## PARKING PROBLEMS ?

During the past week, two of our CAVALRYMAN readers called the CAVALRYMAN office with complaints on the enforcement or lack of enforcement regarding City Ordinances (regarding junk cars and other nuisance property illegally parked or abandoned in some cases parked facing the wrong direction.

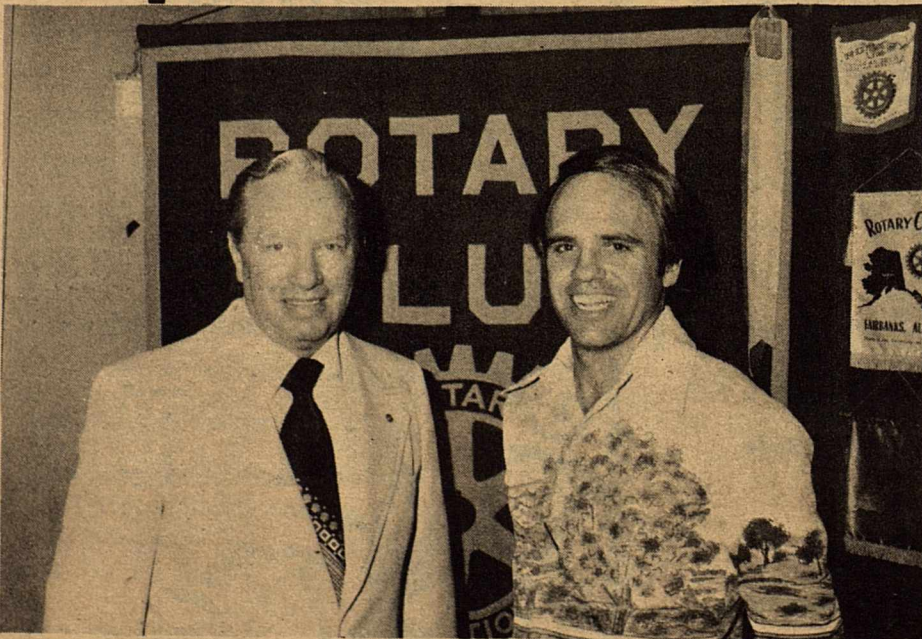

The first caller complained "That an illegally parked in-operative cars blocked his vision, which caused an accident."

The second caller complained that he had received a ticket for parking in the wrong direction on Spring Street yet, other cars had been parked in the same matter on the same street for months.

The CAVALRYMAN contacted City Hall and was assured that all these Ordinances concerning parking, abandoned vehicles, will be enforced immediately.

The City published these Ordinances warning citizens in the June 28th issue of the CAVALRYMAN and they have had ample time to remove such. " If they do not comply the City will sell these obstructions at auction," stated City Secretary Roland Williams.

CITY HALL

A meeting was held at City Hall Wednesday evening, to discuss regulation of traffic and parking during football games. During the few years this has presented congestion problems in the football field area.

Among those attending were John Sheedy, County Sheriff; Chief-of-Police, Johnny Fritter; City Sec., Roland Williams and members of the City Staff and School. The purpose of this meeting was to make recommendations to the City Council on parking and traffic control at the games.

Chamber of Commerce

The directors of the Brackettville Chamber of Commerce met on August 5th, at Noon, at Fort Clark with the following directors present: Tully Shahan; Jean Seargeant; Alfred Pena; Charles Koch; Rich Adams; Richard Olvera; Miss Charles Wilson; and President Travis Wilson.

Up coming projects were discussed: Donkey Ball Game- the price of admission will be \$1.50 for adults and \$.75 for students. Dance with proceeds going to the Clinic will be on August 29th. Also plans were made for another New Year's Eve Dance. A committee of Tully Shahan, Alfred Pena, Richard Olvera, and Travis Wilson will be visiting different business establishments to obtain information on each for a Business Directory to be given away by each business.

Each director was asked to help in getting pledges to donate blood at the Civic Center, August 11, 1975.

## COMMENTS from The SAGEBRUSH

August is "survial" month for flowers, plants and lawns. The heat makes it hard to maintain a good show with these. The season is up for insects and fungus on almost everything. If your flowers leaves turn gray or there are fine thick webs on them you will soon lose them if you do not treat them with insecticides. If leaves turn gray and seem to be drying up these need treatment for fungus. There are many things you can use. Just go by the instructions on the label.

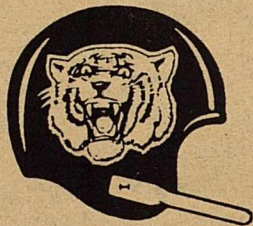

One of the best all around things to use is wetttable dusting sulfurs. Either dust it on or mix with water and spray.

\*\*\*\*\*

To keep your lawn going good--- it should be fed with any good lawn fertilizer. Most soil in this area is iron deficient so a fertilizer containing iron will keep the lawns healthy and green ----if you water the lawn as needed. Always water the lawn heavily then wait a while before watering again. Better still pray for rain it's better than hydrant water--and cheaper.

That all for this week, talk with you next week.

## TIGER BOOSTERS

The Brackett Tiger Booster Club met on August 4th at the Kinney County Court House at 7:30 p.m.

Election of officers was held with the following being elected: President, Charles Kock; Vice-Pres. Roy Lane Dyer; Secretary Treasurer, Emma Slaughter.

Buses have been chartered for the first two football games. South Side San Antonio, September 5, seats will be \$7.00 each. The bus to Sanderson, September 12, seats will be \$8.00 each. Anyone wishing to ride either or both of these buses are asked to call Emma at

Discussion on raising money to pay for insurance for the football players: A Bar-B-Q will be held at Fort Clark, by the swimming pool on August 22, at 7:30 p.m. Donations will be taken for each plate served. Everyone is invited to attend and donate toward the purchasing of the insurance.

Several projects for the coming year were discussed. Dr. Young ask that one of the projects be a Scoop Stretcher which will be taken to all football games.

A motion to this effect was made by Marcus Tidwell and seconded by Lynn Frerich-Passed. Membership drive is underway. Membership dues are: Single-\$3.00; Couple \$5.00; Business-\$10.00; and Life Membership is \$100.00.

Plaques will be given to Business Memberships and Life Members.

Next meeting will be August 25th.

Goats for the Insurance, Bar-B-Q will be donated by various ranchers.

Membership committee is:

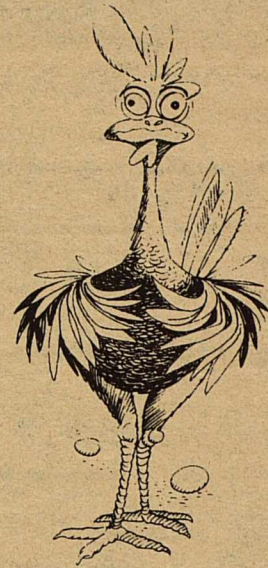

Marcus Tidwell; Judy Burks; Sheri Foster; Lynn Frerich; and Emma Slaughter.

## BLOOD DRIVE

Brackettville Chamber of Commerce is sponsoring their fourth blood drive at the Brackett Civic Center on August 11th, from 12 Noon til 7:00 p.m.

When you become a Community Donor Blood Services will take responsibility for blood center charges which you or members of your immediate family (spouse and unmarried dependent children under 19 years of age or 23 years, if also a full-time student.) may incur within the 12 month period following your donations. Unfortunately this does not cover transfusions related to the treatment of hemophilia.

when it  
comes  
to giving  
blood...

I'M AN ABSOLUTE CHICKEN.

### O.K. LET'S FACE IT.

Most people ARE scared about giving blood. That's mostly why only 3 persons in 100 actually give blood.

### BUT IT ISN'T THAT BIG A THING!

The only discomfort, really, is that first poke of the needle . . . and that's no big thing!

It doesn't hurt once it's in. Usually, you aren't even aware it's there.

### WHAT'S THE HANG-UP?

It's just like going to your dentist. You hate the idea, you worry about pain, how the drilling will hurt, etc., but you go anyway and it's never really as bad as you thought it would be.

Best thing is not to think about it or to be afraid of it, not to get all tensed up and worried. If you HAVE to think about it, remember that you give blood to make a gift of life to your fellow man . . . and very possibly to yourself or members of your family.

Isn't giving a pint of blood a small price to pay for that kind of satisfaction?

### HERE'S HOW IT'S DONE

If you're a donor with other employees of your company, you get to lie down on the job!

That's right. We will set up in a convenient spot on the company premises where you lie down on a cot.

In about 30 minutes it's all over. There's no sensation or feeling while you're giving blood. Then you rest for a few minutes, have some refreshments and you're up and back to work. You might even feel BETTER, more relaxed. That often happens.

The only time people might feel a little faint is when they haven't eaten anything all day or had enough sleep the night before and their body isn't READY to give blood.

### O.K.? THEN HERE'S THE PITCH

If you're scared, you can be honest about it because lots of folks are. But there's nothing to be afraid of, really. Giving blood is a quick, simple process.

### HERE'S A VERY IMPORTANT POINT

If you especially, and everyone else who can, will be a donor regularly, giving to the community, no one in our community need ever be without life-saving blood. That's our goal. We hope you'll make it yours, too.

### HOW MUCH BLOOD IS TAKEN?

Just a pint.

### ISN'T A PINT A LOT TO GIVE?

Not really because the average person has 12 to 13 pints and the one isn't missed. The body replaces the blood quickly.

### HOW OFTEN COULD A PERSON GIVE BLOOD?

You COULD give every two months if you wanted to but if everybody gave only twice a year, your community blood center wouldn't be faced with their emergency worries.

### CAN ANYONE GIVE BLOOD?

Not everyone, but most healthy people between 17 and 66 can.

### FOR THE PROTECTION OF THE DONOR & RECIPIENT, DONORS CANNOT BE ACCEPTED UNDER THE FOLLOWING CONDITIONS:

#### IF YOU HAVE EVER HAD

hepatitis - jaundice  cancer, other than skin

#### IS ALL BLOOD THE SAME?

No. There are four main types - O, A, B and AB, either positive or negative. O+ is the most common, AB- the rarest.

#### DOES THE BLOOD BANK REALLY "BANK" QUANTITIES OF BLOOD, KEEPING A SUPPLY FOR 6 MONTHS, A YEAR, OR LONGER?

No. Whole blood can only be kept for 21 days! That's the big problem . . . having enough donors on a regular basis to maintain an adequate supply.

Donating after an emergency doesn't guarantee anything because it takes time to process the blood.

It's normal to be scared at first, but look at it this way: If you needed blood to live, would you understand if no one gave for you?

MONDAY, AUGUST 11TH  
12 NOON TIL 7:00p.m. AT THE  
CIVIC CENTER

## Between Us

by: JOE TOWNSEND

A customer called, some rose bushes had been stripped---not a leaf remained. I checked it out and found ants were the culprits

I noticed the humming birds were upset when they came to feed. I checked it out and found little ants had taken over the feeder.

I was standing in a flower garden and felt a sharp sting on my ankle. I checked it out and found a big red ant.

Ants can be so damaging and disturbing and painful. However, I never watch "cutting ants" work that I'm not absolutely amazed. They cut chunks of leaves larger than themselves and carry them long distances. It is unbelievable what tremendous loads these ants carry. They may fall on a rut or dirt but singly right themselves and more on-seldom losing hold on the load. They may fall and come up facing the wrong direction but soon set themselves aright and head for home. For their size the loads they carry and the distance they travel are nothing short of amazing. It is also amazing how the tiny ants come up through asphalt find a bird feeder hanging high, climb a post and travel upside down a good number of feet and speedily return to their hole.

Watching the ant tirelessly working, earning all of his own way, dependent only upon himself and what God gives, we realize the wisdom of God saying, "Go to the Ant, thou sluggard, learn of his ways and be wise."

SOME THOUGHTS

FROM  
**SMOKEY  
JOE**

ELIMINATION

The Romans wanted to rule the earth. They wanted to dominate all creation. The Emperor shouting from his lofty berth. Tried it by the process of elimination

Napoleon set out the world to conquer By sending his foes into extermination To his enemies he was their murderer. He was using the process of elimination.

Hitler wanted his to be the master race. The one and only dominating nation. He tried to force on all his ghoulish embrace. By applying the process of elimination

It seems all those eliminators failed In their merciless deeds of elimination.

In disgrace after right has prevailed. They were eliminated in retaliation.

**Soil Conservation**

by: Howard Ragsdale

Senator George McGovern will make the keynote address at the 30th Annual meeting of the Soil Conservation Society of America in San Antonio, on Monday, August 11.

Theme of the meeting, which runs from August 10-13 will be "Land Use: Food and Living."

The Senator is a long-time friend of the conservation interests and served as a special assistant to President John Kennedy and director of the food for peace program prior to his election to the Senate in 1962.

Other speakers during Monday's opening session include Mrs. Francine I. Neff, Treasurer of the United States; San Antonio Mayor Lila Cockrell; and Ms. Peggy Toben, San Antonio Conservation Society. Program Chairman Edward E. Thomas, state conservationist for the USDA Soil Conservation Service in Temple will preside.

More than a thousand professional conservationists from the United States, Canada, and Mexico are expected to attend the four-day meeting, which begins Sunday, August 10, with registration and a reception.

The Society is a non-profit scientific and educational organization dedicated to advancing the Science and Art of Good Land Use. It has about 14,000 members throughout the world.

Official hosts for the San Antonio meeting are the members of the Society's Texas Council of Chapters.

Speakers at Tuesday's general session include: Dr. A.H. Hannah, Assistant Deputy Minister, Department of Agriculture, Ottawa, Ontario, CANADA; Dr. Gerald Thomas, President New Mexico State University, Las Cruces; and Mel Davis, administrator, Soil Conservation Service, Washington, D.C.

At the general session on Wednesday, August 13, speakers will include Dr. Anson Bertrand, Dean of Agricultural Science, Texas Tech University, Lubbock, John White, regional administrator, Environmental Protection Agency, Dallas; and Dr. Kieth Arnold, director, Division of Natural Resources and Environment University of Texas, Austin.

Other speakers at a series of 10 concurrent technical sessions will consider the land use implications of meeting domestic and foreign foods demand. They will also discuss the impacts expanded agricultural production will have on the nation's soil, water, and other natural resources.
