## Little League, Farm Teams Plan Picnic At City Park Friday

Members of the Memphis Little League teams, including farm teams, and their families are invited to attend a picnic to be held Friday night at the City Park, according to D. C. Messick, coordinator of the program.

## Cyclone Team To Assemble Monday

The Memphis Cyclone for 1972 will assemble at 1:30 p. m. Monday to officially open practice sessions, but the day won't be the traditional hard-pad workout of recent year first days.

U. I. L. rules do not allow pads to be issued nor contact workouts to begin for four days after the opening of practice sessions this season.

Coach Clyde McMurray and his staff attended Texas Coaching School in Houston which ran for five days last week, and the local coaches met with high school athletes and issued shoes last night.

Coach McMurray said after the Wednesday evening meeting with the athletes that it appears the high school team will have 56 players.

"We're planning now to carry 26 men on the varsity squad, and we have approximately 30 others for the junior varsity and freshmen teams," Coach McMurray said.

He indicated these figures may vary one way or the other. The coach also indicated that

as far as he has been able to determine, all varsity boys will be reporting, with the exception of Randy Gouge, who will be enrolling in Shamrock.

Asked about the 1972 edition of the Memphis Cyclone, Coach McMurray said he felt the squad will be an exciting team.

In answer to questions about the predictions of coaches at the Coaching School, McMurray said, "It was our opponent coaches who picked Memphis first in the district. We're the defending district champion in football, and we're certainly welcoming the challenge this year."

Last year, Memphis was selected by only one poll to win the district championship, and ranked third in the standing by coaches of the district.

Coach McMurray had no comment on the state-wide rankings and predictions.

At Coaching School, which local coaches indicated was a "real good one," the largest ever held (Continued on Page 8)

### Fiscal Double Talk

President Nixon is guilty of election-year double talk. He asks for a rigid ceiling of \$250 billion on national spending but experts on the federal government agree the administration will end up spending close to \$256 billion during the fiscal year that began July 1. This is about \$35 billion more than the government's income.

And while the President threatens to veto bills that call for "excessive spending," he continues to push for passage of his federal revenue sharing plan.

Mr. Nixon appears to have a guilt-ridden conscience, but lacks determination to take firm action necessary to restore fiscal responsibility in Washington. His revenue sharing plan which has wide support in the major cities makes sense elsewhere. If approved, as even the U. S. Chamber of Commerce now expects, the repercussions could be far reaching. It should be noted that Arthur F. Burns, chairman of the Federal Reserve Board, indicated in testimony to the Joint Economic Committee that it might be impossible to keep interest rates stable if the budget deficit continues to grow.

Mr. Nixon and Congress have no funds to share. And if they succeed in passing out billions to cities, towns, states and counties, deficit spending will spiral out of sight.

The national chamber cited the dangers in a hearing before the Senate Finance Committee. In apparently accepting the inevitable, the chamber sought to lessen the impact by working to eliminate the most objectionable parts of the bill. But fundamentally, it sees a national danger arising.

The U. S. Chamber continues to take a strong stand against general sharing. "The monies to be distributed to the states under this bill would be provided on a 'no-strings-attached' basis. Under such circumstances, the federal government would be substituting the national taxing machinery for the states' taxing machinery. Congress would be merely relieving the states from having to collect taxes locally. This distribution of money to the states, in effect, constitutes general revenue sharing, to which we are opposed," the Senate committee was told.

The chamber added: "It is our view that the states should continue to raise their own taxes. General revenue sharing is purely and simply the replacement of the federal taxing system for state and/or local taxation. Once revenue sharing starts, it is bound to be increased until the states are fully dependent on the federal government for their tax collections."

It continued: "We recognize that there are instances in which the federal government must provide funds at the national level to states and local governments to obtain their assistance in achieving specific appropriate national goals. This is not a matter of replacing taxes from the federal level for those at the state and local level. It is a matter of Congress attempting to achieve a specific national goal — such as better national highways or highest educational standards where local resources are inadequate — with the assistance of state and local government. There are only two ways of being assured that such a specific goal will be attained through distributions to the state and local governments — through the use of categorical grants-in-aid or block grants . . ."

Members of Congress should give careful study to the U. S. Chamber position on this highly important issue.

#### CONSTITUTIONAL AMENDMENT

NUMBER 6 ON THE BALLOT (SJR 7)  
General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII, Section 1-b, of the Texas Constitution, be amended to read as follows:

"Section 1-b. (a) Three Thousand Dollars (\$3,000) of the assessed taxable value of all residence homesteads as now defined by law shall be exempt from all taxation for all State purposes.

"(b) From and after January 1, 1973, the governing body of any county, city, town, school district, or other political subdivision of the State may exempt by its own action not less than Three Thousand Dollars (\$3,000) of the assessed value of residence homesteads of persons sixty-five (65) years of age or older from all ad valorem taxes thereafter levied by the political subdivision. As an alternative, upon receipt of a petition signed by twenty percent (20%) of the voters who voted in the last preceding election held by the political subdivision, the governing body of the subdivision shall call an election to determine by majority vote whether an amount not less than Three Thousand Dollars (\$3,000) as provided in the petition, of the assessed value of residence

homesteads of persons sixty-five (65) years of age or over shall be exempt from ad valorem taxes thereafter levied by the political subdivision. Where any ad valorem tax has theretofore been pledged for the payment of any debt, the taxing officers of the political subdivision shall have authority to continue to levy and collect the tax against the homesteaded property at the same rate as the tax so pledged until the debt is discharged, if the cessation of the levy would impair the obligation of the contract by which the debt was created."

### What Other Editors Say

#### Puff and Pedal

The bicycle craze has caught on all over America and an older generation is now pedaling around the streets where kids used to dominate.

Here in Perryton we can see people of all ages riding their bicycles, getting good exercise and plenty of fresh air.

Of course, times have changed and people do their bicycling on a ten-speed model with turned down handlebars and small tires.

Bicycling is part of a national movement toward exercise, long neglected by a nation which has worshipped the automobile as a form of locomotion for several generations.

People in this country have been accustomed to jumping into the car to go to the store which may be only a block away. They drive the car everywhere, and it is no wonder that leg muscles have become flabby and hearts are weak from lack of use.

Along with bicycling has come jogging and just plain walking for health. Any early morning riser in this city can see groups of people walking for their health, and it appears that a majority of the walkers are women, indicating that they are either more concerned with their appearance or their health than the men are.

A small group of men are early morning joggers, but it takes a lot of determination to rise at dawn and jog several miles. Very few stick with it.

Bicycling is more fun. Most of us have fond memories of riding a cycle in our younger days, and it wouldn't take much urging to get started again.

Bicycling and jogging and walking are good exercise and badly needed by a sedentary population which is increasingly plagued by circulatory problems.

#### A Little Humor

The story goes that the minister was traveling by train (remember trains?) when he saw this woman dressed in black sitting across the aisle and sobbing softly. He goes over and tells her that he is a minister and asks if there is anything he can do.

"No thank you," she says and continues to sob. "I'm taking my third husband back to his hometown to have him cremated."

The minister goes back to his seat feeling helpless and then he hears another woman sobbing and

decides to try again.

"I'm a minister," he says, "and I would like to help if I can."

The lady keeps right on sobbing but between sobs she blurts out, "I'm just thinking how unfair it is. Here I am 65 years old and have never caught a husband and that woman has husbands to burn."

### What Does the Bible Say?

Question: "Is God a God of Wrath Today?"

By ART SMITH

When we read such passages as Jn. 3:16; 2 Pet. 3:9; 1 Jn. 2:2, we recognize the great love of God in giving his Son as a sacrifice for the sins of mankind.

Since many people today stress this aspect of God's love and mercy, some are led to believe that God is no longer a God of wrath. Some ask if God is the same wrathful God today, that he was during the O. T. period and early periods of the churches existence where he immediately punished evil (Lev. 10:1-2, 2 Sam. 6:6-8, Acts 5); why doesn't he do so today?

1st—He is the same God: "For I, Jehovah, changeth not" Mal. 3:6.

2nd—Today we have the written confirmed word of God to remind us of God's wrath. Earlier, the people did not. All we need do is to read the Bible to see that God's wrath upon evil will come at the judgment. In Acts 17:30-31 Paul told people to "repent", why? "He (God) hath appointed a day in which he will judge the world in Righteousness."

God has given you and me time to make the decision to serve Him. Some day that opportunity will be past. If we have wasted it, the fearful wrath of God awaits us.

"Behold therefore the goodness and severity of God—" (Rom. 11:22)

# Baptist Conf. To Be Held Tuesday In Turkey Church

The 1972 statewide missions thrust projected by the 1.9 million-member Baptist General Convention of Texas will be felt locally when the churches of the Panhandle Baptist Association come together Tuesday night, Aug. 15, for their Missions-Stewardship-Youth Conference.

The conference will begin at 7:30 p. m. in First Baptist Church in Turkey.

One of more than 100 similar meetings being held across Texas, the meeting will feature leaders from the Missions and Stewardship Divisions of the Baptist General Convention of Texas and state leadership who are involved with the various mission programs of the convention.

The meeting will include a session to acquaint church leadership with the challenge of Biblical stewardship and the resources available for designing a program of Stewardship Development.

"There is a bold challenge for growth in Christian living which is equal to the new potential made possible by prosperity," said Dr. Cecil Ray, director of the Stewardship Division of the Baptist General Convention of Texas.

"Greatness in giving is the key note and such greatness in giving is necessary if Baptists are to be equal to their mission task in the 70's," Ray added.

The meeting will also include a conference on missions and personal involvement in mission ministries. The purpose of this conference is to acquaint the churches with mission projects and the available resources for doing their work.

"During 1972," said Charles L. Williamson, director for the BGCT Mission Division, "Texas Baptists will be giving priority attention to churches in crisis, metropolitan centers, and to youth."

"The opportunity of today's church centers in its ability to demonstrate its love for people. The message of the church is heard best when the church is involved in ministering to the needs of the people in its community," Williamson continued.

An added thrust of the meeting will be a youth rally which will confront youth with the Biblical concept of stewardship and missions designed to motivate their personal commitment and involvement.

# Dove Hunters Have Two Open Seasons

AUSTIN—Texas dove hunters with frostbite? Unheard of!

Until this season, Texas dove hunters were more prone to heat prostration or rattlesnake bite.

But recent action by the Texas Parks and Wildlife Commission split the mourning dove season, making a portion of it in September, and the remainder in January when the cold winds blow.

The North Zone season will be Sept. 1 through Oct. 14, 1972, and Jan. 6-21, 1973.

In the South Zone the season will be Sept. 23 through Nov. 5, 1972, and Jan. 6 through Jan. 21, 1973, except that in counties having an open season for white-winged doves, the open season for mourning doves ends Nov. 2 during the fall segment of the season.

Texas Parks and Wildlife Department biologists stress the split season is just an experiment to see if the late season will result in additional recreation without unduly increasing the overall harvest of doves. They will keep a close eye on the results to see if late dove hunting in Texas might affect the breeding populations of other states.

Hunters have long been interested in such a season because of the many doves present in Texas during the winter months, according to department officials.

Biologists called for the experimental season this year because they now have the means to evaluate the effects of a split season, whereas in the past sources of the information needed were not available.

# B. B. Shots

by BYRON BALDWIN

Reading our daily papers, we find the "Day of Miracles" is a story that has been in the news for several weeks. One of the articles I read a few days ago was headed "Man's accident returns him blind." This man fell from his back with a punctured back with a nail and hit his head on the ground. He had been totally blind for 16 years. He was taken to the hospital to have the nail removed from his back and to have the buildings through the window signs on them! After the signs were on, he went to his room and going to a friend's home, he became blind again. He had been blind for more than a decade. After reading those two stories, it brings back the quote, "Let nothing discourage you, never give up."

Mr. and Mrs. Tom Scarberry of Benton, Ark., were visitors in Hall County Heritage Hall. Mrs. Scarberry will be remembered as Lueava Jenkins, daughter of Mr. and Mrs. L. E. Jenkins who graduated from MHS in 1936. She married Tom in 1937. They moved away from Hall County in 1954 and made their home in Pampa and from there to Benton, Ark. They have two sons, one daughter and six grandchildren.

Another one of the Jenkins girls was in Heritage Hall the last Saturday. Thelma Jenkins graduated from MHS in 1936. She first attended school at Friendship. She attended West Texas State where she got her Master's Degree. She has taught school in Amarillo, France is in Arlington, Texas. She married Leon Walker, son of the late Mr.

and Mrs. L. C. Walker of Wellington, where he graduated from high school. Leon served 21 years in the Army Air Corps and after retiring, attended college for his degree and now he and Thelma are both teaching in the Arlington schools.

Mrs. Kenneth Howard of Post was guest of Teresa Davis in Heritage Hall. Both Mr. and Mrs. Howard have been with Postex Mills for several years.

Mrs. Richard L. Wood and son, Kelly, of Sulphur Springs were visiting in Heritage Hall. Mrs. Wood will be remembered as Berna Carroll Benton, daughter of the late Willie Benton and Mrs. Benton, now of Amarillo, and sister of Bonnie (Benton) Wilson of Memphis. She married Richard Wood in 1949, son of Mr. and Mrs. Bill Wood of Brice. They moved to Childress in 1950 and have lived in Sulphur Springs for the past four years. They have one other son, Robby, who is now 18 years old. I did ask Berna about the other members of the Willie Benton family. Rita, Peggy, Debbie and Janie are in Amarillo, Joyce in Austin, Susie in Baytown and Jimmy is a senior in Arkansas State University and is one of the players on the "Razor Back" football team.

Billie Faye Nabers Molloy has as her guests in Heritage Hall Mr. and Mrs. Slim Nabers and daughter, Maribeth of St. Louis, Mo. Slim is the son of the late Mr. and Mrs. Luther Nabers, retiring in 1970 from the Gulf Oil Co. after working for them 39 years and four months. The first work he did with this company was when they were installing the pump station near Plaska.

P. A. Cowan had as his guests in Heritage Hall the past week, his daughter-in-law, Mrs. Harold Cowan and children, Tracey, Kim, Douglas and Leslie of Muleshoe. Mrs. Cowan is the granddaughter of H. S. Lane of Turkey. The first school she attended when she was Bette Guthrie was at Turkey. She remembered her first school teacher was a Miss Leather and said her mother was an invalid. Bette and Harold met in Muleshoe, married and have made that their home for the past several years. Harold is now working with the Bailey County Elec. Co-Op.

Mr. and Mrs. Joe Wehby of Dallas were visiting in Heritage Hall. Mrs. Wehby will be remembered as Jeanine Adams, daughter of the late Theo. Adams and Mrs. Adams of Memphis. A short time after graduating from MHS in 1948, she moved to Dallas, attended a business college and went to work. She married Joe in 1950. He was reared and graduated from high school at Taylor. Joe has worked with one of the larger carpet firms in Dallas for the past 19 years. They have two sons, Bret, now 21, who is attending the University of Texas, and Keith, age 15, who is attending Bryan Adams High School in Dallas.

Mrs. Lynn Jones has as her guests in Hall County Heritage Hall her son, Clinton, and grandson, Chris, of Hobbs, N. M. Clinton was born here and graduated from MHS in 1952. He has been a teacher of math in the Hobbs schools for the past 10 years. Also in the group was Helen (Jones) Crisman, daughter of Mrs. Jones, and her granddaughter, Karen, of Lubbock.

Mrs. Tommy Nelson had as her guest in Heritage Hall, her son, Joel, of Abilene. Vera Gibson had as her guests in the Hall, Mrs. Bill Baten of Pampa, Slim Gibson of Esparto, Calif., Jim and Janice Verden of Wheeler. Jim and Janice are the children of Mr. and Mrs. James Verden. Mrs. Verden will be remembered by a number of people as Myrtle Gibson who worked here for High-tower Greenhouse for a number of years. They have another daughter, Luinda, attending Texas Tech this fall. They are grandchildren of Mr. and Mrs. Glen Verden of Lakeview. Bill and Mary Baten moved from Hall County 10 years ago when he became a Texas Ranger after serving as sheriff of Hall County. Mary looks about the same as always with the exception of her hair color, but she assured me that Bill loved both blondes and brunettes so she does a little changing for him, even though she is married to a grandpa and just happened to have a picture of

grandson, Keith, who is now 3 1/2 years old. The Batens have two daughters, Joy (Baten) Webster, who now lives in Irving and Janetta (Baten) Geiser, now of Bridgeport. I did find out that Janetta is now acting as city judge in their town.

I found out from Mary that during the National Governors' Conference in Houston that Bill was appointed as security escort for Mrs. Geo. Wallace. I asked how this affected Bill, following this pretty governor's wife and her reply was, "He was just a little hard to live with for a few days, but he soon recuperated and was natural again."

Other visiting in Heritage Hall were Mr. and Mrs. Kirby James of Bakersfield, Calif., Mrs. H. B. Gilmore of Dallas, Susan Fowler of Frankfurt, Indiana.

One day the past week while Grandpa Otis Cobb was showing off what a good golfer he was to his son, Lewis, and two grandsons, Grandma Ruth brought her guests to Hall County Heritage Hall, Mrs. Lewis Cobb and two daughters, Lois Ann and Deborah. Lewis Cobb, the son of Mr. and Mrs. Otis Cobb, graduated from Estelline High School in 1942, graduated from Texas Tech and

moved from Hall County in 1953. He married a Louisiana French girl, Dorothy DeGuedry of Lafayette, La., where she was reared and graduated from high school. I did ask Dorothy if she liked good black coffee and she really did and that her uncle was a coffee importer.

Their sons are Stephen and Tim. This family is now living in Alice where Lewis is a division electric engineer for Welex Co.

Others visiting in Heritage Hall the past week were Sherman Conner, Supt. of the schools of Quitaque, where he has been the past two years. He moved from Gaines County to Quitaque and was reared near San Angelo. Ralph White, pastor of the First Baptist Church of Turkey, was visiting Heritage Hall the past week. Before moving to Turkey last January he had held pastorates in the Denison and Sherman area for 25 years.

In a recent issue of the Dallas News I read a story on Mrs. Frances Woosley, retiring director of personnel at Southwestern Medical School. The article was very interesting and extremely well written. I noticed under the heading the author was Nene Foxhall. Upon investigation, I learned it

was our own Nene, daughter of Lois and Lewis. We often speak of a son following in his father's footsteps. This time it's a daughter following in her mother's footsteps. We are proud to claim her as another Hall County product. By 1980, there are expected to be 235 million people in the U. S.

## Methodist Youth Attend Retreat in New Mexico

The Memphis United Methodist Youth participated in a spiritual retreat held in the Pecos State Recreational area near Terreno, New Mexico.

The group left Memphis Monday morning, July 31, and arrived at the campground that afternoon.

The program for the retreat included daily devotionals, Bible study, directed recreation, a visit to Pecos National Monument and a trip to Santa Fe to buy souvenirs and to sight-see. The group returned to Memphis on Friday, Aug. 4.

The youth attending the retreat were Randy and Sheryl Orcutt, Jackie Don Martin, Tim Nelson, Karyn and Matthew Smith, Denise Phillips, Mack Miller, Jay Campbell, Ben Ed and Joe Hillhouse, Kim Wynn and Terri Shaddid.

Attending as sponsors were Mr. and Mrs. Gus Orcutt, Mr. and Mrs. John Chamberlain, Mr. and Mrs. Lester Campbell, Tommy Nelson and Danny Casselberry.

Some say "everyone talks about the weather but no one does anything about it." However, the truth is that all of us, assuming normalcy, are constantly doing something about it.

Each of us is equipped with our own private thermostat. When changing weather conditions cause the atmospheric temperature to vary from the 98.6 degrees Fahrenheit at which the body temperature of a healthy human being has been standardized, the thermostat triggers the mechanism which helps the body maintain its normal temperature.

One of the most remarkable facts of human physiology is that the temperature of warm-blooded animals remains unchanged at 98.6 degrees, even though the temperature of the surrounding environment may vary from below zero to over 100 degrees.

Provided the air is perfectly dry, a man can exist and maintain normal body temperature in an atmosphere that will actually grill a beefsteak. There are experimental cases on record where human subjects, by drinking a great quantity of water to sustain perspiration and stripping to the waist to facilitate evaporation, have withstood temperatures up to 260 degrees for extended periods without suffering ill effects.

The sensation of heat or cold is not due to a change in body temperature but to a change in temperature of the skin surface. And skin temperature is affected when our private thermostat goes into action.

This built-in regulator is a tiny maze of cells located in the mid-brain, part of the brain known as "hypothalamus." If the day is hot, it re-routes blood from internal organs to skin capillaries to cause perspiration. Body temperature is reduced when the perspiration evaporates.

If the day is cold, the thermostat concentrates the blood, and instead of flowing through skin capillaries, blood flows deep within the body. Sweating is minimal. Result: you feel cold and have to put on a sweater or an extra blanket to stay comfortable.

Did you know you perspire even at room temperature? You do, but since it evaporates instantly you are really unaware of it. When you are at rest indoors fully clothed, visible sweating begins when the air temperature reaches a level between 80 and 90 degrees.

The old saw—"it isn't the heat, it's the humidity"—is perfectly true. The same man who withstood 260 degrees in a dry atmosphere would be in serious trouble if he tried to endure a 120-degree temperature in damp and humid atmosphere. Body temperature rises rapidly in such a

## Country Club's Champ. Tourney Is Continuing

The Country Club's championship tournament is in progress now, and in the championship flight, defending champion Danny Scarborough holds a two-stroke lead over Frank Foxhall at this point.

The top flight golfers are playing 72 holes, and at the halfway mark, Scarborough has posted rounds of 74-65 for a 139 total, while Foxhall had rounds of 71-70 for 141.

Others in the flight and their totals are: Alan McNally 146, Mackie Allen 149, Bill Combs 151, George Ferris 151, Bill Gibson 154, Gayle Monzingo 156, Dink Miller 163 and Barry Ward (85 after 18 holes).

Lower flights are match play. In the first flight, Dr. R. G. Bice plays Melroy Cofer, and the winner of this match meets Doug Fowler in the finals. In the consolation, Gene Lindsey has reached the finals and will play the winner of the C. E. Voyles and Rabb Holland match.

In the second flight, Phillip Bray has reached the finals and will play the eventual winner of two remaining matches, David Cofer vs. Mutt Wansley with the winner playing Clyde Smith. In consolation Carrol Gardenhire will meet John Ferrel, and the winner will play Bill Whitten, with the winner of this match playing the winner of the Arnold Cruze and Danny Davidson match in the finals.

In the third flight, Don Cofer has reached the finals. Mike Limer and Bill Lockhart are playing a quarter-final match, with the winner playing Johnny Harrell in the semi-finals.

In third flight consolation,

situation because the rate of evaporation is influenced by the extent to which the atmosphere is already saturated with moisture. You feel sticky when the humidity is high because sweat which is not evaporated simply drips from the skin and in no way increases heat loss.

Suppose you, a male, and your lady are caught outside in the first norther of the season. You have a coat but she does not. You would probably be gallant and give her your coat. However, she is physically equipped to withstand the cold better than you. You both have built-in insulators—a layer of fatty tissue beneath the skin—but hers is thicker than yours.

Other conditions besides the weather can affect body temperature. In the presence of disease or infection, the pulse quickens as the heart hastens more blood-laden with antibodies—to the body areas involved. The speed-up in circulation raises body temperature and a "fever" is produced. There are also body conditions such as malnutrition, anemia and senility which produce a drop in body temperature.

In any 24-hour period it is normal for temperature to vary. Usually it will rise a degree or so about 4 p. m. and drop in the same manner about 4 a. m.

Heat is also produced when the steak and potatoes you had for dinner are burned and converted into energy for various body uses. The process is called metabolism.

Comments about the weather have unquestionably opened more conversations than has any other theme of discussion. And all the time you're talking about it, that ingenious little thermostat in the middle of your head is hard at work.

**LOADING FOR TRIP**—The Memphis United Methodist Youth participated in a spiritual retreat held in the Pecos State Recreational Area near Terreno, N. M., last week. Pictured loading the truck for the trip, left to right, are John and Ann Chamberlain, Denise Phillips and in the background, Tim Nelson. Thirteen youth and eight sponsors attended the session.

Maddox (senior) has reached the finals. In the other portion of the bracket, Gary Gregory is matched with K. B. Chick, and the winner will play Larry Lewis.

Final rounds in all flights will be played this weekend.
