First Grand Prix in Panhandle to Be In Memphis on Saturday

The first Grand Prix to be held in the Panhandle will be in Memphis on Saturday. The event is being sponsored by the Memphis Chamber of Commerce and the Amarillo Track and Trail Riders.

Approximately 100 motorcycles are expected to participate in the race and a large number of spectators are expected to be here to view the race. It is considered a very interesting spectator sport.

The six and one-half mile race starts at 2:00 p.m. on the 5th street and the race will run on 5th street from the 5th to the park, then west on country road by the McBroom house on the hill on out to Friendship highway.

Streets in the south part of town, primary 5th and 7th Streets, will be roped off at about 1:30 Saturday. The Chamber of Commerce asked everyone in the part of town where the race will be run to observe the race track and stay clear of the area between 2:00 and 4:00 p.m. Boy Scouts will knock on doors in the area to tell citizens that their street is closed.

"We would appreciate very much the co-operation of all citizens in Memphis in making this event a success," Jim Ed Wines, manager, stated. "We also invited everyone to come and watch the races. Spectator sites are the courthouse square, city park and washed out bridge on the swimming pool road.

The riders will meet at 12 noon on the courthouse square and the race headquarters is the southwest corner of the courthouse. The pit area and refueling will be at the City Park.

A trial run (parade ride on complete race course, will be at 12:30 p.m. The riders will use the dead start (Lannans) starting procedure. All motorcycles will be lined up on the west side of the square and the riders will foot race across the street on foot.

Tina Foxhall posted pressure golf. She won the Amarillo Relays in sudden death, and many of her trophies came after she survived the test of nerves the game is famous for in sudden death situations.

Despite Tina's slight frame, and young years, she prefers to play courses that are longer in length. "I hit the ball better on longer courses and I feel I have an edge," she said.

Tina has her sights set on State, and long range hopes for college golf. Being a regional golf medalist puts Tina in strong contention for the state title.

Karen Cofer lost to Marcie Nichols in the semi-finals, and Miss Nichols went on to win the region title. Karen came back to win third by defeating Darla Currie of Glascock County 6-2, 6-2.

A Fort Davis team of Sue McKnight Valynda Ward defeated the Bayars - Watson team of Lakeview 6-3, 6-1 in the semi-finals, and went on to win the regional title. The Lakeview girls lost in play for third place.

After traveling one mile on the Friendship Highway, the route will be on the old swimming pool road (country road with the washed out bridge) all the way into the city limits on the swimming pool road and then north on 7th Street up to Main street and then across to the square.

Murder Charges Filed Today On Antonio Garza

Antonio (Tony) Garza, Jr., was formally charged with murder this morning following the shooting death of Mrs. Arora Garza, his separated wife, at 11:15 p.m. Wednesday on the parking lot of Hall County Hospital.

Mrs. Garza punched out of the Hospital at 11:11 p.m., road with a friend from one parking lot to where she had parked her car, and was shot several times in the body, before she could get into her car.

The lady who let her out heard the shots and fled the scene. Mrs. Garza fell and died several yards away from her car following efforts to get back inside the Hospital.

Shortly after the shooting, Garza called the home of Sheriff Elmer Neel and told the Sheriff's wife he wanted to give himself up. He later did so at the Memphis Police Station.

Garza was taken before Justice of Peace Ruby Roden this morning where bond was denied.

Sheriff Neel said, "Garza has given us a statement concerning the events. We are now conducting a search for the gun in an area he told us he threw it into."

Sheriff Neel said the couple had had prior trouble during which Law Enforcement officials were called in.

Busy Is As Busy Does!

This is the real busy time of the year, when everything seems to be happening all at the same time. Schedules are so full it is a wonder that citizens have time to see about regular chores of life.

Saturday is the First Primary Election, with more and more other activities crowding the calendar that weekend as well. Hall County has had a great number of citizens vote absentee, totaling about 10 percent of the voters of the county.

Some are predicting that voter turnout in this year's Democratic and Republican primaries will be heavier than ever in this county, and well they should be considering the contested local races on the ballot in the Democratic Primary and the Presidential Primaries of both parties.

We are more inclined to believe that the heavy absentee voting has come about from citizens who will be so busy on Saturday with other activities and interests that they wanted to vote absentee in order to be free to be involved elsewhere.

Memphis is hosting the First Grand Prix Motorcycle race from 2 to 4:15 p.m. Saturday. A lot of motorcycle enthusiasts along with many spectators, will be here to watch and participate in this race. Citizens of Memphis should all be aware of the time of this event, and what city streets are involved in the actual race. Going to the polls in the morning hours or after the race is completed could solve any traffic bottleneck that might occur.

Then, many local citizens will be involved with Regional Competition in tennis, track, and golf, which is Wednesday, Thursday, Friday and Saturday. Families of these athletes always follow their athlete sons, daughters, brothers or sisters through U. I. L. activities.

On top of these activities, the Memphis Cyclone Band will leave Friday for the band's annual trip, which will take several sponsors and band members out-of-town.

Considering all that's going on, it's little wonder that so many have gone to vote absentee in the upcoming election on Saturday.

The election year, 1976, is being considered as one of the crucial elections in the last half of the 20th Century. Citizens should plan now to go vote their convictions in Saturday's election, and to do so, each voter should bring his registration certificate with him. This certificate they received last February in mailing from the County Tax Office.

Regardless of how busy our schedules become, we should never be "too" busy to go to the polls and vote on election day. "Busy is as busy does", is an old expression. Let's get busy and vote on Saturday.

THE TRC RACE

The heart of the utility bill mess lies with the Texas Railroad Commission (TRC). That august body of utility and business controlled members allowed the Lo Vacca Gathering Co. to seek gas at what ever price it could and the TRC would allow any price it wanted to set.

It created a statewide scramble for any gas reserves available which shot gas up in price. Due to the situation, the other gas companies, including Pioneer, were allowed a fuel adjustment allowance also referred to as a per cent pass through of costs to the consumer. Pioneer has a 100 per cent pass through which effectively operates at 85 per cent. It still is a government guaranteed basis for profits.

Probably the most interesting result of the situation is the powerful railroad commission, which was reported in The Dallas Morning News as one of the most powerful agencies in the nation. A wide field of candidates are seeking a seat on the commission and a good number are trying to use the current situation as means of winning voter approval.

Of all the candidates, I favor Lane Denton of Waco, whom I had the opportunity to meet while he was a fighting freshman legislator.

He says "Texas natural gas companies and the Texas Railroad Commission ought to be jointly given The Ripoff of the Year Award," I agree.

Gas companies are still under the authority of the commission as the Texas Utilities Commission will have power over the electric and telephone concern.

Denton introduced a bill in the state legislature in 1975 to outlaw the automatic pass-through. He termed it "an automatic loophole — a loophole big enough to drive a herd of longhorn cattle through."

I like his thinking and his direct and descriptive way with words. He reminds me of the old-time politician who might have been a bit crusty with his speech. But a darn good legislator when it came to rolling up the sleeves and showing some action in favor of the people.

He is a onetime teacher and an original down-on-the-farm boy. The Democrat spent his early years roaming the pastures.

Another candidate is Terence O'Rourke, a Houston attorney, who argues like Denton but with some self gain involved. He promises to save Texans \$100 million in fraudulent utility bills.

The conflict comes in the form of how he wants to go about it. He doesn't want to wait until he possibly gets on the Texas Railroad Commission, but right now as an attorney.

He sent each city a petition urging each mayor to join in and fight the practice of "banking." This he says involves the loaning of gas at a certain price by gas companies to the Lo Vacca Gathering Co. The lender then claims the gas in the future at about the same price. The petition is to be filed with the TRC.

However, O'Rourke, chairman of the Public Utilities Committee of the State Bar of Texas, is not

we need to try.

T.V. IMPORTANCE!

President Ford's advance people put together last night's visit with ultimate concern about visual impact.

They set up the fieldhouse for the national news media, really.

They wanted a band in uniform, for example, to be behind and above the President in the fieldhouse stands. Visually, that would be a good photograph or several seconds of television film, they said. It would be a different arrangement.

They were sorely disappointed when Dr. Gary Garner informed them the WTSU band would not wear uniforms.

President Ford's staff called Canyon High Band Director J. W. King to ask if the CHS group could be in uniform and originally the plan was to have King's band simply sit — and not play — above and behind the President to maintain the visual image the advance people wanted.

Elect
Betty Lemons
County & District Clerk
of
Hall County

would like to express my gratitude to the people of Hall County for the reception I have received over the past months in my campaign for the office of County & District Clerk. If I have missed anyone, it has been unintentional. I have tried to the best of my ability to see all of the voters in Hall County. I feel like my experience over the past 13 years working in different public places qualifies me for this job. I would appreciate your support in the Democrat Primary Saturday, May 1, and I strongly urge you to use your right to select the candidate of your choice.

Sincerely,
Betty Lemons

FIRST STATE BANK

The financial crisis of New York last year drew world wide attention in financial circles. The possibility of any metropolitan collapsing into bankruptcy, however, has serious implications for every municipality in the country.

Most cities raise money for capital improvements, such as streets, sewer systems and water systems by selling bonds. These can be either general revenue bonds, paid off by general taxes, or revenue bonds, which are paid off by the users — a water bill is a good example, since the revenue is used in part to pay off water bonds.

Banks are probably the largest single buyer of municipal bonds throughout the country. But, before banks, or any others buy bonds they must have confidence that the bonds will be paid off at the proper time and at the stated rate of interest.

While the city of New York may have brought on its financial crisis through profligate programs and spending — plus some highly questionable book-keeping practices — its demise would throw all municipal bond users under a cloud. Ultimately, it could mean higher city taxes, because municipal bond money would be more expensive.

"The more you know about our business, the more we can help you!"

Two Million Pike Flown To Texas

AUSTIN — Texas received two million northern pike fry in early April as part of a trade for channel catfish with South Dakota and Nebraska.

The two northern states received some 40,000 surplus four- to five-inch channel cats last fall, and recently the two million pike fry were flown to Texas from the Gavins Point Federal Hatchery in Yankton, S. D., and Nebraska's North Platte Hatchery. Each hatchery provided one million fry.

In illness you have many thoughts and I picked this quote from St. Frances Sales, "Nothing is so strong as gentleness, nothing so gentle as real strength."

Marriages that are going through a "second chance" period find communication between spouses their most difficult—and most rewarding—situation, Dorothy Taylor, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says.

General Telephone President Speaks Out Against FCC's New Policies

SAN ANGELO — Telephone customers throughout the United States face the threat of substantially higher phone bills if the Federal Communications Commission continues its present controversial policies, L. Gray Beck, president of General Telephone Company of the Southwest declared today.

"The controversial new policies of the FCC permit non-utilities to provide telephone equipment for interconnection with the nationwide telephone network and to provide intercity private-line telephone services," Beck pointed out. "The effect of these two types of so-called 'competition' authorized by the FCC is to reduce the subsidies traditionally provided to basic telephone service by the revenues from long-distance calling, business communications services, and various optional services."

The reduced size of the subsidies is expected to result in rate increases of as much as 60 per cent to residential customers and 56 per cent to business users of basic telephone service within 10 years, exclusive of inflation, the executive said.

The anticipated rate increases are indicated in a recent study conducted by Systems Applications, Inc., a telecommunications research organization. The study was sponsored by the U. S. Independent Telephone Association, whose membership includes the more than 1,600 independent (non-Bell) telephone companies across the country.

In keeping basic telephone rates lower than they otherwise would be, the subsidies reflect the stated objective of the Communications Act of 1934 to assure "Universal Service" — a phone in every home and office, at the lowest practicable cost to the consumer, Beck pointed out.

"Although the reduction in the subsidies will bring about higher phone bills for millions of resi-

dential and business customers, the effect obviously will be felt most severely by low income families and persons on fixed incomes," Beck observed.

Two types of "competitors" have arisen as the result of the FCC policies, he said. One group consists of the "interconnect companies" which sell or lease telephones, switchboards, and other kinds of equipment to telephone users for connection to the nationwide telephone network. The other group is comprised of the so-called "specialized common carriers" which provide private-line telephone service over high-traffic routes between selected cities.

The specialized common carriers can concentrate on these heavy traffic routes which are highly profitable, while telephone companies are required to provide a broad range of services not only on the high traffic routes but also the far less profitable low traffic routes such as those serving smaller communities and remote areas, Beck pointed out.

"We at General Telephone of the Southwest, the rest of the telephone industry, and unions representing many thousands of telephone people view the FCC policies as having an inhibiting effect on the growth of our industry and its ability to provide the public with its traditional high level of service in the years ahead," he asserted. "We therefore, believe that Congress should enact new legislation to reaffirm the stated objective of the Communications Act."

To meet this need, the "Consumer Communications Reform Act of 1976" (S-3192) has been introduced in the United States Senate by Senator Vance Hartke (D-Indiana), member of the Senate Communications Subcommittee. Representative Samuel Devine of Ohio, ranking Republican

member of the House Interstate and Foreign Commerce Committee, has introduced generally similar legislation (H.R. 1284) in the House of Representatives. Other representatives have introduced similar bills.

In summary, the Act would: Reaffirm the long-standing national communications policy of "Universal Service" — the provision of high quality, low cost telephone service to the maximum number of people.

Reaffirm the authority of the various state commissions to regulate the interconnection to the telephone network of customer-provided equipment utilized in local telephone service.

Declare that regulatory policies which would authorize specialized common carriers to provide intercity private line services and other long distance services are contrary to the public interest if such authorization would result in unnecessary duplication of facilities and services.

Require that the FCC, prior to authorizing a specialized common carrier to provide intercity private line services, must assure that such authorization will not result in increased charges for local telephone service.

The legislation has the support of the GTE and Bell System companies, the U. S. Independent Telephone Association, various unions, the National Telephone Cooperative Association, and other industry groups, Beck reported. The goals of the Bill are also considered compatible with the recent legislative position taken by the National Association of Regulatory Utility Commissioners, which represents the state public utility commissioners throughout the country.

"We anticipate that many of our customers, once they learn how the FCC's policies will eventually raise their monthly phone bills, will add their support to this important legislation," Beck concluded.

Mrs. Paul Collins Named Mental Health Chairman

Mrs. Paul Collins of Estelle was named Mental Health Chairperson for the May '76 campaign, announced Carroll B. Bryant, President of the Texas Association for Mental Health.

As Chairperson, Mrs. Collins will recruit volunteers to go house-to-house during May, Mental Health Month.

The Texas Association for Mental Health is strictly a volunteer association, with members dedicated to informing the public about illness and mental health, while helping the mentally ill and their families.

As citizen advocates, the association works to see that government funds are spent effectively. Members would like to see a greater emphasis in state mental health dollars go to children and community mental health services.

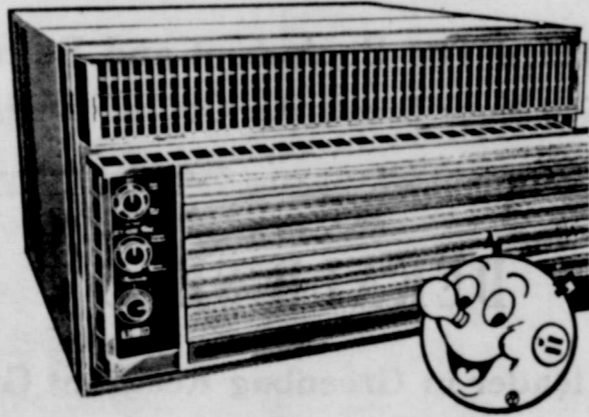

The Mental Health Association believes that education is a key factor in preventing mental health problems.

As part of its educational program, the association cooperates with the Texas Department of Community Affairs, Early Childhood Development Division, in delivering the "Pierre the Pelican" newsletter series to all first-time parents in Texas. "Pierre" deals with the mental and emotional development of children from birth to six years.

With one in ten persons needing some kind of mental health care, the association offers free literature to the public on alcoholism, children's mental health, sexuality, depression and other mental health topics. For information write to the Texas Association for Mental Health, 103 Lantern Lane, Austin, Texas 78731.

REDDY'S HELPFUL TIPS

- ★ Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.
- ★ Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- ★ Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

Judge Truman Roberts

TRUMAN ROBERTS has established an outstanding record over the past five years as judge of the state's highest court in criminal matters. Before election to the Texas Court of Criminal Appeals he served 11 years as County Attorney and District Attorney, then 10 years as Presiding Judge of the 52nd Judicial District.

Judge Roberts has been endorsed in his race (over a Dallas opponent) by 76.4 percent of more than 11,000 attorneys voting in the State Bar of Texas poll.

Vote to keep a man with this excellent experience and recognized ability. Vote in the Democratic Primary on May 1 to re-elect Judge Truman Roberts to a second term on the Texas Court of Criminal Appeals.

Texas Court of Criminal Appeals

There is a difference.

In the May 1 Republican primary, Texas voters will make a decision that can profoundly affect the future of our nation.

That decision, in its simplest terms, is this: Should America continue traveling the path it has followed for the past 10 years, toward bigger government at home and the weakness of "detente" abroad? Or should we seek a new and different course: Calling a halt to the upward spiral of big government, enormous deficits and heavy taxes, and seeking a firm defense of our legitimate interests?

On these and other issues, there is a clear and striking difference between the Republican candidates. Gerald Ford stands for continued drift with the liberal policies of big government and "detente". Ronald Reagan stands for new initiatives in freedom—based on limited government, personal liberty, and peace through strength. Consider the record.

FORD:

- Despite his conservative-sounding rhetoric, it was Gerald Ford who
- appointed Nelson Rockefeller as Vice President of the United States.
- retained Henry Kissinger as Secretary of State, and fired a Secretary of Defense who disagreed with Kissinger's "detente".
- gave 24 of 35 top policy-making positions to identifiable liberals; according to a study by the American Conservative Union.
- weakened the embargo on Castro's Cuba and put an adviser to George McGovern in charge of U.S. Latin policy.
- approved of amnesty for Vietnam deserters and appointed radical liberal Charles Goodell to oversee the program.
- approved \$100 billion in deficits in two short years and said the growth of social welfare programs was "on the whole, commendable."
- approved the surrender of the Panama Canal Zone to the leftward-leaning government of Panama.
- talks ambiguously about forced busing and refuses to support a constitutional amendment that would stop it.

REAGAN:

- Backed by an eight-year record as governor of our largest state, it is Ronald Reagan who
- cut the welfare rolls in California by 300,000 people
- converted a \$700 million deficit into a half-a-billion dollar surplus.
- restored law and order to the turbulent campuses of California.
- says we should not cave in to Communist tyrant Fidel Castro and his revolutionary export business.
- says "detente" should not be a one-way street of American weakness.
- says the Federal budget can, and must, be brought into balance by cutting back on wasteful welfare handouts.
- proposes to break the momentum of the liberal welfare state by restoring authority and funding to the states.
- says we should not give up the Panama Canal Zone but should defend American sovereignty there.
- supports a constitutional amendment to halt forced busing.

Which will it be? More of the same, or a new commitment to individual freedom, limited government, and peace through strength? The choice is up to you.

To my friends who worked so diligently to have me placed among the ten top women who have contributed significantly to the business, professional, and civic advancement of the Texas Panhandle, may I offer my sincere thanks.

Winning the honor would have been pleasing; but far, far more important to me is the tremendous manifestation of faith and loyalty shown by "my own people of Hall County." Since I was a little girl Hall County has been my home. I love its history, its traditions, its people. I appreciate the countless favors I have received.

Miss Carol Blain, who placed among the ten top women who have performed distinguished services in making the Panhandle a good place in which to live, has my heartfelt congratulations.

Atalantean Club Entertains MHS Senior Girls With Tea Wednesday

The Atalantean Club met at the community center April 21 for a Fine Arts program honoring the girls of the Senior Class of Memphis High School. Refreshments were served from a beautifully appointed tea table by the hostesses for the day, Mrs. Glynn Thompson.

Mrs. Dub Parker, president, welcomed the guests and members. Mrs. Thompson, program chairman, introduced the program using the theme "Fine Arts Seeds." Mrs. Robert Sexauer gave a brief history of music, drama and art. In a very interesting way, Mrs. Sexauer touched on the beginning of acting in Greece, the strolling players, the Renaissance Period, the greatest author in England, Shakespeare and the greatest American author, Eugene O'Neil.

Miss Gertrude Rasco then told of the three B's in music, Bach, Beethoven and Brahms. After a brief history of each artist, she played a selection written by each one. Miss Rasco reminded everyone of the three B's of life, beauty, bravery and benevolence.

The senior girls who were present were Andrea Bachman, Suzanne Richards, Sondra Elem, Ruby Thomas, Martha Clark, Dorothy Cabler, Helen Bolden, Boycena Bruce, Bonita Ballew, Kathy Daniel, Tammy Altman, Pam Penney, Barbara Hudson, Cheryl Messick, Debra Cannon, Sabrina Busby, Sara Fowler, Marilyn Mason, Charlene Richardson, Melba Walker and Zetta Austin.

Members present were Mmes. James Davis, W. R. Scott, Robert Montgomery, Hulda Wilson, Bryan Adams, H. B. Estes, Dub Parker, Robert Sexauer, Clinton Voyles, Glynn Thompson and Misses Imogene King and Gertrude Rasco.

Gertrude Rasco Presents Program To Pathfinders

The Pathfinders Council met Tuesday, April 13, in the home of Mrs. W. D. Young. The vice president, Mrs. E. R. Orcutt, called the meeting to order and conducted the business meeting.

The invocation was given by Mrs. W. J. McMaster.

Mrs. Young introduced Miss Gertrude Rasco as guest artist. She entertained members at the piano with the following: "Concert Transcription of How Great Thou Art" by Lawrence Grant, "Blue Bonnet Reward" by Sam

Lash, "Variations of Listen to the Mocking Bird" by Dromheller, "Shortnin' Bread" by Schawn, "When the Saints Go Marching In" in which the transcription changes keys five times, "Ave Maria" by Franz Schubert, and a special request, "The Old Rugged Cross."

A red orchid was presented Miss Rasco by Mrs. J. O. Cobb, also, a gift from the club in appreciation of a beautiful program.

A lovely refreshment plate was served to the following members: Mmes. E. R. Orcutt, Ada Jones, Valmon Payne, J. O. Cobb, Robert Breedlove, Joe Eddins, J. J. McDaniel, W. J. McMaster, Hester Bownds, Miss Gertrude Rasco and the hostess, Mrs. Young.

Colorful Rogues Star in Disney's "Dr. Syn" and Treasure Island

Double Disney adventure will be featured at the Tower Drive-in beginning Wednesday and continuing through Saturday, Mickey Mouse, owner, has announced. Features are Walt Disney's "Treasure Island" and "Dr. Syn, The Scarecrow."

The royal rogues swagger across the screen in the co-adventure. They are Long John Silver, the pirate, and Christopher the phantom smuggler of Rom-

Marsh. Silver earned his place as master of skulduggery by plotting a way in "Treasure Island", holding a young shipmate for a king's ransom. Robert Newton plays Long John in the depiction of Robert Louis Stevenson's rousing tale, while Driscoll enacts the cabin boy Jim Hawkins. Unlike most piracy rascals, however, John showed enough good to out-

right his dark deeds, and he was spared the gallows rope.

Dr. Syn was a different sort of rogue, a country parson who became a smuggler for a cause. Patrick McGeehan plays the title role in Disney's version of the book by Russell Thorndike and William Buchanan. By day Dr. Christopher Syn was a mild-mannered English vicar; but by night disguised as a terrifying scarecrow, he rode with his comrades to smuggle away cargo bound for tyrannical George III, whose taxes were strangling the people.

Swallow your pride occasionally, it's non-fattening.

Most people don't like to eat fat, but if there were no fat interspersed within the lean, most meat would not be flavorful. Flecks of fat within the lean are called "marbling." This is one of the important quality grade factors for beef, explains Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Each year the Veterans Administration provides some training for about half of the nation's 9,000 new physicians, medical residents and medical students.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

AUSTIN — Major presidential candidates are making last minute appeals for support of Texas voters in the May 1 primary of both Democratic and Republican parties.

President Ford budgeted three days and a night to the Texas GOP primary battle with Ronald Reagan. Counting his two earlier days of campaigning, the president will have spent more time in Texas than any primary state this year.

Reagan also will make his third appearance in the state two days before the primary.

Democrat front-running Jimmy Carter will be back April 30. He made a fast trip to Houston April 20.

U. S. Sen. Lloyd Bentsen is on the scene every day, combining his re-election and favorite son campaigns.

Alabama Gov. George Wallace, faltering as a national contender, was in Texas for a second wide-ranging swing last week to keep his potential delegates in line.

In addition to the presidential preference primary and the Senate fight, the May 1 Democratic ballot offers a hot contest for Railroad Commissioner and three court races. One of the later is for the State Supreme Court and two for the Court of Criminal Appeals.

\$50 Million "Wasted"

Unwise and outdated investment policies have cost the state at least \$50 million over the last five years, Comptroller Bob Bullock claimed.

Bullock said a six-months study of state money management practices by his planning and research staff showed Texas has the worst problem with idle funds earning no interest of any state in the nation.

Most idle state money is kept in big city banks, with four banks alone keeping an average of \$175 million and earning \$10 million last year off the state deposits, the comptroller stated.

Texas, according to Bullock, has an average daily balance of more than \$300 million in checking accounts earning no interest. He agreed about 75 per cent of that money could be in time accounts drawing interest.

Allowable Set

Texas Railroad Commission for the 50th consecutive month set the state's oil allowable for May at 100 per cent.

While the allowable permits 3,931,778 barrels daily, estimated production actually is only 3,207,000.

Once again, the commission re-

stricted the East Texas field and the Kelly Snyder field in Scurry County to an 86 per cent allowable.

Nominations by crude oil buyers declined by 16,368 barrels a day from the previous month. The four-week average of crude oil imports, meanwhile, increased 458,000 barrels from the January 2 average and 1.3 million barrels from January 3, 1975.

Courts Speak

The State Supreme Court will hear arguments May 19 in a case to determine whether the best interest of a 10-year-old would be served by terminating his mother's parental rights. The mother saw the child only three times in several years.

Reversing itself, the high court decided it will not review litigation over an insurance company's refusal to pay a San Antonio family for repairing a buckled foundation.

Supreme Court justices affirmed a \$60,000 damage award to a man injured in a truck wreck near Dimmit.

The Texas Court of Criminal Appeals ordered a new trial for a San Antonio man convicted of delivering marijuana. The court held that display to a jury of a police photograph of the defendant violated his rights to a fair trial.

AG Opinions

Municipally-owned public utilities must obtain certificates under the Public Utility Regulatory Act for new retail service only when the area to be served is being served by another utility, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded: There is no provision for an appeal by residents of a city from charges established by its municipally-owned utility.

Public utilities subject to state jurisdiction are subject to assessment.

The state comptroller can refund taxes collected under a law later held to be unconstitutional.

Appointments

Crawford Godfrey of Jacksonville was appointed to the State Judicial Qualifications Commission, succeeding Vernon Butler of Carthage.

Gov. Dolph Briscoe named Mrs. Patsie Anderson of Uvalde to the State Board of Vocational Nurse Examiners, replacing Mrs. Kenneth Otto of Needville.

Briscoe appointed nine members of the Texas Advisory Council of the Legal Services Corporation. Associate Justice Max N. Osborn of the El Paso Court of Civil Appeals was designated chairman.

Henderson Is Named Outstanding Region V Player

Mickey Henderson, a freshman from Memphis was selected by the coaches of Region V, Western Junior College Athletic Conference as one of the outstanding freshman of the region. Miss Henderson, daughter of Roy Lee Henderson of Memphis, shared the honors for top freshman with Jane Goheen of South Plains.

Miss Henderson, 5'10" post, proved to be the backbone of the Clarendon College Bulldogettes this year, averaging 15 points a game and 10 rebounds. Previously selected to the Region V Woman's All-Tournament Team in February, Miss Henderson now is honored by being named All-Conference First Team. Only two other players were voted higher than Miss Henderson. Mary Payton, a sophomore All-American, and Teresa Beal, also a sophomore, both from Western Texas College received the highest votes.

Two other Bulldogettes from Clarendon were noted to the Second Team All-Conference. Carol Vincent, a freshman from Lefors, and Teresa Condron a sophomore from Paducah received the honors.

Mrs. Marion E. Posey was in Lubbock last Thursday evening to attend the initiation ceremony of her daughter, Shari, into Beta Chapter of Tau Beta Sigma. Also attending the meeting was Miss Carol Blain, past national president of Tau Beta Sigma. Accompanying Mrs. Posey to Lubbock were her daughter, MariAnn and Brenda Davis.

Short Snorts

Texas' unemployment rate dropped three-tenths of one per cent in March — to 5.1 per cent one of the lowest rates in the nation.

Agricultural prospects brightened with rains, but more moisture is still needed in East and West Texas, Agriculture Commissioner John White said.

A big majority (almost two-thirds) of House of Representatives members who answered a questionnaire said they favor a special legislative session on utility rates.

Republican voters May 1 will ballot in a non-binding referendum on wiretapping, non-parolable prison sentences, forced busing, use of oral confessions in trials and denial of bail for repeat offenders awaiting trial.

The South Texas cotton planting deadline has been extended to May 1 due to weather problems.

New Church To Begin In East Memphis

"We are happy to announce that a newly organized church known as the Antioch Baptist will soon be announcing ground breaking and dedication service that we all may know that even the ground belongs to God," Rev. V. E. Smith of Memphis said this week.

On May 5th, Rev. Smith will meet with the Executive Board of the Original West Texas Baptist Association where "We will represent the new church."

A house and lots on State 256 in east Memphis will be used for the new church, and the house will be remodeled and converted into a fellowship hall but will be used for worship until a later date, Rev. Smith said.

Rev. Smith, a resident of Memphis since 1948, resigned in February after 20 years as pastor of St. James Baptist Church in Shamrock. He is an employee at Postex Hall Plant here.

In his statement about beginning a new work here, "Too long we tried to make our way and leave God out, God has already made the way and the thing we need to do now is to quit thinking that we know the way and hear God's voice."

"In this text indicates a sense of personal responsibility. What we achieve today is not what we think, nor what we say about, but its what we do about it," Rev. Smith said.

"The great question of today is what do we, as Christian parents, have to offer to our children. Raiment for his body . . . food for his health . . . education for his mind . . . on, we would not dare to rob him of that . . . but what about the spiritual food for his soul," Rev. Smith said.

"We have a job to do and we need one another to get the job done if we can work together, he said.

Terry Wynn and Tim Compton of Texas Tech, Lubbock, and Mrs. C. L. Wynn and Toni and Randall of McLean visited here over the weekend with their mother, Mrs. Dixie Wynn.

Brice News

Bobby Johnson and son, Jeff, of Lubbock, visited here over the weekend with her parents, Mr. and Mrs. J. C. Johnson of Brice.

Mrs. McWherter and three boys of Plains, spent the weekend here with her parents, the Aubrey Martins.

Mrs. O. B. Rampey, Mrs. Z. L. Salmon of Memphis, and Mrs. Starr Johnson attended the Bob Willis Day in Turkey Saturday.

Milton Youngblood of Palms Springs, Calif., left Monday after visiting with his sister, Mrs. T. H. Gattis.

Mrs. James McAnear hosted a stork shower for Mrs. Mick Grady Saturday in her home.

BAND STUDENTS—Carol Blain, designated by West Texas State University as one of ten outstanding women of the Panhandle Saturday, pictured above with a student, David Perry, told members of the High School Band at the Band Banquet Saturday evening. "I was selected for this honor because of the band and its accomplishments."

Carol Blain Is One of Ten Women Named by WTSU

Carol Blain, director of Memphis bands, was one of ten recipients of the Texas Panhandle Award for Distinguished Service presented by West Texas State University April 24.

The ten women, selected from 212 nominees, were recognized at a Bicentennial luncheon on the WTSU campus for their distinguished business, professional and volunteer service. Presenting the keynote address at the luncheon was Texas Representative Sarah Weddington, who spoke on "Women: Past, Present and Future."

Miss Blain, who was reared in Wellington, was a nominee of the Wellington Music Club. She is the daughter of Mrs. L. E. Ward of Memphis.

A Texas Tech University graduate, Carol began her teaching career as director of the Wellington school bands. In 1969, the Wellington High School Band was awarded sweepstakes as a result of first division ratings in marching, concert and sight reading.

The following year, Miss Blain became director of bands for Memphis School. In 1971, the Cyclone band won sweepstakes and each year thereafter have taken first division ratings. In 1972, the band took first division in marching and sight reading; in 1973 a first division in concert and sight reading; in 1974 a first division in marching and concert; in 1975, a first division in sight reading at Greater Southwest, and in 1976 a first division in marching and sight reading.

An average of three ensembles have gone to state contest each year and 9 members for all-region contest. The Cyclone

band was Region 1 honor band in 1973 and 6th in the state.

While attending Texas Tech, she was active in Tau Beta Sigma and is one of first women honorary members of Kappa Kappa Psi, honorary fraternity for bandmen. She has also served as national treasurer, vice-president of Tau Beta Sigma, the national honorary sorority for bandswomen. She is now a member of the national board of trustees and serves as the district 6 counselor. She is one of the women to have conducted the national intercollegiate band which plays at the bicentennial meetings of Tau Beta Sigma and Kappa Kappa Psi, brother fraternity.

The home chapter of Beta at Texas Tech recognized Miss Blain as an honorary member as did Psi Chapter of the University of Arkansas, Tau at the University of Houston and Epsilon Tau at Weber State in Utah.

She is a member of American Association of University Women, Music Educators National Conference, Texas State Teachers Association, Texas Band Masters Association, Texas Music Educators Association, Women Band Directors National Association served for four years on the 16 member North American Band Directors co-ordinating council.

In addition to her musical activities, Miss Blain helps coach the Memphis tennis teams, which have won in district and regional competition.

Among the other women nominated for this honor at WTSU was Mrs. Julius W. Walker of Plainview, a former Memphis resident; and Mrs. Tom Draper of Here-

ford, a former teacher in the Collingsworth school.

Culture Club Meets For Program on Religion Wed.

The Woman's Culture Club met April 21 in the home of Mrs. Robert Moss for a regular meeting.

The meeting was called to order by the president, Mrs. Robert Moss. After the business session, the program was introduced by Miss Jackie Culbert using the quotation "Religion... that voice of the deepest human experience" by Matthew Arnold.

The prayer was given by Mrs. Jeanette Irons.

Mrs. Frank Ellis spoke to the club members on the subject, "Religion: Freedom in America." She gave three reasons for America's greatness. These were spiritual, economical, and political. After a discussion of religious freedom in America from the landing of the Pilgrims to the present time, she closed with this statement, "Freedom of religion has been a big factor in the growth of our country."

Members present were Mmes. Jim Lange, Frank Ellis, Jeanette Irons, A. W. Howard, Hester Bownds, Sylvia Lewis, Alvin Pyeatt, Ward Gurley, L. G. Rasco, L. A. Stilwell, Misses Esta McElrath, Jackie Culbert, Sybil Gurley, Alma Bruce and the hostess, Mrs. Robert Moss.

Lakeview Chapter Of FHA Is Named To Who's Who

The Lakeview High School Chapter of the Future Homemakers of America, with their sponsor, Mrs. B. H. Cook, has been named to Who's Who Among American High School Students. This award, one of ten issued for the state of Texas, was given for national recognition and commendation for their high standards of excellence, community leadership and positive performance.

The Lakeview FHA has been very active, with many projects—a walk-a-thon, bake sales, style shows, Faculty parties, and excited and thrilled the ladies of the community with their Secret Granny project. In addition to their local activities, the girls made Raggedy Ann and Raggedy Andy dolls and visited the Lubbock Children's Home to deliver the dolls, with their wardrobes.

The chapter's motto is "Give to the World the Best You Have and the Best Will Come Back to You."

Friendship Through Faith Spans International Borders

"(God) ... hath made of one blood all nations of men for to dwell on all the face of the earth, and hath determined the times before appointed, and the bounds of their habitation."
—Acts 17:26

With the celebration of Canada-United States Goodwill Week, designed to promote better understanding between two countries, we are reminded that there is no finer example in all the world of international trust, respect and harmony than our three thousand miles of unguarded boundary line. No matter which side of the border you live on, you have the heart-warming assurance that your neighbors across the way are friends who wish you well and would help you in any way they could. This is the spirit of peace and brotherhood that is taught by every faith and recurs in many forms throughout the Bible. Learning to love your neighbor is the first lesson you receive when you attend the Church of your choice on the Sabbath.

A list of tentative managers for the Little League teams include: Bill Lockhart and Lanier Foster, Indians; Roy Adams and Tony Beckham of Yankees; Skipper Murdock and Dennis Holt of Tigers, and PeeWee Barnett the Giants.
