The game on tap for the oc casion is between the visiting Lubbock Christian Eagles and the Memphis Cwclone, and the local team will have to be considered the under-dog going into the contest.

Lubbock Christian has been winning their contests by onesided scores this year and will be enjoying a decided size advantage when the two teams line up. Complexities In Our Lives!

This editor recently received two columns from Internal Revenue Service written on the new law of the Employee Retirement Income Security Act of 1974 which drastically altered the retirement picture for millions of Americans who are not covered under any institutional retirement and pension plans where they work.

The cover letter stated: 'The sweeping changes made by the ERISA are too detailed to be made clear in the short time limits allowed by radio and TV; in order to publicize the act clearly and effectively the cooperation of people in the print media is necessary.

The two "featurettes" written by IRS are complex, difficult to read and understand because of the very nature of subject matter. To establish an Individual Retirement Savings Program, a citizen would need to go to their banker, voluntary, for individual instructions to set the system up.

Class 2, areas would allow a small "increment" of pollution by permitting limited development and Class 3 areas could be named by the state where that state felt development was necessary to provide jobs and economic development.

Guess where this plan leaves us in Perryton and Ochiltree county? Why, we are smack in the middle of an area where nothing would be allowed in the way of industry or development. This is because we are within the 60-100 mile limit from the Gene Howe Wildlife Management area at Can-

adian; Class 1. Also sealed off is the rest of the upper Panhandle because of proximity to Lake Meredith.

In fact, Amarillo is in the middle of this "no development" area because it is too close to Palo Duro State Park.

The entire Texas Panhandle, with almost no exception, is in this "no growth" area.

What is worse, the move is to-ward a federal land use policy, which calls for Federal Land Managers with power to designate Federal land areas within a state as Class 1, allowing for no development there and in the required accompanying "buffer zone" whether the State wanted it or not.

All of this needs to be fought and fought hard. If something isn't done, we might wake up one of these fine mornings and find ourselves legislated right out of existence.

The U. S. Chamber of Commerce is alerting its members to this danger. All of us need to ask our congressmen to curb the powers of the Environmental Protection Agency.

Area Artists Invited to Show Work in Borger

The Women's Division of the Borger Chamber of Commerce invites area artists and craftsmen to exhibit their work at the Eighth Annual Borger Fine Arts Festival, October 17-19 at the Aluminum Dome

Mrs. Diana Tekell Simpson and Mrs. Lou Cooley, co-chairmen, said that exhibit space is free, and that no commissions will be charg-

The deadline for exhibit space reservations is October 10. Persons interested in exhibiting are to apply at the office of the Borger Chamber of Commerce, Box 911, Borger, Texas 79007, or phone 274-2211.

Last year's festival, the seventh held in the Dome, featured 237 exhibitors and more than 5,500 visitors from all areas of Texas and seven states, making the festival one of the largest in the state. Exhibits included oil painting, water colors, ceramics, sculpture, needlework, jewelry, macrame, and a host of their arts and crafts. Reference to the festival was made recently in an arti-cle by Mrs. Clovis Womack of Borger in Women's Circle: Homemaking issue.

The 1975 show will be held from 11 a.m. to 8 p.m. Friday and Saturday, and from 1 p.m. to 6 p.m. Sunday. Each artist is to hang or display his own work. Deand craft selling is encouraged.

Displays are to be delivered to the Dome between 1 p.m. and 5 display props, special lighting and extension cords. Tables will be furnished, but exhibitors are asked to bring sheets for table cov-

One of the few things consistent about DES is misunderstanding. DES is the common reference initials for the drug diethylstibestrol (which pretty well explains why it is called DES) commonly used as a growth stimulant for livestock. By 1972 DES had proven to be an effective way to lower the cost of grain in livestock by producing a faster rate of weight increase without requiring more feed. Food and Drug Administration officials got into the act in late 1972 and banned DES from feed. Then in January of 1974 a Federal Court ruled that DES could be used under the previous control system. US-DA began monitoring operations and although they reported only nine violations during 1974, a tighter certification program (requiring 4 day withdrawal from DES) was instituted this spring. Those involved in the enforcement and control of DES say they are hopeful the new system will stabilize the use of the drug for the next several years.

Let Faith Put Real Meaning Into Your Life

"Let us hear the conclusion of the whole matter: Fear God, and keep his commandments: for this is the whole duty of man." - Ecclesiastes 12:13

Religion lets you know your life is worth The span of years you'll dwell upon this earth. It teaches you the proper way to live, And demonstrates a finer way to give; By turning you from selfishness and greed To real concern for someone else's need. You'll learn that joy in simple things is found, And beauty in God's wonders all around; And then, if you will go to Church and pray For guidance you can follow day by day; You'll know, before your life on earth is done. You gave your very best for everyone. - Gloria Nowak
