## Two-Car Wreck Takes Lives Of Mother, Son

The Memphis Fire Department, ambulances from Spicer's and Law Enforcement Officers from Hall and Donley Counties and Highway Patrolmen rushed to the scene of a two-car wreck about four miles northwest of Memphis on Highway 287 shortly before 3 a. m. Monday.

The Arnold car burst into flames shortly after it came to rest on the southwest shoulder. Mrs. Arnold was burned beyond recognition, however the other passengers of the car either got out or were removed before they received burns.

Passengers in the other car, a 1960 Chevrolet containing eight members of the Albert DeLossantos family from Crowell, escaped without serious injuries. Only one member, an 18-year-old, was treated in the emergency room at Hall County Hospital. Others were examined and released.

Also in the car was a friend of the family, Dolores Williams. All four were held in Hall County Hospital, where they were treated and then released to members of the family the next day.

## Walter Rogers Withdraws From Congress Race

"The great wealth of able and qualified individuals of the true American tradition in the Pan-handle of Texas should enable the Democratic Party to choose another nominee for this position in accordance with the law, and in ample time for such nominee to conduct a highly successful campaign," Rogers said.

### Texas Motorists Now Driving Under New Auto Insurance Penalty Plan

Texas motorists, beginning Sunday, Aug. 1, started driving under the new Texas Auto Insurance Penalty Plan as announced by Wm. Hunter McLean, Chairman, State Board of Insurance.

A year from August 1, Texas motorists who keep out of accidents and are not convicted of speeding or of major traffic law violations will begin paying less than careless drivers for their auto insurance, according to the announcement.

"We are advising all Texas motorists that how they drive after August 1, 1966 will be reflected in August 1, 1967 insurance rates," Mr. McLean said. "Penalty points will be charged for accidents, speeding and major violations occurring after midnight of next Sunday. One penalty point will increase a motorist's premium for liability, medical payments and collision insurance by 15 per cent. Two points will mean an increase of 35 per cent, three points, 60 per cent and four points of 90 per cent. These penalties will apply on insurance written after August 1, 1967."

"Many Texas drivers have complained about the fact our present system makes safe drivers pay for the accidents of unsafe motorists. The State Board, in response to many requests of this nature, has devised this program that we call the 'Texas Driving Insurance Plan,'" Mr. McLean stated.

"Because the Plan is not retroactive, it will require time to take full effect. Texas motorists and law enforcement officers should not expect early results. Patience, firm law enforcement and other measures designed to promote traffic safety will be needed for meaningful results," McLean added.

#### Point System Explained

Under the new Plan, one point is assigned for each automobile accident resulting in bodily injury, death or property damage in excess of \$50.

There are twelve exceptions to this rule. The exceptions include accidents in which the driver is not at fault.

Speeding penalties begin with the second conviction within the latest 12 months period prior to policy date or the third conviction within 36 months prior to policy date. One point is assigned beginning with the second or the third conviction.

No more than four points will be assigned for all causes.

Penalty point assignments for speeding, in effect, allow drivers either one or two penalty free convictions, depending upon elapsed time between the convictions, and stop short of the seven convictions which cause action to suspend driver's licenses by the Department of Public Safety.

Three points will be assigned for conviction of: (a) driving while under the influence of intoxicating liquor or narcotic drugs; or (b) failure to stop, render aid, or disclose identity when involved in an accident; or (c) negligent homicide, murder by driving while intoxicated or aggravated assault arising out of the operation of a motor vehicle; or (d) any offense punishable as a felony under the motor vehicle laws of this State.

Two points will be assigned for conviction of: (a) driving while license suspended or driving without a valid driver's or operator's license in force and effect; (b) any other moving traffic violation as a result of which an operator's or driver's license was suspended or revoked.

The Driving Insurance Plan is not retroactive as only accidents and convictions occurring after August 1, 1966 will be considered when the Plan becomes effective August 1, 1967.

Eventually, a 3-month driving record will be considered but this will not occur until 1969.

#### Safety Implications

"During the past few months many editorials, numerous civic leaders and police chiefs have urged that something be done about our State's escalating accident record. The Driver Insurance Plan can assist in putting the brakes on our State's disgraceful traffic toll," Chairman McLean said.

Noting that convictions of the major traffic offenses are the only violations that will earn penalty points, Chairman McLean emphasized that 39 per cent of the fatal traffic accidents in Texas last year involved drivers who had been drinking and that 42 per cent of the fatal traffic accidents involved speed too fast for conditions. Eleven per cent of all fatal traffic accidents involved drivers who did not have a valid driver's license. Conviction of these violations, after August 1, will earn

penalty points for the guilty motorists.

#### Make Own Rates

There are 26 automobile liability, medical payments and collision rating territories in Texas. Sixteen of those territories are individual counties. Drivers living in each territory make their own rates for this type of insurance.

Increased insurance premiums caused by the assessing or penalty points within a territory will be credited to reduce premiums in that territory. In this way, drivers paying the penalties will help to reduce the premiums paid by drivers with clean records.

"The degree of uniformity of law enforcement within a territory under this Plan is a matter for local determination. Good or poor enforcement in one territory will have no effect on rates in other territories," McLean concluded.

### Cotton Nominated No. One Choice For Schoolwear

Mothers have nominated cotton as the number one fiber for children's schoolwear.

This preference is indicated in a national survey by the U. S. Department of Agriculture of more than 2,400 mothers of children between the ages of 1 and 13.

The mothers were asked their fiber preferences and reasons for their preferences in selected items of children's clothing.

Seven out of 10 stated a preference for cotton for girl's school blouses and 8 out of 10 preferred cotton for schoolboys' sport shirts. The major reasons cited for picking cotton for these two uses were appearance and launderability.

Seven out of 8 mothers picked cotton as their preference for their sons' school pants, while 4 out of 10 preferred corduroy and other cottons for their daughters' school skirts. The second-ranking fiber in the school skirt category drew the votes of one out of 4 mothers.

Both corduroy and other cotton were credited with being long-wearing and easy to care for in the school pants category; corduroy also scored heavily for warmth. Cotton rated well for skirts on appearance and washability. Corduroy has the additional advantage of warmth.

In girls' slips, more than 60 per cent of the mothers preferred cotton, while 3 out of 9 preferred cotton for their daughters' dress-up dresses. Durability and ease of washing were the major advantages cited for cotton in these categories.

The mothers were asked also if they had any criticism of their preferred fiber. Among those who preferred cotton, comparatively few—between 15 and 18 per cent—voiced any objection to the fiber, while 45 per cent of those who chose the second-ranking fiber mentioned criticisms.

When asked about wash and wear clothing, nearly half of the mothers who stated a fiber preference picked cotton, with ease of care and appearance being the major reasons given.

Of the 60 per cent of the mothers who reported their schoolchildren had rainwear, three out of seven stated a preference for rubber-coated or treated cotton for their children's raincoats. Major reasons cited for rubber-coated cotton were durability and effectiveness, and for treated cotton, durability, attractiveness, and its suitability for varied occasions.

#### LIFESAVING TECHNIQUES

You can save a life even if you can't swim. Reach out from shore and pull the victim slowly to safety. If he is out of arm's reach or too far out to use a rescue pole, then use a life preserver tied to the end of a rope. Throw it beyond the victim and draw it to him so he can grasp it. If a boat is available, row to him and extend an oar. Maneuver the boat so the victim can grasp the stern, then row to safety. Learn mouth-to-mouth resuscitation. It saves

RONNY A. MARTIN

### Ronny A. Martin Named Chief Of Observatory

The appointment of Ronny A. Martin, 29, of Clarendon as chief of the Dallas Geomagnetic Observatory at Richardson was announced today by the Coast and Geodetic Survey of the Environmental Science Services Administration (ESSA), U. S. Department of Commerce.

The C&GS observatory is located on the Graduate Research Center of the Southwest. The quarter-million dollar facility maintains a continuous recording of the earth's magnetic field.

Martin, a geophysicist, was born in Memphis and grew up in Clarendon where he attended high school from 1951 to 1955 and junior college from 1955 to 1957. He received a B. S. degree in geology from Texas Technological College in Lubbock in 1960 and joined the Survey in January 1962. Prior to the present assignment, he serves as a staff member of the Fredericksburg Magnetic Observatory at Corbin, Va.

Martin succeeds David M. Perkins, who has been named chief of the Survey's Castle Rock Observatory near Palo Alto, Calif.

Martin resides with his wife, the former Janice Benson of Clarendon, and a daughter, Kelly, 4, at Richardson. Martin's parents, Mr. and Mrs. Aubrey Martin, and Mrs. Martin's parents, Mr. and Mrs. H. L. Benson, reside in Clarendon.

### Accounts Given Of Tragedy On U. of T. Campus

The murder of 14 persons in Austin about noon Monday had its impact upon many citizens here whose relatives and friends were known to be associated with the University of Texas.

A few reports have been received here about the happenings near the Library Tower on the campus, when the first shot was heard a few minutes before 12 noon. For an hour and 20 minutes, Charles J. Whitman, a student, fired from his perch on the platform near top of the tower.

Reggy Curry, who is a student at the university, said he was at home studying when he heard of the shooting. He called his wife, Carol, who was working within a block and a half from the tower, to keep out of sight. Mrs. Curry had been to the library shortly before noon. She told her husband that officers were on top of the building in which she was working.

Neal Foxhall, law student, said he had just finished a class, and was in his apartment when he heard about the shooting. He was joined by his sisters, Jean and Lynn, and they watched reports of the shooting over television. They later went outside and watched the tower, which was about 12 blocks away. He said the horror was tremendous, and it was hard to comprehend the overall terror.

Thomas Snowdon gave this report: "I was at home (2001 Sabine) when a neighbor came over at 12:05 and asked for binoculars. Everyone gathered outside, then went inside to watch reports over TV. Thousands of people were streaming toward the university. It was about 2:30 when calm returned to the area. It's just hard to comprehend this kind of act by and individual."

Abbie Massey, of Dumas, formerly of Memphis, was in the University Tower Library, and barely escaped coming into contact with the sniper. This information

was given her grandmother here, Mrs. Pearl Massey, Abbie said shot was fired. They soon learned front of the building—and for some unknown reason—she turned and went out on the opposite

side. Had she gone out the front door, she would have walked directly into the line of fire. She added that when she left the building, she could see the man high above, and realized that he was

shooting. Another report was given by Dr. A. J. Welch, husband of the former Pat Combs, who is an instructor at the university. Welch said he and Dr. Lauden of Dallas

**YOUR COUNTY AGENT SAYS**

**Cattle On Bermuda Grass Need Supplemental Feed**

County Agent W. B. Hooser warns cattlemen that with the hot, dry weather of July and August at hand, growing cattle cannot be expected to continue gains on Bermudagrass without additional feed.

During hot weather and short moisture periods grass loses some of its nutritive value, and an animal's forage intake decreases. The result is a drop in gains.

In Texas A&M experiments, steers averaging about 500 pounds each were grazed on Bermudagrass. Half were given five pounds of sorghum grain each day and the other half got none. Those that received no supplement gained 1.2 pounds per day from April 28 to July 7 and gained only .4 pound per day from July 7 to September 15. On the other hand, animals that received the supplemental feed gained 1.7 pounds per day during the first period and 1.1 pounds during the last period.

In concluding, Hooser says that weaned calves weighing about 300 pounds should not be left on Bermudagrass during this critical summer period without supplemental feeding.

ates are dry beans, dry peas, nuts or peanut butter. Two or more servings are needed every day. A serving consists of 3 ounces of lean cooked meat, poultry or fish without bones, or 2 eggs, or a cup of cooked dry beans or peas, or 4 tablespoons of peanut butter. This group contributes protein needed for growth and repair of body tissue as well as vitamins and minerals.

The milk group includes milk in every form: fluid, dry, whole, skim, and canned, as well as cheese, cream and ice cream. Children and teenagers need 3 or 4

or more glasses a day, and adults should have the equivalent of 2 glasses of milk for calcium, high quality protein, and many other food factors.

The vegetable-fruit group contributes essential vitamins and minerals not found in the meat group. At least four servings a day should be eaten by everyone. Vitamin C is especially required each day since the body does not store this essential need. Citrus fruits, cantaloupe, strawberries, broccoli and green pepper are high in vitamin C; melons, cabbage, tomatoes, green leafy vegetables, potatoes and sweet potatoes cooked in the jacket have some of this vitamin. A dark-green or deep-yellow vegetable should be selected at least every other day for vitamin A.

The bread-cereal group includes rice and macaroni products. We should select foods that are whole grain, enriched or restored to get worthwhile amounts of protein, iron, and several of the B vitamins and food energy. At least 4

Dr. Welch and Dr. Lauden stayed away from the windows. Dr. Lauden tried to call his home in Dallas, but was unable to get a line out of Austin.

Mrs. Welch was shopping with a friend in a furniture store when she learned of the incident. She rushed home as she knew her husband would try to contact her. She called his office, but received no answer. However, he called her within a short time.

Mrs. T. H. Deaver of Memphis said their son, Don, is attending dental school in Houston and was there at the time. Another son, John, who is attending Law School at the university, was with a law firm there, and was not involved.

### Donna Sims, Susan Stevenson To Attend 4th Annual Texas Youth Conference

Donna Sims, daughter of Mr. and Mrs. L. H. Sims, and Susan Stevenson, daughter of Dr. and Mrs. H. R. Stevenson, have been selected as delegates to the 4th Annual Texas Youth Conference to be held in Austin August 18-21 on The University of Texas Campus. Both delegates are being sponsored by the Memphis Lions Club.

The conference will attract over 1200 outstanding youth leaders from throughout Texas to study projects for the prevention of juvenile delinquency in Texas communities.

The program was formerly the Attorney General's Youth Conference but has now become a prof-

ect of the Texas Law Enforcement and Youth Development Foundation of Austin. Many outstanding programs have already resulted from the first three conferences, including Texas Teen Juries, programs for tutoring students to prevent 6th grade drop-out, and various other community service projects.

Delegates are selected by schools, churches and civic organizations on the basis of their proven leadership in their own communities. The unique youth led program, only one of its kind in America, is credited by many law enforcement officers with playing a major role in the reduced delinquency rate in Texas for 1965-66.

Austin attorney, Robert T. (Sonny) Davis, will continue to serve as director for the conference.

## Shawhart-Lebow Nuptial Vows Read In Pretty Church Service

MRS. JERRY LEBOW

Mildred Louise Shawhart, daughter of Mr. and Mrs. Arlie Shawhart of Memphis, became the bride of Gerald (Jerry) Dolan Lebow, son of Mrs. Norma Lebow of Memphis and Cleatus Lebow of Robstown, in a beautiful double ring ceremony Saturday, July 30, at 7 p. m. at the Travis Baptist Church.

Rev. Gene Jorgenson, pastor of the First Baptist Church in Memphis, officiated.

Pre-nuptial selections were played by Betty Stewart, who also accompanied Mrs. Bob Douthit as she sang "Always", "Whither Thou Goest", and "The Lord's Prayer".

Vows were exchanged before a sunburst arrangement of white gladioli and an arch of jade foliage centered with white satin bows and wedding bells. Two fifteen-branched candelabra holding blue tapers stood on each side of the arch. Baskets of gladioli flanked the candelabra.

On the piano was an arrangement of white and blue carnations with tiered gold candelabra and blue candles. Pedestal arrangements of white gladioli flanked the piano.

The aisle was marked with white satin bows and long white streamers.

#### Attendants

Candlelighters were Mark Shawhart and Ricky Douthit.

Wanda Grice served the bride as maid of honor. Bridesmaids were Kay Stinson, Janie Fields, and Eva Ann Glosson. Each wore identical street-length dresses of peacock blue brocade. Best man was "Hoot" Jones, while groomsmen were David Douthit, Jeff Moore, and Fred Davis of Dallas. Ushers were Paul Durham and Clifford Reeves.

#### The Bride

Given in marriage by her father, the bride wore a formal gown of white angel fair peau de soie which featured a bouffant skirt scalloped in front to reveal a tiered underskirt of Chantilly lace. The fitted lace bodice was fashioned with a squared neckline and long fitted sleeves which came to petal points over the hands.

The Wattau cathedral-length train fell from the shoulders where it was attached to the dress with a large white bow. The train was edged in Chantilly lace.

She wore a fingertip veil of imported English illusion attached to a tiny crown of pearls and aurora crystals.

The bride carried a cascade bouquet of white feathered carnations with alternative rings of white sweetheart rose buds centered with satin puff, net and a white Cattleya orchid. Picot-edged satin ribbons flowed from the base of the cascade.

The wedding party formed a receiving line at the back of the church following the ceremony.

For her daughter's wedding, Mrs. Shawhart wore a mint green dress with beige accessories. Mrs. Lebow chose a three-piece pink linen suit with white accessories. Both wore corsages of feathered carnations.

Mrs. Lebow wore an A-line dress of blue voile with white accessories for her wedding trip. She wore the white orchid from her bridal bouquet.

### Constitutional Amendments

Beginning in this issue of The Democrat, readers will note the publication of 16 proposed Constitutional Amendments, which will be submitted to voters in the general election throughout the state on the first Tuesday following the first Monday in November, 1966, the same being November 8, 1966.

Since this year's voting will be during the general election, and during this election at least two important national races will be decided, along with several state races, voters should take this opportunity to acquaint themselves with these 16 proposed amendments.

The first amendment on which voters will voice their preference provides that all land owned by natural persons and designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

Amendment No. 2 would authorize creation of airport authorities composed of one or more counties.

Amendment No. 3 would withdraw Arlington State College from participating in the Permanent University Fund.

Amendment No. 4 increases the permissible term of office for directors of conservation and reclamation districts from two to six years and validating present statutory terms of office for such officials.

Amendment No. 5 would authorize the legislature to provide for a system of retirement, disability and death benefits for county officials and employees and others.

Amendment No. 6 provides for payment of assistance to survivors of law enforcement officers, custodial personnel of the Texas Department of Corrections and full-paid firemen.

Amendment No. 7 would amend the Constitution provision requiring a poll tax as a prerequisite to voting and requiring the Legislature to provide for annual registration of all voters.

Amendment No. 8 would authorize the Legislature to enact laws permitting persons to vote for State officers and for president and vice president of the United States without having fulfilled resident requirements to vote for other officers, as well as laws permitting former residents of the state, for a certain period, to vote absentee for president and vice president.

Amendment No. 9 increases to five the number of judges of the Texas Court of Criminal Appeals and lengthens the term of that court.

Amendment No. 10 provides that taxes or bonds previously voted in an independent school district or in any junior college district shall not be abrogated, cancelled or invalidated by any change in boundaries and authorizing the continuance of the levy after such change without further election.

Amendment No. 11 would authorize the issuance of an additional \$200,000,000 in bonds by the Texas Water Development board upon two-thirds vote of the Legislature and expanding the uses to which money in the Texas Water Development Fund may be put.

Amendment No. 12 provides the method and manner for dissolution of hospital districts.

Amendment No. 13 would authorize the Legislature to provide for consolidating the functions of government within a county having 1,200,000 or more inhabitants and to provide for inter-governmental contracts between political subdivisions of the county.

Amendment No. 14 would allow members of the armed forces to vote in Texas upon satisfying their residence requirements applicable to Texans in general.

Amendment No. 15 authorizes the channeling of funds from private and federal sources through the state for use by privately owned or local agencies in establishing and equipping facilities to assist the handicapped in becoming gainfully employed.

The last amendment, No. 16, establishes the date on which newly-elected members of the Legislature qualify and take office.

This, then, is a summary of what decisions the voters will have to make come next November. Now is the time to read the amendments, meditate upon them, and come to a decision. As the date of the elections draws near, many organizations and lobby groups will try to encourage or discourage the passage of many of them, as they have in the past. Sometimes, if a citizen has not read the original amendment, the arguments presented, pro and con, seem logical, but if examined against original document, then discrepancies can be seen in the arguments presented.

### Auto Insurance Penalty Plan

A year from August 1, 1966, Texas motorists who keep out of accidents and are not convicted of speeding or major traffic law violations will begin paying less than careless drivers for their auto insurance.

The State Board of Insurance advised motorists that how they drive after August 1, 1966 will be reflected in August 1, 1967 insurance rates. Penalty points will be charged for accidents, speeding and major violations occurring after midnight of Monday, Aug. 1. One penalty point will increase a motorist's premium for auto liability medical payments and collision insurance by 15 per cent. Two points will mean an increase of 35 per cent, three points, 60 per cent and four points of 90 per cent. These penalties will apply on insurance written after August 1, 1967.

Under the new Texas Driving Insurance Plan, one point is assigned for each automobile accident resulting in bodily injury, death or property damage in excess of \$50. There are twelve exceptions to this rule. The exceptions include accidents in which the driver is not at fault.

Speeding penalties begin with the second conviction within the latest 12 months period prior to policy date or the third conviction within 36 months prior to policy date. One point is assigned beginning with the second or the third conviction.

### Judicial Reform

We received in the mail this week three publications, all dealing with some study of the judiciary in the state. The Texas Law Review sent a special issue on The Judiciary, which, in legal language, "examines the relative merits of criteria used in the selection of judges."

What appears to be forming is some move to change the method used in selecting judges in the Texas judicial system.

This has been proposed many times in the past, and in our way of thinking, some change in the method of selecting judges is probably in order.

Most of us do not know much about the candidates for the judge positions in this state, except on the county or district level where we can have a chance to become personally acquainted with the man.

Our state system of courts calls for state wide election of men who most of us never get to know and the very nature of their work keeps them out of the public eye except about election time.

But it is extremely important that judges be selected carefully. Of all people in our society, the judge must remain the most in-

corruptible, because he is the final protection of our rights to life, liberty and property under the law.

In state after state, however, there is growing alarm over judges who are sick or senile, corrupt, guilty of unconscious gold-bricking, habitually intoxicated or otherwise unfit to serve on the bench.

The recent case in Oklahoma where members of the state Supreme Court were guilty of misconduct, is enough to make us wonder about the courts in general.

In Texas, we have had nothing like this Oklahoma scandal, but evidently the time has come to start things moving toward a change.

In California, a Commission on Judicial Qualifications is empowered to investigate complaints from anyone about courts and recommend action to the Supreme Court which can disbar a judge. The system has already removed 30 judges from California courts. Its application to federal courts is also being studied by Congress since are federal judgeships are lifetime appointments.

One thing is sure. There is no room for incompetency in our

Judicial process. Incompetent judges have no more business on the bench than incompetents anywhere else. Somehow there must be a fair system devised to make sure we don't have them.—Ochiltree County Herald.

### HEMISFAIR IN 1968 WILL FEATURE MANY FIRSTS

When the gates to HemisFair open on April 6, 1968, the first of the Fair's millions of visitors will step into the New World—into a re-creation of the Western Hemisphere as it was when Cortez arrived, as it has developed since, and as rampant imagination sees it tomorrow. The first World's Fair ever scheduled in the southern half of the United States, HemisFair will be a six-month birthday party for San Antonio, the world's most fiesta-minded city, celebrating its 250th anniversary.

Mr. and Mrs. C. I. McClenny of Amarillo visited with her sister, Mrs. V. A. Crisler and Mr. Crisler over the weekend.

Recent visitors of the Harry Aspgren were Mrs. Sophia Larsen of Aurora, Ill.; Mrs. Walter Johnson, Dana and Sheryll of Felton, Calif.; and Oscar and Knut Aspgren of Amarillo.

In general usage, the words "old-fashioned" suggest that something is out of style or not in keeping with the times. We think maybe there is a difference in being old-fashioned and being out of style. True, we live in a world of change — the shape of automobiles, furniture, appliances, buildings, clothing, and other items. Yet, let's face it. Some things never go out of style. Sixty years ago the local merchant knew the value of such considerations as friendly and courteous service and quality merchandise at a fair price. In those days, a man's word was his "bond". Today, the dependable merchant stands behind his products and his services — and gives a written guarantee, to boot.

# Colorful Historical Facts Given

Note: The wrecking building on the north square, the Palace building, this week for the new home of the National Bank recalled bits of history from pioneer residents. The facts listed below were for the paper by Byron time-time business man serving as president of the Memphis Chamber of Commerce and Hall County Board of Health. His remarks follow:

July 7, 1866, I had a Mr. T. E. Noel of Texas, former President of the National Bank of Memphis, suggesting that we had many occupants in the building torn down in the new First National Bank Building as possible. I made a partial list of some occupants and through the years have been contacted and have added to it. I have come up with which I am sure is not correct, but let me know if you have back the pages of time at the corner of South Second and proceeding West, National Bank front lot, Post Office in E. L. Houghton, Post-

mistress and Roy, Assistant Postmaster. I think of them riding in their Model T, ornate with brass trimmings and solid leather upholstery. Many will remember the happy times spent at the Arnold Opera House. The name came from Arnold Greenwood two pioneer families. We had many dramatic shows in this building which included some programs of local talent. I especially remember one of Zane Grey's stories enacted there, "Preaching Bill." The Opera House was used for a skating rink when not in use for shows. Red Howell, now of Oklahoma City, was top man in roller skating, some of the rest of us tried to follow him in fancy skating only to pick ourselves up, dust our pants, rub where it hurt, and carry skates back in our hands, limping all the way.

Back to the First National Bank Building with other occupants; in the rear was Wells Fargo Express with Joe Creager agent, with his blue and white stripe overalls. This was later called the American Express. Talley's shoe shop with A. W. Guill, Mgr., Frank Fore, Electric Shop, now of Beverly Hills, California. Berle Beach, fishing tackle.

In 1917 Machine Bookkeeping was first installed in Memphis transferred from old Boston Ledgers. My first recollection of the old First National Bank was a mounted Lobo Wolf inside the lobby.

My first recollection of D. L. C. Kinard and Bill Allen was sweeping off the sidewalk around the bank and first fight, nearly sixty years ago, was Bill Allen and some man in front of the bank.

After the bank moved, Tarver Drug moved in and occupied the lower floor several years. Afterward occupied by Miller Mattress and Bert Boon Trading Post. There was a Domino Parlor in the back of the building for some time.

There are many stories one could repeat about these early days, but one I shall never forget—One day in the Tarver Drug W. H. Goodnight was sitting on a stool at the fountain and some one asked him why he had quit his girl. W. H. Said, "Quit her

because she had B. O." That actually happened. Then there was another incident which was told to me—One day a man came in and told the local officer that a certain man had killed another officer said, "If you see that man I will put him under a Peace Bond."

Number two building was occupied by W. M. Fore and two sons, Lester and Jet, Pioneer Mercantile Company. Bradford Grocery owned by Ben Bradford with George Trotter as bookkeeper and John Dennis his clerk, both very faithful and loyal employees. This little story is told—One day one of our aristocratic ladies was in the Bradford Store, and Mr. Bradford was asked by this lady, "What do you get for eggs?" He answered that he got 12½ cents per dozen. She said, "That's a little high, don't you think?" Ben replied, "I don't know that it is, time you figure the wear and tear on the hen." Another incident occurred in the store and this actually happened—Some one out on the street and reported Mr. Smith had bought a 320 farnt. George Trotter in a glum way said, "Where, out in the country?" Ben replied, "Heck no, out on the SQUARE!"

In the same building of the Bradford Grocery Store were Walker grocery, Alexander and Ross, "Red" Lindsey Tailor Shop, M. System Store (John Vallance), Selby Shoe Shop, and Thompson Bargain Store.

Building number three—B. F. Denny Mercantile, Montgomery Drug, operated by Jot Montgomery, son of one of the founders of Memphis and the younger brother of S. S. Montgomery. Charles Oren, Jeweler, occupied a portion of the Drug Store. Ewell Noel recalls purchasing Frankies' wedding ring there in 1915. The drug store changed operators several times in checking the North side which was the flourishing business district in the earlier days of Memphis. We recall Tomlinson Drug, Rushin-Madden Drug, Tarver-Thompson Drug (Horace and Homer), Tarver Drug (Mac and Horace), and the Western Union had an office in the drug store. Hamilton Variety Store with Ray Martin Ready-to-Wear on the balcony. Remember Ray telling the ladies about the Gloria Swanson's hat he carried. Bob Queener bought Hamilton Variety, Vena Kulp Ready-to-Wear and also in the building was Kulp Plumbing, both now in Pennsylvania.

Next occupant in this building was Dr. Jack Rose and the Farm Home Administration (F.H.A.) occupied building until demolished.

I forget what year, we were having Rodeo and Cowboy Reunion, and several of the cowboys getting a little "rowdy" in the drug store and one night the druggist came up and told the boys he did not want any trouble in the drug store and after a short time couple of cowboys shot their pistols through the ceiling

and after all the commotion in trying to find the druggist, they finally looked in the refrigerator and found him. There are some we declare this is true. Then we have this story, from Mac Tarver, about two local citizens who swore off drinking one morning and both threw their bottles in the old cistern back of the building. They stayed off the bottle until afternoon and both were looking for one of the Bell boys to get a ladder and go down and get their bottles.

Building number four—The Citizens State Bank, many question but have proof in Old Hall County Herald of that time; Hubbard Dry Goods, Harle Picture Show (Mr. and Mrs. Sam) and children, Paul, Sam, Sue, and Budge. That was the day of the silent pictures, but not with Ethel Dodson and Sam Sloan playing the piano as they did making the "Thunder Roll, the Lightning Flash, and the crack of the gun so real!"

Had a good many Vaudeville Shows here but never enough front seats for the younger generation. Shows changed ownership. Adams Picture Shows. Boren and Meacham, Hendricks and Singer, Hollis Boren, Hollis and Bill Boren, but I believe it has always been called the "Palace Theater."

I very well remember Claude Wells' dad, J. W. Wells, on the North Side getting in an argument and he would win his point by pounding his walking cane on the "sidewalk."

Same Harle Drug, Charles Montgomery Drug, Cockrell Drug, Randall Drug, Leverett-Williams

Drug with Vernon R. Jones Jewelry occupying a part of the front of store and Hickman Jewelry later. Last move to this building to my knowledge was Palace Theater, moved here and stayed until demolished. Men's Bible Class met in this theater on Sunday.

Building number seven—Denny, Bird, and Powell Dry Goods, Lewis and Marshall Dry Goods—I remember very well the cute brunette daughter, Esther Marshall, who was about my age. F. E. Adams Dry Goods, Jim Mann Bakery and the bakery changed hands several times—Tomlinson-Tarver Bakery, Tomlinson-Buck Bakery, W. J. Goffinet and Sons Bakery. Hubert Dennis greased pans in back of bakery at night. Walter Teeter was baker. Roy Crowder and Wendell Harrison were part time employees of the bakery. With two Model T trucks, Coy Harris, Hamp Prater and Hubert Dennis, unloaded 620 sacks of 100 lbs. bakery flour, hauled it from the railroad tracks, and stacked it in back of bakery in three hours. Scott Broome, now retired civil engineer from Burlington Lines, now living in Denver, Colorado, contracted jigs to cut up hard wood for Jim Mann Bakery too cheap, but his dad, C. W. Broome, told him he would have to finish his contract.

I think most of the time the bakery was operated as the "City Bakery". McClure's Cafe, Pearl Wecker Cafe, Selby Shoe Shop, last tenant operated by Henry Hays. Chancey Barber Shop (Mr. Chancey operated barber shop near the Baker Hotel in Dallas, Texas, for a number of years). Bob Howell Barber Shop, N. R. Stroud Dry Goods, W. A. Blanton and Sons Dry Goods, Taylor Appliance, Perkins Furniture,

Bob Ayers Furniture, Mr. Jones, Manufacturer of Hobby Horses, Duck Pin Alley, Auction House.

In the wooden building, Dr. J. M. Ballew had office with cafe in east side, operated long period of time by Josh Lamb, M. R. Jones and Mr. Perkins. Also Bill Smith Barber Shop in the wooden building. Mr. and Mrs. N. C. Herod operated Dry Good and Clothing Mail Order House. They had a beautiful girl named Eileen who married Jot Montgomery. The Second Hand Clothing Store, Karl Jewelry Store, and two different television and radio repair also occupied this space.

Other businesses operating on North Side I do not have specifically located are R. E. Brice Drug; City Barber Shop; W. L. Wheat Market; Noel and Montgomery Queensware.

I remember very well saving my money, \$5.00, to buy a meers-

chaum pipe which I had been admiring and finally bought it, walked out in front of drug store and dropped in on sidewalk.

One of the big "fights" I witnessed on the North Side was between Jimmy Alexander, 110 lbs. weight, and R. D. Gillenwater, weight 300 lbs.—Jimmy won the fight.

We had some heroes too during the early history—one morning when the small mules hitched to the ice wagon ran away and the mules were wedged in the cistern.

To show how advertising paid off, we had a customer, bachelor, Charles Simpson, ranch foreman, for the Browder's, came in the store one day and said he was going to start trading on the North Side, and I asked "Why?" He said he just passed the store over there and saw a sign in the

### Report From Washington

By WALTER ROGERS  
Representative, 18th  
Congressional District

again, part of this money will not have been expended by the end of the year. Some is for "leadtime" items, such as ships.

Our defense cannot be conducted in this modern age without huge outlays of money. We cannot economize where economy brings risks of disaster and defeat. Despite the uninformed statements of persons who, for their own devious reasons, would seek to have their neighbors believe that disarmament is imminent, the Congress has held unwaveringly to the position that defense comes first—and annual acts accordingly by voting military appropriations bills by majorities such as the House recorded on the current measure: 392 to 1. There is nothing new about this. For the four fiscal years 1962-65, the Congress provided for the military functions of the Defense Department a total of \$198.2 billion, compared with \$156.8 billion provided for the four fiscal years 1957-60. (Fiscal Year 1961 is omitted from the comparison because it was the transition year between administrations and 1965 is used as the terminal date because it immediately preceded the major deployment of U. S. troops to Vietnam.)

The United States spent \$41 billion more for defense purposes in the 1962-65 period than in the 1957-60 period. The fact that we have spent money for military purposes at a high level over recent years has permitted us to

avoid having to go into a "crash" program to meet increased requirements brought on by the war in Vietnam. We are spending billions more because of Vietnam, but the impact on the economy—and the taxpayer—has been lessened because of the steady preparations made through heavy expenditures of earlier years.

The men and women who serve in the Congress are determined to keep this Nation strong, the strongest in the world.

The bill voted by the House contained a variety of provisions. One provision of particular interest to the Panhandle area, because of B-52 Strategic Air Command operations at Amarillo Air Force Base, called for the retention of 45 of the huge B-52 bombers originally scheduled to be phased out in 1967 and to maintain our B-52 fleet at the 600-bomber level. The bill also provided funds to support additional development work on an advanced manned strategic aircraft, the possible successor to the B-52 as our big manned bomber.

**TAX MAN SAM SEZ:**

Each year thousands of taxpayers file tax returns with a refund due. Internal Revenue can't find many of these people when they finish processing the tax return and mail out the refund check. These refund checks are returned to the District Director. Most of the returned refund checks come back because the taxpayer has moved. If you have moved since you filed your return, send your new address in to your District Director. Be sure to include your correct social security number with your name and new address so the Internal Revenue folks can identify you. If you are a lost taxpayer, help the good tax folks find you.

# Golfer Malcolm Martin Fires A 29 Here Tues.

Malcolm Martin, of Chattanooga, Tenn., who is riding high with his 29, fired a hole-in-one on Tuesday at the Memphis Country Club course.

Playing with James Hays and Mickey Huggins, Martin hit the hole-in-one on the 18th hole of the 18th hole, a hole-in-one.

The crowd went wild in the Memphis course.

He had won the title in 1961, then lost it to Tom Weiskopf.

He took a par on No. 8 and finished No. 4 to be two under. Five and six were made in par (eagles), then Martin hit the No. 7 hole to be three under.

Martin selected an eight iron on the 18th hole, a hole-in-one, and the ball just above the pin. The "ball" on the ball kicked the ball up and it dropped into the hole for a hole-in-one.

On the No. 9 hole, usually a par, he hit a long hole-in-one, but missed a second shot which fell short, so he had to set for a par.

Martin's only regret about the round was his missed opportunity on No. 9 to set a new nine-hole course record. All in all, a 29 with a hole-in-one is tremendous good golf in anyone's terms.
