ASCS Signs Up 97% Of Farms

The final audit of Hall County farmers' participation reveal that 97 per cent of all farms in the county are signed up to divert a part of their farms under the new diversion programs for 1967.

There are five types of diversion programs now in operation in Hall County, McKown explained. They are: cotton, wheat, feed grains, cropland adjustment and conservation reserve. All are 100 per cent volunteer and require no special initiative on the part of farmers to participate.

It is a misunderstanding on the part of the public when they hear present farm programs comply with control programs," McKown pointed out. "Our only present control program is acreage control on cotton."

It was pointed out that there is a marketing quota penalty for exceeding the original allotment for 1967 cotton. On Tuesday, November 23, 1966, Hall County cotton producers approved marketing quotas on 1967 cotton by 95 per cent, it was emphasized.

All diversion programs are in operation at the option of the individual producers, the ASCS manager explained. Under the annual diversion program on cotton, wheat and feed grains, the producer can withdraw or fail to comply at his option without penalty except refund of any payment paid for 1967.

and regulations approved by Congress must be complied with to earn payment; this applies to division of payments and permitted acres of crops under agreement or contract.

"When final compliance is determined for 1967 under all contracts and agreements, Hall County will receive in excess of 4 million dollars in payments," McKown concluded.

David was awarded a gold fountain pen and Elaine was given a silver pencil.

Lack of interest in the Spelling Bee, Miss Gilreath stated, was possibly due to Interscholastic League events which occur in April.

Cyclone Thinclads Go To Olton Sat.

The Memphis Cyclone track and field team will travel to Olton Saturday for the District 3-AA meet. The Cyclone, along with teams from Hale Center, Abernathy and Olton, are the top contenders.

Coach Bert Glascock stated the meet would be a close one, regardless of which team wins, as the eight-team District 3-AA has fine track squads.

The teams will be running on Olton's cinder track Saturday, and winners will qualify for the Regional Track Meet, to be held later in Lubbock.

The Cyclone squad will be without the services of pole vaulters, Tony Pounds and Kay Miller, as both boys are out with injuries. Pounds received a head injury in workout Monday and was hospitalized.

Pounds also was a sure point getter in the high jump, so these losses will hurt the local team's chance of winning the district meet.

Much rides on the ability of five boys, James Spruill, William Welch, Junior Graves, Roy Long and Clyde Wilson. They make up the 440-yard relay and the mile relay teams. Victories in these events could go a long way toward deciding the district crown.

The Cyclone squad placed second in the Div. II portion of the Amarillo Relays last weekend and brought home the runner-up trophy and the mile relay trophy.

Carver had 88 points to win the meet, while Memphis had 56 and Panhandle totaled 50 points.

With a top effort by anchor man William Welch, the Cyclone's mile relay team of Roy Long, Clyde Wilson, Junior Graves and Welch, won the event with a time of 3:26.8.

The 440-yard relay team lost to Carver by three-tenths of a second. Memphis ran a 44.2.

Lockney's Melvin Sissney won the 440-yard dash with Memphis' Clyde Wilson right behind him for second place. William Welch came in third in the 220-yard run and James Spruill placed fifth in this event.

Tony Pounds placed sixth in the high jump and in the pole vault at Amarillo. Willie Devorce placed fifth in the discus with a toss of 150 feet and 3-4 inches.

Sister Of Local Woman Is Buried In Clarendon

Funeral services were held Thursday afternoon, March 30, at 2 p. m. in the First Methodist Church in Clarendon for Mrs. Inez Roberts with Rev. Charles Gates, pastor, officiating. Burial was in Citizens Cemetery in Clarendon with the Murphy Funeral Home in charge of arrangements.

Mrs. Roberts, 81, died at her home in Lella Lake Sunday, March 26. She had been a resident of Donley County approximately sixty years and was a member of the First Methodist.

Thompson-Molloy Go To Washington On NFU Fly-In

Paul Thompson, president of the Hall County Farmers Union, and Tony Molloy, both of Lakeview, drove to Dallas Tuesday, and left at 1:30 p. m. on a chartered airplane with 90 other Texas cotton farmers to attend a fly-in meeting in Washington, D. C.

Also attending was Elmer Lacy of Turkey, who announced that he would go last week.

The Hall County men had an appointment to meet with Representative Bob Price; also to meet with the Secretary of Agriculture.

Over 300 Countians Vote Saturday For Trustees

In elections in Hall County, school district voters cast a total of 300 votes for Roy Gresham, county trustee-at-large, the only man running on a county-wide basis.

O. E. Gardenhire received 45 votes to be elected from Precinct No. 2, and Gene Lindsey received 37 votes to be elected from Precinct No. 1, on the county school board.

Unofficial tallies of the Estelline ISD trustee election showed that Frank Hedrick received 88 votes, Leon Helm 83 votes and Jerrel Rapp 58 votes to lead the ticket. The school board does not meet until tonight at Estelline to canvass the results.

Denton Anthony received 55 votes, O. B. Hoover received 47 and Rabb Holland 32 votes to round out the balloting. There were 123 voting in the election.

At Turkey, Jim Majors received 90 votes, Homer Hawkins got 94, and Lewis Ferguson received 93 to be named on the board of trustees of that school.

At Lakeview, James Richburg and Kent Byars each received 51 votes to be elected as members of the board of trustees.

In Memphis, J. W. Coppedge, Harold Smith and Bob Douthitt each received 37 votes to be re-elected to the local ISD board of trustees.

(Continued on Page 12)

Meeting in a special session Tuesday evening, members of the Memphis School Board offered Charley Chambliss, Junior High School principal and administrative assistant, a one-year contract as superintendent of the Memphis Public Schools for 1967-68.

The action came after the board had met at 10 a. m. Monday, April 3, and accepted the resignation of Supt. A. E. Greer and Mrs. Greer. Supt. Greer resigned so that he could accept the superintendent's position with the Bridgeport Public Schools, located near Fort Worth.

Supt. Greer's resignation and Mr. Chambliss' appointment will be effective July 1, 1967. Until that time, each will continue to serve in present capacities.

Supt. Greer came to Memphis last summer from Anton, where he had served four years as superintendent. Prior to that, he was superintendent at Evant for four years and at Ponder for three years. He has had over 16 years experience in public school work as either a principal or superintendent.

Charley Chambliss is no stranger to Memphis citizens as he moved here with his wife, Pat, and daughters, Carol 10, Cathy 7, and Carlis 6, in 1952. He has served as head coach and athletic director for the local schools, a job he held for three years.

Mr. Chambliss has also served as Junior High principal for three years and for two years as administrative assistant.

He began working in public schools at Borger in 1954 as a teacher and coach. From 1960 to 1963 he served as a teacher and coach in the Canyon schools.

Chambliss received his bachelor's degree from West Texas State University in 1954 and his master's degree from WTSU in 1959. He also received his elementary principal's, high school principal's and administrative superintendent's certificates from the same university in 1959.

The superintendent-elect served two years in the U. S. Army during 1955 and 1956.

The Chambliss family are members of the First Baptist Church. He is a member of the Memphis Lions Club, National Education Association, Texas State Teachers Association and the Texas Association of School Administrators.

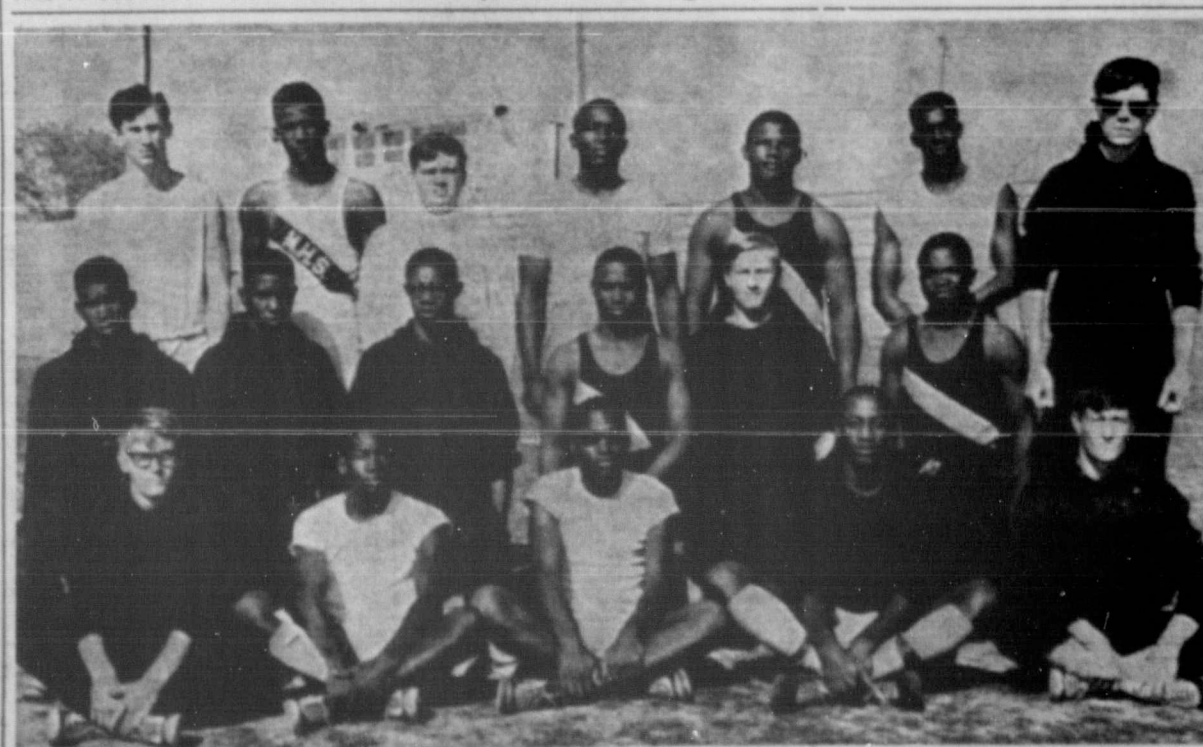

Mrs. Chambliss is presently employed as a special reading teacher in the Memphis schools.

Active Year Although Supt. Greer has been in Memphis less than a year, a lot has been accomplished, such as the completion of the new high school plant and remodeling and repair of other buildings.

He stated that he had planned to stay longer in Memphis but the superintendent's position became open at Bridgeport, and he could not pass up the opportunity since he has wanted to go there for several years. Bridgeport is his home town.

Mr. Greer was educated in Decatur Baptist College and at North Texas State University, where he received his bachelor's degree. He also received his master's degree at NTSU, and has 21 hours above his master's at Texas Tech, and six hours at NTSU.

Mr. and Mrs. Greer, Gerry David 11, and Cheryl Lynn 9, have been active in many community functions and in the Methodist Church. They have been an asset to Memphis and the schools here, according to reports from the school board members.

1967 CYCLONE TRACK TEAM—Pictured above are track and field athletes who will carry the hopes of a team victory to the District 3-AA meet in Olton Saturday. Not pictured are pole vaulters Tony Pounds and Kay Miller, both boys out for the season with injuries and freshman Ronnie McFall. On the front row, left to right are James Spruill, William Welch, Junior Graves and Clyde Wilson (440-yr. relay) and Roy Long, Welch, Graves, Wilson and Long make up the undefeated mile relay team of the Cyclone. On the second row are, from the left: O. D. Matthews, Paul Edwards, James Flecks, Robert Cornish, Allen Booth and Judge Smith. On the back row are Richard Parker, Marvin Edwards, Gary Rea, Willie Devorce, Johnny Scott, Dwaine Jones and Roge Fowler.

A Fist For Rural Economy!

Harry Davey in The Swift County Monitor (Benson, Minn.): Farmers, merchants, editors, all people in the rural areas of this nation hoped six months ago that the long years of subsidizing the rest of the nation were about over. Cattle, hog, egg, milk and grain prices were far below parity, but much better than they had been for more than a decade.

This optimism was based on the knowledge that the infamous stories of surpluses had been finally exposed as fraud, that it was obvious America had come to the realization that its food and fibre was the greatest weapon this nation had in its struggle with communist nations, that the government could see the value of agriculture in our search for international understanding.

Sorry to say, it is now obvious that if we could have put this optimism in a vat, we could have dipped every animal in North America in its essence, erasing all fleas, lice, ticks, and all other sorts of bugs, past, present or possible.

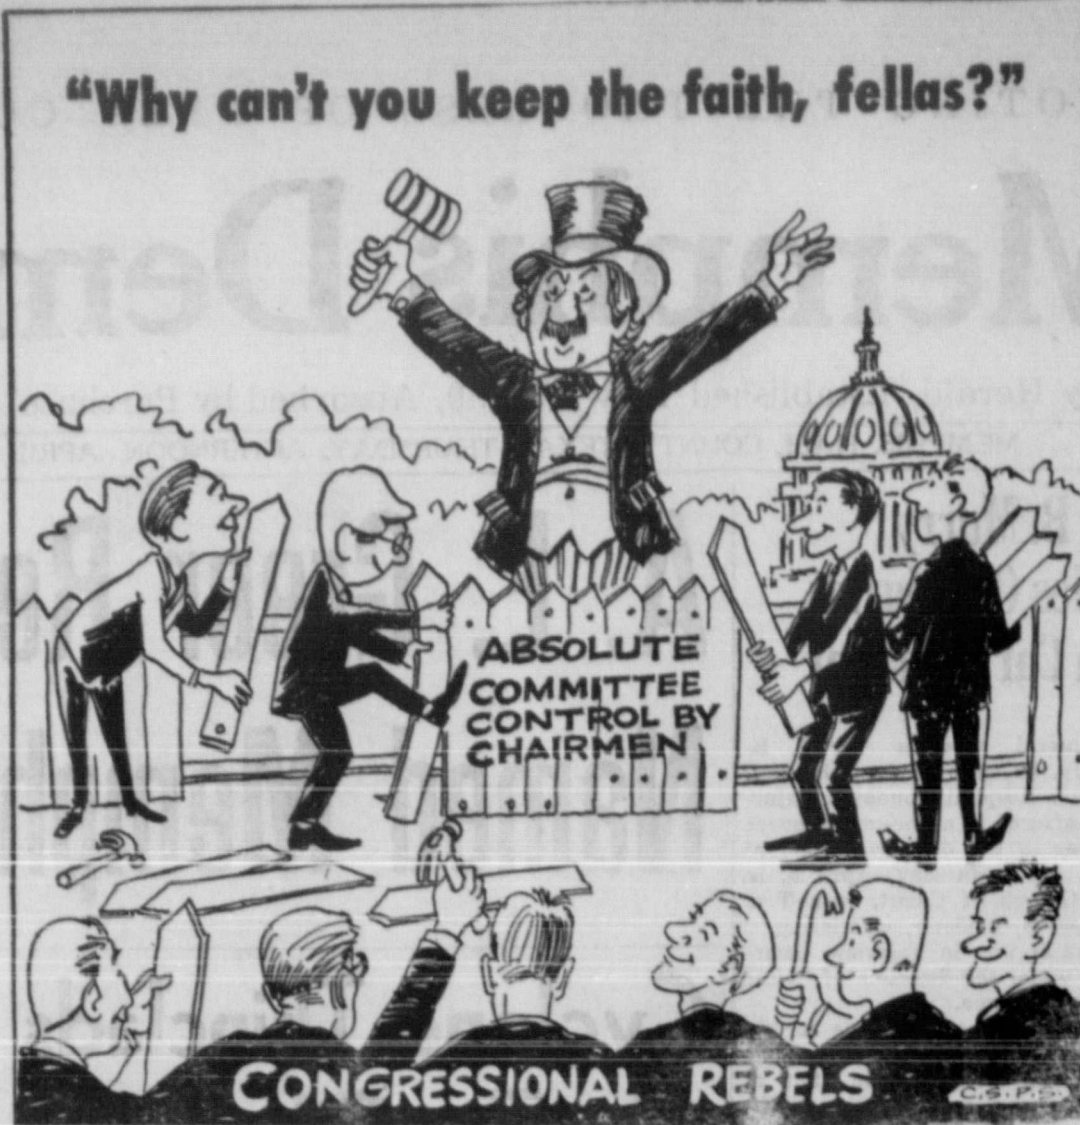

Let the price of a farm commodity rise half-way toward parity and the import gates are triggered, opened wide, driving prices down again. And, many of these imports come from nations that have hosts of people existing on starvation diets, so poor we give them American tax dollars without end; or they come from countries that have been restored by our money.

But, imports are a minor part of the problem that is choking rural America. Our fight is with the politicians who cringe over demonstrations at a metropolitan super-market, but sneers at the "hicks" who produce the food this nation enjoys. The flimsy, ineffective, silly boycotts of supermarkets throughout the nation not many months ago received more publicity, caused more concern than anything the NFO, Farmers Union, Farm Bureau or Grange has done in the past 10 years. In sum, our government isn't thinking about right or reason, it's thinking about votes. That's why rural America had better forget its optimism and concentrate on welding a fist that will make the rest of the nation take notice.

This fist had better come from the NFO, Farmers Union and Grange, for these are grassroots organizations built in rural America. This fist had better have the backing of rural American businessmen, who, with the farmers, have been paying dearly for not being a part of our burgeoning metropolitan complex. This fist had better come from thoughtful people in all walks of life who understand our nation rests on three legs—business, labor and agriculture—and if any one of the three is eroded to the point of collapse the tripod ceases to exist and the entire structure comes tumbling down.

Our senators and representatives in Washington must approach the problems of their area as southern congressmen have for years. Though the south is a small part of our nation, through shrewd "horse-trading" its men in congress have held off the decency of civil rights for more than 100 years. Though the editor would hate to see the quality of upper midwest congressmen degenerate to the level of those from the south, there is every reason to believe they could, if they would, be a part of the fist that will soon, very soon, knock some sense into the economy of rural America.

What Other Editors Say

Publication Prohibited

There is nothing in law, or the interpretation of it by the Supreme Court, or in the Constitution of the United States, which grants authority to a judge to dictate what may or may not be published in newspapers or other media about a criminal case. To the contrary, the Constitution forbids abridgement of press freedom and Supreme Court decisions have proscribed censorship or prior restraint on publication.

Yet, there is a growing tendency among criminal court judges to warn, admonish and even order what a newspaper may or may not print about a pending or current trial. Latest of these is Chief Circuit Judge Howard C. Ryan in Morris, Ill., who called newsmen to the bench during arguments on pre-trial motions and said: "I am going to request—no, I am making this an order. The writing and characterization of any testimony or evidence presented prior to the jury trial is prohibited."

As an aftermath of the fair trial/free press debate most newspapers are exercising considerable self-restraint to protest the rights of the accused and insure a fair trial. There is nothing on the books, however, authorizing a judge to impose censorship from the bench.

Parallel to the attempts of some jurists like Chief Circuit Judge Ryan (above) to establish restraints on the publication of crime news are the attempts of some lawyers to carve up the free press guarantee of the Constitution. The Reardon Committee of the American Bar Association recommended limiting the amount of pre-trial information available to the press from attorneys, law enforcement officials and judicial employees but fell short of recommending legal restraints on publication. And now comes a University of Notre Dame assistant professor of law (March 4, page 33) suggesting a criminal statute to prohibit premature publication of information thought to be prejudicial to fair trial.

Such a statute would be clearly unconstitutional, in our opinion, but it will have a dangerous appeal to some Bar Assn. members who cannot see the drastic consequences. Once it becomes legal to prohibit publication of information of any kind for any reason, in the unlikely event that it should be upheld by the Supreme Court, the flood gates of censorship will be opened bringing with them demands that publication of other information should also be prohibited for seemingly good and sufficient cause including such hard-to-define reasons as the "public welfare," "national security," etc.

At that point a free press will cease to exist.

Trends in Church Going

Dr. George Gallup, the noted pollster, has taken another poll regarding church attendance in these United States and has come up with some figures not too surprising.

He estimates that last year only 44 per cent of the U.S. population attended church at least one Sunday during the year. This is down from 47 per cent in 1961 and 49 per cent in 1955. So people are finding other things

to do on Sunday morning than attend church.

Some popular misconceptions about church going were cleared up by the Gallup Poll, however. It is widely supposed that country and small town people are "more religious" than city folks. However, the poll showed that people who live in the suburbs of the cities are the most regular in church attendance.

Small town people and rural people have been declining in their church attendance, and the "inner core" of the big cities hardly ever see the inside of a church.

It has long been thought that religious interest tends to decline as educational and income

levels rise. But this poll showed that college-educated people, those with higher incomes, and those in the better homes attend church more regularly than others.

There is some question about church attendance being on the basis of "keeping up with the Jones" or in the basis of a real religious faith, but no poll can find the true answer to questions like these.

Churches all over the nation have one problem in common—how to cure slackening attendance and drop of interest in the church. While 44 per cent of the people have gone to church last year, we would bet that the percentage of regular attenders was more like 10 per cent.

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE® 86 soil fumigant applied at only 1 to 2 gallons overall an acre, you can take care of root-knot, sting, meadow and other nematodes—those microscopic, worm-like soil pests that attack plant roots, suck away profits.

FUMAZONE 86 soil fumigant increases yields up to 1/2 bale an acre. Many High Plains farmers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow farm chemicals supplier about it.

In the doubles, Chris and Landa drew a bye the first match, and defeated a Spearman team 6-3, 6-4 in the second. In the finals they downed a team from Phillips, 6-2, 2-6, 8-6, in a hotly contested match.

Keeps Sinkers From Slipping
If you use split-shot sinkers here's a good way to keep them from slipping. Insert a short piece of rubber band into the slot in the sinker, along with the line. Then crimp the slot over the rubber band. This will hold the line tight.

CARD OF THANKS

I would like to express my sincere thanks to my many friends for their flowers, gifts, visits, telephone calls and any kind deed shown during my stay in the hospital. I want to especially thank Dr. Clark and the nurses at Hall County Hospital. May God bless each and everyone of you.

To dear friends, we wish to express our sincere gratitude for the many expressions of love which brought our mother and grandmother happiness during her illness.

May you be blessed and comforted as we were, in our loss, by the devotion of friends.

When you're fishing around the points it's always safe to leave

your outboard motor running. That way you can avoid slamming into the bank when a gust of wind hits your boat. A good idea is to reverse and troll backwards.

TFWC District President Is Guest Speaker At Delphian Tea

Mrs. Roy Grundy of Matador, president of Santa Rosa District, Texas Federation of Women's Clubs, was guest speaker at a lovely spring tea given Tuesday afternoon by members of the Delphian Club.

The social was held at the Community Center with members of the four other Federated Clubs of the city as special guests.

Mrs. Sim Reeves, president of the club, welcomed guests after which the meditation on "Communication" was given by Mrs. Jack B. Boone.

In introducing Mrs. Grundy, Mrs. Mildred Stephens said, "We are delighted to have each of you and especially our beloved president of Santa Rosa District. Just a week ago, I called Lurretta for information for an introduction. When I got the information she is either the most modest person you would ever know or she is not a Texan. However, we have watched Mrs. Grundy make a name for the Junior Clubs of Santa Rosa. She was named Outstanding Young Woman of America in the 1965 edition; voted outstanding clubwoman of Eternas Club in 1965, and is serving as state board chairman of Operation Healthy Babies. These are just a few of Mrs. Grundy's accomplishments."

Mrs. Grundy began her address by giving an interesting resume of her year's work as president of the district. She pointed out some changes in district work and complimented the Memphis clubs for subscribing 100 per cent to the Texas Clubwoman, which was selected as the president's project for the year.

"All of you sitting before me this afternoon have a right to say with pride: 'I am a woman.' We, as women, have a marvelous heritage. We can point with pride to women in our history who have

MRS. SIM REEVES, MRS. ROY GRUNDY

been instrumental in promoting the speaker stated.

Continuing, Mrs. Grundy said, "Strength and honor are her equal right to say with the same pride: 'I am a Clubwoman.' No longer do we have to work alone for the good of our communities, nation and world; in fact, perhaps, never before in history have so many women banded together under the Federation to work for the good of all mankind.

"If we are to succeed in our goal, we must have the same kind of wisdom, fortitude and patience that great women leaders and followers have always had. Before we can acquire these attributes, however, we must have character, and it is along this line that I want us to think for a few minutes. The particular verse that I want to bring to your attention is the 25th verse of the 31st chapter of Proverbs: 'Strength and honor are her clothing; and she shall rejoice in time to come.'"

clothing—I am sure that most of us here chose with great care the clothes that we are wearing, for clothes are important to women. They not only make us more pleasing to look at but they also give us confidence. These clothes must be made of durable material, for the strain will be great. They must be shaped with care and thought for the wrinkles of mistakes are hard to iron out. At the same time, however, the material must be pliable, for character can not develop enclosed in the tight, restricted garments of selfishness and prejudice.

"If we as clubwomen wear the clothing of strength and honor, if we search diligently after wisdom and patience, and if we band ourselves together then, perhaps, we will attain our goal of world peace and understanding; and we, like the virtuous woman, will rejoice in time to come," Mrs. Grundy concluded.

Proceeding the program, guests were served tasty refreshments from an attractive tea table covered with a white net cloth over satin. Centering the table was a lovely arrangement of white stock and yellow jonquils flanked by yellow tapers.

Mrs. A. Anisman ladeled punch from the crystal service while Mrs. Bill Lockhart served the decorated cakes, sandwiches and cheese-filled daisies.

Enjoying the social were Meses, Clyde Smith, R. H. Wherry, J. S. McMurry, Grace Cochran, H. A. Combs, Byron Baldwin, Lottie Kinard, R. S. Greene, M. G. Tarver, Theo Swift, Robert Roark, Robert Sexauer, L. C. Martin, A. Gidden, Sarah Hill, Bryan Adams, Myrtle Phelan.

Cottle-King Horse Show, Rodeo To Be April 21-22

Cottle-King Horse Show and Rodeo is scheduled for April 21-22 in Paducah. This is the 25th annual event sponsored by Cottle-King Livestock and Rodeo Association, T. J. Richards, President.

On Friday, April 21, Old Settlers' will be having their reunion at the Community Building, while registration of AQHA registered horses will be going on at the Jaycee Hut on the Rodeo grounds.

Old Settlers' will have a program, refreshments, registration, awards, and lots of visiting, according to Carmen Bennett and J. F. Powell, directors. At 1 p.m., Walter Merrick, noted horseman from Quanah, will judge halter classes in the arena. Kenneth Tippen and Carl Bradley are directors of the horse show.

At 5 p.m. after horses are judged, the Silver Anniversary Parade takes off. Using for a theme this year, "Time Marches On," the parade will feature historical floats, antique cars, ranch riders, celebrities to be disclosed later; led by the Hardin-Simmons Cowboy Band of Abilene, Paducah Band, and others; riding clubs such as Santa Rosa Riding Club of Vernon and others; assisted by the Radio Club of Cottle Co. Directors for the parade are Lee Currey, Clinton Matney, and Velma Lee Worley.

Immediately following the parade will be a chuck wagon dinner, with Buster Tippen and Joe Meador making arrangements. Bands and riding clubs will be guests of the Association; tickets will be sold to all others wanting to eat.

Both evenings, a fast-moving rodeo at 8 p.m. and western dances immediately following will keep people busy till the wee small hours. Ratjen Bros. of Happy will furnish the stock, according to arrangements made by Alvis Townley and Bobby Thompson, Rodeo Directors. Old Timers' Roping, girls' barrel racing, and kid's calf scramble are additions to the usual rodeo fare. Entries may be made Thursday, April 20, till noon April 21 at the County Judges' office in Paducah. No advance entries are accepted.

Saturday's activities include registration of performance classes from 9-12. Ranch horses have a class in addition to the registered horses. Junior and Senior cutting and reining will be on the program. Walter Merrick, judge of halter classes, will also judge this group with the assistance of Roland Moore, Tulsa, who has proved popular with the show in the past.

Failure to yield right of way figured in 10 per cent of the fatal accidents on the rural highways of Texas last year, according to the Department of Public Safety. This being the case, "Texans for Traffic Safety" suggests you don't depend too heavily on other drivers doing what they're supposed to.

1965: USAC-supervised tests proved that a '65 Ford rode quieter than a \$17,000 Rolls-Royce.

1966: After comparison rides, owners of the world's most expensive luxury cars like Jaguar and Mercedes-Benz agreed that a '66 Ford was quieter.

1967: At the Lake Placid Olympic ski jump a '67 Ford took leap after punishing leap and rode away still quiet, still strong. Other '67 Fords went on a bone-jarring steepchase ride and a grueling trip up and down the Los Angeles Coliseum steps. The results were always the same: still quiet, still strong.

Year after year, you're ahead in a Ford -ahead in quiet, ahead in strength.

Year after year, we do things you'd never do to demonstrate Ford's quiet and strength. This year's tests were the toughest yet. But the durable Ford came through again—quiet and strong. That's because the 1967 Ford is the strongest, quietest Ford we've ever built. Over 150 impor-

tant parts have been strengthened and improved. And the '67s offer plenty of convenience and luxury features too. SelectShift Cruise-O-Matic transmission that's fully automatic and fully manual. It all adds up to a pretty strong argument for saving at your Ford Dealer's now. Quieter because it's stronger...stronger because it's better built.

SU football players of the 200-pound plus variety to present a colorful, comedy-filled hour of entertainment which has captured the hearts of area audiences. A stage full of guards and tackle doing the Boomp A Daisy is not an everyday sight nor is it often that a person can see the latest fashion creations presented with such daintiness and grace.

Female stars of the show are the West Texas State University cheerleaders and Miss Sherri Kerbel, daughter of head football coach Joe Kerbel. Miss Kerbel is featured in several songs and premieres a catchy tune entitled "Did You Say Texas".

Emcee Bob Davis of Amarillo belts his way through a series of toe-tapping melodies and hits the climax with "Bill Bailey Won't You Please Come Home".

Veteran Panhandle show-woman, Dixie Dice Watson, has fashioned the show into a colorful, fast-moving parade of zanyness. Musical accompaniment is provided by a band of Amarillo businessmen.

The Buffalo Follies is free to the public.

Jehovah's Witnesses To Hold Meeting In Borger

Jehovah's Witnesses in the area are preparing for a 3-day convention to be held in Borger, April 14, 15 and 16th and plans are being completed for all here to attend.

Local congregation members have been busy participating in special home missionary work preparatory to their departure for the convention city.

"Our conversations are with our neighbors at their doors," according to Mr. Stephen Lane, presiding minister here in Memphis. "The subject is the Bible and its promises about the future and, for the most part, people today are concerned. Many believe we are living in the 'last days' and are willing to discuss it from the Bible's point of view."

The theme of the religious gathering in Borger was announced by Lane as being "Supply to Your Faith Endurance".

What people are saying about...
A CLEAN BREAK WITH THE PAST
"I would have nothing but an electric Gold Medallion home," says Mrs. Bob Corkins of Alpine, Texas. "I like the low operating cost," says Mr. Corkins who thinks the electric bill a good value. Kathy, age 5, and Greg, age 10 months, smile contentedly, and that means they like the comfort of total-electric living.
The Corkins' Early American style home has 7 rooms, 2 baths, and a covered patio—2,000 square feet of living space. The only fuel used for all purposes is electricity. It operates a 4-ton heat pump with 15 KW Auxiliary Strip heating, 4-ton refrigerated air conditioner, electric range, washer, dryer, disposal, dishwasher, refrigerator, freezer, two 1.3 KW bath heaters, and Medallion light for living, yet operating cost averages only \$38.03 per month—22.8¢ per square foot per year!
The Corkins have been living better electrically since 1959 and are well pleased with it all. "I love electric cooking," Mrs. Corkins says. "It's much better, faster and cleaner." The Corkins especially like the even heat throughout the house, and let the temperature stay at 70° year-round.
Would you like to live in total-electric comfort? Then see your electric contractor or visit WTU.

Make a clean break with the past...convenience and comfort are great in Total Electric Living

Memphis Bands Participate In Borger Festival

The Memphis Cyclone Band and the Junior High Band went to the Borger Band Festival last weekend, and participated in sight reading and concert competition. The Cyclone Band was awarded a Division I rating in sight reading and a Division II rating in concert at the festival.

"We did as well as any of the bands there," Director Darryl Phillips reported, "and much better than we did last year."

The Memphis Junior High band took a Division II in sight reading and a Division III in concert. The Junior High group competes in Class C competition.

The Junior High musicians will go to Caprock High in Amarillo on Wednesday, April 19, to participate in Class C of U. I. L. competition in sight reading and concert.

The Cyclone Band will go to Hereford on Thursday, April 20, for the all-important U. I. L. sight reading and concert competition.

The Cyclone Band has already captured a Division I rating in marching contest this year. If the band could add a Division I in concert and sight reading to this, then the band would capture its first Class AA sweepstakes, and continue a string of four consecutive sweepstakes awards, it was pointed out.

Members of the Cyclone Band have been spending extra time each day in sectional rehearsals to polish difficult passages so that all will be ready for the U. I. L. contest at Hereford, Director Phillips said.

Surat Way To Catch Fish

Cast close to the bank and work out. This is one of the surest methods of catching fish. Especially is this true when fishing rocky shorelines. Cast against the rock and let the lure fall into the water. Give it a moment to sink, then jiggle the bait. If there is a fish around it very likely will take your lure.

The U. S. Postal Department notified the Fort Worth and Den-

With the loss of the revenue derived from the railway postal cars amounting to approximately \$300,000 per year, it is quite evident that these trains will be unable to continue operation as the total losses would be prohibitive, the announcement stated.
