MRS. JOE (Pinky) MATTHEWS

SENATOR JOHN TOWER
TEXAS REPUBLICAN

The annual 18th District Spring Convention of the American Legion and Legion Auxiliary will be held in Memphis Saturday and Sunday, with delegates from all posts over the Panhandle expected to assemble here. Among the convention highlights will be the Saturday night banquet address by U. S. Senator John Tower (R., Texas), who in a recent communication with J. R. Mitchell indicated he will have several speaking engagements in the Panhandle this weekend. Along with Senator Tower, several other office holders from Washington and Austin are expected to attend the convention sometime during the two days. Many are expected to attend the Saturday night banquet, set to begin at 7 p. m. at the Memphis Community Center. The banquet is open to the public with tickets at \$2.50 per plate available at the Chamber of Commerce office, De Ville Motel or from Post Commander J. Stone here. A dance and an open house are planned after the banquet. Several Hall County and former county residents will be entertaining with pre-banquet music, featuring Wendy Dawn, recording artist, Frankie McWhorter, Zipp Durrett and possibly others. Wendy is the daughter of Mr. and Mrs. Dutch Wheeler of Memphis, and will be appearing at about 6:15 p. m. in the 45-minute show. **Featured Speaker** Sen. John G. Tower is this year marking a decade of service in the United States Senate. He is the ranking Republican on the Senate Banking, Housing and Urban Affairs Committee, and third ranking Republican on the Senate Armed Services Committee. Sen. Tower is seeking his second full-term, being elected in a special election on June 15, 1961. He has two Democratic opponents, Barefoot Sanders of Dallas and Ralph Yarborough, former Senator, of Austin. Senator Tower was born in Houston, the son and grandson of Methodist ministers. He served during World War II in the U. S. Navy and saw combat duty as a seaman aboard a gunboat in Asian waters. The speaker was an educator before entering political life, and taught political science for nine years at Midwestern University, Wichita Falls. As a U. S. Senator, Tower has made seven trips to South Vietnam. (Continued on Page 8)

Cyclone Trackmen Sweep Div. III At Vernon Meet

The Memphis Cyclone track team under Coach Joe Bain racked up an impressive 118 1-3 points, strongly outdistancing 16 other teams to capture first place in Division III of the Vernon Track Meet last weekend. For the Memphis trackmen, the victory was even more impressive considering the caliber of the competition. Clarendon placed second in the meet with 65 1/2 points, while Holiday had 55, Rule 53 and Knox City 49 1/2 points. Louis Davis set a new meet record in the intermediate hurdles with a time of 41.7, 7-10th of a second faster than his winning time last season. Memphis was strongest in this event of all, taking first, second as Paul Fowler ran a 43.6, and John Carmen placed fourth with 44.4. Carmen and Fowler teamed to place second and third in the high hurdles with times of 16.8 and 16.85, both being edged by a 16.6 time by Clonts of Knox City. However, most track meets hinge on the capturing of points in the relay events, and Memphis coasted to a first place in the mile relay, and was edged by a fraction and had to settle for second place in the 440-yd. relay. Coach Bain is looking forward to the Panhandle meet Friday and Saturday, and reports that the MHS relay teams will have one change in personnel in each

team. The sprint relay will have Louis Davis, Charlie Slaughter, Otho Rogers and Larry Johnson. The mile relay will have Louis Davis, Charlie Slaughter, Mack Miller and Larry Johnson. "Our mile relay ran a 3:38.9 at Vernon without Mack Miller, so I feel this team will do better at Panhandle," Bain said. Placing second was Rule with 3:41.6 and Clarendon was third with 3:41.8. The sprint relay took second with a 45.9 time, behind Clarendon's winning time of 45.8. This early in the season, the sprint relay (Continued on Page 8)

Who Supports Agriculture?

The over-riding issue in Congress, so far as Tulia and Swisher County are concerned, is farm legislation. This is due to the fact that we sink or swim with agriculture. As agriculture goes, so goes Tulia and Swisher County!

It is no secret that the Congress is divided on proposed farm legislation. But it is a secret as to the location of the line that divides the Congress. Most people think, mistakenly that all the rural area Congressmen and Senators are for the farmer while all the urban area lawmakers are against him. This isn't true.

Some of the worst enemies of the farmer are tight-fisted, short-sighted, conservative Congressmen from the midwest, while some of his best friends are from the city!

Some of the city lawmakers may have discovered that it is not to the best interest of their districts or states to have hordes of unskilled farm laborers trek to their cities from the farms, there to add to the urban problems. Seventy eight Wisconsin dairy farmers are moving to the city every week! It's to the advantage of the city to restore rural America!

A check of voting records in recent years is revealing. The best farm voting records, not the worst, are from the big cities. On six issues of direct concern to agriculture, 108 Congressmen from the largest cities of the nation cast 410 votes for and 153 against the farmer. This was a 73 per cent favorable vote. Only 12 Congressmen cast more votes against the six farm issues than for them.

The record of Senators from the largest cities was even better. Of 12 big city Senators, not a single one voted unfavorably more often than favorably. On six issues selected as especially important, 47 votes were cast for, only nine against. This was an 84 per cent favorable record. The 12 big city Senators read like an honor roll for agriculture. They were the Senators farm groups have come to count on not just for support but for leadership. Those with 100 per cent voting records were Edward Kennedy, Eugene McCarthy, Walter Mondale, Gaylord Nelson, Stuart Symington, Stephen Young, and Alan Cranston. The years considered were 1968-1969.

The day is past when we can afford to be provincial and selfish when it comes to national . . . or even world . . . problems. We have learned that our nation has the characteristic of a human body. If one organ of the body is sick, the body is sick all over.

If the big cities have problems, we here in West Texas will be affected sooner or later . . . perhaps sooner . . . by these problems. And if the farmer is in trouble, every corner of the nation will be in trouble eventually. In fact, every depression this country has ever had started on the farm!

True, the farm population has declined. But the number of people dependent upon agricultural prosperity is sufficient to throw this nation headlong into depression.

Consider the amount of steel used by agriculture. Agriculture is one of steel's best customers.

When the farmer is depressed, he no longer buys farm machinery, petroleum products, and a hundred other items. Granting, for the sake of argument only, that Amarillo was independent of agriculture. An agricultural depression would bankrupt almost every town in Amarillo's trade territory. In fact, failure to pass an effective farm program, one continuing present payments, would have essentially that effect.

What would happen to Amarillo's retail stores that depend on surrounding towns for about 40 per cent of their trade? What would happen to Amarillo wholesale houses that supply most stores in area communities?

It's time that rural folk (1) discovered their friends in Congress and (2) learned that we can no longer afford the luxury of provincialism and selfishness in the face of problems anywhere in America.

Local Advertising

Two marketing experts in New York the other day gave newspapers and small radio stations good news when they reported that there is no national advertising market in the U. S. any more and that all business is local. That's what we have been trying to tell the experts for years. After making their study, the New York marketing consultants said that after checking out 100 key markets in the nation, they have to conclude that network advertising is no longer the darling of Madison Avenue. National advertising now is designed and placed on a regional basis with the retailer and distributor having an ever growing voice in the process.

This survey found that it is nearly impossible to measure the sales impact of network and national ads accurately enough. It was found that network television advertising has its greatest success in "impulse items" such as soap, toothpaste, shaving cream and the like. It had very little effect upon the buying decision of purchasers of major items such as automobiles, large appliances or even clothing.

All this sounds great to those of us in the small newspaper market where we have customers

who sell many items that are advertised, but not in their market. Placing the bulk of the advertising budget into network television for automobiles, for example, does nothing for the dealer in the community outside the metropolitan market. Yet he is expected to help pay the cost of such advertising with a portion of every unit he sells. When the manufacturers come to realize that indeed all business is local and that sales efforts should be made in that direction, the better off everyone will be. Except the television networks, of course. But then, there appears to be enough new deodorants and salves being put on the market to keep that market supplied for a long time to come.

At Last!

At least part of our federal system of government is still intact. The three-judge federal panel that knocked down filing fees

to finance the state's primaries this spring tossed the problem of how they would be financed back into the lap of state officials, noting that "This issue . . . is within the exclusive province of the state."

What the judges are really admitting is that they created the confusion but it is up to the state to straighten it out.

That's encouraging. Federal decisions recently have tended to take away all state powers. For instance, a federal court not only rules that a state's legislative redistricting is unconstitutional—it also remedied the wrong by supplying a new redistricting scheme of its own.

That, clearly, is not the court's function.

That function belongs to the state legislature, whether in session or not. The court's role should be limited to the constitutionality or unconstitutionality of the proposals before it. That role should be judicial only—not legislative.

If a state statute is unconstitutional, the courts should say so, then tell the proper authority (legislature) to correct it.

Mrs. Jim Lange was hostess for the March 1 meeting at 4:00 p. m. of the Woman's Culture Club.

Mrs. Theo. Swift, program chairman, introduced the Texas Day program entitled, "The Golden Spread of Texas," which was brought by Mrs. Frank Ellis, assisted by Mrs. David May. Mrs. Ellis told of the early days in Amarillo, of how its name was taken from a creek and the meaning of yellow. "In the early day, a lot of houses in Amarillo were painted yellow," she said. During the program, Mrs. May showed pictures as Mrs. Ellis reviewed the book, "Amarillo," written by 161 different people. Laura Hamner helped keep the project alive to get the book written. Mrs. May sang the favorite song of Amarillo residents, "Lord Plant My Feet on Higher Ground" as they feel the Lord indeed planted their feet on higher ground.

Mrs. Ellis discussed five things the Plainsmen used to help make Amarillo Tall in Texas, as outlined in the book and had displays of these things: the horse to investigate; the rifle to subdue; the bobwire to contain; the windmill to occupy; and the railroad to develop. She closed by saying the standard Amarillo joke, "When you have white face cattle grazing around a gas well in an irrigated wheat field, things are in pretty good shape."

Mrs. Jeanette Irons closed the program by discussing early day cattle trails, including the Shawnee Trail, Goodnight Trail, "Chisholm Trail, Western Trail and the Jones Plumer Trail with a crossing near Newlin, mentioning that they used Mt. Hobo at Hulver as a sighting. She added that 10 million cows were moved over these trails in 20 years until the bobwire stopped the cattle drives.

Refreshments were served to Mmes. R. E. Clark, Frank Ellis, Ward Gurley, A. W. Howard, Jeanette Irons, Pat Lewis, David May, Robert Moss, Alvin Pyeatt, L. G. Rasco, Theo. Swift, Miss Sybil Gurley and the hostess, Mrs. Jim Lange.

Northwest Texas Research Program Commemorates 15th Year Of Service

The Northwest Texas Research Program, in Hall, Collingsworth and Wheeler Counties, is observing its 15th year of operation this year. The program has brought on-the-farm experimentation in all phases of agriculture endeavors with expert supervision and annual tours of examination of experiments.

During the fall of 1956, farmers of Collingsworth and Hall counties, through their legislative representatives, requested that Texas A&M University conduct a program of research and demonstration to solve certain problems peculiar to that general area.

Representatives of the Texas Agricultural Experiment Station met with agricultural leaders, members of the commissioners courts and other citizens of the two counties, including State Senator A. J. Rogers, State Representatives Will Ehrle and Grainger W. McIlhenny, to discuss problems and formulate a tentative program.

This meeting resulted in a joint agreement between the Texas Agricultural Extension Service and Texas Agricultural Experiment Station which carried the official designation, "Northwest Texas Research Demonstration Program."

Main points of the agreement were:

1. The program would cover a three-year period ending in 1959, unless otherwise amended. (It has been extended and is now a part of the overall program in the three counties involved.)

2. The two services share equally the total cost of this project contingent on funds available.

3. Research personnel of the Experiment Station, with the assistance of certain Extension specialists, provide detailed planning and technical assistance.

This program has been in effect since March, 1957. Dwaine L. Scott of Wellington is the Farm Demonstration Assistant, working with County Agents W. B. Hooser, Max W. Hatter of Wheeler County and Don Reeves of Collingsworth County, in coordination, planning and carrying out the demonstrations.

The Experiment Station, with administrative headquarters for the program located at Chillicothe, provide Scott with a pick-

up, additional equipment, supplies and operating expenses. Dr. James R. Mulkey, Jr., is the superintendent of the Chillicothe station.

Fertilizer research and demonstration trials were initiated in the three counties in 1957. Several locations have been used each year with more emphasis on cotton while a smaller number of fertilizer tests were conducted on grain sorghum, wheat, alfalfa, grass and guar.

Some of the more important findings evaluated from the fertility studies during the period 1957-71 can be stated as follows:

1. During years of favorable rainfall, cotton, grain sorghum, wheat, alfalfa, and grass will produce favorable yield increases with fertilizer.

2. Crops on the sandy soils require both nitrogen and phosphorus for best yields. Where phosphate fertilizer has been used two or more years it is possible for soil phosphorus content to be increased to the point where the use of commercial phosphate materials may be discontinued for one or two years. Potash is needed only in isolated instances.

3. On the finer textured soils, nitrogen is the most limiting nutrient with phosphorous addition being necessary in only a few instances.

4. Degree of response to added fertilizers is dependent on such factors as past cropping and fertilizer history, available soil moisture, native fertility level of the soil, crop grown, and other management practices.

5. Results of these studies have been used to calibrate soil test values with actual crop response to added fertilizer recommendations even more precise.

6. Occasionally, lack of moisture, poor root development due to hard pan, diseases, insects, nematodes, etc., can prevent the applied fertilizer from increasing yields and showing a profit over the fertilizer cost. However, due to carryover effect, the fertilizer residue often shows a good profit on the next crop.

A summation of the demonstrations conducted show the vast range of experimentation. These include: hybrid grain sorghum tests on irrigated land and dryland, cotton fertilizer tests for

"You won't want to miss this exciting festival," the report said. Program personalities include the area famous religious folk group, "The Youngblood," and the national famous religious folk group widely acclaimed and loved, "The Revolution." Along with these singing groups will be Archie Manning, star quarterback of the New Orleans Saints as the principal speaker.

Archie Manning is almost too good to be true. The red-headed kid with the face full of freckles who became an all sports hero, had perfect attendance at Sun-Sunday School, was Senior Class president and valedictorian of his high school and went on to college to become an all-American football quarterback and marry

James Darrell Elkins of Wita Falls flew to Libby, Mont. Saturday of last week to visit his mother, Mrs. Mary Meek, former Memphis resident, and her husband Robert, who reside on the Jerry Kenely Ranch. He reported an enjoyable time with plenty of snow.

His college coach, John Vaught, calls Archie, "the greatest ever—college or pro" and predicted he will "revolutionize the game of professional football" as quarterback of the New Orleans Saints.

Before a packed house of 10,000 in Sugar Bowl Stadium, Manning became the weekend hero of professional football, guiding the Saints to a 24-14 upset over the Dallas Cowboys. He did this by passing for one touchdown and running for two more. One of 13 yards up the middle which he broke out of the pocket and ran past such established players as Bob Lilly, Jethro Pugh and Leroy Jordan. All this with a plastic support for his injured right foot and padding on his arm. As Johnny Vaught, who watched Archie sizzle at Ole Miss, says, "Just give him time."

Whatever you do, don't miss this spectacular first time in Amarillo "Jesus Festival," the sponsors advise.

There were forty-three who re-tered in Hall County Heritage Hall last Saturday. Mr. and Mrs. E. Jenkins had as their guests, and Mrs. L. E., Jr. and their son, Larry, of Panhandle. This was the first visit the Jenkins family had made in Heritage Hall and they seemed to be proud of the displays that they found in their former home county. L. E. Jenkins, Sr. farmed the Bud Claren farm west of Memphis for about 35 years where he and his wife reared a family of 6 boys and 3 girls and all were graduates M.H.S. All of the six boys graduated on the Cyclone football team. L. E. graduated here in 1910. He played right tackle for 10 years on the MHS team. He served three years in the Army, married Juanita Bruce of Wellington in 1949 where he was in the business for a number of years. They have one son, Larry living with them in Panhandle where L. E. is now in the insurance business.

be so modest, they were all silver and all hers.

We keep accumulating invaluable items in Hall County Heritage Hall and we need about 4 more show cases to put more of the items on display behind glass.

Edna Waites was in the past week and left 2 photographs with us, one of which was a scene looking down Main St. in 1903. The other picture was made in front of the Methodist Church of apparently a Confederate reunion as it seemed that most of the ones in the picture were elderly hippies as they had long hair and whiskers. It shows that the modern youth are not the only ones that ever wore long hair, sideburns and whiskers. The ones in this picture were modern in 1912. Edna Waites' parents, Mr. and Mrs. P. S. Johnson, moved from Tennessee to Wise County and on to Hall County in 1900. There were 9 children in this family who were reared in Hall County. Edna is the only survivor of this immediate family. Others that I have known but now deceased are Mollie, Porter, John, Emma, Leona, Myrtle and Ollie. Edna's husband, Oran, passed away in 1946. They had three children, all living, Stacey, Wesley and Thyra.

Others visiting in Heritage Hall were Mr. and Mrs. Curtis Tunnell of Turkey. Mr. and Mrs. Tunnell are natives of Hall County. The father of Curtis first came to Hall County in 1918 in a covered wagon. Curtis is a nephew of G. Tunnell, who was an early day merchant in Quitaque and Memphis. Mrs. Tunnell is the daughter of Dave Gibson who was an early day resident of Memphis. I guess Dave was expecting a son when this daughter was born as he named her Davey.

Clara Pritchett had as her guests in Heritage Hall, Mr. and Mrs. R. B. Gillis of Cleburne. R. B. is the brother of Clara. Their parents were early day settlers in Hall County who farmed and operated a livery stable for several years. Their father was R. N. Gillis and was "J. P." for several years. In going over the early years of his life here, he said he remembered me selling him a green suit with a purple lining in the coat. He also remembered his dad buying him a suit from

Greene's and they gave him a dollar Ingersol watch and he dropped the watch before he arrived home and the watch stopped running. But he did take it to school with him and he decided to open the back to see if he could fix it. But the main spring flew out and scattered his watch all over the floor and he was out of time!

Traveling salesmen for the wholesale houses in the early days were called drummers and it had to be a cross country drive from here to Wellington for them to call on the retail stores. R. B. remembered at one time one of these drummers offered his dad \$25 while he was operating the livery stable to get him to Wellington by a certain time. Well, his older son, Dyer, said he could make it, but not so, as he drove the horses so hard to get there that one of the horses fell over dead. R. B. remembered another incident that happened to him in his early "courtin' days" and that was that he greased his saddle good on Saturday and Sunday as he went courtin' to Collingsworth County and when he dismounted, he found he was a well greased "Beau Brummell". R. B. left Hall County in 1922 and has spent most of that time since in Cleburne. He is now retired after working 45 years for the Santa Fe Railroad. Mr. and Mrs. Gillis have one daughter and three grandsons, all now living in Cleburne.

Mr. and Mrs. Dub Parker made a flying trip to Las Vegas, Nev., a few days ago to the convention of the N. R. E. C. A. Dub is local manager of our office here. I could not get very much out of either one of them about the bright lights. I did ask Billie if she was going to give a report to the Ladies Aid of the exciting things she saw there, and she told me that she did not see anything to tell. So I guess I won't try to make the meeting. I guess Billie wore her eye shades and I don't think Dub had any luck with the one arm bandits as he did not raise his offering last Sunday. Anyway I hope they did have a nice trip.

Other visiting in Heritage Hall were Kathy Nelson of Childress and Eula Mae Spruill of Estelina.

While visiting with Bill Leslie a few days ago over a cup of coffee, I did get a little run down on his ancestors and found out how come Bill such a hardy man. Bill did tell me that his father had told him about his grandfather whom he never knew. This was what Wes told him of his grandfather who passed away at the age of 49, had 10 children and had fought in three wars.

A young man 49 years old at the present time with 10 children would need a 36-hour day to feed them on present prices!

Others I met in a coffee session were the mayor and his wife of Anton, Mr. and Mrs. George Broome. They are still city and county tax payers here and we still call them homefolks even though they have been away for a quarter of a century. I hardly recognized George this time as he had a new hat that I would call a "plantation" hat. Some of the other people I met in the coffee break were Mr. and Mrs. Robert Lee Jones and son, Bobby, of Idaho Falls, Idaho. Robert is the nephew of Mr. and Mrs. John

Kehr and he is in the Air Force (on his way to Wichita Falls). He has seen service the past 7 years, serving in Iceland and in Turkey before being transferred to Texas. A pretty long jump from Turkey to Wichita Falls, Texas!

I noticed a quote a few days ago that Phyllis Diller told David Frost that her husband was so lazy, "He once tried to rob a bank by mail!"

A quote: "Filling that Country"—"In people, as in pies, we expect more than crust."

This is a quote from a new survey: "The average adult spends 2600 hours a year in leisure time, 1200 hours watching TV; from there the descending scale is 900 hours for radio, 218 reading a newspaper, 170 hours reading a magazine, 70 hours listening to records and only 1 percent of the balance is spent on sports, movies and the reading of books."

Word did come to me a few days ago that Jet Fore of Los Angeles, Calif., is the only man now living that made the first commercial club trip that covered 40 miles from here to Turkey and back by Estelina which at that time was a trip of three days and two nights. Pretty slow travel compared to now.

Stella (Wood) Rice, now of Bagwell, Tex., and her sister, Jessie (Wood) Hancock of Amarillo, were in looking the displays over in Heritage Hall. They will be remembered as the daughters of the late Mr. and Mrs. Silas Wood. This family first moved to Hall County in 1906. There were seven children in this family and all graduated from MHS—Stella, Bonnie, Si, Tommy, Jessie, Hiram and Bobbie; Si and Tommy are now deceased. Their father

was one of the early-day fire boys when Mr. Pritchett Montgomery was driving the team of white horses for our first fire truck. He met his death while chief of the fire department and the truck backed over him at 11th and Montgomery where there was a fire at the W. C. Blankenship home. There were two sons and one son-in-law that followed in his footsteps as fire boys without pay.

Stella graduated here in 1925 and Jessie in 1932. She worked with me for about seven years after which she worked for the telephone company for 22 years, and now is a doctor's assistant in Amarillo.

I thought I was telling news one day the past week when I would tell that Joe and Jimmie Montgomery were now Grandpa and Grandpa. When I would tell this, most of them would say, "I just happen to have a picture of my grandchild," so I did see several grandchildren's pictures that day. Some I remember were Wanda Neal, Mr. and Mrs. Robert Sexauer, Mr. and Mrs. R. B. Gillis, and then Exie Sweat overheard the conversation and he wanted to show his pictures of his

10 grandchildren and three great-grandchildren!

I noticed from the daily papers where they transplant kidneys, eyes and even a few days ago that they are making an artificial heart that will keep a calf alive and they hope to have one soon for the human being. I have been looking forward to the medical science coming up with a serum from an elephant's brain that can be injected into some of us older people so we can remember whether we have taken our pill or been to the bathroom. This serum should work as I have always heard that an elephant never forgets. So some day we may go to the post office and ask for our mail without waiting for someone to speak to us so we will know whose mail to ask for.

You never know whom you will meet around the motel and cafes sipping a cup of coffee. A few mornings ago, I happened to see Mr. and Mrs. E. C. Rye of Amarillo. Mrs. Rye will be remembered here as Janice Anthony, daughter of the late Mr. Mrs. T. C. Anthony. The other members of this family that I remember are T. C. Jr., Jack, Arthur and Bess (Anthony) Edmonson who passed away a short time ago. Janice has always been the lightweight of the family but always full of pep and energy. Even though she has run over by a bus and crippled for a long while and had several heart attacks, she is still the go! She and her husband retired from the Burlington. She has a 25-year pin and Rye a 42-year record with them. They were on their way to see her father's sister, Pete Berry, the former Mayor of Anthony, who was the one I called me the "devil", the morning I started working for the Memphis Democrat which was about 60 years ago. I found her long ago. These people are on their way to Atlanta, Vicksburg, Miss., and on to Macola, Fla., where they will be with her brother, James Art's daughters. I told Janice she had a few silver threads among gold, but she told me not to

Girl Scouts To Launch Cookie Sale March 17

The annual Girl Scout cookie sale will be launched March 17, it was announced this week.

Proceeds from this year's sale will buy new tents and drill a water well at Camp Cibola. Each of the local troops will add to their individual treasury with which supplies for activities will be purchased.

The Girl Scouts will have for sale five delicious flavors of cookies this year. In supporting the project, individuals will also help Girl Scouts earn points toward camperships to attend summer camp. All Scouts selling two cartons or more will be awarded an "I Did It" patch for her camp uniform.

Camp Cibola is located north of Clarendon on approximately 40 acres of beautiful natural surroundings with trees. Last year's cookie sales provided a filter system for the olympic-size swimming pool, which was quite an asset to the summer camp program.

By purchasing cookies, local residents can help the Girl Scouts provide more needed equipment for Camp Cibola, making it one of the best equipped camps.

Hall County Highways Included In Plans For 1973-74 Improvements

The Texas Highway Commission on March 1, 1972, approved a \$240 million, two-year program for the development of almost 2,000 miles of Texas highways.

The program includes both new work and additional financed for work previously authorized.

V. J. McGee, district engineer of Childress, announced that included in the Consolidated Highway Program is a project in Hall County, on State Highway 256, extending from U. S.
