THE RIGHT KIND OF PRESIDENT

MORALITY IN GOVERNMENT

"Americans everywhere are indignant about the moral decay in Washington and nobody should accept corruption in positions of public trust as a way of life. All it takes to clean it up is an administration that really wants it cleaned up — an administration with the moral courage to fire the influence peddlers and graft takers no matter whose friends they may be."

CIVIL RIGHTS

"The key to racial and religious tolerance lies not in laws alone but, ultimately, in the hearts of men."

THE RIGHT KIND OF FAMILY

THE RIGHT KIND OF HUSBAND

THE RIGHT KIND OF FATHER

SOCIAL SECURITY

"I favor a sound Social Security system and I want to see it strengthened. I have always voted for improvements in the system. "I pledge, as I have pledged before, my unqualified support of the Social Security system. On this, my record is clear. I have voted in favor of every Social Security Act since entering the Senate. I voted for the Acts of 1954, 1955, 1956, 1958 and 1961. In fact, I had the opportunity of presiding over the United States Senate on the day the bill was approved bringing farmers under Social Security for the first time. And that change had my active support. I want to see every participant receive all the benefits the system provides. And I want to see these benefits paid in dollars with real purchasing power."

STATES RIGHTS

"States' rights is no mere slogan. It is the backbone of our Constitutional system. It is a check on the steady accumulation of massive power in the hands of national bureaucrats."

**WILL YOU
BE REPRESENTED IN GOV-
ERNMENT BY PEOPLE WHO WILL DO THINGS FOR YOU
OR BY PEOPLE WHO WILL DO THINGS TO YOU?**

The voters of Hall County owe it to themselves and the rest of the state and nation to turn out in record numbers next Tuesday, Nov. 3rd, and help REPUDIATE THE RADICAL EXTREMISM being advocated by Republican Goldwater and his coattail riders, Geo. Bush, Robt. Price and J. Crichton, and their disciples. What kind of shape would you, your business, your job, your livelihood be in if these people had their way? What would happen if there was . . .

- No Social Security
- No Farm Program
- No REA
- No Reclamation projects (except in Arizona)
- No Control Over Atomic Testing
- No Cooperative organizations
- No Recognition of the Social Progress That Has Been Made During the Past 30 Years

IT IS PLAIN TO SEE WHAT THE REPUBLICAN CANDIDATES ARE AGAINST . . . BUT WHAT ARE THEY FOR???

Before You Vote Next Tuesday, Be Sure They Have Something To Offer the People from a Positive Standpoint!

And, another thing: Goldwater appears to be "alarmed" at the "qualifications" of President Johnson's running mate, Hubert Humphrey, and the possibility (?) that he might one day be president. We ask: What about the qualifications of mud slinging, back-biting William (Bill) Miller? How would you like to wake up some morning and find that he was president of the U. S. A.?

PEACE AND PROSPERITY UNDER DEMOCRATIC ADMINISTRATIONS

What is wrong with the peace and prosperity we now enjoy under the leadership of President Johnson, Senator Yarborough, Congressman Rogers and Governor Connally, and the other Democrats whose names appear on the ballot to be re-elected to the of-

fices they now hold? Why should anyone want to trade one or all of these good men for Goldwater, Bush, Price, Crichton, none of whom have ever worn the cloak of responsibility of the office which they seek?

The time is at hand for sober reflection. If you are proud of our State and Nation, you will go to the polls Nov. 3rd, and help re-elect the men who have proven they know how to do their jobs.

**VOTE FOR CONTINUED PEACE, PROSPERITY AND PROGRESS - -
VOTE DEMOCRATIC ALL THE WAY... FROM
The Court House To The White House**

Around and About

By HELEN COMBS
We appreciate the news items our readers call in and bring in each week . . . it is only with the co-operation of our readers that we can continue to bring you a home-town paper filled with news items. We strive to have our items correct . . . but through mechanical and human error we sometimes do make mistakes. Working under a deadline, sometimes our work piles up and we have to rush to get the paper out on time. We'd like to make a request: That news items be brought in or called in as soon as possible. Do not wait until Wednesday or Thursday! The society page goes to press at noon Wednesday and we must have your items by 10 a. m. Wednesday morning at the latest . . . and only a few stories can be taken that late.

Our apologies this week to Marietta Smith for getting her vacation town mixed up in last week's paper . . . and after she was nice enough to take the trouble to come by the office and tell us, too. Anyway Marietta and Kim flew to Hot Springs, Ark., where she joined Paul and Nora Smith for a few days vacation, and accompanied them home. Nora

and Paul were in Hot Springs about three weeks vacationing.

Congratulations to Leslie Helm, Junior at Trinity University and daughter of Mr. and Mrs. O. L. Helm, who has been elected princess from the Junior Class for the annual Coronation Ball. Leslie has also been selected by Trinity University to represent the college in the annual Maid of Cotton Contest. The college has made a good choice in its selection as they could not have found a more qualified young lady than our own Leslie. We learned to know Leslie and admire her many fine qualities when Carnis and Adrian lived next door to the Helm family. Not only is Leslie a very pretty girl, but she is kind, considerate of others, humble and has a fine Christian character.

A treat is in store for elementary students on November 6 when the Austin PTA brings to town Walt Disney's "The Three Lives of Thomasina". School will be turned out for the afternoon and all students will have an opportunity to see the movie at the Palace Theater.

And, Saturday night the Memphis Jaycees are staging a Halloween Carnival on the vacant lot just south of the square. There will be fun for the whole family

SCHOLARSHIP WINNER
—Larry W. Moore of Memphis, freshman at Texas A&M University, has won a \$300 Sears-Roebuck Scholarship in recognition of his academic achievement, leadership and student activities. Larry, an animal husbandry major, is the son of Mr. and Mrs. C. D. Moore of Memphis.

with Halloween booths set up in tents, food for sale, etc. Also in connection with the annual affair, a carnival will be here during the weekend.

Ida Mae Long, who has devoted 40 years of service to the community as a telephone operator with the local office, is retiring from service and is being honored with a reception Monday evening at the Community Building. During her years of service, Ida Mae has made many friends and each and every one of them are invited to attend the reception Monday night. The hours are from 7:30 to 9:00 o'clock.

We cannot close our column this week without mentioning the subject uppermost in the minds of all Americans—the coming election next Tuesday. I earnestly hope that each of you will vote next Tuesday and that you will sit down . . . block from your minds the mud and slander to which you have been subjected in recent weeks . . . and seriously consider the issues at stake. Look at the candidates' records and the things for which they stand. Thus far America has been blessed as has no other nation in the world. We are respected and looked upon as the leader of all the free nations. This has not come about by chance but through years of hard work, dedicated service and wisdom shown by the people whom we have elected to serve us in the past. What the future holds depends on you.

The total number of Korean Conflict veterans on June 30, 1964, was 5,708,000, the Veterans Administration reported. This included more than 1,000,000 veterans with World War II service and brought the average age of all Korean veterans up to 4.8 years.

The total veteran population of the United States declined 153,000 during Fiscal Year 1964, the Veterans Administration has reported.

Mrs. Leon Helm Is Feted With Pink, Blue Shower

Mrs. Leon Helm was complimented with a lovely pink and blue shower on Thursday evening, Oct. 22, at the Community Center.

Hostesses for the courtesy were Mmes. H. J. Howell, Jr., Jack Norman, Jack Moreman, Roy Gresham, Buster Morrison, Harold Smith, Gene Hamil, Georgia Boman, Dewey Simmons, Jo Hawkins, Phaeton Alexander and Miss Sandy Longbine.

As guests arrived they were served punch decorated cake squares and mints from an attractively laid tea table. The table was covered with a pink linen cloth and centered with baby doll sheltered by a pink decorated umbrella.

After the guests were seated they were asked to work a puzzle by listing names. The honoree won the prize which was a table full of beautifully tissue-wrapped gifts. Mrs. Helm, assisted by her mother, Mrs. T. C. Harris and mother-in-law, Mrs. J. N. Helm, Sr., opened and displayed the gifts for the group.

The honoree was wearing an unusual corsage fashioned of baby socks.

Better stop worrying about what your son will do when he grows up—and see what he's doing now.

Barry Goldwater

In your heart you know he is right

"Goldwater must be defeated at all cost in order to further Communism," said Nikita Khrushchev in 1964. On Feb. 19, 1964 at the University of Minnesota, six-time candidate for president on the Socialist ticket Norman Thomas, said: "The danger from the 'right' is that they make Goldwater respectable and if he should ever be elected he would stop the advance of the Socialist and collective movement. The Communist publication, The Worker, in an edition of June 14, 1964 said: "If the GOP convention nominates Goldwater—our people—the Communist, must grasp the facts that they now have a situation of great peril the like of which we have never faced before." And then Martin Luther King touring Europe and speaking and proclaiming to the European population: "If Goldwater is elected, the United States will have another Hitler."

Yes, everybody is against Goldwater but the people. Two more things to remember:

1. No one has ever been able to find one wrong thing that Goldwater has ever done.
2. Read the book, "A Texan Looks at Johnson," and his past record including many deals in South Texas and about Box 13 as well as his many good friends—Bobby Sol Estes, Bobby Baker, Jenkins and others—and see how you like his record.

Tigers Drop Cyclone 20-18 In Thriller Fri.

Memphis Cyclone was out of their second district by a score of 20-18 Friday by a determined bunch of athletes from McLean. The Cyclone's scoring in the first half, which they led 12-0 over the Tigers. The half, however, was almost dominated by the Tigers' back, Dickie Crockett. The game got underway with receiving and punting. Memphis held and returned the McLean 19 yardline. Here, the Tigers got rolling on a second down, their 44, Johnny Fuller, broke and raced to the Cyclone 5 before being pulled back from Memphis. His 71 yards, the longest in the night. No. 33, Dickie Crockett, got the call and plowed over Cyclone defenders on a two-point conversion play, but he ran into Waites and was stopped at the 15 yard line. The ball exchanged hands and Memphis came into possession on their own 48, late in the quarter. On the ground, good play by HB Jack Stargel for James Waites for four, Toby Crooks for eight, and Jack Stargel turned in a 15 yard run around end and 15 yards in the bargain, McLean 20. Crooks tried up the middle three yards and Jimmy Sturdevant carried on a quarterback for six more, and the Cyclone knocking. On the next play, End Jim Odom carried on an end around play and the McLean defense their mouths open trying to get where the ball was as it crossed the goal line. The tried a place kick but the toe of Jimmy Sturdevant was knocked down and the was 6-6. Next time the Cyclone possession of the ball was they picked up a McLean on the Tigers 49. A nine-play by Jack Stargel moved all the way to the McLean 40. On the next play a 15-yard holding moved the ball to the Memphis. On the next play, the went to the air, and End Odom pulled in a long pass QB Jimmy Sturdevant and across the goal line. The covered 55 yards. Jack Stargel attempted but he was stopped of paydirt. Cyclone kicked off and McLean over on their own 45. On two plays which netted yards, and on the third down, quarterback bobbled the Center linebacker Donnie

Bridges snatched it out of his hands, and raced 55 yards to the McLean goal line for the Cyclone's third TD. The extra points attempt again failed to produce the desired results and the Cyclone led 18-6. The Tigers came back and marched from their 40, down the field and scored on the drive. They were aided by a 15-yard personal foul penalty against Memphis. Also, Dickie Crockett carried on all the plays except their first of the drive when Johnny Fuller lost two yards and midway in the drive when Eddie Windom carried for one yard. The scoring punch was by No. 33 Dickie Crockett, who carried over from the one yard line. The two-point conversion was stopped. After the half, the Tigers came back, the first time they got their hands on the ball, and marched from their own 21 to the Cyclone goal line. The scoring play was a 25-yard quarterback belly pitch-back to Steve Fuller who circled left end for the score. The winning two-point conversion was carried by FB Dickie Crockett, the Tigers 195-lb. power runner, who blasted his way over the Cyclone defenders and into the endzone. The remainder of the game was a see-saw battle, with Memphis trying to get an offensive rolling. Twice the Cyclone moved for good yardage against the Tigers, only to have their drives fall only inches short of first down yardage. The Tigers in the waning minutes of the game, got another drive going. Figuring heavily in the drive was FB Crockett who made the necessary yardage when called upon by running over Cyclone defenders. McLean was in possession when the final gun sounded.

Statistics

Dickie Crockett for McLean carried the ball 29 times for a total of 191 yards averaging 6.6 yards per carry. This was approximately one-half of the total offense of the Tigers and was definitely the deciding factor in the Tigers victory. Memphis FB James Waites had the best carry average, carrying 6 times for 20 yards averaging 3.3. Jack Stargel carried 11 times for 29 yards average 2.6; Toby Crooks carried 7 times for 21 yards for 3. Jimmy Sturdevant carried 6 times for 18 yards for a 3 yard average; Mike Crow carried one time for three yards and James Odom carried three times for three yards.

RE-ELECT Ralph Yarborough

The Texan . . . To The U.S. Senate

Texas already has ONE TOO MANY REPUBLICAN SENATORS, but at least John Tower is a Texan.

Certainly we don't need another Republican Senator (and a Connecticut Yankee at that) to help tie President Johnson's hand every time he tries to do something for Texas or blindly oppose every other proposal he might make.

Ralph Yarborough has devoted six years of dedicated service to all the people of Texas in the U. S. Senate, and deserves a second term for the fine job he has done. He knows how to be a Senator.

Hillbilly Play To Be Presented On Nov. 9-10

By VIRGINIA BROWDER
A feast of fun and foolishness awaits all who attend the "hillbilly" play to be sponsored by the Woman's Forum and presented at the Community Center the evenings of Nov. 9 and 10.
Under the title, "Good Ol' Mountain Mischief" or "Who Was the Skunk in Possum Holler?" to find out "who done" the murder, keeps the folks in the hills of Cuthbert County jumping and the audience in stitches. Widder Tuttle (Amy Hillhouse), her eldest son, Clem (John Binkley), and Ellie May (Pat Wilson), have been feuding with the Wilkes for years. So, when word gets around that Dave is a-courting Trudy Wilkes (Patsy Morris), business picks up. But Sally Mander (Annette Boswell) bringing the news of murder on Pine Ridge diverts their attention for a time.
Tuck Mander (K. D. Nabers) saw "red" and fired both barrels but can the Sheriff (Carl Baker) and his trusty bloodhounds prove anything is the question.

Damp Weather—

(Continued from Page One)

most farmers are waiting for a killing freeze to defoliate their cotton so that it can be mechanically harvested.

Some farmers have used defoliants on their fields but the weather has not been favorable for any large scale harvesting by machinery.

The rainfall Saturday night here, approximately one-half of an inch, did not spread over the remainder of the county. Lesley received .3 of an inch while the Lakeview area got heavy showers in some places, and Turkey received only a sprinkle.

Gin managers reported there was very little ginning this week.

K. E. Voelkel, of the Memphis Cotton Classing office, reported that since the office opened, they have received about 3,000 samples each week for classing.

The quality of the cotton classed last week was slightly lower than the week earlier, he said. Forty-six per cent of the total samples classed fell in the white grades and 54 per cent was light spotted or spotted. The staple lengths ranged from 13-16 to 1-8 inches. The predominant qualities were strict middling, middling, strict middling light spotted, and middling light spotted, 15-16 inch.

Voelkel said that besides assigning a grade and staple length to a sample, the office is assigning a third quality factor. It is the measuring of fiber fineness and maturity by the use of an air-flow instrument, the microaire. Of the 57 gins served by

the Memphis office, 56 have applied for this testing service under the U. S. Testing Act at the cost of six cents a sample.

Micronaire readings did not change from the previous week as only four per cent of the cotton classed read less than 3.5.

The cotton of this section of the Panhandle showed good fiber strength, the Pressley test showed, with nearly 75 per cent reading 85,000 pounds per square inch and above which is strong and very strong.

for federal offices and those seeking election to state, district, county and precinct offices.

The names of Lyndon B. Johnson and Hubert H. Humphrey are at the top of the list under the Democratic Party.

Barry M. Goldwater and William E. Miller head the Republican Party list.

Joseph B. Lightburn and Theodore C. Billings head the Constitution Party list, while there are no names listed under the Independent Party column.

As in the past, the Democratic Party has a full slate of nominees for all elective offices.

Readers are encouraged to study the ballot listings which has been reproduced on Page 5, Section 1, of this issue.

Especially are readers encouraged to notice the three Texas Constitutional Amendments printed

ed on the bottom of the ballot. Voters will scratch or mark out one statement so that the one remaining shall indicate what the voter wishes to vote for on each of the three amendments.

At the top of the ballot the following instructions are given: "Vote for the candidate of your choice in each race by scratching or marking out all other names in that race. You may vote for all candidates of a party by running a line through every other party column."

Atalantean Club Enjoys Coffee Wednesday In Sexauer Home

Members of the Atalantean Club met at 10 a. m. Wednesday, Oct. 21, for a morning coffee in the lovely country home of Mrs. Robert Sexauer. Upon arrival, the members were invited to make a tour of the split-level house, which has been completely remodeled and is a typical of the warmth and charm of old Mexico. The roomings and draperies of white and blue, and the unusual lighting fixtures all add to the Mexican motif. A outstanding feature of the house was the beautifully laid out garden of Mexican tile, intricate design and pattern and done with careful workmanship. Mrs. Sexauer's objects of art and her collection of books add much distinction to the home.

Miss Gertrude Rasco gave the invocation, after which refreshments were served from an attractively laid tea table in the dining room. The focal point of the room was the beautiful amber candelabrum with a huge white built inside and burning with a soft glow. After refreshments, Mrs. Sexauer, the program chairman for

Andrea Jo Wood Among Tech Honor Students

Miss Andrea Jo Wood, a Tech Economics student, was named as one of the Outstanding Sophomores of the year and honored all membership holders at the annual Economics award banquet Wednesday, Oct. 22 in the Tech Ballroom, Lubbock.

Andrea Jo Wood of Estelline among the students honored scholarship holder. She holds Ethel Foster Scholarship. Miss Marge Eubank, sophomore at Lubbock, was named as outstanding sophomore during the year.

Dr. Mary Louise Brewer, assistant professor of English at Tech, spoke on the "Pursuit of Excellence." The theme for the event was "Action Plus Means Success." The Tech chapter's theme for the year.

Mrs. Aronofsky Is Honoree At Coffee

Mrs. Lloyd Martin and Mrs. Ralph Williams entertained with coffee Wednesday morning at the home of Mrs. David Aronofsky, who will move to Dallas the latter part of the week with her family. Refreshments were served from 10 and 11 o'clock at the table set in the dining room. Mrs. Aronofsky is a member of the Atalantean Club of Memphis.

Refreshments were served from a lovely tea table laid with a silver epergne. Table decorations were in silver. Mrs. Spicer, president of the Atalantean Club, presided at the event.

Mrs. Aronofsky and her family will move to Dallas at the end of the week.

the Atalantean club, introduced the new club president, Mrs. Robert Spicer, who brought her opening message for this year's club work and the projects she hoped the club would carry out. She stressed the power of individuals when they work together for a work in a true spirit of club woman. It is important to love one another and make the world a better place to live in. Happiness comes from sharing our material and spiritual blessings with others. Women's lives are enriched through club work and our love and good will can go around the world. She closed with a little poem, asking each member to carry good thoughts and kind deeds, be considerate and make sacrifice for others, have forgiveness and always wear a smile.

After the president's message, Mrs. Sexauer introduced this year's course of study, as being, "Growth Through Knowledge" and the object, "Know Thyself." She then passed out the eagerly awaited year books, beautiful in their textured sand-beige covers and soft yellow pages. Everyone expressed their delight with them. Mrs. Sexauer then gave a brief resume of the programs for the coming months.

Mrs. Spicer conducted the business sessions, bringing the business all up to date. After this the meeting was adjourned.

The following members were present: Mmes. W. R. Scott, Claud Johnson, N. A. Hightower, Roy

Socials Honor Mrs. Burnett Here Last Week

Mrs. Clifton Burnett of Ennis, former long-time Memphis resident, visited here last week with friends and relatives.

On Thursday night Mrs. Burnett was a guest in the home of Myrtle Howard. That evening Mrs. Howard, Mrs. Gip McMurry and Mrs. Herschel Combs entertained with an informal social in her honor at the McMurry home.

Friday night Mrs. Burnett was a guest in the O. L. Helm home and following the football game several friends called at the Helm home to visit with her, and enjoy a coffee hour.

Mrs. Aronofsky is a past president of the Atalantean Club and served as chairman of the Welcoming Committee of the Chamber of Commerce for two years. It was through her work as president of the Hall County Chapter, American Field Service, that two foreign exchange students were brought to Memphis to spend a year each studying at the local high school.

Mrs. Aronofsky also has been active in Parent-Teacher Association work having held various offices in the local unit as well as serving as a district officer.

Dr. Aronofsky will be associated with a dental firm in Dallas.

Jewell, Earl Allen, J. W. Coppedge, Glynn Thompson, Robert Spicer, Milton Beasley, Robert Hanvey, O. M. Cosby, Ralph Williams, Cecil McCollum, Robert Philpot, K. B. Chick, Myrtis Phelan, Miss Imogene King, Miss Gertrude Rasco, and the hostess, Mrs. Robert Sexauer.

The next meeting of the Atalantean Club will be on November 4, in the home of Mrs. Robert Hanvey.

Culture Club Meets in Home of Mrs. Z. A. Cox

The Women's Culture Club met October 21 at 4 p. m. in the home of Mrs. Z. A. Cox.

The devotional, "Christian Education", was given by Mrs. Nat Bradley. After this, a short business session was held by the president, Mrs. Frank Ellis.

Mrs. Bradley introduced the program, "Education", with the quotation, "Instruction ends in the school room, but education ends only with life." She then presented the guest speaker, Mrs. C. D. Morris, principal and first grade teacher at Austin Elementary School.

Mrs. Morris gave a very interesting talk on "New Trends in Teaching," including the new math, programmed learning, linguistics, and roller reading. She especially stressed reading, with emphasis on the ungraded primary, individualized reading, grouping, and phonics. She displayed some teaching aids and played a phonics record, designed for effective drill on sounds. Mrs. Morris stated that repetition and drill are very important factors in teaching reading.

Lovely refreshments were served to the guests, Mrs. Morris and Cindy Bell and to the members: Mmes. R. E. Clark, Nat Bradley, Jeanette Irons, Grover Moss, Frank Ellis, Robert Moss, L. A. Stilwell, Theodore Swift, and Miss Sybil Gurley and Alma Bruce, and the hostess, Mrs. Cox.

Friendly Sewing Club Meets with Mrs. Randolph

The Friendly Sewing Club met at 2 p. m. Tuesday, Oct. 27 in the home of Ruby Randolph.

Estelle Barber, president, opened the meeting. After the prayer was given by Sabra Rice, Amanda Simpson brought the thought for the day. The secretary and treasurer's reports were then given. Florene Yarbrough received the hostess gift. The remainder of the afternoon was spent in making tea towels for the hostess.

Refreshments were served to the following: Mmes. Florene Yarbrough, W. E. Beckhan, Estelle Barber, Jean Lamb, Alla Boswell, Sabra Rice, Amanda Simpson, O. T. Hooks, Lila Alexander and the hostess, Mrs. Randolph.

The next meeting of the club will be on November 10 in the home of Mrs. Alexander.

Mr. and Mrs. C. G. Shepherd have returned to their home in Huntsville after visiting here for several days with their daughter and son-in-law, Mr. and Mrs. L.

Newcomers Club Meets in Home of Mrs. Robt. Gordon

The Newcomers Club met at 1 p. m. Tuesday in the home of Mrs. Robert Gordon, 905 Brice. Co-hostesses for the meeting were Mrs. Chas. Johnson and Mrs. Clayton Henderson.

During the business session Mrs. Don Curl was named as vice president of the club, Mrs. Dennis Ward, who was already serving as secretary, was selected as treasurer and reporter, Mrs. Robert Gordon was selected as membership chairman, and Mrs. Roddy Bice was named to head the telephone committee.

Following the business session, the group enjoyed games of bridge.

The hostesses served refreshments to the following members: Mmes. Woody Frazier, Robert Gordon, Carl Offield, Jerry Hassel, Chas. Johnson, Esibel Chavez, Wayne Goodrum, Roddy Bice, Jimmy Bennett, Clayton Henderson, Waller Diggs, Don Curl and Dennis Ward.

The next meeting is slated for Nov. 10 at 1 p. m. in the home of Mrs. Don Curl, 711 Harrison.

Area B&PW Clubs To Attend Meet Here November 5

The Memphis Business and Professional Women's Club will be hosts to an inter-club meeting on Thursday evening, Nov. 5, Myrtle Helm, president, announced this week. The meeting will be held at 7 p. m. at the Community Center.

Attending the meeting will be B&PW Club members from Wellington, Childress and Paducah.

Eva Mae Weaver, of Wichita Falls, district directors, will be guest speaker.

All members of the local club are reminded to remember the change of meeting time and be present that evening rather than at the noon hour.

Pretty Church Ceremony Unites Teresa Beckham, Dick Morgan

Miss Teresa Ann Beckham and Richard Walker Morgan were married in the First Baptist Church at 4 p. m. Saturday, Oct. 24, by the Rev. Fern Miller. Parents of the couple are Mr.

and Mrs. Coy Beckham and Mr. and Mrs. H. R. Crawford, both of Memphis. The altar was centered with an arch candelabra holding white tapers and centered with an arrangement of greenery and white gladioli. This was flanked on either side with floor baskets of white gladioli. The bridal aisle was marked with white satin bows and white pom-poms.

Mrs. Gloria Wilson played pre-nuptial music and the traditional wedding marches for the processional and recessional, and also accompanied Mrs. A. L. Gailey as she sang "I Love You Truly" and "The Lord's Prayer."

MR. AND MRS. RICHARD WALKER MORGAN

Miss Donna Beckham, sister of the bride, served as maid of honor and Sam Goodnight was the groom's best man. Ushers were Jimmy Roden and Bunky Adeock. The maid of honor wore a two-piece ruby wool knit with accents of wool loops. Her headpiece was a circlet veil of carnation pink and she carried a nosegay of white feathered carnations.

Given in marriage by her father, the bride wore an informal dress of candlelight wool, fashioned with a yoke and long sleeves of matching wool lace. She wore a matching satin shell with a back bow and carried a single white orchid atop a white satin-covered Bible.

She carried out the traditional bridal custom of wearing "something old, something new, something borrowed and something blue with a sixpence in her shoe."

Mrs. Beckham, mother of the bride, wore an alabaster wool dress accented with satin and matching soft velvet tiered toque. Her corsage was pink gladiolias. The groom's mother, Mrs. Crawford, was attired in a royal blue sheath accented with matching royal blue accessories. Her corsage was a white gladiolias.

The couple are both graduates of Memphis High School and both attended Texas Tech and Sul Ross State College.

Mr. and Mrs. Morgan are at home at 1120 Dover in Memphis.

Rehearsal Supper
Mr. and Mrs. H. R. Crawford hosted a buffet supper after the wedding rehearsal Thursday evening, Oct. 22, for members of the wedding party and guests. Special guests were Mr. and Mrs. Fern Miller, Mrs. Sam Goodnight, A. L. Gailey and Miss Pat Wilson.

Society News

Mrs. Carl Morris Entertains Pathfinders Club

The Pathfinders' Council met Tuesday, Oct. 20 in the home of Mrs. Carl W. Morris.

During a short business session, the club voted to have a rummage sale.

The program opened with "Sign of Personal Enrichment," with six sentences of good psychology for all, given by Mrs. Carl Morris. Mrs. J. R. Mitchell then gave the meditation based on "Faith." After Mrs. G. M. Duren investigated E.S.O. and gave an interesting report on a correspondence course for club members, Mrs. Jimmy Gattis reported on "Changing Signs in Education—Better or Worse", telling of new methods of teaching and new subjects being offered.

Halloween treats were served to the following: Mmes. A. Giddens, O. M. Gunstream, W. F. Ritchie, G. M. Duren, J. R. Mitchell, J. L. Allard, J. J. McDaniel, W. F. McElreath, C. V. Murrif, Jimmy Gattis and the hostess, Mrs. Carl Morris.

Pam Nabers Is Honored With Party On 12th Birthday

Pam Nabers, daughter of Mr. and Mrs. K. D. Nabers, celebrated her 12th birthday with a party at the family home Saturday afternoon.

The guests arrived at 4:30 and after enjoying a variety of party games, refreshments of sandwiches, Cokes and birthday cake were served.

At 7 o'clock the group went to Memphis Skating Rink where they enjoyed skating until 10 o'clock.

Enjoying the occasion were the honoree, Pam, and Vicki Clifton, Debra Yarbrough, Brenda Barrett, Terna Martin, Jane Smith, Debra Hawkins, Suila Ayers, Carol Godfrey, LuGay Godfrey, Jana Johnson, Cindy Maddox, and Mizie Lindsey.

Delphian Club Has Annual Dinner Meet

The Delphian Club entertained husbands and other guests Tuesday, October 20, in the home of Mr. and Mrs. Keith Cunningham.

A bountiful dinner was served from four-course tables, which held miniature arrangements of fall flowers.

Club president, Mrs. C. C. Hodges welcomed the guests, and Rev. J. B. Thompson gave the invocation. To introduce the program, which was on Public Education, the program chairman, Mrs. Ben Wilson, Jr., stated that its purpose was to search for tomorrow's needs and to see what other people are doing. Mrs. Henry Hays gave a meditation "He Is Tomorrow" which emphasized that the child of today is the man of tomorrow. Mrs. Wilson introduced Mr. Shannon Doss, Superintendent of Memphis Public Schools, who spoke on General Trends of Education For Tomorrow. Mr. Doss explained some of the things that are being used today and which will be used more and more in the future. Among those mentioned were as follows:

NEW MATHEMATICS teaches the "Why" as well as the "how" of mathematics. This method is a radical departure from traditional methods, but is in general use in the textbooks of today.

STRUCTURAL LINGUISTICS is a new approach to the teaching of English. It aids students to see that written English is the same language they speak every day. It also is being incorporated into today's textbooks.

PROGRAMMED INSTRUCTION utilizes teaching machines, repeating and reinforcing instruction. By this method students may progress at individual levels.

EDUCATIONAL T. V. is being used extensively, especially in the North, Illinois and Indiana are televising instruction from an airplane circling over the area. Thus a master teacher instructs thousands of students at one time. Texas Tech now has a license for

similar broadcasts.

LANGUAGE LABS using tape recorders, ear phones, and control panels give instruction in several languages at the same time.

READING LABS are aimed at improving reading ability and comprehension. A new alphabet of 44 letters is causing pro and con discussion.

TEACHER'S AIDES assist with records and clerical work, releasing the teacher for more time for teaching.

TEAM TEACHING enables a team of teachers to work together under a master teacher for better instruction.

MERIT PAY FOR TEACHERS would base salaries on merit. Many problems are involved, with the best 'apple polishers' many times getting better salaries than the really better teacher.

UNGRADED SCHOOLS use a time rather than a grade classification.

COUNSELING AND GUIDANCE is aimed at giving the student more individual attention.

JUNIOR COLLEGES will be needed more and more.

FEDERAL PARTICIPATION will be felt more and more, whether we like it or not. Area Vocational Schools under Federal support can now be entered into, but are not compulsory. Their purpose is to train students to hold jobs.

Those attending were Mr. and Mrs. A. Anisman, Lynn McKown, Rayford Hutcherson, Henry Hays, Bill Lockhart, Sim Reeves, Jack Boone, Clyde Smith, Jo Bob Browning, Claude Wells, J. S. McMurry, Neal Hindman, J. B. Thompson, Shannon Doss, Kermit Voelkel, Mmes. Harrison, Herschel Combs, Bill Combs, R. H. Wherry, C. C. Hodges, Ben Wilson, Jr., Miss Maud Milam, and the host and hostess Mr. and Mrs. Cunningham.

Ida Mae Long To Be Honored At Reception Mon.

Miss Ida Mae Long, who is retiring from service after serving 40 years as a telephone operator with the local office of General Telephone Company, will be honored with a reception on Monday evening, Nov. 2, at the Community Center.

All friends of Miss Long are invited to call between the hours of 7:30 and 9 o'clock that evening.

During the evening Miss Long will be awarded a 40-year service pin by General Telephone Company.

Affectionately known to the entire community as "Ida Mae", Miss Long has worked the entire 40 years as an operator in Memphis.

Parties Honor Mrs. Claude Betts, Former Resident

Mrs. Claude Betts of Ennis was a Memphis visitor last week and was a house guest in the home of Mrs. D. A. Neeley. A former Memphis resident, Mrs. Betts has many friends here.

On Wednesday morning Mrs. Mary Bownds entertained with a Coffee honoring Mrs. Betts. Guests were members of the Blue Bonnet Club of which Mrs. Betts is a former member and Mrs. W. B. McQueen, Sr., and Mrs. Neeley.

On Thursday a group of friends met at Odom Restaurant for a luncheon honoring Mrs. Betts. Enjoying this occasion were Myrtle Howard, Lucille Burnett, Bertha McQueen, Grace Foxhall, Ocie Scott, Mary Bownds, Audrey Neeley, Fern Boone, Betty Goodall, Winnie Johnson, Hucie Lindsey, Mildred Monzingo, Fenton McMurry, Grace Monzingo, Mary Lenoir, Neva Hickey, Margaret Phillips and honoree, Mrs. Betts.

Mrs. Betts left for her home in Ennis on Friday. She has spent several days visiting in Amarillo with her son and family prior to coming to Memphis.

NEWELL COFFEE—Mrs. Lloyd Martin, shown to the right, and Mrs. Ralph Williams, center, honored Mrs. David Aronofsky with a farewell Coffee Wednesday morning at the Martin home. Mrs. Aronofsky and her family will move to Dallas at the end of the week.

Are You Going To Vote Tuesday—How?

Next Tuesday, Nov. 3, 1964, citizens of this city, neighboring communities, county, area State and Nation, will assemble at the voting boxes in each precinct, and mark on a sheet of paper their judgment concerning who and what is the best course of action for their counties, states, and nation to take in the future.

The decisions made by our citizens will have a lasting effect on the future of the American people, on our children's futures, and that of our children's children. Because of the importance of the 1964 election, many people are spending large sums of money in an effort to impose their beliefs, ideas, and opinions to influence the citizens.

Newspapers, radio and television and all other advertising media of the nation are carrying messages, either paid for or not paid for, to persuade citizens to mark ballots for their favorite man.

In the heat of a political race it is hard for many to keep the proper perspective, to evaluate the situation and arrive at a well founded, firm stand on the issues confronting them. Why, because many do not search for the truth, and are prone to believe every tale, half truths, statistics, or juicy tidbit they come across.

Tuesday, when the smoke clears, conscientious citizens will go to the polls and mark their ballots. After tabulations are completed, we will know who the next leaders of our nation and states will be and what road we will travel for the 1964 election is a landmark.

Will Texas' son, Lyndon B. Johnson, be re-elected to lead our nation or will the voters select the un-tried Senator from Arizona, Barry Goldwater? All pre-election survey polls point to the election of President Johnson. This, however, does not write the story, or tell the tale. The election is still to be held, and the office will go to the who is given the most electoral votes in the final analysis.

The editorial staff of this publication, as it has in the past, again urges its readers to seriously consider voting the straight Democratic ticket in the General Election Nov. 3.

Our section of the country has fared far better economically under Democratic rule than under Republican rule. Also, we, as Texans, have the eyes of the other 49 states and those of the rest of the world focused upon us during this election.

It is apparent to us the high regard the other nations, both free and otherwise, hold for our son, Lyndon B. Johnson. In the short time he has served as the President of the United States, he has guided our nation wisely, fairly, and impartially.

President Johnson has pledged himself to carry on in the traditional of the Democratic ideal of continued peace for the free world and steady growth for the United States. On the other hand, Senator Goldwater has challenged many of the established institutions and economic principles which have been in practice since World War II.

For this reason, we feel the 1964 election is vitally critical in plotting the future of our nation, as a free world leader, and as the home for the free. Go to the polls next Tuesday and vote your convictions. This is far too important to take lightly and let anything stand in your way of deciding the future of our country.

Putting On The Pressure

In sports, one of the well known facts of any game is that athletes respond differently to "pressure." When time is running out and the game is close, some athletes choke up under pressure while others thrive on it, rising to heights under pressure that they could not reach ordinarily.

American life is getting to be a life of pressures of various kinds, and the more complicated life becomes, the more pressures there are.

Newspaper people have to learn to live with pressure. Every newspaper has a deadline to meet and there are days when the news stories don't develop and the advertisers are late, and the staff finds themselves battling against time, with the deadline relentlessly pressing down upon them. This is pressure, and it is real.

Children are put under pressure that their parents and grandparents never knew. They are given tests at various ages and stages of development, and these tests will determine what kind of school a child will attend, at what speed he will advance, with which group he will be placed.

A child is constantly challenged by parents and teachers to do better, to live up to his potential. And the faster he learns, the more material is thrust at him to be learned. But it results in pressure being put upon a child and the worst offenders are usually parents who want their child to make better grades than they did and pressure him to do so.

Public officials are subjected to

a lot of pressure which comes in various ways. Some succumb to pressure, and those who resist pressure often find themselves voted out of a job.

Ministers are put under pressure by their congregation, with some groups wanting one kind of sermon and one kind of pastor while other groups want an entirely different kind of pastor. As a result, the pastor is pressured by both groups and finds it impossible to do the kind of job he knows he should do.

Probably the best example of being put under pressure comes from the football coaching profession. For some strange reason, the football coach is singled out for pressure much more than the basketball coach or the track coach or the band director or the speech teacher, all of whom have students that they coach to represent their school.

But a football coach is fair game for pressure groups. He has to post a winning record or he goes out looking for a job. Fans will tolerate a good coach for a while, but eventually he had better produce a winner or a coaching change is made, regardless of the fact that the material may be poor, injuries great, the opposition strong.

Pressure is put upon a football coach, and during a losing season it mounts daily.

It is no wonder that the incidence of ulcers is high among football coaches of this land. There is a hard, pressure-packed profession.

Pressures are put on by wives,

too. Those wives who put the spurs to their husbands in order to produce the income required for the things of life expected to keep up with friends and neighbors are applying pressure in its purest sense.

Pressure is put on businessmen by customers and competitor, by employees and the government handing him a set of decisions that must be accurately and quickly made every day or business is lost.

Employees are pressured by employers; parents are pressured by children; everybody pressures everybody else until it is no wonder that we sometimes feel we all live in one great big, red hot pressure cooker.

And a study of the heart attacks, nervous breakdowns, ulcers, mental illness in this country might lend some proof to this feeling—Ochiltree County Herald.

Every Vote Important

"Voting in the United States is the fundamental act of self-government. It provides the citizen in our free society the right to make a judgment, to state a choice, to participate in the running of the government. . . .

"The citizen who does not vote relinquishes the opportunity to govern."
Thus declared the President's Commission on Registration and Voting in its report last fall, noting that only 63.8 per cent of eligible voters bothered to go to the polls in 1960.

Millions of these potential voters, of course, were traveling, or ill or had recently moved. But millions more disenfranchised themselves with the familiar plea: "What difference does my one vote make?"

One still hears this excuse, despite the fact that in recent years a mayor and councilman and city treasurer in Ohio won office by one vote. So did a councilman in Arizona (one former Arizona councilman is now running for president) and a state legislator in Pennsylvania.

In 1962, after months of re-counting, it was determined that the governor of Minnesota had been elected by a mere 91 votes.

Nationally, in 1960, out of a total vote of nearly 69 million, John F. Kennedy defeated Richard M. Nixon by less than one vote per precinct. Had 10,000 additional Republicans gone to the polls in Missouri and Illinois, Nixon would have been elected president.

If enough Americans often enough neglect to vote—to perform this "fundamental act of self-government"—they may one day find they have relinquished not only the opportunity but the right to govern.—Wichita Falls Record News.

4-B (8-man) is turning a race it appears and Don Adams' Bear Cubs are in the thick of the game. The Bear Cubs have defeated the Patton Springs, and have three more games left, which promise to be real ones.

Friday night, the Bear Cubs will travel to Roaring Springs for the contest promises to be a ball game. The Bear Cubs may be picked favorite, but Adams feels that in 8-man anything can happen, especially does. The Estelline team led to come from behind to defeat Patton Springs 6-6. This incidentally was about the same score that the defeated the Patton Springs. If Estelline can defeat Roaring Springs, they will have one tough hurdle to get through, and that of Guthrie, and luck of the game will be on Estelline's side. The Bear Cubs last night against Morse, set for Nov. 6, should be an easier victory since the Morse team hasn't been able to come with a district victory (if I been keeping up correctly).

A disappointed bunch returned back from McLean tonight after the Cyclone game to McLean. Reports about Canadian, the team that last year tied the Cyclone 38 to 38, are that the Cyclone's next opponent is real tough with a good backfield and sound defense. Last week, Wellington defeated Canadian only on the strength of a field goal, 9-6. It looks like football fans will be in for a real good game come Friday night at Cyclone Stadium. Let's go out and support the local lads.

I received a report this week concerning the organization of the Turkey Quarterback Club. A group of Turkey citizens met Monday night and elected Jim Majors, president of the newly formed club. Joe Bob Barnhill was named vice president, Shine Stephens treasurer, and Smith Guest, secretary. The organization will meet every Monday night at 7:30 in the school cafeteria. I have always found that booster organizations can, if given proper leadership, do a great deal of good toward helping build a better athletic program in school systems. The Turkey group has a good project and I wish their officers and members well in their endeavors. The Turkey Turks will travel to Lazbuddie this Friday night. The team has been plagued with several injuries this season but it is hoped the boys will be back in uniform before district play starts.

When the house is closed up... and the kitchen's soot free
Flameless Electric Cooking is all it could be
During the winter months when the house is closed up, a flameless electric range is almost a necessity. Only an electric range can prevent the ugly, oily film on windows, walls, cabinets...everything in the kitchen and adjacent rooms, because there's no combustion. Since heat is delivered directly by metal-to-metal contact with the bottom of the utensils, you don't have to clean soot from pots and pans. There's no doubt about it...electric cooking is clean, accurate, fast, and by putting the heat into the food, not into the air...you don't have to pay for dissipated heat.
Visit an electric appliance dealer soon and bring home an electric range so you, too, can have a bright and shiny kitchen.
FREE WIRING - An extra for WTU customers. If you are a customer of WTU and purchase your flameless electric range from a local appliance dealer, WTU will install the wiring at no charge to you.

The 1965 Ford rides quieter than a Rolls-Royce!
Prior to the introduction of the 1965 Fords, the country's leading automotive writers drove the new models at Dearborn. Most of these experts remarked about the extraordinary quietness and smoothness of the Ford ride. An automotive writer, in *Mechanix Illustrated*, said, "If there is a quieter car made in this country, I haven't driven it."
Quiet Means Quality... Since quiet is a traditional measure of car quality, Ford engineers designed the '65 Ford for maximum quietness. To illustrate this quality achievement, Ford chose to make a documented test against the world's finest luxury car—Rolls-Royce.
Bolt, Beranek and Newman, Inc., world's leading acoustic consultants to government and industry, conducted the tests under supervision of the authoritative United States Auto Club. All cars were tuned to factory specifications.
The Result... The Fords proved to be slightly quieter at all speeds.
The official test report reads, in part: "At all moving speeds, on both courses, the Fords were quieter than the Rolls-Royces."
The Difference... The sound level difference, to be sure, is small—but it is there. At 60 miles an hour, Ford was actually 2.8 decibels* quieter than Rolls-Royce. At 40, Ford was 5.5 decibels* quieter. At 20, Ford was 4.9 decibels* quieter. However small these advantages over Rolls-Royce may be, they are significant evidence of quality—important to anyone buying a car in Ford's class.
Take A Test Drive... A key—and a warm welcome—await you at your Ford Dealer's. The key, incidentally, fits in the lock no matter which side is up—symbolic of the hundreds of advances you'll find in any Ford you road-test. Come in and see for yourself.

Austin PTA To Bring Walt Disney Production to Memphis November 6

The Three Lives of Thomasina, one of Walt Disney's heart-warming live-action features about animals and children, will be brought to Memphis on Friday afternoon, Nov. 6, through the sponsorship of the Austin Parent-Teacher Association.

The movie will be shown at the Palace Theater beginning at 1 p. m. Friday. Classes at the Austin and Travis Elementary Schools will be dismissed for the afternoon in order that the students may see the movie. Mrs. Dick Fowler, publicity chairman stated.

Admission will be 20 cents for students and 50 cents for adults. Proceeds from the project will be used for worthwhile PTA projects during the year.

Taken from the best-selling novel by Paul Gallico, "The Three Lives of Thomasina" is a beguiling and heart-warming story of a cat that brings happiness, as well as a few tears, into the lives of some enchanting Scottish youngsters.

Directed by Don Chaffey and filmed in Technicolor against remarkably faithful Scottish back-

TIPS for OUTDOORSMEN

Innertube Protects Motor
When transporting your outboard motor in the trunk of your auto, try placing it on a half-inflated innertube.

Carp Love Wheaties
When fishing for carp, try using a simple bait made from Wheaties. Simply mix the cereal with enough water to knead into a ball. It will remain on a hook for long periods. Carp really go for it.

Pipe Cleaners Useful
An ordinary pipe cleaner can serve many purposes for the outdoorsman, besides cleaning his pipe. It can be used to hold parts of a rod together when disassembled; keep line from unwinding on a reel; and as a nook and cranny oiler.

Handy Gun Oiler
Saturate a lamb's wool pad with oil and pin it to the flap of your gun case. There it will be handy at all times for oiling the gun.

Peps Up Batteries
Heat flashlight batteries over your campfire for a few more hours of life.

Handy Lure Box
Some salt water fishermen use toothbrush holders to store their feathered lures. Keeps 'em in good shape a lot longer than bouncing around in the bottom of a tackle box.

Another Use For Magnets
When refinishing ultra-deluxe items like a gun stock or rod rack, run a magnet over the surface before varnishing. It will pick up

Excellent Fire Starter
To make an easy starter for a

campfire, soak a charcoal briquet in turpentine and wrap it in aluminum foil. It burns hot and lasts a long time.

Holds Fish For Cleaning
As an aid to cleaning fish, mount a mouse trap on a plank. Use the spring of the trap to hold the tail of the fish while you scale it.

Makeshift Sinker
For a makeshift sinker, use small squares of cheese cloth

filled with sand or gravel. If snagged, the cloth rips. This frees the line and saves expensive hooks and swivels.

Cattails for Camp Lights
A cattail soaked in kerosene burns for long periods. Makes a good light in camp or is handy for starting stubborn campfires.

Oklahoma Air Force Memorial Is Work of Leonard D. McMurry

The latest work of Leonard D. McMurry, son of R. B. McMurry, is the Oklahoma Air Force Memorial at the intersection of Broadway, Oklahoma City. The dedication was on October 19.

The 12-foot bronze figure, positioned in front of the base cap, represents the Air Force. The figure is standing barefoot, looking toward the sky, with one hand on the world. It holds the Air Force disc in one hand and a scroll in the other. The 65-foot shaft of the statue has at the top an eagle.

McMurry, who is a resident of Oklahoma City, designed the monument and began work about a year ago.

After graduation from the local high school, he entered West Virginia College. There he met and married Maude. He then entered Washington State University in Pullman, Wash., where he majored in sculpture.

During that year he won the Art Association scholarship. Following years he received the Herman Crow scholarship. He was in the service in Europe from 1940 to 1941, where he received honorable mention in Paris.

After receiving his Fine Arts degree in 1941, he worked and lived in St. Louis until he entered the service in May of 1942. He spent two years in Europe, where he was able to work for several periods of time under various known teachers.

While he was stationed in England he met and married Maude. The couple have three children. They returned to St. Louis in 1945 and lived in St. Louis where he worked and lived with Carl Mose until 1949. He was accepted by Ivan Meisinger to study and work with at Syracuse University.

McMurry spent three years under the great Mestrovic, doing post-graduate work which was exhibited in many shows in St. Louis and in prominent galleries in New York.

In 1952, his work was selected by the National Sculptures Society for exhibition at the national show in New York. He moved to Oklahoma City in 1955, where he became associated with Thomas Roberts, landscape architect.

A few of McMurry most important works in Oklahoma City include: Orpheus, a garden piece for Frank Hightower; Garden figures for William P. Morrison; Model commission of Monument to the Five Civilized Tribes; Model commission for Monument to the 89ers now in bronze in Civic Center; Eternal Challenge, Oklahoma City University; Christ and the Children, Crown Heights Methodist Church; Cowboy Hall of Fame busts and Wiley Post now in bronze in Oklahoma City.

Tax Man Sam Sez:

When Junior says he is a double income tax exemption, it comes as a surprise to thousands of Dads each year. Dads have had 10 years since the law was changed in 1954 to learn about the student exemption—but they haven't.

The student must claim his own exemption on his own return. If he is under 18 or a full time student and is receiving principal support from Dad, he can be claimed on Dad's return too.

However, the mixup continues. A lot of Dads send word to the teacher teaching the little IRS tax course at school that they are teaching the course all wrong. Dad tells the teacher you can't "double dip." Well, Dad, in this case Junior gets an exemption and you also get an exemption.

SAFETY MAGIC—Pulling a safety message out of nowhere is just one of the many magician's trick Police Sgt. Carl S. Pike uses to emphasize important points of traffic safety to students. Sgt. Pike presented his "Safety Magic" program at Memphis High School Tuesday. Presently on leave from the Kent County Sheriff's Department, Grand Rapids, Mich., Sgt. Pike was a professional magician before entering police work. Several years ago, in recognition of his fine work with teenage drivers, he was officially promoted to lieutenant by his department. The program is on a nation-wide tour sponsored by the American Trucking Assn., the national trade association for the motor carrier industry.

Use Foil To Reflect Heat

Aluminum foil, that all-purpose "Handy Andy" of the camper, can make you an efficient camp oven.

Also, it can double as a fire reflector in cold weather.

Here's how to do it: Drive four 18-inch stakes in a square around your campfire. Leave one side open to stoke the fire and handle

the food. Fasten the foil to the stakes to cover the other three sides. Make a top of small, straight, interwoven, green sticks and cover with foil. Secure top to the four stakes.

Foil surfaces reflect heat, creating high, even temperatures even with a small ember fire.

Effective Lure Polish

Water in which your wife boils potatoes makes an effective polish for spoons and spinners. Objects to be polished should be soaked for several hours.

Storing Minnow Seines

Use old newspapers to keep your minnow seine from rotting while in storage.

Carefully but loosely wrap the seine in an old newspaper. Paper will draw off the moisture. Mildew then never has a chance to attack the net fibers.

REMOVING PRICE TAGS

Do you ever have difficulty removing price tags from new pans, baking dishes, or other kitchen utensils? Try this. If it's a smooth polished surface, rub cooking oil generously over the price tag. Give it time to soak in. The oil will dissolve the adhesive and make it easier for you to remove the tag without scraping or marring the smooth surface.

Salvation

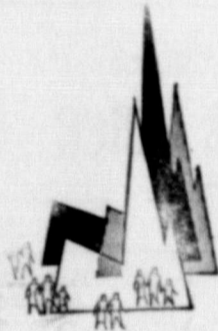

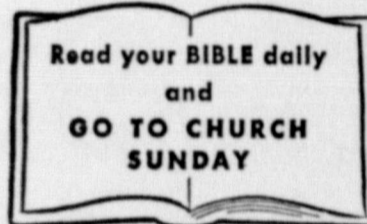

And it shall come to pass, that whosoever shall call on the name of the Lord shall be saved.—Joel 2:28-32

We cannot attain salvation unless we "call upon the name of God"—unless we believe in God and obey God's will.

It is not enough that we call upon the Lord when we are in trouble . . . and be forgetful when things are running smoothly for us. Earning salvation is a full-time effort; it means leading a good Christian life every day of the week, not just on Sunday.

We must bring God into our daily lives, into every facet of living and not, like children, cry out for help when we are in trouble.

No matter who you are, or where you live—faith and Christian-living can help you in many ways—will aid you to see the true worth of all things.

Report From Washington

By WALTER ROGERS
Representative, 18th
Congressional District

Excise Taxes
The excise tax on each new car manufactured in the United States today averages \$1.7 billion. In a year in which 7.5 million new cars are manufactured, the total revenue source swells to \$13.7 billion. This is only one example of the substantial revenues generated by Federal excises, and the subject is one of a major topic for Congressional attention in the First Session of the 89th Congress in January.

President Johnson has announced his intention to seek a reduction in excise taxes as a further step toward economic strength generated by this year's cut in personal and corporate income taxes. The sentiment exists in Congress for a cut in excise taxes. I believe many members of the House of Representatives who long have advocated a substantial reduction in excise taxes, and a complete elimination of the "hidden" taxes in the Federal revenue picture. Not all Americans are aware of the extent of excise taxation—that excises will total an estimated \$14 billion this fiscal year. Excises represent between one-sixth and one-seventh of Federal tax collections. The ground has already been cleared for further Congressional

action on excise taxes; the House Ways and Means Committee, which initiates tax legislation, held hearing earlier this year and it seems certain that they will be resumed. A proposal for reducing excises is likely to emerge.

Extensive use was made of a wide range of excises during World War I, but most of these were repealed during the following decade. Most of the present manufacturer's excises were repealed during the 1930's as a depression tax measure adopted in lieu of a general manufacturer's sales tax. Under the impetus of World War II revenue requirements, the rates of most existing excises were substantially increased and the present retailer's excises were introduced, along with taxes on transportation of persons and property. Congress was giving serious consideration to extensive legislation revising and reducing excises in 1950 when hostilities broke out in Korea. Accordingly, World War II excises were continued, and, in some cases, increased. Some reductions occurred in 1954, 1958, and 1962; some increases came in 1956 to finance an expanded program of highway construction. Through all these years, the proper role of excises in the Federal revenue system has been the subject of continuing controversy.

The income tax reduction enacted earlier this year was designed to provide an economic stimulus by freeing capital in the so-called "private sector" of the economy. Consumer spending and capital investment both have shown major increases as a result of the income tax cut. Similar results are envisioned for a reduction in the excise tax burden.

The continuing high rate of business activity in Texas reflects the impact of reduced personal and corporate income taxes. According to figures issued recently by the University of Texas Bureau of Business Research, the seasonally adjusted index of Texas business activity showed a 3 percent rise in July to a new high of 152.2 percent of the 1957-58 base value. Amarillo, with an increase of 21 percent from July, 1963, to July, 1964, showed the largest annual gain in business activity of any major Texas city.

Most revealing for indicating

HALF-PAST TEEN

The effect of the tax cut were figures relating to increased retail sales. Preliminary estimates from the Bureau of Business Research showed a 2 percent rise in dollar sales in Texas from June to July, 1964, in a period when a small decline normally is registered. Texas retail sales in July were up 8 percent from the volume in July, 1963.

It is clear that the reduction in the tax burden borne by American citizens is at work carrying the economy to record high levels.

Mr. and Mrs. David H. DuVall and family of Pampa are moving to Lakeview next week. They are building a new home in Lakeview and Mr. DuVall will be associated with his father in farming and cotton business. David is the son of Mr. and Mrs. Horace DuVall.

A diplomat can tell you where to go and make you look forward to the trip.

The combined average daily patient load in Veterans Administration hospitals and average daily member load in domiciliaries was 137,557 at the end of Fiscal Year 1964. This was 310 less than the combined number for Fiscal Year 1963.

HaH County Soil Conservation

Due to the types of soil and intensity of rainfall in the HaH County Soil Conservation District, erosion by water is a major problem. Small drainage areas can be handled by a good system of terraces and diversions. Larger drainage areas of a few hundred acres can be controlled by means of a waterway. When large amounts of water accumulate from large drainage areas of 500 to 1000 acres or more, stabilizing measures such as sod-chutes, concrete chutes, drop structures or detention structures should be used to prevent erosion in the form of gullies or canyons.

Stabilizing measures, as mentioned above, can control water and release water in an orderly manner to prevent damage to cropland and rangeland. Water can be controlled when it is handled by a good structure in its natural course. Water taken out of its natural course can cause more damage than in its natural course regardless of types of structure used.

Your local Soil Conservation Service technicians will be glad to help you with any question you have. Cost-share of stabilization structures is now available through the Great Plains Conservation Program and the Agricultural Conservation Program.

Farm and ranch ponds in the HaH County Soil Conservation District are used for stock water, better distribution of grazing land, erosion and other uses. If properly managed for fish, these ponds will also provide food and recreation, as well as benefit other

wildlife such as waterfowl and land game.

The site for the pond should be selected so it will catch full of water in one year of normal rainfall. A wider spillway is more desirable for farm ponds that are to be used for fish production. The water should flow through the spillway at a very shallow depth to prevent losing the larger fish during an overflow period. It is best not to put a screen across the spillway as it has a tendency to catch trash and this will endanger the dam.

A farm pond should have a drainage area of 150 acres or more to provide enough water for livestock as well as fish. A drainage area of largely grassland is highly preferred over a drainage area which is largely cropland. The more grassland runoff water runs across, the less silt deposit there is in the pond.

If you have any questions or need any additional information contact your local Soil Conservation Service office.

Neely C. Rice Participates In Overseas Training

VII CORPS, GERMANY—Army Specialist Four Neely C. Rice, son of Mr. and Mrs. Thomas W. Rice, Lakeview, Tex., and other members of the 1st Battalion, 75th Artillery, participated in a material readiness conference for maintenance personnel of the VII Corps in Germany, Oct. 12.

During the conference Specialist Rice and his unit held classes and demonstrations on maintenance of howitzers, personnel carriers and wheeled vehicles.

The 24-year-old soldier, a clerk in the battalion's Service Battery, regularly stationed near Hamburg, Germany, entered the Army in May 1963 and completed basic training at Fort Polk, La.

He was graduated from Lakeview High School in 1958 and attended West Texas University, Canyon.

If success made the heart swell like it does the head, this would be a far better world.

Texas Voters To Decide Upon Three Proposed Constitutional Amendments

Texas voters will be given a double dose when they go to the polls next Tuesday. Besides the choices in the exciting presidential race, etc., voters will make choices on three proposed amendments to the Texas Constitution.

In order of their appearance on the ballot, the proposed amendments would:

1. Remove the Legislature's constitutional authority to transfer up to one per cent of the permanent school fund annually to the available school fund.

2. Require notice to the public and to the Texas Water Commission of intent to introduce legislation creating or substantially altering a conservation and reclamation district.

3. Authorize the Legislature to enact a program, under the federal Kerr-Mills Act, of financial help for Texans 65 or older who are not on the old age assistance rolls but now can't pay for needed medical services.

Number One

Since 1891 the Legislature has had power to shift not more than one per cent a year of the permanent school fund into the available school fund for current state school aid expenses.

It has used this authority in 12 of the 73 years—1892 through 1898 and in 1957, 1958, 1959,

1961 and 1962. This century's transfers, all during a period of state fiscal crisis, totaled \$21 million, including \$9.2 million for fiscal 1962.

The permanent school fund resembles a huge trust fund—about \$535 million—invested in government bonds and some corporate stocks and bonds. The interest and dividends from these investments go into the available school fund.

Increases in the investments' value and mineral income—such as oil and gas royalties from school lands—are not subject to automatic transfer to the available fund. They serve to increase the permanent fund, which has been growing since 1948 at an average of \$26 million a year.

The Arguments

Advocates of the amendment say it will prevent depletion of the permanent fund by removing from legislators the temptation to dip in the funds to avoid new or higher taxes, which might be politically unpopular.

The argue that mineral income is declining and the day may come when the fund will no longer be growing.

Those opposing it contend the Legislature has used prudently and reluctantly its authority to draw on the permanent fund.

DON'T FORGET!

V-DAY IS TUESDAY! -VOTE!

It is your right as an American to be able to vote; it is your responsibility as a citizen TO vote. Don't let your country down. Go to the polls Tuesday and protect your rights.

They say the lawmakers should be allowed to retain the power for emergency use.

Also, the opponents argue, such revenues as oil and gas royalties should be treated as income for the available school fund anyway.

Number Two

The second amendment is obscure in its wording on the ballot but it is important.

It requires newspaper publication of a legislator's intent to introduce a bill creating or substantially changing a conservation and reclamation district 30 to 90 days before the measure is submitted.

Also required would be delivery of the proposed bill to the governor for submission to the Texas Water Commission for its recommendation, which would go to the governor, lieutenant governor and speaker of the House.

Included in the scope of the amendment is legislation adding land, altering the tax authority or bond issuance authority and

amending the qualification or term of office of the governing board of a district.

Those favoring the amendment say it would be a safeguard against creation of new units of government, with taxing powers, before those affected can prepare and argue a case against it.

They argue that requiring the water commission's opinion will provide expert advice on whether

the proposed district would harmonize with the needs of the area and benefit the statewide water program.

Opposing View

Opponents say adequate notice is already given under a constitutional requirement of 30 days published notice of intent to introduce a local or special bill. They also argue that the amendment would add to the load of an already overburdened water commission.

Number Three

The medical care proposition has received the most attention. It would expand Texas' participation in the federal-state program of medical assistance to the aged under the Kerr-Mills Act of 1960.

Texas already participates in a portion of the act that raised the amount of federal matching funds available for medical care to recipients of old age assistance. Since 1962 the state has paid a monthly group health insurance premium for each recipient plus direct payments to nursing homes.

The program costs about \$30 million a year, with three-fourth of the money coming from the federal government, one-fourth from the state funds.

Medical services authorized by the proposed amendment include fitting of eyeglasses. Eligibility standards for assistance, as well as aid limits, would be set by the Legislature.

The amendment is strongly supported by the Texas Medical Association, which says privately purchased health insurance and the old age assistance program already take care of the medical needs of 72 per cent of Texans 65 and over.

The association says the Kerr-Mills program is preferable to medicare under Social Security, a plan which died in a congressional conference committee after passage by the U. S. Senate.

Opponents say the program would place a heavier tax load on Texas citizens and is not needed. Some argue that adoption of the amendment would be a step toward socialized medicine.

HOW TO GET THE MOST OUT OF YOUR INSURANCE MAN

(or why Campbell-Wilson is an Independent Agent)

1. Give one agent all your insurance to take care of. (Even if one of your present agents is your own brother-in-law.) This is sound business practice. Ask any millionaire.

It relieves you of detail. It means a better balanced program for you. And if one agent bears the entire responsibility for your insurance program, he feels that responsibility more than if he's a part of the crowd. Wouldn't you?

2. Get an Independent Agent, to feel sure you're getting the policy best suited to your needs. He can select policies for you from a wide variety of insurance companies, not just one (Are we crazy? Not a bit. Campbell-Wilson represents companies that deliver real

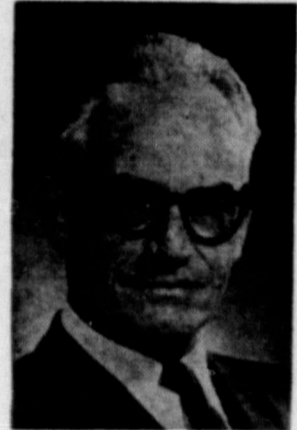

value for your dollar, we're sincerely confident that our policies will their share of the races. After all, the thing you buy when you buy an insurance policy service . . . and that is specialty).

3. Tell your agent you expect a phone call if he has a better buy for you than what you've got.

4. Expect him to put your needs ahead of his commissions. This is easy for Independent Agent . . . needs you.

5. Leave your hands insurance problems on shoulders. That is, when pay, whom to pay, when renew . . . all that appears to be staggering der the burden, get an agent.

REMEMBER—
We're big enough to serve you—
And small enough to want to.

YOU MAY VOTE AS YOU PLEASE ON NOVEMBER 3RD!

There is no legal requirement—no moral obligation

- Regardless of how you have ever voted . . .
- Or in which primary you voted . . .
- Or whether or not you voted . . .
- Or how your poll tax receipt was stamped . . .

YOU CAN VOTE FOR ANY CANDIDATE OF ANY PARTY ON THE NOVEMBER 3RD BALLOT

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

VOTE FOR THE TEXAN WHO LEADS THE FREE WORLD!

For the past eleven months, for the first time in our history, a native son has led our nation and the free world. And every Texan can take pride that President Johnson has met the awesome burdens of the office with courage, wisdom and restraint.

THE ISSUE TUESDAY IS SIMPLE: WHO CAN BEST LEAD OUR NATION IN A TIME OF CHALLENGE AND PERIL?

To which man do you feel most comfortable entrusting the security and well being of yourself and your children for the next four years—

A man who wants to turn back the clock of achievement . . . a man who has worked consistently against progressive measures in the Senate . . . a man virtually untested in a time of crisis?

Or a man who has dedicated his entire life to public service . . . who has demonstrated, under five administrations, progressive leadership in working for a better way of life for all Americans. A man who has proved his courage under fire . . . has demonstrated his unwavering strength to meet any aggressor with firmness, yet restraint?

PRESIDENT JOHNSON HAS PROVIDED RESPONSIBLE LEADERSHIP FOR MORE THAN A QUARTER OF A CENTURY

For almost three decades, President Johnson has been a pillar of strength for Texas and the nation. As Congressman, as Senator, as Majority Leader, as Vice President, and now as Chief Executive, he has written a proud record of progress.

ONLY TEXAN PRESIDENT LYNDON JOHNSON OFFERS THE EXPERIENCE, THE PATIENCE, THE WISDOM, AND THE STABILITY NEEDED BY THE NATION AND THE FREE WORLD IN THESE CRITICAL TIMES!
