Bobby Cosby Is Recipient Of Two Top Cyclone Band Selection Awards Sat.

Members of the 1970-71 Cyclone Sweepstakes Band enjoyed the annual banquet sponsored by the band's booster club Saturday night in Travis Cafeteria. There was plenty of ham and all the trimmings for the band members to eat, a picture show of past and present marching performances of the Cyclone Band, and the presentation of awards and introduction of next year's band officers. For a little humor, the juniors in the band, narrated by Tanya Wood and Bruce Rose, gave the

future prophecies of the seniors, while each of the seniors received their chances to win certain items to members of the Cyclone band. Some of the situations created were humorous, some embarrassing and all were taken in good humor. Although Director Carol Blain came in for her share of the good natured kidding, the mood of the banquet shifted to much more serious matters when awards were presented. The Cyclone Band during the past eight months has worked hard and has put in many hours of overtime. The bandmen set out to capture a goal, "Sweepstakes," early in the year and devoted the time and made the sacrifices necessary to accomplish this goal. The trophies to testify to the band's hard work were prominently displayed. Director Blain announced the best marching award winners including: freshmen, Susan Godfrey, sophomores, Lulu Miller and Johnnie Sue Hancock, juniors, Tanya Wood, Randy Davis and Ramona Ballew, and seniors, LuGay Godfrey, Randy Phillips, Silva Ayers and Bobby Cosby. Plaques were presented to these outstanding marchers.

House-To-House Cancer Drive Began This Week

Mrs. Dennis Ward, chairman of the 1971 American Cancer education and fund raising crusade, said workers began making house-to-house contacts to raise funds for the organization this week. Workers will continue with the drive throughout the month.

Hall County's quota has been set at \$2,029.00, Mrs. Ward said. "Those who give their time and talent this year will join hands with the more than two million other volunteers in thousands of American communities whose dedication has already helped save increasing numbers of lives," Mrs. Ward said.

"We hope to contact as many homes as possible this year. One key part of the crusade is distributing life-saving leaflets telling how you can protect yourself against cancer," the chairman said.

"Many cancer deaths are needless since the chances of a cure are good with early diagnosis. More than 1,500,000 Americans are alive today who were cured of cancer," she added.

In charge of the business section drive will be Johnny Harrell while Mrs. Jimmy Roden will be in charge of business firms located on Highway 287. George Berry is chairman for the Morning-side Addition.

Persons who would like to contribute to the American Cancer Society and are not contacted, can mail their checks to the First National Bank, where a special fund is set up for the society. Funds collected are used for research, educational purposes and administrative.

The Drouth In The Political Arena!

Texas Governor Preston Smith and Oklahoma Governor David Hall have requested President Nixon to declare portions of their states as national disaster areas due to the severe drouth. New Mexico Governor Bruce King is also expected to make the same request for portions of his state.

So far, the reaction, reflected by news media to the drouth has been baffling to us and especially it has been frustrating to the many farmers and ranchers as they see a lifetime of work and planning being jeopardized.

Washington could not completely ignore such requests, so Secretary of Agriculture Clifford Hardin made a tour of the metropolitan areas, Oklahoma City, Altus, Okla., Amarillo, San Antonio, etc., to give the President his report on the situation.

The Secretary also said that the President would have to make the disaster declaration before any appreciable help could come. Sec. Hardin did admit, according to one news source, that the drouth was worse than he thought it was.

But so far, the best President Nixon has been able to concede was announced Monday that he was instigating efforts to expand farm credit that he hopes will be especially helpful to drouth-stricken farmers of the southwest.

Congressman Bob Price of the 18th District reports that Sec. Hardin has allocated \$2 million to Texas for cost sharing in emergency conservation assistance. This assistance is available to help repair damage caused by wind erosion and drouth. Funds will be available for deep plowing to bring clod forming subsoil to the surface and for chiseling. There are 21 Panhandle counties eligible for this including Hall County.

Cong. Price said, "I have recently toured portions of Oklahoma and Texas with Secretary of Agriculture, Clifford Hardin, and Director George Lincoln of the Office of Emergency Preparedness. The devastating drouth damage is very evident." The Congressman is requesting lower interest rates immediately on agricultural loans. "There is an urgent need in the Texas Panhandle and other drouth stricken areas of the state and nation for low interest, long term credit for people in agriculture to escape bankruptcy," Price said in his letter to the Sec. of Agriculture, Sec. of Treasury, and Director of the Office of Management and Budget.

Texas Senator John Tower has been reported as saying he is supporting President Nixon in feeling that there is no reason for declaring a national disaster due to the drouth.

Texas Senator Lloyd Bentsen on the other hand, following a visit to drouth-stricken Texas, has urged President Nixon to declare a large portion of the State a drouth disaster area.

Bentsen said the steps taken by the Federal government, particularly the Department of Agriculture, are welcome, but said they are much too limited to meet the broad problems.

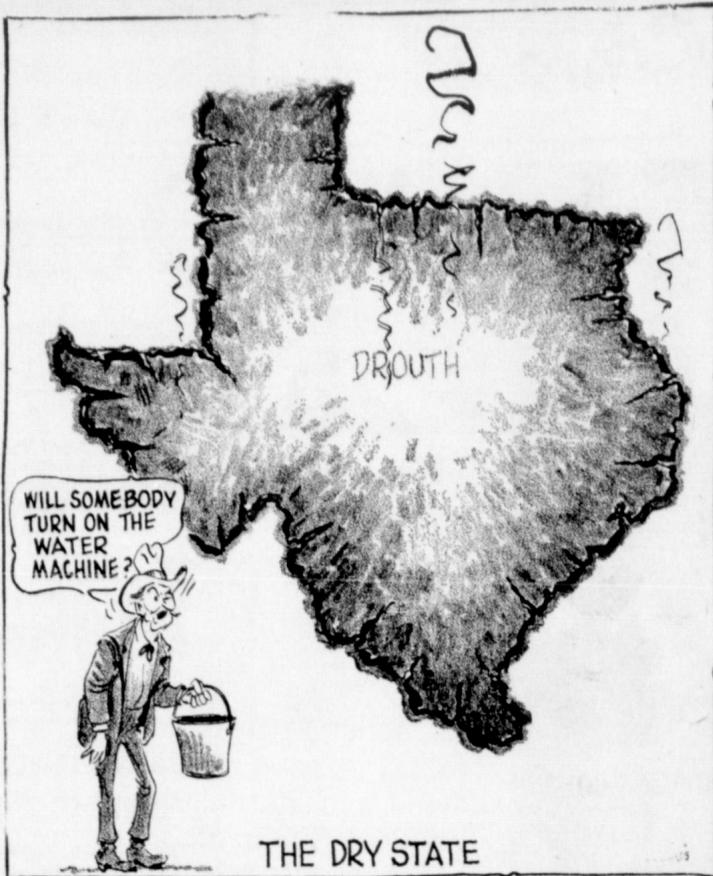

What the whole matter is over, is whether or not PL 91-606, (Disaster Act) of 1970, will be invoked by Presidential declaration.

This act would provide loan funds for business and agricultural enterprise suffering from the disaster to help restore jobs, it would permit distribution of food stamps to those not otherwise eligible, provide broader unemployment payments to those unemployed as a result of the disaster, and give relief to those facing eviction for failure to pay mortgage payments as a consequence of the disaster.

Presently, most help is coming from the Agriculture Department which does not require a Presidential declaration. Help now available includes subsidy of transportation of hay, reduced feed grains from the Commodity Credit Corporation, grazing of conservation set-aside and emergency loans to farmers. Hall County has been participating in these programs since last year.

Oklahoma, Texas, New Mexico, Arizona and California are hardest hit by the drouth, but Nevada, Arkansas and Louisiana are also included in a U. S. Department of Commerce map showing the drouth areas in the United States.

The reason the drouth is so economically crippling is the circumstances in which agriculturists find themselves today, living in a highly inflationary period while receiving 41 per cent of parity prices on wheat.

What Other Editors Say

Water For West Texas

An article in the past Sunday's Avalanche-Journal pointed out a reason for spending money on importing water to West Texas that hasn't previously been discussed much. It is "population dispersal."

Trigg Twitchell, head of the U. S. Geological Survey's water resources division for Texas, says the \$9 billion Texas Water to West Texas is "not an unreasonable thing for the government to do."

Twitchell points out that the two richest soils in Texas are the Lower Rio Grande Valley and the High Plains. But there are more important factors, he says.

"You want to spread your people out," says Twitchell, pointing out that crowded urban areas are vulnerable to attack.

Also, by spreading the population out, you would eliminate the slums of the big cities, the geologists say.

We subscribe to Twitchell's theory. In fact, his arguments are basically the same which led us to return to West Texas to live.

One of the highlights of the camporee was the all-camp contee directed by Cadette Troop of Borger, with Mrs. D. B. Daniel as leader. Competition held in knot tying, lashing, building, care of knife and flag folding, insignia for the uniform and badge sash, compass and trail signs.

Two-mile and five-mile hikes by the Gypsy and Foot Traveler were held Saturday afternoon.

A flag retirement and burning ceremony was held by members of Troops 151 and 200 of Borger and 2 of Pampa, with Mrs. L. Garrett of Phillips in charge. This ceremony teaches the proper disposal of a worn American flag, it was explained. The final campfire Saturday featured the presentation of awards to troops for their performance in the all-camp contest.

Awards were given to the five troops making the most points in the contest.

Winning were: Troop 61, Mrs. Wayne Jones, Pampa, first; Troop 140, Mrs. Charles Gillingham, Borger, second; Troop 106, Mrs. Bob Tipps, Canadian, third; Troop 18, Mrs. Glenn Knight, Pampa, fourth; and Troop 103, Mrs. Dan Hooper, Borger, fifth place.

And participating Ribbons were given to Troop 101, Mrs. C. L. Chambless, and Troop 114, Mrs. Mackie Allen, both of Memphis, and Troop 87, Mrs. N. G. Kadingo, Pampa.

Troops attending from throughout the 10-county area were from Pampa, Borger, Phillips, Clarendon, Memphis, Shamrock, Samnorwood and Canadian.

Troops attending from Memphis were 5th graders, Troop 114; and the 6th grade girls, Troop 101. Both troops camped together and received third place out of the 25 troops for best camp sites. They also placed 10th of the 25 troops in the contests.

The leaders expressed their pleasure in camping with the girls. Accompanying the girls were Mr. and Mrs. Mackie Allen and Mr. and Mrs. Charley Chambless.

Mrs. R. S. Greene's Play "Why" Presented For Little Theatre

A one-act comedy, "Why," written and directed by Mrs. R. S. Greene, was presented before members of the Memphis Little Theatre and several guests Wednesday afternoon. The meeting was held in the home of Mrs. D. L. C. Kinard.

A comedy, the play is well written and brings to life its characters in a modern-day scene, it was reported. Nell Beeson played the part of the mother, Julia Taylor, and her teenage daughter, Joy, was played by Kathryn Jones. Completing the cast were two sisters, cousins of Mr. Taylor, who came for a short visit en route to Colorado skiing. Playing the parts of the sisters were Peaches Harrison and Helen Combs.

There were some tense moments between the mother and daughter over Joy's "hippie" boy friend, which brought laughter from the audience. But all ends well when Joy decided to accompany her relatives to Colorado, thus making her boy friend, Bono, very unhappy. This ended the romance much to the mothers' delight, the reporter stated.

Mrs. R. R. Eddleman Celebrates 96th Birthday At Estelline Home April 29

Mrs. R. R. (Rux) Eddleman, who has been a resident of this area for most of her adult life, celebrated her 96th birthday, at her home in Estelline on Thursday, April 29.

Elizabeth Matildia Merrill was born near Hamilton in San Saba County, Tex., on April 29, 1875. She moved with her parents to Floyd County at the age of 14 where they lived in a dugout that belonged to her uncle until her father found a section of land where he wished to build and help start a community.

She was married to a cowboy, R. R. Eddleman on Feb. 14, 1892. Soon after the wedding the couple moved to Hall County where they engaged in farming, ranching and where Mr. Eddleman was elected sheriff and served in this capacity for some time. Later the family moved to the Mill Iron Ranch near Denver, Colo., where they lived for four years.

Upon returning to Hall County, the Eddlemans purchased a home in Estelline where Mrs. Eddleman now resides with a widowed daughter, Mrs. Bertha Patterson.

Of the six children born to Mrs. Eddleman, two sons and four daughters, only one, R. A. Eddleman of Estelline is the only one other than Mrs. Patterson living in this vicinity.

Mrs. Eddleman has long been a faithful member of the Baptist Church of Estelline, taking an active part in Sunday School, W. M. U. and any other place where help was needed. Her eyesight is still very good. She sews, broders and has recently ordered a suite of furniture.

The members of the Anita Bailey Sunday School Class which Mrs. Eddleman is a member, each took food and a luncheon in her home to celebrate her birthday. Her home was decorated with many beautiful flowers that were sent by her grandchildren, great-grandchildren and by the Sunday School Class for this happy occasion.

Many foliage and flowering plants are suitable for glancing the decor of modern rooms. Such clay-potted flowering plants as orchids, begonia, fuchsias, anthuriums, African violets and gardenias will enhance any bathroom color scheme. Try dracaena, maidenhair fern, ivy and peperomia.

Preston Smith
Governor of Texas

Greetings:

May 8, 1971, has been designated as Fire Service Recognition Day by the International Association of Fire Chiefs.

THEREFORE, I, as Governor of Texas, do hereby designate Saturday, May 8, 1971, as

FIRE SERVICE RECOGNITION DAY in Texas, and urge all citizens to visit their nearest fire station on this day to become acquainted with these men, their apparatus and equipment and the professional type service they provide.

In official recognition whereof, I hereby affix my signature this 12 day of March, 1971.

Memphis PH&T Competition Is Scheduled

Local contest for the official Major League baseball pitch, hit and throw competition (PH&T) will be held on May 22 at 2 p. m. at the Little League Park in Memphis.

All boys, aged 9 through 12, who have registered for PH&T are eligible to participate in the contests. Registration will continue through May 20.

PH&T is a nationwide youth program sponsored by Major League baseball with Phillips Petroleum Company and local Phillips 66 dealers.

H. R. Frisbie, adjutant, Simmons-Noel Post No. 175, here, the PH&T coordinator for this

area, announced that the local contest will be held at the Little League Park.

Frisbie said competition will continue until all the registered boys have completed the three events—pitching for control, hitting for distance, and throwing for accuracy.

There will be four winners—one in each age group—determined on the basis of scores. When the competition is completed, the winners and runners-up will receive handsome plaques and pocket patches.

All of the local winners will advance with local winners from other areas to compete in district contests at Amarillo Giants ball park on June 5.

The four winners from the district will advance to the division competition the weekend of June 13 in Houston Astrodome.

Registration for the local contest has already begun, and will end on May 20. Contact Royce Frisbie to register.

Damage Heavy Car-Truck Wreck Friday

Raymond Jones and George Williams fortunately escaped serious injuries from a car-truck accident shortly after 3 p. m. Friday on State Highway 250, two miles east of Lakeview.

The accident occurred when a Williams truck, carrying two tanks, prepared to make a turn onto a dirt road while a 1961 Impala being driven by a truck struck the bed and rear side and overturned.

Williams and Jones were rushed to Hall County Hospital, where conditions were reported as satisfactory.

Williams is a Memphis farmer and Jones is a sophomore student at West Texas State University. Jones is the son of Supt. and Mrs. P. Jones of Lakeview.

According to investigating officers, Highway Patrolmen Don Williams and Tex Scates of Memphis struck the truck bed sheared off the top of the car when the right side of the car ran under the left side of the truck bed. Jones was thrown out of the topless vehicle and overturned and both came to rest in the soft ditch on the south side of the highway.

The truck rammed nose first into a culvert and up a dirt embankment on the north side of the highway across the dirt road. Both vehicles were heavily damaged.

Leslie Pepper Is Recovering After Being Hit By Car

Leslie Pepper, young daughter of Mr. and Mrs. James Pepper of Memphis, was not seriously injured after being run over by the family car in the driveway of her home recently, reports her mother early this week.

After a short time in the Hall County Hospital, where she was treated for bruises and scratches, little Leslie is now doing fine at home, Mrs. Pepper said.

Half of all blindness due to disease, accident neglect or ignorance, is preventable. It is estimated more than a million and one-half Americans are threatened with blindness from glaucoma which can be controlled and sight saved if treated in its early stages.

YOUR COUNTY AGENT SAYS

Mesquite Control
The continuing dry weather is favorable for mesquite control with oil. Too, labor is available for doing the job. Because the temperatures are on the cool side, the work can be done in relative comfort, reminds County Agent W. B. Hooser.

Oil treatment works well on stands of larger trees—no more than perhaps 100 per acre—but also can be used on small single stemmed trees.

A two to four-gallon compressed air sprayer equipped with a three-foot length of quarter-inch copper tubing is all of the equipment needed. The sprayer tank should be filled with a low grade diesel oil, and the operator is advised to spray enough oil completely around the tree trunk to soak into the bark and run down.

ward into the soil at the base of the tree. One pint is usually sufficient to kill the tree. If done properly, the tree will be dead by spring.

Studies made in Arizona have shown that 25 mesquite trees per acre can cut grass production by 50 per cent. The county agent notes that most livestock producers would like to have that extra grass now.

by BYRON BALDWIN

We had visiting in Hall County Heritage Hall Rachel Crow (Crow) Hopkins of Portland, Oregon. They were guests of Mrs. Henry Scott Burl Smith who were time neighbors of the Crow family. Rachel attended school and graduated from high school at Las Cruces, N.M. She started her nursing profession in 1940 and worked for Odum, Clark, Goodall and W. She is still a nurse looking after sick people which she did in 1945 moving to El Paso where she worked until 1969 moved to Portland with other members of the family. Peggy graduated from M. H. S. in 1947 and then to Arizona, and on to Portland where she now a secretary to the State of Health for the state of Oregon. There were eight children in the family of the late Mr. and Mrs. Chas. Crow, who were pioneers before the 1900's and their home north of Memphis where they used to have some apples and peaches. The children surviving in this family Tom of Lubbock, Carol of El Mae, Winfred, Rachel, Peggy of Portland, Oregon.

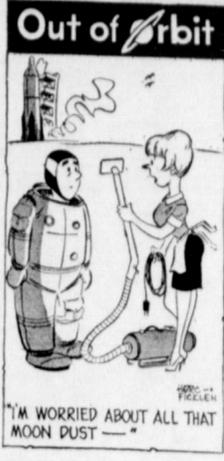

They reported that Jack and his wife Dorothy are in Portland where Jack is running his boot shop. They also report that Jack and Dorothy are grandparents. Rachel and I made a tour of their old place and reminisced on the days. They said some of the things there were about 75 years ago. They brought in a picture of girls basketball team of Giles 1906 when E. H. Watts was coach. One of the outstanding things I saw in Oregon several years ago was "Lamgers' Garage" and I asked about this place with the pretty picture strutting around. Progress eliminated this place making for freeways. Rachel and I liked Heritage Hall very much as it brought back a lot of memories of a few years ago.

Other visitors in Hall County Heritage Hall the past week were

representatives of an early day family, the F. S. Gregory family, who moved to Hall County from Whitesboro, Texas, in 1908. The ones visiting in Heritage Hall were Lee Gregory and his sister, Etta Anderson, of Childress. Etta was the wife of the late Bill Anderson, whom she married in 1910. They had one daughter, Elizabeth (Anderson) Phillips, who passed away in Sept., 1970. They lived in Esteline for several years and in 1947, Etta moved to Childress. One of the sisters of Lee and Etta, Mildred (Gregory) Stewart, is now living in Midland and has two sons. Midred was born in Memphis. Lee lived in Turkey for 42 years and about two months ago moved to Childress to help his sister keep the yard mowed. While Bill Anderson was living, he was the operator of the Anderson ranches. Etta brought us the shaving mug that Bill kept in one of the barber shops in the north side of the square. This mug has his name on it and a picture of a white face steer. This mug is about 65 years old. Back in the old days when there were over 30 barbers working in this town, we did not have the safety and electric razors. Most of the men had their regular barber shop to get their barber work done and they would have their own individual shaving mug in a rack in the back of the shop. This mug had their name on it and usually some kind of emblem and this mug had their own brush in it as well as their cake of Williams or Colgate shaving soap.

Lee Gregory brought in a picture of him standing by a 165 lb. fish that U. F. Coker of Turkey caught off the coast of Old Mexico out of the Pacific. He said they and two more men had big jobs even landing this fish. He also brought in a picture of the wrecked FwandDC engine on the tressel near Salisbury when one or two men were killed in the wreck.

Etta Anderson remembered when the Presbyterian Church was located on the corner where Dr. Clark's Clinic is now located, and the pastor of the church was Bro. A. B. Frank who came here from Alaska. He was the young people's friend, put up a tennis court

and other games. And at one time, it looked as though all of the young people were going to be Presbyterians.

Mr. and Mrs. M. D. Atkins of Arrado, Col., were guests of Mr. and Mrs. Angus Huckaby the past week in Heritage Hall. Mrs. Atkins was born and reared in Memphis. She is the daughter of the late Mr. and Mrs. J. E. Huckaby and sister of Angus who is still a Hall County boy. Ira (Huckaby) Atkins was nicknamed "Mutt" by her dad when she was very young. She graduated from M. H. S. in 1943. She says one of her outstanding teachers in the school here was Lucile McCanne, now Mrs. Hubert Dennis. We have always heard "that it's an ill wind that blows no one any good"; well, back in the "Dust Bowl" days of the 1930's (in 1935) M. D. Atkins was transferred here from Dalhart and he and others were making a map of the dust bowl area as he was in the Soil Conservation work and has been for the past 35 years and recently retired from Lincoln, Neb., and moved to Colorado. This romance started from sandstorms here and he and Mutt were married here in 1935 by a former Baptist pastor, O. K. Webb. I remember how bad the sand was then nearly every day, so I asked Mr. Atkins how long it was after they married before the really knew how each other looked as they were all blind dates in that time. He said he thought it was in Liberal, Kans., when they really found out how each other looked. They have one son living in Michigan and one daughter living in

Denver, Colo. They also have five grandchildren. Mutt's father and mother operated a restaurant here for a number of years. Her father, Ira, passed away in 1951 and her mother in 1961. Mr. Huckaby's brother and his sister were missionaries to China in the early 1900's.

The children now living of Mr. and Mrs. Ira Huckaby are Angus of Memphis, Curtis of Pampa, Velma Brune of Los Angeles, Calif., Lillian Decker of Long Beach, Calif., and Mutt of Colorado. Lillian, I think, was the one we called "Tiny". They liked Hall County Heritage Hall very much and the next day Angus brought in the old family Bible to put on display that belonged to their grandparents at Willis Point over 100 years ago. This Bible is about six inches thick and it is very complete with all the different references.

Albuquerque, N. M., moving from there to Panhandle and Amarillo and back to Memphis in 1963.

Mrs. Toner (Katherine Frances Milam) graduated from M.H.S. in 1942, married Frank B. Toner in Oct., 1945, in his home town of Paso Robles, Calif., at St. Rose Catholic Church. They are now living in San Leandro Calif., where Frank is manager of the Bay-Fair Bank of America. They have two daughters, both married. Sandra, now studying opera, is mezzo soprano singing the lead in "Hansel and Gretel" by Engleburt Humperdink. The other daughter, Suzanne is a legal secretary, also dances and sings, is with the "Nicholeeters" who perform for social clubs, churches, lodges, U. S. O. shows and fairs.

These Milam girls are carrying on with their late Aunt Maud who played a large part in establishing Heritage Hall museum here. Katherine Frances brought a cream picture for Heritage Hall from Mrs. R. E. Martin of Los Angeles, Calif., where she is now living with her son, Reuben, who is a musician and has gone a long way as an artist. He recently had a good sale of his art work. Mrs. Martin and the late R. E. Martin were in the drug business in the early days here. The cream pitcher is a souvenir type with the

picture of Memphis looking west on Main St. There were originally seven different scenes of the early days, but Mrs. Martin says this is the only one left. Thanks for this one.

Another item brought in by Katherine Frances was the school picture of the 4th grade in 1933 with their teacher, Mrs. Forest Hall. Some of the members of this class identified were: Jack Morgan, Bobby Jones, Pete Clower, Earl Foster, Jack Miller, H. B. Gilmore, Bobby Lindsey, Betty Jean Morrison, Charlene Gerlach, Nesa Nell Coursey, Anita Meacham, Roselyn Watson, Katherine Milam and Elwanda Jones.

In reading our Sunday newspaper, we note that our neighbor at Hedley in Donley County was one of the farmers who conserved his soil and water and was awarded a silver service for the sightless man who had accomplished so much with the co-operation of his wife and his seeing-eye dog. He was honored at the meeting in the T. C. U. ballroom where he was accompanied by 18 of his Donley Co. friends. Congratulations to Mr. and Mrs. Leon Doherty.

Fire Dept.—

(Continued from Page 1)

requires 24 meetings a year with members maintaining an 80 per cent attendance record.

Chief Dale said members are not required to make any certain number of fires as everyone could not answer all the fire calls.

The department averages 90 calls a year and of these, 40 are calls to out-of-town fires in a 30-mile radius around Memphis.

That leaves 50 alarms for the City of Memphis. Out of the 90 alarms, 10 prove to be false and 70 extinguishing is necessary.

The record shows that the volunteers put in 2,250 man hours a year on fire alarms and drills.

In 1970, the department answered 83 calls and spent 1,187 man hours, Secretary Bill Leslie reported.

Volunteers receive no individual compensation, however, the department receives \$50 per month from the City of Memphis.

Chief Dale said that water is still the major way of fighting fires; however, when possible, other means are used to keep water damage from being too extensive.

Insurance rates are definitely affected by the efficiency of the local fire department and the local ratio by fires.

Two Memphis firemen go to school each year at Texas A&M University. Also, every three years, Chief Dale said, the department will try to have a school held here.

Chief Dale said he has been a member of the fire department for 19 years. "I am a fireman because I want to be in the Memphis Department. I feel sure that is why all of the volunteers are in the fire department," he said.

The volunteers are called on to perform many types of civic services each year, but the firemen feel they have really done their best when they can assist other departments in times of extreme emergencies as they did recently at Wellington, or as they did during the tornado disaster at Clarendon.

The department will have a steak supper for members and families Saturday evening, following the Open House.

County Crippled—

(Continued from Page One)

It was explained that the local chapter is not affiliated now with the Easter Seals which is a national organization and retains all monies sent to Easter Seals. President of the local chapter is Ed Hutcherson, and secretary is Marvin Duren. All money raised at this project will be kept in the local chapter to be used here, the president said.

Queen candidates will be students from the 5th and 6th grades in the Memphis school system. The following merchants are sponsoring candidates as follows:

Lockhart Pharmacy, Tammy D. Lockhart; Fowlers Drug, Sarah Fowles; Parker's Dept. Store, Kathy Chambless; Greene Dry Goods, Julia A. Fowler; The Lady Fair, Terri Shadid; Vallance Food Store, Holly Roden; Sylvia's Ready To Wear, Kim Wynn; D'Ann's Shoppe, Sidney Johnson; Super Save Market, Suzann Elliott; Davis & Scott Super Mkt., Sandra Allen; B & V Grocery & Market, Tamara Hodges; Perry Bros., Jane Richardson.

Appearing on the program at the May Musicals will be outstanding talent from throughout the county.

Leslie Spear of Estelline will be featured in "Raindrops Keep Falling on My Head." "Slap Her Down Again, Pa" will be presented by Susan Eddins, Tonda Gibson, Shane Hedrick, Rhonda Bowman and Kerry and Kevin Kinard, all of Estelline. Belina Barbee and Christy Whitten of Lakeview will do "The Man" and Landa Fuston, Laura Florez, Laura Fuston and Hector Campos, all of Turkey, will do a waltz and Spanish Hat Dance, while another group will do a "Square."

Other features of the program will be the May Pole Dance; Toby Gibson of Estelline doing a Cossack Dance; Randy Dale with guitar and songs; Miss La Moss Springer of Hedley with a vocal trio, and Silva Ayers and Gary Sims, vocal number.

The couples in the May Pole dance are Bobby Kehr and Tina Foxhall, Miles Farnsworth and Donna Ferrel, Tim Widener and Tammy Browning, Michael Roden

and Peggy Fowler, Aaron Williams and Lisa Ferris, Terry Phillips and Sandy Hindman.

Billy Ed Dixon, Dennis Holt and John Orr will furnish music for the event. Also featured will be Jesse Reynolds and the Troubadors.

During the evening the May Queen will be crowned.

Mr. Hutcherson said a contribution has already been received from W. B. Wilson, Sr. and S. M. Lee. Persons who wish to contribute to the local Chapter for Crippled Children may mail or send their checks to Ed Hutcherson or Marvin Duren, or Tops Gilreath.

Banks—

(Continued from Page One)

ing institutions which totaled \$15,965,719.69, an increase of \$1,398,068.89 over the 1970 total.

Showing a slight increase is the loans figure of the three banks. At the close of business on April 30, 1971, the loans figure was \$9,419,078.89, an increase of \$334,772.02 over the figure a year ago.

The April 30, 1971 report contains the highest figures in total assets ever recorded by the county banks in the April call; however, the 1969 first quarter total deposits figure was higher than the 1971 figure, an examination reveals.

The statements of condition were released early this week by the First National Bank and the First State Bank of Memphis, and the Peoples State Bank of Turkey.
