**CYCLONE TRI-CAPTAINS**—The Memphis Cyclone team announced the selection of three senior starters as Tri-Captains of the 1964 team. Pictured above are, left to right, End Jim Odom. Quarterback Jimmy Sturdevant, and Center Donnie Bridges. The tri-captains will be in charge of the Cyclone when it takes to the field against Wellington tomorrow night at 7:30 p. m.

## Cyclone Opens District Play Against Skyrockets

The Memphis Cyclone will open District 2-A play at 7:30 p. m. Friday night, when they host the Wellington Skyrockets, defending district champions, and presently ranked as the No. 2 Class A team in the Panhandle area.

"Wellington will be at full strength Friday night as far as we know," Coach Charley Chambliss said, "and we still are hampered by several injuries."

"Our boys know that Wellington has a big, hard hitting team that plays sound football and makes very few mistakes, and we will have to play outstanding, errorless football to beat them," Coach Chambliss said.

Wellington is not an outstanding squad but they do their jobs right without making very many mistakes. They play three sophomores because they do a good job. They are not fancy and are not a gambling team, Coach Chambliss said.

Personnel wise, No. 10, All-District quarterback last year, Wayne Barton, was cited as the Skyrockets' best back. He is a good passer, elusive runner, and good play caller.

No. 66 Johnny Maxwell, a 207 lb. guard and No. 71, Joe Rudy, 193 lb. tackle, are the best line-men Memphis will face, and are as good as any Cyclone will play against this season.

"Our lines should be about equal and we should have more speed in the backfield," Coach Chambliss said.

Defensively, Coach Chambliss pointed out that the Skyrockets stopped Shamrock from scoring in their 13-0 victory.

The team that makes the fewest number of mistakes will win the game, Coach Chambliss said, and our boys will play their best.

The winner of Friday night's contest will have a big edge on the district championship race.

About the Cyclone's injured members, Chambliss said another costly injury showed up Monday. Senior tackle Durwood Wilkinson received a leg injury and is on the doubtful list for Friday night.

Several of the injured boys named last week will see action on a limited basis, the coach said, and how effective they will be remains to be determined.

## Interest Mounts As Cotton Guessing Contest Enters Second Week

Interest in the annual Cotton Guessing Contest, sponsored by this newspaper, increased this week as the contest entered the second week.

The contest will close on Saturday, Oct. 24, and all readers are reminded to keep this date in mind and enter estimates before the closing date.

All readers of the Democrat are eligible to enter. Readers do not have to live in this county or state. Persons who wish to list guesses may come by the Democrat office and list their guess or if more convenient estimates may be mailed on post cards to Box 192, Memphis, Texas.

Be sure to include your name, address and the number of bales you estimate Hall County will produce this year. No entries will be taken over the telephone.

On the whole, most of the guesses submitted have been from 10,000 to 20,000 below the official cotton yield figure for the 1963 crop. However, a few optimistic persons have come forward with guesses close to the number gained last season.

According to the official report Hall County's cotton yield for last

season was listed at 60,271 bales. According to Lynn McKown, office manager of ASCS, approximately 30,000 acres are planted in cotton this year in Hall County. Last year, 84,500 acres were planted in cotton.

Those submitting guesses this week include:

## Jaycees Make Halloween Night Carnival Plans

The Memphis Jaycees announced plans this week for a Halloween Carnival to be held Halloween night, Oct. 31.

Chairman of the carnival will be John Binkley and the carnival will be held on the east side of the square.

Booths will be sponsored by Boy Scouts, Girl Scouts, Austin PTA, Travis PTA, 1913 Study Club, and others. Any club, civic organization or school class that would be interested in having a booth at the carnival are asked to contact John Binkley for details and information.

There will be several rides and concession booths at the carnival, the Jaycees announced.

## Accreditation Team To Visit Here Oct. 27

Superintendent of Schools Shannon Doss announced Monday night to the Memphis School Board that he had received notification of the date the State's Accreditation team will visit the Memphis Schools.

He stated the team is expected on Tuesday, Oct. 27, 1964.

The Memphis School System was scheduled to be inspected by the Accreditation team last spring, however, due to the sickness of one of the teams members, the inspection was postponed until this school term.

In other business, the school board discussed several items concerning the annual audit, approved the paying of the bills, and passed a resolution stating the largest amount the largest amount the Tax Collector-Assessor shall be allowed to have on hand at one time.

## Plans Complete For 13th Annual Hedley Cotton Festival, Oct. 16-17

### Five Directors For Hall-Donley WCID No. 1 Will be Elected Saturday, Oct. 17

Eligible voters of the Hall and Donley Counties Water Control and Improvement District No. 1 will go to two polling places Saturday, Oct. 17, and vote to elect five directors for the district.

Polling places will open at 8 a. m. and close at 7 p. m., it was announced.

Voters of Precinct No. 1, No. 2 and No. 3, will vote at a box set up in the Lesley Co-Op Gin office. Precinct No. 1 is the Brushy Creek watershed, No. 2 is the Bitter Creek watershed and No. 3 is the Pole Cat and John Mann Creeks watershed.

All eligible voters located west of the eastern boundary of John Munn Creek watershed or the west boundary of Hoghorn Flat watershed, the same being the same line, will vote in the Lesley box.

All voters residing east of this line, in Precincts No. 4 and No. 5 will vote in the Lakeview Co-Op Gin Office Precinct No. 4 is described as Hoghorn Flat watershed and Precinct No. 5 as Oaks Creek watershed.

In each of the voting places, marked maps outlining boundaries of the precincts, will be on display, for the convenience of election officials and voters.

Quilla Clark will serve as election judge for the Lesley box, Johnny Ariver will serve as assistant and Worley Hughes and Merl Lemons will be the clerks.

Glenn Verden will be the election judge in the Lakeview box, assisted by Aubrey Robertson. Clerks will be Mrs. James Skinner and Mrs. Del E. Wells.

To be eligible to vote, a citizen must be a qualified voter and a property tax payer.

The present board of directors encouraged all eligible voters to participate in the election Saturday. The five directors elected will serve either one or two-year terms.

More than 15,000 persons are expected in Hedley this week to attend the Thirteenth Annual Hedley Cotton Festival. The Midway opens on Thursday evening with the celebration in general getting underway with breakfast at the Lions Den Friday morning from 7 o 9 a. m. The Senior Class will serve the meal.

Plans point to one of the biggest and best Cotton Festivals ever this year, members of the Lions Club, the sponsoring organization, stated this week. Two days and night of almost continuous free entertainment has been planned for the occasion.

A highlight of Saturday will be the Grand Festival Parade at 1:30 p. m. Riding in the parade will be the reigning Festival Queen; Miss Dianne Loftin of Perryton the state Lions Club Queen; several former Festival Queens and the 22 queen contestants. An array of beautiful floats will be entered and music will be furnished by seven area bands, who will march in the parade.

Friday registration of Old Settlers will be held in the bank committee room from 10 a. m. to 1 p. m. where refreshments will be served.

At noon Friday the first barbeque will be served at the Lions Den.

An Old Settlers Program will be presented Friday afternoon from 1 to 3 p. m. with Bob Ayers serving as master of ceremonies.

The Clarendon Junior College Choir and The Tyros will present string band music, hillbilly music, novelty numbers and special events from 3 to 6 p. m. Joe Williams will serve as master of ceremonies.

Friday night the Kachina Indian Dancers, J. B. Yates band, Charlie McGuire band will perform.

**Saturday**

### Line Is Drawn

In election races and during election campaigns, many and numerous are the lines (battle and otherwise) drawn. However, this year, Texas voters will see a clearly marked, hold line printed on their election ballots.

The line, a broad black (six points wide) one, runs the width of the ballot separating the candidates for federal office from those seeking election to state and local offices.

It is primarily, the state's latest answer to the problem of how to handle voting by those who have not paid their poll taxes, as required by state law, but insist on the right to vote anyhow under authority of the Supreme Court ruling that the poll tax is invalid as a requirement for voting in national elections.

Presumably the election judge will "void" the lower four-fifths of the ballot before allowing it to be marked by a non-poll tax voter.

Above the line are listed only the candidates for President and Vice-President, United States Senator, United States Congressman-at-Large and U. S. Representative.

Below it, and unapproachable unless you have a valid poll tax receipt of an exemption, will be listed all of the state and local officers . . . from governor on down . . . as well as the three proposed amendments to the Texas Constitution.

This may or may not turn out in the long run to be strictly legal . . . but in Texas it sure is logical, and in any event, that's the way it's going to be in November.

And, if previous elections this year are any indication, there won't be a handful of voters at the polls without a poll tax receipt anyhow. Most citizens in this area who will take the trouble of voting November 3, have already taken the precaution of purchasing a poll tax and are going to exercise the privilege of voting.

### The Congressman Speaks

Congressman Walter Rogers was the guest speaker at the regular meeting of the Dimmitt Lions Club Tuesday noon. The congressman was in his usual good form when it comes to speaking and although having served in Congress for a number of years he still retains his sense of humor and is good at throwing in appropriate jokes to illustrate a point. I have heard the Congressman speak on several occasions recently, and with but one exception I haven't heard him repeat a joke. That is pretty good going for a public speaker. The main topic in Rogers' talk were the agricultural problem and the redistricting dilemma occasioned by Supreme Court decisions.

As expressed in his talk, Rogers opinion of the agricultural situation is similar to that of all other well-known Democrats. He believes that a healthy agricultural economy depends on a sensible government agricultural program, mainly price supports to guarantee the farmer fair returns on the major agricultural commodities. He also pointed out the well-known fact that the nation's economy depends on a strong agricultural economy. On all of these points I agree with him wholeheartedly. It will pay the farmers of the nation to send men like Congressman Rogers to the United States House of Representatives. He is dedicated and earnestly concerned about our agricultural industry.

The Congressman discussed the redistricting problem at length and was of the opinion that the members of the state Senate at least should be elected on a basis other than the "one man one vote" edict of the Supreme Court. The decision of the Supreme Court was occasioned by a suit instigated first in Tennessee and then in several other states were apportionment was deemed unfair, and later found its way to the Supreme Court for final determination. Rogers is of the opinion that rural areas will suffer from a legislative stand point if all representation is based on a strictly population basis.—B. M. Nelson, Castro County News.

### Country Editor

Like most conceptions we get from Hollywood and some types of fiction, the country editor of 1964 is a far different critter than usually pictured.

In films we've seen of the breed, he is a guy who wears a green eyeshade, gulluses, and plastic cuff protectors (signifying he changes his shirt once a week).

The town banker, a greedy old cuss lives in the biggest house in town and holds a first mortgage on the rest (including the building and contents where the news-

agreeable, as vindictive or as affable as some people think he is, or possible as he would like to appear sometimes.

He is a fellow who deliberately refuses to put a write-up about your daughter's birthday party on the front page and in the same issue on the same front page runs an item about that snooty Mrs. Whoosis entertaining guests from Las Vegas.

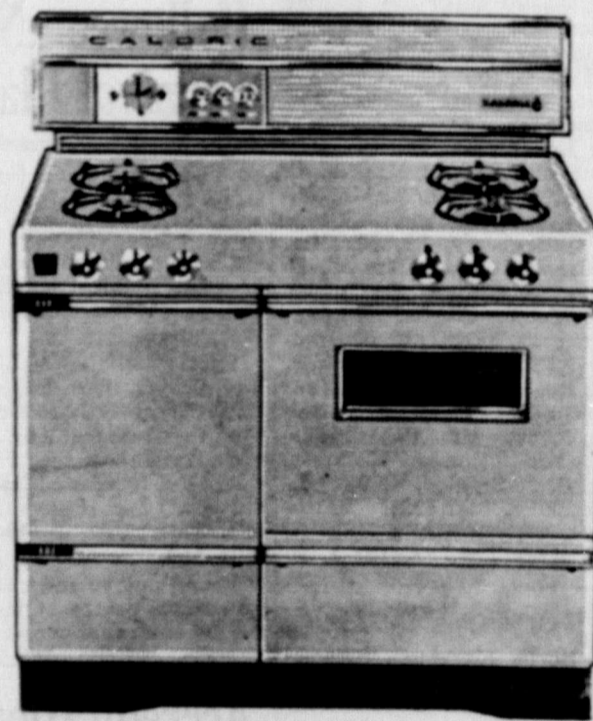

He is a fellow, who in spite and recrimination, sees that the Linotype man spells a name wrong in a news item—your name—and the proof reader fails to catch it.

He is a fellow who refuses to keep your name out of the paper no matter what a grand jury indictment may say.

Funny fellows, these country editors.—Varl R. Miller in The Raymondville Chronicle.

Funeral services for Tom E. Tyner, who passed away in a rest home in Dallas Monday evening, were conducted Thursday at the Dallas Memorial Home. The Rev. Dan Dunn officiating. Tyner had been a patient in the home for the past nine months.

Mr. Tyner was married to the former Estelline Lambert of Estelline, Texas, in 1919. A retired machinist, he had been a patient in the home for the past nine months.

Mr. Tyner preceded her husband's death in 1927. Their only child, a son, died during the war. Mr. Tyner had four daughters, Mrs. Jean Martin of Dallas, Mrs. Nineah Harris of Jeffersonville, Mrs. Sue Perry of Farmersville, Mrs. Olan Smith of Enid, Okla., ten grandchildren and a number of great-grandchildren.

Survivors are Perry Campbell, Perry Lambert, Barney Finis Richerson, Floyd and Thuman Mabry.

### 30 Present At Meeting Here For Bob Price

The coffee for Bob Price, Republican candidate for Congress, which was held at the home of Mrs. Robert Clark Saturday morning, was attended by 30 interested people. The announcement was made early this week by R. E. (Swede) Roark, county campaign manager.

Mr. Price, accompanied by his wife, Marty, for a half hour, then answered questions for the remainder of the hours' session.

The group quizzed the candidate for the office of the 18th Congressional District, principally upon his stand pertaining to those issues which would effect the people of Hall County.

"As Bob Price is an active farmer and rancher, he is well acquainted with the subject matter, and in the main his theme was advocating the lessening of government control over the operations of the farmer," Mr. Roark stated.

### IT'S THE LAW in Texas

#### STOP FOR SCHOOL BUSES

Thousands of school children are now trooping back to school throughout Texas. Many of them will be transported by school buses. Most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or allow them to alight. However, we have already had some very bad accidents this year because a child or a motorist, or both, were careless at that very time.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to

proceed past same at a speed which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children.

What many persons do not realize is that the very same rule applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fine up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not always apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right

side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no-passing zones designated by yellow lines placed to one side of the center line on our highways. Not so well known are the restrictions against crossing the center line when approaching within 100 feet of or when traversing any intersection or railroad grade crossing.

### PTA Annual Fall Workshop Meets In Berger Today

Several members from the local Parent-Teacher Association are in Wheeler today attending the annual fall workshop. Among those attending were Mrs. Eddie Foxhall, Mrs. Bob Douthit and Mrs. Carl Yancey.

"Special Education," which deals with children who require some different and additional instruction than do most children, is the theme of the one-day workshop. The program will include discussions on handicapped, gifted and retarded children and vocational assistance programs to aid these children.

The workshop is under R. C. Marshall of Berger, district president, and Mrs. E. C. Pulse of Pampa, vice-president and workshop chairman.

Carlton O. Wainscott, consultant

in Special Education for the Texas Education Agency, Austin, will be the guest speaker. He will outline the services offered by his agency to local Special Education Departments.

#### CARD OF THANKS

We would like to take this opportunity to express our sincere appreciation to our friends for their kindnesses, food and flowers during our recent bereavement. Your kindnesses were deeply appreciated.

## Mill Iron Ranches Give Explanation Of Recent Land Sale In Hall County

The Mill Iron Ranches have not been sold and neither has its brand or trade name or any of its Division C in Collingsworth County, according to a statement made to The Memphis Democrat by Wm. E. (Bill) Hughes this week.

Sale has been made of 77,723 acres, lying mainly in Hall County, to O. P. Leonard of Fort Worth in a reorganization move which leaves Mr. and Mrs. William E. Hughes as sole owners of the land in this county and Mill Iron Ranches.

Formerly the ranch land in three counties was owned as undivided property by Charles J. Hughes of San Diego, Lafayette M. Hughes, Jr., of Denver, and William E. Hughes of Wellington. He said that he and Mrs. Hughes would continue raising commercial cattle on the ranch using the Mill Iron brand just as Hughes Bros. has done for the past several years since his father, the late Lafayette H. Hughes discontinued raising registered Herefords.

His statement follows: "The sale of 77,723 acres in Hall County, Texas by C. J., L. M., Jr., and W. E. Hughes to O. P. Leonard, et al of Fort Worth, Texas was not a sale of 'THE MILL IRON,' a modern complex, conceived and developed by Mr. L. M. Hughes, Sr., who died in 1958, this acreage was designated Division B and so referred to in the sale agreement with Mr. Leonard.

Mill Iron Ranches is still in business on its own. Its cattle, its brands, and its present operations on the seven units of Division C in Collingsworth County, Texas and Division D in Estelene, Texas as of November 1, 1964 will be wholly under the direction of its own office in Wellington, Texas. Through inheritance from Colonel Wm. E. Hughes, his granddaughter, Annie Clifton Springer Hughes, and by virtue of division to individual ownership Mill Iron Ranches becomes solely owned by Mr. and Mrs. Wm. E. Hughes.

"As the old Continental Land and Cattle Co. continues to evolve from early sprawling size to the ever more modern compact 'Mill Iron Ranches' wishes another of its original divisions, B, God-speed and good luck."

The present Wm. E. (Bill) Hughes and his wife, Virginia Russ Hughes, make their home at Hay Camp four miles north of Dodson, Texas. Hay Camp was originally a part of the Rocking Chair Ranch. The Rocking Chair was purchased near the turn of the century by the Continental Land and Cattle Co., under Colonel Wm. E. Hughes. On May 12th, 1914, the Continental Land and Cattle Co. was dissolved and for the first time was then called Mill Iron Ranches. After the Colonel's death July 29, 1958 in the guiding hands of Annie Clifton Springer Hughes and her husband Lafayette M. Hughes (same surname as her grandfather but no relation) Hay Camp along with

## Morningside Panthers Down Snyder 36-6, To Meet Plainview Here Saturday

The Morningside Panthers defeated the Snyder Warriors, 36-6, in a hard fought game here Saturday night at Cyclone Stadium.

The Panthers, under Coach George Barry, had a hard time getting started. They elected to receive in the opening of the game and fumbled on the 20 yardline which was covered by the Warriors. However, the Warriors were unable to take advantage of

the fumble and lost the ball on downs.

The Panthers then took the ball and ran it out in three plays, with two consecutive first downs.

Ralph Gannaway, the fullback, took the ball in for the first touchdown from 40 yards out. The PAT was made by Kenneth Cornish, a halfback. Later in the first quarter, FB Gannaway plunged into the Warriors line for the second TD. Kenneth Cornish again

made the PAT attempt good with a carry up the middle.

In the early minutes of the second half, Mariland Simms connected with a pass to Lorenzo Graves for the third TD by the Panthers.

The fourth TD came when Mariland Simms, the quarterback, went in through the center of the line from about seven yards out. The PAT was made when Gilbert Devorce ran off tackle for two points.

Coach Berry said the Panthers out played the Warriors and it was the hard running of Gilbert Devorce and the pass interception of Clemmie Johnson and the good

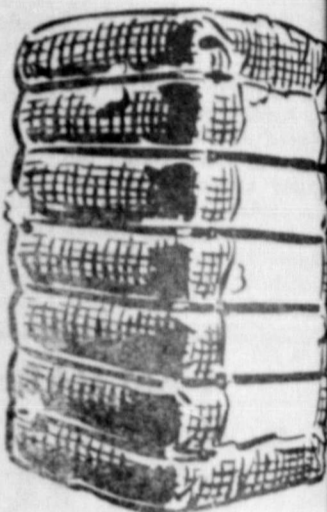

blocking by the linemen of the Panthers the edge of the Warriors.

The Panthers will play their third game of the season when they take on the Plainview dogs. The Panthers and Plainview always have tough contests in the evening of football.

The game will be played 7:30 p. m. Saturday night at Cyclone Stadium.

# This Gin Is Only Six Years Old And Is Completely Paid For

We invite you to take advantage of the services offered by this farmer-owned gin . . . which is modern in every respect. The plant has been completely overhauled and every piece of equipment is in first-class shape.

We have added a completely new drying system to improve our ginning, which will give a better grade of cotton to our customers on green and wet bales.

Also, we have added new fans to reduce insects in the cotton burs being delivered back to our customers.

When the rush comes, this gin will be able to handle your cotton faster, without sacrificing quality ginning. Everything was planned to give you the most from every bale processed.

## HERE'S OUR POLICY REGARDING BUR HAULING

It has been proven that the most equitable manner in handling your burs, is the following policy which will again be in effect this year:

1. Cotton burs will be hauled to individual customers, and will be scattered for \$3.00 per ton.
2. Allocation of burs will be handled by the gin on the basis of the order in which applications are received from customers.
3. Individual customers will be allocated burs in proportion to the amount of cotton they gin as long as there is a waiting list of applicants.

## THIS CO-OP GIN WILL BUY YOUR COTTON!

The Lakeview Farmers Co-Op Gin will again offer a COTTON BUYING program as a service to our customers. Arrangements have been made through the Plains Cotton Cooperative. Prices will be posted in the office each day. Checks will be handed to sellers immediately. Ask us for all details of this program.

When cotton has been sold by the association profits made will be returned direct to each individual farmer.

## THANKS FOR GIVING THIS GIN YOUR PATRONAGE

To each and every person who has ginned with us, we extend our thanks. Due to your patronage, all indebtedness against the gin plant has been paid. This means that all profits from this season's operation will be distributed to our patrons next spring. Ask our customers about our record cash dividend for the amount of bales ginned which was paid last season.

The more ginning we do, the bigger the profits will be. Anyway you look at it, you can help yourself by ginning your cotton here.

**REMEMBER:** We will do all in our power to work with you. Let us know how we can serve. Keep in mind the fact that profits will be returned to those who gin here.

# Local Teams Win Thursday Action

Although the Cyclone had an edge last week, there were several football games played last night. The Junior High Cyclone defeated Canadian 38-18 and the Memphis B team defeated Clarendon.

## General County Students Named CJC Posts

General County area young men have been elected to places of leadership and responsibility on the campus at Clarendon Junior High.

Bridges of Memphis has elected reporter of the Aggie organization made Aggie majors. The main purpose of the club embrace education, recreation, public service and school publicity. Judging will be selected from the near future.

Karen Clements of Lakeview has been elected cheerleader of the pep team of the Cyclone Bulldogs. She was elected to be reporter for the Future Business Leaders of America organization.

Other area boys are members of the college combo, the Cyclone. They are Brady Duke of Lakeland, M.C.'s the and Mike Nabers, a Memphis School junior. These are teamed up with three other boys, Billy Wilkerson, Mitchell, and Graham Bowles are quite good. They have been at dances at Memphis and are available for dates over the area.

The Whirlwinds made a long trip north to play the Canadian Junior High team last Thursday night. Going into the contest, the Whirlwinds had not scored so far this season and had suffered three defeats.

The game got underway on a fast note, when James Spruill broke loose for a long run and the first score for Memphis. Canadian came back to score, and Spruill returned the kickoff to paydirt.

In all, Spruill made five trips across the goalline for the Whirlwinds in the 38-18 victory. Rodge Fowler added three two-point conversions and Ronnie Bradshaw added one more to round out the scoring for the local team.

Thursday night, the seventh grade boys will play Shamrock 7th grade and in the second game, the 8th grade in the second Shamrock 8th grade. Both games will be at Cyclone Stadium, and Coach Milton Miller said both games will be tough since Shamrock has two fine teams.

**B Team Game**  
The Memphis B team out scored the Clarendon B team at Clarendon Thursday night, 30-28. Memphis coaches said the contest was a good game. "All our kids played a good game and dominated the second half, despite numerous penalties," Coach Bert Glascock said.

Getting in on the scoring action for the B team were Mike and Tony Pounds, Mike Nabers, Gary Graham and Mike Limer.

This was the second victory for the B team. They won a 6-2 contest from Shamrock B week before last in what has been described as a good defensive contest.

Mrs. Clifton Burnett and Mrs. Claude Betts of Ennis visited here for a short while Monday. They were en route to Amarillo to visit with their brother and son, Dwight Betts and family. They plan to return to Memphis today and will visit overnight with friends here.

**GOOD BLOCKING**—The downfield blocking of the Estelline Bear Cubs counted heavily in the 52-12 victory over Mobeetie last Friday. Pictured (left) above, QB Jodie Rapp carries in a clear field in the secondary. Clearing the way are pictured No. 15 Jerry Cosper, No. 25 Jimmy Rothwell and No. 17 Tommy Adcock. Behind Rapp are pictured No. 30 Larry Elliott and No. 24 Larry Wynn.

## Estelline Downs Mobeetie, 51-12 In First District Action Friday

The Estelline Bear Cubs flashed to several quick touchdowns Friday night and went on to defeat the 8-man team from Mobeetie by a lopsided score of 52-12, in the opening game of the District 4-B playoff for Estelline.

The scoring for Estelline started early in the first quarter when Ronald Mullin carried across the goalline from the 10 yardline. QB Jodie Rapp carried for two more points making the score 8-0.

Estelline's Melvin Long added another TD the next time the Bear Cubs got the ball, carrying over from the 5 yardline. A pass from Rapp to Jerry Cosper added two more points.

Then, still early in the first quarter, the passing combination of Rapp to Cosper hit again, this time for a 58 yard TD play. The extra points attempt failed. With a 22-0 lead, the Bear Cubs

began to substitute freely on both offense and defense.

In the second quarter, the Bear Cubs mustered another scoring drive which was climaxed by a 5-yard carry by Jodie Rapp. The PAT attempt failed and the score was 30-0.

The Estelline squad came back to score again, this time on a three yard carry by Melvin Long, making the halftime score 36 to 0.

After the half, Estelline's first string offensive unit took the opening kickoff and marched for another score. This time it was Jodie Rapp on the 35-yard carry. Melvin Long added the two points making the score 44 to 0.

The Estelline second unit, composed mostly of freshmen and sophomores, went into the game at this point on both offense and defense.

The Mobeetie squad got on the scoreboard when No. 80, Eddie

Hodges raced 40 yards around end to score against Estelline's second unit. Hodges was moved from end to quarterback when the Mobeetie quarterback was injured early in the game.

The Mobeetie second score came on a pass interception by Bradley Brout, No. 23, who picked off an Estelline pass and raced to the goalline.

In the closing minutes of the game, the Bear Cubs first string, who had been resting on the sideline most of the second half, went back into the game.

The Bear Cubs mustered several scoring plays only to have them called back on infractions. However, Melvin Long ran across another touchdown in the closing minutes. Rapp added the two-point conversion making the final score 52-12.

The Bear Cubs will be open this Friday night, but will resume conference action Oct. 23 when they host the tough Patton Springs team.

Inconsistency is the only thing women are consistent about.

## TIPS FOR OUTDOORSMEN

by Vern Sanford

**Outwitting Deer**  
Deer are plenty sharp. When they once realize you are on their trail they start circling so as to come up behind you. If you find a deer is pulling this circling trick, wait until you come upon the spot where your tracks first met his, then cut straight across the circle (but don't cross his tracks). Hide and wait for the deer to appear. This works nearly every time—if you keep yourself hidden.

**Pup-Training Sock**  
When training your bird dog pup, make the job easier by filling an old sock with quail feathers. Give the pup a sniff of the sock so he'll know what he's looking for, then drag the sock along ground to simulate actual bird movements. He'll soon learn to follow bird scent and point when he comes to the hidden sock.

**When Fishing for Sunfish**  
No need to carry bait with you when fishing for sunfish or bream. Just spread out a couple of candy wrappers for flies to gather around. Then, whenever your hook needs bait, swat a fly and use it. Bait will always be handy and when needed—and good bait, too.

**Squirrels With A 30-30**  
When hunting squirrels in uncrowded country you will find "barking" them a great test of skill—and a lot of fun, too.

This hunting method was used often before the advent of small bore rifles. To "bark" use a large bore rifle, 30-30, 30.40, 32, or any other powerful rifle. Don't shoot at your squirrel's body—unless you want it fricasseed. Instead, aim just under the squirrel, low enough to kick off a hunk of bark. Bark will knock the bushy-tail unconscious, often killing it by concussions.

**Duck Decoy Carrier**  
Beg, borrow, or buy a newsboy's paper-carrying sack and use it for carrying duck decoys. It is tough and durable and has room for at least a dozen blocks. It's also easy to tote.

**Crossing Barbed-wire Fences**  
Crossing barbed-wire fences can be a problem, unless you carry in your pocket one or two short lengths of soft wire clothesline.

When you come to a fence that must be crossed, pull up second barbed-wire to top wire, twist a piece of your clothesline around both these wires, then push lower wire down as you crawl through the opening thus made.

**Pinch-Hit Gun Case**  
Best way to keep clothes and flesh from being torn as you crawl through a barbed-wire fence is to carry with you several metal "S" shaped picture hangers.

When you come to a barbed-wire fence, hook one end of "S" hanger to second wire and pull up to top wire and secure with other end of "S". Push down the third wire and pass through.

**Cure Aggravating Habit**  
Some bird dogs have the aggravating habit of refusing to relinquish birds retrieved. When your dog does this, lift up an ear flap and blow hard in his ear. His mouth will instantly open and the bird will drop into your other hand.

The total veteran population of the United States was 22,013,000 on June 30, 1964. It dropped from 22,166,000 on June 30, 1963, the Veterans Administration reported.

## Hall County Soil Conservation

Every time your neighborhood gin burns cotton burs it's costing you money. That is, unless you are one of the increasing number of farmers who have found the real value of returning these burs to your land. Not many years ago bur burning was a common practice but in the last few years the trend has turned the other way. The reason for this is simple—putting cotton burs back on the land pays off.

At the Lubbock and Spur Experiment Stations, both dryland and irrigated test results show it's good, sound, economical sense to use cotton burs. In the Lubbock test, every ton of cotton burs put on the land increased lint yields an average of 36 pounds on irrigated land and on dryland 27 pounds per acre. The carry-over effect increased yields 28 pounds per acre for five years. Burs were applied at the rate of six tons per acre. The fertilizer content of the burs alone is worth nearly \$8.00 per ton—not counting the extra benefits.

Here is what burs can do for your land: increase water efficiency by about one-third, cut down on land and water erosion, give better water penetration and water storage, and offer more

food for soil micro-organisms. Should you use nitrogen fertilizer with burs? Based on results it's good business. Burs are high in carbon and low in nitrogen and the rooting process temporarily uses up much available nitrogen in the soil. You can avoid this by adding nitrogen fertilizer at the rate of 12-15 pounds of nitrogen per ton of burs. At the same time you avoid tying up nitrogen the crop needs for growth.

As a general rule, the soils in the Hall County Soil Conservation District need additional organic matter. Fertilizer content of a ton of burs alone is worth nearly \$8.00. Add that to the other advantages burs offer your

land—Can you afford to let those dollars go up in smoke?

**Around and About**  
By HELEN COMBS

Our favorite season of the year has arrived. We love to smell the gin smoke, see the fields of cotton open, and enjoy in general the hustle and bustle that goes along with the harvest season. Perhaps it all takes us back to our days of childhood on the farm.

Those were exciting days for us as a child. We were up early and to bed late. We always had help move to the farm to harvest the cotton crop . . . usually Negro couples who came from the Dallas-Fort Worth area. They were a happy people who filled the air with their Negro spirituals as they busily pulled the cotton, taking two rows at a time. If you have never heard a chorus of voices lifted in song from a cotton patch—then you have missed a special treat.

Speaking of farming, our friend Lois Parks grows tomatoes like you would grapes . . . in clusters of ten to a bunch. And, to prove it, she brought us such a cluster this week. The tomatoes are not the small variety, but of medium size . . . we would like to know the variety so we could try our hand at growing some next year. She also brought us a lovely bouquet of dahlias of several varieties. We had been hearing about the Parks' back yard from other friends all summer.

Lucile Wright went to Canyon last Friday for a reunion with her brother, A. B. (Boochie) Read, whom she had not seen in 39 years. Boochie will be remembered by many older residents of Memphis as he grew up and lived here for many years, leaving in 1925. He is a retired employee of the Richfield Oil Co. in California and he and Mrs. Read are now travelling over the United States. They were en route to Kentucky from their home in California, and stopped overnight in Canyon with another sister, Mrs. Dewey Foster. He is also a brother of Lottie Kinard, who was visiting in Abilene at that time.

In our mail—Mr. and Mrs. Tommy Davis of Amarillo write: "Just a line to let you know we now have the twins home. We have had the little girl home three weeks and the little boy two weeks tomorrow. They are both doing pretty good. Will you please put a little note in your column about the babies. We know there are lots of people who would like

to know how they are getting along. We certainly do appreciate all the interest shown in them since they have been sick."

This is news we are happy to publish, and we wish for the Davises family smoother sailing ahead!

In renewing her subscription, Mrs. Lee Wheeler Hall County resident for 35 years who now resides in Ruidoso, writes that she is presently visiting relatives in Waco, and will be there for the next month and then plans to visit in other Texas towns before returning home. Mrs. Wheeler is 85 years of age and lives with her daughter, Mrs. George Bonal at Ruidoso.

We have a soft spot in our heart for black cats . . . and when our granddaughters' mother cat, Tabby, had her first family of four . . . one was solid black. The granddaughter immediately said he belonged to us.

They named him Blackie and in August we brought him home when we visited in Austin. Blackie was part Siamese and as healthy and playful as could be. He loved to run and play with the three kittens next door and they spent most of the time in our backyard.

When we came home from work last Monday Blackie refused to eat his supper . . . we kept him in the house for awhile and then let him out . . . that was the last we saw of Blackie! We searched the neighborhood and found one of the neighbor's kittens missing and the other two sick. Blackie was the third black kitten we have owned in recent years and all have become suddenly ill and died!

**UNICEF Drive To Be Held In Estelline Oct. 22**

The Children's Division of the Estelline Methodist Church will participate in the UNICEF Drive this year, according to an announcement made this week. The group will solicit funds for UNICEF on Thursday evening, Oct. 22.

A cordial invitation to all children in the Estelline area to participate in the trick-or-treat for UNICEF has been extended.

Those who would like to participate in the program are asked to meet on the west side of the square in Estelline at 6 p. m. Thursday evening, Oct. 22.

"It does look a little tight in the shoulders . . . Let's try it without the coat-hanger."

**YOUR COUNTY AGENT SAYS**

Recent rains in Hall County have done much to replenish soil moisture but have also caused problems for many homeowners—damp cellars. A few rules, however, can help a homeowner or home builder avoid trouble, says W. B. Hooser, county agricultural agent.

Hooser lists these common causes of dampness in cellars:

1. Land which is flat or sloped toward the cellar wall.
  2. Absence of eaves, gutters and down spouts, or failure to repair defective ones.
  3. Ground water close to or higher than the cellar bottom.
  4. Sweating or condensation of atmospheric moisture on walls and floors.
  5. Leaky plumbing.
  6. Dense masses of vines, shrubbery and trees too close to the house.
- To avoid trouble from roof water, use gutters and down spouts to conduct water away from the buildings, advises Hooser.

**Bonny Adcock Visits Relatives**

Bonny Jean Adcock of Mineral Wells is taking her basic training at Fort McClellan, Ala. She recently visited here with her grandmother, Mrs. H. F. Adcock and other relatives before entering the service.

She is the daughter of Mr. and Mrs. Bruce Adcock of Mineral Wells.

Mrs. L. A. Dickey of Wellington is visiting here this week with her daughter, Mrs. Herschel Combs and Mr. Combs.

Mr. and Mrs. D. Jack Battle and daughter, Tana, of Wichita Falls visited over the weekend with Mrs. Henry Scott.

extends at least 10 feet from the building will provide for proper surface drainage.

If ground water is a problem, lay a four-inch tile line close to the cellar wall bottom or booting to take moisture from this area.

Should these methods fail and water continues to get into the basement or cellar, Hooser suggests using a cellar pump which will operate automatically by a float switch.

**TCU Students Tour Bradley Ranch**

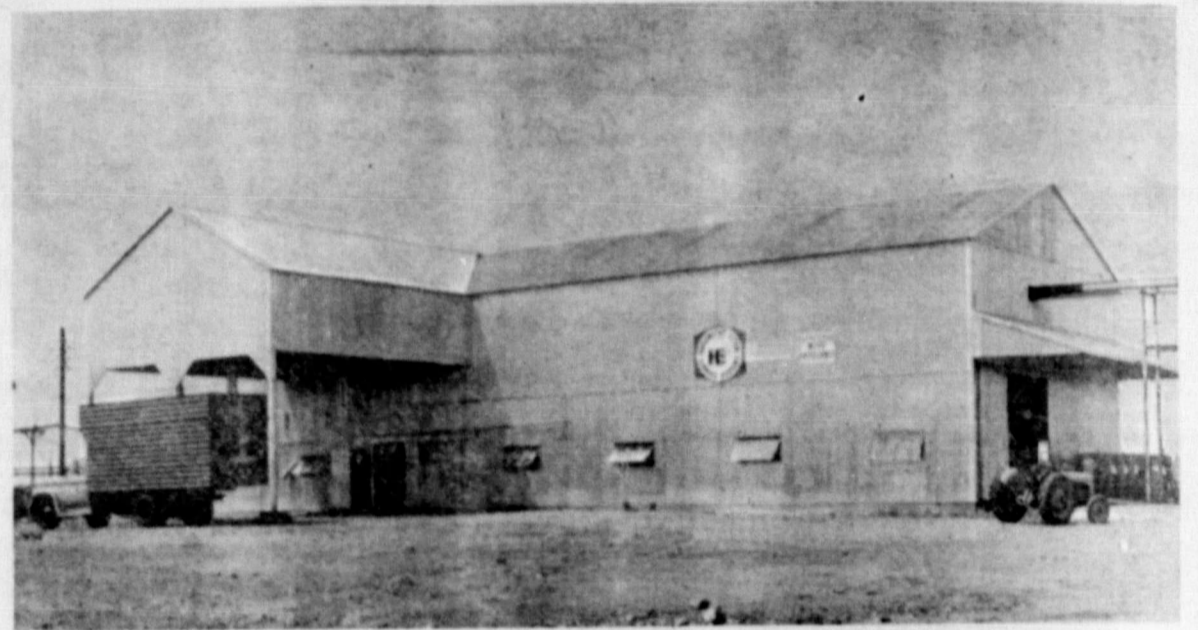

Twenty-four students from Texas Christian University were guests of the Bradley 3 Ranch last Thursday. The students are members of the TCU ranch trainee class which spends one-half the year in classroom work and the other half in the field studying all phases of ranch operation.

John Merrill, the instructor, accompanied the students.

The boys taking the course are from Texas, Kansas, Illinois, Ohio, California, Oklahoma. Also Carlos Vallarino of Panama City and Alonzo Ranirez of Armenia, Columbia, South America, were visitors at the ranch.

This was the sixth year the class has toured the BSR headquarters to study various phases of ranching. They were taken on a tour and given background information of the industry of Mr. and Mrs. Bill Bradley.

At the noon hour, the class were guests of the ranch at a barbecue dinner which is always the highlight of the tour.

**A Complete Modern Gin To Serve You Better**

It's a well-known fact that the Lesley Co-Op is one of the finest gins to be found anywhere. We have operated for the past two seasons with a completely new plant, and the record shows that our customers received A GOOD JOB OF GINNING.

We point with pride to the kind of plant which the farms of this area own in the Lesley Co-Op. There are the three 177-saw Hardwicke-Etter gin stands; an individual lint cleaner behind each stand; two stick and green leaf machines; two bur machines; three tower dryers; hydraulic press locks on the press. Also, individual motors power each unit in the plant, which means less wasted time throughout the season.

Since last year's crop was finished the plant has undergone seasonal repairs, and everything is now, in first class shape to handle this crop.

The farmers of this area are invited to take advantage of our bur trap, which makes it possible for our customers to return them to the land. We do not burn burs, but save them for your use. Only trash from our lint cleaners is carried to the burner. Remember, our bur truck is available for your use.

You are invited to bring your cotton to the Lesley Co-Op. We will work with our neighbors in supplying the best service it is possible to render. Whether you need help in obtaining field hands, or in any other manner, we will give full cooperation. Let us know how we can serve.

REMEMBER: THIS FARMER-OWNED GIN PAYS BACK ALL PROFITS TO THE PEOPLE OF THIS AREA WHO PATRONIZE IT!

**DO YOU HAVE A PERSONAL RxMAN?**

It's important to select one because your pharmacist is your physician's consultant about new products—is interpreter of your physician's prescription—is responsible for insuring that various drugs are compatible when you have more than one prescription—is responsible for the safety of product and dosage in relation to your age and condition. Your pharmacist should in fact know almost as much about you as your physician. We are honored when we are entrusted with your prescriptions and the maintenance of your prescription records for you and your family.

**X-15 TO BE AT FAIR** --- The World famous X-15 rocket plane, an experimental space craft product of the Air Force, Navy, and NASA, will be on display at the Panhandle South Plains Fair at Lubbock Sept. 28 through Oct. 3. Maj. Robert M. White flew the X-15 to 58.7 miles high in 1962 to become the first Air Force pilot to receive astronaut wings for winged aircraft flight. The X-15 is appearing only at the South Plains Fair in this area.

### County Farm Bureau To Have Annual Convention Here Monday, Oct. 19

P1—2-24—County Farm Bureau. The Annual Convention of the Hall County Farm Bureau will be held at 7 p. m. Monday, October 19, in the Community Center at the Municipal Building in Memphis, it was announced this week by H. A. Hodges, president.

Mr. Kermit E. Voelkel, of the Memphis Cotton Cladding office, will speak on cotton cladding. He will also bring with him a micro-naire machine and will give an actual demonstration on "miking" cotton.

Mr. Hodges said that at this time the follow-up business will be transacted: audit and secretary's report, election of officers and directors, approval of resolutions suggested by resolutions committee, approval and disapproval of resolutions from individuals, selection of delegates to State Convention and instructions to them.

President Hodges urged members to remember that taxes are high. . . Labor controls the largest number of votes of any segment. . . what farmers have to buy is higher. . . what they have to sell is lower in price. "We request your attendance at this meeting and that your opinion be known as to what kind of Farm Program you desire," he said.

There will be seven directors up for re-election, he said.

An invitation was extended to everyone to attend. Refreshments will be served at the meeting, it was explained.

**QUEEN**—Miss Brinda Winn, Hedley High School Senior, will reign as Queen of the 13th Annual Hedley Cotton Festival this weekend. The two-day festival opens Thursday night and continues through Saturday. Miss Winn is the 18 year old daughter of Mrs. Vionne Winn.

Your PH is showing . . . it always does.

PH (personal hygiene) always shows, whether you've brushed your teeth or combed your hair. And whether or not you've had a bath is quite obvious, too, to those people who work or play around you.

Not only is PH—call it cleanliness if you like—an investment in success but it's a definite investment in health and a disease deterrent.

How is this so? With good PH you can often break the chain of disease transmission. Diseases don't just happen. The circle of disease transmission—simply means that germs which cause disease are permitted to enter your body by some process. For example, if you cut yourself and the wound is not properly cleaned, germs may enter the body and multiply, causing an infection. Or someone with the flu may cough or sneeze in your face. The virus, inhaled into your system, may cause you to have a case of the flu.

The circle, or spiral as it may become, continues when you pass the germ on to someone else.

Handwashing—thorough scrubbing with soap in hot running water—is one of the very best known ways of preventing the spread of disease.

A mother who does not wash her hands before fixing baby's bottle may quite unknowingly precipitate a case of diarrhea.

Or if you are eating out and visit a public restroom without thoroughly washing your hands you may be inviting a case of infectious hepatitis, diarrhea or worse.

The kitchen at home is certainly not immune. Foodhandlers especially need to be conscientious handwashers, for theirs is the responsibility for what goes into the family's mouths. Handwashing is repeatedly emphasized in short courses for foodhandlers conducted by the State Health Department.

Build yourself a high standard of PH through a daily bath, tooth brushing after meals, frequent hand washing and good sanitation in your home.

**Quick Campfires**

Many suggestions are offered for quick campfire starting. Perhaps the simplest is to cut out both ends of a large fruit juice can, then place can upright on the corners of two flat stones. Be sure can is high enough to clear the campfire underneath. Fill can with small kindling, then ignite. Open can acts as a natural draft to help kindling start fire.

**Dumas Football Team To Spend Tonight Here**

The Dumas football team, rated the top 3-A team in the state, will spend the night Thursday here at the DeVille Motel, Bill Cosby announced today.

The team is enroute to Lawton, Okla., where they will play Friday night.

Mr. and Mrs. L. C. Martin enjoyed attending the Texas-Oklahoma football game in Dallas over the weekend.

### Band Boosters Club Will Meet Tuesday Night

Members of the Memphis Band Boosters Club will meet Tuesday evening, Oct. 20, according to Mrs. Bill Cosby, publicity chairman. The meeting will be held in the Band Hall, and will start promptly at 7:30 p. m.

All interested persons are urged to attend. Emphasis will be placed upon completing plans for the club's efforts in behalf of the band during this term of school.

Mrs. Cosby said the boosters will meet each third Tuesday each month during the football season.

### Mr., Mrs. Morris Attend Funeral Service In California

Mr. and Mrs. Paul Morris attended the funeral of their son-in-law, Joe Haynes, last week in Gardena, Calif.

Mr. Haynes was married to the Morris' daughter, Margaret Helen. They have two children: one daughter, Gay Lynn, and one son, Ricky.

The Morrises returned home Tuesday.

### Cork Decoys Often Crumble

Cork makes light and buoyant duck decoys. But it has a bad habit of crumbling after much use. Prevent this disintegration by shellacking decoys, then stretching tightly pulled cheesecloth over each. Let dry, then paint in natural colors. This not only will preserve the cork, but it also will make them glare-proof.

### Cong. W. Rogers To Address Gov. Conference

Congressman Walter Rogers of the 18th Congressional District will address the Governor's Conference Friday, Oct. 17, in Dallas. The announcement was made in a telegram from his office staff in Washington, which was received here Tuesday afternoon.

Congressman Rogers will stress the need for cooperation between federal, state and local governments, and private initiative in developing programs to "assure future generations of an adequate supply of usable water." He is a long-time advocate of the development of America's natural resources and a leader in Congress in the full development of water resources.

Rogers has long contended that "since there is no substitute for water in the life of man, the full development of water resources will determine the future of many areas of the country."

### Bandaging Dog's Feet

Dogs often cut their feet on stones, wire, and other objects. Or when they may wear the pads raw from hard hunting. Doctor the paws immediately, bandage them, then tape a wool sock over the bandage to prevent dog from tearing bandage off.

### Bandaging Dog's Feet

Mrs. Ruby Compton and Mrs. Richard Ayers of Borger attended the funeral of Mrs. A. L. Hindman of Midland Monday. Mrs. Hallman was Mrs. Compton's sister. They returned home Tuesday.
