Voter Registration To End On Jan. 31

Hall County citizens have until Jan. 31, 1971 to register to be eligible voters during 1971, and this year 18, 19 and 20 year olds can join the ranks of registered voters in Texas.

A check of records in the County Tax Office this week revealed that only five have registered in the 18, 19 and 20 year old bracket.

These voters are eligible to cast ballots in all Federal elections, but are not allowed to vote in local and state elections.

As far as voters 21 years and older are concerned, so far there have been 1,863 already registered this year in Hall County.

Mrs. Melissa Anderson, County Tax Assessor-Collector, said that everyone who registered in 1970 have been mailed a form to request registration for 1971. Those who have not mailed these forms in as yet have until Jan. 31, 1971 to do so, so long as they are post-marked by that date.

Those who did not register last year should get a requisition form and mail it in, or stop by the Tax Office in Hall County Courthouse on or before Friday, Jan. 29 to register.

Local School Board Meets In Jan. Session

The members of the board of trustees of Memphis Independent School District met Monday evening in regular session, and approved the holding of a joint election with the City of Memphis for Saturday, April 3.

The school district and the City of Memphis have held joint trustee-aldermen elections the first Saturday in April for the past few years and have found the practice to be most beneficial and convenient for election officials and voters alike.

In other action by the board, Superintendent C. L. Chambless was given a one-year extension on his contract, being the year 1972-73, and his salary was set at the state scheduled salary.

The board opened bids on the 1962 Ford, which was for sale, and accepted the highest bid of \$150.00 of the four bids submitted.

Also, the board approved the establishment of a committee to be considered an insurance evaluators committee, which will advise the board on matters pertaining to insurance.

Supt. Chambless reported to the board that due to the new laws pertaining to school census, there will be no school census taken this year. The law does not (Continued from Page 1)

HAPPY MOMENT—Wayland's Cherri Rapp of Estelline is shown receiving recognition as the Panhandle's basketball selection for the Panhandle Sports Hall of Fame Sunday in Amarillo. Hall County entered 1971 about the same level financially as was recorded a year ago, the statements of condition of the three county banks, published this week, reveal.

The total assets figure and total deposits figure are almost identical to what they were a year ago. The only noticeable change in figures is seen in the total loans of the three county banks, which declined a little over one million dollars during the past year.

The total deposits of the three Hall County banks was \$16,831,932.67 at the close of business on Dec. 31, 1970. This is within \$12,000.00 of the total deposits of a year ago.

The total assets figure is also close to the 1969 year end figure, within \$40,000.00. The total assets of the three banks at the end of the past year was \$18,511,667.69.

Loans of the three banks at the Dec. 31 call total \$8,077,753.55, which is \$1,100,000.00 less than they were at the end of 1969.

Hall County's record year end high in total deposits and total assets was reached on Dec. 31, 1968, and these figures are approximately \$200,000.00 above the year end figures the past two years.

The statements of condition of the First National Bank and the First State Bank in Memphis, and Peoples State Bank of Turkey are published on Page 8 of this issue of The Democrat.

Possibly the major reason for the financial picture remaining about the same as it was a year ago is the drought which caused another short cotton crop. However, other economic factors are also responsible.

March of Dimes Drive Is Begun

The fund-raising appeal for the 1971 March of Dimes will be kicked-off here Monday, according to an announcement by Bill Lockhart, campaign director. The drive will continue through the month of January.

Assisting with this year's drive will be members of the Memphis Business Professional Women's Club who will conduct the door-to-door canvass of homes.

Lockhart stated that cans bearing the March of Dimes slogan have been placed in all the business houses around town. Persons are asked to drop contributions in these cans.

The schools are also helping with the drive by allowing students to take home envelopes prepared especially for contributions, Lockhart said.

"For more than a decade the March of Dimes had led the fight to prevent birth defects," Lockhart explained. "To achieve this goal, it helps support a nationwide

network of more than 100 Birth Defects Centers; programs of professional and public health education; and community service.

"After centuries of neglect, a massive assault is being directed toward the prevention and treatment of birth defects. Every year, these tragedies strike at an estimated quarter of a million American babies.

### Youth Is A New Generation!

Curley Hayes, with West Texas Utilities Company, Abilene, spoke last Tuesday to members of the Memphis Rotary Club concerning American youth today. Mr. Hayes is well known in this area, especially in sports circles, and he reported that he has been active most of his adult life working with youth in many walks of life.

Some of the points Mr. Hayes made were thought provoking. Some were remarkable perceptions, and other tended to defend some young people while others condemned them for taking the stand they are now taking.

One point he made early in the talk was, "Young people of today deeply love their parents, but at the same time they do not respect them."

"When my generation was young, we enjoyed pulling the wool over the eyes of our parents, telling them falsehoods, slipping around behind their backs and smoking cigarettes, and as we got older, drinking and slipping off without permission," he said. "Today modern youth as a whole, are brutally frank, truthful, aren't inclined to smoke, don't drink except beer occasionally, and have definite ideas about their dress, personal grooming, drugs, and our society and its laws."

The speaker went on to say that each generation born is a new generation, with its own set of values, ideals, interests and beliefs. You talk to youth today about drug abuse, and they can quote you word for word what every authority has ever said favorable to the use of drugs. Almost all young people, from junior high age on up, think that marijuana should be made legal and the laws prohibiting its use and sale should be changed, he said.

What they don't realize is that if the laws were changed to make marijuana legal for sale in the U. S. the price would run, after taxation, at about \$5.50 a stick, because of import duties, etc.

The speaker reported that Texas has a major drug problem in colleges, high schools, and even in junior high. He cited some staggering statistics on what percentage of college students have tried marijuana at one time or another.

Following the talk, during question and answer period, a discussion was held as to the extent of drug abuse in Memphis and surrounding areas. Plans were discussed as to what civic leaders could do to aid in checking the continuing increase of use of narcotics and marijuana by the young.

The Memphis Rotary Club has taken one definite step. This week the club is offering a reward of \$250.00 to anyone supplying information which leads to the arrest and conviction of a person or persons illegally selling narcotics, drugs or marijuana in Hall County or the immediate Memphis area.

Other civic clubs and concerned organizations in other counties are posting rewards to encourage those who know of illegal drug traffic to step forward. One of the main reasons narcotic pushers are so successful is that they are being protected not only by their customers but by many others.

The speaker, school officials, and many who work closely with today's young people, all agree that as many as 95 per cent of today's young people are the finest this nation has ever produced. The other five per cent are and could continue to be leaven in the loaf, or the rotten apple in the barrel.

### Remember Your Elders

Dr. Eric A. Walker, recently retired president of Pennsylvania State University, left a few thoughts with his students, about two older generations of Americans. The same was at last spring's graduation exercises.

"I would like to introduce you to people you already know—parents and grandparents," Walker told them. "And remarkable people they are indeed."

Dr. Walker reminded his young audience that there is a better world because of these people.

He said, "Because they were materialistic, you will work fewer hours, earn more, have more leisure time, travel to more distant places, and have more of a chance to follow your life's ambition."

"These remarkable people lived through history's greatest depression. Many know what it is to be poor, to be hungry and cold. And because of this, they determined that it would not happen to you—that you would have a better life, you would have food in abundance to drink, vitamins to nourish you, a warm home, better schools, and greater opportunities to succeed. Because they gave you the best, you are the tallest, healthiest, brightest, and probably the best looking generation to inhabit the land."

"These are the people who defeated the tyranny of Hitler and who had compassion to spend billions to help their former enemies rebuild their homelands. First, they have had some failures. Second, they have not yet found an alternative for war, nor for racial hatred," he explained. "Perhaps you will perfect the social mechanisms so that the world will no longer need police to enforce the laws, nor armies to prevent some men from trespassing on others."

—And, finally, Dr. Walker left this challenge: "They made more progress by the sweat of their brows than in any previous era—and don't forget it. And, if your generation can make as much progress in as many areas as these two generations here, you should be able to solve a good many of the world's remaining ills."

### Registration Time

This is the month to register to vote. The Texas legislature may change all this this year but depends on it being effective in 1971. There will also be elections in this year so don't fail to register.

Eighteen year olds should register too. If a youngster turns 18 sometime this year they should register before Jan. 11 this year. However, to date, the only elections they can vote in are national, i. e., presidential, senate or representative races, of which there will be none this year.

### Travel By Airplane

Have travel, too, enjoy advantages in the saving of time and the saving of time is a world that demands every extra each minute. In addition there is the frequent new jets above the clouds which transmute most earthly pleasures and free the spirit to enjoy the scenery of strange, still beauty. The great mountain ranges of white vapor and the deep valleys of streams change constantly into new and fantastic patterns, in like watching the dunes of a dream being worn into a landscape of facts.

## There's Been Some Changes In Your Dwelling Insurance Too

The independent insurance agents of Memphis listed below have received from the State Board of Insurance changes which will affect all renewal policies written on dwellings on or after December 10, 1970. Policies now in force will not be affected until expiration date.

Since these changes are basic in their respect, and entirely new to us as your agent and to you as the insurance buyer, we felt it important to notify you in this manner. We knew absolutely nothing about these changes being formed, and had no advance notice of them until we received the new rules and rates late last week.

The principal basic change is the matter of deductibles, and are as follows:

- ON DWELLING POLICIES (NOT HOMEOWNER-TYPE POLICIES):**  
The new deductible will be 1% of the amount of insurance on the home insured, with a minimum deductible of \$100; this will apply to all damage due to fire, wind, explosion, riot, civil commotion, smoke, theft, and land vehicles. The \$50 deductible clause will be no longer available. No deductible may be obtained for an additional premium, subject to acceptance by the insuring company.
- ON HOMEOWNER-TYPE POLICIES:**  
The new deductible will be 1% of the amount of insurance on the home, with a minimum of \$50 for that deductible; this will be applicable to all damage which is covered under the policy provisions. \$50 deductible will no longer be available. No deductible may be obtained for an additional premium, subject to acceptance by the insuring company. Homeowner policies, however, will have two separate deductibles, with No. 1 applying to damage from hail and wind and No. 2 to other covered perils.

Agents, let us emphasize that we had no advance notice of these basic changes and saw no publicity concerning them prior to receiving the new rates.

If one of you missed seeing the Pasadena Rose Bowl Parade, you missed something. Some of the outstanding parts of this parade I would like to give you. This was the 82nd parade for them and has been televised since 1938. The theme of the parade this year was "Through the Eyes of a Child." It had a religious undertone as Rev. Billy Graham was the grand marshal and he gave a beautiful message in a few words when introduced saying: "All of us must come as a little child to the Savior" and in waving to the crowd instead of the two fingers for victory sign, he used one finger denoting that there is just one way and one Lord. The rules were that no float could be over 55 ft. long and not over 17 ft. tall. The average cost of these floats was 15 to 17 thousand dollars each in 60 floats. There were about 200 horses and riders and regalia for the horses. On the queen's float that Bobby and Cissy were riding, they used Lawrence Welk's bubble machine and it used several gallons of water blowing bubbles in the parade. One of the outstanding floats to me was the four generations of the Knotts Berry Farm who first traveled the route of this parade in a covered wagon. Another notable thing to me was the Salvation Army Band. They first participated in the Rose Parade in 1920 with their long dresses and black bonnets. Time has made a lot of difference as in the 82nd parade, they resembled airline hostesses with their short skirts and hats . . . very smart. My impression had been that all of the flowers that were used on the floats were grown in California, but it has become international. Was happy to see Texas represented with horses and bands.

Bob Curry, son of Lewis, visiting in Heritage Hall along with his son, Dickey. Bob attended school here, and since leaving, his and his father's families have lived in Amarillo, Plainview, and are now living in Dallas.

The power of suggestion worked with Edd Cudd a few weeks back when he was watching a football game on television being played in the rain and mud. He decided to go outside and leisurely put on his rubbers and went to the closet, got his raincoat, walked outside into the sunshine and dry weather, and discovered

## PUNCH LINE OF THE WEEK

STOMACHS SHOULDN'T BE WAIST BASKETS

that the moisture was at the football game, not in Hall County.

Mr. and Mrs. Aubrey Robertson of Lakeview had as their guests in Heritage Hall their sons, Keith of Dallas and Carl of Lubbock, with their wives and children. Carl graduated from Lakeview High School in 1961 and Keith in 1959. Keith married Sheri Lewis in 1962. Sheri is the daughter of the late Pat and Sylvia Lewis. They have two children, Denis, age six, and Kevin, age four months. They have been living in Dallas the past five years. Time passes on. Seems like only a few months since Sheri Lewis was a tiny little girl and I was calling her "Little Pat." Carl Robertson married a Plainview girl, given name is Kaye; and they are making their home in Lubbock. They have one son, Chris, one year old. I think these Robertson boys feel pretty close acquaintance with the two-headed calf as it was born on their grandfather's farm.

Mr. and Mrs. Smith B. Coleman of Paris visited in Heritage Hall. Mrs. Coleman said she was fascinated by the displays and would look forward to seeing them again next fall. Mr. Coleman was a cotton classifier here this fall. They complimented our hospitality very highly and said it was one of the friendliest towns they had ever been in before.

Mrs. H. C. Gatlin, Mrs. Harold (Davenport) Gatlin with her son Greg visited in Heritage Hall from Beaumont. Mrs. H. C. Gatlin is the mother of Harold Gatlin who passed away a short time ago. He was the husband of Anna Kathryn Davenport, daughter of Mr. and Mrs. B. E. Davenport of Lakeview. Anna Kathryn has been teaching business science the past six years in the French-High School of Beaumont. She has two children in the state university and two in high school. Mrs. H. C. Gatlin has been a member of the Jefferson Historical Society for the past six years. Her comment of Heritage Hall was that the displays were very interesting.

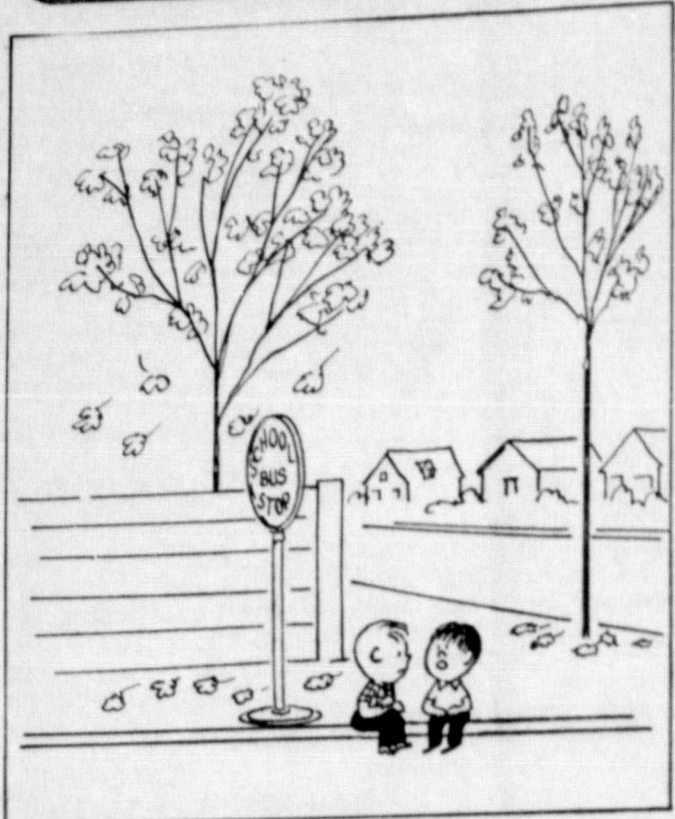

Mrs. J. W. Chappell had as her guests in Heritage Hall Mr. and Mrs. Al Chappell and sons, James and Jeff, of Baytown. Al graduated from high school in Jacksboro in 1953 and has been working with General Telephone Co. the past 11 years. Mrs. J. W. Chappell, the former Juddie Taylor, married J. W. in 1922. They had seven children and they are all living. Three boys, Jim and Judge of Memphis and Al of Baytown. The girls are Margie Trehan of Houston, Hope Galloway of Amarillo, Virginia Ann Saban of Japan and Chris Galloway of Memphis. All graduated from MHS with the exception of Al and Judge. The Chappells were early settlers in the Lakeview area.

Visiting in Heritage Hall last week were Jack Garrison and Oscar Lambert of Tell. They both live on the line of Childress and Hall County. Jack was born in Hall County in 1917. His family were early day settlers. Thomas Lee Garrison first settled at Tell in 1890 and the house where Jack was born is still standing. Jack is a collector of antique items. He has one of the largest churns I have ever heard of, and we hope to have it on display sometime. Oscar Lambert was born in Fort Worth, attended the Lakeview schools. Some of his old schoolmates that he remembered were Paul and Brown Smith, Doll and Kedrin Merrick and Marton Ward. Oscar and his wife have two children, one son, Roy, and a daughter, Carolyn, who is now in Canyon attending West Texas State.

The second grade Brownie troop composed of 18 members and their three leaders, Monta June Harrell, Alice Kay Allard and Ann Collier, visited Hall County Heritage Hall and all of the youngsters were a well-behaved group which showed they had good home and scout training. They seemed to enjoy seeing the different animals more than anything else.

Visiting in Hall County Heritage Hall during the holidays were Mr. and Mrs. Bill Miller, now of El Paso. Bill is the son of the late Mr. and Mrs. Matthew Henry Miller who moved to the west part of Hall County in 1906. They had eight children with three now

## LAFF OF THE WEEK

"Back to school day makes me sad and Mom glad."

living. Mrs. Mattie Orr, wife of the late Wiley Orr, Josephine McIntire of Eldorado, Kans., and Bill of El Paso. Bill attended school in Memphis in 1907-1910. His wife was an Oklahoma girl graduating at Hobart, Okla. They made their home in California for 55 years. Bill remembered his first traveling was with Wallace Lawrence on a freight train pullman. One of his first jobs after leaving here as a young man was shoveling sand out of White River in Arkansas for the amount of 10 cents a yard onto a gondola freight car. One day they were going to ride the freight from their town to their job on White River. They thought they were on a slow freight but when they were supposed to get off, the train was going too fast. So they just kept riding and ended up in California. Bill and his wife have been traveling for the past 25 years, and have covered all of the U. S. and part of Europe (now in a Continental).

Others visiting in Heritage Hall during the holidays were Dale Jester of Amarillo, grandson of Mr. and Mrs. J. M. Ferrel; Kevin Langford of Fritch, Mr. and Mrs. Bill Noble of Fresno, Calif., Mr. and Mrs. Houston Anderson of Weatherford, Okla., Tresa Lavender of Lubbock; Jerry Beasley, a Hall County product who graduated from MHS in 1965, a graduate of Texas Tech and now teaching and coaching at Needville. He is the son of Mr. and Mrs. Milt Beasley of Memphis. Also, Tribby Johnson of Brownfield, Dempsey Baisden of Irving, Dicie Howle of Midland, (the granddaughter of Chas. Williams and daughter) of Louise (Williams) Howle. Dicie graduated from Midland High School and is now attending school at the state university in Austin, majoring in journalism. Dr. and Mrs. William N. Orr of Houston visited in Heritage Hall. William (Buster) graduated at Plaska in 1926, attended dental school in Houston in 1930, spent two years in Shamrock and 35 years in Littlefield. He is the son of Milton Orr. They have two sons, William Jr. in Houston and Robert in Grand Junction, Colo. Dr. Orr stated the following: "As a native of Hall County, it gives me a lot of memories of my childhood and I think it is wonderful

to have this good display of our past."

Two more items brought in for display in Heritage Hall were an owl from Richard Gilreath of Lakeview and a gray fox from Billy Thompson. Others taking part in contributions to Heritage Hall are Mr. and Mrs. Aubrey Robertson of Lakeview, Mr. and Mrs. Lee Gregory of Turkey and Lewellen Stout of Memphis.

Mike Pelfrey and son, John, were visiting in Heritage Hall.

very active in sports and scout work. Frances Jean said this was the first time in 16 years she had been with her parents at Christmas. She remarked that it looked like spring here as when she left Rochester, N. Y., they had two ft. of snow on the ground.

We had a short visit with Major Sim Goodall and wife, Bobbie, during the holidays. They were on their way to a new assignment to the Embassy in Australia by way of Hawaii for briefing. Accompanying them were their four children: Sharon, 11, Laura, 10, Brenda, 8, and Robert, 5. Their new address will be Detachment 6; 6093 Support Squadron; U. S. Embassy; APO San Francisco 96309. For the past several months, they had been living at Williams Air Force Base in Ariz.

Mr. and Mrs. John Lemons and daughter, Kathy, visited in Heritage Hall. John is the son of Mr. and Mrs. Sug Lemons and his wife, Penny, the daughter of Dennis Ward. They are all three attending school in Austin, John and Penny at Texas University and Kathy is attending Pease School. They were visiting relatives and friends during the holidays. To quote: "Penny and I were most impressed with the museum. We both went home to look for items to contribute so we could be a part of the museum. It is nice to recognize names of donors, and makes you seem a big part of what's been going on in our past."

If one of you missed seeing the Pasadena Rose Bowl Parade, you missed something. Some of the outstanding parts of this parade I would like to give you. This was the 82nd parade for them and it has been televised since 1938. The theme of the parade this year was "Through the Eyes of a Child." It had a religious undertone as Rev. Billy Graham was the grand marshal and he gave a beautiful message in a few words when introduced saying: "All of us must come as a little child to the Savior" and in waving to the crowd instead of the two fingers for victory sign, he used one finger denoting that there is just one way and one Lord. The rules were that no float could be over 55 ft. long and not over 17 ft. tall. The average cost of these floats was 15 to 17 thousand dollars each in 60 floats. There were about 200 horses and riders and regalia for the horses. On the queen's float that Bobby and Cissy were riding, they used Lawrence Welk's bubble machine and it used several gals. of water blowing bubbles in the parade. One of the outstanding floats to me was the four generations of the Knotts Berry Farm who first traveled the route of this parade in a covered wagon. Another noticeable thing to me was the Salvation Army Band. They first participated in the Rose Parade in 1920 with their long dresses and black bonnets. Time has made a lot of difference as in the 82nd parade, they resembled airline hostesses with their short skirts and hats . . . very smart. My impression had been that all of the flowers that were used on the floats were grown in California, but it has become international. Was happy to see Texas represented with horses and bands.

Bob Curry, son of Lewis, visiting in Heritage Hall along with his son, Dickey. Bob attended school here, and since leaving, his and his father's families have lived in Amarillo, Plainview, and are now living in Dallas.

The power of suggestion worked with Edd Cudd a few weeks back when he was watching a football game on television being played in the rain and mud. He decided to go outside and leisurely put on his rubbers and went to the closet, got his raincoat, walked outside into the sunshine and dry weather, and discovered

that the moisture was at the football game, not in Hall County.

Mr. and Mrs. Aubrey Robertson of Lakeview had as their guests in Heritage Hall their sons, Keith of Dallas and Carl of Lubbock, with their wives and children. Carl graduated from Lakeview High School in 1961 and Keith in 1959. Keith married Sheri Lewis in 1962. Sheri is the daughter of the late Pat and Sylvia Lewis. They have two children, Denis, age six, and Kevin, age four months. They have been living in Dallas the past five years. Time passes on. Seems like only a few months since Sheri Lewis was a tiny little girl and I was calling her "Little Pat." Carl Robertson married a Plainview girl, given name is Kaye; and they are making their home in Lubbock. They have one son, Chris, one year old. I think these Robertson boys feel pretty close acquaintance with the two-headed calf as it was born on their grandfather's farm.

Mr. and Mrs. Smith B. Coleman of Paris visited in Heritage Hall. Mrs. Coleman said she was fascinated by the displays and would look forward to seeing them again next fall. Mr. Coleman was a cotton classifier here this fall. They complimented our hospitality very highly and said it was one of the friendliest towns they had ever been in before.

Mrs. H. C. Gatlin, Mrs. Harold (Davenport) Gatlin with her son Greg visited in Heritage Hall from Beaumont. Mrs. H. C. Gatlin is the mother of Harold Gatlin who passed away a short time ago. He was the husband of Anna Kathryn Davenport, daughter of Mr. and Mrs. B. E. Davenport of Lakeview. Anna Kathryn has been teaching business science the past six years in the French High School of Beaumont. She has two children in the state university and two in high school. Mrs. H. C. Gatlin has been a member of the Jefferson Historical Society for the past six years. Her comment of Heritage Hall was that the displays were very interesting.

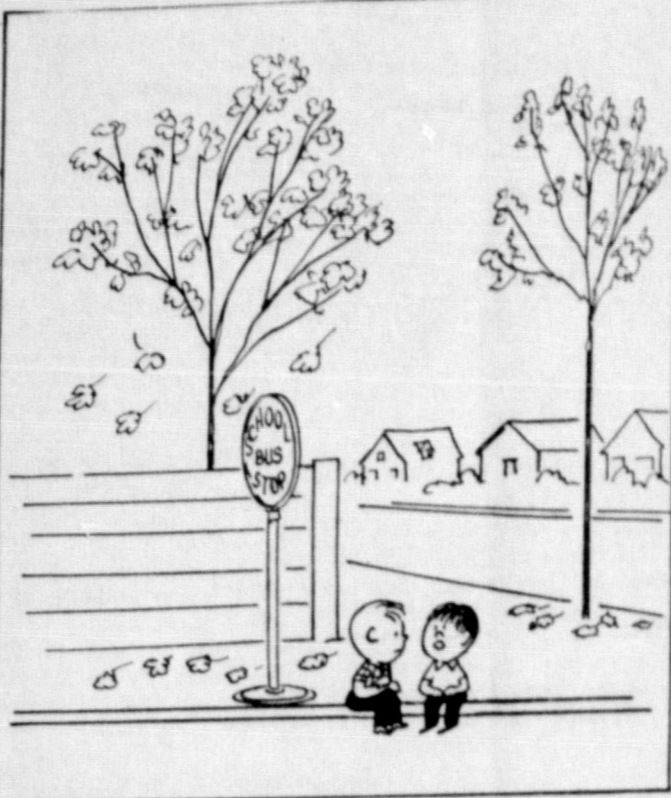

Mrs. J. W. Chappell had as her guests in Heritage Hall Mr. and Mrs. Al Chappell and sons, James and Jeff, of Baytown. Al graduated from high school in Jacksboro in 1953 and has been working with General Telephone Co. the past 11 years. Mrs. J. W. Chappell, the former Juddie Taylor, married J. W. in 1922. They had seven children and they are all living. Three boys, Jim and Judge of Memphis and Al of Baytown. The girls are Margie Trehan of Houston, Hope Galloway of Amarillo, Virginia Ann Saban of Japan and Chris Galloway of Memphis. All graduated from MHS with the exception of Al and Judge. The Chappells were early settlers in the Lakeview area.

Visiting in Heritage Hall last week were Jack Garrison and Oscar Lambert of Tell. They both live on the line of Childress and Hall County. Jack was born in Hall County in 1917. His family were early day settlers. Thomas Lee Garrison first settled at Tell in 1890 and the house where Jack was born is still standing. Jack is a collector of antique items. He has one of the largest churns I have ever heard of, and we hope to have it on display sometime. Oscar Lambert was born in Fort Worth, attended the Lakeview schools. Some of his old schoolmates that he remembered were Paul and Brown Smith, Doll and Kedrin Merrick and Marton Ward. Oscar and his wife have two children, one son, Roy, and a daughter, Carolyn, who is now in Canyon attending West Texas State.

The second grade Brownie troop composed of 18 members and their three leaders, Monta June Harrell, Alice Kay Allard and Ann Collier, visited Hall County Heritage Hall and all of the youngsters were a well-behaved group which showed they had good home and scout training. They seemed to enjoy seeing the different animals more than anything else.

Visiting in Hall County Heritage Hall during the holidays were Mr. and Mrs. Bill Miller, now of El Paso. Bill is the son of the late Mr. and Mrs. Matthew Henry Miller who moved to the west part of Hall County in 1906. They had eight children with three now

living. Mrs. Mattie Orr, wife of the late Wiley Orr, Josephine Melville of Eldorado, Kans., and Bill of El Paso. Bill attended school in Memphis in 1907-1910. His wife was an Oklahoma girl graduating at Hobart, Okla. They made their home in California for 55 years. Bill remembered his first traveling was with Wallace Lawrence on a freight train pullman. One of his first jobs after leaving here as a young man was shoveling sand out of White River in Arkansas for the amount of 10 cents a yard onto a gondola freight car. One day they were going to ride the freight from their town to their job on White River. They thought they were on a slow freight but when they were supposed to get off, the train was going too fast. So they just kept riding and ended up in California. Bill and his wife have been traveling for the past 25 years, and have covered all of the U. S. and part of Europe (now in a Continental).

Others visiting in Heritage Hall during the holidays were Dale Jester of Amarillo, grandson of Mr. and Mrs. J. M. Ferrel; Kevin Langford of Fritch, Mr. and Mrs. Bill Noble of Fresno, Calif., Mr. and Mrs. Houston Anderson of Weatherford, Okla., Tresa Lavender of Lubbock; Jerry Beasley, a Hall County product who graduated from MHS in 1965, a graduate of Texas Tech and now teaching and coaching at Needville. He is the son of Mr. and Mrs. Milt Beasley of Memphis. Also, Trilby Johnson of Brownfield, Dempsey Baisden of Irving, Dicie Howle of Midland, (the granddaughter of Chas. Williams and daughter ) of Louise (Williams) Howle. Dicie graduated from Midland High School and is now attending school at the state university in Austin, majoring in journalism. Dr. and Mrs. William N. Orr of Houston visited in Heritage Hall. William (Buster) graduated at Plaska in 1926, attended dental school in Houston in 1930, spent two years in Shamrock and 35 years in Littlefield. He is the son of Milton Orr. They have two sons, William Jr. in Houston and Robert in Grand Junction, Colo. Dr. Orr stated the following: "As a native of Hall County, it gives me a lot of memories of my childhood and I think it is wonderful

very active in sports and scout work. Frances Jean said this was the first time in 16 years she had been with her parents at Christmas. She remarked that it looked like spring here as when she left Rochester, N. Y., they had two ft. of snow on the ground.

We had a short visit with Major Sim Goodall and wife, Bobbie, during the holidays. They were on their way to a new assignment to the Embassy in Australia by way of Hawaii for briefing. Accompanying them were their four children: Sharon, 11, Laura, 10, Brenda, 8, and Robert, 5. Their new address will be Detachment 6; 6003 Support Squadron; U. S. Embassy; APO San Francisco 96309. For the past several months, they had been living at Williams Air Force Base in Ariz.

Mr. and Mrs. John Lemons and daughter, Kathy, visited in Heritage Hall. John is the son of Mr. and Mrs. Sug Lemons and his wife, Penny, the daughter of Dennis Ward. They are all three attending school in Austin, John and Penny at Texas University and Kathy is attending Pease School. They were visiting relatives and friends during the holidays. To quote: "Penny and I were most impressed with the museum. We both went home to look for items to contribute so we could be a part of the museum. It is nice to recognize names of donors, and makes you seem a big part of what's been going on in our past."

Two daughters of Mr. and Mrs. Alvin Pyeatt visited in Heritage Hall during the holidays. Adella Jo graduated from MHS in 1952 and married Chas. W. Vardeman of Waco in 1948. They are now living in Dallas and have two daughters, Pamela Jo Compton, now teaching in Adamson High School in Dallas, and Debra Vardeman who attends the University of Texas at Arlington. Frances Jean Pyeatt graduated from MHS in the class of 1946. She married Andrew Zolensky of Brownsville, Pa. They are living in Rochester, N. Y., since 1955. Her husband is with Thromberg-Carlson (Eng.) and they have two sons, Michael, 15, and David, 14, and they are

Mike Pelfrey and son, John, were visiting in Heritage Hall.

### Mrs. R. E. Clark Named President Of Culture Club

Mrs. David May was hostess to the Woman's Culture Club at her home Wednesday, Jan. 4 at 4 p.

The invocation was given by Theodore Swift followed by a business session presided over by the president, Mrs. May.

A timely devotional was given by Miss Alma Bruce, who used Philippians 3:13-14 for the scriptural theme.

She stated at the beginning of the new year it would be a good idea for us to take a long look backward and forward.

She continued these quotes: "It is a gloomy picture in history. Not in many years, if we live in the lifetime of many men with the living has there been so much and deep apprehension. In our country there is universal protest."

This quotation appeared in a recent editorial in Harper's Weekly 100 years ago. And another high power, "Our world is full of corruption. Children no longer obey their parents."

These words were inscribed in a tablet of stone in Constantinople 3,000 years before Christ.

Considering the long look backward, Miss Bruce concluded, the frontiers for peace and human understanding? I do not know what the future holds, I do not know who holds the future. If we rely on Him we move forward."

Some of the main features of the program, introduced by Mrs. E. J. Frazier, was "Democracy in Action in the Ballot Box" and this was the election of officers for the club year.

The following officers were elected: Mrs. R. E. Clark, president; Miss Sybil Gurley, first vice president; Mrs. Pat Moss, second vice president; Mrs. Jeanne Irons, treasurer; Mrs. Irene Riley, historian; Mrs. Lange, secretary and Mrs. May, parliamentarian.

Mrs. Robert Moss gave the Federation report. She stated that on Jan. 14, 1897, the Texas Federation of Literary Clubs was organized at Waco with 18 clubs send delegates. The Women's Culture Club of Memphis was organized in 1899 and federated in 1900. Among early endorsements the Texas Federation were the Y. W. C. A. and the Y. W. O. A. The Y. W. C. A. urged legislative study, voted to try to influence legislation through

husbands, and attempts to establish libraries.

The Woman's Culture Club of Memphis established the first public library here and later donated its books to the Carnegie library when it was opened.

Throughout the years members of Texas Federation have stayed abreast of the times by study and action on the issues of the day and have achieved most of the desired goals, Mrs. Moss concluded.

During the social hour, refreshments were served to these members: Misses Sybil Gurley and Alma Bruce; Meses. Theodore Swift, Jim Lange, L. G. Rasco, Ward Gurley, Jennette Irons, Pat Lewis, Clifford Farmer, Robert Moss, Frank Ellis, Irene Bradley, L. A. Stilwell and hostess, Mrs. May.

### Memphis MYH Enjoys Guest Speaker Monday

The Memphis Young Homemakers held the regular monthly meeting Monday night, Jan. 4, in the homemaking department of Memphis High School.

During a short business meeting the club elected a new reporter to fill a recent vacancy of that office. The new reporter is Joyce Todd.

The program for the evening was presented by Jimmy Dalton and Miss Judy Gosnell, home economist of Paducah. Miss Gosnell gave a talk on TAP-Texas Agricultural Products. TAP is sponsored by the Texas Agricultural Department and helps promote the use of all agriculture products raised in Texas, she said. The club members were given recipes using Texas products.

Serving as hostesses were Dorcille Widener and Shirley Stephens. Naydean Wheeler presented the guests with a bake gift from Mary Sue Beasley. Winning the

door prize, given by Memphis Upholstery and Gable Furniture, was Joyce Todd.

Members attending the meeting were: Mmes. Sharon Rogers, Dorcille Widener, Joyce Todd, Nelwyn Ward, Susan Davidson, Katie McDonald, Naydean Wheeler, Carolyn Daves, Willie Mae Maddox, Wanda Messick, and advisor, Nancy May.

Quartermaster 3-C Joe David McWhorter visited here with his mother, Mrs. John McWhorter, and other relatives and friends last week, before reporting for duty with the U. S. Navy in San Diego, Calif.
