Adult Volunteers Sought For 1969 Little League

Friscie and Supt. C. L. Friscie need to know whether adults in the Memphis area are interested in having and working with the Memphis Little League program this year.

meeting is scheduled to be held, Friscie said.

"So far, only one or two adults have expressed any interest whatsoever in working with a Little League baseball program this summer. If we don't have enough volunteers to step forward to be coaches, umpires, score keepers, etc., we can't have and will not attempt to begin a Little League program this year," President Friscie said.

Last year's Little League program was most successful due, primarily, to the coaches of the teams and two or three of the Memphis Little League adult leaders who devoted about every night to the program seeing that everything was accomplished.

Because of the improvements made by the Memphis Public Schools and volunteer workers, to the field, Memphis has been offered the opportunity to be the host city for the Area Play - offs in July. The April 14 meeting will determine whether or not Memphis gets the playoffs here.

"We can have the playoffs just for the asking, but this will mean volunteer workers will have to assist school personnel put up bleachers, the final step in the

improvement program which began two years ago," Friscie said. "Mr. Chambliss and I both agree that without adult interest, help and support for the program, there is no need to continue the program," Friscie said.

Construction On Red River Bridge Crossing Begins, Safety Stressed

At a pre - construction safety meeting in Memphis at the Texas Hwy. Dept. barn Wednesday, contractors from the Austin Bridge Company met with Resident Engineer Arville Coyle and representatives of the Texas Hwy. Patrol and news men.

Joe Clark is the Construction Supt. and the Austin Bridge Co. announced that they need workers from this area to help build the upstream bridge across Red River north of Estelline.

Those interested in employment should contact Clark on site.

The bridge will be 90 feet upstream from the present U. S. Hwy. 287 bridge and with approach ways will cost \$958,223.77. It will take 200 working days.

During the stage of driving pilings in the river bed, the contractors

are planning to work night and day due to the danger of bad weather.

"We consider this river treacherous", a representative of the bridge company said in explaining the need for working at night during the crucial period of driving bridge pilings.

There should be little danger to traffic during the projects as existing roadway will not be disturbed and traffic is expected to proceed through the 1.8 mile construction area normally. Forty M.P.H. signs will be erected when necessary.

Citizens and youths were warned of the penalty of removing or damaging highway barricades or traffic control signs.

The construction of this highway bridge will make a four-lane crossing for Red River, one of the final legs of a four-lane highway from Amarillo to Fort Worth.

Construction has already begun on the bridge and the contractor firm hopes to complete the project before freezing weather next fall.

EDITORIAL

Saturday Is A Day To Vote

Saturday, April 5, is an important day for all residents of Hall County because it is a day to use your privilege as an American citizen, that of electing men to run our various levels of government.

Sometimes we forget that those who sit on our city councils and on our school boards (district and county) are governmental officials and make rules and laws to govern our schools and cities.

City councils pass ordinances which are laws, enforceable by law enforcement officials, upheld in the court systems, with punishments of fine or imprisonment (or both). Our school boards set school policies which govern the daily lives of our children for at least nine months each year and determine to what extent and level of education school children will reach in their school district.

Sometimes city commissions or other ruling bodies do not see "eye to eye" on issues, goals or procedures and friction is seen by the general public. This is when the flame burns bright during an election campaign, as we are seeing in the Amarillo City Commission and Mayor contest. Do not for one minute think the antics, charges and countercharges of the Amarillo campaign this year are entertaining or humorous, or even outside the interest of citizens living in our area. We also have a vested interest in the outcome of this particular election; for whether we like it or not, Amarillo, and its growth and progress, will have a great effect on the Panhandle of Texas and Hall County is in the Panhandle of Texas.

But even more, we have a vested interest in the elections being held in our four school districts for trustees, in our county trustees election, and in our separate city elections for mayors and aldermen or city council members. Don't be one of those who think it doesn't matter, for it matters a lot.

Let's exercise our right as a citizen in our community and in our school district. Let's go vote in Saturday's elections. They are important to us and our county.

The Fate Of Memphis Little League!

Last year, thanks to the determination and dedication of a few, just a small number of men, the Memphis Little League program had one of its most successful years. Memphis has been invited to be the host town for the Little League playoffs in July.

But as of now, only two or three adults have expressed any interest in continuing the program. What about the boys who play? They want to play summer baseball. If you don't think so, just ask one of them.

But without adults to be managers of the teams, umpires, score keepers, etc., and to see after the official business of the Little League program, to raise funds, to purchase equipment, to maintain the field, there can be no Little League program this year.

Do the adults want the program this year? If they do, they need to contact either C. L. Chambless, School Superintendent, or Royce Frisbie.

We need to have a meeting, make some plans, and get a bunch of adults working now, it was pointed out. Managers are especially needed.

What about those few who worked so hard last year? They served well. But due to the enormous job they had, this year they can not do it again. It will be up to those who want the program and are willing to work in it, if Memphis has Little League baseball this year.

Royce Frisbie expressed it this way: "No one will work who has had his arm twisted off. You have to have willing volunteers who are dependable to do their job week after week and who enjoy working in the program."

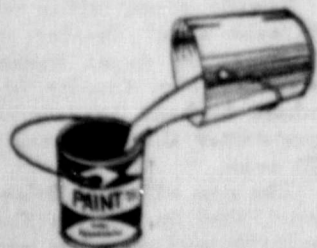

If no volunteers step forward, then Memphis will have no Little League this year. Lakeview citizens have indicated they will not have a team this year, so if Memphis has a program, it will be a four-team field and schedules will be drawn up accordingly.

What Other Editors Say

How Are You?

Did you ever make the mistake of asking someone how they are feeling and ending up an hour later really knowing? I asked a lady that question recently and boy did she ever tell me! That lady had so many things wrong with her I was surprised she could get around.

Reminded me of a little old aunt of mine. She enjoyed poor health more than anyone I can remember.

To most people, "Hello and how are you?" is a greeting. To my aunt it meant, "I've got a live one who wants to hear about my bladder."

She was always a brave little soldier. That is, she never went to bed but there were always visible telltale signs to indicate she wasn't going to start any long novels. A man's white handkerchief tied around her head signified a bad headache. A limp meant her hip had slipped out again, while a heavy flannel rag, saturated with something decayed, meant she "had it in the throat."

The only time I ever saw her depressed about her bad health was when someone mentioned how good she looked. Then she bristled and said, "That is all you know, I'm going to a doctor to-

morrow.

I know what he's going to say. He's going to put me in the hospital and have some of this fat cut out."

Having your fat cut out isn't too scientific, but then neither were any of my aunt's diagnoses. She once told me a friend of hers dyed her hair so often that the henna soaked into her skull, penetrated her brain and killed her dead.

Just as some people want to see the Pope or Niagara Falls before they die, my aunt wanted to go to Mayo Clinic where the names were all in Latin and they had some respect for people who were sick.

As it was, she had to settle for a large, leather-bound medical dictionary. In one week alone she had abdominal pains, agnail, anemia, anthrax, apoplexy, appendicitis, arteriosclerosis, athlete's foot, and azotemia (disease of horses, characterized by sweating).

She was moving right along with the book when she called one day and I asked, "How are you?"

"Not too well," she said, "I'm having trouble with my prostate glands."

"Well, there's a lot of it going around," I said. "You take

care of yourself now."

She signed, "We all have our crosses to bear."

Now, I never watch television but that I don't think how my aunt would have loved it. All those glass stomachs, acids eating right through metal, nasal-graph tests and those little Bufferin and aspirin racing each other to the blood stream. How she would have enjoyed it.

I remember her in the hospital when she was 98, just prior to her passing. I said softly, "Aunt, you don't look too good." She smiled and said, "Thank you."

More Boll Weevil Community Meets Planned By Insect Control Assn.

Every Boring III, area entomologist, Vernon, was speaker at the director's meeting of the Hall County Insect Control Assn. Friday night in the Hall County Courthouse.

He presented a very educational talk along with slides on boll weevil research being conducted by our government agriculture agencies.

The recent research has given us exacting data concerning habits and movements of the weevil. Through the present treatment of some 26,000 boll

weevil traps is still on an experimental basis, past small scale experimenting with these traps has proven so successful it is felt that this large 40,000 acre cotton coverage will be a complete success and possibly lead to the control of boll weevil.

The Hall County Insect Control Assn. along with Hall County Agent W. B. Hooser has used all available means in an effort to obtain a supply of these boll weevil traps for the area in their communities, but to date none have been made available, Presi-

dent Doug Burgess announced. The three local flying services were also present at the meeting and were asked to study the plans now being made for the control of over wintered boll weevils so that they might be able to submit a suitable bid for aerial spray control of the boll weevil.

Miss Ginger Greene Is Shower Honoree

The home of Mrs. Allen Dunbar, 1221 Bradford, was the scene Tuesday evening, April 1, for a lovely pre-nuptial shower given to honor Miss Ginger Greene, bride-elect of Michael Caldwell of Kansas City, Mo.

Guests who called between the hours of 7:30 and 9:30 o'clock were greeted by Mrs. Dunbar and presented to the receiving line composed of the honoree, Miss Greene; her mother, Mrs. Gayle Greene; Mrs. Robert Caldwell of Kansas City, Mo., mother of the groom-to-be; and Mrs. R. S. Greene, grandmother of the bride-elect.

The Dunbar home was attractively decorated for the occasion featuring the bride-elect's chosen colors of white and yellow.

In the dining room, the table was laid with a lovely floor-length white cloth of Ninon and centered with an epergne holding an arrangement of yellow daffodils flanked by yellow tapers. Table appointments were in silver.

Mrs. D. L. C. Kinard and Miss Carol Greene, sister of the bride-elect, alternated at the silver punch bowl while Mrs. T. M. Harrison and Miss Sandy McQueen alternated at serving the dainty cake squares which were decorated with yellow roses.

Miss Jane Dunbar presided at the bride's book to secure signatures of the guests.

Also serving in the house party, other than the hostess group, were Carol and Nancy Voyles, and Mrs. Lynn Webster.

A lovely array of gifts was displayed on tables covered with floor-length white cloths which were gathered at the edge of the tables. Nougats of yellow roses were used to decorate the tables and clusters of the same roses were gathered at the edge of the flounces of the tables.

Also noted in the party suite were arrangements of yellow and white jonquils and daffodils.

Hostesses for the courtesy, other than Mrs. Allen Dunbar, were Meses R. C. Lemons, H. R. Crawford, A. L. Gailey, T. M. Harrison, Ruth Harrison, T. W. Harrison, D. L. C. Kinard, Ernest Kilgore, Maragret Snowdon, Emily Hillhouse, Ross Gentry, Bill Cosby, Lesley Foxhall, Bill Whitten, John Deaver, Herschel Combs, Mac Tarver, Hubert Jones, John Shadid, Harold Smith and Lee Brown.

Who won the hammer throw at the Melbourne Olympics in 1956?

Harold Connolly of the United States was the winner. His is an unusual story.

Connolly's left arm had been weak since birth. He'd broken it some four or five times while wrestling or playing football. As a strengthening exercise, he would throw back the hammer to the hammer throwers at Boston College.

"When I found I could throw it back further than they could, I took it up seriously", he says.

At the 1956 Olympics, a Russian contestant was the solid favorite to win. But the 25-year-old history teacher was determined. Connolly had even pasted a picture of his Russian rival on his car windshield to remind him of his competition.

Weekly Food Buys Are Advantageous To Housewives

Pennies add up to savings when you take advantage of weekend food specials. Here are some marketing tips from Gwendolyn Clyatt, Extension consumer marketing information specialist with Texas A&M.

Fresh asparagus is found in many stores now but prices remain relatively high, according to Mrs. Clyatt. Green cabbage prices vary but generally are in moderate price bracket as are broccoli, squash, eggplant and head lettuce.

Carrots, turnips, celery, potatoes, dry onions and sweet potatoes are among the more economical choices.

Grapefruit is still in ample supply, the specialist says. Oranges, apples which come from controlled atmosphere storage, pineapples and bananas are other fruit choices.

Pork featured in some markets this weekend includes Boston butt roasts, shoulder steaks, end cut loin roasts and chops. Semi-boneless, whole, butt portion, shank portion and canned hams may vary a few cents lower than a week ago.

In the grocery department Mrs. Clyatt points out good values on canned tomatoes and tomato products, canned and frozen corn and cut green beans. At most frozen food cabinets some brands of pot pies, frozen dinners and fish sticks are offered at lower than usual prices.

Farm Electrification Short Course Set For April 14-17 In Lakeview

A Farm Electrification short course on electric motors for adult farmers will be held April 14, 15, 16 and 17 under the sponsorship of the Lakewood High School Vocational Agriculture Department, according to Mr. A. P. Jones Superintendent and Mr. Barney J. Bevers, teacher of vocational agriculture.

The short course is being sponsored by the vocational agriculture department of Lakewood High School.

Bob Jaska, Farm Electrification specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

Jaska holds a Master's Degree in Agricultural Engineering. Since 1947 he has been prominent in research work in Farm Electrification at A&M University, in addition to teaching Farm Electrification in the Agricultural Engineering Department. His research and field work carried him over the entire state so that he is very familiar with all types of electrical problems on the farm. He joined the Agricultural Education Specialist program in 1958 as Farm Electrification Specialist and has served as Coordinator of the entire program since 1962.

"Many Farm Electrification short courses in various parts of the state have been taught by Mr. Jaska and all have met outstanding success," according to Walter Labay, area supervisor of vocational agriculture, Plainview. Arrangements for the adult education short course in Farm Electrification and in other fields are made through Mr. Labay's office.

The short course at Lakeview is scheduled to begin April 14 at 7:45 in the vocational agriculture building. Other meetings in the series of 4 will be held April 14, 15, 16, and 17. During the dates the short course is in progress, Mr. Jaska will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Barney Joe Bevers.

Farmers interested in attending the short course should write or call the superintendent of schools, Mr. A. P. Jones, or the teacher of vocational agriculture, Mr. Bevers. An entry fee of \$3 will be charged. Farm Electrification Short Course Certificates are to be presented to each farmer who attends all the training sessions.

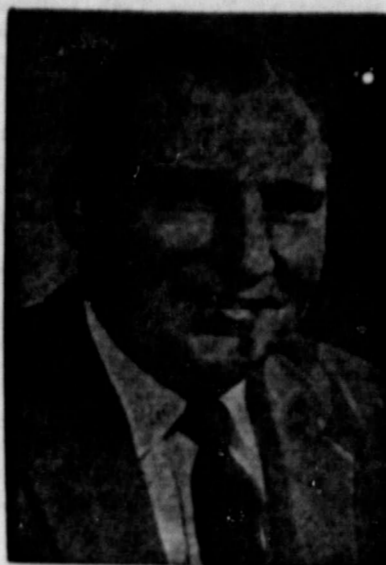

Mr. Jaska states that the short course can be adjusted to wishes and interest of the farmers enrolled, but that he expects to cover such subjects as safety, how to properly choose wire sizes and install motor circuits, how to choose, protect and ground electric motors, how to reverse and change motors from 120V to 240V operation, and how to calculate the cost of operating electrical equipment. Demonstrations will be given and class enrollees will have the opportunity to perform the skills demonstrated.

Short courses in Farm Electrification.

FARM BUREAU MANAGER—Shown above is Russell Bryant who officially took over the Agency Manager position with Hall County Farm Bureau Tuesday, April 1. He is a native of Muleshoe and comes to Memphis from the Bailey County Farm Bureau office.

SPRING REST—Pictured above, Mr. and Mrs. George Benson inspect the results of spring rest on range on their ranch northwest of Brice.

Good Growing Season Ahead Is Best Time For Spring Resting Of Grass

Good existing moisture and a growing season ahead are conditions best for spring resting of native grass land according to Herb Evans Soil Conservationist, Memphis.

Spring resting is essential for grass growth and high forage production. Resting pastures this year in Hall County will benefit from the minimum rest.

A rest rotation system, taking advantage of your pastures of equal production potential is one of the best things you can do for range grass improvement. This technique is the latest development in range management.

A good healthy growing grass is money in the bank to the rancher.

For more information on how spring rest helps and how a rotational rest system can benefit you, contact the Soil Conservationist, Memphis.

During the meeting new officers were elected for the year. Officers elected included Roger Messer, president; Ronnie Morris, secretary; Betty Ann Morris, treasurer; Alvin Phillips, treasurer; Teddie Jean Allen, reporter. New directors will be appointed at the next officers' meeting.

Byron Baldwin was guest speaker for the evening. He presented a talk on the Heritage Hall and the importance of it. At the talk, the C. B. Club presented a check to Mr. Baldwin for the furtherance of the club.

At the conclusion of the meeting, Byron Baldwin was made an honorary member of the Citizens Band Radio Club.

The next meeting of the club will be held on April 10.

By BYRON BALDWIN

Well, we have just been going and chucking like an old hen in Heritage Hall, and it looks like you can still be like the hen. As I leave the nest after laying the egg, she has something to say about it. I hope we can have something to cackle about after Heritage Hall in shape.

My little radio on about a few nights ago and a came over it to send the Lord and they would send you a cloth, Box number and town in California. It was that I had heard that the Lord moved from Heaven to California. This cloth would cure all and pains of which I have had many, but have not the for this yet.

Up around the Methodist building with lot of My first thought was Darius preaching one of those sermons; next I thought it maybe the burning bush, but went out to be just a trash when the brick walls came down, with all the dust, but thought was of Samson and his hair cut in revenge, the walls down.

I checked the new wing construction of the hospital a few days. They are coming along with touches. A few rooms will be available for furnishing. How about you? I'd get a story about Ed and Wendell Harrison

when they were teenagers. Ed said, "Well, we were both little angels when we were teenagers. Besides, your column has been clean and let's keep it that way".

Dr. Odom had his 86th birthday in March and he was up and at 'em with a big smile. Also, Mr. Hickey had his 88th birthday in March and I think he still does his own cooking and eating. Hope I can be that spry it I reach that age. From "This is Your Life" of Dr. Odom when he was a very young man before he married, he lived around Rogers, Texas. Jim had bought a new blue serge suit and he and some more boys went out in the country to attend a bohemian dance in a pasture which had barbed-wire around it. Things began to warm up with a few gun shots. The shortest distance out was too slow for them. Jim left his coat and part of his pants in the barbed-wire, but got out safe and sound.

Met Mrs. Yarbrough at post office the other morning. Said she was flying to California that day to see Mr. and Mrs. Marvin Dishroom. Marvin is near 88. I read that 40 is the old age of youth and 50 the youth of old age. Do you believe that?

We need family history of families in Hall County past and present. So many old-timers have only 2 or 3 left to write the history of the family. Will have storage space in vault of Heritage Hall to keep them. In talking to some of the family of Mrs. N. A. Hightower who passed away a few weeks ago, I learned there are now only 3 left of the Boone family, who moved to Lakeview in 1910 and there was a family

of 10 then. And there are a lot more families who have only a few left to get and give us this information. Please do this.

Noticed in the newspaper that there are now about 20 thousand donkeys in Death Valley, Calif., which is a heritage handed down from the gold rush days. Said they were going to give away about 2 thousand for pets on account of shortage of grazing. My experience with a donkey was he had good brakes when he stopped and if you turned your back on him, he would either bite or kick you.

Willis Lemons could tell you a little about a donkey, as about 50 years ago he had one hitched to a cart and had a big container on way to slop the pigs. The donkey had a run-away and landed cross-ways in the Martindale front gate.

We understand that Highway 287 Caravan is making up in Memphis this year on the 18th of April. Let us get Heritage Hall dressed up in time for this event as there will be a good many visitors in our city that day. Let us make them wish that they lived in our community. We have a showcase for each and every club in the county to make their displays.

In reading and listening to television, radio and all comments in the loss of our great leader, I have personally come to the conclusion that Eisenhower was the No. 2 saint of our nation, father of our country, and No. 1 GIANT.

Sunday night after services the First Baptists had fellowship hour with their pastor, Rev. John Bobo, as it will mark the first year of

his pastorate. We called him Babo when he first arrived in Memphis. He questioned that name, so explained that it was a cleaning powder and the church had been without a pastor so long, he would have to do a lot of cleaning up. I think he has about given up at some of us, but he is still trying. Only about one-fourth of the population in Memphis attends any Sunday School. With inflation I do not know whether the penny is still the most religious piece of money coined or printed.

Some of you old timers will remember Jet Fore of early days in Memphis. This letter's from Jet to Lucile Wright (his sister-in-law). Said, "He woke up at 2 o'clock in morning craving a glass of milk, so he goes out to the refrigerator and before you could say Jack rabbit, 'I was lying on the floor feet in the kitchen and my head in the door.'" Jet has been confined at home several months since the fall. Said his friends told him to have his wife rock him to sleep as he had a hard time sleeping. Well, he says she could not find any rocks but did find a brick and says he slept alright about 3 days and nights and thinks he will be able to wear his hat in about another week, and "since I have been laid up, I have taken pills faster than they can make them". Best wishes to Jet and Dora.

Mildred Stephens Attends Meeting Of Nursing Home Assn.

Efficiency in the Kitchen, Personnel Evaluation, Patient Rehabilitation, Infection Control and Shenitation, and Geriatric Sex Problems

Track Team Qualifies 2 Relays, 3 Runners

The Memphis Cyclone track team competed in District 2-AA track meet Tuesday qualified both relay teams and three individuals to go to the Regional Meet later on this month.

"I feel we did exceptionally well considering sickness and injuries," Coach Bert Glascock said. "We placed third behind Iowa Park and Seymour."

Iowa Park captured 126 points, Seymour took 95.5 points, Memphis got 89 points, Wellington took 57 points, Shamrock 42, Quannah 35, Childress 33.5 and Electra 18.

Friday, members of the Cyclone squad who will be competing in Region will enter a meet in Berger, Coach Glascock said. "We'll enter several events we did not qualify in, naturally, at Berger," the coach said.

Possibly the most exciting event in the district meet was the mile relay, which Memphis won with a time of 3:31.9, finishing a few paces ahead of Seymour. Ronnie McFalls was a last minute selection to run the first leg of the relay, replacing Ronnie Phillips who has been ill and was unable to compete in either the 440 - yd. run or on the relay team.

McFalls handed the baton to James Fleeks who was able to pass two other teams to take over third place at the handoff to Loral Rogers. Rogers, primarily a sprinter, used early speed to almost catch the leading Seymour team when he handed off to Roge Fowler. Fowler passed the Seymour anchor man before he reached the back stretch and increased his lead sufficiently to win the race.

The sprint relay team placed

second behind Iowa Park with a time of 44.3 while Iowa Park had 44.5. Members are Fleeks, James Spruill, Robert Cornish, Loral Rogers. "Spruill has been hampered with a pulled muscle and this was the only event he participated in at the meet," Coach Glascock said.

Roge Fowler turned in a time of 2:01.1 in capturing the 880 yd. run, an event he has been strong in placing either first or second all season.

Loral Rogers continued his dominance in the 100 - yd. dash with a 10.1 time to win that event. Robert Cornish placed fourth with a 10.6.

Memphis miler Gabriel Garza staged an exciting finish as he took the lead for the first time only a few paces from the finish line to win the mile run with a time of 4:39.9.

Merle Kilpatrick lost the right to go to region in the high hurdles by the toss of a coin in a dead heat finish for second place. His time was 16.2. He placed third behind Childress and Iowa Park. He also took fifth in the 330 - yd. intermediate hurdles.

Ronnie McFalls placed sixth in the 440 - yd. run with a 54.5.

In field events, Johnny Scott placed fourth in both the shot put and discus tosses of 127-0 and 47-11 and three - quarters respectively. Cornelius Whitmore was fifth in the shot put with 466-8.

Freshman Team
Coach Glascock had high praise for the freshmen who took third place. These boys looked great and I was proud of them," he said. "I want to cite some of these boys for their performances" he said.

He said Terry Wynn captured his admiration when, on the 880-yd. run, after leading for 660-yds., he fell down, got up and fell down again, got up and finished the race. "He was completely exhausted after running a 60 second, 440," the coach pointed out.

He cited Lewis Davis for winning second on the high hurdles after taking a fall and Donnie Carroll for a fourth place.

Davis won the 330 - yd. intermediate hurdles. Tommy Johnson took fourth in the 440, running with a hurting leg. Larry Johnson was also cited for finishing the mile run.

Roger Kehr placed sixth in the shot put and Kenneth Jones took sixth in the discus.

Mack Miller and Lewis Davis took second and third in the pole vault.

The mile relay team placed fourth but ran a good race, the coach said. Members are Carroll, Wynn, Davis and Johnson.

"We didn't enter all the events but we looked good in those we did enter," he said.
