

BORDEN COUNTY BOY WINS SCHOLARSHIP

Cody C. Stone was awarded an \$8,000, four-year Houston Livestock Show and Rodeo 4-H scholarship in a special ceremonies at the Texas 4-H Roundup in College Station, Texas.

Cody, son of Carolyn Jerry Stone. joined 4-H in 1981. He in was active the horse and swine jects and served as of the president Borden County Council and as public relations chairman of the District 2 4-H Council. He won first place in the state fashion revue received the Gold Star Award.

In high school, Cody was a leader in FFA, serving as chapter president and district vice president. He was president of the Beta club and vice president of his senior class.

Cody, who plans to major in biochemistry at Texas A&M University, was one of 50 Houston Livestock Show and Rodeo 4-H scholarship winners honored.

The 4-H scholarship recipients were chosen members of the Texas 4-H Youth Development Foundation. The selected students a11 demonstrated excellence and strong leadership skills throughout their high school

careers.

The Show also will award 50 four-year, \$8,000 scholarships at the Texas State FFA Convention on July 11 in Lubbock. All 4-H and FFA recipients must pursue a degree in agriculture or life science at a Texas college or university.

The Show is the world's largest donor of agricultural scholarships, with scholarship funding provided by revenues earned at the annual Houston Live-

stock Show and Rodeo. Since awarding it's first sholarship in the Show has provided more than \$21 million to more than Texas youth pursuing an education. Additionally, the Show committed more than \$1.15 million in educational funds for the upcoming school year.

Included in this commitment are the metropolitan scholarships, to be awarded at the Million Dollar

RETIREMENT PARTY

Everyone is invited to a retirement party honoring

James and Ann McLeroy on

Saturday, June 16th at 7:00

p.m. in the school cafeteria

James and Ann have given many years to our children and to the community. Every-

one is invited to come and wish them well in their retirement

JUDGE ATTENDS INQUEST SEMINAR

Justice of the Peace Carolyn Stone attended a "Inquest Seminar" held in San Angelo, May 22, 1990. the seminar was sponsored by the Texas Justice Court

Scholarship Luncheon on June 21 in Houston; the Area Go Texan scholarships, presented at rodeo performances during the 1990 Show; and, school art scholarships, awarded to recipients selected during this year's school art contest.

CULTURAL PRACTICES BEST CONTROL FOR LAWN WEEDS

Four simple but important steps will do more to provide an attractive, weed-free lawn than an arsenal of weed killing potions.

When weeds invade lawns, many homeowners seekquick solutions through the use of herbicides. Herbicides are only one tool and have only temporary effect on weed control unless other management practices are used.

The best weed control practice is maintaining a dense, actively growing lawn. A well maintained lawn minimizes weed competition and helps prevent establishment of new weeds.

Turfgrass vigor is generally effectd most by four cultural practices: selecting a good grass variety, mowing, nutrition and irrigation.

When choosing a

turfgrass variety, select those with a history of doing well in this ares. Use mixtures and blends, rather than a single species. This helps the turfgrass compete under a wide range of conditions and lowers the chances of weeds invading the lawn.

Proper mowing is often overlooked for maintaining a healthy lawn. Mowing height and frequency should be adjusted depending on the type of grass and time of year.

Cool season grasses, Kentucky such as and fine bluegrass should mowed at one-and-a-half to two inches in the spring and fall, and a two-and-a-half three inches in summer. Higher cutting height in the summer helps inculate the grass crown from high temperatures.

In general, bermudagrass performs best at mowing heights of an inch or less.

Regardless of the type of grass, it is best to not remove more than a third of the leaf area with any mowing.

A properly fertilized lawn may not be weedfree it will be better able to compete with weeds than an undernourished lawn. The most effective way to lawn's determine a fertility needs is to take a soil sample and have it analyzed. Your extension county office can tell you how to take the sample and suggest where to sent it for inexpensive testing.

Kentucky blugrass and fescue lawns should receive the bulk of their fertilizer in April/May and September. A total of five pounds of nitrogen

for 1,000 square feet should be sufficient for most cool season lawns, with a third to a half of the nitrogen applied in the spring and the rest in the fall.

For best results, use a balanced fertilizer that contains fast and slow-release sources of nitrogen, with not more than half being fast-relief. Adding iron will help give the grass a darker green color, and other nutrients should be added if the soil test indicates a need

Bermudagrass should receive between four and six pounds of nitrogen per 1,000 square feet of lawn each year. A split application in May and September is generally best. As with cool season lawns, a mixture of fast and slow release nitrogen is best.

Watering is the final cultural practice that will help a lawn compete with weeds. Irrigating deeply and infrequently is preferred over light, frequent waterings that lead to shallow root systems.

Blugrass and fescue require significantly more water than bermudagrass during the heat of summer. In some cases, up to two inches a week may be needed to maintain a cool season lawn through the summer.

By watering early in the morning, less water is lost to evaporation. Watering at night should be avoided, since it tends to make the grass more susceptible to disease.

BEEF AND CATTLE WORK DAY AND STATE VALIDATION

Validation procedures will be held on Monday, June 18th, 1990 beginning at 8:00 a.m. at the show barn in Gail. We will try and conclude all procedures by 1:00 p.m.

Mike Gilmore, hoof trimmer, will be on hand to assist with hoof trimming.

Validation expense will be held to a minimum.

All steers must be tagged with a state validation tag, nose-printed and pictures taken to be eligible for the Borden County and major show competition.

Deworming, fly tags and 7-way blackleg vaccine will be available at cost.

"STEEL MAGNOLIAS"

Final preparations and rehearsals are being conducted for the Lamesa Community Players of "Steel Magnolias." Season ticket holders can make reservations beginning June 14, and

MOTH INVASION

A large number of moths are now congregating at night around lights in Borden County. These moths are the adults of two or three species of mesquite cutworms. The number of these moths increased rapidly during the past They will be days. in large numbers, then will quickly disappear.

The mesquite cutworm larvae feed on mesquite leaves. They feed at night and remain hidden under the rough bark or at the base of the tree during the day. When full grown larvae are about 14 inches in length. They are black with light-colored to gray parallel lines running the length body.

Most of the foliage may be stripped from mesquite trees that are heavily infested by mesquite cutworms.

Public Notice

TO ALL FORMER AND CURRENT INTRASTATE WIDE AREA

TELECOMMUNICATIONS SERVICE (WATS/800) SUBSCRIBERS: Southwestern Bell Telephone Company has instituted a Class Action Lawsuit seeking judicial approval of a settlement reached in Docket No. 7297, an inquiry of General Counsel of the Public Utility Commission of Texas into possible overcharges which occurred between September, 1976, and February, 1987, due to rounding practices, on bills of intrastate WATS/800 customers sent by Southwestern Bell and other telephone companies which concur in Southwestern Bell's tariff. The suit is styled "Southwestern Bell Telephone Company, Plaintiff, vs. MCI Telecommunications Corporation, A Member of the Class of Texas Intrastate WATS and 800 Service Customers Who Paid Overtime Charges From September 1976 Through February 1987, Defendant, and identified as Cause No. 471,460 in the 126th Judicial District Court of Travis County, Texas.

Pursuant to the settlement, while not admitting liability, Southwestern Bell, the other local exchange telephone companies in Texas, and AT&T Communications of the Southwest, Inc. have agreed to pay refunds to those WATS/800 customers who paid overtime charges attributable to the rounding practices for intrastate WATS/800 services at any time between September, 1976, and February, 1987. The refunds will be based upon either the actual or estimated amount of overtime charges attributable to such rounding practices. An exact refund will be determined for customers able to produce copies of their WATS/800 service bills. For customers who do not have copies of their WATS/800 service bills to establish actual overtime charges paid, an average refund of \$4.53 to \$5.95 per WATS/800 service line per month will be applied. All claims will be subject to verification. The refunds will also include interest at the rate of 7.80% per annum.

Claim Forms And Additional Information

Those customers who think they may be entitled to a refund or who desire more information must call 1-800-782-3026, 8:30 a.m.-4:30 p.m., Monday through Friday, or write to WATS Refund Pool Administrator, One Bell Plaza, Room 670, P. O. Box 650376, Dallas, Texas 75265-0376, to request a WATS Refund Information Package.
The WATS Refund Information Package will contain further information regarding the lawsuit and eligibility for a refund, a description of documentation required to support a customer's claim for refund, and a refund claim form to be filled out and submitted requesting a refund. REQUESTING A WATS REFUND INFORMATION PACKAGE DOES NOT OBLIGATE YOU IN ANY WAY.

All claims for a refund must be received by the Refund Pool Administrator by Friday, October 5, 1990, and all rejections of the settlement (that is, requests for exclusion from the class action lawsuit) must be received by the Court by Wednesday, September 5, 1990. Only those who respond by filing a claim or by filing a rejection of the settlement, as explained in the WATS Refund Information Package, will receive notice of future developments in this proceeding.

Persons who wish to obtain further information may also contact the Public Utility Commission, Public Information Division, at (512) 458-0257 or (512) 458-1221, teletypewriter for the deaf.
