CHURCH OBSERVANCE—Minister and Mrs. Tom Posey are pictured above cutting the 75th anniversary cake at a dinner held Sunday at the Community Center by the First Christian Church. The dinner was one of the highlights of the day-long observance held here to celebrate the 75th anniversary of the founding of the First Christian Church in Memphis.

## Local Church Observes 75th Anniversary Sun.

The 75th anniversary celebration of the First Christian Church was a very enjoyable affair, according to reports. The day's activities began with Sunday School at 9:45 a. m. and worship service at 10:50 a. m.

Several guests were present at these services. As the people arrived, they were greeted by Mr. and Mrs. E. E. Roberts and were asked to register in the book provided for that purpose.

Fresh flowers were used throughout the church to enhance the setting. A number of beautiful floral arrangements were sent in memory of loved ones. Others were sent by local friends of the Church. Especially effective was the baptistry front, where silver candles, flowers, greenery and the numerals "75" were noted.

At 1:00 o'clock luncheon was held in the Community Center. The dining tables were beautiful with their white covers and centerpieces of silver crosses, greenery and small bouquets of white daisies. To add color, as well as mementoes of the occasion, there was a royal blue ribbon with "1892-1947" written in silver at each plate. The center point of attraction was a white 4-tiered birthday cake with 75 candles and on the top tier under an arch was a small white Bible with a silver "75" in front of it. At the foot of the columns supporting the arch was a rhinestone cross. The cake was made and decorated by

some of the ladies of the church. The invocation was given by Bill Maddox. The food was plentiful and very delicious.

About Modern Times

Someone asked recently how come all this sudden concern about poverty, about racial inequality, the marches and protests; what's happened?

Ease of travel, instant communications, TV, immediate news coverage, increasing interdependence on other people are changing our world faster today than at any other time in history.

When I was a boy, we lived to a considerable degree in our own community. I grew up only 70 ever saw Oklahoma City. I was about 16 years of age before I ever saw Oklahoma City.

But think how the world has changed for my children. Today a child grows up in an environment where TV brings the world to his living room.

People who are backward and underprivileged are becoming aware of a better way. Brighter possibilities for a fuller and more enriching life are a part of their vision for their children.

It is human nature to want to keep up with the Joneses, and we are more aware than ever before of what the Joneses are doing.

A pioneering people, a struggling people want their children to have it better than they did.

There are certain to be many mothers and fathers living in the slum areas, many Negro families that want their children to have it better than they did.

We want better medical care, better schools, better jobs, better recreational facilities for more and more people.

It seems to me there are four primary things confusing the issue. They are:

- 1. Those who want something for nothing. There are a certain number of lazy and immoral people who wouldn't recognize or use opportunities to improve themselves if they were surrounded by them. 2. There are other people who out of indifference an unconcern don't really want the children of other people to have the same opportunity as their own.

THIS IS A CONVENTIONAL TRADING STAMP

It's different and better because: \* Each Heritage Stamp has an actual cash value of one-half (1/2) cent. \* A starter book filled with Heritage Stamps is worth \$2.50 in your personal savings account.

This is the way it works: \* The usual trading stamp has an actual cash value of one mill which is one-tenth (1/10) of a cent. \* A filled book of ordinary trading stamps has an actual cash value of about \$1.20, but they are rarely redeemed for money.

A Tribute To Our Flag

"When you see the Stars and Stripes displayed, son, stand up and take off your hat. Some folks may titter. It is in the blood of some to deride all expressions of noble sentiment.

"For of all the signs and symbols since the world began, there is none other so full of meaning as the flag of this country. That piece of red, white and blue bunting means five thousand years of struggle upward.

"Your flag stands for humanity, for an equal opportunity to all the sons of men. Of course, we haven't arrived yet at the goal; there are many injustices yet among us, many senseless and cruel customs of the past still clinging to us.

"Other flags mean a glorious past, this flag is a glorious future. It is not so much the flag of our fathers as it is the flag of our children and of all our children's children yet unborn.

"Don't be ashamed when your throat chokes and the tears come as you see it flying from the masts of our ships on all the seas or floating from every flagstaff of the Republic.

"Listen, son! The band is playing the national anthem, 'The Star Spangled Banner.' They have let loose Old Glory yonder. Stand up and others will stand with you.

"This tribute to the flag is offered to the country in appeal to all men and women of all races, colors and tongues, that they may come to understand that our flag is the symbol of liberty and learn to love it."

## County Farmers Have Installed Over 258,000 Feet Of Parallel Terraces

The horse drawn equipment has gone and so has the old method of laying out terraces in the Hall County Soil and Water Conservation District, according to Royce Frisbie, Technician, for the Soil Conservation Service.

In the past years the way terraces were laid out was on the level, no matter how crooked or how many point rows. Now, we have more modern equipment to move dirt we can eliminate most of these problems with a system of parallel terraces. This cuts out turning on growing crops, and according to some of the farmers that have parallel terraces cuts farming time as much as 30 percent over the old level terraces. A better distribution of water is obtained by smoothing and leveling between terraces.

Since January of 1966 landowners have installed over 258,000' of parallel terraces in Hall County. Over 104,000' have been constructed in the Turkey community and over 153,000' in the Memphis and Lakeview areas. The following farmers have installed parallel terraces in the Turkey area. F. O. Ham, Lewis Eudy, Bert Degan, Byron Young, and

the Eudy Estate. In the Memphis and Lakeview area parallel terraces have been built on J. D. Swift, Rayford Hutcherson, A. C. Sams, Mack Richards, Wayne Hutcherson, and on the Gammage section worked by Ernest Kilgore. At the present time a system of these terraces is under construction on the farm of O. L. "Buster" Helm, southeast of Memphis.

All the above terrace systems were cost shared under the Great Plains Conservation Program.

There are several systems in the planning stage at this time, in Hall County.

Not all the land in Hall County can be parallel terraced, due to the slope of the land and to the sandy nature of the soil.

Anyone desiring more information on parallel terraces is invited to drop by the Soil Conservation Office that is located just south of the ASCS office in Memphis.

**Release Of \$148 Million In Rural Loan Funds Announced By F. H. A.**

The Farmers Home Administration has been authorized to insure an additional \$148 million of rural loans according to word received by L. J. Cappelman, Farmers Home Administration Texas State Director.

This action, announced in Washington by Secretary of Agriculture Orville Freeman, will enable the USDA's Farmers Home Administration to commit an additional \$30 million in Farm Ownership loans and \$118 million in Rural Housing loans to low and moderate income families.

Previous allocations of funds for Farm Ownership loans were exhausted in February. There are some 20,000 applications and unfunded loan docket currently being held by the Farmers Home Administration.

Funds for Rural Housing loans to low and moderate income families were exhausted in April. The Farmers Home Administration is now holding some 42,000 applications and unfunded loan

dockets for Rural Housing loans. Both the funds for Farm Ownership and Rural Housing loans are being made available immediately.

Farm Ownership loans are made to buy land, construct or repair buildings, improve land and refinance debts. They are repayable over 40 years and bear 5 percent interest.

Rural Housing loans are made to farmers and other rural residents in open country and small rural communities with populations of not more than 5,500.

Loans are made to construct and repair needed homes and essential farm buildings, purchase homes or buy sites on which to build homes. The maximum term is 33 years. The interest rate on loans to families with low and moderate incomes is 5 percent.

Farmers Home Administration services are made available through more than 1,600 county offices serving the 3,000 rural counties in the United States,

Puerto Rico, and the Virgin Islands.

The county office for Hall County is located at 517A Main St., Memphis.

The county supervisor is E. Leon Thurman. Office hours are from 8 a. m. to 5 p. m. every Monday through Friday.

**Local Residents To Attend Jehovah's Witnesses Meet**

Family unity is an essential quality to overcoming juvenile delinquency according to Jehovah's Witnesses who are preparing for a huge gathering in Amarillo the last of June.

"The resulting togetherness that comes about from family worship is a bulwark against delinquency," Stephen Lane told the members of the Memphis congregation of Jehovah's Witnesses as he reviewed the local plans being made to attend.

His report on the upcoming event, which is expected to attract more than 7,500 delegates from parts of five states, included a review of previous conventions that the Witnesses here have attended. Many in the local congregation have traveled great distances in the past to attend national and international gatherings.

This year the short trip to Amarillo will enable all to share in a smaller assembly which will be one of forty-five to be held this summer in the United States, Canada, Bermuda and the British Isles.

"The convention in Amarillo is designed for all members of the family who will attend equipped with Bible and notebook," Lane said.

**Library Lore**

Nature never sleeps. The profane life never stands still. Creation has not come to an end. The Bible says that God rested on the sixth day, but each of those days was many millions of years. That day of rest must have been a short one. Man is not at a beginning. We are at the beginning of the second week. We are children of the eighth day. One of the characters in "The Eighth Day" by Thornton Wilder. His novel is about the return of this century starting late 1800 to 1905. The people that time were children of the eighth day. This is the author's novel since he wrote "The Bridge of San Luis Rey." Also, his play "The Matchmaker" was adopted for our wonderful musical of today, "Hello Dolly." Mr. Wilder is a man of stature. Few of our real-life fellow-creatures so vividly our thoughts as Wilder's strong characterizations in this novel, which you can get at the library in Memphis. It tops the best seller list.

Men put off things they ought to do, and women put off things they ought to wear.

### NEWLIN

This new time makes our day start earlier. Kinda like we were as children, our day began before the sun came up, as our parents believed in providing for the family at home. There were no government checks, just cream checks that were obtained from milking a herd of cows by hand, and that was done before breakfast. We took the skimmed milk to feed hogs so we could have some to kill to supply the meat, also, had to have some to see, so taxes could be paid. We didn't know anything about state aid, the only aid we knew about was lemonade to celebrate the 4th of July. There were plow-ups for we had to feed the horses and cows, didn't have much child trouble as a hoe was a wonderful help to take care of delinquency. Sundays were used for going to church, asking neighbors home with you and a day of rest. Did we like the times then? No, but neither do we now.

Mr. and Mrs. Glynn Davis and son of Colorado were in Newlin Friday of last week. He was a grandson of Mr. and Mrs. Jim Davis.

Another family of former Newlin residents were Mr. and Mrs. Boys that visited with Ollie Ballard and Mr. and Mrs. O. S. Misenhimer.

J. N. Helm, Sr., is at home after all his stay in Liberal, Kans., at the hospital. Bobby Helm and children of Pampa visited with his father Sunday.

Mr. and Mrs. Mack Sims of Hedley and Mrs. E. A. Nelson and Guy Lynn of Childress were Sunday visitors of Mr. and Mrs. A. M. Sims.

Mr. and Mrs. George Pope of Plomot visited with Mrs. Annie Hamilton Sunday afternoon.

W. D. Stewart visited Friday and Saturday in Amarillo with their children.

Mrs. G. E. Nelson had friends Friday for lunch.

Mr. and Mrs. J. N. Helm, Jr., and Janie, Mrs. Leon Helm and Mike Helm, Mrs. George Helm and Marsha all attended the wedding of Judy Smallwood on Thursday of last week in Liberal, Kans.

### Four Members Of Massey Family On European Tour

Four members of the Alvin Massey family will be traveling in Europe and the Middle East this summer, according to information received from Roy Alvin Massey this week.

Abbie Louise Massey left for Europe from Houston on June 4. There to see her off was her sister and brother-in-law, Mr. and Mrs. James Bradshaw, who had just returned to Houston from a vacation in the Bahamas; her mother, Mrs. R. A. Massey of Dallas and brother Roy Alvin Massey of Dallas.

Abbie Louise has just completed a tour of the French chateau country, including Normandy and Brittany and after several days in Paris is at present touring Belgium and Holland on her way to Copenhagen, Denmark, where she will meet her sister, Mrs. Charles Leeds, of Los Angeles, the former Margaret Ann Massey. Mrs. Leeds left California this week for Ireland and will go to Copenhagen to meet her sister on June 26.

They will then go to Berlin.

Vienna and into Germany where they will pick up a car and meet their mother, Mrs. Alvin Massey and Roy Alvin who are leaving New York by plane July 4 for Iceland.

Mr. Massey said he was particularly looking forward to the visit in Iceland as it is the only country in Europe he has not visited. After a brief visit in the Iceland capital of Reykjavik, they will fly on down to Germany to meet Mrs. Leeds and Abbie Louise.

The foursome will then motor through Switzerland, Italy and Yugoslavia to Athens, Greece. They will spend some days in Athens and will tour the Greek countryside and the Greek islands before sailing for Israel and those parts of the Middle East which will be open for travel at the time.

They had planned to do extensive travel in Egypt, but the present situation will likely make that impossible so they plan to substitute Persia for that part of their journey. They will be in the Middle East until mid-August when they will return to Europe for a bit more touring before returning to the States around the middle of September.

### Giants— (Continued from Page 1)

The Tigers finding the one-hour and thirty minutes allotted time for their game too short, as the affair ended in a 7 to 7 tie which gives each of the two teams identical records of two and a half games won and lost. In the second game, the Giants were trailing the Lakeview Eagles in the game but a last inning rally by the Giants captured a 11 to 7 victory. Last Thursday night, the Indians defeated the Lakeview Eagles by an 8 to 3 score. The Giants were impressive in their 13 to 6 victory over the Yankees. The Lakeview Eagles, the youngest team in the league, have an 0-5 record so far but the team is showing steady improvement with a lot of support by the fans. This is the Eagles first year in the league and it has no farm team in support. Most of the players on the Eagle roster are new in the Little League program. Fans are reminded that the Farm Team League is playing games on Monday evenings, and the Pony League plays on Friday evenings.

A rod so repaired will work fine.

I'm sure that it is disconcerting to many so-called "weekend fishermen" to note the same anglers' names being published again and again in the local newspaper when catches of big bass are reported. Many readers dismiss such feats as luck. Well . . . catching one trophy bass can be attributed to luck. But when an angler consistently brings in big fish, he knows something many other fishermen don't know. What's his secret?

One fact about fishing reports that many casual readers overlook, is that the same angler usually catches his fish from one or two lakes or streams near his home. He doesn't let the wanderlust beckon him to far-away places. He fishes these "home" waters regularly. When an angler travels to a strange lake or stream to fish, the odds are against him. That is, unless he hires a professional guide who knows the water and how to fish it. Bass have certain spots where they prefer to hang out. Perhaps one weed bed or a submerged tree on a lake is such a spot. A sprawling man-made impoundment has so many spots, so much water, that it takes a long

time before the fisherman finds these hotspots. These are discovered by trial and error, by fishing regularly, by being observant and keeping tabs on spots which produce. These same places pay off with fish time and again. There is something about the water and environment which bass prefer. When a big one is taken out, another lunker most likely will move in and set up housekeeping. Once a fisherman has learned of several such spots, he frequents them often. True, he may go through "dead" periods when the fish are not biting, but when they do begin foraging, he knows his bait is in waters where he stands the best chance of getting one to hit. There's an old saying that no lure will produce unless it is presented close enough for a bass to hit. Far too many fishermen spend time casting in places where there are no fish. Through experience and study, the angler also has learned which particular baits the fish prefer and at what seasons. Perhaps in early spring a plastic worm bumped right along the bottom will pay off. A month later a shallow-running bait might be the secret. And in early summer a topwater plug could be the best bet.

### Clarendon Drama Predicted To Be One Of The Best

By VIRGINIA BROWDER If the enthusiasm, energy, and determination of Clarendon citizens are a favorable indication, "Saint's Roost Saga" promises to be one of the best productions given in that city in years. Staged against a backdrop of simulated wooden-front buildings, this outdoor historical drama depicting the history of Clarendon and Donley County is an action-packed saga of the early-day settlers, their trials, stamina, and gaiety. Cowboys ride, fight, and flirt with the pretty Can-Can girls who add color and glamour to the show. Told in story, song, and dance, this lively spectacle under the canopy of heaven promises to be an evening of delightful entertainment.

Strictly a home-town production with the acting, singing, dancing, riding, and merriment performed by a talented citizenry. The fun, excitement, and thrills will reward all those paying \$1 adult and 50 cents student admission fees. It will be one of the entertainment treats of the season. Make plans now to see "Saint's Roost Saga," Sunday evening at 9 p. m., July 2, in the football stadium in Clarendon. Karlie and Kelly Kenyon of Oklahoma City are spending the week with their grandparents, Mr. and Mrs. John Capps of Lakeview while their parents, Dr. and Mrs. Rex Kenyon are attending a medical convention in Atlantic City, New Jersey. Dr. Kenyon will be one of the speakers at the conference.

wait in the water . . . not in the tackle box. Furthermore, he knows that big bass feed only occasionally. Thus he might cast for hours without a strike. But if he stays with it, somewhere, someplace, he'll hit that jackpot. When preparation meets opportunity, that's luck—not fate. But it's planned success.

Getting Twist Out Of Line Most aggravating thing about a monofilament leader is its inclination to curl. Anglers who use such leaders should carry in their tackle boxes a sponge rubber ball with a slit in it. Run the line through the slit several times, pulling hard, until the twist is removed.

But be sure to keep the swivels free of salt water corrosion by cleaning after each use then storing in a small bottle with light, non-gummy Be sure the bottle has a rust screw cap.
