Track Team Sets Record At Iowa Park

The Cyclone track team set one new record at Iowa Park Track Meet last Saturday and placed fourth in the overall meet.

Coach Charley Chambless stated, "all the coaches and boys were pleased with our showing at the tough meet."

Setting the new meet record was the Cyclone 440-yard relay team who turned in a time of 44:4 to win that event and clip four-tenths of a second below the previous meet record. For comparison, the 44:4 time is one second shy of the state record of 43:4, but it is possibly the fastest time ever turned in by a MHS relay team.

Members of the team are Hoot Jones, Jimmy Sturdevant, John Ferrel and Jack Stargel.

Jack Stargel won first place in the 220-yard dash with a time of 23.8, and he placed second in the 100-yard dash with a time of

10.1. (He ran two 10-flat times qualifying.)

Hoot Jones placed third in the 880-yard run with a time of 2 minutes, 7 seconds. Jimmy Sturdevant placed 6th in the 440-yard dash with a 56.1, and John Ferrel placed sixth in the broad jump with a jump of 18 feet, 6 inches.

The Board of Trustees of Memphis Public Schools in its regular meeting Monday night, adopted the Superintendent of Schools recommendations for complying with the Civil Rights Act of 1964 and with the recommendations of the Accreditation Division of the Texas Education Agency.

The decision made by the trustees was "at the beginning of school next fall, all students above the fifth grade level grades (six through 12) will attend Memphis Junior High and Memphis Senior High Schools and these seven grades will be discontinued at Morningside School."

The Board decided that for at least one year grades one through five will be maintained at Morningside School and students may continue to attend there regardless of their places of residence within the school district if they desire to so.

Elementary students who live within the present boundaries of Austin Elementary School and Travis Elementary School may attend those schools without regard to race, color or national origin so long as adequate space is available, Supt. Shannon Doss explained.

"At the secondary level (junior and senior high) the Morningside students can be absorbed into the system without creating a housing problem. However, there is not adequate space to absorb the Morningside students into Austin and Travis Elementary Schools at the present time," Supt. Doss said.

"We are trying to solve our school problems as quickly as possible and the outlined program for integration of the two school systems in Memphis is a major step in that direction," stated Mr. Davis.

"On behalf of the Board of Trustees and myself I wish to thank everyone for the patience and cooperation everyone has shown in helping us to solve our problems and provide the best (Continued on Page Twelve)

Chamber Work Outline!

Those who attended the Memphis Chamber of Commerce Banquet recently heard the speaker, President Charles Gibson, present many items where communities fall down in trying to promote progress. He advised several times in his address that leaders need to keep their citizens informed about what projects they are working upon and what is being done toward bettering the area.

At noon Monday, the directors of the Chamber of Commerce met and approved an outline entitled "program of work" for the organizations standing committees. Listed as program of work are 58 items which are divided between the organizations 16 committees.

Before any worthwhile project is ever put into operation it takes a lot of advanced planning, work and study, publicity, more work and revisions, compromises, and sometimes a popular mandate by the people (if bond issues are needed).

Probably the biggest handicap most projects must overcome, if they are to be successful, is the lack of cooperation. It has been observed in past years that projects sponsored by Chamber of commerce organizations in all communities have a much better chance of succeeding than those not sponsored. A good chamber of commerce group does much for its community because of the cooperation citizens give the organization.

Many of the items listed on the chamber's program of work outline are the same ones the organization sponsors each year; however, others are dreams which have been with us for years and someday, through the groundwork and planning being made now, may be reality in the future.

We encourage our readers to read the program of work outline, study the projects listed, make notes for any suggestions which could help, and cooperate with the committees. The committees will be meeting to draw detailed plans for carrying out the projects listed on the work outline. Any help they can get from interested citizens would be appreciated.

Handle Medicine Carefully

There is a right and a wrong way to do everything, including the taking of medicines. Most persons are familiar with the sage advice which has been passed on from generation to generation, but a reconsideration might be in order as new and better drugs are handled in the homes.

This was brought to mind recently when the American Medical Association issued a pamphlet on the matter. The first item says, "When medicine is taken correctly, the exact dose is taken at the proper time under conditions that insure against error." This point is well taken, and should be adhered to faithfully.

Among other suggestions by AMA for taking medicines are the following directions:
Store medicines in a cabinet, preferably locked, away from the reach of children.
Keep only medicines currently in use.
Destroy old prescriptions, because many drugs lose potency or may be chemically changed by time.
Read the label in a good light before opening the bottle or box. Read it again before taking the medicine.
If you have more than one box of pills or capsules to take, be sure one is closed before opening the other. This avoids switching covers, and also labels.
When pouring from a bottle, keep the label up so that any dripping will not soil it and make it hard to read.
When taking medicine at night, be certain that the light is on and that you are wearing glasses if you need them. It is easier to misread and misunderstand labels at night when you are sleepy than when fully awake during the day.
Keep medicines in the original labeled container. If you carry pills in a pocket pill box, identify them with a label. Never put medicines in containers identified with foods.
Avoid using medicine for children which is disguised as candy. Poisoning—or at least overdoses—can occur when children find and take medicine which looks and tastes like candy.

PREPAREDNESS

There's an element of chance in the way a ball bounces. Fortune may not send the ball his way, but the fan who takes his own glove to the game is prepared, just the same.

Being prepared is a good motto in more ways than one. The local merchant, for example, has to plan and look ahead, just to be sure that he has the items his customers need and want. The successful merchant doesn't leave anything to chance. He knows that he can sell only what he has in stock and that folks will

buy from someone else if he doesn't have what they want.

Consider, too, the folks who offer the many types of services every community needs. When something goes wrong about the home or office, with an appliance, or the family car—we like to turn to someone who is prepared to render prompt and efficient service.

Whatever your needs look first to the local business community. You can depend on the man who wants your business tomorrow as well as today.

What Other Editors Say

Move Appeals To State Pride

What Texan hasn't thrilled to the sight of his State Capitol Building as he drew near Austin? It is a most appropriate structure that the monumental red granite structure should dominate the scene, as it has since 1888.

Conversely, it would be most unfortunate if high-rise buildings placed too close to the Capitol should wipe out the long-range view of the stately building at the top of the hill.

Already a few structures obstruct somewhat a view of the Capitol. The state itself built one, the Sam Houston Office Building, which is too tall to be located so close.

Now foundation work is under way on a 24-story structure fronting on Capitol Square. Such a structure not only would completely dominate the skyline thereabouts but would hide the Capitol from view in one direction.

Rep. Henry Grover of Houston has introduced a House concurrent resolution which would direct the State Building Commission to initiate condemnation proceedings for purchase of the site and improvements. The owners would be compensated, of course. The work already done would not be wasted, as the state could then proceed with a low-rise parking garage or office structure.

Austin is a rapidly growing city. Tall buildings will be erected there. But there are other sites available for such structures. The majesty of the State Capitol should be protected.—Houston Chronicle.

For each stage of the syndrome, rest is prescribed. In the early phase, two or three days of rest, followed by two or three days gradual return to activity, may be enough to help one avoid later crises.

If one does not recognize the first warnings and reaches the state of absolute fatigue, three or four weeks or longer may be required with a similar period of gradual return to normal activity.

Joe Bob Barnhill Is Named Football, Track Coach For Turkey High School

Joe Bob Barnhill, native of Turkey, presently employed at the People's State Bank, was named head football and track coach of Turkey Schools last week.

Coach Barnhill graduated from Turkey High in 1951. He played halfback for the Turkey Turks football team squad and his senior year he was named to the All-District and All-Regional football teams. Also, his senior year he set a district record in the 440-yard dash.

A graduate of West Texas State University of Canyon, the new coach majored in physical education. He taught in the Tullia School District for one year but

was called to active duty with the U. S. Army.

While at West Texas, Coach Barnhill lettered two years on the Buffalo team running at a halfback position. He recalled that his best season was when he led the nation in yards per carry averages for six games during the 1953 season.

He is an honorary member of the Tau Tau Tau fraternity, which has now affiliated with a national social fraternity, at West Texas.

Besides football, Coach Barnhill was interested in weight lifting while at college and he acquired many honors in AAU competition.

JOE BOB BARNHILL

In 1953 he won third place at the YMCA Sports Festival in Dallas. He won first place in the AAU meet in 1954, placing in three classes. In 1955 he won the AAU physic competition at Dallas.

In 1956, Barnhill was named runnerup for Mr. North Texas and he also was named Mr. West Texas in weightlifting competition.

Coach Barnhill will replace Coach Jim Wood. He will attend a football clinic at WTSU this weekend.

Coach and Mrs. Barnhill, the former Sue Glass of McLean, have two daughters, Leslee, age 8, and Lisa, age 3.

IN MEMORIAM

Mrs. R. A. Bowerman was born Jettie Pearl Perry on March 24, 1874, in Tarrant County seven miles northeast of Mansfield, Tex. She had three sisters and three brothers.

Mrs. Bowerman was a member of a pioneer family of Tarrant County. Her father, N. B. Perry, came from Carolina to Marshall in 1830. In 1843 he came to Tarrant County where he bought two sections of land. He had a herd of horses but had to leave because of the Indians. He went back to Tarrant County in 1845 and lived and died in the house he built. The first home was a log house, but a few years later lumber was hauled from Dallas and he built a nice comfortable home which still stands today.

Her mother, Margaret Buford Perry, came from Alabama with her family in 1852 and settled in Arlington. Mrs. Bowerman maternal grandmother, Eliza Johnson Buford, was a sister to Co. M. T. Johnson, one of the three men appointed by Major Arnold in 1849 to select a site for a fort and trading post to protect settlers from Indians. This site was the beginning of the present city of Ft. Worth.

County Schools Receive Gifts Of Oil Books

Hall County school libraries were recently presented with volumes entitled "The American Petroleum Industry", compliments of Texas Mid-Continent Oil and Gas Association.

The two-volume work books were sent to Memphis, Lakeview, Estelina and Turkey Public Schools libraries.

These volumes were distributed as compliments of the Oil Information Committee representing the petroleum industry in Texas.

Each of the volumes is more than 850 pages in length and are sub-titled "1899-1959, The Age of Energy and "1959-1899, The Age of Illumination". Both were written by an outstanding team of researchers on the Economics and History Departments of Northwestern University, Earlham College and Loyola University.

It is felt that these volumes will be of benefit particularly to the science departments of the high schools.

The presentation was made by M. E. McNally, Jr., Hall County Chairman of the Oil Information Committee and is part of a program to supply these volumes to all high schools and junior college libraries in the state of Texas.

Mrs. Bowerman was converted and joined the Baptist Church. She was baptized on Sunday, July 4, 1891. Rev. Walter Reddy was the pastor and that day baptized 63 people.

She and R. A. Bowerman were married on December 25, 1893. They moved to Mansfield in 1905. She was very active in all church affairs and served as president of the Ladies Aid for six years.

A son and a daughter were born to the Bowermans; the daughter died in infancy.

They moved to Hall County in 1916 and settled at Lakeview. Granny Bowerman, as she was known to everyone, was loved and admired by all.

She was president of Lakeview W. M. S. for years, and took part in church and community work until she was forced to retire from active service. She was a wonderful person. Although she's gone, the memory of Granny Bowerman will live on.—Submitted by Mrs. H. W. Spear.

Religious Program Presented At Delphian Club

The Delphian Club met Tuesday, March 2, in the lovely ranch home of Mrs. Sim Reeves. Religion and Spiritual Values was the theme for the day, for which the Prospectus was "The Bible—For a Guiding Light." During the business session conducted by the president, Mrs. C. C. Hodges, plans were discussed for the Santa Rosa District Convention to be held in Memphis, April 1 and 2.

The program was introduced by Mrs. Mildred Stephens, who read the quotation by Sterne, "God tempers the wind to the shorn lamb."

A beautiful meditation was brought by Mrs. Rayford Hutcherson, who read the 23rd Psalms for the basis, and Grace Noll Crowell's variation for inspiration. Mrs. Crowell takes up each phrase of the Psalms and adds her own beautiful interpretation.

Mrs. Joe Bob Browning spoke on the subject, "Men Losing in Ethical Qualities". She began with several thought provoking questions. What is a human being? What is human about a human being? Is being born a human enough to bestow humaneness in a person? Mrs. Browning then stated that these questions should be the concern of every person. Human beings are fast losing the human part of their beings. The essence of a human being is not what he is, but what he may become. The emphasis on machines is leading to a de-emphasis on humans. Man has lost some sense of what it means to live and be human. There are no 10 easy steps for gaining and retaining humaneness. It is something each must find for himself. The supreme test of whether a being has also become a human is how much concern the person has for others.

A very interesting and informative Bible quiz was conducted by Mrs. Hutcherson. Quiz sheets were distributed to each member, who then answered the questions and graded herself. This proved very enjoyable.

Culture Club Enjoys Program On Texas Wed.

Mrs. Clifford Farmer was hostess to the Woman's Culture Club when it met March 3 for its program on Texas.

The meeting was opened with prayer by Mrs. L. G. Rasco. The president, Mrs. Ellis, presided at the business session. Mr. Nat Bradley led the group in the Pledge to the Texas Flag and in singing "Texas, Our Texas."

Mrs. Bob Ayers brought "Texas Art," giving a history of the development of art in Texas. "Early Texans were too occupied with developing material resources following the struggle for independence to have any time for the enjoyment of beauty. For the quickening of art interest, much credit is due the Texas Federation of Women's Clubs in the fostering of art and art appreciation since its organization in 1897," stated Mrs. Ayers. She then discussed several artists. Among these were Henry McArdle, the first and foremost painter of the memorable Alamo and San Jacinto conflicts; Seymour Thomas, portrait painter of San Augustine, Tex.; Julian Onderdonk, landscape painter; Eloise Polk McGuire, outstanding painter of bluebonnets and Mexican street scenes; Miss Aedel Brunet, whose mural painting from "Idylls of the King" were said to be the first in the Southwest; the late Harold D. Bugbee, who moved to the Panhandle in 1912 and was known as the "Cowboy artist who immortalized the Plains in Paint"; Mrs. W. L. Crawford of Dallas, who paints portraits of Dallas notables and who has one of the finest privately-owned art galleries of the Southwest. She has opened this gallery to the public at her home, 3709 Ross Avenue.

"With a professional art school in Dallas, instruction in many large schools, and best of all, the increasing public appreciation, the future of art in Texas is indeed bright," Mrs. Ayers concluded.

Continuing the program with the topic, "Texas Music," Mrs. Clifford Farmer played several numbers on the violin. Included were "Indian Love Call," "Home on the Range," "Yellow Rose of Texas," and "Red River Valley." She was accompanied at the piano by Mrs. Rasco.

Mrs. Jeannette Irons brought "Texas Literature." Classifying

Texas authors, she named humorists, Boyce House, "Texas Brags"; Frank Tolbert, "Informal History of Texas"; and Laswell, "It! Take Texas."

Folkwriters named were Janice Holt Giles, J. Frank Dobie, Frank Goodwin, and Phoebe K. Warner of Claude; poets, Margie Boswell, Grace Noel Crowell, Miss Esta McElrath of Memphis, who wrote "The Golden Trumpet" and who was poet laureate of the Santa Rosa District in 1963. Other local writers are Mrs. Sid Baker, "Yesterday in Hall County" and Miss Virginia Browder, "Story of Giles."

Some novelists named were Garland Roark, Tom Lea, Jo Jeffers, Tom Novak and Al Dewlen of Amarillo, F. McMurty, and Lula Grace Erdman of Canyon.

Moss, Jeannette Irons, Ward Gurdley, L. A. Stilwell, Misses Alma Bruce, Esta McElrath, Sybil Gurdley and a guest, Cindy Bell.

In the clamor for legisla-

of guns more difficult
ens bent on committing
acts. However, it is diffi-
present a case supporting
ation that criminals
be in the slightest deterred
committing holdups or mur-
because the law requires
arms be registered. The

one can be critical of well-
med efforts to suppress
Certainly an increasing rate

of crime and delinquency is one
of the very serious problems fac-
ing the United States. We all
should be thinking about ways
and means of accomplishing the
objective of crime suppression.
But I am convinced that enact-
ment of proposed Federal fire-
arms registration laws would ac-
complish nothing toward this end.
A member of the Texas Delega-
tion, Congressman Bob Casey of
Houston, Texas, has recently in-
troduced a bill providing a man-
datory 25-year penitentiary sen-
tence for anyone using or carry-
ing firearms during any robbery,
assault, murder, rape, burglary, or
kidnapping. Congressman Casey
takes the position that this would
aim the arrow of enforcement at
the criminal rather than at the
piece of steel he wields, yet would
not be an infringement upon the
Constitutional rights of citizens
who employ firearms for legiti-
mate purposes.
President Johnson, in his State
of the Union address, called for
a panel of "outstanding experts
to search out answers to the na-
tional problems of crime and de-
linquency." The President is not
asking for establishment of a na-
tional police force, having repeat-
edly stated that crime is basically
a local problem to be combated
most effectively by local law en-
forcement. But by calling for na-
tional focus on the problem, the
President seems to be hoping to

be helping to arouse citizen inter-
est in stimulating local efforts di-
rected at crime prevention and
control. The panel he will appoint
will undoubtedly be comprised of
law enforcement officers, judges,
prosecutors, criminologists, and
other experts in fields bearing on
crime and its control. The Pres-
ident will ask their recommenda-
tions on specific ways to improve
training of local law enforcement
officers, to put the best techniques
of modern science at their disposal,
to discover the causes of crime
and better ways to prevent it.
In the latest year for which FBI
figures are available, 1963, more
than two-and-a-quarter million
serious crimes were reported in
the United States. The trend con-
tinues sharply upward, with
crimes in the serious category up
10 percent in 1963 over 1962.
Crime is increasing five times
faster than our population. FBI
Director J. Edgar Hoover said re-
cently, "If we are to reverse our
national crime trend, the average
citizen must have a better com-
prehension of its cost in human
suffering and economic loss."

The Memphis Democrat
Dear Sirs,
Thank you for your paper in
the past year. Have enjoyed it
every Monday, as this is the day
I receive mine here in Ventura.
I wish your paper much success,
and a wonderful bountiful crop
this fall. Also a most wonderful
and successful Hall County Pic-
nic in September.
I spent my school days out at
Lodge (Plaska now). Although I
attended school at Pleasant Val-
ley, I lived one mile from Lodge,
yet I walked the two and a half
miles to Plaska. I was in Mem-
phis last November and enjoyed
every minute of it. But I didn't
make it into your nice paper of-
fice. But I'm a Texan yet.
Sincerely yours,
Aura L. Cook

Hall County District News Soil Conservation

It is time for seeding native
grass in the Hall County Soil Con-
servation District. Several farmers
and ranchers have already seed-
ed native grass this year and are
planning to seed native grass this
spring. Some of the advantages
for seeding native grasses are in-
crease grass production, increase
range condition and provide cover
for the land to protect it from
erosion.
Native grasses can be used in
over-seeding native grassland,
soil bank land and cropland that
is planned to be put back to grass.
Native grass can be seeded on
rangeland by the use of a broad-
cast seeded or grass drill in the
existing cover on the ground.
Best results can be obtained by
disturbing the ground when tree-
dozing or grubbing or by use of
a disk or roller-type stalk cutter.
Seeding native grass on soil bank
land is a little different. If the
ground is covered with a pretty
good stand of sorghum alnum or
Johnsongrass, mowing to decrease
competition will obtain the best re-
sults. In cases where soil bank
land or abandoned cropland is cov-
ered with mostly weeds, a dead

litter cover crop such as sorghum
or sudan should be planted the
year before the native grass is
seeded.
The Hall County Soil Conserva-
tion District has equipment avail-
able with which to plant native
grass. This equipment can be ob-
tained through Vocational Agri-
culture teachers and supervisors
of the Soil Conservation District.
Cost-share help may be obtain-
ed for the seeding of native grass-
es through the Great Plains Con-
servation Program and the Agri-
culture Conservation Program.
Soil Conservation Service per-
sonnel assisting the Hall County
Soil Conservation District are
available to help with the plan-
ning of native grass seed mix-
tures, varieties and the amounts
of grass seeds needed.

U. S. Census Bureau Issues Reports On Hall County's 1963 Retail Trade

Hall County's 120 retail establishments had \$9.5 million in sales in 1963 an increase of 24 percent from 1958, the U. S. Bureau of Census has just reported after tabulating data gathered from all firms in the 1963 census of business. The last previous business census conducted by the Census Bureau, an agency of the U. S. Department of Commerce, was in 1958.

Retail trade in the county meant jobs (exclusive of proprietors) for 265 men and women and a yearly payroll of \$728 thousand. In volume of business the county's food stores had sales of \$2.3 million, an increase of 5 percent from 1958. In other retail business—the county's eating and drinking places had sales of \$317 thousand, and gasoline service stations had sales of \$976 thousand.

For the state as a whole, the Census Bureau reported 96,406 retail establishments with sales of \$12,715.4 million, up 18 percent from 1958.

Census reports to be issued during the next few months will give state and county figures on wholesale and service trades, manufacturers and mineral industries.

Figures on number of establishments and sales volume for major types of retail establishments in each county are provided in the printed report: 1963 Census of Business, Retail Trade, Texas, available at \$1.00 from Superintendent of Documents, Washington, D. C., 20402 and at U. S. Department of Commerce field offices.
