Banks' Deposits At Record High

Hall County's financial figures, in dollars and cents, continues to show a huge increase over last year, setting new all time record "seasonal" highs, statements of condition of the three county banks reveals this week.

Actually, on June 30, 1974, when the call was made, the county's banks total assets, total deposits figures were about \$1 million off what they were in the spring of this year. This is a normal decline reflected each year.

Total assets figures as of June 30, 1974, are \$32,713,910.23 for the three banks, an increase of \$9,033,199.98 over this time last year.

Total deposits figures are \$29,683,616.61, and increase of \$8,641,560.96 over the June figure of 1973.

Loans were also up, totaling \$13,784,717.12, an increase of \$1,253,249.43 over the June, 1973 figure.

The fine crops of 1973 are still being reflected in the statements of condition of the Peoples State Bank of Turkey, First National Bank of Memphis, and the First State Bank of Memphis.

All-Stars Play At Childress Mon.

Memphis Little League All-Stars, a team composed almost entirely of 12-year-olds, will play the Clarendon All-Stars at 6 p. m. Monday night in Childress.

Pablo Reyes will manage the All-Stars and Lee Levy will serve as the team's coach.

Members of the Memphis All-Stars are: From the Giants, Tony Richardson, Ronald Wilson and Johnny Vargas; from the Yankees, Tim Stahl, Lynn Monzingo, and Steve Ferris; from the Indians Rodney Guy, Ricky Evans, Larry Watson and Rodney Jones; and from the Tigers Ray Reyes, Kenneth Jones, Nat Villaneuva and Ray Marines (alt.)

If the Memphis All-Star team wins their game in Childress Monday evening, the team will be

scheduled to play another team later in the week, possibly at Pampa.

Cub Scouts To Have Swimming Party Friday

The Memphis Cub Scout Pack No. 35 will have a swimming party Friday night, July 12, at the Memphis City Park Pool. The pool is reserved for Cub Scouts after 7 p.m.

Cubmaster Bill Combs said the Cubs will have a water safety session and will also have ample time for recreational swimming.

All Cubs and Webelos, plus any boys who will be entering the Cub program this fall are urged to attend.

Ronnie Morris Resigns As Vo.-Ag. Inst.

Ronnie Morris, Vocational Agriculture teacher for Memphis Schools for the past seven years, resigned recently to accept a position with Anderson-Clayton.

Mr. Morris will be the District Sales Manager, Acco Seed Division, for Anderson-Clayton. The Memphis School Board officially accepted his resignation Tuesday night.

The Morris family is moving to Lubbock and will reside at 4821 6th Street.

Mrs. Morris has been employed for several years at the First National Bank as a secretary.

While Morris was Vo.-Ag. Instructor here, the Memphis Chapter built a facility to raise swine, established an alfalfa project and when the county livestock show (Continued on Page 10)

Giants Take First Place In LL Race

The Memphis Little League play continues with games tonight, but then the season will be delayed while the Memphis All-Stars compete in a tournament at Childress beginning Monday evening.

Tonight the Giants will play the Indians in the first game and the Yankees will play the Tigers. Tuesday night, the Giants captured first place in the standings with a 22 to 12 victory over the Indians. This game was real close until the top of the last inning when Giant Ronny Wilson got a batting rally going with a home run over the fence. This gives the Giants a 3-1 record while the Indians have a 2-2.

The Tigers were unable to overcome a 12-7 deficit in the bottom of the last inning in the first game while playing the Yan-

kees and the Yankees won the game 12 to 9 to give them their first victory of the season. The Tigers have a 2-2 record while the Yankees have a 1-3.

Farm Teams
Last Monday night, the Giants defeated the Tigers in the first game and the Yankees won a squeaker from the Indians in the second.

Brice, Lesley Water Corp. To Have Meeting July 13

The Brice, Lesley water corporation will have its annual stockholders meeting Saturday, July 13 at 8 p. m. in the grade school auditorium.

Three directors will be selected at this meeting. Members are urged to attend.

Johnson, Molloy's, Byars' Place In District 4-H Horse Contest

For the first time in several years, Hall County 4-Hers were represented at the District III 4-H Horse Show held in Vernon on July 5 and 6.

The competition was extremely tough and Hall County's eleven entries gave a very strong showing for themselves considering the 4-H Horse Club was organized in April of this year. The members were accompanied by their families and County Extension Agent Warren Mitchell. There was a total of forty Hall County residents in attendance at the contests.

Placing in the Halter division were: Brent McIlroy, 3rd place Gelding; Starla Byars, 3rd Registered Mare under 5 years of age; Dusty Byars, 3rd Registered Gelding under 5 years of age; Steve Molloy, 8th Registered Gelding over five years of age; and Kim

Johnson, 8th Registered Gelding under 5 years of age.

Two of the contestants, Kim Johnson and Steve Molloy, were finalists in the showmanship division.

4-H members competing attending were: Starla Byars, Rhonda Byars, Kim Johnson, Brent Molloy, Wade Johnson, Kirby Gardenhire, Dusty Byars, Chris Molloy, and Steven Molloy. Other 4-H members Sandra Byars, Darcie Johnson, Kay Johnson, Don Duke and Mark Molloy.

Adult leaders and families attending were: Mr. and Mrs. John L. (Sonny) Byars, Mr. and Mrs. Tony Molloy, Mr. and Mrs. Coy Johnson, Mr. and Mrs. Jerry Byars, Mr. and Mrs. Linton Gardenhire, Mr. and Mrs. Jack V. Johnson, Mr. and Mrs. J. B. Byars, Mr. and Mrs. Roy Alvin Molloy and Mr. and Mrs. Warren Mitchell.

Michie, Bowen, Welchs Win Lakeview Tourney

John Michie, Pampa tennis coach, swept the open division in men's singles, doubles, and mixed doubles at the Lakeview Tennis tournament July 4, 5, 6. In men's singles finals, Michie defeated Raymond Jones, Floydada tennis coach, 6-0, 7-5. Michie teamed with Jack Scott to win the men's doubles by downing Rofe Fowler of Memphis and Scotty Settiff of Turkey, 6-3, 6-2. In the mixed doubles Finals Michie and Stacy Douglas dropped a set to Lakeview's Bill Richburg and Partner Carolyn Welch, 4-6, but won the next two 7-5, 6-4 to capture the mixed doubles title.

Amarillo's Ann Bowen had little trouble winning the women's singles. Karen Cofer played a tough first set in the semifinals, as she kept Miss Bowen busy running after her tough forehand shots, but Ann won the set 7-5 and overpowered Miss Cofer to take the second set 6-0. In the finals Miss Bowen downed Brenda Durrett 6-4, 6-4.

The Welch family of Austin may have had to rent a U-haul to carry all the trophies home, Diane Welch won the grade school singles by defeating Sonja Hutchinson of Memphis 6-1, 6-1. Diane and Laura Jack defeated Tonda Gibson and Leslie Cofer in the grade school doubles 6-1, 6-0. Diane also won the Freshman girls singles. She defeated Mary

Hands in the finals 2-6, 6-0, 6-3, and Diane and Vicki Jack were defeated in the Freshman girls doubles Finals 6-4, 6-4, by Laura Jack and Becky Gerkin.

Diane teamed with her sister, Carolyn to win the High School doubles, defeating Karen Cofer and Janet Byars in the finals 6-4, 6-1. Carolyn Welch defeated Karen Cofer to win first in the High School singles, and Carolyn and her mother, Pat Welch, defeated Ann Bowen and Brenda Durrett in the Women's doubles finals.

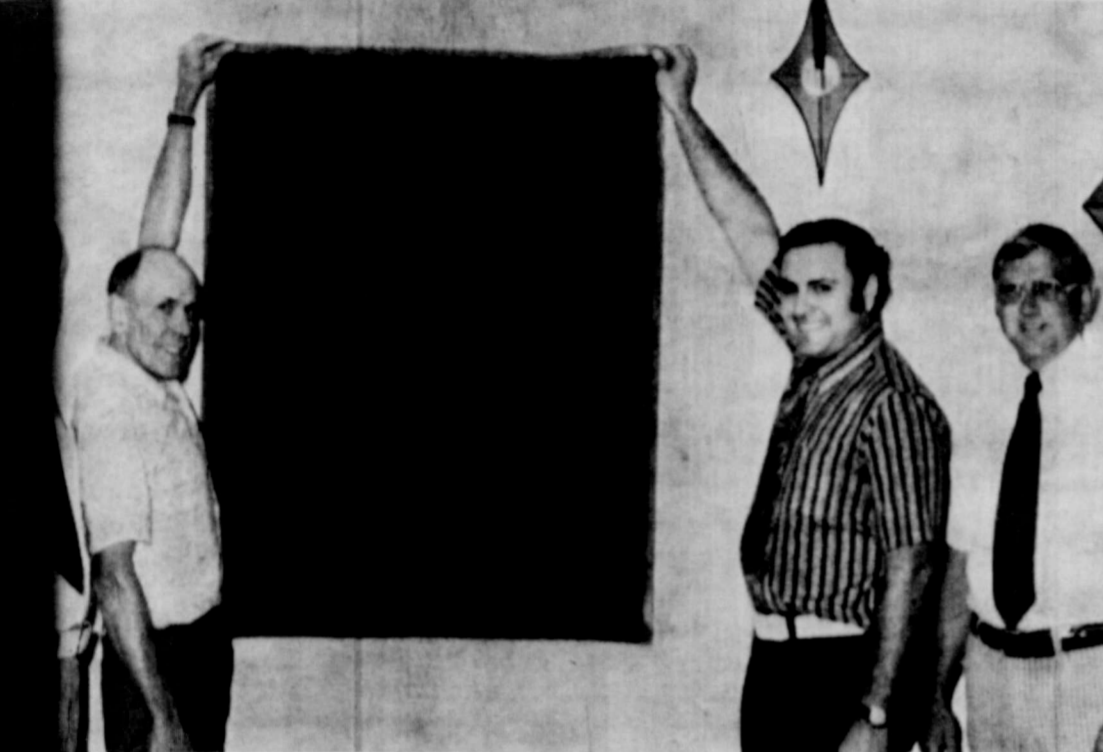

Mark Perkins defeated Greg Clark 6-4, 6-1, to win the Freshman boys' singles, and Bevers and Nelson won the Freshman boys, doubles.

Don Hughes of Pampa defeated Ted Phillips in the finals in High School boys' singles 6-2, 6-3, and in the boys' doubles, Phillips and Phillips were defeated in the finals by Laycock and Allen.

Local people participating in the tournament were: Brad Byars, Maria Gregory, Kelly Clark, Lewis Richburg, Connie Fowler, Kim and Pam Pate and Tina Watson all from Lakeview; Kenny Martin, Randall Shahan, Lynn Monzingo, Ed Hutcherson, Tracy Galloway and Jane Richardson all from Memphis; Michael Miller from Clarendon; and many other local players were in the tournament.

PLANTER BOXES—Several Memphis businessmen have been making their store fronts more attractive by adding planter boxes. Pictured above are the first two who did so. On the left is Donny Spicer and on the right is Lester Campbell. Memphis is competing in a beautification contest this year and all are urged to do their part.

FLOOR MATS—The Memphis Chamber of Commerce is selling floor mats to business and others who want them. The mats are attractively made and carry the Memphis, Capital of the Panhandle message on them. Burlington Plant Here Honors 10-Year Service Employees

Hall Plant of Burlington, Inc., located in Memphis, honored 28 employees served with this company 10 years or more.

Bill Crane, Plant Superintendent, praised the people of the Hall Plant, stating, "Our company is extremely fortunate to have so many fine, loyal and productive employees. They have been through some lean times and times when business demands were great and required extra hours of work. They have always risen to the occasion when called upon.

Bill Crane, Plant Superintendent, praised the people of the Hall Plant, stating, "Our company is extremely fortunate to have so many fine, loyal and productive employees. They have been through some lean times and times when business demands were great and required extra hours of work. They have always risen to the occasion when called upon.

No company could ask any more of their employees. And no group of people could give more than these have given.

"It is a privilege for me to work with this group of people. To have 28 of 112 employees with 10 years service is indicative of the team spirit of a company and its major assets, people."

The 28 employees include: Clara Baggett, Mary Nell Diggs, Kattie Belle Wells, Rose Neel, Merylene Sargent, Pauline Rias, Della Linville, Polly Murdock, Donna Mackey, Ruth Ellerd, Evelyn Mauck, Mary Frances Martin, Billie Alexander, Louise Fricke, Dorothy Anthony, Mary Sue Stotts, Faye Booth, Hazel Coleman, Ola Padgett, Jack Beavers, Leon Beavers, Orace Speed, Ellen Speed, Willie Wade, Lena Swantt, Rose Carlile, Kan Ellis, and Reva Cleveland.

BYRON BALDWIN

Mr. and Mrs. Van Kennedy of Clarendon were visitors in Hall County Heritage Hall the past week. Mrs. Kennedy will be remembered as Annie Cagle, daughter of the late Mr. and Mrs. W. P. Cagle, who moved to Hall County in 1904. Annie remembers when her father built the house on the Broome place west of the city park. She remembered that her mother made the kids stay in the buggy on the outside of the house, so they would not get in the way of the carpenters while they worked. Annie graduated from M. H. S. in 1918. Other members of the Cagle family now living are, Terra (Mrs. John Bass) of Clarendon, Mary (Mrs. Foster Anthony) of Lubbock, and N. P. Jr. of California.

Van Kennedy's family moved to Donley County in 1912. He recently retired as active Vice-Pres. of the Farmer's State Bank in Clarendon, where he had worked for the past half century. Van and Ann have one daughter, Pat Bagwell, who is teaching in the schools at Claude, Tex. Their son, Robert Van, is living in Houston, Tex.

Thanks to Mr. and Mrs. Kennedy for their contribution to Heritage Hall.

While on a coffee break a few days ago, I met Grant Evans and had a short visit with him. Grant, the son of the late Cleve Evans,

graduated from M. H. S. in 1934, served 4 years in the Navy, and has been in California about 20 years, and has worked for the same company the past 17 years. He and his sister, Dorothy, who now lives in Denver, Colorado, were born in Hall County.

When I talked with Grant, I found out that there were about 90 lbs. more of Grant now than when he graduated from M. H. S.

I met another former Memphis High student and Rotary Sweetheart for several years. This was Brenda Duncan, now Mrs. Ernest Rogers of Grand Prairie, Texas. Brenda is now teaching in Mountain View College in Dallas and her husband is teaching in Richland College.

They now have one son and one daughter.

Kim Pride had as her guest in Heritage Hall, Terra Logg of Seattle, Wash. Terra is the granddaughter of Mr. and Mrs. John Bass of Clarendon. Terra is only about 8 years old, but is quite a traveler. By her lonesome self she flew from Seattle, Wash. to Dallas in 3 hours and 20 minutes.

Mrs. Clyde Davidson had as her guest in Heritage Hall her granddaughter, Regina Ivey of Longview, Texas. Another visitor in Heritage Hall was Wayne Lovane of Mullhall, Okla.

There were 2 shows on television July 4th that were very interesting. One was the "Stars and Stripes" conducted by Tennessee Ernie out of Oklahoma City with Bob Hope and other stars including the Boy's Choir of Ft. Worth and the Rangerette girls of Kilgore. This show was an inspira-

tion after seeing the 89 naturalized citizens from 23 different countries at Charlottesville at the Monticello home of Thomas Jefferson.

They were given a small American flag and with the smile on their faces it made you feel that you were not as patriotic as you should be.

A few weeks ago Dr. and Mrs. Prentiss Hyder of Corpus Christi, Texas were visitors a few hours in Memphis, meeting old friends and taking pictures of the spots around town that he remembered as a growing boy here. The past week we received a letter from these people and here are a few quotes from the letter.

"It is very refreshing to come back to my old home, where the people are truly good and so friendly", another quote: "I think Hall County Heritage Hall is a wonderful accomplishment and a monument to Hall County. I was so impressed that nearly everything has a new look, the cars, trucks, store buildings and homes. I am so happy and I wish you and all my friends there of other days the best of everything in life."

Prentiss was so impressed with his old home town, I thought I would let you know what some think of us after being away several years. Our best wishes to the Hydys.

Mrs. Walter Hightower had as her guests in Heritage Hall the past Saturday, her daughter, Mr. Hugh Lilly (Laura Mae) and her granddaughter, Kate, of Houston, Texas. Hugh Lilly was on a visit with his mother in Brownfield, Texas. Hugh gets about pretty fast, flying from Florida to New Mexico and on to old Mexico, as he is doing engineering work there 3 places.

He and his wife and daughter, in flying in from Houston, made 3 or 4 more towns, and on Sunday morning had to get to a noon meal at New Braunfels, Texas. Hugh gets the miles on his airplane just about as fast as his brother-in-law, Senator Jack.

While visiting with the Jerry McQueen family of New Orleans last week, I found out that Jerry is now working as an offshore geologist in about 250 ft. of water and it takes 2 hours to go by helicopter from land to their base in the water, and a 24 hour trip on the freight ship. Mrs. McQueen will be remembered as Joy Parks, daughter of Mr. and Mrs. Ben Parks.

Their 2 youngsters, Shari and Brent, were using a lot of fish bait trying their luck at Brook-hollow Lake.

Mail from overseas is a little slow even by air. Just after turning in my copy last week, I received a card air mail from Vickie Horrell from Lancashire, England.

Vickie, the granddaughter of Mrs. Sam Jackson, made the trip with about 60 others of the young peoples' choir of the First Baptist Church of Amarillo. They were on a Mission tour, had Bible study in the mornings and singing in the afternoon and nights. My understanding was that they made 7 different countries. Vickie believes in going, as this group arrived back in Amarillo at 4:30 a. m. and at 6:30 a. m. she was off for another trip to Floydada and on to Six Flags. We appreciated the card very much and hope they did a lot of good on their Mission trip.

Another card was received the past week from the Bill Cosby's and they will probably be back by the time this is printed, as it was too late for last weeks edition.

Their son gave an audition for Graz Philharmonic orchestra. Mr. and Mrs. Cosby were in Salzburg for their son Bill's graduation. They report good weather and send best regards to their friends here. I imagine their son, Bob, who remained at home as housekeeper and cook will be

happy to be relieved of this job and get some of Mama's cooking in place of the sandwiches and cereals he has been thriving on.

I think I have given the report a few years ago about the first cotton that was grown in Hall County by J. C. Montgomery who was called "The Daddy of Memphis", and it was by accident.

He had been feeding his cattle and noticed that cotton came up from the seed on the ground. He cut the cattle off of this plot of ground to see what the plants would do, and it grew until it matured and made the first cotton for Hall County. It makes me think of that old quote "From a small acorn a mighty oak grows" and now from that small cow lot we have grown to almost 100,000 acres.

Jeffers Honored as One of Top Appliance Servicemen by W. T. Util.,

(Jeff) Jeffers, West Utilities Company service-technician in Memphis, was honored in Dayton, Ohio, recently as one of the top appliance servicemen in the nation.

He won an expense-paid, 2-day trip to the Frigidaire Division of General Motors when he was selected as one of six WTU technicians to represent the Company at the annual accredited technicians' banquet.

At a special awards banquet, Harold W. Campbell, General Motors vice president and general manager of Frigidaire, told the technicians, "We respect and honor you for what you have accomplished. Fulfilling the rigid standards which have been established for accredited technicians is not an easy task, especially when you consider that any of your customers, by one single complaint, can cause you to lose out."

The Accredited Technician Program, the first of its kind in the appliance industry, was originated by Frigidaire in 1963 to recognize individual servicemen who meet high standards in workmanship, experience, training, attitude and customer relations. WTU has participated in the program since 1968.

The award is made only on an annual basis and the serviceman must qualify each year. He is rated not only by the appliance dealer he works for, but also by the individual customer he serves. One justified customer complaint during the year disqualifies a candidate serviceman.

The more demanding Master Accredited Technician rating, introduced by Frigidaire in 1969, requires the same high standards necessary for the basic accreditation rating. In addition, however, the master technician candidate must pass a two-hour written exam.

While in Dayton, the servicemen toured Frigidaire's manufacturing, engineering and quality control operations and participated in technical sessions and customer relations and service seminars.

New Yorkers Visit In Newton Home

Recent visitors in the home of Mrs. Bessie Mae Newton were her son, Dr. Eugene Newton and family of Fishkill, N. Y. They also visited with his brother, Gordon Newton and family near Lakeview.

Dr. Newton is Senior Chemist of Ecological Services for Texas Instruments, Inc., at Buchanan, New York. His wife is the former Melinda Clifton of Slaton and they have one son, Chris.

Dr. Newton received his Bachelor of Science and Masters degrees from West Texas University and his PhD at North Texas State University at Denton in 1972.

The Gordon Newtons reside in Abilene where he is a teacher at Horace Mann Junior High School. During the summer they make their home near Lakeview where he is engaged in farming. Gordon married the former Tommie Lou Payne of Lakeview and they have three children, Shelli, Matt and Preston.

WOMEN'S DOUBLES—Mrs. A. J. Welch and daughter, Carolyn, of Austin, pictured above, were the Women's Doubles champions at the Lakeview Tennis Tournament held over the July 4th weekend. Carolyn also won the High School singles and she and her sister, Diane, took first in the High School Doubles.

OLD CAR CRUSHER—Pictured above is the crushing unit of the Amarillo Auto Crushing Co. which is still in Memphis crushing old cars and hauling them away for salvage. This is an excellent way of disposing of old cars which make unsightly eyesores on lots and around homes. The company pays for these old car hulls. Contact the Chamber Office for further information.

WOMEN'S SINGLES—Pictured above is Ann Bowen of Amarillo, (right) the winner of the women's singles in the Lakeview Tennis tournament, who defeated Brenda Durrett, left, 6-4, 6-4, in the finals.

TROPHY WINNER—Diane Welch of Austin swept the Junior High and Freshman division at the Lakeview tennis tournament, taking first place trophies in four division and second place in Freshmen mixed doubles. Diane, who is 13 years of age, is the granddaughter of Mrs. Herschel Combs.

Biologist Spoke At Greenbelt WUA Meet

Ron Dutton, biologist of the Water Quality Control Board, spoke recently at a meeting of the Greenbelt Water Users Association.

Members from Greenbelt, Vernon, Clarendon, and Lakeview attended the meeting.

Mr. Dutton spoke of the dwindling supply of water and food, and of further pollution of the water which supply a large amount of oxygen.

Many do not realize the people who live on this earth since the population is growing 8,000 per hour in the 1970's, the population is to reach four billion people are starving for water, and living in algae which produce 90 per cent of the oxygen.

The biologist is attending to do what he is working toward using our natural resources especially water.

Perry's Variety Store Chain Is In Its 60th Year With 114 Stores In Operation

Perry's Variety Store Chain, which now operates 114 stores in Texas, Arkansas, and Louisiana, also with a store located here, has completed plans for opening four new stores in 1974 in conjunction with the celebration of its 60th year in business. The new stores to be opened will be located in Cleveland, Hearne, Livingston and Temple, Texas.

Perry's home office is in Lufkin, where it had its beginning. Lufkin also houses the Perry's warehouse which serves all 114 stores. Due to the vast store expansions, the warehouse is currently being enlarged from its present 95,000 square feet to 150,000 square feet of space.

To speed the delivery of merchandise from the warehouse to the stores, Perry's now maintains and operates a large fleet of trucks.

A small amount of cash, hard work and faith in the future was the beginning of Perry Brothers, Inc. 60 years ago.

In 1894, the five Perry brothers, with their parents and two sisters, traveled from Mississippi to Lufkin, Texas, in a covered wagon pulled by mules. It took six weeks to make the hazardous journey as much trouble was encountered on the way. When they arrived, the five brothers were very small and none of them owned a pair of shoes.

The Perry children were taught the value of a dollar from the very beginning. They were taught that hard work was no sin and that any money they received must be from an honest day's work.

Perry's purchased their first store in 1914. Frank Perry was working for Newton's five and ten cent store in Lufkin. Newton became ill and offered to sell his store to the Perry brothers. The boys raised \$500 in cash and with the help of some borrowed money, purchased the store, thus beginning a five-brother partnership in a 25x70 foot store in Center, Texas.

Frank Perry and his wife remained in Center to manage and operate the store, with the other four brothers working on nights, week ends and holidays. The following year Mr. Newton's health failed completely and he sold the Lufkin store to the Perry Brothers. In the years immediately following, the opportunity to open

stores in Carthage, Nacogdoches, and Navasota was accepted. The first goal of the brothers was to have a store for each.

The goal was reached in 1918 and the company operated as a partnership. As additional stores were opened and the need for additional personnel became greater, the company was incorporated in 1924 with general offices in Lufkin.

From the start, Perry Brothers believed their investments in new or additional stores should be made in small towns. Following this policy, early expansion was made, through stores in San Augustine, Crockett, Gilmer, Pittsburg, Atlanta, Jacksonville, Rusk Tyler, Longview, Ennis and Sulphur Springs.

The firm survived the Great Depression, World War II, increased taxes on both the State and Federal level and Federal Price Controls.

Perry's expansion began anew in 1945. It opened new stores in new locations and it increased the size of most of its existing stores.

Perry's growth during the '40s, '50s, and early '60s, was largely in West Texas area and the Texas and Louisiana Gulf Coast area. An eight store chain in the Gulf Coast area was purchased in 1965.

Perry's buyers attend the major national trade shows in search of new items in the domestic market as well as imports from all over the world.

Perry's attributes the success of the company to selling dependable first quality merchandise at the right prices, plus courteous dependable service.

REDDY'S VACATION TIPS

Clip and save this vacation checklist.

- REFRIGERATOR OR FREEZER: Change thermostat control to slightly warmer (or "Vacation") setting according to the manufacturer's recommendations.
- DISHWASHER: Make sure it's empty. Shut the door, but do not latch.
- DISPOSER: Run and flush with cold water.
- ELECTRIC RANGE: Make sure all switches are in the "Off" position.
- WASHERS: Turn off water supply at faucets.
- WATER HEATER (ELECTRIC): Turn off at circuit breaker panel. When you return, run a small amount of water from a hot water faucet to make sure there is water in the tank before you turn the circuit on.
- TRASH COMPACTOR: Remove any accumulated trash.
- TELEVISION SETS: Unplug from electric outlet and disconnect the antenna lead-in cable.
- CLOCK RADIOS, ETC.: Check these and all other items with automatic "On-Off" controls. Disconnect the ones that won't be needed.
- LIGHTING: Be sure that all lights are off except those needed for security, such as: 1) yard light and/or other exterior lighting with automatic controls—on at dusk, off at dawn; 2) portable lamp in living area with automatic control; 3) hall or bathroom light.
- AIR CONDITIONING: Normally, air conditioning should be turned off completely while on summer vacation. However, if there is anything in your home that might suffer heat damage, the thermostat setting could be raised 5 to 10 degrees above normal operation and the unit left on. For comfort, you might have a friend or neighbor turn on the unit the day of your return.

CARD OF THANKS

I wish to express my sincere appreciation to everyone who visited me while I was in the Hall County Hospital. Thank you for the flowers, cards and letters, the telephone calls, and your prayers. A special thank you to my neighbors who brought food to our home, and to Dr. Clark and all the people at the hospital for taking such good care of me. May God bless each of you.

Mrs. Dalton May

Mrs. Lucile Wright and Mrs. D. L. C. Kinard left today for a visit in Denver, Colo., with Mrs. Wright's son, Don Wright and there will go to Los Angeles, Calif., to visit with their sister and brother-in-law, Mr. and Mrs. Jett Fore.

Highway Speed and Traffic Accidents!

The death toll on our nation's highways has climbed from 47,700 in 1964 to 55,600 in 1973, but figures are expected to show improvement in 1974 as the 55 mile per hour speed limit is reducing traffic accidents and fatalities by as much as one-fourth.

Figures indicate that the July 4th weekend of 1974 saw about the same number of traffic deaths as was recorded in 1950, 24 years ago.

Over this year's Memorial Day holiday, a three-day span from May 25 to 27, highway deaths numbered 389, a drop of 27.6 per cent from the 539 killed on that holiday weekend in 1973.

Examination of the first five months of 1974, highway deaths were down 23 per cent in January, 23 per cent in February, 26 per cent in March, 23 per cent in April and 23 per cent in May.

What about the 55 mph speed limit? Generally speaking, city and heavily populated area motorists are observing the lower speed limits to a far greater degree than are rural area motorists. In the wide open spaces, motorist are ignoring the lower speed limit and taking chances on speeding tickets.

In the Southwest, Southeast, West and West Coastal areas, motorists generally are no longer abiding by the 55-mile speed limit, but they are driving at slower speeds than when the 70 mph speed limit was in effect. Average speeds are being checked by radar at 58.5 and thereabouts. One official estimates that 70 per cent of all drivers on rural freeways and 40 per cent of those on urban highways are exceeding the speed limit in California, but at the same time, this state recorded a 27 per cent drop in highway deaths so far in 1974 as compared with 1973.

Officials of Highway Patrols over the various states report that when speed limit enforcement lets up, speeding goes way up on the highways. Also, it was reported, when speeds climb, more accidents are reported.

The conclusion being drawn is that reducing speeds on our highways does more to reducing highway accidents and deaths than anything else, including all of the safety devices decreed by Government and placed on cars.

Figures are conclusive that reduced speed does save lives. Figure after figure is being compiled that show that as speed increases, the number of accidents increase, and the severity of those accidents also increase.

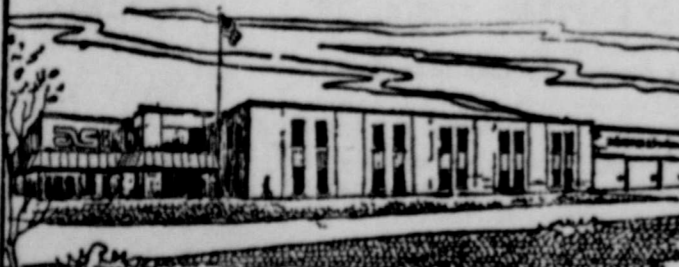

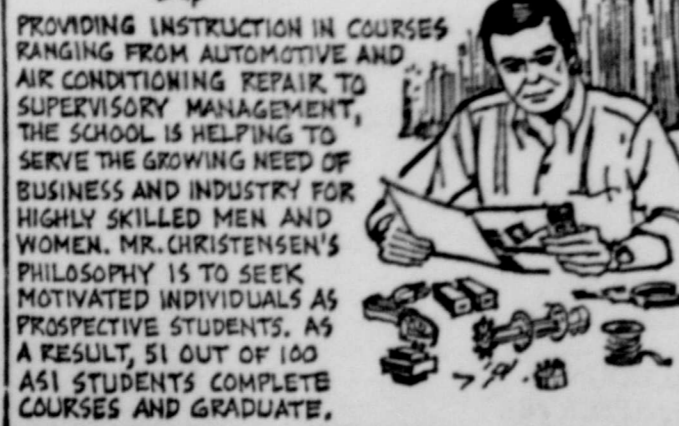

Pressures are mounting to return to the old speed limits, as gasoline quantities appear to be more abundant. On the other hand, however, 50 to 60-cent a gallon gasoline is more precious than 35-cent a gallon gasoline.

Will a compromise be reached by setting new speed limits at say, "60" miles per hour? This can only be decided by those who have responsibility for fixing speed limits. It appears to us that they should take a long, hard look at recent figures, and make a wise decision.

What Other Editors Say

Bob Hill, the investments expert in Amarillo who writes a column "On Wall Street" which the Herald uses, has come up with news of a discovery that might indeed change the future of this country and ease the fuel shortage.

A fungus, isolated by government research scientists seeking an answer to the nagging problem of jungle rot, has become the hottest discovery of the past 50 years.

The super-fungus (trichoderma viride) will grow in any substance containing cellulose. After 5 to 10 days, the solids are filtered out and the resulting liquid or residue will turn cellulose into glucose in 48 hours.

The glucose can then be converted to food or fuel.

The scientists have converted old newspapers, cardboard cartons and even manure into yeast and ethanol. The ethanol can be blended with gasoline on a 90 per cent gasoline to 10 per cent ethanol mixture. Some chemists have successfully run automobiles on a 80-20 mixture.

The potential of this discovery is indeed mind boggling. It means that 1,000 pounds of city trash can be converted into 500-700 pounds of glucose per month.

Scientists estimate that 3 million tons of city and farm trash will convert into enough ethanol to offset a shortage of 5 million barrels of oil per day.

Although ethanol (grain alcohol) is more expensive than gasoline today, the super fungus process will make it competitive with gasoline at today's prices.

Scientists are even more enthusiastic about the food possibilities of the super-fungus. Asian countries with large quantities of rice hulls (rich in Cellulose) are anxious to begin converting these into protein, using the super-fungus process, which will produce a single-cell yeast, suitable for livestock today, and hopefully for humans tomorrow.

A pilot plant is in operation now and economic feasibility tests are under way. A key problem is preparing the raw waste for mixing with the enzyme solution. Two methods of grinding up trash are being used and researchers are studying other methods.

The super-fungus process is already competitive in prices with glucose produced from corn starch treated with acids. Experts believe that super-fungus glucose will be much less expensive than the corn starch product when produced in large volume.

This all sounds unreal, but it is actually no more unreal than the first predictions by petroleum industry chemists that some day scientists would convert natural gas into plastics and open up a whole new industry. We saw this come to pass until it is commonplace to see nylon stockings made out of natural gas.

Surely it is no more miraculous to see cellulose waste converted into glucose and then into alcohol. If there is anything we have plenty of right now, it is trash to be used for raw material.

Good Eating!

Mary has come up with another of those "speed ball" ideas of delicious rolls you can keep around the house for a week. She calls it "Easy Parker House Ice Box" or three dozen. Here it is:

In large bowl mix the following ingredients in order:

- 2 cup lukewarm water,
- 3/4 cup sugar,
- 1 package dry yeast,
- 4 Tablespoons cooking oil,
- Beat well then add: 5 cups flour beating in well. If you like stiff dough you may want to add 1 cup more flour.

Cover and let rise 1 to 1 1/2 hours. Punch down, put lid on bowl, or a plastic bag over the bowl, store in refrigerator and make out when needed. Kneading not necessary. Will keep well for one week.

Grease muffin pan well and make 2 balls, walnut size, and place 2 in each pan cup. Let rise 1 to 2 hours or until double in bulk.

Bake in 400 degree oven until brown. I usually butter tops a few minutes before I take out of oven.

Good eating!

Volunteer Army

The all-volunteer army is now a reality. As a consequence, riots and unrest associated with conscription have withered. Nevertheless, the volunteer army is meeting heavy criticism.

The main objection is that attracting young men to the military service costs more than forcing them to it and that the Army is not getting all the recruits that it would like to have.

These points are unquestionably valid, but we would offer a few additional words to set them in perspective. In our opinion, this perspective shows—as long as we are stuck with paying taxes to buy protection—the volunteer military service is the least unfair.

At the outset, no one of understanding supposed that the volunteer idea would work automatically. We have seen very few ideas that do. The most common experience is that ideas have to be worked; they usually do not fulfill themselves. As the Army becomes accustomed to the plan, as it develops the "customers attitude" toward enlistees—according to them the proper respect, but without pampering—you can expect to see an improvement in the quality and numbers of recruits.

As to the added expense, a soldier is entitled to what he is worth; that is, the defense service that he renders by training, by operational duties, or just by standing by as a marketable value. He is like a policeman on a corner; he may be doing nothing at that moment, but his very presence is a guarantee to the security of those in that vicinity.

The difference between a policeman and soldier is that one guards the domestic tranquility and the other provides for the common defense against foreign attack.

If the time comes to pass that the American people do not value their property, families and lives, then a policeman earns nothing

because he is not protecting anything considered valuable. However, so long as property, families and lives are deemed precious, the policeman earns his keep—every cent of it. And the same is true of a soldier.

It is not less inequitable to draft a soldier in order to pay him less than it would be to draft a policeman for the sake of obtaining cheap law-enforcement. Generally speaking, you get what you pay for anyway.

A claim is being made of course that the military service exaggerates its financial needs, that it is wasteful. That was as true of the draft Army as it is of the volunteer Army. If government revenue systems were also placed on a volunteer basis, there might come to be some cure for excessive military demands. We do not see any practical solution at the moment except for persistent vigilance.

When you take all things together, indirect costs along with direct, when you consider troubles avoided (such as public disturbances arising from the draft), the extra expense of the volunteer army is less than what appears on the ledger sheets. No doubt about it though, if people don't want foreign enemies walking on their flower beds, they will have to foot the bill to keep them away. With a voluntary army, the soldier's pay is determined by the manpower market-place. Anything less is unjust.

Hush-Hush Economy

The Chamber Corner

Jim Edd Wines

Last Monday the Board of Directors and membership met for the monthly meeting of July. Directors in attendance were Mike Branigan, Bill Crane, Larry Parks, Don Cockrell, Andy Gardenhire, Danny Scarbrough, Morris Davis and President John Kehr. Visitors were Ray Leath...

The board approved the design and purchase of two metal signs to be erected on Highway 287 near the city limit signs. The signs will be identical to the Texas state highway signs in colors of black and white, reflect light and in size of 30x30 inches. The cost of the sign is \$75.00 each.

The board growing contest that was very successful last year will again be held and sponsored by the Memphis Chamber. Men should start growing beards on the first of August and judging will be on the weekend of the Hall County Picnic in September. We will again sell shaving permits and the revenue from this activity will go into our highway sign fund and Hall County Picnic fund.

The Chamber appropriated \$175.00 for the Institute of Chamber management at Texas Christian University. The week long school and workshop is attended by all chamber of commerce officials and sponsored under the United States Chamber of Commerce. The school will go from July 22 through 26 at which time the chamber office will be closed.

Before you leave on your vacation be sure to take along several miniature bales of cotton for your relatives and out of town friends. Also, don't forget to have a "Memphis" bumper sticker on your car and camper. Stickers are available at the Tax Assessors office (Jo Carmen) the high school cheerleaders, or the chamber office.

This past week Mrs. J. F. McIntush sent bales to Tulsa and Mrs. E. W. Godfrey, Jr., of Houston sent a bale to Jackson, Miss.

Bales of cotton are still available for \$2.00 each and may be ordered by sending your check to the Chamber of Commerce, P. O. Box 789, Memphis, Texas, 79245. Please allow 25 cents for postage.

Local Area Man Will Earn About \$335,000 in Life

NEW YORK, June 22 - Under present conditions, the average young man in Hall County who is just starting out to make a living can expect to earn close to \$335,000 in the next 45 years or so.

Such are his lifetime income prospects, based upon the economic environment in which he lives, the amount of schooling he has had, his probable life span and other factors.

Education is a major determinant, according to the conclusions reached in a recent Commerce Department study of the relationship between schooling and lifetime earnings.

From that point of view, the Hall County resident is in a good position because the educational level, locally, is above that in many areas of the country and is constantly moving upward.

At the present time, the median amount of schooling being acquired by local men is about 9.7 years, according to the latest Census Bureau findings.

They show that 14.2 per cent of the local male population over age 25 are elementary school graduates, that 17.5 per cent completed high school and that 4.7 per cent are college graduates.

The conclusion reached in the government survey is that education pays off handsomely. Each added year of schooling produces greater income for the average person throughout his entire working career.

The current differential between an elementary school graduate and a high school graduate is about \$135,000 in lifetime earnings, it finds.

There is a big advantage, also in going beyond this point and getting a college degree. The prospective lifetime income of the college graduate, based upon current conditions, is estimated to be \$279,000 more than that of the high school graduate.

emblem and slogan "Cotton Capital of the Panhandle" are now in use by all of the various businesses in Memphis that have postal meters. Be sure to watch for our slogan next to the post mark on local firm's envelopes.

Our chamber received publicity on a state-wide basis this past week in two state publications. The June-July issue of TCCM News out of Longview which had an article on the Memphis public relations program. The article contained information on the highway sign, bumper stickers, miniature cotton bales, and good all-around community slogan. The article also contained information on the local chamber.

The June issue of the "Beautifyer" by the Beautify Texas Council out of Austin had a listing and pictures of all district governors. Memphis and their beautification program have been written in several issues of "Beautifyer" along with information on District No. 25 and Governor Jim Edd Wines.

On the subject of beautification lets all do our share for a good and clean community appearance. Whether it be a clean curb and gutter, clean yard, trimmed trees and hedges, or a freshly painted house, let's all do our best to look good for out-of-town visitors.

We are still going with "Operation Car Crush" and need the help and cooperation of everyone to help us get rid of the old junkers around Memphis.

If you know of an old junker then call the owner of that car or property on which it is on, "Operation Car Crush" is a rare opportunity in which free haul away service plus a bonus to the owner of the junker according to salvage weight is available. This chamber has been working since the first of the year in obtaining this service, and we hope you will help us clean up Memphis.

Floyd Edwards, manager of Memphis Lumber Company, is a member and supporter of the Memphis Chamber.

County's Teenagers Are Spending \$680,000 Annually

NEW YORK, June 8 — Hall County's teen-agers, growing in number and in affluence, have

emerged as a consumer group with a strong economic clout. They are spending an estimated \$680,000 a year for clothing records, cars, cosmetics, costume jewelry, snacks and soft drinks, tape recorders, sportswear, entertainment and the like. The findings are based upon facts and figures compiled by the Youth Research Institute here in

a survey covering the nation as a whole. It shows that America's teenagers now have a personal income of over \$24.7 billion a year. This includes their weekly allowances and their after-school earnings — from baby sitting, lawn mowing and other jobs. According to the survey, those in the 16 to 19 age group are

the wealthiest. Girls in that bracket average \$22.15 a week and boys, \$20.85. The 13 to 15 set has much less, \$7.10 for girls and \$6.85 for boys. For Hall County's teenage population, which now totals 800, it produces spending at the average rate of \$850 a year. That amount of purchasing power is of considerable impor-

tance to local retail stores. The youth poll shows that consistently outspend boys. "Personal vanity is a major reason for this difference," it says. "Girls invest \$11.10 a week on look better, spending it on hair, cosmetics, beauty aids, jewelry, while boys spend \$7.10 by on much less.
