doing a platform rocker and re-finishing the wood trim.

Several other members are sitting in on the class and others are making plans to join the class as soon as the busy harvest season is concluded, Mrs. Baker said.

Recently questionnaires were sent to all parents in the school district inquiring if they would be interested in an adult class in home economics.

More than 25 persons indicated they would be interested in clothing, tailoring and upholstery. Several other persons checked other courses which can be offered by the department such as: foods and nutrition, child development, mother and baby care, first aid, home nursing, money management, building your marriage, teenagers and handicraft.

The vocational class is open to anyone who is interested. There is no charge, no tests and no grades, Mrs. Baker said.

VIEW UPHOLSTERY CLASS—Three members of the Lakeview Upholstery Class look on, in the picture, to the right, as Mrs. Donna Baker, home economics teacher, gives last minute tips for finishing up a neat upholstery job on a platform rocker. At the left, four members of the class are shown with a platform rocker which has recently been completed by Mrs. C. B. Craighead and Mrs. C. Dunn, who recovered chairs.

## Lemons-True Nuptials Read In Impressive Church Service

In an impressive ceremony solemnized at half after four o'clock Saturday evening, Oct. 20, in the First Methodist Church, Miss Bobbie Lemons, daughter of Mr. and Mrs. R. C. Lemons, became the bride of James L. True of Dallas.

The bridegroom is the son of Mr. and Mrs. Lester True of Dallas.

The Rev. J. B. Thompson, pastor of the First Methodist Church, read the double ring ceremony

before a nuptial space of greenery, floor baskets of white glad- ioli and bronze mums.

Wedding music was presented by Mrs. George Ferris, organist, and Miss Donna Burke, of Albuquerque, N. M., vocalist.

Mrs. Michael Pelfrey of St. Louis, Mo., attended her sister as matron of honor and Miss Audrey Beth Burnett was maid of honor. Miss Lou Ann Cator of Gruver was bridesmaid.

The attendants wore identical

dresses of emerald green velvet- teen and taffeta. They wore matching illusion hats and satin slippers and carried bronze mums surrounded by miniature mums.

Paul Holcomb of Stamford was best man. Groomsmen were Barton Smith of Dallas, Bob Galbreth of San Diego, Calif., Jim Woody of Ashville, N. C., Gary Stone of Newick, N. J., Geta Wilcox of Albany and Jerry Howard of Roby.

Given in marriage by her father, the bride wore a wedding gown of white poie-de-soie styled with a side drape, long tapered sleeves and a sweetheart neckline. Her veil of illusion was attached to a white pillbox hat and she carried a white orchid surrounded by stephanotis and ivy atop a white bible, belonging to Mrs. J. M. Laker of Dallas.

For something old, the bride carried a handkerchief that her mother carried at her wedding.

As the couple left the church, they passed under an arch of sabers, held aloft by a group of U. S. Air Force officers.

### Reception

A reception following the wedding was held in the church annex. Members of the house party were Miss Jane Shaver and Kay Lane and Mrs. Mac Hamilton of Abilene, Mrs. Earl Wheatley of Hedley, Misses Jo Hudson and Annette Holman of Lubbock.

The bride is a graduate of Memphis High School and McMurry College.

The bridegroom is a graduate of Seymour High School and McMurry College.

Among the out-of-town wed-

MRS. JAMES L. TRUE

ding guests were Mr. and Mrs. Zeb Moore of Amarillo, Mrs. Carl Denny and Carol of Childress, Mrs. Candler Hawkins of Marionville, Mo., Mrs. George Haire and Betty, Mr. and Mrs. Tom Miller of Dallas, Mr. and Mrs. B. Campbell of Earth, Jim Smith of Abilene, Mrs. John Moreland of Durant, Okla., Mrs. Andy DeWees and David and Vern of Amarillo,

Rev. and Mrs. Don Davidson of Lazbuddie, and Jim Garland of Claude.

For travel the bride chose a gold woolen suit with matching accessories. Her corsage was the orchid from her bridal bouquet.

The couple will be at home in Douette, Delaware, where the groom is a lieutenant with the U. S. Air Force.

## 1913 Study Club Hears Program On Reading Dynamics Wednesday

A most unusual and interesting program on "Reading Dynamics" was presented before members of the 1913 Study Club meeting in the home of Mrs. D. L. C. Kinard on Wednesday afternoon, Oct. 17.

In Memphis to present the program on a new discovery in reading were Mrs. Robert Duncan, an Amarillo instructor in the Evelyn Wood Reading Dynamic Institute, and Miss Margie Stephens, a senior student at West Texas State College, Canyon, who has completed a 10-week course.

As an introduction to the program, an interesting film was shown which demonstrated the new method in reading, in which a high school senior read several pages from a book he had not seen in a matter of seconds, at approximately 1200 words per minute. The amazing part of the demonstration was that he was able to give a review of the story he had read.

Mrs. Anderson explained that Reading dynamics is a discovery and not an invention. Twelve years ago, Mrs. Evelyn Wood, while working toward her master's degree, handed a term paper to a professor and watched him flip through 80 pages at a startling rate, grade the paper and hand it back to her. Intrigued, she timed him and found that he read 6,000 words a minute with understanding recall and comprehension.

Mrs. Wood found that average readers could not read without saying, hearing or thinking the sound of words. In childhood, they learned to read aloud. Growing older, they stopped saying words, but still found them in their minds, hearing each word mentally.

Mrs. Wood found that exceptional readers had several characteristics in common. All read down a page, rather than from

left to right. They absorbed the meaning of whole areas of a page at a time. They retained what they read and adjusted their speed to the type of material they were reading.

Mrs. Wood succeeded in teaching herself to read in the same manner as these exceptional readers. This convinced her that unusual reading skill was an acquired trait, within the reach of every normal reader, Mrs. Anderson concluded.

To conclude the program, Miss Margie Stephens gave a demonstration in the new method of reading after which members were tested as to their reading speed.

During the social hour, tasty refreshments were served from an attractive tea table laid with a Harvest cloth.

Approximately 20 members and guests enjoyed the occasion.

## Baby Shower Oct. 18 Honors Mrs. John Harrell

The home of Mrs. W. M. Cofer was the scene on Thursday, Oct. 18, at 3 p. m. for a "pink and blue" shower honoring Mrs. Johnny Harrell.

The color scheme of pink and blue was carried out in the serving table decorations. Centered with a bouquet of pink and blue carnations, the table also featured a stork. Covered with a lace table cloth over pink, the table was appointed in crystal. Nut cups decorated with little dolls, white punch and blue ice cubes, and pink cakes with blue candles were served to the guests.

Games were played followed by the opening of her gifts by the honoree.

Approximately 14 guests attended other than the hostesses which included Mmes. Earl Wheatly, Thurman Widener, Bob Hutcherson, Rayford Hutcherson, Billy Darrell Roden, Gayle Monzingo and Troy Phillips.

## Delphians Enjoy Tour of Amarillo Air Force Base

Members of the Delphian Club and several guests enjoyed a guided tour of Amarillo Air Force Base in Amarillo Tuesday, Oct. 15.

The group left Memphis at 9 o'clock and met Lieutenant Colonel Sam Sharp at the entrance to the base at 11 o'clock. They were given visitors cards and followed his car to the Officers Club.

"We went into the beautiful lounge where we met the Lt. Colonel's wife and three other beautiful young women, the wives of three other officers, who served as hostesses," Miss Maude Milam, reporter, stated.

"Here, we visited and toured

the beautiful building. At about 11:30 we were directed to one of the dining rooms which had been arranged for us. We went to the Cafeteria for our food which was delicious.

"After lunch we boarded an Air Force bus and were driven to another building which houses the maintenance force for the B-52's for landing. The parachutes are automatic and are equipped with emergency kits. All pilots wear nice little boats should they drop into the ocean.

"We saw the radar scope in action and armament segments of electronics. This office is the hub of all SAC. The officer there has control of all men at all times.

One man cannot go on a bomber alone. In the B-52 sheet metal repair shop we saw the Hydraulic power unit which weighs 5,200 pounds and makes 37,000 revolutions per minute. There are 10 of these on each B-52.

There are 1100 people at work in this Strategic Wing.

"The size of the B-52 is 185 feet from wing-tip to wing-tip, 156 feet long, 48 feet and 3 inches at the highest point. The take-off weight capacity of the Stratofortress is 2 tons plus. It can carry approximately 4 railroad tank car loads of fuel at one time.

"There is sufficient material in each main landing tire to produce one hundred automobile tires. The average life of a tire is 10 landings.

"The electric tubes (2,140) for each aircraft's electronic equipment could be used to build 144 television sets.

"The heat required to anti-ice the wings and tail is equal to the heat required to heat 56 average size homes. Each B-52 requires 128 gallons of oil. The cost of one B-52 is 8 million dollars.

"We were led to another office where the vice commander of the Strategic Air Command Wing welcomed us. He told us there are 160 families connected with this wing and that there are 700 families in all of the base. The B-52's came into use in 1952.

"After touring all of the maintenance buildings we boarded the bus again and were driven to a B-52 sitting on the ground. As we approached we saw a B-52 coming in for a landing with its drag-chute spread wide but not touching the ground. In just a short time we saw a B-52 take off. We had been shown the route it would take a short time before.

The flight consists of 24 hours in the air with a crew of 6 men. The B-52 can refuel in the air but it can carry fuel for 15 hours in the air.

"We were permitted to board the bomber where Lt. Col. Sharp pointed out the intricate parts, too many to remember any of them definitely.

"The weather was quite cool by this time and we were very glad to board the bus again. After viewing many of the beautiful homes, we landed at the place where the guard dogs are trained. There we saw some remarkable performances. At first the dogs were docile and performed some very difficult tasks. Then the trainers switched their collars and they became ferocious beasts, snarling and attacking a well-padded man.

"From this point we returned to the Officer's Club where we spent a short time visiting and having coffee. Here we bade farewell to the Lt. Col. and the lovely ladies and departed for home about 5 o'clock," the reporter concluded.

**WEDDING DATE, 50 YEARS AGO** — Mr. and Mrs. V. L. who are pictured above on their wedding day 50 years ago will observe their Golden Wedding Anniversary Oct. 28, at their home in Lakeview with open house. Friends are invited to call at the family home in the hours of 2 and 5 o'clock Sunday afternoon. The occasion will be their daughter, Mrs. Alexander of El Campo, and sons Ken Bevers of and Dean, Leroy and Cliff Bevers, all of Lakeview.

## Memphis B&PW Club Entertains Tues. Hobo Party For Working Women

Memphis B&PW Club entertained the working women of the city with a "hobo" party at the Travis Cafeteria, Tuesday, Oct. 23, with the National League of Women's Clubs. Guests and members dressed for the occasion in a variety of creative costumes from the well-to-do hobo to the fortunate kind.

President Mary Baten presided. The invocation was given by Louise Howell. There was hot dogs, chili, beans and a variety of individual served. Lanterns and a variety of music and singing by the group. For a special moment, Ethel gave explanatory messages by the Collect used by the Clubs. Each phase was followed by a mission followed by making each part meaningful for all.

On the occasion invited guests were Mrs. Crabb, Amarillo; Mrs. Mary Sue Stotts, Houston; Mrs. Linville, Mildred; Mrs. Maddox, Katie; Mrs. Stephens, Frances; Mrs. Wyatt, Alma Bruce; Mrs. Estelle Barber, E. Yarbrough, Nell Beecher, Maynard, Naydeen; Mrs. Morris, Dorothy; Mrs. Boswell, Louise; Mrs. Gilliam, Shirley; Mrs. Sue Young, Al; Mrs. White, Nelda Bray; Mrs. Lemons, Mary Long; Mrs. Diggs, Jimmie Lee.

Howe, Carolyn Mann, Hattye Dem Thompson, Billie Jackson, Evelyn Mauck, Thelma Hodges, Linda Eses, Sophie Stilwell, Helen Ballew, Betty Ann Shahan, Mozelle Wright, Virginia Browder, Clara Pritchett, Christine Hayes, Ruby Compton, Maxine Cape, Jo Pearl Odum, Gladys Power, Dorothy Anthony, Cammie Hull, Cellie Koen, Mary Lee Mabry, Wilma Norman, and Janie Norman.

B&PW members Oma Jean Parr, Ethel Driver, Martha Boren, Rose- lyn Williams, Joan Edwards, Cora Belle Alexander, Mary Baten, Inez Mason, Myrtle Graham, Mollie Carlos, Florita Branigan, Louise Howell, Myrtle Helm, Nell Messer, Katherine Latimer, Wilma Lesley, Shirley Binkley, Ona Rasco and Gerrie Putts were present as hostesses. Other members assisting with the preparation of the party but unable to attend were: Helen Combs, Pat Coleman, Joy Duncan, Tops Gilreath, Beatrice Swint, Zada Goodpasture, Neva Hickey, Letha Springer, Louise Crow, Pauline Currin and Wilma Martin.

## Adults Enjoy Upholstery Class

The first phase of the upholstery program of the Home Economics Department at the Lakeview High School meets twice each week on Tuesday and Thursday

and is being done by adult members under the supervision of home economics instructor, Mrs. C. B. Craighead.

The class has completed two platform

rockers and a large casual chair which can be used in the living room.

The large chair is being re-done by Mrs. C. B. Craighead and was purchased at a used furniture store for only \$2.50. The material used for upholstery is in a pretty shade of natural tan embossed with miniature designs of the same shade.

Rev. and Mrs. H. W. Hill have re-done a pretty platform rocker using an attractive material of brown and black mingled design

with an all leather trim in brown. They have also assisted Mrs. C. Dunn who is re-doing a platform rocker and re-finishing the wood trim.

Several other members are sitting in on the class and others are making plans to join the class as soon as the busy harvest season is concluded, Mrs. Baker said.

Recently questionnaires were sent to all parents in the school district inquiring if they would be interested in an adult class in home economics.

More than 25 persons indicated they would be interested in clothing, tailoring and upholstery. Several other persons checked other courses which can be offered by the department such as: foods and nutrition, child development, mother and baby care, first aid, home nursing, money management, building your marriage, teenagers and handicraft.

The vocational class is open to anyone who is interested. There is no charge, no tests and no grades, Mrs. Baker said.

**UPHOLSTERY CLASS**—Three members of the Lakeview Upholstery Class look on, in the picture, to the right, as Mrs. Donna Baker, home economics teacher, gives last minute tips for finishing up a neat upholstery job on a platform rocker. At the left, four members of the class are shown with a platform rocker which has recently been completed by Mrs. C. B. Craighead and Mrs. H. W. Hill, shown at right. To the left are Mrs. C. B. ### Lions Club Says Broom Sale Is Very Successful

President Jack L. Rose of the Memphis Lions Club said this week, "The Lions Club broom sale was the best we have had in several years. It gave the club money which is badly needed to fulfill some commitments for the next few months."

"The Lions Club members would like to thank every person who had a part in the sale. We appreciate so much the generous attitude of the people in our territory," Boss Lion Rose said.

Approximately 30 Lions and several Boy Scouts of Troop 35 covered the town Wednesday.

Proceeds from the sale will not only help the local club in many worthwhile causes, but a large percentage of the money raised, goes directly to pay the salaries of blind people who assemble the materials sold, Rose said.

#### CARD OF THANKS

Amendment No. 8. Both are in recognition of the increasing cost of modern living. The ceiling on state spending for needy aged, blind, etc., would be boosted by \$5 million to a total of \$52 million. The ceiling for disabled would be boosted by \$1 million to \$2.5 million.

Amendment No. 6 also deals with public employees, and would authorize retirement, disability, and death benefits for elected and appointive officers and employees of counties and political subdivisions who have served in such capacity for 12 years or more. Under terms of the amendment, counties would match retirement contributions made by officials.

### The Special Issues Group

In this group are Amendments No. 3, 9, 12 and 13. Two of these authorize creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins counties (No. 3) and in Brazoria and Titus counties (No. 9), subject to approval of citizens in the affected districts. No. 13 applies to school

districts in Dallas county and No. 12 gives counties on the Gulf Coast to regulate traffic on their beaches.

Amendment No. 5 is of statewide interest. It gives the Legislature the authority to approve creation of hospital districts, subject to vote of the citizens in the affected areas, without the necessity of any more special Constitutional Amendments.

### Administrative Amendments

The remaining group of five proposed amendments cover a lot of territory. No. 4 on the ballot is the adding of a new section to be known as Section 49-d, providing for a State program of acquiring conservation storage facilities in reservoirs. This constitutional amendment is a district change from the present commitment of the State to assist local subdivisions in acquiring and developing their own water facilities. The shift to State leadership might result in some differences with local authorities, but the idea of the State's taking responsibility for future storage could prove attractive. The amendment carries a \$200,000,000 limitation and will be under the management of the Texas Water Development Board and carries a time limit on the program of December 31, 1982. This amendment should be studied thoroughly on its merits and demerits.

Amendment No. 11 would permit the State of Texas to sell any land acquired under its Veterans Land Program to non-veterans, provided veterans don't want it. The Legislature would prescribe the quantity, the terms, price and rates of interest for sales to non-veteran buyers. The veterans land program was adopted in 1946 with later amendments increasing the amount of bonds which could be issued. Under this program the State assists Texas veterans by purchasing land which it resells to them on easy terms. The program of land purchase will end on Dec. 1, 1965. This proposal would allow the State to begin disposing of the property not wanted by veterans in an orderly manner.

Amendment No. 7 would let the legislature make emergency provided veterans don't want it, and local governmental operations in even an all-out enemy attack suddenly rendered all elected officials non-operation. It is specifically provided in the proposed amendment that the "Bill of Rights" in Article I of our Constitution shall not be in any manner affected, amended, impaired, suspended or repealed. In this Atomic Age this is a progressive step.

Amendment No. 10 would allow a State employee to serve in

## HALF-PAST TEEN

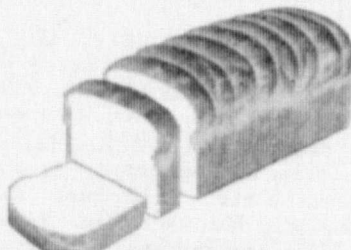

an advisory capacity or be appointed to serve as a consultant or on an advisory committee, with other agencies of this state or any of its political subdivision or of the federal government. He could be reimbursed for expenses only.

Amendment No. 14 is the "Trial de Novo" amendment, which has already stirred up such a controversy that most people know what it is. If passed this amendment would add more work to our already crowded court systems and render all administrative boards, commissions, and councils incapable of making firm decisions, but would transfer their burdens to the court system. This is, from a constitutional viewpoint, the most important of all the proposed amendments to be voted on in November. It would result in a substantial change in the constitutional division of power between the legislative, executive and judicial branches of our government. There is no similar provision in our national constitution or that of any other state. However, if approved, it would allow a course of action for an individual to take if an administrative decision went contrary to his desires or beliefs.

## Texas Tech To Have Homecoming This Weekend

Texas Tech's 1962 homecoming will be unwrapped Friday and Saturday, Oct. 26 and 27, when thousands of ex-students flock to the campus for two activity-filled days.

Highlighting opening day events will be a talk by Gen. David M. Shoup, commandant of the U. S. Marine Corps, who will be speaker at a meeting of the Century Club at 6 p. m. Friday in the Student Union Building.

Saturday events will be highlighted by a downtown homecoming parade at 10 a. m. and the Texas Tech-SMU football game at 2 p. m. The homecoming parade at 10 a. m. and the Texas Tech-SMU football game at 2 p. m. The homecoming dance, featuring Buddy Morrow's band, will be Saturday night in the Municipal Coliseum.

Business sessions will lead off the annual get-together. The Ex-Students Association board of di-

rectors and the Loyalty Fund Trustees will meet at 10 a. m. At 1:30 p. m., the Ex-Students Council will meet in the Union Building ballroom to elect new officers.

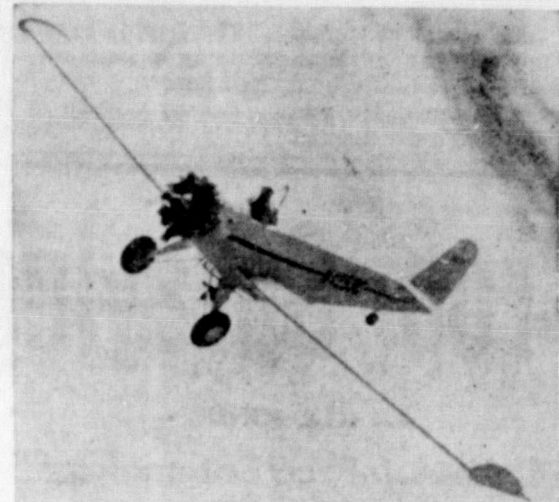

The more colorful activities begin at 7:30 p. m. Friday with a huge pep rally in the Southwest Conference Circle, followed by coronation of the homecoming queen in front of the Science Building.

Classes of 1945-62 will hold a reunion at 9 p. m. in the Student Union, and classes from 1925 through 1945 will meet at 9:30 in the Caprock Hotel.

Theme for the parade will be "Red Raider Serenade," with all floats depicting song titles. First and second place winners in the three divisions — fraternity, sorority and all-campus clubs—will receive trophies. A larger trophy will go to the most outstanding float in the parade.

Mrs. Andy DeWees and sons spent the weekend visiting here with their mother and grandmother, Mrs. Hester Bownds.

Mr. and Mrs. Thurman Ellerd were Amarillo visitors on Saturday of last week.

## WHY, Mr. Congressman?

(A letter to Mr. Rogers)

### Someone must speak up!

Why do you say, "It doesn't do any good to holler and scream about the problem of increasing bureaucracy"? Unless you can offer something better, don't knock the hollering and screaming a few men in Congress have courage enough to do. People of the Panhandle are disturbed about "increasing bureaucracy", about wasteful government spending and the national debt, about the Kennedy-Freeman farm plan you supported, and the Arms Control and Disarmament Agency you voted for. Someone must have the courage to speak up, Mr. Congressman. And here is where you have failed the people who elected you. That's why the citizens of the Panhandle will vote for Jack Seale, a man who does have the courage to speak up.

From the incumbent's speech before the Panhandle Chapter of the National Association of Bank Auditors and Comptrollers.

### LABORATORY FOR ELECTRICAL POWER

West Texas Utilities Company maintains a laboratory and a full time chemist in each of the power plants to check the chemical content of water used by WTU. Chemical content of the water helps to determine the frequency of equipment overhauls.

Boilers, turbine blading, cylinders, piping, steam inlet valves, condensers, water pumps, and much other operational equipment is impaired by chemicals in the water. Close laboratory control of water conditions can prevent equipment breakdown before it happens. This is just one of the many maintenance procedures by WTU to assure you a continual flow of electrical power!

...thirteen stripes  
...symbol of the hea-  
...goal to which  
...time to  
...stripe a re-  
...light ema-  
...sun. And the  
...blue, re-  
...white, and blue, re-  
...world as  
...liberty. This is

by the ships of our Colonial Fleet  
in December of 1775.

Although some historians dis-  
pute the story, it is commonly be-  
lieved that Betsy Ross made the  
first flag and on June 14, 1777  
the Continental Congress estab-  
lished the Stars and Stripes by  
Resolution even though they did  
not specify the arrangement of  
the stars. Establishment of a  
national flag became a necessity  
so that our ships at sea would be  
recognized and not mistaken for  
pirate ships.

When the Star Spangled Ban-  
ner was first flown by the Con-  
tinental Army, General Washing-  
ton is reputed to have said, "We  
take the stars from heaven, the  
red from our mother country,  
separating it by white stripes,  
thus showing that we have sepa-  
rated from her, and the white  
stripes shall go down to posterity  
representing liberty."

As new states were admitted  
to the Union, it was first sug-  
gested that a star and a stripe be  
added but it was soon recognized  
that the flag could become un-  
wieldy so the law of April 4,  
1818 proclaimed that a star be  
added for each new state on the  
4th of July after its admission.  
No change was made in the flag  
from 1912 with the admission of  
New Mexico and Arizona until  
1959 when a star was added for  
Alaska and a year later our 50th  
star, representing Hawaiian state-  
hood.

Recognition of the Pledge of  
Allegiance to the flag was given  
by the Congress in 1942 and in  
1954 when the phrase "under  
God" was officially added. Pres-  
ident Eisenhower, at that time,  
said that "in this way we are  
reaffirming the transcendence of  
religious faith in America's heri-  
tage and future; in this way we  
shall constantly strengthen those  
spiritual weapons which forever  
will be our country's most power-  
ful resource in peace."

A very fine booklet was autho-  
rized to be published which gives  
the complete history of the flag,  
suggestions about displaying it,  
and approved customs for its use.  
I will be glad to obtain a copy  
for anyone indicating an interest  
in receiving one.

Mrs. T. M. Harrison left Mon-  
day for Dallas for a vacation in  
Birmingham, Ala.

#### CARD OF THANKS

We wish to express our sincere  
thanks and appreciation to our

good food and flowers at the  
death of our loved one, Maurice

# LET'S TALK FACTS... NOT PLATTITUDES

In twelve years of representing all the people of the  
Panhandle, Walter Rogers has fought for and  
courageously acted on these principles . . .

#### SAFEGUARDING THE CONSTITUTION

*The Constitution* is the foundation of our Government. This matchless document vests certain inalienable rights in the individual and in the sovereign States; they must not be abrogated by Federal socialization or control in education, housing, medicine, civil rights, or in any other area.

*Reard for Law* constitutes civil peace and justice. Secret-organization witch-hunts, which try to panic us into autocratic methods, would have us trade the foundation of America's greatness for neurotic nightmares.

*Power-grabbing Measures* cannot be tolerated. Such pressures for centralization of power include—increased Executive authority, near-exclusive Federal taxing power, packing of Congressional committees, socialization of education, medicine and industry, and usurpation of law-making power by the Supreme Court.

#### FAITH IN AMERICA

*Faith in America* and her institutions is indispensable to a healthy patriotism. Extremist groups who sav our public schools, our churches, our free press, our courts and our public leaders are under Communist control, are finally only spreading hate, suspicion and disunity—the prize goal of the Communists. What internal Communism exists in the U.S. will best be overcome by a thoroughgoing utilization of our democratic institutions and Constitutional safeguards, and not by adopting the methods of the Communists themselves.

*Competitive Private Enterprise* is essential to the maintenance of a free American economy, and it should be free of Government control except for the adjustment of wrongs brought about by bad faith. Management and labor should be allowed to settle their own disputes, with Government only in the role of arbiter.

*Small Business and The Family Farm* are essential facets of the future and progress of America. The exodus from the farms and small communities is responsible for many of the social ills which confront the metropolitan areas of our Nation.

#### PREPAREDNESS AND DEFENSE

*Preparedness and Defense* of this country are first considerations. We must not trifle with our Nation's security by skimping on vital appropriations. Streamlining of bureaucratic procedures and demanding efficiency and care in procurement will strengthen our defense as well as save taxpayers money.

*The National Sovereignty* of the greatest nation on earth must not be compromised. The Con- nally Reservation, limiting the power of the World Court, must remain. No disarmament agree- ments will be made without the approval of Congress.

*The Crisis in Cuba* poses a great threat to our national security. Walter Rogers introduced legis- lation which would deny foreign aid to any country whose ships carry goods of any kind to Cuba. He authored the bill calling for the closing of U.S. ports engaged in trade with Cuba.

#### AMERICAN AGRICULTURE

*American Agriculture* has, through ingenuity and hard work, demonstrated an ability to pro- duce an abundance of food and fiber, and the farmers who have accomplished this ill-deserve the brickbats presently being hurled in their direction. A sound and realistic farm program must be found: one which will be of the farmer's own choosing, giving him real alternatives and still providing for the dissolution of our market-depressing surpluses, with the right of appeal from bureaucratic edicts.

#### A BALANCED BUDGET, A SOUND DOLLAR

*Drastic Reduction of Government Costs*, abolition of overlapping bureaus, cleaning out of over- staffed departments, and demanding a full and fair day's work from every Government em- ployee must be achieved. The efficiency and economy of Walter Rogers' own office proves these are possible goals.

*Foreign Aid*, while designed to provide an increased measure of security for the U.S. in our life and death struggle with Godless Communism, has proved itself an overall bad investment. The program which was germinated in the highly successful Marshall Plan shortly after World War II, has grown so large that the expenditures of our dollars cannot be accounted for. For- eign Aid has found its way to Communist-controlled countries, it has served to sap our gold reserves, and has won few real friends. Walter Rogers has vigorously opposed these give-aways. *Development and Conservation* of natural resources is essential to this Nation's future. Reach- ing toward our potential in water, helium, and minerals development is an investment which will bring multiple dividends to the Panhandle as well as the United States as a whole.

## Wellington Downs Memphis In Opening District Contest 26-6

Memphis Cyclone was their first district game season by the Skyrockets 26-6 Friday night at Wellington Field. The game ended before a rain storm.

Skyrocket team in the first, second and third quarters. The Cyclone won a beautifully executed play, carried by the Cyclone, scored by the sea-

Jacky Bridges early in the period. Bridges covered and got fine blocks by the Grisham, Tackle Dale Halfback Jimmy Stur-

First Half Play  
The Cyclone received the opening and got no runback fumbled catch of the Mike Crow made four

Pounds romped through for six yards and a first down on the 21.

A tree-yard pickup by Sturdevant, an incomplete pass, and a six-yard gain by Sturdevant gave Memphis a fourth down and two-foot lacking for the first. Running from their own 30, the Cyclone went for the first down, and a Wellington tackle broke through the line and downed HB Pounds before he could pick up the necessary yardage.

The Rockets drove down the field in four plays and scored. No. 29, Bobby Hudson carried over for the score. The place kick was missed and Wellington was leading in the game 6-0.

The Cyclone took over after the kickoff on their own 26. The Wellington defense held the Memphis attack, and Pounds punted on the fourth down. A Wellington receiver fumbled the ball at mid-field and a Memphis lad recovered.

Pounds made five yards on a dive, only to have it nullified by a 5-yard penalty. Sturdevant gained four yards. Crow made two more and Pounds punted the ball against the 29 mph wind; a bad bounce and the gain was only 8 yards.

The Rockets took over on their own 40. They made five yards, and then the low charging Cyclone

line jarred the ball loose and Memphis recovered on the Wellington 46.

The Cyclone picked up short yardage, only to have it nullified by another penalty. Then, a pass from QB Dwight Gailey to End Jim Odom netted 16 yards and a first down to the Wellington 32.

But here again, the Cyclone's drive was stopped and the Rockets took over on their 42.

The Rockets made six yards on a dive, and then a shore pass from QB Lynn McLain to HB Craig Bergvall, after two good blocks, sprung Bergvall loose and he scampered 52 yards down the sideline to score. A pass between the same two boys made the score 14-0.

Memphis received the kickoff and Bill Pounds returned the ball 30 yards to the Memphis 43 before being downed. The Cyclone netted two yards in two carries and then on the third down, QB Gailey hit End Jacky Bridges who picked up 37 yards, however, the officials ruled that Memphis was off sides and the long gain was nullified. Then Bill Pounds quick-kicked the ball 45 yards to the Wellington 15.

This started the Rockets longest scoring drive during the game. Passes of 14 yards and 37 yards moved the ball to the Cyclone 31.

**ESTELLINE CAPTAINS** — Above are shown the two Bear Cub Captains talking with Estelline Coach Jimmy Don Adams. No. 12 is Darrell Collins and No. 26 is Bruce Richerson. The squad will play the Quannah "B" team tonight at the Estelline Football Field. This will be their last non-district contest.

Then Bergvall made 12 yards and 7 yards on two carries, followed by a four yard gain by Gary Holliman put the ball on the Memphis 6. Two plays later, QB McLain scored. The place kick was no good and the score was 20-0.

Memphis received the kickoff and returned it to their own 37. A penalty nullified a good gain and Memphis was held, and Pounds punted to the Wellington 39. The Rockets were held for short yardage and fumbled on their own 42 and Memphis recovered.

The half ended following an in-

complete pass from Gailey to o Bridges.

Up until the half, the game was dominated by the Rockets offensive unit which made eight first downs while the local team made only two.

**Second Half Play**  
The Cyclone kicked off to Wellington who took over the ball on their own 43. The Rockets fumbled on the second down and the Cyclone's big tackle, James Carroll fell on the ball. But turn about is fair play, and the Cyclone fumbled on their first down and Wellington recovered. Running from

their own 35, the Rockets received one of the two penalties for offensive holding. They were held by Memphis and on the fourth down Bergvall punted.

Jacky Bridges took the punt on the Memphis 30, avoided three would-be Skyrocket tacklers, got good blocks from Jimmy Sturdevant, Rex Grisham and Dale Sexton, and scampered for the goal-line. A place-kick by Richard Ellis was wide making the score 20-6.

Then, on the kickoff, Bergvall scampered up the center of the field, avoided four Memphis boys, broke free and won the footrace with Jim Odom to the goal line. The extra point try was no good and the score was 26-6.

The Rockets kicked off to the Cyclone and the ball was covered on the 44. Incomplete passes forced the Cyclone to punt, and Pounds booted the ball 35 yards to the Rocket 10. The Rockets made one of their three, second-half, first downs, then were held and punted.

Memphis was penalized 15 yards for clipping, establishing a 1st and 25 on the Memphis 29. The Cyclone made 18 of the necessary 25 yards before having to punt.

The Rockets took over on their 28, made one first down and then lost the ball on a fumble near the mid field.

Memphis ran two plays and lost

the ball on a fumble to Wellington. The Rockets made a first down to the Memphis 44 when the third quarter ended.

Opening up the fourth quarter of play, the Rockets were held and punted deep into Cyclone territory. The punt was fumbled and Wellington recovered on the Memphis 5.

Looking like a sure score for the Rockets, the Cyclone line bowed their backs and stopped three dive plays and pulled down the Rocket quarterback when he tried to sweep end, on the Memphis one.

A penalty prevented the Cyclone from moving the ball for a first down and Pounds punted to the Memphis 26. The Rockets were held again and Memphis took over on downs.

Late in the quarter, Memphis started their longest drive. Sophomore back Toby Crooks broke loose for a 25-yard gain to the Memphis 47. Six yards were made on carries by Crooks and Pounds, then a pass from Gailey to Crooks netted another 20 yards to the Rocket 29 yard line.

Another first down to the 18 was made on a pass from Gailey to End Bridges. However, here a 15-yard penalty was walked off against Memphis. Going for the TD, the Cyclone tried four passes only to have them go incomplete.

# FAITH TO LIVE BY

"NOW FAITH IS THE SUBSTANCE OF THINGS HOPED FOR, THE EVIDENCE OF THINGS NOT SEEN."

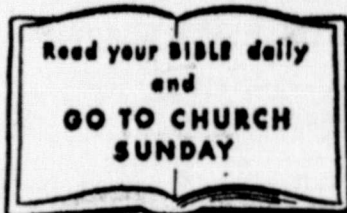

—Hebrews 11:1

This wrote Paul to the Hebrews. He went on to tell them what faith had accomplished among the old Testament saints.

Every man must have faith in something, even if he does not have faith in Christianity, the church of God.

But the man who has faith in the church will find his greatest source of strength, a reservoir that will fill daily needs.

Christianity and your church provides the faith to live by, to grow by, to hope by. The faith you find in your church will give your family a sense of security that no amount of money can buy. Worship with your family in the church of your choice next Sunday.

## Micronairing Cotton Is Aid While Classing

(This is the third of a series of articles on cotton classing and problems encountered by cotton producers prepared by K. E. Voelkel of the USDA's Cotton Classing Office, Memphis.)

For many years cotton quality has been described in terms of grade and staple length. However, assigning a grade based on the Universal Standards for grades, and pulling the staple length with your hands, comparing the "pull" with staple types of different lengths has not been sufficient. To fully describe the spinning quality of cotton, other factors, such as fiber strength, maturity, etc., are considered.

The instruments for measuring these factors were developed through laboratory tests. Because of the exacting standards set by farmer groups and the cotton trade in marketing transactions, classing offices are now using instruments to measure these factors. Machines and instruments are playing a large part in helping the classer to arrive at a correct classification on every bale that he classes.

One of these instruments in use in the Memphis Cotton Classing Office is the micronaire. This instrument tests the resistance of a certain weight of cotton to a cer-

### CARD OF THANKS

I wish to take this means of thanking Dr. Clark and the staff at Odum Hospital who were so kind to me during my stay in the hospital. I also want to thank the ministers for their visits and the many friends who visited me, sent cards and flowers. May God bless each one of you.  
Mrs. Amanda Martin

tain amount of air pressure. If the resistance is low, or if a lot of air will flow through the sample, it indicates that the cotton is of a strong and mature fiber, and thus the staple length is classified as sound cotton.

Cotton fibers are hollow, like straws. If the walls of these fibers are soft and weak, more of them can be compressed into an area forming a tighter plug thru which air can not readily flow. This condition usually shows a low micronaire reading, and the staple length will be classified as awsty. This is the principle of the micronaire test.

A Fibertel System consists of a 24 foot conveyor belt with electric eyes, a scale, a micronaire which tests the strength and ma-

turity of the fiber. The micronaire is fully automated except for loading of the sample into the chamber.

It requires four persons to operate a Fibertel System when in full operation. At one end of the conveyor belt samples are unsacked and placed on the belt, which moves the samples to the scales, located near the micronaire in the center of the system. There an electric eye stops the sample, giving the second person time to take a small sample of cotton for weighing (50 grains). This small sample, after weighing, is passed to a third person, who places it in a cylindrical chamber, depresses a small valve lever with the left hand and the chamber closes automatically and the read-

ing is obtained very quickly. By this time, the large, original sample has moved down the conveyor belt to the third person's position, where another electric eye stops the sample, allowing a drop tag with the micronaire reading on it to be placed between the two halves of the sample. Here the sample is placed in a tray, with other samples from the same gin points, and the tray is moved into the classing laboratory where it is conditioned before classing.

As previously stated, the micronaire is used as an aid in determining whether a staple should be designated "Wasty." A sample of cotton may be wasty and have a high micronaire reading. Any sample that is tested and has a micronaire reading of 2.6 or low-

er will be designated "Wasty." For any sample tested the micronaire reading of 2.6 the classer must designate the sample "Wasty" on the basis of his judgment as to the weakness and maturity in the staple of the cotton. The above describes a small phase in the classing procedure, but it is an important one. By using micronaire strength has a better strength and maturity in cotton fiber, and thus giving an accurate reading of the cotton.
