Teenage Rally To Be Held At City Park Saturday Night

Local Girl Leaves On IOOF Tour Fri.

Miss Anita Snowdon, Memphis senior, will leave Friday for Dallas where she will join other Texas delegates on the Odd Fellowship's Sixteenth Annual "United Nations Pilgrimage For Youth."

Daughter of Mr. and Mrs. Charles Snowdon, Anita is being sponsored on the tour by the local Odd Fellow Lodge. Mr. Snowdon and son, Fred Allen, will take Anita to Dallas.

Traveling by bus, the group will leave Saturday, June 19, from Irving after a send-off breakfast at the IOOF Hall. They will eat lunch in Texarkana, supper in Hot Springs National Park and spend the first night in Little Rock, Ark.

En route to New York City, they will enjoy a picnic supper at Norris Dam Park, Lake City, Tenn., on Monday night and Tuesday will visit Monticello and Ashlawn at Charlottesville, Va., and spend the night at Fredericksburg, Wednesday, they will visit Mount Vernon and Arlington. There they will visit Washington Estate, Iwo Jima Monument, Arlington Cemetery Tomb of Un-

The Memphis Ministerial Alliance will have their second area-wide teenage rally, Saturday, June 19, at 7 p. m. in the Memphis City Park, it was announced.

The first rally scored such a success that the local ministers felt that one more should be had during the summers.

Kicking off the rally activities will be a barbecue supper. Local pastors will cook and serve barbecue, plus all the trimmings, to all teenagers who attend, the organization promised.

There will be no charge for the barbecue and program, but cold drinks will be on sale at the concession stand operated by the local boy scouts.

The program will follow the barbecue and will be held at the amphitheater. The program will be a genuine "hootenanny" with several singing groups participating. Brad Posey will serve as master of ceremonies.

The organization stated that June 19th is an important date in American history. It was on this date in 1862 that President Lincoln signed the bill abolishing slavery. Since that time, American Negroes have made June 19th a national holiday.

In keeping with this theme, the rally will have a Negro singing group and the entire program will be highlighted by an address by Leon Anderson, who is presently pastoring a Negro Mission Church in South Plains, Texas, and did advanced work in Washington Baptist Theological Seminary, Washington, D. C.

Anderson received his schooling in Klondike, Texas, and served in the U. S. Navy, attaining the rank of Chief Petty Officer, and was retired in Dec. 1964. His last duty station was in Naples, Italy. His father was pastor of Mount Pleasant Baptist Church in Morningside from 1942 to 1946.

Every teenager in this area is invited to attend this rally, the organization said. In case of rain, the program will be held in the Travis Cafeteria.

Billy Cosby Is Named Top Oboe Soloist By State

Billy Cosby, son of Mr. and Mrs. Bill Cosby, was named Outstanding Performer on Oboe at the State UIL Solo and Ensemble Contest at Austin recently, a letter arriving this week informed Band Director Ronnie Wells and Cosby.

The letter, signed by Nelson G. Patrick, State Director of Music Activities for U. I. L. stated: "Congratulations on being named Outstanding Performer on Oboe. You will be interested in knowing that throughout the year this is the final step in competition which has involved some three to five thousand students. It is obvious that you have spent many long hours in preparation for this contest; at the same time, we realize the pleasures, benefits, and satisfactions received from this activity have been very rewarding to you. We are, therefore, pleased to grant you this recognition of outstanding work you have done."

Cosby has accepted a music scholarship from Texas Technological College where he will major in music education.

Other Memphis bandmen competing in the solo division and their rating were: Randy Driver, IV, Rosemary Harrison, IV, Ginger Green, IV.

Big Plane Lands On Newly Paved Runway

After 20 years of working, planning, a saving on the part of the Memphis City Council, a dream of progressive men has become a reality.

Memphis has a paved runway at the Municipal Airport, located in northeast Memphis. The runway got its first major test yesterday afternoon at 4 p. m. when General Telephone Company of the Southwest landed their 10-passenger Lockheed Lodestar on the 3,000-foot runway for a night stopover here.

The plane took off this morning for another big loop of GTC district offices. Yesterday, nine executives of the company arrived on the plane for a budget meeting which is being held today at the Division Office of the company.

Officials of General Telephone Company announced officially this week that everything is ready to erect lights for the airport runway to make night landing possible.

Last winter, President of the Company E. H. Danner, when he was in Memphis to speak at the Chamber of Commerce annual banquet, announced that his company would provide lighting for the runway as soon as it was finished.

Division Manager Mills Roberts stated yesterday the lights were here and ready to be erected. J. D. Tuck, division manager, will be in charge of the erection.

Tuck stated that the lights will be mounted in top of regular airport light stands, and these will

Dogs, Loose Trash, Vandalism Are Chief Problems Of Police

Chief of Police Tomie Tucker this week requested that citizens pay a little closer attention to several city ordinances and to be aware of violations of these ordinances.

"Memphis is in the middle of a beautification program right now, but some citizens are forgetting to take all of the trash to the dump ground," he said.

Over the past several weeks, many piles of trash, which apparently were lost off hauling trucks, have been found on streets leading to the dump grounds," he said.

"This week we found two boxes of scattered trash, one on 13th Street and the other in the north part of town," he said.

The Memphis police chief stated that littering in the City of Memphis is punishable by a fine of not less than \$10 or more than \$200.

Dog Problem

"Memphis has a large supply of stray dogs, or at least dogs without collars and as far as the Police Department can find out, no owners," Chief Tucker said.

"These dogs create both a danger to residents' health and safety because they normally run in packs," he said.

The City Police Department is requesting that all dog owners in Memphis have their dogs vaccinated for rabies and put collars on the animals with the up-to-date vaccination tags during the next two weeks.

After this time, stray dogs (without collars) will be picked up, Chief Tucker said.

In talking about other problems facing the police department, Chief Tucker said that some drivers are exceeding the speed limits.

He said 30 MPH is the speed limit on most city streets, with the square zoned to 20 MPH and the City Park and the streets near the schools zoned to 15 MPH. Also, some motorists are parking too close to fire hydrants. The legal limit is not closer than 15 feet, he explained.

"We have had some vandalism during the past few weeks," Tucker said. He explained that several street lights have been shot out, and safety barricades and flares moved from danger zones and torn up.

Also, a vacant house on the corner of 7th and Harrison had been broken into and furnishings damaged. He said this was only one of several times vandals have entered the house and the department was going to keep a close watch on the property.

Don't Be Confused!

Hall County has been blessed with bountiful rains, but many residents are alarmed about the ever-present danger of funnel clouds, which can appear at any given moment anywhere in the area. All of us should be concerned, because we have seen what a twister can do to a town. The pictures and eye witness accounts of the Hale Center disaster were earth-shaking and should be a lesson to all of us.

Memphis was in the path of three tornadoes that night. Because of this, a tornado alert signal was given. In order for our readers to understand the complete story of our local situation, we will discuss the events of the night of June 2.

Hale Center citizens were alerted by the Weather Bureau and the Texas Highway Dept. of Public Safety 20 minutes before the storm hit the town. The same night, both the Highway Patrol headquarters in Amarillo and the Texas Weather Bureau contacted Sheriff Elmer Neel and reported that a storm cloud, containing three twisters was headed toward Memphis, and if it did not turn, Memphis was in the path.

Sheriff Neel said he was at the City Hall making up his mind to blow the alert when he received the second call from the Weather Bureau stating the storm, at that time was in the Quitaque area, was proceeding toward Memphis. Sheriff Neel blew a long steady blast on the siren to alert residents. Firemen of the tornado watch assembled at the Fire Station, and it was reported that the north siren did not sound because the power was off, so a second alert was sounded to alert the north part of Memphis.

Now, with most of Memphis awake, the telephone at the police station and fire station were tied up by local residents calling to see what was going on, and completely blocked this means of communication. Callers wanted to know if it was a fire or tornado alert. It was raining heavily and Memphis experienced a heavy lightning storm at this time.

The men at the City Hall had to rely on short wave communications with Amarillo to find out the progress of the storm because of the heavy, local traffic on the telephone system. Sheriff Neel stated that the watchers were informed that the system was turning and would pass between Memphis and Estelina and two funnels were still active, one along the river and the other in the Northfield area. Memphis men went out on the highways south of the city to try and spot the funnel cloud and report its progress.

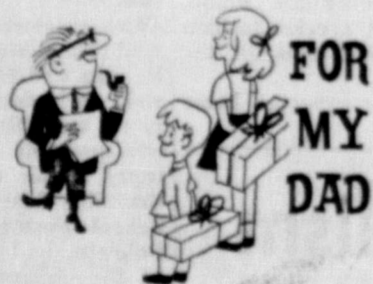

Sheriff Neel said the men found and sighted the funnel within a mile of where the Weather Bureau reported their radar was tracking the system.

Citizens of our town were awake, many were in cellars or outside watching and listening, alert to the possible danger. These were the smart ones. Others possibly heard the siren blow once, then again, and thought it was a fire and went back to bed. Others called, and called, and called, trying to reach the City Hall to see what was the matter and these presented a haard to the whole town because these facilities are needed by the Weather Bureau and the Highway Patrol to contact the City for official warnings and reports of the storms movements, and to rush aid to the area if it is needed. WARNING . . .

NEVER CALL THE FIRE NUMBER AT THE CITY HALL UNLESS YOU HAVE A FIRE TO REPORT!!!

The purpose of any siren warning, fire or otherwise, is to summons the official firemen and to alert the town. When the siren blows, you have been alerted, that is all the officials can do. It is up to each citizen to find shelter and watch for possible funnel clouds.

The City and County officials have stated many times the alert signal is a long, steady blast on the siren. There is no all-clear signal, and, if more than one signal is sounded because of electrical trouble in one siren or the other, residents should be doubly alert.

Have you decided on something for YOUR man-of-the-hour come Father's Day? Don't panic. There's time. Father's Day happens next Sunday.

Don't have any ideas? Don't worry. Help is near at hand. Pick up the phone and call your nearby local merchant. Better yet, pay him a visit. He isn't very far away and he is sure to have some helpful ideas and suggestions.

Have something particular in mind? You can get it, at a good price, in the local business community. Merchants who do business in our town make it their business to have the things the community needs and wants. Most of them have been serving local customers for many years.

Whatever your needs, a gift, something for home or office, look first to the local business community. You'll always be glad you did.

What Other Editors Say

Taxes . . . And Newton's Law

The federal government, under this present Democratic Administration, is making some effective efforts to apply the law of gravity to the federal tax structure . . . and to disprove a long-held theory that taxes which go up never come down.

Repeal or reduction of the federal excise taxes on "luxury" products . . . such as jewelry and luggage, playing cards and automobiles, business machines and air conditioners, cameras and film, freezers and musical instruments, and a long list of others . . . is graphic evidence that Newton's Law has become Johnson's as well.

All of these so-called "luxury" taxes are a legacy of wartime, . . . World War II-time as a matter of fact, which means that they've outlived their initial purpose by twenty years, and that's "two-timing" with a vengeance. Initially, the excise taxes were enacted not so much to raise the revenue as to discourage consumer spending for items made with vital war materials . . . but they proved so effective as revenue measures in the past-war years when their restrictive function was no longer needed that Congress has been un-

derstandably reluctant to let go.

The view of the Johnson administration is that the weight of excise taxes on a broad range of consumer goods which are no longer considered "luxury" items in America has also tended to hold down consumer spending . . . thus acting in restraint of trade. So it is that President Johnson is not only applying Newton's law of gravity to the tax structure, but is hopefully attempting to apply another law of physics to the national economy . . . the one that declares that for every action there is an opposite and equal reaction. The hoped for reaction, in this case, is that sales will go up as taxes come down . . . and the general boom in the national economy will replace the government's tax losses from other sources.

Predictably, many of the extreme right-wing critics of the federal government who have been most bitter in their denunciation of "confiscatory" taxes are just as critical of this tax reduction program . . . viewing it with their customary alarm and distrust as a further evidence of the Communist influence which is undermining our government. We

suspect that the only thing which would ever satisfy this group, which nothing good in democracy or Democrat, would be the total destruction of government as we know it.

But we also suspect that the right-wingers are going to find that it's about as hard to repeal Johnson as it would be to repeal Newton. — The Canadian Record.

Around and About

By HELEN COMBS

Sunday, June 13, was a memorable day for members of the Presbyterian Church of Memphis . . . many former members of the church were here to help observe the 75th anniversary of the church, also, numerous local residents attended the program Sunday afternoon and the fellowship which followed at the Community Center.

A most interesting display of pictures, church bulletins and other printed materials of historic value were on display. Among the display of pictures, Mrs. C. W. McCool of Dumas found a picture of her daughter which she had not seen before . . . one not in their family album . . . perhaps many other persons found pictures of much interest to them, too. The pictures were collected for display from numerous local residents, Rev. Avery stated. In fact, many persons loaned pictures for the display who were not members of the church, and we want to thank them for helping, he stated.

Local Scout leaders and Boy Scouts of Troop No. 35 glowed with pride . . . and rightly so . . . as they were presented with the highest camping award at Camp Kiowa last week. The award was made for the most points earned by an entire troop. Troop No. 35 was the only troop attending the camp to receive this honor. Several troop members advanced in rank and several others received merit badges during the week, Les Sims, Scoutmaster, stated. It was about one of the best camps we have ever had, he added.

Miss Tanga Neel, winner of the Miss Hall County title in the annual contest sponsored recently by the Memphis Jaycees, and the runners-up, Miss Sarah Holland of Estelline and Miss Lynn Philpot of Memphis, appeared over TV last week. They were featured on the Cotton John program over KGNC Saturday afternoon, and numerous local residents enjoyed seeing the program.

After five weeks of remodeling . . . we can see the end in sight. Those TV dinners were good at first, but must admit we will enjoy something different in the food line for a change when the pots and pans are unpacked. If you have never lived in a house during a remodeling job, then you have missed something! We wouldn't say it was something that you couldn't live without . . . but it is enlightening. It's even exciting as so many people come around and it's interesting at the end of each day to see just what has been accomplished by the carpenters.

Each trade has its own problems . . . and we have learned there are quite a few in the construction field the same as in the printing and publishing business. It's interesting to learn about some of these things . . . it takes a lot of know-how to build, we

have decided . . . in fact it looks so easy when it's all erected, but there is so much tedious work and detail in getting it all together! For one who can't drive a nail, it's been interesting to have a day by day front seat . . . and nice to have workmen who will answer patiently all questions!

From chatting with friends, we have learned they would like for us to publish a favorite local recipe each week. This week, we are bringing you a favorite recipe of Thelma Durrett. She says the Milky Way cake is delicious and will keep fresh for days . . . in fact, it's the favorite dessert she bakes when her daughters and families come for a visit.

Milky Way Cake
Heat in pan over low heat 8 Milky Way bars and one stick oleo, set aside to cool. Cream 2 cups sugar, one stick oleo, add 4 eggs and beat. Add alternately to this mixture 2½ cups flour and 1¼ cups buttermilk to which has been added ½ teaspoon soda. Add melted candy and oleo mixture and one cup chopped pecans. Bake in three 9-inch pans at 350 degrees for 35 to 40 minutes or until center springs back when touched. Do not over cook.
2½ cups sugar
2½ cus sugar
1 cup Carnation milk
Cook to soft ball stage, stir in until all are melted 6 oz. package chocolate chips, one stick oleo and 1 cup Marshmallow cream.

YOUR PHARMACIST SPEAKS

By BILL LOCKHART
The home medicine cabinet provides a great source of relief for many ailments, but it can, if unwisely maintained, cause no small amount of grief. Unfortunately, some cabinets hold poisonous articles within the reach of small, curious hands. Then, too, there is always the likelihood that an adult will carelessly, or accidentally pick up a wrong bottle and have the makings of an unfortunate accident.

If there are youngsters in the household, be careful where you store drugs, candy-coated aspirin and household poisons. As for the adults, make it a practice to read labels carefully when seeking relief in the medicine cabinet.

It is a good idea, also, to make it a practice to trade where prescriptions are a specialty. Dear Sir: The members of the High School Class of '65 recently stopped here at The Spa for a few moments. Today I received a token of appreciation from them for what I thought of as only a small favor. Because school is out and I am afraid that they may not all see my letter to them I express through your columns my sincere thanks for their thoughtfulness. Only very nice persons would take the time to do as they did. Your people of Memphis should be very proud of your young people and the teachers who guide them.

Keep Burlap Bag Handy If you're in a fishing tournament and catch a fish you think might win a prize, rap it in a wet burlap sack. A fish can lose as much as 10 per cent of its weight drying out.

Use For Cheese Cloth Fresh beef liver makes a good catfish bait. But it is difficult to keep on a hook. Try wrapping the liver in cheese cloth. Fibers absorb the blood and blend the liver but hold the bait together.

Lock Makes Gun Safe A common lock can make a gun safe. Get one with a U-shank big enough to prevent the trigger from having enough room to be pulled back and fired. Then lock it in place.

Ready-Made Grate A shelf from an oven or old refrigerator makes a fine campfire grate.

Prevents Flying Scales If you must clean fish at home, try inserting fish in large plastic bag before scaling. Clear bag allows you to see what you are doing, but loose scales can't escape.

Warm Boots Shine Best When applying dressing to your hunting boots, heat inside of boot with hair dryer. Warm boot takes dressing much more readily than cold boot.

Quick Pressing Job Clothes get wrinkled in department store. If you need a quick press in motel, hang your clothes in shower room, then turn the shower on hot. Steam heat fills room and relaxes the wrinkles.

Waxed Line Works Smoother Run your spinning line over block of wax if you want to make it skim through rod guides easier.

Good Motor Cover An old long-sleeved shirt makes a good cover for outdoor motor. Button shirt and slip it over power head. Tie arms underneath to hold cover securely in place.

Stops Sinker Sliding Stretch a thin rubber band against your line before adding pence-on sinker. Cut the rubber band away after catching. Sinker will stay put.

Use Spoon To Make Lure If you're on a camp-out fishing trip and fish are hitting but you run out of lures, here is one answer to your problem. Take an ordinary table spoon and drill a hole in the handle, one in the cap of the spoon. Tie with a piece of string tie in treble hook to the lip of the spoon. Tie your line to the hole in the handle. Make a few practice casts, then bend the spoon to provide the right action.

Many Former Members Return Sunday for Presbyterian Church Observance

Many former members of the Presbyterian Church returned to Memphis Sunday to attend the anniversary celebration. Former members and old friends had a day of reviving past memories and warm fellowship together.

At the morning worship service, the Rev. Richard Avery, pastor, gave an appropriate message on the occasion. Special music was presented by a trio composed of Larry Helm, Jerry Beasley and Cosby.

In the afternoon, the members and out-of-town visitors enjoyed a fried chicken luncheon catered by Mrs. Deaver at the Community Center. Following the luncheon, the members visited and enjoyed reminiscing and inspecting the display of photographs, bulletins and other printed materials which had been collected by members during the 75 years since the

church was founded in Memphis. At 2 p. m., the group returned to the sanctuary for an informal afternoon program of singing, highlights of church history and excerpts from the many letters and telegrams received from former members and pastors who were unable to attend.

John Deaver served as master of ceremonies. Virginia Browder gave the church history and Gertrude Rasco read the letters and telegrams. Rev. Avery was in charge of the memorial part of the program. The Rev. Baldwin Stribling of the Clarendon Presbyterian Church assisted.

Concluding the observance, members and guests enjoyed a special hour at the Community Center. Punch, coffee and assorted cookies were served by Mrs. John Deaver and Mrs. O. L. Helm.

Among out-of-town visitors registering were Mr. and Mrs. A. C.

MRS. JAMES REGNALD CURRY

Carolyn Trail Becomes Bride Of James R. Curry In Kaufman Rites

Miss Carolyn Trail, daughter of Mr. and Mrs. Louis E. Trail of Kaufman, became the bride of James Reginald Curry, son of Mr. and Mrs. Herbert R. Curry of Memphis, on Friday, June 4, at 2 p. m. The Reverend James Glenn officiated for the ceremony in the sanctuary of the First Methodist Church in Kaufman.

The altar was decorated with a prie-dieu against a background of palms and huckleberry. The improvised altar held two branches of candelabrum consisting of seven candles each.

Mrs. Edna Kendrick was the organist. She accompanied Mrs. Louise L. Klinglesmith of Kaufman as she sang "Ah, Sweet Mystery of Life" and "Because." The hymn song "Oh Perfect Love" was sung as the bride and groom sat on the prie-dieu.

The bride, given in marriage by her father, wore a chapel-length gown of Chantilly lace and nylon tulle over satin. Iridescent sequins enhanced the scooped neckline and the bouffant skirt ended in a chapel train. Her fingertip veil of silk illusion was caught to the crown of tulle leaves and she carried a bridal bouquet of an orchid showered with white satin streamers. The strand of cultured pearls which she wore was a gift from the groom.

Miss Dianne Trail of Kaufman, sister of the bride, was maid of honor. She carried a long stem rose.

Ronald Thompson of Lubbock served as best man. Ushers were Newt Trail and Robert Trail of Kaufman, Robert Gardner of Memphis and Don Gregor of Fort Worth.

Candles were lighted by Robert Gardner of Memphis and Don Creager of Fort Worth.

For her daughter's wedding, Mrs. Trail chose a pink two piece ensemble of Chantilly lace with white accessories. The groom's mother chose a beige dress of Irish linen, accented with a wide brim hat and beige accessories.

Immediately following the ceremony, a reception was held in the community room of the Farmers and Merchants National Bank. The bride's table was laid with a white mid-length, linen cut-work cloth with an arrangement of white elf rose buds featured in the center of the table, with silver candelabrum on each side holding tall tapers. The tiered wedding cake which was topped with the traditional bride and groom under an arch of lace highlighted the table.

Mrs. John Feldt of Houston, sister of the bride, presided at the register table which was decorated with an arrangement of pink and white carnations on a linen cloth.

Miss Kay Evans of Kaufman passed the pink and white rice bags which were the chosen colors of the bride.

Others in the house party were Miss Carolyn Cotes, Miss Linda Phillips, Miss Janet Trail, Mrs. Roy Ferrell and Mrs. John Trail III, all of Kaufman.

For going away, the bride chose a silk beige sheath dress with petals surviving over the neckline of a sleeveless jacket. Her accessories were of black kid.

The bride is a senior at the University of Texas where she is majoring in elementary education. She will receive her Bachelor of Science degree in May, 1966.

The groom received his Bachelor of Science degree in physics from the University of Texas where he was a member of Phi Beta Kappa, Phi Eta Sigma, Sigma Pi Sigma and Phi Kappa Phi.

In the fall he will enter the University of Texas graduate school where he will do graduate work in nuclear physics.

After a short wedding trip, the couple will be at home at 1503 West 32nd Street in Austin.

Memphis Rebekah Lodge No. 346 Observes 57th Anniversary

Memphis Rebekah Lodge No. 346 observed its 57th anniversary after a regular meeting held on June 14. Preceding the meeting, a lovely salad supper was served. Immediately after the meeting, there was a short program on the 57th anniversary. The minutes of the first meeting were read and Mrs. John Smith, program chairman, also read several interesting items from the minutes of other sessions.

The lodge was instituted on May 26, 1908, with Miss Flora Arnold as the first Noble Grand; Mrs. Annie Houghton, Vice Grand; Mrs. W. F. Gammage, Secretary, and Mrs. Eula Trulove, Treasurer. There were nineteen charter members.

The difference in the manner the minutes were written in the early years of the lodge and the present time was noted. Several highlights of the earlier meetings were discussed.

In the anniversary speech, Mrs. Smith stated, "We are glad there was a Thomas Wildey who had the courage and devotion to found Odd Fellowship in America on April 26, 1819. We are thankful there was a Schuyler Colfax who fought hard to give us a Rebekah Degree in Odd Fellowship and that he was the author of the Ritual of the degree." The anniversary prayer was given by Mrs. Ellis Rogers.

A Memorial Service was rendered after the anniversary portion of the program. Since it was impossible to call the name of each member and the year in which they passed away, they were honored in memory by years as follows: 1908-1918; 1918-1928, 1928-1938; 1938-1948; 1948-1958, and from 1958-1964. Separate portions of the service were in memory of Mrs. Sally Blanks and Frank Van Pelt, who were deceased since the Memorial Proclamation was issued

last year. A short history of their lives in the Order was given. Those taking part in the Memorial Service were Clo Rogers, Sarah Kilgore, Ora Ritchie, Edna Merrill, Estelle Barber, Ann Lewal-lan, Louise Snider, Eula Moreland and Marguerite Smith.

Immediately after the Memorial Service, Mrs. Leta Gerlach led the members in an Obligation Ceremony. The links of a chain, which is the emblem of Odd Fellowship, was used in the ceremony.

The highlight of the program was the presentation of a 50-Year Rebekah Veteran Jewel to PNG Florence Paschall. Marguerite Smith made the presentation speech, but the honor of pinning the jewel on the honoree went to Mrs. Betty Scott of Amarillo. Mrs. Scott is the youngest daughter of Mrs. Paschall and is a member of Memphis Rebekah Lodge. Another surprise for Mrs. Paschall was the presence of Mrs. Becky Bruce of Memphis, who is also a daughter of Mrs. Paschall. Mrs. Bruce made pictures of Mrs. Scott pinning the jewel on their mother.

In the presentation speech, Mrs. Smith stated that the 50-Year Veteran Jewel is given only to those who have earned the honor of receiving it, through at least 50 years of service. Mrs. Smith said, "May it bring you the satisfaction because of a task well done, and a warmth to your heart because of the friends you have made along the way. This jewel is merely the visible symbol of a goal you have reached, one to which you have looked forward during the 52 years you have been a member of our Order. That you have attained this goal reflects great credit on you and our lodge. It is an honor to present it to you in a spirit of Friendship, Love and Truth." In an acceptance speech, Mrs.

Wesleyan Service Guild Meets In Gidden Home

The Wesleyan Service Guild of the First Methodist Church met on Monday, June 14, at 7:30 p. m. in the home of Mrs. Arthur Gidden, Jr.

The president, Mildred Gidden, called the meeting to order, followed by prayer by Lillie Messer.

The program for the evening was introduced by the president, Mildred Gidden, followed by a review of "What the Guild is and the purpose of the Guild in the Methodist Church." She then gave a report of her duties as Guild President, then asked each officer and committee chairman to report their duties for the ensuing year. After the report of officers and chairmen, the meditation, "What Is That In Thine Hand?", was given by Mildred Stephens. The meeting closed with a prayer from the president.

The hostesses, Mildred Gidden and Betty Johnson, served refreshments to the following: Ola Gowan, Dorothy Gowan, Hester Bownds, Mildred Stephens, Mildred Spicer, Lucille Burnett, Pauline Wynn, Mazine Phillips, Viola Morris, Lillie Messer, Ethel Driver, Brunetta Morris, Mabel Lavender, Elsie Gidden, Sophia Stillwell, one new Guild member, Cora Belle Alexander, and guest, Mrs. David Hamblin.

Paschall thanked the lodge for the honor and told of some of her past experiences in attending lodge meetings.

During a short business session, Mrs. Alla Boswell, secretary, read the minutes of the previous meeting. Reports were also given by the treasurer and group captains.

Mrs. Pedersen then gave a report of the Southern Baptist Convention.

The meeting was dismissed by Mrs. Crabb.

Coffee and cake were served by Mmes. Baskerville, Boswell, Nett, Crabb, Pederson, Wason Barret and a guest, Mrs. Peabody.

Baptist Church To Observe 75th Birthday In Sept.

Elaborate plans are being made for the 75th Anniversary of the First Baptist Church of Memphis, it was announced this week.

It was in 1890 when a small group of sincere Christians met and perfected plans for the organization of this great church which through these 75 years has grown from 14 charter members to a membership of more than 1200 members.

During these years many far-reaching events have occurred under the leadership of twenty-one pastors. Nine of these former pastors are still living and they, with all former members and friends of the church, are invited to be present for this highly significant occasion.

The dates have been set for Sept. 12-15, 1965. For the Sunday morning and evening services on Sept. 12 and on Monday and Tuesday evenings, these former pastors will be invited to speak. On Wednesday evening, Sept. 15, a pageant will be given depicting episodes in the colorful and outstanding history of these 75 years.

Open house will be held on Sunday afternoon, Sept. 12, from 2 until 5 o'clock where members, former members, and friends can meet in fellowship and reunion.

The following committee members are working out and perfecting these plans: Byron Baldwin, chairman; Miss Esta McElrath, Miss Clara Pyeatt, Mrs. Emma Baskerville, Wendell Harrison, Mrs. Clifford Bradshaw, Mrs. D. L. C. Kinard, Cliff Pedersen and Rev. Gene Jorgenson.

Local Residents View Astronauts Return To Houston

Dr. and Mrs. J. W. Fitzjarrald and Mrs. Reba Strohle recently returned from Houston where they spent several days visiting with their daughter and granddaughter and her husband, Mr. and Mrs. Marvin Smith.

While there, they were privileged to see the president, Lyndon Johnson, welcome the astronauts back to Houston. Mrs. Smith is an employee of the Astronaut Space program in Houston and it was through her office that they were able to attend.

While there, they also enjoyed attending the Bringland-Barnum-Bailey circus at the Astrodome. Mrs. Strohle plans to leave Monday for her summer cottage in Colorado and will be gone for some time.

Winners Named In Scotch Tourney At Country Club

Final rounds in the Man-Woman Scotch Golf Tournament were played at the Memphis Country Club this past weekend. Three flights of players entered the tournament.

Jack and Wilma Norman defeated Mack and Lena McNally to win the first flight. Consolation went Mackie and Terry Allen, who defeated Dink and Yette Miller.

Ira and Via McQueen defeated B. B. Gibson and daughter, Cathy, to win the second flight. Consolation went to Wanda Webster and Roge Fowler. They defeated Gene and Owen Lindsey.

Lester Campbell and June Leary were winners in the third flight. They defeated Alan McNally and Jane Helm.

Hattye Dem Thompson and Dean Bennett won consolation prize.

A putting contest and dinner at the Country Club Saturday night, June 5, launched the tournament. Jack and Wilma Norman won the contest and Lena McNally and son, Alan, were runners-up.

Mr. and Mrs. Raymond Martin and Danny and Terri returned home Monday after enjoying a week's vacation which took them into five states. They toured Texas, New Mexico, Utah, Colorado and Arizona and visited many scenic points of interest including Grand Canyon and Mesa Verda National Park in Colorado.

Jay Dunbar Is Playing In T-O Golf Tourney

Jay Dunbar, who is in Wichita Falls this week competing in the ninth annual Texas-Oklahoma Golf Tournament, shot a 68 Wednesday—just one stroke behind Tom Wright of Dallas, who captured medalist honors with a smooth four-under par 67.

Dunbar was in line for a tying 67 until the 16th hole when he slipped to a bogey on the five par. His nines of 34-34 showed great consistency.

There are 355 entries in the tournament.

The championship flight will play 18 holes Thursday (today) and Friday at the Country Club, shifting back to Weeks Park for a 36-hole Saturday final. At the half-way mark, there is a cut that will eliminate half of the field of 66 that qualified.

Rains Interfer With Baseball Games This Week

Rains this week interfered with the play-off of several games in the summer baseball leagues. The farm teams are the only teams up to schedule.

The Yankee won a 10 to 9 decision over the Giants in Little League action to keep in first place. The Indians downed the Tigers 7 to 4 in the second game last Friday.

Tuesday night, the field was too wet for the Little League games to be played.

Farm Team
Monday night, the Giants downed the Indians, 6-2, to win a decisive victory and remain in the undefeated column. This was the Indians' first loss.

In the other game, the Tigers beat the Yankees, 4 to 3.

Senior League
The senior league is having its troubles finding a dry evening to play. They were rained out again Saturday night.

Last Thursday night, however, the Dodgers defeated the Cardinals by a one-sided score of 19 to 2. The Braves downed the Astros 5 to 3 in the second game.

Summer Band Program To Start Monday

MHS Band Director Ronnie Wells announced this week the beginning of a summer band program, which includes everyone.

Monday, a beginners' program for students who will be in the sixth grade this fall, or above, will begin. There will be different practice sessions for different instruments, it was announced.

Beginning at 7:30 p. m. Thursday, June 24, at the band hall, open practice sessions for different after, a reading band will assemble.

"We are calling it a reading band because anyone, regardless of age, who can play an instrument and read music can attend the rehearsals," Director Wells said.

He explained that several grownups have expressed interest in playing their instruments in a band this summer, along with the school age musicians.

Musicians don't even have to be residents of Memphis to play in the band, he explained.

"We will have the music out on the stands and will work on each piece individually, beginning with the easier music," he said.

Naturally, he said, the junior high and high school band musicians who would like to play in the band can keep their lip in shape during the summer vacation.

Mr. and Mrs. D. B. Kennedy, Mrs. Bob Ayers and Silua have returned from Springlake, La., where they visited with Mr. Kennedy's brothers, Mr. and Mrs. C. W. Kennedy and family and Mr. and Mrs. Mann Kennedy. They also visited in El Dorado, Ark., with Mrs. Kennedy's sister, Mr. and Mrs. J. J. Cottrell and family.

While there, they enjoyed attending a family reunion of Mrs. Kennedy's family... the Hugh family.

Jimmie Ashford of Crowell was a Tuesday night visitor in the home of his brother, Mr. and Mrs. Henry Ashford and Peggy.

Hubert Jones Accepts NTSU Track Offer

Hubert "Hoot" Jones accepted a track scholarship to North Texas State University, effective this fall, it was announced this week by the university.

The final papers were signed last weekend.

Jones, the Memphis High 440-yd. dash man who turned in a fine showing this spring at the state meet, running a 49.4 to place second, holds the fastest Memphis track time for this event in the school's history.

The son of Mr. and Mrs. Hubert Jones, Hoot, as he prefers to be called, was active in football, basketball and track during all four years of his high school career.

He did not announce what he will major in at North Texas State.

Coach Winston (Pop) Noah, the track coach at North Texas State, announced the track team would begin workouts on Sept. 22 after the fall semester begins Sept. 12.

learn in my own shop—for 62 years many ideas came to mind, and it has been hard to keep up with new things about newspapering which, like other business establishments, advances too rapidly. It is a rat race in the present age to reach the moon. In the early days, nearby editors gave me a lot of help. One of the things they told me was to use as short words as possible, and as few long words. . . If I had tried to fill my paper with long words and sentences in writing news, my time would be taken up in wearing out a lot of dictionaries—and many readers would get disgusted in trying to find out what was meant in each article. . .

Glen Shelton, Record News Hired Hand, in writing for his newspaper, says he dotes in words, gets a bang out of language, considering it a fascinating and versatile conveyor of thought; always uses proper words, short or long, in writing a newspaper story, as also short, simple and to the point. Friend Glenn knows his onions in reporting.

A few years ago, Tim and Cora Ethel Pausel of Fort Worth donated seats for City Park, provided people here would paint and keep them in good repair. This was done, and now the seats need painting. In September, a lot of visitors will be here and the seats will be used. What about it?

ignated the Memphis Municipal Airport.

Many plans were introduced to pave the airport's runway, but had to be rejected due to inadequate funds to meet the cost of the project. However, over the years, the city father sets aside airport construction and maintenance funds which eventually amounted to enough to pay the city's share of cooperation with FFA funds.

During the past two years, in order to meet the 3,000-foot requirement set up by FFA as the shortest runway length, the city had to purchase some additional land.

Last summer, the city let the contract to construct the runway, but due to adverse weather conditions in the fall, paving had to be postponed until this spring. The runway was completed two weeks ago.
