Lakeview Tennis Tourney Is In Need of Entries

Entries in the Lakeview annual open tennis tournament are coming in, Sponsor Barney Bevers announced this week, but their are several brackets open.
The tournament will begin July 30 and continue through Aug. 2, he announced. Divisions will be grade school, freshmen, high school and open in the tournament.
Entries from Amarillo, Flomot, Happy, Plainview and Lakeview have already been received.
Those interested in entering the tournament should contact Barney Bevers, Box 535, Lakeview, Texas or call 867-2601.
Entry fee is \$1.50 for all singles and \$3.00 for a double team.
"Entries have been coming in a little slower this year," Bevers said, Tuesday, "but we hope to have a good field in all divisions by tournament time."

The Memphis Little League All-Stars for 1970 have done something that no other Memphis All-Star team has done in the 12-year history of the affiliated Little League, they have successfully won the Area 2 title and are advancing to the District tournament to be held in Hereford next Monday and Tuesday.
President Royce Frishie said Memphis All-Stars will play at 7:30 p. m. in Hereford against possible a Berger team in the first game of a four-team elimination.
The Memphis All-Stars, with good pitching by Charles Bryley and Ronnie Wilks and crisp batting walked over their opponents, Carson County Tuesday night 8-5 and Childress Wednesday night 16 to 2 to capture the title which has eluded over Memphis All-Star teams in past years.
Monday night's game with Carson was postponed due to rain in Claude, but Memphis lads were not cooled by the cool weather as they downed their opponent Tuesday 8-5. Memphis jumped into the (Continued on Page 10)

Emergency Hay, Grazing Approved On CAP Land

Emergency haying and grazing has been authorized thru September 30, on land retired under the Cropland Adjustment Program, according to Larry B. Rogers, Director of the Hall County ASCS office.
This authorization is in addition to having or grazing annual program diverted land, which was released on July 1.
Before any producer will be permitted to graze or hay CAP or diverted acreage, he must file an application at the County ASCS office. A charge for the value of grazing or harvesting will be collected or deducted from program payments, Mr. Rogers said.

First Baptist Youth Choir To Present Musical; Leave On Tour Sunday

"Wonder", an outstanding musical of the year, a Christian production by Ronald K. Wells, will be presented at the First Baptist Church of Memphis at 11 a. m. Sunday, July 26, by the youth choir of the church, just prior to

the choir leaving for a four-state tour.
The public is cordially invited to attend the special service presentation by the choir under direction of Ed Shubert, Director of Youth, Music and Education,

of the church.
The youth choir leaves Sunday afternoon for their tour of churches in Oklahoma, Kansas, Colorado and Texas. They will be on an evangelistic crusade to spread the peace with Jesus Christ,

the only real peace, it was announced. They will return Sunday night, Aug. 2.
Besides their director, Ed Shubert, the sponsors are Carole Shubert, James and Sarah Ann Moss, Mrs. W. R. Scott and Bus Driver

and R. S. Patrick.
The instrumental ensemble with the choir includes: Claudia Corley, pianist; Randy Dale, guitarist; Mitzie Lindsey and Melissa Jones, flutes; Carolyn Sparks, trumpet; Tommy Greene, French horn, and

Mark Gentry, drums.
The professor is Sport Weddel and the doubler is Elaine Phillips.
Christians are: Larry Moss, Lu Gay Gorfrey, Gary Sims, Jo Ann Scott, Mark Hundley, Brenda Gresham, Mark Bradshaw, Donny Scott, Wayne Davis, Kathy Hall and Bill Oslin.

bringing Jesus Christ into their arguments, claiming he is no greater than Mohammed or Buddha. The students answer by detailing the main events of the life of Christ as "The Greatest Miracles." He counters by pointing to the technical miracles of today, especially in space exploration.

YOUTH CHOIR ON TOUR—The youth choir of the First Baptist Church of Memphis will go on tour Sunday of a four-state area presenting the musical "I Wonder." Above is pictured members of the choir which practiced recently under the Director Ed Shubert. Front row, left to right: Melissa Jones, Carolyn Sparks, Randy Dale, Mark Gentry and Tommy Greene. Second row from the left are: Claudia Corley, Meredith Douthit, Jo Ann Scott, Silua Ayers, Gary Sims, Elaine

Phillips, Tanya Wood, Kathy Carmen, Johnnie Sue Hancock, Teresa Kilpatrick and Sport Weddel. Third row from the left are: Jamie Moss, Kathy Hall, Brenda Gresham, Susan Richards, Carol Godfrey, Dianne Clayton, Susan Godfrey, Cindy Maddox and Ramona Ballew. Back row is: Wayne Davis, Donny Scott, Larry Moss, Bill Oslin, Mark Hundley, Mark Bradshaw and Randy Archer.

The Class, girls, are: Silua Ayers, Ramona Ballew, Kathy Carmen, Susan Chick, Dianne Clayton, Meredith Douthit, Carol Godfrey, Susan Godfrey, Teresa Kilpatrick, Jamie Moss, Tanya Wood, Cindy Maddox, Susan Richards, Brenda Elliott, Johnnie Sue Hancock, Melissa Jones, Mitzie Lindsey and Carolyn Sparks.
The Class, boys, are: Mark Gentry, Tommy Greene, Randy Dale and Randy Archer.

"I Wonder" is the story of an atheistic professor with one goal, to destroy the faith of the few Christians in his class who believe the Bible.
The class has barely assembled when he begins his ridicule in the solo, "God is Dead." They quickly murmur in the background, "I wonder, I wonder, I wonder." The students answer with, "If God Is Dead," and then join in the title song "I Wonder."

In dialogue the professor challenges the "fairy tales" of Genesis, and a student answers with the recitative, "The Creation," followed by a solo, "The Ballad of the Bible." The professor complains that that's for history, not the 20th century. The students reply, "But Where Shall Wisdom Be Found?" using the words of scripture.
The professor derides them for

When the professor attacks the church, they sing "We Have An High Priest," using again the words of Scripture and blending in the text, "If we confess our sins He is faithful and just to forgive us our sin and to cleanse us from all unrighteousness."
The professor then ridicules the prophecies in the Bible, and in "Haggai!!!" the pupils tell of the prophecy of the return of Christ to bring peace. Then "The Master Will Come Again" is sung to an adaptation of a Mendelssohn melody. The music builds toward a climax in the numbers, "No, I Don't Want to Be a Doubting Thomas" and "I Believe."

This Is National Farm Safety Week!

Hall County is agriculturally oriented, minded, and has its roots firmly planted in the soil. Few areas in this state and nation rely any more on their farmers and ranchers than this area so when our people adopt new and more efficient farming and livestock practices, the whole population benefits. More horsepower, more chemicals, more electric power, irrigation, weed control practices are all increasing.

But when it comes to farm safety, many of us are likely to trust to luck. We do not plan accident prevention.

Technology changes the ways of farm safety, just as it changes farming procedures.

Farm accidents are costly, tragic, and the effect is long lasting.

Our Governor proclaims Farm Safety Week in Texas; our President proclaims National Farm Safety Week, July 19, 1970. President Nixon said, "A quarter century of experience in organizing for rural safety has shown that most farm accidents could be prevented through sensible practices and protective devices. Safety information and mechanical safeguards are readily available and their consistent use should be actively encouraged."

"I urge all farm families, and every person and group allied with agriculture, to make every effort permanently to reduce the number of accidents which occur at work, in homes, at recreation, and on the roadways."

Hall County is no different from other agriculture areas in our state and nation. Accidents occur on our farms and ranches every year. What will prevent these accidents from happening will have to be settled by those engaged in agricultural pursuits, working throughout the year to make their operation safe.

When one of these accidents happens to us, or a member of our family or a friend, that statistic becomes highly personal, in grief, in pain suffered, or in expense. One accident, whether or not it involves loss of life, can cost more than a whole year's profit on a Hall County farm.

What Other Editors Say

Food programs add to economy \$75,462,000.

That's the amount of "new income" estimated for Texas during the 1969-70 fiscal year, as a result of food programs administered jointly by the U. S. Department of Agriculture, the State Department of Public Welfare and the Texas Education Agency.

In March, 404,924 low-income persons in Texas — 3.6 per cent of the state's population — received food assistance through either the food stamp or the commodity distribution program.

Of the March total, 298,321 persons in 150 counties received donated foods and 106,603 in 10 counties participated in the food stamp program.

The food stamp program contributes directly to the amount of money in circulation in the state, as "bonus" coupons are provided by the federal government.

An estimated \$12,866,000 in "new money" will be brought into the state this fiscal year through the food stamp program alone.

From July through March, a total of \$11,323,400 in food coupons was issued. Participating families received \$7,115,000 of these coupons without cost. Based on new rates of issuance and increased participation, it is projected that total value of food coupons issued this fiscal year will exceed \$19 million.

USDA has apportioned \$19,790,700 to the Texas Education Agency for child nutrition in Texas for use this fiscal year. Of this amount, \$8,716,200 was paid to public school districts from July through March. In addition, \$1,802,380 has been apportioned for use by private schools. These funds help support school lunch and breakfast programs, special milk programs, special food service programs for children, and administrative costs.

From July, 1969, through March 1970, needy families, schools, child care centers and institutions received 130,431,600 pounds of a wide variety of donated foods. Projected figures indicate the value of these foods for the entire 1970 fiscal year — 174,000,000 pounds — will exceed \$40 million.

In addition, from July, 1969, through March, 1970, USDA reimbursed the State Department of Public Welfare to the extent of \$122,200 for certifying non-public assistance families as eligible to use the food coupons. With more families using the program now, the amount of reimbursement to the state is estimated at \$175,000 for the fiscal year.

An additional \$840,100 has been allocated to Texas for expanding and improving the commodity distribution program within the state. These funds will be used by the state to help a food program in all Texas counties presently without a program.

Taxing Policies

The series of meetings being held around the state by the committee headed by Sen. Wayne Connally of Floresville are attempting to do something about the taxing policy as regards farm land. Instead of taxing land on its market value, it is being proposed that land be taxed on its production record, on its rental value, or some other basis rather than market value. This opens up an interesting line of thought, and if it is applied to farm land, maybe it will be applied to other property. For example, the taxes on a business building downtown remain the same whether or not the building is occupied. Right now there are business buildings in Perryton that are on the tax roll for more than the buildings sold for the last time they were sold. If taxes are to bear a relationship to the income produced by property, then commercial property ought to come under the same relief provisions as farm land.

Talking about taxes is a touchy subject, any way you approach it. Owners of real property complain because their property is always taxed while owners of personal property that can be moved around often escape taxes, especially if the amount is so small as

to make it uneconomical to collect it. Ranchers here have been known to complain that their cattle went on the tax roll while a farmer neighbor with a granary full of wheat didn't have to render that for taxes. Some people believe that taxing policy ought to be followed to the letter of the law and that all personal property, including cash in the bank, stocks, bonds, jewelry and household goods ought to go on the tax roll. Right here is where we say these folks have stopped preaching and gone to meddling.

Scarborough To Complete Bank School In Aug.

Ray Scarborough, vice president and director of the First Bank of Memphis, will be the 150 graduates of Class XI of the Southwestern Graduate School of Banking, where he has credit major.

There are approximately 600 students enrolled in the school. Day registration will open for the two-week session on the campus of the Southern Methodist University. Graduation ceremonies will be held Friday, Aug. 7. Scarborough has served as member of the special student committee.

The school offers courses to give personnel from both large and small banks, a curriculum that includes study in management, credit administration and trusts.

A distinguished faculty has been assembled for the two-week session. Study of basic policy management problems and the development of a broader understanding of economy is emphasized throughout the past year. The school is co-sponsored by the Arkansas, New Mexico, Oklahoma and Texas Bankers Assn., Dallas, Ft. Worth and Houston Clearing Houses and S.M.U. Scarborough and Mr. and Mrs. Don Cockrell, will be in Memphis for the graduation ceremony. Cockrell is president of the First Bank of Memphis.

Area Churchmen To Attend Meet In Amarillo

Members of Jehovah's Witnesses from Memphis and this area will attend sessions in Amarillo July 23-26, Robert Mikesell, presiding minister of the local congregation has announced. Over 8,000 are expected to attend bilingual sessions. This is one of 35 conventions scheduled to be held in the United States this summer.

A mass baptism of new ministers is planned for each assembly. Mikesell indicated several from this vicinity are planning to be baptized. According to Jehovah's Witnesses, immersion under water is an outward symbol of one's dedication to God. Ordination as a minister begins with baptism.

"In spite of the fact that some authorities think that the human race is doomed," Mikesell stated, "Jehovah's Witnesses are encouraged about the future. Some people see world famine, death-dealing pollution and an all-pervading spirit of lawlessness. We expect to hear the sure hope for the solution to such a grim outlook when we have the facts put before us in the feature Bible talk to be given Sunday, July 26th in Amarillo. "Saving the Human Race—in the Kingdom Way", the highlight of the assembly, will be given by Mr. L. M. Dugan, of New York.

National Farm Safety Week Is July 19 Thru 25

President Nixon has designated the week of July 19, 1970, as National Farm Safety Week, and for residents of Hall County, the observance is certainly an important one.

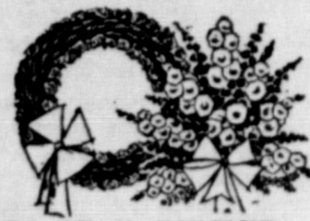

The President states that the efficiency of American agriculture and the quality of life for agricultural workers is threatened today by the continued high rate of farm accidents. There are many thousands of farm residents that lose their lives or are seriously injured in accidents every year. Both the human and financial costs of these accidents are intolerable.

The objective of the National

Farm Safety Week is to draw attention to the safety problems of farm and rural people and suggest ways to prevent accidents which occur at work, in the home, at recreation, and on the roadways.

In view of the costly loss of economy and the tragic loss of life, President Nixon makes this plea to America's farmers and their families: "I urge all farm families, and every person and group allied with agriculture, to make every effort permanently to reduce the number of accidents which occur at work, in homes, at recreation, and on the roadways.

Mrs. Seth Pallmeyer is spending the week with friends and relatives here. Her daughter, Mrs. Foster J. Watkins of Wichita Falls, brought her this far while on her way to Red River, N. M., where she will vacation with friends from Memphis.

You can get rid of your... by building a future out of...

Send a letter to North Vietnam.

Right now hundreds of Americans are being held captive in North Vietnam.

A few prisoners have made it back. They talk about bamboo cages. Vicious beatings. Malnutrition. Humiliation.

But the North Vietnamese will tell us nothing. And it's this silence that makes our appeal more urgent.

For the families at home, there is no word on who's alive. Who's dead. Or even who's being held. There is nothing. Except the anguish of not knowing.

Maybe you can change this. By writing to the one man who can change it: The President of North Vietnam.

Ask him to release the names of prisoners, allow them to write to their families, and let the Red Cross inspect the prisons to

insure proper medical treatment and living conditions.

Remind him that he is bound by the 1949 Geneva Convention which his country signed. And by the Istanbul resolution.

North Vietnamese leaders do care about American public opinion. And if they think they can gain something by bowing to it, they will.

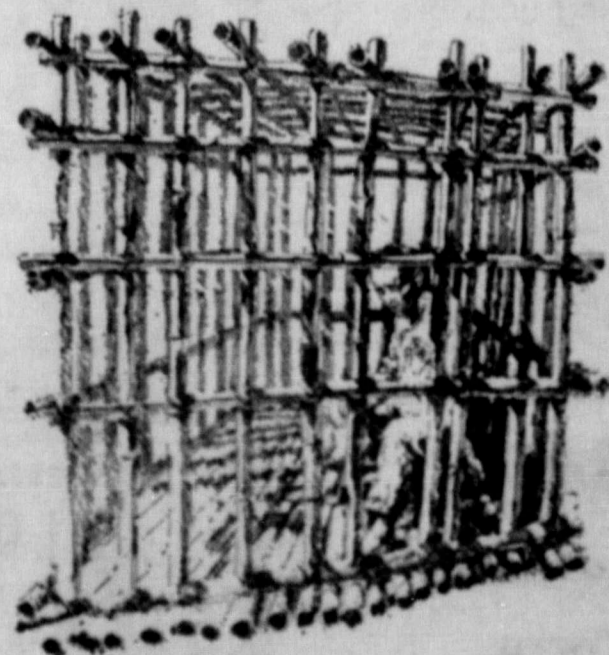

But one letter won't do it. Or a thousand. Maybe it will take millions. So we've got to write now. All of us. And often.

Write a letter tonight. And send it to: Office of the President, Democratic Republic of Vietnam, Hanoi, North Vietnam.

It'll cost you a quarter. But it might save a life.

THE AMERICAN RED CROSS

Maybe they'll open it.

STIN — Eighteen-year-old registered to vote in Texas unless the U. S. Supreme in the meantime, invalidating the new federal voting rights.

Officials plan to give federal authorities this assurance in an inquiry of U. S. Atty. John N. Mitchell asking all to report on steps they take to comply with the new and other sections of federal bill effective Jan. 1.

Texas, reportedly, already is in compliance with the act, except for the lowered voting age. This no literacy test and "good character" requirements for election participation such as those proposed by a bill signed into law by President Nixon on June 22.

When the Texas voter-registration period opens on October 1, 18-year-olds will be signed up if expected court test is not set by then. Local registration officials will be advised by state authorities to register pending a court decision.

According to election division for Randall Wood, the Secretary of State's office proposes to test that teen-age registrations separately from those of 21 and above. This would delay subsequent invalidation of the event the Supreme Court rule the federal act unconditional after state registration is under way.

Case probably will be in Arlington State. There the 18-year-old vote-referendum already for the November ballot.

Arlington officials are in a bet-hedging position to state that will not comply with the federal law until their voters voice approval of the lowered age provision.

Secretary of State Martin Dies figures the federal act would affect about 395,000 under-21 voters in Texas' registration rolls—if survives the court test.

Oil Production Raised
Oil production for August will be boosted 335,263 barrels a day, due largely to the high cost of shipping petroleum from foreign sources.

Railroad Commission Chairman Ben Ramsey said the increase was brought about by high tanker rates as well as a demand for more cheap domestic oil. He noted that the Commission had disregarded recommendations of some to shut stripper or marginal wells, therefore the state has additional capacity.

Statewide allowable was pegged at 62.9 per cent of potential for August after a three months' decline. July allowable was 55.5 per cent. Maximum estimated produc-

tion for August is 3,602,296 barrels a day, up from 3,267,033 in July.

Courts Speak
Federal court suit has been filed against the City of Tyler by the U. S. government seeking to end school segregation by this fall.

Court of Criminal Appeals held that a driving while intoxicated conviction is invalid if the defendant was on private property at the time of arrest.

State Supreme Court refused to upset a lower court denial of damages to the widow of a man killed in an auto-train crash near Edna. Jury found negligence on the part of both the man and Southern Pacific Railroad employees.

High Court also held that a

Potter County couple was not entitled to damages from a doctor because the woman could no longer have children after an operation.

Harris County district court granted an injunction against Goodyear Tire and Rubber Company, prohibiting it from discharging industrial wastes into Sims Bayou in greater amounts than that permitted by the Water Quality Board. Court ordered a \$20,000 fine, the largest civil penalty in Texas pollution case history.

Attorney General Rules
Wichita Falls school board is without authority to adopt a resolution or policy providing for recall elections of its members,

says Atty. Gen. Crawford Martin. Martin ruled in other recent opinions that:

A county treasurer is the proper official to make delivery of county warrants to payees.

County attorney who resigns as of a future date may not withdraw his resignation after it is duly accepted by the commissioners court even though the effective date has not arrived. However, until a successor is appointed, it is his duty to serve.

Martin said a Spring Branch real estate developer (Cypress Lake Gardens) gave assurance of voluntary compliance with directives to discontinue misleading advertising and sales practices.

Draft Quota Drops
August draft call for Texas is 560. That's 257 less than the 817 in July. No man will be inducted with random sequence number higher than 195.

State quota for pre-induction physical and mental examinations in August is 1,490, down from 1,601 in July. Those called for these examinations will have random sequence numbers one to 215.

Deferred or exempt men may be forwarded for examinations if they are likely to lose deferred or exempt status within the next six months. No men with random sequence higher than 215 will be forwarded for examination until further notice. All volunteers at draft boards must be inducted ahead of the non-volunteers selected and ordered to report for draft by r.s.n. National call is for 10,000 men, all for the army.

Budget Requests Soaring
Major state agency budget requests continued to prompt speculation of a huge tax need next year—perhaps as high as \$700 million.

Board of Public Welfare finally approved a \$2.1 billion biennial spending plan which is \$347.6 million above present spending levels.

Mental Health-Mental Retardation request of \$314 million is \$139.7 million above the current level, and colleges and universities want an increase of \$258.9 million. Combined with public schools biennial operating proposals of \$377.1 million, major agencies of education, mental hospitals-retardation schools and welfare want more than \$1 billion more than they now are getting.

Mrs. Wyneth Carson of Wichita Falls and Mrs. Lucile Wright visited in Amarillo with the Don Wright family over the weekend and saw "Texas". On Sunday the Don Reeves family of Wellington visited in Memphis with their aunt, Mrs. Carson.

Successful Farming Must Be Safe Farming

You can reap greater profits in 1970 by Safe Farming as well as every other year. We urge you to take every precaution against farm accidents. It will save you money—it will save loss of time—it may even save your life.

MAKE EVERY WEEK FARM SAFETY WEEK BY OBSERVING THESE RULES:

- FARM MACHINERY should always be kept in excellent working order.
- FIRE HAZARDS are everywhere. Be careful with liquids and be sure electrical wiring is in good shape.
- FARM BUILDINGS and your home should be kept in good repair at all times.
- CLOTHING that is loose, poor fitting and torn should not be worn around machinery.
- FARM INSURANCE prevents total loss by keeping your farm fully covered.

will yield a bumper crop of accident-free years and the happiness and financial benefits that result

This is the time of year when most farm accidents occur. We may hurry a little more to make up for delays. We may be so busy we become careless.

Farm Safety Week is your reminder that a few minutes of your time now is worth your life or your arm. Power farming is more dangerous than making dynamite. Every day, 11 farmers die and 89 more are seriously injured in farm accidents.

We of this business firm know you and know your family. For your sake, we hope you will check your equipment, check your attitudes and check your actions.

Galls Are Found on Shade Trees In Hall County

Abnormal growth or galls are showing up on many ornamentals and shade trees in the county, reports County Agent W. B. Hooser.

Certain insect species and mites, he explains, cause the deformities which develop on the leaves, twigs, or stems of the plants. Immature stages of the pest can often be found inside the developing galls. The insect eggs are laid in the tissues of the leaf, stem or twig usually prior to full development of the leaves. The laying and hatching stimulates the plant to form an abnormal growth at the point of the attack inside which the immature pests develop. Control of the abnormality cannot be accomplished after it has formed since it contains and protects the pest from insecticidal contact, explains Hooser.

Most ornamental plants and shade trees can tolerate galls with no apparent injury; however, under certain conditions a sufficient number of the insects can damage

the plant. Unhealthy trees are more susceptible than those in vigorous growth, says the county agent.

Preventive sprays applied early in the growing season may lessen gall infestations. Control is impossible after the gall begins to form. If a preventive spray program is needed, applications should begin with new growth and continue at weekly intervals until the leaves are fully developed, advises the county agent.

Information, he adds, is available at his office on many other insects and their control.

Ants Are Easily Controlled
Troubled with ants in the home, garden or lawn? If they are a problem, first try to find their nests and then apply a recommended insecticide, advises County Agent W. B. Hooser.

By watching the movement of the ants, the nests can often be located and it may be inside the house or just outside close to an opening that permits entry to inside. Sometimes ants in the home must be controlled without finding their nest, says the county agent.

Chlordane is an effective insecticide. It will quickly kill ants in current infestations and will pre-

vent reinfestations for weeks or months, says Hooser. It may be used as a spray, dust or granules. A spray is usually preferable in the home. It is easy to apply and is safe to use when label instructions are followed.

To prevent ants from entering the house, apply a 2-percent chlordane spray to the outside walls, from the ground to the windows and to the lower part of the window frames and around doors. Treating a band around the house will also give added protection. Several other insecticides, di-

zation, dieldrin, lindane and malathion can also be used for ant control. They are available as ready to use sprays or as wettable powders or emulsifiable concentrates for mixing with water to make a spray.

Regardless of the insecticide used, the county agent cautions that container label instructions should be read and followed closely when applications are being made. Storage of the material should also be in a place of safety and out of reach of small children and pets.

A growing demand from the public in recent years for more and better hospital care and facilities has tested the resources and ability of both state and federal health care officials. As a result, the Federal Hill - Burton Act authorized financial assistance for construction and modernization of health facilities and the Texas State Department of Health is required to develop an annual "State Plan" listing the facilities provided in the state and establishing "bed" need for health facilities in Texas.

The Health Facilities Construction Section of the State Health Department is responsible for the preparation and the administration of the "State Plan". This plan is primarily a survey of present fa-

cilities and projection of bed need in any given area or facility. These facilities are then rated as to priority of need, in order to qualify for the limited Hill - Burton funds available. Allocations of these funds are made by the State Board of Health.

The Hill - Burton program approved by Congress only a few weeks ago calls for \$1.2 billion in federal funds to be spent in the next three years for construction and modernization of facilities across the country. In past years, Texas has received about 6.4 per cent of the total allocation. If Congress appropriates the funds for each of the proposed three years, the State is expected to receive the largest state grant ever. The maximum grant the state has received to date is about \$17 million.

These funds will be allotted for modernization of existing facilities, construction of hospitals and public health centers, long-term care facilities, diagnostic and treatment centers, rehabilitation facilities, and, for the first time this coming year, funds will be allocated specifically for modernization and construction of emergency room facilities.

New categories of Hill - Burton funds were created by Congress this year. Among these are a loan guarantee program to private non-profit organizations, with an interest payment grant to retire three per cent of the interest of a loan to a non-profit private hospital. In addition, direct loans are available to non-profit public health facilities.

Approximately 60 applications for Hill - Burton grants and loans have been received this year. These applications seek to initiate over \$43 million in construction or modernization projects. Funds are being sought from the Hill-Burton Program in the amount of nearly \$39 million of federal grants. About 100 projects are now active.

David Douthit To Take Basic Training At Ft. Ord, Calif.

David Douthit left Tuesday, July 14, to take basic training with the U. S. Army at Ft. Ord, California.

Mrs. Douthit and daughter will remain here in Memphis at this time.

Douthit is the son of Mr. and Mrs. Bob Douthit of Memphis.

Med. Health Comm Urges Children's Polio Immunization

AUSTIN — Polio, a crippling, sometimes fatal, contagious disease, is easily preventable, yet six cases of polio had been confirmed in Texas by early July and eight other suspected cases are awaiting laboratory confirmation. All of the cases have resulted in some degree of paralysis and two deaths have occurred.

L. S. Thompson, Jr., M. D., of Dallas, chairman of the Texas Medical Association's committee on public health, pointed out that polio is still with us and urged all parents to obtain immediate polio immunization for their children if they were not already protected. "The first dose of trivalent polio vaccine should be given to infants at two months of age," Dr. Thompson stated, "followed by a second dose at four months and a third at six months. The next dose should come at 18

months of age and the final one upon entering school for the first time." Dr. Thompson emphasized that all five doses must be taken for full protection.

Tax Man Sam Sez—

If you are one of those affluent Americans who can still find household help you may have a problem with your maid tax. As folks know, household employees are covered by Social Security if you pay the household employee more than \$50 per calendar quarter. This is not an optional tax—and the fact that the maid does not want you to pay Social Security tax on her has no bearing. You are liable under the law to pay Social Security taxes if the

total wages for the quarter exceeded \$50 for the employee.

Under the new 1969 Tax Reform Act the employees can voluntarily ask that income tax be withheld from their wages as household or agricultural employees. When Internal Revenue Service issues regulations you can also withhold the voluntary income tax deduction on your household or farm employees, and pay this in addition to the Social Security tax.

By BYRON BALDWIN

Just heard this true story of our strong out-of-towners of Heritage Hall. In fact an early day resident of County coming here with his in about 1890, none other Orville Finch, brother of and the late Frank Finch. I would say, is not far ninety, but if you did not you could not tell it as he up with everything and all for progress and ready his part. Except, I think, male sex had a little trouble in on this last performance about. It seems that his daughter was getting married. She is the daughter of the on Allen and they had asked to march to the altar with to meet the bridegroom. These were working alright until married the tux over the day wedding and that is when they were having trouble in in this suit on him, but any- after a few telephone calls, went to Orville and he was of like a brone getting the saddle on; but anyway, they the tux on Orville and he plays part of the wedding with action. So during the recep- the younger ladies were taken over Orville and telling how nice he looked; and he feeling his oats, so he called wife and said he thought he to wear a tux every day, may be making that his every- suit. No telling what is next Orville before he reaches that birthday.

seems to me in the early days of the weddings were in a few months in the year, modern times I think every in the year is used for wed- But, of course, times have aged, as we used to have as, radishes, onions, cucum- and other vegetables in the and summer but now we them the year round. I can remember when I first had a dish cream in the winter time, had been a summer refresher with a banana split. So now to keep my black suit clean white tie pressed as there is to be another wedding any. The scripture says, "Be ye ready."

This notice was in the 1920 edi-

tion of the Hall County Herald, "Mount Blanca Post Office Closed". It was the oldest post office in the plains country, established before 1880. Aunt Hank Smith was postmistress and served about 40 years, one of the longest records at that time of continuous service as postmaster. This post office was in the canyon and at that time, there were no towns such as Amarillo, Plainview or Lubbock. H. J. Matthews followed Aunt Hank as postmaster and he moved the post office to his place which was just on top of the Cap Rock. A rural route was established here after the post office closed which was 50 years ago.

Another item 50 years ago—the Pantex Art Co. was advertising "Maps of Hall County" and in the ads, it stated, "Hall County pronounced by geologists to be the coming oil field of Northwest Texas".

I guess people had trouble keeping their money 50 years ago as there was a letter from the Vernon Chamber of Commerce wanting cooperation of Memphis people to declare war on grafters between Fort Worth and Amarillo and outline ways to cope with fake stock salesmen and all other kinds of grafters.

Ad 50 years ago—Arnold and Gardner, pure hog lard, 50 lbs., 20c; less than 50 lbs., 25c. (Not much demand now.)

Aug. 7, 1920, edition of Hall County Herald shows the picture of 2 bags of wool given by President Wilson to the Salvation Army to aid fund in New York. This wool was from the White House sheep and I guess it's where the war on poverty started 50 years ago.

Notice in the 1920 paper where invitations had been sent out for the wedding of Vena Allen of Memphis and Edward Erickson. So guess they will have their 50th anniversary about August 17.

The last I heard of them they were in San Fernando, Calif. Congratulations to them.

A prediction that was made in 1920 by Vaughn MacCaughy of the College of Hawaii—The Hawaiian is rapidly becoming extinct. The disappearance of one of the finest physical types known in the human race is due to the introduction of alcohol, plague, measles, leprosy, tuberculosis, pneumonia and the most terrible of blood diseases by the white man. None of them were known in Hawaii before the advent of the white man there.

This was found in the 1908 edition and headed "Our Industries". MEMPHIS WATER WORKS—The water system of Memphis is one of the best. Nowhere in Texas and but with few exceptions in the United States is there a system of water works with a greater pressure or purer water than Memphis. The water is secured six miles north of town and is piped down with a fall of over two hundred and sixty feet, securing a pressure of 125 pounds per square inch at the nozzle. Built by the enterprise of one of our leading citizens, Cole D. Browder, it is only one example of the energy of our citizens.

MEMPHIS COTTON OIL MILL—Another of our enterprises of which we are proud is the Memphis Cotton Oil Mill Co.'s modern plant. Furnished with the best and most up-to-date machinery that money can buy and housed in a building of the most approved factory construction, it is one of the finest plants in the state. It was built by a stock company composed of Memphis people.

OUR CHURCHES—We have at present four good live churches with buildings of their own. All are in a prosperous condition and are doing nicely. Regular services each Sunday at the different places of worship. First Presbyterian, 6th and Robertson Sts., Rev. H. M. Frank, pastor; Methodist Episcopal Church South, 8th and Main Sts., R. B. Bonner, pastor; First Baptist Church, 7th and Cleveland Sts.; no regular pastor—at that time; Christian Church, 10th and Main Sts., Rev. Humphries, pastor.

At that time, Memphis was known as the small town with the big churches up and down the Fort Worth & Denver.

MEMPHIS ICE AND ELECTRIC CO.—No more ice famine for Memphis! We now have an up-to-date ice plant of 20 tons

capacity, sufficient to supply our town and to ship to other parts. In connection with the ice plant is the electric plant soon to be in operation. This enterprise was also financed by a stock company of citizens.

COTTON GINS—Memphis has three modern gins of five stands each. In addition to these, there are nine other gins in the county.

Banks seemed to operate now with the same policy as 62 years ago. This was in advertising section of brochure put out in 1908 from one of the banks. "We are doing our best to help those who are trying to help themselves. Try us."

We had 38 visitors register in Heritage Hall the past Saturday even though it was real hot. Mr. and Mrs. T. J. Trahan and Terry of Houston. Mrs. Trahan, the former Margie Chappell, daughter of Mrs. J. W. Chappell and sister of Jim and Jud. Margie graduated from MHS in 1944. She made a graduate nurse and has been working in Houston all of these years. She is now in the population explosion area of the southeast branch of the Baptist hospital and they have 20 to 30 new babies a day in this smaller hospital. The Trahans now have four children. Margie made this remark as she left Heritage Hall, "You are good competition to the museum in Canyon, just not quite as large."

Mr. and Mrs. Lee White of Houston—Lee graduated from MHS in 1943. Said he was one of the first ones drafted here into the army, lived 12 years in California and has been in Houston the past 18 years. Lee is a grandson of the late W. M. Padgett, early day resident. Lee's wife is a Louisiana girl. Others in Heritage Hall were Sherry and Steve White of Amarillo, Randy Goff of Greensboro, N. C.; Mike Lee of Farmington, N. M.; Enrique Rivera of San Antonio; J. R. Taylor of Seagraves; Robert Turner of Robstown.

New items in Heritage Hall—Commercial sausage grinder by Doc Saye from Tucker place south of Estelline. Do not know age. 1917 picture of War Bond sale on N. E. corner of square, brought in by Lucile Randall. Odd moded Woodstock typewriter brought in by Wigginton family, used in the early days by the First Baptist Church. Picture of Miss Maude Milam playing one of the last

times on the organ in Heritage Hall, brought in by Mr. and Mrs. Alvin Pyeatt's daughter, Francis Pyeatt Zelensky of Penfield, N. Y., with her sons, Mike and David. Several copies of one of the outstanding poems of Edgar A. Guest, "A Heap of Livin'" with the picture of inside home with fireplace sent in by Mr. and Mrs. Voelkel of Austin. Mrs. H. B. Brock brought in old ration books of 1943, also, an old dictionary which is over 100 years old. An old coal scuttle brought in by Florence Fitzjarrald from the Wherry home.

A statement from Mrs. H. B. Brock, "Said she had dinner with seven other ladies close to her age and the total was 700 years." She does not look or act it anyway.

Remember Hall County Picnic the 3rd or 4th Sunday in September. See you all.

Mr. and Mrs. Elmont Branigan, Mrs. H. T. Branigan of Hollis, Okla., Mrs. John Freeman of Martin, Tenn., and Mark Alan Simmons went to Granbury over the past weekend to visit Mr. and Mrs. Mike Branigan and daughter, Michelle. Mark remained in Granbury and Barry Lynn Simmons, who had been visiting there, returned home.

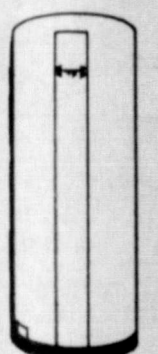

Mr. and Mrs. Les Sims and Mr. and Mrs. Bob Douthit left on Wednesday of last week for a vacation in Colorado. They planned to be gone about a week.

Mrs. Robert Clark and children, for the Texas coast where they Bobby, Billy, Martha Ann, David, will vacation this week and also James and Richard, left Sunday visit with Mrs. Clark's parents.

Haying, Grazing Of County's CAP Land Is Authorized By Dept. Of Ag.

The drought-stricken Eastern Texas Panhandle this week has received cool weather but very little rainfall despite excellent cloud cover and promising conditions.

Weather forecasters are predicting another chance for rainfall later this week, but the rain will only help to give slight relief to what is a desperate situation on most farms and ranches.

The U. S. Dept. of Agriculture has advised Congressman Bob Price that haying and grazing privileges on crop land taken out of production under the Cropland Adjustment Program in the Panhandle counties of Collingsworth, Donley, Hall, Lipscomb and Wheeler have been approved.

The severe drought in these counties has sharply reduced pasture and forage on lands normally

grazed or harvested for hay. Haying and grazing privileges on the retired acreage set aside under the CAP program are offered under emergency conditions in designated counties to help prevent liquidation of livestock herds.

USDA took the action last Friday which gives ASCS County Committees authority to permit livestock grazing and harvesting of hay on land diverted from crop production under CAP.

According to the announcement by Congressman Price, downward adjustment will be made in payments to farmers in these lands as are grazed or harvested for hay.

Rangeland in Hall County has been hurt severely by a hot dry summer of last year, light winter moisture and virtually no moisture this spring and summer.

Without spring growth, cattlemen are having to feed their herds this summer just as they do many times during winter months.

The livestock situation could get so serious that stockmen may consider moving their livestock into a market already unfavorable.

As far as row crops are concerned, the drought has produced one of the slimmest prospects in many years. Many acres of county cotton land is barren due to insufficient moisture to plant. Much of the dryland cotton which did have just enough moisture to come up is not expected to produce much yield.

Many farmers can't remember when this area has missed a spring or early summer rain. A search of the rainfall records reveals that this is the driest April, May and June in the history of Hall County, since man has been recording the weather in the Memphis area.

Fireman Waller Attending A&M Training School

College Station—Charles Waller, volunteer fireman on the Memphis Volunteer Fire Department of Memphis, Texas is attending the 41st Annual Texas Fireman's Training School.

The school, attended by more than 1,800 men representing some 425 cities from approximately 25 states, is being held on the Texas A&M University campus this week.

Fireman Waller is being sponsored by the Hall County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward his cost of the school. Since volunteer firemen are interested in attending this school to help do a better job of fire fighting and fire prevention, the County Farm Bureaus and the Texas Farm Bureau Insurance Companies in the statewide program have sponsored 100 firemen to the school.

The Insurance Company believes volunteer fire departments have been very effective in reducing the amount of loss involved by fire in rural areas. It is their hope in sponsoring this program that the fireman will help the Memphis Volunteer Department to better serve the residents of Hall County.

Fastest of all fish is the catfish. It has been known to tear off 100 yards of line in three seconds, which indicates a speed of about 70 miles an hour.

Local Twirlers Attend School In Arlington

Three Memphis girls are attending a twirling school at the University of Arlington, in Arlington this week. They are Dena Gardenhire, Carol Jean Godfrey and Diane Clayton.

Mrs. Andy Gardenhire and Mrs. Phaeton Alexander took the three girls to Arlington Sunday, and they went on to Dallas for a few days.

The three girls were named twirlers for the 1970-71 Memphis Cyclone Band during spring try-outs.

of the home; two sons, Kenneth of Paris and Ernest of Memphis; two daughters, Mrs. Donald Freeman of Amarillo and Miss Tanya Shelton of the home; two stepsons, Winfred Elrod of Paris and Benford Elrod of Tulsa; two stepdaughters, Mrs. L. V. Riggs and Mrs. William Doss, both of Memphis; 22 grandchildren and one great-grandchild; two brothers, Ernest of Indianapolis, Ind., and Leslie of New Boston; three sisters, Mrs. Hayes and Mrs. Verna Humphrey, both of Clarksville, and Mrs. Thelma McDougle of Ft. Worth.

Pall bearers were J. O. Dixon, Eddie Bradford, J. P. Parker, James Jeffers, Floyd Edwards and C. H. Davidson.

Mrs. B. F. Davis of Lakeview with her sister, Mrs. Bobbie Nell Ray, and daughter, Patricia Ann, of Fresno, Calif., recently visited in the homes of their brothers, Guy Barnett of Oklahoma City, E. C. Barnett of Borger and Clyde Barnett of Stinnett. Also, they enjoyed a boat cruise and a water skiing experience on Lake Meredith. They were also guests in a niece's home, Mrs. Jimmy Len Wells, the former Jo Marie Barnett, of Dumas.

Of every dollar of gross farm income in 1968, about 71 cents went for expenses of production. The total of nearly \$36 billion for farm production expenses last year rose from \$35 billion in 1967; \$25 billion in 1957-59.

Economy in the matter of time and money are the chief factors in reaching the pinnacle of success.

lead and pitcher Charles Bryley went the six-inning distance to capture the victory.

Memphis Little League officials before the play-off in Claude said that this all-star team had good batters, something previous teams may have been lacking.

The batting certainly showed up Wednesday night as Memphis lads litterly knocked the ball all over the field. Pitcher Ronnie Wilks added greatly to the victory, not only in the pitching mound, giving up only three hits to Childress, but by hitting a bases-loaded homer and a double during the contest.

The local Little Leaguers got on base buseveral means, the put on an exciting display of stealing bases and sliding, which delighted local fans, but left Childress fans strangely silent as the game progressed.

If the Memphis Little Leaguers

win at Hereford next Monday team will advance into the state finals which will be played 7:30 p. m. Tuesday night at Hereford. The local lads will be competing against the top Little League teams in the Texas Panhandle at Hereford.

Indians are Season Winners
The Little League Indians under Manager James Chappell of the Memphis LL season title over the Giants last Thursday night. The Indians were first half winners and the Indians were half winners. The play-off game was last Thursday and the Indians captured the title, by a 4-1 score in their favor.
